  - (d) in response to a request to the *FSA* by the *manager* or the *trustee* for the revocation of the *authorisation order*, the *FSA* has agreed, subject to there being no material change in any relevant factor, that, on the conclusion of the winding up of the *AUT*, the *FSA* will agree to that request;
  - (e) the expiration of any period specified in the *trust deed* as the period at the end of which the *AUT* is to be wound up

- or the *sub-fund* is to terminate;
  - (f) the effective date of a duly approved *scheme of arrangement*, which is to result in the *AUT* or *sub-fund* that is subject to the *scheme of arrangement* being left with no property; or
  - (g) the date on which a *relevant pension scheme* is notified in writing by the Occupational Pensions Schemes Regulatory Authority that the *scheme* is no longer registered under the Welfare and Pensions Reform Act 1999 as a *stakeholder pension scheme*.
- (3) This *rule* is without prejudice to *COLL 7.2.1R* (Requirement) and to any order or direction made under section 257 or 258 of the *Act*.

**Manner of winding up or termination**

- 7.4.4 R (1) Where *COLL 7.4.3R* (2)(f) applies, the *trustee* must wind up the *AUT* or terminate the *sub-fund* in accordance with the approved *scheme of arrangement*.
- (2) In any other case falling within *COLL 7.4.3R*:
- (a) once the *AUT* falls to be wound up or *sub-fund* terminated, the *trustee* must realise the *scheme property*;
  - (b) after paying out or retaining adequate provision for all liabilities payable and for the costs of the winding up or termination, the *trustee* must distribute the proceeds of that realisation to the *unitholders* and the *manager* proportionately to their respective interests in the *AUT* or *sub-fund* as at the date, or the date of the relevant event referred to in *COLL 7.4.3R*; and
  - (c) any unclaimed net proceeds or other cash (including unclaimed distribution payments) held by the *trustee* after one year from the date on which they became payable must be paid by the *trustee* into court (or, in Scotland, as the court may direct), subject to the *trustee* having a right to retain any expenses properly incurred by him relating

to that payment.

- (3) For an *AUT* which is a *relevant pension scheme*, payments must not be made to *unitholders* in the *AUT*, the realisation proceeds having to be paid by the *trustee* in accordance with the *trust deed*.
- (4) Where the *trustee* and one or more *unitholders* agree, the requirement in (2) to realise the *scheme property* does not apply to that part of the property proportionate to the entitlement of that or those *unitholders*.
- (5) The *trustee* may distribute the part of the *scheme property* referred to in (4) in the form of property, after making adjustments or retaining provisions as appears appropriate to the *trustee* for ensuring that, that or those *unitholders* bear a proportional share of the liabilities and costs.
- (6) On completion of the winding up in respect of the events referred to in *COLL 7.4.3R* (2)(c), (d) or (e), the *trustee* must notify the *FSA* in writing and at the same time the *manager* or *trustee* must request the *FSA* to revoke the relevant *authorisation order*.

#### **Accounting and reports during winding up or termination**

- 7.4.5 R (1) For any *annual* or *half-yearly accounting period* which began after commencement of the winding up or termination, the *trustee* (after consulting the *manager* (if appropriate) and the *FSA*) may direct that *COLL 4.5.13R* (Provision of short report) may be dispensed with, provided that it has taken reasonable care to determine that the report is not required in the interests of the *unitholders*.
- (2) Where (1) applies, a copy of the short and long report must be supplied free of charge to any *unitholder* upon request.
  - (3) The period in question in (2) must be reported on together with the following period in the next report prepared for the purposes of this *rule*.
  - (4) At the conclusion of the winding up or termination, the

accounting period then running is regarded as the final *annual accounting period*.

- (5) Within two *months* after the end of the final *annual accounting period* or the termination of the *sub-fund*, the annual reports of the *manager* and *trustee* must be published and sent to the *FSA* and to each *person* who was a *unitholder* or the first named of joint *unitholders* immediately before its end.

## 7.5 Schemes or sub-funds that are not commercially viable

### Explanation of this section

- 7.5.1 G (1) The *FSA* expects that the majority of requests it will receive for the winding up of an *authorised fund* (under regulation 21(1) of the *OEIC Regulations* or under section 256 of the *Act*) or termination of a *sub-fund* will be from *authorised fund managers* and *depositories* who consider that the *AUT*, *ICVC* or *sub-fund* in question is no longer commercially viable.
- (2) It is in *consumers'* interests to minimise, as far as possible, the period between which the *FSA* receives such requests and responds to them. To assist the *FSA* in arriving at a quick decision, based on all the relevant factors, it would be helpful for the *FSA* to receive the information listed at *COLL 7.5.2G*. Further information, however, may be requested by the *FSA* after receipt of the information, depending on the individual circumstances of the case.

### Information to be provided to the FSA

- 7.5.2 G The information referred to in *COLL 7.5.1G* is listed below:
- (1) the name of the *authorised fund* or *sub-fund*;
  - (2) the size of the *authorised fund* or *sub-fund*;
  - (3) the number of *unitholders*;
  - (4) whether dealing in *units* has been suspended;
  - (5) why the request is being made;
  - (6) what consideration has been given to the *authorised fund* or *sub-fund* entering into a *scheme of arrangement* with another *regulated collective investment scheme* and the reasons why a *scheme of arrangement* is not feasible;
  - (7)
    - (a) whether *unitholders* have been informed of the intention to seek termination, winding up or revocation; and
    - (b) if not, when they will be informed;
  - (8) details of any proposed preferential switching rights offered or to be offered to *unitholders*;
  - (9) details of any proposed rebate of charges to be made to

- unitholders* who recently purchased *units*;
- (10) where the costs of winding up or termination will fall;
  - (11) the *depository's*:
    - (a) statement whether having taken reasonable care it is certain that a *scheme of arrangement* is not feasible and explaining what steps have been considered that would result in the *authorised fund* or *sub-fund* not needing to wind up or terminate (for example, appointing a replacement *authorised fund manager*); and
    - (b) confirmation that it will not or does not expect to qualify a report made in accordance with *COLL 4.5.11R* (Report of the depository);
  - (12) the preferred date for the *FSA's* determination to revoke authorisation or the date for the commencement of the winding up or termination; and
  - (13) any additional information or material considered to be relevant to the *FSA's* decision under sections 251 and 256 of the *Act* or regulation 21 of the *OEIC Regulations* (as appropriate).

## 7.6 Schemes of arrangement

### Schemes of arrangement: explanation

- 7.6.1 G (1) A proposal that an *authorised fund* should be involved in a *scheme of arrangement* is subject to written notice to and approval by the *FSA* under section 251 of the *Act* (Alteration of schemes and changes of manager or trustee) or regulation 21 of the *OEIC Regulations* (The Authority's approval for certain changes in respect of a company). Effect cannot be given to such a change except in accordance with that section or regulation.
- (2) The *issue* of *units* in exchange for assets as part of an approved *scheme of arrangement* is subject to:
- (a) *COLL 6.2.5R* and *COLL 6.2.6R* (Issue and cancellation of units);
  - (b) *COLL 6.2.15R* (In specie issue and redemption); and
  - (c) *COLL 7.6.2R* (Scheme of arrangement: requirements).

### Schemes of arrangement: requirements

- 7.6.2 R (1) If a *scheme of arrangement* is entered into in relation to an *authorised fund* ("transferor fund") or a *sub-fund* of a *scheme* which is an *umbrella* ("transferor *sub-fund*"), an *authorised fund manager* must ensure that the *unitholders* of the transferor fund or *sub-fund* do not become *unitholders* of *units* in a *collective investment scheme* other than a *regulated collective investment scheme*.
- (2) For a *UCITS scheme* or a *sub-fund* of a *UCITS scheme*, (1) applies as if the reference to a *regulated collective investment scheme* also excludes any *recognised scheme* other than a *scheme* recognised under section 264 of the *Act* (Schemes constituted in other EEA States).
- (3) Where, for the purpose of a *scheme of arrangement*, it is proposed that *scheme property* of an *authorised fund* should become the property of another *regulated collective investment scheme* or *sub-fund* of a *regulated collective investment*

*scheme*, the proposal must not be implemented without the sanction of an *extraordinary resolution* of the *unitholders* in the *authorised fund*, unless (4) applies.

- (4) Where, for the purposes of a *scheme of arrangement*, it is proposed that *scheme property* attributable to a *sub-fund* of an *umbrella* should become the property of another *regulated collective investment scheme* or of another *sub-fund* of a *regulated collective investment scheme* (whether or not of that *umbrella*), the proposal must not be implemented without the sanction of:
  - (a) an *extraordinary resolution* of the *unitholders* in the *sub-fund* of that *umbrella*; and
  - (b) (unless implementation of the *scheme of arrangement* is not likely to result in any material prejudice to the interests of the *unitholders* in any other *sub-fund* of that *umbrella*) an *extraordinary resolution* of the *unitholders* of *units* in that *umbrella*.
- (5) If it is proposed that an *authorised fund* or *sub-fund* of an *umbrella* should receive property (other than its first property) as a result of a *scheme of arrangement* (or an arrangement equivalent to a *scheme of arrangement*) which is entered into by some other *collective investment scheme* or *sub-fund*, or by a *body corporate*, the proposal must not be implemented without the sanction of an *extraordinary resolution* of the *unitholders* in the *authorised fund* or (as the case may be) of the *class* or *classes* of *units* related to the *sub-fund* unless (6) applies.
- (6) This paragraph (6) applies if the *directors* of the *ICVC* or the *manager* and *trustee* of the *AUT* agree that the receipt of the property concerned for the account of the *ICVC* or *AUT*:
  - (a) is not likely to result in any material prejudice to the interests of the *unitholders* of the *authorised fund*;
  - (b) is consistent with the objectives of the *authorised fund* or *sub-fund*; and

- (c) could be effected without any breach of a *rule* in *COLL 5*  
(Investment and borrowing powers).

## 8 Qualified investor schemes

### 8.1 Introduction

#### Application

8.1.1 R (1) This chapter applies to:

- (a) an *authorised fund manager* of an *AUT* or an *ICVC*;
- (b) any other *director* of an *ICVC*;
- (c) a *depository* of an *AUT* or an *ICVC*; and
- (d) an *ICVC*,

which is a *qualified investor scheme*.

- (2) Where this chapter refers to *rules* in any other chapter of this sourcebook, those *rules* and any relevant *guidance* should be applied as if they referred to *qualified investor schemes*.

#### Purpose

8.1.2 G (1) This chapter assists in achieving the *regulatory objective* of protecting *consumers* by providing an appropriate degree of protection in respect of *authorised funds* that are only intended for investors that are, in general, prepared to accept a higher degree of risk in their investments or have a higher degree of experience and expertise than investors in *retail schemes*.

- (2) This section ceases to apply where a *qualified investor scheme* has converted to be authorised as a *UCITS scheme* or a *non-UCITS retail scheme*.

#### Qualified investor schemes: eligible investors

8.1.3 R (1) The *authorised fund manager* of a *qualified investor scheme* must take reasonable care to ensure that ownership of *units* in that *scheme* is only recorded in the *register* for the categories of *person* to whom it can be promoted under *COB 3 ANN5* (Permitted promotion of unregulated collective investment schemes and qualified investor schemes).

- (2) The *authorised fund manager* will be regarded as complying with (1) to the extent that it can show that it was reasonable for it to rely on relevant information provided by another *person*.

#### Qualified investor schemes – explanation

- 8.1.4 G (1) *Qualified investor schemes* are *authorised funds* which may only be sold or marketed to sophisticated investors. Therefore, the *authorised fund manager* must take reasonable care to ensure that subscription in relation to the *units* of this type of *scheme* should only be in relation to the *client* types set out in COB 3 ANN5. COB 3.11.6R (Promotion of qualified investor schemes) also restricts promotion of *qualified investor schemes* to the categories of *person* set out in COB 3 ANN5.
- (2) Accordingly, *qualified investor schemes* have a more relaxed set of *rules* governing their operation and in particular their investment powers than for retail *schemes*. A *qualified investor scheme* is essentially a mixed asset type of *scheme* where different types of permitted asset may be included as part of the *scheme property*, depending on the investment objectives and policy of that *scheme* and within any restrictions in the *rules*.

#### **Application and notification procedures**

- 8.1.5 G Details of the application procedures in respect of *qualified investor schemes* are contained in COLL 2.1 (Authorised fund applications). COLLG provides details on how notifications may be made to the FSA.

## 8.2 Constitution

### Application

- 8.2.1 R This section applies to an *authorised fund manager* in respect of a *qualified investor scheme*.

### Classes of unit

- 8.2.2 R A *qualified investor scheme* may issue such *classes of unit* as are set out in the *instrument constituting the scheme*, provided the rights of any *class* are not unfairly prejudicial as against the interests of the *unitholders* of any other *class of units* in that *scheme*.

### Names of schemes, sub-funds, and classes of units

- 8.2.3 R The *authorised fund manager* must ensure that the name of the *scheme*, a *sub-fund* or a *class of unit* is not undesirable or misleading.

### Undesirable and misleading names

- 8.2.4 G *COLL 6.9.6G* (Undesirable or misleading names) contains *guidance* as to names which may be undesirable or misleading.

### Instrument constituting the scheme

- 8.2.5 R The statements and provisions required by *COLL 8.2.6R* must be included in the *instrument constituting the scheme* of a *qualified investor scheme*.

### Table: contents of the instrument constituting the scheme.

- 8.2.6 R This table belongs to *COLL 8.2.5R*.

#### 1 Description of the authorised fund

Information detailing:

- (1) the name of the *authorised fund*;
- (2) that the *authorised fund* is a *qualified investor scheme*; and
- (3) in the case of an *ICVC*, whether the head office of the *company* is situated in England and Wales or Wales or Scotland or Northern Ireland.

#### 2 Constitution

The following statements:

- (1) the *scheme property* of the *scheme* is entrusted to a *depository* for safekeeping (subject to any exception permitted by the *rules*);

- (2) if relevant, the duration of the *scheme* is limited and, if so, for how long;
- (3) charges and expenses of the *scheme* may be taken out of *scheme property*;
- (4) for an *ICVC*:
  - (a) what the maximum and minimum sizes of the *scheme's* capital are; and
  - (b) the *unitholders* are not liable for the debts of the *company*; and
- (5) for an *AUT*:
  - (a) the *trust deed*:
    - (i) is made under and governed by the law of England and Wales, or the law of Scotland or the law of Northern Ireland;
    - (ii) is binding on each *unitholder* as if he had been a party to it and that he is bound by its provisions; and
    - (iii) authorises and requires the *trustee* and the *manager* to do the things required or permitted of them by its terms;
  - (b) subject to the provisions of the *trust deed* and all the *rules* made under section 247 of the *Act* (Trust scheme rules):
    - (i) the *scheme property* (other than sums held to the credit of the distribution account) is held by the *trustee* on trust for the *unitholders* according to the number of *units* held by each *unitholder* or, where relevant, according to the number of individual shares in the *scheme property* represented by the *units* held by each *unitholder*; and
    - (ii) the sums standing to the credit of any *distribution account* are held by the *trustee* on trust to distribute or apply in accordance with *COLL 8.5.15R*(Income);
  - (c) a *unitholder* is not liable to make any further payment after he has paid the *price* of his *units* and that no further liability can be imposed on him in respect of the *units* he holds; and
  - (d) payments to the *trustee* by way of *remuneration* are authorised to be paid (in whole or in part) out of the *scheme property*.

### 3 **Investment objectives**

A statement of the object of the *scheme*, in particular the types of *investments* and assets in which it and each *sub-fund* (where applicable) may invest and that the object of the *scheme* is to invest in property of that kind with the aim of spreading investment risk.

### 4 **Units in the scheme**

A statement of:

- (1) the *classes* of *units* which the *scheme* may issue, indicating, for a *scheme* which is an *umbrella*, which *class* or *classes* may be issued in respect of each *sub-fund*; and
- (2) the rights attaching to *units* of each *class* (including any provisions for the expression in two denominations of such rights).

### 5 **Limitation on issue of and redemption of units**

Details as to:

- (1) the provisions relating to any restrictions on the right to redeem *units* in any *class*; and
- (2) the circumstances in which the issue of the *units* of any particular *class* may be limited.

### 6 **Income and distribution**

Details of the *person* responsible for the calculation, transfer, allocation and distribution of income for any *class* of *unit* in *issue* during the accounting period.

### 7 **Base currency**

A statement of the *base currency* of the *scheme*.

### 8 **Meetings**

Details of the procedures for the convening of meetings and the procedures relating to resolutions, voting and the voting rights for *unitholders*.

### 9 **Powers and duties of the authorised fund manager and depositary**

Where relevant, details of any function to be undertaken by the *authorised fund manager* and *depository* which the *rules* in *COLL* require to be stated in the *instrument constituting the scheme*.

#### 10 **Termination and suspension**

Details of:

- (1) the grounds under which the *authorised fund manager* may initiate a suspension of the *scheme* and any associated procedures; and
- (2) the methodology for determining the rights of *unitholders* to participate in the *scheme property* on winding up.

#### 11 **Other relevant matters**

Details of those matters which enable the *scheme*, *authorised fund manager* or *depository* to obtain any privilege or power conferred by the *rules* in *COLL* which is not otherwise provided for in the *instrument constituting the scheme*.

#### **Limited issue**

- 8.2.7 *Units* whose *issue* may be limited can only be issued if permitted by the *instrument*
- R *constituting the scheme*, under the conditions set out in the *prospectus* and provided that this will not materially prejudice any existing *unitholders* in the *scheme*.

### 8.3 Investor relations

#### Application

- 8.3.1 R This section applies to an *ICVC* which is a *qualified investor scheme* and the *authorised fund manager* of a *qualified investor scheme*.

#### Drawing up and availability of prospectus

- 8.3.2 R (1) An *authorised fund manager* must ensure that a *prospectus* of a *qualified investor scheme* is drawn up which contains the information, specified in *COLL 8.3.4R* (Table: contents of qualified investor scheme prospectus), and the *authorised fund manager* must:
- (a) revise the *prospectus* immediately upon the occurrence of any materially significant change in the information required to be stated within it;
  - (b) include the date of any revision in a prominent manner in the revised *prospectus*, and
  - (c) send a copy of the original and any revised *prospectus* to the *FSA*.
- (2) The *prospectus* must not contain any provision which is unfairly prejudicial to the interests of *unitholders* generally or to the *unitholders* of any *class* of *units*.
- (3) An *ICVC* or the *manager* of an *AUT* must offer a copy of the *scheme's* most recent *prospectus* free of charge to any *person* eligible to invest in a *qualified investor scheme* prior to the purchase of any *units*.

#### False or misleading prospectus

- 8.3.3 R The *authorised fund manager* must ensure that the *prospectus* does not contain any untrue or misleading statement or omit any matter required by the *rules* in this sourcebook to be included in it.

#### Table: contents of qualified investor scheme prospectus

- 8.3.4 R This table belongs to *COLL 8.3.2R*.

##### 1 Document status

A statement that this document is the *prospectus* of the *authorised fund* valid as at a particular date which shall be the date of the *document*.

##### 2 Description of the authorised fund

Information detailing:

- (1) the name of the *authorised fund*;
- (2) that the *authorised fund* is either an *ICVC* or an *AUT*;

- (3) that the *scheme* is a *qualified investor scheme*;
- (4) where relevant, that the *unitholders* in an *ICVC* are not liable for the debts of the *authorised fund*;
- (5) where relevant, the address of the *ICVC's* head office and the address in the *United Kingdom* for service on the *ICVC* of documents required or authorised to be served on it;
- (6) the effective date of the *authorisation order* made by the *FSA* and, if the duration of the *authorised fund* is not unlimited, when it will or may terminate;
- (7) the *base currency* for the *authorised fund*;
- (8) where relevant, the maximum and minimum sizes of the *ICVC's* capital; and
- (9) the circumstances in which the *authorised fund* may be wound up under the *rules* in *COLL* and a summary of the procedure for, and the rights of *unitholders* under, such a winding up.

### 3 **Investment objectives and policy**

- (1) Sufficient information to enable a *unitholder* to ascertain:
  - (a) the investment objectives of the *authorised fund*;
  - (b) the *authorised fund's* investment policy for achieving those investment objectives, including:
    - (i) the general nature of the portfolio and any intended specialisation;
    - (ii) the policy for the spreading of risk in the *scheme property*; and
    - (iii) the policy in relation to the exercise of borrowing powers;
  - (c) a description of any restrictions in the assets in which investment may be made; and
  - (d) the extent (if any) to which that investment policy does not envisage remaining fully invested at all times.
- (2) For investment in immovables :
  - (a) the countries or territories of immovables in which the *authorised fund* may invest;
  - (b) the policy of the *authorised fund manager* in relation to insurance of immovables forming part of the *scheme property*; and

(c) the policy of the *authorised fund manager* in relation to the granting of options over immovables in the *scheme property* and the purchase of options on immovables.

(3) If intended, whether the *scheme property* may consist of *units* in *collective investment schemes* ("second *schemes*") which are managed by or operated by the *authorised fund manager* or by one of its *associates* and a statement as:

(a) to the basis of the maximum amount of the charges in respect of transactions in a second *scheme*; and

(b) the extent to which any such charges will be reimbursed to the *scheme*.

(4) If intended, whether the *scheme* may enter into *stock lending* transactions and, if so, what procedures will operate and what *collateral* will be required.

#### 4 **Distributions and accounting dates**

Relevant details of accounting and distribution dates and a description of the procedures:

(1) for determining and applying income (including how any distributable income is paid); and

(2) relating to unclaimed distributions.

#### 5 **The characteristics of units in the authorised fund**

Information as to:

(1) the names of the *classes* of *units* in issue or available for *issue* and the rights attached to them in so far as they vary from the rights attached to other *classes*;

(2) how *unitholders* may exercise their voting rights and what these are; and

(3) the circumstances where a mandatory *redemption*, *cancellation* or conversion of *units* from one *class* to another may be required.

#### 6 **The authorised fund manager**

The following particulars of the *authorised fund manager*:

(1) its name and the nature of its corporate form;

(2) the country or territory of its incorporation;

(3) the date of its incorporation and if the duration of its corporate status is limited, when that status will or may cease;

- (4) if it is a *subsidiary*, the name of its ultimate *holding company* and the country or territory in which that *holding company* is incorporated;
- (5) the address of its registered office, its head office, and, if different, the address of its principal place of business in the *United Kingdom*;
- (6) the amount of its issued share capital and how much of it is paid up;
- (7) for an *ICVC*, a summary of the material provisions of the contract between the *ICVC* and the *authorised fund manager* which may be relevant to *unitholders* including provisions (if any) relating to termination, compensation on termination and indemnity; and
- (8) for an *AUT*, the names of the *directors* of the *manager*.

#### 7 **Directors of an ICVC, other than the ACD**

Other than for the *ACD*:

- (1) the names and positions in the *ICVC* of the *directors*; and
- (2) the manner, amount and calculation of the *remuneration* of the *directors*.

#### 8 **The depositary**

The following particulars of the *depositary*:

- (1) its name and the nature of its corporate form;
- (2) the country or territory of its incorporation;
- (3) the address of its registered office and the address of its head office if that is different from the address of its registered office; and
- (4) if neither its registered office nor its head office is in the *United Kingdom*, the address of its principal place of business in the *United Kingdom*.

#### 9 **The investment adviser**

If an *investment adviser* is retained in connection with the business of the *authorised fund*, its name and whether or not it is authorised by the *FSA*.

#### 10 **The auditor**

The name of the auditor of the *authorised fund*.

#### 11 **The register of unitholders**

Details of the address in the *United Kingdom* where the *register* of *unitholders* is kept and can be inspected by *unitholders*.

#### 12 **Payments out of the scheme property**

The payments that may be made out of the *scheme property* to any *person* whether by way of *remuneration* for services, or reimbursement of expense and for each category of *remuneration* or expense, the following should be specified:

- (1) the current rates or amounts of such *remuneration*;
- (2) how the *remuneration* will be calculated and accrue and when it will be paid;
- (3) if notice has been given to *unitholders* of the *authorised fund manager's* intention to:
  - (a) introduce a new category of *remuneration* for its services; or
  - (b) increase the basis of any current charge; or
  - (c) change the basis of the treatment of a payment from the *capital property* set out in *COLL 8.5.13R(2)(Payments)*;  
particulars of that introduction or increase and when it will take place;
- (4) the types of any other charges and expenses that may be taken out of the *scheme property*; and
- (5) if, in accordance with *COLL 8.5.13R(2)*, all or part of the *remuneration* or expense are to be treated as a capital charge:
  - (a) that fact; and
  - (b) the basis of the charge which may be so treated.

### 13 **Dealing**

Details of:

- (1) the *dealing days* and times in the *dealing day* on which the *authorised fund manager* will receive requests for the *sale* and *redemption* of *units*;
- (2) the procedures for effecting:
  - (a) the *issue* and *cancellation* of *units*;
  - (b) the *sale* and *redemption* of *units*; and
  - (c) the settlement of transactions;
- (3) the steps required to be taken by a *unitholder* in redeeming *units* before he can receive the proceeds including any relevant notice periods and the circumstances and periods where a deferral of payment as provided in *COLL 8.5.11R(3)* (Sale and redemption) may be applied;
- (4) the circumstances in which the *redemption* of *units* may be suspended;

- (5) the *days* and times in the *day* on which recalculation of the *price* will commence;
- (6) details of the minimum number or value of each type of *unit* in the *authorised fund* which:
  - (a) any one *person* may hold; and
  - (b) may be the subject of any one transaction of *sale* or *redemption*;
- (7) the circumstances in which the *authorised fund manager* may arrange for, and the procedure for, a *redemption* of *units* in specie;
- (8) the circumstances in which the further *issue* of *units* in any particular *class* may be limited and the procedures relating to this; and
- (9) the circumstances in which direct *issue* or *cancellation* of *units* by the *ICVC* or the *trustee* (as appropriate) may occur and the relevant procedures for such *issues* and *cancellations*.

#### 14 **Valuation of scheme property**

Details as to:

- (1) how frequently and at what times of the *day* the *scheme property* will be regularly valued to determine the *price* at which *units* in the *scheme* may be purchased from or redeemed by the *authorised fund manager* and a description of any circumstance where the *scheme property* may be specially valued;
- (2) in relation to each purpose for which the *scheme property* must be valued, the basis on which it will be valued; and
- (3) how the *price* of *units* of each *class* will be determined, including whether a forward or *historic price* basis is to be applied.

#### 15 **Sale and redemption charges**

If the *authorised fund manager* makes any charges on *sale* or *redemption* of *units*, details of the charging structure and how notice will be provided to *unitholders* of any increase.

#### 16 **General information**

Details as to:

- (1) when annual and half- yearly reports will be published; and

- (2) the address at which copies of the *instrument constituting the scheme*, any amending instrument and the most recent annual reports may be inspected and from which copies may be obtained.

#### 17 **Information on the umbrella**

In the case of a *scheme* which is an *umbrella*, the following information:

- (1) that a *unitholder* may exchange *units* in one *sub-fund* for *units* in another *sub-fund* and that such an exchange is treated as a *redemption and sale*;
- (2) what charges may be made on exchanging *units* in one *sub-fund* for *units* in other *sub-funds*;
- (3) the policy for allocating between *sub-funds* any assets of, or costs, charges and expenses payable out of, the *scheme property* which are not attributable to any particular *sub-fund*;
- (4) in respect of each *sub-fund*, the currency in which the *scheme property* allocated to it will be valued and the *price* of *units* calculated and payments made, if this currency is not the *base currency* of the *umbrella*; and
- (5) for an *ICVC*, that the *sub-funds* are not “ring fenced” and in the event of an *umbrella* being unable to meet liabilities attributable to any particular *sub-fund* out of the assets attributable to that *sub-fund*, the remaining liabilities may have to be met out of the assets attributable to other *sub-funds*.

#### 18 **Application of the prospectus contents to an umbrella**

For a *scheme* which is an *umbrella*, information required must be stated:

- (1) in relation to each *sub-fund* where the information for any *sub-fund* differs from that for any other; and
- (2) for the *umbrella* as a whole, but only where the information is relevant to the *umbrella* as a whole.

#### 19 **Additional information**

Any other material information which is within the knowledge of the *directors* of an *ICVC* or the *manager* of an *AUT*, or which the *directors* or *manager* would have obtained by the making of reasonable enquiries which investors and their professional advisers would reasonably require, and reasonably expect to find in the *prospectus*, for the purpose of making an informed judgement about the merits of investing in the *authorised fund* and the extent and characteristics of the risks accepted by so participating.

### **Report and accounts**

- 8.3.5 (1) The *authorised fund manager* must prepare a report in respect of each *annual*  
R *accounting period* and *half-yearly accounting period*.
- (2) The first *annual accounting period* must begin:
- (a) on the first *day* of any period of *initial offer*; or
  - (b) in any other case, on the date of the relevant *authorisation order*.
- (3) The *authorised fund manager* must within a reasonable time after the end of each relevant accounting period, publish the annual report and half-yearly report and provide a copy free of charge on request to any *unitholder*.
- (4) The *authorised fund manager* must comply with the requirements of the *IMA SORP*.
- (5) The *authorised fund manager* must provide free of charge on the request of a purchaser of *units* a copy of the latest annual or half-yearly report before the conclusion of that sale.
- (6) The *authorised fund manager* must provide a copy of each annual and half-yearly report to the *FSA*.

### **Alterations to the scheme and notices to unitholders**

- 8.3.6 (1) Any proposed change which would be reasonably considered to be a  
R fundamental change to the *scheme* requires the prior sanction of an ordinary resolution of the *unitholders*.
- (2) Any proposed change to the *scheme* which is not within (1) but which would be reasonably considered to be significant, requires the giving of reasonable notice to *unitholders* to become effective.
- (3) Alterations affecting only a particular *sub-fund* or *class* of *units* may be approved in accordance with (1) or (2) for the particular *sub-fund* or *class* of *units*, with the consent of, or, as the case may be, notice to, the relevant *unitholders*.
- (4) This *rule* and *COLL* 8.3.8R (Meetings) will apply (unless the context requires otherwise) to alterations concerning *unitholders* of a particular *sub-fund* or *class* of *units* rather than the *scheme* or *sub-fund* as a whole.

### **Alterations to the scheme and notices to unitholders: guidance**

8.3.7 Although account should be taken of the *guidance* on fundamental changes (*COLL*  
G 4.3.5G (Guidance on fundamental changes)) and significant changes (*COLL* 4.3.7G  
(Guidance on significant changes)) the impact of any change to the *scheme* should be  
assessed individually based on the nature of the *scheme* and its investor profile.

**Meetings**

- 8.3.8 (1) Details of the procedures for the convening and conducting of meetings and  
R resolutions must be set out in the *instrument constituting the scheme* and be  
reasonable and fair as between all relevant parties.
- (2) The *authorised fund manager* must record and keep minutes for six years of all  
proceedings to which *COLL* 8.3.6R (Alterations to the scheme and notices to  
unitholders) and this *rule* are relevant.
- (3) The provisions in *COLL* 4.4.12R (Notices to unitholders), *COLL* 4.4.13R  
(Other notices) and *COLL* 4.4.14G (References to writing and electronic  
documents) apply in relation to *qualified investor schemes*.

## 8.4 Investment and borrowing powers

### Application

- 8.4.1 This section applies to an *ICVC* which is a *qualified investor scheme* and an  
R *authorised fund manager* and a *depository* of a *qualified investor scheme*.

### Spread of risk

- 8.4.2 An *authorised fund manager* must take reasonable steps to ensure that the *scheme*  
R *property* of a *qualified investor scheme* provides a spread of risk, taking into  
account the investment objectives and policy of the *scheme* as stated in the most  
recently published *prospectus*, and in particular, any investment objective as regards  
return to the *unitholders* (whether through capital appreciation or income or both).

### Investment powers: general

- 8.4.3 (1) The *scheme property* of a *qualified investor scheme* may, subject to the *rules*  
R in this chapter, comprise any assets or *investments* to which it is *dedicated*.
- (2) The *instrument constituting the scheme* and the *prospectus* may further  
restrict:
- (a) the kinds of assets in which the *scheme property* may be invested;
  - (b) the types of transactions permitted and any relevant limits; and
  - (c) the borrowing powers of the *scheme*.

### Qualified investor schemes: general

- 8.4.4 The *scheme property* of a *qualified investor scheme* must, except where otherwise  
R provided by the *rules* in this chapter, consist only of one or more of the following to  
which it is *dedicated*:
- (1) any *specified investment*:
    - (a) within articles 74 to 86 of the *Regulated Activities Order*; and
    - (b) within article 89 (Rights to or interests in investments) of the *Regulated Activities Order* where the right or interest relates to a *specified investment* within (a);
  - (2) an interest in an *approved immovable* under *COLL* 8.4.11R (Investment in property), provided the country or territory in which the land or building is situated is identified in the *prospectus*;

- (3) *precious metals*; or
- (4) a *commodity* contract traded on an *RIE* or a *recognised overseas investment exchange*.

**Investment in collective investment schemes**

8.4.5 A *qualified investor scheme* may invest in *units* in a *scheme* (a second *scheme*) only  
 R if the second *scheme* is:

- (1) a *regulated collective investment scheme*; or
- (2) a *scheme* not within (1) where the *authorised fund manager* has taken reasonable care to determine that:
  - (a) it is the subject of an independent annual audit conducted in accordance with international accounting standards;
  - (b) it has its value verified by a *person* independent from its *operator* in relation to each *day* on which dealing in that *scheme's units* may take place;
  - (c) there are mechanisms in place to enable *unitholders* to redeem their *units* within a reasonable time;
  - (d) it is prohibited from having more than 15% of its value in *units* of *schemes*; and
  - (e) it operates in accordance with the principle of risk spreading.

**Delivery of property under a transaction in derivatives or a commodities contract**

8.4.6 (1) An *authorised fund manager* must take reasonable care to determine the  
 R following when entering into any transaction in *derivatives* or any *commodity* contract which may result in any asset becoming part of the *scheme property*:

- (a) if it is an asset in which the *scheme property* could be invested, that the transaction:
  - (i) can be readily closed out; or
  - (ii) would at the expected time of delivery relate to an asset which could be included in the *scheme property* under the *rules* in this chapter; or
- (b) in any other case that the transaction can be readily closed out.

- (2) An *authorised fund manager* may acquire an asset within (1) if its determination has proved incorrect and if it determines that acquisition is in the interests of the *unitholders*, provided it has the consent of the *depository*.
- (3) Any asset within (1) acquired in accordance with (2) may form part of the *scheme property* despite any other *rule* in this chapter until the position can be rectified.

#### **Cover for transactions in derivatives and forward transactions**

- 8.4.7 (1) A transaction in *derivatives* or a forward transaction may be entered into only  
R if the maximum exposure, in terms of the *principal* or *notional principal* created by the transaction to which the *scheme* is or may be committed by another *person*, is covered globally under (2).
- (2) Exposure is globally covered if adequate cover from within the *scheme property* is available to meet the *scheme's* total exposure taking into account any reasonably foreseeable market movement.
  - (3) The total exposure relating to *derivatives* held in a *qualified investor scheme* may not exceed the net value of the *scheme property*.
  - (4) No element of cover may be used more than once.

#### **Continuing nature of limits and requirements**

- 8.4.8 (1) An *authorised fund manager* must, as frequently as necessary to ensure  
R compliance with *COLL* 8.4.7R(2) and (4), re-calculate the amount of cover required in respect of *derivatives* and forwards positions in existence under this chapter.
- (2) *Derivatives* and forwards positions may be retained in the *scheme property* only so long as they remain covered globally under *COLL* 8.4.7R.
  - (3) An *authorised fund manager* must use a risk management process enabling it to monitor and measure as frequently as appropriate the risk of a *scheme's derivatives* positions and their contribution to the overall risk profile of the *scheme*.

#### **Permitted stock lending**

- 8.4.9 (1) The *ICVC*, or the *depository* at the request of the *ICVC*, or the *trustee* at the  
R request of the *manager*, may enter into a *stock lending* arrangement within section 263B of the Taxation of Chargeable Gains Act 1992 (without extension by section 263C).

- (2) The *depository* must ensure that the value of any *collateral*, for the *stock lending* arrangement is at all times at least equal to the value of the securities transferred by the *depository*.
- (3) In the case of the expiry of validity of any *collateral*, the duty in (2) is satisfied if the *depository* or the *authorised fund manager*, as appropriate, takes reasonable care to determine that sufficient *collateral* will be transferred by close of business on the *day* of expiry.

**General power to borrow**

- 8.4.10 R (1) The *ICVC* or *trustee* (on the instructions of the *manager*) may borrow money for the use of the *authorised fund* on terms that the borrowing is to be repayable out of the *scheme property*.
- (2) The *authorised fund manager* must ensure that the *authorised fund's* borrowing does not, on any *day*, exceed 100 % of the net value of the *scheme property* and must take reasonable care to ensure that arrangements are in place that will enable borrowings to be closed out to ensure such compliance.
- (3) In this rule "borrowing" also includes any arrangement (including a combination of *derivatives*) designed to achieve a temporary injection of money into the *scheme property* in the expectation that the sum will be repaid.
- (4) Where the limit in (2) is breached, the *authorised fund manager* must take action in accordance with the principles set out in *COLL* 8.5.3R(3) to (5) (Duties of the authorised fund manager: investment and borrowing powers) to deal with that breach.

**Investment in property**

- 8.4.11 R (1) Any investment in land or a building held within the *scheme property* of a *qualified investor scheme* must be in an immovable within (2).
- (2) For an immovable :
- (a) it must be situated in a country or territory identified in the *prospectus*;
  - (b) the *authorised fund manager* must have taken reasonable care to determine that the title to the interest in the immovable is a good marketable title; and
  - (c) the *manager* or the *ICVC* must have received a report from the *appropriate valuer* that:

- (i) contains a valuation of the interest in the immovable (with and without any relevant existing mortgage); and
  - (ii) states that in the *appropriate valuer's* opinion the interest in the immovable would if acquired by the *scheme*, be capable of being disposed of reasonably expeditiously at that valuation;
- (d) unless (c) is satisfied, the *manager* or the *ICVC* must have received a report from an *appropriate valuer* valuing the interest in the immovable and stating that:
- (i) the immovable is adjacent to or in the vicinity of another immovable included in the *scheme property*; and
  - (ii) in the opinion of the *appropriate valuer*, the total value of the interests in both immovables would at least equal the sum of the price payable for the interest in the immovable and the existing value of the interest in the other immovable; and
- (e) it must not be bought:
- (i) if it becomes apparent to the *authorised fund manager* that the report in either (c) or (d) could no longer reasonably be relied upon; or
  - (ii) at a price more than 105% of the valuation relevant to the interest for that immovable in the report in either (c) or (d).
- (3) Any contents of any building may be regarded as part of the relevant immovable.
- (4) An *appropriate valuer* must be a *person* who:
- (a) has knowledge of and experience in the valuation of immovables of the relevant kind in the relevant area;
  - (b) is qualified to be a *standing independent valuer* of an *authorised fund* or is considered by the *scheme's standing independent valuer* to hold an equivalent qualification;
  - (c) is independent of the *ICVC*, the *depository* and each of the *directors* of the *ICVC* or of the *manager* and *trustee* of the *AUT*; and
  - (d) has not engaged himself or any of his *associates* in relation to the finding of the immovable for the *scheme* or the finding of the *scheme* for the immovable.

### **Investment limits for immovables**

8.4.12 The following limits apply in respect of immovables held as part of the *scheme*  
R *property*:

- (1) the amount secured by mortgages over any immovable must not exceed 100% of the latest valuation by an *appropriate valuer* under *COLL* 8.4.11(2)(c) or (d) or *COLL* 8.4.13R, as appropriate;
- (2) no option may be granted to a *person* to buy or obtain an interest in any immovable comprised in the *scheme property* if this might unduly prejudice the ability to provide *redemption*. and
- (3) the total of all premiums paid for options to purchase immovables must not exceed 10% of the *scheme* value in any 12 *month* period, calculated at the date of the granting of the option.

### **Standing independent valuer and valuation**

8.4.13 (1) In relation to the appointment of a valuer the *authorised fund manager* must:  
R

- (a) at the outset appoint the *standing independent valuer* with the approval of the *depository* and likewise upon any vacancy; and
  - (b) ensure that any immovables in the *scheme property* are valued by an *appropriate valuer (standing independent valuer)* appointed by the *authorised fund manager*.
- (2) The following apply in relation to the functions of the *standing independent valuer*:
- (a) the *authorised fund manager* must ensure that the *standing independent valuer* appointed under (1), procures the valuation of all the immovables held within the *scheme property*, on the basis of a full valuation with physical inspection (including, where the immovable is or includes a building, internal inspection) at least once a year;
  - (b) for the purposes of (a), any inspection in relation to adjacent properties of a similar nature and value may be limited to that of only one such representative property;
  - (c) the *authorised fund manager* must ensure that the *standing independent*

- valuer* values the immovables, on the basis of a review of the last full valuation, at least once a *month*;
- (d) if either the *authorised fund manager* or the *depository* becomes aware of any matter which appears likely to:
    - (i) affect the outcome of a valuation of an immovable; or
    - (ii) cause the valuer to decide to value under (a), instead of under (c), it must immediately inform the *standing independent valuer* of that matter;
  - (e) the *authorised fund manager* must use its best endeavours to ensure that any other *affected person* reports to the *standing independent valuer* immediately upon that *person* becoming aware of any matter within (d); and
  - (f) any valuation by the *standing independent valuer* must be on the basis of an 'Open Market value' as defined in the Royal Institute of Chartered Surveyors' Appraisal and Valuation Standards (Fifth Edition) ("Red Book") but is subject to any provisions of the *instrument constituting the scheme*.
- (3) In relation to immovables:
- (a) any valuation under this *rule* has effect, until the next valuation under this *rule*, for the purposes of the value of immovables; and
  - (b) an agreement to transfer an immovable or an interest in an immovable is to be disregarded for the purpose of the valuation of the *scheme property* unless it reasonably appears to the *authorised fund manager* to be legally enforceable.

## 8.5 Powers and responsibilities

### Application

- 8.5.1 This section applies to an *ICVC* which is a *qualified investor scheme* and the  
R *authorised fund manager*, any other *directors* of an *ICVC* and the *depository* of a *qualified investor scheme*.

### Functions of the authorised fund manager

- 8.5.2 (1) The *authorised fund manager* must manage the *scheme* in accordance with:  
R
- (a) the *instrument constituting the scheme*;
  - (b) the *rules* in this sourcebook;
  - (c) the most recently published *prospectus*; and
  - (d) for an *ICVC*, the *OEIC Regulations*.
- (2) The *authorised fund manager* must carry out such functions as are necessary to ensure compliance with the *rules* in this sourcebook that impose obligations on the *authorised fund manager* or *ICVC*, as appropriate.
- (3) The *authorised fund manager* must:
- (a) make decisions as to the constituents of the *scheme property* in accordance with the investment objectives and policy of the *scheme*;
  - (b) instruct the *depository* how rights attaching to the ownership of *scheme property* are to be exercised;
  - (c) take action immediately to rectify any breach of the pricing methodology set out in the *prospectus*, which must (unless the *authorised fund manager* determines on reasonable grounds that the breach is of minimal significance) extend to payment of money:
    - (i) by the *authorised fund manager* to *unitholders* and former *unitholders*;
    - (ii) by the *ACD* to the *ICVC*;
    - (iii) by the *ICVC* to the *ACD*;
    - (iv) by the *manager* to the *trustee*; or
    - (v) by the *trustee* (for the account of the *AUT*) to the *manager*;
  - (d) ensure where relevant that the *ICVC* complies with the relevant

obligations imposed by, and when appropriate, exercises the relevant powers provided under, the *OEIC Regulations*;

- (e) maintain such records as are necessary to enable the *authorised fund manager* or the *ICVC*, as appropriate, to comply with and demonstrate compliance with the *rules* in this sourcebook and also in the case of an *ICVC*, the *OEIC Regulations*; and
- (f) maintain for a period of six years a daily record of the *units* held, acquired or disposed of by the *authorised fund manager* including the *classes* of such *units*, and of the balance of any acquisitions and disposals.

#### **Duties of the authorised fund manager: investment and borrowing powers**

8.5.3 (1) An *authorised fund manager* may give instructions to deal in the *scheme*  
R *property*.

- (2) An *authorised fund manager* must avoid the *scheme property* being used or invested contrary to any provision in *COLL 8.4* (Investment and borrowing powers).
- (3) An *authorised fund manager* must immediately on becoming aware of any breach of *COLL 8.4* take action, at its own expense, to rectify that breach.
- (4) An *authorised fund manager* must take the action in (3) immediately, except in circumstances where doing so would not be in the best interests of *unitholders*, in which case the action must be taken as soon as such circumstances cease to apply.
- (5) An *authorised fund manager* must not postpone taking action in accordance with (3) unless the *depository* has given its consent.

#### **Duties of the depository**

8.5.4 (1) The *depository* is responsible for the safekeeping of all the *scheme property*.  
R

- (2) The *depository* must:
  - (a) take all steps to ensure that transactions properly entered into for the account of the *scheme* are completed;
  - (b) take all steps to ensure that instructions properly given by the *authorised fund manager* in respect of the exercise of rights related to *scheme*

- property* are carried out;
- (c) ensure that any *scheme property* in registered form is as soon as reasonably practicable registered in its name or that of its nominee or delegate, as appropriate;
  - (d) take into its custody or control all documents of title of the *scheme property* other than in respect of *derivatives* or forward transactions;
  - (e) ensure that any resulting benefit of a *derivatives* or forward transaction is received by itself in respect of the *scheme*;
  - (f) hold and deal with any income received in respect of *scheme property* in accordance with *COLL* 8.5.15R (Income);
  - (g) take reasonable care to ensure that the *scheme* is managed by the *authorised fund manager* in accordance with:
    - (i) *COLL* 8.4 (Investment and borrowing powers);
    - (ii) *COLL* 8.5.9R (Valuation, pricing and dealing); and
    - (iii) *COLL* 8.5.15R (Income);
  - (h) keep records so as to comply with the *rules* in this sourcebook and so as to demonstrate such compliance; and
  - (i) be responsible for any other duties as set out in the *instrument constituting the scheme*.
- (3) If a relevant *ICVC* ceases to have any *directors*, the *depository* may act in accordance with *COLL* 6.5.6R (*ICVC* without a director).

### **Delegation**

- 8.5.5 (1) The *authorised fund manager* (or in addition any other *director* in the case of R an *ICVC*) may delegate any function to any *person*.
- (2) The *depository* has the power to delegate any function to anyone, including in the case of an *ICVC* a *director*, to assist the *depository* to perform its functions, save that it must not retain the services of the *authorised fund manager* or, in the case of an *ICVC*, any other *director* to perform any part of its functions of safe custody of the *scheme property*.
- (3) Subject to any provisions of the *OEIC Regulations*, the delegator in (1) and (2) will not be responsible under the *rules* in *COLL* for any act or omission of the delegate provided that the delegator can show:

- (a) that it was reasonable for the delegator to obtain assistance to perform the function in question;
- (b) that the delegate was and remained competent to provide that assistance; and
- (c) that the delegator took reasonable care to ensure that the assistance was provided in a competent manner.

### **Delegation and responsibility for regulatory obligations**

8.5.6 SYSC 3.2 contains *guidance* relating to delegation including external delegation, and G SYSC 3.2.4(1) G states that a *firm* cannot contract out of its regulatory obligations.

### **Conflicts of interest**

- 8.5.7 (1) The *authorised fund manager and the depositary* must ensure that any transaction in respect of the *scheme property* undertaken with an *affected person* is on terms at least as favourable to the *scheme* as any comparable arrangement on normal commercial terms negotiated at arm's length with an independent third party.
- R (2) Paragraph (1) is subject to any provision in the *instrument constituting the scheme* and the *prospectus* imposing a prohibition in relation to any type of transaction.

### **The register of unitholders: AUTs**

- 8.5.8 (1) The *manager* or the *trustee* (in accordance with their responsibilities as set out in the *instrument constituting the scheme*) must maintain a *register* of *unitholders* as a *document* in accordance with this *rule*.
- R (2) The *register* must contain:
- (a) the name and address of each *unitholder* (for joint *unitholders* no more than four need to be registered);
  - (b) the number of *units* (including fractions of a *unit*) of each *class* held by each *unitholder*; and
  - (c) the date on which the *unitholder* was registered in the *register* for the *units* standing in his name.
- (3) The *manager* or the *trustee* (as appropriate) must take all reasonable steps and exercise all due diligence to ensure the *register* is kept complete and up to date.

- (4) Where relevant, the *manager* must immediately notify the *trustee* of any information he receives which may affect the accuracy of any entry in the *register*.

### **Valuation, pricing and dealing**

- 8.5.9 R
- (1) The value of the *scheme property* is the net value of the *scheme property* after deducting any outstanding borrowings (including any capital outstanding on a mortgage of an immovable).
  - (2) Any part of the *scheme property* which is not an *investment* (save an immovable) must be valued at fair value.
  - (3) For the purposes of (2), any charges that were paid, or would be payable, on acquiring or disposing of the asset must be excluded from the value of that asset.
  - (4) The value of the *scheme property* of an *authorised fund* must, save as otherwise provided in this section, be determined in accordance with the provisions of the *instrument constituting the scheme* and the *prospectus*, as appropriate.
  - (5) The *scheme* must have a *valuation point* on each *dealing day*.
  - (6) The *authorised fund manager* must prepare a valuation in accordance with (4) for each relevant type of *unit* at each relevant *valuation point*.
  - (7) The price of a *unit* must be calculated on the basis of the valuation in (6) in a manner that is fair and reasonable as between *unitholders*.
  - (8) Immediately after completing a valuation under (6), the *authorised fund manager* must notify the *depository* of:
    - (a) the price in the relevant currency of each type of *unit* as determined for the relevant *valuation point*; and
    - (b) the basis of any adjustment applied in relation to that *valuation point*.
  - (9) The *authorised fund manager* must publish in an appropriate manner the price of any type of *unit* based on the notification to the *depository* in (8)(a).
  - (10) The *authorised fund manager* must also provide on request to any *unitholder* at any time an estimated price for any type of *unit* in the *scheme*.
  - (11) The period of any *initial offer* and how it should end must be set out in the *prospectus* and must not be of unreasonable length.

### **Issues and cancellations of units**

8.5.10 (1) The *authorised fund manager* must:

R

- (a) ensure that at each *valuation point* there are at least as many *units* in issue of any *class* as there are *units* registered to *unitholders* of that *class*; and
  - (b) not do, or omit anything that would, or might confer on itself a benefit or advantage at the expense of a *unitholder* or potential *unitholder*.
- (2) For the purposes of (1) the *authorised fund manager* may take into account *sales* and *redemptions* after the *valuation point*, provided it has systems and controls to ensure compliance with (1).
- (3) The *authorised fund manager* must arrange for the *issue* and *cancellation* of *units* and pay money or assets to or from the *depository* for the account of the *scheme* as required by the *prospectus*.
- (4) The *authorised fund manager* must keep a record of *issues* and *cancellations* made under this *rule*.
- (5) The *authorised fund manager* may arrange for the *ICVC*, or instruct the *trustee* to *issue* or *cancel units* where the *authorised fund manager* would otherwise be obliged to *sell* or *redeem* the *units* in the manner set out in the *prospectus*.
- (6) Where the *authorised fund manager* has not complied with (1), it must correct the error as soon as possible and must reimburse the *scheme* any costs it may have incurred in correcting the position, subject to any reasonable minimum level for such reimbursement as set out in the *prospectus*.

### **Sale and redemption**

8.5.11 (1) The *authorised fund manager* must, at all times during the *dealing day*, be willing to effect the *sale* of *units* to any eligible investor (within any conditions in the *instrument constituting the scheme* and the *prospectus* which must be fair and reasonable as between all *unitholders* and potential *unitholders*) for whom the *authorised fund manager* does not have reasonable grounds to refuse such *sale*.

- (2) The *authorised fund manager* must, at all times during the *dealing day*, effect a *redemption* on the request of any eligible *unitholder* (within any conditions in the *instrument constituting the scheme* and the *prospectus*) of *units* owned by that *unitholder*, unless the *authorised fund manager* has reasonable grounds to refuse such *redemption*.
- (3) On agreeing to a *redemption* of *units* within (2), the *authorised fund manager* must pay the full proceeds of the *redemption* to the *unitholder* within any reasonable period specified in the *instrument constituting the scheme* or the *prospectus*, unless it has reasonable grounds for withholding payment.
- (4) Payment of proceeds on *redemption* must be made by the *authorised fund manager* in any manner provided for in the *prospectus* which must be fair and reasonable as between redeeming *unitholders* and continuing *unitholders*.

#### **Limited redemption periods**

- 8.5.12 The maximum period between *dealing days* for a *qualified investor scheme* will  
 G depend on the reasonable expectations of the target investor group and the particular investment objectives and policy of the *scheme*. For instance, for a *scheme* aiming to invest in large property developments, the expectation would be that it is reasonable to have a much longer period between *dealing days* for liquidity reasons than for a *scheme* investing predominantly in listed *securities*.

#### **Payments**

- 8.5.13 (1) An *ICVC* must not incur any expense in respect of the use of any movable or  
 R immovable property unless the *scheme* is *dedicated* to such investment or such property is necessary for the direct pursuit of its business.
- (2) Payments out of the *scheme property* may be made from *capital property* rather than from income, provided the basis for this is set out in the *prospectus*.

#### **Exemption from liability to account for profits**

- 8.5.14 An *affected person* is not liable to account to another *affected person* or to the  
 G *unitholders* of the *scheme* for any profits or benefits it makes or receives that are made or derived from or in connection with:
- (1) *dealings* in the *units* of a *scheme*; or
  - (2) any transaction in *scheme property*; or
  - (3) the supply of services to the *scheme*;

where disclosure of the non-accountability has been made in the *prospectus* of the *scheme*.

### **Income**

8.5.15 (1) A *qualified investor scheme* must have:

R

- (a) an *annual accounting period*;
- (b) a *half-yearly accounting period*; and
- (c) an *accounting reference date*;

the details of which must be set out in the *prospectus*.

- (2) A *qualified investor scheme* must have an *annual income allocation date*, which must be within four months of the *accounting reference date*.
- (3) A *qualified investor scheme* may have an *interim income allocation date* and *interim accounting periods* and if it does, the *interim income allocation date* must be within a reasonable period of the end of the relevant *interim accounting period* as set out in the *prospectus*.
- (4) A *qualified investor scheme* must have a *distribution account* where the *income property* is transferred at the end of the relevant accounting period.
- (5) If income is allocated and distributed during an accounting period:
  - (a) with effect from the end of the relevant accounting period, the amount of income allocated to *unit classes* that accumulate income becomes part of the *capital property* and requires an adjustment to the proportion of the value of the *scheme property* to which they relate if other *classes units* are in *issue* during the period;
  - (b) the adjustment in (a) must ensure the *price* remains unchanged despite the transfer of income; and
  - (c) the amount of any interim distribution may not be more than the amount which, in the opinion of the *authorised fund manager*, would be available for allocation if the *interim accounting period* and all previous *interim accounting periods* in the same *annual accounting period*, taken together, were an *annual accounting period*.

## 8.6 Termination, suspension, and schemes of arrangement

### Application

8.6.1 This section applies to:

R

- (1) an *authorised fund manager*, the *directors*, and the *depository* of a *qualified investor scheme*; and
- (2) an *ICVC* which is a *qualified investor scheme*.

### Termination

8.6.2 For a *qualified investor scheme* the provisions in *COLL 7.3* to *COLL 7.5* will apply

R as appropriate as if *COLL 7* applied to *qualified investor schemes*.

### Suspension

- 8.6.3
- R
- (1) The *authorised fund manager* may within any parameters which are fair and reasonable in respect of all the *unitholders* in the *scheme* and which are set out in the *prospectus*, suspend *dealings* in *units* of the *scheme*, a *sub-fund* or a *class*.
  - (2) Any suspension within (1) must only be where the *authorised fund manager* has determined on reasonable grounds that there is good and sufficient reason in the interests of *unitholders* or potential *unitholders* and the *authorised fund manager* must have regard to the interests of all the *unitholders* in the *scheme* in reaching such an opinion.
  - (3) At the commencement of suspension under (1), the *authorised fund manager* must immediately inform the *FSA* of the suspension and the reasons for it.
  - (4) The suspension of *dealings* in *units* must cease within 28 *days* of its commencement or, if earlier, as soon as (2) no longer applies.
  - (5) The *authorised fund manager* must inform the *FSA* immediately of the resumption of *dealings*.

### Suspension

8.6.4 Under section 257 of the *Act* (Directions) the *FSA* may at its option extend the  
G suspension of *dealings* in *units* beyond 28 *days* of the commencement of suspension.

### Schemes of arrangement

8.6.5 In relation to an *ICVC* or an *AUT* which is a *qualified investor scheme*, the  
R provisions in *COLL 7.6* (Schemes of arrangement) will apply as appropriate to the  
*authorised fund manager*, any other *directors* of the *ICVC* and the *depository* as if  
*COLL 7.6* applied to a *qualified investor scheme* and did not exclude *unitholders*  
becoming *unitholders* in another *qualified investor scheme*.

## **9 Recognised schemes**

### **9.1 Application and general information**

#### **Application**

- 9.1.1 R This chapter applies to *operators of recognised schemes* and to *operators of schemes* making a notification in respect of them under Chapter V of Part XVII of the *Act* (Recognised overseas schemes).

#### **Purpose**

- 9.1.2 G This chapter enables potential *operators of recognised schemes* to know what information and *documents* the *FSA* wish to receive to enable it to consider whether to recognise the *scheme* under the *Act* for *marketing* in the *United Kingdom*.

#### **General information**

- 9.1.3 G Further information about notifications for recognition is contained in *COLLG*.

## 9.2 Section 264 recognised schemes

### Information and documents to be supplied with a section 264 notification

- 9.2.1 G (1) If the *operator* of a *collective investment scheme* constituted in a *EEA State* gives notice to the *FSA* under section 264 of the *Act*, it should include the information described in paragraphs (2) to (4) below (see the *Financial Services and Markets Act 2000 (Collective Investment Schemes Constituted in Other EEA States) Regulations 2001(SI 2001/2383)*, as amended).
- (2) The *documents* must be in English, or accompanied by a translation in English.
- (3) The *documents* should be certified by the *operator* to be true copies of the original.
- (4) The *FSA* will need the following information and documentation in connection with the notification:
- (a) the name of the *scheme*;
  - (b) the legal form of the *scheme*;
  - (c) the name and address of the *operator*;
  - (d) the address of the place in the *United Kingdom* for the service on the *operator* of notices or other *documents*;
  - (e) the name and address of any supervisory authority or authorities to which the *operator* is subject in the *EEA State* in which it is established;
  - (f) whether the *operator* intends to market the *scheme* in the *United Kingdom* in a manner which will involve it carrying on a *regulated activity* in the *United Kingdom*;
  - (g) the name and address of the *depository*;
  - (h) the address in the *United Kingdom* where the *scheme* facilities (see *COLL 9.4*) will be maintained;
  - (i) details of the arrangements for the *marketing* of *units* in the *United Kingdom*, namely:
    - (i) the proposed commencement date;
    - (ii) whether the *units* will be sold by or through any employed sales force, *authorised persons*, or unsolicited calls;

- (j) the attestation or certificate from the authorities of the *EEA State* in which the *scheme* is authorised which demonstrates that the *scheme* complies with the *UCITS Directive*;
- (k) a copy of the *instrument constituting the scheme*;
- (l) a copy of the *prospectus* and the simplified prospectus of the *scheme*; and
- (m) a copy of the latest annual report and any subsequent half-yearly report.

### 9.3 Section 270 and 272 recognised schemes

#### Information and documents to be supplied for a section 270 notification or section 272 application

- 9.3.1 D (1) If the *operator* of a *scheme* gives notice to the *FSA* under section 270 of the *Act* (Schemes authorised in designated countries or territories) or makes an application under section 272 of the *Act* (Individually recognised overseas schemes), the notice or application must include the information in paragraph (4).
- (2) The *documents* must be in English or accompanied by a translation in English.
- (3) The *documents* must be certified by the *operator* to be true copies of the originals.
- (4) The *operator* of the *scheme* must provide the following information and *documents* with the notification or application:
- (a) the name of the *scheme*;
  - (b) the legal form of the *scheme*;
  - (c) the name and address of the *operator*;
  - (d) the address of the place in the *United Kingdom* for service on the *operator* of notices or other *documents*;
  - (e) whether the *operator* intends to market the *scheme* in the *United Kingdom* in a manner which will involve it carrying on a *regulated activity* in the *United Kingdom*;
  - (f) the name and address of any *person* to whom the property subject to the *scheme* is entrusted for safekeeping;
  - (g) the address of the place in the *United Kingdom* where *scheme* facilities (see *COLL* 9.4) will be maintained;
  - (h) details of the arrangements for the *marketing* of *units* in the *United Kingdom*, namely:
    - (i) the proposed commencement date;
    - (ii) whether the *units* will be sold by or through any

employed sales force, *authorised persons*, or unsolicited calls;

- (i) a copy of the *instrument constituting the scheme*;
- (j) a copy of the *prospectus* or any similar document giving details of the *scheme*;
- (k) a copy of the latest annual report and any subsequent half-yearly report;
- (l) a copy of any other *document* affecting the rights of *participants* in the *scheme*; and
- (m) for notifications under section 270 only, a copy of the authorisation document issued by the authority in the designated territory confirming that the *scheme* is of a class covered by the designation order.

**Additional information required in the prospectus for an application under section 272**

- 9.3.2 R An *operator* of a *scheme* recognised under section 272 of the *Act* must ensure the *prospectus*:
- (1) contains a statement that “Complaints about the operation of the *scheme* may be made to the *FSA*.”; and
  - (2) states whether or not investors in the *scheme* would be covered by the *compensation scheme*, and if so, it must state how they are covered and who they would need to contact for further information.

**Preparation and maintenance of prospectus**

- 9.3.3 R (1) An *operator* of a *scheme* which is a *recognised scheme* by virtue of section 270 or 272 of the *Act* must comply, subject to paragraph (2) below, with the requirements set out in *COLL* 4.2 (Pre-sale notifications).
- (2) Where a *scheme* recognised under section 270 of the *Act* is managed and authorised in Guernsey, Jersey, or the Isle of Man, the *prospectus* need not comply with the requirements of *COLL* 4.2.5R (Table: contents of prospectus), providing it contains corresponding matter required under the law in its

home territory.

## 9.4 Facilities in the United Kingdom

### General

- 9.4.1 R (1) The *operator* of a *recognised scheme* under section 264, section 270 or section 272 of the *Act* must maintain facilities in the *United Kingdom* in order to satisfy the requirements of *COLL 9.4.2R* to *COLL 9.4.6R*.
- (2) In this section, a facility is a place of business that complies with *COLL 9.4.6R* (Place of facilities).

### Documents

- 9.4.2 R (1) The *operator* of a *recognised scheme* must maintain facilities in the *United Kingdom* for any *person*, for inspection (free of charge) and for the obtaining (free of charge, in the case of the *documents* at (c) and (d), and otherwise at no more than a reasonable charge) of copies in English of:
- (a) the *instrument constituting the scheme*;
  - (b) any instrument amending the *instrument constituting the scheme*;
  - (c) the latest *prospectus* (which must include the address where the facilities are maintained and details of those facilities);
  - (d) for a section 264 *recognised scheme*, the simplified prospectus; and
  - (e) the latest annual and half-yearly reports.
- (2) In relation to notices and *documents* sent by *operators* and *depositories* to and from the *United Kingdom*, *COLL 4.4.12R* (Notice to unitholders) and *COLL 4.4.13R* (Other notices) apply.

### Price and redemption

- 9.4.3 R (1) The *operator* must maintain facilities in the *United Kingdom* for any *person* where:
- (a) information in English can be obtained about prices of *units* in the *scheme*; and
  - (b) a *participant* may *redeem* or arrange for *redemption* of

*units* in the *scheme* and obtain payment.

- (2) An *operator* is treated as complying with paragraph (1) if it ensures *participants* may sell their *units* on an investment exchange at a price not significantly different from net asset value; and if so, must inform *participants* of the investment exchange.

#### **Bearer certificates and characteristics of units in the scheme**

- 9.4.4 R (1) The *operator* must maintain facilities in the *United Kingdom* at which the *unitholder* of a *bearer certificate* may obtain free of charge:
- (a) payment of dividends; and
  - (b) details or copies of any notices which have been given or sent to *participants* in the *scheme*.
- (2) The *operator* must state
- (a) the nature of the right represented by the *units* in the *scheme*; and
  - (b) whether *persons* other than *unitholders* can vote at meetings of *unitholders* and, if so, who those *persons* are.

#### **Complaints**

- 9.4.5 R The *operator* must maintain facilities in the *United Kingdom*, at which any *person* who has a complaint to make about the operation of the *scheme* can submit his complaint for transmission to the *operator*.

#### **Place of facilities**

- 9.4.6 R (1) The address of the facilities maintained by the *operator* in accordance with this section and the details of the facilities so maintained must be stated in the *prospectus* of the *scheme*.
- (2) The address of the facilities referred to in (1) must be the address of the *operator's* principal place of business in the *United Kingdom*, or, if there is no such address, the alternative address in paragraph (3).
- (3) The alternative address is such convenient address as the *operator* determines, except that, in the case of a *scheme*

recognised under section 272 of the *Act* where the *operator* is not an *authorised person*, the alternative address is to be the principal place of business in the *United Kingdom* of the *authorised person* who is the representative of the *operator*.

## **10 Fees**

### **10.1 Introduction**

#### **Application**

- 10.1.1 R This chapter applies to:
- (1) every *person* seeking an *authorisation order* for, or recognition of, a *collective investment scheme*;
  - (2) every *manager* of an *authorised unit trust*;
  - (3) every *ACD* of an *ICVC*; and
  - (4) every *person* who, under the constitution or founding arrangements of a *recognised scheme*, is responsible for the management of the property held for or within the *scheme*.

#### **Purpose**

- 10.1.2 G The purpose of this chapter is to set out the requirements for the payment of fees relating to *collective investment schemes*.

#### **Background**

- 10.1.3 G *GEN 3* (FSA Fees – General Provisions) applies to fees required by this chapter and explains how the *FSA* sets fees.
- 10.1.4 G Most of the detail of the fees payable in relation to a *collective investment scheme* is set out in *COLL 10 Annex 1R*. The provisions of the Annex may vary from one financial year to another. Accordingly a fresh *COLL 10 Annex 1R* will come into force, following consultation, for each financial year.
- 10.1.5 G The fees for *collective investment schemes* reflect the estimated costs to the *FSA* of assessing applications and notifications, considering proposals to change *regulated collective investment schemes*, maintaining up to date records about them, and related policy work.
- 10.1.6 G The level of fees payable in respect of an application or notification will vary depending upon the provision of the *Act* under which it is made, as well as the type of *scheme* concerned. This fee is adjusted when the *scheme* concerned is an *umbrella scheme*.

## 10.2 Obligation to pay periodic fees

### General

- 10.2.1 R A *person* identified in COLL 10 Annex 1R as the relevant fee payer for a *regulated collective investment scheme* must pay each periodic fee applicable to it in full and without deduction.
- 10.2.2 G A relevant fee payer will be required to pay a periodic fee for every year during which a *regulated collective investment scheme* has that status. If that *person* is the relevant fee payer for more than one *regulated collective investment scheme*, he will be required to pay a fee in relation to each.

### Due date

- 10.2.3 R The relevant fee payer must pay the amount due on or before 30 April.

### Method of payment

- 10.2.4 R A periodic fee must be paid using one of the payment methods specified in SUP 20.2.7AR.

### Modifications for newly authorised or recognised schemes

- 10.2.5 R If an *authorisation order* is made in relation to a *scheme*, or a *scheme* becomes a *recognised collective investment scheme* during the course of a financial year to which a COLL 10 Annex 1R fee applies:
- (1) the periodic fee required under COLL 10.2 is modified in accordance with the table at COLL 10.2.6R; and
  - (2) the due date for payment is 30 *days* after:
    - (a) the making of the *authorisation order* for the *scheme*; or
    - (b) the *scheme* becomes *recognised*.
- 10.2.6 R Table. Modified fees for newly authorised or recognised schemes  
This table belongs to COLL 10.2.5R

Period in which authorisation or recognition is granted	Proportion of periodic fee payable
1 April to 30 June inclusive	100%
1 July to 30 September inclusive	75%
1 October to 31 December inclusive	50%
1 January to 31 March inclusive	25%

### **10.3 Obligation to pay notification and application fees**

#### **General**

- 10.3.1 R The *person* identified in *COLL 10 Annex 2R* as the relevant fee payer must pay each fee applicable to any application or notification as specified in *COLL 10 Annex 2R*.

#### **Due date**

- 10.3.2 R The relevant fee payer must pay a fee identified in *COLL 10 Annex 2R* on or before the date on which the relevant application or notification is made.
- 10.3.3 G Any application or notification, for which a fee is payable under this section, will be treated as incomplete until that fee is paid.

#### **Method of payment**

- 10.3.4 R A fee identified in *COLL 10 Annex 2R* must be paid by bankers draft, cheque or other payable order.

## Collective Investment Schemes

### COLL 10 Annex 2R

#### Application and notification fees payable

Table.

Legislative provision	Nature and purpose of fee	Payable by	Amount of fee	Umbrella scheme factor (note 1)
Regulation 12 of the <i>OEIC Regulations</i>	On application for an order declaring a <i>scheme</i> to be an <i>ICVC</i> , where the <i>scheme</i> is: - <i>UCITS scheme</i> - <i>non-UCITS retail scheme</i> - <i>qualified investor scheme</i>	An applicant (Note 2)	£1,200 £1,500 £2,400	2
Section 242 of the <i>Act</i>	On application for an order declaring a <i>scheme</i> to be an <i>AUT</i> , where the <i>scheme</i> is: - <i>UCITS scheme</i> - <i>non-UCITS retail scheme</i> - <i>qualified investor scheme</i>	An applicant (Note 2)	£1,200 £1,500 £2,400	2
Section 264 of the <i>Act</i>	On giving notice under section 264 of the <i>Act</i>	The <i>operator</i> (Note 3)	£600	2
Section 270 of the <i>Act</i>	On giving notice under section 270 of the <i>Act</i>	The <i>operator</i> (Note 3)	£600	2
Section 272 of the <i>Act</i>	On application for an order declaring a <i>scheme</i> to be an individually recognised overseas <i>scheme</i> .	An applicant (Note 2)	£14,000	2

Notes:

1. For an *umbrella scheme* the fee is multiplied by the factor shown in final column of the table.

2. The fee must accompany the application.
3. The fee must accompany the notice.

2 COLL Sourcebook - Notification requirements  
G

This schedule sets out the notification requirements detailed in *COLL* in respect only of notifications to be provided to the *FSA*. These notification requirements, it should be noted, are in addition to the notifications which must be made to the *FSA* under section 251 of the *Act* (Alteration of schemes and changes of manager or trustee) and under regulation 21 of the *OEIC Regulations* (The Authority's approval for certain changes in respect of a company).

1 Notification requirements

Handbook reference	Matter to be notified	Contents of notification	Trigger event	Time allowed
<i>COLL</i> Transitional provision 3	Election or revocation to comply with CIS	Details and the date from which it is to take effect	At election or revocation	Immediate

3 Fees and other required payments  
G

1

1.	The aim of the <i>guidance</i> in the following table is to give the reader a quick overview of the relevant requirements for paying fees.
2.	It is not a complete statement of those requirements and should not be relied on as if it were.

2

Type of fee	Trigger event	Date/Time for payment	Amount/rate	Handbook reference
Periodic fee	-	On or before 30 April in each year, or 30 days after the <i>scheme</i> is <i>recognised</i> or the <i>scheme's</i> <i>authorisation order</i> is made	See <i>COLL</i> 10 Ann 1R	<i>COLL</i> 10.2
Application/notification fee	See <i>COLL</i> 10 Ann 2R	On or before making the relevant application or notification	See <i>COLL</i> 10 Ann 2R	<i>COLL</i> 10.3
Conversion fee	See <i>COLL</i> Transitional Provision 10	On making the relevant notification	£400 for an individual <i>scheme</i> ; £800 for an <i>umbrella</i>	<i>COLL</i> Transitional Provision 10

4 COLL - Sourcebook – Powers Exercised  
G  
1

The following powers and related provisions in or under the *Act* have been exercised by the *FSA* to make the *rules* in *COLL*:

1. Section 138 (General rule-making power)
2. Section 140 (Restriction on managers of authorised unit trust schemes)
3. Section 145 (Financial Promotion rules)
4. Section 156 (General supplementary powers)
5. Section 242 (Applications for authorisation of unit trust schemes)
6. Section 247 (Trust scheme rules)
7. Section 248 (Scheme particulars rules)
8. Section 278 (Rules as to scheme particulars)
9. Section 340 (Appointment)
10. Paragraph 17(1) of Schedule 1 (fees)
11. Regulation 6 (FSA rules) of the *OEIC regulations*

The following powers in the *Act* have been exercised by the *FSA* to give the *guidance* in *COLL*:

12. Section 157(1) (Guidance)

The following powers in the *Act* have been exercised by the *FSA* in *COLL* to specify and direct:

13. Section 270(6)(b)
14. Section 274(2), (4) and (5)

5 COLL Sourcebook - Rights of action for damages

G

The table below sets out the rules in *COLL* contravention of which by an authorised person may be actionable under section 150 of the Act (Actions for damages) by a person who suffers loss as a result of the contravention.

If a Yes appears in the column headed For private person, the rule may be actionable by a private person under section 150 unless a Yes appears in the column headed Removed. A Yes in the column headed Removed indicates that the *FSA* has removed the right of action under section 150(2) of the Act. If so, a reference to the rule in which it is removed is also given.

In accordance with The Financial Services and Markets Act 2000 (Rights of Action) Regulations 2001 (SI 2001/2256), a private person is:

- (1) any individual, except when acting in the course of carrying on a regulated activity; and
- (2) any person who is not an individual, except when acting in the course of carrying on business of any kind;

but does not include a government, a local authority or an international organisation.

The column headed For other person indicates whether the rule is actionable by a person other than a private person, in accordance with those Regulations. If so, an indication of the type of person by whom the rule is actionable is given.

1 Actions for damages: the New Collective Investment Schemes Sourcebook

Chapter/ Appendix	Section/ Annex	Paragraph	Right of action under section 150			
			For private person?		For other person?	
			Yes	Removed?	No	
All rules in <i>COLL</i>			Yes	No	No	

6 COLL Sourcebook – Rules that can be waived

G

1

1. The rules in *COLL* can be *waived* by the *FSA* under sections 148 or 250 of the *Act* (Modification or waiver of rules) or regulation 7 of the *OEIC Regulations* (Modification or waiver of *FSA* rules), except *COLL* 3.2.8R (UCITS obligations) and *COLL* 6.9.9 (Restrictions of business for UCITS management companies).
2. Although the *FSA* has the formal power of *waiver* under the *Act* in relation to these *rules*, much of *COLL* implements the requirements of the *UCITS Directive* by ensuring that relevant *authorised funds* comply with such requirements. Accordingly, while formal power may exist to waive such *UCITS Directive* derived rules, the *FSA*'s ability to do so is severely constrained.
3. No *rules* in *COLL* 10 (Fees) and *COLL* Transitional Provision 10 can be waived by the *FSA*.

**NEW COLLECTIVE INVESTMENT SCHEMES SOURCEBOOK  
(CONSEQUENTIAL AMENDMENTS) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions:
- (1) the following sections of the Financial Services and Markets Act 2000 (“the Act”):
    - (a) 138 (General rule-making power);
    - (b) 140 (Restriction on managers of authorised unit trust schemes);
    - (c) 156 (General supplementary powers);
    - (d) 157 (Guidance);
    - (e) 242 (Applications for authorisation of unit trust schemes);
    - (f) 247 (Trust scheme rules); and
    - (g) 248 (Scheme particulars rules); and
  - (2) regulations 6 (FSA rules) and 12 (Applications for authorisation) of the Open-Ended Investment Companies Regulations (SI 2001/1228).
- B. The provisions of or under the Act relevant to the rules and listed above are specified for the purpose of section 153(2) of the Act (Rule-making instruments).

**Commencement**

- C. This instrument comes into force on 1 April 2004.

**Amendments to the Collective Investment Schemes sourcebook (CIS)**

- D. CIS is amended in accordance with Annex A of this instrument.

**Amendments to other FSA manuals and sourcebooks and the Glossary**

- E. The modules of the FSA Handbook of Rules and Guidance listed in column (1) below are amended in accordance with the relevant annex listed in column 2.

...

#### 1.1 Application

##### Right to elect to comply with COLL

- 1.1.1A R (1) *CIS* does not apply to any relevant party in relation to an *authorised fund* if the *authorised fund manager* of such *fund* with the consent of each of the other relevant parties has elected on behalf of the *fund* to comply with the *rules* in *COLL* instead of *CIS*, provided the *authorised fund manager* notifies the *FSA* in writing of such election and of the date from which such election is to take effect.
- (2) For the purposes of (1) a relevant party in relation to:

- (a) any AUT, is its manager and trustee; and
- (b) any ICVC, is :
  - (i) the ICVC;
  - (ii) its ACD;
  - (iii) any other directors of the ICVC; and
  - (iv) its depositary.

Operators of recognised schemes

1.1.1B R CIS 16 (Application and notification) and CIS 17 (Recognised schemes) do not have any effect in relation to an operator of a recognised scheme or to any person seeking recognition in the United Kingdom for such a scheme after 1 April 2004.

...  
3.5.2 R Table: Contents of the prospectus

...  
3  
(15) In the case of a *UCITS scheme*, information concerning the historical performance of the scheme presented in accordance with COB 3.8.11R (specific non real time financial promotions: past performance).

...  
R 23 ...  
(1A) if the authorised fund manager determined that short form reports are to be prepared for the purposes of CIS 10.5.2R (2A)(2), a statement when the short report will be sent to the unit holders.

...  
4.4.3 R (2) ...  
(d) ~~if it has reasonable grounds, relating to the circumstances of the person concerned,~~ for refusing to *sell units* to ~~him~~ the person concerned; and

...

- 4.8.4 G (4) ~~Where there has been no recent trade in the *security* concerned, or where no reliable price exists, an investment should be valued at a price which, in the *authorised fund manager's* opinion, reflects a fair and reasonable price for that investment. In such cases, the *authorised fund manager* should document the reasons for its decision and should be prepared to justify any assumptions made.~~ Where the *authorised fund manager* has reasonable grounds to believe that:
- (a) no reliable price exists for a security at a *valuation point*; or
  - (b) the most recent price available does not reflect the *authorised fund manager's* best estimate of the value of a *security* at the *valuation point*;
- he should value the *investment* at a price which, in his opinion, reflects a fair and reasonable price for that *investment* (the fair value price).
- (5) The circumstances which may give rise to a fair value price being used include:
- (a) no recent trade in the *security* concerned; or
  - (b) the occurrence of a significant event since the most recent closure of the market where the price of the *security* is taken.
- In (b), a significant event is one that means the most recent price of a *security* or a basket of *securities* is materially different to the price that it is reasonably believed would exist at the *valuation point* had the relevant market been open.
- (6) In determining whether to use such a fair value price, the *authorised fund manager* should include in his consideration:
- (a) the type of *authorised fund* concerned;
  - (b) the *securities* involved;
  - (c) the basis and reliability of the alternative *price* used; and
  - (d) the *authorised fund manager's* policy on the valuation of *scheme property* as disclosed in the *prospectus*.

(7) The authorised fund manager should document the basis of valuation (including any fair value pricing policy) and, where appropriate, the basis of any methodology and ensure that the procedures are applied consistently and fairly.

(8) Where a unit price is determined using properly applied fair value prices in accordance with policies in (7), subsequent information that indicates the price should have been different from that calculated will not normally give rise to an instance of incorrect pricing.

...

Spread: general

...

5.2.13 R (7) The exposure to any one ~~counterparty~~ counterparty in an *OTC derivative* transaction must not exceed 5% in value of the *scheme property*. This limit is raised to 10% where the ~~counterparty~~ counterparty is an *approved bank*.

(8) Not more than 20% in value of the *scheme property* is to consist of *transferable securities* ~~or~~ and money market instruments issued by the same group (as referred to in (2)).

...

(11) ~~In applying the limit in (3),(4),(5),(6),(7) and (10), not more than 35% in value of the *scheme property* is to consist of any combination of two or more of the following:~~

(a) ~~*transferable securities* or money market instruments issued by; or~~

(b) ~~*deposits made with; or*~~

(c) ~~exposures from *derivatives* transactions made with a single body.~~

Spread: government and public securities

5.2.14 R (1) This *rule* (CIS 5.2.14) applies to *government and public securities* ("such securities").

...

Investment in collective investment schemes

- 5.2.15 R A *scheme* may invest in *units* in a *collective investment scheme* provided that no more than 30% of the value of that investing scheme is in *collective investment schemes* which are not *UCITS schemes* and only if the second *scheme* is permitted under (1) - (4):
- (1) it is a *scheme* which:
    - (a) complies with the conditions necessary for it to enjoy the rights conferred by the *UCITS Directive*; or
    - (b) is recognised under the provisions of section 270 of the *Act* (Schemes authorised in designated countries or territories); or
    - (c) is authorised as a *non-UCITS retail scheme* (provided the requirements of article 19(1)(e) of the *UCITS Directive* are met); or
    - (d) is authorised in another *EEA State* (provided the requirements of article 19(1)(e) of the *UCITS Directive* are met);
  - (2) ~~it is a the second *scheme* which ~~complies~~ must comply~~ where relevant with *CIS* 5.2.18R (Investment in other group schemes);
  - (3) ~~it is a the second *scheme* which ~~has~~ must have~~ terms which prohibit more than 10% in value of the *scheme property* consisting of *units* in *collective investment schemes*; and
  - (4) for the purposes of this *rule* (*CIS* 5.2.15R) and (*CIS* 5.2. 13R (Spread: general) each *sub-fund* of an *umbrella scheme* is to be treated as if it were a separate *scheme* but no *sub-fund* of an *umbrella scheme* may invest in another *sub-fund* of that *umbrella scheme*.

Qualifying non-UCITS collective investment schemes

- 5.2.16 G (1) *CIS* 17.3 gives further detail as to the recognition of a *scheme* under section 270 of the *Act*.
- (2) Article 19 of the *UCITS Directive* sets out the general investment limits. So, a *non-UCITS retail scheme*, or its equivalent *EEA scheme* which has the power to invest in gold or immovables would not meet the criteria set in *CIS* 5.2.15R (1) (c) and (d).

...

Investment in warrants and nil and partly paid securities

- 5.2.19 R (1) Where a UCITS scheme invests in a warrant, the exposure created by the exercise of the right conferred by the warrant must not exceed the limits in CIS 5.2.13R (Spread: general) and CIS 5.2.14R (Spread: government and public securities). ~~A warrant ("the proposed warrant") falls within any power of investment only if, on the assumptions that:~~
- ~~(a) there is no change to the scheme property between the acquisition of the proposed warrant and its exercise; and~~
  - ~~(b) the right conferred by the proposed warrant and all other warrants forming part of the scheme property at the time of the acquisition of the proposed warrant will be exercised (whether or not it is intended that they will be);~~
- ~~it is reasonably foreseeable that the right conferred by the proposed warrant could be exercised by the authorised fund without contravening the rules in this chapter.~~
- (2) ...
- (3) ~~A warrant which is an investment falling within article 80 of the Regulated Activities Order (Certificates representing certain securities) and which is akin to an investment falling within article 79 (Instruments giving entitlement to investments) of the Regulated Activities Order may not be included in the scheme property unless it is listed on an eligible securities market.~~

Investment in money market instruments

- 5.2.20 R A UCITS scheme may invest in money market instruments which are normally dealt in on the money market, are liquid and whose value can be accurately determined at any time, provided:

...

- 5.2.22 R (6) Any forward transaction must be with an approved counterparty under CIS 5.2.25R(2) (OTC transactions in derivatives).

...

Risk management: derivatives

- 5.2.26 R (1) An *authorised fund manager* must use a risk management process enabling it to monitor and measure as frequently as appropriate the risk of a *scheme's derivatives and forwards* positions and their contribution to the overall risk profile of the *scheme*.
- (2) The following details of the risk management process must be notified by the *authorised fund manager* to the *FSA* in advance of the use of the process as required by (1) along with advance notification of any material alteration to such details:
- (a) the methods for estimating risks in *derivative and forward* transactions; and
  - (b) the types of ~~derivatives~~ *derivatives and forwards* to be used within the *scheme* together with their underlying risks and any relevant quantitative limits.

- ...
- 5.3.3.. R (5) The ~~global total~~ exposure relating to *derivatives* held in a *UCITS scheme* may not exceed the net value of the *scheme property*.

...

Permitted stock lending

- 5.4.4 R (1) An ICVC, or the depositary at the request of the ICVC, or a the trustee at the request of the manager, may enter into a stock lending arrangement of the kind described in section 263B of the Taxation of Chargeable Gains Act 1992 (without extension by section 263C), but only if:
- (a) all the terms of the agreement under which securities are to be reacquired by the depositary for the account of the ICVC or by the trustee, are in a form which is acceptable to the depositary or to the trustee and are in accordance with good market practice;
  - (b) the ~~counterparty~~ *counterparty* is an authorised person or a person authorised by a Home State regulator; and
  - (c) collateral is obtained to secure the obligation of the ~~counterparty~~ *counterparty* under the terms referred to in (a) and the collateral is:

...

- (2) The ~~counterparty~~ counterparty for the purpose of (1) is the person who is obliged under the agreement referred to in (1)(a) to transfer to the depositary the securities transferred by the depositary under the stock lending arrangement or securities of the same kind.

Stock lending: treatment of collateral

- 5.4.5 G Where a stock lending arrangement is entered into, the scheme property remains unchanged in terms of value: the securities transferred cease to be part of the scheme property, but there is obtained in return an obligation on the part of the ~~counterparty~~ counterparty to transfer back equivalent securities. The depositary will also receive collateral to set against the risk of default in transfer, and that collateral is equally irrelevant to the valuation of the scheme property (because it is transferred against an obligation of equivalent value by way of re-transfer). CIS 5.4.6R accordingly makes provision for the treatment of the collateral in that context.

...

Publication of reports

- 10.5.2 R ...
- (2) (a) The *authorised fund manager* must, subject to (2A) and (3) provide free of charge:
- (i) a copy of each annual report and each half-yearly report to each *holder* (or to the first named of joint *holders*) entered in or entitled to be entered in the *register* at the close of business on the last *day* of the relevant accounting period or *half-yearly accounting period*; and
- (ii) a copy of the report to each *holder* of bearer *units* at his request.
- (b) A report relating to an *umbrella scheme* to be provided under (a)(i) or (ii) need not contain an aggregation of the accounts relating to each *sub-fund*, but such information must be sent, free of charge, to any *holder* who requests it

- (2A) (1) Notwithstanding (2), the *authorised fund manager* may comply with *COLL* 4.5.13R (Provision of short report) instead of (2), provided that any short report prepared by the *authorised fund manager* for this purpose:
- (a) meets the requirements of *COLL* 4.5.3R (1) and (2) (Preparation of long and short reports); and
  - (b) contains the information required by *COLL* 4.5.5R (Contents of a short report).
- (2) In preparing a short report for the purposes of (1), the *authorised fund manager* should construe references to a long report in *COLL* 4.5.5 R(1)(f) and (5) and in *COLL* 4.5.13R (3) as the annual report referred to in *CIS* 10.3.3R (Annual reports) or, as the case may be, the half-yearly report in *CIS* 10.3.4 (Half-yearly reports).

...

Guidance on short report contents

10.5.2A G *COLL* 4.5.6G which provides *guidance* on sufficient and significant information which should be contained in short reports, applies in relation to short reports prepared for the purposes of *CIS* 10.5.2R (2A). References in that *guidance* to a fundamental change should be regarded as a change requiring *unitholder* approval by meeting during the period. Similarly, references to a significant change should be regarded as a change in respect of which prior written notice of the change should be given to *unitholders* by the *authorised fund manager*.

(3) ...

...

15.4.3 R (2) ...

(d) ~~if it has reasonable grounds, relating to the circumstances of the person concerned, for refusing to sell units to him the person concerned;~~ and

...

- 15.8.5 G (4) Circumstances may arise where the chosen method may not provide a reliable basis for valuation. Guidance on such instances is provided at CIS 4.8.4G(4) – (8). ~~This could happen, for example, where there has been no recent trade in the *security* concerned or where no reliable price exists. In such cases, the *manager* should exercise judgement to estimate a reasonable price at which the *security* could be bought or sold in the most appropriate market, and should document the reasons for its decision. Additionally, W~~where the *manager* imputes a ‘spread’ in order to arrive at an estimated *buying* or *selling* price – for example, in circumstances where there are no buy or *sell* orders on the order book, it should be able to justify any assumptions made.

...

Restrictions of business of managers of UCITS schemes for UCITS management companies

- 16.5.1 R ~~A firm which is the *authorised fund manager* of a *UCITS scheme*~~ UCITS management company must not engage in any activity other than:
- (1) acting as ~~*manager*~~ of:
    - (a) *authorised fund manager* of an *authorised fund*; or
    - (b) an *operator* of any other *collective investment scheme* for which the firm is subject to prudential supervision ~~and under which the contributions of the *participants* and the profits or income out of which payments are to be made to them are pooled; or~~
  - (2) acting as the ~~director~~ of an ICVC; or
  - (3) activities for the purposes of or in connection with those in (1) ~~or~~ (2);
  - (2) (2);
  - (3) collective portfolio management, including without limitation:
    - (a) investment management;
    - (b) administration:
      - (i) legal and fund management accounting services;
      - (ii) customer enquiries;
      - (iii) valuation and pricing (including tax returns);
      - (iv) regulatory compliance monitoring;

- (v) maintenance of *unitholder register*;
  - (vi) distribution of income;
  - (vii) *unit issues and redemptions*;
  - (viii) contract settlements (including certificate dispatch);  
and
  - (ix) record keeping; and
  - (c) marketing;
  - (4) *managing investments* where the relevant portfolio includes one or more *ISD instruments*;
  - (5) *advising on investments* where ~~the firm has permission in respect of~~ (4);
    - (a) the *firm* has a *permission* for the activity in (4); and
    - (b) each of the instruments is an *ISD instrument*; and
  - (6) safekeeping and administration of *collective investment scheme units* where the *firm* has a *permission* for the activity in respect of (4).
- 16.5.2 G (1) Examples of the connected activities referred to in *CIS 16.5.1R*~~(3)~~(2) include management of *group plans* *PEPs*, *ISAs* and stakeholder pensions, as....
- (2) The restrictions of business imposed by *CIS 16.5.1R* reflect the position under Article 5 of the *UCITS Directive*. In accordance with recital (7) of the amending *UCITS Management Directive* (2001/107/EC) the activities referred to at *CIS 16.5.1R* (3)(a) to (c) may be performed on behalf of *EEA UCITS management companies*.

## Annex H

### Amendments to the Authorisation manual (AUTH)

In this Annex underlining indicates new text and striking through indicates deleted text.

- 2.7.12 G The *regulated activities* carried on in relation to a *collective investment scheme* generally are the *establishing, operating or winding up a collective investment scheme*. Acting as the *depository* and acting as sole director of an *open-ended investment company* are also separate *regulated activities*. In all these cases, the activities are regulated where the schemes themselves are authorised schemes for the purposes of the *UK* product regulation regime under Part XVII of the *Act* (Collective investment schemes) as well as where the schemes are unregulated schemes. The process for applying for authorisation of a *collective investment scheme* is described in COLL 2 (Authorised fund applications) and *CIS 16* (Application and notification).
- ...
- 3.17.1 G An applicant seeking to *establish a collective investment scheme* should consult COLL and *CIS* for detailed requirements and *guidance*. Applicants should note that until 12 February 2007 they may elect to comply with COLL or CIS, although qualified investor schemes have to comply with COLL.
- 3.17.2 G Applicants seeking to establish a *collective investment scheme* or to act as *manager* of a *regulated collective investment scheme* should note the rules in COLL 6.4.9 (Plan registers) and CIS 6.5 (Plan registers), which implements article 6 of the *UCITS Directive* and restrict the activities of a manager of an authorised unit trust which is a *UCITS scheme*.
- 3.17.3 G An applicant which wishes to act as ~~*manager of an authorised unit trust which is a UCITS scheme*~~ a *UCITS management company* should note the restriction on the activities it may engage in (see COLL 6.9.9 R (Restrictions of business of UCITS management companies) and *CIS 16.5 (Restrictions of business of ~~managers of UCITS schemes~~ UCITS management companies)*).
- 3.17.4 G A *firm* which is subject to the rule in COLL 6.9.9R or *CIS 6.5* may, however, carry on 'connected activities' referred to in COLL 6.9.10G and *CIS 6.5*,
- ...
- 3.20.3 G (2) COLLG 2 and *CIS 2.3.4G* gives *guidance* when an operator of a *UCITS* scheme wishes to market its *scheme* in another *EEA State*.
- ...

3.22.3 G The limited *partnership* may be set up to invest the funds of the *partners*, for example, in the way of a venture capital fund. If so, it will usually be a *collective investment scheme*. The partnership will not require authorisation simply for being a *collective investment scheme* as this is not a *regulated activity*. It will also often be the case that the partnership, in investing its assets, will be excluded from the *regulated activity* of dealing in investments as *principal* (see AUTH 2.8.4G (Dealing in investments as principal)). However, it is likely that the general *partner* will require *permission* from the FSA to *establish, operate or wind up a collective investment scheme* (see AUTH 3.17 (Specific obligations: applicants seeking to establish a collective investment scheme or to act as manager of a regulated collective investment scheme) and *COLL and CIS*). If the general *partner* delegates responsibility for operating a limited *partnership* that is a *collective investment scheme* to another *person* on behalf of the *partnership*, that other *person* will require *authorisation* from the *FSA* (whether or not the general *partner* also requires *authorisation*).

5.3.16 G A *UCITS qualifier* should refer to *COLLG* or to the following sections of *COLL and CIS* for requirements for recognised schemes:

- (1) *COLL 9.2.1G and CIS 16.1.8G* for *guidance* on notifications;
- (2) *COLL 9.2.1G and CIS 17.2* for *guidance* on information and documentation requirements; and
- (3) *COLL 9.4 and CIS 17.4* which includes *guidance* on what facilities need to be maintained.

...

	(d)	

...

- ...
- 2.1.4 G The only kind of *body corporate* of an open-ended kind that may currently be formed under the law of the *United Kingdom* is one that is authorised by the FSA. A *person* intending to form an open-ended *body corporate* that has its head office in Great Britain should refer to the Open-ended Investment Companies Regulations 2001 (SI 2001/1228). *Bodies corporate* formed under these Regulations are referred to in the *Handbook* as *investment companies with variable capital* (or 'ICVCs'). *COLL 2 (Authorised fund applications)* and *CIS 16 (Application and notification)* contains *rules* and *guidance* on forming such *bodies corporate*. The Northern Ireland Assembly was in September 2002 considering a Bill to enable the establishment of open-ended *bodies corporate* whose head office is in Northern Ireland.
- 2.1.5 G *Open-ended investment companies* constituted in other *EEA States* which are seeking to exercise rights conferred by the *UCITS Directive* should refer to *COLL 9 (Recognised schemes)* and *CIS 17 (Recognised Schemes)* for *guidance* on the requirements of section 264 of the *Act* (Schemes constituted in other *EEA States*).
- ...
- 2.10.4 G (3) *collective investment schemes* that are *recognised schemes* (see *COLL 9 (Recognised schemes)* and *CIS 17 (Recognised schemes)*).

## Annex I

### Amendments to the Supervision manual (SUP)

In this Annex underlining indicates new text and striking through indicates deleted text.

1.2.2 For a *firm* which undertakes business internationally (or is part of a *group* which does), the *FSA* will have regard to the context in which it operates, including the nature and scope of the regulation to which it is subject in jurisdictions other than the *United Kingdom*. For a *firm* with its head office outside the *United Kingdom*, the regulation in the jurisdiction where the head office is located will be particularly relevant. As part of its supervision of such a *firm*, the *FSA* will usually seek to cooperate with relevant *overseas regulators*, including exchanging information on the *firm*. Different arrangements apply for an incoming *EEA firm*, an incoming *Treaty firm* and a *UCITS qualifier*. The arrangements applying for an incoming *EEA firm* and an incoming *Treaty firm* are addressed in *SYSC App1*. For *UCITS qualifiers* see also *COLLG*, and *CIS 2.3*, *CIS 16*, and *CIS 17*.

...  
6.1.2 If appropriate, a *firm* which is the manager of a *collective investment scheme* should also refer to *COLL 7* and *CIS 14* for guidance on the termination of *ICVCs* and *AUTs* and on winding up schemes that are not commercially viable.

...  
8.1.1 (2) *person*, as respects a particular *AUT* or *ICVC*, who wishes to apply for, or consent to, or has been given a modification of or waiver of the *rules* in *COLL* or, as the case may be, *CIS*.

...  
8.2.3 Section 250 of the *Act* and regulation 7 of the *OEIC Regulations* allow the *FSA* to waive the application of certain *rules* in *COLL* and *CIS* to:

...  
8.2.7 Table Rules which can be waived (see SUP 8.2.6G)

Rules	Section of the Act or other Provision under which rules are made	Chapters of the Handbook where such rules appear (Note 1)
... <i>Authorised unit trust scheme rules</i>	Section 247	<u><i>COLL</i></u> and <i>CIS</i>
<i>Authorised unit trust scheme particulars rules</i>	Section 248	<u><i>COLL</i></u> and <i>CIS</i>
<i>Investment company with variable capital rules</i>	Regulation 6 of the <i>OEIC Regulations</i>	<u><i>COLL</i></u> and <i>CIS</i>

- ...
- 8.6.4 G In making *waiver* applications under section 250 of the *Act* or regulation 7 of the *OEIC Regulations*, SUP 8.6.2G(2) should be read in application to *rules* in *COLL* or *CIS* as if the word "commercial" were omitted.
- ...
- 10.7.10 G Compliance in *SYSC* 3.2.8R means compliance with the rules in *COB* and *COLL* or *CIS*. The *FSA* anticipates that some *firms* will include oversight of compliance with *PRIN*, *MAR*, and other requirements and standards, within its compliance function. These other responsibilities would not, however, be brought within the *compliance oversight function* (see also *SUP* 10.4.3G).
- ...
- 13.1.3 G (4) the marketing of a *UCITS* scheme by its operator in another *EEA State* under the *UCITS Directive* (see *COLLG* 2.1.8 and *CIS* 2.3.4G).
- ...
- 14.1.2 G (2) a *UCITS qualifier* that is an *authorised person* under Schedule 5 to the *Act*; a *UCITS qualifier* should, however, refer to *COLL* 9.2.1G and *CIS* for full details of applicable *rules* and *guidance*.
- ...
- 14.6.11 G Section 36 of the *Act* states that a *UCITS qualifier* may ask the *FSA* to give a direction cancelling its *authorisation* under paragraph 1(1) of Schedule 5 to the *Act*. *UCITS qualifiers* should also refer to *COLLG* 3.1.11 and *CIS* 17.4.8G (Revocation of recognition: schemes recognised under section 264 of the *Act*).
- ...
- 15.8.7 G A *UCITS management company* which delegates any of its functions to a third party must, as well as complying with *SUP* 15.8.6R, comply with the requirements in *COLL* 6.6.15R(2), *CIS* 7.6.1R(2) or *CIS* 7.10.4R(1) as appropriate.
- ...
- 16.6.8 R (1) (a) (ii) was not corrected in accordance with the *FSA's guidance* as set out in *COLL* 6.2.12G or *CIS* App as the case may be;
- (b) price *units* in the *AUT* in accordance with *COLL* 6.2 or *CIS* 4 as the case may be for single-priced *AUTs* and *CIS* 15 for dual-priced *AUTs*, where the pricing error was:
- ...
- (2) (a) (ii) was not corrected in accordance with the *FSA's guidance* as set out in *COLL* 6.2.12G or *CIS* App as the case may be;
- (b) price *shares* in the *ICVC* in accordance with the provisions of *COLL* 6.3 or *CIS* 4 for *ICVCs* as the case may be, where the pricing error was:
- ...

## Annex J

### Amendments to the Enforcement manual (ENF)

In this Annex underlining indicates new text and striking through indicates deleted text.

- 17.3.2 ...  
G
- (1) the duties imposed by *rules* made under *section 340(3)* of the *Act* (Appointment) contained in *SUP 3* (Auditors) and *SUP 4* (Actuaries) and, in the case of *firms* which are *ICVCs*, contained in *COLL 4* (Investor relations), ~~*COLL 7* (Suspension of dealings and termination of authorised funds)~~, *CIS 10* (Report and accounts) and *CIS 14* (Termination of authorised funds);
- ...  
17.3.3 G Under section 249 of the *Act* (Disqualification of auditor for breach of trust scheme rules) if it appears to the *FSA* that an auditor has failed to comply with the duties imposed on him by *trust scheme rules* it may disqualify him from being the auditor for any *AUT* or *ICVC*. These duties are set out in *COLL 4* (Investor relations), *COLL 7* (Suspension of dealings and termination of authorised funds), *CIS 10* (Report and accounts), and *CIS 14* (Termination of authorised funds).
- ...  
17.4.4 G ...
- (1) the nature and seriousness of any breach of *rules* and the effect of that breach: the *rules* are set out in *SUP 3* (Auditors) and *SUP 4* (Actuaries), and in the case of *firms* which are *ICVCs*, in *COLL 4* (Investor relations), *COLL 7* (Suspension of dealings and termination of authorised funds), *CIS 10* (Report and accounts), and *CIS 14* (Termination of authorised funds). The *FSA* will regard as particularly serious any breach of *rules* which has resulted in, or is likely to result in, loss to *consumers* or has resulted in, or is likely to result in, damage to confidence in the financial markets;
- ...  
17.4.5 G ...
- (1) the effect of the auditor's breach of a duty imposed by *trust scheme rules*: the *FSA* will regard as particularly serious a breach of a duty imposed by *trust scheme rules* (set out in *COLL 4* (Investor relations), *COLL 7* (Suspension of dealings and termination of authorised funds), *CIS 10* (Report and accounts), and *CIS 14* (Termination of authorised funds)) which has resulted in, or is likely to result in, loss to *consumers* or has resulted in, or is likely to result in, damage to the integrity of the financial markets;

## Annex K

### Amendments to the Decision Making manual (DEC)

In this Annex underlining indicates new text and striking through indicates deleted text.

