

TABLE XXI.

TABLE XXI. *FLUCTUATIONS during each Month in the DAILY AVERAGE
PRICE of CONSOLS.*

THIS Table exhibits the marked and frequent fluctuations occurring during each month in the average price of Consols, as certified daily to the Bank, since 1875.

The changes are so numerous, and the events to which they may be attributed of so varied a character, that any explanation cannot here be attempted; but mention should not be omitted of what is probably the most noteworthy influence during the period over which the Table extends—the successful Conversion, from 3 to $2\frac{3}{4}$ per cent., of 1888.

FLUCTUATIONS during each MONTH in the DAILY AVERAGE PRICE of CONSOLS.
