

TABLE XVIII.

TABLE XVIII. *MAXIMUM TOTALS.*

THIS Table is interesting as showing the extreme upward limit which the various items in the Bank's Account have hitherto reached.

None of the dates of these totals are very recent, the majority having fallen during the year 1879.

The total of the NOTES WITH THE PUBLIC here given is the maximum that has occurred since the passing of the Bank Act of 1844; but it was nearly reached in 1814, during the suspension of Cash Payments, when the total circulation, including £11,752,000 of £1 and £2 Notes, was £31,466,000.