- 1.2.5 Events leading to the giving of a *statutory notice* are covered in *AUTH*, *SUP*,  
 G *ENF* and *COLL* or *CIS*. *DEC 2Ann1G* and *DEC 3Ann1G* list the relevant references.

#### DEC 2: Statutory notice procedure: Warning notice and decision notice procedure

<i>initial margin</i>	(1) (in <u>COLL and CIS</u> ) ...
	...
<i>initial offer</i>	(in <u>COLL and CIS</u> ) an offer for sale of units in an authorised fund or in a sub-fund (otherwise than in accordance with <i>arrangements</i> of the type described in <u>COLL 5.5.9R(3)(b)(iii) (Guarantees and indemnities)</u> or, as the case may be, <i>CIS</i> 5.15.8R(3)(b)(iii) or (c) (Guarantees and indemnities)), where all or part of the consideration paid for the account of the authorised fund for the units is to be used to acquire the initial scheme property of the authorised fund or the initial scheme property attributable to the sub-fund.
	...
<i>initial price</i>	(in <u>COLL and CIS</u> ) (a) (in relation to a share of an ICVC or a unit in a single-priced AUT) the price to be paid for a <i>unit</i> of any class during the period of the initial offer under <u>COLL 6.2.3R (Initial offers)</u> or, as the case may be, <i>CIS</i> 4.2.4R(1) ( <i>Issue of units: initial offer</i> );
	...
<i>interim accounting period</i>	(in <u>COLL and CIS</u> ) ...
	...
<u>ISD instrument</u>	(in accordance with Schedule B of the Annex to the ISD) <u>any of the following investments:</u> (a) <u>transferable securities;</u> (b) <u>units in collective investment undertakings;</u> (c) <u>money-market instruments;</u>

- (d) financial-futures contracts, including equivalent cash-settled instruments;
- (e) forward interest-rate agreements
- (f) interest-rate, currency and equity swaps; and
- (g) options to acquire or dispose of any instruments falling within (a) to (f), including equivalent cash-settled instruments and options on currency and on interest rates.

...

*large deal*

(in *CIS*) ...;

(in *COLL*) a transaction (or series of transactions) in one dealing period by any person to buy, sell or exchange units in an authorised fund, of any value as set out in the prospectus, for the purposes of:

- (a) an SDRT provision;
- (b) a dilution levy; or
- (c) a dilution adjustment.

...

limited redemption arrangements

the arrangements operated by an authorised fund manager for the redemption of units in an authorised fund where the authorised fund manager holds himself out to redeem units in that scheme less frequently than twice in a calendar month in accordance with COLL 6.2.19R (Limited redemption).

...

*margin*

(in *COLL* and *CIS*) ...

...

*marginised contract*

(in *COLL* and *CIS*) ...

...

*marketing*

(in *COLL* and *CIS*) ...

...

non-UCITS retail scheme

an authorised fund which is neither a UCITS scheme or a qualified investor scheme.

...

<i>plan investor</i>	a person entered in the plan register under <u>COLL 6.4.9R (Plan registers)</u> or, as the case may be, <u>CIS 6.5.4R(7) (Requirement)</u> . ...
<i>plan register</i>	(1) ... (2) (in relation to an AUT) a sub- <i>register</i> to the register, which sub- <i>register</i> records persons who subscribe to a group plan and for whom units in the AUT are held for the purposes of the plan by the plan manager or a nominee (other than any sub- <i>register</i> that has not been established and maintained in accordance with <u>COLL 6.4.4R (Register: general requirements and contents)</u> or, as the case may be, <u>CIS 6.5.4R (Requirement)</u> or for the establishment of which no payments are to be made out of the scheme property). ...
<i>precious metals</i>	<u>(in COLL) gold, silver or platinum.</u> ...
<i>price</i>	(in relation to a unit in an ICVC or a single-priced AUT) the <i>price</i> of the unit calculated in accordance with <u>COLL 6.3 (Valuation and pricing)</u> or, as the case may be, <u>CIS 4 (Single pricing and dealing)</u> . ...
<i>prospectus</i>	(in relation to a collective investment scheme) a document containing information about the scheme and complying with the <i>requirements</i> in <u>COLL 4.2.5R (Table: contents of the prospectus)</u> , <u>COLL 8.3.4R (Table: contents of qualified investor scheme prospectus)</u> ; <u>COLL 9.3.2R (Additional information required in the prospectus for an application under section 272)</u> or, as the case may be, <u>CIS 3 or CIS 17</u> applicable to a <i>prospectus</i> of a scheme of the type concerned. ...

<i>qualified investor scheme</i>	<p><u>an authorised fund whose instrument constituting the scheme contains the statement in COLL 8.2.6R1(2) (Table: contents of the instrument constituting the scheme) that it is a <i>qualified investor scheme</i>.</u></p> <p>...</p>
<i>redemption charge</i>	<p>an amount levied by the operator of a scheme upon the redemption of units, in the case of an authorised fund under:</p> <p>(a) <u>COLL 6.7.7R (Charges on buying and selling units); or</u>  <del>(a)</del> CIS 8.2.7R (Redemption charge: ICVCs); or  <b>(b)</b>  <del>(b)</del> CIS 8.5.2R (Redemption charge: single-priced AUTs); or  <b>(c)</b>  <del>(c)</del> CIS 15.4.10R (Redemption charge).  <b>(d)</b></p> <p>...</p>
<i>register</i>	<p>...</p> <p><u>(in COLL) the register of unitholders kept under Schedule 3 to the OEIC Regulations or COLL 6.4.4R (Register: general requirements and contents) , or COLL 8.5.8R (The register of unitholders: AUTs) as appropriate or, in relation to a <i>collective investment scheme that is not an authorised fund</i>, a record of the holders (other than of <i>bearer certificates</i>) of units in it.</u></p> <p>...</p>
<i>sale</i>	<p>(in <u>COLL and CIS</u>) ...</p> <p>...</p>
<i>scheme of arrangement</i>	<p>(in <u>COLL and CIS</u>) an <i>arrangement</i> relating to an authorised fund ("transferor fund") or to a sub-fund of <del>an umbrella</del> <u>a scheme that is an <i>umbrella</i></u> ("transferor <i>sub-fund</i>") under which:</p> <p>...</p>

<i>standing independent valuer</i>	the person appointed as such under <u>COLL 5.6.20R (Standing independent valuer and valuation)</u> and <u>COLL 8.4.13R(1) (Standing independent valuer and valuation)</u> or, as the case may be, CIS 12.3.1R ( <i>Standing independent valuer</i> ).
	...
<i>transferable security</i>	(in <u>COLL</u> and CIS) an <u>investment</u> within <u>COLL 5.2.7R (Transferable securities)</u> , CIS 5.2.9R ( <i>Transferable securities</i> ) or, as the case may be, CIS 5A.2.9R ( <i>Transferable securities</i> ) in relation to <i>schemes</i> falling under <u>COLL 5</u> , CIS 5 or CIS 5A respectively.
	...
<i>trust deed</i>	(in <u>COLL</u> and CIS) the deed referred to in <u>COLL 3.2.3R (The trust deed for AUTs)</u> or, as the case may be, CIS 2.2.5R ( <i>The trust deed for AUTs</i> ), together with any deed expressed to be supplemental to it, made between the manager and the trustee (or, in the case of a recognised scheme that is a unit trust scheme, the instrument constituting the scheme as amended from time to time).
	...
<i>trust scheme rules</i>	rules in <u>COLL</u> and CIS made by the FSA under section 247(1) of the Act ( <i>Trust scheme rules</i> ) in relation to:
	...
<i>UCITS scheme</i>	<del>an authorised fund which complies with the conditions necessary for it to enjoy the rights conferred by the UCITS Directive.</del> <u>an authorised fund whose instrument constituting the scheme contains the statement in COLL 3.2.6R1(2) (Table: contents of the instrument constituting the scheme) that it is a UCITS scheme; unless:</u> (a) <u>the scheme raises capital without promoting the sale of its units to the public within the EEA or any part of it; or</u>

(b) the scheme's units, under its trust deed or its instrument constituting the scheme, may be sold only to the public in non-EEA States.

...

*umbrella*

(in COLL and CIS) ...

...

*umbrella scheme*

~~(in CIS) an authorised fund that is an umbrella.~~

(in CIS) an authorised fund that is an umbrella except in CIS 2.1 and CIS 5A where such a reference is to a scheme authorised as the type of scheme under CIS 2.1.4R(10) (Types of authorised fund).

...

*unitholder*

(in CIS).....

(in COLL)

(a) (in relation to an ICVC or an AUT as appropriate, and subject to COLL 4.4.4R (Special meaning of unitholder in COLL 4.4)):

(i) ( in relation to a unit which is represented by a bearer certificate) the person who holds that certificate; or

(ii) (in a relation a unit that is not represented by a bearer certificate) the person whose name is entered on the register in relation to that unit; or

(b) (in relation to a unit in a collective investment scheme not within (a)):

(i) the holder of a bearer certificate representing that unit; or

(ii) the person who is entered on the register of the scheme as the holder of that unit.

...

*valuation point*

(in COLL and CIS) a *valuation point* fixed by the authorised fund manager for the purpose of COLL 6.3.4R (Valuation points), COLL 8.5.9R (Valuation, pricing and dealing), CIS 4.8.5R (Regular *valuation points*), CIS 4.8.6R (Additional *valuation points*) or CIS 15.8.3(1) or (2)R (Frequency of valuation).

**LISTING RULES (TREASURY SHARES) (AMENDMENT) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act (“the Act”):
- (1) section 74 (The official list);
  - (2) section 96 (Obligations of issuers of listed securities); and
  - (3) section 101 (Listing rules: general provisions).

**Commencement**

- B. This instrument comes into force on 1 May 2004.

**Amendments to the Listing Rules**

- C. The Listing Rules are amended in accordance with the Annex to this instrument.

**Citation**

- D. This instrument may be cited as the Listing Rules (Treasury Shares) (Amendment) Instrument 2004.

By order of the Board  
18 March 2004

## Annex

### Amendments to the Listing Rules

In this Annex underlining indicates new text and striking through indicates deleted text.

12.43 The following items must, unless the UK Listing Authority otherwise agrees, be included in the annual report and accounts:

(n) ...

- (iii) in the case of sales of treasury shares for cash made otherwise than through the market, or in connection with an employees' share scheme, or otherwise than pursuant to an opportunity which (so far as was practicable) was made available to all holders of the company's securities (or to all holders of a relevant class of its securities) on the same terms, particulars of the names of purchasers of such shares sold, or proposed to be sold, by the company during the period under review;

...

...

15.23 The limit on discounts of more than 10% to the middle market price of securities set out in paragraphs 4.8, 4.26 and 4.30(b) will apply where a company is selling treasury shares for cash by way of a placing, open offer or vendor consideration placing. ~~Subject to paragraph 15.24 and 15.25, a company must not sell treasury shares for cash at a discount of more than 10% to the middle market price of those shares at the time of the sale otherwise than pursuant to an opportunity which is made available on the same terms to all holders of the company's shares (or to all holders of the relevant class of its shares).~~

15.24 ~~A company may sell treasury shares for cash otherwise than as contemplated in paragraph 15.23 where the UK Listing Authority is satisfied that the issuer is in severe financial difficulties or that there are other exceptional circumstances. Further the limit on the discount to middle market price in paragraph 15.23 shall not apply to a sale of treasury shares for cash if the sale is either:~~

- (a) ~~to a small number of persons who are specifically approved by shareholders in general meeting and who have been named in the circular for the general meeting; or~~
- (b) ~~pursuant to a general disapplication of section 89 of the Companies Act 1985 approved by shareholders in general meeting. Paragraph deleted – May 2004~~

15.25 ~~The prohibition in paragraph 15.23 will not apply to transfers of treasury shares for cash by a company to an employee share scheme under which participation is offered on similar terms to all or substantially all employees of the issuer and its subsidiaries. Paragraph deleted – May 2004~~

**APPLICATION FEES (UNAUTHORISED MUTUAL SOCIETIES REGISTRATION)  
(2004/2005) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) section 156 (General supplementary powers);
  - (2) section 157(1) (Guidance); and
  - (3) paragraph 17(1) of Schedule 1 (Fees).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) of the Act (Rule-making instruments).

**Commencement**

- C. This instrument comes into force on 1 April 2004.

**Amendments to the Unauthorised mutuals registration fees rules**

- D. The Unauthorised mutuals registration fees rules are amended in accordance with the Annex to this instrument.

**Citation**

- E. This instrument may be cited as the Application Fees (Unauthorised Mutual Societies Registration) (2004/2005) Instrument 2004.

By order of the Board  
18 March 2004

## Annex

### Amendments to the Unauthorised mutuals registration fees rules

In this Annex underlining indicates new text and striking through indicates deleted text. Where an entire new section of text is being inserted, the place where it goes is indicated and it is not underlined.

- 3.1R A *person* who submits to the *FSA* a proposal for the registration of a society must pay to the *FSA*, in full and without deduction, the fee specified for the type of application under Annex 1AR ~~for the year in which the fee is paid~~.
- 3.2R A *sponsoring body* wishing a set of rules to become *model rules* for the first time must pay to the *FSA*, in full and without deduction, the application fee specified in Annex 1AR ~~for the year in which the fee is paid~~.
- 3.3R Application fees must be paid by the method specified in Annex 1AR.

Insert new Annex 1AR after Annex 1R:

#### Application fees payable

##### Part 1 – Application fees payable to register a new society other than a credit union

Transaction	Amount payable (£)
Application using <i>model rules</i> without any amendment to the model	40
Application using <i>model rules</i> with between 1 and 6 amendments to the model	120
Application using <i>model rules</i> with between 7 and 10 amendments to the model	350
Application using <i>model rules</i> with 11 or more amendments to the model, or using free draft rules	950

##### Part 2 – Application fees payable by sponsoring bodies

This fee is not payable by sponsoring bodies in respect of the model rules of credit unions

Transaction	Amount payable (£)
Application for a new set of <i>model rules</i>	950

##### Part 3 – Method of payment of application fees

Payment method	Additional amount or discount applicable
Cheque	None

**INSOLVENCY PROVISIONS (COND AND FIT) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the power in section 157(1) (Guidance) of the Financial Services and Markets Act 2000.

**Commencement**

- B. This instrument comes into force on 1 June 2004.

**Amendment to Threshold Conditions (COND)**

- C. COND is amended in accordance with Annex A to this instrument.

**Amendment to The Fit and Proper test for Approved Persons (FIT)**

- D. FIT is amended in accordance with Annex B to this instrument.

**Citation**

- E. This instrument may be cited as the Insolvency Provisions (COND and FIT) Instrument 2004.

By order of the Board  
15 April 2004

## Annex A

### Amendments to the Threshold Conditions

In this Annex underlining indicates new text and striking through indicates deleted text:

2.4.4 G (2) Relevant matters may include but are not limited to:

...

- (c) whether there are any implications for the adequacy of the *firm's* resources arising from the history of the *firm*; for example, whether the *firm* has:

...

- (iii) been the subject of a receiving order or ~~administration order~~ been in administration; or
- (iv) had a bankruptcy or winding-up petition served on it, been the subject of a bankruptcy restrictions order (including an interim bankruptcy restrictions order) or offered a bankruptcy restrictions undertaking; or

## Annex B

### Amendments to The Fit and Proper test for Approved Persons

In this Annex underlining indicates new text:

2.3.1 G In determining a *person's* financial soundness, the *FSA* will have regard to any factors including, but not limited to:

...

- (2) whether, in the *United Kingdom* or elsewhere, the *person* has made any arrangements with his creditors, filed for bankruptcy, had a bankruptcy petition served on him, been adjudged bankrupt, been the subject of a bankruptcy restrictions order (including an interim bankruptcy restrictions order), offered a bankruptcy restrictions undertaking, had assets sequestrated, or been involved in proceedings relating to any of these.

**INTERIM PRUDENTIAL SOURCEBOOK FOR FRIENDLY SOCIETIES  
(AMENDMENT OF FORM 12) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 ("the Act"):
- (1) section 138 (General rule-making power);
  - (2) section 150(2) (Actions for damages); and
  - (3) section 156 (General supplementary powers).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C. This instrument comes into force on 1 May 2004 and, insofar as it applies to friendly societies' FSC1 or FSC3 return, only applies in respect of financial years ending on or after 31 December 2004.

**Amendment to the Interim Prudential sourcebook for friendly societies  
(IPRU(FSOC))**

- D. IPRU(FSOC) is amended in accordance with the Annex to this instrument.

**Citation**

- E. This instrument may be cited as the Interim Prudential Sourcebook for Friendly Societies (Amendment of Form 12) Instrument 2004.

By order of the Board  
15 April 2004

## Annex

### Amendments to the Interim Prudential sourcebook for friendly societies

In this Annex, underlining indicates new text and striking through indicates deleted text.

5.1 ...

- (5) A *friendly society* that submits an FSC1 return in respect of the *financial year* ending on 31 December 2003 must also send to its normal supervisory contact at the *FSA*, by 30 June 2004, Form 60 and associated Forms 11 and 12 as amended by the Interim Prudential Sourcebook for Friendly Societies (Solvency I Directive) Instrument 2003 and the Interim Prudential Sourcebook for Friendly Societies (Amendment of Form 12) Instrument 2004.

...

5.2 ...

- (10) A *friendly society* that submits an FSC3 return in respect of the *financial year* ending on 31 December 2003 must also send to its normal supervisory contact at the *FSA*, by 30 June 2004:
- (a) Forms 11 and 12 as amended by the Interim Prudential Sourcebook for Friendly Societies (Solvency I Directive) Instrument 2003 and the Interim Prudential Sourcebook for Friendly Societies (Amendment of Form 12) Instrument 2004; and
- (b) the amounts at line 12 of amended Form 15 and line 61 of amended Form 13, if these lines contain amounts different from the amounts at the same lines of the un-amended forms.

In Appendix 10 (Prudential reporting forms), FSC 3 – Form 12 is amended as follows:

## FSC 3 – FORM 12

### Returns under the Friendly Societies Prudential Rules

General insurance business: Calculation of required margin of solvency – second method, and statement of required minimum margin

Name of Society

Period ended 31 December

	Reg No	Units £/£000
<input style="width: 80%; height: 30px;" type="text"/>	<input style="width: 80%; height: 30px;" type="text"/>	<input style="width: 80%; height: 30px;" type="text"/>

Name of Fund/Summary

1 Last 12 months of this period

2 Last 12 months of the previous period

Reference period (means the three last preceding financial years) (Note 1)	11				
Claims paid in reference period	21				
Claims outstanding carried forward at the end of the period	23				
Claims outstanding brought forward at the beginning of the period	25				
Sub-total E (21 + 23 – 25)	29				
Sub-total F: Conversion of Sub-total E to annual figure (multiply by 12 and divide by the number of months in the reference period)	31				
Division of Sub-total AF	Other than health insurance	Up to and including sterling equivalent of 35M Euro x 26/100 (note 3)	32		
		Excess (if any) over 35M Euro x 23/100 (note 3)	33		
	Health insurance	Up to and including sterling equivalent of 35M Euro x 26/300 (note 3)	34		
		Excess (if any) over 35M Euro x 23/300 (note 3)	35		
Sub-total FG (32 to 35)	39				
Second result Sub-total FG x Sub-total D Sub-total C (or, if 0.5 is greater, x 0.5)	41				
Higher of first result and brought forward amount (Note 2)	42				
Required margin of solvency (the higher of lines 41 and 42)	43				
Minimum guarantee fund	44				
Required minimum margin (the higher of lines 43 and 44)	49				

#### NOTES

1. If the society has not been in existence long enough to acquire a reference period, this must be stated and lines 11 to 41 ignored.
2. The entry at line 42 must be equal to the entry at line 52 on Form 11.
3. Entries in column 2, lines 32-35 must be the corresponding entries in column 1 of the Form for the previous year, even if the amount of Euro in the description of the line has changed.

**DISTANCE MARKETING DIRECTIVE INSTRUMENT 2004****Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000("the Act"):
- (1)
    - (a) section 118(8) (Market abuse);
    - (b) section 138 (General rule-making power);
    - (c) section 139(1) and (4) (Miscellaneous ancillary matters);
    - (d) section 145 (Financial promotion rules);
    - (e) section 147 (Control of information rules);
    - (f) section 149 (Evidential provisions);
    - (g) section 156 (General supplementary powers);
    - (h) section 157(1) (Guidance);
    - (i) section 247 (Trust scheme rules); and
  - (2)
    - (a) regulation 6(1) of The Open-Ended Investment Companies Regulations 2001 (SI 2001/1228);
    - (b) regulation 3 of the Electronic Commerce Directive (Financial Services and Markets Act 2000) Regulations 2002 (SI 2002/1775); and
    - (c) regulation 2 of the Financial Services and Markets Act 2000 (Fourth Motor Insurance Directive) Regulations 2002 (SI 2002/2706).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments)of the Act.

**Commencement**

- C. This instrument comes into force as follows:
- (1) Annex B (Amendments to the Insurance: Conduct of Business sourcebook) comes into force on 14 January 2005;
  - (2) Annex C (Amendments to the Mortgages: Conduct of Business sourcebook) comes into force on 31 October 2004; and
  - (3) the remainder of this instrument comes into force on 9 October 2004.

**Amendments to the Handbook**

- D. The modules of the FSA's Handbook of rules and guidance listed in column (1) below are amended in accordance with the Annexes to this instrument listed in column (2).

---	--	--	--	--

...

Chapter 1 (title)      General aApplication and general provisions

...

1.2.1 R      *COB* applies to every *firm*, except that:

- ...
- (4)      *COB* does not apply to an *authorised professional firm* with respect to its *non-mainstream regulated activities* except for:

...

- (c) the following provisions of *COB* 4.2 (Terms of business and client agreements with customers); ~~*COB* 4.2.1R to *COB* 4.2.6G, *COB* 4.2.9R to *COB* 4.2.11E and *COB* 4.2.15E(26) *COB* 4.2.12AE and *COB* 4 Ann 2E(25).~~

...

1.2.5 G *Authorised professional firms* should be aware of the following:

- (1) ~~*PROF* 5.2 (Nature of nNon-mainstream regulated activities);~~

...

...

1.3.2 G (2) Most of *COB* applies in relation to *regulated activities*, conducted by *firms*, which fall within the definition of *designated investment business*. In relation to *deposits*, *COB* has limited application, as described in *COB* 1.11 (Application of *COB* in relation to deposits). In relation to pure protection contracts and general insurance contracts, *COB* has only limited application.

Application for private customers, intermediate customers, ~~and~~ market counterparties and retail customers

1.3.3 G ...

- (3) Some rules in *COB* (mainly those relating to *distance contracts*) use the term “*retail customer*” rather than “*customer*”, “*private customer*” or “*intermediate customer*”. A *retail customer* is an individual who is acting for purposes which are outside his trade, business or profession.

...

1.3.5 G *Firms* are reminded that the definition of *inter-professional business* does not include:

...

- (3) ... ;
- (4) concluding a *distance contract* with a *retail customer*.

...

1.4.3 R This sourcebook applies in relation to activities not within *COB* 1.4.2R (UK establishments: general) carried on with or for a *client* in the *United Kingdom*, ~~unless (if the office from which the activity is carried on were a separate person) the activity~~ except in any of the following cases:

- (1) this sourcebook does not apply in relation to an activity carried on from an office outside the *United Kingdom* which, if that office were a separate person, if the activity would fall within the overseas persons

exclusions in article 72 of the *Regulated Activities Order*; or ~~(2)~~ would not be regarded as carried on in the *United Kingdom*; ~~or~~

(2) COB 4.2 (Terms of business and client agreements with customers), COB 5 (Advising and selling) and COB 6 (Product disclosure and the customer's right to cancel or withdraw) do not apply to a firm with respect to an activity exclusively concerning a distance contract with a retail customer, if the following conditions are satisfied:

(a) the firm carries on the activity from an establishment maintained by the firm in an EEA State other than the United Kingdom;

(b) either that EEA State:

(i) has implemented the DMD; or

(ii) has obligations in its domestic law corresponding to those provided for by the DMD;

and, in either case, with the result that the obligations provided for by the DMD (or corresponding obligations) are applied by that State when the firm carries on that activity; and

(c) the firm is a national of an EEA State or a company or firm mentioned in article 48 of the Treaty.

...

1.4.7 R In addition to the situations in *COB 1.4.2R* and *COB 1.4.3R*, *COB 6* (Product disclosure and the customer's right to cancel or withdraw) applies in relation to long term insurance business if the habitual residence of the client is in the United Kingdom, other than except:

(1) *COB 6.3* (Post-sale confirmation: life policies) ~~and~~;

(2) *COB 6.9* (With-profits guides); and

(3) (in relation to the conclusion of a distance contract with a retail customer and if the conditions in *COB 1.4.3R(2)* are satisfied) *COB 6.7* (Cancellation and withdrawal) and any provision of *COB 6* which requires the provision of information prior to the conclusion of the contract.

~~applies in relation to long term insurance business if the habitual residence of the client is in the United Kingdom.~~

General insurance business

1.4.8 R In addition to the situations in *COB 1.4.2R* and *COB 1.4.3R*, *COB 6.8* (Insurance contracts: life and general) applies in relation to general insurance business if the State of the risk is the United Kingdom (except, in relation to

the conclusion of a *distance contract* and if the conditions in *COB 1.4.3R(2)* are satisfied, any provision of *COB 6.8* which requires the provision of information prior to the conclusion of the contract).

...	

...

1.6.5A G *COB 6.7 (Cancellation and withdrawal) has limited application for corporate finance business. Distance contracts concluded with retail customers in the course of corporate finance business are exempt from COB 6.7 if the price of the financial service is dependent on fluctuations in the financial market outside the firm's control (COB 6.7.17R, row 2, case 15(a)).*

...

The Distance Marketing Directive

1.9.3 G The *Distance Marketing Directive* is also relevant for *electronic commerce activities* and *communications*. The *E-Commerce Directive* applies in relation to any commercial transaction entered into over the Internet; the *Distance Marketing Directive* applies only in relation to contracts for financial services concluded exclusively by any means of *distance communication* such as telephone, fax or mail as well as electronic communications. *COB 1.10 (Application of the Distance Marketing Directive and the Distance Marketing Regulations)* provides *guidance* on the *Distance Marketing Directive*.

After *COB 1.9* insert the following new sections:

1.10 Application of the Distance Marketing Directive and the Distance Marketing Regulations

1.10.1 G This section provides *guidance* on certain expressions used in *COB* that are derived from the *Distance Marketing Directive* and on the application of the *Distance Marketing Regulations*.

Initial service agreement and successive operations

1.10.2 G This sourcebook adopts the concepts of "initial service agreement" and "successive operations" from the *DMD*.

(1) A *firm's* contract with a *customer* may take the form of an initial service agreement under which successive operations or a series of separate operations of the same nature are performed over time. Where this is the case, the *DMD* disclosure and cancellation requirements apply in relation to the initial service agreement only and not to the successive or separate operations. However, if new elements are added to the initial service agreement, the addition of those new elements is treated as a new contract to which the *DMD* disclosure and cancellation requirements apply. In accordance with recital 17 of the *Distance Marketing Directive*, examples are:

- (a) the opening of a bank account, which would be an initial service agreement, and the deposit or withdrawal of funds from that account which would be a successive or series of separate operations under that initial agreement; however, adding a debit card to the account would be the addition of a new element involving a separate contract; and
- (b) concluding an *investment management* agreement would be an initial service agreement, and carrying on discretionary or advisory transactions under that agreement would be a successive or a series of separate operations under it.

Other examples are, in the *FSA's* view:

- (c) opening a brokerage account for the purposes of trading securities, and transactions under that account;
- (d) establishing a facility to enable a *customer* to subscribe to an *ISA* for the present and future tax years, and successive subscriptions under that agreement;
- (e) subscribing to an *investment trust savings scheme*, and successive purchases or sales of *shares* under that scheme; and
- (f) concluding a *life policy*, *pension contract* or *stakeholder pension scheme* that includes a pre-selected option providing for future increases or decreases in regular *premiums* or payments, and subsequent *index-linked* changes to those

premiums or increases or decreases to pension contributions following fluctuations in salary.

- (2) Even if a *firm* has not entered into an initial service agreement with a *retail customer*, but simply performs successive operations or a series of separate operations of the same nature for a *retail customer* over time, the *DMD* disclosure requirements will not apply to the successive or separate operations, provided there has been an operation of the same nature within the past year. But if it has been longer than a year, the next operation will be treated as the first in a new series of operations and the *DMD* disclosure requirements will apply. In accordance with recital 17 of the *Distance Marketing Directive*, an example of “successive operations” is the subscription to *units* of the same *collective investment scheme*.

#### Retail customer

- 1.10.3 G (1) The *Distance Marketing Directive* provides protections for ‘any natural person who, in distance contracts ... is acting for purposes which are outside his trade, business or profession’, for which the *FSA* uses the term ‘*retail customer*’. In practice, private individuals may act in a number of capacities. In the *FSA*’s view *retail customer* does not include an individual acting, for example:
- (a) as trustee of a trust such as a housing or NHS trust; or
  - (b) as member of the governing body of a club or other unincorporated association such as a trade body or a student union; or
  - (c) as a pension trustee (but see *COB* 6.4.19R and *COB* 6.7.8R regarding the information and cancellation rights of such trustees).
- (2) Examples of *retail customers* are:
- (a) personal representatives, including executors, unless they are acting in a professional capacity, for example, a solicitor acting as executor; or
  - (b) private individuals acting in personal or other family circumstances for example, as trustee of a family trust.

1.10.4 not used

#### Use of intermediaries

- 1.10.5 G The mere fact that an intermediary (acting for the supplier or for the *retail customer*) is involved, does not make the sale of a financial product or service a *distance contract*. The same principles apply as in the case of contact between the supplier and a *retail customer*. For example, if the intermediary and *retail customer* are simultaneously physically present at some stage in the

course of the offer, negotiation and conclusion of a contract, the contract will not be a *distance contract*.

#### Distance contracts for intermediation services

- 1.10.6 G Some of the services which some intermediaries provide will themselves fall within the scope of the *DMD*. The *FSA* expects this to apply in only a small minority of cases, for example where the intermediary agrees to provide continuing advisory, broking or portfolio management services for a *retail customer*. The *DMD* is only relevant if:
- (1) there is a contract between the intermediary and the *retail customer* in respect of the intermediary's mediation services; an intermediary may in its *terms of business* make clear that it does not, in providing its mediation services, act contractually on behalf of, or for, its *retail customer* and then proceed on the basis that no contract for its mediation services will arise;
  - (2) the contract is a *distance contract*; and
  - (3) the contract is concluded other than merely as a stage in the provision of another service by the intermediary or another *person* (see *COB 4 Ann 1R(13)* and *COB 6.7.17*, Row 1, case D(a)).

#### Application of parts of the Distance Marketing Regulations

- 1.10.7 G *COB* implements most of the *Distance Marketing Directive* for *distance contracts* concluded by *firms*, the making or performance of which constitutes, or is part of, *designated investment business* or *accepting deposits*. However, certain aspects of the *Distance Marketing Directive* are implemented by provisions of the *Distance Marketing Regulations*, which apply in addition to *COB*, in particular:
- (1) regulation 11 (Automatic cancellation of an attached distance contract) on which there is guidance in *COB 6.7.51A*; and
  - (2) regulation 13 (Payment cards).

#### 1.11 Application of COB in relation to deposits

Chapter 2 ~~General r~~ Rules which apply to all firms conducting designated investment business  
(title)

...

- 2.5.1 R (1) This section (other than *COB 2.5.5R*) applies to a firm that ~~makes any written or oral communication to a *customer* in the course of, or in connection with,~~ its conducts *designated investment business*.
- (2) This section (other than *COB 2.5.3R* and *COB 2.5.4R*) applies to a *firm* which enters into a *distance contract* to accept deposits with a *retail customer*.

Purpose

- 2.5.2 G This section amplifies *Principle 6* (Customers' interests) which requires a *firm* to pay due regard to the interests of its *customers* and treat them fairly. ~~A *firm* may not exclude the duties it owes or the liabilities it has to a *customer* under the *Act* or the *regulatory system*. It may exclude the other duties and liabilities only if it is reasonable for it to do so.~~

Limits on the exclusion of liability: designated investment business

- 2.5.3 R A *firm* must not in any written or oral communication, seek to exclude or restrict, or to rely on any exclusion or restriction of, any duty or liability it may have to a *customer* (which for these purposes includes a *retail customer*) under the *regulatory system*.

...

Limits on the exclusion of liability: distance contracts to accept deposits

- 2.5.5 R A firm must not, in any written or oral communication to a retail customer in connection with a distance contract to accept deposits with a retail customer, seek to exclude or restrict, or to rely on any exclusion or restriction of, any duty or liability it may have to a retail customer under COB (but see COB 1.11.2R (Exemption for firms which follow the Banking Code Guidance)).

After COB 2.5 (Exclusion of liability), insert the following new section:

2.6 General provisions related to distance contracts

Application

- 2.6.1 R This section applies to a *firm* which:

- (1) conducts *designated investment business* with or for a *retail customer* in relation to a *distance contract*; or
- (2) enters into a *distance contract to accept deposits* with a *retail customer* (but see COB 1.11.2R (Exemption for firms which follow the Banking Code Guidance)).

Pre-contract information about contractual obligations to be in conformity with contract

- 2.6.2 R A *firm* must ensure that information provided to a *retail customer* before the conclusion of a *distance contract* about his contractual obligations under that contract conforms with the contractual obligations that would be imposed on him under the law applying if the contract were concluded.

Unsolicited services

- 2.6.3 R Subject to COB 2.6.4R, a *firm* must not:

- (1) *advise on, arrange, enter into* or conduct any *designated investment business* in relation to a *distance contract* with a *retail customer* without a prior request on his part, when the supply of such service includes a request for immediate or deferred payment; or
- (2) enforce any obligations against a *retail customer* in the event of unsolicited supplies of such services, the absence of reply not constituting consent.

- 2.6.4 R COB 2.6.3R does not apply for a tacit renewal of a *distance contract*.

Paper copy of contractual terms and conditions

- 2.6.5 R During the course of a *distance contract* with a *firm*, if a *retail customer* requests a paper copy of his contractual terms and conditions, the *firm* must provide it without additional charge and without delay.

Change in means of distance communication

2.6.6 R During the course of a *distance contract*, a *firm* must comply with a *retail customer's* request to change the *means of distance communication* used, unless this is incompatible with the *distance contract* concluded or the service being provided by the *firm*.

...

3.3.1 R This chapter applies to a *firm* only in relation to:

...

(3) ...

subject to *COB 3.3.3R* (Exceptions to territorial scope: rules without territorial limitation) and *COB 3.3.4AR* (Exceptions to territorial scope: distance contracts).

...

Exceptions to territorial scope: rules without territorial limitation

3.3.3 R The following parts of this chapter apply without any territorial limitation, subject to *COB 3.3.4AR*:

...

...

Exceptions to territorial scope: distance contracts

3.3.4A R (1) Notwithstanding *COB 3.3.1R* and *COB 3.3.3R*, this chapter, other than the rules in (3), does not apply to a *firm* when it *communicates a financial promotion*, if the conditions in (2) are satisfied:

(2) The conditions are that:

(a) the *firm* communicates the *financial promotion* from an establishment maintained by the *firm* in an *EEA State* other than the *United Kingdom*, and not from an establishment maintained by the *firm* in the *United Kingdom* or outside the *EEA*;

(b) either that *EEA State*:

(i) has implemented the *DMD*; or

(ii) has obligations in its domestic law corresponding to those provided for by the *DMD*;

(c) the *financial promotion* relates, exclusively, to a *distance contract*, for the conclusion of which the obligations provided for by the *DMD* (or corresponding obligations) are applied by that State; and

(d) the *firm* is a national of an *EEA State* or a company or firm mentioned in article 48 of the *Treaty*.

(3) The *rules* which continue to apply, notwithstanding this *rule*, are:

(a) *COB 3.8.4R* (Non-real time financial promotions: clear, fair and not misleading; comparisons; restriction of information on compensation);

(b) *COB 3.8.22R(1)* and (2) (Real time financial promotions);

(c) *COB 3.9.5R* (Prohibited types of direct offer financial promotion);

(d) *COB 3.10* (Unsolicited real time financial promotions);

(e) *COB 3.11* (Unregulated collective investment schemes and qualified investor schemes); and

(f) *COB 3.13.1R* (Additional requirements for financial promotions for an overseas long-term insurer).

...

3.9.6 R (1) A direct offer financial promotion must be in a *durable medium* and contain sufficient information to enable a *person* to make an informed assessment of the *investment* or service to which it relates.

(2) In particular, a *direct offer financial promotion* must contain:

(a) the information set out in ~~*COB 3.9.7R-App 1*~~ (the information in *COB App 1.1.1R(1)* and (4) must be provided in relation to the *person* offering the *investment* or service and, if different, the *firm communicating* or *approving the financial promotion*);

(b) a prominent statement that, if the *person* has any doubt about the suitability of the agreement which is the subject of the *financial promotion*, he should contact the *firm* which has *communicated* or *approved the financial promotion* for advice (or an independent financial adviser if the *firm* does not offer *advice*);

(c) if the *financial promotion* is *communicated* by a *firm* whose *permission* includes a *requirement* that it must not hold *client money*, the name of the *person* to whom payment (if any) should be made;

(d) details of the basis or amount of any *commission* or *remuneration* which might be payable by the *person* who is offering the *investment* or service to another *person*.

- 3.9.7 R ~~[deleted] Direct offer financial promotions: particular information required~~  
~~This table belongs to COB 3.9.6R(2)~~

Delete the table "Direct offer financial promotions: particular information required".

Contractual terms and conditions for distance contracts

- 3.9.7A R (1) A firm must ensure that a retail customer is provided with all the contractual terms and conditions on which its service will be provided in a durable medium in good time before the retail customer is bound to the firm by a distance contract or offer resulting from a direct offer financial promotion, unless an exemption in (2), (3) or (4) applies:

- (2) Exemption: means of distance communication

This exemption applies if the contract is concluded at the retail customer's request using a means of distance communication which does not enable provision of the contractual terms and conditions in a durable medium in accordance with (1). In that case, the firm must provide the retail customer with the information in a durable medium immediately after conclusion of the distance contract.

- (3) Exemption: successive or separate operations under an initial service agreement

This exemption applies if the firm has an initial service agreement with the retail customer and the contract is in relation to a successive operation or separate operation of the same nature under that agreement (see COB 1.10.2G(1)).

- (4) Exemption: other successive or separate operations

This exemption applies if:

- (a) the firm has no initial service agreement with the retail customer;
- (b) the firm has performed an operation with the retail customer within the last year; and
- (c) the contract is in relation to a successive operation or separate operation of the same nature (see COB 1.10.2G(2)).

Cash deposit ISAs

3.9.8 R ~~(1) A direct offer financial promotion relating to a cash deposit ISA must contain the information required by COB 6.5.42R (1) to (8) (but see COB 1.11.2R (Exemption for firms which follow the Banking Code Guidance)).~~

~~(2) Paragraph (1) does not apply to a bank or building society which subscribes to, and includes in the direct offer financial promotion the information relating to a cash deposit ISA that is suggested in the January 2001 edition of the Banking Code the "Guidance for subscribers" to the Banking Code issued by the British Bankers' Association, the Building Societies Association and the Association for Payment Clearing Services.~~

...

3.9.10 R A direct offer financial promotion relating to a packaged product must contain the information required by COB 6.5.2R(1), (3) and (5) as applicable (Contents of key features).

...

Cancellation rights EIS or non-packaged product, ISA or PEP with no right of withdrawal

3.9.21 R ~~(1) A direct offer financial promotion which relates to an investment which is subject to cancellation or withdrawal rights must describe those rights and explain:~~

~~(a) The length of the cancellation or withdrawal period, and when it will begin;~~

~~(b) Whether cancellation or withdrawal is a legal right or voluntarily conferred;~~

~~(c) (if it is the case) that there might be a shortfall, or, if applicable, a significant shortfall, on cancellation.~~

~~(2) A direct offer financial promotion which relates to an EIS or non-packaged product, ISA or PEP for which no right to withdraw is given under case 8 of column row 2, COB 6.7.17R, must include the statement required by that provision.~~

~~3.9.22 G [deleted]The description 'significant shortfall' is appropriate for higher volatility funds where a large proportion of the investment may be lost during the cancellation period.~~

...

4.2.1 R This section applies to a firm intending to conduct or conducting designated investment business with or for a specific customer, unless the designated business relates to the type of transaction or firm in

column A of COB 4.2.9R and is limited to the type of business specified in the same row in column B. \_

#### Meaning of 'private customer'

- 4.2.2 ~~G~~  
R In this section, COB 4.2, references to a 'private customer' include, in relation to the conclusion of a distance contract, a retail customer, and references to 'customer' are to be interpreted accordingly.  
~~This section does not apply to transactions relating to a cash deposit ISA held on deposit with a deposit-taking firm, since it is not a designated investment.~~

#### Authorised professional firms

- 4.2.3 G If an authorised professional firm conducts a non-mainstream regulated activity for a customer (whether with or without any other regulated activity for the customer) then, subject to COB 4.2.8G, the effect of COB 1.2.1R(4) and PROF 5.4 is that:

- (1) terms of business must be provided in accordance with COB 4.2.5R; but
- (2) with respect to the non-mainstream regulated activity the terms of business should satisfy COB 4.2 as to content if it contains ~~the effect of~~ the disclosure in ~~COB 4.2.15E(26)~~ COB 4 Ann 2E(25); and
- (3) the Distance Marketing Regulations may apply and require the provision of pre-contractual information in certain circumstances.

#### Purpose

- 4.2.4 G COB 4.2 amplifies Principle 6 (Customers' interests) and Principle 7 (Communications with clients). These requires a firm to pay due regard to the interests of its customers and to their information needs, of its customers, to treat them fairly and to communicate information to them which is clear, fair and not misleading. A customer needs to know on what basis a firm intends to do business with him. Terms of business or a client agreement set this out. the basis on which a firm conducts any designated investment business with or for the customer.

#### Requirement to provide terms of business to a customer

- 4.2.5 R (4) Unless any of the exemptions in COB 4 Ann 1R applies, a customer A firm must, in good time before designated investment business is conducted, provide a customer be provided with its a firm's terms of business, setting out the basis on which the designated investment business is to be conducted with or for the customer within the period specified in (2) or

(3).

- (2) ~~A firm must, before conducting any designated investment business with or for a specific private customer, provide him with its terms of business, unless the customer has made an oral offer to enter into an investment agreement relating to an ISA, or a stakeholder pension scheme, that relates to a designated investment, in which case the terms of business must be provided to him within five business days of the offer.~~
- (3) ~~If the customer is an intermediate customer, the firm must provide its terms of business within a reasonable period of the firm beginning to conduct designated investment business with or for the customer.~~

4.2.6 G ~~[deleted]-COB 4.2.5R(2) does not require a firm to provide information that, by its nature, is unavailable at the time the terms of business are issued. For example, a firm will not necessarily know a private customer's investment objectives before providing terms of business, since it may not be possible to determine the private customer's requirements without undertaking know your customer checks, as required by COB 5.2. In these circumstances, the firm should notify the private customer of any relevant information set out in COB 4.2.15E and COB 4.2.16E as soon as practicable after it becomes available.~~

- 4.2.6 G (1) Terms of business will be provided in 'good time' for the purposes of COB 4.2.5R if provided in sufficient time to enable the customer to consider properly the service or investment on offer before he is bound.
- (2) COB 4.2.5R does not require the same information to be provided again if the customer already has it (for example through a direct offer financial promotion).

...

4.2.9 R ~~[deleted]-Designated investment business to which the terms of business and client agreement requirements in this section do not apply.  
This table belongs to COB 4.2.1R~~

Delete the table "Designated investment business to which the terms of business and client agreement requirements in this section do not apply".

Contents of terms of business Adequate detail

4.2.10 R A firm must ensure that its terms of business (including a client agreement with a customer) provided in accordance with this section, COB 4.2:

- (1) set out in adequate detail the basis on which it will conduct

designated investment business with the customer; and

(2) (in respect of distance contracts with retail customers) include all contractual terms and conditions and the information set out in COB App 1. ~~designated investment business is to be conducted~~

4.2.11 E (1) A firm should, in order to provide adequate detail, include in its *terms of business* provided to a customer:

(a) a provision about each item set out in COB 4 Ann 2E and COB 4 Ann 3E ~~COB 4.2.15E and COB 4.2.16E~~, except those the customer has requested not to be included; and

(b) any further or alternative provisions that the customer has asked for and on his own initiative agreed with the firm;

to the extent that each such provision is relevant in the circumstances and that it is practicable to provide it.

(2) Compliance with (1) may be relied on as tending to establish compliance with COB 4.2.10R (1).

(3) Contravention of (1) may be relied on as tending to establish contravention of COB 4.2.10R (1).

#### Information not available at time of issue of terms of business

4.2.11AR A firm is not required to provide information under COB 4.2.10R that, by its nature, is unavailable at the time the terms of business are issued. In such circumstances, the firm must notify the customer of any relevant information as soon as practicable after it becomes available and, in the case of a distance contract with a retail customer, in good time before the contract is concluded.

4.2.11BG COB 4.2.11AR will apply, for example, where a firm does not know a private customer's investment objectives before providing terms of business, as it cannot determine the private customer's requirements without undertaking know-your-customer checks, as required by COB 5.2.

#### Terms of business provided in more than one document

4.2.12 R A firm's *terms of business* provided to a customer may comprise more than one document, provided that it is clear that collectively they constitute the *terms of business*, and provided the use of several documents does not materially diminish the significance of any information the firm is required to give the customer, or the ease with which this can be understood.

#### Contents of terms of business: non-mainstream regulated activities of an authorised professional firm

- 4.2.12A E (1) An authorised professional firm should include, in its terms of business, the information in COB 4 Ann 2E (25).
- (2) For an authorised professional firm, with respect to its non-mainstream regulated activities and as to the content only of its terms of business:
- (a) compliance with (1) may be relied on as tending to establish compliance with COB 4.2.5R; and
- (b) contravention of (1) may be relied on as tending to establish contravention with COB 4.2.5R.

...

#### Records

4.2.14 R ...

Delete in their entirety the tables at *COB 4.2.15E* and *COB 4.2.16E* which are replaced by the new Annexes *COB 4 Ann 2E* and *COB 4 Ann 3E*.

At the end of *COB 4*, insert the following new Annexes:

1 Table: Circumstances in which the terms of business requirement in COB 4.2.5R does not apply and conditions for using the exemption (R)

This table belongs to COB 4.2.5R

	<b>Exempted type of firm or transaction or event:</b>	<b>Conditions for using the exemption:</b>
(1)	Voice telephony communications	(a) At the beginning of the telephone conversation, the <i>firm</i> must provide the <i>customer</i> with the name of the <i>firm</i> and (if the call is initiated by or on behalf of the <i>firm</i> ) the commercial purpose of the call;  (b) if the <i>customer</i> gives his explicit consent to receiving only limited information about the <i>terms of business</i> , the <i>firm</i> must in good time before the <i>retail customer</i> is bound by a contract or offer on the telephone, provide the <i>customer</i> with the following information:
		(i) the name of the person in contact with the <i>customer</i> and his link with the <i>firm</i> ;
		(ii) a description of the main characteristics of the service;
		(iii) the total price to be paid by the <i>customer</i> to the <i>firm</i> for the services, including all related fees, charges and expenses, and all taxes paid through the <i>firm</i> or, where an exact price cannot be indicated, the basis for the calculation of the price enabling the <i>customer</i> to verify it; and notice of the possibility that other taxes or costs may exist that are not paid through the <i>firm</i> or imposed by it;

		(iv) the existence or absence of a right to cancel under <i>COB 6.7</i> and, where there is such a right, its duration and the conditions for exercising it, including information on the amount which the <i>customer</i> may be required to pay in accordance with <i>COB 6.7.52R(1)(b)</i> , as well as the consequences of not exercising it; and
		(v) that other information is available on request and the nature of that information;
		<p>(c) if the <i>customer</i> does not give his explicit consent to receiving only the limited information in (b), and the parties wish to proceed by telephone, the <i>firm</i> must in good time before the <i>retail customer</i> is bound by a contract or offer on the telephone, provide all of the information required by <i>COB App 1</i> orally to the <i>customer</i>; and</p> <p>(d) in the case of either (b) or (c), the <i>firm</i> must immediately after conclusion of the contract, send the <i>customer</i> a full <i>terms of business</i>.</p> <p>(See also <i>COB 3.8.21G</i> (Real time financial promotions) and <i>COB 3.10</i> (Unsolicited real time financial promotions)).</p>
(2)	The service is being provided exclusively by <i>means of distance communication</i> (other than telephone) which does not enable a <i>terms of business</i> to be provided before a contract is concluded	<p>(a) The service is provided in this way at the <i>customer's</i> request; and</p> <p>(b) the <i>firm</i> must send the <i>terms of business</i> to the <i>customer</i> immediately after conclusion of the contract.</p>

(3)	The <i>firm</i> has an initial service agreement with the <i>customer</i>	The <i>designated investment business</i> to be conducted is a successive operation or separate operation of the same nature to be performed for the <i>customer</i> under that initial agreement (see <i>COB</i> 1.10.2G(1)).
(4)	The <i>firm</i> has no initial service agreement with the <i>customer</i> but the <i>designated investment business</i> to be conducted is a successive operation or separate operation of the same nature for the <i>customer</i> (see <i>COB</i> 1.10.2G(2))	The <i>firm</i> has performed an operation of the same nature for the <i>customer</i> within the last year.
(5)	<i>Life insurer</i>	The <i>firm</i> is <i>effecting</i> a <i>life policy</i> issued or to be issued by it as <i>principal</i> .
(6)	<i>Operator of a collective investment scheme</i>	The <i>firm</i> is: (a) conducting any <i>designated business</i> as part of <i>scheme management activity</i> ; or (b) providing any service to the <i>trustee</i> or <i>depository</i> of the <i>scheme</i> which is not part of the <i>operator's scheme management activity</i> ; or (c) selling or purchasing as <i>principal units</i> in a <i>scheme</i> except a sale or purchase of <i>units</i> in an <i>unregulated collective investment scheme</i> under a <i>distance contract</i> with a <i>retail customer</i> .
(7)	<i>Trustee or depository</i>	The <i>firm</i> is acting as a <i>trustee</i> of a <i>unit trust</i> or <i>depository</i> of an <i>ICVC</i> .

(8)	<i>Operator of investment trust savings scheme</i>	The <i>firm</i> is: (a) bringing about a transaction in the <i>shares</i> of any <i>investment trust</i> that is the subject of the <i>scheme</i> ; or (b) conducting any <i>designated investment business</i> as part of its activities as such (except a <i>distance contract</i> not within (a) with a <i>retail customer</i> ).
(9)	<i>Supplier of a published recommendation</i>	The <i>firm</i> is supplying a <i>published recommendation</i> .
(10)	<i>OPS firms</i> who are <i>trustees</i> of an <i>OPS</i>	The <i>firm</i> is carrying on any <i>designated investment business</i> as part of its <i>OPS activity</i> in relation to an <i>occupational pension scheme</i> of which it is <i>trustee</i> .
(11)	Advising during preparation of <i>terms of business</i>	The <i>advice</i> on <i>investments</i> or information is provided solely for the purpose of preparing <i>terms of business</i> or entering into a <i>client agreement</i> .
(12)	<i>Designated investment business</i> performed after termination of <i>terms of business</i>	The <i>firm</i> is acting for the purposes only of fulfilling any obligations still outstanding under the <i>terms of business</i> .

(13)	<i>Execution-only transactions</i>	<p>The <i>firm</i> is entering into or bringing about any <i>execution-only transaction</i> except:</p> <p>(a) a transaction in a <i>contingent liability investment</i> with or for a <i>private customer</i>; or</p> <p>(b) where the <i>firm</i> is entering into a <i>distance contract</i> with a <i>retail customer</i>, unless the contract:</p> <p>(i) relates solely to <i>dealing as agent, advising</i> or <i>arranging</i> by the <i>firm</i>; and</p> <p>(ii) is concluded merely as a stage in the provision of another service by the <i>firm</i> or another <i>person</i> (see <i>COB 1.10.6G</i>).</p>
(14)	<i>Direct offer financial promotion</i>	<p>The <i>firm</i> is concluding a contract with a <i>customer</i> as a result of a <i>direct offer financial promotion</i> to which <i>COB 3.9</i> (Direct offer financial promotions) applies. (<i>COB 4.2.5R</i> (Requirement to provide terms of business to a customer) may therefore apply for a contract concluded as a result of a <i>direct offer financial promotion</i> communicated to a <i>person</i> outside the <i>United Kingdom</i>.)</p>
(15)	The <i>customer</i> is an <i>intermediate customer</i> and not a <i>retail customer</i>	<p>The <i>firm</i> must provide <i>terms of business</i> within a reasonable period of the <i>firm</i> beginning to conduct business with or for the <i>customer</i>.</p>

## 1 Table Content of terms of business provided to a customer: general requirements

This table belongs to COB 4.2.11E

A <i>firm's terms of business</i> (including a <i>client agreement</i> ) provided to a <i>customer</i> should, where relevant, include some provision about:	
(1)	Commencement of the terms of business When and how the <i>terms of business</i> are to come into force.
(2)	Regulator The <i>firm's</i> statutory status (in accordance with GEN 4 Ann 1R (Statutory Status Disclosure)).
(3)	Investment objectives The <i>customer's</i> investment objectives.
(4)	Restrictions (a) Any restrictions on: (i) the types of <i>designated investment</i> in which the <i>customer</i> wishes to invest; and (ii) the markets on which the <i>customer</i> wishes transactions to be <i>executed</i> ; or (b) that there are no such restrictions.
(5)	Services The services the <i>firm</i> will provide.
(6)	Payments for services Details of any payment for services payable by the <i>customer</i> to the <i>firm</i> , including where appropriate: (a) the basis of calculation; (b) how it is to be paid and collected; and (c) how frequently it is to be paid; whether or not any other payment is receivable by the <i>firm</i> (or to its knowledge by any of its <i>associates</i> ) in connection with any transaction <i>executed</i> by the firm, with or for the customer, in addition to or in lieu of any <i>fees</i> .
(7)	Investment manager If the <i>firm</i> is to act as an <i>investment manager</i> :
	(a) the arrangements for giving instructions to the firm and acknowledging those instructions;
	(b) the initial value of the managed portfolio;
	(c) the initial composition of the managed portfolio; and

	(d)	the period of account for which statements of the portfolio are to be provided in accordance with <i>COB 8.2.4R</i> (Requirement for a periodic statement) (where <i>periodic statements</i> are required).
(8)	Accounting	The arrangements for accounting to the <i>customer</i> for any transaction <i>executed</i> on his behalf.
(9)	Cancellation and withdrawal	<p>(a) In the case of a <i>non-packaged product ISA</i> or <i>PEP</i>, an explanation of any right to withdraw (see <i>COB 6.7</i> (Cancellation and withdrawal)) or, if it is the case, a statement that such rights will not apply.</p> <p>(b) (In the case of <i>ISAs</i>), information about:</p> <p>(i) the options available on cancellation;</p> <p>(ii) how cancellation will operate in circumstances where the account forms part of, for example, a <i>maxi-ISA</i> which contains other components; and</p> <p>(iii) a statement that the effect of cancelling the last component has the effect of cancelling the entire <i>ISA</i> agreement and may also (where it is the case) delay the <i>customer</i> from entering into another <i>ISA</i> agreement until the next tax year.</p>
(10)	Unsolicited real time financial promotion	In the case of a <i>private customer</i> , the circumstances, if any, in which the <i>firm</i> or its <i>representative</i> or <i>employees</i> may <i>communicate</i> an <i>unsolicited real time financial promotion</i> to the <i>private customer</i> .
(11)	Acting as principal	That the <i>firm</i> may act as <i>principal</i> in a transaction with the <i>customer</i> , if this is the case.
(12)	Conflict of interest and material interest	When a <i>material interest</i> or conflict of interest may or does arise, the manner in which the <i>firm</i> will ensure fair treatment of the <i>customer</i> as required by <i>COB 7.1.3R</i> (Fair treatment).
(13)	Broker fund adviser	If the <i>firm</i> acts as a <i>broker fund adviser</i> for a <i>private customer</i> , a statement explaining the nature of the <i>firm's</i> dual role as adviser to the <i>customer</i> and adviser to the <i>life office</i> or <i>operator</i> in question.

(14)	<p>Use of soft commission agreements</p> <p>If the <i>firm</i> is to be authorised under the <i>terms of business</i> to undertake transactions with or through the agency of another <i>person</i> with whom the <i>firm</i> has a <i>soft commission agreement</i>, the prior disclosure required by COB 2.2.16R (Prior disclosure).</p>
(15)	<p><i>Customer's</i> understanding of risk</p> <p>When a <i>firm</i> chooses to fulfil its obligations under COB 5.4.3R (Requirement for risk warnings) in the <i>terms of business</i> in relation to any of the following:</p>
	(a) <i>warrants</i> or <i>derivatives</i> ;
	(b) <i>non-readily realisable investments</i> ;
	(c) <i>penny shares</i> ;
	(d) <i>securities</i> which may be subject to stabilisation;
	(e) <i>stock lending activity</i> ;
	the relevant risk warning.
(16)	<p>Unregulated collective investment scheme</p> <p>That the services to be provided by the <i>firm</i> will or may include <i>advice on investments</i> relating to, or <i>executing</i> transactions in <i>units</i> in <i>unregulated collective investment schemes</i>, if this is the case.</p>
(17)	<p>Underwriting</p> <p>That the <i>firm</i> may enter into transactions for the <i>customer</i>, either generally or subject to specified limitations, when the <i>customer</i> will incur obligations as an underwriter or sub-underwriter, if this is the case.</p>
(18)	<p>Stock lending</p> <p>In the case of a <i>private customer</i>, that the <i>firm</i> may undertake <i>stock lending activity</i> with or for the <i>private customer</i> (if this is the case), specifying the assets to be lent, the type and value of <i>relevant collateral</i> from the borrower and the method and amount of payment due to the <i>private customer</i> in respect of the lending.</p>
(19)	<p>Right to realise a private customer's assets</p> <p>The information required by COB 7.8.3R (Contractual rights to realise a private customer's assets), if applicable.</p>
(20)	<p>Complaints procedure</p> <p>How to complain to the <i>firm</i>, and a statement, if relevant, that the <i>customer</i> may subsequently complain directly to the <i>Financial Ombudsman Service</i>.</p>

(21)	<p>Compensation</p> <p>Whether or not compensation may be available from the <i>compensation scheme</i>, should the <i>firm</i> be unable to meet its liabilities, and information about any other applicable named compensation scheme; and, for each applicable scheme, the extent and level of cover and how further information can be obtained. (See the example in COB 5.5.11G (Investment firms: compensation information)).</p>	
(22)	<p>Termination method</p> <p>How the <i>terms of business</i> may be terminated, including a statement:</p>	
	(a)	<p>That termination will be without prejudice to the completion of transactions already initiated, if this is the case;</p>
	(b)	<p>That the <i>customer</i> may terminate the <i>terms of business</i> by written notice to the <i>firm</i> and when this may take effect;</p>
	(c)	<p>That if the <i>firm</i> has the right to terminate the <i>terms of business</i>, it may do so by notice given to the <i>customer</i>, and specifying the minimum notice period, if any; and</p>
	(d)	<p>of any agreed time after which, or any agreed event on which, the <i>terms of business</i> will terminate.</p>
(23)	<p>Termination consequences</p> <p>The way in which transactions in progress are to be dealt with upon termination.</p>	
(24)	<p>Contracting out of best execution</p> <p>When the obligation to provide best execution can be and is to be waived, a statement:</p>	
	(a)	<p>that the firm does not owe a duty of best execution; or</p>
	(b)	<p>the circumstances in which it does not owe such a duty.</p>
(25)	<p>Authorised professional firms</p> <p>If the <i>firm</i> is an <i>authorised professional firm</i> and may conduct a <i>non-mainstream regulated activity</i> with or for the <i>customer</i> (whether with or without any other <i>regulated activity</i> for the same <i>customer</i>), an explanation, with respect to that activity, of:</p>	
	(a)	<p>how to complain to the <i>firm</i>, where the <i>customer</i> may subsequently complain and the mechanisms that operate in respect of such a subsequent complaint; and</p>
	(b)	<p>what, if any, compensation arrangements are available to the <i>customer</i> if the <i>firm</i> is unable to meet any of its liabilities, or the availability of an explanation describing those arrangements.</p>

- 1 Table Content of terms of business provided to a customer: managing investments on a discretionary basis

This table belongs to COB 4.2.11E.

<b>Managing investments on a discretionary basis</b>	
Additional contents in respect of discretionary management	
In respect of discretionary management, <i>terms of business</i> (including a <i>client agreement</i> ) provided to a <i>customer</i> should, in addition, include some provision about each of:	
(1)	Extent of discretion
(a)	The extent of the discretion to be exercised by the <i>firm</i> , including any restrictions on:
(i)	the value of any one <i>investment</i> ; and
(ii)	the proportion of the portfolio which any one <i>investment</i> or any particular kind of <i>investment</i> may constitute; or
(b)	That there are no such restrictions.
(2)	Periodic statements
(a)	The frequency of any <i>periodic statements</i> , except when a <i>periodic statement</i> is not required by COB 8.2.7R (Promptness, suitable intervals and adequate information); and
(b)	whether those statements will include some measure of performance, and if so, what the basis of that measurement will be.
(3)	Valuation The basis on which assets comprised in the portfolio are to be valued.
(4)	Borrowings That the <i>firm</i> may commit the <i>customer</i> to supplement the funds in the portfolio, including borrowing on his behalf, if this is the case, and, if it may:
(a)	the circumstances in which the <i>firm</i> may do so;
(b)	whether there are any limits on the extent to which the <i>firm</i> may do so and, if so, what those limits are; and
(c)	any circumstances in which such limits may be exceeded.

(5)	Underwriting commitments If it is the case, that the <i>firm</i> may commit the <i>customer</i> to any obligation to underwrite or sub-underwrite any issue or offer for sale of <i>securities</i> , and:
(a)	whether there are any restrictions on the categories of <i>securities</i> which may be underwritten and, if so, what these restrictions are; and
(b)	whether there are any financial limits on the extent of the underwriting and, if so, what these limits are.

...

5.3.18 R The *firm* must provide the letter required by COB 5.3.14R to the *customer*:

- (1) in the case of a *life policy*, *pension contract* or *stakeholder pension scheme* where the *cancellation rules* require notification of the right to cancel, no later than the ~~issue of the post-sale notice of the customer's right to cancel~~ fourteenth day after the contract is concluded; or

...

...

ISD investment firms: compensation information

5.5.9 R An *ISD investment firm* providing or offering to provide a *core investment service* or *custody* must make available to every *client*, who has used or intends to use those services, information on whether or not compensation may be available from the *compensation scheme* or a compensation scheme established in another EEA State in accordance with the Investor Compensation Directive should the *firm* be unable to meet its liabilities, and ~~about any other applicable named compensation scheme; for each applicable scheme, the firm must describe~~ the extent and level of cover and how further information can be obtained.

...

6 Product disclosure and the customer's right to cancel or withdraw

6.1 ~~Packaged p~~Product and ISA disclosure

Application

6.1.1 R COB 6.1 to COB 6.5 apply to a *firm*:

...

(6) ...

- (e) (where an *open market option* is available under the contract terms) a *pension buy-out contract*; or

(7) which enters into a distance contract with a retail customer to accept deposits.

6.1.1A R In COB 6.1 to COB 6.5, references to a *private customer* include, in relation to the conclusion of a *distance contract*, a *retail customer*.

...

6.1.3 G *COB 6.1 to COB 6.5 amplify Principle 7 (Communications with clients), which requires a firm to pay due regard to the information needs of its customers. In the case of packaged products there is a special need to ensure that private customers are supplied with information which will highlight particular packaged product features. This also needs to be achieved in a way which will optimise the private customer's ability to make a comparative analysis of different packaged products. These rules also address a similar information need in relation to cash deposit ISAs and when a firm enters into a distance contract to accept deposits with a retail customer.*

Requirement to produce key features

6.1.4 R ...

~~(3) A firm must produce key features in printed hard copy format and may in addition produce key features in an electronic format, unless the firm intends to conduct the activities in COB 6.1.1R solely through electronic media, in which case there is no requirement for a printed hard copy.~~

...

General Medium for provision of key features

6.2.2 R The key features or information which the rules in COB 6.1, COB 6.2 and COB 6.4 require a firm to provide to a *private customer* must be provided by the firm in a durable medium ~~writing~~.

...

6.2.4 G *Firms are reminded that any key features or other information required by COB 6.4 to COB 6.5 is a form of financial promotion and therefore the financial promotion rules contained in COB 3 apply (subject to the application provisions in COB 3.1 to COB 3.3). The same is true for a document relating to a cash deposit ISA produced by a bank or building society under the Banking Code in place of that required under COB 6.5.42R (see COB 6.4.13R(2)).*

...

6.2.5A G Where this chapter requires *key features* or other information to be given, it does not require the same information to be provided again if the *private customer* already has it.

...

6.2.7 R When a *firm* sells, *personally recommends* or arranges the sale of a *life policy* to a *private customer*, ~~the *firm* must provide the *private customer* must be provided~~ with appropriate *key features* before the *private customer* completes an application for the *policy*, subject to COB 6.2.9R (Sales through intermediaries) and COB 6.4.27R (telephone sales) unless COB 6.2.9R(2) applies.

...

#### Exception for life policies: sales through intermediaries

6.2.9 R (4) ~~COB 6.2.7R does not apply to a *product provider* when its *life policy* is sold on the *personal recommendation* of, or arranged to be sold by, an *independent intermediary* or *marketing group associate* another *person*, provided that other *person*:~~

(1) is a *firm* (or *appointed representative*) operating from an establishment maintained by the *firm* (or *appointed representative*) in the *United Kingdom*; or

(2) is operating from an establishment in an *EEA State* whose law imposes an obligation on the *person* to provide information about the *life policy* in accordance with articles 3 and 5(1) and (2) of the *Distance Marketing Directive*.

(2) ~~COB 6.2.7R does not apply to a *firm* where the *private customer* is to acquire a *life policy* without making a written application, but the *firm* must instead ensure that it gives an adequate oral explanation of the main features of the *policy*, and must give or send the *private customer* appropriate *key features* within five *business days* of the date on which the sale, recommendation or arrangement was made.~~

6.2.10 G ~~[deleted] In most cases, *life policies* will be sold through written applications or proposal forms. COB 6.2.9R(2) in particular allows personal pensions to be effected or varied quickly at the end of the tax year, when speed might be essential and the transaction is effected by telephone. A 'written' application includes an application by electronic means.~~

6.2.11 G ~~[deleted] An adequate oral explanation of the information required by COB 6.2.9R(2) should include the following:~~

- (1) ~~The *policy type*, brand name and issuing *company*;~~
- (2) ~~the *policy aims*, the *private customer's* commitment and the risk factors;~~
- (3) ~~a summary of the reasons for any recommendation;~~
- (4) ~~where it is the case, the fact that *commission* or *remuneration*~~

- ~~will be paid to the adviser or representative; and~~  
(5) ~~that key features will be sent within five business days.~~

-

#### Life policies: pre-completion variations

- 6.2.12 R (1) Where *key features* have already been provided by a *firm* to a *private customer* in accordance with COB 6.2.7R and the terms for the proposed *life policy* are subsequently altered before the *private customer* completes an application form, the *firm* must ensure that the *private customer* is provided with revised *key features*, unless the alteration is one or more of the following:
- (1) (a) the amount of the *premium* is changed;
  - (2) (b) the amount of any *commission* or *remuneration* payable is reduced;
  - (3) (c) a rider benefit is added, removed or amended.
- (2) If (1)(a) to (c) apply, then, subject to COB 6.4.27R (telephone sales), if the contract is to be a *distance contract* with a *retail customer*, the *retail customer* must be provided with details of such changes in a *durable medium* in good time before the contract is concluded.

-

...

- 6.2.14 R Where *key features* have already been provided to a *private customer* by a *firm*, and the terms of the proposed *life policy* are materially altered after the *private customer* completes an application form, the ~~*firm* must ensure that the *private customer* must be~~ is provided with ~~written~~ details of the change in a *durable medium* as soon as practicable and offered revised *key features*.
- 6.2.15 G What constitutes a ~~'material change'~~ 'materially altered' requires consideration of the facts in the circumstances of each case. Changes which lead to an increase in the proposed *premium* of 25 per cent or less can be regarded as not material and can be ignored, so long as the underlying *policy* terms and conditions are the same. Other changes to the terms of the proposed contract, such as an increase in the rate or basis of *commission*, a different charges structure or an extension of the *policy* term should be regarded as material.

#### Variations to existing life policies

- 6.2.16 R When a policyholder applies to vary a *life policy* issued on or after 1 January 1995 (or is recommended to do so) and the variation of the *policy* gives rise to a right to cancel under COB 6.7.7R, ~~a document containing at least~~ the policyholder must be provided with:
- (1) the information required by COB 6.5.15R to COB 6.5.19R, COB 6.5.23R to COB 6.5.25R, COB 6.5.27R to COB 6.5.28R

and *COB* 6.5.38R; and

- (2) in the case of a variation which results in a new *distance contract*, all the contractual terms and conditions and the information in *COB* App 1;

~~must be provided to the policyholder~~ in a *durable medium* by the *firm* personally recommending, arranging or effecting the variation in good time before it is put into effect, unless *COB* 6.2.19R (sales through intermediaries) or *COB* 6.4.27R (telephone sales) applies.

- 6.2.17 G ~~*Key features* were introduced for new *policies* sold from 1 January 1995. *Firms can meet* One way of meeting the requirements of *COB* 6.2.16R is by providing a complete set of new *key features* to the policyholder. If a full *key features* is not provided, then as a minimum the information to be supplied must include the details required by *COB* 6.5.15R to *COB* 6.5.19R (An Example), *COB* 6.5.23R to *COB* 6.5.25R (Tables), *COB* 6.5.19R to *COB* 6.5.28R (Deductions Summary) and *COB* 6.5.38R (Commission/Remuneration). The illustrative figures in the *key features* could relate to just the increase in *premiums* and benefits, or could illustrate a 'before and after' situation.~~
- 6.2.18 R When a policyholder applies to vary a *policy* issued before 1 January 1995 (or is *personally recommended* to do so) and the variation of the *policy* gives rise to a right to cancel under *COB* 6.7.7R, information must be given to the policyholder by the *firm* that is *personally recommending*, arranging or effecting the variation before it is put into effect, unless *COB* 6.2.19R or *COB* 6.4.27R (telephone sales) applies. The *firm* must:
- (1) believe on reasonable grounds that the information given is sufficient to enable the policyholder to understand the consequences of the variation; and
- (2) in the case of a variation which results in a new *distance contract*, in good time before the variation is put into effect, provide all the contractual terms and conditions and the information in *COB* App 1.
- 6.2.19 R (+) ~~*COB* 6.2.16R and *COB* 6.2.18R do not apply to a *product provider* when the variation to its *life policy* is effected on the *personal recommendation* of or arranged by an *independent intermediary* or *marketing group associate* another person, provided that other person:~~
- (1) is a *firm* (or *appointed* representative) operating from an establishment maintained by the *firm* (or *appointed representative*) in the *United Kingdom*; or
- (2) is operating from an establishment in an *EEA State* whose law imposes an obligation on the *person* to

provide information about the variation to the *life policy* in accordance with articles 3 and 5(1) and (2) of the *Distance Marketing Directive*.

- (2) ~~COB 6.2.16R and COB 6.2.18R do not apply to a *firm* where the *private customer* is to vary a *life policy* without making a written application, but the firm must instead ensure that it gives an adequate oral explanation of the variation, and must give or send the *private customer* the information required by whichever of COB 6.2.16R or COB 6.2.18R is applicable within five *business days* of the variation being effected.~~

- 6.2.20 G ~~[deleted] The *guidance* in COB 6.2.10G and COB 6.2.11G is also relevant to top-ups to existing *policies* when speed might be essential and the transaction is effected by telephone.~~

~~Exception from the requirement to provide key features for life policies: non-UK customers~~

- 6.2.21 R (1) ~~There is no requirement for *key features* to be provided for a new *life policy* or a variation to an existing *policy* if, at the time that the *private customer* signs the application, he is *habitually resident*:~~

~~(except for *distance contracts with retail customers*) in an~~

~~(a) *EEA State* other than the *United Kingdom*; or~~

~~1)~~

~~Outside the *EEA* and he is not present in the *United*~~

~~(b) *Kingdom*.~~

~~2)~~

- ~~(2) Paragraph (1)(a) does not apply to a *firm* acting as an *outgoing ECA provider*.~~

~~Schemes~~

- 6.2.22 R ~~When a *firm* sells, *personally recommends* or arranges for the sale of a *scheme* to a *private customer*: (1) the *firm* must, unless COB 6.2.24R (exceptions) or COB 6.2.25R or COB 6.4.27R (telephone sales) applies, provide the *private customer* must be provided with *key features* for the *scheme* before the *private customer* completes an application for the *scheme holding*.~~

- ~~(2) the *firm* may delay the provision of *key features* where a *private customer* is to acquire the *scheme* without making a written application, provided that it gives an adequate oral explanation of the main features of the *scheme holding* to the *private customer* and the *key features* are sent to him within five *business days* of the date on which the sale, recommendation or arrangement was made.~~

- 6.2.23 G (1) ~~COB 6.2.22R applies not just to new purchases but also to any recommendation or application to transfer the value of a~~

particular fund holding within a *scheme* to a different fund within the same *scheme*.

- (2) Where a *private customer* has responded to a *direct offer financial promotion*, the mailing package or *direct offer financial promotion* should have included example-based *key features* – there is no requirement to provide a further set of *key features* to such a *private customer* in respect of the same transaction.
- (3) ~~An adequate oral explanation of the information required by COB 6.2.22R should include the following:~~
  - ~~(a) The name of the *scheme*;~~
  - ~~(b) the *scheme's* aims, the amount to be invested and the risk factors;~~
  - ~~(c) the charges that the *customer* will or may bear and their effect on his *investment*;~~
  - ~~(d) a summary of the reasons for any recommendation;~~
  - ~~(e) Where it is the case, that *commission* or *remuneration* will be paid to the *adviser* or *representative*; and~~
  - ~~(f) That *key features* will be sent within five *business days*.~~

Exceptions from the requirement to provide key features for schemes

6.2.24 R A firm need not provide *key features* to a *private customer* in respect of a *scheme* if:

- (1) ~~It is a *UK firm* and the obligation arises from business carried on in another *EEA State* under an *EEA right* the firm is a *product provider* and the *scheme holding* is sold on the *personal recommendation* of, or arranged to be sold by another *person*, provided that other *person*:~~
  - ~~(a) is a firm (or appointed representative) operating from an establishment maintained by the firm (or appointed representative) in the United Kingdom; or~~
  - ~~(b) is operating from an establishment in an EEA State whose law imposes obligations on the person to provide information about the scheme holding in accordance with articles 3 and 5(1) and (2) of the Distance Marketing Directive; or~~
- (2) at the time the *private customer* signs the application, the *private customer* is *habitually resident* outside the *EEA* and is not present in the *United Kingdom*; or

- (3) (except for distance contracts with retail customers) the *scheme holding* is purchased by a *private customer* on an execution-only basis; or
- (4) the *scheme holding* is purchased on behalf of a *private customer* by an *investment manager* exercising discretion; or
- (5) the sale of the *scheme holding* is arranged or recommended by an *investment manager* who is not exercising discretion and the *private customer* has agreed, either in relation to that specific holding or generally, that *key features* need not be provided; or
- (6) a *private customer* is making a purchase of a *scheme holding* in a fund in which he already has a *scheme holding* and has already been provided with appropriate key features covering the purchase:
  - (a) ~~where the terms and conditions, including all charges, are the same as applied at the time of the previous purchase of a scheme holding in that fund; and~~
  - (b) ~~key features outlining those terms and conditions were issued to the private customer in respect of that previous purchase; or~~
- (7) a *private customer* is transferring from *accumulation units* to *income units* of the same *scheme* (or vice versa) and has already been supplied with *key features* ~~for that scheme, which cover the transfer; or-~~
- (8) the scheme is a UCITS scheme recognised under section 264 of the Act (Schemes constituted in other EEA States); however, if the sale is by way of a distance contract, the firm must provide all the contractual terms and conditions and the information in COB App 1 instead of key features.

- 6.2.24A R ~~[deleted] When a firm sells, personally recommends or arranges for the sale of a UCITS scheme recognised under section 264 of the Act (Schemes constituted in other EEA States), then COB 6.2.22R does not apply.~~
- 6.2.25 R ~~[deleted] COB 6.2.22R does not apply to a product provider when the scheme holding is sold on the personal recommendation of, or arranged to be sold by, an independent intermediary or marketing group associate.~~
- ...
- 6.3.5 R The post-sale confirmation required by COB 6.3.3R must be sent or given to the *private customer* ~~no later than the issue of any post-sale notice under the cancellation rules or, if no such notice is required, as~~

soon as reasonably practicable after the contract is effected.

...

- 6.4.1 R *COB 6.4 applies to a firm in accordance with COB 6.1.1R, in respect of occupational pension schemes, self invested personal pensions, income withdrawals, cash deposit ISAs, traded life policies, and stakeholder pension schemes, packaged products and other deposits.*
- 6.4.2 G *Firms are reminded that, under COB 6.2.2R, the key features required to be provided to a private customer under COB 6.4 must be provided by the firm in a durable medium writing. See also COB 6.2.3G to COB 6.2.5G.*
- ...
- 6.4.7 G *Investments within a self-invested personal pension scheme (a "SIPP") are effected by the trustees on behalf of scheme members. Key features should be given to the trustees and to members of SIPPs when packaged products (whether life policies or schemes) are recommended by a firm to scheme members or effected by SIPP trustees. Notice of the right to cancel Cancellation notices should also be copied to SIPP members in these circumstances, in accordance with COB 6.7.31R.*

#### Income withdrawals

- 6.4.8 R *When a firm personally recommends, arranges or effects income withdrawals to or for a private customer, the firm customer must be provided with key features to the customer in good time before the customer signs any form of application or authority electing to make those withdrawals, whether that election is made with advice on investments or on an execution-only basis, unless COB 6.4.10R to COB 6.4.12R apply.*
- ...

#### Cash deposit ISAs

- 6.4.13 R ~~(1) When a firm that manages, personally recommends or sells a cash deposit ISA to a private customer must ensure, in relation to that cash deposit ISA, that the private customer must be provided with the information specified in COB 6.5.42R instead of key features in good time before the customer is bound by the transaction is entered into, unless COB 6.4.27R (telephone sales) applies (but see COB 1.11.2R (Exemption for firms which follow the Banking Code Guidance)).~~
- (2) ~~Paragraph (1) does not apply to a firm if it is a bank or building society which subscribes to the Banking Code issued by the British Bankers' Association, the Building Societies Association and the Association for Payment Clearing Services.~~

#### Traded life policies

6.4.14 R When a *firm* personally recommends that a *private customer* should purchase a *traded life policy*, the *customer* need not be provided with key features, if the *firm* instead supplies the information outlined in COB 6.5.44R writing to the *private customer* in good time before the *customer* he is asked to complete any form of application or authority giving effect to the purchase of the *traded life policy*.

...

6.4.18 R COB 6.4.15R does not apply to a *stakeholder pension scheme* operator when its *stakeholder pension scheme* is sold on the *personal* recommendation of, or arranged to be sold by, another ~~*firm*~~ *person*, provided that other *person*:

- (1) is a *firm* (or an *appointed representative*) operating from an establishment maintained by the *firm* (or *appointed representative*) in the *United Kingdom*; or
- (2) is operating from an establishment in an *EEA State* whose law imposes an obligation on the *person* to provide information about the *stakeholder pension scheme* in accordance with articles 3 and 5(1) and (2) of the *Distance Marketing Directive*.

6.4.19 R ...

- (2) In COB 6.2 to COB 6.5, for the purposes of (1), the *firm* must treat trustees and ~~managers~~ operators as *private customers*.

...

6.4.22 R A written notice required by COB 6.4.21R must be provided by the *firm* no later than 8 *business days* after the *cancellation period* commences ~~the issue of the post-sale notice of the *private customer's* right to cancel under the cancellation rules.~~

...

#### Entering into a distance contract for accepting deposits

6.4.25 R (1) A *retail customer* must be provided with all the contractual terms and conditions and the information in COB App 1 in a *durable medium* in good time before he is bound by a *distance contract* or offer under which the *firm* will *accept deposits*, unless an exemption in (2), (3), (4) or (5) applies.

(2) Exemption: telephone sales

The exemption in COB 6.4.27R applies in the case of *voice telephony communications* (references to a '*customer*' in that rule should be read as references to a '*retail customer*').

(3) Exemption: certain other means of distance communication

This exemption applies, if the contract is concluded at the *retail customer's* request using a *means of distance communication* (other than telephone) which does not enable provision of the contractual terms and conditions and the information in accordance with (1). In that case, the *firm* must provide it to the *retail customer* in a *durable medium* immediately after the conclusion of the *distance contract*.

(4) Exemption: successive or separate operations under an initial service agreement

This exemption applies if the *firm* has an initial service agreement with the *retail customer* and the contract is in relation to a successive operation or a separate operation of the same nature under that agreement (see *COB 1.10.2G (1)*).

(5) Exemption: other successive or separate operations

This exemption applies if:

- (a) the *firm* has no initial service agreement with the *retail customer*;
- (b) the *firm* has performed an operation with the *retail customer* within the last year; and
- (c) the contract is in relation to a successive operation or separate operation of the same nature (see *COB 1.10.2G (2)*).

6.4.26 G There is a further exemption for those *firms* which subscribe to the Banking Code Guidance (see *COB 1.11.2R*).

...

Provision of key features or other information in relation to a telephone call

- 6.4.27 R (1) Where this chapter requires *key features* or other information to be provided, in the case of voice telephony communications, a *firm*:
- (a) must provide the *customer* at the beginning of the telephone conversation with the name of the *firm* and (if the call is initiated by the *firm*) the commercial purpose of the call; and
  - (b) provided the *customer* gives his explicit consent to receiving only limited information, may proceed on the basis of the following oral information only:
    - (i) the name of the person in contact with the *customer* and his link with the *firm*;
    - (ii) a description of the main characteristics of the service;
    - (iii) the total price to be paid by the *customer* to the *firm* for the service, including all related fees, charges and expenses, and all taxes paid through the *firm* together with a statement, where relevant, that commission or remuneration will be paid to the *adviser* or *representative*, or, where an exact price cannot be indicated, the basis for the calculation of the price enabling the *customer* to verify it;
    - (iv) where relevant, notice of the possibility that other taxes or costs may exist that are not paid through the *firm* or imposed by it;
    - (v) the existence or absence of a right to cancel the service under COB 6.7 and, where there is such a right, its duration and the conditions for exercising it, including information on the amount which the *customer* may be required to pay if the contract is terminated early or unilaterally under its terms, as well as the consequences of not exercising it; and
    - (vi) that other information is available on request, and the nature of that information.
- (2) If the *customer* does not give his explicit consent to receiving only the limited information in (1)(b), and the parties wish to proceed by telephone, the *firm* must prior to the conclusion of the contract provide all of the information required by COB App 1 orally to the *customer*.

- (3) In the case of either (1) or (2), the *firm* must send the *private customer* immediately after the contract is concluded, the required *key features* or other information (as applicable) in a *durable medium*.
- (4) If the service relates to a *tax-exempt policy* issued by a *friendly society*, the *firm* may send an abbreviated *key features* in accordance with COB 6.5.43R (Friendly Society tax-exempt policies).

6.4.28 G Firms are reminded of the requirements in COB 3.8.21G (Real time financial promotions) and COB 3.10 (Unsolicited real time financial promotions) in relation to telephone calls that may fall within the definition of a *financial promotion*.

General

6.5.2 R A *firm* must ensure, unless COB 6.5.3R applies, that:

- (4) ...; and
- (5) ...; and
- (6) all *key features* it produces in relation to a *distance contract* with a *retail customer* include all the contractual terms and conditions and the information in COB App 1 except to the extent that they are separately provided to the *retail customer* in a *durable medium* at the same time.

6.5.3 R A *firm* may adapt the prescribed content and format requirements in COB 6.5 only when it can demonstrate that this is necessary to reflect the terms and nature of a particular product and that, in relation to a *distance contract* with a *retail customer*, in doing so it does not omit the contractual terms and conditions and information in COB App 1.

...

Information requirements for *cash deposit ISAs*, friendly Society tax-exempt policies, traded life policies and broker funds

6.5.41 G COB 6.5.42R does not apply to a *cash deposit ISA* offered by a *bank* or *building society* which subscribes to the Banking Code Guidance (see COB 1.11.2R 6.4.13R(2)).

6.5.42 R If COB 6.4.13R(1) applies, for a *cash deposit ISA*, the *private customer* must be given the following ~~minimum~~ information (in accordance with COB 6.4.13R) and, in relation to a *distance contract with a retail customer*, all the contractual terms and conditions and the information in COB App 1 in place of *key features*:

...

- (8) the arrangements for the application of the right to cancel, including the following:
- (a) the options available on cancellation (a firm must either assist the private customer in switching accounts or refund all monies deposited together with interest);
  - (b) information about how cancellation will operate in circumstances where the account forms part of a maxi-ISA which contains other components;
  - (c) a statement that the effect of cancelling the last component has the effect of cancelling the entire ISA agreement and may also (where it is the case) delay the customer from entering into another ISA agreement until the next tax year; and
  - (d) a statement that a private customer who exercises a right to cancel will not incur any additional charges or be affected by any notice period;

...

#### Friendly Society tax exempt policies

- 6.5.43 R Where a *private customer* buys a *tax-exempt policy* issued by a *friendly society*, or agrees to make additional contributions to such a *policy*, the *firm* may, where there is a right to cancel under COB 6.7 (Cancellation and withdrawal), issue an abbreviated form of *key features* containing ~~only~~ the following details of and, in relation to a distance contract with a retail customer, all the contractual terms and conditions and the information required under COB App 1:

...

#### Traded life policies

- 6.5.44 R When *personally recommending* the purchase of a *traded life policy*, a *firm* may provide a *private customer* with the information in ~~at~~ COB 6.5.49R and, in relation to a distance contract with a retail customer, all the contractual terms and conditions and the information in COB App 1 in place of *key features* (in accordance with COB 6.4.14R).

...

- 6.7.1 R COB 6.7 applies to:

...

- (5) the operator of a *stakeholder pension scheme*;

(6) a firm which enters into distance contracts with retail customers, the making or performance of which constitutes, or is part of:

(a) dealing as agent, advising or arranging in relation to designated investments, unless the distance contract is concluded merely as a stage in the provision of another service by the firm or another person (see COB 1.10.6G);

(b) any other designated investment business; or

(c) accepting deposits;

but not including a distance contract entered into by an appointed representative as principal.

6.7.2 G The firms in COB 6.7.1R (except those in COB 6.7.1R(3)) are product providers, insurers, deposit-taking firms or stakeholder pension scheme operators, that is, the firms responsible for issuing life policies, selling units, issuing long-term insurance contracts, accepting deposits for ISAs, or acting as operators of stakeholder pension schemes.

COB 6.7 (Cancellation and withdrawal) does not act to cancel distance contracts entered into by an appointed representative as principal to provide intermediation services to a retail customer. Regulations 8 (Right to cancel) to 12 (Payment for services provided before cancellation) of the Distance Marketing Regulations may apply instead (see regulation 4(5)).

6.7.3 G ~~[deleted] (1) COB 6.7 specifies the rights which customers have either to cancel agreements into which they have entered, or to withdraw any offer before an agreement has commenced.~~

~~(2) COB 6.7.12R specifies those agreements for a stakeholder pension scheme which customers have a right to cancel.~~

~~(3) COB 6.7.14R(1) specifies those agreements for an EIS, ISA or PEP from which customers have a right to withdraw.~~

~~(4) COB 6.7.15R specifies those long-term insurance contracts which customers have a right to cancel and those which they do not.~~

~~(5) A firm has the option to replace a post-sale right to cancel certain pension annuities referred to as "cancellation substitute" (see COB 6.7.14R(2)). This option is also available for pension transfers. If a firm chooses not to offer the cancellation substitute, it has to offer cancellation. The cancellation substitute is available as it is very difficult for post-sale cancellation to work effectively in the case of pension~~

~~transfers, because of the difficulty of putting the customer back in his original position.~~

- (6) ~~COB 6.7.17R specifies those non-life agreements for a pension contract, appropriate personal pension or units in an AUT or ICVC which customers have a right to cancel and those which they do not. It also allows firms, for units within an ISA or PEP, to replace cancellation with a pre-sale right to withdraw.~~
- (7) ~~COB 6.7.20R specifies the cancellation procedure which applies to cash deposit ISAs.~~
- (8) ~~COB 6.7.23R specifies certain variations to existing agreements which customers have a right to cancel or right to withdraw.~~
- (9) ~~COB 6.7.54R to COB 6.7.58R contain rules and guidance on investment agreements subject to shortfall and describe how to calculate shortfall.~~

6.7.4 G COB 6.7.5G summarises the applicable cancellation and withdrawal rights and the maximum period of reflection. Firms should have regard to the detailed rules and guidance in all cases, particularly for the detailed exemptions.

6.7.5 G Cancellable investment agreements.  
This table belongs to COB 6.7.4G

Delete the existing table and replace with the following:

<b>Cancellable investment agreements</b>			
	Post-sale right to cancel?	Pre-sale right to withdraw ?	Maximum period of reflection (but see COB 6.7.11R)
<b>A. Contracts where the right arises regardless of means of sale.</b>			
<i>Appropriate personal pension (APP)</i>	Yes	No	30 days
<i>Cash deposit ISA</i>	Yes	No	14 days
<i>Life policy (including pension policy, pension annuity or within ISA)</i>	Yes <sup>1,5,6</sup>	No <sup>1</sup>	30 days <sup>2</sup>

<b>Cancellable investment agreements</b>			
<i>Personal pension contract</i>	Yes <sup>1</sup>	No <sup>1</sup>	30 days <sup>2</sup>
<i>Stakeholder pension scheme (SHP)</i>	Yes <sup>1</sup>	No <sup>1</sup>	30 days <sup>2</sup>
Certain variations of existing <i>life policies, pension contracts</i> and <i>SHPs</i>	Yes <sup>1,5,6</sup>	No <sup>1</sup>	30 days <sup>2</sup>
<b>B. Contracts where the right arises only if advice is given or if sold by distance contract.</b>			
<i>Units in an AUT, recognised scheme or ICVC (within an ISA or PEP)</i> (1) if sold by <i>distance contract</i> ; (2) if sold otherwise with advice	No Yes <sup>4</sup>	No No <sup>4</sup>	14 days
<i>ISA or PEP not mentioned in any other row</i>  (1) if sold by <i>distance contract</i> (2) if sold otherwise with advice	Yes <sup>5,6</sup> No	No Yes <sup>3</sup>	14 days 7 days
<i>Units in an AUT, recognised scheme or ICVC (outside an ISA or PEP)</i>  (1) if sold by <i>distance contract</i> (2) if sold otherwise with advice	No Yes	No No	14 days
<i>EIS</i>  (1) if sold by <i>distance contract</i> (2) if sold otherwise with advice	Yes <sup>5,6</sup> No	No Yes <sup>3</sup>	14 days 7 days
<b>C. Contracts where the right arises for distance contracts only</b>			
<i>Distance contract to accept deposits</i>	Yes <sup>5,6</sup>	No	14 days

### Cancellable investment agreements

<i>Distance contract</i> not mentioned in another row the making or performance of which constitutes, or is part of, <i>designated investment business</i>	Yes <sup>5,6,7</sup>	No	14 days
Notes:			
1. For a <i>pension annuity</i> or <i>pension transfer</i> (and a relevant variation), the <i>firm</i> can, in certain circumstances, choose to operate a pre-sale right to withdraw in <i>COB 6.7.19R</i> instead of a post-sale right to cancel (see <i>COB 6.7.14R(2)</i> ). A <i>firm</i> may offer a pre-sale right to withdraw, even where there is no right to cancel.			
2. The period is at least 14 days if the option of pre-sale withdrawal is offered.			
3. There is no right to withdraw for a second or subsequent <i>EIS</i> or <i>ISA</i> , or (for an <i>EIS</i> or non-packaged product <i>ISA</i> or <i>PEP</i> ) where the <i>firm</i> has previously disclosed to the <i>customer</i> that no such rights will apply.			
4. For <i>units</i> in an <i>AUT</i> , <i>recognised scheme</i> or <i>ICVC</i> (within an <i>ISA</i> or <i>PEP</i> ), the <i>firm</i> can choose to offer a seven-day pre-sale right to withdraw rather than a post-sale right to cancel (see <i>COB 6.7.14R(1)</i> ). There is no right to cancel or withdraw for a second or subsequent <i>ISA</i> .			
5. There is no post-sale right to cancel for a <i>distance contract</i> where the price depends on fluctuations in the financial market place outside the <i>firm's</i> control which may occur during the cancellation period.			
6. There is no post-sale right to cancel for a <i>distance contract</i> : <div style="margin-left: 20px;"> <p>(a) where the performance of the <i>distance contract</i> has been fully completed by both parties at the <i>customer's</i> express request before the <i>customer</i> exercises his right to cancel; or</p> <p>(b) where the <i>firm</i> has an initial service agreement with the <i>customer</i> and the contract is in relation to a successive operation or separate operation of the same nature under that agreement (see <i>COB 1.10.2G</i>).</p> </div>			
7. For a <i>distance contract</i> to give advice, arrange deals, or deal as agent see <i>COB 1.10.6G</i> (Distance contracts for intermediation services).			

...

#### Post-sale rRight to cancel

- 6.7.7 R A retail customer, ~~who is an individual~~, has a right to cancel:
- (1) a contract ~~an investment agreement~~ specified in column row 1 of *COB 6.7.15R* or *COB 6.7.17R*, unless the right to cancel is disapplied or replaced by anything in column row 2 of *COB 6.7.15R* or *COB 6.7.17R*;
  - (2) a contract ~~n investment agreement~~ for a *stakeholder pension scheme* for which a right to cancel applies under *COB 6.7.12R*;

- (3) ~~a contract~~ an investment agreement for a *cash deposit ISA* ~~in accordance with COB 6.7.20R (but see COB 1.11.2R (Exemption for firms which follow the Banking Code Guidance))~~);
- (4) a variation of a *life policy, pension contract* or *stakeholder pension* scheme for which a right to cancel applies under COB 6.7.23R.

6.7.8 R The trustees of an *occupational pension scheme* or the trustees and managers of a *stakeholder pension scheme* must be treated so far as necessary as an ~~individual~~ retail customer for the purposes of the *cancellation rules*, and acquire the same right to cancel as an ~~individual~~ retail customer.

- 6.7.9 G (1) ...
- (2) A *product provider* or operator of a *stakeholder pension scheme* (see COB 6.7.2G) may be unsure whether any of the situations in ~~column~~ row 2 of COB 6.7.17R applies to the ~~agreement~~ contract in question. In such circumstances the *product provider* or operator of a *stakeholder pension scheme* may find it convenient to contract with an intermediary for the provision of documentary evidence needed to confirm the status of *customers*. However, the responsibility for ensuring compliance with the *cancellation rules* remains with the *product provider* or operator of a *stakeholder pension scheme*.

#### Cancellation period

6.7.10 R When a retail customer has a right to cancel under COB 6.7.7R(1), (2) ~~or (4)~~, that right must (unless COB 6.7.11R applies) be exercised:

- (1) (in the case of a *life policy, personal pension policy, personal pension contract* or *stakeholder pension scheme*) within ~~the shorter of:~~
  - (a) ~~30 days~~ days; or
  - (b) ~~the period (of 14 days or more) specified by the firm;~~  
 from the date when the *customer* received a *post sale notice* from the *firm*.
- (2) (in any other case) within 14 ~~days~~ days ~~from the date when the customer received a post sale notice from the firm.~~

6.7.10A R The cancellation period begins on:

- (1) (other than for distance contracts and cash deposit ISAs) the date the customer receives the reminder notice of his right to

cancel in accordance with COB 6.7.30R;

- (2) (for distance contracts and cash deposit ISAs the later of:
- (a) (for a life policy) the day the retail customer is informed that the contract has been concluded; or
  - (b) (for any other contract) the day of the conclusion of the contract; or
  - (c) the day on which the retail customer receives the contractual terms and conditions and other information required by COB 3.9, 4.2 or 6, as applicable.

6.7.11 R Where the terms of the *firm's* contract give the *retail customer* a longer period to cancel (that is, in excess of the 14 or 30 days specified), the *firm* must disclose in the information about the right to cancel ~~post-sale notice~~ the differences between the *retail customer's* rights under COB 6.7.10R and the terms of the contract, which operate independently.

Right to cancel a stakeholder pension scheme

- 6.7.12 R (1) A *retail customer*, ~~who is an individual, and~~ who has entered into an ~~investment agreement~~ contract for a *stakeholder pension scheme* has a right to cancel.
- (2) When the *retail customer* has entered into an ~~investment agreement~~ contract for a *stakeholder pension scheme* involving recurring contributions to that *stakeholder pension scheme*, only the first contribution will attract a right to cancel provided that:
- (a) the intention or option to make regular contributions has been disclosed in advance of the *retail customer* entering into the *investment agreement*; and
  - (b) the *retail customer's* intention to make regular contributions is evidenced.

6.7.13 G For the purposes of COB 6.7.12R(2)(a), disclosure of the option to make regular contributions may, for example, take place in the *key features*. For the purposes of COB 6.7.12R(2)(b), ~~an individual~~ *retail customer's* intention to make regular contributions could, for example, be demonstrated by the establishment of a direct debit mandate or instructions to an employer to deduct regular contributions from salary.

Pre-sale rRight to withdraw

- 6.7.14 R A retail customer, ~~who is an individual~~, has a right to withdraw an offer to enter into:
- (1) (unless a right to cancel is offered for an *ISA* or *PEP* under COB 6.7.7R(3), COB 6.7.15R or, COB 6.7.17R or ~~COB 6.7.20R~~ and subject to cases 8 and 9 of ~~column~~ row 2 COB 6.7.17R) an *EIS*, *ISA* or *PEP*, following *advice on investments*; the right to withdraw procedures are that the offer made by the *customer* to enter into the agreement contract cannot be accepted by the *firm* until at least seven days after the offer is made; or
  - (2) a *pension annuity* or a *pension transfer* (or a relevant variation), if a right to cancel has been replaced by a right to withdraw under case 4(a) or 7(a) of ~~column~~ row 2, COB 6.7.15R, case 12 of ~~column~~ row 2, COB 6.7.17R, COB 6.7.23R (3), or COB 6.7.26AR (2); the right to withdraw procedures are set out in COB 6.7.19R.

6.7.15 R Cancellable investment agreements contracts and exceptions – life  
This table belongs to COB 6.7.7R(1).

Delete the existing table and replace with the following (in this table, the existing columns (1) and (2) have been changed to rows (1) and (2). This change is not indicated but, otherwise, changes are indicated by using underlining and striking-through in the usual way):

<b><u>Cancellable investment agreements contracts and exceptions</u> – life</b>	
<del>Investment agreements for a</del> <u>Long-term insurance contracts</u> for which an <del>individual</del> a <u>retail customer</u> has a right to cancel under <u>COB 6.7.7R(1)</u> (subject to row 2):	
Row 1	<p>A. <u>Life policy</u> (whether or not held within an <i>ISA</i> – see notes 1, 2 and 3 in <u>COB 6.7.16R</u>) (see <u>COB 6.7.23R</u> regarding variation of an existing <i>life policy</i>);</p> <p>B. <u>Appropriate personal pension</u> which is a <i>pension policy</i>;</p> <p>C. <u>Pure protection contract</u>.</p>

**Cancellable ~~investment agreements~~ contracts and exceptions – life**

~~Investment agreements for a~~ Long-term insurance contracts for which an individual a retail customer has a right to cancel under *COB* 6.7.7R(1) (subject to row 2):

Row 2	<p><u>There is</u> no right to cancel where any one or more of the following cases applies:</p> <ol style="list-style-type: none"> <li>1. <del>P</del><u>pension fund management</u> policy (<u>but see note 5 in COB 6.7.16R</u>);</li> <li>2. <del>L</del><u>ife</u> policy that relates to or is associated with securing benefits under a <i>defined benefits pension scheme</i> (<u>but see note 5 in COB 6.7.16R</u>);</li> <li>3. <del>A</del><u>ny</u> life policy for a term of six months or less (unless note 3 in <i>COB</i> 6.7.16R applies) (<u>see also note 5 in COB 6.7.16R</u>);</li> <li>4. <del>P</del><u>pension</u> policy or <i>stakeholder pension scheme</i> funded (wholly or in part) from payments derived from:             <ol style="list-style-type: none"> <li>(a) a <i>pension transfer</i>, for which the right to cancel is replaced by the right to withdraw (see <i>COB</i> 6.7.14R(2)), using the cancellation substitute in <i>COB</i> 6.7.19R; or</li> </ol> </li> </ol>
	(b) compensation or redress paid by a <i>firm</i> following a review undertaken in relation to a complaint;
	5. <del>T</del> <u>raded</u> life policy;
	6. <del>L</del> <u>ife</u> policy effected by the trustees of an <i>occupational pension scheme</i> or the employer, or the manager or trustees of a <i>stakeholder pension scheme</i> that represents a:
	(a) <i>pension buy-out contract</i> ; or
	(b) purchase of a without-profits deferred <i>pension annuity</i> ; or
	(c) <i>defined benefits pension scheme</i> or a single <i>premium</i> payment to any <i>occupational pension scheme</i> with a pooled fund (that is, underlying <i>investments</i> are not earmarked for individual scheme members); or
	(d) purchase made to insure and secure members' pension benefits under a <i>money-purchase occupational scheme</i> or <i>stakeholder pension scheme</i> (unless it is the master, first or only <i>policy</i> );
	7. <del>P</del> <u>pension annuity</u> that is:
	(a) due to commence within a year and a day of the contract, for which the right to cancel is replaced by the right to withdraw (see <i>COB</i> 6.7.14R(2)), using the cancellation substitute in <i>COB</i> 6.7.19R; or

**Cancellable investment agreements contracts and exceptions – life**

~~Investment agreements for a~~ Long-term insurance contracts ~~for which an individual a~~ retail customer has a right to cancel under *COB 6.7.7R(1)* (subject to row 2):

	(b) funded (wholly or in part) from compensation or redress paid by a <i>firm</i> following a review undertaken in relation to a complaint;
	8. <del>The</del> <u>retail customer</u> , other than an <i>EEA ECA recipient</i> , at the time he signs the application, is <i>habitually resident</i> :
	(a) in an <i>EEA State</i> other than the <i>United Kingdom</i> ( <u>but see note 4 and note 5 in COB 6.7.16R</u> ); or
	(b) outside the <i>EEA</i> and is not present in the <i>United Kingdom</i> ;
	9. <del>P</del> <u>pure protection contract</u> effected by the trustees of an <i>occupational pension scheme</i> , an employer or a <i>partnership</i> to secure benefits for employees or the <i>partners</i> in the <i>partnership</i> ;
	<u>10. life policy which is a distance contract where the price depends on fluctuations in the financial market place outside the firm's control which may occur during the cancellation period;</u>
	11. the contract is a <u>distance contract</u> where: (a) the performance of the <i>distance contract</i> has been <u>fully completed by both parties at the retail customer's express request before the retail customer exercises his right to cancel</u> ; or (b) the <i>firm</i> has an initial service agreement with the <u>retail customer</u> and the contract is in relation to a <u>successive operation or separate operations of the same nature under that agreement (see COB 1.10.2G)</u> .

6.7.16 R Notes to cancellable ~~investment agreements~~ contracts and exceptions – life

This table belongs to *COB 6.7.15R*

**Notes to COB 6.7.15R:**

- |  |
|--|
| <p>1. Recurring single <i>premium life policy</i>: Under certain conditions, only the first <i>premium</i> in what might be a series of <i>premiums</i> (for example, in the case of a <i>mini-ISA insurance component</i>) attracts cancellation rights under <i>COB 6.7.7R(1)</i>. The conditions are:</p>   |
| <p>(a) the option to make a series of single <i>premium</i> payments is disclosed at outset (for example, in the <i>key features</i>); and</p> <p>(b) the intention is evidenced (for example, by the <i>retail customer</i> establishing a direct-debit mandate).</p>   |
| <p>2. Multiple contracts: Where a <i>retail customer</i> enters into a set of <u>contracts</u> <del><i>investment agreements</i></del> at the same time (for example, the different components held within a <i>maxi-ISA</i>) and with the same <i>firm</i> (or another <i>person</i> in the same <i>marketing group</i> as that <i>firm</i>), and that set is being purchased to fulfil one investment objective of the <i>retail customer</i>, the <i>firm</i> may treat the multiple <del><i>agreements</i></del> <u>contracts</u> as being one <del><i>agreement</i></del> <u>contract</u> for the purposes of <i>COB 6.7</i>. But if it does so, the <i>firm</i> must ensure that the <i>customer</i> retains a right to cancel each <u>contract</u> <del><i>investment agreement</i></del> separately. See also <del><i>COB 6.7.37R in relation to a maxi-ISA</i></del>. This note applies also to a group of <i>contracts of insurance</i>, for example, <i>term assurance</i> contracts which have been established as part of a specific marketing arrangement. Such an arrangement may not have an investment objective.</p> |
| <p>3. A purchaser of a single <i>premium pension policy</i> has a right to cancel where the designated retirement date is within six months of the date of the <i>policy</i>, unless the <i>policy</i> falls within case 1, 4 or 7(b) of <del>column</del> <u>row 2</u>.</p>   |
| <p>4. For a <i>customer</i>, other than an <i>EEA ECA recipient, habitually resident</i> in an <i>EEA State</i> other than the <i>United Kingdom</i>, <i>firms</i> are reminded that they may need to apply cancellation in accordance with the requirements in that <i>EEA State</i>.</p>   |
| <p>5. <u>This exemption from giving a right to cancel does not apply for distance contracts.</u></p>   |

6.7.17 R Cancellable ~~investment agreements~~ contracts and exceptions – non-life  
This table belongs to *COB 6.7.7R (1)* and *COB 6.7.14R (1)*

Delete the existing table and replace with the following (in this table, the existing columns (1) and (2) have been changed to rows (1) and (2). This change is not indicated but, otherwise, changes are indicated by using underlining and striking-through in the usual way):

**Cancellable investment agreements contracts and exceptions – non-life**

Investment agreements Contracts for which an individual a retail customer has a right to cancel under COB 6.7.7R(1) (subject to column row 2):-

Row 1	<p>A. <del>P</del><u>pension contract</u> (see notes 1, 2 and 4 in COB 6.7.18R):-</p> <p>B. <del>A</del><u>appropriate personal pension</u> which is a <i>pension contract</i> (see note 4 in COB 6.7.18R):-</p> <p>C. <del>S</del><u>subscriptions</u> (but see notes 1, <del>and 2</del> and 5 in COB 6.7.18R) which can be invested only in <i>units</i> (whether or not held within an <i>ISA</i>, <i>PEP</i> or <i>pension contract</i>) in an <i>AUT</i>, <i>recognised scheme</i> or <i>ICVC</i> purchased from:</p> <p>(a) the <i>operator</i>; or</p> <p>(b) its <i>marketing group associate</i> acting as an <i>ISA manager</i> or <i>plan manager</i>:-</p> <p>D. <u>distance contracts</u> (other than for a <i>life policy</i>, <i>stakeholder pension scheme</i>, <i>cash deposit ISA</i> or a contract in A, B or C) the making or performance of which by the <i>firm</i> constitutes or is part of:</p> <p>(a) <u>dealing as agent, advising or arranging in relation to designated investments</u>, unless the <i>distance contract</i> is concluded merely as a stage in the provision of another service by the <i>firm</i> or another <i>person</i> (see COB 1.10.6G); or</p> <p>(b) any other <i>designated investment business</i>; or</p> <p>(c) <u>accepting deposits</u>.</p>
Row 2	<p><u>There is</u> no right to cancel where any one or more of the following cases applies:</p> <p>1. <del>T</del><u>he customer</u> is not a <i>private customer</i> (but see note 5 in COB 6.7.18R):-</p>
	<p>2. <del>T</del><u>he agreement-contract</u> is entered into with the <i>firm</i> (and where relevant with any <i>independent intermediary</i>) as an <i>execution-only transaction</i> (unless note 4 or note 5 in COB 6.7.18R applies):-</p> <p>3. <del>T</del><u>he agreement-contract</u> is entered into through a <i>direct offer financial promotion</i> (unless note 4 or note 5 in COB 6.7.18R applies):-</p> <p>4. <del>T</del><u>he agreement-contract</u> represents an exchange of <i>units</i> between <i>sub-funds</i>:-</p>

**Cancellable investment agreements contracts and exceptions – non-life**

Investment agreements Contracts for which an individual a *retail customer* has a right to cancel under COB 6.7.7R(1) (subject to column row 2):-

	<p>5. <del>The agreement contract</del> represents a <i>defined benefits pension scheme</i> (but see note 5 in COB 6.7.18R):-</p> <p>6. <del>The agreement contract</del> is entered into under a <i>customer agreement</i> or during negotiations (which are not <i>ISA</i> or <i>PEP</i> related) intended to lead to a <i>client agreement</i> (unless note 4 or note 5 in COB 6.7.18R applies):-</p>
	<p>7. <del>The agreement contract</del> relates to an <i>ISA</i> or <i>PEP</i> for which the right to cancel is replaced by the right to withdraw (but see COB 6.7.14R(1) and note 5 in COB 6.7.18R):-</p>
	<p>8. <del>The agreement contract</del> relates to an <i>EIS</i> or non-packaged product <i>ISA</i> or <i>PEP</i> and is entered into, following <i>advice on investments</i>, and following an explanation <u>that neither of the rights specified in case 7 will apply</u>, given to the <i>customer</i> in accordance with COB 3.9.21R(2) (<del>Direct offer financial promotions: Cancellation rights</del>) or COB 4 Ann 2E(9)(a) 4.2.15E(10) (<del>Terms of business and client agreements with customers</del>) in a <i>direct offer financial promotion, terms of business</i>, or given in <i>EIS particulars</i>, <del>that neither of the rights specified in case 7 will apply</del> (but see note 5 in COB 6.7.18R):-</p>
	<p>9. <del>The agreement contract</del> entered into is a second or subsequent <i>ISA</i> (or <i>EIS</i>) on substantially the same terms (see note 3 in COB 6.7.18R) as an <i>ISA</i> (or <i>EIS</i>) purchased from the same <i>ISA manager</i> (or <i>EIS manager</i>) in the previous tax year (but see note 5 in COB 6.7.18R):-</p>
	<p>10. <del>The agreement contract</del> relates to a change from <i>accumulation units</i> to <i>income units</i> or vice versa, in the same <i>scheme</i>:-</p>
	<p>11. <del>Pension contract</del> funded (wholly or in part) from payments derived from compensation or redress paid by a <i>firm</i> following a review undertaken in relation to a complaint:-</p>
	<p>12. <del>Pension contract</del> or <i>stakeholder pension scheme</i> funded (wholly or in part) from payments derived from a <i>pension transfer</i> for which a right to cancel is replaced by a right to withdraw (see COB 6.7.14R(2)R) using the cancellation substitute in COB 6.7.19R:-</p>
	<p>13. <del>The agreement contract</del> relates to a <i>recognised scheme</i> and is with an <i>operator</i> who is not:</p>

**Cancellable investment agreements contracts and exceptions – non-life**

Investment agreements Contracts for which an individual a retail customer has a right to cancel under COB 6.7.7R(1) (subject to ~~column~~ row 2):-

	<p>(a) an <i>authorised person</i>; or</p> <p>(b) carrying on business in the <i>United Kingdom</i>:-</p>
	<p>14. <del>The agreement contract</del> relates or would relate to exported products, that is to say:</p>
	<p>(a) where the <i>customer</i> is not <i>habitually resident</i> in the <i>United Kingdom</i> (or, for a <i>distance contract</i>, <i>EEA</i>) at the date of the offer of the <del>agreement contract</del>; or</p>
	<p>(b) the <i>firm</i> has reasonable grounds for assuming that no <i>advice on investments</i> about the <del>agreement contract</del> was provided by anyone carrying on <i>designated investment business</i> in the <i>United Kingdom</i> (but see note 5 in COB 6.7.18R):-</p> <p>15. <u>for distance contracts</u>:</p> <p>(a) <u>the price depends on fluctuations in the financial market outside the <i>firm</i>'s control which may occur during the cancellation period, such as contracts related to:</u></p> <p>(i) <u>foreign exchange</u>; or</p> <p>(ii) <u>money market instruments</u>; or</p> <p>(iii) <u>transferable securities</u>; or</p> <p>(iv) <u>units in collective investment undertakings</u>; or</p> <p>(v) <u>financial-futures contracts, including equivalent cash-settled instruments</u>; or</p> <p>(vi) <u>forward interest-rate agreements</u>; or</p> <p>(vii) <u>interest-rate, currency and equity swaps</u>; or</p> <p>(viii) <u>options to acquire or dispose of any instruments in (i) to (vii), including cash-settled instruments and options on currency and on interest rates</u>; or</p> <p>(b) <u>the performance of the <i>distance contract</i> has been fully completed by both parties at the <i>customer</i>'s express request before the <i>customer</i> exercises his right to cancel</u>; or</p> <p>(c) <u>the <i>firm</i> has an initial service agreement with the <i>customer</i> and the contract is in relation to a successive operation or separate operation of the same nature under that agreement (see COB 1.10.2G).</u></p>

6.7.18 R Notes to cancellable ~~investment agreements~~ contracts and exceptions - non-life

This table belongs to COB 6.7.17R

Notes to COB 6.7.17R:	
1.	Recurring single payment <i>pension contracts</i> and <i>unit savings plans</i> . Under certain conditions, only the first payment in what might be a series of payments attracts cancellation rights under COB 6.7.7R (1). The conditions are:
	(a) the intention or option to make a series of single payments is disclosed at outset (for example, in the <i>key features</i> ); and
	(b) the intention is evidenced (for example, by the <i>customer</i> establishing a direct debit mandate).
2.	Multiple <del>agreements</del> <u>contracts</u> . Where a <i>customer</i> enters into a set of <del>investment agreements</del> <u>contracts</u> at the same time (for example, regarding different components held within a <i>maxi-ISA</i> ) and with the same <i>firm</i> (or another <i>person</i> in the same <i>marketing group</i> as that <i>firm</i> ) and that set is being purchased to fulfil one investment objective of the <i>customer</i> , the <i>firm</i> may treat the <del>agreements</del> <u>contracts</u> as being one <u>agreement contract</u> for the purposes of COB 6.7. But if it does so, the <i>firm</i> must ensure that the <i>customer</i> has a right to cancel each <u>contract investment agreement</u> separately ( <del>see also COB 6.7.37R in relation to maxi-ISA</del> ).
3.	For example, <i>mini-</i> to <i>mini-ISA</i> or <i>maxi-</i> to <i>maxi-ISA</i> would be regarded in this context as ‘on substantially the same terms’.
4.	A <i>customer</i> has a right to cancel an <i>appropriate personal pension or pension contract</i> at the outset and on any subsequent agreement for a variation of a <i>pension contract</i> (see COB 6.7.23R regarding variation of an existing contract).
5.	<u>This exemption from giving a right to cancel does not apply for distance contracts.</u>

6.7.19 R Cancellation substitute

This table belongs to COB 6.7.14R(2), cases 4(a) and 7(a) of ~~column~~ row 2 to COB 6.7.15R and case 12 of ~~column~~ row 2 to COB 6.7.17R.

Cancellation substitute	
The <i>retail customer's</i> right to cancel under COB 6.7.7R(1) or (4) is replaced by the right to withdraw only if:	
1.	the <i>firm</i> has supplied (or has reasonably relied upon another <i>firm</i> to supply) to the <i>retail customer</i> , at least <u>30 days in the case of a life policy and 14 days in any other case</u> before the contract is concluded, a written notice (see note 1) which prominently states:

<b>Cancellation substitute</b>	
	(a) that the <i>retail customer</i> has a <u>that</u> period of at least 14 days within which to consider his pension options;
	(b) the dates at which the period begins and ends (which must be, in the case of a <i>pension transfer</i> , before the transfer has been irrevocably effected);
	(c) the pension options available (for example, the <i>open-market option</i> in relation to a <i>pension annuity</i> );
	(d) the steps the <i>retail customer</i> must take in order to exercise a particular pension option;
	(e) that the <i>retail customer</i> is entitled to <i>key features</i> and is advised to check with the <i>firm</i> if it has not been received;
	(f) the cost of any advice given to the <i>retail customer</i> in relation to the transaction; and
2.	the <i>firm</i> has taken sufficient steps (or has reasonably relied upon the same <i>firm</i> as in 1. to take those steps) to ensure that the <i>customer</i> has been informed and made fully aware of the potential advantages and disadvantages of proceeding and has had an opportunity to consider all other possible alternatives.
Note:	
1. The notice must be issued separately or feature prominently as part of the application form; <u>or suitability letter</u> <del>or key features</del> supplied to the <i>customer</i> .	

6.7.20 R ~~[deleted]~~ Cancellation— cash deposit ISA

This table belongs to *COB 6.7.7R(3)*

<b><del>Cancellation— cash deposit ISA</del></b>	
<del>The <i>firm</i> must supply (or may reasonably rely upon another <i>firm</i> to supply) to the <i>retail customer</i> before the account is opened, a written notice (see note 1) which prominently states:-</del>	
<del>A.</del>	<del>That the <i>retail customer</i> has a 14 day period within which to consider whether or not to keep the account open;</del>
<del>B.</del>	<del>The dates at which the 14 day period begins and ends (see note 2);</del>
<del>C.</del>	<del>The options available (see note 3);</del>
<del>D.</del>	<del>How cancellation will operate in circumstances where the account forms part of a <i>maxi ISA</i> which contains other components (see <i>COB 6.7.37R</i>);</del>
<del>E.</del>	<del>the steps the <i>retail customer</i> must take to communicate any decision not to proceed with the account (see <i>COB 6.7.42R</i> to <i>6.7.46G</i>); and</del>

## Cancellation—cash deposit ISA

F. That a *retail customer* who exercises a right to cancel will not incur any additional charges or be affected by any notice period.

Notes:

1. The notice must be issued separately or feature prominently as part of the minimum information supplied to the *retail customer*.
2. Unless the *firm* has specified a longer period to the *retail customer*, the minimum expiry date is the end of the fifteenth day from the date the account was opened.
3. A *firm* must either assist the *retail customer* in switching accounts or refund all monies deposited together with interest.

### Voluntary provisions

- 6.7.21 R If anything in column row 2 of either COB 6.7.15R or COB 6.7.17R removes the right to cancel a contract investment agreement, but a *firm* voluntarily gives the *retail customer* a right to cancel in any event, the *firm* must treat the agreement contract as if it were cancellable under COB 6.7.7R(1).
- 6.7.22 G (1) If the *firm* has any doubt whether a contract the investment agreement or the circumstances of its purchase bring the case within any part of COB 6.7.7R(1), it should treat the agreement contract as if it were cancellable.
- (2) A *firm* that informs a retail customer that he has sends a pre-sale notice or post-sale notice notice of a right to cancel where it is not obliged to give a right to cancel do so under COB 6.7.30R will be taken to have voluntarily granted the *retail customer* a right to cancel (unless, for the purposes of COB 6.7.17R, there is a relevant *client agreement* between the *firm* and the *retail customer*).

### Variations

- 6.7.23 R (1) After an increase in regular or single *premiums* or payments (including a *pension transfer*) to a *life policy*, *pension contract* or *stakeholder pension scheme*, a *retail customer*, ~~who is an individual~~, has a right to cancel (see COB 6.7.7R(4)) in the following circumstances unless (2) applies:
- (a) any variation, other than a ‘pre-selected option’ (see COB 6.7.26G), providing for substantial increases in *premium* or payment where the increase:
- (i) is being paid by way of varying the existing agreement contract; or
  - (ii) will result in a new agreement contract established

on the same terms as the original agreement contract;

and, in each case, represents an increase on the original *premium* or payments (or the previous highest agreed *premium* or payment) of more than 25% (see *COB 6.7.25G*); or

- (b) any variation, other than a 'pre-selected option' (see *COB 6.7.26G*), that results in a new agreement contract which involves fresh contract terms or imposes additional obligations on the *retail customer* due to a change in the terms of the original agreement contract;
- (c) any variation where the increase represents the proceeds of a *pension transfer*.

(2) Paragraph (1) does not apply if:

- (a) there would have been no right to cancel the original contract investment agreement under *COB 6.7.7R(1)* had that agreement been entered into on the date of the variation; or
- (b) the variation arises out of the settlement of a claim for damages or compensation connected with a previous contract investment agreement.

(3) A *firm* may use the cancellation substitute in *COB 6.7.19R* in relation to a variation of a contract investment agreement in any case where that substitute would have been available to it had the contract agreement been entered into on the date of the variation.

...

Electronic communication relating to cancellation and withdrawal

6.7.27 G For electronic transactions (for example, facsimile, e-mail or Internet) *firms* are referred to the *guidance* in *COB 1.8*. The *rules* in *COB* permit the *firm* to issue the *pre-sale or post-sale notices information about a right to cancel* and other communications, and to accept notice from *customers* who are exercising the right to cancel or withdraw, by electronic means. However, a *firm* should be able to demonstrate that the *customer* wishes to communicate electronically.

Time deadlines relating to cancellation and withdrawal

6.7.28 R ~~[deleted] (1) The deadlines in *COB 6.7.10R*, item 1 of *COB 6.7.19R*, item A and note 2 of *COB 6.7.20R*, *COB 6.7.34R(2)* and *COB 6.7.48R* are based on calendar days (excluding public holidays) and must be calculated by reference to the day after the date on which the agreement is concluded.~~

(2) In the event of any contingency beyond the *firm* or *customer's* control which prevents delivery or service of the cancellation notice, the period in question must be counted as public holidays and therefore will not count for the purposes of the time delay.

6.7.29 G ~~[deleted]~~ For an example of the operation of COB 6.7.28R(1), in the case of the eight-day deadline, the *post-sale notice* for an agreement concluded on Wednesday would need to be sent by the *firm* no later than Thursday of the following week.

Giving Reminding the customer notice of the right to cancel – contracts other than distance contracts and cash deposit ISAs

6.7.30 R Other than for distance contracts and cash deposit ISAs, wWhere there is a right to cancel, under COB 6.7.7R(1), (2) or (4), the *firm* which enters into the agreement contract with the *customer* (also see COB 6.7.31R) must send give the *customer*, in writing, a clear and prominent reminder notice of this right:

(1) (for any contract specified in Part II of COB 6.7.57R to which shortfall applies), no later than the end of the eighth day; and

(2) (in any other case specified in COB 7.7.7R) no later than the end of the fourteenth day;

after the contract is concluded.

(1) before the agreement is concluded (a 'pre-sale notice'); and  
(2) after the agreement has been concluded (a 'post-sale notice').

6.7.31 R When the *customer* is a trustee who is reasonably believed by the *firm* to be expected to act on the instructions of the individual beneficiary or purchaser of the *policy* or contract, the *firm* must send a copy of the notice of the right to cancel in COB 6.7.30R *post-sale notice* to:

...

Pre-sale notices

6.7.32 R ~~[deleted]~~ A *pre-sale notice* must contain at least a summary of the information required in a *post-sale notice*.

6.7.33 G ~~[deleted]~~ The following is an example of the type of summary statement which *firms* could use: 'You will be able to cancel your [investment]/ [contract] during a two-week period after concluding the agreement and receive a refund [in full / less a deduction for shortfall to reflect any fall in the markets in the interim]. You will be told of this right in more detail (including when it begins and ends, and how to exercise it) in documents that we will send you at the

relevant time.‘

Post-sale notices: general

6.7.34 R ~~[deleted]~~ A *post-sale notice* must be:

- (1) ~~In writing;~~
- (2) ~~given to the customer:~~
  - 
  - (a) ~~(for any investment agreement specified in Part II of COB 6.7.57R to which *shortfall* applies), no later than the end of the eighth day; and~~
  - (b) ~~(in any other case specified in COB 6.7.7R), no later than the end of the fourteenth day;~~

~~After the agreement is concluded;~~

- (3) ~~sufficiently clear, prominent (see COB 6.7.39R) and informative to enable the customer to exercise the right to cancel; and~~
  -
- (4) ~~accompanied by a slip or form (or an electronic equivalent) to enable the customer to exercise a right to cancel.~~

Post-sale notices: method of sending

6.7.35 R ~~[deleted]~~ A *post-sale notice* must be sent by *post*, or electronically, except in the case of an *industrial assurance policy*, when it may, instead, be given to the *customer* by hand.

Post-sale notices: content

6.7.36 R ~~[deleted]~~ A *post-sale notice* must state:

- (1) ~~That there is an agreement between the customer and the firm;~~
- (2) ~~That there is a right to cancel the agreement;~~
- (3) ~~the duration of the right to cancel and the date at which the right begins and ends;~~
- (4) ~~the steps the customer must take to cancel the agreement;~~
- (5) ~~the consequences of cancelling the agreement, including a prominent statement of any *shortfall* (see COB 6.7.54R) which the customer will have to bear;~~
- (6) ~~(as a prominent reminder) that the customer is entitled to key features and is advised to check with the firm if the key features have not been received (except in the case of *pure protection*~~

*contracts*); and

- (7) That the *customer's* right to cancel will remain unaffected if any contingency beyond the *customer's* control arises which makes it impracticable for the *customer* to communicate his wish to cancel (see *COB 6.7.28R*).

Post sale notices: ISAs

- 6.7.37 R ~~[deleted] In the case of ISAs, a firm must ensure that the slip or form in COB 6.7.34R(4) (1) will enable the customer to indicate whether the entire ISA agreement is to be cancelled or just a particular component or product.~~
- 6.7.38 G ~~[deleted] For example, in the case of a maxi-ISA, the customer:~~
- (1) has to be able to cancel at the component (or underlying product) level and is not compelled to cancel other components (or products);
- (2) needs to know that the effect of cancelling the last component has the effect of cancelling the entire ISA agreement and may also (where it is the case) delay the customer from entering into another ISA agreement until the next tax year.

Prominence of post-sale notice

- 6.7.39 R ~~[deleted] To comply with COB 6.7.34R(3), where the post-sale notice forms part of another document or is one of a number of documents sent to the customer at the same time, a firm must ensure that the presence of the post-sale notice is drawn to the customer's attention (see COB 6.7.40G).~~
- 6.7.40 G ~~[deleted] Where the post-sale notice forms part of a brochure or is included in a pack of documents, the front of the brochure or pack should prominently feature words such as: 'IMPORTANT: information about your right to cancel this agreement is enclosed'.~~

Failure to send post-sale notice give information on cancellation rights

- 6.7.41 R G If a firm does not send a *post-sale notice* when required by these rules give a retail customer information about his cancellation rights in accordance with COB App 1.1.1R(17), the contract remains cancellable and the retail customer can cancel the agreement at any time within two years of the agreement and will not be liable for any shortfall (see COB 6.7.56R(31)).

Exercising the right to cancel

- 6.7.42 R A retail customer who has a right to cancel under *COB 6.7.7R* may, without giving any reason, cancel the agreement contract by serving

notice upon the *firm*, before expiry of the relevant cancellation period either:

- (1) by post to the *firm*'s last known address; or
- (2) in accordance with any other practical instructions for exercising that right provided to the *customer* in accordance with COB App 1.1.1R (17)(b).

6.7.43 R ~~[deleted] Notice of cancellation is valid if sent by post or in any other manner that the *firm* has told the *customer* is acceptable.~~

#### ~~Valid notice of cancellation~~

- 6.7.44 R (1) ~~A notice of cancellation given by a *retail customer* is valid when it is served on, or otherwise sent by post to the *firm*'s last known address, addressed to the *firm*, its *appointed representative* or on any agent of the *firm* with authority to accept notice on the *firm*'s behalf.~~
- (2) ~~A *firm* must treat any notice of cancellation sent by prepaid post, or otherwise sent, and valid in accordance with COB 6.7.43R and COB 6.7.44R(1), as being served on the date it was posted or sent. Where the notice of cancellation is in a  durable medium  and served in accordance with COB 6.7.42R, it must be treated as being served on the *firm* on the date it is despatched by the *retail customer*.~~

...

6.7.46 G In the event of any dispute, unless there is clear written evidence to the contrary, the *firm* should treat the date cited by the *customer* as being the date when the notice was given, posted or otherwise sent.

...

6.7.48 R If a *firm* has provided information on cancellation rights in accordance with COB App 1.1.1R(17), ~~sent a *post sale notice*~~, it need not (unless COB 6.7.11R applies) accept a notice of cancellation if it is served later than the period specified for that agreement contract in COB 6.7.10R.

...

#### Effects of cancellation

6.7.51 R By exercising a right to cancel under COB 6.7.7R(1), (2) or (4), the *retail customer* withdraws from the investment agreement contract and:

- (1) the entire agreement contract; or
- (2) the particular ISA component (~~see COB 6.7.37R~~); or

(3) the variation alone (see *COB* 6.7.23R(1));

is ~~rescinded~~ terminated.

Automatic cancellation of an attached distance contract

6.7.51A G Regulation 11 (Automatic cancellation of an attached distance contract) of the *Distance Marketing Regulations*, has the effect that when notice of cancellation is given in relation to a contract, that notice also operates to cancel any attached distance financial services contract which does not fall within one of the exceptions to the right to cancel in regulation 10. So the attached contract will not be cancelled if the price of the service depends on fluctuations in the financial market outside the *firm's* control or if performance of the contract has been fully completed by both parties at the consumer's express request.

6.7.52 R When a *retail customer* exercises a right to cancel under *COB* 6.7.7R(1), (2), (3) or (4):

(1) the *firm* must:

(a) pay to the *retail customer* (or, in the case of a *pension transfer* or *pension annuity*, for the benefit of the *retail customer*) without delay, and no later than 30 days after the date on which the *firm* received notice of cancellation from the *retail customer*, any sums which the *customer* has paid to or for the benefit of the *firm* in connection with the ~~agreement~~ contract (including sums paid by the *retail customer* to agents of the *firm*) except for the amount referred to in (b);

(b) subject to (c), the *firm* is permitted to require the *retail customer* to pay for the services it has actually provided in connection with the contract; the amount payable, however, must be in accordance with the sums which the *retail customer* agreed to pay and must not:

(i) exceed an amount which is in proportion to the extent of the service already provided to the *retail customer* by the *firm*; and

(ii) be such that it could be construed as a penalty;

(c) sub-paragraph (b) applies only if:

(i) the contract is a *distance contract* within *COB* 6.7.17R, Row 1, case D (Distance contracts for certain designated investment business or accepting deposits);

(ii) where performance of the contract has

commenced before expiry of the cancellation period, this was requested by the *retail customer*; and

(iii) the *firm* can demonstrate that the *retail customer* was provided with details of the amount which he may be required to pay if exercising his right to cancel in accordance with COB App 1.1.1R(17)(a).

(2) The *firm* is entitled to receive without delay, and no later than 30 days after the date on which the *customer* posted or otherwise sent notice of cancellation to the *firm*:

(a) any sums or property or both that became the *customer's* under the contract; and

(b) payment of any *shortfall* due under COB 6.7.54R.

and the *firm* is entitled to receive:

(1) Any property that became the *customer's* under the agreement contract; plus

(2) Any sum which the *firm* has paid under the agreement contract; plus

(3) (subject to COB 6.7.56R) any *shortfall* due under COB 6.7.54R.

...

Shortfall where there is a right to cancel a non-distance contract

6.7.54 R If a *firm* has sent a post-sale notice that satisfies the rules in COB 6.7 and the market falls during the cancellation period, sSubject to COB 6.7.56R, the *firm* is entitled under COB 6.7.52R(2)(b) to charge the *retail customer* for the market loss (that is, *shortfall*), calculated in accordance with COB 6.7.58R, which the *firm* would incur in cancelling any contract investment agreement specified in COB 6.7.57R.

Shortfall: worked example

6.7.55 G COB 6.7.58R illustrates the process that *firms* need to undertake in order to discover the amount (that is, *shortfall*) by which the purchase price paid by the *retail customer* is greater than the purchase price prevailing when the *firm* becomes aware that the *retail customer* has cancelled. EXAMPLE: In the case of dual-priced *investments*, the *shortfall* on cancellation is calculated on an offer-to-offer basis; for example, 1,000 *units* are purchased at an offer price of 209.1p and the offer price is (or, in the case of a *forward price*, is subsequently ascertained to be) 196.2p as at the time when the *firm* became aware that notice of cancellation had been served by the *retail customer*. The *shortfall* on cancellation, therefore, is  $(209.1 - 196.2) = (12.9p \times 1,000) = \text{£}129$ .

Exceptions to shortfall

6.7.56 R A *firm* will have no right to charge a *retail customer* for any shortfall which results from the customer having exercised a right to cancel in any of the following circumstances:

- (1) if the *firm* ~~does not give the *customer* sends the~~ notice of his cancellation rights pre-sale notice, or the post-sale notice, as later than required by the rules in COB App 1.1.1R (17) (whether the *retail customer's* cancellation notice is valid or not);
- (2) if the *firm* fails to make any prominent mention of *shortfall* in the information about cancellation pre-sale or post-sale notice;
- (3) if the *firm* has failed to send a *post-sale reminder* notice as required by COB 6.7.30R (2);
- (4) if the *customer* has served the cancellation notice before the contract agreement is concluded.

6.7.57 R Table: Contracts Investment agreements which are subject to shortfall  
This table belongs to COB 6.7.54R

Investment agreements which are subject to shortfall	
Part I: any <u>contract investment agreement</u> specified in row <del>column</del> 1 of COB 6.7.15R (unless note 1 applies):	
...	
Part II: any <u>contract investment agreement</u> specified in row <del>column</del> 1 of COB 6.7.17R (unless note 2 applies):	
...	
Notes:	
<i>Shortfall</i> does not apply to any <u>contract investment agreement</u> which is established at the outset:	
...	

6.7.58 R Table: Calculation of shortfall  
This table belongs to COB 6.7.54R

Calculation of shortfall	
A <i>firm</i> must calculate <i>shortfall</i> as at the 'relevant date' (see note 1) as follows:	
...	

Calculation of shortfall	
B.	take the equivalent payment that would have been quoted (see notes 3, 4 and 5) to the same <i>retail customer</i> assuming an identical purchase was made at the 'relevant date';
C.	add to the figure at B the amount of any income included in the figure at A (but originally excluded from the figure at B for the purposes of distribution to <i>retail customers</i> ); and
...	
Notes:	
...	
2. If the agreement is a variation of a previous <b>agreement contract</b> (see <i>COB 6.7.23R</i> ), the <i>firm</i> must treat the increase in <i>premium</i> as the sum in A.	
...	

...

6.8.3 R A *firm* must ensure that, before entering into a *pure protection contract* with a *client*, it provides the *client* with the information specified in *COB 6.5.49R*, unless at the time of application, the *client*, other than an *EEA ECA recipient*, is *habitually resident*:

(1) (except for a *distance contract* with a *retail customer*) in an *EEA State* other than the *United Kingdom*; or

...

...

6.8.12 R Before entering into a *general insurance contract* with an individual when the *United Kingdom* is the *State of the risk* or the individual is an *EEA ECA recipient*, a *firm* must, subject to *COB 6.8.13* and *COB 6.8.13A* provide the individual with:

...

...

6.8.13A R *COB 6.8.12R* does not apply if the contract is a *distance contract* with a *retail customer* who is not present in the *United Kingdom*.

...

10 Operators of collective investment schemes

10.6.1 G Except in relation to a *distance contract* with a *retail customer* for the sale or purchase as *principal* of units in a *scheme* (for which see *COB 4.2.5R* and *COB 4 Ann 1R(6)(c)*), *COB 10.6.2R* fulfils the purpose of the *terms of business* (including the *client agreement*) requirements (see *COB 4.2*) in the context of an *unregulated collective investment scheme* by application of content requirements in scheme documents.

...

...

COB Appendix 1 Required information for certain terms of business, key features and direct offer financial promotions

1.1.1 R Table Required information

This table belongs to COB 3.9.6R, COB 4.2.10R, COB 6.2.16R, COB 6.2.18R, COB 6.4.13R, COB 6.4.25R, COB 6.4.27R and COB 6.5.2R(6), COB 6.5.42R to COB 6.5.44R.

<b>Required information</b>	
The supplier	
(1)	The name and the main business of the <i>firm</i> , the geographical address at which it is established and any other geographical address relevant to the <i>customer's</i> relations with the <i>firm</i> .
(2)	Where the <i>firm</i> has a representative established in the <i>customer's</i> EEA State or other country of residence, the identity of that representative and the geographical address relevant to the <i>customer's</i> relations with him.
(3)	Where the <i>customer's</i> dealings are with any professional other than the <i>firm</i> , the identity of that professional, the capacity in which he is acting with respect to the <i>customer</i> , and the geographical address relevant to the <i>customer's</i> relations with that professional.

## Required information

(4)	<p>(a) For <i>authorised persons</i>:</p> <ul style="list-style-type: none"> <li>(i) the required disclosure statement in <i>GEN 4 Ann 1R</i> (Statutory status disclosure); and</li> <li>(ii) the fact that the <i>person</i> is entered on the <i>FSA Register</i> and his <i>FSA</i> registration number.</li> </ul> <p>(b) For <i>unauthorised persons</i>:</p> <ul style="list-style-type: none"> <li>(i) where the <i>person's</i> activity is subject to an authorisation scheme, the particulars of the relevant supervisory authority; and</li> <li>(ii) where the <i>person</i> is registered in a trade or similar public register, the trade register in which the <i>person</i> is registered and his registration number or an equivalent means of identification in that register.</li> </ul>
The financial service	
(5)	A description of the main characteristics of the service the <i>firm</i> will provide.
(6)	The total price to be paid by the <i>customer</i> to the <i>firm</i> for its services, including all related fees, charges and expenses, and all taxes paid through the <i>firm</i> or, where an exact price cannot be indicated, the basis for the calculation of the price enabling the <i>customer</i> to verify it.
(7)	Notice of the possibility that other taxes or costs may exist that are not paid through the <i>firm</i> or imposed by it.
(8)	Details of any specific additional cost to the <i>customer</i> for using a <i>means of distance communication</i> .

**Required information**

(9)	Where relevant, notice indicating that the service involves special risks related to its specific features or the operations to be executed or whose price depends on fluctuations in the financial markets outside the <i>firm's</i> control and that past performance is no indicator of future performance.
(10)	Any limitations of the period for which the information provided is valid.
(11)	The arrangements for payment and performance.
The contract	
(12)	In relation to services performed permanently or recurrently, the minimum duration of the contract.
(13)	The <i>EEA State</i> or <i>States</i> whose laws are taken by the <i>firm</i> as a basis for the establishment of relations with the <i>retail customer</i> prior to the conclusion of the contract.
(14)	Any contractual clause on law applicable to the contract or on competent court, or both.
(15)	The language in which the contract is supplied and in which the <i>firm</i> will communicate during the course of the contract.
(16)	Information on any rights the parties may have to terminate the contract early or unilaterally under its terms, including any penalties imposed by the contract in such cases.

## Required information

(17)	<p>The existence or absence of a right to cancel under <i>COB 6.7</i> and, where there is such a right:</p> <ul style="list-style-type: none"><li data-bbox="469 353 1334 613">(a) its duration and the conditions for exercising it, including information on the amount which the <i>customer</i> may be required to pay (or which may not be returned to the <i>customer</i>) in accordance with <i>COB 6.7.52R(1)(b)</i>, as well as the consequences of not exercising it; and</li><li data-bbox="469 636 1334 837">(b) practical instructions for exercising the right to cancel, including as a minimum the method in <i>COB 6.7.42R(1)</i> and details of the address to which any cancellation notice should be sent.</li></ul>
Redress	
(18)	<p>How to complain to the <i>firm</i>, whether or not complaints may subsequently be referred to the <i>Financial Ombudsman Service</i> and information about any other applicable named complaints scheme.</p>
(19)	<p>Whether or not compensation may be available from the <i>compensation scheme</i> should the <i>firm</i> be unable to meet its liabilities, and information about any other applicable named compensation scheme; and, for each applicable scheme, the extent and level of cover and how further information can be obtained. (See the example in <i>COB 5.5.11 G</i> (Investment firms: compensation information)).</p>

In this Annex, underlining indicates new text and striking through indicates deleted text.

#### ICOB Transitional provisions

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
...					
5	<i>ICOB 4.7.1R and ICOB 8.4.1R</i>	G	<i>ICOB 4.7.1R and ICOB 8.4.1R apply equally to contracts sold before 14 January 2005 and which come up for <i>renewal</i> after that date as they do to contracts newly entered into after 14 January 2005. <i>Firms</i> may, if they wish, get consent for future <i>renewals</i> when the contract is first sold or at the next <i>renewal</i>.</i>		
...					

...

- 4.7.1 R ~~Unless Subject to ICOB 4.7.2R applies,~~ an *insurance intermediary* or an *insurer* must not, in relation to a *non-investment insurance contract* that is a *distance contract*:
- (1) *advise on, arrange, enter into, ~~renew,~~ carry out or assist in the administration and performance* of such a contract for a *retail customer* without a prior request on his part, when the supply of such a service includes a request for immediate or deferred payment; or
  - (2) enforce any obligation against a *retail customer* in the event of unsolicited supplies of such services, the absence of a reply not constituting consent.

- 4.7.2 R *ICOB 4.7.1R does not prevent an insurance intermediary or an insurer from exercising any right that he may have, by contract or otherwise, to renew a distance contract with a retail customer without any request made by or on behalf of that retail customer prior to the renewal of the contract apply for a tacit renewal of a distance contract.*
- 4.7.3 G (1) ~~ICOB 4.7.1R(1) prohibits an insurance intermediary (or an insurer when acting as product provider) from advising on, arranging, entering into, renewing, carrying out or assisting in the administration and performance of a non-investment insurance contract that is a distance contract for a retail customer without the prior consent of that retail customer. This prohibition in ICOB 4.7.1R includes the continuation of insurance after a specified period where the insurance has been free of charge to the retail customer during that period unless the retail customer has agreed before the period expires to pay for the insurance once the period has expired.~~
- (2) ~~Where the payment for the contract is made by regular instalments (for example, by direct debit), the effect of ICOB 4.7.2R is that an insurance intermediary (or an insurer when acting as product provider) will be required to seek the retail customer's consent on renewal to continue to provide insurance only if the contract does not give it the right to do so without further reference to the retail customer.~~
- (3) ~~The prior consent of the retail customer can either be express, or deduced from the circumstances of the case (for instance, by the retail customer providing an updated direct debit mandate to the firm).~~
- ...
- 8.4.1 R ~~Unless Subject to ICOB 8.4.2R applies, an insurance intermediary must not, in relation to a distance non-investment mediation contract:~~
- (1) ~~advise on, arrange, enter into, renew, carry out or assist in the administration and performance of such a contract for a retail customer without a prior request on his part, when the supply of such a service includes a request for immediate or deferred payment; or~~
- (2) ~~enforce any obligation against a retail customer in the event of unsolicited supplies of such services, the absence of a reply not constituting consent.~~
- 8.4.2 R *ICOB 8.4.1R does not prevent an insurance intermediary from exercising any right that he may have, by contract or otherwise, to renew a distance non-investment mediation contract with a retail customer without any request made by or on behalf of that retail customer prior to the renewal of the contract apply for a tacit renewal of a distance non-investment mediation contract.*

- 8.4.3 ~~G[deleted]~~ (1) Where the payment for the contract is made by regular instalments (for example, by direct debit), the effect of *ICOB* 8.4.2R is that an *insurance intermediary* will be required to seek the *retail customer's* consent on *renewal* to continue to provide mediation services only if the contract does not give him the right to do so without further reference to the *retail customer*.
- (2) The prior consent of the *retail customer* can either be express, or deduced from the circumstances of the case (for instance, by the *retail customer* providing an updated direct debit mandate to the *firm*).

## Annex F

### Amendments to the Credit Unions sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text. Where an entire section of text is being inserted, the place that it goes is indicated and the text is not underlined.

- 11.1.2 G (1) The *rules* and *guidance* set out in *COB* mainly apply to *designated investment businesses* and, as stated in *COB* 1.3.2G(2), have limited application to *deposits*.
- (2) The only parts of *COB* that sets out *rules* and *guidance* on *deposits*, other than for a cash deposit ISA, is that are those relating to *financial promotion* in *COB* 3 and those relating to distance contracts for accepting deposits in *COB* 2.6 (General provisions related to distance contracts), *COB* 6.7 (Cancellation and withdrawal) and *COB* 6.4.25R (Entering into a distance contract for accepting deposits). Guidance on the way in which those requirements apply to credit unions is set out in *CRED* 11.2 (Financial promotion) and *CRED* 11.4 (Entering into a distance contract for accepting deposits). These are summarised in *CRED* 11.2 (Financial Promotion).

...

- 11.2.1 G ~~The only part of *COB* that sets out *rules* and *guidance* on *deposits* other than a *cash deposit ISA* is that relating to *financial promotion* in *COB* 3. *Financial promotion* is defined as an invitation or inducement to *engage in investment activity*.~~

...

After *CRED* 11.3, insert the following new section:

- 11.4 Entering into a distance contract for accepting deposits
- 11.4.1 G Those parts of *COB* that relate to *distance contracts* for *accepting deposits* will have limited application to *credit unions*. This is because the *DMD* only applies where there is “an organised distance sales or service-provision scheme run by the supplier” (Article 2(a)). If, therefore, the *credit union* normally operates face-to-face and has not set up facilities to enable *customers* to deal with it at a distance, such as facilities for a *customer* to deal with it purely by post, telephone, fax or the Internet, the provisions will not be relevant. A one-off transaction dealt with by distance means in order to deal with a particular contingency or emergency will not fall under the *COB* provisions.
- 11.4.2 G For those *credit unions* to which the provisions in *COB* will apply, the provisions which are of particular relevance concern the general provisions (*COB* 2.6), pre-contract information (*COB* 6.4.25R), cancellation rights

(COB 6.7) and financial promotion (discussed at CRED 11.2). If the *credit union* provides *cash deposit ISAs* further rules may apply.

#### Pre-contract disclosure requirements

- 11.4.3 G *COB 6.4.25R* sets out the basic requirement that applies before a *credit union* enters into a *distance contract* for *accepting deposits*. The *credit union* has to ensure that the terms on which it will conduct business, including, in particular, certain required information, is provided to a *retail customer* (which means an individual, acting for purposes which are outside his trade, business or profession) in good time (that is, in sufficient time to enable a *customer* to consider properly the services on offer) in a *durable medium*, before the *retail customer* is bound by the *distance contract*, unless certain exemptions apply.
- 11.4.4 G The required information is the contractual terms and conditions and the other information set out in *COB App 1*, and covers basic information about the *credit union*, the main characteristics of the service on offer, the price, details about the *distance contract* such as its duration, cancellation rights and any other early termination rights and penalties, and information about out-of-court complaints and compensation arrangements.

#### Exemptions

- 11.4.5 G The exemptions referred to in *CRED 11.4.3G* are set out in *COB 6.4.25R*. They are relevant:
- (1) where the contract is concluded by telephone and the *retail customer* gives explicit consent to receiving a more limited range of information. *COB 6.4.27R* sets out the information to be provided in such cases. Full information has to be provided, in a *durable medium*, immediately after conclusion of the *distance contract* (*COB 6.4.25R(2)*);
  - (2) where a means of communication (other than telephone) is used which does not enable provision of the required information in a *durable medium* before conclusion of the contract; in this case full information must also be provided in a *durable medium* immediately after conclusion of the *distance contract* (*COB 6.4.25R(3)*);
  - (3) where there is an initial service agreement and the contract is in relation to a successive or separate operation of the same nature under that agreement, or there is no initial service agreement and the contract is in relation to a successive or separate operation of the same nature and is being performed no more than one year from the date of performance of the last operation (see *COB 1.10.2G*).
- 11.4.6 G The other provisions in *COB* which relate to the disclosure requirements and are of relevance to *credit unions* entering into a *distance contract* for *accepting deposits* are in *COB 2.6* (General provisions related to distance contracts). *COB 1.11.2R* (Exemption for firms which follow the Banking

Code Guidance) would be relevant if a *credit union* came within its scope and subscribed to the Banking Code Guidance.

#### Cancellation

11.4.7G *A retail customer* has a right to cancel a *distance contract* for accepting deposits without giving any reasons and without penalty. The right to cancel has to be exercised within 14 days of the day of the conclusion of the contract or the day on which he received the contractual terms and conditions, if later (COB 6.7.10R).

11.4.8G The only exemptions from the right to cancel are when:

- (1) the price of the service depends on fluctuations in the financial market outside the *credit union's* control which may occur during the cancellation period; or
- (2) the contract has already been fully performed with the *retail customer's* consent before he exercises his right to cancel; or
- (3) the *credit union* has an initial service agreement with the *retail customer* and the contract is in relation to a successive operation or separate operation of the same nature under that agreement (see COB 1.10.2G).

11.4.9G The effects of cancellation are set out in COB 6.7.51R to COB 6.7.52R. The *credit union* has to return, no later than 30 days after the date it received notice of cancellation, any sums paid by the customer in connection with the contract. The *customer* can be required to pay for any services provided up to the date of cancellation, provided that the sums payable are in proportion to the extent of the service actually provided and could not be construed as a penalty. No payment can be required if the *credit union* cannot prove that a *customer* was told the amount that would be payable as part of the pre-contract information or if the *credit union* starts performance of the contract without the *customer's* prior consent.

11.4.10G If there are other ancillary *distance contracts* related to the first, those ancillary contracts may also be cancelled automatically when a *retail customer* exercises a right to cancel (see COB 6.7.51R).

11.4.11G This *guidance* is not a substitute for, and should be read in conjunction with, the requirements contained in the relevant parts of COB.

## Annex G

### Amendment to the Electronic Commerce Directive sourcebook

In this Annex, underlining indicates new text.

#### Exceptions: regulated mortgage contracts

1.2.4A R ECO 1.2.1R does not apply to an incoming ECA provider with respect to an electronic commerce activity which relates to a regulated mortgage contract.

...

#### Exception: activities (other than insurance) from EEA States which have implemented the DMD

1.2.5A R ECO 1.2.1R does not apply to an incoming ECA provider with respect to an electronic commerce activity, if the following conditions are satisfied:

- (1) the activity is not insurance business which:
  - (a) satisfies the conditions in ECO 1.2.3R; and
  - (b) is carried on by an insurer; and
- (2) the EEA State from which the activity is provided has implemented the DMD with the result that the obligations provided for by the DMD are applied when the incoming ECA provider is carrying on the activity from an establishment in that State with a UK ECA recipient in the United Kingdom.

## Annex H

### Amendments to the Professional firms sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

- 5.1.2 G This chapter:  
...
- (2) ...; ~~and~~
- (3) ... ;
- (4) gives effect to the *Distance Marketing Regulations* with respect to the *non-mainstream regulated activities of authorised professional firms*.

...

- 5.3.2 G *COB 1.2.1R(4)* provides that *COB* does not apply to an *authorised professional firm* with respect to its *non-mainstream regulated activities* except for *COB 2.1* (Clear, fair and not misleading communication), *COB 3* (Financial promotion) and *COB 4.2.1R* to *COB 4.2.6G*, ~~*COB 4.2.9R*~~ to ~~*COB 4.2.11E*~~ and ~~*COB 4.2.15E(26)*~~ (Terms of business and client agreements with customers) *COB 4.2.12AE* and *COB 4 Ann 2E(25)* (Content of terms of business).

...

#### 5.4 Application of the Distance Marketing Regulations

- 5.4.1 R (1) An authorised professional firm must, with respect to its non-mainstream regulated activities, comply with regulations 6 to 10, 14 to 15(2) and 16 to 20 of the *Distance Marketing Regulations* and those regulations have effect to cancel *distance contracts* the making or performance of which by such firms constitutes a *non-mainstream regulated activity*.
- (2) Paragraph (1) does not apply in relation to regulations 6 to 7 and 14 to 15(2) if the designated professional body of the authorised professional firm has rules equivalent to those regulations and:
- (a) those rules have been approved by the *FSA* under section 332(5) of the *Act*; and
- (b) the authorised professional firm is subject to those rules in the form in which they have been approved.

- 5.4.2 G The effect of *PROF 5.4.1R* is that it allows *designated professional bodies* to make rules which allow an *authorised professional firm* to comply with the *Distance Marketing Regulations* in respect of its *non-mainstream regulated activities* in the same way as an *exempt professional firm* which is a member of the same *designated professional body* in respect of its *exempt regulated activities*.

## Annex I

### Amendments to the Electronic money sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

#### Distance marketing activities

- 1.1.5 G (1) *ELM 1.4A* sets out certain minimum requirements under the *Distance Marketing Directive* in respect of a *customer's* cancellation rights. These *rules* are supplemented by the requirements in *COB 6.7.42R* (Exercising the right to cancel); *COB 6.7.47R* (Record keeping); *COB 6.7.48R* (Cancellation notices served out of time) and *COB 6.7.51R* to *COB 6.7.53R* (Effects of cancellation) which all apply to *e-money firms*.
- (2) As set out in *ELM 6.8*, *COB 6.4.25R* applies to *e-money firms* as if references to '*issuing deposits*' and '*deposits*' were references to '*issuing e-money*' and '*e-money*' respectively.

...

After *ELM 1.4*, insert the following new section:

1.4A Distance contracts: cancellation

#### Right to cancel

1.4A.1 R A *retail customer* has a right to cancel a *distance contract* the making or performance of which by the *firm* constitutes, or is part of, *issuing e-money* unless:

- (a) the performance of the *distance contract* has been fully completed by both parties at the *customer's* express request before the *customer* exercises his right to cancel; or
- (b) the *firm* has an initial service agreement with the *customer* and the contract is in relation to a successive operation or separate operation of the same nature under that agreement (see *COB 1.10.2G*).

#### Cancellation period

1.4A.2 R The right to cancel referred to in *ELM 1.4A.1R* starts on the later of:

- (a) the day of the conclusion of the contract; and
- (b) the day on which the *retail customer* receives the contractual terms and conditions and other information required by *ELM 6.8* (Information);

and lasts for 14 calendar days.

Failure to give information on cancellation rights

1.4A.3 R If a *firm* does not give a *retail customer* notice of his cancellation rights in accordance with *ELM* 6.8.2AR and *COB* 6.4.25R, the contract remains cancellable and the *retail customer* can cancel the agreement at any time.

Exercising the right to cancel

1.4A.4 R A *retail customer* may, without giving any reason, cancel the contract by serving notice upon the *firm*, before expiry of the relevant cancellation period, in accordance with the instructions for exercising that right provided to the *customer* in accordance with *ELM* 6.8.2AR and *COB* 6.4.25R.

1.4A.5R The following *rules* also apply as if *issuing e-money* were *accepting* deposits: *COB* 6.7.47R (Record keeping); *COB* 6.7.48R (Cancellation notices served out of time) and *COB* 6.7.51R to *COB* 6.7.53R (Effects of cancellation).

...

1.5.2 G

Table: Application of other parts of the Handbook to ELMIs

Block	Module	Application
...		
Block 2 (Business Standards)	...  Conduct of Business sourcebook (COB)	...  <u>The effect of :</u>  <u>(1) <i>ELM</i> 6.8.2AR is that <i>COB</i> 2.6 (General provisions in relation to distance contracts) applies;</u>  <u>(2) <i>ELM</i> 1.4A.5R is that <i>COB</i> 6.7.47R; <i>COB</i> 6.7.48R and <i>COB</i> 6.7.51R to <i>COB</i> 6.7.53R apply; and</u>  <u>(3) <i>ELM</i> 6.8.2AR is that <i>COB</i> 6.4.25R (Entering into a distance contract for accepting deposits) applies in relation to <i>distance contracts</i> concluded with <i>retail customers</i> as if references to '<i>accepting deposits</i>' and '<i>deposits</i>' were references to '<i>issuing e-money</i>' and '<i>e-money</i>' respectively.</u>  <u>Otherwise, <i>COB</i> does not apply to an <i>ELMI</i> when issuing e-money. ...</u>

6.8 Information

6.8.1 R A *firm* must not issue *e-money* to any *person* unless that *person* has been supplied with the information in *ELM* 6.8.2R and, where appropriate, *ELM* 6.8.2AR.

...

6.8.2A R *COB* 2.6 (General provisions related to distance contracts) and *COB* 6.4.25R (Entering into a distance contract for accepting deposits) applies to a *firm* as if references to ‘*accepting deposits*’ and ‘*deposits*’ were references to ‘*issuing e-money*’ and ‘*e-money*’ respectively.

6.8.3 R The information in *ELM* 6.8.2R must be in a *durable medium* ~~writing~~ and in a readily comprehensible form.

...

6.8.7 G ~~[deleted] Firms are reminded that *GEN* 2.2.14 R says that a provision in the Handbook that refers to a document "in writing" means a document in legible form and capable of being reproduced on paper, irrespective of the medium used. Thus the information that *ELM* 6.8.3 R says must be produced in writing does not have to be produced in the form of a physical document.~~

## Annex J

### Amendments to the Glossary of definitions

In this Annex, underlining indicates new text and striking through indicates deleted text. Where an entire section of text is being inserted, the place where the change will be made is indicated and the text is not underlined.

(1) New definitions:

Insert the following new definition in the appropriate alphabetical position:

<i>distance contract</i>	any contract concerning financial services, the making or performance of which constitutes or is part of a <i>regulated activity</i> , concluded under an organised distance sales or service provision scheme run by the contractual provider of the service who, for the purpose of that contract, makes exclusive use (directly or through an intermediary) of one or more <i>means of distance communication</i> up to and including the time at which the contract is concluded.
<i>Distance Marketing Directive</i>	The Directive of the Council and Parliament of 23 September 2002 on distance marketing of consumer financial services (No 2002/65/EC).
<i>Distance Marketing Regulations</i>	The Financial Services (Distance Marketing) Regulations 2004 (SI 2004/[ ]).
<i>DMD</i>	<i>Distance Marketing Directive</i> .
<i>durable medium</i>	(a) paper; or (b) (in accordance with article 2(f) of the <i>Distance Marketing Directive</i> and article 2(12) of the <i>Insurance Mediation Directive</i> ) any instrument which enables the recipient to store information in a way accessible for future reference for a period of time adequate for the purposes of the information and which allows the unchanged reproduction of the information stored; this includes, in particular, floppy disks, CD-ROMs, DVDs and the hard drive of the recipient's computer on which electronic mail is stored, but not Internet websites unless they fulfil the criteria in this definition.
<i>means of distance communication</i>	(in accordance with article 2(e) of the <i>Distance Marketing Directive</i> ) any means used for the distance marketing of a service between parties which does not involve the simultaneous physical presence of those parties.
<i>retail customer</i>	(in accordance with the meaning of 'consumer' in article 2(d) of the <i>Distance Marketing Directive</i> ) an individual who is acting for purposes which are outside his trade, business or profession.

(2) Amendments to current definitions in the Glossary:

Amend the following definitions as shown:

<i>inter-professional business</i>	<p>...</p> <p>(b) but excluding the carrying on of the following activities:</p> <p>...</p> <p>(v) <u>concluding a distance contract with a retail customer.</u></p> <p>...</p>
<i>private customer</i>	<p>(1) (except in <i>COB</i> 3, 4.2 and 6.4) ...</p> <p>...</p> <p>(3) <u>(in <i>COB</i> 4.2 and 6.1 to 6.5) a person in (1) and, in relation to the conclusion of a distance contract, a retail customer.</u></p>
<i>terms of business</i>	<p>a <del>written</del> statement, <del>supplied to a client,</del> <u>in a durable medium</u> of the terms <u>and conditions</u> on which a firm will conduct <i>designated investment business</i> with or for <del>the</del> <u>a client or retail customer.</u></p>

**CONDUCT OF BUSINESS SOURCEBOOK (AMENDMENT NO 17)  
INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the powers listed in Schedule 4 to the Conduct of Business sourcebook.
- B. The rule-making powers listed in that Schedule are specified for the purpose of section 153(2) (Rule-making instruments) of the Financial Services and Markets Act 2000.

**Commencement**

- C. This instrument comes into force as follows:
  - (1) Annex A comes into force on 1 May 2004;
  - (2) Annex B comes into force on 1 June 2004.

**Amendments to the Conduct of Business sourcebook (COB)**

- D. COB is amended in accordance with Annex A to this instrument.

**Amendments to the Glossary**

- E. The Glossary is amended in accordance with Annex B to this instrument.

**Citation**

- F. This instrument may be cited as the Conduct of Business Sourcebook (Amendment No 17) Instrument 2004.

By order of the Board  
15 April 2004

## Annex A

### Amendments to the Conduct of Business sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

- 6.5.8A R A *firm* must ensure that its decision trees include:
- (1) (in the place in the relevant table in the ~~introductory~~ Further information text at COB 6 Ann 1R where the square brackets appear):
    - (a) in the heading of the table, the current tax year; and
    - (b) The Basic State Pension rates and Pension Credit ~~m~~Minimum ~~i~~Income ~~G~~uarantee rates for the current tax year;
  - (2) (where the square brackets appear) at the bottom of the cover page and at the bottom of each page of the flow charts, the current tax year; and
  - (3) (where the square brackets appear) in the introductory text where additional explanatory text within Further information is signposted, the appropriate page number.

Delete existing text in COB 6 Annex 1R and replace with the following text for Decision trees for stakeholder pension schemes (as required in COB 6.5.8R): text, content and format (R).

## **COB 6 Ann 1R**

**Decision trees for stakeholder  
pension schemes (as required in  
COB 6.5.8R): text, content and  
format (R)**

## STAKEHOLDER PENSION DECISION TREES

**Decision trees provide information and help you to answer the question: “Would a stakeholder pension be a good choice for me as part of my financial planning for retirement?”**

**Decision trees are intended to help you make your own choice about your pension arrangements. They do not give you financial or professional advice and you should not regard them as doing so.**

[Insert current tax year]

## ***You need to read the following notes before using the decision tree***

***flowcharts.*** There is also more information starting on page [insert page number] that you can refer to at any stage.

### ***What is a stakeholder pension?***

A stakeholder pension is a *private pension* - it's *not a State pension*. It must meet minimum standards laid down by the Government about charges, flexibility and the regular information you must be given. The standards are designed to help ensure that all stakeholder pensions give good basic value. There's more about this in the "Further information" section on page [insert page number].

With a stakeholder pension, you can pay regular contributions, and you can also make lump-sum contributions whenever you like. Your employer can also make contributions on your behalf. You will benefit from tax relief on your own contributions – there's more about the tax advantages in the "Further information" section on page [insert page number].

Your contributions are invested to build up your own pension fund. The amount of your fund when you come to retire is not guaranteed and depends on how much has been paid in, the type of investment fund you choose and how those investments perform. A stakeholder pension scheme will usually offer you a range of investment funds, with differing degrees of investment risk and potential investment growth.

You can retire and draw your stakeholder pension benefits at any time between the ages of 50 and 75. The Government has announced plans to increase the minimum age for drawing benefits to age 55. You will need to bear this in mind when deciding on your retirement plans. You can't withdraw any money from your pension fund before you retire and take your pension.

When you retire, you can choose to take up to 25% (a quarter) of your pension fund as a tax-free lump sum. And you use the rest of your pension fund (or all of it, if you decide against a tax-free lump sum) to buy an "annuity". The annuity will pay you a regular income during your retirement. That income will depend on the size of your pension fund and annuity rates at the time you take your pension. You may have to pay tax on your annuity income.

### ***Is a stakeholder pension a good choice for me?***

You can contribute to a stakeholder pension whether you are in employment, a fixed-contract worker, self-employed, or even not working. You can get one from a bank, building society, insurance company, investment company, or through a financial adviser.

Stakeholder pensions suit a wide range of people. But they are likely to be particularly attractive to people who have no existing pension provision apart from the State pensions, such as the self-employed or any employee whose employer does not contribute to a workplace-based pension scheme. In some cases, stakeholder pensions can be used to top up the benefits provided by an employer's own scheme. But if your employer offers to match any additional voluntary contributions (AVCs) that you choose to make to his scheme, this is likely to be a better way of topping-up than through your own separate stakeholder pension.

Stakeholder pensions have many advantages for many people, but they may not be the right choice for everyone. These decision trees are intended to help you decide what would be a good choice for you.

### ***Do I need to save for my retirement through a stakeholder pension?***

To answer this question, you must make your own judgment. Will your State pensions, any existing private pensions, any employer-sponsored pensions and any other sources of income be enough for you to live on when you retire? You need to think about the standard of living you want to enjoy when you retire and the income you'll need to support it.

***Ask yourself these seven questions:***

- ***Roughly how much will I need to live on when I retire?***

Try to work out how much money you will need to live on when you have retired to afford the things you'll want and the things you'll want to do.

- ***Will I qualify for the full basic State Pension?***

If you have paid National Insurance contribution for about 90% of your working life, you are entitled to the full basic State Pension. You can get a State Pension forecast to check the amount you will get. Details of how to get a forecast are on page [insert page number].

You cannot get your basic State Pension until you reach State pension age (currently 65 for men and 60 for women). Details of how the State Pension age for women is changing are on page [insert page number].

The Government reviews the amount of the basic State Pension every year. The current rates are shown in a table under "Further information" on page [insert page number].

- ***Will I qualify for an additional pension through the State Second Pension (formerly SERPS)?***

The State Second Pension is payable when you reach State pension age, on top of the basic State Pension. The amount depends on your earnings while you were in employment and the National Insurance contributions you paid.

**Self-employed people do not qualify for the State Second Pension (formerly SERPS).**

And those employees who were "contracted-out" of the Second State Pension will not qualify for the additional pension for the period when they were contracted out. Some people will be contracted out through an employer's occupational pension scheme and some through private pension arrangements. Check with your employer or pension provider if you are not sure.

- ***Does my current employer provide a pension scheme and how much will that give me?***

Check with your employer if you are not sure about membership. If you are a member of an employer's scheme, you should get regular statements setting out what your benefits might be when you retire. If you cannot find these statements, check with your employer.

- ***Am I already contributing to a personal pension scheme or a stakeholder pension? If so, how much income will they give me?***

If you are already contributing to a personal pension or stakeholder pension, you need to find out what retirement income they might provide. Look at the most recent benefit statements you have been sent, or check with your pension plan provider.

- ***Have I got any old pensions, maybe from previous employers' schemes or from personal pension schemes? If so, how much income will they give me?***

Check on the pension plans you have contributed to in the past but no longer pay into today. You need to have some idea of the retirement income you might get from them.

To check on the value of old pension plans, look at the most recent benefit statements you have been sent. If you cannot find any statements, contact your pension plan provider, for example the insurance company or the employer that offered the pension to you.

- ***Will the Government's new Pension Credit make a difference for me?***

The Government introduced the Pension Credit from October 2003. This is designed to make sure that people aged 60 and over have a minimum income and that those aged 65 and over with modest savings get some credit for having saved. These savings could, for example, be in the form of an employer's pension, a stakeholder or other personal pension, or the State Second Pension. This is not a complete list, and you could have other savings that will count.

The Pension Credit means that, for most people, most of the time, it will pay to save. For a limited group of people, however, the decision will not be so clear-cut, and these people will have to think carefully about their personal circumstances. In particular, people in their fifties and over who have not been able to save much and have only a limited ability to save as they approach retirement should seek expert advice before they take out a stakeholder pension. See "Where to get more help" on page [insert page number].

You need to bear in mind that governments can change the rules for State pensions and benefits at any time. So it may be unwise to rely on any particular type or level of benefit being available when you retire.

There's more information about getting a forecast of your State pensions (page [insert page number]) and how to track down pensions provided by any former employers' or personal pensions (page [insert page number]).

If the income you expect in retirement is less than what you want, you need to think about saving more to make up the difference. A stakeholder pension is one of your options. But before you decide anything, you need to think about your priorities.

## ***What else should I think about before contributing to a stakeholder pension?***

You might have other financial commitments that will affect what you can afford to contribute to a stakeholder pension. Or you might feel that other financial needs must come first. For example, ask yourself:

- ***What are my other financial commitments?***

For example, mortgage repayments, rent, life assurance, and credit cards. Make sure you do your sums before thinking about a stakeholder scheme and that you would still be able to afford your other commitments.

- ***Would I be prepared, if necessary, to give up anything so that I can pay into a stakeholder pension?***

Remember that saving through a pension scheme is a long-term commitment. Any change in how you spend your money may need to last for a long time.

- ***Should I be thinking of other things first?***

For example, you might want to consider life assurance protection for you and your family, or building up some “rainy-day” cash savings before thinking about a stakeholder pension.

If you are a member of your current employer’s pension scheme, it might make sense to pay additional voluntary contributions to that scheme rather than contribute to a stakeholder scheme. And if you are currently contributing to a personal pension or stakeholder pension, it might make sense to increase your contributions to that scheme rather than start a separate stakeholder pension.

## ***How much should I contribute to my stakeholder pension?***

Contributions to stakeholder pensions can be as low as £20. But, even a regular monthly contribution of £20 over several years will not give you a large pension when you retire. And the older you are when you start saving, the less time there is for your pension fund to grow to something worthwhile.

## ***Estimated pensions in the Pension Table***

The Pension Table later on will give you a fair idea of the pension income you could get, depending on your age and contributions. **But please remember that the figures in the table are only estimates and are not guaranteed. You might get less, or you might get more.**

The pension figures are also shown before income tax. When you receive your pension during retirement you may be taxed on it.

The figures in the table are calculated on the following basis:

**Before you retire**

Your monthly contributions increase in line  
with inflation.....2.5% a year.  
Before charges, your fund grows by.....7% a year.  
Charges deducted from your fund.....1% of fund a year.

**When you retire**

Your entire fund is used to buy an annuity, and  
you do not take any tax-free lump sum.  
Annuity rates assume that the investment  
return after retirement is.....1.8% a year in excess of inflation.  
Your pension increases in line with inflation.  
Your spouse will receive half your pension on your death.

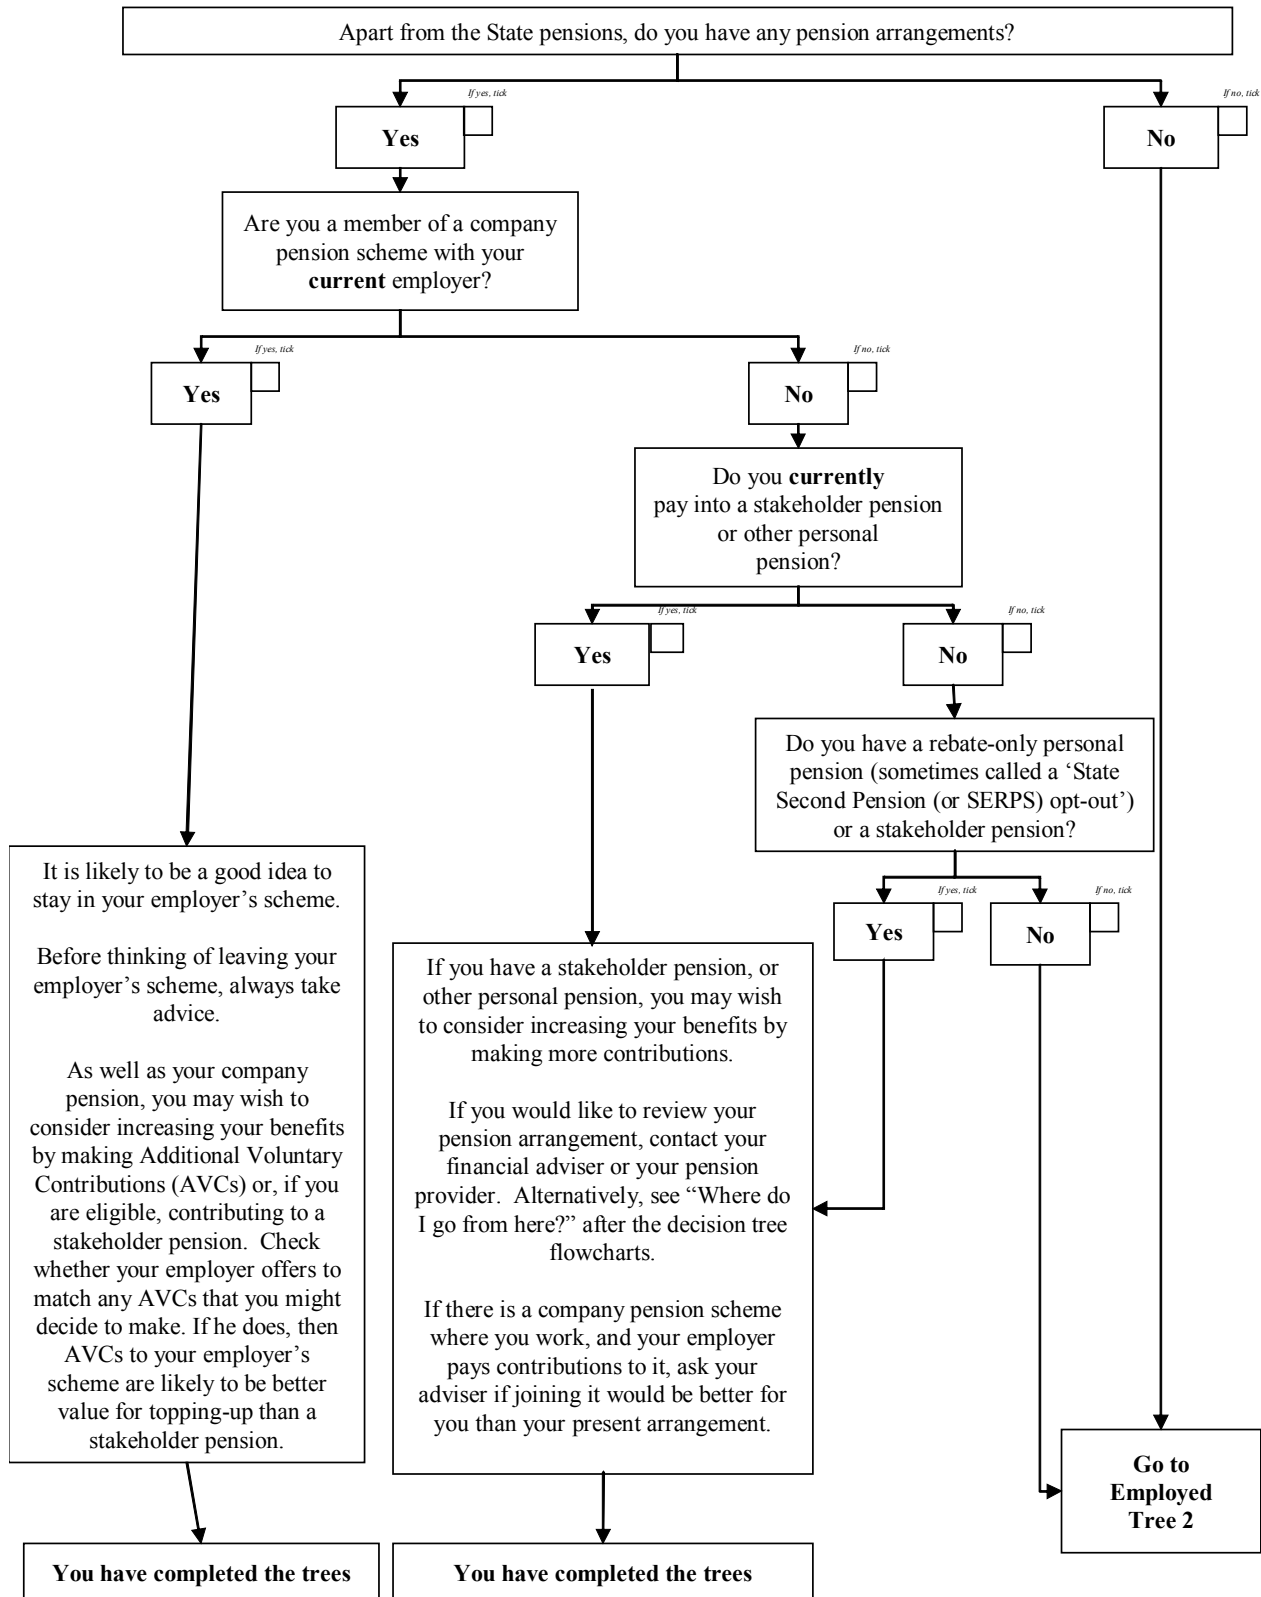

### ***How do I use the decision trees?***

- **These decision trees have been designed to help you decide whether a stakeholder pension would be a good choice for you. Please take the time to read and use them carefully, giving accurate answers to the questions. Because the decision trees do not give personalised advice, any decision you take is your own responsibility.**
- **There are separate decision trees for:**
  - **Employed people**
  - **Self-employed people**
  - **People who are not employed**
- **When you have found the right decision tree, work through the questions from the top of the page and tick the box for each question you answer.**
- **If the tree asks you about your present pension arrangements and you are not sure of the correct answer, find out the right information – don't guess.**
- **If the tree recommends you take advice, or if you are not sure what is right for you, then you should seek advice. You may have to pay for this advice.**
- **After the decision trees, you'll find further information about what to do next.**

# Pension Table

## How much should I save towards a pension?

### THIS IS AN IMPORTANT DECISION

Most people save every month. It is better if you can keep up your monthly contributions.

The following table shows the **estimated monthly pension**, at today's prices, that you would get for different **regular monthly contributions**. The contribution shown is assumed to **increase each year in line with inflation**. The government will also add tax rebates to increase the actual amounts paid into your stakeholder pension (although all tax breaks are subject to change). The estimated pension figures include this tax rebate. They also assume that your pension will increase in line with inflation.

**Remember: these estimates are not guaranteed - you could get more or less than the amounts shown.  
A stakeholder pension would be on top of any State pensions you are entitled to.**

The table gives you an idea of how much you need to pay now - as a regular monthly contribution - to receive the monthly pension you want when you retire. First look down the left-hand column to find the age closest to your age now. Then look across to find the monthly contribution you want to pay and the age at which you want to retire.

Your approximate age now	What you pay per month for the first year (tax rebates will be added to this amount)							
	£ 20		£ 50		£ 100		£ 200	
	Initial monthly pension if you retire at 65	Initial monthly pension if you retire at 60	Initial monthly pension if you retire at 65	Initial monthly pension if you retire at 60	Initial monthly pension if you retire at 65	Initial monthly pension if you retire at 60	Initial monthly pension if you retire at 65	Initial monthly pension if you retire at 60
20	£ 123	£ 86	£ 309	£ 217	£ 618	£ 434	£ 1,236	£ 869

60	£ 6		£ 17		£ 34		£ 69	

Have you found the level of monthly pension that you need in the table and can you afford the monthly contribution?

*If yes, tick*

Yes, I've found the pension I need and can afford the monthly contribution

*If no, tick*

No, I can't find the pension I need or I can't afford the contribution

Consider starting a stakeholder pension or restart making contributions to a stakeholder pension. If you are employed, check if your employer has designated a particular stakeholder pension.  
If in doubt seek help from an expert adviser.  
See "Where do I go from here?" on the next page.

**For details of where to get further help, see "Where do I go from here?" on the next page.**

**You have completed the trees**

## ***Where do I go from here?***

You've worked your way through the decision trees and now need to make some decisions. You might be confident that contributing to a stakeholder pension would be a good choice for you, or you might want more help before reaching a decision on what to do.

### ***If you have decided that a stakeholder pension is a good choice for you:***

It is a good idea to contact several firms selling stakeholder pensions and ask them for a brochure or a Key Features Document, so that you can compare products. The Key Features Document sets out important details about that particular firm's stakeholder pension product.

You can compare different stakeholder pension and personal pension schemes by using the FSA's *Comparative Tables*, which you can find at [www.fsa.gov.uk/tables](http://www.fsa.gov.uk/tables). You can also look at a register of stakeholder schemes published by the Occupational Pensions Regulatory Authority at [www.stakeholder.opra.gov.uk](http://www.stakeholder.opra.gov.uk)

You can also contact an adviser to help you choose a particular stakeholder provider. See the list below of useful contacts.

### ***Do you need more help?***

You may need to get more help before making a decision, particularly if you are in one or more of the following situations:

- You already have a pension arrangement but want to know if you should save more.
- Your personal circumstances do not seem to fit the questions in the decision trees.
- You wish to get advice that takes account of all your personal circumstances.
- You are not sure how to answer some of the questions in the decision trees.
- You are not sure if you are making the right decision.
- You feel you cannot afford to save for retirement.

You should consider getting advice if:

- You are not sure that saving through a pension plan is a good idea you; or
- You want to look at other ways of saving and investing for the long term.

Some organisations that might be able to help you are listed below.

### ***Where to get more help***

You could contact the OPAS Pensions Helpline provided by the Pensions Advisory Service on 0845 6012923. Their information is free but call charges may vary.

You can also visit their website at [www.stakeholderhelpline.org.uk](http://www.stakeholderhelpline.org.uk)

If you already have a financial adviser, you may want to speak to them about your retirement needs. If you do not have a financial adviser but want to talk to one, the following organisations can help:

- IFA Promotions: 0800 085 3250 (for a list of three local independent financial advisers)
- Institute of Financial Planning: 0117 945 2470 or at [www.financialplanning.org.uk](http://www.financialplanning.org.uk)
- Society of Financial Advisers: 020 7417 4419 or at [www.sofa.org](http://www.sofa.org)
- Solicitors for Independent Financial Advice: 01372 721172 or at [www.sifa.co.uk](http://www.sifa.co.uk)

Alternatively, contact the pension provider of your choice.

Remember that advisers may charge for any help or advice they give you, so check first on how much you would have to pay.

The next section gives further detailed information about stakeholder pensions, State pensions and how to track down old pension schemes.

## ***Further information***

### ***The minimum standards***

Stakeholder pensions must meet the standards laid down by the Government.

#### **The standards include:**

- **Charges**  
Providers of stakeholder pensions usually charge for managing your money. There is an upper limit of 1% of the value of your fund each year (so on a fund value of £10,000, the maximum charge is £100 a year).
- **Flexibility**  
You can contribute regularly or occasionally. It is always best to make regular weekly or monthly contributions but you can change the amount. You can pay in as little as £20, and you can stop paying in without having to pay any penalty, and restart later.

If you are employed and your employers provide a stakeholder pension, they may, if you wish, deduct your contributions direct from your pay and put them into your pension fund.

You can take your stakeholder pension with you when you change jobs. You can switch to another stakeholder pension at any time if you want to, without having to pay any charges for the transfer.

- **Information**  
Your stakeholder pension provider must give you regular information about your fund. This will include an annual statement to let you know how much you have paid in and how your fund is growing. It will also include a forecast of how much your pension might be in today's

prices. Look out for this forecast - it's called a Statutory Money Purchase Illustration - which is updated each year and will help you decide whether you are making enough provision for your retirement.

- **Investments**

But one thing you must understand is that **the minimum standards do not necessarily mean that your money is protected**. The performance of your stakeholder pension depends on the type of investment fund you choose and how those investments perform. Remember that investments linked to the stock market can fall as well as rise.

## *Tax relief*

Everybody who contributes to a stakeholder pension will get tax relief on their contributions.

Under present tax arrangements, for each £1 you pay into your stakeholder pension fund, the Inland Revenue will pay an extra 28p into your fund, even if you don't normally pay income tax.

### *Example*

***If you pay in £50 a month, income tax relief will increase your contribution to £64.10.***

Because of the tax advantages, there are limits on how much you can contribute to a stakeholder pension. These limits are set by the Inland Revenue and depend on your taxable earnings and your age. There are also special limits for people without any earnings and those who are members of employers' occupational pension schemes.

Most people can contribute up to £3,600 to a stakeholder pension in any tax year, including basic-rate tax relief. This means you could pay in £2,808 and the income tax relief would increase your contribution to £3,600.

If you are self-employed or in non-pensionable employment you might be able to contribute more than £3,600 and still get income tax relief, depending on your age and earnings. For example, up to age 35 you can contribute up to 17.5% of your earnings in any tax year. If you are over 35, there is a scale that allows you to contribute higher percentages of your earnings.

If you pay income tax at the higher rate, you will be able to claim back the extra tax from the Inland Revenue at the end of each tax year.

Even if you have no form of paid employment, you can set up a stakeholder pension. You can then benefit from tax relief on your contributions, even if you don't pay any income tax.

The Government is reviewing the limits on pension contributions that qualify for tax relief and plans to simplify the rules. These changes are provisionally due to come into effect in April 2006.

## *State pensions*

Rates of State pensions and benefits change every year. The following table shows the current rates of basic State Pension (assuming a full National Insurance contribution record) and the minimum income provided by the Pension Credit.

**THE BASIC STATE RETIREMENT PENSION AND PENSION CREDIT RATES GIVEN HERE ARE THOSE ANNOUNCED BY THE GOVERNMENT AS APPLYING IN THE TAX YEAR [Insert current tax year].**

	Weekly	Monthly equivalent
<b>BASIC STATE PENSION from age 65 (men) or 60 (women)</b>		
One person with a full NI contribution record	[...]	[...]
Full rate for man with dependent wife	[...]	[...]
Couples who have <i>both</i> paid full National Insurance contribution	each	[...] each
<b>PENSION CREDIT guarantees a minimum income from age 60 of at least:</b>		
Single person	[...]	[...]
Couple	[...]	[...]

You can get a forecast of your State pensions by calling the State Pension Forecasting Team on 0845 3000 168, or if you have hearing or speech difficulties and have a textphone, on textphone 0845 3000 169. Lines are open from 8am to 8pm Monday to Friday and 9am to 1pm on Saturday. You can complete an application form over the phone or ask for the forecast form BR19 to be sent to you. Or you can write to:

State Pension Forecasting Team  
 The Pension Service  
 Room TB001  
 Tyneview Park  
 Whitley Road  
 Newcastle upon Tyne  
 NE98 1BA

You can also complete the form on the Internet using the Pension Service website, [www.thepensionservice.gov.uk](http://www.thepensionservice.gov.uk) then print it out and post it in the normal way.

There are changes to the State Pension age which affect women born on or after 6 April 1950. The State Pension age for women will be increased gradually over a ten-year period from 2010 so that by 2020 women born on or after 6 April 1955 will not get a State Pension until age 65. For more information on these changes, see the Pension Service guide *Pensions for women – Your guide* (PM6).

The DWP produces a series of guides that give basic information on pensions. You can get copies by calling the DWP on 0845 731 3233. The line is open 24 hours a day and call charges may vary. A textphone service is available on 0845 604 0210. You can also order copies of these information guides on the Internet at [www.thepensionsservice.gov.uk](http://www.thepensionsservice.gov.uk)

You can get more information about the Pension Credit on the Pension Service's website at [www.thepensionsservice.gov.uk](http://www.thepensionsservice.gov.uk) or by telephoning 0800 99 1234.

### ***Old pension plans***

To check on the value of old pension plans, look at the most recent benefit statements you have been sent. If you cannot find any statements, contact the pension plan provider, for example the insurance company or the employer that offered the pension to you.

Alternatively, the Pension Schemes Registry provides a free tracing service. They can help you identify pension schemes you have belonged to in the past. To contact the Pension Schemes Registry, phone them on 0191 225 6316 and ask for a tracing request form or write to them at:

Pension Schemes Registry  
PO Box 1NN  
Newcastle upon Tyne  
NE99 1NN

There is also an online form available at [www.opra.gov.uk](http://www.opra.gov.uk).

### ***Using a stakeholder pension to contract out of the State Second Pension***

You can think about using a stakeholder pension to contract-out of the State Second Pension, but it's not an easy decision.

Everyone in employment earning above the lower earnings limit (a minimum level of earnings set by the Government for State benefit purposes) is automatically included in the State Second Pension unless they decide to leave it or are contracted-out through an employer's occupational pension scheme. Leaving the State Second Pension is called 'contracting-out'. If you contract-out, you give up your State Second Pension entitlement and instead build up a replacement for it in your own private pension arrangement, such as a stakeholder pension.

Whether you would be better off contracting-out of the Second State Pension or staying in it depends on your own personal circumstances. You need to get advice on what might be the best

thing for you to do. The FSA publishes a factsheet on its website at [www.fsa.gov.uk](http://www.fsa.gov.uk), designed to help you understand the issues, but it's not intended to replace professional advice.

Deciding to contract-out in one tax year does not commit you to do the same in later years. In fact, it's a good idea to review your decision regularly.

## Annex B

### Amendments to the Glossary

In this Annex, underlining indicates new text.

- market counterparty* (1) (except in COB 3) a *client* who is:  
...  
but excluding:  
(A) a regulated *collective investment scheme*; and  
(B) ...

**INTERIM PRUDENTIAL SOURCEBOOK FOR BANKS (MARKET RISK)  
INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the power in section 157(1) (Guidance) of the Financial Services and Markets Act 2000.

**Commencement**

- B. Annex I comes into force on 1 July 2004. Otherwise this instrument comes into force on 1 July 2005.

**Amendments to the Interim Prudential sourcebook for banks**

- C. The Interim Prudential sourcebook for banks is amended in accordance with the Annexes to this instrument by:
- (1) deleting the text in Chapter FX and replacing it with that in Annex A;
  - (2) deleting the text in Chapter CM and replacing it with that in Annex B;
  - (3) deleting the text in Chapter TI and replacing it with that in Annex C;
  - (4) deleting the text in Chapter TE and replacing it with that in Annex D;
  - (5) deleting the text in Chapter TU and replacing it with that in Annex E;
  - (6) inserting a new Chapter TO between chapters TU and TS in volume 1 as set out in Annex F;
  - (7) deleting the text in Chapter TS and replacing it with that in Annex G;
  - (8) deleting the text in Chapter TV and replacing it with that in Annex H;
  - (9) inserting a new Chapter TRANS before Chapter GN in volume 1 as set out in Annex I; and
  - (10) deleting or inserting text as set out in Annex J.

**Citation**

- D. This instrument may be cited as the Interim Prudential Sourcebook for Banks (Market Risk) Instrument 2004.

By order of the Board  
20 May 2004

## Annex A

### Chapter FX (Foreign exchange position risk requirement)

In this Annex, text is being deleted and replaced with new text that is not underlined.

Delete existing text in Chapter FX in its entirety and replace with the following text:

FX

Foreign exchange PRR

General

- 1 G Every bank should apply this chapter and calculate its foreign exchange *PRR* by:
  - (1) identifying which *foreign currency* and gold positions to include in the *PRR* calculation;
  - (2) calculating the *open currency position* and net gold position; and
  - (3) multiplying the sum (ignoring the sign) of the *open currency position* and the net gold position by 8%.
- G For example, a bank has an *open currency position* of -£100 and a net gold position of £50. The sum (ignoring the sign) is £150, and so the foreign exchange *PRR* is £12.

Scope of the foreign exchange PRR calculation

- 2 G A bank's foreign exchange *PRR* calculation should include the following items regardless of whether they are *trading book* or *non-trading book* positions:
  - (1) all gold positions;
  - (2) all instruments which are denominated in a *foreign currency*, except:
    - (a) *foreign currency* assets which have been deducted in full from the bank's capital;
    - (b) instruments hedging (a);
    - (c) instruments hedging the bank's capital; or
    - (d) instruments hedging a future *foreign currency* income or expense which is known but not yet accrued; and
  - (3) notional positions arising from the instruments listed in table 4G:
- 3 G A bank should notify the FSA in writing if it uses the exclusions in 2G(2)(a)-(d).

- 4 G Table: instruments which result in notional *foreign currency* positions (see 2G)

Instrument	See
Foreign exchange <i>futures, forwards, CFDs</i> or <i>synthetic futures</i>	10G
Foreign exchange <i>swaps</i>	12G
Foreign exchange <i>options</i> (unless the bank calculates a <i>PRR</i> on the <i>option</i> under chapter TO)	14G
Gold <i>futures, forwards, synthetic futures</i> and <i>CFDs</i>	15G
Gold <i>options</i> (unless the bank calculates a <i>PRR</i> on the <i>option</i> under chapter TO)	16G

- 5 G Banks are reminded that table 5G in chapter TO divides foreign exchange *options* into:
- (1) those which should be treated under chapter TO; and
  - (2) those which should be treated under either chapter FX or chapter TO, but banks can choose whether chapter FX or TO is used.
- 6 G When determining the currency of denomination banks should:
- (1) use the currency in which the bank accounts for the instrument where an instrument is quoted in more than one currency; and
  - (2) treat depository receipts as positions in the underlying security.
- 7 G Instruments denominated in a foreign currency include, amongst other things, assets and liabilities (including accrued interest); non-foreign exchange *derivatives*; net *underwriting* positions; reduced net *underwriting* positions; and irrevocable guarantees (or similar instruments) that are certain to be called.
- 8 G Where a contract is based on a basket of currencies, the bank can choose either to derive notional positions in each of constituent currencies, or treat it as a single notional position in a separate hypothetical currency.

#### Derivation of notional positions

- 9 G This section derives notional currency positions for the instruments listed in table 4G.

#### FOREIGN EXCHANGE FORWARDS, FUTURES, CFDs AND SYNTHETIC FUTURES

- 10 G A bank should treat a foreign exchange *forward, future* or *CFD* as two notional currency positions as follows:
- (1) a long notional position in the currency which the bank has contracted to buy; and

(2) a short notional position in the currency which the bank has contracted to sell;  
 where the notional positions have a value equal to either:

- (a) the contracted amount of each currency to be exchanged in the case of a *forward* or *future* held in the *non-trading book*; or
- (b) the present value of the amount of each currency to be exchanged in the case of a *forward* or *future* held in the *trading book*.

11 G For example, a bank contracts to sell \$106 for €108 in one year's time. The present values of each cash flow are \$100 and €100 respectively.

- In the *non-trading book*, this *forward* would be treated as a combination of a €108 long position and a \$106 short position.
- In the *trading book*, this *forward* would be treated as a combination of a €100 long position and a \$100 short position.

Banks are reminded that foreign exchange *forwards* held in the *trading book* should also be included in the bank's interest rate *PRR* calculation (see 4G of chapter TI).

#### FOREIGN EXCHANGE SWAPS

12 G A bank should treat a foreign exchange *swap* as:

- (1) a long notional position in the currency which the bank has contracted to receive interest and principal;
- (2) a short notional position in the currency which the bank has contracted to pay interest and principal; and
- (3) where the notional positions have a value equal to either:
  - (a) the nominal amount of each currency underlying the *swap* if it is held in the *non-trading book*; or
  - (b) the present value amount of all cash flows in the relevant currency in the case of a *swap* held in the *trading book*.

13 G For example, a bank enters into a five year foreign exchange *swap* where it contracts to pay six month US\$ Libor on \$100 in return for receiving 6% fixed on €100. The present values of each leg are \$100 and €98 respectively.

- In the *non-trading book*, this *swap* would be treated as a combination of a €100 long position and a \$100 short position.
- In the *trading book*, this *swap* would be treated as a combination of a €98 long position and a \$100 short position.

Banks are reminded that foreign exchange *swaps* held in the *trading book* should also be included in the bank's interest rate *PRR* calculation (see table 4G of chapter TI).

#### FOREIGN EXCHANGE OPTIONS AND WARRANTS

- 14 G Where included in this chapter's *PRR* calculation (see table 4G), a foreign exchange *option* or *warrant* should be treated as a foreign exchange *forward*.

#### GOLD FORWARDS, FUTURES AND CFDS

- 15 G A *forward*, *future* or *CFD* on gold must be treated as a notional position in gold with a value equal to the amount of gold underlying the contract multiplied by the current spot price for gold.

#### GOLD OPTIONS

- 16 G If included in the *PRR* calculation under this chapter (see table 4G), a gold *option* must be treated as a gold *forward*.

#### Open currency position

- 17 G A bank should calculate its *open currency position* by:
- (1) calculating the net position in each *foreign currency*;
  - (2) converting each net position into its *base currency* equivalent at current spot rates;
  - (3) summing all short net positions and summing all long net positions; and
  - (4) selecting the larger sum (ignoring the sign) from (3).

#### Net gold position

- 18 G A bank should calculate its net gold position by:
- (1) valuing all gold positions using the prevailing spot price for gold (regardless of the maturity of the positions);
  - (2) offsetting long and short positions; and
  - (3) converting the resulting net position into the *base currency* equivalent using the current spot foreign exchange rate.

#### Definitions used in chapter FX

- 19 G This chapter uses the following definitions:

Defined term	Definition
<i>Base currency</i>	The currency currently used by a firm to calculate its financial resource requirement.
<i>CFDs</i>	Means contract for differences.
<i>Derivative</i>	<i>Options, futures</i> and contracts for differences.
<i>Foreign currency</i>	A currency other than the bank's <i>base currency</i> .
<i>Forward</i>	A contract to buy or sell where the date of settlement has been agreed as a particular date in the future.
<i>Future</i>	As specified in article 78 of the Regulated Activities Order (Futures)
<i>Non trading book</i>	Items not in the <i>trading book</i> .
<i>Open currency position</i>	The position calculated under 17G.
<i>Option</i>	A contract which confers the right to buy or sell a <i>security</i> , contractually based investment, currency, gold or <i>commodity</i> at a given price on or before a given date. (NB: the definition of an option used for the purposes of this chapter deliberately differs from that in the main Handbook Glossary).
<i>PRR</i>	Position risk requirement.
<i>Swap</i>	A transaction in which two counterparties agree to exchange streams of payments over time according to a predetermined basis.
<i>Synthetic future</i>	A combination of a long (short) call <i>option</i> and a short (long) put <i>option</i> which are based on the same underlying and have the same notional amount, strike and maturity.
<i>Trading book</i>	As defined in section 3.2.1 of chapter CB.
<i>Underwriting</i>	Means an arrangement made before the relevant securities are issued under which a party agrees to buy a specified quantity of those securities on a given date and at a given price, if no other has purchased or acquired them.
<i>Warrant</i>	The investment specified in article 79 of the Regulated Activities Order (instruments giving entitlement to investments).

## Annex B

### Chapter CM (Commodity position risk requirement)

In this Annex, text is being deleted and replaced with new text that is not underlined.

Delete existing text in Chapter CM in its entirety and replace with the following text:

CM

Commodity PRR

General

- 1 G Every bank should apply this chapter and calculate its *commodity PRR* by:
- (1) identifying which *commodity* positions should be included within the *PRR* calculation (see 2G);
  - (2) calculating an individual *PRR* for each *commodity* (see 20G);
  - (3) converting each *PRR* to the bank's *base currency* at current spot foreign exchange rates; and
  - (4) summing the resulting individual *PRRs*.

Scope of the PRR calculation

- 2 G A bank's *commodity PRR* calculation should, regardless of whether the positions are *trading book* or *non-trading book* positions:
- (1) include *physical commodity* positions;
  - (2) include the notional positions derived from positions in the instruments listed in table 4G; and
  - (3) exclude positions constituting a *stock financing* transaction.
- 3 G Gold positions are excluded from the scope of the *commodity PRR*. Instead, they are included within the scope of the foreign exchange *PRR*.
- 4 G Table: Instruments which result in notional positions (see 2G(2))

Instrument	see
<i>Forwards, futures, CFDs, synthetic futures</i> and <i>options</i> on a single <i>commodity</i> (unless the bank calculates an <i>PRR</i> on the <i>option</i> under chapter TO)	8G
A commitment to buy or sell a single <i>commodity</i> at an average of	10G

spot prices prevailing over some future period	
<i>Forwards, futures, CFDs, synthetic futures and options on a commodity index (unless the bank calculates an PRR on the option under chapter TO)</i>	13G – 14G
<i>Commodity swaps</i>	16G – 17G

- 5 G 2G includes a *trading book* position in an *commodity* that is subsequently repo'd under a *repurchase agreement* or lent under a stock lending agreement. Clearly, if the *commodity* had initially been obtained via a *reverse repurchase agreement* or stock borrowing agreement, the *commodity* would not have been included in the *trading book* in the first place.
- 6 G Banks are reminded that table 5G in chapter TO divides *commodity options* into:
- (1) those which should be treated under chapter TO; and
  - (2) those which should be treated under either chapter CM or chapter TO, but banks can choose whether chapter CM or TO is used.

#### Derivation of notional positions

- 7 G This section converts the instruments listed in table 4G into notional positions in the relevant *commodities*. These notional positions are expressed in terms of quantity (tonnes, barrels, etc), not value. The maturity of the position is only relevant where the bank is using the maturity ladder approach.

#### FUTURES, FORWARDS, CFDs AND OPTIONS ON A SINGLE COMMODITY

- 8 G Where a *forward, future, CFD, synthetic future or option* (unless already included in the bank's *option PRR* calculation) settles according to:
- (1) the difference between the price set on trade date and that prevailing at contract expiry, the notional position:
    - (a) equals the total quantity underlying the contract; and
    - (b) has a maturity equal to the expiry date of the contract
  - (2) the difference between the price set on trade date and the average of prices prevailing over a certain period up to contract expiry, there is a notional position for each of the reference dates used in the averaging period to calculate the average price, which:
    - (a) equals a fractional share of the total quantity underlying the contract; and
    - (b) has a maturity equal to the relevant reference date.

- 9 G The following example illustrates 8G(2). A bank buys a Traded Average Price Option (TAPO - a type of Asian option) allowing it to deliver 100 tonnes of Grade A copper and receive \$1,750 in June. If there were twenty *business days* in June the short notional positions will each:

- (1) equal 5 tonnes per day (1/20 of 100 tonnes); and
- (2) have a maturity equal to one of the *business days* in June (one for each day).

In this example as each *business day* in June goes by the quantity per day for the remaining days does not change (5 tonnes per day) only the days remaining changes. Therefore, halfway through June there are 10, 5 tonne short notional positions remaining each for the ten remaining *business days* in June.

#### BUYING OR SELLING A SINGLE COMMODITY AT AN AVERAGE OF SPOT PRICES PREVAILING IN THE FUTURE

- 10 G Commitments to buy or sell at the average spot price of the *commodity* prevailing over some period between trade date and maturity should be treated as a combination of:

- (1) a position equal to the full amount underlying the contract with a maturity equal to the maturity date of the contract which is:
  - (a) long, where the bank will buy at the average price; or
  - (b) short, where the bank will sell at the average price
- (2) a series of notional positions, one for each of the reference dates where the contract price remains unfixed, each of which:
  - (a) is long if the position under (1) is short, or short if the position under (1) is long;
  - (b) equals a fractional share of the total quantity underlying the contract; and
  - (c) has a maturity date of the relevant reference date.

- 11 G The following guidance provides an example of 10G.

In January, a bank agrees to buy 100 tonnes of copper for the average spot price prevailing during the 20 *business days* in February, and will settle on 30 June. After entering into this agreement, the bank faces the risk that the average price for February increases relative to that for 30 June. Therefore, as highlighted in the table below:

- (1) the short positions reflect the fact that this could occur because any one of the remaining forward prices for February increase; and
- (2) the long position reflects the fact that this loss could occur because the forward price for 30 June falls.

- 12 G Table: Example of buying at the average spot price prevailing in the future (see 11G)

	Application of 10G(1)	Application of 10G(2)
From trade date to start of averaging period	Long position in 100 tonnes of copper with a maturity of 30 June.	A series of 20 notional short positions each equal to 5 tonnes of copper. Each position is allocated a maturity equal to one of the <i>business days</i> in February (one for each day).
During averaging period	Long position in 100 tonnes of copper with a maturity of 30 June.	As each <i>business day</i> goes by in February the price for 5 tonnes of copper is fixed and so there will be one less notional short position.
After averaging period	Long position in 100 tonnes of copper with a maturity of 30 June.	No short positions.

#### FUTURES, CFDS AND OPTIONS ON A COMMODITY INDEX

- 13 G *Commodity index futures or CFDs, and commodity index options* (unless the *option* is included in the bank's *option PRR* calculation), should be treated as follows:
- (1) Step 1: The total quantity underlying the contract should be either:
    - (a) treated as a single notional *commodity* position (separate from all other *commodities*); or
    - (b) divided into notional positions, one for each of the constituent *commodities* in the index, of an amount which is a proportionate part of the total underlying the contract according to the weighting of the relevant *commodity* in the index.
  - (2) Step 2: Each notional position determined in step 1 should then be included:
    - (a) when using the simplified approach (24G); or
    - (b) when using the maturity ladder approach (25G).
- 14 G Table: Treatment of *commodity index futures* and *commodity index options* (see 13G(2)(b)).

Construction of index	Notional position (or positions) and maturity
Spot level of index is based on the spot price of each constituent <i>commodity</i>	Each quantity determined in step 1 is assigned a maturity equal to the expiry date of the contract.
Spot level of index is based on an average of the forward prices of each constituent <i>commodity</i>	Each quantity determined in step 1 is divided (on a pro-rata basis) into a series of forward positions to reflect the impact of each forward price on the level of the index. The maturity of each forward position equals the maturity of the relevant forward price determining the level of the index when the contract expires.

- 15 G An example of using 13G and table 14G is as follows. A bank is long a three-month *commodity index future* where the spot level of the index is based on the one, two and three month forward prices of aluminium, copper, tin, lead, zinc and nickel (18 prices in total).

Step 1: the bank should decide whether to treat the full quantity underlying the contract as a single notional *commodity* position, or disaggregate it into notional positions in aluminium, copper, tin, lead, zinc and nickel. In this case the bank decides to disaggregate the contract into notional positions in aluminium, copper, tin, lead, zinc and nickel.

Step 2: if the bank uses the simplified method, nothing more need be done to arrive at the notional position. In this case the bank uses the maturity ladder approach and so subdivides each position in each metal into three because the level of the index is based on the prevailing one, two and three month forward prices. Since the *future* will be settled in three months' time at the prevailing level of the index, the three positions for each metal will have maturities of four, five and six months respectively.

#### COMMODITY SWAPS

- 16 G A bank should treat a *commodity swap* as a series of notional positions, one position for each payment under the *swap*, each of which:
- (1) equals the total quantity underlying the contract;
  - (2) has a maturity corresponding to the payment date; and
  - (3) is long or short according to 17G
- 17 G Table: Treatment of *commodity swaps* (see 16G)

	Receiving amounts which are unrelated to any <i>commodity's</i> price	Receiving the price of <i>commodity 'b'</i>
Paying amounts which are unrelated to any <i>commodity's</i> price	N/A	Long positions in <i>commodity 'b'</i>
Paying the price of <i>commodity 'a'</i>	Short positions in <i>commodity 'a'</i>	Short positions in <i>commodity 'a'</i> and long positions in <i>commodity 'b'</i>

- 18 G Table 17G shows that where the legs of the *swap* are in different *commodities*, a series of forward positions are created for each *commodity* (that is, a series of short positions in *commodity 'a'* and a series of long positions in *commodity 'b'*).
- 19 G Table 17G also covers the case where one leg is unrelated to any *commodity's* price. This leg may be subject to a *PRR* under another chapter; for example, an interest rate based leg would have to be included in a bank's interest rate *PRR* calculation.

#### Calculating the *PRR* for each *commodity*

- 20 G A bank should calculate a *PRR* for each *commodity* separately using either the simplified approach (24G) or the maturity ladder approach (25G).
- 21 G A bank need not use the same approach for all *commodities*.
- 22 G A bank should treat positions in different grades or brands of the same *commodity*-class as different *commodities* unless they:
- (1) can be delivered against each other; or
  - (2) have price movements which have exhibited a stable correlation coefficient of at least 0.9 over the last 12 months. The bank should then monitor the correlation on a continuing basis
- 23 G If a bank intends to rely on the approach in 22G(2) it should:
- (1) notify the FSA in writing at least twenty *business days* prior to the date the bank starts relying on it.
  - (2) when it notifies the FSA under (1) the bank should also provide to the FSA the analysis of price movements on which it relies.

#### SIMPLIFIED APPROACH

- 24 G A bank which calculates *PRR* using the simplified approach should do so by summing:

- (1) 15% of the net position multiplied by the spot price for the *commodity*; and
- (2) 3% of the gross position (long plus short, ignoring the sign) multiplied by the spot price for the *commodity*.

#### MATURITY LADDER APPROACH

- 25 G A bank using the maturity ladder approach should calculate the *PRR* following the steps in 26G and then sum all the spread charges, carry charges and outright charge that result.
- 26 G The bank should calculate the charges referred to in 25G as follows:
- (1) Step 1: Offset long and short positions maturing:
    - (a) on the same day; or
    - (b) (in the case of positions arising under contracts traded in markets with daily delivery dates) within 10 *business days* of each other.
  - (2) Step 2: Allocate the positions remaining after step 1 to the appropriate maturity band in table 28G (*physical commodity* positions are allocated to band 1).
  - (3) Step 3: Match long and short positions within each band. In each instance, calculate a spread charge equal to the matched amount multiplied first by the spot price for the *commodity* and then by the spread rate of 3%.
  - (4) Step 4: Carry unmatched positions remaining after step 3 to another band where they can be matched, then match them. Do this until all matching possibilities are exhausted. In each instance, calculate:
    - (a) a carry charge equal to the carried position multiplied by the spot price for the *commodity*, the carry rate of 0.6% and the number of bands by which the position is carried; and
    - (b) a spread charge equal to the matched amount multiplied by the spot price for the *commodity* and the spread rate of 3%.
  - (5) Step 5: Calculate the outright charge on the remaining positions (which will either be all long positions or all short positions). The outright charge equals the remaining position (ignoring the sign) multiplied by the spot price for the *commodity* and the outright rate of 15%.
- 27 G The matched amount in 26G is the lesser (ignoring the sign) of either the total long position or the total short position. For example, a band with 1000 long and 700 short results in a matched amount of 700. The unmatched amount would be 300.

28 G Table: Maturity bands for the maturity ladder approach (see 26G))

<b>Band</b>	<b>Maturity of position</b>
Band 1	$0 \leq 1$ month
Band 2	$> 1$ month $\leq 3$ months
Band 3	$> 3$ months $\leq 6$ months
Band 4	$> 6$ months $\leq 1$ year
Band 5	$> 1$ year $\leq 2$ years
Band 6	$> 2$ years $\leq 3$ years
Band 7	$> 3$ years

- 29 G Figure: An example illustrating the calculation of the *PRR* on an individual *commodity* using the maturity ladder approach (26G).

Figure 29G: After a bank has carried out the pre-processing required by 26G(1) (that is, step 1), it follows steps 2 to 5 as shown below. Because the bank is using the maturity ladder approach the spread rate is 3%, the carry rate is 0.6% and the outright rate is 15%. The example assumes that the spot price for the *commodity* is £25.

Band	Step 2 Allocate remaining positions to appropriate maturity bands	Step 3 Match within bands. Each matched amount incurs a spread charge.	Step 4a Carry across bands. Each carried amount incurs a carry charge.	Step 4b Match within band. Each matched amount incurs a spread charge.	Step 6 Remaining position(s) incur an outright charge.
0 ≤ 1 month					
>1 month ≤ 3 months	1000 long 700 short	700 matched	300 carried		
>3 months ≤ 6 months					
>6 months ≤ 1 year					
>1 year ≤ 2 years	600 short	Nothing matched	100 carried	400 matched	200 short remains
>2 years ≤ 3 years					
> 3 years	100 long	Nothing matched			
Spread charges $700 * £25 * 3\% + 400 * £25 * 3\%$				=	£825
Carry charges $300 * £25 * 0.6\% * 3 + 100 * £25 * 0.6\% * 2$				=	£165
Outright charge $200 * £25 * 15\%$				=	£750
					<b>£1740</b>

Definitions used in chapter CM

- 30 G This chapter uses the following definitions:

Defined term	Definition
<i>Base currency</i>	The currency currently used by a firm to calculate its financial resource requirements.
<i>Business days</i>	Any day except Saturday, Sunday, bank holidays and public holidays (not being bank holidays).
<i>CFDs</i>	Means contract for differences.
<i>Commodity</i>	Any physical or energy product (except gold) which is, or can be traded on a secondary market. (NB the definition of commodity used in CM deliberately differs from that in the main Handbook)

	Glossary).
<i>Forward</i>	A contract to buy or sell where the date of settlement has been agreed as a particular date in the future.
<i>Future</i>	As specified in article 78 of the Regulated Activities Order (Futures).
<i>Non trading book</i>	Items not in the <i>trading book</i> .
<i>Option</i>	A contract which confers the right to buy or sell a <i>security</i> , contractually based investment, currency, gold or <i>commodity</i> at a given price on or before a given date. (NB: the definition of an option used for the purposes of this chapter deliberately differs from that in the main Handbook Glossary).
<i>Physical commodity</i>	The actual <i>commodity</i> , documents of title to actual <i>commodities</i> , or shipping documents conveying actual title to <i>commodities</i> .
<i>PRR</i>	Position risk requirement.
<i>Repurchase agreement</i>	See section 3.2, and 2(b)a) of chapter TC.
<i>Reverse repurchase agreement</i>	See section 3.2, and 2(b)a) of chapter TC.
<i>Stock financing</i>	A transaction where a <i>physical commodity</i> is sold forward and the cost of funding is locked in until the date of the forward sale.
<i>Swap</i>	A transaction in which two counterparties agree to exchange streams of payments over time according to a predetermined basis.
<i>Synthetic future</i>	A combination of a long (short) call <i>option</i> and a short (long) put <i>option</i> which are based on the same underlying and have the same notional amount, strike and maturity.
<i>Trading book</i>	As defined in section 3.2.1 of chapter CB.

## Annex C

### Chapter TI (Interest rate position risk requirement)

In this Annex, text is being deleted and replaced with new text that is not underlined.

Delete existing text in Chapter TI in its entirety and replace with the following text:

TI

Interest rate PRR

General

- 1 G A UK bank to which CAD applies should apply this chapter and calculate its interest rate *PRR* by:
  - (1) identifying which positions should be included within the *PRR* calculation;
  - (2) deriving the net position in each debt *security* in accordance with 37G - 41G;
  - (3) including these net positions in the *PRR* calculation for general market risk and the *PRR* calculation for specific risk; and
  - (4) summing all *PRRs* calculated for general market risk and specific risk.
- 2 G The interest rate *PRR* calculation divides the interest rate risk into the risk of loss from a general move in market interest rates, and the risk of loss from an individual debt *security's* price changing for reasons other than a general move in market interest rates. These are called general market risk and specific risk respectively.

Scope of the Interest rate PRR calculation

- 3 G A bank's interest rate *PRR* calculation should:
  - (1) include all *trading book* positions in debt *securities*, *preference securities* and *convertibles*, except:
    - (a) positions in *convertibles* which have been included in the bank's *PRR* calculation for *equities* under chapter TE;
    - (b) positions fully deducted from capital under 2(c) of section 10.2 of chapter CA, in which case the bank may exclude them; or
    - (c) positions hedging an *option* which is being treated under 26G of chapter TO; and
  - (2) include notional positions arising from *trading book* positions in the instruments listed in table 4G.

4 G Table: Instruments which result in notional positions (see 3G(2))

Instrument	See
<i>Futures, forwards</i> or <i>synthetic futures</i> on debt securities	13G
<i>Futures, forwards</i> or <i>synthetic futures</i> on debt indices or baskets	14G
Interest rate <i>futures</i> or <i>forward rate agreements (FRAs)</i>	18G
Interest rate <i>swaps</i> or foreign exchange <i>swaps</i>	21G
Deferred start interest rate <i>swaps</i> or foreign exchange <i>swaps</i>	24G
The interest rate leg of an <i>equity swap</i> (unless the bank calculates a <i>PRR</i> on the instrument using the basic interest rate <i>PRR</i> calculation in chapter TE)	27G
The cash leg of a <i>repurchase agreement</i> or a <i>reverse repurchase agreement</i>	30G
Cash borrowings or deposits	31G
<i>Options</i> or <i>warrants</i> on a debt security, interest rate or interest rate <i>future</i> or <i>swap</i> or on a <i>future</i> on a debt security (unless the bank calculates a <i>PRR</i> on the <i>option</i> under chapter TO)	32G
Dual currency bonds	33G
Foreign exchange <i>futures</i> or <i>forwards</i>	34G
Gold <i>futures</i> or <i>forwards</i>	34G
<i>Forwards, futures</i> or <i>options</i> (except cliquets) on an <i>equity</i> , basket of <i>equities</i> or <i>equity</i> index (unless the bank calculates a <i>PRR</i> on the instrument using the basic interest rate <i>PRR</i> calculation in chapter TE)	34G
Credit derivatives	Chapter CD

5 G 3G(1) includes a *trading book* position in debt security, preference security or convertible that is subsequently repo'd under a *repurchase agreement* or lent under a stock lending agreement. Clearly, if the security had initially been obtained via a *reverse repurchase agreement* or stock borrowing agreement, the security would not have been included in the *PRR* calculation in the first place.

6 G 3G(1) includes net *underwriting* positions or reduced net *underwriting* positions in debt securities.

- 7 G Banks are reminded that table 5G in chapter TO divides *options* or *warrants* on interest rates, debt *securities*, interest rate *futures* and *swaps* into:
- (1) those which should be treated under chapter TO; and
  - (2) those which should be treated under either chapter TI or chapter TO, but banks can choose whether chapter TI or TO is used.
- 8 G Cliquets on *equities*, baskets of *equities* or *equity* indices do not attract an interest rate *PRR*. Table 4G excludes them from the scope of the interest rate *PRR* calculation in this chapter, and 42G of chapter TE excludes them from the basic interest rate *PRR* calculation in that chapter.
- 9 G Table 4G shows that *equity derivatives* are excluded from this chapter's *PRR* calculation if they have been included in the basic interest rate *PRR* calculation in chapter TE (see 42G of chapter TE).

#### Derivation of notional positions

##### GENERAL APPROACH

- 10 G This section converts the instruments listed in table 4G into notional positions in:
- (1) the underlying debt *security*, where the instrument depends on the price (or yield) of a specific debt *security*; and/or
  - (2) hypothetical debt *securities* to capture the pure interest rate risk arising from future payments and receipts of cash (including notional payments and receipts). Because they are designed to represent pure general market risk (and not specific risk) they are called *zero-specific-risk securities*.
- 11 G For the purposes of calculating *PRR*, unless specified otherwise, a bank should derive the value of notional positions as follows:
- (1) notional positions in actual debt *securities* should be valued as the nominal amount underlying the contract at the current market price of the debt *security*; and
  - (2) positions in *zero-specific-risk securities* should be valued using one of the two following methods. A bank should use the same method for all positions denominated in the same currency:
    - (a) Present value approach: The *zero-specific-risk security* is assigned a value equal to the present value of all the future cash flows that it represents.
    - (b) Alternative approach: The *zero-specific-risk security* is assigned a value equal to:
      - (i) the market value of the underlying notional *equity* position in the case of an *equity derivative*;

- (ii) the notional principal amount in the case of an interest rate or foreign exchange *swap*; or
  - (iii) the notional amount of the future receipt or payment that it represents in the case of any other instrument.
- 12 G A bank should use 11G(2)(a) in respect of any positions that it includes in the duration method calculation of general market risk (see 60G).

FUTURES OR FORWARDS ON A DEBT SECURITY

- 13 G *Futures or forwards* on a single debt *security* should be treated as follows:
  - (1) A purchased *future* or *forward* is treated as:
    - (a) a notional long position in the underlying debt *security* (or the cheapest to deliver (taking into account the conversion factor) where the contract can be satisfied by delivery of one from a range of *securities*); and
    - (b) a notional short position in a zero coupon *zero-specific-risk security* with a maturity equal to the expiry date of the *future* or *forward*.
  - (2) A sold *future* or *forward* is treated as:
    - (a) a notional short position in the underlying *security* (or the cheapest to deliver (taking into account the conversion factor) where the contract can be satisfied by delivery of one from a range of *securities*); and
    - (b) a notional long position in a zero coupon *zero-specific-risk security* with a maturity equal to the expiry date of the *future* or *forward*.

FUTURES OR FORWARDS ON A BASKET OR INDEX OF DEBT SECURITIES

- 14 G *Futures or forwards* on a basket or index of debt *securities* should be converted into *forwards* on single debt *securities* as follows (and then the resulting positions are treated under 13G).
  - (1) *Futures or forwards* on a single currency basket or index of debt *securities* should be treated as either:
    - (a) a series of *forwards*, one for each of the constituent debt *securities* in the basket or index, of an amount which is a proportionate part of the total underlying the contract according to the weighting of the relevant debt *security* in the basket; or
    - (b) a single *forward* on a hypothetical debt *security*.
  - (2) *Futures or forwards* on multiple currency baskets or indices of debt *securities* should be treated as either:

- (a) a series of *forwards* (using the method described in (1)(a)); or
  - (b) a series of *forwards*, each one on a hypothetical debt *security* to represent one of the currencies in the basket or index, of an amount which is a proportionate part of the total underlying the contract according to the weighting of the relevant currency in the basket.
- 15 G Under 14G(2)(b), a *forward* on basket of 3 Euro denominated debt *securities* and 2 Dollar denominated debt *securities* would be treated as a *forward* on a single hypothetical Euro denominated debt *security* and a *forward* on a single hypothetical Dollar denominated debt *security*.
- 16 G The hypothetical debt *securities* in 14G are assigned a specific risk *PRA* and a general market risk *PRA* equal to the highest that would apply to the debt *securities* in the basket or index.
- 17 G The debt *security* with the highest specific risk *PRA* within the basket might be a different debt *security* to that with the highest general market risk *PRA*. When following 16G, a bank would select the highest percentages even where they relate to different debt *securities* in the basket or index, and regardless of the proportion of those debt *securities* in the basket or index.

INTEREST RATES FUTURES AND FORWARD RATE AGREEMENTS (FRAS)

- 18 G Interest rate *futures* or *FRAs* should be treated as the two notional positions (one long, one short) shown in table 19G.
- 19 G Table: Interest rate *futures* and *FRAs* (see 18G)

	1	2
	<b>A short position in a zero coupon zero-specific-risk-security</b>	<b>A long position in a zero coupon zero-specific-risk-security</b>
Where the bank buys an interest rate <i>future</i> or sells an <i>FRA</i>	Maturity equals the expiry date of the <i>future</i> (or settlement date of the <i>FRA</i> )	Maturity equals the expiry date of the <i>future</i> (or settlement date of the <i>FRA</i> ) plus the maturity of the borrowing/deposit
Where the bank sells an interest rate <i>future</i> or buys an <i>FRA</i>	Maturity equals the expiry date of the <i>future</i> (or settlement date of the <i>FRA</i> ) plus the maturity of the borrowing/deposit	Maturity equals the expiry date of the <i>future</i> (or settlement date of the <i>FRA</i> )

- 20 G The following example illustrates 18G and table 19G in conjunction with 11G (the latter guidance determines the value of notional positions). A bank sells £1mn notional of a 3v6 *FRA* at 6%. This results in:

- (1) a short position in a *zero-specific-risk-security* with a zero coupon, three month maturity, and a nominal amount of £1mn; and
- (2) a long position in a *zero-specific-risk-security* with a zero coupon, six month maturity, and nominal amount of £1,015,000 (i.e. notional plus interest at 6% over 90 days)

If a bank were to apply the approach in 11G(2)(a), the two nominal amounts would have to be present valued.

INTEREST RATE SWAPS OR FOREIGN EXCHANGE SWAPS

- 21 G Interest rate *swaps* or foreign exchange *swaps* without deferred starts should be treated as the two notional positions (one long, one short) shown in table 22G:
- 22 G Table: Interest rate and foreign exchange *swaps* (see 21G)

	<b>1. Paying leg</b> <i>A short position in a zero-specific-risk security</i>	<b>2. Receiving leg</b> <i>A long position in a zero-specific-risk security</i>
Receiving fixed and paying floating	coupon equals the floating rate and maturity equals the reset date	Coupon equals the fixed rate of the <i>swap</i> and maturity equals the maturity of the <i>swap</i>
Paying fixed and receiving floating	coupon equals the fixed rate of the <i>swap</i> and maturity equals the maturity of the <i>swap</i>	Coupon equals the floating rate and maturity equals the reset date
Paying floating and receiving floating	coupon equals the floating rate and maturity equals the reset date	Coupon equals the floating rate and maturity equals the reset date

- 23 G For a foreign exchange *swap*, the two notional *zero-specific-risk securities* would be denominated in different currencies. A foreign exchange *swap* is also included in the foreign exchange *PRR* calculation.

DEFERRED START INTEREST RATE SWAPS OR FOREIGN EXCHANGE SWAPS

- 24 G Interest rate *swaps* or foreign exchange *swaps* with a deferred start should be treated as the two notional positions (one long, one short) shown in table 25G.
- 25 G Table: Deferred start interest rate and foreign exchange *swaps* (see 24G)

	1. Paying leg A short position in a <i>zero-specific-risk security</i> with a coupon equal to the fixed rate of the <i>swap</i>	2. Receiving leg A long position in a <i>zero-specific-risk security</i> with a coupon equal to the fixed rate of the <i>swap</i>
Receiving fixed and paying floating	maturity equals the start date of the <i>swap</i>	maturity equals the maturity of the <i>swap</i>
Paying fixed and receiving floating	maturity equals the maturity of the <i>swap</i>	maturity equals the start date of the <i>swap</i>

- 26 G For example, a bank enters into a five year *swap* which starts in two year's time. The bank has contracted to receive 6% and pay six month Libor on a principal amount of £1mn. This results in a long position in a 7 year debt *security* and a short position in a 2 year debt *security*. Both have a coupon of 6%.

SWAPS WHERE ONLY ONE LEG IS AN INTEREST RATE LEG (E.G. EQUITY SWAPS)

- 27 G A bank should treat a *swap* with only one interest rate leg as a notional position in a *zero-specific-risk security*:
- (1) with a coupon equal to that on the interest rate leg;
  - (2) with a maturity equal to the date that the interest rate will be reset; and
  - (3) which is a long position if the bank is receiving interest payments and short if making interest payments.
- 28 G 27G includes *equity swaps*, *commodity swaps* and any other *swap* where only one leg is an interest rate leg.

CASH LEGS OF REPURCHASE AGREEMENTS AND REVERSE REPURCHASE AGREEMENTS

- 29 G Bank's are reminded that for the purposes of 30G, a *repurchase agreement* includes a sell/buy back or stock lending; and a *reverse repurchase agreement* includes a buy/sell back or a stock borrowing.
- 30 G The forward cash leg of a *repurchase agreement*; or *reverse repurchase agreement* should be treated as a notional position in a *zero-specific-risk security* which:
- (1) is a short notional position in the case of a *repurchase agreement*; and a long notional position in the case of a *reverse repurchase agreement*;
  - (2) has a value equal to the market value of the cash leg;

- (3) has a maturity equal to that of the *repurchase agreement* or *reverse repurchase agreement*; and
- (4) has a coupon equal to:
  - (a) zero, if the next interest payment date coincides with the maturity date; or
  - (b) the interest rate on the contract, if any interest is due to be paid before the maturity date.

#### CASH BORROWINGS AND DEPOSITS

- 31 G A cash borrowing or deposit should be treated as a notional position in a zero coupon *zero-specific-risk security* which:
- (1) is a short position in the case of a borrowing and a long position in the case of a deposit;
  - (2) has a value equal to the market value of the borrowing or deposit;
  - (3) has a maturity equal to that of the borrowing or deposit, or the next date the interest rate is reset (if earlier); and
  - (4) has a coupon equal to:
    - (a) zero, if the next interest payment date coincides with the maturity date; or
    - (b) the interest rate on the borrowing or deposit, if any interest is due to be paid before the maturity date.

#### OPTIONS AND WARRANTS

- 32 G Where included in this chapter's *PRR* calculation (see table 4G), *options* and *warrants* should be treated as follows:
- (1) An *option* or *warrant* on a debt *security* should be treated as a position in that debt *security*.
  - (2) An *option* on an interest rate should be treated as a position in a zero coupon *zero-specific-risk security* with a maturity equal to the sum of the time to expiry of the *option* and the length of the period for which the interest rate is fixed.
  - (3) An *option* on an *future* – where the *future* is based on an interest rate or debt *security* – should be treated as:
    - (a) a long position in that *future* for purchased call *options* and written put *options*; and

(b) a short position in that *future* for purchased put *options* and written call *options*.

(4) An *option* on a *swap* should be treated as a deferred starting *swap*.

#### BONDS WHERE THE COUPONS AND PRINCIPAL ARE PAID IN DIFFERENT CURRENCIES

33 G Where a debt *security* pays coupons in one currency, but will be redeemed in a different currency, it should be treated as:

(1) a debt *security* denominated in the coupon's currency; and

(2) a foreign exchange *forward* to capture the fact that the debt *security's* principal will be repaid in a different currency from that in which it pays coupons, specifically:

(a) a notional forward sale of the coupon currency and purchase of the redemption currency, in the case of a long position in the debt *security*; or

(b) a notional forward purchase of the coupon currency and sale of the redemption currency, in the case of a short position in the debt *security*.

#### INTEREST RATE RISK ON OTHER FUTURES, FORWARDS AND OPTIONS

34 G Other *futures, forwards, options* and *swaps* should be treated as positions in *zero-specific-risk securities*, each of which:

(1) has a zero coupon;

(2) has a maturity equal to that of the relevant contract; and

(3) is long or short according to table 35G.

35 G Table: Interest rate risk on other *futures, forwards, options* and *swaps* (see 34G).

Instrument	Notional positions		
Foreign exchange <i>forward</i> or <i>future</i>	a long position denominated in the currency purchased	<b>and</b>	a short position denominated in the currency sold
Gold <i>forward</i> or <i>future</i>	a long position if the <i>forward</i> or <i>future</i> involves an actual (or notional) sale of gold	<b>or</b>	a short position if the <i>forward</i> or <i>future</i> involves an actual (or notional) purchase of gold
<i>Equity forward</i> or <i>future</i> , or <i>option</i> (unless a <i>PRR</i> is calculated under the basic interest rate calculation in chapter TE)	A long position if the contract involves an actual (or notional) sale of the underlying <i>equity</i>	<b>or</b>	A short position if the contract involves an actual (or notional) purchase of the underlying <i>equity</i>

Deriving the net position in each debt security

36 G The net position is the difference between the value of the bank's long positions (including notional positions) and the value of its short positions (including notional positions) in the same debt *security*.

#### NETTING POSITIONS IN THE SAME DEBT SECURITY

37 G A bank should not net positions (including notional positions) unless:

- (1) long and short positions are in the same debt *security*, and a debt *security* is the same as another if and only if:
  - (a) they enjoy the same rights in all respects; and
  - (b) are fungible with each other; or
- (2) long and short positions are in different tranches of the same debt *security*, where the tranches:
  - (a) enjoy the same rights in all respects; and
  - (b) become fungible within 180 days, and thereafter the debt *security* of one tranche can be delivered in settlement of the other tranche.

#### NETTING THE CHEAPEST TO DELIVER SECURITY WITH OTHER DELIVERABLE SECURITIES

- 38 G A bank may net a short notional position in the cheapest to deliver *security* arising from a short *future* or *forward* (see 13G(2)(a)) against a long position in any deliverable *security* up to a maximum of 90% of the common nominal amounts. The residual long and short nominal amounts should be treated as separate long and short positions.
- 39 G The netting permitted by 38G only relates to where the bank has sold the *future* or *forward*. It does not relate to where the bank has bought a *future* or *forward*.

#### NETTING ZERO-SPECIFIC-RISK SECURITIES WITH DIFFERENT MATURITIES

- 40 G A bank may net a notional long position in a *zero-specific-risk security* against a notional short position in a *zero-specific-risk security* if:
- (1) they are denominated in the same currency;
  - (2) their coupons do not differ by more than 15 basis points; and
  - (3) they mature:
    - (a) on the same day, if they have residual maturities of less than one month;
    - (b) within seven days of each other, if they have residual maturities of between one month to one year; and
    - (c) within thirty days of each other, if they have residual maturities in excess of one year.

#### REDUCED NET UNDERWRITING POSITIONS IN DEBT SECURITIES

- 41 G A bank should not net a reduced net *underwriting* position in a debt *security* with any other debt *security* position.
- 42 G 41G only relates to reduced net *underwriting* positions.

#### Specific risk calculation

- 43 G A bank should calculate the specific risk *PRR* for each debt *security* by:
- (1) multiplying the market value of the individual net position (ignoring the sign) by the appropriate *PRA* from table 44G; and
  - (2) converting this amount into the bank's *base currency* at prevailing spot foreign exchange rates.
- 44 G Table: specific risk *PRAs* (see 43G).

Issuer	Residual maturity	PRA
An issue of, or fully guaranteed by, or fully collateralised by a <i>Zone A</i> central government or central bank or the European Communities	Any	0%
An issue of, or fully guaranteed by, a <i>Zone B</i> central government or central bank denominated in the local currency	Zero to 12 months	0%
Other <i>qualifying debt securities</i> (see 46G)	Zero to 6 months	0.25%
	6 to 24 months	1%
	Over 24 months	1.6%
<i>Non-qualifying debt securities</i>	Any	8%

45 G 43G includes both actual and notional positions. However, notional positions in *zero-specific-risk securities* do not attract specific risk. For example:

- (1) Interest rate *swaps*, foreign exchange *swaps*, *FRAs*, interest rate *futures*, foreign exchange *forwards*, foreign exchange *futures*, and the cash leg of *repurchase agreements* and *reverse repurchase agreements* create notional positions which will not attract specific risk; whilst
- (2) *Futures*, *forwards* and *swaps* which are based on the price (or yield) of one or more debt *securities* will create at least one notional position that attracts specific risk.

#### DEFINITION OF A QUALIFYING DEBT SECURITY

46 G A debt *security* is a *qualifying debt security* if:

- (1) it attracts zero specific risk under table 44G; or
- (2) it is issued by, or fully guaranteed by:
  - (a) a *Zone B* central government or central bank and the *security* is denominated in the local currency of the issuer;
  - (b) a multilateral development bank listed in 3.2.4 of chapter BC
  - (c) a *Zone A* public sector entity;

- (d) a company whose *equity* is a constituent of one of the indices making up the FTSE All-World Index; or
  - (e) an issue of, or fully guaranteed by an *investment firm* or *recognised third-country investment firm*.
- (3) it is issued by, fully guaranteed by, endorsed or accepted by:
- (a) a credit institution incorporated in a *Zone A* country; or
  - (b) a credit institution incorporated in a *Zone B* country and the debt *security* has a residual maturity of one year or less.
- (4) it is a mortgage backed security which meets the criteria in 7e of section 3.2.5 of chapter BC.
- (5) it is rated by at least one of the agencies shown in table 47G, and every such rating equals or exceeds the corresponding minimum shown in that table.

47 G Table: minimum ratings for *qualifying debt securities* (see 46G(5)).

Issuer	Rating agency	Minimum Rating	
		<i>Securities</i>	Money Market Obligations
Any	Moody's Investors Service	Baa3	P3
	Standard & Poor's Corporation	BBB-	A3
	FITCH Ratings Ltd	BBB-	F-3
Canadian	Canadian Bond Rating Service	B+++low	A-3
	Dominion Bond Rating Service	BBB low	R-2
Japanese	Japan Credit Rating Agency, Ltd	BBB-	J-2
	Mikuno & Co	BBB	M-3
	Japan Rating & Investment Information Inc	BBB-	a-2

#### General market risk calculation

- 48 G A bank should calculate the general market risk *PRR* for each currency using either:
- (1) the simplified maturity method;
  - (2) the maturity method; or
  - (3) the duration method (subject to 50G).

- 49 G A bank should convert all general market risk *PRRs* into its *base currency* using prevailing foreign exchange spot rates.
- 50 G A bank should not use the duration method for index-linked *securities*. Instead, these *securities* should:
- (1) be attributed a coupon of 3%; and
  - (2) treated separately under either the simplified maturity method or the maturity method.

#### SIMPLIFIED MATURITY METHOD

- 51 G The simplified maturity method weights individual net positions to reflect their price sensitivity to changes in interest rates. The weights are related to the coupon and the residual maturity of the instrument (or the next interest rate re-fix date for floating rate items).
- 52 G Under the simplified maturity method, the *PRR* for general market risk equals the sum of each individual net position (long or short) multiplied by the appropriate *PRA* in table 53G.
- 53 G Table: general market risk *PRAs* (see 52G).

Zone	Maturity band		<i>PRA</i>
	Coupon of 3% or more	Coupon of less than 3%	
One	0 ≤ 1month	0 ≤ 1month	0.00%
	> 1 ≤ 3months	> 1 ≤ 3months	0.20%
	> 3 ≤ 6 months	> 3 ≤ 6 months	0.40%
	> 6 ≤ 12 months	> 6 ≤ 12 months	0.70%
Two	> 1 ≤ 2 years	> 1.0 ≤ 1.9 years	1.25%
	> 2 ≤ 3 years	> 1.9 ≤ 2.8 years	1.75%
	> 3 ≤ 4 years	> 2.8 ≤ 3.6 years	2.25%
Three	> 4 ≤ 5 years	> 3.6 ≤ 4.3 years	2.75%
	> 5 ≤ 7 years	> 4.3 ≤ 5.7 years	3.25%
	> 7 ≤ 10 years	> 5.7 ≤ 7.3 years	3.75%
	> 10 ≤ 15 years	> 7.3 ≤ 9.3 years	4.50%
	> 15 ≤ 20 years	> 9.3 ≤ 10.6 years	5.25%
	> 20 years	> 10.6 ≤ 12.0 years	6.00%
		> 12.0 ≤ 20.0 years	8.00%
	> 20 years	12.50%	

#### THE MATURITY METHOD

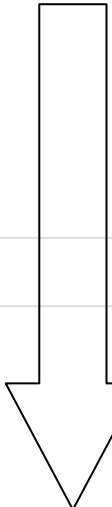

- 54 G The maturity method builds on the simplified maturity method by partially recognising offsetting positions. 57G provides an illustration of the maturity method.

- 55 G Under the maturity method, the *PRR* for general market risk is calculated as follows:
- (1) Step 1: each net position is allocated to the appropriate maturity band in table 53G and multiplied by the corresponding *PRR*.
  - (2) Step 2: weighted long and short positions are matched within:
    - (a) the same maturity band;
    - (b) the same zone (using unmatched positions from (a)); and
    - (c) different zones (using unmatched positions from (b)).
  - (3) Step 3: the *PRR* for general market risk is the sum of:
    - (a) 10% of the total amount matched within maturity bands;
    - (b) 40% of the amount matched within zone 1 under (2)(b);
    - (c) 30% of the amount matched within zones 2 & 3 under (2)(b);
    - (d) 40% of the amounts matched between zones 1 and 2, and between zones 2 and 3;
    - (e) 150% of the amount matched between zones 1 and 3; and
    - (f) 100% of the weighted positions remaining unmatched after (2)(c);
- 56 G Table 53G distinguishes between debt *securities* with a coupon of less than 3% and those with coupon in excess of 3%. However, this doesn't mean that the bank has to do a separate general market risk calculation for each, it merely ensures that when allocating debt *securities* to a particular band, their coupons are taken into account as well as their maturities. So for example, a 21 year 6% debt *security* falls into the same band as an 11 year 2% debt *security*. They are both weighted at 6%, and can be matched under the first part of step two because they fall within the same band.

57 G An example of the maturity method calculation. In this example, a bank with a £ sterling *base currency* is processing its euro denominated positions.

**Weight each position**

Zone	Totals of:		PRA		Weighted longs within each band	Weighted shorts within each band
	net longs within the band	net shorts within the band				
1	€100	€50	0.00%		0	0
	€250	€0	0.20%		<b>0.50</b>	0
	€200	€0	0.40%		<b>0.80</b>	0
	€0	€0	0.70%		0	0
2	€140	€0	1.25%		<b>1.75</b>	0
	€200	€300	1.75%		<b>3.50</b>	<b>5.25</b>
	€0	€400	2.25%		0	<b>9</b>
3	€0	€0	2.75%		0	0
	€200	€200	3.25%		<b>6.50</b>	<b>6.50</b>
	€300	€0	3.75%		<b>11.25</b>	0
	€200	€300	4.50%		<b>9</b>	<b>13.50</b>
	€0	€14.30	5.25%		0	<b>0.75</b>
	€300	€0	6.00%		<b>18.00</b>	0
	€0	€0	8.00%		0	0
€0	€0	12.50%		0	0	

**Match weighted positions**

same band		same zones		different zones	
Long	Short	Long	Short	Long	Short
0.50		0.50		1.30	
0.80		0.80			
1.75		1.75	1.75		9.00
3.50	5.25		9		
	9				
6.50	6.50				
11.25		11.25	4.50	24.00	
9	13.50		0.75		
	0.75				
18.00		18.00			
<b>19 matched</b>		<b>7 matched</b>		<b>9 matched</b>	

**Calculate the general market risk**

Matched within bands	19	@	10%	=	1.9
Matched within zone 1	0	@	40%	=	0
Matched within zones 2&3	7	@	30%	=	2.1
Matched between zones 1&2 and 2&3	9	@	40%	=	3.6
Matched between zones 1&3	0	@	150%	=	0
Unmatched after 2(c)	16.30	@	100%	=	16.30
<b>total = € 23.90</b>					
<b>general market risk PRR (if €1=£0.60) = £14.34</b>					

#### DURATION METHOD

- 58 G The duration method produces a more accurate measure of interest rate risk than the maturity methods but it is also more complex to calculate.
- 59 G Banks should use the following formula to calculate modified duration:

$$\text{Modified Duration} = \frac{D}{(1+r)} \qquad D = \frac{\sum_{t=1}^m \frac{tC_t}{(1+r)^t}}{\sum_{t=1}^m \frac{C_t}{(1+r)^t}}$$

Where:  $C_t$  = cash payment at time  $t$   
 $m$  = total maturity  
 $r$  = yield to maturity, based on the current mark to market of the debt *security*. In the case of a floating rate instrument, this is calculated on the assumption that the principal is due on the date that the interest rate can next be changed  
 $t$  = time

- 60 G Under the duration method, the *PRR* for general market risk is calculated as follows:
- (1) Step 1: allocate each net position to the appropriate duration zone in table 61G and multiply it by:
    - (a) its modified duration (using the formula in 59G); and
    - (b) the appropriate assumed interest rate change in table 61G.
  - (2) Step 2: match weighted long and short positions:
    - (a) within timebands;
    - (b) within zones (using unmatched positions from (2)(a)); and
    - (c) across zones (using unmatched positions from (2)(b));
  - (3) Step 3: calculate the general market risk as the sum of:
    - (a) 100% of the weighted positions remaining unmatched after (2)(c);
    - (b) 5% of the matched weighted position in each timeband;
    - (c) 40% of the matched weighted position in zone 1;

- (d) 30% of the matched weighted position in zones 2 and 3;
- (e) 40% of the matched weighted position between zones 1 and 2, and between zones 2 and 3; and
- (f) 150% of the matched weighted position between zones 1 and 3.

61 G Table: Assumed interest rate change in the duration method (see 60G).

Zone	Modified Duration	Assumed interest rate change (percentage points)
1	$0 \leq 1$ months	1.00
	$> 1 \leq 3$ months	1.00
	$> 3 \leq 6$ months	1.00
	$> 6 \leq 12$ months	1.00
2	$> 1.0 \leq 1.9$ years	0.90
	$> 1.9 \leq 2.8$ years	0.80
	$> 2.8 \leq 3.6$ years	0.75
3	$> 3.6 \leq 4.3$ years	0.75
	$> 4.3 \leq 5.7$ years	0.70
	$> 5.7 \leq 7.3$ years	0.65
	$> 7.3 \leq 9.3$ years	0.60
	$> 9.3 \leq 10.6$ years	0.60
	$> 10.6 \leq 12$ years	0.60
	$> 12.0 \leq 20$ years	0.60
	$> 20$ years	0.60

Definitions used in chapter TI

62 G This chapter uses the following definitions:

Defined term	Definition
<i>Base currency</i>	The currency in which the bank's accounts are prepared.
<i>Commodity</i>	Any physical or energy product (except gold) which is, or can be traded on a secondary market. (NB the definition of commodity used in TI deliberately differs from that in the main Handbook Glossary).
<i>Convertible</i>	A <i>security</i> which gives the investor the right to convert the <i>security</i> into <i>equity</i> at an agreed price or on an agreed basis.
<i>Derivative</i>	<i>Options, futures</i> and contracts for differences.
<i>Equity</i>	See <i>share</i> .
<i>Forward</i>	A contract to buy or sell where the date of settlement has been agreed as a particular date in the future.
<i>Forward rate</i>	An agreement in which two parties agree on the payment by

<i>agreement</i>	one party to another of an amount of interest based on an agreed interest rate for a specified period from a specified settlement date applied to an agreed principal amount; no commitment is made by either party to lend or borrow the principal amount; their exposure is only the interest difference between the agreed and actual rates at settlement.
<i>FRA</i>	<i>Forward rate agreement.</i>
<i>Future</i>	As specified in article 78 of the Regulated Activities Order (Futures).
<i>Investment firm</i>	As defined in section 1 of chapter CB.
<i>Option</i>	A contract which confers the right to buy a <i>security</i> , contractually based investment or <i>commodity</i> at a given price on or before a given date. (NB: the definition of an option used for the purposes of this chapter deliberately differs from that in the main Handbook Glossary).
<i>Preference securities</i>	A share with rights, in respect of capital and dividends, superior to those of ordinary <i>equity</i> .
<i>PRA</i>	Percentage risk addition.
<i>PRR</i>	Position risk requirement.
<i>Qualifying debt security</i>	As defined in 46G.
<i>Recognised third country investment firm</i>	An <i>investment firm</i> which is subject to the prudential rules of one of the regulators listed in appendix C to chapter CS.
<i>Repurchase agreement</i>	See section 3.2, 2(b)a) of chapter TC.
<i>Reverse repurchase agreement</i>	See section 3.2, 2(b)a) of chapter TC.
<i>Security</i>	As defined in article 3(1) of the Regulated Activities Order.
<i>Share</i>	As specified in article 76 of the Regulated Activities Order (Shares etc).
<i>Swap</i>	A transaction in which two counterparties agree to exchange streams of payments over time according to a predetermined basis.
<i>Synthetic future</i>	A combination of a long (short) call <i>option</i> and a short (long) put <i>option</i> which are based on the same underlying and have the same notional amount, strike and maturity.
<i>Trading book</i>	As defined in section 3.2.1 of chapter CB.
<i>Underwriting</i>	The arrangement under which a party agrees to buy, before issue, a specified quantity of securities in an issue of securities on a given date and at a given price, if no other has purchased or acquired them.
<i>Zero-specific-risk securities</i>	A hypothetical debt <i>security</i> used to represent the general interest rate risk arising from certain <i>derivative</i> and <i>forward</i> transactions.

<i>Warrant</i>	The investment specified in article 79 of the Regulated Activities Order (Instruments giving entitlement to investments).
<i>Zone A</i>	As defined in section 3.2.8 of chapter BC.
<i>Zone B</i>	As defined in section 3.2.8 of chapter BC.

## Annex D

### Chapter TE (Equity position risk requirement)

In this Annex, text is being deleted and replaced with new text that is not underlined.

Delete existing text in Chapter TE in its entirety and replace with the following text:

TE

Equity PRR

General

- 1 G A UK bank to which CAD applies should apply this chapter and calculate its *equity PRR* by:
- (1) identifying which *equity* positions should be included within the scope of the *PRR* calculation (see 2G);
  - (2) deriving the net position in each *equity* in accordance with 22G -25G;
  - (3) including each of those net positions in either the simplified equity method (see 29G) or, subject to 27G, the standard equity method (see 32G); and
  - (4) summing the *PRR* on each net position as calculated under the simplified and standard equity methods.

Scope of the Equity PRR calculation

- 2 G A bank's *equity PRR* calculation should:
- (1) include all *trading book* positions in *equities*, unless:
    - (a) the position is fully deducted from capital under 2(c) of section 10.2 of chapter CA, in which case the bank may exclude it;
    - (b) the position is hedging an *option* or *warrant* which is being treated under 26G of chapter TO; and
  - (2) include notional positions arising from *trading book* positions in the instruments listed in table 3G.
- 3 G Table: Instruments which result in notional positions (see 2G(2))

Instrument	See
Depository receipts	12G
<i>Convertibles</i> where:(a) the <i>convertible</i> is trading at a market price of less than 110% of the underlying <i>equity</i> ; and the first date at which conversion can take place is	13G

less than three months ahead, or the next such date (where the first has passed) is less than a year ahead; or  (b) the conditions in (a) are not met but the bank includes the <i>convertible</i> in its <i>equity PRR</i> calculation rather than including it in its interest rate <i>PRR</i> calculation set out in chapter TI.	
<i>Futures, forwards, CFDs and synthetic futures on a single equity</i>	14G
<i>Futures, forwards, CFDs and synthetic futures on a basket of equities or an equity index</i>	15G
<i>Equity legs of an equity swap</i>	19G
<i>Options or warrants on a single equity, an equity future, a basket of equities or an equity index (unless the bank calculates a PRR on the option or warrant under chapter TO).</i>	21G

- 4 G 2G(1) includes a *trading book* position in an *equity* that is subsequently repo'd under a *repurchase agreement* or lent under a stock lending agreement. Clearly, if the *equity* had initially been obtained via a *reverse repurchase agreement* or stock borrowing agreement, the *equity* would not have been included in the *trading book* in the first place.
- 5 G 2G(1) includes net *underwriting* positions, or reduced net *underwriting* positions in *equities*. 27G requires banks to use the simplified equity method in the case of reduced net *underwriting* positions. In the case of net *underwriting* positions that haven't been reduced according to 24G of chapter TU, there is no such restriction; a bank can choose which of the two equity methods to use.
- 6 G Banks are reminded that table 5G in chapter TO divides *equity options* and *warrants* into:
- (1) those which should be treated under chapter TO; and
  - (2) those which should be treated under either chapter TE or chapter TO, but banks can choose whether chapter TE or TO is used.
- 7 G Under table 3G, not every *convertible* need be included in this chapter's *PRR* calculation. Where a *convertible* is not included in this chapter's *PRR* calculation, 3G(1)(a) of chapter TI states that it should be included in the chapter TI *PRR* calculation.
- 8 G Some of the instruments listed in table 3G are also included in a bank's interest rate *PRR* calculation. For simplicity, a bank may use the interest rate *PRR* calculation at the end of this chapter rather than the calculation in chapter TI. 41G explains this in more detail.

## Derivation of notional positions

- 9 G This section converts the instruments listed in table 3G into notional positions in individual *equities*, *equity* baskets, or *equity* indices.
- GENERAL
- 10 G Unless specified otherwise, the value of each notional *equity* position equals the quantity of that *equity* underlying the instrument multiplied by the current market value of the *equity*.
- 11 G For example, the current market value of a particular *equity* is £2.50. If a bank contracts to sell this *equity* in five years' time for £3 it would treat the notional short *equity* position as having a value of £2.50 when calculating the *equity PRR*.

In effect, the forward position has been treated as being equivalent to a spot position for the purposes of calculating *equity PRR*. To capture the risk that the forward price changes relative to the spot price, forward *equity* positions are included in the bank's interest rate *PRR* calculation (see 42G of this chapter or 4G of chapter TI).

## DEPOSITORY RECEIPTS

- 12 G A depository receipt should be treated as a notional position in the underlying *equity*.

## CONVERTIBLES

- 13 G Where a *convertible* is included in this chapter's *PRR* calculation (see table 3G):
- (1) it should be treated as a position in the *equity* into which it converts; and
  - (2) the bank's *equity PRR* should be adjusted by making:
    - (a) an addition equal to the current value of any loss which the bank would make if it did convert to *equity*; or
    - (b) a deduction equal to the current value of any profit which the bank would make if it did convert to *equity* (subject to a maximum reduction equal to the *PRR* on the notional position underlying the *convertible*).

## FUTURES, FORWARDS AND CFDs ON A SINGLE EQUITY

- 14 G A *future*, *forward* or *CFD* on a single *equity* should be treated as a notional position in that *equity*.

## FUTURES, FORWARDS AND CFDs ON EQUITY INDICES OR BASKETS

- 15 G A *future*, *forward* or *CFD* on an *equity* index or basket should be treated as either:
- (1) a position in each of the underlying *equities*; or

(2) the positions shown in table 16G.

16 G Table: equity index or basket contracts (see 15G(2))

	Under the simplified equity method (29G)	Under the standard equity method (32G)
Only one country in the index or basket (see 32G)	One position in the index or basket	One position in the index or basket
More than one country in the index or basket	One position in the index or basket	Several notional basket positions, one for each country Or One notional basket position in a separate, hypothetical country

17 G For example, a bank decides to treat a FTSE Eurotop 300 *future* under the standard equity method, and furthermore, chooses to treat it as one notional position. Under table 16G a bank should treat this notional position as if it were from a separate hypothetical “country” rather than any of the countries to which the underlying *equities* are from.

18 G The notional positions created under 15G have the following values:

- (1) where only one notional position is created, it has a value equal to the total market value of the *equities* underlying the contract; or
- (2) where more than one notional position is created, each one has a value which reflects that relevant *equity's* or country's contribution to the total market value of the *equities* underlying the contract.

#### EQUITY LEGS OF EQUITY SWAPS

19 G The *equity* leg of an *equity swap* should be treated as a position in the underlying *equity*, basket of *equities* or *equity* index, which is:

- (1) long, if the bank has contracted to receive any increase and pay any decrease in the value of the underlying *equities* or *equity* index; and
- (2) short, if the bank has contracted to receive any decrease and pay any increase in the value of the underlying *equities* or *equity* index.

- 20 G The interest rate leg of an *equity swap* is included in a bank's interest rate *PRR* calculation (see table 4G of chapter II).

#### OPTIONS

- 21 G If included in this chapter's *PRR* calculation (see table 3G), *options* should be treated as follows:
- (1) an *option* on a single *equity* should be treated as a notional position in that *equity*;
  - (2) an *option* on a basket of *equities* or *equity* index should be treated as a *future* on that basket or index; and
  - (3) an *option* on an *equity future* should be treated as:
    - (a) a long position in that *future*, for purchased call *options* and written put *options*; and
    - (b) a short position in that *future*, for purchased put *options* and written call *options*.

#### Deriving the net position in each equity

- 22 G The net position is the difference between the value of the bank's long positions (including notional positions) and the value of its short positions (including notional positions) in the same *equity*.
- 23 G When deriving the net position in each *equity*, a bank should not net long and short positions unless:
- (1) they are positions in the same *equity*. Two *equities* are the same if:
    - (a) they enjoy the same rights in all respects; and
    - (b) are fungible with each other; or
  - (2) they are positions in different tranches of the same *equity* and the tranches:
    - (a) enjoy the same rights in all respects; and
    - (b) become fungible for each other within 180 days, and thereafter the *equity* of one tranche can be delivered in settlement of the other tranche.
- 24 G A bank should not net a reduced net *underwriting* position with any other *equity* position.
- 25 G 24G only relates to reduced net *underwriting* positions.

Simplified and standard equity methods

- 26 G 1G(3) states that the net position in each *equity* should be included in either the simplified equity method or the standard equity method, though indicates that this choice should be subject to the restrictions in 27G. A bank does not have to use the same method for all *equities*.
- 27 G A bank should use the simplified equity method for reduced net *underwriting* positions.
- 28 G A bank may use either method for a net *underwriting* position; 27G only relates to reduced net *underwriting* positions.

SIMPLIFIED EQUITY METHOD

- 29 G Under the simplified method, the *PRR* for each *equity*, *equity* index or *equity* basket equals the market value of the net position (ignoring the sign) multiplied by the appropriate *PRA* from table 30G. The result should be converted into the bank's *base currency* at current spot foreign exchange rates.
- 30 G Table: simplified equity method *PRAs* (see 29G)

	<b>PRA</b>
Single <i>equities</i>	16%
<i>Qualifying equity indices</i> (see 38G)	8%
All other <i>equity</i> indices or baskets	16%

STANDARD EQUITY METHOD

- 31 G The standard equity method divides the risk of loss from a bank's *equity* positions into the risk of loss from a general move in that country's *equity* market and the risk of loss from an individual *equity's* price changing relative to that country's *equity* market. These are called general market risk and specific risk respectively.
- 32 G Under the standard equity method, a bank should:
- (1) Group *equity* positions into country portfolios as follows:
    - (a) A position in an individual *equity* belongs to:
      - (i) the country it is listed in;
      - (ii) any of the countries it is listed in, if more than one; or
      - (iii) the country it was issued from, if unlisted.

- (b) A position in *equity* basket or index that is treated under 15G(2), is allocated to one or more country portfolios based on the countries to which the underlying *equities* belong to under (a) above.
- (2) Sum:
  - (a) the *PRRs* for specific risk calculated under 33G; and
  - (b) the *PRRs* for general market risk for each country portfolio as calculated under 40G.

SPECIFIC RISK

- 33 G Under the standard equity method, a bank should calculate a *PRR* for specific risk based on the net position in each *equity*, *equity index* or *equity* index by:
  - (1) multiplying its market value (ignoring the sign) by the appropriate *PRA* from table 34G; and
  - (2) converting it into the bank's *base currency* using current spot foreign exchange rates.
- 34 G Table: *PRAs* for specific risk under the standard approach (see 33G(1))

	<b>PRA</b>
Qualifying <i>equities</i> (see 35G)	4%
Qualifying <i>equity indices</i> (see 38G)	0%
All other <i>equities</i> and <i>equity</i> indices	8%

- 35 G For the purposes of table 34G, a qualifying *equity* is one which:
  - (1) belongs to a country portfolio where:
    - (a) no individual position exceeds 10% of the portfolio's gross value; and
    - (b) the sum of positions (ignoring the sign) which individually represent between 5% and 10% of the portfolio's gross value, does not exceed 50% of the portfolio's gross value; and
  - (2) is a constituent of an index in table 39G.

- 36 G The following example illustrates 35G(1). A country portfolio has a gross value of £100 and is made up of positions in 29 different *equities* (some are long positions, others are short positions). Not all the *equities* are constituents of an index used to create the FT All-World Index (this criteria only becomes relevant once a bank has determined whether the country portfolio meets the test in 35G(1)).

Six positions exceed the 5% threshold. The diagram below shows the composition of the portfolio.

Part (a): the portfolio meets the first part of the test because no individual position is worth more than 10% of the portfolio's value.

Part (b): the portfolio fails the second part of the test because the sum (ignoring the sign) of the six relevant positions is £52; this exceeds 50% of the portfolio's value.

- 37 G A country portfolio can be split into two sub-portfolios if this enables one sub-portfolio to meet the conditions in 35G. Individual positions may be sub-divided between sub-portfolios.

Continuing the example above, one of the largest positions is taken out of the portfolio and put into a new portfolio. The new portfolio fails the two tests, but the amended portfolio meets both tests:

Part (a): no single remaining position exceeds £9.10.

Part (b): the sum of the five relevant positions is £43, this is less than 50% of the new portfolio's value of £91.

- 38 G A *qualifying equity index* is one which:

- (1) is listed in table 39G; or
- (2) is not listed in table 39G, but is constructed such that:
  - (a) it contains at least 20 *equities*;
  - (b) no single *equity* represents more than 20% of the total index; and

(c) no five *equities* combined represent more than 60% of the total index.

39 G Table: *Qualifying equity indices* (see 38G)

<b>Qualifying equity indices</b>	
Australia	All Ordinaries
Austria	Austrian Traded Index
Belgium	BEL 20
Canada	TSE 35, TSE 100, TSE 300
France	CAC 40, SBF 250
Germany	DAX
European	Dow Jones Stoxx 50 Index, FTSE Eurotop 300, MSCI Euro Index
Hong Kong	Hang Seng 33
Italy	MIB 30
Japan	Nikkei 225, Nikkei 300, TOPIX
Korea	Kospi
Netherlands	AEX
Singapore	Straits Times Index
Spain	IBEX 35
Sweden	OMX
Switzerland	SMI
UK	FTSE 100, FTSE Mid 250, FTSE All Share
US	S&P 500, Dow Jones Industrial Average, NASDAQ Composite, Russell 2000

#### GENERAL MARKET RISK

40 G The *PRR* for general market risk equals the net value (ignoring the sign) of the country portfolio multiplied by 8%. It should be converted into the bank's *base currency* using current spot foreign exchange rates.

#### Basic interest rate *PRR* calculation for equity instruments

41 G A basic *PRR* calculation is included in this chapter for those banks that do not wish to use the calculation in chapter TI. However, it tends to result in higher charges than the methods in chapter TI, largely because the interest rate *PRR* is calculated on each notional equity position separately and then summed without offsetting long and short positions.

42 G Where a bank does not include a *forward*, *future*, or *option* (except cliques) or *swap* on an *equity*, basket of *equities* or *equity* index in its chapter TI *PRR* calculation, it should calculate an interest rate *PRR* as follows:

- (1) multiplying the market value of the notional *equity* position underlying the instrument by the appropriate percentage from table 44G; and

(2) summing the results from (1), ignoring the sign.

- 43 G Cliquets on *equities*, baskets of *equities* or *equity* indices do not attract an interest rate *PRR*. 42G excludes them from the basic interest rate *PRR* calculation and table 4G excludes them from the scope of the interest rate *PRR* calculation in chapter TI.
- 44 G Table: Percentages used in the basic interest rate *PRR* calculation for *equity* instruments (see 42G(1))

Time to expiration	Percentage
$0 \leq 3$ months	0.20
$> 3 \leq 6$ months	0.40
$> 6 \leq 12$ months	0.70
$> 1 \leq 2$ years	1.25
$> 2 \leq 3$ years	1.75
$> 3 \leq 4$ years	2.25
$> 4 \leq 5$ years	2.75
$> 5 \leq 7$ years	3.25
$> 7 \leq 10$ years	3.75
$> 10 \leq 15$ years	4.50
$> 15 \leq 20$ years	5.25
$> 20$ years	6.00

Definitions used in chapter TE

- 45 G This chapter uses the following definitions:

Defined term	Definition
<i>Base currency</i>	The currency in which the bank's accounts are prepared.
<i>CFDs</i>	Means contract for differences.
<i>Convertible</i>	A <i>security</i> which gives the investor the right to convert the <i>security</i> into <i>equity</i> at an agreed price or on an agreed basis.
<i>Derivative</i>	<i>Options</i> , <i>futures</i> and contracts for differences.
<i>Equity</i>	See <i>share</i> .
<i>Forward</i>	A contract to buy or sell where the date of settlement has been agreed as a particular date in the future.
<i>Future</i>	As specified in article 78 of the Regulated Activities Order (Futures).
<i>Option</i>	A contract which confers the right to buy a <i>security</i> , contractually based investment or <i>commodity</i> at a given price on or before a given date. (NB: the definition of an option used for the purposes of this chapter deliberately differs from that in the main Handbook Glossary).
<i>PRA</i>	Percentage risk addition.

<i>PRR</i>	Position risk requirement.
<i>Qualifying equity index</i>	As defined in 38G.
<i>Repurchase agreement</i>	See section 3.2, and 2(b)a) of chapter TC.
<i>Reverse repurchase agreement</i>	See section 3.2, and 2(b)a) of chapter TC.
<i>Share</i>	As specified in article 76 of the Regulated Activities Order (Shares etc).
<i>Swap</i>	A transaction in which two counterparties agree to exchange streams of payments over time according to a predetermined basis.
<i>Synthetic future</i>	A combination of a long (short) call <i>option</i> and a short (long) put <i>option</i> which are based on the same underlying and have the same notional amount, strike and maturity.
<i>Trading book</i>	As defined in section 3.2.1 of chapter CB.
<i>Underwriting</i>	The arrangement under which a party agrees to buy, before issue, a specified quantity of securities in an issue of securities on a given date and at a given price, if no other has purchased or acquired them.
<i>Warrant</i>	The investment specified in article 79 of the Regulated Activities Order (Instruments giving entitlement to investments).

## Annex E

### Chapter TU (Securities underwriting)

In this Annex, text is being deleted and replaced with new text that is not underlined.

Delete existing text in Chapter TU in its entirety and replace with the following text:

TU

Securities Underwriting

General

- 1 G A UK bank to which CAD applies should apply this chapter. This chapter sets out the method for calculating a net *underwriting* position or reduced net *underwriting* position, which is then included in the *PRR* calculation in other chapters, or chapter BC if the bank does not have a *trading book*.
- 2 G A bank which *underwrites* or sub-*underwrites* an issue of *securities* should:
  - (1) identify commitments to *underwrite* or sub-*underwrite* which give rise to an *underwriting* position (see 8G);
  - (2) identify the time of initial commitment (see 14G);
  - (3) calculate the net *underwriting* position (set out in 18G) or reduced net *underwriting* position (in the circumstances set out in 24G);
- 3 G A bank should include the net *underwriting* position or reduced net *underwriting* position in:
  - (1) 3G(1) of chapter TI, where debt *securities* are being underwritten;
  - (2) 2G(1) of chapter TE, where *equities* are being underwritten;
  - (3) 22G of chapter TO, where *warrants* are being underwritten; or
  - (4) chapter BC, where the bank does not have a *trading book*; and
  - (5) 2G of chapter FX, where the *equities*, debt *securities* or *warrants* being underwritten are denominated in a *foreign currency*.
- 4 G A bank should comply with 2G from initial commitment (as determined under 8G) until the end of the fifth *business day* after *working day 0* (as determined under 23G).

- 5 G Sub-*underwriting* is a commitment given by one bank to someone other than the issuer or seller of the *securities*, to *underwrite* all or part of an issue of *securities*.
- 6 G The net *underwriting* position calculated in 18G will also be used in calculating the net *underwriting exposure* set out in 32G.
- 7 G The net *underwriting* position or reduced net *underwriting* position arising from *underwriting* or sub-*underwriting* a rights or *warrants* issue should be calculated using the current market price of the underlying *security* for the purposes of the *equity PRR* or *option PRR*. However, the *PRR* will be limited to the value of the net *underwriting* position calculated using the initial issue price of the rights or *warrants*.

#### Commitments to underwrite securities

- 8 G For the purpose of 2G(1), a bank has a commitment to *underwrite* or sub-*underwrite* an issue of *securities* where:
- (1) it gives a commitment to an issuer of *securities* to *underwrite* an issue of *securities*;
  - (2) it gives a commitment to a person, other than the issuer of *securities*, to sub-*underwrite* an issue of *securities*; or
  - (3) it is a member of a syndicate or group that gives a commitment to an issuer to *underwrite* an issue of *securities* or a commitment to a person other than the issuer of *securities*, to sub-*underwrite* an issue of *securities*.
- 9 G Block trades including bought deals, private placements, revolving *underwriting* facilities and *underwriting* syndicated loans are not within the scope of this chapter.
- 10 G For the purpose of this chapter, *securities* include debt and *equity* instruments and instruments which are convertible into *securities* but excludes loans.
- 11 G A bank that buys and sells *securities* before issue is dealing in the grey market. This chapter does not apply to a bank dealing in the grey market unless the bank:
- (1) has an *underwriting* commitment to the issuer in respect of those *securities*; or
  - (2) has a sub-*underwriting* commitment in respect of those *securities* and is using the grey market solely for the purpose of reducing that sub-*underwriting* commitment.
- 12 G In this chapter the grey market is the market in which dealers "buy" and "sell" *securities* ahead of issue. In reality the dealers are buying and selling promises to deliver the *securities* when issued.

- 13 G Where a single bank is involved in both *underwriting* or sub-*underwriting* an issue of *securities* as well as dealing in that issue for proprietary trading purposes this chapter will not apply to grey market transactions undertaken by the proprietary trading part of the bank.

#### Time of initial commitment

- 14 G Subject to 15G, the time of initial commitment is the earlier of:
- (1) the time the bank signs an agreement with the issuer of *securities* to *underwrite* those *securities*; or
  - (2) the time the price and allocation of the issue are set.
- 15 G If a bank has an irrevocable and unfettered right to withdraw from an *underwriting* commitment, exercisable within a certain period, the commitment commences when that right expires.
- 16 G Subject to the existence of a right described in 15G an *underwriting* commitment commences even if it is subject to formal, legal or other conditions that would normally be expected to be satisfied.
- 17 G A force majeure or material adverse change clause would not be a right of the sort referred to in 15G.

#### Calculating the net underwriting position

- 18 G A bank should calculate a net *underwriting* position by adjusting the gross amount it has committed to *underwrite* for:
- (1) any sales or sub-*underwriting* commitments received that have been confirmed in writing at the time of initial commitment;
  - (2) any *underwriting* or sub-*underwriting* commitments obtained from others since the time of initial commitment;
  - (3) any purchases or sales of the *securities* since the time of initial commitment, (other than those referred to in 13G); and
  - (4) any allocation of *securities* granted or received, arising from the commitment to *underwrite* the *securities*, since the time of initial commitment.
- 19 G A bank signing an *underwriting* agreement with an issuer of *securities* where the exact issue price or allocation of *securities* has not been fixed should calculate the gross amount, for the purposes of 18G, as the amount it has formally committed to under that agreement until the time the exact issue price and/or allocation is set.

- 20 G Allocations may arise, after date of initial commitment, from the agreement to *underwrite*. For example obligations or rights to or from the issuer, the *underwriting* group or syndicate.

#### GREY MARKET TRANSACTIONS

- 21 G Subject to 11G and 13G a bank can include grey market transactions when calculating the net *underwriting* position.

#### OVER-ALLOTMENT OPTIONS

- 22 G When calculating the net *underwriting* position, a bank should exclude an over-allotment option granted to it by the issuer, except to the extent it reduces:
- (1) from *working day 0* an over-allotment made by the bank; or
  - (2) from *working day 0* an over-allotment made by the bank on behalf of another member of the underwriting syndicate who has been granted the over-allotment option.
- 23 G For the purposes of this chapter *working day 0* is the *business day* on which the bank becomes unconditionally committed to accepting a known quantity of *securities* at a specified price, as follows:
- (1) For debt issues and *securities* which are issued in a similar manner, *working day 0* is the later of the date on which the *securities* are allotted, and the date on which payment for them is due.
  - (2) For *equity* issues and *securities* which are issued in a similar manner, *working day 0* is the later of the date on which the offer becomes closed for subscriptions and the date on which the allocations are made public.
  - (3) For rights issues, *working day 0* is first day after the date on which the offer becomes closed to acceptances for subscription.

#### Calculating the reduced net underwriting position

- 24 G A bank may apply the relevant reduction factors in table 27G to its net *underwriting* position if the *securities* it is *underwriting* or sub-*underwriting* are new *securities*.
- 25 G For the purposes of this chapter, a bank may treat as new *securities*:
- (1) *securities* that have not previously been offered for sale or subscription by an issuer; or
  - (2) *securities* that have not previously been traded on a *recognised investment exchange*, *designated investment exchange* or a *regulated market*.

26 G To calculate the reduced net *underwriting* position a bank should apply table 27G to the net *underwriting* position (calculated under 18G) as follows:

- (1) In respect of debt *securities*, a bank should calculate two reduced net *underwriting* positions; one for inclusion in the bank's specific risk calculation (see 43G of chapter TI), the other for inclusion in its general market risk calculation (see 48G of chapter TI).
- (2) In respect of *equities*, a bank should calculate only one reduced net *underwriting* position and then include it in the simplified equity method (see 27G of chapter TE).

27 G Table: Net *underwriting* position reduction factors (see 26G)

Underwriting timeline	Debt		Equity
	General market risk	Specific risk	
Time of initial commitment until <i>working day 0</i>	0%	100%	90%
Working day 1	0%	90%	90%
Working day 2	0%	75%	75%
Working day 3	0%	75%	75%
Working day 4	0%	50%	50%
Working day 5	0%	25%	25%
Working day 6 and onwards	0%	0%	0%

- 28 G Figure: An example of the reduced net *underwriting* position calculation. The example is based on the bank starting with a commitment to underwrite £100 million of a new *equity* issue.

Time	Net underwriting position (see 18G)	Percentage reduction (see 27G)	Reduced net underwriting position <sup>1</sup>
At initial commitment 9.00am Monday	£100m gross amount is reduced by £20m due to sales/ sub- <i>underwriting</i> commitments confirmed in writing at the time of initial commitment (see 12R(1)). = £80m	90%	£8m
Post initial commitment 9.02am Monday	Remaining £80m is reduced by £40m due to further sales, sub- <i>underwriting</i> commitments obtained and allocations granted (see 12R(2) – (4)). = £40m	90%	£4m
At the end of working day 1	Remaining £40m is reduced to £20m due to further sales. = £20m	90%	£2m
End of working day 3	Remaining £20m is reduced to £5m due to further sales. = £5m	75%	£1.25 m
End of working day 4	Remaining £5m is reduced to £2m due to further sales. = £2m	50%	£1m
End of working day 5	Remaining £2m is reduced to £1m due to further sales. = £1m	25%	£0.75 m
Start of working day 6	£1m remaining = £1m	0%	£1m

**Note:** <sup>1</sup> Banks are reminded that in the case of an *equity*, the reduced net *underwriting* position should be treated under the simplified equity method (see 27G of chapter TE)

## Large exposure risk from underwriting securities

### CALCULATING THE NET UNDERWRITING EXPOSURE

- 29 G The net *underwriting exposure* should be included as an *exposure* to the issuer for the purposes of determining the bank's total *exposure* to that issuer when applying chapters LE and TL.
- 30 G A bank should include counterparty exposures to any sub-underwriters for the purposes of determining the bank's total *exposure* to that counterparty when applying chapter LE.
- 31 G A bank, before entering into a new *underwriting* commitment should be able to recalculate its large *exposure* to the level of detail necessary for it to follow the guidance in chapters LE and TL.

- 32 G A bank should calculate the net *underwriting exposure* by applying the relevant reduction factors in table 33G to its net *underwriting* position calculated under 18G.
- 33 G Table: Calculation of net *underwriting exposure* (see 29G)

Time	Reduction factor to be applied to net underwriting position
Initial commitment to <i>working day 0</i>	100%
<i>Working day 0</i>	100%
Working day 1	90%
Working day 2	75%
Working day 3	75%
Working day 4	50%
Working day 5	25%
Working day 6 onwards	0%

- 34 G There is no large exposure limit (chapter LE) or incremental capital (chapter TL) for net *underwriting exposures* between initial commitment and *working day 0*, except where specified by a requirement on a bank's *Part IV permission*.

#### MONITORING AND REPORTING LARGE EXPOSURES

- 35 G For the purposes of large exposures monitoring only, a bank should report its net *underwriting exposure* from the date of initial commitment rather than *working day 0*.

#### RISK MANAGEMENT

- 36 G A bank should take reasonable steps to establish and maintain such systems and controls to monitor and manage its *underwriting* and sub-*underwriting* business as are appropriate to the nature, scale and complexity of its *underwriting* and sub-*underwriting* business.
- 37 G The general requirements for systems and controls are set out in SYSC. 36G is specific to a bank's *underwriting* and sub-*underwriting* business.
- 38 G A bank should take reasonable steps to:

- (1) allocate responsibility for the management of its *underwriting* and sub-*underwriting* business;
- (2) allocate adequate resources to monitor and control its *underwriting* and sub-*underwriting* business;
- (3) satisfy itself that its systems to monitor *exposure* to counterparties will calculate, revise and update its *exposure* to each counterparty arising from its *underwriting* or sub-*underwriting* business;
- (4) satisfy itself of the suitability of each person who performs functions for it in connection with the bank's *underwriting* business having regard for the person's skill and experience; and
- (5) satisfy itself that its procedures and controls to monitor and manage its *underwriting* business address, on an on-going basis, the capacity of sub-*underwriters* to meet sub-*underwriting* commitments.

Definitions used in chapter TU

39 G This chapter uses the following definitions:

Defined term	Definition
<i>Base currency</i>	The currency in which the bank's accounts are prepared.
<i>Business day</i>	Any day except Saturday, Sunday, bank holidays and public holidays (not being bank holidays).
<i>Designated investment exchange</i>	See Handbook Glossary.
<i>Equity</i>	See <i>share</i> .
<i>Foreign currency</i>	A currency other than the bank's <i>base currency</i> .
<i>Option</i>	A contract which confers the right to buy a <i>security</i> , contractually based investment or <i>commodity</i> at a given price on or before a given date. (NB: the definition of an option used for the purposes of this chapter deliberately differs from that in the main Handbook Glossary).
<i>PRR</i>	Position risk requirement.
<i>Regulated investment exchange</i>	See Handbook Glossary.
<i>Regulated market</i>	See Handbook Glossary.
<i>Security</i>	See 10G.
<i>Share</i>	As specified in article 76 of the Regulated Activities Order (Shares etc).
<i>Trading book</i>	As defined in section 3.2.1 of chapter CB.
<i>Underwriting</i>	The arrangement under which a party agrees to buy, before issue, a specified quantity of securities in an issue of securities on a given date

	and at a given price, if no other has purchased or acquired them.
<i>Warrant</i>	The investment specified in article 79 of the Regulated Activities Order (instruments giving entitlement to investments).
<i>Working day 0</i>	As defined in 23G.

## Annex F

### Chapter TO (Options position risk requirement)

In this Annex, text is being inserted that is not underlined.

Insert the following text between Chapters TU and TS in volume 1 as a new Chapter TO:

TO

Option PRR

General

- 1 G A UK bank to which CAD applies should apply this chapter and calculate its *option PRR* by:
  - (1) identifying which *option* positions must be included within the scope of the *option PRR* calculation under 3G to 5G;
  - (2) calculating the derived position in each *option* in accordance with 9G to 15G;
  - (3) calculating the *PRR* for each derived position in accordance with 16G to 32G;
  - (4) summing all of the *PRRs* calculated in accordance with (3).
- 2 G Banks are reminded that table 4G of chapter TI and table 3G of chapter TE also state that an interest rate *PRR* should be calculated for *options* on *equities*, baskets of *equities* or *equity* indices. The interaction between this chapter and others is illustrated in 33G.

Scope of the option PRR calculation

- 3 G Except as permitted under 5G, a bank's *option PRR* calculation must include:
  - (1) each *trading book* position in an *option* on an *equity*, interest rate or debt;
  - (2) each *trading book* position in a *warrant* on an *equity* or debt security; and
  - (3) each *trading book* and *non-trading book* position in an *option* on a *commodity*, currency or gold.
- 4 G 3G(2) includes net *underwriting* positions or reduced net *underwriting* positions in *warrants*.
- 5 G Table: Appropriate *PRR* calculation for *options* and *warrants* (see 3G)

<i>Option type (see 18G) or Warrant</i>	<i>PRR calculation</i>
American <i>option</i> , European <i>option</i> , Bermudan <i>option</i> , Asian <i>option</i> or <i>warrant</i> for which the <i>in the money</i> percentage (see 6G) is equal to or greater than the appropriate <i>PRA</i> (see 7G and 8G)	Calculate either an <i>option PRR</i> , or the most appropriate to the underlying position of: (a) an <i>equity PRR</i> (b) an interest rate <i>PRR</i> (c) a <i>commodity PRR</i> (d) a foreign exchange <i>PRR</i>
American <i>option</i> , European <i>option</i> , Bermudan <i>option</i> , Asian <i>option</i> or <i>warrant</i> : (a) for which the <i>in the money</i> percentage (see 6G) is less than the appropriate <i>PRA</i> (see 7G and 8G); or (b) that is <i>at the money</i> ; or (c) that is <i>out of the money</i> .	Calculate an <i>option PRR</i>
All other types of <i>option</i> included in 18G (regardless of whether <i>in the money</i> , <i>at the money</i> or <i>out of the money</i> )	

#### THE IN THE MONEY PERCENTAGE

- 6 G The *in the money* percentage is calculated as follows:

For a call *option*:

$$\frac{\text{Current market price of the underlying} - \text{Strike price of the option}}{\text{Strike price of the option}} * 100$$

For a put *option*:

$$\frac{\text{Strike price of the option} - \text{Current market price of the underlying}}{\text{Strike price of the option}} * 100$$

#### THE APPROPRIATE PRA

- 7 G The appropriate *PRA* for a position is that listed in table 8G against the relevant underlying position.
- 8 G Table: Appropriate *PRA* (see 7G)

<b>Underlying</b>	<b>Appropriate PRA</b>
<i>Equity</i>	The <i>PRA</i> applicable to the underlying <i>equity</i> or <i>equity</i> index in table 30G of chapter TE (simplified equity method)
Interest rate	The sum of the specific risk <i>PRA</i> (table 44G of chapter TI) and the general market risk <i>PRA</i> (table 53G of chapter TI) applicable to the underlying position
Debt <i>securities</i>	The sum of the specific risk <i>PRA</i> (table 44G of chapter TI) and the general market risk <i>PRA</i> (table 53G of chapter TI) applicable to the underlying position
<i>Commodity</i>	15%
Gold	8%
Currency	8%

#### Calculating derived positions

- 9 G A bank must calculate the derived position specified in the table in 13G for each position included in its *option PRR* calculation.

#### NETTING POSITIONS

- 10 G A bank may calculate a derived position for its net position in an *option* or a *warrant*, if the relevant *options* or *warrants* are identical or may be treated as identical under 11G or 12G.
- 11 G A bank may treat *options* or *warrants* as identical if they have the same strike price, maturity (except for an interest rate cap or floor – see 12G) and underlying.
- 12 G A firm may treat as identical a purchased interest rate cap (or floor) and a written interest rate cap (or floor) only if they mature within 30 days of each other and all other terms are identical (a cap may not be netted against a floor).

#### Derived positions

- 13 G Table: Derived positions (see 9G)

	<b><i>Option (or warrant)</i></b>	<b><i>Underlying position</i></b>
<i>Equity</i>	<i>Option (warrant)</i> on a single <i>equity</i> or <i>option</i> on a <i>future/forward</i> on a single <i>equity</i>	A notional position in the actual <i>equity</i> underlying the contract valued at the current market price of the <i>equity</i> .
	<i>Option (warrant)</i> on a basket of <i>equities</i> or <i>option</i> on a <i>future/forward</i> on a basket of <i>equities</i>	A notional position in the actual <i>equities</i> underlying the contract valued at the current market price of the <i>equities</i> .

	<i>Option (warrant) on an equity index or option on a future/forward on an equity index</i>	A notional position in the index underlying the contract valued at the current market price of the index.
Interest rate	<i>Option on an interest rate or an interest rate future/FRA</i>	A zero coupon <i>zero-specific-risk security</i> in the currency concerned with a maturity equal to the sum of the time to expiry of the contract and the length of the period on which the settlement amount of the contract is calculated valued at the notional amount of the contract.
	<i>Option on an interest rate swap</i>	A zero coupon <i>zero-specific-risk security</i> in the currency concerned with a maturity equal to the length of the <i>swap</i> valued at the notional principal amount.
	Interest rate <i>cap</i> or <i>floor</i>	A zero coupon <i>zero-specific-risk security</i> in the currency concerned with a maturity equal to the remaining period of the <i>cap</i> or <i>floor</i> valued at the notional amount of the contract.
Debt securities	<i>Option (warrant) on a debt security or option on a future/forward on a debt security</i>	The underlying debt <i>security</i> with a maturity equal to the time to expiry of the <i>option</i> valued as the nominal amount underlying the contract at the current market price of the debt <i>security</i> .
Commodity	<i>Option on a commodity or option on a future/forward on a commodity</i>	An amount equal to the tonnage, barrels or kilos underlying the <i>option</i> with a maturity equal to the expiry date of the spot, <i>forward</i> or <i>futures</i> contract underlying the <i>option</i> .
Gold	<i>Option on gold or option on a future/forward on gold</i>	An amount equal to the troy ounces underlying the <i>option</i> with a maturity equal to the expiry date of the contract underlying the <i>option</i> .
Currency	Currency <i>option</i>	The amount of the underlying currency that the bank will receive if the <i>option</i> is exercised converted at the spot rate into the currency that the bank will sell if the <i>option</i> is exercised.

Combinations of options which can be treated as one option

- 14 G A bank may treat (for the purpose of calculating option *PRR* under this chapter) an *option* strategy in table 15G as a single position in a notional *option* specified against that strategy in table 15G, if:
- (1) each element of the strategy is transacted with the same counterparty;
  - (2) the strategy is documented as a single structure;
  - (3) each *option* in the structure has the same maturity and underlying; and
  - (4) the constituent parts of the structure form an indivisible single contract, so that neither counterparty can unwind or default on one part of the structure without doing so for the contract as a whole.

- 15 G Table: *Option* strategies (see 14G)

<b><i>Option strategy</i></b> (and an example)	<b><i>Notional option position</i></b> (and how it should be treated)
<b>Bull Spread</b> (e.g. buy 100 call and sell 101 call)	<b>One purchased <i>option</i></b> (treat under 20G)
<b>Bear Spread</b> (e.g. sell 100 put and buy 101 put)	<b>One written <i>option</i></b> (treat under 21G)
<b>Synthetic Long Call</b> (e.g. long underlying and buy 100 put)	<b>One purchased <i>option</i></b> (treat under 20G or 24G)
<b>Synthetic Short Call</b> (e.g. short underlying and sell 100 put)	<b>One written <i>option</i></b> (treat under 21G or 24G)
<b>Synthetic Long Put</b> (e.g. short underlying and buy 100 call)	<b>One purchased <i>option</i></b> (treat under 20G or 24G)
<b>Synthetic Short Put</b> (e.g. buy underlying and sell 100 call)	<b>One written <i>option</i></b> (treat under 21G or 24G)
<b>Long Straddle</b> (e.g. buy 100 call and buy 100 put)	<b>One purchased <i>option</i></b> (treat under 20G)
<b>Short Straddle</b> (e.g. sell 100 call and sell 100 put)	<b>One written <i>option</i></b> (treat under 21G but with no reduction for the amount the <i>option</i> is <i>out of the money</i> )
<b>Long Strangle</b> (e.g. buy 101 call and buy 99 put)	<b>One purchased <i>option</i></b> (treat under 20G)

<b>Short Strangle</b> (e.g. sell 99 call and sell 101 put)	<b>One written <i>option</i></b> (treat under 21G but with no reduction for the amount the <i>option</i> is <i>out of the money</i> )
<b>Long Butterfly</b> (e.g. buy one 100 call, sell two 101 calls, and buy one 102 call)	<b>One purchased <i>option</i></b> (treat under 20G)
<b>Short Butterfly</b> (e.g. sell one 100 put, buy two 101 puts, and sell one 102 put)	<b>One written <i>option</i></b> (treat under 21G but with no reduction for the amount the <i>option</i> is <i>out of the money</i> )

The option PRR for an individual position

- 16 G A bank must calculate the *PRR* for each individual derived *option* position using the method specified in table 18G, or, if more than one method is permitted, using one of those methods.
- 17 G The resulting *PRRs* must be converted to the bank's *base currency* using spot foreign exchange rates.
- 18 G Table: *Option PRR* methods applied to different types of *option* (see 16G)

<b>Option</b>	<b>Description</b>	<b>Method</b>
<i>American option</i>	An <i>option</i> that may be exercised at any time over an extended period up to its expiry date.	Standard method or hedging method if appropriate
<i>European option</i>	An <i>option</i> that can only be exercised at expiry.	
<i>Bermudan option</i>	A cross between an <i>American option</i> and <i>European option</i> . The <i>Bermudan option</i> can only be exercised at specific dates during its life.	
<i>Asian option</i>	The buyer has the right to exercise at the average rate or price of the underlying over the period (or part of the period) of the <i>option</i> . One variant is where the payout is based on the average of the underlying against a fixed strike price; another variant is where the payout gives at expiry the price of the underlying against the average price over the <i>option</i> period.	

Barrier <i>option</i>	An <i>option</i> which is either cancelled or activated if the price of the underlying reaches a pre-set level regardless of the price at which the underlying may be trading at the expiry of the <i>option</i> . The knock-out type is cancelled if the underlying price or rate trades through the trigger; while the knock-in becomes activated if the price moves through the trigger.	
Corridor <i>option</i>	Provides the holder with a pay-out for each day that the underlying stays within a defined range chosen by the investor.	
Ladder <i>option</i>	Provides the holder with guaranteed pay-outs if the underlying trades through a pre-agreed price(s) or rate(s) at a certain point(s) in time, regardless of future performance.	
Lock-in <i>option</i>	An <i>option</i> where the pay-out to the holder is locked in at the maximum (or minimum) value of the underlying that occurred during the life of the <i>option</i> .	
Look-back <i>option</i>	An European style <i>option</i> where the strike price is fixed in retrospect, that is at the most favourable price (i.e. the lowest (highest) price of the underlying in the case of a call (put)) during the life of the <i>option</i> .	
Forward starting <i>option</i>	An <i>option</i> that starts at a future date.	
Compound <i>option</i>	An <i>option</i> where the underlying is itself an <i>option</i> (i.e. an <i>option</i> on an <i>option</i> ).	
Interest rate cap	An interest rate option or series of options under which a counterparty contracts to pay any interest costs arising as a result of an increase in rates above an agreed rate: the effect being to provide protection to the holder against a rise above that agreed interest rate.	Standard but with no reduction for the amount the <i>option</i> is out of the money
Interest rate floor	An interest rate option or series of options under which a counterparty contracts to pay any lost income arising as a result of a fall in rates below an agreed rate: the effect being to provide protection to the holder against a fall below that agreed interest rate.	

Performance <i>option</i>	An <i>option</i> based on a reference basket comprised of any number of assets, where the pay-out to the holder could be one of the following: the maximum of the worst performing asset, or 0; the maximum of the best performing asset, or 0; the maximum of the spreads between several pairs of the assets, or 0.	Standard or hedging, but use the highest <i>PRA</i> of the individual assets in the basket.
Quanto	Quanto stands for “Quantity Adjusted <i>Option</i> ”. A quanto is an instrument where two currencies are involved. The payoff is defined in terms of a variable that is measured in one of the currencies and the payoff is made the other currency.	Subject to 31G, the standard method
Cliquet <i>option</i>	A cliquet <i>option</i> consists of a series of forward starting <i>options</i> where the strike price for the next exercise date is set equal to a positive constant times the underlying price as of the previous exercise date. They initially act like a vanilla <i>option</i> with a fixed price but as time moves on, the strike is reset and the intrinsic value automatically locked in at pre-set dates. If the underlying price is below the previous level at the reset date no intrinsic value is locked in but the strike price will be reset to the current price attained by the underlying. If the underlying price exceeds the current level at the next reset the intrinsic value will again be locked in.	Standard method for a purchased cliquet or the method specified in 30G for a written cliquet
Digital <i>option</i>	A type of <i>option</i> where the pay-out to the holder is fixed. The most common types: all-or-nothing and one-touch <i>options</i> . All-or-nothing will pay out the fixed amount if the underlying is above (call) or below (put) a set value at expiry. The one-touch will pay the fixed amount if the underlying reaches a fixed point any time before expiry.	The method specified in 29G
Any other <i>option</i> or <i>warrant</i>		The method specified for the type of instrument whose description it most closely resembles.

## Calculating option PRR

19 G In the table 18G:

- (1) "standard method" refers to the method specified in 20G to 22G; and
- (2) "hedging method" refers to the method specified in 23G to 28G.

## The standard method

### PURCHASED OPTIONS AND WARRANTS

- 20 G Under the standard method, the *PRR* for a purchased *option* or *warrant* is the lesser of:
- (1) the market value of the derived position (see 9G) multiplied by the appropriate *PRA* (see 8G); and
  - (2) the market value of the *option* or *warrant*.

### WRITTEN OPTIONS AND WARRANTS

- 21 G Under the standard method, the *PRR* for a written *option* or *warrant* is the market value of the underlying position (see 9G) multiplied by the appropriate *PRA* (see 8G). This result may be reduced by the amount the *option* or *warrant* is *out of the money* (subject to a maximum reduction to zero).

### UNDERWRITING OR SUB-UNDERWRITING AN ISSUE OF WARRANTS

- 22 G Under the standard method, the *PRR* for *underwriting* or *sub-underwriting* an issue of *warrants* is the net *underwriting* position (or reduced net *underwriting* position) multiplied by the current market price of the underlying *securities* multiplied by the appropriate *PRA*, but the result can be limited to the value of the net *underwriting* position (or reduced net *underwriting* position) calculated using the issue price of the *warrant*.

## The hedging method

- 23 G The hedging method involves *option PRR* being calculated on a combination of the *option* and its hedge.
- 24 G Under the hedging method a bank must calculate *PRR* individual positions as follows:
- (1) for an *option* or *warrant* on an *equity*, basket of *equities* or *equity* index and its *equity* hedge(s), to the extent specified or permitted in table 26G, using the calculation in table 27G;

- (2) for an *option* or *warrant* on a *debt security*, basket of *debt securities* or *debt security* index and its *debt security* hedge(s), to the extent specified or permitted in table 26G, using the calculation in table 27G;
- for an *option* on gold and its gold hedge, to the extent specified or permitted in table
- (3) 26G, using the calculation in table 27G; and
- (4) for an *option* on a currency and its currency hedge, to the extent specified or permitted in table 26G, using the calculation in table 28G.

25 G A firm may not use the hedging method for:

- (1) an interest rate *option* and its hedge; or
- (2) a *commodity option* and its hedge.

26 G Table: Appropriate treatment for *equities*, *debt securities* or currencies hedging *options* (see 24G)

Hedge	PRR calculation for the hedge	Limits (if the hedging method is used)	Naked positions
An <i>equity</i> (hedging an <i>option</i> or <i>warrant</i> )	The <i>equity</i> should be treated in either chapter TE ( <i>equity PRR</i> ) or the hedging method (table 27G)	The hedging method should only be used up to the amount of the hedge that matches the notional amount underlying the <i>option</i> or <i>warrant</i>	To the extent that the amount of the hedge (or <i>option</i> ) exceeds the notional amount underlying the <i>option</i> or <i>warrant</i> (or hedge), a bank should apply an <i>equity PRR</i> , interest rate <i>PRR</i> or foreign exchange <i>PRR</i> (or <i>option PRR</i> )
A <i>debt security</i> (hedging an <i>option</i> or <i>warrant</i> )	The <i>debt security</i> should be treated in chapter TI (interest rate <i>PRR</i> ) or the hedging method (table 27G)		
Gold (hedging a gold <i>option</i> )	The gold should be treated in either chapter FX (foreign exchange <i>PRR</i> ) or the hedging method (table 27G)		
A currency or currencies (hedging a currency <i>option</i> )	The currency should be treated in either chapter FX (foreign exchange <i>PRR</i> ) or the hedging method (table 28G)		

- 27 G Table: The hedging method of calculating the *PRR* (*equities, debt securities and gold*) (see 24G(1) to (3))

	<i>Option or warrant position</i>	<i>PRR</i>		
		<i>In the money by more than the PRA</i>	<i>In the money by less than the PRA</i>	<i>Out of the money</i>
Long in <i>security</i>	Long put	Zero	Wp	X
	Short call	Y	Y	Z
Short in <i>security</i>	Long call	Zero	Wc	X
	Short put	Y	Y	Z
Where:				
Wp	[ $(PRA - 100\%) \times$ The underlying position valued at strike price ] + The market value of the underlying position			
Wc	[ $(100\% + PRA) \times$ The underlying position valued at strike price ] - The market value of the underlying position			
X	The market value of the underlying position multiplied by the appropriate <i>PRA</i>			
Y	The market value of the underlying position multiplied by the appropriate <i>PRA</i> . This result may be reduced by the market value of the <i>option</i> or <i>warrant</i> , subject to a maximum reduction to zero.			
Z	The standard method should be used.			

- 28 G Table: The hedging method of calculating the *PRR* (*currencies*) (see 24G(4))

<i>Option position</i>	<i>PRR</i>		
	<i>In the money by more than 8%</i>	<i>In the money by less than 8%</i>	<i>Out of the money</i>
Long calls & long puts	Zero	W <sub>L</sub>	X
Short calls & short puts	Zero	Y	X
Where:			
W <sub>L</sub>	[ $1.08 \times$ The amount of the underlying currency that the bank will receive if the <i>option</i> is exercised, converted at the strike price into the currency that the bank will sell if the <i>option</i> is exercised ] - The market value of the underlying position		
X	The market value of the underlying position multiplied by 8%.		
Y	The market value of the underlying position multiplied by 8%. This result may be reduced by the market value of the <i>option</i> , subject to a maximum reduction to zero.		

## Specific methods and treatments

### DIGITAL OPTIONS

- 29 G The *PRR* for a digital *option* is the maximum loss of the *option*.

### WRITTEN CLIQUET OPTIONS

- 30 G The *PRR* for a written cliquet *option* is the market value of the derived position (see 8G) multiplied by the appropriate *PRA* (see 8G) multiplied by F+1 (see below). This result may be reduced by the amount the *option* is *out of the money* (subject to a maximum reduction to zero).

$$\text{i.e. } [PRA * \text{underlying} * (F + 1)] - OTM$$

$$\text{where } F = \min \left[ FR, \max \left( \frac{FR}{2}, Y \right) \right]$$

FR: Number of forward re-sets

Y: Years to maturity

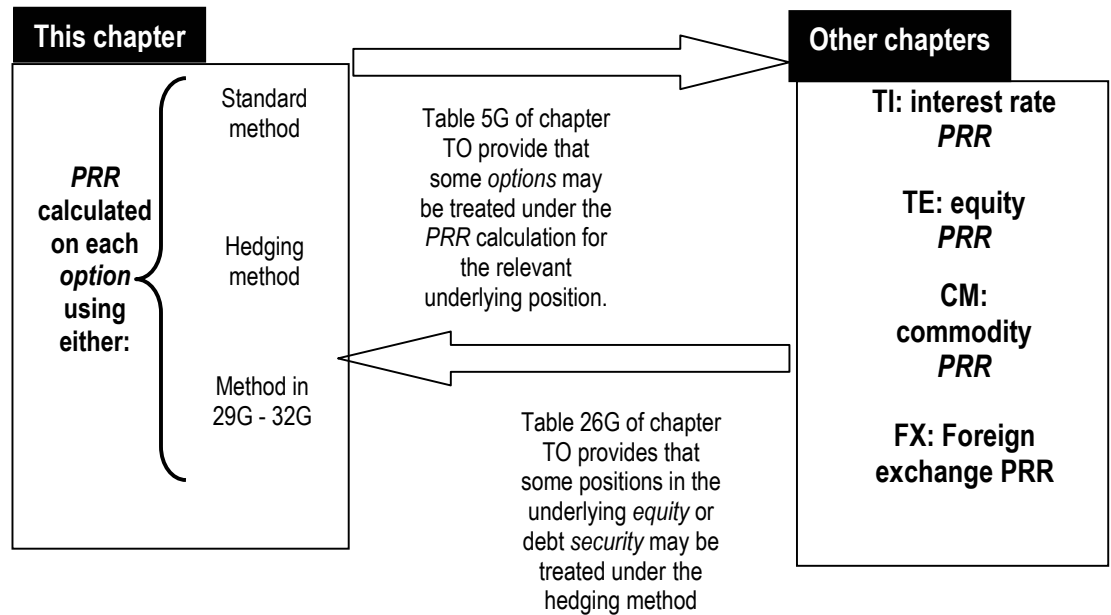

OTM: *out of the money* amount

### QUANTOS

- 31 G If the pay-out to the holder of a quanto *option* is fixed at the inception of the transaction a bank must add 8% to the *PRA* when applying the standard method.
- 32 G The additional *PRA* is to account for the forward foreign currency exchange risk.

Interaction with other chapters

33 G Figure: Diagram illustrating the relationship between this chapter and other chapters.

Definitions used in chapter TO

34 G This chapter uses the following definitions:

<i>At the money</i>	Where the strike price of the <i>option</i> or <i>warrant</i> is the same as the current market value of the underlying instrument.
<i>Base currency</i>	The currency in which the bank's accounts are prepared.
<i>Cap</i>	Means an agreement in respect of a borrowing under which a counterparty contracts to pay any interest costs arising as a result of an increase in rates above an agreed rate: the effect being to provide protection to the holder against a rise above that agreed rate.
<i>Commodity</i>	Any physical or energy product (except gold) which is, or can be traded on a secondary market. (NB the definition of commodity used in chapter TO deliberately differs from that in the main Handbook Glossary).
<i>Equity</i>	See <i>share</i> .
<i>Floor</i>	Means an agreement in respect to a deposit under which a counterparty contracts to pay any lost income arising as a result of a fall in rates below an agreed rate: the effect being to provide protection to the holder against a fall below that agreed interest rate.
<i>Foreign currency</i>	A currency other than the bank's <i>base currency</i> .
<i>Forward</i>	A contract to buy or sell where the date of settlement has been

	agreed as a particular date in the future.
<i>Forward rate agreement</i>	An agreement in which two parties agree on the payment by one party to another of an amount of interest based on an agreed interest rate for a specified period from a specified settlement date applied to an agreed principal amount; no commitment is made by either party to lend or borrow the principal amount; their exposure is only the interest difference between the agreed and actual rates at settlement.
<i>FRA</i>	<i>Forward rate agreement.</i>
<i>Future</i>	As specified in article 78 of the Regulated Activities Order (Futures).
<i>In the money</i>	Where the strike of a call <i>option</i> or <i>warrant</i> is less than the current market value of the underlying instrument, or vice versa for put <i>options</i> .
<i>Option</i>	A contract which confers the right to buy or sell a <i>security</i> , contractually based investment, currency, gold or <i>commodity</i> at a given price on or before a given date. (NB: the definition of an option used for the purposes of this chapter deliberately differs from that in the main Handbook Glossary).
<i>Out of the money</i>	Where the strike price a call <i>option</i> or <i>warrant</i> is more than the current market value of the underlying instrument, or vice versa for a put <i>option</i> .
<i>PRA</i>	Percentage risk addition.
<i>PRR</i>	Position risk requirement.
<i>Security</i>	As defined in article 3(1) of the Regulated Activities Order.
<i>Share</i>	As specified in article 76 of the Regulated Activities Order (Shares etc).
<i>Swap</i>	A transaction in which two counterparties agree to exchange streams of payments over time according to a predetermined basis.
<i>Trading book</i>	As defined in section 3.2.1 of chapter CB.
<i>Underwriting</i>	The arrangement under which a party agrees to buy, before issue, a specified quantity of securities in an issue of securities on a given date and at a given price, if no other has purchased or acquired them.
<i>Warrant</i>	The investment specified in article 79 of the Regulated Activities Order (instruments giving entitlement to investments).
<i>Zero-specific-risk security</i>	A hypothetical debt <i>security</i> used to represent the general interest rate risk arising from certain <i>derivative</i> and <i>forward</i> transactions.

## Annex G

### Chapter TS (CAD1 models)

In this Annex, text is being deleted and replaced with new text that is not underlined.

Delete existing text in Chapter TS in its entirety and replace with the following text:

TS

Use of a CAD1 Model

Introduction

- 1 G A bank should, under Section 3.4 of chapter TO, calculate *PRR* using the guidance in chapters TI, TE, CM, FX and TO. However, at the bank's request, the FSA may give individual *guidance*, and thereby allow the bank to calculate all or part of its *PRR* using a Capital Adequacy Directive "CAD1" (for options risk aggregation and/or interest rate pre-processing) or "VaR" (value at risk) model instead. Chapter TV deals with the VaR model recognition process.
- 2 G The purpose of this chapter is to provide guidance on the FSA's policy for giving individual *guidance* on the use of CAD1 models. The policy recognises that CAD1 models may vary across banks but, as a minimum, the FSA will need to be satisfied about:
  - (1) the quality of the internal controls and risk management surrounding the model model (see 17G to 21G for further details); and
  - (2) the quality of the model standards and that the CAD1 model captures and produces an accurate measure of the risks inherent in the portfolio covered by the CAD1 model (see 22G to 51G for further details).
- 3 G It also explains how the output from the model is fed into the CO: Section 5 *PRR* calculation.
- 4 G If individual *guidance* to use a CAD1 model is given by the FSA, the individual *guidance* will contain certain conditions. In order to adequately address individual circumstances, these conditions may differ from the requirements set out in this chapter. The individual *guidance* will also confirm the scope of the CAD1 model recognition given to a bank.

- 5 G Individual *guidance* permitting the use of models in the calculation of *PRR* will not be given if that would be contrary to the CAD or Basel Accord, and any individual *guidance* which is given will only be given on terms that are compatible with the CAD and Basel Accord. The FSA considers it unlikely that it will deviate from this approach. Accordingly, the only individual *guidance* permitting the use of models that the FSA is likely to give are CAD1 and VaR models.
- 6 G If a bank ceases to meet any of these standards, the FSA’s policy is that the individual *guidance* should cease to have effect.

Scope of CAD1 models

- 7 G The FSA recognises two types of CAD1 model. The table below sets out :

Options risk aggregation models		Interest rate pre-processing models
Brief description and eligible instruments	Analyse and aggregate <i>options</i> risks for <ul style="list-style-type: none"> <li>• interest rate <i>options</i>;</li> <li>• equity <i>options</i>;</li> <li>• foreign exchange <i>options</i>; and</li> <li>• commodity <i>options</i>.</li> </ul>	May be used to calculate duration weighted positions for: <ul style="list-style-type: none"> <li>• <i>swaps</i> (<i>swaps</i> include <i>swaps</i> and their economic equivalent).</li> </ul>
The output and how it is used in the <i>PRR</i> calculation	Depending on the type of model and the conditions contained in any CAD1 model individual <i>guidance</i> given, the outputs from an <i>options</i> risk aggregation model may be used as an input to the <i>PRR</i> calculation set out in IPRU(Bank) chapters CO, TI, TE, CM, FX and TO).	Depending on the type of model and the conditions contained in any CAD1 model individual <i>guidance</i> given, the individual sensitivity figures produced by this type of CAD1 model may be either input into a bank's standard duration method <i>PRR</i> calculation (see 60G of Chapter TI) or be converted into notional positions and input into a bank's maturity method <i>PRR</i> (see 55G of Chapter TI).

The CAD1 model application and review process

- 8 G In order to consider a CAD1 model recognition individual *guidance* request, the FSA may undertake a review to ensure that it is adequate and appropriate for the *PRR* calculation.

- 9 G The model review process may be conducted through a series of visits covering various aspects of the bank's control and IT environment. Before these visits the FSA may ask the bank to provide some information relating to its individual *guidance* request accompanied by some specified background material. The model review visits are organised on a timetable that allows a bank being visited sufficient time to arrange the visit and provide the appropriate pre-visit information.
- 10 G As part of the model review process, the following may be reviewed: organisational structure and personnel; details of the bank's market position in the relevant products; profit and risk information; valuation and reserving policies; operational controls; IT systems; model release and control procedures; risk management and control framework; risk appetite and limit structure and future developments relevant to model recognition.
- 11 G The FSA will normally require meetings with senior management and staff from the front office, financial control, risk management, operations, systems development, information technology and audit areas.
- 12 G A review by a *skilled person* may be used before CAD1 model individual *guidance* is given to supplement the model review process, or after the individual *guidance* has been given to review the CAD1 model.
- 13 G If the FSA gives individual *guidance* to allow the use of a CAD 1 model, the individual *guidance* will set out the conditions on which the individual *guidance* has been given. Conditions may include:
- (1) the details of the calculation of *PRR*;
  - (2) the CAD1 model methodology to be employed;
  - (3) the products covered by the model (e.g. *option* type, maturity, currency);
  - (4) any notification requirements relating to the CAD1 model individual *guidance*; and
  - (5) any other conditions attached to the CAD1 model individual *guidance*.
- 14 G Where a bank operates any part of its CAD1 model outside the United Kingdom, the FSA may take into account the results of any home state supervisor's model review. The FSA may wish to receive information directly from the home state supervisor.

#### Maintenance of model recognition

- 15 G No changes should be made to a CAD1 model unless the change is not material. Material changes to a CAD1 model will require further individual *guidance* to be issued. Materiality is measured from the time that the individual *guidance* or further individual *guidance* has been given. If a bank is considering making material changes to its CAD1 model, then it should notify the FSA at once. A bank must request further individual *guidance* if the products covered by the model change.

- 16 G If the CAD1 model ceases to meet the conditions of the individual *guidance*, the bank should notify the FSA at once. The FSA may then withdraw the individual *guidance*, unless further individual *guidance* is given.

#### Risk management standards

- 17 G A bank with a complex portfolio is expected to demonstrate more sophistication in its modelling and risk management than a bank with a simple portfolio.
- 18 G A bank should be able to demonstrate that it meets the risk management standards set out in this appendix for each legal entity that will have the benefit of the CAD1 model individual *guidance*. This is particularly important for subsidiaries in groups subject to matrix management where the business lines cut across legal entity boundaries.
- 19 G A bank should have a conceptually sound risk management system which is implemented with integrity and should meet the following minimum standards:
- (1) A bank should have a risk control unit that is independent of business trading units and reports directly to senior management. The unit should be responsible for designing and implementing the bank's risk management system. It should produce and analyse daily reports on the risks run by the business and on the appropriate measures to be taken in terms of the trading limits.
  - (2) A bank's senior management should be actively involved in the risk control process, and the daily reports produced by the risk control unit should be reviewed by a level of management with sufficient authority to enforce reductions of positions taken by individual traders as well as in the bank's overall risk exposure.
  - (3) The risk control group should have a sufficient number of staff with appropriate skills in the use of models.
  - (4) A bank should have established procedures for monitoring and ensuring compliance with a documented set of appropriate internal policies and controls concerning the overall operation of the risk measurement and control framework. This should take into account the front, middle and back office functions.
  - (5) A bank should conduct, as part of its internal audit process, a review of the systems and controls surrounding its CAD1 model. This review should include the valuation process, compliance with the CAD1 model scope and the activities of the business trading units and the risk control units. This review should be undertaken by staff independent of the areas being reviewed.
- 20 G In assessing whether the risk management and control framework is implemented with integrity, the FSA will consider the IT systems used to run the CAD1 model and associated calculations. The assessment will include, where appropriate:

- (1) feeder systems; risk aggregation systems; the integrity of the data (i.e. it is complete, coherent and correct); reconciliations and checks on completeness of capture; and
  - (2) system development, change control and documentation; security and audit trails; system availability and contingency procedures; network adequacy.
- 21 G A bank should take appropriate steps to ensure that it has adequate controls surrounding:
- (1) the derivation of the *PRR* from the CAD1 model output;
  - (2) CAD1 model development, including independent validation;
  - (3) reserving;
  - (4) valuation (see IPRU(Bank), chapter VA) including independent validation; and
  - (5) the adequacy of the IT infrastructure.

#### Model standards

- 22 G A bank should take appropriate steps to ensure that its CAD1 model captures and produces an accurate measure of the risks inherent in the portfolio covered by the CAD1 model. These risks may include, but are not limited to, gamma, vega and rho.

#### OPTIONS RISK AGGREGATION MODELS

- 23 G For a bank to obtain CAD1 model individual *guidance* for its *options* risk aggregation model, it should have in place an appropriate *options* valuation model.
- 24 G The FSA does not specify the methodology that a bank should employ in order to produce the appropriate outputs from its CAD1 model. However, 25G to 41G provide conditions of how a bank could meet the requirements to capture gamma, vega and rho risks using a scenario matrix approach. Where a bank adopts the scenario matrix approach then the standards set out in 25G to 41G should be followed. The bank should also take into account other risks not captured by the scenario matrix approach. Otherwise, a bank may use an equivalent methodology. If a bank uses an equivalent methodology, then it will need to demonstrate that the approach used meets the requirements of this chapter.
- 25 G A scenario matrix is an approach by which an *options* portfolio is revalued given a number of simultaneous shifts in both the spot level of the underlying and the implied volatility.
- 26 G The scenario matrix approach may be employed for all types of *options* on all types of underlying asset.
- 27 G The following provides an outline of the initial steps to be taken when using the scenario matrix approach:

- (1) A value for an *option* should be obtained using the bank's *options* valuation model.
  - (2) The inputs into the *options* valuation model for implied volatility of the underlying asset and the price of the underlying asset should then be altered so that a new value for the *option* is obtained (details of the amount by which the implied volatility and the price of the underlying should be amended are set out in 28G-34G).
  - (3) The difference between the original value of the *option* and the new value obtained following the alterations should be input into the appropriate cell in the matrix, the value in the central cell where there is no change in implied volatility or price of the underlying should therefore be zero.
  - (4) The process of obtaining a new price for the *option* should be repeated until the matrix is completed.
- 28 G The alteration to the implied volatility (known as the implied volatility shift) referred to in 27(2) G may be a proportional shift, the size of which depends on the remaining life of the *option* and the asset class of the underlying. Table 30G sets out the shifts that should be applied where a proportional shift is used. Alternatively, a bank may use a single shift across all maturities or use an absolute rather than a proportional implied volatility shift. Where a single shift or an absolute shift is used it should be at least as conservative as the proportional shifts. This should be reviewed and, if necessary updated, on a regular basis.
- 29 G A bank may choose to use a less detailed term structure than that in Table 30G, but the shifts used should be no less conservative than those set out. For example, a bank that uses one <3 month band, rather than the two bands (<1 month, and 1-3 months) set out in the table, should use the most conservative shift set out in the table for the bands covered that is, 30% for the <3 month band.
- 30 G TABLE: PROPORTIONAL IMPLIED VOLATILITY SHIFTS (SEE 28G)

REMAINING LIFE OF OPTION	PROPORTIONAL SHIFT	
	EQUITIES & FX & COMMODITIES	INTEREST RATES
≤ 1 month	30%	30%
>1 ≤ 3 months	20%	20%
>3 ≤ 6 months	15%	15%
>6 ≤ 9 months	12%	12%
>9 ≤ 12 months	9%	9%
>1 ≤ 2 years	6%	9%
>2 ≤ 4 years	4.5%	9%
>4 years	3%	9%

31 G The size of the underlying price/rate shift depends on the asset class of the underlying, and is set out in 32G:

32 G TABLE: UNDERLYING PRICE/RATE SHIFTS (SEE 31G)

UNDERLYING ASSET CLASS	SHIFT
Equities	±8%
Foreign Exchange	±8%
Commodities	±15%, (but a bank may use the percentages applicable under the extended maturity ladder approach, where permitted by the requirements of Chapter CM).
Interest Rates	±100bp (but a bank may use the sliding scale of shifts by maturity as outlined in Chapter TI).

- 33 G The shifts outlined above are the maximum shifts required; in addition there will be a number of intermediate shifts as a result of the minimum matrix size criteria set out in 34G.
- 34 G The minimum size of the scenario matrix should be 3x7, that is, three observations for implied volatility (including the actual implied volatility) and seven observations for the price of the underlying (including the actual price of the underlying). A bank should be able to justify its choice of granularity. Greater granularity may be required where the portfolio contains, for example, a large proportion of barrier *options*.
- 35 G A different scenario matrix should be set up for each underlying asset type:
- (1) for *equities* (including single *equities*, baskets and indices) this means a separate matrix for each national market or non-decomposed basket or non-decomposed multi-national index;
  - (2) for foreign-exchange products this means a separate matrix for each currency pair where appropriate;
  - (3) for *commodity* products this means a separate matrix for each underlying as defined in Chapter CM; and
  - (4) for interest rate products this means a separate matrix for each currency; in addition, a bank should not offset the gamma and vega exposures (except in the circumstances set out in 36G) arising from any one of the following types of products with the gamma and vega exposures arising from any of the other products in the list:
    - (a) Swaptions (options on interest rate *swaps*);
    - (b) interest rate *options* (including *options* on exchange-traded *deposit* or bill *futures*);
    - (c) bond *options* (including *options* on exchange-traded bond *futures*);
    - (d) other types of exotic *option* which do not fall easily into one of the other three categories and are required by the FSA to form their own separate underlying asset.
- 36 G A bank may offset gamma and vega exposures arising from the products listed in 35(4) G where it can demonstrate that it trades different types of interest rate-related *options* as a portfolio and takes steps to control the basis risk between different types of implied volatility. If this is the case, then an individual matrix is not required for each of the products listed in 35(4) G and a combined scenario matrix may be used.
- 37 G Where it is imprudent to fully offset long-dated and short-dated vega exposure due to non-parallel shifts in the yield curve, a bank should use an appropriate number of scenario matrices to take account of non-parallel shifts in the yield curve according to the maturity of the *option* or underlying.

- 38 G Following the steps outlined in 27G, a bank then removes the portion of the values in the matrix that can be attributed to the effect that delta has had on the change in the value of the *option* (a process known as delta-stripping).
- 39 G Once the effect of delta has been removed from the matrix, the values left in the matrix relate to gamma and vega risk. A bank's market risk requirement in relation to gamma and vega risk on the individual *option* is the absolute of the most negative cell in the scenario matrix produced. Where all cells are positive the *PRR* is zero. The total *PRR* for the gamma and vega risk on the portfolio of *options* is a simple sum of the individual requirements. This amount should then be fed into a bank's *PRR* calculation.
- 40 G The values that have been obtained for the delta-equivalent positions of instruments included in the scenario matrix should then be treated in the same way as positions in the underlying. Where the delta obtained relates to interest rate position risk, the delta equivalent positions may be fed into a bank's interest rate pre-processing model providing that the positions fall within the scope of the interest rate pre-processing model set out in 7G, and that the bank has the appropriate CAD1 model individual *guidance*. Alternatively, the delta obtained should be fed into the standard *PRR* calculation in Chapter TI, TE, CM or FX as appropriate.
- 41 G In using the scenario matrix approach, none of the steps followed will take specific account of a bank's exposure to rho risk. Where a bank can demonstrate that for interest rate-related *options* the rho sensitivity is effectively included in the delta sensitivities produced, there is no separate capital requirement relating to rho. For all other *options* except commodity *options*, a bank should calculate a rho sensitivity ladder by currency as part of its CAD1 model and feed this either into the maturity or duration method *PRR* calculation set out in Chapter TI or, where a bank has the appropriate individual *guidance*, into an interest rate pre-processing model.

#### INTEREST RATE PRE-PROCESSING MODELS

- 42 G A bank that has been given individual *guidance* to use an interest rate pre-processing model is permitted to use it for the pre-processing of the instruments set out in 7G, from which the residual positions are fed into the maturity or duration method *PRR* calculation as set out in Chapter TI.
- 43 G There are a number of different methods of constructing pre-processing models. All pre-processing models should generate positions that have the same sensitivity to defined interest rate changes as the underlying cash flows.
- 44 G In an interest rate pre-processing model each transaction is converted into its constituent cash flows. The cash flows are discounted using zero coupon rates derived from the bank's own yield curves.
- 45 G The cash flows are then calculated again using the bank's own yield curve shifted by the amount set out in 47G.

46 G The difference between the present values calculated using the bank's own yield curve and those calculated using the bank's curve shifted by the amount specified are known as the sensitivity figures. Alternatively, banks may shift the yield curve by one basis point and multiply the sensitivity figures up by the appropriate amount in order to achieve the shifts set out in 47G. These sensitivity figures are then allocated to each of the 15 maturity bands set out in 47G.

47 G TABLE: YIELD CURVE SHIFTS (SEE 45G)

<b>Zone</b>	<b>Modified Duration</b>	<b>Assumed interest rate change (percentage points)</b>
1	0 ≤ 1 months	1.00
	> 1 ≤ 3 months	1.00
	> 3 ≤ 6 months	1.00
	> 6 ≤ 12 months	1.00
2	> 1.0 ≤ 1.9 years	0.90
	> 1.9 ≤ 2.8 years	0.80
	> 2.8 ≤ 3.6 years	0.75
3	> 3.6 ≤ 4.3 years	0.75
	> 4.3 ≤ 5.7 years	0.70
	> 5.7 ≤ 9.3 years	0.65
	> 7.3 ≤ 9.3 years	0.60
	> 9.3 ≤ 10.6 years	0.60
	> 10.6 ≤ 12 years	0.60
	> 12.0 ≤ 20 years	0.60
	> 20 years	0.60

48 G Sensitivity figures calculated by a bank using an interest rate pre-processing model are usually produced in the format of a net sensitivity by maturity bucket or by discrete gridpoint. These maturity buckets or gridpoints should then be allocated to the 15 bands set out in 47G. The number of maturity buckets or gridpoints used to represent a yield curve can be referred to as granularity. It is not a requirement that each of 15 bands for banks have one or more maturity buckets or gridpoints allocated; however, for all banks the granularity should be adequate to capture the material curve risk in the portfolio. Curve risk can be defined as the risk associated with holding long and short positions at different points along the yield curve.

49 G Positive and negative amounts in each of the different maturity bands of the sensitivity calculation should then be netted off to produce one figure for each of the bands. There is no capital requirement for this netting process.

50 G The individual sensitivity figures produced should then be input into a bank's duration method *PRR* calculation as set out in Chapter TI. The individual sensitivity figures for each band should be included with the other positions in the weighted net positions column used in the duration method.

- 51 G Alternatively, firms may choose to use an approach based on the maturity method set out in Chapter TI, making appropriate adjustments to the sensitivity figures.

Definitions used in Chapter TS

- 52 G This chapter uses the following definitions:

<b>Defined term</b>	<b>Definition</b>
<i>Commodity</i>	Any physical or energy product (except gold) which is, or can be traded on a secondary market. (NB the definition of commodity used in TV deliberately differs from that in the main Handbook Glossary).
<i>Deposit</i>	See definition in the Glossary.
<i>Equity</i>	See <i>share</i> .
<i>Future</i>	As specified in article 78 of the Regulated Activities Order (Futures).
<i>Guidance</i>	Guidance given by the FSA under the Act.
<i>Option</i>	A contract which confers the right to buy or sell a <i>security</i> , contractually based investment, currency, gold or <i>commodity</i> at a given price on or before a given date. (NB: the definition of an option used for the purposes of this chapter deliberately differs from that in the main Handbook Glossary).
<i>PRR</i>	Position risk requirement.
<i>Share</i>	As specified in article 76 of the Regulated Activities Order (Shares etc).
<i>Skilled person</i>	A person reported to make a report required by section 166 of the Act (Reports by skilled persons) for provision to the FSA and who must be a person: (a) nominated or approved by FSA; and (b) appearing to the FSA to have the skills necessary to make a report on the matter concerned.
<i>Swap</i>	A transaction in which two counterparties agree to exchange streams of payments over time according to a predetermined basis.

## Annex H

### Chapter TV (VaR models)

In this Annex, text is being deleted and replaced with new text that is not underlined.

Delete existing text in Chapter TV in its entirety and replace with the following text:

#### TV

#### Use of a Value at Risk Model

##### Introduction

- 1 G This chapter provides details of when the FSA expects to allow a bank to use its own Value at Risk (VaR) model for the purpose of calculating part or all of its *PRR*, and explains how the model will relate to the standard rules.
- 2 G The models described in this chapter are described as VaR models in order to distinguish them from the kinds of model originally contemplated by the Capital Adequacy Directive (CAD). (These are covered in Chapter TS and referred to as "CAD 1 models".) A VaR model is a risk management model which uses a statistical measure to predict profit and loss movement ranges with a confidence interval. The standards described in this chapter, and which will be applied by the FSA, are based on and implement Annex VIII of the CAD and the Basel Accord.
- 3 G The aim of the VaR model approach is to enable a bank with adequate risk management systems to benefit from more accurate capital requirements than those generated by standard requirements, and to provide a bank with an incentive to measure market risks as accurately and comprehensively as possible. It is crucial that those responsible for managing market risk at a bank should be aware of the assumptions and limitations of the bank's VaR model.
- 4 G A VaR measure provides an estimate of the worst expected loss on a portfolio resulting from market movements over a period of time with a given confidence level. The *PRR* relating to the risks covered by the VaR model is based on the value produced by the VaR model. In undertaking the *PRR* calculation, a bank should apply a multiplication factor to the value produced by the VaR model (details of how the multiplication factor will affect a *PRR* are set out in 75G). The multiplication factor that should be applied is set by the FSA. The multiplication factor may be increased by a plus factor, which relates to the results of a bank's back-testing process (for further details on the plus factor see 63G).

- 5 G There are a number of methodologies for calculating *PRR* using a VaR model. These include variance-covariance, historical simulation, Monte Carlo or a hybrid of these. Although the section on model standards in this appendix sets out some general model standards that should be met, the FSA does not prescribe any one method of computing *PRR* using a VaR model. Moreover, it does not wish to discourage any bank from developing alternative risk measurement techniques. A bank should discuss the use of any alternative techniques used to calculate *PRR* with the FSA.

## Overview

### LINK TO STANDARD PRR RULES

- 6 G Under section 3.4 of chapter CO a bank should use the rules in chapters TI, TE, CM FX and TO to calculate *PRR*. Therefore, a bank needs to apply for individual *guidance* in order to calculate its *PRR* using a VaR model instead of (or in combination with) the standard approaches required under section 3.4 of chapter CO.
- 7 G The VaR Model based *PRR* produced in accordance with this appendix should be included in the bank's *PRR* calculation set out in section 3.4 of chapter CO. The VaR model *PRR* should be used in place of the appropriate *PRR* for the risks covered by the VaR model.

### BASIC REQUIREMENTS / SUMMARY OF CHAPTER

- 8 G The FSA will not normally give individual *guidance* for the use of a VaR model unless it is satisfied about the quality of:
- (1) the internal controls and risk management surrounding the VaR model (see 28G to 35G);
  - (2) the VaR Model Standards (see 36G to 44G);
  - (3) risk management standards including stress testing and backtesting procedures surrounding a VaR model; (see 45G to 73G); and
  - (4) the procedures in place at a bank to calculate its VaR model based *PRR*.
- 9 G The FSA recognises that the nature of VaR models will vary across banks. The scope of and the conditions set out in VaR model individual *guidance* may therefore differ in substance or detail from the matters described in this chapter in order to address individual circumstances adequately. For example, a VaR model individual *guidance* may also include additional conditions to meet the particular circumstances of the bank or the model.

- 10 G If the bank ceases to meet any of these standards, the FSA's policy is that the individual *guidance* should cease to apply. In many cases the ongoing need to meet these standards will be included in the individual *guidance* direction by imposing certain conditions. Even if they are not formally included as conditions, the FSA is likely to consider withdrawing the individual *guidance* if the standards are not met.
- 11 G The VaR Model Waiver Application and Review section of this chapter sets out the FSA's general policy on the VaR model application and review process and the conditions that the FSA may impose relating to alterations of the model.
- 12 G Individual *guidance* permitting the use of models in the calculation of *PRR* will not be given if that would be contrary to the CAD or Basel Accord, and any individual *guidance* which is given will only be given on terms that are compatible with the CAD. The FSA considers it unlikely that it will deviate from this approach even where the bank making the individual *guidance* application is not subject to CAD and Basel Accord. Accordingly, the FSA is likely to give only individual *guidance* permitting the use of models that are of the same nature as CAD1 and VaR models.

#### SCOPE OF VAR MODELS

- 13 G This chapter sets out the FSA's policy on the scope of VaR model individual *guidance* and the manner in which the outputs of the model will be incorporated in the calculation set out in section 5 of chapter CO. Some of the standards described in this chapter may also be reflected in conditions attached to VaR model individual *guidance*.
- 14 G A VaR model will be expected to cover one or more of the following types of risk category:
- (1) interest rate general market risk;
  - (2) interest rate specific risk (in conjunction with interest rate general market risk);
  - (3) *equity* general market risk;
  - (4) *equity* specific risk (in conjunction with equity general market risk);
  - (5) foreign-exchange risk; and
  - (6) *commodity* risk.
- 15 G It is the FSA's view that, where a bank uses a VaR model for one risk category, it is good practice to extend its model over time to calculate all of its *PRR* risk categories.

- 16 G For the purposes of CO: Section 5, where a combination of the standard *PRR* rules, CAD1 model and VaR model approaches is used the *PRR* from each method should be added together. A bank should take appropriate steps to ensure that all of the approaches mentioned are applied in a consistent manner. For example, where the *PRR* for a particular portfolio is normally calculated using a VaR model, it should not switch between the standard market risk rules and a VaR model approach purely to achieve a more attractive *PRR*.
- 17 G A bank will not be required to capture immaterial risk or the market risk inherent in new products in a VaR model. If a bank does not capture immaterial risks or the market risk inherent in a new product in a VaR model, then the appropriate standard *PRR* rules to these risks will apply.

#### The VaR model application and review process

- 18 G In order for VaR model recognition individual *guidance* to be given, the FSA is likely to undertake a review to ensure that it is adequate and appropriate for the *PRR* calculation.
- 19 G The VaR model review process may be conducted through a series of visits covering various aspects of a bank's control and IT environment. Before these visits the FSA may ask that the bank provides some information relating to the bank's individual *guidance* request accompanied by some specified background material. The VaR model review visits are organised on a timetable that allows the bank being visited sufficient time to arrange the visit and provide the appropriate pre-visit information.
- 20 G As part of the of the VaR model review process the following may be reviewed: organisational structure and personnel; details of the bank's market position in the relevant products; profit and risk information; valuation and reserving policies; operational controls; IT systems; model release and control procedures; risk management and control framework; risk appetite and limit structure and future developments relevant to model recognition.
- 21 G A visit will usually involve the FSA wishing to meet senior management and staff from the front office, financial control, risk management, operations, systems development, information technology and internal audit areas.
- 22 G The FSA may complement its own review of a VaR model individual *guidance* request with one or more reviews by a *skilled person* under section 166 of the *Act*. Such a review may also be used where VaR model individual *guidance* has been given to ensure that the standards on which the VaR model individual *guidance* was based continue to be met.
- 23 G As set out in 9G the FSA will issue individual *guidance* containing certain conditions. These conditions are likely to cover the standards described in this chapter to the extent that they are relevant to the circumstances, and may set out:

- (1) the details of the calculation of VaR model based *PRR*, which will contain the multiplication factor to be applied;
  - (2) the method of separating out specific risk if appropriate;
  - (3) the method agreed of calculating profit and loss accounts for backtesting purposes;
  - (4) the circumstances in which model refinements, new products, new markets and new locations should be notified to the FSA;
  - (5) any notification requirements relating to the VaR model individual *guidance*;
  - (6) any additional reporting requirements (e.g. electronic reporting of backtesting results);
  - (7) details of the changes to the VaR model which would be considered material by the FSA; and
  - (8) any other conditions attached to the VaR model individual *guidance*.
- 24 G Where a VaR model used outside of the United Kingdom differs from that used in the United Kingdom a bank the FSA may request details on the reasons for using different models.
- 25 G Where a bank operates any part of its VaR model outside of the United Kingdom, the FSA may take into account the results of the home supervisor's VaR model review. The FSA may wish to receive information directly from the home supervisor.

#### Maintenance of VaR model

- 26 G No changes may be made to a VaR model which is the subject of individual *guidance* unless the change is not material. Material changes to a VaR model will require further individual *guidance* to be issued. Materiality is measured against the VaR model as it was at the time that the individual *guidance* was originally given. If a bank is considering making material changes to its VaR model then it should notify the FSA at once.
- 27 G If the VaR model ceases to meet the conditions of individual *guidance*, a bank should notify the FSA at once.

#### Risk management standards

- 28 G A bank with a complex portfolio is expected to demonstrate more sophistication in its modelling and risk management than a bank with a simple portfolio. For example, a bank will be expected to consider, where necessary, varying degrees of liquidity for different risk factors, the complexity of risk modelling across time zones, product categories and risk factors. Some trade-off is permissible between the sophistication and accuracy of the model and the conservatism of underlying assumptions or simplifications.
- 29 G A bank should be able to demonstrate that it meets the risk management standards set out in this section on a legal entity basis. This is particularly important for subsidiaries of *groups* subject to matrix management where the business lines cut across legal entity boundaries.
- 30 G A bank should have a conceptually sound risk management system surrounding the use of a VaR model which is implemented with integrity and should meet the following minimum standards:
- (1) the VaR model should be fully integrated into the daily risk management process of the bank, and serve as the basis for reporting risk exposures to senior management of the bank;
  - (2) a bank should have a risk control unit which is independent from business trading units, and which reports directly to senior management. The unit should be responsible for designing and implementing the bank's risk management system. It should produce and analyse daily reports on the output of the model and on the appropriate measures to be taken in terms of the trading limits;
  - (3) a bank's directors and senior management should be actively involved in the risk control process, and the daily reports produced by the risk control unit should be reviewed by a level of management with sufficient authority to enforce both reductions of positions taken by individual traders as well as in the bank's overall risk exposure;
  - (4) a bank should have sufficient numbers of staff skilled in the use of sophisticated models in the trading, risk control, audit and back office areas;
  - (5) a bank should have established procedures for monitoring and ensuring compliance with a documented set of appropriate internal policies and controls concerning the overall operation of the risk measurement system;
  - (6) a bank's VaR model should have a proven track record of acceptable accuracy in measuring risk;
  - (7) a bank should conduct a programme of stress testing frequently, and the results of these tests should be reviewed by senior management and reflected in the policies and limits set;

- (8) a bank should have procedures to ensure that the valuation of assets and liabilities is appropriate, and that valuation uncertainty is identified and appropriate reserving is undertaken where necessary; and
- (9) at least once a year, a bank should conduct, as part of its regular internal audit process, a review of its risk management process. This review should include both the activities of the business trading units and of the independent risk control unit, and should be undertaken by suitably qualified staff independent of the areas being reviewed. This review should consider, at a minimum:
  - (a) the adequacy of the documentation of the risk management system and process;
  - (b) the organisation of the risk control unit;
  - (c) the integration of market risk measures into daily risk management and the integrity of the management information system;
  - (d) the process for approving risk pricing models and valuation systems used in front and back offices;
  - (e) the validation of any significant changes in the risk management process;
  - (f) the scope of risks and products captured by the VaR model;
  - (g) the accuracy and completeness of position data;
  - (h) the process used to ensure the consistency, timeliness, independence and reliability of data sources;
  - (i) the accuracy and appropriateness of volatility and correlation assumptions;
  - (j) reserving policies, the accuracy of the valuation procedures, and risk sensitivity calculations;
  - (k) the process employed to evaluate the VaR model's accuracy, including the programme of backtesting;
  - (l) the controls surrounding VaR model development; and
  - (m) the process employed to produce the VaR model based *PRR*.

31 G A bank's VaR model output should be an integral part of the process of planning, monitoring and controlling a bank's market risk profile. The VaR model should be used in conjunction with internal trading and exposure limits. The links between these limits and the model should be consistent over time and understood by senior management.

- 32 G A bank should have adequate VaR model validation procedures to assess its model, and should have procedures in place to ensure that both the assumptions and approximations underlying the model and the limits of the model are appropriate. It should undertake testing of the accuracy of parts of the VaR models as well as the whole model. The FSA will require a period of initial monitoring or live testing before a VaR model can be recognised. Backtesting should be regarded as an additional safeguard rather than the primary model validation tool. A bank should therefore ensure that it has appropriate methods of assessing model validity and does not rely purely on the results of backtesting.
- 33 G In assessing whether the VaR model is implemented with integrity, the FSA will consider the IT systems used to run the model and associated calculations. The assessment may include:
- (1) feeder systems; risk aggregation systems; time series databases; the VaR model system; stress testing system; the backtesting system including profit & loss cleaning systems where appropriate; data quality; reconciliations and checks on completeness of capture;
  - (2) system development, change control and documentation; security and audit trails; system availability and contingency procedures; network adequacy; and
  - (3) operational statistics relating to VaR model production process; examples of these statistics are timeliness, number of re-runs required and the reliability of data feeds.
- 34 G It is the responsibility of a bank's own management to ensure the accuracy and integrity of its VaR model. This responsibility includes obtaining appropriate independent validation of the VaR model.
- 35 G A bank should ensure that it has adequate controls surrounding:
- (1) the derivation of the VaR model based *PRR*;
  - (2) the integrity of the backtesting programme, including the calculation of the profit and loss account;
  - (3) the integrity and appropriateness of the VaR model, including the model's geographic coverage and the completeness of data sources;
  - (4) the VaR model's initial and on going development, including independent validation;
  - (5) the valuation models, including independent validation; and
  - (6) the adequacy and security/integrity of the IT infrastructure.

## Model standards

- 36 G A bank should base its *PRR* calculation on the output of the VaR model which is used for its internal risk management rather than one developed specifically to calculate its *PRR*.
- 37 G The FSA accepts that the scope and nature of VaR models varies across banks. This means that different banks are likely to calculate different estimates of market risk for the same portfolio. Systematic differences are due to length of data series, choice of methodology (historical or Monte Carlo simulation or variance-covariance method or a hybrid of these), differences in aggregating risks within and across broad risk factors, the treatment of *options* and other non-linear products and the specification of risk factors.
- 38 G A bank that chooses to request individual *guidance* to use a VaR model for the calculation of its *PRR* should calculate its market risk using the appropriate model parameters as set out in 39G.
- 39 G A bank should calculate its market risk by adopting the following minimum standards:
- (1) VaR should be calculated at least daily, using a 99% one-tailed confidence limit.
  - (2) VaR should be calculated using a holding period equivalent to ten *business days*.
  - (3) VaR measures should be based on an effective historical observation period of at least one-year, except where a shorter observation period is justified by a significant change in price volatility. If a weighting scheme or other method is used, then the effective observation period should be at least one year. The weighted average time lag of the individual observations should not be less than six months.
  - (4) Data sets should be updated no less frequently than quarterly and more frequently whenever market prices are subject to material change.
- 40 G A bank may meet the appropriate model parameter requirement by using different model parameters and employing a suitable adjustment mechanism to produce a VaR figure which is equivalent to the figure produced using the parameters set out in 39G. For example, a bank's own model may use a 95% one-tailed confidence limit, but a mechanism to convert the output of the model to reflect a 99% one-tailed confidence limit should be employed.

## RISK FACTORS

- 41 G A VaR model should capture and accurately reflect, on a continuing basis, all material general market risks and, where VaR model individual *guidance* has been granted in relation to specific risk, specific risks arising on the underlying portfolio, and should ensure that sufficient risk factors are properly specified.

#### GENERAL MARKET RISK

- 42 G A bank's VaR model should capture a sufficient number of risk factors in relation to the level of activity of the bank, in particular the following:
- (1) For interest rate risk, the VaR model should incorporate a set of risk factors corresponding to the interest rate curves in each currency in which the bank has interest rate sensitive positions. A bank should ensure that it captures the variations of volatility of rates along the yield curve. In order to achieve this, a bank should divide the yield curves of, at a minimum, the major currencies and markets where it has material interest rate exposures into a minimum of six maturity segments. The risk measurement system should also capture the risk of less than perfectly correlated movements between different yield curves.
  - (2) For foreign exchange risk, the VaR model should incorporate risk factors corresponding to the individual foreign currencies, including gold, in which the bank's positions are denominated.
  - (3) For *equity* risk, the VaR model should use a separate risk factor at least for each of the *equity* markets in which the bank has material exposures.
  - (4) For *commodity* risk, the VaR model should use a separate risk factor at least for each *commodity* in which the bank has material exposures. The VaR model should capture the risk of less than perfectly correlated movements between similar, but not identical, *commodities* and the exposure to changes in forward prices arising from maturity mismatches. It should also take account of market characteristics, notably delivery dates and the scope provided to traders to close out positions.
  - (5) A bank that deals in *options*, or products with *option*-like characteristics, should ensure that their VaR model captures non-linear risk. Steps should also be taken to ensure that adequate capital is set aside for any other risks not captured by the model. Banks are reminded that, under 41G, the standard *PRR* rules may instead be applied to these risks.
  - (6) Correlations within and between the risk factors in (1) to (4) may be used provided the system for measuring these correlations is sound and implemented with integrity.

#### SPECIFIC RISK

- 43 G Where a bank wishes to use a VaR model in relation to specific risk it should meet the following additional standards:

- (1) The model on which the VaR estimate is based should explain the price variation in the portfolio. For example, the VaR model may be based on a factor model or on a historical simulation model. The ability of the model to explain price variation could be demonstrated by a statistical comparison over the same period of time between actual price changes on the portfolio and the profit and loss impact of risk factors included within the model. A bank may wish to include an estimate of residual variation not explained by the model.
- (2) The VaR model should be sensitive to changes in the level of concentration risk in the portfolio.
- (3) The VaR model should be robust to an adverse environment.
- (4) Where a bank calculates its specific risk surcharge under 77G(2) it should conduct specific risk backtesting for the traded debt portfolio and the *equity* portfolio separately. Specific risk backtesting is a comparison of the specific risk VaR measures against the corresponding actual P&L for sub-portfolios that contain material specific risk.
- (5) The VaR model should be validated through empirical testing appropriate to the level of complexity and the assumptions made in the VaR model, which should be aimed at assessing whether specific risk is being adequately captured. Where specific risk is identified by examining relevant sub-portfolios, then these should be chosen in a consistent manner.

- 44 G A bank should have means to assess and, if necessary, mitigate or control event risk. For example, possible means include stress-testing procedures, or reserving policies. It is not however necessary to include factors to model event risk within a specific risk model unless warranted by the nature of the portfolio.

#### Stress testing and backtesting

##### STRESS TESTING

- 45 G Stress testing should involve identifying market scenarios or other low probability events in all types of risks that generate the greatest losses on a bank's portfolio.
- 46 G A bank should periodically and actively identify all the worst case scenarios that are relevant to its portfolio. Scenarios used should be appropriate to test the effect of adverse movements in market volatilities and correlations and the effect of any change in the assumptions underlying the VaR model. Scenarios involving low probability market events should nevertheless be plausible.
- 47 G A bank should have procedures to assess and respond to the results produced from stress testing. In particular, stress testing results should be:

- (1) used to evaluate its capacity to absorb such losses or identify steps to be taken to reduce risk.
  - (2) communicated routinely to senior management and periodically to the directors.
- 48 G Stress testing should capture non-linear effects.
- 49 G A bank should have the capacity to run daily stress tests. A bank may want to conduct the more complex stress tests at longer intervals or on an ad hoc basis.

#### BACKTESTING

- 50 G Backtesting is the process of comparing VaR risk measures to portfolio performance. It is intended to act as one of the mechanisms for the ongoing validation of a bank's VaR model and to provide incentives for banks to improve their VaR measures.
- 51 G Backtesting is only one method of assessing the performance of a VaR model and, although banks are required to carry out a backtesting programme, they should adopt other methods of measuring performance as well.
- 52 G Before individual *guidance* will be given to use a VaR model, a bank should have a backtesting programme in place and should provide three months of backtesting history.
- 53 G A *bank* should have the capacity to analyse its daily profit and loss account and compare the results to the VaR measure used for backtesting, both at the level of the whole portfolio covered by the VaR model and at the level of individual books that contribute material amounts to risk or the profit and loss account.
- 54 G VaR models are likely to undergo almost continuous refinements. This may make it difficult to backtest using 250 days' data if it is based upon a previous version of the model. If a refinement is not regarded as material, then a bank may use the last 250 days' data for backtesting purposes.
- 55 G A bank should compare each of its 250 most recent *business days*' profit and loss account figures with the corresponding one-day VaR measures. This comparison should be made daily using a rolling 250-day period.
- 56 G The VaR measure used for backtesting for these purposes should be calibrated to a one-day holding period and a 99% one-tailed confidence level, but otherwise the VaR model should be the same as that used to calculate the VaR model based *PRR*.
- 57 G The positions underlying the profit and loss account and VaR measures should not be materially different.

- 58 G If a bank uses a combination of the standard rules (and, where appropriate, CAD1 model) and VaR model approaches or does not model specific risk it should take appropriate steps periodically to ensure that this is taken into account in its backtesting procedures.
- 59 G An exception occurs each time a day's loss exceeds the corresponding VaR measure (at bank level). When an exception occurs, a bank should notify its supervisor by close of business two *business days* after the exception occurs (oral notification is acceptable).
- 60 G On a monthly basis, a bank should submit to the FSA a written account of the previous month's exceptions. The written account should include the cause of the exceptions and the bank's planned response. Nil returns will not be required.
- 61 G Where multiple exceptions occur, the multiplication factor used by a bank in its VaR model based *PRR* calculation should be increased by the appropriate plus factor set out in Table 62G (details of how the multiplication factor affects a bank's VaR model based *PRR* are set out in the Calculation of a VaR model based *PRR* section of this chapter). The table sets out the plus factor to be applied given the number of exceptions over the most recent 250 *business days*.
- 62 G Table: backtesting plus factors (see 61G)

<b>Zone</b>	<b>Number of Exceptions</b>	<b>Plus Factor</b>
<b>Green</b>	Fewer than 5	0.00
<b>Yellow</b>	5	0.40
	6	0.50
	7	0.65
	8	0.75
	9	0.85
<b>Red</b>	10	1.00

- 63 G The addition of a plus factor for VaR models that appear to be under-performing is designed to act as an incentive to ensure that the VaR model continues to perform well, and where it does not, that a bank takes prompt action to remedy the situation.

- 64 G If ten or more exceptions are recorded in a 250 day period, the bank should to take immediate corrective action. In these circumstances, the FSA may apply a plus factor greater than one, or the FSA may consider withdrawing a bank's VaR model individual *guidance*.
- 65 G If ten or more exceptions are recorded in a 250 day period due to the specific risk backtesting required in 43(4) G then the bank should take immediate corrective action on the specific risk part of the model or set aside additional capital.
- 66 G If a bank believes an exception should be disregarded it should submit to the FSA a written explanation of why the exception occurred and why it would be appropriate to disregard it. An exception may be disregarded only in exceptional situations. One example of an exception might properly be disregarded is when it has arisen as a result of a risk that is not captured in its VaR model but against which regulatory capital is already held.
- 67 G The FSA may also consider disregarding a backtesting exception where, in a period of high volatility, multiple backtesting exceptions occur before the data set is updated.
- 68 G During the first 250 days after a bank starts to use its VaR model to calculate its VaR model based *PRR*, the policy in 61G relating to plus factors only applies to the period from the date that VaR model recognition is granted.

#### DEFINITION OF PROFIT AND LOSS ACCOUNT FOR BACKTESTING PURPOSES

- 69 G Backtesting should be performed using a measure of actual profit and loss.
- 70 G Actual profit and loss means the day's profit and loss account arising from the trading activities within the scope of the VaR model. This should exclude material non-market elements which might mask a loss. Such elements include *fees* and *commissions*, reserving which is not directly related market risk and one-off marketing profits from new deals.
- 71 G Actual profit and loss should reflect any price adjustments arising from position reconciliation in accordance with a bank's written policies and procedures. These policies and procedures should include a documented method of assigning valuation adjustments to backtesting data, such that the amount and the date of adjustment is unambiguous.
- 72 G A bank should have the capacity to perform backtesting against hypothetical profit and loss. The FSA may require banks to produce this information upon request. Hypothetical profit and loss means profit and loss that would have occurred had the portfolio remained unchanged.

- 73 G VaR models are likely to undergo almost continuous refinements. This may make it difficult to backtest using 250 days' data if it is based upon a previous version of the model. If a refinement is regarded as material then new individual *guidance* may be required to use a VaR model and the original individual *guidance* may be withdrawn (as set out in 27G). If a refinement is not material then a bank may use the last 250 days' data for backtesting purposes.

#### Calculation of VaR model based PRR

- 74 G The calculation of a *PRR* under the VaR model approach is set out in this section. As noted in section 5 of chapter CO the individual *guidance* will confirm that a bank should add its VaR model based to its other *PRRs* calculated under section 3.4 of chapter CO.
- 75 G A bank's VaR model based *PRR* on a daily basis is equal to the higher of:
- (1) its previous day's VaR number; and
  - (2) the average of its daily VaR measures on each of the preceding sixty *business days* multiplied by a multiplication factor (increased by the appropriate plus factor referred to in 62G).
- 76 G The multiplication factor to be used is specified by the FSA in the formal VaR model individual *guidance* direction as a condition of its use. The minimum multiplication factor that the FSA will set is 3, although a higher multiplication factor may be applied. This multiplication factor is the factor that should be used, unless individual *guidance* has been given.

- G The following equation expresses 75G and 76G mathematically

$$PRR_{VaR} = \text{Max} \left( VaR_t, f \times \frac{1}{60} \sum_{i=0}^{59} VaR_{t-i} \right) + SR$$

$PRR_{VaR}$  is a bank's VaR model based *PRR*;

$VaR_t$  represents the previous day's VaR figure;

$VaR_{t-i}$  represents the VaR calculated for *i business days* earlier;

$f$  is the multiplication factor referred to in 75(2)G and 76G;

$SR$  is the specific risk surcharge which is only included in the calculation set out 79G where a bank has been given VaR model individual *guidance* in relation to specific risk. Details on the specific risk surcharge can be found in 18G to 19G.

- 77 G If the VaR model individual *guidance* granted enables a bank to calculate a specific risk *PRR* by the use of its VaR model then it should calculate its specific risk surcharge as either:
- (1) an amount equal to the specific risk portion of the VaR measure; or
  - (2) an amount equal to the VaR measure of sub- portfolios that are subject to specific risk.

In both cases, the specific risk surcharge should be calculated as an average over the previous 60 *business days*.

- 78 G Where the bank calculates its specific risk surcharge using 77(1)G, then it should calculate specific risk for the purposes of calculating the surcharge as the difference between total value at risk and a measure of general market risk. In calculating general market risk for this purpose, positions that give rise to specific risk should be mapped to equivalent positions that bear general market risk only. In doing so, the following minimum standards should be adopted:
- (1) For *equities*, each position should be mapped to a factor that is representative of the national or international market to which they belong. For example, a stock may be mapped to a widely accepted broadly based stock market index for the country concerned.
  - (2) For bonds, each position should be mapped using a reference interest rate curve for the currency concerned. The interest rate curves should be generally accepted by the market as broadly based reference curves for the currency concerned, for example, a government bond curve or a swap curve.
- 79 G Where a bank calculates its specific risk surcharge using 77(2) G, then the sub-portfolio structure should be identified in advance and any changes to the structure should be pre-notified to FSA. The sub-portfolios chosen should be those which contain positions that would produce a specific risk *PRR* under the standard rules approach.

#### Definitions used in Chapter TV

This chapter uses the following definitions:

Defined term	Definition
<i>Act</i>	The Financial Services and Markets Act 2000.
<i>Business days</i>	(1) in relation to anything done or to be done in any part of the United Kingdom): (a) (except in REC) any day which is not a Saturday or Sunday, Christmas Day, Good Friday or a bank holiday in that part of the United Kingdom; (b) (in REC) (as defined in section 167 of the Companies Act 1988) any day which is not a Saturday or Sunday, Christmas Day, good Friday or a bank holiday in any part of the United Kingdom. (2) (in relation to anything done or to be done by reference to a market outside the United Kingdom) any day on which that market is normally open for business.
<i>Commission</i>	Any form of commission, including a benefit of any kind, offered or given in connection with designated investment business.
<i>Commodity</i>	Any physical or energy product (except gold) which is, or can be traded on a secondary market. (NB the definition of commodity

	used in TV deliberately differs from that in the main Handbook Glossary).
<i>Equity</i>	See <i>share</i> .
<i>Fee</i>	Any payment offered or made by a client to a firm in connection with designated investment business or with any other business of the firm, including (where applicable) any mark-up or mark-down.
<i>Future</i>	As specified in article 78 of the Regulated Activities Order (Futures).
<i>Guidance</i>	Guidance given by the FSA under the Act.
<i>Option</i>	A contract which confers the right to buy or sell a <i>security</i> , contractually based investment, currency, gold or <i>commodity</i> at a given price on or before a given date. (NB: the definition of an option used for the purposes of this chapter deliberately differs from that in the main Handbook Glossary).
<i>PRR</i>	Position risk requirement.
<i>Share</i>	As specified in article 76 of the Regulated Activities Order (Shares etc).
<i>Skilled person</i>	A person reported to make a report required by section 166 of the Act (Reports by skilled persons) for provision to the FSA and who must be a person: (a) nominated or approved by FSA; and (b) appearing to the FSA to have the skills necessary to make a report on the matter concerned.

## Annex I

### Transitionals

In this Annex, text is being inserted that is not underlined.

Insert the following text as a new chapter TRANS before Chapter GN in volume 1 as follows:

TRANS

#### Transitional provisions

##### 1 Table

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
1	The provisions of <i>IPRU(BANK)</i> added by the Interim Prudential Sourcebook for Banks (Market Risk) Instrument 2004	G	<p>(A) A <i>bank</i> may treat the material in column (2) of paragraph 1:</p> <p>(a) as being in force; and</p> <p>(b) as having replaced the material in <i>IPRU(BANK)</i> that will be deleted by the Interim Prudential Sourcebook for Banks (Market Risk) Instrument 2004;</p> <p>at any time when this transitional provision is in force.</p> <p>(B) For this purpose, the following applies.</p> <p>(a) A <i>bank</i> should notify the <i>FSA</i> if it takes advantage of this transitional provision.</p> <p>(b) A <i>bank's</i> choice to take advantage of this transitional provision takes effect when notified to the <i>FSA</i> under (a).</p> <p>(c) A <i>bank</i> should not revoke the choice to make use of this</p>	1 July 2004 – 30 June 2005	The material in the Interim Prudential Sourcebook for Banks (Market Risk) Instrument 2004 comes into force for all <i>banks</i> on 1 July 2005.

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
			<p>transitional provision.</p> <p>(d) Any choice to take advantage of this transitional provision:</p> <p>(i) applies on a consolidated basis and a solo basis; and</p> <p>(ii) applies to all the material in column (2) of paragraph 1 and not part only.</p> <p>(e) A <i>bank</i> should not take advantage of this transitional provision unless every <i>bank</i> in its consolidated group to which this transitional provision can apply does so too in accordance with (b).</p> <p>(f) The Glossary in chapter GN of <i>IPRU(BANK)</i> applies to italicised terms in this transitional provision.</p>		

## Annex J

### Consequential changes to IPRU(BANK)

In this Annex, underlining indicates new text and striking through indicates deleted text unless otherwise specified.

#### The contents pages for Volume 1

##### *Treatments common to the banking and trading book*

FX	Foreign exchange <u>position risk requirement</u>
CM	Commodities <u>position risk requirement</u>
DU	Common treatments for counterparty risk

##### *Specific trading book treatments*

TI	Interest rate position risk <u>requirement</u>
TE	Equity position risk <u>requirement</u>
TC	Counterparty risk in the trading book
TL	Incremental capital for large exposures
TU	<del>Underwriting in a capital adequacy framework</del> <u>Securities underwriting</u>
<u>TO</u>	<u>Options position risk requirement</u>
TS	CAD1 models
TV	<del>The use of internal models</del> <u>VaR models</u>

#### Chapter GN, s3.3.14G

- 3.3.14G Guidance on how a UK bank and an overseas bank should comply with IPRU(Bank)3.313R is set out in chapter CO (which provides an overview of the underlying policy) and more detailed guidance in chapters CB, CA, BC, FX, CM, DU, TI, TE, TC, TL, TU, TO, TS and TV.

#### Chapter CO, section 3.2

- 4 (a) Credit risk in the banking book should be included in the regime using a weighting approach to derive risk weighted assets and their equivalents for off balance sheet items. The approach is given in the chapter on credit risk in the banking book.
- (b) There are at present no explicit capital requirements for interest rate risk in the banking book. A bank should nevertheless maintain adequate capital to cover interest rate risk to which it is exposed in its banking book.

### Chapter CO, section 3.4

- See s4 10 The standard treatment of trading book capital requirements for market risk should include calculations under ~~five~~ six separate headings, as explained below. The following chapters each feed into a separate heading, as indicated:

*[Paragraphs (a) – (e) unchanged]*

- See ch TO (f) Option position risk in the trading book should form part of the calculation for option position risk.

### Chapter CO, section 4.1.3

- 7 For CAD banks, separate ICRs are set for the trading and banking books.
- a) Because the banking book regime is expressed in terms of a ratio in proportion to risk weighted assets, whilst the trading book regime established by the CAD expresses its requirement as capital ~~haircut~~ requirements (i.e. the level of capital required to support an associated risk), a method is needed to allow trading book ICRs to be brought into the framework. This has been achieved by multiplying the trading book aggregate capital ~~haircut~~ requirement by 12.5 to produce a notional risk weighted asset equivalent which can be multiplied by the trading book ICR. This system is purely supervisory and banks should not publish their ratios in this form.

### Chapter CO, section 5

- 3 Optimisation of the use of capital may be achieved by carrying out the calculations in the following order (although in which steps (b), (c) and (d) are carried out is not critical):

*[Paragraph (a) unchanged]*

- (b) Calculate trading book capital requirements.

Trading book trigger = X%

	<del>CAD</del> <del>Haircut</del> Capital <u>requirement</u>	Notional risk weighted assets	Capital required
FX position risk	A	12.5 x A	X% of (12.5 x A)
Equity position risk	B	12.5 x B	X% of (12.5 x B)
Interest rate position risk	C	12.5 x C	X% of (12.5 x C)
Large exposures position risk	D	12.5 x D	X% of (12.5 x D)
Trading book counterparty and settlement risk	E	12.5 x E	X% of (12.5 x E)
Commodity position risk	F	12.5 x F	X% of (12.5 x F)
Activities subject to internal models	G	12.5 x G	X% of (12.5 x G)
<u>Option position risk</u>	<u>I</u>	<u>12.5 x I</u>	<u>X% of (12.5 x I)</u>

- a) Note that multiplying by 12.5 is equivalent to dividing by 8%. See above for the explanation of why this is necessary to place the elements of the capital calculation on the same basis.
- b) Capital requirements G for activities subject to internal models is equal to F in the table in section 2.1 of the chapter on internal models are shown in 76G in chapter TV.

[Paragraphs (c) – (k) unchanged]

- (l) The capital adequacy ratio should be calculated by the following equation:

$$\frac{(\text{Tier 1} + \text{eligible Tier 2} + \text{used Tier 3} - \text{deductions}) \times 100}{X\% \text{ of } 12.5 \times (\text{A} + \text{B} + \text{C} + \text{D} + \text{E} + \text{F} + \text{G} + \text{I}) + Y\% \text{ of H}}$$

### Chapter CB, section 3.2.2

- 7 For the purpose of paragraph 4, *financial instruments* are as defined in Section B of the Annex to the ISD. They are:

[Paragraphs (a) – (g) unchanged]

See chs  
TI, TO  
eh and  
TE

For detailed lists of instruments within each of these categories that may be included in the trading book in their own rights, see the chapters on equity position, option risk and interest rate risk

### Chapter CB, section 5.2

- 8 There are several areas where a CAD bank has a choice of method for calculating various of its position risk capital requirements.

[Paragraph a) unchanged]

See chs FX,  
TI, CM,  
TO, TS and  
TV ~~TM~~

- i) For further details, see the relevant sections of the chapters on foreign exchange risk, interest rate risk, commodity risk, option risk and models.

### Chapter CA, section 10.2

- 2 [Unchanged up to paragraph (c)]

- (c) All holdings of capital instruments issued by other *credit institutions* and *financial firms* unless they are covered by a *trading book concession*;

- a) This deduction applies to:
  - All long, physical positions in instruments which are included in the capital of the issuing *credit* or *financial institution* (including such instruments sold under sale and repurchase agreements, instruments carrying third party guarantees (including central government guarantees), depository receipts, and net ~~commitments to underwrite~~ underwriting positions in issues of such instruments (from working day zero));
  - In the case of net commitments to underwrite (see indent above), the ~~scaling~~ reduction factors in the chapter on underwriting may be applied

See ch s-3  
TU27G

before deduction.

### Chapter DU, section 2.2

See chs 4 The bank should hold capital in respect of both market and counterparty risk. This chapter  
TI, TE, deals with counterparty risk, the treatment of market risk in the trading book is given in the  
CM, relevant chapters on equity position risk, interest rate position risk, commodity position risk,  
FX, TO foreign exchange position risk, option position risk and internal models.  
and TV

[Note: The word "both" in the first sentence is underlined in the original and is not new text.]

### Chapter TC, section 2.2

See chs 2 A bank should hold capital in respect of both market and counterparty risks in the trading  
TI, TE, book; the treatment of market risk which should be adopted is given in the relevant chapters on  
CM, equity position risk, interest rate position risk, commodity position risk, foreign exchange  
FX, TO position risk ~~and~~ internal models and option position risk.  
and TV

[Note: The word "both" in the first sentence is underlined in the original and is not new text.]

### Chapter LE, section 7.1

2 For the purposes of form LE2 (and LE3), where a bank deals in securities, the exposure to the issuer of the security should be calculated as follows:

[Paragraph (a) unchanged]

(b) for the trading book, first the excess of the current market value of all long positions over all short positions should be calculated for each instrument issued by the issuer. The exposure is then the excess, where positive, of the current market value of all long positions over all short positions in all the financial instruments issued by the counterparty.

See chs TI, 2 a) When netting long positions in different instruments, the short positions should  
TO and TE be netted against the long positions in instruments with the highest specific risk. Specific risk charges are covered in the chapters on interest rate, ~~and~~ equity and option position risk.

### Chapter CD, section 7

See chs TS 3 Banks may apply to the FSA to include credit derivatives in recognised models under CAD1  
and TV and also under ~~CAD2~~ VaR models. Banks may apply for recognition of ~~CAD2~~ VaR models which quantify partial offsets for specific risk positions where there is a maturity or asset mismatch.

10 As noted above, total return swaps, credit default products and credit-linked notes create a specific risk position in the reference asset; the credit risk seller has a short position and the credit risk buyer has a long position.

See ch TI a) For the specific risk position to be treated as a qualifying debt item, the reference asset  
s5 should meet the standard conditions for a qualifying debt item as defined in the chapter  
46G on interest rate position risk.

- 17 Where a multiple-name credit-linked note is rated such as to meet the conditions for recognition as a qualifying debt item, the buyer of credit risk may record the specific risk position in the reference assets as a single long specific risk position with the specific risk of the note issuer.
- See ch TI  
55  
46G
- a) Qualifying debt items are defined in the chapter on interest rate position risk.
- 19 Banks may net notional positions in reference asset created by credit derivatives with positions in underlying assets or other notional positions created by other credit derivatives if the following conditions are met:
- See ch TI  
53  
37G
- (a) the underlying and reference assets are issued by the same obligor;
- (b) the underlying and reference asset specific risk positions meet the matching criteria set out in the chapter on interest rate position risk; and
- See ch TI  
56
- 23 Credit default products do not normally create a general market risk position.

[Note: The phrase "Credit default products" is underlined in the original and is not new text.]

- 29 The add-on used when calculating the counterparty exposure for an unfunded OTC credit derivative is determined by whether the reference asset is recognised as a qualifying debt item. If the reference asset is a qualifying debt item, the counterparty risk charge is calculated using interest rate add-ons. Otherwise, equity add-ons should be used
- See ch TI  
55  
46G
- a) Qualifying debt items are defined in the chapter on interest rate position risk.

### Chapter CD, section 8.3

- 5 The option ~~carve-out treatment~~ standard method should be used for credit spread options only after consultation with the FSA. Banks should normally apply for recognition of option models covering credit spread options.

### Chapter SE, section 3.2.2

- 4 A bank acts as a *sponsor* or *repackager* when:
- [Paragraph (a) unchanged]
- (b) As a repackager, it sells *investment grade* third party *financial instruments* via its balance sheet to an SPV that then rebundles them and resells them to investors.
- a) In a *repackaging scheme*, the repackager is *not* the original lender and is therefore subject to fewer limitations than an originator.
- b) Where the assets are influenced in credit quality by reference to the repackaging bank, the bank will be regarded as an originator.
- See ch TI  
59  
47G
- c) For a definition of *investment grade* see the interest rate position risk chapter. Where the securities to be repackaged are not rated, the bank should be able to demonstrate that the asset are of a comparable quality.

### Chapter SE, section 9.3

- See ch TI  
~~s9~~  
47G
- 5 Securities issued that are deemed to be investment grade by relevant rating agencies, as defined, are deemed not to constitute credit enhancement if there is already sufficient credit enhancement within the terms of this section.

### Chapter SE, section 11.1

- See s6.2
- See ch TI  
~~s9~~  
47G
- 3 An originator should not deal in the securities issued by the SPV unless it has discussed its intentions with the FSA. The FSA considers that a bank's deals should be limited. Appropriate limits are likely to represent only a small fraction of the total securities issued
- a) Limit structures should generally be subject to limits specific to individual tiers of securities issued. Limits are likely to be more constraining for trading in securities other than the most senior debt.
  - b) It is an accepted role of an originating bank to promote an orderly market in the securities issued by the SPV, but not to the extent that the originator is or appears to be able to support the issue, which would be in contravention of the policy above.
  - c) The ability to deal in securities is limited to securities deemed to be of investment grade by a relevant rating agency as defined. Securities below investment grade fall within the definition of credit enhancement as described below.

### Chapter ST, section 2.1

- See ch FX  
~~s2~~
- 1 A bank which has *net open positions* in foreign currencies (including gold), either because of FX trading positions or because of exposures caused by its overall assets and liabilities, is exposed to the risk that the relevant exchange rate or rates might move against it -*FX risk* (or exchange rate risk). It is therefore important that a bank has adequate systems and controls to manage that risk.
- a) For the purpose of this chapter foreign currency / foreign exchange are referred to as FX.
  - b) ~~For the definition of net open position see the chapter on FX risk.~~

**INTERIM PRUDENTIAL SOURCEBOOK FOR INVESTMENT BUSINESSES  
(MARKET RISK) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 ("the Act"):
- (1) section 138 (General rule-making power);
  - (2) section 156 (General supplementary powers); and
  - (3) section 157 (Guidance).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C. Annex A comes into force on 1 July 2004. Annexes B, C and D to this instrument come into force on 1 July 2005.

**Amendments to the Interim Prudential sourcebook for Investment Businesses**

- D. The Interim Prudential sourcebook for Investment Businesses is amended in accordance with the Annexes to this instrument.

**Citation**

- E. This instrument may be cited as the Interim Prudential Sourcebook for Investment Businesses (Market Risk) Instrument 2004.

By order of the Board  
20 May 2004

## Annex A

### Transitional provisions

In this Annex, underlining indicates new text.

Insert before Chapter 1 a new transitional provision as follows:

#### Transitional provisions

**1 Table Transitional provisions applying to IPRU(INV)**

(1)	(2)	(3)	(4)	(5)	(6)
	Material to which the transitional provision applies		Transitional provision	Transitional provision: dates in force	Handbook provision: coming into force
...					
<u>2</u>	<u>The provisions of IPRU(INV) added by the Interim Prudential Sourcebook for Investment Firms (Market Risk) Instrument 2004</u>	<u>R</u>	<p><u>(A) A securities and futures firm which is an investment firm may treat the material in column (2) of paragraph 2:</u></p> <p><u>(a) as being in force; and</u></p> <p><u>(b) as having replaced the material in IPRU(INV) that will be amended or deleted by the Interim Prudential Sourcebook for Investment Firms (Market Risk) Instrument 2004; at any time when this transitional provision is in force.</u></p> <p><u>(B) For this purpose, the following applies.</u></p> <p><u>(a) A firm must notify the FSA if it takes advantage of this transitional provision.</u></p> <p><u>(b) A firm's choice to take advantage of this transitional provision takes effect when notified to the FSA under (a).</u></p> <p><u>(c) A firm must not revoke the choice to make use of this transitional provision.</u></p> <p><u>(d) Any choice to take advantage of this transitional provision:</u></p> <p><u>(i) applies on a consolidated</u></p>	1 July 2004 – 30 June 2005	The material in the Interim Prudential Sourcebook for Investment Firms (Market Risk) Instrument 2004 comes into force for all securities and futures firms that are investment firms on 1 July 2005.

			<p><u>basis and a solo basis; and</u></p> <p><u>(ii) applies to all the material in column (2) of paragraph 2 and not part only.</u></p> <p><u>(e) A <i>firm</i> must not take advantage of this transitional provision unless every <i>firm</i> in its consolidated group to which this transitional provision can apply does so too in accordance with (b).</u></p> <p><u>(f) The Glossary in chapter 10 of <i>IPRU(INV)</i> applies to italicised terms in this transitional provision.</u></p>		

## Annex B

### Amendments to Chapter 10

In this Annex, underlining indicates new text and striking through indicates deleted text. Where an entire section of text is being deleted, the place where the change will be made is shown and the text is not struck through.

#### Valuation of positions

- 10-41(9) R A *firm* must value both *trading book* positions and *non-trading book investment* positions on a prudent and consistent basis, as well as having regard to the liquidity of the instrument concerned and any special factors which may adversely affect the closure of the position, and must adopt the following general policies:
- (a) a position must be valued at its close out price (close out price means that a long position is to be valued at current bid price and a short position at current offer price); where firm two way prices are not available a *firm* must value its position in accordance with the notes to this rule;
  - (b) ~~where a *firm* has been granted a modification or waiver by the FSA to use a risk assessment model in the calculation of its PRR on *options* positions (as described in the guidance at 10-82(4) and 10-101(2)), it may value its *options* using the values derived from the model;~~  
where a *firm* has been granted a modification or waiver by the FSA to use a CAD1 or VaR model in the calculation of its PRR (as described in the guidance at Appendix 10 and 11), it may value its positions in instruments within the scope of that waiver using the values derived from the internal valuation model(s) that the firm uses to produce feeds for that CAD1 or VaR model.
  - (c) ~~where a *firm* does not use a model as described in (b) above and prices are not published for its *options* positions where prices are not published for its *options* positions and a *firm* does not have a waiver to use a model to value them,~~ it must determine the *mark to market* value of standard European and American *options* as follows:
    - (i) for purchased options, the *mark to market* value must be the in the money amount multiplied by the quantity underlying the *option*;
    - (ii) for written *options* the *mark to market* value must be the sum of:
      - (aa) the *in the money* amount multiplied by the quantity underlying the option; and
      - (bb) the initial premium received for the *option*;

G Where a *firm* has been granted a waiver by the *FSA* to use a CAD1 or VaR model in the calculation of its *PRR* or *FER* (as described in the guidance in Appendix 11 and 12), it may value its positions in instruments that come within the scope of that waiver using the values derived from the internal valuation models that the *firm* uses to feed that CAD1 or VAR model;

G If a written *option* was *in the money* at the time the contract was written, *in the money* amount in (aa) may be taken to be the current *in the money* amount less the *in the money* amount at the time the contract was written.

...

#### Valuing instruments at maximum loss

10-41(11) R A *firm* may exclude a position from its *PRR*, *CRR* and *LER* calculations if it values the position in either of the two following ways and it notifies the *FSA* in writing that it is doing so:

(a) a short position that is valued at maximum loss; or

(b) a long position that is valued at zero.

G For example, a *firm* might write a one touch digital *option* which requires the *firm* to pay out £100 where the price of the underlying exceeds a certain threshold. In the worst case (including ignoring the time value of money) the *firm* would lose £100 overall. If the *firm* valued this position at -£100 it would not have to include this position in its *PRR*, *CRR* and *LER* calculations.

...

#### 10-64 LIQUIDITY AJUSTMENT

##### General rule

10-64 (1) R A *firm's* liquidity adjustment for its assets must be calculated -

(a) for *illiquid assets*, other than *commodities*, in accordance with rule 10-65;

(b) for other *non-trading book* assets, other than *commodities*, in accordance with rule 10-66; and

(c) for all *commodities* in accordance with ~~rule 10-166~~ appendix 6 (commodities *PRR*) and rule 10-170 (*CRR*).

...

#### PRIMARY REQUIREMENT

10-71 R A *firm's* primary requirement is the higher of:

- (a) the sum of its *PRR*, ~~*FER*~~, *CRR*, *LER* and base requirement (calculated in accordance with rule 10-72); or
- (b) the *firm's initial capital requirement* for a *category A, B, C* or *D firm*, calculated in accordance with 10-61(8).

BASE REQUIREMENT

10-72 R A *firm's* base requirement must be calculated in accordance with the following formula:

$$\text{Base requirement} = \text{expenditure requirement} \times \left[ \frac{\text{expenditure requirement}}{\text{PRR} + \del{FER} + \text{CRR} + \text{LER} + \text{expenditure requirement}} \right]$$

...

Obligation to calculate PRR

10-80(2) R ~~A *firm* must calculate a minimum *PRR* in respect of any position according to one of the methods available under the rules below but it may calculate a higher *PRR* in any other way at its option, provided it is able to demonstrate that, in all circumstances, the calculation being employed does give rise to a higher *PRR* for the position.~~

G ~~A *firm* that wishes to use its internal model to calculate *PRR* in respect of all, or some, of its positions should apply for a modification or waiver from the relevant rules from the *FSA*.~~

G ~~Further guidance on the criteria which such models must meet, and the review process, can be obtained from the *FSA*.~~

A *firm* must calculate a minimum *PRR* as the sum of the minimum *PRRs* calculated in respect of its positions using:

- (a) the *PRR* calculations contained in the rules and appendices listed in the table below; or
- (b) another method provided the *firm* is able to demonstrate that in all circumstances the calculation being employed results in a higher *PRR* for the position than would be required under (a).

Table 10-80(2)R

<u>10-120R</u>	<u>CIS PRR</u>
<u>Appendix 4</u>	<u>Interest rate PRR</u>

<u>Appendix 5</u>	<u>Equity PRR &amp; basic interest rate PRR for equity derivatives</u>
<u>Appendix 6</u>	<u>Commodity PRR</u>
<u>Appendix 8</u>	<u>Foreign exchange PRR</u>
<u>Appendix 9</u>	<u>Option PRR</u>

G A firm may seek a modification or a waiver to 10-80(2)R to use a CAD1 model or a VaR model as the basis for calculating part or all of the PRR on its positions. For further details on the use of such models see appendices 11 and 12 respectively.

G Appendix 7 (underwriting) does not contain a PRR calculation. Instead, it contains requirements on how to derive the net underwriting position or reduced net underwriting position. These positions are then included in the relevant PRR calculation listed above (i.e. appendix 4, appendix 5 or appendix 9, as well as appendix 8 if the position is denominated in a foreign currency).

...

10-81R to 10-111(5) [deleted]

...

10-130 to 10-169B(3) [deleted]

...

#### Counterparty exposure

10-174(3) R A firm must calculate the counterparty exposure on *derivative* transactions in accordance with either (a), (b) or (c) below:

- (a) where a counterparty has not fully paid a *margin requirement* on a *derivative* transaction listed on an *exchange* or cleared through a clearing house, or met it through the deposit of *acceptable collateral* not otherwise used, a firm must calculate the counterparty exposure as the shortfall;
- (b) where a *firm* sells or writes an *option* to a counterparty or buys an *option* on behalf of a counterparty and the counterparty has not paid the full *option* premium, or met it through the deposit of *acceptable collateral* not otherwise used, it must calculate the counterparty exposure as the uncovered premium on the transaction; or
- (c) a *firm* must calculate the counterparty exposure arising from a *derivative* transaction other than a written or sold *option* or a *derivative* transaction listed on an *exchange* or cleared through a *clearing house*, as the credit equivalent amount calculated in accordance with Table 10-174(3), not covered by the deposit of *acceptable collateral* not otherwise used.

...

If a *firm* uses the modified maturity ladder approach to calculate PRR under ~~rule 10-169~~ 30R of appendix 6, it may use Table 10-174(3B)

...

Calculation of LER

...

- 10-194(3) R Where the value of “R” is less than 25% of the value of *own funds*, the value of “T” may exceed 25% of the value of *financial resources*, subject to an *LER* calculated in accordance with (a) to (e) below –
- (a) calculate the excess of “T” over 25% of the value of *financial resources*, known as “D”;
  - (b) rank the *trading book exposures* in “T” on the basis of the specific risk weighting in the case of *positions*, discounted by the appropriate percentage ~~from table 10-133(5)~~ in accordance with table 27R of appendix 7 in respect of underwriting positions, and the counterparty weighting in the case of counterparty *exposures*, in descending order;
  - (c) sum the *trading book exposures* in “T”, starting with the *exposure* attracting the highest specific risk weighting or counterparty weighting, until the sum equals the excess “D”;

...

#### INTRA-GROUP OFFSETS AND NETTING

- 10-203 R If a group’s *financial resources*, calculated in accordance with rule 10-201, do not exceed the group’s *financial resources requirement*, calculated in accordance with rule 10-202, the *firm* may take into account:
- (a) the benefits of netting intra-group counterparty exposures;
  - (b) offsetting positions, for the purposes of the rules ~~10-80 to 10-153~~ in appendices 4, 5 and 8, held by different group companies; and
  - (c) the group’s share of capital surpluses in *subsidiaries* not subject to local regulatory capital requirements.

## Annex C

### Amendments to Chapter 10 Appendices

In this Annex, underlining indicates new text and striking through indicates deleted text. Where an entire section of text is being deleted, the place where the change will be made is indicated and the text is not struck through.

Amend, delete or add definitions to IPRU(INV) Chapter 10 Appendix 1 as shown:

<u>base currency</u>	<u>means the currency currently used by a firm to calculate its financial resource requirements;</u>
<i>basic PRA</i>	<del>means for equities the equity method 1 PRAs in Appendix 49; and for interest rate instruments, the sum of the specific risk PRA and the maturity-based general market risk PRAs in Appendix 53;</del>
<i>eap</i>	<del>means an agreement in respect of a borrowing under which a counterparty contracts to pay any interest costs arising as a result of an increase in rates above an agreed rate: the effect being to provide protection to the holder against a rise above that agreed rate;</del>
<u>CFDs</u>	<u>means contract for differences;</u>
<u>commodity</u>	<u>means any physical or energy product (except gold) which is, or can be traded on a secondary market. (NB: the definition of a commodity used for the purposes of Chapter 10 of IPRU(INV) deliberately differs from that in the main Handbook Glossary);</u>
<u>company</u>	<u>means any body corporate;</u>
<i>company issued warrant</i>	<del>means a right (but not an obligation) to buy a security or other instrument at an agreed price or on an agreed basis, from the issuer of the security or instrument;</del>
<u>equity</u>	<u>means share;</u>
<i>FER</i>	<del>means the foreign exchange requirement of a firm as calculated in accordance with appendix 6;</del>
<u>foreign currency</u>	<u>means a currency other than the firm's base currency;</u>
<i>forward</i>	<del>means a security which is transacted for a settlement date beyond that which would normally apply in the market concerned, and where that forward settlement date is not yet passed; A contract to buy or sell where the date for settlement has been agreed as a particular date in the future;</del>
<i>floor</i>	<del>means an agreement in respect of a deposit under which a counterparty contracts to pay any lost income arising as a result of a fall in rates below an agreed rate: the effect being to provide protection to the holder against a fall below that agreed interest rate;</del>
<i>in the money</i>	<del>means, in relation to call options and warrants, that the exercise price is less than the current mark to market value of the underlying instrument and, in relation to put options, that the current mark to market value is less than the exercise price; <u>means the strike price of a call option or warrant is</u></del>

less than the current market value of the underlying instrument, or vice versa for a put *option*;

open currency position

means the position calculated under 18R of appendix 8;

*option*

means the investment specified in article 77 of the Regulated Activities Order (Options), which is an option to acquire or dispose of:

- (a) a security or contractually based investment (other than an option);
- (b) currency of the united Kingdom or of any other country or territory;
- (c) palladium, platinum, gold or silver; or
- (d) an option to acquire or dispose of an option specified in (a), (b) or (c);

means a contract which confers the right to buy or sell a security, contractually based investment, currency, gold or commodity at a given price on or before a given date. (NB: the definition of an option used for the purposes of Chapter 10 of IPRU (INV) deliberately differs from that in the main Handbook Glossary);

PRR

means the position risk requirement of a firm as calculated in accordance with rules 10-80 to 10-169B rule 10-120 and 4, 5, 6, 8 and 9;

*qualifying debt security*

means a debt *security* which-

- (1)(a) is, or has an "equivalent debt" which is, rated by a "relevant agency" at, or higher than, the level indicated in the Table in Appendix 34 and
- (i) there has been no announcement that the rating will be down-graded below the level so indicated; and
- (ii) the *firm* has no reasonable cause to believe that another "relevant agency" has rated the *security* or "equivalent debt" below the level so indicated;
- (b) is issued or fully guaranteed by-
- (i) a Zone A central government or central bank;
- (ii) a Zone B central government or central bank, provided that the security is denominated in its national currency;
- (iii) a Zone A public sector entity which represents no higher a risk than its central government ;
- (iv) an Zone A *credit institution*, provided that the security represents senior debt of the issuer;
- (v) a Zone B *credit institution*, provided that the security has a maturity of one year or less and is not part of the issuer's own funds;
- (vi) an *investment firm or recognised third country investment firm*;
- (vii) one of the following organisations—  
The African Development Bank;  
The Asian Development Bank;  
The Bank for International Settlements;  
The Caribbean Development Bank;  
The Council of Europe;  
Euratom (European Atomic Energy Community);  
Eurofina (European Company for Financing of Railroad Rolling Stock);  
The European Bank for Reconstruction and Development;  
The European Coal and Steel Community;

The European Economic Community;  
 The European Investment Bank;  
 The Inter-American Development Bank;  
 The International Bank for Reconstruction and Development (World Bank);  
 The International Finance Corporation;  
 The International Monetary Fund;  
 The Nordic Investment Bank;  
 (e) is collateralised by *securities* issued by a Zone A central government, Zone A central bank or one of the institutions listed in (a)(vii) above; or  
 (d) is issued or fully guaranteed by a company whose equity satisfies the criteria set out in section 5(b) of Appendix 49; and  
 (2) for the purposes of (1) above-  
 (a) the issuer or guarantor of the *security* is not in default as to any payment on any other *security* issued or guaranteed by it;  
 (b) in respect of any *security* of, or guaranteed by, any issuer or guarantor, "equivalent debt" means any debt which ranks pari passu with, or subordinated to, the security or (as the case may be) the guarantee; and  
 (c) in relation to any issuer or guarantor, a "relevant agency" means one of the agencies names in Appendix 34 by reference to the category of issue or guarantor;  
means a debt security which meets the conditions in 45R of appendix 4;  
means an equity which meets the conditions in 35R of appendix 5;  
means an equity index which meets the conditions in 38R of appendix 5;  
means a transaction where a physical commodity is sold forward and the cost of funding is locked in until the date of the forward sale;  
means a combination of a long (short) call option and a short (long) put option which are based on the same underlying and have the same notional amount, strike price and maturity;  
means an arrangement made before the relevant securities are issued under which a party agrees to buy a specified quantity of those in an issue of securities on a given date and at a given price, if no other has purchased or acquired them;  
means the working day on which the firm becomes unconditionally committed to accepting a known quantity of securities at an agreed price;  
means a hypothetical debt security used to represent the general interest rate risk arising from certain derivative and forward transactions;

qualifying equity

qualifying equity index

stock financing

synthetic future

underwriting

working day zero

zero specific risk security

Appendices 34 and 35 [deleted]

Appendices 49 to 54 [deleted]

## Annex D

### Additions to Chapter 10 Appendices

In this Annex, new text is being inserted and is not underlined.

Insert the following text as new IPRU(INV) Chapter 10 appendices 4 to 11 as follows:

#### Appendix 4

#### Interest rate PRR

#### General rule

- 1 R A *firm* must calculate its interest rate *PRR* by:
  - (1) identifying which positions must be included within the *PRR* calculation;
  - (2) deriving the net position in each debt *security* in accordance with 37R - 41R;
  - (3) including these net positions in the *PRR* calculation for general market risk and the *PRR* calculation for specific risk; and
  - (4) summing all *PRRs* calculated for general market risk and specific risk.
- 2 G The interest rate *PRR* calculation divides the interest rate risk into the risk of loss from a general move in market interest rates, and the risk of loss from an individual debt *security's* price changing for reasons other than a general move in market interest rates. These are called general market risk and specific risk respectively.

#### Scope of the Interest rate PRR calculation

- 3 R A *firm's* interest rate *PRR* calculation must:
  - (1) include all *trading book* positions in debt *securities*, *preference securities* and *convertibles*, except:
    - (a) positions in *convertibles* which have been included in the *firm's PRR* calculation for *equities* under appendix 5;
    - (b) positions fully deducted as *material holdings*, in which case the *firm* may exclude them; or
    - (c) positions hedging an *option* which is being treated under 26R of appendix 9; and
  - (2) include notional positions arising from *trading book* positions in the instruments listed in table 4R.
- 4 R Table: Instruments which result in notional positions (see 3R(2))

Instrument	See
<i>Futures, forwards or synthetic futures on debt securities</i>	13R
<i>Futures, forwards or synthetic futures on debt indices or baskets</i>	14R
Interest rate <i>futures</i> or <i>forward rate agreements (FRAs)</i>	18R
Interest rate <i>swaps</i> or foreign exchange <i>swaps</i>	21R
Deferred start interest rate <i>swaps</i> or foreign exchange <i>swaps</i>	24R
The interest rate leg of an <i>equity swap</i> (unless the <i>firm</i> calculates a <i>PRR</i> on the instrument using the basic interest rate <i>PRR</i> calculation in appendix 5)	27R
The cash leg of a <i>repurchase agreement</i> or a <i>reverse repurchase agreement</i>	30R
Cash borrowings or deposits	31R
<i>Options</i> or <i>warrants</i> on a <i>debt security</i> , interest rate or interest rate <i>future</i> or <i>swap</i> , or on a <i>future</i> on a <i>debt security</i> (unless the <i>firm</i> calculates a <i>PRR</i> on the <i>option</i> under appendix 9)	32R
Dual currency bonds	33R
Foreign exchange <i>futures</i> or <i>forwards</i>	34R
Gold <i>futures</i> or <i>forwards</i>	34R
<i>Forwards, futures</i> or <i>options</i> (except <i>cliquets</i> ) on an <i>equity</i> , basket of <i>equities</i> or <i>equity</i> index (unless the <i>firm</i> calculates a <i>PRR</i> on the instrument using the basic interest rate <i>PRR</i> calculation in appendix 5)	34R
Credit derivatives	Appendix 63

- 5 G 3R(1) includes a *trading book* position in *debt security*, *preference security* or *convertible* that is subsequently repo'd under a *repurchase agreement* or lent under a stock lending agreement. Clearly, if the *security* had initially been obtained via a *reverse repurchase agreement* or stock borrowing agreement, the *security* would not have been included in the *PRR* calculation in the first place.
- 6 G 3R(1) includes net *underwriting* positions or reduced net *underwriting* positions in *debt securities*.
- 7 G *Firms* are reminded that table 5R in appendix 9 divides *options* and *warrants* on interest rates, *debt securities*, interest rate *futures* and *swaps* into:

- (1) those which must be treated under appendix 9; and
  - (2) those which must be treated under either appendix 4 or appendix 9, but *firms* can choose whether appendix 4 or 9 is used.
- 8 G Cliquets on *equities*, baskets of *equities* or *equity* indices do not attract an interest rate *PRR*. Table 4R excludes them from the scope of the interest rate *PRR* calculation in this appendix, and 45R of appendix 5 excludes them from the basic interest rate *PRR* calculation in that appendix.
- 9 G Table 4R shows that *equity derivatives* are excluded from this appendix's *PRR* calculation if they have been included in the basic interest rate *PRR* calculation in appendix 5 (see 45R of appendix 5).

#### Derivation of notional positions

##### GENERAL APPROACH

- 10 G This section converts the instruments listed in table 4R into notional positions in:
- (1) the underlying debt *security*, where the instrument depends on the price (or yield) of a specific debt *security*; and/or
  - (2) hypothetical debt *securities* to capture the pure interest rate risk arising from future payments and receipts of cash (including notional payments and receipts). Because they are designed to represent pure general market risk (and not specific risk) they are called *zero-specific-risk securities*.
- 11 R For the purposes of calculating *PRR*, unless specified otherwise, a *firm* must derive the value of notional positions as follows:
- (1) notional positions in actual debt *securities* must be valued as the nominal amount underlying the contract at the current market price of the debt *security*; and
  - (2) positions in *zero-specific-risk securities* must be valued using one of the two following methods. A *firm* must use the same method for all positions denominated in the same currency:
    - (a) Present value approach: The *zero-specific-risk security* is assigned a value equal to the present value of all the future cash flows that it represents.
    - (b) Alternative approach: The *zero-specific-risk security* is assigned a value equal to:
      - (i) the market value of the underlying notional *equity* position in the case of an *equity derivative*;
      - (ii) the notional principal amount in the case of an interest rate or foreign exchange *swap*; or

- (iii) the notional amount of the future cash flow that it represents in the case of any other instrument.

12 R A *firm* must use 11R(2)(a) in respect of any positions that it includes in the duration method calculation of general market risk (see 60R).

#### FUTURES OR FORWARDS ON A DEBT SECURITY

13 R *Futures* or *forwards* on a single debt *security* must be treated as follows:

(1) A purchased *future* or *forward* is treated as:

- (a) a notional long position in the underlying debt *security* (or the cheapest to deliver (taking into account the conversion factor) where the contract can be satisfied by delivery of one from a range of *securities*); and
- (b) a notional short position in a zero coupon *zero-specific-risk security* with a maturity equal to the expiry date of the *future* or *forward*.

(2) A sold *future* or *forward* is treated as:

- (a) a notional short position in the underlying *security* (or the cheapest to deliver (taking into account the conversion factor) where the contract can be satisfied by delivery of one from a range of *securities*); and
- (b) a notional long position in a zero coupon *zero-specific-risk security* with a maturity equal to the expiry date of the *future* or *forward*.

#### FUTURES OR FORWARDS ON A BASKET OR INDEX OF DEBT SECURITIES

14 R *Futures* or *forwards* on a basket or index of debt *securities* must be converted into *forwards* on single debt *securities* as follows (and then the resulting positions are treated under 13R).

(1) *Futures* or *forwards* on a single currency basket or index of debt *securities* must be treated as either:

- (a) a series of *forwards*, one for each of the constituent debt *securities* in the basket or index, of an amount which is a proportionate part of the total underlying the contract according to the weighting of the relevant debt *security* in the basket; or
- (b) a single *forward* on a hypothetical debt *security*.

(2) *Futures* or *forwards* on multiple currency baskets or indices of debt *securities* must be treated as either:

- (a) a series of *forwards* (using the method described in (1)(a)); or

- (b) a series of *forwards*, each one on a hypothetical debt *security* to represent one of the currencies in the basket or index, of an amount which is a proportionate part of the total underlying the contract according to the weighting of the relevant currency in the basket.
- 15 G Under 14R(2)(b), a *forward* on basket of 3 Euro denominated debt *securities* and 2 Dollar denominated debt *securities* would be treated as a *forward* on a single hypothetical Euro denominated debt *security* and a *forward* on a single hypothetical Dollar denominated debt *security*.
- 16 R The hypothetical debt *securities* in 14R are assigned a specific risk *PRA* and a general market risk *PRA* equal to the highest that would apply to the debt *securities* in the basket or index.
- 17 G The debt *security* with the highest specific risk *PRA* within the basket might be a different debt *security* to that with the highest general market risk *PRA*. 16R requires a *firm* to select the highest percentages even where they relate to different debt *securities* in the basket or index, and regardless of the proportion of those debt *securities* in the basket or index.

INTEREST RATES FUTURES AND FORWARD RATE AGREEMENTS (FRAS)

- 18 R Interest rate *futures* or *FRAs* must be treated as the two notional positions (one long, one short) shown in table 19R.
- 19 R Table: Interest rate *futures* and *FRAs* (see 18R)

	1	2
	A short position in a zero coupon <i>zero-specific-risk-security</i>	A long position in a zero coupon <i>zero-specific-risk-security</i>
Where the <i>firm</i> buys an interest rate <i>future</i> or sells an <i>FRA</i>	Maturity equals the expiry date of the <i>future</i> (or settlement date of the <i>FRA</i> )	Maturity equals the expiry date of the <i>future</i> (or settlement date of the <i>FRA</i> ) plus the maturity of the borrowing/deposit
Where the <i>firm</i> sells an interest rate <i>future</i> or buys an <i>FRA</i>	Maturity equals the expiry date of the <i>future</i> (or settlement date of the <i>FRA</i> ) plus the maturity of the borrowing/deposit	Maturity equals the expiry date of the <i>future</i> (or settlement date of the <i>FRA</i> )

- 20 G The following example illustrates 18R and 19R in conjunction with 11R (the latter rule determines the value of notional positions). A *firm* sells £1mn notional of a 3v6 *FRA* at 6%. This results in:
- (1) a short position in a *zero-specific-risk-security* with a zero coupon, three month maturity, and a nominal amount of £1mn; and

- (2) a long position in a *zero-specific-risk-security* with a zero coupon, six month maturity, and nominal amount of £1,015,000 (i.e. notional plus interest at 6% over 90 days).

If a *firm* were to apply the approach in 11R(2)(a), the two nominal amounts would have to be present valued.

INTEREST RATE SWAPS OR FOREIGN EXCHANGE SWAPS

- 21 R Interest rate *swaps* or foreign exchange *swaps* without deferred starts must be treated as the two notional positions (one long, one short) shown in table 22R:
- 22 R Table: Interest rate and foreign exchange *swaps* (see 21R)

	<b>1. Paying leg</b> A short position in a <i>zero-specific-risk security</i>	<b>2. Receiving leg</b> A long position in a <i>zero-specific-risk security</i>
Receiving fixed and paying floating	coupon equals the floating rate and maturity equals the reset date	Coupon equals the fixed rate of the <i>swap</i> and maturity equals the maturity of the <i>swap</i>
Paying fixed and receiving floating	coupon equals the fixed rate of the <i>swap</i> and maturity equals the maturity of the <i>swap</i>	Coupon equals the floating rate and maturity equals the reset date
Paying floating and receiving floating	coupon equals the floating rate and maturity equals the reset date	Coupon equals the floating rate and maturity equals the reset date

- 23 G For a foreign exchange *swap*, the two notional *zero-specific-risk securities* would be denominated in different currencies. A foreign exchange *swap* is also included in the foreign exchange *PRR* calculation.

DEFERRED START INTEREST RATE SWAPS OR FOREIGN EXCHANGE SWAPS

- 24 R Interest rate *swaps* or foreign exchange *swaps* with a deferred start must be treated as the two notional positions (one long, one short) shown in table 25R.

- 25 R Table: Deferred start interest rate and foreign exchange *swaps* (see 24R)

	1. Paying leg	2. Receiving leg
	A short position in a <i>zero-specific-risk security</i> with a coupon equal to the fixed rate of the <i>swap</i>	A long position in a <i>zero-specific-risk security</i> with a coupon equal to the fixed rate of the <i>swap</i>
Receiving fixed and paying floating	maturity equals the start date of the <i>swap</i>	maturity equals the maturity of the <i>swap</i>
Paying fixed and receiving floating	maturity equals the maturity of the <i>swap</i>	maturity equals the start date of the <i>swap</i>

- 26 G For example, a *firm* enters into a five year *swap* which starts in two year's time. The *firm* has contracted to receive 6% and pay six month Libor on a principal amount of £1mn. This results in a long position in a 7 year debt *security* and a short position in a 2 year debt *security*. Both have a coupon of 6%.

SWAPS WHERE ONLY ONE LEG IS AN INTEREST RATE LEG (E.G. EQUITY SWAPS)

- 27 R A *firm* must treat a *swap* with only one interest rate leg as a notional position in a *zero-specific-risk security*:
- (1) with a coupon equal to that on the interest rate leg;
  - (2) with a maturity equal to the date that the interest rate will be reset; and
  - (3) which is a long position if the *firm* is receiving interest payments and short if making interest payments.
- 28 G 27R includes *equity swaps*, *commodity swaps* and any other *swap* where only one leg is an interest rate leg.

CASH LEGS OF REPURCHASE AGREEMENTS AND REVERSE REPURCHASE AGREEMENTS

- 29 G *Firm's* are reminded that for the purposes of 30R, a *repurchase agreement* includes a sell/buy back or stock lending; and a *reverse repurchase agreement* includes a buy/sell back or a stock borrowing.
- 30 R The forward cash leg of a *repurchase agreement*, or *reverse repurchase agreement*, must be treated as a notional position in a *zero-specific-risk security* which:

- (1) is a short notional position in the case of a *repurchase agreement*; and a long notional position in the case of a *reverse repurchase agreement*;
- (2) has a value equal to the market value of the cash leg;
- (3) has a maturity equal to that of the *repurchase agreement* or *reverse repurchase agreement*; and
- (4) has a coupon equal to:
  - (a) zero, if the next interest payment date coincides with the maturity date; or
  - (b) the interest rate on the contract, if any interest is due to be paid before the maturity date.

#### CASH BORROWINGS AND DEPOSITS

- 31 R A cash borrowing or deposit must be treated as a notional position in a zero coupon *zero-specific-risk security* which:
- (1) is a short position in the case of a borrowing and a long position in the case of a deposit;
  - (2) has a value equal to the market value of the borrowing or deposit;
  - (3) has a maturity equal to that of the borrowing or deposit, or the next date the interest rate is reset (if earlier); and
  - (4) has a coupon equal to:
    - (a) zero, if the next interest payment date coincides with the maturity date; or
    - (b) the interest rate on the borrowing or deposit, if any interest is due to be paid before the maturity date.

#### OPTIONS AND WARRANTS

- 32 R Where included in this appendix's *PRR* calculation (see table 4R), *options* and *warrants* must be treated as follows:
- (1) An *option* or *warrant* on a debt *security* must be treated as a position in that debt *security*.
  - (2) An *option* on an interest rate must be treated as a position in a zero coupon *zero-specific-risk security* with a maturity equal to the sum of the time to expiry of the *option* and the length of the period for which the interest rate is fixed.
  - (3) An *option* on an *future* – where the *future* is based on an interest rate or debt *security* – must be treated as:

- (a) a long position in that *future* for purchased call *options* and written put *options*; and
  - (b) a short position in that *future* for purchased put *options* and written call *options*.
- (4) An *option* on a *swap* must be treated as a deferred starting *swap*.

BONDS WHERE THE COUPONS AND PRINCIPAL ARE PAID IN DIFFERENT CURRENCIES

- 33 R Where a debt *security* pays coupons in one currency, but will be redeemed in a different currency, it must be treated as:
- (1) a debt *security* denominated in the coupon's currency; and
  - (2) a foreign exchange *forward* to capture the fact that the debt *security's* principal will be repaid in a different currency from that in which it pays coupons, specifically:
    - (a) a notional forward sale of the coupon currency and purchase of the redemption currency, in the case of a long position in the debt *security*; or
    - (b) a notional forward purchase of the coupon currency and sale of the redemption currency, in the case of a short position in the debt *security*.

INTEREST RATE RISK ON OTHER FUTURES, FORWARDS AND OPTIONS

- 34 R Other *futures, forwards, options* and *swaps* must be treated as positions in *zero-specific-risk securities*, each of which:
- (1) has a zero coupon;
  - (2) has a maturity equal to that of the relevant contract; and
  - (3) is long or short according to table 35R.

- 35 R Table: Interest rate risk on other *futures, forwards, options* and *swaps* (see 34R).

Instrument	Notional positions		
Foreign exchange <i>forward</i> or <i>future</i>	a long position denominated in the currency purchased	<b>and</b>	a short position denominated in the currency sold
Gold <i>forward</i> or <i>future</i>	a long position if the <i>forward</i> or <i>future</i> involves an actual (or notional) sale of gold	<b>or</b>	a short position if the <i>forward</i> or <i>future</i> involves an actual (or notional) purchase of gold
<i>Equity forward</i> or <i>future</i> , or <i>option</i> (unless a <i>PRR</i> is calculated under the basic interest rate calculation in appendix 5)	A long position if the contract involves an actual (or notional) sale of the underlying <i>equity</i>	<b>or</b>	A short position if the contract involves an actual (or notional) purchase of the underlying <i>equity</i>

Deriving the net position in each debt security

- 36 G The net position is the difference between the value of the *firm*'s long positions (including notional positions) and the value of its short positions (including notional positions) in the same debt *security*.

#### NETTING POSITIONS IN THE SAME DEBT SECURITY

- 37 R A *firm* must not net positions (including notional positions) unless:
- (1) Long and short positions are in the same debt *security*, and a debt *security* is the same as another if and only if:
    - (a) they enjoy the same rights in all respects; and
    - (b) are fungible with each other;
  - (2) Long and short positions are in different tranches of the same debt *security*, where the tranches:
    - (a) enjoy the same rights in all respects; and
    - (b) become fungible within 180 days, and thereafter the debt *security* of one tranche can be delivered in settlement of the other tranche.

NETTING THE CHEAPEST TO DELIVER SECURITY WITH OTHER DELIVERABLE SECURITIES

- 38 R A *firm* may net a short notional position in the cheapest to deliver *security* arising from a short *future* or *forward* (see 13R(2)(a)) against a long position in any deliverable *security* up to a maximum of 90% of the common nominal amounts. The residual long and short nominal amounts must be treated as separate long and short positions.
- 39 G The netting permitted by 38R only relates to where the *firm* has sold the *future* or *forward*. It does not relate to where the *firm* has bought a *future* or *forward*.

NETTING ZERO-SPECIFIC-RISK SECURITIES WITH DIFFERENT MATURITIES

- 40 R A *firm* may net a notional long position in a *zero-specific-risk security* against a notional short position in a *zero-specific-risk security* if:
- (1) they are denominated in the same currency;
  - (2) their coupons do not differ by more than 15 basis points; and
  - (3) they mature:
    - (a) on the same day, if they have residual maturities of less than one month;
    - (b) within seven days of each other, if they have residual maturities of between one month to one year; and
    - (c) within thirty days of each other, if they have residual maturities in excess of one year.

REDUCED NET UNDERWRITING POSITIONS IN DEBT SECURITIES

- 41 R A *firm* must not net a reduced net *underwriting* position in a debt *security* with any other debt *security* position.
- 42 G 41R only relates to reduced net *underwriting* positions.

Specific risk calculation

- 43 R A *firm* must calculate the specific risk *PRR* for each debt *security* by:
- (1) multiplying the market value of the individual net position (ignoring the sign) by the appropriate *PRA* from table 44R; and
  - (2) converting this amount into the *firm's base currency* at prevailing spot foreign exchange rates.

44 R Table: specific risk *PRAs* (see 43R).

<b>Issuer</b>	<b>Residual maturity</b>	<b><i>PRA</i></b>
An issue of, or fully guaranteed by, or fully collateralised by a <i>Zone A</i> central government or central bank or the European Communities	Any	0%
An issue of, or fully guaranteed by, a <i>Zone B</i> central government or central bank denominated in the local currency	Zero to 12 months	0%
Other <i>qualifying debt securities</i> (see 46R)	Zero to 6 months	0.25%
	6 to 24 months	1%
	Over 24 months	1.6%
<i>Non-qualifying debt securities</i>	Any	8%

45 G 43R includes both actual and notional positions. However, notional positions in *zero-specific-risk securities* do not attract specific risk. For example:

- (1) Interest rate *swaps*, foreign exchange *swaps*, *FRAs*, interest rate *futures*, foreign exchange *forwards*, foreign exchange *futures*, and the cash leg of *repurchase agreements* and *reverse repurchase agreements* create notional positions which will not attract specific risk; whilst
- (2) *Futures*, *forwards* and *swaps* which are based on the price (or yield) of one or more debt *securities* will create at least one notional position that attracts specific risk.

#### DEFINITION OF A QUALIFYING DEBT SECURITY

46 R A debt *security* is a *qualifying debt security* if:

- (1) it attracts zero specific risk under table 44R; or
- (2) it is issued by, or fully guaranteed by:
  - (a) a *Zone B* central government or central bank and the *security* is denominated in the local currency of the issuer;
  - (b) a *multilateral development bank*;

- (c) a *Zone A* public sector entity;
  - (d) a company whose *equity* is a constituent of one of the indices making up the FTSE All-World Index; or
  - (e) an issue of, or fully guaranteed by an *investment firm* or *recognised third-country investment firm*.
- (3) it is issued by, fully guaranteed by, endorsed or accepted by:
- (a) a *credit institution* incorporated in a *Zone A* country; or
  - (b) a *credit institution* incorporated in a *Zone B* country and the debt *security* has a residual maturity of one year or less.
- (4) it is a mortgage backed *security* which meets the criteria in 7e of section 3.2.5 of chapter BC of IPRU(Bank).
- (5) it is rated by at least one of the agencies shown in table 47R, and every such rating equals or exceeds the corresponding minimum shown in that table.

47 R Table: minimum ratings for *qualifying debt securities* (see 46R(5)).

Issuer	Rating agency	Minimum Rating	
		<i>Securities</i>	Money Market Obligations
Any	Moody's Investors Service	Baa3	P3
	Standard & Poor's Corporation	BBB-	A3
	FITCH Ratings Ltd	BBB-	F-3
Canadian	Canadian Bond Rating Service	B++low	A-3
	Dominion Bond Rating Service	BBB low	R-2
Japanese	Japan Credit Rating Agency, Ltd	BBB-	J-2
	Mikuno & Co	BBB	M-3
	Japan Rating & Investment Information Inc	BBB-	a-2

General market risk calculation

48 R A *firm* must calculate the general market risk *PRR* for each currency using either:

- (1) the simplified maturity method;
- (2) the maturity method; or

- (3) the duration method (subject to 50R).
- 49 R A *firm* must convert all general market risk *PRRs* into its *base currency* using prevailing foreign exchange spot rates.
- 50 R A *firm* must not use the duration method for index-linked *securities*. Instead, these *securities* must:
- (1) be attributed a coupon of 3%; and
  - (2) treated separately under either the simplified maturity method or the maturity method.

#### SIMPLIFIED MATURITY METHOD

- 51 G The simplified maturity method weights individual net positions to reflect their price sensitivity to changes in interest rates. The weights are related to the coupon and the residual maturity of the instrument (or the next interest rate re-fix date for floating rate items).
- 52 R Under the simplified maturity method, the *PRR* for general market risk equals the sum of each individual net position (long or short) multiplied by the appropriate *PRA* in table 53R.
- 53 R Table: general market risk *PRAs* (see 52R).

Zone	Maturity band		<i>PRA</i>
	Coupon of 3% or more	Coupon of less than 3%	
One	$0 \leq 1$ month	$0 \leq 1$ month	0.00%
	$> 1 \leq 3$ months	$> 1 \leq 3$ months	0.20%
	$> 3 \leq 6$ months	$> 3 \leq 6$ months	0.40%
	$> 6 \leq 12$ months	$> 6 \leq 12$ months	0.70%
Two	$> 1 \leq 2$ years	$> 1.0 \leq 1.9$ years	1.25%
	$> 2 \leq 3$ years	$> 1.9 \leq 2.8$ years	1.75%
	$> 3 \leq 4$ years	$> 2.8 \leq 3.6$ years	2.25%
Three	$> 4 \leq 5$ years	$> 3.6 \leq 4.3$ years	2.75%
	$> 5 \leq 7$ years	$> 4.3 \leq 5.7$ years	3.25%
	$> 7 \leq 10$ years	$> 5.7 \leq 7.3$ years	3.75%
	$> 10 \leq 15$ years	$> 7.3 \leq 9.3$ years	4.50%
	$> 15 \leq 20$ years	$> 9.3 \leq 10.6$ years	5.25%
	$> 20$ years	$> 10.6 \leq 12.0$ years	6.00%
		$> 12.0 \leq 20.0$ years	8.00%
		$> 20$ years	12.50%

## THE MATURITY METHOD

- 54 G The maturity method builds on the simplified maturity method by partially recognising offsetting positions. 57G provides an illustration of the maturity method.
- 55 R Under the maturity method, the *PRR* for general market risk is calculated as follows:
- (1) Step 1: each net position is allocated to the appropriate maturity band in table 53R and multiplied by the corresponding *PRA*.
  - (2) Step 2: weighted long and short positions are matched within:
    - (a) the same maturity band;
    - (b) the same zone (using unmatched positions from (a)); and
    - (c) different zones (using unmatched positions from (b)).
  - (3) Step 3: the *PRR* for general market risk is the sum of:
    - (a) 10% of the total amount matched within maturity bands;
    - (b) 40% of the amount matched within zone 1 under (2)(b);
    - (c) 30% of the amount matched within zones 2 & 3 under (2)(b);
    - (d) 40% of the amounts matched between zones 1 and 2, and between zones 2 and 3;
    - (e) 150% of the amount matched between zones 1 and 3; and
    - (f) 100% of the weighted positions remaining unmatched after (2)(c);
- 56 G Table 53R distinguishes between debt *securities* with a coupon of less than 3% and those with coupon in excess of 3%. However, this doesn't mean that the *firm* has to do a separate general market risk calculation for each, it merely ensures that when allocating debt *securities* to a particular band, their coupons are taken into account as well as their maturities. So for example, a 21 year 6% debt *security* falls into the same band as an 11 year 2% debt *security*. They are both weighted at 6%, and can be matched under the first part of step two because they fall within the same band.

57 G An example of the maturity method calculation. In this example, a *firm* with a £ sterling *base currency* is processing its euro denominated positions.

Weight each position

Match weighted positions

Calculate the general market risk

Zone	Totals of:		PRA		Weighted longs within each band	Weighted shorts within each band
	net longs within the band	net shorts within the band				
1	€100	€50	0.00%		0	0

Matched between zones 1&3	0	@	150%	=	0
Unmatched after 2(c)	16.30	@	100%	=	16.30
<b>total = € 23.90</b>					
<b>general market risk PRR (if €1=£0.60) = £14.34</b>					

## DURATION METHOD

- 58 G The duration method produces a more accurate measure of interest rate risk than the maturity methods but it is also more complex to calculate.
- 59 R *Firms* must use the following formula to calculate modified duration:

$$\text{Modified Duration} = \frac{D}{(1+r)} \qquad D = \frac{\sum_{t=1}^m \frac{tC_t}{(1+r)^t}}{\sum_{t=1}^m \frac{C_t}{(1+r)^t}}$$

Where:  $C_t$  = cash payment at time  $t$   
 $m$  = total maturity

$r$  = yield to maturity, based on the current mark to market of the debt *security*. In the case of a floating rate instrument, this is calculated on the assumption that the principal is due on the date that the interest rate can next be changed

$t$  = time

- 60 R Under the duration method, the *PRR* for general market risk is calculated as follows:
- (1) Step 1: allocate each net position to the appropriate duration zone in table 61R and multiply it by:
    - (a) its modified duration (using the formula in 59R); and
    - (b) the appropriate assumed interest rate change in table 61R.
  - (2) Step 2: match weighted long and short positions:
    - (a) within zones; and
    - (b) across zones (using unmatched positions from (2)(a)); and
  - (3) Step 3: calculate the general market risk as the sum of:
    - (a) 100% of the weighted positions remaining unmatched after (2)(b);
    - (b) 2% of the matched weighted position in each zone;
    - (c) 40% of the matched weighted position between zones 1 and 2, and between zones 2 and 3; and
    - (d) 150% of the matched weighted position between zones 1 and 3.

61 R Table: Assumed interest rate change in the duration method (see 60R).

Zone	Modified Duration	Assumed interest rate change (percentage points)
1	$0 \leq 12$ months	1.00
2	$> 12$ months $\leq 3.6$ years	0.85
3	$> 3.6$ years	0.70

## Appendix 5

### Equity PRR

#### General rule

- 1 R A *firm* must calculate its *equity PRR* by:
- (1) identifying which *equity* positions must be included within the scope of the *PRR* calculation (see 2R);
  - (2) deriving the net position in each *equity* in accordance with 23R;
  - (3) including each of those net positions in either the simplified equity method (see 29R) or, subject to 27R, the standard equity method (see 32R); and
  - (4) summing the *PRR* on each net position as calculated under the simplified and standard equity methods.

#### Scope of the Equity PRR calculation

- 2 R A *firm's equity PRR* calculation must:
- (1) Include all *trading book* positions in *equities*, unless:
    - (a) the position is fully deducted as a *material holding*, in which case the *firm* may exclude it;
    - (b) the position is hedging an *option* or *warrant* which is being treated under 26R of appendix 9; and
  - (2) include notional positions arising from *trading book* positions in the instruments listed in table 3R.
- 3 R Table: Instruments which result in notional positions (see 2R(2))

Instrument	See
Depository receipts	12R
<i>Convertibles</i> where: (a) the <i>convertible</i> is trading at a market price of less than 110% of the underlying <i>equity</i> ; and the first date at which conversion can take place is less than three months ahead, or the next such date (where the first has passed) is less than a year ahead; or (b) the conditions in (a) are not met but the <i>firm</i> includes the <i>convertible</i> in its <i>equity PRR</i> calculation rather than including it in its interest rate <i>PRR</i>	13R

	calculation set out in appendix 4.	
	<i>Futures, forwards, CFDs and synthetic futures on a single equity</i>	14R
	<i>Futures, forwards, CFDs and synthetic futures on a basket of equities or equity index</i>	15R
	<i>Equity legs of an equity swap</i>	19R
	<i>Options or warrants on a single equity, an equity future, a basket of equities or an equity index (unless the firm calculates a PRR on the option or warrant under appendix 9).</i>	21R

- 4 G 2R(1) includes a *trading book* position in an *equity* that is subsequently repo'd under a *repurchase agreement* or lent under a stock lending agreement. Clearly, if the *equity* had initially been obtained via a *reverse repurchase agreement* or stock borrowing agreement, the *equity* would not have been included in the *trading book* in the first place.
- 5 G 2R(1) includes net *underwriting* positions, or reduced net *underwriting* positions in *equities*. 27R requires *firms* to use the simplified equity method in the case of reduced net *underwriting* positions. In the case of net *underwriting* positions that haven't been reduced according to 24R of appendix 7, there is no such restriction; a *firm* can choose which of the two equity methods to use.
- 6 G *Firms* are reminded that table 5R in appendix 9 divides *equity options* and *warrants* into:
- (1) those which must be treated under appendix 9; and
  - (2) those which must be treated under either appendix 5 or appendix 9, but *firms* can choose whether appendix 5 or 9 is used.
- 7 G Table 3R doesn't require every *convertible* to be included in this appendix's *PRR* calculation. Where a *convertible* is not included in this appendix's *PRR* calculation, 3R(1)(a) of appendix 4 requires that it is included in the appendix 4 *PRR* calculation.
- 8 G Some of the instruments listed in table 3R are also included in a *firm's* interest rate *PRR* calculation. For simplicity, a *firm* may use the interest rate *PRR* calculation at the end of this appendix rather than the calculation in appendix 4. 44G explains this in more detail.

## Derivation of notional positions

- 9 G This section converts the instruments listed in table 3R into notional positions in individual *equities*, *equity* baskets or *equity* indices.

### GENERAL RULE

- 10 R Unless specified otherwise, the value of each notional *equity* position equals the quantity of that *equity* underlying the instrument multiplied by the current market value of the *equity*.
- 11 G For example, the current market value of a particular *equity* is £2.50. If a *firm* contracts to sell this *equity* in five year's time for £3 it would treat the notional short *equity* position as having a value of £2.50 when calculating the *equity PRR*.

In effect, the forward position has been treated as being equivalent to a spot position for the purposes of calculating *equity PRR*. To capture the risk that the forward price changes relative to the spot price, forward *equity* positions are included in the *firm's* interest rate *PRR* calculation (see 45R of this appendix or table 4R of appendix 4).

### DEPOSITORY RECEIPTS

- 12 R A depository receipt must be treated as a notional position in the underlying *equity*.

### CONVERTIBLES

- 13 R Where a *convertible* is included in this appendix's *PRR* calculation (see table 3R):
- (1) it must be treated as a position in the *equity* into which it converts; and
  - (2) the *firm's equity PRR* must be adjusted by making:
    - (a) an addition equal to the current value of any loss which the *firm* would make if it did convert to *equity*; or
    - (b) a deduction equal to the current value of any profit which the *firm* would make if it did convert to *equity* (subject to a maximum deduction equal to the *PRR* on the notional position underlying the *convertible*).

### FUTURES, FORWARDS AND CFDS ON A SINGLE EQUITY

- 14 R A *future*, *forward* or *CFD* on a single *equity* must be treated as a notional position in that *equity*.

### FUTURES, FORWARDS AND CFDS ON EQUITY INDICES OR BASKETS

- 15 R A *future*, *forward* or *CFD* on an *equity* index or basket must be treated as either:
- (1) a position in each of the underlying *equities*; or
  - (2) the positions shown in table 16R.

16 R Table: *equity* index or basket contracts (see 15R(2))

	Under the simplified equity method (29R)	Under the standard equity method (32R)
Only one country in the index or basket (see 32R)	One position in the index or basket	One position in the index or basket
More than one country in the index or basket	One position in the index or basket	Several notional basket positions, one for each country Or One notional basket position in a separate, hypothetical country

17 G For example, a *firm* decides to treat a FTSE Eurotop 300 *future* under the standard equity method, and furthermore, chooses to treat it as one notional position. Table 16R requires that this notional position must be treated as if it were from a separate hypothetical “country” rather than any of the countries to which the underlying *equities* are from.

18 R The notional positions created under 15R have the following values:

- (1) where only one notional position is created, it has a value equal to the total market value of the *equities* underlying the contract; or
- (2) where more than one notional position is created, each one has a value which reflects the relevant *equity's* or country's contribution to total market value of the *equities* underlying the contract.

#### EQUITY LEGS OF EQUITY SWAPS

19 R The *equity* leg of an *equity swap* must be treated as a position in the underlying *equity*, *equity* basket or *equity* index, which is:

- (1) long, if the *firm* has contracted to receive any increase and pay any decrease in the value of the underlying *equities* or *equity* index; and
- (2) short, if the *firm* has contracted to receive any decrease and pay any increase in the value of the underlying *equities* or *equity* index.

20 G The interest rate leg of an *equity swap* is included in a *firm's* interest rate *PRR* calculation (see table 4R of appendix 4).

#### OPTIONS

- 21 R If included in this appendix's *PRR* calculation (see table 3R), *options* must be treated as follows:
- (1) an *option* on a single *equity* must be treated as a notional position in that *equity*;
  - (2) an *option* on a basket of *equities* or *equity* index must be treated as a *future* on that basket or index; and
  - (3) an *option* on an *equity future* must be treated as:
    - (a) a long position in that *future*, for purchased *call options* and written *put options*; and
    - (b) a short position in that *future*, for purchased *put options* and written *call options*.

#### Deriving the net position in each equity

- 22 G The net position is the difference between the value of the *firm*'s long positions (including notional positions) and the value of its short positions (including notional positions) in the same *equity*.
- 23 R When deriving the net position in each *equity*, a *firm* must not net long and short positions unless:
- (1) they are positions in the same *equity*. Two *equities* are the same if:
    - (a) they enjoy the same rights in all respects; and
    - (b) are fungible with each other; or
  - (2) they are positions in different tranches of the same *equity* and the tranches:
    - (a) enjoy the same rights in all respects; and
    - (b) become fungible for each other within 180 days, and thereafter the *equity* of one tranche can be delivered in settlement of the other tranche.
- 24 R A *firm* must not net a reduced net *underwriting* position with any other *equity* position.
- 25 G 24R only relates to reduced net *underwriting* positions.

#### Simplified and standard equity methods

- 26 G 1R(3) requires that the net position in each *equity* is included in either the simplified equity method or the standard equity method, though indicates that this choice is subject to the restriction in 27R. A *firm* does not have to use the same method for all *equities*.
- 27 R A *firm* must use the simplified equity method for reduced net *underwriting* positions.

- 28 G A *firm* may use either method for a net *underwriting* position; 27R only relates to reduced net *underwriting* positions.

SIMPLIFIED EQUITY METHOD

- 29 R Under the simplified method, the *PRR* for each *equity*, *equity* index, or *equity* basket equals the market value of the net position (ignoring the sign) multiplied by the appropriate *PRA* from table 30R. The result must be converted into the *firm's* base currency at current spot foreign exchange rates.
- 30 R Table: simplified equity method *PRAs* (see 29R)

	PRA
Single <i>equities</i>	12%
<i>Qualifying equity indices</i> (see 38R)	8%
All other <i>equity</i> indices or baskets	12%

STANDARD EQUITY METHOD

- 31 G The standard equity method divides the risk of loss from a *firm's* *equity* positions into the risk of loss from a general move in that country's *equity* market and the risk of loss from an individual *equity's* price changing relative to that country's *equity* market. These are called general market risk and specific risk respectively.
- 32 R Under the standard equity method, a *firm* must:
- (1) Group *equity* positions into country portfolios as follows:
    - (a) A position in an individual *equity* belongs to:
      - (i) the country it is listed in;
      - (ii) any of the countries it is listed in, if more than one; or
      - (iii) the country it was issued from, if unlisted.
    - (b) A position in *equity* basket or index that is treated under 15R(2), is allocated to one or more country portfolios based on the countries to which the underlying *equities* belong to under (a) above.
  - (2) Sum:
    - (a) the *PRRs* for specific risk calculated under 33R; and
    - (b) the *PRRs* for general market risk for each country portfolio as calculated under 41R and 42R.

STANDARD EQUITY METHOD: SPECIFIC RISK

- 33 R Under the standard equity method, a *firm* must calculate a *PRR* for specific risk based on the net position in each *equity*, *equity* index or *equity* basket by:
- (1) multiplying its market value (ignoring the sign) by the appropriate *PRA* from table 34R; and
  - (2) converting it into the *firm's base currency* using current spot foreign exchange rates.

- 34 R Table: *PRAs* for specific risk under the standard approach (see 33R(1))

	<b>PRA</b>
<i>Qualifying equities</i> (see 35R)	2%
<i>Qualifying equity indices</i> (see 38R)	0%
All other <i>equities</i> , <i>equity</i> indices or <i>equity</i> baskets	4%

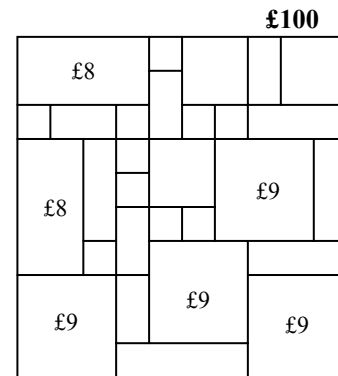

- 35 R For the purposes of table 34R, a *qualifying equity* is one which:
- (1) belongs to a country portfolio where:
    - (a) no individual position exceeds 10% of the portfolio's gross value; and
    - (b) the sum of positions (ignoring the sign) which individually represent between 5% and 10% of the portfolio's gross value, does not exceed 50% of the portfolio's gross value; and
  - (2) is a constituent of an index in table 39R.

- 36 G The following example illustrates 35R(1). A country portfolio has a gross value of £100 and is made up of positions in 29 different *equities* (some are long positions, others are short positions). Not all the *equities* are constituents of an index used to create the FT All-World Index (this criterion only becomes relevant once a *firm* has determined whether the country portfolio meets the test in 35R(1)).

Six positions exceed the 5% threshold. The diagram below shows the composition of the portfolio.

Part (a): the portfolio meets the first part of the test because no individual position is worth more than 10% of the portfolio's value.

Part (b): the portfolio fails the second part of the test because the sum (ignoring the sign) of the six relevant positions is £52; this exceeds 50% of the portfolio's value.

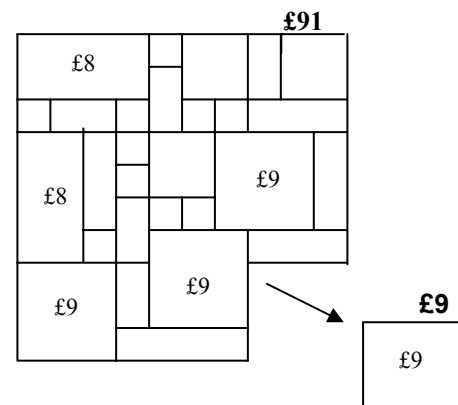

- 37 G A country portfolio can be split into two sub-portfolios if this enables one sub-portfolio to meet the requirements in 35R. Individual positions may be sub-divided between sub-portfolios.

Continuing the example above, one of the largest positions is taken out of the portfolio and put into a new portfolio. The new portfolio fails the two tests, but the amended portfolio meets both tests:

Part (a): no single remaining position exceeds £9.10.

Part (b): the sum of the five relevant positions is £43, this is less than 50% of the new portfolio's value of £91.

- 38 R A *qualifying equity index* is one which:

- (1) is listed in table 39R; or
- (2) is not listed in table 39R, but is constructed such that:
  - (a) it contains at least 20 *equities*;
  - (b) no single *equity* represents more than 20% of the total index; and
  - (c) no five *equities* combined represent more than 60% of the total index.

39 R Table: *Qualifying equity indices* (see 38R)

Qualifying equity indices	
Australia	All Ordinaries
Austria	Austrian Traded Index
Belgium	BEL 20
Canada	TSE 35, TSE 100, TSE 300
France	CAC 40, SBF 250
Germany	DAX
European	Dow Jones Stoxx 50 Index, FTSE Eurotop 300, MSCI Euro Index
Hong Kong	Hang Seng 33
Italy	MIB 30
Japan	Nikkei 225, Nikkei 300, TOPIX
Korea	Kospi
Netherlands	AEX
Singapore	Straits Times Index
Spain	IBEX 35
Sweden	OMX
Switzerland	SMI
UK	FTSE 100, FTSE Mid 250, FTSE All Share
US	S&P 500, Dow Jones Industrial Average, NASDAQ Composite, Russell 2000

#### STANDARD EQUITY METHOD: GENERAL MARKET RISK

40 R Under the standard equity method, a *firm* must apply approach one to each country portfolio (or part portfolio) unless the conditions in 42R are met, in which case the *firm* may instead apply approach two to the relevant country portfolios (or part portfolios).

#### APPROACH ONE: NO OFFSET BETWEEN DIFFERENT COUNTRY PORTFOLIOS

41 R Under approach one, the *PRR* for general market risk equals the net value (ignoring the sign) of the country portfolio multiplied by 8%. It must be converted into the *firm's base currency* using current spot foreign exchange rates.

#### APPROACH TWO: LIMITED OFFSET BETWEEN DIFFERENT COUNTRY PORTFOLIOS

42 R Under approach two, the *PRR* for general market risk is calculated using the following formula:

$$\sqrt{(8\% * CP_1)^2 + (8\% * CP_2)^2 + (8\% * CP_3)^2 + \dots + (8\% * CP_n)^2}$$

where  $CP_i$  denotes the net value of *i*th country portfolio (converted to the *firm's base currency* using current spot foreign exchange rates), and:

- (1) at least four country portfolios are included (that is:  $n \geq 4$ );
- (2) only country portfolios for countries which are full members of the *OECD*, Hong Kong or Singapore are included;
- (3) no individual country portfolio comprises more than 30% of the total gross value of country portfolios included; and
- (4) the total net value of country portfolios included equals zero, that is:

$$\sum_1^n CP_i = 0$$

- 43 G In order to meet 42R(4), it is likely that part of a country portfolio will have to be excluded from approach two (and therefore included in approach one), even if that country portfolio meets (1) to (3).

#### Basic interest rate PRR calculation for equity instruments

- 44 G A basic *PRR* calculation is included in this appendix for those *firms* that do not wish to use the calculation in appendix 4. However, it tends to result in higher charges than the methods in appendix 4, largely because the interest rate *PRR* is calculated on each notional equity position separately and then summed without offsetting long and short positions.
- 45 R Where a *firm* does not include a *forward*, *future*, or *option* (except cliquets) or *swap* on an *equity*, basket of *equities* or *equity* index in its appendix 4 *PRR* calculation, it must calculate an interest rate *PRR* as follows:
- (1) multiplying the market value of the notional *equity* position underlying the instrument by the appropriate percentage from table 47R; and
  - (2) summing the results from (1), ignoring the sign.
- 46 G Cliquets on *equities*, baskets of *equities* or *equity* indices do not attract an interest rate *PRR*. 45R excludes them from the basic interest rate *PRR* calculation and table 4R excludes them from the scope of the interest rate *PRR* calculation in appendix 4.

- 47 R Table: Percentages used in the basic interest rate *PRR* calculation for *equity* instruments (see 45R(1)).

<b>Time to expiration</b>	<b>Percentage</b>
$0 \leq 3$ months	0.20
$> 3 \leq 6$ months	0.40
$> 6 \leq 12$ months	0.70
$> 1 \leq 2$ years	1.25
$> 2 \leq 3$ years	1.75
$> 3 \leq 4$ years	2.25
$> 4 \leq 5$ years	2.75
$> 5 \leq 7$ years	3.25
$> 7 \leq 10$ years	3.75
$> 10 \leq 15$ years	4.50
$> 15 \leq 20$ years	5.25
$> 20$ years	6.00

## Appendix 6

### Commodity PRR

#### General rule

- 1 R A *firm* must calculate its *commodity PRR* by:
- (1) identifying which *commodity* positions must be included within the scope of the *PRR* calculation (see 2R);
  - (2) calculating an individual *PRR* for each *commodity* (see 20R);
  - (3) converting each *PRR* to the *firm's base currency* at current spot foreign exchange rates; and
  - (4) summing the resulting individual *PRRs*.

#### Scope of the commodity PRR calculation

- 2 R A *firm's commodity PRR* calculation must, regardless of whether the positions concerned are *trading book* or *non-trading book* positions:
- (1) include *physical commodity* positions;
  - (2) include notional positions arising from positions in the instruments listed in table 4R; and
  - (3) exclude positions constituting a *stock financing* transaction.
- 3 G Gold positions are excluded from the scope of the *commodity PRR*. Instead, they are included within the scope of the foreign exchange *PRR* (Appendix 8).
- 4 R Table: Instruments which result in notional positions (see 2R(3))

<i>Forwards, futures, CFDs, synthetic futures and options</i> on a single <i>commodity</i> (unless the <i>firm</i> calculates an <i>PRR</i> on the <i>option</i> under appendix 9)	8R
A commitment to buy or sell a single <i>commodity</i> at an average of spot prices prevailing over some future period	10R
<i>Forwards, futures, CFDs, synthetic futures and options</i> on a <i>commodity index</i> (unless the <i>firm</i> calculates an <i>PRR</i> on the <i>option</i> under appendix 9)	13R – 14R
<i>Commodity swaps</i>	16R – 17R

- 5 G 2R includes a *trading book* position in an *commodity* that is subsequently repo'd under a *repurchase agreement* or lent under a stock lending agreement. Clearly, if the *commodity* had initially been obtained via a *reverse repurchase agreement* or stock borrowing agreement, the *commodity* would not have been included in the *trading book* in the first place.
- 6 G *Firms* are reminded that table 5R in appendix 9 divides *commodity options* into:
- (1) those which must be treated under appendix 9; and
  - (2) those which must be treated under either appendix 6 or appendix 9, but *firms* can choose whether appendix 6 or 9 is used.

#### Derivation of notional positions

- 7 G This section converts the instruments listed in table 4R into notional positions in the relevant *commodities*. These notional positions are expressed in terms of quantity (tonnes, barrels, etc), not value. The maturity of the position is only relevant where the *firm* is using the maturity ladder approach or the modified maturity ladder approach.

#### Futures, forwards, CFDs and options on a single commodity

- 8 R Where a *forward, future, CFD, synthetic future* or *option* (unless already included in the *firm's option PRR* calculation) settles according to:
- (1) the difference between the price set on trade date and that prevailing at contract expiry, the notional position:
    - (a) equals the total quantity underlying the contract; and
    - (b) has a maturity equal to the expiry date of the contract
  - (2) the difference between the price set on trade date and the average of prices prevailing over a certain period up to contract expiry, there is a notional position for each of the reference dates used in the averaging period to calculate the average price, which:
    - (a) equals a fractional share of the total quantity underlying the contract; and
    - (b) has a maturity equal to the relevant reference date.
- 9 G The following example illustrates 8R(2). A *firm* buys a Traded Average Price Option (TAPO - a type of Asian option) allowing it to deliver 100 tonnes of Grade A copper and receive \$1,750 in June. If there were twenty *business days* in June the short notional positions will each:
- (1) equal 5 tonnes per day (1/20 of 100 tonnes); and
  - (2) have a maturity equal to one of the *business days* in June (one for each day).

In this example as each *business day* in June goes by the quantity per day for the remaining days does not change (5 tonnes per day) only the days remaining changes. Therefore, halfway through June there are 10, 5 tonne short notional positions remaining each for the ten remaining *business days* in June.

Buying or selling a single commodity at an average of spot prices prevailing in the future

- 10 R Commitments to buy or sell at the average spot price of the *commodity* prevailing over some period between trade date and maturity must be treated as a combination of:
- (1) a position equal to the full amount underlying the contract with a maturity equal to the maturity date of the contract which is:
    - (a) long, where the *firm* will buy at the average price; or
    - (b) short, where the *firm* will sell at the average price
  - (2) a series of notional positions, one for each of the reference dates where the contract price remains unfixed, each of which:
    - (a) is long if the position under (1) is short, or short if the position under (1) is long;
    - (b) equals a fractional share of the total quantity underlying the contract; and
    - (c) has a maturity date of the relevant reference date.

- 11 G The following guidance provides an example of 10R.

In January, a *firm* agrees to buy 100 tonnes of copper for the average spot price prevailing during the 20 *business days* in February, and will settle on 30 June. After entering into this agreement, the *firm* faces the risk that the average price for February increases relative to that for 30 June. Therefore, as highlighted in the table below:

- (1) the short positions reflect the fact that this could occur because any one of the remaining forward prices for February increase; and
  - (2) the long position reflects the fact that this loss could occur because the forward price for 30 June falls.
- 12 G Table: Example of buying at the average spot price prevailing in the future (see 11G)

	Application of 10R(1)	Application of 10R(2)
From trade date to start of averaging period	Long position in 100 tonnes of copper with a maturity of 30 June.	A series of 20 notional short positions each equal to 5 tonnes of copper. Each position is allocated a maturity equal to one of the <i>business days</i> in February (one for each day).
During averaging period	Long position in 100 tonnes of copper with a maturity of 30 June.	As each <i>business day</i> goes by in February the price for 5 tonnes of copper is fixed and so there will be one less notional short position.
After averaging period	Long position in 100 tonnes of copper with a maturity of 30 June.	No short positions.

#### Futures, CFDs and options on a commodity index

- 13 R *Commodity index futures and commodity index options* (unless the *option* is included in the *firm's option PRR* calculation), must be treated as follows:
- (1) Step 1: The total quantity underlying the contract must be either:
    - (a) treated as a single notional *commodity* position (separate from all other *commodities*); or
    - (b) divided into notional positions, one for each of the constituent *commodities* in the index, of an amount which is a proportionate part of the total underlying the contract according to the weighting of the relevant *commodity* in the index.
  - (2) Step 2: Each notional position determined in step 1 must then be included:
    - (a) when using the simplified approach (24R), without adjustment; or
    - (b) when using the maturity ladder (25R) or modified maturity ladder approach (30R), with the adjustments in table 32R.
- 14 R Table: Treatment of *commodity index futures* and *commodity index options* (see 13R(2)(b)).

Construction of index	Notional position (or positions) and maturity
Spot level of index is based on the spot price of each constituent <i>commodity</i>	Each quantity determined in step 1 is assigned a maturity equal to the expiry date of the contract.
Spot level of index is based on an average of the forward prices of each constituent <i>commodity</i>	Each quantity determined in step 1 is divided (on a pro-rata basis) into a series of forward positions to reflect the impact of each forward price on the level of the index. The maturity of each forward position equals the maturity of the relevant forward price determining the level of the index when the contract expires.

- 15 G An example of using 13R and table 14R is as follows. A *firm* is long a three-month *commodity index future* where the spot level of the index is based on the one, two and three month forward prices of aluminium, copper, tin, lead, zinc and nickel (18 prices in total).

Step 1: the *firm* must decide whether to treat the full quantity underlying the contract as a single notional *commodity* position, or disaggregate it into notional positions in aluminium, copper, tin, lead, zinc and nickel. In this case the firm decides to disaggregate the contract into notional positions in aluminium, copper, tin, lead, zinc and nickel.

Step 2: if the *firm* uses the simplified method, nothing more need be done to arrive at the notional position. In this case the *firm* uses the maturity ladder approach and so subdivides each position in each metal into three because the level of the index is based on the prevailing one, two and three month forward prices. Since the *future* will be settled in three months' time at the prevailing level of the index, the three positions for each metal will have maturities of four, five and six months respectively.

#### Commodity swaps

- 16 R A *firm* must treat a *commodity swap* as a series of notional positions, one position for each payment under the *swap*, each of which:
- (1) equals the total quantity underlying the contract;
  - (2) has a maturity corresponding to the payment date; and
  - (3) is long or short according to 17R.
- 17 R Table: Treatment of *commodity swaps* (see 16R)

	Receiving amounts which are unrelated to any <i>commodity's</i> price	Receiving the price of <i>commodity 'b'</i>
--	---	---

Paying amounts which are unrelated to any <i>commodity's</i> price	N/A	Long positions in <i>commodity</i> 'b'
Paying the price of <i>commodity</i> 'a'	Short positions in <i>commodity</i> 'a'	Short positions in <i>commodity</i> 'a' and long positions in <i>commodity</i> 'b'

- 18 G Table 17R shows that where the legs of the *swap* are in different *commodities*, a series of forward positions are created for each *commodity* (that is, a series of short positions in *commodity* 'a' and a series of long positions in *commodity* 'b').
- 19 G Table 17R also covers the case where one leg is unrelated to any *commodity's* price. This leg may be subject to a *PRR* under another appendix; for example, an interest rate based leg would have to be included in a *firm's* interest rate *PRR* calculation.

#### Calculating the *PRR* for each commodity

- 20 R A *firm* must calculate a *PRR* for each *commodity* separately using either the simplified approach (24R), the maturity ladder approach (25R) or the modified maturity ladder approach (30R).
- 21 G A *firm* need not use the same approach for all *commodities*.
- 22 R A *firm* must treat positions in different grades or brands of the same *commodity*-class as different *commodities* unless they:
- (1) can be delivered against each other; or
  - (2) have price movements which have exhibited a stable correlation coefficient of at least 0.9 over the last 12 months. The *firm* must then monitor the correlation on a continuing basis
- 23 R If a *firm* intends to rely on the approach in 22R(2) it must:
- (1) notify the *FSA* in writing at least twenty *business days* prior to the date the *firm* starts relying on it.
  - (2) when it notifies the *FSA* under (1) the *firm* must also provide to the *FSA* the analysis of price movements on which it relies.

#### SIMPLIFIED APPROACH

- 24 R A *firm* which calculates *PRR* using the simplified approach must do so by summing:
- (1) 15% of the net position multiplied by the spot price for the *commodity*; and

- (2) 3% of the gross position (long plus short, ignoring the sign) multiplied by the spot price for the *commodity*.

**Maturity ladder approach**

- 25 R A *firm* using the maturity ladder approach must calculate the *PRR* following the steps in 26R and then sum all spread charges, carry charges and outright charges that result.
- 26 R The *firm* must calculate the charges referred to in 25R as follows:
- (1) Step 1: Offset long and short positions maturing:
    - (a) on the same day; or
    - (b) (in the case of positions arising under contracts traded in markets with daily delivery dates) within 10 *business days* of each other.
  - (2) Step 2: Allocate the positions remaining after step 1 to the appropriate maturity band in table 28R (*physical commodity* positions are allocated to band 1).
  - (3) Step 3: Match long and short positions within each band. In each instance, calculate a spread charge equal to the matched amount multiplied first by the spot price for the *commodity* and then by the spread rate of 3%.
  - (4) Step 4: Carry unmatched positions remaining after step 3 to another band where they can be matched, then match them. Do this until all matching possibilities are exhausted. In each instance, calculate:
    - (a) a carry charge equal to the carried position multiplied by the spot price for the *commodity*, the carry rate of 0.6% and the number of bands by which the position is carried; and
    - (b) a spread charge equal to the matched amount multiplied by the spot price for the *commodity* and the spread rate of 3%.
  - (5) Step 5: Calculate the outright charge on the remaining positions (which will either be all long positions or all short positions). The outright charge equals the remaining position (ignoring the sign) multiplied by the spot price for the *commodity* and the outright rate of 15%.
- 27 G The matched amount in 26R is the lesser (ignoring the sign) of either the total long position or the total short position. For example, a band with 1000 long and 700 short results in a matched amount of 700. The unmatched amount would be 300.
- 28 R Table: Maturity bands for the maturity ladder approach (see 26R))

<b>Band</b>	<b>Maturity of position</b>
Band 1	$0 \leq 1$ month
Band 2	$> 1$ month $\leq 3$ months
Band 3	$> 3$ months $\leq 6$ months

Band 4	> 6 months ≤ 1 year
Band 5	> 1 year ≤ 2 years
Band 6	> 2 years ≤ 3 years
Band 7	> 3 years

- 29 G Figure: An example illustrating the calculation of the *PRR* on an individual *commodity* using the maturity ladder approach (26R).

Figure 29G: After a *firm* has carried out the pre-processing required by 26R(1) (that is, step 1), it follows steps 2 to 5 as shown below. Because the *firm* is using the maturity ladder approach the spread rate is 3%, the carry rate is 0.6% and the outright rate is 15%. The example assumes that the spot price for the *commodity* is £25.

Band	Step 2 Allocate remaining positions to appropriate maturity bands	Step 3 Match within bands. Each matched amount incurs a spread charge.	Step 4a Carry across bands. Each carried amount incurs a carry charge.	Step 4b Match within band. Each matched amount incurs a spread charge.	Step 6 Remaining position(s) incur an outright charge.																
0 ≤ 1 month																					
>1 month ≤ 3 months	1000 long 700 short	700 matched	300 carried																		
>3 months ≤ 6 months																					
>6 months ≤ 1 year																					
>1 year ≤ 2 years	600 short	Nothing matched	100 carried	400 matched	200 short remains																
>2 years ≤ 3 years																					
> 3 years	100 long	Nothing matched																			
<table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 20%; padding-left: 40px;">Spread charges</td> <td style="padding-left: 20px;">700*£25*3% + 400*£25*3%</td> <td style="padding-left: 20px;">=</td> <td style="padding-left: 20px;">£825</td> </tr> <tr> <td style="padding-left: 40px;">Carry charges</td> <td style="padding-left: 20px;">300*£25*0.6%*3 + 100*£25*0.6%*2</td> <td style="padding-left: 20px;">=</td> <td style="padding-left: 20px;">£165</td> </tr> <tr> <td style="padding-left: 40px;">Outright charge</td> <td style="padding-left: 20px;">200*£25*15%</td> <td style="padding-left: 20px;">=</td> <td style="padding-left: 20px;">£750</td> </tr> <tr> <td colspan="3"></td> <td style="text-align: right; border-top: 1px solid black; border-bottom: 3px double black;">£1740</td> </tr> </table>						Spread charges	700*£25*3% + 400*£25*3%	=	£825	Carry charges	300*£25*0.6%*3 + 100*£25*0.6%*2	=	£165	Outright charge	200*£25*15%	=	£750				£1740
Spread charges	700*£25*3% + 400*£25*3%	=	£825																		
Carry charges	300*£25*0.6%*3 + 100*£25*0.6%*2	=	£165																		
Outright charge	200*£25*15%	=	£750																		
			£1740																		

#### Modified maturity ladder approach

- 30 R Until 31 December 2006 a *firm* may use the modified maturity ladder approach to calculate the *PRR* for a particular *commodity* provided the *firm*:
- (1) has a diversified *commodities* portfolio;

- (2) undertakes significant *commodities* business; and
- (3) notifies the *FSA* in writing:
  - (a) at least twenty *business days* before the date the *firm* intends to start using the modified maturity method; and
  - (b) If the facts and matters relied on to demonstrate that the *firm* meets the criteria in (1) and (2).

31 R A *firm* using the modified maturity ladder approach must calculate the *PRR* by:

- (1) following the same steps as in 26R but using the rates from table 32R rather than those in 26R; and
- (2) summing all spread charges, carry charges and outright charge that result.

32 R Table: Alternative spread, carry and outright rates (see 31R).

	Precious metals (excluding gold)	Base metals	Softs (agricultural)	Other (including energy)
Spread rate (%)	2	2.4	3	3
Carry rate (%)	0.3	0.5	0.6	0.6
Outright rate (%)	8	10	12	15

33 G For the purposes of 30R(1) a *firm* has a diversified *commodity* portfolio where it holds positions in more than one of the *commodities* falling in any of the categories set out in table 32R and holds positions across different maturities in those individual *commodities*. A *firm* would not have a diversified *commodity* portfolio if it held positions in only one *commodity* in each of the categories set out in table 32R. This is because the rates in table 32R assume *firms* have positions in more than one of that category's *commodities*. Different *commodities* within a given category are likely to exhibit different volatilities, so where a *firm* does not have a diversified *commodity* portfolio in that category, the rates applying to that category might underestimate the regulatory capital required for a certain *commodity* at certain times.

34 G What constitutes significant business in 30R(2) will vary from *firm* to *firm*. The more regularly the *firm* undertakes trades in *commodities* and the more consistently it has positions in the relevant *commodity*, the more likely it is to be undertaking significant business for the purposes of 30R(2).

35 R Where a *firm* is:

- (1) treating a *commodity* index derivative as if it was based on a single separate *commodity* (see 13R(1)(a)); and

- (2) uses the modified maturity ladder approach to calculate the *PRR* for that *commodity*;

it must determine which index constituent incurs the highest rate in table 32R and apply that rate to the notional position for the purposes of 31R.

- 36 G Where an index is only based on precious metals, 13R allows the *firm* to treat the single notional position as precious metal for the purposes of 31R. However, if the index contained a mix of precious metals and base metals the *firm* would have to treat the notional position under 35R as a base metal (because base metals attract a higher rate than precious metals in table 32R).

## Appendix 7

### Securities Underwriting

#### General rules

- 1 G This appendix sets out the method for calculating a net *underwriting* position or reduced net *underwriting* position, which is then included in the *PRR* calculation in other appendices, or the liquidity adjustment calculation.

- 2 R A *firm* which *underwrites* or *sub-underwrites* an issue of *securities* must:
- (1) identify commitments to *underwrite* or *sub-underwrite* which give rise to an *underwriting* position (see 8R);
  - (2) identify the time of initial commitment (see 14R);
  - (3) calculate the net *underwriting* position (set out in 18R) or reduced net *underwriting* position (if permitted under 24R);
- 3 R A *firm* must include the net *underwriting* position or reduced net *underwriting* position in:
- (1) 3R(1) of appendix 4, where debt *securities* are being underwritten;
  - (2) 2R(1) of appendix 5, where *equities* are being underwritten;
  - (3) 22R of appendix 9, where *warrants* are being underwritten; or
  - (4) 10-66(1)R where the *firm* does not have a *trading book*; and
  - (5) 2R of appendix 8, where the *equities*, debt *securities* or *warrants* being underwritten are denominated in a *foreign currency*.
- 4 R A *firm* must comply with 2R from initial commitment (as determined under 8R) until the end of the fifth *business day* after *working day 0* (as determined under 23R).
- 5 G *Sub-underwriting* is a commitment given by one *firm* to someone other than the issuer or seller of the *securities*, to *underwrite* all or part of an issue of *securities*.
- 6 G The net *underwriting* position calculated in 18R will also be used in calculating the net *underwriting exposure* set out in 32R.
- 7 G The net *underwriting* position or reduced net *underwriting* position arising from *underwriting* or *sub-underwriting* a rights or *warrants* issue should be calculated using the current market price of the underlying *security* for the purposes of the *equity PRR* or *option PRR*. However, the *PRR* will be limited to the value of the net *underwriting* position calculated using the initial issue price of the rights or *warrants*.

#### Commitments to underwrite securities

- 8 R For the purpose of 2R(1), a *firm* has a commitment to *underwrite* or *sub-underwrite* an issue of *securities* where:
- (1) it gives a commitment to an issuer of *securities* to *underwrite* an issue of *securities*;
  - (2) it gives a commitment to a person, other than the issuer of *securities*, to *sub-underwrite* an issue of *securities*; or

- (3) it is a member of a syndicate or group that gives a commitment to an issuer to *underwrite* an issue of *securities* or a commitment to a person other than the issuer of *securities*, to sub-*underwrite* an issue of *securities*.
- 9 G Block trades including bought deals, private placements, revolving *underwriting* facilities and *underwriting* syndicated loans are not within the scope of this appendix.
- 10 R For the purpose of this appendix, *securities* include debt and *equity instruments*, and *instruments* which are convertible into *securities* but excludes loans.
- 11 R A *firm* that buys and sells *securities* before issue is dealing in the grey market. This appendix does not apply to a *firm* dealing in the grey market unless the *firm*:
- (1) has an *underwriting* commitment to the issuer in respect of those *securities*; or
  - (2) has a sub-*underwriting* commitment in respect of those *securities* and is using the grey market solely for the purpose of reducing that sub-*underwriting* commitment.
- 12 G In this appendix the grey market is the market in which dealers "buy" and "sell" securities ahead of issue. In reality the dealers are buying and selling promises to deliver the securities when issued.
- 13 R Where a single *firm* is involved in both *underwriting* or sub-*underwriting* an issue of *securities* as well as dealing in that issue for proprietary trading purposes this appendix will not apply to grey market transactions undertaken by the proprietary trading part of the *firm*.

#### Time of initial commitment

- 14 R Subject to 15R, the time of initial commitment is the earlier of:
- (1) the time the *firm* signs an agreement with the issuer of *securities* to *underwrite* those *securities*; or
  - (2) the time the price and allocation of the issue are set.
- 15 R If a *firm* has an irrevocable and unfettered right to withdraw from an *underwriting* commitment, exercisable within a certain period, the commitment commences when that right expires.
- 16 G Subject to the existence of a right described in 15R an *underwriting* commitment commences even if it is subject to formal, legal or other conditions that would normally be expected to be satisfied.
- 17 G A force majeure or material adverse change clause would not be a right of the sort referred to in 15R.

#### Calculating the net underwriting position

- 18 R A *firm* must calculate a net *underwriting* position by adjusting the gross amount it has committed to *underwrite* for:

- (1) any sales or sub-*underwriting* commitments received that have been confirmed in writing at the time of initial commitment;
  - (2) any *underwriting* or sub-*underwriting* commitments obtained from others since the time of initial commitment;
  - (3) any purchases or sales of the *securities* since the time of initial commitment, (other than those referred to in 13R); and
  - (4) any allocation of *securities* granted or received, arising from the commitment to *underwrite* the *securities*, since the time of initial commitment.
- 19 R A *firm* signing an *underwriting* agreement with an issuer of *securities* where the exact issue price or allocation of *securities* has not been fixed must calculate the gross amount, for the purposes of 18R, as the amount it has formally committed to under that agreement until the time the exact issue price and/or allocation is set.
- 20 G Allocations may arise, after date of initial commitment, from the agreement to *underwrite*. For example obligations or rights to or from the issuer, the *underwriting* group or syndicate.

#### GREY MARKET TRANSACTIONS

- 21 R Subject to 11R and 13R a *firm* may include grey market transactions when calculating the net *underwriting* position.

#### OVER-ALLOTMENT OPTIONS

- 22 R When calculating the net *underwriting* position, a *firm* must exclude an over-allotment option granted to it by the issuer, except to the extent it reduces:
- (1) from working day 0 an over-allotment made by the *firm*; or
  - (2) from working day 0 an over-allotment made by the *firm* on behalf of another member of the *underwriting* syndicate who has been granted the over-allotment option.
- 23 R For the purposes of this appendix ‘working day 0’ is the *business day* on which the *firm* becomes unconditionally committed to accepting a known quantity of *securities* at a specified price, as follows:
- (1) For debt issues and *securities* which are issued in a similar manner, ‘working day 0’ is the later of the date on which the *securities* are allotted, and the date on which payment for them is due.
  - (2) For *equity* issues and *securities* which are issued in a similar manner, ‘working day 0’ is the later of the date on which the offer becomes closed for subscriptions and the date on which the allocations are made public.
  - (3) For rights issues, ‘working day 0’ is first day after the date on which the offer becomes closed to acceptances for subscription.

## Calculating the reduced net underwriting position

- 24 R A *firm* may apply the relevant reduction factors in table 27R to its net *underwriting* position if the *securities* it is *underwriting* or sub-*underwriting* are new *securities*.
- 25 R For the purposes of this appendix, a *firm* may treat as new *securities*:
- (1) *securities* that have not previously been offered for sale or subscription by an issuer;  
or
  - (2) *securities* that have not previously been traded on a *recognised investment exchange*, *designated investment exchange* or a *regulated market*.
- 26 R To calculate the reduced net *underwriting* position a *firm* must apply table 27R to the net *underwriting* position (calculated under 18R) as follows:
- (1) In respect of debt *securities*, a *firm* must calculate two reduced net *underwriting* positions; one for inclusion in the *firm's* specific risk calculation (43R of appendix 4), the other for inclusion in its general market risk calculation (48R of appendix 4).
  - (2) In respect of *equities*, a *firm* must calculate only one reduced net *underwriting* position, and then include it in the simplified equity method (see 27R of appendix 5).

27 R Table: Net *underwriting* position reduction factors (see 26R)

<b><i>Underwriting timeline</i></b>	<b>Debt</b>		<b>Equity</b>
	General market risk	Specific risk	
Time of initial commitment until <i>working day 0</i>	0%	100%	90%
Working day 1	0%	90%	90%
Working day 2	0%	75%	75%
Working day 3	0%	75%	75%
Working day 4	0%	50%	50%
Working day 5	0%	25%	25%
Working day 6 and onwards	0%	0%	0%

28 G Figure: An example of the reduced net *underwriting* position calculation. The example is based on the *firm* starting with a commitment to underwrite £100 million of a new *equity* issue.

<b>Time</b>	<b>Net <i>underwriting</i> position (see 18R)</b>	<b>Percentage reduction (see 27R)</b>	<b>Reduced net <i>underwriting</i> position<sup>1</sup></b>
At initial commitment 9.00am Monday	£100m gross amount is reduced by £20m due to sales/ sub- <i>underwriting</i> commitments confirmed in writing at the time of initial commitment (see 18R(1)). = £80m	90%	<b>£8m</b>
Post initial commitment 9.02am Monday	Remaining £80m is reduced by £40m due to further sales, sub- <i>underwriting</i> commitments obtained and allocations granted (see 18R (2) – (4)). = £40m	90%	<b>£4m</b>
At the end of working day 1	Remaining £40m is reduced to £20m due to further sales. = £20m	90%	<b>£2m</b>
End of working day 3	Remaining £20m is reduced to £5m due to further sales. = £5m	75%	<b>£1.25 m</b>
End of working day 4	Remaining £5m is reduced to £2m due to further sales. = £2m	50%	<b>£1m</b>
End of working day 5	Remaining £2m is reduced to £1m due to further sales. = £1m	25%	<b>£0.75 m</b>
Start of working day 6	£1m remaining = £1m	0%	<b>£1m</b>

**Note:** <sup>1</sup> *Firms* are reminded that in the case of an *equity*, the reduced net *underwriting* position must be treated under the simplified equity method (see 27R of appendix 5)

Large exposure risk from underwriting securities

CALCULATING THE NET UNDERWRITING EXPOSURE

- 29 R For the purposes of calculating the *LER* set out in 10-194R a *firm* must include net *underwriting exposures* to an issuer in the calculation of its total *exposure* to that issuer.
- 30 R A *firm* must include counterparty exposures to any sub-underwriters for the purposes of calculating the *LER* set out in 10-194R.
- 31 R A *firm*, before entering into a new *underwriting* commitment must be able to recalculate *LER* to the level of detail necessary to ensure that the *firm's financial resources requirement* does not exceed the *firm's financial resources*.
- 32 R A *firm* must calculate the net *underwriting exposure* to an issuer by applying the relevant reduction factors in table 33R to its net *underwriting* position calculated under 18R.
- 33 R Table: Calculation of net *underwriting exposure* (see 32R)

Time	Reduction factor to be applied to net <i>underwriting</i> position
Initial commitment to <i>working day 0</i>	100%
<i>Working day 0</i>	100%
Working day 1	90%
Working day 2	75%
Working day 3	75%
Working day 4	50%
Working day 5	25%
Working day 6 onwards	0%

- 34 R There is no *large exposure* limit or *LER* for net *underwriting exposures* between initial commitment and working day 0, except where specified by a requirement on a *firm's Part IV permission*. The *large exposure* requirements are set out in 10-190 to 10-196.

MONITORING AND REPORTING LARGE EXPOSURES

- 35 R For the purposes of *large exposures* monitoring only, a *firm* must report its net *underwriting exposure* from the date of initial commitment rather than working day 0.

## Risk management

- 36 R A *firm* must take reasonable steps to establish and maintain such systems and controls to monitor and manage its *underwriting* and sub-*underwriting* business as are appropriate to the nature, scale and complexity of its *underwriting* and sub-*underwriting* business.
- 37 G The general requirements for systems and controls are set out in SYSC. 36G is specific to a *firm's underwriting* and sub-*underwriting* business.
- 38 G A *firm* must take reasonable steps to:
- (1) allocate responsibility for the management of its *underwriting* and sub-*underwriting* business;
  - (2) allocate adequate resources to monitor and control its *underwriting* and sub-*underwriting* business;
  - (3) satisfy itself that its systems to monitor *exposure* to counterparties will calculate, revise and update its *exposure* to each counterparty arising from its *underwriting* or sub-*underwriting* business;
  - (4) satisfy itself of the suitability of each person who performs functions for it in connection with the *firm's underwriting* business having regard for the person's skill and experience; and
  - (5) satisfy itself that its procedures and controls to monitor and manage its *underwriting* business address, on an on-going basis, the capacity of sub-*underwriters* to meet sub-*underwriting* commitments.

## Appendix 8

### Foreign exchange PRR

#### General rule

- 1 R A *firm* must calculate its foreign exchange *PRR* by:
- (1) identifying which *foreign currency* and gold positions to include in the *PRR* calculation;
  - (2) calculating the *open currency position* and net gold position; and
  - (3) multiplying the sum (ignoring the sign) of the *open currency position* and the net gold position by 8%.
- G For example, a *firm* has an *open currency position* of -£100 and a net gold position of £50. The sum (ignoring the sign) is £150, and so the foreign exchange *PRR* is £12.

#### Scope of the foreign exchange PRR calculation

- 2 R A *firm*'s foreign exchange *PRR* calculation must include the following items regardless of whether they are *trading book* or *non-trading book* positions:
- (1) all gold positions;
  - (2) all instruments which are denominated in a *foreign currency*, except:
    - (a) *foreign currency* assets which have been deducted in full from the *firm*'s *financial resources*;
    - (b) instruments hedging (a);
    - (c) instruments hedging the *firm*'s capital; or
    - (d) instruments hedging a future *foreign currency* income or expense which is known but not yet accrued; and
  - (3) notional positions arising from the instruments listed in table 4R:
- 3 R A *firm* must notify the *FSA* in writing if it uses the exclusions under 2R(2)(a)-(d).

4 R Table: instruments which result in notional *foreign currency* positions (see 2R(3)).

Foreign exchange <i>futures, forwards, synthetic futures</i> and <i>CFDs</i>	10R
Foreign exchange <i>swaps</i>	12R
Foreign exchange <i>options</i> or <i>warrants</i> (unless the <i>firm</i> calculates a <i>PRR</i> on the <i>option</i> or <i>warrant</i> under appendix 9).	14R
Gold <i>futures, forwards, synthetic futures</i> and <i>CFDs</i>	15R
Gold <i>options</i> (unless the <i>firm</i> calculates a <i>PRR</i> on the <i>option</i> under appendix 9).	16R

5 G *Firms* are reminded that table 5R in appendix 9 divides foreign exchange *options* and *warrants* into:

- (1) those which must be treated under appendix 9; and
- (2) those which must be treated under either appendix 8 or appendix 9, but *firms* can choose whether appendix 8 or 9 is used.

6 R When determining the currency of denomination *firms* must:

- (1) use the currency in which the *firm* accounts for the instrument where an instrument is quoted in more than one currency; and
- (2) treat depository receipts as positions in the underlying security.

7 G Instruments denominated in a foreign currency include, amongst other things, assets and liabilities (including accrued interest); non-foreign exchange *derivatives*; net *underwriting* positions; reduced net *underwriting* positions; and irrevocable guarantees (or similar instruments) that are certain to be called.

8 G Where a contract is based on a basket of currencies, the *firm* can choose either to derive notional positions in each of constituent currencies, or treat it as a single notional position in a separate hypothetical currency.

#### Derivation of notional positions

9 G This section derives notional currency positions for the instruments listed in table 4R.

#### FOREIGN EXCHANGE FORWARDS, FUTURES, CFDs AND SYNTHETIC FUTURES

10 R A *firm* must treat a foreign exchange *forward, future* or *CFD* as two notional currency positions as follows:

- (1) a long notional position in the currency which the *firm* has contracted to buy; and
- (2) a short notional position in the currency which the *firm* has contracted to sell;

where the notional positions have a value equal to either:

- (a) the contracted amount of each currency to be exchanged in the case of a *forward* or *future* held in the *non-trading book*; or
- (b) the present value of the amount of each currency to be exchanged in the case of a *forward* or *future* held in the *trading book*.

- 11 G For example, a *firm* contracts to sell \$106 for €108 in one year's time.  
The present values of each cash flow are \$100 and €100 respectively.

- In the *non-trading book*, this *forward* would be treated as a combination of a €108 long position and a \$106 short position.
- In the *trading book*, this *forward* would be treated as a combination of a €100 long position and a \$100 short position.

*Firms* are reminded that foreign exchange *forwards* held in the *trading book* must also be included in the *firm's* interest rate *PRR* calculation (see 4R of appendix 4).

#### FOREIGN EXCHANGE SWAPS

- 12 R A *firm* must treat an foreign exchange *swap* as:
- (1) a long notional position in the currency which the *firm* has contracted to receive interest and principal;
  - (2) a short notional position in the currency which the *firm* has contracted to pay interest and principal; and
  - (3) where the notional positions have a value equal to either:
    - (a) the nominal amount of each currency underlying the *swap* if it is held in the *non-trading book*; or
    - (b) the present value amount of all cash flows in the relevant currency in the case of a *swap* held in the *trading book*.
- 13 G For example, a *firm* enters into a five year foreign exchange *swap* where it contracts to pay six month US\$ Libor on \$100 in return for receiving 6% fixed on €100. The present values of each leg are \$100 and €98 respectively.

- In the *non-trading book*, this *swap* would be treated as a combination of a €100 long position and a \$100 short position.
- In the *trading book*, this *swap* would be treated as a combination of a €98 long position and a \$100 short position.

*Firms* are reminded that foreign exchange *swaps* held in the *trading book* must also be included in the *firm's* interest rate *PRR* calculation (see table 4R of appendix 4).

#### FOREIGN EXCHANGE OPTIONS AND WARRANTS

- 14 R Where included in this appendix's *PRR* calculation (see table 4R), a foreign exchange *option* or *warrant* must be treated as a foreign exchange *forward*.

#### GOLD FORWARDS, FUTURES AND CFDS

- 15 R A *forward*, *future* or *CFD* on gold must be treated as a notional position in gold with a value equal to the amount of gold underlying multiplied by the current spot price for gold.

#### GOLD OPTIONS

- 16 R If included in the *PRR* calculation under this appendix (see table 4R), a gold *option* must be treated as a gold *forward*.

#### Open currency position

- 17 R A *firm* must calculate its *open currency position* by:
- (1) calculating the net position in each *foreign currency*;
  - (2) converting each net position into its *base currency* equivalent at current spot rates;
  - (3) summing all short net positions and summing all long net positions; and
  - (4) selecting the larger sum (ignoring the sign) from (3).

#### Net gold position

- 18 R A *firm* must calculate its net gold position by:
- (1) valuing all gold positions using the prevailing spot price for gold (regardless of the maturity of the positions);
  - (2) offsetting long and short positions; and
  - (3) converting the resulting net position into the *base currency* equivalent using the current spot foreign exchange rate.

## Appendix 9

### Option PRR

#### Option PRR calculation

- 1 R A *firm* must calculate its *option PRR* by:
  - (1) identifying which *option* positions must be included within the scope of the *option PRR* calculation under 3R to 5R;
  - (2) calculating the derived position in each *option* in accordance with 9R to 15R;
  - (3) calculating the *PRR* for each derived position in accordance with 16R to 32G;
  - (4) summing all of the *PRRs* calculated in accordance with (3).
- 2 G *Firms* are reminded that table 4R of appendix 4 and table 3R of appendix 5 also require an interest rate *PRR* to be calculated for *options* on *equities*, baskets of *equities* or *equity* indices. The interaction between this appendix and others is illustrated in 33G.

#### Scope of the option PRR calculation

- 3 R Except as permitted under 5R, a *firm's option PRR* calculation must include:
  - (1) each *trading book* position in an *option* on an *equity*, interest rate or debt *security*;
  - (2) each *trading book* position in a *warrant* on an *equity* or debt *security*; and
  - (3) each *trading book* and *non-trading book* position in an *option* on a *commodity*, currency or gold.
- 4 G 3R(2) includes net *underwriting* positions or reduced net *underwriting* positions in *warrants*.

5 R Table: Appropriate *PRR* calculation for an *option* or warrant (see 3R)

<b><i>Option type (see 18R) or Warrant</i></b>	<b><i>PRR calculation</i></b>
American <i>option</i> , European <i>option</i> , Bermudan <i>option</i> , Asian <i>option</i> or <i>warrant</i> for which the <i>in the money</i> percentage (see 6R) is equal to or greater than the appropriate <i>PRA</i> (see 7R and 8R)	Calculate either an <i>option PRR</i> , or the most appropriate to the underlying position of: (a) an <i>equity PRR</i> (b) an interest rate <i>PRR</i> (c) a <i>commodity PRR</i> (d) a foreign exchange <i>PRR</i>
American <i>option</i> , European <i>option</i> , Bermudan <i>option</i> , Asian <i>option</i> or <i>warrant</i> :  (a) for which the <i>in the money</i> percentage (see 6R) is less than the appropriate <i>PRA</i> (see 7R and 8R); or (b) that is <i>at the money</i> ; or (c) that is <i>out of the money</i> .	Calculate an <i>option PRR</i>
All other types of <i>option</i> listed in 18R (regardless of whether <i>in the money</i> , <i>at the money</i> or <i>out of the money</i> ).	

THE IN THE MONEY PERCENTAGE

6 R The *in the money* percentage is calculated as follows:

For a call *option*:

$$\frac{\text{Current market price of the underlying} - \text{Strike price of the option}}{\text{Strike price of the option}} * 100$$

For a put *option*:

$$\frac{\text{Strike price of the option} - \text{Current market price of the underlying}}{\text{Strike price of the option}} * 100$$

THE APPROPRIATE *PRA*

7 R The appropriate *PRA* for a position is that listed in table 8R against the relevant underlying position.

8 R Table: Appropriate *PRA* (see 7R)

<b>Underlying Position</b>	<b>Appropriate PRA</b>
<i>Equity</i>	The <i>PRA</i> applicable to the underlying <i>equity</i> or <i>equity</i> index in table 30R of Appendix 5 (simplified equity method)
Interest rate	The sum of the specific risk <i>PRA</i> (table 44R of appendix 4) and the general market risk <i>PRA</i> (53R of appendix 4) applicable to the underlying position
Debt <i>securities</i>	The sum of the specific risk <i>PRA</i> (table 43R of appendix 4) and the general market risk <i>PRA</i> (table 52R of appendix 4) applicable to the underlying position
<i>Commodity</i>	15% (unless the <i>firm</i> uses the modified maturity ladder approach in which case it is the outright rate applicable to the underlying position; see 30R-32R of appendix 6)
Currency	8%
Gold	8%

#### Calculating derived positions

- 9 R A *firm* must calculate the derived position specified in the table in 13R for each position included in its *option PRR* calculation.

#### NETTING POSITIONS

- 10 R A *firm* may calculate a derived position for its net position in an *option* or a *warrant*, if the relevant *options* or *warrants* are identical or may be treated as identical under 11R or 12R.
- 11 R A *firm* may treat *options* or *warrants* as identical if they have the same strike price, maturity (except for an interest rate cap or floor – see 12R) and underlying.
- 12 R A *firm* may treat as identical a purchased interest rate cap (or floor) and a written interest rate cap (or floor) only if they mature within 30 days of each other and all other terms are identical (a cap may not be netted against a floor).

#### DERIVED POSITIONS

- 13 R Table: Derived positions (see 9R)

	<b><i>Option (or warrant)</i></b>	<b>Derived position</b>
<i>Equity</i>	<i>Option (warrant)</i> on a single <i>equity</i> or <i>option</i> on a <i>future/forward</i> on a single <i>equity</i>	A notional position in the actual <i>equity</i> underlying the contract valued at the current market price of the <i>equity</i> .

	<i>Option (warrant) on a basket of equities or option on a future/forward on a basket of equities</i>	A notional position in the actual <i>equities</i> underlying the contract valued at the current market price of the <i>equities</i> .
	<i>Option (warrant) on an equity index or option on a future/forward on an equity index</i>	A notional position in the index underlying the contract valued at the current market price of the index.
Interest rate	<i>Option on an interest rate or an interest rate future/FRA</i>	A zero coupon <i>zero-specific-risk security</i> in the currency concerned with a maturity equal to the sum of the time to expiry of the contract and the length of the period on which the settlement amount of the contract is calculated valued at the notional amount of the contract.
	<i>Option on an interest rate swap</i>	A zero coupon <i>zero-specific-risk security</i> in the currency concerned with a maturity equal to the length of the <i>swap</i> valued at the notional principal amount.
	Interest rate cap or floor	A zero coupon <i>zero-specific-risk security</i> in the currency concerned with a maturity equal to the remaining period of the cap or floor valued at the notional amount of the contract.
Debt securities	<i>Option (warrant) on a debt security or option on a future/forward on a debt security</i>	The underlying debt <i>security</i> with a maturity equal to the time to expiry of the <i>option</i> valued as the nominal amount underlying the contract at the current market price of the debt <i>security</i> .
Commodity	<i>Option on a commodity or option on a future/forward on a commodity</i>	An amount equal to the tonnage, barrels or kilos underlying the <i>option</i> with a maturity equal to the expiry date of the <i>forward</i> or <i>futures</i> contract underlying the <i>option</i> .
Gold	<i>Option on gold or option on a future/forward on gold</i>	An amount equal to the troy ounces underlying the <i>option</i> with a maturity equal to the expiry date of the <i>forward</i> or <i>futures</i> contract underlying the <i>option</i> .

Currency	Currency <i>option</i>	The amount of the underlying currency that the <i>firm</i> will receive if the <i>option</i> is exercised converted at the spot rate into the currency that the <i>firm</i> will sell if the <i>option</i> is exercised.
----------	------------------------	--

Combinations of options which can be treated as one option

- 14 R** A *firm* may treat (for the purpose of calculating an *option PRR* under this appendix) an *option* strategy listed in table 15R as the single position in a notional *option* specified against that strategy in table 15R, if:
- (1) each element of the strategy is transacted with the same *counterparty*;
  - (2) the strategy is documented as a single structure;
  - (3) each *option* in the structure has the same maturity and underlying; and
  - (4) the constituent parts of the structure form an indivisible single contract, so that neither party can unwind or default on one part of the structure without doing so for the contract as a whole.

15 R Table: *Option strategies* (see 14R)

<b><i>Option strategy</i></b> (and an example)	<b><i>Notional option position</i></b> (and rule it must be treated under)
<b>Bull Spread</b> (e.g. buy 100 call and sell 101 call)	<b>One purchased <i>option</i></b> (treat under 20R)
<b>Bear Spread</b> (e.g. sell 100 put and buy 101 put)	<b>One written <i>option</i></b> (treat under 21R)
<b>Synthetic Long Call</b> (e.g. long underlying and buy 100 put)	<b>One purchased <i>option</i></b> (treat under 20R or 24R)
<b>Synthetic Short Call</b> (e.g. short underlying and sell 100 put)	<b>One written <i>option</i></b> (treat under 21R or 24R)
<b>Synthetic Long Put</b> (e.g. short underlying and buy 100 call)	<b>One purchased <i>option</i></b> (treat under 20R or 24R)
<b>Synthetic Short Put</b> (e.g. buy underlying and sell 100 call)	<b>One written <i>option</i></b> (treat under 21R or 24R)
<b>Long Straddle</b> (e.g. buy 100 call and buy 100 put)	<b>One purchased <i>option</i></b> (treat under 20R)
<b>Short Straddle</b> (e.g. sell 100 call and sell 100 put)	<b>One written <i>option</i></b> (treat under 21R but with no reduction for the amount the <i>option</i> is <i>out of the money</i> )
<b>Long Strangle</b> (e.g. buy 101 call and buy 99 put)	<b>One purchased <i>option</i></b> (treat under 20R)
<b>Short Strangle</b> (e.g. sell 99 call and sell 101 put)	<b>One written <i>option</i></b> (treat under 21R but with no reduction for the amount the <i>option</i> is <i>out of the money</i> )
<b>Long Butterfly</b> (e.g. buy one 100 call, sell two 101 calls, and buy one 102 call)	<b>One purchased <i>option</i></b> (treat under 20R)
<b>Short Butterfly</b> (e.g. sell one 100 put, buy two 101 puts, and sell one 102 put)	<b>One written <i>option</i></b> (treat under 21R but with no reduction for the amount the <i>option</i> is <i>out of the money</i> )

The option PRR for an individual position

- 16 R A *firm* must calculate the *PRR* for each individual derived *option* position using the method specified in table 18R, or, if more than one method is permitted, using one of those methods.
- 17 R The resulting *PRRs* must be converted to the *firm's base currency* using spot foreign exchange rates.
- 18 R Table: *Option PRR* methods for different types of *option* (see 16R)

Option	Description	Method
American <i>option</i>	An <i>option</i> that may be exercised at any time over an extended period up to its expiry date.	Standard method or hedging method if appropriate
European <i>option</i>	An <i>option</i> that can only be exercised at expiry.	
Bermudan <i>option</i>	A cross between an American <i>option</i> and European <i>option</i> . The Bermudan <i>option</i> can only be exercised at specific dates during its life.	
Asian <i>option</i>	The buyer has the right to exercise at the average rate or price of the underlying over the period (or part of the period) of the <i>option</i> . One variant is where the payout is based on the average of the underlying against a fixed strike price; another variant is where the payout gives at expiry the price of the underlying against the average price over the <i>option</i> period.	
Barrier <i>option</i>	An <i>option</i> which is either cancelled or activated if the price of the underlying reaches a pre-set level regardless of the price at which the underlying may be trading at the expiry of the <i>option</i> . The knock-out type is cancelled if the underlying price or rate trades through the trigger; while the knock-in becomes activated if the price moves through the trigger.	
Corridor <i>option</i>	Provides the holder with a pay-out for each day that the underlying stays within a defined range chosen by the investor.	
Ladder <i>option</i>	Provides the holder with guaranteed pay-outs if the underlying trades through a pre-agreed price(s) or rate(s) at a certain point(s) in time, regardless of future performance.	
Lock-in <i>option</i>	An <i>option</i> where the pay-out to the holder is locked in at the maximum (or minimum) value of the underlying that occurred during the life of the <i>option</i> .	
Look-back <i>option</i>	An European style <i>option</i> where the strike price is fixed in retrospect, that is at the most favourable price (i.e. the lowest (highest) price of the underlying in the case of a call (put)) during the life of the <i>option</i> .	

Forward starting <i>option</i>	An <i>option</i> that starts at a future date.	
Compound <i>option</i>	An <i>option</i> where the underlying is itself an <i>option</i> (i.e. an <i>option</i> on an <i>option</i> ).	
Interest rate cap	An interest rate <i>option</i> or series of <i>options</i> under which a <i>counterparty</i> contracts to pay any interest costs arising as a result of an increase in rates above an agreed rate: the effect being to provide protection to the holder against a rise above that agreed interest rate.	Standard method, but no reduction for the amount the <i>option</i> is <i>out of the money</i> is permitted.
Interest rate floor	An interest rate <i>option</i> or series of <i>options</i> under which a <i>counterparty</i> contracts to pay any lost income arising as a result of a fall in rates below an agreed rate: the effect being to provide protection to the holder against a fall below that agreed interest rate.	
Performance <i>option</i>	An <i>option</i> based on a reference basket comprising any number of assets, where the pay-out to the holder could be one of the following: the maximum of the worst performing asset, or 0; the maximum of the best performing asset, or 0; the maximum of the spreads between several pairs of the assets, or 0.	Standard method or hedging method - using the highest <i>PRA</i> of the individual assets in the basket
Quanto	Quanto stands for “Quantity Adjusted <i>Option</i> ”. A quanto is an instrument where two currencies are involved. The payoff is depended on a variable that is measured in one of the currencies and the payoff is made in the other currency.	Subject to 31R, the standard method
Cliquet <i>option</i>	A cliquet <i>option</i> consists of a series of forward starting <i>options</i> where the strike price for the next exercise date is set equal to a positive constant times the underlying price as of the previous exercise date. They initially act like a vanilla <i>option</i> with a fixed price but as time moves on, the strike is reset and the intrinsic value automatically locked in at pre-set dates. If the underlying price is below the previous level at the reset date no intrinsic value is locked in but the strike price will be reset to the current price attained by the underlying. If the underlying price exceeds the current level at the next reset the intrinsic value will again be locked in.	Standard method for a purchased cliquet, or the method specified in 30R for a written cliquet
Digital <i>option</i>	A type of <i>option</i> where the pay-out to the holder is fixed. The most common types: all-or-nothing and one-touch <i>options</i> . All-or-nothing will pay out the fixed amount if the underlying is above (call) or below (put) a set value at expiry. The one-touch will pay the fixed amount if the underlying reaches a fixed point any time before expiry.	The method specified in 29R
Any other		The method

<i>option or warrant</i>		specified for the type of instrument whose description it most closely resembles.
--------------------------	--	---

19 R In table 18R:

- (1) "standard method" refers to the method specified in 20R to 22R; and
- (2) "hedging method" refers to the method specified in 23R to 28R.

The standard method

PURCHASED OPTIONS AND WARRANTS

20 R Under the standard method, the *PRR* for a purchased *option* or *warrant* is the lesser of:

- (1) the market value of the derived position (see 9R) multiplied by the appropriate *PRA* (see 8R); and
- (2) the market value of the *option* or *warrant*.

WRITTEN OPTIONS AND WARRANTS

21 R Under the standard method, the *PRR* for a written *option* or *warrant* is the market value of the derived position (see 9R) multiplied by the appropriate *PRA* (see 8R). This result may be reduced by the amount the *option* or *warrant* is *out of the money* (subject to a maximum reduction to zero).

UNDERWRITING OR SUB-UNDERWRITING AN ISSUE OF WARRANTS

22 R Under the standard method, the *PRR* for *underwriting* or *sub-underwriting* an issue of *warrants* is the net *underwriting* position (or reduced net *underwriting* position) multiplied by the current market price of the underlying *securities* multiplied by the appropriate *PRA*, but the result can be limited to the value of the net *underwriting* position (or reduced net *underwriting* position) calculated using the issue price of the *warrant*.

The hedging method

23 G The hedging method involves *option PRR* being calculated on a combination of the *option* and its hedge.

24 R Under the hedging method a *firm* must calculate *PRR* for individual positions as follows:

- (1) for an *option* or *warrant* on an *equity*, basket of *equities* or *equity* index and its *equity* hedge(s), to the extent specified or permitted in table 26R, using the calculation in table 27R;
  - (2) for an *option* or *warrant* on a debt *security*, basket of debt *securities* or debt *security* index and its debt *security* hedge(s), to the extent specified or permitted in table 26R, using the calculation in table 27R;
  - (3) for an *option* on gold and its gold hedge, to the extent specified or permitted in table 26R, using the calculation in table 27R; and
  - (4) for an *option* on a currency and its currency hedge, to the extent specified or permitted in table 26R, using the calculation in table 28R.
- 25 R A *firm* may not use the hedging method for:
- (1) an interest rate *option* and its hedge; or
  - (2) a *commodity option* and its hedge.
- 26 R Table: Appropriate treatment for *equities*, debt *securities* or currencies hedging *options* (see 24R)

Hedge	PRR calculation for the hedge	Limits (if the hedging method is used)	Naked positions
An <i>equity</i> (hedging an <i>option</i> or <i>warrant</i> )	The <i>equity</i> must be treated in either appendix 5 ( <i>equity PRR</i> ) or the hedging method (table 27R)	The hedging method must only be used up to the amount of the hedge that matches the notional amount underlying the <i>option</i> or <i>warrant</i>	To the extent that the amount of the hedge (or <i>option</i> ) exceeds the notional amount underlying the <i>option</i> or <i>warrant</i> (or hedge), a <i>firm</i> must apply an <i>equity PRR</i> , interest rate <i>PRR</i> or foreign exchange <i>PRR</i> (or <i>option PRR</i> )
A debt <i>security</i> (hedging an <i>option</i> or <i>warrant</i> )	The debt <i>security</i> must be treated in appendix 4 (interest rate <i>PRR</i> ) or the hedging method (table 27R)		
Gold (hedging a gold <i>option</i> )	The gold must be treated in either appendix 8 (foreign exchange <i>PRR</i> ) or the hedging method (table 27R)		
A currency or currencies (hedging a currency <i>option</i> )	The currency must be treated in either appendix 8 (foreign exchange <i>PRR</i> ) or the hedging method (table 28R)		

- 27 R Table: The hedging method of calculating the *PRR* (*equities*, debt *securities* and gold) (see 24R(1) to (3))

	<i>Option or warrant position</i>	<i>PRR</i>		
		<i>In the money by more than the PRA</i>	<i>In the money by less than the PRA</i>	<i>Out of the money</i>
Long in security	Long put	Zero	Wp	X
	Short call	Y	Y	Z
Short in security	Long call	Zero	Wc	X
	Short put	Y	Y	Z
Where:				
Wp	$[(PRA - 100\%) \times \text{The underlying position valued at strike price} + \text{The market value of the underlying position}]$			
Wc	$[(100\% + PRA) \times \text{The underlying position valued at strike price} - \text{The market value of the underlying position}]$			
X	The market value of the underlying position multiplied by the appropriate <i>PRR</i>			
Y	The market value of the underlying position multiplied by the appropriate <i>PRR</i> . This result may be reduced by the market value of the <i>option</i> or <i>warrant</i> , subject to a maximum reduction to zero.			
Z	The hedging method is not permitted; the standard method must be used.			

28 R Table: The hedging method of calculating the *PRR* (currencies) (see 24R(4))

<i>Option position</i>	<i>PRR</i>		
	<i>In the money by more than 8%</i>	<i>In the money by less than 8%</i>	<i>Out of the money</i>
Long calls & long puts	Zero	$W_L$	X
Short calls & short puts	Zero	Y	X
Where:			
$W_L$	[ 1.08 x The amount of the underlying currency that the <i>firm</i> will receive if the <i>option</i> is exercised, converted at the strike price into the currency that the <i>firm</i> will sell if the <i>option</i> is exercised		- The market value of the underlying position
X	The market value of the underlying position multiplied by 8%.		
Y	The market value of the underlying position multiplied by 8%. This result may be reduced by the market value of the <i>option</i> , subject to a maximum reduction to zero.		

### Specific methods and treatments

#### DIGITAL OPTIONS

29 R The *PRR* for a digital *option* is the maximum loss of the *option*.

#### WRITTEN CLIQUET OPTIONS

30 R The *PRR* for a written cliquet *option* is the market value of the derived position (see 9R) multiplied by the appropriate *PRA* (see 8R) multiplied by  $F+1$  (see below). This result may be reduced by the amount the *option* is *out of the money* (subject to a maximum reduction to zero).

$$\text{i.e. } [PRA * \text{underlying} * (F + 1)] - OTM$$

$$\text{where } F = \min \left[ FR, \max \left( \frac{FR}{2}, Y \right) \right]$$

FR: Number of forward re-sets

Y: Years to maturity

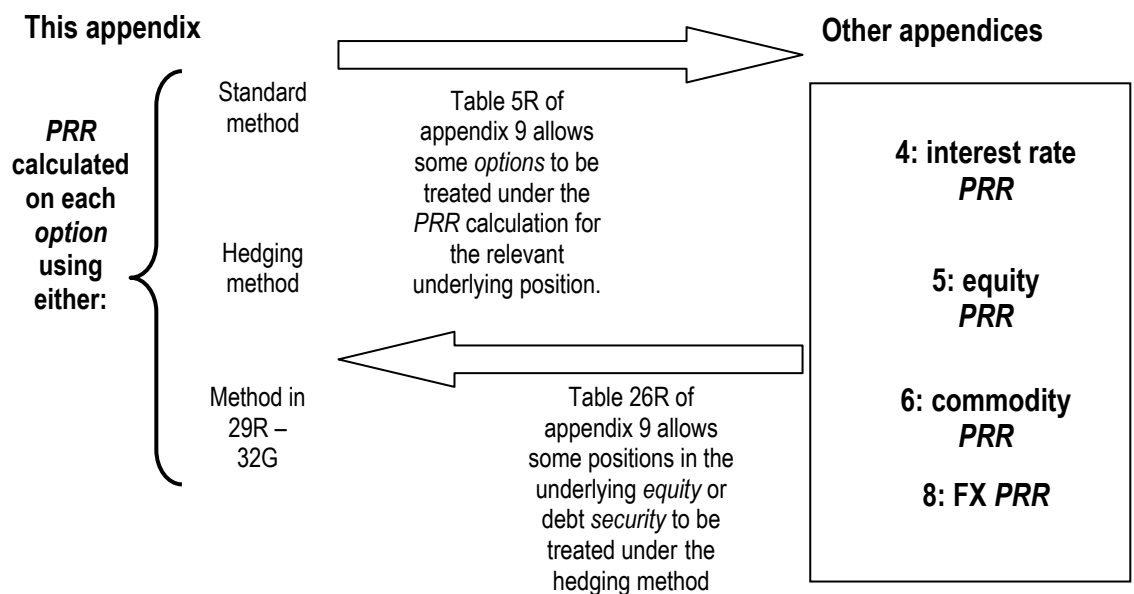

OTM: Out of the money amount

#### QUANTOS

- 31 R If the pay-out to the holder of a quanto *option* is fixed at the inception of the transaction a *firm* must add 8% to the *PRA* when applying the standard method.
- 32 G The additional *PRA* is to account for the forward foreign currency exchange risk.

#### Interaction with other appendices

- 33 G Figure: Diagram illustrating the relationship between this appendix and other appendices.

## Appendix 10

### Use of a CAD1 Model

#### Introduction

1. G A *firm* is required under 10-80(2)R to calculate *PRR* using the rules and appendices listed in table 10-80(2)R. However, the *FSA* may at the *firm's* request, waive or modify 10-80(2)R and thereby allow the *firm* to calculate all or part of its *PRR* using a "CAD1" (Capital Adequacy Directive) (for options risk aggregation and/or interest rate pre-processing) or "VaR" (value at risk) model instead. Appendix 11 deals with VaR model *waivers*.
2. G The purpose of this appendix is to provide guidance on the *FSA's* policy for granting CAD1 model *waivers* under section 148 of the *Act*. The policy recognises that CAD1 models may vary across *firms* but, as a minimum, the *FSA* will need to be satisfied about:
  - (1) the quality of the internal controls and risk management surrounding the model (see 18G to 22G for further details); and
  - (2) the quality of the model standards and that the CAD1 model captures and produces an accurate measure of the risks inherent in the portfolio covered by the CAD1 model (see 23G to 52G for further details).
3. G It also explains how the output from the model is fed into the 10-80 *PRR* calculation.
4. G If a CAD1 model recognition *waiver* is granted by the *FSA*, the *waiver* will contain certain conditions. In order to adequately address individual circumstances, these conditions may differ from the requirements set out in this appendix. The *waiver* will also confirm the *rules* to which the *waiver* applies, and the scope of CAD1 model recognition granted to a *firm*.
5. G As explained in *SUP* 8.3.1G, *waivers* permitting the use of models in the calculation of *PRR* will not be granted if that would be contrary to the CAD, and any *waiver* which is granted will only be granted on terms that are compatible with the CAD. The *FSA* considers it unlikely that it will deviate from this approach even where the *firm* making the *waiver* application is not subject to CAD. Accordingly, the only *waivers* permitting the use of models that the *FSA* is likely to grant are CAD1 and VaR models.
6. G If a *firm* ceases to meet any of these standards, the *FSA's* policy is that the *waiver* should cease to have effect.

#### Scope of CAD1 models

7. G The *FSA* recognises two types of CAD1 model. The table below sets out:

Options risk aggregation models		Interest rate pre-processing models
Brief description and eligible instruments	Analyse and aggregate <i>options</i> risks for <ul style="list-style-type: none"> <li>• interest rate <i>options</i>,</li> <li>• <i>equity options</i>,</li> <li>• foreign exchange <i>options</i>; and</li> <li>• <i>commodity options</i>.</li> </ul>	May be used to calculate duration weighted positions for: <ul style="list-style-type: none"> <li>• interest rate <i>futures</i>;</li> <li>• forward rate agreements (<i>FRAs</i>);</li> <li>• forward commitments to buy or sell debt instruments;</li> <li>• <i>options</i> on interest rates, debt instruments, and <i>swaps</i>;</li> <li>• <i>warrants</i>;</li> <li>• <i>swaps</i>;</li> <li>• amortising bonds;</li> <li>• <i>equity futures, forwards</i> and <i>options</i> (but only in relation to the interest rate risk inherent in these products); and</li> <li>• Foreign exchange <i>futures, forwards</i> and <i>options</i>, but only in relation to the interest rate risk inherent in these products.</li> </ul>
The output and how it is used in the <i>PRR</i> calculation	Depending on the type of model and the conditions contained in any CAD1 model <i>waiver</i> granted, the outputs from an <i>options</i> risk aggregation model may be used as an input to the <i>PRR</i> calculation set out in <i>IPRU(INV)10-80R</i> .	Depending on the type of model and the conditions contained in any CAD1 model <i>waiver</i> granted, the individual sensitivity figures produced by this type of CAD1 model may be either input into a <i>firm's</i> standard duration method <i>PRR</i> calculation (see 60R of Appendix 4) or be converted into notional positions and input into a <i>firm's</i> maturity method <i>PRR</i> (see 55R of Appendix 4).

The CAD1 model waiver application and review process

8. G Details of the general *waiver* process are set out in *SUP 8*. Because of the complexity of a CAD1 model recognition *waiver*, it is recommended that, as set out in *SUP 8.3.3G*, a *firm* contact its usual contact at the *FSA* to discuss its proposed application. It should also be noted that the *waiver* recognition process in the case of a CAD1 model recognition *waiver* may take longer than the timescales indicated in *SUP 8.3.3G*.
9. G In order to consider a CAD1 model recognition *waiver* request, the *FSA* may undertake a review to ensure that it is adequate and appropriate for the *PRR* calculation.

10. G The model review process may be conducted through a series of visits covering various aspects of the *firm's* control and IT environment. Before these visits the *FSA* may ask the *firm* to provide some information relating to its *waiver* request accompanied by some specified background material. The model review visits are organised on a timetable that allows a *firm* being visited sufficient time to arrange the visit and provide the appropriate pre-visit information.
11. G As part of the model review process, the following may be reviewed: organisational structure and personnel; details of the *firm's* market position in the relevant products; profit and risk information; valuation and reserving policies; operational controls; IT systems; model release and control procedures; risk management and control framework; risk appetite and limit structure and future developments relevant to model recognition.
12. G The *FSA* will normally require meetings with senior management and staff from the front office, financial control, risk management, operations, systems development, information technology and audit areas.
13. G A review by a *skilled person* may be used before a CAD1 model *waiver* is granted to supplement the *waiver* process, or after the *waiver* has been granted to review the CAD1 model.
14. G If the *FSA* grants a *waiver* to allow the use of a CAD1 model, the *waiver* direction will specify the particular rule which has been modified, and set out the conditions on which the *waiver* has been granted. Conditions may include:
  - (1) the details of the calculation of *PRR*;
  - (2) the CAD1 model methodology to be employed;
  - (3) the products covered by the model (e.g. *option* type, maturity, currency);
  - (4) any notification requirements relating to the CAD1 model *waiver*; and
  - (5) any other conditions attached to the CAD1 model *waiver*.
15. G Where a *firm* operates any part of its CAD1 model outside the United Kingdom, the *FSA* may take into account the results of any home state supervisor's model review. The *FSA* may wish to receive information directly from the home state supervisor.

#### Maintenance of model recognition

16. G No changes should be made to a CAD1 model unless the change is not material. Material changes to a CAD1 model will require a renewed *waiver* to be issued. Materiality is measured from the time that the *waiver* is granted or, if the *waiver* has been varied in accordance with section 148 of the *Act*, the time of that variation. If a *firm* is considering making material changes to its CAD1 model, then it should notify the *FSA* at once. A *firm* must re-apply for a *waiver* if the products covered by the model change.
17. G If the CAD1 model ceases to meet the conditions of the *waiver*, the *firm* should notify the *FSA* at once. The *FSA* may then revoke the *waiver*, unless it is varied in accordance with section 148 of the *Act*.

## Risk management standards

18. G A *firm* with a complex portfolio is expected to demonstrate more sophistication in its modelling and risk management than a *firm* with a simple portfolio.
19. G A *firm* should be able to demonstrate that it meets the risk management standards set out in this appendix for each legal entity that will have the benefit of the CAD1 model *waiver*. This is particularly important for subsidiaries in *groups* subject to matrix management where the business lines cut across legal entity boundaries.
20. G A *firm* should have a conceptually sound risk management system which is implemented with integrity and should meet the following minimum standards:
  - (1) A *firm* should have a risk control unit that is independent of business trading units and reports directly to senior management. The unit should be responsible for designing and implementing the *firm's* risk management system. It should produce and analyse daily reports on the risks run by the business and on the appropriate measures to be taken in terms of the trading limits.
  - (2) A *firm's* senior management should be actively involved in the risk control process, and the daily reports produced by the risk control unit should be reviewed by a level of management with sufficient authority to enforce reductions of positions taken by individual traders as well as in the *firm's* overall risk exposure.
  - (3) The risk control group should have a sufficient number of staff with appropriate skills in the use of models.
  - (4) A *firm* should have established procedures for monitoring and ensuring compliance with a documented set of appropriate internal policies and controls concerning the overall operation of the risk measurement and control framework. This should take into account the front, middle and back office functions.
  - (5) A *firm* should conduct, as part of its internal audit process, a review of the systems and controls surrounding its CAD1 model. This review should include the valuation process, compliance with the CAD1 model scope and the activities of the business trading units and the risk control units. This review should be undertaken by staff independent of the areas being reviewed.
21. G In assessing whether the risk management and control framework is implemented with integrity, the *FSA* will consider the IT systems used to run the CAD1 model and associated calculations. The assessment will include, where appropriate:
  - (1) feeder systems; risk aggregation systems; the integrity of the data (i.e. it is complete, coherent and correct); reconciliations and checks on completeness of capture; and
  - (2) system development, change control and documentation; security and audit trails; system availability and contingency procedures; network adequacy.
22. G A *firm* should take appropriate steps to ensure that it has adequate controls surrounding:

- (1) the derivation of the *PRR* from the CAD1 model output;
- (2) CAD1 model development, including independent validation;
- (3) reserving;
- (4) valuation (see *IPRU(INV)10-41(9)R*), including independent validation; and
- (5) the adequacy of the IT infrastructure.

#### Model standards

23. G A *firm* should take appropriate steps to ensure that its CAD1 model captures and produces an accurate measure of the risks inherent in the portfolio covered by the CAD1 model. These risks may include, but are not limited to, gamma, vega and rho.

#### OPTIONS RISK AGGREGATION MODELS

24. G For a *firm* to obtain a CAD1 model *waiver* for its *options* risk aggregation model, it should have in place an appropriate *options* valuation model.
25. G The *FSA* does not specify the methodology that a *firm* should employ in order to produce the appropriate outputs from its CAD1 model. However, 26G to 42G provide details of how a *firm* could meet the requirements to capture gamma, vega and rho risks using a scenario matrix approach. Where a *firm* adopts the scenario matrix approach then the standards set out in 26G to 42G should be followed. The *firm* should also take into account other risks not captured by the scenario matrix approach. Otherwise, a *firm* may use an equivalent methodology. If a *firm* uses an equivalent methodology, then it will need to demonstrate that the approach used meets the requirements of this appendix.
26. G A scenario matrix is an approach by which an *options* portfolio is revalued given a number of simultaneous shifts in both the spot level of the underlying and the implied volatility.
27. G The scenario matrix approach may be employed for all types of *options* on all types of underlying asset.
28. G The following provides an outline of the initial steps to be taken when using the scenario matrix approach:
  - (1) A value for an *option* should be obtained using the *firm's options* valuation model.
  - (2) The inputs into the *options* valuation model for implied volatility of the underlying asset and the price of the underlying asset should then be altered so that a new value for the *option* is obtained (details of the amount by which the implied volatility and the price of the underlying should be amended are set out in 29G-35G).
  - (3) The difference between the original value of the *option* and the new value obtained following the alterations should be input into the appropriate cell in the matrix, the value in the central cell where there is no change in implied volatility or price of the underlying should therefore be zero.

- (4) The process of obtaining a new price for the *option* should be repeated until the matrix is completed.
29. G The alteration to the implied volatility (known as the implied volatility shift) referred to in 28(2)G may be a proportional shift, the size of which depends on the remaining life of the *option* and the asset class of the underlying. Table 31G sets out the shifts that should be applied where a proportional shift is used. Alternatively, a *firm* may use a single shift across all maturities or use an absolute rather than a proportional implied volatility shift. Where an absolute shift is used it should be at least as conservative as the proportional shifts. This should be reviewed and, if necessary updated, on a regular basis.
30. G A *firm* may choose to use a less detailed term structure than that in Table 31G, but the shifts used should be no less conservative than those set out. For example, a *firm* that uses one <3 month band, rather than the two bands (<1 month, and 1-3 months) set out in the table, should use the most conservative shift set out in the table for the bands covered that is, 30% for the <3 month band.
31. G TABLE: PROPORTIONAL IMPLIED VOLATILITY SHIFTS (SEE 29G)

REMAINING LIFE OF OPTION	PROPORTIONAL SHIFT	
	EQUITIES & FX & COMMODITIES	INTEREST RATES
≤1 month	30%	30%
>1≤3 months	20%	20%
>3≤6 months	15%	15%
>6≤9 months	12%	12%
>9≤12 months	9%	9%
>1≤2 years	6%	9%
>2≤4 years	4.5%	9%
>4 years	3%	9%

32. G The size of the underlying price/rate shift depends on the asset class of the underlying and is set out in 33G:
33. G TABLE: UNDERLYING PRICE/RATE SHIFTS (SEE 32G)

UNDERLYING ASSET CLASS	SHIFT
Equities	±8%
Foreign Exchange	±8%
Commodities	±15%, (but a <i>firm</i> may use the percentages applicable under the extended maturity ladder approach, where permitted by the requirements of Appendix 6).
Interest Rates	±100bp (but a <i>firm</i> may use the sliding scale of shifts by maturity as outlined in Appendix 4).

34. G The shifts outlined above are the maximum shifts required; in addition there will be a number of intermediate shifts as a result of the minimum matrix size criteria set out in 35G.
35. G The minimum size of the scenario matrix should be 3x7, that is, three observations for implied volatility (including the actual implied volatility) and seven observations for the price of the underlying (including the actual price of the underlying). A *firm* should be able to justify its choice of granularity. Greater granularity may be required where the portfolio contains, for example, a large proportion of barrier *options*.
36. G A different scenario matrix should be set up for each underlying asset type:
- (1) for *equities* (including single *equities*, baskets and indices) this means a separate matrix for each national market or non-decomposed basket or non-decomposed multi-national index;
  - (2) for *foreign exchange* products this means a separate matrix for each currency pair where appropriate;
  - (3) for *commodity* products this means a separate matrix for each underlying as defined in Appendix 6; and
  - (4) for interest rate products this means a separate matrix for each currency; in addition, a *firm* should not offset the gamma and vega exposures (except in the circumstances set out in 37G) arising from any one of the following types of products with the gamma and vega exposures arising from any of the other products in the list:
    - (a) swaptions (options on interest rates);
    - (b) interest rate *options* (including *options* on exchange-traded *deposit* or bill *futures*);
    - (c) bond *options* (including *options* on exchange-traded bond *futures*);

- (d) other types of exotic *option* which do not fall easily into one of the other three categories and are required by the *FSA* to form their own separate underlying asset.
37. G A *firm* may offset gamma and vega exposures arising from the products listed in 36(4)G where it can demonstrate that it trades different types of interest rate-related *options* as a portfolio and takes steps to control the basis risk between different types of implied volatility. If this is the case, then an individual matrix is not required for each of the products listed in 36(4)G and a combined scenario matrix may be used.
38. G Where it is imprudent to fully offset long-dated and short-dated vega exposure due to non-parallel shifts in the yield curve, a *firm* should use an appropriate number of scenario matrices to take account of non-parallel shifts in the yield curve according to the maturity of the *option* or underlying.
39. G Following the steps outlined in 28G, a *firm* then removes the portion of the values in the matrix that can be attributed to the effect that delta has had on the change in the value of the *option* (a process known as delta-stripping).
40. G Once the effect of delta has been removed from the matrix, the values left in the matrix relate to gamma and vega risk. A *firm's PRR* in relation to gamma and vega risk on the individual *option* is the absolute of the most negative cell in the scenario matrix produced. Where all cells are positive the *PRR* is zero. The total *PRR* for the gamma and vega risk on the portfolio of *options* is a simple sum of the individual requirements. This amount should then be fed into a *firm's PRR* calculation.
41. G The values that have been obtained for the delta-equivalent positions of instruments included in the scenario matrix should then be treated in the same way as positions in the underlying. Where the delta obtained relates to interest rate position risk, the delta equivalent positions may be fed into a *firm's* interest rate pre-processing model providing that the positions fall within the scope of the interest rate pre-processing model set out in 7G, and that the *firm* has the appropriate CAD1 model *waiver*. Alternatively, the delta obtained should be fed into the standard *PRR* calculation in Appendix 4, 5, 6 or 8 as appropriate.
42. G In using the scenario matrix approach, none of the steps followed will take specific account of a *firm's* exposure to rho risk. Where a *firm* can demonstrate that for interest rate-related *options* the rho sensitivity is effectively included in the delta sensitivities produced, there is no separate capital requirement relating to rho. For all other *options* except commodity *options*, a *firm* should calculate a rho sensitivity ladder by currency as part of its CAD1 model and feed this either into the maturity or duration method *PRR* calculation set out in Appendix 4 or, where a *firm* has the appropriate *waiver*, into an interest rate pre-processing model.

#### INTEREST RATE PRE-PROCESSING MODELS

43. G A *firm* granted a *waiver* to use an interest rate pre-processing model is permitted to use it for the pre-processing of the instruments set out in 7G, from which the residual positions are fed into the maturity or duration method *PRR* calculation as set out in Appendix 4.

44. G There are a number of different methods of constructing pre-processing models. All pre-processing models should generate positions that have the same sensitivity to defined interest rate changes as the underlying cash flows.
45. G In an interest rate pre-processing model each transaction is converted into its constituent cash flows. The cash flows are discounted using zero coupon rates derived from the *firm's* own yield curves.
46. G The cash flows are then calculated again using the *firm's* own yield curve shifted by the amount set out in 48G.
47. G The difference between the present values calculated using the *firm's* own yield curve and those calculated using the *firm's* curve shifted by the amount specified are known as the sensitivity figures. Alternatively, *firms* may shift the yield curve by one basis point and multiply the sensitivity figures up by the appropriate amount in order to achieve the shifts set out in 48G. These sensitivity figures are then allocated to each of the 15 maturity bands set out in 48G.
48. G TABLE: YIELD CURVE SHIFTS (SEE 46G)

Zone	Modified Duration	Assumed interest rate change (percentage points)
1	0 ≤ 1 months	1.00
	> 1 ≤ 3 months	1.00
	> 3 ≤ 6 months	1.00
	> 6 ≤ 12 months	1.00
2	> 1.0 ≤ 1.9 years	0.90
	> 1.9 ≤ 2.8 years	0.80
	> 2.8 ≤ 3.6 years	0.75
3	> 3.6 ≤ 4.3 years	0.75
	> 4.3 ≤ 5.7 years	0.70
	> 5.7 ≤ 9.3 years	0.65
	> 7.3 ≤ 9.3 years	0.60
	> 9.3 ≤ 10.6 years	0.60
	> 10.6 ≤ 12 years	0.60
	> 12.0 ≤ 20 years	0.60
	> 20 years	0.60

49. G Sensitivity figures calculated by a *firm* using an interest rate pre-processing model are usually produced in the format of a net sensitivity by maturity bucket or by discrete gridpoint. These maturity buckets or gridpoints should then be allocated to the 15 bands set out in 48G. The number of maturity buckets or gridpoints used to represent a yield curve can be referred to as granularity. It is not a requirement that each of the 15 bands for *firms* have one or more maturity buckets or gridpoints allocated; however, for all *firms* the granularity should be adequate to capture the material curve risk in the portfolio. Curve risk can be defined as the risk associated with holding long and short positions at different points along the yield curve.

50. G Positive and negative amounts in each of the different maturity bands of the sensitivity calculation should then be netted off to produce one figure for each of the bands. There is no capital requirement for this netting process.
51. G The individual sensitivity figures produced should then be input into a *firm's* duration method *PRR* calculation as set out in Appendix 4. The individual sensitivity figures for each band should be included with the other positions in the weighted net positions column used in the duration method.
52. G Alternatively, *firms* may choose to use an approach based on the maturity method set out in Appendix 4, making appropriate adjustments to the sensitivity figures.

## Appendix 11

### Use of a Value at Risk Model

#### Introduction

- 1 G This appendix provides details of when the *FSA* expects to allow a *firm* to use its own Value at Risk (VaR) model for the purpose of calculating part or all of its *PRR*, and explains how the model will relate to the standard rules.
- 2 G The models described in this appendix are described as VaR models in order to distinguish them from the kinds of model originally contemplated by the Capital Adequacy Directive (CAD). (These are covered in Appendix 10 and referred to as "CAD 1 models".) A VaR model is a risk management model which uses a statistical measure to predict profit and loss movement ranges with a confidence interval. The standards described in this appendix, and which will be applied by the *FSA*, are based on and implement Annex VIII of the CAD.
- 3 G The aim of the VaR model approach is to enable a *firm* with adequate risk management systems to benefit from more accurate *financial resources requirements* than those generated by standard requirements, and to provide a *firm* with an incentive to measure market risks as accurately and comprehensively as possible. It is crucial that those responsible for managing market risk at a *firm* should be aware of the assumptions and limitations of the *firm's* VaR model.
- 4 G A VaR measure provides an estimate of the worst expected loss on a portfolio resulting from market movements over a period of time with a given confidence level. The *PRR* relating to the risks covered by the VaR model is based on the value produced by the VaR model. In undertaking the *PRR* calculation, a *firm* should apply a multiplication factor to the value produced by the VaR model (details of how the multiplication factor will affect a *PRR* are set out in 76G). The multiplication factor that should be applied is set by the *FSA*. The multiplication factor may be increased by a plus factor, which relates to the results of a *firm's* back-testing process (for further details on the plus factor see 63G).
- 5 G There are a number of methodologies for calculating *PRR* using a VaR model. These include variance-covariance, historical simulation, Monte Carlo or a hybrid of these. Although the section on model standards in this appendix sets out some general model standards that should be met, the *FSA* does not prescribe any one method of computing *PRR* using a VaR model. Moreover, it does not wish to discourage any *firm* from developing alternative risk measurement techniques. A *firm* should discuss the use of any alternative techniques used to calculate *PRR* with the *FSA*.

#### Overview

[LINK TO STANDARD PRR RULES](#)

- 6 G 10-80(2)R requires a *firm* to use the rules in appendices 4 to 9 to calculate *PRR*. Therefore, a *firm* needs to apply for a *waiver* in order to calculate its *PRR* using a VaR model instead of (or in combination with) the standard approaches required under 10-80(2)R.
- 7 G The VaR Model based *PRR* produced in accordance with this appendix should be included in the *firm's PRR* calculation set out in 10-80(2)R. The VaR model *PRR* should be used in place of the appropriate *PRR* for the risks covered by the VaR model.

#### BASIC REQUIREMENTS / SUMMARY OF CHAPTER

- 8 G Details of the general *waiver* process can be found in *SUP* 8. The *FSA* will not normally grant a VaR model *waiver* unless it is satisfied about the quality of:
- (1) the internal controls and risk management surrounding the VaR model (see 29G to 36G);
  - (2) the VaR Model Standards (see 37G to 45G);
  - (3) risk management standards including stress testing and backtesting procedures surrounding a VaR model; (see 46G to 74G); and
  - (4) the procedures in place at a *firm* to calculate its VaR model based *PRR*.
- 9 G The *FSA* recognises that the nature of VaR models will vary across *firms*. The scope of and the conditions set out in a VaR model *waiver* may therefore differ in substance or detail from the matters described in this appendix in order to address individual circumstances adequately. For example, a VaR model *waiver* may also include additional conditions to meet the particular circumstances of the *firm* or the model.
- 10 G If the *firm* ceases to meet any of these standards, the *FSA's* policy is that the *waiver* should cease to have effect. In many cases the ongoing need to meet these standards will be included in the *waiver* direction by imposing certain conditions. Even if they are not formally included as conditions, the *FSA* is likely to consider revoking the *waiver* if the standards are not met.
- 11 G The VaR Model Waiver Application and Review section of this appendix sets out the *FSA's* general policy on the VaR model application and review process and the conditions that the *FSA* may impose relating to alterations of the model.
- 12 G As explained in *SUP* 8.3.1G, *wavers* permitting the use of models in the calculation of *PRR* will not be granted if that would be contrary to the CAD, and any *waiver* which is granted will only be granted on terms that are compatible with the CAD. The *FSA* considers it unlikely that it will deviate from this approach even where the *firm* making the *waiver* application is not subject to CAD. Accordingly, the *FSA* is likely to grant only *wavers* permitting the use of models that are of the same nature as CAD1 and VaR models.

#### SCOPE OF VAR MODELS

- 13 G This appendix sets out the *FSA's* policy on the scope of a VaR model *waiver* and the manner in which the outputs of the model will be incorporated in the calculation set out in 10-80(2). Some of the standards described in this appendix may also be reflected in conditions attached to a VaR model *waiver*.
- 14 G A VaR model will be expected to cover one or more of the following types of risk category:
- (1) interest rate general market risk;
  - (2) interest rate specific risk (in conjunction with interest rate general market risk);
  - (3) *equity* general market risk;
  - (4) *equity* specific risk (in conjunction with equity general market risk);
  - (5) foreign-exchange risk; and
  - (6) *commodity* risk.
- 15 G It is the *FSA's* view that, where a *firm* uses a VaR model for one risk category, it is good practice to extend its model over time to calculate all of its *PRR* risk categories.
- 16 G For the purposes of 10-80(2)R, where a combination of the standard *PRR* rules, CAD1 model and VaR model approaches is used the *PRR* from each method should be added together. A *firm* should take appropriate steps to ensure that all of the approaches mentioned are applied in a consistent manner. For example, where the *PRR* for a particular portfolio is normally calculated using a VaR model, it should not switch between the standard market risk rules and a VaR model approach purely to achieve a more attractive *PRR*.
- 17 G A *firm* will not be required to capture immaterial risk or the market risk inherent in new products in a VaR model. If a *firm* does not capture immaterial risks or the market risk inherent in a new product in a VaR model, then the appropriate standard *PRR* rules to these risks will apply.

#### The VaR model waiver application and review process

- 18 G Details of the general *waiver* process are set out in *SUP* 8. Because of the complexity of a VaR model recognition *waiver*, it is recommended that, as set out in *SUP* 8.3.3G, a *firm* discusses its proposed application with its usual contact at the *FSA*. It should also be noted that the *waiver* recognition process in the case of VaR model recognition *waivers* is likely to take longer than the time-scale guidance set out in *SUP* 8.3.3G.
- 19 G In order for a VaR model recognition *waiver* to be granted, the *FSA* is likely to undertake a review to ensure that it is adequate and appropriate for the *PRR* calculation.

- 20 G The VaR model review process may be conducted through a series of visits covering various aspects of a *firm's* control and IT environment. Before these visits the *FSA* may ask that the *firm* provides some information relating to the *firm's waiver* request accompanied by some specified background material. The VaR model review visits are organised on a timetable that allows the *firm* being visited sufficient time to arrange the visit and provide the appropriate pre-visit information.
- 21 G As part of the of the VaR model review process the following may be reviewed: organisational structure and personnel; details of the *firm's* market position in the relevant products; profit and risk information; valuation and reserving policies; operational controls; IT systems; model release and control procedures; risk management and control framework; risk appetite and limit structure and future developments relevant to model recognition.
- 22 G A visit will usually involve the *FSA* wishing to meet senior management and staff from the front office, financial control, risk management, operations, systems development, information technology and internal audit areas.
- 23 G The *FSA* may complement its own review of a VaR model *waiver* request with one or more reviews by a *skilled person* under section 166 of the *Act*. Such a review may also be used where a VaR model *waiver* has been granted to ensure that the standards on which a VaR model *waiver* was based continue to be met.
- 24 G As set out in 9G the *FSA* will issue a *waiver* containing certain conditions. These conditions are likely to cover the standards described in this appendix to the extent that they are relevant to the circumstances, and may set out:
- (1) the details of the calculation of VaR model based *PRR*, which will contain the multiplication factor to be applied;
  - (2) the method of separating out specific risk if appropriate;
  - (3) the method agreed of calculating profit and loss accounts for backtesting purposes;
  - (4) the circumstances in which model refinements, new products, new markets and new locations should be notified to the *FSA*;
  - (5) any notification requirements relating to the VaR model *waiver*;
  - (6) any additional reporting requirements (e.g. electronic reporting of backtesting results);
  - (7) details of the changes to the VaR model which would be considered material by the *FSA*; and
  - (8) any other conditions attached to the VaR model *waiver*.
- 25 G Where a VaR model used outside of the United Kingdom differs from that used in the United Kingdom a *firm* the *FSA* may request details on the reasons for using different models.

- 26 G Where a *firm* operates any part of its VaR model outside of the United Kingdom, the *FSA* may take into account the results of the home supervisor's VaR model review. The *FSA* may wish to receive information directly from the home supervisor.

#### MAINTENANCE OF VaR MODEL WAIVER

- 27 G No changes may be made to a VaR model which is the subject of a *waiver* direction, unless the change is not material. Material changes to a VaR model will require a renewed *waiver* to be issued. Materiality is measured against the VaR model as it was at the time that the *waiver* was originally granted or, if the *waiver* has been varied in accordance with section 148 of the *Act*, as it was at the time of that variation. If a *firm* is considering making material changes to its VaR model then it should notify the *FSA* at once.
- 28 G If the VaR model ceases to meet the conditions of the *waiver*, a *firm* should notify the *FSA* at once. The *FSA* is likely then to revoke the *waiver*, unless it is varied in accordance with section 148 of the *Act*.

#### Risk management standards

- 29 G A *firm* with a complex portfolio is expected to demonstrate more sophistication in its modelling and risk management than a *firm* with a simple portfolio. For example, a *firm* will be expected to consider, where necessary, varying degrees of liquidity for different risk factors, the complexity of risk modelling across time zones, product categories and risk factors. Some trade-off is permissible between the sophistication and accuracy of the model and the conservatism of underlying assumptions or simplifications.
- 30 G A *firm* should be able to demonstrate that it meets the risk management standards set out in this section on a legal entity basis. This is particularly important for subsidiaries of *groups* subject to matrix management where the business lines cut across legal entity boundaries.
- 31 G A *firm* should have a conceptually sound risk management system surrounding the use of a VaR model which is implemented with integrity and should meet the following minimum standards:
- (1) the VaR model should be fully integrated into the daily risk management process of the *firm*, and serve as the basis for reporting risk exposures to senior management of the *firm*;
  - (2) a *firm* should have a risk control unit which is independent from business trading units, and which reports directly to senior management. The unit should be responsible for designing and implementing the *firm's* risk management system. It should produce and analyse daily reports on the output of the model and on the appropriate measures to be taken in terms of the trading limits;

- (3) a *firm's* directors and senior management should be actively involved in the risk control process, and the daily reports produced by the risk control unit should be reviewed by a level of management with sufficient authority to enforce both reductions of positions taken by individual traders as well as in the *firm's* overall risk exposure;
- (4) a *firm* should have sufficient numbers of staff skilled in the use of sophisticated models in the trading, risk control, audit and back office areas;
- (5) a *firm* should have established procedures for monitoring and ensuring compliance with a documented set of appropriate internal policies and controls concerning the overall operation of the risk measurement system;
- (6) a *firm's* VaR model should have a proven track record of acceptable accuracy in measuring risk;
- (7) a *firm* should conduct a programme of stress testing frequently, and the results of these tests should be reviewed by senior management and reflected in the policies and limits set;
- (8) a *firm* should have procedures to ensure that the valuation of assets and liabilities is appropriate, and that valuation uncertainty is identified and appropriate reserving is undertaken where necessary; and
- (9) at least once a year, a *firm* should conduct, as part of its regular internal audit process, a review of its risk management process. This review should include both the activities of the business trading units and of the independent risk control unit, and should be undertaken by suitably qualified staff independent of the areas being reviewed. This review should consider, at a minimum:
  - (a) the adequacy of the documentation of the risk management system and process;
  - (b) the organisation of the risk control unit;
  - (c) the integration of market risk measures into daily risk management and the integrity of the management information system;
  - (d) the process for approving risk pricing models and valuation systems used in front and back offices;
  - (e) the validation of any significant changes in the risk management process;
  - (f) the scope of risks and products captured by the VaR model;
  - (g) the accuracy and completeness of position data;
  - (h) the process used to ensure the consistency, timeliness, independence and reliability of data sources;
  - (i) the accuracy and appropriateness of volatility and correlation assumptions;

- (j) reserving policies, the accuracy of the valuation procedures, and risk sensitivity calculations;
  - (k) the process employed to evaluate the VaR model's accuracy, including the programme of backtesting;
  - (l) the controls surrounding VaR model development; and
  - (m) the process employed to produce the VaR model based *PRR*.
- 32 G A *firm's* VaR model output should be an integral part of the process of planning, monitoring and controlling a *firm's* market risk profile. The VaR model should be used in conjunction with internal trading and exposure limits. The links between these limits and the model should be consistent over time and understood by senior management.
- 33 G A *firm* should have adequate VaR model validation procedures to assess its model, and should have procedures in place to ensure that both the assumptions and approximations underlying the model and the limits of the model are appropriate. It should undertake testing of the accuracy of parts of the VaR models as well as the whole model. The *FSA* will require a period of initial monitoring or live testing before a VaR model can be recognised. Backtesting should be regarded as an additional safeguard rather than the primary model validation tool. A *firm* should therefore ensure that it has appropriate methods of assessing model validity and does not rely purely on the results of backtesting.
- 34 G In assessing whether the VaR model is implemented with integrity, the *FSA* will consider in particular the IT systems used to run the model and associated calculations. The assessment may include:
- (1) feeder systems; risk aggregation systems; time series databases; the VaR model system; stress testing system; the backtesting system including profit & loss cleaning systems where appropriate; data quality; reconciliations and checks on completeness of capture;
  - (2) system development, change control and documentation; security and audit trails; system availability and contingency procedures; network adequacy; and
  - (3) operational statistics relating to VaR model production process; examples of these statistics are timeliness, number of re-runs required and the reliability of data feeds.
- 35 G It is the responsibility of a *firm's* own management to ensure the accuracy and integrity of its VaR model. This responsibility includes obtaining appropriate independent validation of the VaR model.
- 36 G A *firm* should ensure that it has adequate controls surrounding:
- (1) the derivation of the VaR model based *PRR*;
  - (2) the integrity of the backtesting programme, including the calculation of the profit and loss account;

- (3) the integrity and appropriateness of the VaR model, including the model's geographic coverage and the completeness of data sources;
- (4) the VaR model's initial and ongoing development, including independent validation;
- (5) the valuation models, including independent validation; and
- (6) the adequacy and security/integrity of the IT infrastructure.

#### Model standards

- 37 G A *firm* should base its *PRR* calculation on the output of the VaR model which is used for its internal risk management rather than one developed specifically to calculate its *PRR*.
- 38 G The *FSA* accepts that the scope and nature of VaR models varies across *firms*. This means that different *firms* are likely to calculate different estimates of market risk for the same portfolio. Systematic differences are due to length of data series, choice of methodology (historical or Monte Carlo simulation or variance-covariance method or a hybrid of these), differences in aggregating risks within and across broad risk factors, the treatment of *options* and other non-linear products and the specification of risk factors.
- 39 G A *firm* that chooses to apply for a *waiver* to use a VaR model for the calculation of its *PRR* should calculate its market risk using the appropriate model parameters as set out in 40G.
- 40 G A *firm* should calculate its market risk by adopting the following minimum standards:
- (1) VaR should be calculated at least daily, using a 99% one-tailed confidence limit.
  - (2) VaR should be calculated using a holding period equivalent to ten *business days*.
  - (3) VaR measures should be based on an effective historical observation period of at least one-year, except where a shorter observation period is justified by a significant change in price volatility. If a weighting scheme or other method is used, then the effective observation period should be at least one year. The weighted average time lag of the individual observations should not be less than six months.
  - (4) Data sets should be updated no less frequently than quarterly, and more frequently whenever market prices are subject to material change.
- 41 G A *firm* may meet the appropriate model parameter requirement by using different model parameters and employing a suitable adjustment mechanism to produce a VaR figure which is equivalent to the figure produced using the parameters set out in 40G. For example, a *firm's* own model may use a 95% one-tailed confidence limit, but a mechanism to convert the output of the model to reflect a 99% one-tailed confidence limit should be employed.

## RISK FACTORS

- 42 G A VaR model should capture and accurately reflect, on a continuing basis, all material general market risks and, where a VaR model *waiver* has been granted in relation to specific risk, specific risks arising on the underlying portfolio, and should ensure that sufficient risk factors are properly specified.

## GENERAL MARKET RISK

- 43 G A *firm's* VaR model should capture a sufficient number of risk factors in relation to the level of activity of the *firm*, in particular the following:
- (1) For interest rate risk, the VaR model should incorporate a set of risk factors corresponding to the interest rate curves in each currency in which the *firm* has interest rate sensitive positions. A *firm* should ensure that it captures the variations of volatility of rates along the yield curve. In order to achieve this, a *firm* should divide the yield curves of, at a minimum, the major currencies and markets where it has material interest rate exposures into a minimum of six maturity segments. The risk measurement system should also capture the risk of less than perfectly correlated movements between different yield curves.
  - (2) For foreign exchange risk, the VaR model should incorporate risk factors corresponding to the individual foreign currencies, including gold, in which the *firm's* positions are denominated.
  - (3) For *equity* risk, the VaR model should use a separate risk factor at least for each of the *equity* markets in which the *firm* has material exposures.
  - (4) For *commodity* risk, the VaR model should use a separate risk factor at least for each *commodity* in which the *firm* has material exposures. The VaR model should capture the risk of less than perfectly correlated movements between similar, but not identical, *commodities* and the exposure to changes in forward prices arising from maturity mismatches. It should also take account of market characteristics, notably delivery dates and the scope provided to traders to close out positions.
  - (5) A *firm* that deals in *options*, or products with *option*-like characteristics, should ensure that their VaR model captures non-linear risk. Steps should also be taken to ensure that adequate capital is set aside for any other risks not captured by the model. *Firms* are reminded that, under 42G, the standard *PRR* rules may instead be applied to these risks.
  - (6) Correlations within and between the risk factors in (1) to (4) may be used provided the system for measuring these correlations is sound and implemented with integrity.

## SPECIFIC RISK

- 44 G Where a *firm* wishes to use a VaR model in relation to specific risk it should meet the following additional standards:

- (1) The model on which the VaR estimate is based should explain the price variation in the portfolio. For example, the VaR model may be based on a factor model or on a historical simulation model. The ability of the model to explain price variation could be demonstrated by a statistical comparison over the same period of time between actual price changes on the portfolio and the profit and loss impact of risk factors included within the model. A *firm* may wish to include an estimate of residual variation not explained by the model.
  - (2) The VaR model should be sensitive to changes in the level of concentration risk in the portfolio.
  - (3) The VaR model should be robust to an adverse environment.
  - (4) Where a *firm* calculates its specific risk surcharge under 78G(2) it should conduct specific risk backtesting for the traded debt portfolio and the *equity* portfolio separately. Specific risk backtesting is a comparison of the specific risk VaR measures against the corresponding actual P&L for sub-portfolios that contain material specific risk.
  - (5) The VaR model should be validated through empirical testing appropriate to the level of complexity and the assumptions made in the VaR model, which should be aimed at assessing whether specific risk is being adequately captured. Where specific risk is identified by examining relevant sub-portfolios, then these should be chosen in a consistent manner.
- 45 G A *firm* should have means to assess and, if necessary, mitigate or control event risk. For example, possible means include stress-testing procedures, or reserving policies. It is not however necessary to include factors to model event risk within a specific risk model unless warranted by the nature of the portfolio.

#### Stress testing and backtesting

##### STRESS TESTING

- 46 G Stress testing should involve identifying market scenarios or other low probability events in all types of risks that generate the greatest losses on a *firm's* portfolio.
- 47 G A *firm* should periodically and actively identify all the worst case scenarios that are relevant to its portfolio. Scenarios used should be appropriate to test the effect of adverse movements in market volatilities and correlations and the effect of any change in the assumptions underlying the VaR model. Scenarios involving low probability market events should nevertheless be plausible.
- 48 G A *firm* should have procedures to assess and respond to the results produced from stress testing. In particular, stress testing results should be:
- (1) used to evaluate its capacity to absorb such losses or identify steps to be taken to reduce risk.
  - (2) communicated routinely to senior management and periodically to the directors.

- 49 G Stress testing should capture non-linear effects.
- 50 G A *firm* should have the capacity to run daily stress tests. A *firm* may want to conduct the more complex stress tests at longer intervals or on an ad hoc basis.

#### BACKTESTING

- 51 G Backtesting is the process of comparing VaR risk measures to portfolio performance. It is intended to act as one of the mechanisms for the ongoing validation of a *firm's* VaR model and to provide incentives for *firms* to improve their VaR measures.
- 52 G Backtesting is only one method of assessing the performance of a VaR model and, although *firms* are required to carry out a backtesting programme, they should adopt other methods of measuring performance as well.
- 53 G Before a *waiver* will be granted to use a VaR model, a *firm* should have a backtesting programme in place and should provide three months of backtesting history.
- 54 G A *firm* should have the capacity to analyse its daily profit and loss account and compare the results to the VaR measure used for backtesting, both at the level of the whole portfolio covered by the VaR model and at the level of individual books that contribute material amounts to risk or the profit and loss account.
- 55 G VaR models are likely to undergo almost continuous refinements. This may make it difficult to backtest using 250 days' data if it is based upon a previous version of the model. If a refinement is not regarded as material, then a *firm* may use the last 250 days' data for backtesting purposes.
- 56 G A *firm* should compare each of its 250 most recent *business days'* profit and loss account figures with the corresponding one-day VaR measures. This comparison should be made daily using a rolling 250-day period.
- 57 G The VaR measure used for backtesting for these purposes should be calibrated to a one-day holding period and a 99% one-tailed confidence level, but otherwise the VaR model should be the same as that used to calculate the VaR model based *PRR*.
- 58 G The positions underlying the profit and loss account and VaR measures should not be materially different.
- 59 G If a *firm* uses a combination of the standard rules (and, where appropriate, CAD1 model) and VaR model approaches or does not model specific risk it should take appropriate steps periodically to ensure that this is taken into account in its backtesting procedures.
- 60 G An exception occurs each time a day's loss exceeds the corresponding VaR measure (at *firm* level). When an exception occurs, a *firm* should notify its supervisor by close of business two *business days* after the exception occurs (oral notification is acceptable).

- 61 G On a monthly basis, a *firm* should submit to the *FSA* a written account of the previous month's exceptions. The written account should include the cause of the exceptions and the *firm's* planned response. Nil returns will not be required.
- 62 G Where multiple exceptions occur, the multiplication factor used by a *firm* in its VaR model based *PRR* calculation should be increased by the appropriate plus factor set out in Table 63G (details of how the multiplication factor affects a *firm's* VaR model based *PRR* are set out in the Calculation of a VaR model based *PRR* section of this appendix). The table sets out the plus factor to be applied given the number of exceptions over the most recent 250 *business days*.
- 63 G Table: backtesting plus factors (see 62G)

Green	Fewer than 5	0.00
Yellow	5	0.40
	6	0.50
	7	0.65
	8	0.75
	9	0.85
Red	10	1.00

- 64 G The addition of a plus factor for VaR models that appear to be under-performing is designed to act as an incentive to ensure that the VaR model continues to perform well, and where it does not, that a *firm* takes prompt action to remedy the situation.
- 65 G If ten or more exceptions are recorded in a 250 day period, the *firm* should to take immediate corrective action. In these circumstances, the *FSA* may apply a plus factor greater than one, or the *FSA* may consider revoking a *firm's* VaR model *waiver*, unless it is varied in accordance with section 148 of the *Act*.
- 66 G If ten or more exceptions are recorded in a 250 day period due to the specific risk backtesting required in 44(4)G then the *firm* should take immediate corrective action on the specific risk part of the model or set aside additional capital.
- 67 G If a *firm* believes an exception should be disregarded it should submit to the *FSA* a written explanation of why the exception occurred and why it would be appropriate to disregard it. An exception may be disregarded only in exceptional situations. One example of when an exception might properly be disregarded is when it has arisen as a result of a risk that is not captured in its VaR model but against which regulatory capital is already held.

- 68 G The *FSA* may also consider disregarding a backtesting exception where, in a period of high volatility, multiple backtesting exceptions occur before the data set is updated.
- 69 G During the first 250 days after a *firm* starts to use its VaR model to calculate its VaR model based *PRR* the policy in 62G relating to plus factors only applies to the period from the date that VaR model recognition is granted.

#### DEFINITION OF PROFIT AND LOSS ACCOUNT FOR BACKTESTING PURPOSES

- 70 G Backtesting should be performed using a measure of actual profit and loss.
- 71 G Actual profit and loss means the day's profit and loss account arising from the trading activities within the scope of the VaR model. This should exclude material non-market elements which might mask a loss. Such elements include *fees* and *commissions*, reserving which is not directly related to market risk and one-off marketing profits from new deals.
- 72 G Actual profit and loss should reflect any price adjustments arising from position reconciliation in accordance with a *firm's* written policies and procedures. These policies and procedures should include a documented method of assigning valuation adjustments to backtesting data, such that the amount and the date of adjustment is unambiguous.
- 73 G A *firm* should have the capacity to perform backtesting against hypothetical profit and loss. The *FSA* may require firms to produce this information upon request. Hypothetical profit and loss means profit and loss that would have occurred had the portfolio remained unchanged.
- 74 G VaR models are likely to undergo almost continuous refinements. This may make it difficult to backtest using 250 days' data if it is based upon a previous version of the model. If a refinement is regarded as material then a new *waiver* may be required to use a VaR model and the original *waiver* may be revoked (as set out in 28G). If a refinement is not material then a *firm* may use the last 250 days' data for backtesting purposes.

#### Calculation of VaR model based *PRR*

- 75 G The calculation of a *PRR* under the VaR model approach is set out in this section. A *firm* will be required by the *waiver* to add its VaR model based *PRR* to its other *PRRs* calculated under 10-80(2)R.
- 76 G A *firm's* VaR model based *PRR* on a daily basis is equal to the higher of:
- (1) its previous day's VaR number; and
  - (2) the average of its daily VaR measures on each of the preceding sixty *business days* multiplied by a multiplication factor (increased by the appropriate plus factor referred to in 63G).

- 77 G The multiplication factor to be used is specified by the *FSA* in the formal VaR model *waiver* direction as a condition of its use. The minimum multiplication factor that the *FSA* will set is 3, although a higher multiplication factor may be applied. This multiplication factor is the factor that should be used, unless the *waiver* has been varied in relation to this factor in accordance with Section 148 of the *Act*.

G The following equation expresses 76G and 77G mathematically:

$$PRR_{VaR} = \text{Max} \left( VaR_t, f \times \frac{1}{60} \sum_{i=0}^{59} VaR_{t-i} \right) + SR$$

$PRR_{VaR}$  is a *firm's* VaR model based *PRR*;

$VaR_t$  represents the previous day's VaR figure;

$VaR_{t-i}$  represents the VaR calculated for *i business days* earlier;

*f* is the multiplication factor referred to in 76(2)G and 77G;

*SR* is the specific risk surcharge which is only included in the calculation set out 78G where a *firm* has been granted a VaR model *waiver* in relation to specific risk. Details on the specific risk surcharge can be found in 79G to 80G.

- 78 G If the VaR model *waiver* granted enables a *firm* to calculate a specific risk *PRR* by the use of its VaR model then it should calculate its specific risk surcharge as either:

- (1) an amount equal to the specific risk portion of the VaR measure; or
- (2) an amount equal to the VaR measure of sub- portfolios that are subject to specific risk.

In both cases, the specific risk surcharge should be calculated as an average over the previous 60 *business days*.

- 79 G Where a *firm* calculates its specific risk surcharge using 78(1)G, then it should calculate specific risk for the purposes of calculating the surcharge as the difference between total value at risk and a measure of general market risk. In calculating general market risk for this purpose, positions that give rise to specific risk should be mapped to equivalent positions that bear general market risk only. In doing so, the following minimum standards should be adopted:

- (1) For *equities*, each position should be mapped to a factor that is representative of the national or international market to which they belong. For example, a stock may be mapped to a widely accepted broadly based stock market index for the country concerned.
- (2) For bonds, each position should be mapped using a reference interest rate curve for the currency concerned. The interest rate curves should be generally accepted by the market as broadly based reference curves for the currency concerned, for example, a government bond curve or a swap curve.

- 80 G Where a *firm* calculates its specific risk surcharge using 78(2)G, then the sub-portfolio structure should be identified in advance and any changes to the structure should be pre-notified to *FSA*. The sub-portfolios chosen should be those which contain positions that would produce a specific risk *PRR* under the standard rules approach

**INTERIM PRUDENTIAL SOURCEBOOK FOR INVESTMENT BUSINESSES  
(AMENDMENT NO 8) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 ("the Act"):
- (1) section 138 (General rule-making power); and
  - (2) section 156 (General supplementary powers).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C. This instrument comes into force on 1 June 2004.

**Amendments to the Interim Prudential sourcebook for investment businesses**

- D. Interim Prudential Sourcebook for investment businesses is amended in accordance with the Annex to this instrument.

**Citation**

- E. This instrument may be cited as the Interim Prudential Sourcebook for Investment Businesses (Amendment No 8) Instrument 2004.

By order of the Board  
20 May 2004

## **Annex**

### **Amendments to the Interim Prudential Sourcebook for investment businesses**

In this Annex, underlining indicates new text and striking through indicates deleted text.

#### Appendix 13(1) Defined terms for Chapter 13

...

connected  
person

- ~~(1) (in relation to the FSA's consideration of an application for, or of whether to vary or cancel, a Part IV permission) any person appearing to the FSA to be, or likely to be, in a relationship with the applicant or person given permission, which is relevant, in accordance with section 49(1) of the Act (*Persons connected with an applicant*);~~
- ~~(2) (in relation to the FSA's powers to gather information under section 165 of the Act (Authority's power to require information)) (as defined in section 165(11) of the Act) a person which has or has at any relevant time had the following relationship to an authorised person (A):~~
- ~~(a) it is a member of A's group;~~
  - ~~(b) it is a controller of A;~~
  - ~~(c) it is a member of a partnership of which A is a member;~~
  - ~~(d) it is or has been an employee of A;~~
  - ~~(e) if A is a company it is or has been:~~
    - ~~(i) an officer or manager of A or of a parent undertaking of A; or~~
    - ~~(ii) an agent of A or of a parent undertaking of A;~~
  - ~~(f) if A is a partnership, it is or has been a member, manager, or agent of A;~~
  - ~~(g) if A is an unincorporated association of persons which is neither a partnership nor an unincorporated friendly society, it is or has been an officer, manager, or agent of A;~~
  - ~~(h) if A is a friendly society, it is or has been an officer or manager of A as defined in section 119(1) of the Friendly Societies Act 1992;~~
  - ~~(i) if A is a building society, it is or has been an officer of A as defined in section 119(1) of the Building Societies Act 1986;~~
  - ~~(j) if A is an individual, it is or has been an agent of A;~~
- ~~(3) (in relation to the FSA's powers of investigation under section 171 and 172 of the Act) (Powers of persons appointed under section 167; Additional power of persons appointed as a result of section 168(1) or (4)) (as defined in section 171(4) of the Act) a person which has or has at any relevant time had the following relationship to a person under investigation (P):~~
- ~~(a) it has the relationship specified in any of paragraphs (2) (a) to (j) inclusive to P (where references in those paragraphs to A are taken to be references to P);~~
  - ~~(b) it is a partnership of which A is a member;~~
  - ~~(c) it is the partner, manager, employee, agent, appointed representative, banker, auditor, actuary or solicitor of:~~
    - ~~(i) A;~~
    - ~~(ii) a parent undertaking of A;~~
    - ~~(iii) a subsidiary undertaking of A;~~
    - ~~(iv) a subsidiary undertaking of a parent undertaking of A; or~~
    - ~~(v) a parent undertaking of a subsidiary undertaking of A.~~

connected  
person

in relation to a *person*,

- (a) its *controller*;
- (b) a partner in it, or his or its partner;
- (c) a director of it;
- (d) its employee (whether under a contract of service or a contract for services) or an employee of its *appointed representative*;
- (e) another *undertaking* having the same *controller* as that *person*;
- (f) an *undertaking* which is an *associate* of that *person*;
- (g) (if the *person* is not a *body corporate*)
  - (i) a *close relative* of any *person* within (a) to (d) above; or
  - (ii) a *body corporate* controlled by that *person* or by any partner of that *person*; or
- (h) a trustee of a trust (other than an *occupational pension scheme*) the beneficiaries of which the *firm* knows or ought to know include any individual within (a) to (d) or (g)(i) above.

material  
holding

means a holding of -

- (a) ordinary share capital and non cumulative preference share capital; or
- (b) subordinated loan and non fixed-term cumulative preference share capital, in a *credit institution* or a *financial institution* where -
  - (i) (a) or (b) above exceeds 10% of the share capital plus share premium of the issuer; or
  - (ii) the aggregate of (a) and (b) above exceeds 10% of the *firm's own funds*, before deducting the holding.

## LONG-TERM CARE INSURANCE CONTRACTS INSTRUMENT 2004

### **Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 ("the Act"):
- (1) section 138 (General rule-making power);
  - (2) section 141 (Insurance business rules);
  - (3) section 145 (Financial promotion rules);
  - (4) section 156 (General supplementary powers); and
  - (5) section 157(1) (Guidance).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

### **Commencement**

- C. This instrument comes into force as follows:
- (1) Part B of Annex E comes into force on 31 October 2004 and ceases to have effect on 13 January 2005;
  - (2) Part C of Annex E comes into force on 14 January 2005; and
  - (3) the remainder of this instrument comes into force on 31 October 2004.

### **Amendments to the Conduct of Business sourcebook**

- D. The Conduct of Business sourcebook is amended in accordance with Annex A to this instrument.

### **Amendments to the Insurance: Conduct of Business sourcebook**

- E. The Insurance: Conduct of Business sourcebook is amended in accordance with Annex B to this instrument.

### **Amendments to the Training and Competence sourcebook**

- F. The Training and Competence sourcebook is amended in accordance with Annex C to this instrument.

### **Amendments to the Authorisation manual**

- G. The Authorisation manual is amended in accordance with Annex D to this instrument.

### **Amendments to the Glossary**

- H. The Glossary is amended in accordance with Annex E to this instrument.

### **Citation**

- I. This instrument may be cited as the Long-Term Care Insurance Contracts Instrument 2004.

By order of the Board  
20 May 2004

Amended by Addendum  
19 October 2004

Amended by Addendum  
5 November 2004

Amended by Addendum  
25 November 2004

## Annex A

### Amendments to the Conduct of Business sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text. Where an entire section of text is being inserted, the place where the change will be made is indicated and the text is not underlined.

(1)	(2) Material to which the transitional provision applies: The COB provisions in Table COB TR 2 with the labels indicated	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
1.0	<i>Extra time provisions</i>				
1.1	<i>ETPI</i>	R	Transitional Relief		
			<p>...</p> <p>(2) Paragraph (1) does not apply to the following:</p> <p>...</p> <p>(k) ...;</p> <p><u>(l) (from 31 October 2004) any rule in COB inserted or amended by the Long-Term Care Insurance Contracts Instrument 2004 and, in the case of an amendment, to the extent of such amendment.</u></p>	...	...
	...				

...

3.8.7 G ...

- (6) A firm which offers general insurance contracts, providing benefits for the policyholder's care in the event of the policyholder's disability or incapacity, should avoid using terms which state expressly or imply that the policy will be available for the policyholder to claim on in the long-term, that is, for any period beyond the expiry of the policy. So a general insurance contract should not be promoted as being capable of providing long-term care insurance for the policyholder in the long-term, and expressions such as "long-term care" and "lifetime care" should generally be avoided in relation to general insurance contracts. If a general insurance contract provides benefits over the long-term in the event of a claim being made, a firm should make clear that the long-term aspect relates only to the availability of benefits in the event of a claim, not to the duration of the policy itself.

...

5.3.13 G ...

- (4) COB 5.3.29G contains guidance which is relevant for assessing the suitability of:

...

- (f) ISA or PEP transfers;~~and~~
- (g) contracting out of SERPS; and
- (h) borrowing to invest.

...

5.3.29 G Table Guidance on matters which should be taken into account when assessing the suitability of ...

...

H Borrowing to invest

When considering the suitability of a particular investment product which is linked directly or indirectly to any form of loan or mortgage, a firm

- (a) should take account of the source of the funds being invested and the suitability of the overall transaction; and

- (b) must follow any relevant suitability and other rules in COB and MCOB.

For example, the circumstances in which a recommendation to enter into a regulated lifetime mortgage contract and invest the funds into a long-term care insurance contract might be appropriate are limited, and both COB 5.3 and MCOB 8.5 apply.

...

- 6.2.16A R (1) When a long-term care insurance contract which is
- (a) not a pure protection contract and which was issued on or after 1 January 1995; or
- (b) a pure protection contract and which was issued on or after 31 October 2004;

is varied so as to bring into effect provisions for long-term care benefits, the firm must provide the private customer with appropriate key features in good time sufficient to enable the private customer to consider them before the variation takes effect.

- (2) If the circumstances of the variation, whether by the exercise of an option or otherwise, make it impossible to provide the key features before the variation takes effect, the firm must do so as soon as possible afterwards.

...

- 6.2.18 R When a *policyholder* applies to vary
- (1) a life policy issued before 1 January 1995; or
- (2) a pure protection contract issued before 31 October 2004 and which would after 30 October 2004 be a long-term care insurance contract ;

(or is personally recommended to do so) and the variation of the policy gives rise to a right to cancel under COB 6.7.7R, information must be given to the policyholder by the firm that is personally recommending, arranging or effecting the variation before it is put into effect, unless COB 6.2.19R applies. The firm must believe on reasonable grounds that the information given is sufficient to enable the policyholder to understand the consequences of the variation.

...

- 6.4.1 R COB 6.4 applies to a firm in accordance with COB 6.1.1R, in respect of occupational pension schemes, self invested personal pension schemes, income withdrawals, cash deposit ISAs, traded life policies, stakeholder pension schemes, packaged products, and other deposits and long-term care insurance contracts.

...

Long-term care insurance

6.4.29 R At each anniversary of the date on which a long-term care insurance contract which is based on single premium investment bonds was entered into, the insurer must:

- (1) provide the private customer with a table based on the format of COB 6.5.24R containing at least the current fund value and projected future policy values (as in the column "What you might get back");
- (2) where it is the case, inform the private customer of the possibility that future policy values may be insufficient to fulfil the original purpose of the contract; and
- (3) inform the private customer how to obtain advice on investments in respect of long-term care insurance contracts, and that it is in his best interest to do so.

6.4.30 G In the case of a long-term care insurance contract in which:

- (1) long-term care benefits are available after commencement of the policy at the option of the policyholder; and
- (2) as a result of the exercise of that option a new contract of insurance is offered to the policyholder;

provision is made in TC 2.5.5AR so that, in respect of the contract containing the option, an employee, although engaged in advising on long-term care insurance contracts need not be required to pass an appropriate examination for long-term care insurance contracts to do so.

...

6.5.14 G A firm might include information on the following under 'risk factors', when relevant:

...

- (14) ...;
- (15) ...; and
- (16) in the case of a long-term care insurance contract which is based on single premium investment bonds, the fact that the income produced by the bonds may be insufficient to continue to meet the premiums of the underlying contract of insurance. The description could also explain the consequences of this, including, if it is the case, that capital may be eroded, further single premiums may be payable, or the cover reduced.

6.5.15 R *A firm must include a projection, illustrating how the principal terms of the proposed transaction apply to the private customer:*

- (1) *where the proposed transaction is for a life policy (other than a long-term care insurance contract which is a pure protection contract); or*

...

6.5.16A G *A projection is not appropriate for a long-term care insurance contract which is a pure protection contract. Policy benefits and premiums must be illustrated in accordance with the relevant provisions of COB 6.5.49R.*

...

6.5.21 G The information required by COB 6.5.20R should include:

...

(3A) for a long-term care insurance contract, information to make policyholders aware of the importance of:

- (a) regularly reviewing their circumstances and the likely costs of long-term care with a view to ensuring that their long-term care needs continue to be appropriately covered; and
- (b) seeking advice in the event of change affecting the policyholder's long-term care needs, or in the event of a variation of the contract terms so as to provide long-term care benefits;

(3B) for a long-term care insurance contract in which the insurer has the right to review the premium:

- (a) a statement of that fact, the frequency of any right to vary the premium payable and a description of the circumstances which would give rise to a variation of the premium, for example, a change in claims experience;
- (b) a statement of the consequences of not paying any increased or extra premium resulting from any review, such as a reduction in policy benefits;
- (c) a statement of the rate of investment return assumed in the premium calculation together with a note of each other main assumption subject to variation;
- (d) a statement that the higher the assumed rate of investment return, the greater the chances of being asked to pay increased or extra premiums following a premium review;

(e) if the rate of investment growth assumed in the *premium* calculation is more than the intermediate rate shown in COB 6.6.50R, an illustration of the potential increased regular *premium* or additional single *premium* that may be payable following the first *premium* review, assuming that the rate of investment return achieved up to the review and assumed thereafter was at the intermediate rate shown in COB 6.6.50R;

(3C) for a *long-term care insurance contract* in which long-term care benefits are available after commencement of the *policy* at the option of the *policyholder*, a statement of the amount of *premium* payable for that option. Where any change to the level of cover requires further underwriting this should, where possible, be made clear at the outset.

(4) for a *long-term care insurance contract* which is based on single *premium* investment bonds -

...

6.5.25 R When completing COB 6.5.24R, a *firm* must:

...

(9) ~~in the case of a *long-term care insurance contract packaged product*~~ in the case of a *long-term care insurance contract* based on a single *premium* investment bonds, where the standard ten-year table does not illustrate adequately how the charges taken from a *policy* can increase considerably with age:

...

6.5.38 R A *firm* must include under the heading 'How much will the advice cost?' either the statement prescribed in (1), ~~or (1A)~~ or (1B), as applicable, or the information required by (2):

(1) for *life policies* (other than *long-term care insurance contracts* which are *pure protection contracts*) or *stakeholder pension schemes*: 'Your adviser will give you details about the cost. The amount will depend on the size of the *premium* and the length of the *policy* term. It will be paid for out of the deductions'; or

...

(1B) for *long-term care insurance contracts* which are *pure protection contracts*: 'Your adviser will give you details about the cost. The amount will depend on the size of the *premium* and the length of the *policy* term.'

...

Right to cancel

6.7.7 R A *customer*, who is an individual, has a right to cancel:

...

- (4) a variation of a *life policy, pension contract or stakeholder pension scheme* for which a right to cancel applies under *COB 6.7.23R, COB 6.7.23AR* and *COB 6.7.26AR*.

...

- 6.7.23 R (1) After an increase in regular or single *premiums* or payments (including a *pension transfer*) to a *life policy, pension contract or stakeholder pension scheme*, a *retail customer* has a right to cancel (see *COB 6.7.7R(4)*) in the following circumstances unless (2) applies:

...

- (b) ...; or
- (c) any variation where the increase represents the proceeds of a *pension transfer*; or
- (d) the variation of a long-term care insurance contract to provide long-term care benefits.

- 6.7.23A R When under a long-term care insurance contract, a new contract is issued to provide for long-term care benefits, a policyholder who is an individual has a right to cancel unless COB 6.7.23R(2) applies.

...

After *COB 8* insert the following new chapter, *COB 8A*:

8A Claims handling

8A.1 Application and purpose

Who and what ?

8A.1.1 R This chapter applies in respect of *claims handling* under *long-term care insurance contracts* to:

- (1) an *insurer*;
- (2) a *firm* acting on behalf of a *policyholder*; and
- (3) a *managing agent*.

8A1.2 R Throughout this chapter, references to an *insurer* apply equally to a *managing agent*.

8A1.3 G An *insurer* is responsible for *claims handling*. A *managing agent* is responsible for *claims handling* for *policies* underwritten at Lloyd's. An *insurer* or a *managing agent* remains responsible for *claims handling* if it outsources any of its *claims*-related activities, including where it gives an intermediary authority to *handle claims* on its behalf. An *insurer* or a *managing agent* is not responsible for the administration and performance activities that a *firm* carries out on behalf of a *policyholder* in connection with a *claim*. In relation to these activities, a *firm* which acts on behalf of *policyholders* should refer to COB 8A.3.

8A1.4 G An *insurer* should refer to the *rules* and *guidance* set out in SUP 2.3.5R to SUP 2.3.10G in respect of any *person* to whom it outsources its *claims handling* functions.

8A1.5 G This chapter applies to *claims* made by or on behalf of *policyholders*.

#### Purpose

8A.1.6 G (1) The purpose of this chapter is to ensure that:

- (a) *claims* are handled fairly;
- (b) *claims* are settled promptly;
- (c) *policyholders* are provided with information on the *claims handling* process and with an explanation of why a *claim* is rejected or not settled in full, where relevant; and
- (d) *firms* acting on behalf of *policyholders* disclose and manage any conflicts of interest that may exist.

(2) This chapter reinforces:

- (a) *Principle 3* (Management and control), which requires a *firm* to take reasonable care to organise and control its affairs responsibly and effectively, with adequate risk management systems;
- (b) *Principle 6* (Customers' interests), which requires a *firm* to pay due regard to the interests of its *policyholders* and treat them fairly; and
- (c) *Principle 8* (Conflicts of interest), which requires a *firm* to manage conflicts of interest fairly, both between itself and its *policyholders* and between a *policyholder* and another *client*.

8A.2 Claims handling: general

#### Requirements to handle *claims* promptly and fairly

8A.2.1 R An *insurer* must carry out *claims handling* promptly and fairly.

8A.2.2 G When handling the *claim* of a *policyholder*, an *insurer* should comply with the *rules* and *guidance* in COB 8A.4.

8A.2.3 G An *insurer* should refer to the *guidance* in SYSC 3.2 (Areas covered by systems and controls) in its procedures for *claims handling*. For example, an *insurer* should have in place systems and controls which take account of reasonably foreseeable peaks in demand, to allow it to deal with *claims* promptly in such circumstances.

8A.2.4 G An *insurer* should refer to the *guidance* set out in TC 1 (Commitments) in respect of the competence of any *person* who carries out *claims handling* on its behalf.

#### Giving policyholders guidance on claiming

8A.2.5 R When an *insurer* is informed that a *policyholder* wishes to *claim* under his *policy* it must give the *policyholder* reasonable guidance to help him make a *claim* under his *policy*.

#### Rejecting or refusing claims

8A.2.6 R An *insurer* must not:

- (1) unreasonably reject a *claim* made by a *policyholder*;
- (2) except where there is evidence of fraud, refuse to meet a *claim* made by a *policyholder* on the grounds:
  - (a) of non-disclosure of a fact material to the risk which the *policyholder* could not reasonably be expected to have disclosed;
  - (b) of misrepresentation of a fact material to the risk unless the misrepresentation is negligent; or
  - (c) of breach of warranty, unless the circumstances of the *claim* are connected with the breach and unless:
    - (i) under a ‘life of another’ contract, the warranty relates to a statement of fact concerning the life to be assured and that statement would have constituted grounds for rejection of a *claim* by the *insurer* under COB 8A.2.6R(2)(a) or (b) if it had been made by the life to be assured under an ‘own life’ contract; or
    - (ii) the warranty is material to the risk and was drawn to the attention of the *policyholder* before the conclusion of the contract.

8A.3 Duties of firms acting on behalf of policyholders

8A.3.1 R COB 8A.3 applies to a *firm*.

8A.3.2 G COB 8A.3 will usually apply to a *firm* that is not an *insurer*, but it may also apply to an *insurer*, for example, if it were dealing with a *claim* on a *policy* insured by another *insurer*.

A firm's duty of care, skill and diligence

- 8A.3.3 R A *firm* when acting for a *policyholder* in relation to a *claim* must act with due care, skill and diligence.
- 8A.3.4 G The *rules* and *guidance* in COB 8A.3 do not seek to set out the full extent of the duties owed by *firms* to any *person* for whom they act, nor do they displace the general law on the duties of *agents*.

A firm's duty to avoid conflicts of interest

- 8A.3.5 R (1) A *firm* must not, in connection with any *claim*, put itself in a position where its own interest, or its duty to any *person* for whom it acts, conflicts with its duty to any *policyholder* for whom it acts, unless:
- (a) it made proper disclosure to that *policyholder* of all information needed to put the *policyholder* in a position where he can give informed consent to the arrangement; and
  - (b) it has obtained the prior informed consent of the *policyholder*.
- (2) A *firm* must decline to act for the *person* or *policyholder* referred to in (1), or any of them, unless in the particular circumstances of the case disclosure and informed consent are sufficient to enable it to reconcile the conflict.
- 8A.3.6 G COB 8A.3.5R imposes a requirement on a *firm* to avoid conflicts of interest in relation to *claims* where it acts on behalf of a *policyholder* unless it can manage them by disclosure to, and the obtaining of consent from, the *policyholder*.
- 8A.3.7 G A *firm* should consider whether it is possible to manage the conflict by disclosing the conflict to the *policyholder* and obtaining his consent. Where a *firm* acts for a *policyholder* in arranging a *policy*, it is likely to be the agent for the *policyholder* in connection with the preparation and handling of any *claim* against the *insurer*. If the *firm* intends to be the agent of an *insurer* in relation to *claims* under that *policy*, it will need to consider whether it is at risk of putting itself in the position where it cannot act without some breach of duty either to the *insurer* or the *policyholder*. The *firm* should consider whether disclosure and consent are sufficient to reconcile the conflicting obligations. An example of a circumstance in which disclosure and consent are unlikely to be sufficient and when a *firm* may well consider it should not act for the *insurer* or the *policyholder* or either, is where the *firm* knows that the *policyholder* will, to obtain a quick payment, accept a low amount in settlement of a *claim* and also knows the *insurer* is willing to settle for a higher amount.
- 8A.3.8 R If a *firm* acts for an *insurer* and not for a *policyholder* in relation to a *claim* on a contract which it *arranged* for that *policyholder*, the *firm* must inform the *policyholder* that, in relation to that *claim*, it is acting on behalf of the *insurer* and not the *policyholder*.

- 8A.3.9 G *COB* 8A.3.8R would apply, for example, where a *firm* has delegated authority for *claims handling* and deals with a *claim* in relation to a contract that is sold to a *policyholder*, if the *firm* is not acting on behalf of that *policyholder* in relation to the *claim*.
- 8A.3.10 R If a *firm* is notified of a *claim* in relation to a *policy* which it has *arranged*, and the *insurer* has not given it the authority to deal with that *claim*, it must:
- (1) forward the notification to the *insurer* promptly; or
  - (2) inform the *policyholder* immediately that it cannot deal with the notification.
- 8A.4 Policyholders: performance standards for handling claims
- Responding to notification of the claim
- 8A.4.1 R An *insurer* must respond promptly to a notification by a *policyholder* of a *claim*.
- 8A.4.2 G Notification of a *claim* is a demand of the *insurer* to pay or provide a benefit insured under the *policy*, for example, by submitting a *claim* form or giving the equivalent information orally, where permitted by the *policy*. An enquiry that precedes such a demand, for example, as to whether a particular loss is covered, and therefore whether a *claim* could be made under the terms of the *policy*, is not notification of a *claim*.
- 8A.4.3 G *COB* 8A.4.1R requires an *insurer* to respond promptly once it has received notification of a *claim*. Generally a prompt response would be one within *five business days* of a *policyholder* making a *claim*, although in some circumstances a prompt response could be less than *five business days*, such as where the *policyholder* would expect a swifter response because of the nature of the *claim* or the terms of the *policy*.
- 8A.4.4 R The response referred to in *COB* 8A.4.1 R must:
- (1) provide the information set out in *COB* 8A.4.5 R;
  - (2) be in a *durable medium*, unless the notification by the *policyholder* is made orally and the *insurer* does not require the *policyholder* to complete a *claim* form; and
  - (3) provide the *policyholder* with a *claim* form, if the *insurer* requires one to be completed.
- 8A.4.5 R The information referred to in *COB* 8A.4.4 R (1) is:
- (1) that the *claim* relates to a risk that is clearly outside the scope of the *policy*, if that is the case (in which case no further information need be provided);

- (2) the action that will be taken by the *insurer* and when that action will be taken;
- (3) if the *insurer* is appointing any other parties to contact the *policyholder* on the *insurer's* behalf, in respect of each other party appointed the following information, if known (but, if the purpose of the appointment is to investigate the validity of a *claim*, the information need not be given if it would limit or prevent the effective investigation of the *claim* or any part of it):
  - (a) its name (unless the other party trades under the name of the *insurer*);
  - (b) its function; and
  - (c) the work it will carry out in relation to the *claim*.

8A.4.6 G The purpose of the *rules* and *guidance* in COB 8A.4.1R to COB 8A.4.5R is to provide the *policyholder* at an early stage with information in relation to the processing and settlement of his *claim* by the *insurer*. COB 8A.4.5R (1) is intended to prevent a *policyholder* pursuing a *claim* for which he is clearly not covered. It is not intended to pre-empt the outcome of an investigation of a *claim*.

8A.4.7 G The purpose of COB 8A.4.5R (3) is to ensure that a *policyholder* knows the name and function of any party who will contact him in relation to a *claim* as a representative of the *insurer*, for example, an outsourced *claims handling* company. An *insurer* would not be expected to notify the *policyholder* of other parties who are appointed to investigate the validity of a *claim* if this would limit or prevent an effective investigation. However, if a third party is appointed to liaise with the *policyholder* on the *insurer's* behalf, as well as assess the validity of the *claim*, the *insurer* would be expected to disclose the information in COB 8A.4.5R (3) unless it would limit or prevent an effective investigation.

#### Investigation and processing of the claim

8A.4.8 R An *insurer* must keep the *policyholder* reasonably informed about the progress of his *claim*.

8A.4.9 G Where the investigation of a *claim* is likely to be protracted, an *insurer* should provide periodic progress or status reports, when appropriate, to a *policyholder*, including providing the *policyholder* with any relevant update in relation to the information provided under COB 8A.4.4R. The *insurer* should also respond without undue delay to any reasonable request by the *policyholder* for information.

#### Determining the claim

8A.4.10 R An *insurer* must notify the *policyholder* as soon as practicable whether it:

- (1) rejects all of his *claim*;

- (2) rejects his *claim* but without prejudice to the rejection makes an offer in compromise; or
- (3) accepts all or part of his *claim*.

8A.4.11 R If the *insurer* rejects the *claim* but without prejudice to the rejection makes an offer in compromise, it must notify the *policyholder* of the terms of that offer as soon as practicable.

8A.4.12 R If the *insurer* accepts all or part of the *policyholder's claim*, it must notify the *policyholder* as soon as practicable whether:

- (1) as to the parts it accepts, it agrees to provide the money, property or service claimed by the *policyholder* in full; or
- (2) it makes some other offer in compromise. In that event, it must notify the *policyholder* of the terms of its offer.

8A.4.13 R (1) Unless the *insurer* accepts the *policyholder's claim* in full, the *insurer* must explain why it rejects all or part of the *policyholder's claim* or accepts his *claim* or makes a compromise offer, specifying any relevant term of the policy.

- (2) The *insurer* must offer the *policyholder* the choice of receiving the information at COB 8A.4.13R (1) in a *durable medium*.

8A.4.14 R The *insurer* must, in respect of each part of the *claim* which it accepts, inform the *policyholder* whether the *claim* will be settled by paying him, or by paying another *person* to provide goods or services, or by providing those goods or services.

#### Settling a claim

8A.4.15 R An *insurer* must settle a *claim* by a *policyholder* promptly.

8A.4.16 G (1) Settlement terms are agreed when:

- (a) the *insurer* accepts the *policyholder's claim*; and
- (b) the *policyholder* accepts the *insurer's* offer of settlement.

- (2) When the *insurer* settles the *claim* by paying the *policyholder*, the *insurer* should aim to make payment within five *business days* after the *insurer* and the *policyholder* have agreed settlement terms, subject to any pre-conditions laid down by the *insurer* or in law being met by the *policyholder*. This does not prevent the *insurer* paying a *claim* before the *policyholder* has finally agreed settlement terms.

- (3) The *guidance* in (2) will not apply if the *insurer* settles the *claim* by:

- (a) payment against a liability due on a future date;
- (b) the provision of goods or services;

- (c) making payments on a date specified by the *policyholder*; or
- (d) payment of the *claim* through another party (eg a care home) on a monthly or some other basis;

and in the case of (a) or (b) the *insurer* should make prompt payment or arrange for prompt provision of the goods or services after the *insurer* and the *policyholder* have agreed settlement terms.

8A.4.17 G The arrangements for settlement set out in COB 8A.4.16G (3)(b) apply to arrangements to supply goods or services to the *policyholder*. In such situations, the goods or services should be provided promptly but where they cannot be, the *insurer* should inform the *policyholder* when to expect them.

8A.4.18 G An *insurer* should note that unless it has previously informed a *policyholder* that a *claim* will not be met in full or in part until *premiums* have been paid, the *insurer* may not delay the payment of a *claim* on the grounds that *premiums* are outstanding.

#### Pre-Action Protocols

8A.4.19 G A *policyholder* who does not accept an *insurer's* rejection of his *claim* (or part of it) may challenge that rejection. If he chooses to do so through the courts, *firms* should be aware that, in England and Wales, there are pre-action protocols which lay down certain requirements as to the steps to be taken before proceedings are issued. This chapter does not displace these requirements, to which *firms* should have regard in the event that a rejection of a *claim* moves towards litigation.

#### 8A.5 Record keeping

8A.5.1 R An *insurer* must make and retain, for the duration of the *claim* and for a minimum of six years after the *insurer's* obligations to the *policyholder* under the *long-term care insurance contract* have ceased, the following information in relation to each *claim* made against a *policy* issued by it or handled by it:

- (1) details of the *claim*;
- (2) a record of each communication with the *policyholder* including the date on which it was made; and
- (3) the date the *claim* was settled or rejected and details of settlement or rejection including information relevant to the basis for the settlement or rejection.

12.1.15 R Table: This table applies *COB* to *firms* when carrying on the activity to which *COB* 12.1.7R (2) relates.

## Annex B

### Amendments to the Insurance: Conduct of Business sourcebook

In this Annex, underlining denotes new text .

...

2.2.8      G    A firm which offers general insurance contracts, providing benefits for the customer's care in the event of the customer's disability or incapacity, should avoid using terms which state expressly or imply that the policy will be available for the customer to claim on in the long-term, that is, for any period beyond the expiry of the policy. So a general insurance contract should not be promoted as being capable of providing long-term care insurance for the customer in the long-term, and expressions such as "long-term care" and "lifetime care" should generally be avoided in relation to general insurance contracts. If a general insurance contract provides benefits over the long-term in the event of a claim being made, a firm should make clear that the long-term aspect relates only to the availability of benefits in the event of a claim, not to the duration of the policy itself.

		Activity in TC 2.1.4 R	Examination must be passed:
		1. (a) - (c)	before starting the activity
		(d) - (e)	within 30 months of starting the activity
		(f) - (g)	within two years of starting the activity

<sup>1</sup> The table at 2.5.1AR will become part of the Handbook from 1 July 2004 under the provisions of FSA 2004/26

		(h)	(no examination requirement)
		<del>(ha)(i)</del> - (l)	within two years of starting the activity
		(m) - (o)	before starting the activity
		(p) - (q)	within two years of starting the activity
		(r)	(no examination requirement)
		2. (a) - (g)	within two years of starting the activity

Exemption from an appropriate examination

...

2.5.5A R If a long-term care insurance contract provides that:

- (1) long-term care benefits are available after commencement of the policy at the option of the policyholder; and
- (2) as a result of the exercise of that option a new contract of insurance is offered to the policyholder;

an employee engaged in the activities referred to at TC 2.1.4R 1(ha) need not, in respect of the contract containing the option, be required to pass an appropriate examination for long-term care insurance contracts.

2.5.5B G TC 2.5.5AR applies to the situation where a contract contains an option for the policyholder to take out a second, separate contract and that second contract provides for long-term care benefits. Both contracts will be long-term care insurance contracts and subject to the rules applying to such contracts. However, TC 2.5.5AR provides that, where the two contracts are separate, an employee engaged in advising on the first contract (containing the option) need not be required to pass an appropriate exam for long-term care insurance. An employee advising on the second contract, which provides the long-term care benefits, must, however, have passed an appropriate exam for long-term care insurance.

2.5.6 G A firm should, for the purposes of TC 2.8.1R (Record keeping), make and retain records of the criteria governing its decision to apply ~~TC 2.5.5R to an employee.~~

- (1) TC 2.5.5R; or
- (2) TC 2.5.5AR;

to an employee.

## Annex D

### Amendments to the Authorisation sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

2.6.28 G Rights to, or interests in, all the *specified investments* in AUTH 2.6 (except rights to, or interests in, rights under a regulated mortgage contract) are themselves treated as *specified investments*. The effect is that, in most cases, an activity carried on in relation to rights or interests derived from any of those *investments* is also a *regulated activity* if the activity would be regulated if carried on in relation to the *investment* itself. The exception is where the rights or interests relate to a *pure protection contract* or a *general insurance contract*.

...

2.9.8 G Broadly speaking, the exclusions focus on cases where the main business of a *person* is to sell goods or supply services but where certain activities may have to be carried on for the purposes of that business which would otherwise be *regulated activities*. The exclusions are not available where the customer to whom goods are sold or services are supplied is an individual. They are also not available where what is at issue is a transaction entered into, or service provided, in relation to rights under a ~~*life policy contract of insurance*~~ or units in a *collective investment scheme* (or rights to, or interests in, either).

## Annex E

### Amendments to the Glossary of definitions

In this Annex, underlining denotes new text and striking through denotes deleted text.

#### PART A

<i>claim</i>	(1) (in <i>COMP</i> ) a valid claim made in respect of a civil liability owed by a <i>relevant person</i> to the claimant.  (2) (in <u><i>COB</i></u> , <i>ICOB</i> , <i>LLD</i> , <i>SUP</i> and <i>TC</i> ) a claim under a <i>contract of insurance</i> .
<u><i>claims handling</i></u>	<u>(in <i>COB</i>) in relation to a claim under a long-term care insurance contract, carrying out the contract (by an <i>insurer</i>) or paying or declining to pay a claim on behalf of a member (by a <i>managing agent</i>).</u>
<i>contractually based investment</i>	(in accordance with article 3(1) of the <i>Regulated Activities Order</i> (Interpretation)):  (a) a <i>life policy</i> <u>(except a long-term care insurance contract which is not a qualifying contract of insurance)</u> ;  (b) an <i>option, future, contract for differences or funeral plan contract</i> ;  (c) <i>rights to or interests in an investment</i> falling within (a) or (b).
<i>designated investment</i>	a <i>security</i> or a <i>contractually-based investment</i> (other than a <i>funeral plan contract</i> and a <i>right to or interest in a funeral plan contract</i> ), that is, any of the following <i>investments</i> , specified in Part III of the <i>Regulated Activities Order</i> (Specified Investments), <u>and a long-term care insurance contract which is a pure protection contract</u> :  ...  (l) <i>rights to or interests in investments</i> in (a) to (k) (article 89) <u>but not including rights to or interests in rights under a long-term care insurance contract which is a pure protection contract</u> .
<i>designated investment business</i>	...  (ea) <u>assisting in the administration and performance of a contract of insurance, but only if the contract of insurance is a designated investment</u> .  ...

*life policy*

- (1) (except in *COB*, *AUTH App 1* and *AUTH App 5*):
  - (a) (in accordance with the definition of "qualifying contract of insurance" in article 3(1) of the *Regulated Activities Order*) a *long-term insurance contract* other than a reinsurance contract and a *pure protection contract*; or
  - (b) a *long-term care insurance contract*.
- (2) (in *COB* except COB 3):
  - (a) a *long-term insurance contract* in (1) or
  - (b) a *pension policy*.
- (3) (in COB 3, *AUTH App 1* and *AUTH App 5*) a *long-term insurance contract* in (1) (a) or a *pension policy*.

PART B

long-term care  
insurance contract

(in accordance with article 1 of the Financial Services and Markets Act 2000 (Regulated Activities) (Amendment) (No 2) Order 2003) a contract of insurance in respect of which the following conditions are met:

- (a) the purpose (or one of the purposes) of the policy is to protect the policyholder against the risk of becoming unable to live independently without assistance in consequence of a deterioration of mental or physical health, injury, sickness or other infirmity;
- (b) benefits under the contract are payable in respect of:

  - (i) services;
  - (ii) accommodation; or
  - (iii) goods;

which are (or which is) necessary or desirable due to a deterioration of mental or physical health, injury, sickness or other infirmity;
- (c) the contract is expressed to be in effect until the death of the policyholder (except that the contract may give the policyholder the option to surrender the policy); and
- (d) the benefits under the contract are capable of being paid throughout the life of the policyholder.

PART C

long-term care  
insurance contract

a long-term insurance contract which:

- (a) (i) provides (or would at the *policyholder's* option provide) benefits for the *policyholder* which are payable or provided in the event that the *policyholder's* mental or physical health has deteriorated to the extent that he is incapacitated so that he is unable to live independently without assistance, and is not expected to recover to the extent that he can live independently without assistance; and
  - (ii) those benefits are payable or provided in respect of:
    - (A) services;
    - (B) accommodation; or
    - (C) goods;

which are necessary or desirable for the continuing care of the *policyholder* because of the incapacity referred to in (i); and
  - (iii) the benefits under the contract are capable of being paid periodically for all or part of the period during which the *policyholder* is unable to live independently without assistance;
- or
- (b) is sold or held out as providing benefits for the *policyholder* as set out in (a).

**ADDENDUM**

**LONG-TERM CARE INSURANCE CONTRACTS INSTRUMENT 2004**

In this Addendum, underlining indicates new text and striking through indicates deleted text.

Annex A of this instrument is amended as follows:

...

...

Long-term care insurance

6.4.~~2932~~2932 R At each anniversary of the date on which a *long-term care insurance contract* which is based on single *premium* investment bonds was entered into, the *insurer* must:

...

6.4.~~3033~~3033 G In the case of a *long-term care insurance contract* in which:

...

...

## ADDENDUM

### LONG-TERM CARE INSURANCE CONTRACTS INSTRUMENT 2004

This addendum inserts new text into this instrument to reflect the Handbook text previously introduced by an earlier instrument, FSA 2004/39.

Annex A to this instrument is amended by deleting the text in COB 6.2.18R in its entirety and replacing it with text which is not underlined. Otherwise, underlining indicates new text and striking through indicates deleted text.

- 6.2.18 R (1) When a *policyholder* applies to vary:
- (a) a *life policy* issued before 1 January 1995; or
  - (b) a *pure protection contract* issued before 31 October 2004 and which would after 30 October 2004 be a *long-term care insurance contract*;  
  
(or is *personally recommended* to do so) and the variation of the *policy* gives rise to a right to cancel under COB 6.7.7R, information must be given to the *policyholder* by the *firm* that is *personally recommending*, arranging or effecting the variation before it is put into effect, unless COB 6.2.19R or COB 6.4.27R to COB 6.4.31R (telephone sales and other exemptions) applies.
- (2) When giving the information in (1), the *firm* must:
- (a) believe on reasonable grounds that the information given is sufficient to enable the *policyholder* to understand the consequences of the variation; and
  - (b) in the case of a variation which results in a new *distance contract*, in good time before the variation is put into effect, provide all the contractual terms and conditions and the information in COB App 1.

...

#### Post-sale rRight to cancel

- 6.7.7 R A retail customer, ~~who is an individual~~, has a right to cancel:

## ADDENDUM

### LONG-TERM CARE INSURANCE CONTRACTS INSTRUMENT 2004

Annex A to this instrument is amended by replacing the text shown amending COB 6.5.14G with the following text:

- 6.5.14 G The description which a *firm* is required to provide under COB 6.5.13R(2) might include information on the matters set out in the following non-exhaustive list:

...

(17) ...: and

(18) in the case of a long-term care insurance contract which is based on single premium investment bonds, the fact that the income produced by the bonds may be insufficient to continue to meet the premiums of the underlying contract of insurance. The description could also explain the consequences of this, including, if it is the case, that capital may be eroded, further single premiums may be payable, or the cover reduced.

**CONDUCT OF BUSINESS SOURCEBOOK (DISAPPLICATION OF PROSPECTUS  
RULES TO AUTHORISED FUNDS) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the powers listed in Schedule 4 to the Conduct of Business sourcebook.
- B. The rule-making powers listed in that Schedule are specified for the purpose of section 153(2) (Rule-making instruments) of the Financial Services and Markets Act 2000.

**Commencement**

- C. This instrument comes into force on 1 June 2004.

**Amendments to the Conduct of Business sourcebook**

- D. The Conduct of Business sourcebook is amended in accordance with the Annex to this instrument.

**Citation**

- E. This instrument may be cited as the Conduct of Business Sourcebook (Disapplication of Prospectus Rules to Authorised Funds) Instrument 2004.

By order of the Board  
20 May 2004

**Annex**  
**Amendment to the Conduct of Business sourcebook**

In this Annex underlining indicates new text.

...

Standardised past performance information

3.8.13 R (1) ...

(5) This rule does not apply to a *prospectus* drawn up in accordance with CIS 3.2.1R (Drawing up of prospectus) or COLL 4.2.2R (Publishing the prospectus).<sup>1</sup>

...

---

<sup>1</sup> COB 3.8.13R was substantially amended by the Financial Promotions (Past Performance) Instrument 2003 (FSA 2003/96) to come into effect on 1 June 2004. The amendment in this instrument adds to the provisions in that instrument and comes into effect at the same time.

**TRAINING AND COMPETENCE SOURCEBOOK  
(MONITORING OF EMPLOYEES) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 ("the Act"):
- (1) section 138 (General rule-making power);
  - (2) section 156 (General supplementary powers); and
  - (3) section 157 (Guidance).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act .

**Commencement**

- C. This instrument comes into force on 1 July 2004.

**Amendments to the Training and Competence sourcebook**

- D. The Training and Competence sourcebook is amended in accordance with the Annex to this instrument.

**Citation**

- E. This instrument may be cited as the Training and Competence Sourcebook (Monitoring of Employees) Instrument 2004.

By order of the Board  
20 May 2004

## Annex

### Amendments to the Training and Competence sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

#### 2.7 Supervising and monitoring

Supervising employees not ~~yet~~ assessed as competent

- 2.7.1 R If a *firm's employees* engage in an activity with or for *private customers*, the *firm* must ensure that if an *employee* has is not ~~yet been~~ assessed as competent, but is permitted in accordance with *TC 2.4.2R* to engage in a particular activity under supervision, the *employee* is appropriately supervised until assessed as competent in that activity.

...

~~Supervising employees assessed as competent~~

- ~~2.7.3 R A *firm* must have *arrangements* in place to ensure that an *employee* who has been assessed as competent is appropriately supervised.~~

- ~~2.7.4 G Appropriate supervision will vary according to the competence of the *employee* and is likely to be less intense once competence has been attained. [If the *employee* is, for example, a *sole trader*, or the only *director* or *partner* engaging in the activity, the *firm* should make whatever arrangements are appropriate in the circumstances, bearing in mind that it can become difficult to be objective about one's own performance.]<sup>1</sup>~~

Supervisors of employees advising private customers on packaged products

- 2.7.5 R If an *employee* who is not assessed as competent is engaging in the activity of giving advice on *investments* which are packaged products to *private customers*, the *firm* must ensure that the individual supervising that *employee*:
- (1) has passed an appropriate [examination]<sup>2</sup>; and
  - (2) has the technical knowledge, assessment skills and coaching skills to act as supervisor, before acting as supervisor, and that this competence is maintained.

---

<sup>1</sup> The words in square brackets were added by the Training and Competence Sourcebook (Examinations and Miscellaneous Amendments) Instrument 2004 (FSA 2004/26) with effect from 1 May 2004.

<sup>2</sup> The word in square brackets was added by the Training and Competence Sourcebook (Examinations and Miscellaneous Amendments) Instrument 2004 (FSA 2004/26) in substitution for '*approved examination*' with effect from 1 July 2004.

Monitoring employees assessed as competent

2.7.5A R A firm must have arrangements in place to ensure that an employee who is engaging in an activity with or for private customers and who has been assessed as competent is appropriately monitored.

2.7.5B G What level of monitoring is appropriate will depend on all the circumstances including the knowledge and skills of the employee. It is likely to be less intense than the level of supervision carried out under TC 2.7.1R. If the employee is, for example, a sole trader, or the only director or partner engaging in the activity, the firm should make whatever arrangements are appropriate in the circumstances, bearing in mind that it can become difficult to be objective about one's own performance.

2.7.5C R If an employee who is engaging in an activity with or for private customers falls below the standard expected of a competent employee, the firm must make arrangements for supervising the employee, having regard to the provisions of TC 2.7.1R and TC 2.7.5R.

Supervising and monitoring: record keeping

2.7.6 G A firm should, for the purposes of TC 2.8.1R (Record keeping), make and retain records of:

- (1) the criteria applied in deciding the level of supervision and monitoring required in respect of its employees; and
- (2) how the supervision and monitoring of its employees is carried out.

## PERIODIC FEES (2004/2005) INSTRUMENT 2004

### Powers exercised

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) section 156 (General supplementary powers);
  - (2) section 157(1) (Guidance); and
  - (3) paragraph 17(1) of Schedule 1 (Fees).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

### Commencement

- C. This instrument comes into force on 1 June 2004.

### Amendments to the Handbook

- D.
- (1) The General provisions (GEN) are amended in accordance with Annex A to this instrument.
  - (2) The Authorisation manual (AUTH) is amended in accordance with Annex B to this instrument.
  - (3) The Supervision manual (SUP) is amended in accordance with Annex C to this instrument.
  - (4) The Dispute resolution: Complaints sourcebook (DISP) is amended in accordance with Annex D to this instrument.
  - (5) The Collective Investment Schemes sourcebook (CIS) is amended in accordance with Annex E to this instrument.
  - (6) The New Collective Investment Schemes sourcebook (COLL) is amended in accordance with Annex F to this instrument.
  - (7) The Professional firms sourcebook (PROF) is amended in accordance with Annex G to this instrument.
  - (8) The Recognised Investment Exchange and Recognised Clearing House sourcebook (REC) is amended in accordance with Annex H to this instrument.

### Citation

- E. This instrument may be cited as the Periodic Fees (2004/2005) Instrument 2004.

By order of the Board  
20 May 2004

## Annex A

### Amendments to the General provisions

In this Annex underlining indicates new text.

3.3.1R A *person* need not pay a fee on the date on which it is due under the relevant provision in the *Handbook*, if:

(1) ...

(2) unless SUP 20.2.7R(4) or SUP 20.2.7R(5) (Time and method for payment) applies, that date would otherwise fall on or before the 30th *day* after the date on which the *FSA* has sent written notification to that *person* of the fee payable on that date, in which case he must pay on or before the 30th *day* after the date on which the *FSA* sends the notification.

## Annex B

### Amendments to the Authorisation manual

## Annex C

### Amendments to the Supervision manual

In this Annex underlining indicates new text and striking through indicates deleted text.

- 6.3.22R If a *firm* applies for a variation of its *Part IV permission*, it must pay the fee specified in Part 3 of *AUTH 4 Annex 1R* in either of the following cases:
- (1) if the variation is granted, the business of the *firm* will fall within one or more activity groups specified in Part 1 of *SUP 20 Annex 1R* not applicable before the grant of the variation, ~~except the A.13 activity group if, before the variation, the A.12 activity group tariff applied to the *firm's* business;~~ or
  - (2) ...
- 6.3.22AR The sum payable under *SUP 6.3.22R* must be paid:
- (1) by banker's draft, cheque or other payable order;
  - (2) in full without deduction;
  - (3) on or before the date on which the application is made.
- 6.3.22BG The appropriate fee is an integral part of an application for a variation of a *Part IV permission*. Any application received by the *FSA* without the accompanying appropriate fee, in full and without deduction (see *SUP 6.3.22AR*) will not be treated as an application made in accordance with section 44 of the *Act*. Where this is the case, the *FSA* will contact the applicant to point out that the variation cannot be progressed until the appropriate fee has been received. In the event that the appropriate fee, in full and without deduction, is not forthcoming, the application will be returned to the applicant and no application will have been made.
- 6.3.22CG Fees paid for an application to vary a *Part IV permission* are not refundable.
- 20.2.4R The periodic fee referred to in *SUP 20.2.1R* is (except in relation to the *Society*) calculated as follows:
- (1) ...
  - (2) ...
  - (3) ...

(4) apply any applicable payment charge or discount specified in *SUP* 20.2.7AR, provided that:

(a) for payment by direct debit, successful collection of the amount due is made at the first attempt by the *FSA*; or

(b) for payment by credit transfer, the amount due is received by the *FSA* on or before the due date.

20.2.7R

(1) ...

(2) ...

(3) ~~In any other case~~ If the *firm's* periodic fee for the previous financial year was less than £50,000, the *firm* must pay the periodic fee due in full by 1 July in the financial year to which that sum relates.

(4) If a *firm* has applied to cancel its *Part IV permission* in the way set out in *SUP* 6.4.5D (Cancellation of permission), then (2) and (3) do not apply but it must pay the total amount due when the application is made.

(5) If the *FSA* has exercised its *own-initiative powers* to cancel a *firm's Part IV permission* in the way set out in *ENF* 5 (Cancellation of Part IV permission on the *FSA's* own initiative), then (2) and (3) do not apply but the *firm* must pay the total amount due immediately before the cancellation becomes effective.

20.4.4R

A *firm* which becomes authorised, or whose *permission* is extended, during the course of the financial year must pay a fee which is calculated by:

(1) identifying each of the tariffs set out in Part 1 of *SUP* 20 Ann 2R for the relevant financial year that apply to the *firm* only after the *permission* is received or extended, but ignoring:

(a) the A.13 activity group if, before the variation, the A.12 activity group applied to the *firm's* business; or

(b) the A.12 activity group if, before the variation, the A.13 activity group applied to the *firm's* business;

(2) ...

(3) ...

(4) ...

20.4.12AG Where a *firm* has applied to cancel its *Part IV permission*, or the *FSA* has exercised its *own-initiative powers* to cancel a *firm's Part IV permission*, the due dates for payment of periodic fees are modified by *SUP 20.2.7R(4)* and *SUP 20.2.7R(5)* respectively.

SUP 20 Annex 1R

Part 1

This table shows how the *regulated activities* for which a *firm* has permission are linked to activity groups ('fee-blocks'). A *firm* can use the table to identify which fee-blocks it falls into based on its *permission*.

Activity group	Fee-payer falls in the activity group if
...	...
<b>A.3</b> <b>Firms</b> <b>conducting</b> <b>insurance</b> <b>activities</b> <b>subject only to</b> <b>prudential</b> <b>regulation</b> <b>Insurers -</b> <b>general</b>	its <i>permission</i> includes one or more of the following: <ul style="list-style-type: none"> <li>• <i>effecting contracts of insurance</i>;</li> <li>• <i>carrying out contracts of insurance</i>;</li> </ul> <b>BUT ONLY</b> in respect of <i>specified investments</i> that are: <ul style="list-style-type: none"> <li>- <i>general insurance contracts</i>; or</li> <li>- <i>long-term insurance contracts other than life-policies</i>.</li> </ul>
<b>A.4</b> <b>Firms</b> <b>conducting</b> <b>insurance</b> <b>activities</b> <b>subject to both</b> <b>prudential and</b> <b>conduct of</b> <b>business</b> <b>regulation</b> <b>Insurers - life</b>	its <i>permission</i> includes one or more of the following: <ul style="list-style-type: none"> <li>• <i>effecting contracts of insurance</i>;</li> <li>• <i>carrying out contracts of insurance</i>;</li> </ul> <b>both</b> in respect of <i>specified investments</i> including <i>life policies</i> ; <ul style="list-style-type: none"> <li>• <i>entering as provider into a funeral plan contract</i>.</li> </ul>
...	...
<p><b>Note for authorised professional firms:</b></p> <p>Generally, for fee-blocks A.7 to A.14 A.19 below, only those <i>regulated activities</i> that are not limited to <i>non-mainstream regulated activities</i> should be taken into account in determining which fee-block(s) fee-payers belong to <u>for the purpose of charging periodic fees</u>.</p> <p>However, in the case that all the <i>regulated activities</i> within a <i>firm's permission</i> are limited to <i>non-mainstream regulated activities</i>, then that <i>firm</i> will be allocated to fee-block A.13 alone.</p> <p><u>This does not prevent a fee being payable by an authorised professional firm under SUP 6.3.22R where it applies to vary its <i>Part IV permission</i> such that it would normally be allocated to fee-block(s) other than A.13 if the variation was granted.</u></p>	
...	...

<p><b>A.12</b>  <b>Advisory arrangers, dealers or brokers (holding or controlling client money or assets, or both)</b></p>	<p>its <i>permission</i>:</p> <p>(a) includes one or more of the following, <u>in relation to one or more designated investments</u>:</p> <ul style="list-style-type: none"> <li>• <i>dealing in investments as agent</i>;</li> <li>• <i>arranging (bringing about) deals in investments</i>;</li> <li>• <i>making arrangements with a view to transactions in investments</i>;</li> <li>• <i>dealing as principal in investments</i> where the activity is carried on as a matched principal broker, <i>oil market participant, energy market participant</i> or <i>local</i>;</li> <li>• <i>advising on investments (except pension transfers and pension opt-outs)</i>;</li> <li>• <i>advising on pension transfers and pension opt-outs</i>;</li> <li>• <i>advising on syndicate participation at Lloyd's</i>;</li> </ul> <p>(b) <b>BUT NONE</b> of the following:</p> <ul style="list-style-type: none"> <li>• <i>effecting contracts of insurance</i>; or</li> <li>• <i>carrying out contracts of insurance</i>;</li> </ul> <p><b>AND</b></p> <p>(c) <b>CAN HAVE</b> one or more of the following:</p> <ul style="list-style-type: none"> <li>• <i>safeguarding and administering of assets</i>;</li> <li>• <i>arranging safeguarding and administration of assets</i>;</li> <li>• the ability to hold or control <i>client money</i>, or both: <ul style="list-style-type: none"> <li>- that is, there is no <i>requirement</i> which prohibits the <i>firm</i> from doing this; and</li> <li>- provided that the <i>client money</i> in question does not only arise from an agreement under which <i>commission</i> is rebated to a <i>client</i>;</li> </ul> </li> </ul> <p><b>AND</b></p> <p>(d) <b>PROVIDED</b> the fee-payer is <b>NOT</b> any of the following:</p> <ul style="list-style-type: none"> <li>• a <i>corporate finance advisory firm</i>;</li> <li>• a <i>firm</i> for whom all of the applicable activities above are otherwise limited to carrying out <i>corporate finance business</i>;</li> <li>• a <i>firm</i> whose activities are limited to carrying out <i>venture capital business</i>;</li> <li>• a <i>firm</i> whose activities are limited to acting as an operator of a <i>regulated collective investment scheme</i>;</li> <li>• a <i>firm</i> whose activities are limited to carrying out <i>trustee</i> activities;</li> <li>• a <i>service company</i>.</li> </ul>

...	...

## Part 2

This table indicates the tariff base for each fee-block. The tariff base is the means by which we measure the 'amount of business' conducted by a *firm*.

Activity group	Tariff-base
A.1	<p><b>MODIFIED ELIGIBLE LIABILITIES</b></p> <p><del>For banks and e-money issuers:</del></p> <p><b>Part 1:</b></p> <p><b>Liabilities</b></p>

	<p>In sterling:  <math>\pounds 2 + \pounds 3 + \pounds 4 + \pounds 5A + \pounds 5B + \pounds 6B + \pounds 6C + \pounds 6D + \pounds 6E + \pounds 6F + \pounds 6G + \pounds 6H + \pounds 6J + \pounds 7B + \pounds 7C + \pounds 7D + \pounds 7E + \pounds 7F + \pounds 7G + \pounds 7H + \pounds 7J + \pounds 8 + \pounds 10 + 60\% \text{ of } \pounds 11A + \pounds 44</math>  plus  In foreign currency, one-third of:  <math>E2 + E3 + E4 + E5A + E5B + E6B + E6C + E6D + E6E + E6F + E6G + E6H + E6J + E7B + E7C + E7D + E7E + E7F + E7G + E7H + E7J + E8 + E10 + 60\% \text{ of } E11A + E44 + C2 + C3 + C4 + C5A + C5B + C6B + C6C + C6D + C6E + C6F + C6G + C6H + C6J + C7B + C7C + C7D + C7E + C7F + C7G + C7H + C7J + C8 + C10 + 60\% \text{ of } C11A</math>: less</p> <p><b>Assets</b>  In sterling:  <math>\pounds 21B + 60\% \text{ of } \pounds 22A + \pounds 23D + \pounds 23E + \pounds 23F + \pounds 30A + \pounds 30B + \pounds 31A + \pounds 31B + \pounds 32AA</math>  plus  In foreign currency, one-third of:  <math>E21B + 60\% \text{ of } E22A + E23D + E23E + E23F + E30A + E30B + E31A + E31B + E32AA + C21B + 60\% \text{ of } C22A + C23D + C23E + C23F + C30A + C30B + C31A + C31B + C32AA</math></p> <p><b>Part 2: Non-resident office offset</b>  The fee base is adjusted by deducting from the amount calculated in accordance with part 1 above, the Non-Resident Office Offset amount obtained by subtracting item 45D from item 45BA in the Form BT. The Non-Resident Office Offset amount, if it would otherwise have been a negative number, is zero.</p> <p><b>Notes:</b>  (1) All references in the above formula are to entries on Form BT (that is, the Balance Sheet Form completed to provide information required following the Banking Statistics Review 1997 and returned by <i>banks</i> to the Bank of England as required by the Bank of England Act 1998).  (2) 'E' refers to assets and liabilities denominated in euro (as referred to in column 2 of Form BT) and 'C' refers to assets and liabilities denominated in currencies other than sterling and euro (as referred to in column 3 of Form BT). In accordance with Form BT, assets and liabilities in currencies other than sterling are to be recorded in sterling.  (3) The figures reported on the Form BT relate to business conducted out of offices in the <i>United Kingdom</i>.</p> <p><b><u>For e-money issuers:</u></b>  <u>Outstanding balance of e-money liabilities</u>  ...  ...</p>
...	...
A.3	<p><b>GROSS PREMIUM INCOME AND GROSS TECHNICAL LIABILITIES</b></p> <p><b>For insurers:</b>  The amount of <i>premiums</i> receivable which must be included in the documents required to be deposited under <i>IPRU (INS)</i> 9.6 in relation to the financial year to which the documents relate but disregarding for this purpose such amounts as are not included in the document by reason of a <i>waiver</i> or an order under section 68 of the Insurance Companies Act 1982 carried forward as an amendment to <i>IPRU (INS)</i> under transitional provisions relating to written concessions in <i>SUP</i>;</p>

	<p>less, <i>premiums</i> relating to <i>pension fund management</i> business where the <i>firm</i> owns the <i>investments</i> and there is no transfer of risk;</p> <p><b>AND</b></p> <p>the amount of gross technical liabilities (<i>IPRU (INS)</i> Appendix 9.1 – Form 15, line 19) which must be included in the documents required to be deposited under <i>IPRU (INS)</i> 9.6R in relation to the financial year to which the documents relate but disregarding for this purpose such amounts as are not included in the document by reason of a <i>waiver</i> or an order under section 68 of the Insurance Companies Act 1982 carried forward as an amendment to <i>IPRU(INS)</i> under transitional provisions relating to written concessions in <i>SUP</i>;</p> <p>less, the amount of gross technical liabilities relating to <i>pension fund management</i> business where the <i>firm</i> owns the <i>investments</i> and there is no transfer of risk.</p> <p><b>Notes:</b></p> <p>(1) in the case of either:</p> <p>(a) a <i>pure reinsurer</i> carrying on <i>general insurance business</i> through a <i>branch</i> in the <i>United Kingdom</i>; or</p> <p>(b) an <i>insurer</i> whose head office is not in an <i>EEA State</i> carrying on <i>general insurance business</i> through a <i>branch</i> in the <i>United Kingdom</i>; or</p> <p>(c) a <i>non-EEA insurer</i> other than a <i>Swiss general insurer</i> which has <i>permission</i> to carry on <i>direct insurance business</i> and which has made a deposit in an <i>EEA state</i> other than the <i>United Kingdom</i> in accordance with <i>IPRU(INS)</i> 8.1(2),</p> <p>the amount only includes <i>premiums</i> received and gross technical liabilities held in respect of its <i>United Kingdom</i> business; <del>and</del></p> <p>(2) for a <i>Swiss general insurance company</i>, <i>premiums</i> and gross technical liabilities include those relevant to the operations of the company's <i>United Kingdom branch</i>; <del>and</del></p> <p>(3) a <i>firm</i> need not include <u><i>premiums</i> and <i>gross technical liabilities</i> relating to <i>pure protection contracts</i> which it reports, and pays a fee on, in the A.4 activity group.</u></p> <p>...</p>
...	...

Part 3

This table indicates the valuation date for each fee-block. A *firm* can calculate its tariff data by applying the tariff bases set out in Part 2 above with reference to the valuation dates shown in this table.

Activity group	Valuation date
<p>IN THIS TABLE, REFERENCES TO SPECIFIC DATES OR MONTHS ARE REFERENCES TO THE LATEST ONE OCCURRING BEFORE THE START OF THE PERIOD TO WHICH THE FEE APPLIES, UNLESS OTHERWISE SPECIFIED – E.G. FOR 2004/05 FEES (1 APRIL 2004 TO 31 MARCH 2005), A REFERENCE TO DECEMBER MEANS DECEMBER 2003.</p>	

Activity group	Valuation date
Where a <i>firm's</i> tariff data is in a currency other than sterling, it should be converted into sterling at the exchange rate prevailing on the relevant valuation date.	
A.1	<p><b><del>For banks; and e-money issuers:</del></b> Modified eligible liabilities (MELs), valued at:</p> <ul style="list-style-type: none"> <li>• for a <i>firm</i> which reports monthly, the average of the MELs for October, November and December;</li> <li>• for a <i>firm</i> which reports quarterly, the MELs for December.</li> </ul> <p><b><u>For e-money issuers:</u></b> <u>MELs, valued at the end of the financial year ended in the calendar year ending 31 December.</u></p> <p>...</p>
...	...
A.3	<p>Annual gross <i>premium</i> income (GPI), <del>valued at the period to which the most recent annual return relates [Note: for most <i>firms</i> this will be the 12 months ended 31 December].</del> <u>for the financial year ended in the calendar year ending 31 December.</u></p> <p><b>AND</b></p> <p>Gross technical liabilities (GTL) valued at the end of <del>the period to which the most recent annual return related [Note: for most <i>firms</i> this will be the 12 months ended 31 December].</del> <u>the financial year ended in the calendar year ending 31 December.</u></p>
...	...

SUP 20 Annex 2R

Part 1

This table shows the tariff rates applicable to each fee-block.

(1)	...
(2)	...
(3)	For a <i>firm</i> which has not complied with SUP 20.3.2R (Information on which fees are calculated) for this period:
(a)	the fee is calculated using (where relevant) the valuation or valuations of business applicable to the previous period, multiplied by the factor of 1.10;
(b)	an additional administrative fee of <del>£250</del> <u>£500</u> is payable; and
(c)	the minimum total fee (including the administrative fee in (b)) is <del>£350</del> <u>£650</u> .

Activity group	Fee payable

<b>A.1</b>	<p><del>[to be made later]</del></p> <p><b><u>Minimum fee (£)</u></b></p> <p><b><u>£ million of Modified Eligible Liabilities (MELs)</u></b></p> <p><u>0 – 0.5</u>  <u>&gt;0.5 – 2</u>  <u>&gt;2 – 10</u>  <u>&gt;10 – 200</u>  <u>&gt;200 – 2,000</u>  <u>&gt;2,000 – 10,000</u>  <u>&gt;10,000 – 20,000</u>  <u>&gt;20,000</u></p>	<p>150</p> <p><b><u>Fee (£/£m or part £m of MELs)</u></b></p> <p><u>0</u>  <u>additional flat-rate fee of £350</u>  <u>additional flat-rate fee of £500</u>  <u>32.63</u>  <u>32.47</u>  <u>32.31</u>  <u>32.16</u>  <u>31.84</u></p>				
<p>For a <i>firm</i> in A.1 which has a <i>limitation on its permission</i> to the effect that it may <i>accept deposits from wholesale depositors only</i>, the fee is calculated as above less 30%.</p> <p>In addition, the fee specified below is payable by <i>UK banks and building societies</i>. The <i>wholesale depositors discount and permitted deductions in Part 2 of SUP 20 Ann 2R</i> do not apply to this fee.</p>

This table shows the permitted deductions that apply:

<b>Activity group</b>	<b>Nature of deduction</b>	<b>Amount of deduction</b>
<u>[to be made later]</u>		
<u>A.1</u>	<u>Financial penalties received</u>	<u>9.5% of the fee payable by the <i>firm</i> for the activity group (see Part 1)</u>
<u>A.4</u>	<u>Financial penalties received</u>	<u>8.8% of the fee payable by the <i>firm</i> for the activity group (see Part 1)</u>
<u>A.7</u>	<u>Financial penalties received</u>	<u>1.3% of the fee payable by the <i>firm</i> for the activity group (see Part 1)</u>
<u>A.10</u>	<u>Financial penalties received</u>	<u>1.2% of the fee payable by the <i>firm</i> for the activity group (see Part 1)</u>
<u>A.12</u>	<u>Financial penalties received</u>	<u>22.9% of the fee payable by the <i>firm</i> for the activity group (see Part 1)</u>
<u>A.13</u>	<u>Financial penalties received</u>	<u>0.9% of the fee payable by the <i>firm</i> for the activity group (see Part 1)</u>

## Part 3

This table shows the modifications to fee tariffs that apply to *incoming EEA firms* and *incoming Treaty firms*.

<b>Activity group</b>	<b>Percentage of tariff payable under Part 1 applicable to the firm subject to a minimum amount payable of £100 (unless specified below)</b>
A.1	20% (for a <i>firm</i> operating on cross-border services basis only, 0% and the minimum sum is not applicable)
A.3	0% and the minimum sum is not applicable
A.4	75%
A.7, A.8 and A.9	95%
A.10, A.11, A.12, and A.13 and A.19	90%

## SUP 20 Annex 3R

### Part 1

This table shows the fees payable for transaction reporting.

<b>Fee per transaction</b>	<b>Date payable</b>	<b>Method of payment</b>
----------------------------	---------------------	--------------------------

[to be made later]

<b>Fee type</b>	<b>Fee amount (including VAT)</b>		<b>Date payable</b>
<u>Transaction charge</u>	<u>Number of transactions per annum</u>	<u>Fee per transaction (inc. VAT)</u>	<u>First working day of each month</u>
	<u>For the first 1,000</u>	<u>0p</u>	
	<u>1,001 – 1,000,000</u>	<u>3p</u>	
	<u>1,000,001 – 4,000,000</u>	<u>2.75p</u>	
	<u>4,000,001 – 8,000,000</u>	<u>2.5p</u>	
	<u>8,000,001 – 13,000,000</u>	<u>2.25p</u>	
	<u>13,000,001 – 20,000,000</u>	<u>2p</u>	
	<u>&gt;20,000,000</u>	<u>1.75p</u>	

- Notes:
1. Firms using the Direct Reporting System software will be additionally invoiced for:
    - (a) an initial software licence fee of £587.50 (including VAT); and
    - (b) an annual enrolment fee of £235 (including VAT) per licence held on 1 April each year.
  2. The applicable methods of payment of these fees are listed at SUP 20.2.7AR.

## Part 2

The periodic fee payable under SUP 20.6.1R for a certificate issued under Article 54 of the *Regulated Activities Order* is [to be made later] £1,000.

## Annex D

### Amendments to the Dispute resolution: Complaints sourcebook

In this Annex underlining indicates new text and striking through indicates deleted text.

## Annex E

### Amendments to the Collective Investment Schemes sourcebook

In this Annex striking through indicates deleted text. Where an entire new section of text is being inserted, the place where the change will be made is indicated and the text is not underlined.

18.2.1R A *person* identified in ~~part B~~ of CIS 18 Annex 1R as the "relevant fee payer" for a *regulated collective investment scheme* must pay each "periodic fee" applicable to it in full and without deduction.

Delete existing CIS 18 Annex 1R and insert new CIS 18 Annex 1R as follows:

#### Periodic fees payable for the period 1 April 2004 to 31 March 2005

##### Part 1 – Periodic fees payable

Nature and purpose of fee	Payable by	Amount of fee	Umbrella scheme factor (note 1)
Periodic fee for an <i>ICVC</i>	The <i>authorised corporate director</i>	£1,100	2
Periodic fee for an <i>AUT</i>	The <i>manager</i>	£1,100	2
Periodic fee for a <i>scheme</i> recognised under section 264 of the <i>Act</i>	The <i>operator</i>	£1,100	2
Periodic fee for a <i>scheme</i> recognised under section 270 of the <i>Act</i>	The <i>operator</i>	£1,100	2
Periodic fee for a <i>scheme</i> recognised under section 272 of the <i>Act</i>	The <i>operator</i>	£6,400	2

Note:

1. For an *umbrella scheme* the fee is multiplied by the factor shown in the final column of the table.

## Annex F

### Amendments to the New Collective Investment Schemes sourcebook

In this Annex all the text is new and is not underlined.

Insert new Transitional Provision as follows:

(1)	(2)	(3)	(4)	(5)	(6)
	<b>Material to which the transitional provision applies</b>		<b>Transitional provision</b>	<b>Transitional provision: dates in force</b>	<b>Handbook provision: coming into force</b>
...	...	...	...	...	...
12	<i>COLL</i> 10.2.1R	R	<i>COLL</i> 10.2.1R does not apply if the <i>scheme</i> has paid a periodic fee for the same period under <i>CIS</i> 18.2.	From 1 April 2004 until 12 February 2007	1 April 2004

Before *COLL* 10 Annex 2R, insert new *COLL* 10 Annex 1R as follows:

#### **Periodic fees payable for the period 1 April 2004 to 31 March 2005**

Part 1 – Periodic fees payable

Nature and purpose of fee	Payable by	Amount of fee	Umbrella scheme factor (note 1)
Periodic fee for an <i>ICVC</i> , where the <i>scheme</i> is: - <i>UCITS scheme</i> - <i>non-UCITS retail scheme</i> - <i>qualified investor scheme</i>	<i>The authorised corporate director</i>	£1,100 £1,100 £1,300	2
Periodic fee for an <i>AUT</i> , where the <i>scheme</i> is: - <i>UCITS scheme</i> - <i>non-UCITS retail scheme</i> - <i>qualified investor scheme</i>	<i>The manager</i>	£1,100 £1,100 £1,300	2
Periodic fee for a <i>scheme</i> recognised under section 264 of the <i>Act</i>	<i>The operator</i>	£1,100	2
Periodic fee for a <i>scheme</i> recognised under section 270 of the <i>Act</i>	<i>The operator</i>	£1,100	2
Periodic fee for a <i>scheme</i> recognised under section 272 of the <i>Act</i>	<i>The operator</i>	£6,400	2

Note:

1. For an *umbrella scheme* the fee is multiplied by the factor shown in the final column of the table.

## Annex G

### Amendments to the Professional firms sourcebook

In this Annex all the text is new and is not underlined.

Delete existing PROF 6 Annex 1R and insert new PROF 6 Annex 1R as follows:

#### Periodic fees payable for the period from 1 April 2004 to 31 March 2005

Table. Fees payable by Designated Professional Bodies

Name of Designated Professional Body	Amount payable	Due date
The Law Society	£47,285 £56,115	30 April 2004 1 September 2004
The Law Society of Scotland	£15,900	1 July 2004
The Law Society of Northern Ireland	£17,950	1 July 2004
The Institute of Actuaries	£10,300	1 July 2004
The Institute of Chartered Accountants in England and Wales	£31,305 £36,695	30 April 2004 1 September 2004
The Institute of Chartered Accountants of Scotland	£15,250	1 July 2004
The Institute of Chartered Accountants in Ireland	£13,100	1 July 2004
The Association of Chartered Certified Accountants	£20,100	1 July 2004

## Annex H

### Amendments to the Recognised Investment Exchange and Recognised Clearing House sourcebook

In this Annex striking through indicates deleted text. Where an entire new section of text is being inserted, the place where the change will be made is indicated and the text is not underlined.

7.1.5G The fee applicable to a *recognised body* reflects the estimated cost to the *FSA* of discharging its functions in relation to that *recognised body*. Fees are set for ~~UK~~ *recognised bodies* on an individual basis.

Delete existing REC 7 Annex 1R and insert new REC 7 Annex 1R as follows:

#### Periodic fees payable for the period from 1 April 2004 to 31 March 2005

In this Annex:

- the term *recognised body* includes a body which was a recognised investment exchange or a recognised clearing house recognised under the Financial Services Act 1986 and which is a *recognised body* as a result of Regulation 9 of the *Recognition Requirements Regulations*; and

- the term recognition order includes a recognition order made by the *FSA* under section 37 or section 39 of the Financial Services Act 1986 or a recognition order made by the Treasury under section 40 of the Financial Services Act 1986.

Part 1- Periodic fees for UK recognised bodies

Name of UK recognised body	Amount payable	Due date
CRESTCo Limited	£290,000	30 April 2004
	£298,000	1 September 2004
The International Petroleum Exchange of London Limited	£162,500	30 April 2004
	£169,500	1 September 2004
LIFFE Administration and Management	£330,000	30 April 2004
	£392,000	1 September 2004
LCH.Clearnet Limited	£285,000	30 April 2004
	£334,000	1 September 2004
The London Metal Exchange Limited	£240,000	30 April 2004
	£195,000	1 September 2004
The London Stock Exchange plc	£355,000	30 April 2004
	£350,000	1 September 2004
OM London Exchange Limited	£87,500	30 April 2004
	£101,500	1 September 2004
virt-x plc	£112,500	30 April 2004
	£121,500	1 September 2004

EDX	£75,000 £115,000	30 April 2004 1 September 2004
Any other <i>UK recognised investment exchange</i> recognised as such by a <i>recognition order</i> made in the period	£150,000	30 days after the date on which the <i>recognition order</i> is made
Any other <i>UK recognised clearing house</i> recognised as such by a <i>recognition order</i> made in the period	£250,000	30 days after the date on which the <i>recognition order</i> is made

Part 2 – Periodic fees for overseas recognised bodies

<b>Name of overseas recognised body</b>	<b>Amount payable</b>	<b>Due date</b>
Cantor Financial Futures Exchange	£10,000	1 July 2004
Chicago Mercantile Exchange	£10,000	1 July 2004
Chicago Board of Trade	£10,000	1 July 2004
Eurex Zurich	£10,000	1 July 2004
NASDAQ	£10,000	1 July 2004
NQLX	£10,000	1 July 2004
New York Mercantile Exchange	£10,000	1 July 2004
Swiss Exchange	£10,000	1 July 2004
Sydney Futures Exchange	£10,000	1 July 2004
Wareterminborse Hannover	£10,000	1 July 2004
Any other <i>overseas investment exchange</i> recognised as such by a <i>recognition order</i> made in the period	£10,000	30 days after the date on which the <i>recognition order</i> is made
Any other <i>overseas clearing house</i> recognised as such by a <i>recognition order</i> made in the period	£35,000	30 days after the date on which the <i>recognition order</i> is made

**SUPERVISION MANUAL (GUIDANCE AMENDMENT NO 1) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the power in section 157(1) (Guidance) of the Financial Services and Markets Act 2000.

**Commencement**

- B. This instrument comes into force as follows:
- (1) Annexes A and B come into force on 1 June 2004; and
  - (2) Annex C comes into force on 14 January 2005.

**Amendments to the Supervision manual**

- C. The Supervision manual is amended in accordance with Annexes A and C to this instrument.

**Amendments to the Glossary**

- D. The Glossary is amended in accordance with Annex B to this instrument.

**Citation**

- E. This instrument may be cited as the Supervision Manual (Guidance Amendment No 1) Instrument 2004.

By order of the Board  
20 May 2004

Amended by Addendum  
17 August 2004

## Annex A

### Amendments to the Supervision manual

In this Annex, underlining indicates new text and striking through indicates deleted text.

SUP 16 Annex 2G: Guidance notes on completion of banks' reporting forms (including validations)

...

#### BSD3 REPORTING INSTRUCTIONS

...

##### A610 Subordinated term debt

Report here the amount of subordinated term debt (i.e. the amount of principal outstanding before amortisation) which has been approved by the FSA as qualifying for inclusion in Tier 2 capital under the terms of Chapter CA (Definition of capital), Sections 7 and 8, of the FSA Policy Guide/IPRU (BANK) (see item A790). This item should equal the ~~sum of items A790.21 column "Sterling equivalent", A790.22 column "Sterling equivalent" and A790.1 amount of principal outstanding, converted to sterling at the current exchange rate for the currency concerned on the day of the report unless, via a subordinated swap or some other hedging mechanism that is an integral part of the original preference share or subordinated loan stock agreement, the exchange rate has effectively been fixed - in which case that fixed rate may be used. The reporting institution should obtain the FSA's agreement before doing this.~~

## Annex B

### Amendments to the Glossary

In this Annex underlining indicates new text and striking through indicates deleted text.

#### *EEA State*

(in accordance with paragraph 8 of Schedule 3 to the *Act* (EEA Passport Rights)) a State which is a contracting party to the agreement on the European Economic Area signed at Oporto on 2 May 1992, as it has effect for the time being; as at ~~21 June 2001~~ 1 May 2004, the following are the *EEA States*: Austria, Belgium, Cyprus, ~~the Czech Republic~~, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, the Slovak Republic, Slovenia, Spain, Sweden, and the *United Kingdom*.

#### *European Economic Area*

the area established by the agreement on the European Economic Area signed at Oporto on 2 May 1992, as it has effect for the time being, and which consists of the *EEA States*.

## Annex C

### Amendments to the Supervision manual

In this Annex, underlining indicates new text and striking through indicates deleted text. Where an entire section of text is being deleted or inserted, the place where the change will be made is indicated and the text is not struck through or underlined.

13.9 ~~[deleted] How does the Handbook apply to branches and cross-border services?~~

Delete the text in section 13.9 'How does the Handbook apply to branches and cross-border services?'

...

Appendix 3.2  
Purpose

Delete existing text in *SUP* Appendix 3.2 and insert following text as the new *SUP* Appendix 3.2:

3.2 Purpose

3.2.1 G The purpose of this appendix is to give *guidance*:

- (1) to *UK firms* on some of the issues that arise when carrying on *passported activities* (see *SUP* App 3.5 and *SUP* App 3.6);
- (2) to all *firms* on the relationship between *regulated activities* and activities passported under the *Single Market Directives* (see *SUP* App 3.9 and *SUP* App 3.10).

...

3.3.1 G (1) The European Community Treaty (the '*Treaty*'), as amended by later Treaties, established in EC law the rights of freedom of establishment and freedom to provide services in the European Community.

- (2) The *Treaty* lays down central principles governing the legal framework for freedom of establishment and the free movement of services in the European Community. There are, however, a number of areas where the legal position is not clear. This includes, for example, identifying whether a service is provided through an establishment, where the issues involved are complex. Therefore, this Appendix is intended to provide *guidance* but cannot be regarded as comprehensive. Ultimately, the construction of the *Treaty* and relevant Directive provisions is a matter for the European Court of Justice.

3.3.2 G The *Treaty* provides the framework for the provision of banking, ~~insurance and investment business~~, insurance business, investment business, UCITS management services and insurance mediation, while the *Single Market Directives* clarify the rights and freedoms within that framework.

...

- 3.3.6 G (1) The European Commission has not produced an interpretative communication on the *Investment Services Directive*. It is arguable, however, that the principles in the communication on the Second Banking Directive can be applied to *investment services*. This is because article 11 of the *Investment Services Directive* (containing provisions relating to conduct of business rules) also applies to the *investment services* of *firms* operating under the *Banking Consolidation Directive*.
- (2) The European Commission has not produced an interpretative communication on either the *Insurance Mediation Directive* or on the *UCITS Directive*.

...

Notification of establishing a branch or of providing cross border services

- 3.3.13 G The *Single Market Directives* require *credit institutions, insurance undertakings, investment firms, UCITS management companies* and *insurance intermediaries* to make a notification to the *Home State* before establishing a *branch* or provide *cross border services*.

SUP 13.5 (Notices of intention) sets out the notification requirements for a *firm* seeking to establish a *branch* or provide *cross border services*. As *firms* will note, the decision whether a passport notification needs to be made will be a matter of interpretation. The onus is on *firms* to comply with the requirements of the *Act* and, where relevant, the laws of other *EEA States*. So, in cases of doubt, *firms* should obtain their own legal advice on the specific issues involved.

- 3.3.14 G Blanket notification is the practice of the *Home State regulator* notifying all *Host State regulators* in respect of all activities regardless of any genuine intention to carry on the activity. This practice is discouraged by the *FSA*. However, a *firm* may be carrying on activities in the *United Kingdom* or elsewhere in a way that necessarily gives rise to a real possibility of the provision of services in other *EEA States*. In such cases, the *firm* should consider with its advisers whether it should notify the relevant authorities and include that possibility in its business plan.

...

Delete SUP App 3.4 and SUP App 3.5 in their entirety.

...

Delete SUP App 3.6.4 in its entirety.

- 3.6.4 G [deleted]

...

- 3.6.8 G The *FSA* is of the opinion that *UK firms* that are *credit institutions* and *ISD investment firms* should apply the 'characteristic performance' test (as referred to in ~~AUTH 3.6.7G~~ SUP App 3.6.7G) when considering whether prior notification is

required for services business. *Firms* should note that other *EEA States* may take a different view. Some *EEA States* may apply a solicitation test. This is a test as to whether it is the consumer or the provider that initiates the business relationship.

...  
Delete *SUP* App 3.6.12G, 3.6.13G, and 3.6.14G in their entirety.

....

Delete *SUP* App 3.6.16G to 3.6.24G in their entirety.

.....

Delete *SUP* App 3.6.28G to 3.6.31G in their entirety.

Delete *SUP* App 3.7 and *SUP* App 3.8 in their entirety.

...

3.9 Mapping of the Investment Services Directive ~~and~~ Banking Consolidation Directive, UCITS Directive and Insurance Mediation Directive to the Regulated Activities Order

3.9.1 G The following Tables 1 ~~and 2~~, 2, 2A and 2B provide an outline of the *regulated activities* and *specified investments* that may be of relevance to *firms* considering undertaking *passported activities* under the *Banking Consolidation Directive* ~~or~~ the *Investment Services Directive*, the *UCITS Directive* and the *Insurance Mediation Directive*. The tables may be of assistance to *UK firms* that are thinking of offering financial services in another *EEA State* and to *EEA firms* that may offer those services in the *United Kingdom*.

3.9.2 G The tables provide a general indication of the *investments* and activities specified in the *Regulated Activities Order* that may correspond to categories provided for in ~~either~~ the *Banking Consolidation Directive* ~~or~~ the *Investment Services Directive*, the *UCITS Directive* or the *Insurance Mediation Directive*. ~~The guidance does not cover the *UCITS Directive*~~. The tables do not provide definitive *guidance* as to whether a *firm* is carrying on an activity that is capable of being *passported*, nor do the tables take account of exceptions that remove the effect of articles. Whether a *firm* is carrying on a *passported activity* will depend on the particular circumstances of the *firm*. If a *firm's* activities give rise to potential *passporting* issues, it should obtain specialist advice on the relevant issues.

## **ADDENDUM**

### **SUPERVISION MANUAL (GUIDANCE AMENDMENT NO 1) INSTRUMENT 2004**

The cover sheet of this instrument, as adopted by order of the Board on 20 May 2004, is amended by the insertion of the underlined text and the deletion of the strikethrough text. For the sake of clarity, and following the adoption of the addendum, this amendment will be made to the cover sheet without showing the change.

#### **Commencement**

B. This instrument comes into force as follows:

- (1) Annexes A and B come into force on 1 June 2004; and
- (2) Annex C comes into force on ~~15~~ 14 January 2005.

**COMPENSATION SOURCEBOOK (REVIEWS OF PENSIONS BUSINESS)  
INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 ("the Act"):
- (1) section 138 (General rule-making power);
  - (2) section 156 (General supplementary powers);
  - (3) section 213 (The compensation scheme); and
  - (4) section 214 (General).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C. This instrument comes into force on 1 July 2004.

**Amendments to the Compensation sourcebook**

- D. The Compensation sourcebook is amended in accordance with the Annex to this instrument.

**Citation**

- E. This instrument may be cited as the Compensation Sourcebook (Reviews of Pensions Business) Instrument 2004.

By order of the Board  
20 May 2004

## Annex

### Amendment to the Compensation sourcebook

Insert the following new provisions:

- 8.2.7 R        The *FSCS* may reject an application for compensation if:
- (1)        it relates to an event or transaction which has been reviewed under the provisions of a 'deemed scheme' as defined in the Financial Services and Markets Act 2000 (Transitional Provisions) (Reviews of Pensions Business) Order 2001 (SI 2001/2512); and
  - (2)        as a result of the review in (1) no redress was payable, or redress was paid, in accordance with the regulatory standards for the review of such events or transactions, and the terms of any scheme order, applicable as at the date of the review.
- 8.2.8 G        The purpose of *COMP* 8.2.7R is to allow the *FSCS* to reject claims relating to pensions review cases where a review was carried out in accordance with the relevant regulatory standards applicable at the time. 'Deemed schemes' are those review schemes set up before *commencement* (that is, 30 November 2001) but which are treated as schemes for the review of past business under the *Act*, namely the pensions review and *FSAVC* review.

**COLLECTIVE INVESTMENT SCHEMES SOURCEBOOK  
(INCREASING CHOICE OF INVESTMENT FOR FUND OF FUNDS)  
INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 ("the Act"):
- (1) (a) section 138 (General rule-making power);  
(b) section 156 (General supplementary powers);  
(c) section 247 (Trust scheme rules); and
  - (2) regulation 6 (FSA rules) of The Open-Ended Investment Companies Regulations 2001 (SI 2001/1228).
- B. The rule-making powers identified above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C. This instrument comes into force on 1 June 2004.

**Amendments to the Collective Investment Schemes sourcebook**

- D. The Collective Investment Schemes sourcebook is amended in accordance with the Annex to this instrument.

**Citation**

- E. This instrument may be cited as the Collective Investment Schemes Sourcebook (Increasing Choice of Investment for Fund of Funds) Instrument 2004.

By order of the Board  
20 May 2004

### Amendments to the Collective Investment Schemes sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

#### Eligible combinations of scheme

5A.11.4R (1) A *fund of funds* scheme may invest in *units* in any five or more *authorised funds* within:

(a) any one of:

(i) UCITS schemes;

(ii) CIS 5A.4 (Securities schemes);

(iii) CIS 5A.5 (Money market schemes);

(iv) CIS 5A.6 (Futures and options schemes);

(v) CIS 5A.7 (Geared futures and options schemes);

(vi) CIS 5A.8 (Property schemes); and

(vii) CIS 5A.9 (Warrant schemes); or

(b) any combination of:

(i) UCITS schemes;

(ii) CIS 5A.4 (Securities schemes); and

(iii) CIS 5A.5 (Money market schemes).

(2) A *fund of funds scheme* may invest in *units* in any one or more *money market schemes* (within CIS 5A.5 (Money market schemes)) and in *units* in any one or more *authorised funds* ~~within any one of the other sections mentioned in~~ (1) within any one scheme type in (1)(a) or any combination permitted by (1)(b).

.....

**UKLA FEES (2004/2005) AND RELATED LISTING RULES (AMENDMENT)  
INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 ("the Act"):
- (1) section 72 (The competent authority);
  - (2) section 74(4) (The official list);
  - (3) section 99(1) (Fees);
  - (4) section 101 (Listing rules: general provisions); and
  - (5) paragraphs 1 (General), 4 (Rules) and 7 (Fees) of Schedule 7 (The Authority as Competent Authority for Part VI).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C. This instrument comes into force on 1 June 2004.

**Amendments to the Listing Rules**

- D. The Listing Rules are amended in accordance with the Annex to this instrument.

**Citation**

- E. This instrument may be cited as the UKLA Fees (2004/2005) and Related Listing Rules (Amendment) Instrument 2004.

By order of the Board  
20 May 2004

## Annex

### Amendments to the Listing Rules

In this Annex all the text is new and is not underlined; the places where the changes will be made are indicated.

Insert the following two rules after 1.2 and 2.5 respectively:

1.2A Issuers must pay the 'Annual fees' referred to in Schedule 13 within 30 days of receiving written notification of the fee payable. If an issuer has not paid the total amount of an annual fee by that date, then the issuer must pay an additional amount as follows:

- (1) if the fee was not paid in full by the due date, an administrative fee of £250; plus
- (2) if the fee was not paid in full before the end of 15 days after the due date, interest on any unpaid part of the fee at the rate of 5% per annum above the Bank of England's repo rate from time to time in force, accruing on a daily basis from the date on which the amount concerned became due.

2.5A Sponsors must pay the 'Annual fee' referred to in Schedule 13 within 30 days of receiving written notification of the fee payable. If a sponsor has not paid the total amount of an annual fee by that date, then the sponsor must pay an additional amount as follows:

- (1) if the fee was not paid in full by the due date, an administrative fee of £250; plus
- (2) if the fee was not paid in full before the end of 15 days after the due date, interest on any unpaid part of the fee at the rate of 5% per annum above the Bank of England's repo rate from time to time in force, accruing on a daily basis from the date on which the amount concerned became due.

Delete existing Schedule 13 and insert new Schedule 13 as follows:

#### **SCHEDULE 13**

#### **FEES**

#### **Fees for the period 1 June 2004 to 31 May 2005**

<b>Fee type</b>	<b>Fee amount</b>
<b>Annual fees</b>	
Note: Annual fees are charged in annual cycles beginning on 1 April of each year and ending on 31 March of the following year.	
Listing – All issuers of shares and certificates representing shares	<b>£3,950</b>

## Vetting fees

Note: Transaction fees relate to specific events or transactions that an issuer might be involved in during the year and fall due when documentation is first submitted to the UKLA.

<b>Category 1</b> – Documents relating to the following transactions:	<b>£5,700</b>
- Listing particulars / prospectuses for share and debt listings which fall outside Chapter 23 of the Listing Rules	
- New applicants for Certificates Representing Shares	
- Asset-backed securities	
- Placing and open offers	
- Rights issues	
- Class 1 transactions	

<b>Category 2</b> – Documents relating to the following transactions:	<b>£2,500</b>
- Debt issues falling in Chapter 23	
- Debt programmes falling in Chapter 23	
- Securitised derivatives falling in Chapter 24	
- Related party transactions	

<b>Category 3</b> – All other "vet only" transactions (except those which are specified in Category 4 below)	<b>£2,000</b>
--	---------------

<b>Category 4</b> – Vet only documents relating to the following:	<b>£500</b>
- Cancellation circulars / winding up circulars that do not require shareholder approval	
- Supplementary listing particulars	

Note: If a single vetting transaction includes elements which fall into two or more of the above fee categories, only one fee is payable being the highest fee of all the fees that would otherwise apply to that transaction.

## Application fees

Note: Application fees become payable when an issuer makes an application for listing

Tranches from debt issuance programmes falling in Chapter 23 and securitised derivative tranches	<b>£100</b>
All other applications	<b>£225</b>

## Sponsor fees

Note: Annual fees are charged in annual cycles beginning on 1 April of each year and ending on 31 March of the following year. Application fees become payable when a person applies for approval as a sponsor.

Annual fee	<b>£5,000</b>
Application fee	<b>£2,000</b>

**LISTING RULES (ANNOUNCEMENT HEADLINES) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 ("the Act"):
- (1) section 74 (The official list);
  - (2) section 96 (Obligations of issuers of listed securities);
  - (3) section 157 (Guidance); and
  - (4) paragraph 1 of Schedule 7 of the Act.

**Commencement**

- B. This instrument comes into force on 1 July 2004.

**Amendments to the Listing Rules**

- C. The Listing Rules are amended in accordance with the Annex to this instrument.

**Citation**

- D. This instrument may be cited as the Listing Rules (Announcement Headlines) Instrument 2004.

By order of the Board  
20 May 2004

Amended by Addendum  
7 July 2004

## Annex

### Amendment to the Dispute resolution: Complaints sourcebook

In this Annex, underlining indicates new text. Where an entire section of text is being inserted, the place where the change will be made is indicated and the text is not underlined.

After provision No. 7 in this table, insert the following new provisions:

DISP Table: Transitional provisions table

1

(1)	(2)	(3)	(4)	(5)	(6)
Material provision to which transitional provision applies	Transitional provision	Transitional provision: dates in force	Handbook provision: coming into force		
...					
7A	<i>DISP</i> 2.3.6R	R	Nothing in <i>DISP</i> 2.3.6R affects the position of a complaint which, on 31 May 2004, could not have been considered by the <i>Ombudsman</i> under <i>DISP</i> 2.3.1R(1)(c); or <i>DISP</i> 2.3.6R(1)(b) as it then stood.	From 1 June 2004	Amended with effect from 1 June 2004
7B	<i>DISP</i> 2.3.6R	R	In the case of a complainant falling within <i>DISP</i> 2.3.6R as amended by this instrument, (and whose time for referring a complaint under the <i>rules</i> as they stood before amendment has not expired), time will expire in accordance with the amended <i>rule</i> , save that if the final date would otherwise be before 30 November 2004 an explanation of	From 1 June 2004	Amended with effect from 1 June 2004

			<p>the final date will be in conformity with <i>DISP</i> 2.3.6R(2) provided it stipulates a final date which is not less than two months from the date on which the explanation is likely to be received by the complainant.</p>		
--	--	--	--	--	--

...

2.3.1

R (2) The *Ombudsman* can consider complaints outside the time limits in (1)(b) or (c) or in *DISP* 2.3.6R when, in his view, the failure to comply with the time limits was as a result of exceptional circumstances or where he is required to do so by the *Ombudsman Transitional Order* (see *DISP* 2.3.2 G) or where the *firm* has not objected to the *Ombudsman* considering the complaint.

...

## Exceptions for certain mortgage endowment complaints

- 2.3.6 R (1) If a complaint relates to the sale of an endowment *policy* for the purpose of achieving capital repayment of a mortgage and the complainant ~~would, as a result of this rule DISP 2.3.6, have more time to refer the complaint than under DISP 2.3.1 R(1)(c), the time for referring a complaint to the *Financial Ombudsman Service*:-~~ receives a letter from a *firm* or a *VJ participant* warning that there is a high risk that the *policy* will not, at maturity, produce a sum large enough to repay the target amount then, subject to (2), (3), (4) and (5):
- (a) ~~starts to run from the date the complainant receives a letter from a *firm* or *VJ participant* warning the complainant that there is a high risk that the *policy* will not, at maturity, produce a sum large enough to repay the target amount~~ time for referring a complaint to the *Financial Ombudsman Service* starts to run from the date the complainant receives the letter; and
  - (b) ~~ends six months from the date the complainant receives a second letter from a *firm* or *VJ participant* containing the same warning or other reminder of the need to act~~ ends three years from that date ("the final date").
- (2) Paragraph (1)(b) applies only if the complainant also receives within the three year period mentioned in (1)(b) and at least six months before the final date an explanation that the complainant's time to refer such a complaint would expire at the final date.
- (3) If an explanation is given but is sent outside the period referred to in (2), time for referring a complaint will run until a date specified in such an explanation which must not be less than six months after the date on which the notice is sent.
- (4) A complainant will be taken to have complied with the time limits in (1) to (3) above if in any case he refers the complaint to the *firm* or *VJ participant* within those limits and has a written acknowledgement or some other record of the complaint having been received.
- (5) Paragraph (1) does not apply if: (a) the *Ombudsman* is of the opinion that, in the circumstances of the case, it is appropriate for *DISP* 2.3.1 R(1)(c) to apply without modification; or (b) in respect of any particular complaint, the *firm* can show that the three year period specified in *DISP* 2.3.1 R(1)(c) had started to run before the complainant received any such letter as mentioned in *DISP* 2.3.6R(1)(a) .

**INTERIM PRUDENTIAL SOURCEBOOK FOR INVESTMENT BUSINESSES  
(AMENDMENT NO 9) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the power in section 157 (Guidance) of the Financial Services and Markets Act 2000.

**Commencement**

- B. This instrument comes into force on 1 August 2004.

**Amendments to the Interim Prudential sourcebook for investment businesses**

- C. The Interim Prudential sourcebook for investment businesses (IPRU(INV)) is amended in accordance with the Annex to this instrument.

**Citation**

- D. This instrument may be cited as the Interim Prudential Sourcebook for Investment Businesses (Amendment No 9) Instrument 2004.

By order of the Board  
17 June 2004

## Annex

### Amendments to the Interim Prudential sourcebook for investment businesses

In this Annex, underlining indicates new text and striking through indicates deleted text.

Amend IPRU(INV), chapter 5 as follows:

5.7.1(6)(f) G Rule 5.7.1(4)(e) refers to group *large exposures*, which should be measured against group consolidated own funds or (if this would result in all *exposures* being classified as *large exposures*) by aggregating all the *exposures* of the individual entities in the group and measuring them against the *own funds* of the individual *firm* giving rise to the consolidated supervision requirement. If there is more than one *firm* in the group giving rise to the consolidated supervision requirement, the group *large exposures* should be measured against the *firm* with the smallest *own funds*.

...

5.7.2(4) G *A firm's parent is a financial holding company* if it carries out mainly *listed activities* or if its main business is to acquire holdings in companies undertaking these activities. For this purpose, the *FSA* interprets the phrases 'mainly' or 'main business' to mean where the balance of business, ~~i.e.~~ is over 50% of the relevant group or sub-group's balance sheet (measured on the basis of total assets) or profit and loss statement (measured on the basis of gross income).

**FINANCIAL CONGLOMERATES AND OTHER FINANCIAL GROUPS  
INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 ("the Act"):
- (1) section 138 (General rule-making power);
  - (2) section 150(2) (Action for damages);
  - (3) section 156 (General supplementary powers);
  - (4) section 157(1) (Guidance); and
  - (5) section 340 (Appointment).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C. The annexes to this instrument come into force as indicated in the following table.

Annex	Commencement Date
D. (IPRU (FSOC))	With respect to a particular firm, group or financial conglomerate, from the earlier of the day on which rule 4.2 of the Interim Prudential sourcebook for insurers ceases to be of effect and the first day of its financial year beginning in 2005.

Amended by Addendum  
17 August 2004

## Annex A

### Amendments to the Threshold Conditions

In this Annex, underlining indicates new text.

2.5.3 G ...

- (3) In relation to a firm which is an EEA regulated entity, the Financial Groups Directive provides that the FSA should consult other competent authorities when assessing the suitability of the shareholders and the reputation and experience of directors involved in the management of another entity in the same group.

## Annex B

### Amendments to the Interim Prudential sourcebook for banks

In this Annex, underlining indicates new text and striking through indicates deleted text. Where an entire section of text is being deleted or inserted, the place where the change will be made is indicated and the text is not struck through or underlined.

Amend IPRU(BANK), Volume 1, Chapter GN, Sections 2 and 3 as follows:

#### PURPOSE

3. ...
4. The purpose of the prudential standards set out in this sourcebook is to ensure that banks maintain capital and other financial resources commensurate with their risks and appropriate systems and controls to enable them to manage those risks. The FSA requires in particular that banks maintain adequate capital against their risks: capital enables banks to absorb losses without endangering customer deposits; that they maintain adequate liquidity; and that they identify and control their large credit exposures - which might otherwise be a source of loss to a bank on a scale that might threaten a bank's solvency.
5. This sourcebook, together with the separate prudential sourcebook applying to building societies, also implements EC directives setting out prudential standards as these apply to *credit institutions*. Where a bank is part of a financial conglomerate, it will also be subject to additional rules and guidance set out in PRU 8.4. A bank with an ultimate non-EEA parent may also be subject to some provisions in PRU 8.5. And all banks that are part of a group are subject to the general provisions in PRU 8.1.

...

#### Definitions

Insert new definitions in the following table in the appropriate alphabetical position:

- 3.5.1 R In this section the term or phrase in the first column of the following table has the meaning given to it in the second column:

...	
<u>financial holding company</u>	<u>A financial institution whose subsidiary undertakings are either exclusively or mainly credit institutions or financial institutions ( at least one being a credit institution ) and which is not a mixed financial holding company.</u>
<u>financial institution</u>	<u>( when used in chapters GN, CA and CS ) See definition in <i>Glossary</i></u>
firm	
...	
<u>mixed-activity</u>	<u>A parent undertaking that is not a financial holding company, or</u>

<u>holding company</u>	<u>a credit institution, or a mixed financial holding company, whose subsidiaries include at least one credit institution.</u>
<u>mixed financial holding company</u>	<u>See definition in the <i>Glossary</i>.</u>
...	
<u>participation</u>	<u>See definition in the <i>Glossary</i>, except where the context otherwise requires (such as in the phrase "sub-participation" ).</u>
...	
<u>PRU</u>	<u>See definition in the <i>Glossary</i>.</u>
...	...

...

Amend IPRU(BANK), Volume 1, Chapter CA, Section 1 as follows:

1.2 Legal sources

- 3 The sources noted in the Legal Sources section of the Capital Adequacy Overview chapter are also relevant to this chapter.
- 4 The Banking Consolidation Directive (formerly The Directive on Own Funds, “Own Funds Directive”, “OFD” - 89/299/EEC) establishes a standard EU definition of capital for prudential supervisory purposes. This follows closely the Basel Convergence Agreement on capital standards. The Directive has been amended by the Financial Groups Directive (2002/87/EC) and some of the resulting changes are given effect in this chapter.
- 5 The Capital Adequacy Directive (“CAD” - 93/6/EC) introduced Tier 3 capital for use in supporting trading book activities.
- 6 The Banking Consolidation Directive (formerly the Second Banking Co-ordination Directive, “2BCD” - 89/646/EEC) sets the minimum initial capital requirement and minimum ongoing capital requirement for banks incorporated in the European Economic Area.

See s3

...

Amend IPRU(BANK), Volume 1, Chapter CA, Section 10 as follows:

10.2 Deductions from the total of Tier 1 capital and Tier 2 capital

- 2 Certain deductions should be made from the total of Tier 1 (after Tier 1 deductions) and Tier 2 capital:
  - (a) Investments in subsidiaries and associates which fall outside the scope of a bank’s capital adequacy return (including all *material insurance holdings*);
    - (a) ...
    - (b) ...

- (c) ...
- (d) Investments in life assurance companies should be treated on the same principles as other investments. The amount of any *material insurance holding* should (subject to (i) below ) be deducted from the total of Tier 1 and Tier 2 capital. A *material insurance holding* means the higher of:

- (1) the book value of an *investment* held in an insurance undertaking, reinsurance undertaking, or insurance holding company (*investment* for this purpose is either a participation, or the investment in a subsidiary undertaking); or
- (2) the bank's proportionate share of that undertaking's local or notional regulatory capital requirement.

Where the undertaking is a subsidiary and it has a solvency deficit, the subsidiary's local or notional regulatory requirement should be deducted in full. A description of how a notional capital requirement is to be calculated is set out in paragraphs 6.7 and 6.8 in Part 6 of PRU 8 Annex 1. A notional requirement should be calculated in all cases where the undertaking is not regulated to EEA or equivalent standards: this is also explained in paragraphs 6.7 and 6.8 in Part 6 of PRU 8 Annex 1.

- (i) ~~However, w~~Where an insurance affiliate undertaking is accounted for using the *embedded value* method, theis following treatment should be ~~applied~~ modified as follows (unless the regulatory capital requirement is the higher figure):

- On acquisition, any “goodwill” element, i.e. the difference between the acquisition value according to the *embedded value* method and the actual investment, should be deducted from Tier 1 capital.
- The *embedded value* should be deducted from the total of Tier 1 & 2 capital.
- Post-acquisition, where the *embedded value* of the ~~company~~ undertaking increases, the increase should be added to reserves, while the new *embedded value* is deducted from total capital. This means that the net impact on the level of capital is zero, although Tier 2 headroom will increase with any increase in Tier 1 reserves.

- (ii) *Embedded value* is the value of the company taking into account the present value of the expected future inflows from existing life assurance business.

- (e) ...

See ch CS s2 & s9

(b)...

(c) All holdings of capital instruments issued by other *credit institutions* and *financial firms-institutions* unless these are covered by a *trading book concession*;

(a) ...

See s3.1

(b) ...

(c) ~~For the purposes of this sub-section~~ The definition of a financial institution is defined as a directly supervised institution (or a financial holding company above a supervised financial institution) whose exclusive or main business is to carry out one or more of the activities listed in points 2-12 in Annex I to The Banking Consolidation Directive (formerly the Annex to 2BCD). These activities are listed in items (b) to (l) of the Appendix to Chapter EU, given in the Glossary

...

10.4 Deductions of qualifying holdings from Tiers 1 and 2 capital

...

22 For the purposes of qualifying holding deductions, ~~commercial~~ non-financial undertakings are defined as all undertakings other than:

See s10.4

(a) Credit *and certain* financial institutions;

*a) ~~The above are defined to be credit institutions, supervised financial firms and financial holding companies whose exclusive or main business is to carry out one or more of the activities listed in points 2-12 of Annex I to the Banking Consolidation Directive (formerly the Annex to 2BCD). These activities are also listed in points (b) to (l) of the Appendix to Chapter EU~~*

The capital instruments of institutions which meet the definition of financial and credit institutions in section 10.2 fall outside the scope of qualifying holdings. (The full definition of *financial institution* is in the Glossary.)

(b) Institutions whose exclusive or main activities are a direct extension of banking, or concern services ancillary to banking, such as leasing, factoring, the management of unit trusts, the management of data processing services supporting banking services or any other similar activity; and

a) These activities are set out in Article 43(2)(f) of the Bank Accounts Directive (86/635/EEC).

(c) Insurance and reinsurance companies, and insurance holding

companies.

- a) The definition of an insurance ~~company~~ undertaking is contained in the First Non-Life Insurance Directive (73/239/EC) ~~as amended by the Second Non-Life Insurance Directive and Article 4 of the First Life Insurance Assurance Directive (-79/267/EEC-) (2002/83/EC) as amended by the Act of Accession of 1985.~~ The definition of reinsurance undertaking is contained in the Insurance Groups Directive (98/78/EC).

...

Amend IPRU(BANK), Volume 2, Chapter LE as follows:

- 2 The rationale for a large exposures policy  
1 ...  
2 ...  
3 ...  
4 The need to control risk concentration was the main reason for the minimum standards for a limits-based approach towards large exposures brought in by the LED (now replaced by The Banking Consolidation Directive). Where appropriate, the FSA's policy goes further, to reflect its own view of what constitutes a prudent approach in this key area of banks' internal management controls. ( Following the amendments to the Banking Consolidation Directive resulting from the Financial Groups Directive, the FSA is also required to supervise transactions between a bank and a mixed activity holding company (MAHC), to have significant transactions with the MAHC reported to the FSA; and to take appropriate action if these intra-group transactions pose a threat to the bank's financial position.)

These requirements are set out below.

- (i) The FSA's existing requirements for the control and monitoring of exposures to connected counterparties , set out in this chapter LE (particularly section 9.2.2 ) and the large exposures reporting forms in SUP 16 Ann 1R.
- (ii) A specific new requirement in SUP 16.7 to report significant transactions with an MAHC that do not constitute exposures; and
- (iii) The requirements (Rule 3.3.19 and PRU 8.1) for a bank to have the systems to enable the control and monitoring described above, and provide the necessary information for reporting to the FSA.

Amend IPRU(BANK), Volume 2, Chapter CS as follows:

## CONSOLIDATED SUPERVISION

### 1. INTRODUCTION

#### 1.1 Legal sources

See COND1

- A bank's compliance with the policy set out in this chapter will help establish that it satisfies the Threshold Conditions (as to "Adequate resources" and "Suitability") and complies with the Principles (as to "Management and control" and "Financial prudence").
- 2 The Banking Consolidation Directive (2000/12/EC) ~~formerly the Second Consolidated Supervision Directive 92/30/EEC~~ sets required minimum standards for the performance of consolidated supervision of groups including banks within the EEA. This chapter on consolidated supervision is the principal vehicle implementing ~~2CSD (now replaced by those parts of The Banking Consolidation Directive)~~ that derive originally from the Second Consolidated Supervision Directive (92/30/EEC) and have now been further amended by the Financial Groups Directive (2002/87/EC). Banks that are part of a group should also refer to the rules and guidance on group risks in PRU 8.1.
- 3 The Capital Adequacy Directive (CAD - 93/6/EEC) introduced both a framework for capital requirements for market risk and a requirement for a consolidated assessment of groups including investment firms. This chapter includes the updates to the consolidated supervision regime applied to banks which resulted from its implementation, most notably the introduction of aggregation plus as a technique for consolidating trading book exposures in some cases for CAD banks.
- 4 The obligations in these directives require consolidation ~~only~~ up to the highest relevant parent incorporated in the EEA. ~~and not to~~ Where the ultimate parents is outside the EEA, the FSA also needs to establish whether the bank is subject to equivalent consolidated supervision by the competent authorities in the ultimate parent's home country, and if not, to take appropriate measures to achieve the objectives of the Banking Consolidation Directive. This is covered in more detail in PRU 8.5: banks with non-EEA parents should therefore note that they are also subject to the relevant provisions in PRU 8.5.
- 4A It is open, however, to supervisors to go further than the minimum requirements. It may be important to consolidate other parts of the group, in order to have all the relevant risks included. The FSA is committed to extending its consolidated supervision beyond the requirements of the directives if the result is a more accurate assessment of risk to a bank. Moreover, where a banking group includes an entity active in the insurance sector, it may possibly constitute a *financial conglomerate* and would then be subject to additional rules and guidance necessary to implement the Financial Groups Directive in such cases. The exact definitions and criteria as to what constitutes a *financial conglomerate*, and the additional rules and guidance that apply to them, are set out in PRU 8.4. If a banking group is, or becomes, a *financial*

conglomerate, it will be subject to these additional rules and guidance, as well as to the rules and guidance in this chapter.

## 1.2 Application

5 This chapter applies to UK-incorporated banks (and banking groups with UK-incorporated non-bank parents) only.

- (a) Banks incorporated elsewhere in the EEA with UK branches are, of course, subject to the requirements of the "2CSD" (now replaced by The Banking eConsolidation Directive as implemented by their home supervisors.

## 1.3 How this chapter is organised

6 ...

7 ...

8 ~~Section 8 covers~~ Material on qualitative consolidated supervision, formerly in section 8 of this chapter (now deleted), has been replaced by the rules and guidance in PRU 8.1. And Section 9 explains the solo consolidation treatment which may be adopted for solo purposes.

...

## 2 THE FSA'S APPROACH TO CONSOLIDATED SUPERVISION

1 ...

2 ...

3 ...

4 ...

5 The FSA regards consolidated supervision as a complement to, not a substitute for, solo supervision.

- (a) Solo supervision is needed as well. For events elsewhere in the group and the activities of other group companies can pose a threat to the bank in ways which consolidated supervision alone cannot detect: for example, intra-group linkages arising from transactions between the bank and other group companies will only be revealed by solo supervision. And a complementary assessment of solo capital adequacy permits an assessment of whether, so far as the bank itself is concerned, there is an appropriate distribution of capital in a group.
- (b) So institutions should comply with the FSA's policy on capital adequacy and large exposure on both a solo (or solo-consolidated) and a consolidated basis.

The FSA also seeks to ensure that persons who effectively direct the business of a financial holding company are of sufficiently good repute and have sufficient experience to perform these duties. This requirement was introduced into the Banking Consolidation Directive by the Financial Groups Directive ( article 54a of the Banking Consolidation Directive as inserted by article 29(8) of the Financial Groups Directive). But without prejudice to this specific requirement , the Directive also makes clear that the consolidation of the financial situation of a financial holding company ( as part of the consolidated supervision of its banking subsidiary by the FSA ) in no way implies that the FSA is required to play a supervisory role in relation to that financial holding company on a stand-alone basis .

Article 55a of the Banking Consolidation Directive (as inserted by article 29(9) of the Financial Groups Directive ) also requires the FSA to exercise general supervision over transactions between a bank that is a subsidiary of a mixed activity holding company ( MAHC ), and the MAHC itself and its other subsidiaries. The relevant guidance to banks is set out in section 3 of this chapter, para 3.1.4. If these intra-group transactions were to pose a threat to the bank's financial position , the FSA will take appropriate measures.

...

### 3 QUANTITATIVE CONSOLIDATED SUPERVISION

...

#### 3.1.3 Adequate controls

See ch GN s3

5 A bank should have adequate internal control mechanisms to produce any data and information which might be relevant for the purpose of supervision on a consolidated basis :this is now placed on a new and stronger footing in PRU 8.1 (see also rule 3.3.19 which requires a bank to have adequate systems and controls which enable it to monitor, control and calculate its large exposures).

#### 3.1.4 Intra group transactions with MAHC

5A Where a bank's parent is a mixed-activity holding company (MAHC), the FSA is required to supervise transactions between the bank, and the MAHC and its other subsidiaries, and any significant transactions are to be reported to the FSA. The most important category of such transactions will be those ( i.e. credit exposures and off balance sheet items ) that give rise to "exposures" to the relevant connected counterparty for the purposes of chapter LE and the large exposure reporting forms . The FSA considers that in these cases the directive requirement is adequately met by the existing arrangements under which the bank's exposures to individual, or groups of, connected counterparties are reported and monitored ( see 3.1.2 above, and also chapter LE section 9.2.2, and the large exposure reporting forms in SUP 16Ann 1R ). Reporting of other significant transactions (that do not give rise to “exposures”) is also now required as a separate item by SUP 16.7.8R. The requirements for the bank to have adequate systems and controls to produce the necessary information (see 3.1.3 above), and systems and controls generally to mitigate group risk, are also covered in PRU 8.1 which applies to all banks that are part of groups.

...

## 4 Scope of consolidation

### 4.1 INTRODUCTION

See Supervision Manual chapter 16

1 ...

### 4.2 Domain of consolidation within a group including a bank

2 Consolidation should be undertaken in the following cases:

...

(a) ...

(b) when the bank is not the *parent* company, but:

(i) the bank is part of a group or sub-group whose business wholly or *mainly* comprises the *listed activities*; and

(ii) the *parent* of the group or sub-group is itself a *financial institution*.

See a10.1

(a) The *listed activities* are those given in the first paragraph of the first appendix to this chapter.

See s4.3

(b) The definition of *parent* is given below.

(c) To qualify as a *financial institution*, the exclusive or *main business* of a company should be either to carry out one or more of the listed activities or to acquire holdings in companies undertaking these activities. The formal definition of a *financial institution* is given in the Glossary.

(d) ...

...

### 4.3 Companies to be consolidated

3 Consolidation then extends to all relevant financial companies within that domain: that is the *parent company*; its *subsidiaries*; and companies in which the parent or its subsidiaries have a *participation*.

(a) The definitions used of *parent* and *subsidiary* are those contained in the Seventh Company Law Directive (83/349/EEC); these are implemented in the United Kingdom in section 258 of the Companies Act 1985. The definition of *participation* is set out in the Table in chapter GN.

(b) The notion of *subsidiary* is also normally extended to cover a company over which the parent or one of its subsidiaries exercises *dominant influence*. The criteria used to determine whether dominant influence exists are those provided by the contemporary UK accounting standards.

(i) The relevant accounting standard is FRS2, Accounting for Subsidiary Undertakings.

- (c) The threshold for the consolidation of group companies which are not subsidiaries – *participations* – is the ownership of 20% or more of the voting rights or capital.
- (d) In the case where undertakings are linked to the domain of consolidation by a relationship within the meaning of article 12(1) of Directive 83/349/EEC (see definition of "consolidation article 12(1) relationship" in the Glossary), the FSA will determine how consolidation is to be carried out.
- (e) Asset management companies ( which for this purpose has the meaning given in the Glossary ) are also to be consolidated, whether or not they come within the definition of *financial institution* , thereby fulfilling specific requirements in the Financial Groups Directive.

4 Companies whose business is not financial are not usually included in the consolidation; however, the FSA may consider that it is appropriate to include them.

- (a) Insurance and the broking of insurance are not financial activities for this purpose, and so these companies are not usually included in a consolidation.

See ch CA s10

- (i) For an explanation of the treatment of investments in insurance companies, see the chapter on the definition of capital.

5 A non-financial subsidiary or *participation* should be excluded from the consolidation only with the FSA's prior agreement. If the exclusion is agreed, the investment in that company should be deducted from consolidated capital and its assets not included in group weighted risk assets.

...

4.4 General exceptions to the above policy

6 As provided for by ~~article 3.3 of the 2CSD (now replaced by Article 52.3 of The Banking Consolidation Directive,~~ in a limited number of cases the FSA may permit the exclusion from a bank's consolidated returns of subsidiaries or participations which otherwise meet the criteria for consolidation, where:

...

4.5 The policy where a bank is subject to consolidated supervision elsewhere

9 Where a bank is a member of a group including a number of EEA-incorporated banks, the FSA may, following discussion with the other supervisor(s), agree that consolidation is not necessary.

10 For a group including a bank whose ultimate parent is incorporated in a country outside the EEA, the treatment of the whole group is set out in PRU 8.5. This does not affect the usual operation of the Banking Consolidation Directive for the EEA sub-group i.e. from the highest relevant EEA parent down. ~~consolidation of the whole group is not normally necessary.~~

~~In determining the appropriate treatment in these cases, the FSA takes into account whether the parent company is subject to consolidation supervision (by another~~

~~supervisor) that adheres to the Basel minimum standards for the supervision of international banking groups and their cross border establishments~~

In those cases in which it determines that a whole-group consolidation would not be appropriate, the FSA nonetheless considered that sub-consolidation from the highest relevant EEA parent down, as outlined above, would be appropriate.

#### 4.6 Groups not subject to consolidation

- 11 When a bank belongs to a group or sub-group for which the FSA determines consolidation would be inappropriate (for example in cases where the preponderance of the group's business comprises industrial or insurance business), the FSA may ask the parent institution and its other subsidiaries to supply it with any data or information which it considers relevant to the purpose of supervising the bank.
- 12 When the parent of a bank is an insurance company (but the whole group does not constitute a financial conglomerate), the FSA does not normally consider it necessary to consolidate down from the insurance company, pending further harmonisation of the basis of accounting for banks and insurance companies. However, the FSA seeks to liaise with the supervisors of the insurance company parent if that supervisor is not the FSA. Where the group as a whole constitutes a financial conglomerate, it will in any case be subject to the additional rules and guidance on consolidated supervision set out at PRU 8.4.

...

After Chapter CS, Section 7 delete Section 8 in its entirety.

## 8 QUALITATIVE CONSOLIDATED SUPERVISION

[deleted]

## Annex C

### Amendments to the Interim Prudential sourcebook for building societies

In this Annex underlining indicates new text and striking through indicates deleted text. Where an entire section of text is being deleted or inserted, the place where the change will be made is indicated and the text is not struck through or underlined.

Amend IPRU(BSOC), Volume 1, Chapter 1 as follows:

1 SOLVENCY

...

1.4 EU Directives

...

1.4.6 G The BCD also requires the FSA to carry out consolidated supervision of building society groups. The EU provisions for consolidated supervision have been supplemented by the Financial Groups Directive (2002/87/EC). Where a building society group includes an entity active in the insurance sector, while the group's main business lies in the deposit-taking sector, it may possibly constitute a "financial conglomerate" ( though the FSA expects this will be rare, at least in the near future ). The exact definitions and criteria as to what constitutes a "financial conglomerate" and the additional rules and guidance that apply to them, are set out in the Integrated Prudential Sourcebook (PRU) at PRU 8.4. If (but only if) a building society is, or becomes , a financial conglomerate, it will be subject to these additional rules and guidance , as well as to the rules and guidance in this IPRU (BSOC). Moreover, all building societies that are part of a group are subject to the general provisions in PRU 8.1.

...

1.8 Deductions

1.8.1 G Societies should make certain deductions from own funds and observe certain restrictions on the inclusion of Tier 2 items. The deductions comprise:

(1) ...

(2) ...

(3) ...

(4) ...

- (5) the amount of any material insurance holding (see Annex 1 D for definitions), relating to an insurance undertaking, reinsurance undertaking, or insurance holding company.

1.8.2 G Societies may be expected to make a deduction from own funds to reflect the existence of a contingent liability which, if called, would create an asset that societies would be required to deduct from own funds.

N B: See section 1.13 for ~~deductions in respect~~the treatment of insurance companies that are subsidiaries, section 1.14 for MIG captives, section 1.16 for holdings in other institutions, and for possible deductions arising out of securitisation, section 1.15.

...

### 1.13 Exclusions from Consolidation

1.13.1 G Subject to a limited degree of discretion allowed to the supervisory authorities, the BCD requires building societies to consolidate subsidiary undertakings which are financial or credit institutions (defined in Annex 1D) for the purposes of calculating their solvency ratio. However unless:

- (1) the inclusion of a particular non financial institution or non-credit institution subsidiary undertaking would result in a higher solvency ratio than if it were to be excluded; or
- (2) the FSA specifically requires the subsidiary undertaking to be excluded;

societies should include all their subsidiary undertakings when calculating their solvency ratio. Exclusion is likely where the FSA believes that a subsidiary's inclusion in the consolidation would be misleading or inappropriate. Life insurance ~~and~~ general insurance, reinsurance and insurance holding companies fall into this category : societies are already expected to deduct material insurance holdings from own funds (see section 1.8 above ). ~~and~~ Societies should calculate their solvency ratio after reversing the impact of the investment in, or consolidation of, these subsidiary undertakings. In the society only ratio calculation, the carrying value of the investment should be removed from the weighted asset total, and an equal deduction made from the society's own funds. In the consolidated ratio calculation, the weighted assets of the insurance subsidiary should be removed from the consolidated weighted assets, and the reserves of the subsidiary consolidated into group own funds should be reversed out, including any benefit of the embedded value taken through the group's reserves. The only profits of the subsidiary that may count as group own funds are those that have been distributed to the parent society i.e. as dividends. Societies should also note that the consolidation of asset management companies ( which for this purpose have the meaning given in the Handbook Glossary ) is now required by article 30 of the Financial Groups Directive, whether or not they come within the definition of a financial institution.

...

## 1.16 Deductions in Respect of Holdings in Other Institutions

....

1.16.3 G The Directive gives member states the option not to apply the restrictions to life and general insurance companies or reinsurance companies; and not to apply them in other cases provided they require a deduction from the credit institution's own funds of 100% of the amount in excess of the 15% or 60% limits.

1.16.4 G The FSA has decided not to apply the limits to participation in insurance or reinsurance companies but under section 1.8 above - "material insurance holdings" – see Annex 1D for definitions - are already subject to deduction from the society's own funds; see also section 1.13 for capital treatment in respect of holdings on the exclusion of insurance companies subsidiaries from consolidation. The FSA has also decided not to apply the limits in other cases but to recommend a 100% deduction from own funds of the amount of the holding in excess of 15%.

...

Calculation of "Own Funds"

...

### 1A.6 *Own funds*

1A.6.1 Gross own funds comprise Tier 1 capital plus Tier 2 capital. From this should be deducted:

- (1) ...
- ...
- (4) any deductions in respect of insurance reinsurance or insurance holding companies (section ~~1.13~~1.8), MIG Captives (section 1.14), holdings in other undertakings (section 1.16) and securitisation (paragraph 1.15.2);

to arrive at "own funds".

...

## ANNEX 1D

~~HOLDINGS OF CAPITAL INSTRUMENTS OF OTHER CREDIT AND FINANCIAL INSTITUTIONS TO BE EXCLUDED DEDUCTIONS FROM "OWN FUNDS" CALCULATIONS~~

### DEFINITIONS ( for section 1.8 )

G

Insert the following new definitions in Annex 1D.1:

## 1D.1 Definitions

...

1D.1.4 Material Insurance Holding means the higher of

- a. the book value of an investment held in an insurance undertaking, reinsurance undertaking, or insurance holding company ("investment" for this purpose is either a participation, or the investment in a subsidiary undertaking), or
- b. the society's proportionate share of that undertaking's local or notional regulatory capital requirement.

Where the undertaking is a subsidiary and it has a solvency deficit, the subsidiary's local or notional regulatory requirement should be deducted in full.

A description of how a notional capital requirement is to be calculated is set out in paragraphs 6.7 and 6.8 in Part 6 of PRU 8 Annex 1. A notional requirement should be calculated in all cases where the undertaking is not regulated to EEA or equivalent standards : this is also explained in paragraphs 6.7 and 6.8 in Part 6 of PRU 8 Annex 1.

1D.1.5 Participation means

- (1) a participating interest as defined in section 260 of the Companies Act 1985 (participating interests): or
- (2) the direct or indirect ownership of 20% or more of the voting rights or capital of an undertaking.

## Annex D

### Amendments to the Interim Prudential sourcebook for friendly societies

In this Annex, underlining indicates new text and striking through indicates deleted text.

#### Chapter 7

#### DEFINITIONS

---

##### Part I Definitions

7.1 In this Part of the *IPRU(FSOC)*, unless the contrary intention appears, the following definitions apply –

*insurance holding company* means a parent undertaking whose main business is to acquire and hold participations in subsidiary undertakings, where:

- (a) those subsidiary undertakings are exclusively or mainly insurance undertakings;
- (b) at least one of those subsidiary undertakings is a UK insurer or an EEA firm that is a regulated insurance entity; and
- (c) it is not a mixed financial holding company. ~~an undertaking whose main business is to acquire and hold participations in subsidiary undertakings, where those subsidiary undertakings are exclusively or mainly insurance undertakings;~~

*notional required minimum margin* means:

- (a) in the case of an insurance undertaking (other than a pure reinsurer) that has its head office in a designated state or territory, the amount of the required minimum margin, or the equivalent requirement under the regulatory requirements of that state or territory;
- (b) in the case of a pure reinsurer that has its head office in a designated state or territory, the amount that would be the required minimum margin, or the equivalent requirement under the regulatory requirements of that state or territory, if the regulatory requirements of that state or territory applicable to undertakings carrying on direct insurance business were applied to the pure reinsurer (whether they are or not); and
- (c) in all other cases, the amount of the required minimum margin that would apply if the insurance undertaking were an insurer (other than a pure reinsurer), with its head office in the United Kingdom (whether it

is or not)
<u>participating undertaking</u> means <u>an undertaking which is either a parent undertaking or other undertaking which holds a participation in or is linked by a consolidation Article 12(1) relationship with the undertaking in question</u> <del>an undertaking which holds a participation in another undertaking;</del>
<u>proxy capital resources requirement</u> means the <u>solo capital resources requirement to which an undertaking would have been subject if it had a permission for each activity it carries on anywhere in the world, so far as that activity is a regulated activity.</u>
<u>regulated related undertaking</u> means a <u>related undertaking that is any of the following:</u>
(a) <u>a regulated entity;</u>
(b) <u>an insurance undertaking which is not a regulated insurance entity;</u>
(c) <u>an asset management company;</u>
(d) <u>a financial institution which is neither a credit institution nor an investment firm;</u>
(e) <u>a financial holding company; or</u>
(f) <u>an insurance holding company.</u>
<u>related undertaking</u> means <u>in relation to an undertaking 'U':</u>
(a) <u>any subsidiary undertaking of U;</u>
(b) <u>any undertaking in which U or any of U's subsidiary undertakings holds a participation;</u>
(c) <u>any undertaking linked to U by a consolidation Article 12(1) relationship; or</u>
(d) <u>any undertaking linked by a consolidation Article 12(1) relationship to an undertaking in (a), (b) or (c).</u>
<del>an undertaking in which a participation is held by another undertaking or which is a subsidiary undertaking;</del>
<u>relevant regulatory requirements</u> means:
(a) <u>in the case of a related undertaking that is an insurance undertaking, established in a designated state or territory, at the option of the friendly society:</u>
(i) <u>the regulatory requirements of that state or territory applicable to</u>

an undertaking carrying on *direct insurance business* (even if it only carries on *reinsurance* business or is an *insurance holding company*), or

(ii) the requirements referred to in (b);

(b) in the case of any other *insurance undertaking* or *insurance holding company*, the rules in *IPRU(INS)* applicable to an *insurer* (other than a *pure reinsurer*) with its head office in the United Kingdom (whether or not it is such an *insurer*)

*surplus assets* has the meaning given in paragraph 3(3) of Appendix 4 ~~except that in relation to a *related undertaking* which is an *insurance undertaking* or an *insurance holding company* it has the meaning given in *IPRU (INS)*;~~

PART II – General Provisions

7.2 A word or phrase which is printed in italics is used in the defined sense. Where a word or phrase is printed in italics and is not given a meaning in Part 1 of Chapter 7, that word or phrase has the meaning given to it in the Handbook Glossary.

7.3 ...

## Appendix 4

### ASSET VALUATION RULES

#### Shares in a related undertaking

- ~~3. (1) Where any *shares* are held by a *friendly society* in a *related undertaking*, which is an *insurance undertaking* or *insurance holding company*:~~
- ~~(a) the value of the *shares* must not exceed the value, determined in accordance with rule 4.2 of *IPRU(INS)* of the *related undertaking's* surplus assets (as defined in *IPRU(INS)*);~~
  - ~~(b) the *friendly society* must make provision in respect of the *related undertaking* in accordance with rule 5.3A of *IPRU(INS)*.~~
- ~~(2) Where any *shares* are held by a *friendly society* in a *related undertaking* which is not an *insurance undertaking* or *insurance holding company*, the value of the *shares* must not exceed the greater of:~~
- ~~(a) the value (or, where the shareholding, whether held directly or indirectly, is less than 100%, the relevant *proportional share* of the value), determined in accordance with this Appendix (other than 15(1)(a) to (c)), of the *related undertaking's surplus assets*; and~~
  - ~~(b) the value of those *shares* as determined under 9 reduced:~~
    - ~~(i) by an appropriate amount, to the extent that the *shares* cannot effectively be made available or realised to meet losses (if any) arising in the *friendly society*;~~
    - ~~(ii) by an appropriate amount, to the extent needed to exclude value attributable to goodwill generated from business with the *friendly society* or any *related undertaking* of the *friendly society* that is an *insurance undertaking* or an *insurance holding company*; and~~
    - ~~(iii) by the amount by which the value of any *shares* held by the *group undertaking* in a *related undertaking* of the *friendly society* which is an *insurance undertaking* or an *insurance holding company* exceeds the value (or *proportional share*); determined in accordance with this Appendix (other than 15(1)(a) to (c)), of the *surplus assets* of the *related undertaking*.~~
- ~~(3) The surplus assets of a *related undertaking* (other than an *insurance undertaking* or an *insurance holding company*) are its total assets excluding:~~
- ~~(a) the assets that are selected to cover liabilities;~~

- ~~(b) — assets that are interests directly or indirectly held in the *related undertaking's* own capital;~~
  - ~~(c) — amounts due, or to become due, in respect of *share* capital, or other contributions from members of the *related undertaking*, subscribed or called for but not fully paid up; and~~
  - ~~(d) — assets that cannot effectively be made available or realised to meet losses (if any) arising in the *friendly society*, including assets that represent capital not owned, directly or indirectly, by the *friendly society*.~~
- ~~(4) — The assets selected in (3)(a) to be excluded from the total assets:~~
- ~~(a) — must be of a value at least equal to the amount of the liabilities of the *related undertaking*, determining that value and that amount in accordance with this Appendix (other than 15(1)(a) to (c)) and Appendix 5; and~~
  - ~~(b) — must not include:~~
    - ~~(i) — assets falling within (3)(b), or~~
    - ~~(ii) — assets falling within (3)(c) where the amount is due, or to become due, from a *related undertaking*; but~~
  - ~~(c) — notwithstanding (a), a liability of the *related undertaking* which is a *debt due to the friendly society* is not required to be determined at an amount which is higher than the value placed on that *debt* as an asset of the *friendly society*.~~
3. (1) Where any *shares* are held by a *friendly society* in a *related undertaking*, which is a *regulated related undertaking* the value of the *shares* may be taken as, and in any event must not exceed, the value (or, where the shareholding, whether held directly or indirectly, is less than 100%, the relevant *proportional share* of the value), determined in accordance with this Appendix (other than paragraph 15(1)(a) to (c)), of the *surplus assets* of the *regulated related undertaking*.
- (2) Where any *shares* are held by a *friendly society* in a *related undertaking* which is not a *regulated related undertaking*, the value of the *shares* must not exceed the greater of:
- (a) the value (or, where the shareholding, whether held directly or indirectly, is less than 100%, the relevant *proportional share* of the value), determined in accordance with this Appendix (other than 15(1)(a) to (c)), of the *related undertaking's surplus assets*; and
  - (b) the value of those *shares* as determined under paragraph 9 reduced:

- (i) by an appropriate amount, to the extent that the *shares* cannot effectively be made available or realised to meet losses (if any) arising in the *friendly society*.
  - (ii) by an appropriate amount, to the extent needed to exclude value attributable to goodwill generated from business with the *friendly society* or any *related undertaking* of the *friendly society* that is a *regulated related undertaking*, and
  - (iii) by the amount by which the value of any *shares* held by the *related undertaking* in a *related undertaking* of the *friendly society* which is a *regulated related undertaking* exceeds the value (or *proportional share*), determined in accordance with this Appendix (other than 15(1)(a) to (c)), of the *surplus assets* of the *related undertaking*.
- (3) The surplus assets of a *related undertaking* are its total assets excluding:
- (a) the assets that are selected to cover liabilities and, in the case of a *related undertaking* which is a *regulated related undertaking*, to cover its regulatory requirement;
  - (b) the regulatory requirement of a *regulated related undertaking* is:
    - (i) in respect of an *insurance undertaking*, the *notional required minimum margin*;
    - (ii) in respect of a *regulated entity* with its head office in the *EEA* (excluding an *insurance undertaking*), the *solo capital resources requirement* calculated in accordance with the *sectoral rules* for the *financial sector* applicable to it;
    - (iii) in respect of a *regulated entity* not within (ii) (excluding an *insurance undertaking*), its *proxy capital resources requirement*;
    - (iv) in respect of *asset management company*, the *solo capital resources requirement* that would apply to it if, in connection with its activities, it were treated as an *investment firm* for the purposes of calculating the *solo capital resources requirement*;
    - (v) in respect of a *financial institution* (including a *financial holding company*) which is not a *regulated entity*, the *solo capital resources requirement* that would apply to it if, in connection with its activities, it were treated as being within the *banking sector*; and
    - (vi) in respect of an *insurance holding company*, zero.

- (c) assets that are interests directly or indirectly held in the *related undertaking's* own capital (as defined in the *relevant regulatory requirements* for that undertaking);
  - (d) where the *related undertaking* carries on *long-term insurance business*, profit reserves and future profits;
  - (e) assets which represent either a *long-term insurance fund* or a fund the allocation of which as between *policy holders* and other purposes has yet to be determined;
  - (f) amounts due, or to become due, in respect of *share capital*, or other contributions from members of the *related undertaking*, subscribed or called for but not fully paid up; and
  - (g) assets that cannot effectively be made available or realised to meet losses (if any) arising in the *friendly society*, including assets that represent capital not owned, directly or indirectly, by the *friendly society*.
- (4) The assets selected in (3)(a) to be excluded from the total assets:
- (a) where the *related undertaking* is an *insurance undertaking*, must be identified and valued in accordance with *relevant regulatory requirements* as to the value, admissibility, nature, location or matching that apply to the assets available to cover its liabilities (determined under the *relevant regulatory requirements*) and the *notional required minimum margin*;
  - (b) where the *group undertaking* is a *regulated related undertaking* (excluding an *insurance undertaking*), must be identified and valued in accordance with the *relevant sectoral rules* applicable to the *regulated related undertaking* as to cover its liabilities and the applicable regulatory requirement identified in paragraph 3(3)(b);
  - (c) where the *group undertaking* is not a *regulated related undertaking*, must be of a value at least equal to the amount of its liabilities, determining that value and that amount in accordance with this Appendix (other than 15(1)(a) to (c)) and Appendix 5; and
  - (d) in all cases, must not include:
    - (i) assets falling within (3)(c), or
    - (ii) assets falling within (3)(f) where the amount is due, or to become due, from a *related undertaking*; but
  - (e) notwithstanding (a), (b) and (c), a liability of a *related undertaking* which is a *debt* due to the *friendly society* is not required to be

determined at an amount which is higher than the value placed on that debt as an asset of the friendly society.

- (5) For the purposes of (4), the relevant regulatory requirements must be treated as if paragraphs 15(1)(a) to (c) (or their equivalent in a designated State or territory) do not apply for the purpose of valuing shares in related undertakings that are not dependants.
- (6) For the purposes of this Appendix, any value attributed to any shares held directly or indirectly in a related undertaking which is an ancillary insurance service undertaking, an ancillary investment services undertaking or an ancillary banking services undertaking, calculated in accordance with paragraph 3, must be deducted from the assets of the friendly society.

### **Value of non capital interests in a group undertaking**

- 4A (1) A friendly society must notify the FSA of:
- (a) any related undertaking which:
- (i) no participation is held in by another related undertaking; and
- (ii) is not a subsidiary undertaking; but
- (iii) is linked by a consolidation Article 12(1) relationship with another related undertaking; and
- (b) the value of that undertaking calculated on the basis of paragraph 3.
- (2) For the purposes of this Appendix, the related undertaking referred to in (1)(a)(iii)'s proportional share of the value of the related undertaking in (1)(a) is determined in accordance with Article 28(5) of the Financial Groups Directive.

## Appendix 5

### *LIABILITY VALUATION RULES*

#### **Provision for related undertakings**

- 3A (1) Except to the extent that provision for the deficit has been made (whether in the calculation of *surplus assets* or otherwise) in another *related undertaking* the value of whose *shares* is taken to be the value of its *surplus assets* under paragraph 3(1) or (2) of Appendix 4 (but only to the extent of the *friendly society's proportional share* of that *undertaking*), a *friendly society* must make provision in respect of a *related undertaking* that is a *regulated related undertaking*:
- (a) where the *related undertaking* is also a *subsidiary undertaking* of the *friendly society*, for the whole of any *solvency deficit*; and
  - (b) in any other case, for the *friendly society's proportional share* of any such deficit.
- (2) For the purposes of (1), the identification and valuation of assets of *regulated related undertaking* available to cover liabilities and the regulatory requirement, set out in paragraph 3(3)(b) of Appendix 4 must be determined in accordance with paragraph 3(4) of Appendix 4.

## Annex E

### Amendments to Interim Prudential Sourcebook for Insurers (IPRU(INS))

In this Annex, underlining indicates new text and striking through indicates deleted text:

#### IPRU(INS) - VOLUME 1

#### Chapter 4

#### VALUATION OF ASSETS

---

##### Shares in a group undertaking

- 4.2 (1) Notwithstanding rule 4.8, the value of any *shares* held in a *group undertaking* which is ~~an *insurance undertaking* or an *insurance holding company*~~ a *regulated related undertaking* may be taken as, and, in any event, must not exceed, the value (or, where the shareholding, whether held directly or indirectly, is less than 100%, the relevant *proportional share* of the value), determined in accordance with the *Valuation of Assets Rules* (other than rule 4.14(1)(a) to (c)), of the ~~its~~ *surplus assets of the regulated related undertaking*.
- (1A) The value of any *shares* held in a *group undertaking* which is not ~~an *insurance undertaking* or an *insurance holding company*~~ a *regulated related undertaking* must not exceed the greater of:
- (a) ...
  - (b) ...
    - (i) ...
    - (ii) ....
    - (iii) by the amount by which the value of any *shares* held by the *group undertaking* in a *related undertaking* of the *insurer* which is an *regulated related undertaking* ~~*insurance undertaking* or an *insurance holding company*~~ exceeds the value (or *proportional share*), determined in accordance with the *Valuation of Assets Rules* (other than rule 4.14(1)(a) to (c)), of the *surplus assets* of the *related undertaking*.
- (2) The surplus assets of a *group undertaking* are its total assets excluding:
- (a) the assets that are selected to cover liabilities and, in the case of a *group undertaking* which is ~~an *insurance undertaking*~~, ~~to cover the *notional required minimum margin*~~ a *regulated related undertaking*, to cover its regulatory requirement;

- (aa) the regulatory requirement of a regulated related undertaking is:
- (i) in respect of an insurance undertaking, the notional required minimum margin;
  - (ii) in respect of a regulated entity with its head office in the EEA (excluding an insurance undertaking), the solo capital resources requirement calculated in accordance with the sectoral rules for the financial sector applicable to the regulated related undertaking;
  - (iii) in respect of a regulated entity not within (ii) (excluding an insurance undertaking), its proxy capital resources requirement;
  - (iv) in respect of an asset management company, the solo capital resources requirement that would apply to it if, in connection with its activities, it were treated as an investment firm for the purposes of calculating the solo capital resources requirement;
  - (v) in respect of a financial institution (including a financial holding company) which is not a regulated entity, the solo capital resources requirement that would apply to it if, in connection with its activities, it were treated as being within the banking sector; and
  - (vi) in respect of an insurance holding company, zero.
- (c) ....
- (d) ....
- (e) ....
- (f) ....
- (3) The assets selected in (2)(a) to be excluded from the total assets:
- (a) ...
  - (b) where the group undertaking is a regulated related undertaking (excluding an insurance undertaking), must be identified and valued in accordance with the relevant sectoral rules applicable to the regulated related undertaking as to cover its liabilities and the applicable regulatory requirement identified in rule 4.2(2)(aa);
  - (c) where the group undertaking is not an insurance undertaking a regulated related undertaking, must be of a value at least equal to the amount of its liabilities, determining that value and that amount in accordance with the Valuation of Assets Rules (other than 4.14(1)(a) to (c)) and the Determination of Liabilities Rules; and
  - (d) in all both cases, must not include:

- (i) assets falling within (2)(b), or
  - (ii) assets falling within (2)(e) where the amount is due, or to become due, from a *group undertaking*; but
- (~~de~~) notwithstanding (a), ~~and~~ (b) and (c), a liability of a *group undertaking* which is a *debt* due to the *insurer* is not required to be determined at an amount which is higher than the value placed on that *debt* as an asset of the *insurer*.
- (5) For the purposes of the *Valuation of Assets Rules*, any value attributed to any *shares* held directly or indirectly in a *group undertaking* which is an *ancillary insurance services undertaking*, an *ancillary investment services undertaking* or an *ancillary banking services undertaking*, calculated in accordance with rule 4.2, shall be deducted from the assets of the *insurer*.

**Value of non capital interests in a group undertaking**

- 4.3A (1) An *insurer* must notify the *FSA* of:
- (a) any *group undertaking* which:
    - (i) no *participation* is held in by another *group undertaking*; and
    - (ii) is not a *subsidiary undertaking*; but
    - (iii) is linked by a *consolidation Article 12(1) relationship* with another *group undertaking*; and
  - (b) the value of that *undertaking* calculated on the basis of rule 4.2.
- (2) For the purposes of *Valuation of Assets Rules*, the *group undertaking* referred to in (1)(a)(iii)'s proportional share of the value of the *group undertaking* in (1)(a) shall be determined in accordance with Article 28(5) of the *Financial Groups Directive*.

## Chapter 5

### DETERMINATION OF LIABILITIES

---

#### *Provision for related undertakings*

- 5.3A (1) Except to the extent that provision for the deficit has been made (whether in the calculation of *surplus assets* or otherwise) in another *group undertaking* the value of whose *shares* is taken to be the value of its *surplus assets* under rule 4.2(1) or (1A)(a) (but only to the extent of the *insurer's proportional share* of that undertaking), an *insurer* must make provision in respect of a *related undertaking* that is ~~an insurance undertaking or insurance holding company~~ a regulated related undertaking:
- (a) where the *related undertaking* is also a *subsidiary undertaking* of the *insurer*, for the whole of any *solvency deficit*; and
  - (b) in any other case, for the *insurer's proportional share* of any such deficit.
- (2) For the purposes of (1), the identification and valuation of assets of a regulated related undertaking available to cover liabilities and the regulatory requirement, set out in rule 4.2(2)(aa), notional required minimum margin must be determined in accordance with rule 4.2(3).

**PARENT UNDERTAKING SOLVENCY CALCULATION**

---

**Information to be provided to FSA**

- 10.2 (1) ...
- (b) the relationship with each other member of the *insurance group*, including the amounts and descriptions of holdings of *share capital* and voting rights and the nature of any consolidation Article 12(1) relationship;
- ...
- (4) ...
- (c) the valuation of assets and the determination of liabilities of regulated related undertakings ~~insurance undertakings~~ and ~~insurance holding companies~~; and
- (d) the calculation of the required minimum solvency margin or capital resources requirement of those undertakings ~~insurance undertakings~~.

## Chapter 11

### DEFINITIONS

---

#### PART I

#### DEFINITIONS

- 11.1 For the purposes of *IPRU(INS)*, the term or phrase in the first column has the meaning given to it in the second column unless the context otherwise requires.

<i>Banking Co-ordination Directive</i> or <i>BCD</i>	Council Directive of 20 March 2000, relating to the taking up and pursuit of the business of credit institutions (2000/12/EC)
--	---

<i>Directive</i>	see –  <i>Insurance Groups Directive</i> <i>Investment Services Directive</i> <i>Financial Groups Directive</i> <i>First Life Directive</i> <i>First Non-Life Directive</i> <i>Banking Co-ordination Directive</i> <i>Third Life Directive</i> <i>Third Non-Life Directive</i> <i>Consolidated Life Directive</i>
------------------	---

<i>insurance group</i>	an <i>insurance parent undertaking</i> and its <i>related undertakings</i>  (a) — <i>insurance undertakings</i> ; or  (b) — <i>insurance holding companies</i>
<i>insurance holding company</i>	a <i>parent undertaking</i> whose main business is to acquire and hold <i>participations</i> in <i>subsidiary undertakings</i> , where:  (a) those <i>subsidiary undertakings</i> are exclusively or

	<p>mainly <i>insurance undertakings</i>;</p> <p>(b) <u>at least one of such <i>subsidiary undertakings</i> is a <i>UK insurer</i> or an <i>EEA firm</i> that is a <i>regulated insurance entity</i>; and</u></p> <p>(c) <u>it is not a <i>mixed financial holding company</i>.</u></p>
<i>insurance parent undertaking</i>	<p><del>in relation to an <i>insurer</i>, is a <i>parent undertaking</i> which is</del></p> <p>(1) <u>an <del>of that</del> <i>insurer</i> which has a <i>subsidiary undertaking</i> which is an <i>insurance undertaking</i>;</u></p> <p>(2) <u>an <del>which is either itself an <i>insurance undertaking</i> or an <i>insurance holding company</i></del> which has a <i>subsidiary undertaking</i> which is an <i>insurer</i>; or</u></p> <p>(3) <u>an <i>insurance undertaking</i> which has a <i>subsidiary undertaking</i> which is an <i>insurer</i></u></p>

<i>notional group solvency margin</i>	<p>in relation to an <i>ultimate insurance parent undertaking</i> or an <i>ultimate EEA insurance parent undertaking</i>, the sum of:</p> <p>(a) the <i>notional required minimum margin</i> (if any) of that parent; and</p> <p>(b) the sum of that parent's <i>proportional shares</i> of the <u>regulatory requirements referred to in Rule 4.2(2)(aa) <del>notional required minimum margins</del></u> of its <u><i>regulated related insurance undertakings</i></u></p>
---------------------------------------	--

<i>participating undertaking</i>	<u>an <i>undertaking</i> which is either a <i>parent undertaking</i> or other <i>undertaking</i> which holds a <i>participation</i> in or is linked by a <i>consolidation Article 12(1) relationship</i> with an <i>undertaking</i> which holds a <i>participation</i> in the undertaking in question</u>
<i>participation</i>	<p>(a) the holding of a participating interest within the meaning of section 421(2) of the <i>Act</i>; or</p> <p>(b) the holding, directly or indirectly, of 20% or more of the voting rights or capital <u>of an <i>undertaking</i></u></p>
<i>proxy capital resources</i>	<u>the <i>solo capital resources requirement</i> to which an <i>undertaking</i> would have been subject if it had a</u>

<i>requirement</i>	<u>permission</u> for each activity it carries on anywhere in the world, so far as that activity is a <i>regulated activity</i> .
--------------------	---

<i>regulated related undertaking</i>	<p><u>a group undertaking</u> that is any of the following:</p> <p>(a) <u>a regulated entity</u>,</p> <p>(b) <u>an insurance undertaking</u> which is not a <i>regulated insurance entity</i>,</p> <p>(c) <u>an asset management company</u>,</p> <p>(d) <u>a financial institution</u> which is not either a <i>credit institution</i> or <i>investment firm</i>,</p> <p>(e) <u>a financial holding company</u>, or</p> <p>(f) <u>an insurance holding company</u>.</p>
--------------------------------------	--

<i>related undertaking</i>	<p>in relation to an <i>undertaking 'U'</i>:</p> <p>(a) <u>any subsidiary undertaking</u> of U;</p> <p>(b) <u>any undertaking</u> in which U or any of U's <u>subsidiary undertakings</u> holds a <i>participation</i> is held by another undertaking; or</p> <p>(c) <u>any undertaking</u> which is linked to U by a <u>consolidation</u> a <u>subsidiary undertaking</u> <u>Article 12(1) relationship</u>; or</p> <p>(d) <u>any undertaking</u> linked by a <u>consolidation</u> <u>Article 12(1) relationship</u> to an undertaking in (a), (b) or (c).</p>
----------------------------	---

<i>solvency deficit</i>	a or any deficit in the assets available to cover the undertaking's liabilities and represent its <u>regulatory requirement</u> referred to in Rule 4.2(2)(aa) <del>notional required minimum margin</del> (if any)
-------------------------	---

<i>ultimate insurance parent undertaking</i>	<del>an insurance</del> <u>parent undertaking</u> that is either an <u>insurance undertaking</u> or an <u>insurance holding company</u> and is not itself the <i>subsidiary undertaking</i> of another <i>insurance parent undertaking</i>
--	--

## **PART 2**

### **GENERAL PROVISIONS**

#### **Use of definitions**

- 11.5 A word or phrase which is printed in italics is used in the defined sense. Where a word or phrase is printed in italics and is not given a meaning in Part 1 of Chapter 11, that word or phrase has the meaning given to it in the Handbook Glossary.

GUIDANCE NOTE 4.1

GUIDANCE FOR INSURERS AND AUDITORS ON THE VALUATION OF ASSET RULES

Annex C

SHARES IN AND DEBTS DUE TO A GROUP UNDERTAKING

Shares in a group undertaking (rule 4.2)

2. *Shares in a group undertaking* may be valued either as arms-length investments under rule 4.8 (see paras 4.63 to 4.76 of Guidance Note 4.1) or under rules 4.2 (1) to (4). *Shares in group undertakings* that are *insurance undertakings* or *insurance holding companies* (see paragraph 4 of Guidance Note 10.1 for guidance on *insurance holding companies*) may not be given a higher value than the *surplus assets* in those undertakings calculated according to rules 4.2(2) to (4), but otherwise the *insurer* has the option whether or not to use rule 4.8<sup>1</sup>. If rule 4.8 is used, then admissibility limits apply and from 1 May 2003 there must be a deduction for intra-group goodwill under rule 4.2(1A)(b)(ii) (see 5). When valuing *shares* in a *group undertaking*, rules 4.2 (2) to (4) require net asset value to be used with certain adjustments.

---

<sup>1</sup> For the purposes of implementing the *Financial Groups Directive* and the amendments to the *Insurance Groups Directive*, with effect from 1 January 2005, *shares* held by an *insurer* in a *group undertaking* that is a *regulated related undertaking* (including *insurance undertakings* and *insurance holding companies*) are to be valued in accordance with the amended rules 4.2(1) to (5) and the *insurer* will not have the option to use rule 4.8 in respect of a *regulated related undertaking*. For the purposes of Annex C of this Guidance Note 4.1, references to *group undertakings* that are either *insurance undertakings* or *insurance holding companies*, or both should be read as references to *group undertakings* that are *regulated related undertakings*. Please note that the examples on pages 76J, K & L have not been amended to take account of this change (although they remain correct for a *firm* which does not have any *regulated related undertakings* which are not *insurance undertakings*).

## GUIDANCE NOTE 10.1

### THE PARENT UNDERTAKING SOLVENCY CALCULATION

#### Introduction

1. This guidance relates to the *parent undertaking solvency calculation* required by the *Insurance Groups Directive* and implemented in Chapter 10 of *IPRU(INS)*. The calculation is formulated on a basis analogous to the basis on which *shares in group undertakings* are valued for the *required solvency margin* (see Annex C paragraphs 4.7 to 4.12 of Guidance Note 4.1)<sup>1</sup>, but in contrast the *parent undertaking solvency calculation* is applied to an *insurer's ultimate insurance parent undertaking* and its *ultimate EEA insurance parent undertaking*, if different. Valuation of *shares in group undertakings* at the solo level focus "downwards" on the *insurer's* holdings in *group undertakings*, whereas the *parent undertaking solvency calculation* focuses "upwards" towards the ultimate parent of the *insurance group* of which it is a member.

#### Application and scope

3. The information and calculations to be provided under Chapter 10 are in respect of the *insurer* and each member of its *insurance group*. The *insurance group* consists of the *insurer's ultimate insurance parent undertaking* and its *related undertakings* ~~which are insurance undertakings or insurance holding companies.~~

---

<sup>1</sup> Annex C of Guidance Note 4.1 has been amended with effect from 1 January 2005 for the purposes of implementing the *Financial Groups Directives* and amendments to the *Insurance Groups Directive* to include *regulated related undertakings* within the scope of rule 4.2(1).

## Annex F

### Amendments to the Interim Prudential sourcebook for investment business

In this Annex underlining indicates new text and striking through indicates deleted text. Where an entire section of text is being deleted or inserted, the place where the change will be made is indicated and the text is not struck through or underlined.

IPRU(INV), Chapter 1.

...

1.2.4	R	<i>A firm</i> of a kind listed in the left-hand column of Table 1.2.4R must comply with the provisions of <i>IPRU(INV)</i> shown in the right hand column <u>and, where relevant, the provisions of Chapter 14.</u>
-------	---	---

...

In Chapter 3, after the heading "CONSOLIDATED SUPERVISION" insert the following text as a footnote:

Under the Financial Conglomerates and Other Financial Groups Instrument 2004, the rules in Chapter 14 shall (with respect to a particular firm, group or financial conglomerate) apply from the first day of its financial year beginning in 2005 in place of rules 3-190(1) to 3-195.

In IPRU(INV), Chapter 5, Table 5.2.2(1), insert the following:

**PART II  
DETAILED REQUIREMENTS**

...

**10 Illiquid assets**  
(Item 16)

Illiquid assets comprise:

...

(i) if not otherwise covered, any holding in eligible capital instruments of an insurance undertaking, insurance holding company, or reinsurance undertaking that is a subsidiary or participation. Eligible capital instruments include ordinary share capital, cumulative preference shares, perpetual securities and long-term subordinated loans, that are eligible for insurance undertakings under PRU 2.

...

In Chapter 5, after the heading "CONSOLIDATED SUPERVISION" insert the following text as a footnote:

Under the Financial Conglomerates and Other Financial Groups Instrument 2004, the rules in Chapter 14 shall (with respect to a particular firm, group or financial conglomerate) apply from the first day of its financial year beginning in 2005 in place of rules 5.7.1(1) to 5.7.5(4).

In Table 7.3.1 R, insert the following:

**PART II  
DETAILED REQUIREMENTS**

...

**10 Illiquid assets (Item 14)**

...

Illiquid assets comprise:

...

(i) if not otherwise covered, any holding in eligible capital instruments of an insurance undertaking, insurance holding company, or reinsurance undertaking that is a subsidiary or participation. Eligible capital instruments include ordinary share capital, cumulative preference shares, perpetual securities and long-term subordinated loans, that are eligible for insurance undertakings under PRU 2.

...

In table 10-61(1)B insert the following items:

R TABLE 10-61(1)B – Own funds

the sum of -

*material holdings in credit and financial institutions*  
*material insurance holdings*

**(E)**

In table 10-62(2)A insert the following items:

R TABLE 10-62(2)A - Financial resources - version I

the sum of -

*material holdings in credit and financial institutions*  
*material insurance holdings*

**(G)**

In table 10-62(2)B insert the following items:

R TABLE 10-62(2)B - Financial resources - version II

the sum of -

*material holdings in credit and financial institutions*  
*material insurance holdings*

**(H)**

In table 10-62(2)C insert the following items:

R TABLE 10-62(2)C - Financial resources - version II.2

the sum of -

**(G)**

*non-trading book material holdings in credit and financial institutions*  
*material insurance holdings*

In Chapter 10, after the heading "CONSOLIDATED SUPERVISION" insert the following text as a footnote:

Under the Financial Conglomerates and Other Financial Groups Instrument 2004, the rules in Chapter 14 shall (with respect to a particular firm, group or financial conglomerate) apply from the first day of its financial year beginning in 2005 in place of rules 10-200(1) to 10-204.

...

Insert in the Chapter 10, Appendix 1, Glossary of Terms for IPRU(INV) 10:

Material insurance holdings This is calculated as the higher of –

- (a) the book value of an investment held in an insurance undertaking, reinsurance undertaking or insurance holding company; and
- (b) the group's proportionate share of that undertaking's local or notional regulatory requirement.

Investment for this purpose includes both a participation and the investment in a subsidiary undertaking.

...

In Table 13.5.4(1) PART I insert the following:

<b>FIRMS IN CATEGORY A1</b>		
<b>ASSETS</b>	<b>CALCULATION</b>	<b>TYPE OF ADJUSTMENT</b>
...	...	...
(13) All other assets	<p>Exclude in full.</p> <p><u>If not otherwise excluded in full in this table, this category should include any holding in eligible capital instruments of an insurance undertaking, insurance holding company, or reinsurance undertaking that is a subsidiary or participation.</u></p> <p><u>Eligible capital instruments include ordinary share capital, cumulative preference shares, perpetual securities and long-term subordinated loans, that are eligible for insurance undertakings under PRU 2.</u></p>	<p>An Illiquid Adjustment</p>
...	...	...

In Table 13.5.4(2) PART I insert the following:

<b>FIRMS IN CATEGORY A2 AND A3</b>
------------------------------------

ASSETS	CALCULATION	TYPE OF ADJUSTMENT
...	...	...
(13) All other assets	<p>Exclude in full.</p> <p><u>If not otherwise excluded in full in this table, this category should include any holding in eligible capital instruments of an insurance undertaking, insurance holding company, or reinsurance undertaking that is a subsidiary or participation.</u></p> <p><u>Eligible capital instruments include ordinary share capital, cumulative preference shares, perpetual securities and long-term subordinated loans, that are eligible for insurance undertakings under PRU 2.</u></p>	An Illiquid Adjustment
...	...	...

In Chapter 13, after the heading "Consolidated Supervision of Group Companies" insert the following text as a footnote:

Under the Financial Conglomerates and Other Financial Groups Instrument 2004, the rules in Chapter 14 shall (with respect to a particular firm, group or financial conglomerate) apply from the first day of its financial year beginning in 2005 in place of rules 13.7.1 to 13.7.2B.

After IPRU, Chapter 13, insert the following new Chapter 14:

## CHAPTER 14: CONSOLIDATED SUPERVISION FOR INVESTMENT BUSINESSES

### 14.1 Application

- 14.1.1 R Subject to rule 14.1.2, *consolidated supervision* and this chapter apply to a *firm* which is a member of a group if it is:
- (1) a *securities and futures firm*, subject to the financial rules in Chapter 3, which is a *broad scope firm* but not a *venture capital firm*;
  - (2) an *investment management firm*, which is a *CAD investment firm* subject to the financial rules in Chapter 5;
  - (3) a *UCITS investment firm*, subject to the financial rules in chapter 7;
  - (4) a *securities and futures firm*, subject to the financial rules in Chapter 10, unless the *firm* is a *category D firm*; or
  - (5) a *category A personal investment firm*, subject to the financial rules in Chapter 13.

Cases where consolidated supervision under this chapter will not apply

- 14.1.2 R A *firm* is not subject to *consolidated supervision* under the rules in this Chapter where any of the following conditions are fulfilled:
- (1) the *firm* is included in the supervision on a consolidated basis of the group of which it is a member by a *competent authority* other than the *FSA*; or
  - (2) the *firm* is already included in the supervision on a consolidated basis of the group of which it is a member by the *FSA* under IPRU(BANK) or IPRU(BSOC).
- 14.1.3 G (1) The rules in this chapter apply even if the *firm* is subject to the rules in PRU 8.4 (the financial conglomerates rules) or PRU 8.3 (the insurance group rules), if the *firm* is part of an investment sub-group. Financial conglomerates are subject to the Financial Groups Directive (2002/87/EC). Insurance groups are subject to the Insurance Groups Directive (98/78/EC). Neither directive allows a waiver of consolidation of a Capital Adequacy Directive group. So if there is an investment sub-group within an insurance group, the rules in this chapter apply, regardless of the application of a group capital assessment to the wider group.

- (2) Where firms authorised in two or more member states have as their parent the same *financial holding company*, supervision on a consolidated basis will be exercised by the competent authority of the firms authorised in the member state in which the *financial holding company* was set up. If no firm has been authorised in the Member State in which the financial holding company was set up, the competent authorities of the Member States concerned will seek to reach agreement as to who amongst them will exercise supervision on a consolidated basis. In the absence of such an agreement, supervision on a consolidated basis will be exercised by the competent authority that granted authorisation to the firms with the greatest balance-sheet total (measured on the basis of total assets). If that figure is the same for more than two authorised firms, supervision on a consolidated basis will be exercised by the competent authority which first gave the authorisation.
- (3) Where there is more than one authorised *firm* in the group, subject to the rules of this chapter, one consolidated supervision return may be submitted on behalf of all the *firms* in the group in accordance with SUP 16.3.25G.

#### Exemption from consolidated supervision

14.1.4 R A *firm* need not meet the requirements in rules 14.3.1 and 14.3.2 if:

- (1) there is no *credit institution* in the group;
- (2) no *firm* in the group *deals in investments as principal*, except where it is an *operator* of a *collective investment scheme* dealing solely as a result of its activity of operating a *collective investment scheme*, or where the *firm's* positions fulfil the *CAD Article 3 exempting criteria*;
- (3) each member of the group which is a *CAD investment firm*:
  - (a) deducts any *material holdings* in *credit* and *financial institutions* from its financial resources;
  - (b) complies with its solo applicable financial resources requirement and the *large exposures requirements*; and
  - (c) has systems and controls to monitor and control the sources of capital and funding of all other *financial institutions* within the group;
- (4) the *firm* notifies the *FSA* of any serious risk that could undermine the financial stability of the group as soon as it becomes aware of that risk;
- (5) the *firm* reports to the *FSA* all group *large exposures* as at the end of each quarter, and within the period specified in SUP 16;
- (6) the *firm* meets the conditions in rule 14.1.5; and

- (7) the *firm* has first notified the *FSA* in writing that it intends to rely on this rule.

14.1.5 R If the *firm* notifies the *FSA* under *rule* 14.1.4 that it will not apply the rules in this section, it must:

- (1) submit to *FSA* a consolidated supervision return within the time period specified by *SUP* 16, together with a consolidated profit and loss account;
- (2) ensure that each *firm* in the group deducts from its solo financial resources any quantifiable *contingent liability* in respect of other group entities;
- (3) ensure that the solo financial resources requirement of each *firm* in the group incorporates the full value of the expenditures of the *firm* wherever they are incurred on behalf of the *firm*; and
- (4) make a note in its audited financial statements that it is not subject to regulatory consolidated capital requirements.

14.1.6 G (1) The Capital Adequacy Directive (articles 7(4) to 7(6)) provides that a *competent authority* such as the *FSA* may waive *consolidated supervision* provided certain conditions are met. The conditions in *rule* 14.1.4 are mainly derived from the Capital Adequacy Directive.

(2) The conditions in *rule* 14.1.5 aim to ensure that the *firm* is protected from weaknesses in other group entities.

(3) In *rule* 14.1.5(2), *contingent liabilities* includes direct and indirect guarantees.

(4) 14.1.5(3) aims to ensure that the expenditure-based requirement incorporates the *firm's* actual ongoing annual expenditures (including any share of depreciation on fixed assets) where these have been met by another group entity.

(5) The *FSA* may require further information from the *firm* if it considers that the *firm's* consolidated financial position raises undue risks to consumers. It may also seek reassurance that the *firm* has sufficiently robust *client money* and asset controls - for example, it may require a *skilled person's* report. The *FSA* may also use its *own initiative power* to impose conditions on the *firm*. This could include raising additional capital or further limitations on the *firm's* intra-group exposures.

- (6) Rule 14.1.4(5) refers to *large exposures*, which should be measured against group consolidated own funds or (if this would result in all *exposures* being classified as *large exposures*) by aggregating all the *exposures* of the individual entities in the group and measuring them against the own funds of the individual *firm* giving rise to the consolidated supervision requirement. If there is more than one *firm* in the group giving rise to the consolidated supervision requirement, the group *large exposures* should be measured against the *firm* with the smallest own funds.

## 14.2 Scope of consolidation

14.2.1 R For the purposes of the rules in this chapter, a *firm's* group means the *firm* and:

- (1) any *EEA parent* in the group which is a *financial holding company*, a *credit institution*, or an *investment firm*;
- (2) any *credit institution*, *investment firm* or *financial institution* which is a *subsidiary* either of the *firm* or of the *firm's EEA parent* as defined in (1); and
- (3) any *credit institution*, *investment firm* or *financial institution* in which the *firm* or one of the entities in (1) or (2) holds a *participation*.

14.2.2 R If a group exists under rule 14.2.1, the *firm* must also include in the scope of consolidation any *ancillary services undertaking* and *asset management company* in the group.

14.2.3 G Rule 14.1.1 states what type of *firm* may be subject to consolidated supervision (trigger firm). Rule 14.2.1 states what type of relationship triggers the existence of a group for consolidated supervision purposes. Rules 14.2.1 and 14.2.2 specify what entities should be included in the scope of consolidated supervision.

14.2.4(1) G A *firm's parent* is a *financial holding company* if it carries out mainly *listed activities* or activities undertaken by a Chapter 3 *broad scope firm* or if its main business is to acquire holdings in companies undertaking these activities. For this purpose the *FSA* interprets the phrases 'mainly' or 'main business' to mean where the balance of business is over 40% of the relevant group or sub-group's balance sheet (measured on the basis of total assets) or profit and loss statement (measured on the basis of gross income). In addition, if the *firm's parent* has significant holdings in *insurance undertakings* or *reinsurance undertakings*, it is a *mixed financial holding company*, and the *firm* is subject to the rules in PRU 8.4 instead of the rules in this chapter. This is because a *parent* cannot be a *financial holding company* and a *mixed financial holding company* at the same time. PRU 8.4 sets out what constitutes significant insurance holdings (broadly more than 10% of the financial sector activities of the group).

14.2.4(2) G A *firm* with an ultimate non-EEA parent may also be subject to the provisions in PRU 8.5.

14.2.4(3) In the case where undertakings are linked to the domain of consolidation by a  
G relationship within the meaning of article 12(1) of Directive (83/349/EEC), the *FSA* will determine how consolidation is to be carried out.

#### Exclusions

14.2.5 R A *firm* may, having first notified the *FSA* in writing, exclude from its group the following:

- (1) any entity the total assets of which are less than the smaller of the following two amounts:
  - (a) 10 million euros; or
  - (b) 1% of the total assets of the group's *parent* or the undertaking that holds the *participation*;

provided that the total assets of such entities do not collectively breach these limits.

- (2) any entity the inclusion of which within the group would be misleading or inappropriate for the purposes of *consolidated supervision*.

14.2.6 G (1) The *FSA* may require a *firm* to provide information about the position in the group of any undertaking excluded from the consolidation under rule 14.2.5.

(2) An exclusion under rule 14.2.5(2) would normally be appropriate when an entity would be excluded from the scope of consolidation under the relevant UK generally accepted accounting principles.

#### 14.3 Consolidated supervision requirement

14.3.1 R A *firm* must at all times ensure that its group maintains *group financial resources* in excess of its *group financial resources requirement*.

14.3.2 R A *firm*, other than one which is defined in rule 14.1.1(1), must at all times comply with *large exposures* limits applied on a group basis.

#### 14.4 Group financial resources

14.4.1 R A *firm* must calculate its *group financial resources* on the basis of the consolidated accounts of the relevant group, subject to the adjustments in rule 14.4.2 and on the basis specified in rule 14.4.3.

- 14.4.2 R (1) If more than one *firm* in the group is subject to the rules of this chapter, *group financial resources* are defined according to the relevant rules applicable to the main *firm* in the group, with Tier 1 minority interests being allowed as Group Tier 1 capital and Tier 2 minority interests being allowed as Group Tier 2 capital.
- (2) In calculating the *group financial resources*, deductions should be made for intangible assets, material unaudited losses incurred since the balance sheet date and investments in own shares.
- (3) *Material holdings* and *material insurance holdings* must be recalculated on a group basis and deducted in arriving at the *group financial resources*.
- 14.4.3 R Financial resources will be defined based upon the main *firm* in the group as follows:
- (1) if a *broad scope securities and futures firm* (excluding a *venture capital firm*), Table 3-61R;
- (2) if an *investment management firm*, Table 5.2.2(1)R but excluding any illiquid assets or qualifying property adjustments required by that Table;
- (3) if a *UCITS investment firm*, Table 7.3.1R but excluding any illiquid assets or qualifying property adjustments required by that Table;
- (4) if an *ISD securities and futures firm*, Table 10-62(2)AR, but excluding any adjustment in (E) of that Table;
- (5) if a *personal investment firm*, Table 13.3.2(1)R.
- 14.4.4 G (1) The *FSA* interprets ‘main’ by reference to the share of the *firm*’s business in the group, its contribution to the group’s balance sheet (measured on the basis of total assets) or profit and loss statement (measured on the basis of gross income).
- (2) The form in *SUP 16 Ann 19 R*, together with the guidance in *SUP 16 Ann 20G*, shows the mechanics of the calculation.
- 14.4.5G A *firm* may apply for a *waiver* of rule 14.4.1 to permit an aggregation approach to determine *group financial resources*. Any *waiver* application should guarantee future compliance with any relevant own funds limit.

## 14.5 Group financial resources requirement

- 14.5.1 R A *firm* must calculate its *group financial resources requirement* as the aggregate of:

- (1) the sum of the financial resources requirements of all group entities within the scope of consolidation calculated in accordance with rule 14.5.2, except that:
  - (a) requirements in respect of intra-group balances with other entities within the scope of consolidation should be excluded;
  - (b) *large exposures requirements* of individual group entities should be excluded;
- (2) the sum of any adjustments that are made to each *firm's* financial resources, calculated on a solo basis in accordance with rule 14.4.3, in order to arrive at the amount of financial resources used to meet its solo financial resources requirement. These adjustments must exclude deductions in respect of the investment in and other relationships with other entities that are included within the scope of consolidation; and:
- (3) if the main *firm* in the group is a *securities and futures firm* under rule 14.1.1(4), a group *large exposures requirement*.

The financial resources requirements of entities in which the group holds a *participation* must be included proportionately.

14.5.2 R Financial resources requirements for individual entities in the group are:

- (1) for *firms* regulated by the *FSA*, their regulatory capital requirement under *FSA* rules;
- (2) for entities regulated by an *EEA regulator* or one of the regulators listed in IPRU(INV) 10-App 59 or IPRU(BANK) CS Appendix D, their local regulatory capital requirement; and
- (3) for other entities in the group, a notional financial resources requirement calculated as if the entity were regulated by the *FSA*.

- 14.5.3 G
- (1) For the purposes of rule 14.5.2(3) the notional financial resources requirements of group entities should normally be calculated as if the entities were subject to the financial rules in IPRU(INV) relevant to the main *firm* in the group. The interpretation of 'main' given in 14.4.4 G applies here.
  - (2) For the purposes of calculating an expenditure-based requirement, no account should be taken of expenses that have been recharged to another entity included in the scope of consolidation. For example, in calculating the notional requirement for a service company, the expenditure-based requirement should be calculated net of recharged expenses. This is to avoid double counting of the expenses.

- (3) In 14.5.1(2), the adjustments referred to, are for *investment management firms*, the illiquid assets and qualifying property adjustments, and for *securities and futures firms*, the adjustments referred to in item (E) of Table 10-62(2)A. For *personal investment firms*, the adjustment required by 14.5.1(1) and (2) combined is the higher of:
- (a) the own funds requirement in 13.3.1R or 13.10.1R and;
  - (b) the sum of the relevant expenditure-based requirement and illiquid assets, position risk, and counterparty risk adjustments required by Chapter 13 of IPRU(INV).

14.5.4G A *firm* may apply for a *waiver* of rule 14.5.1R, to permit a line-by-line approach to determine its *group financial resources requirement*. Any *waiver* application should demonstrate (where relevant) that the constraints for intra-group offsets under the Capital Adequacy Directive (article 7) are met. A *firm* should also demonstrate that calculating its requirement in this way does not result in a distortion of the *group financial resources requirement*.

## APPENDIX 14(1) (INTERPRETATION)

### Glossary of defined terms for Chapter 14

Note: If a defined term does not appear in the glossary below, the definition appearing in the Glossary annexed to the General Provisions Instrument 2001 applies.

<i>ancillary services undertaking</i>	an undertaking the principal activity of which consists of owning or managing property, managing data-processing services, or any other similar activity which is ancillary to the principal activity of one or more of the <i>firms</i> subject to this chapter.
<i>asset management company</i>	in accordance with Article 2(5) of the <i>Financial Groups Directive</i> (Definitions) a management company within the meaning of Article 1a(2) of the <i>UCITS Directive</i> , as well as an <i>undertaking</i> the registered office of which is outside the <i>EEA</i> and which would require authorisation in accordance with Article 5(1) of the <i>UCITS Directive</i> if it had its registered office within the <i>EEA</i> .
<i>broad scope firm</i>	as in the Glossary in IPRU(INV) chapter 3.
<i>CAD Article 3 exempting criteria</i>	the following criteria in respect of the <i>firm's</i> dealing positions: <ul style="list-style-type: none"> <li>- such positions arise only as a result of the <i>firm's</i> failure to match investors orders precisely;</li> <li>- the total market value of all such positions is subject to a ceiling of 15% of the <i>firm's</i> initial capital; and</li> <li>- such positions are incidental and provisional in nature and strictly limited to the time required to carry out the transaction in question.</li> </ul>
<i>CAD investment firm</i>	a <i>firm</i> subject to the requirements of the Capital Adequacy Directive (CAD) (93/6/EEC) excluding a person to whom the CAD does not apply under Article 2.2 of that Directive.

<i>Category A personal investment firm</i>	as in the Glossary in IPRU(INV) chapter 13.
<i>Category D firm</i>	as in the Glossary in IPRU(INV) chapter 10.
<i>contingent liability</i>	<p>the meaning in FRS 12 which states that it is:</p> <p>(a) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the entity's control or</p> <p>(b) a present obligation that arises from past events but is not recognised because:</p> <p>(i) it is not probable that a transfer of economic benefits will be required to settle the obligation; or</p> <p>(ii) the amount of the obligation cannot be measured with sufficient reliability.</p>
<i>consolidated supervision</i>	the application of the financial rules in the Interim Prudential sourcebook for investment businesses in accordance with rules and guidance in 14.1.1 to 14.5.4.
<i>EEA parent</i>	a <i>firm's</i> direct or indirect <i>parent</i> which has its head office in the <i>EEA</i> .
<i>financial holding company</i>	a <i>financial institution</i> the <i>subsidiary undertakings</i> of which are either exclusively or mainly <i>credit institutions, investment firms</i> and <i>financial institutions</i> , one of which at least is a <i>credit institution</i> or an <i>investment firm</i> and which is not a <i>mixed financial holding company</i> within the meaning of PRU 8.4.
<i>financial institution</i>	an undertaking other than a <i>credit institution</i> , the principal activity of which is to acquire holdings or to carry on a <i>listed activity</i> .
<i>group of connected third parties</i>	as in the Glossary in IPRU(INV) chapter 10.
<i>group financial resources</i>	the resources of a <i>firm's</i> group calculated in accordance with rules 14.4 (Group financial resources).
<i>group financial resources requirement</i>	the requirement that a <i>firm's</i> group maintains financial resources calculated in accordance with the rules in 14.5 (Group financial resources requirement).
<i>investment firm</i>	<i>investment firm</i> as in the main <i>Glossary</i> except that it excludes persons to which the <i>ISD</i> does not apply as a result of article 2.2 of the <i>ISD</i> .
<i>large exposure</i>	<p>(a) in relation to <i>non-trading book exposures</i>, an <i>exposure</i> or number of <i>exposures</i> to a third party or <i>group of connected third parties</i> which exceed 10% of group consolidated own funds; and</p> <p>(b) in relation to the aggregate of <i>non-trading book</i> and <i>trading book exposures</i>, an <i>exposure</i> or number of <i>exposures</i> to a third</p>

party or group of connected third parties which exceed 10% of group financial resources;

*large exposures requirement*

as set out in Rule 10-194 of IPRU(INV).

*listed activity*

a listed activity within the meaning of the *BCD*, that is one or more of the following activities:

- (a) lending;
- (b) financial leasing;
- (c) money transmission services;
- (d) issuing and administering means of payment;
- (e) guarantees and commitments;
- (f) trading for own account or for the account of customers in:
  - (i) money market instruments (cheques, bills, certificates of deposit, etc);
  - (ii) foreign exchange;
  - (iii) financial futures and options;
  - (iv) exchange and interest rate instruments;
  - (v) transferable securities;
- (g) participation in share issues and the provision of services related to such issues;
- (h) corporate finance advice;
- (i) money broking;
- (j) portfolio management and advice; or
- (k) safekeeping and administration of securities.

*material holding*

a holding of -  
(a) ordinary share capital and non cumulative preference share capital; or  
(b) subordinated loan and non fixed-term cumulative preference share capital,  
in a *credit institution* or a *financial institution* where -  
(i) (a) or (b) above exceeds 10% of the share capital plus share premium of the issuer; or  
(ii) the aggregate of (a) and (b) above exceeds 10% of the *firm's own funds*, before deducting the holding.

*material insurance holding*

the higher of –  
(1) the book value of an *investment* held in an insurance undertaking, reinsurance undertaking, or insurance holding company (*investment* for this purpose is either a *participation* or the *investment* in a *subsidiary* undertaking); or  
(2) the group's proportionate share of that undertaking's local or notional regulatory capital requirement."

*non-trading book parent*

as in the Glossary in IPRU(INV) chapter 10.  
any parent undertaking as defined in section 258 of the Companies Act 1985 or paragraph 14 of Financial Reporting Standard No 2 and any undertaking which effectively exercises a dominant influence over

	another undertaking.
<i>participation</i>	a participation within the meaning of Article 17 of Directive 78/660/EEC or the ownership either direct or indirect of 20% or more of the voting rights or capital of another undertaking which is not a <i>subsidiary</i> .
<i>securities and futures firm</i>	as in the Glossaries in IPRU(INV) chapter 3 and IPRU(INV) chapter 10.
<i>subsidiary</i>	as in section 736 of the Companies Act 1985.
<i>trading book</i>	as in the Glossary in IPRU(INV) chapter 10.
<i>UCITS investment firm</i>	a <i>firm</i> which: (1) is the <i>operator</i> of a <i>UCITS scheme</i> including where in addition the <i>firm</i> is the <i>operator</i> of a <i>collective investment scheme</i> which is not a <i>UCITS scheme</i> ; and (2) has <i>permission</i> to <i>manage investments</i> where the <i>investments managed</i> include one or more of the instruments listed in Section B of the Annex to the <i>ISD</i> .
<i>venture capital firm</i>	as in the Glossary in IPRU(INV) chapter 3.

## Annex G

### Amendments to the Integrated Prudential sourcebook (PRU)

In this Annex, all the text is new and is not underlined.

Insert the following:

Transitional provisions

	<i>Glossary.</i>		<p>(i) an <i>EEA financial conglomerate</i>; or</p> <p>(ii) an <i>EEA banking and investment group</i>;</p> <p>would come within the definition of <i>third-country financial conglomerate</i> or, as the case may be, <i>third-country banking and investment group</i> if the reference in those definitions to the <i>EEA</i> were replaced with a reference to the European Union, it must be treated as a <i>third-country financial conglomerate</i> or a <i>third-country banking and investment group</i> respectively; and</p> <p>(c) the definition of <i>competent authority</i> is, for the purposes of the provisions in column (2), amended by replacing references to <i>EEA States</i> with ones to member states of the European Union.</p> <p>(2) Paragraph 6.6 of <i>PRU 8 Ann 1</i> is amended so as to include the <i>sectoral rules</i> of an <i>EEA State</i> that is not a member of the European Union.</p>	the <i>EEA</i> .	

Insert new Section 1.8 as follows:

1.8                    Actions for damages

- 1.8.1            R    A contravention of the *rules* in *PRU* does not give rise to a right of action by a *private person* under section 150 of the *Act* (and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action).

Sections 2 to 7 – to follow.

Insert new Section 8.1 as follows:

8.1                    Group risk systems and controls requirement

Application

- 8.1.1            R    Subject to *PRU* 8.1.3R to *PRU* 8.1.5R, *PRU* 8.1 applies to each of the following which is a member of a *group*:
- (1)    a *firm* that falls into any of the following categories:
    - (a)    a *regulated entity*;
    - (b)    a *bank*, *ELMI* or *building society*;
    - (c)    an *insurer*;
    - (d)    an *own account dealer*;
    - (e)    a *matched principal broker*;
    - (f)    a *UCITS investment firm*; and
    - (g)    a *broker/manager* or an *arranger* that satisfies the following conditions:
      - (i)    it is an *ISD investment firm*; and
      - (ii)   it is not an *exempt CAD firm*;
  - (2)    a *UCITS firm*, but only if its *group* contains a *firm* falling into (1); and
  - (3)    the *Society*.
- 8.1.2            R    Except as set out in *PRU* 8.1.5R, *PRU* 8.1 applies with respect to different types of *group* as follows:

- (1) *PRU 8.1.9R and PRU 8.1.11R apply with respect to all groups, including FSA regulated EEA financial conglomerates, other financial conglomerates and groups dealt with in PRU 8.1.14R and PRU 8.1.15R;*
  - (2) *the additional requirements set out in PRU 8.1.12R and PRU 8.1.13R only apply with respect to FSA regulated EEA financial conglomerates; and*
  - (3) *the additional requirements set out in PRU 8.1.14R and PRU 8.1.15R only apply with respect to groups of the kind dealt with by whichever of those rules apply.*
- 8.1.3 R *PRU 8.1 does not apply to:*
- (1) *an incoming EEA firm; or*
  - (2) *an incoming Treaty firm; or*
  - (3) *a UCITS qualifier; or*
  - (4) *an ICVC.*
- 8.1.4 R *A venture capital firm that would otherwise be included in PRU 8.1.1R(1)(d) to PRU 8.1.1R(1)(g) is excluded from those rules if it is not an ISD investment firm.*
- 8.1.5 R (1) *This rule applies to:*
- (a) *PRU 8.1.9R(2);*
  - (b) *PRU 8.1.11R(1), so far as it relates to PRU 8.1.9R(2);*
  - (c) *PRU 8.1.11R(2); and*
  - (d) *PRU 8.1.12R to PRU 8.1.14R.*
- (2) *The rules referred to in (1):*
- (a) *only apply with respect to a financial conglomerate if it is an FSA regulated EEA financial conglomerate;*
  - (b) *(so far as they apply with respect to a group that is not a financial conglomerate) do not apply with respect to a group for which a competent authority in another EEA state is lead regulator;*
  - (c) *(so far as they apply with respect to a financial conglomerate) do not apply to a firm with respect to a financial conglomerate of which it is a member if the interest of the financial conglomerate in that firm is no more than a participation;*

(d) (so far as they apply with respect to other *groups*) do not apply to a *firm* with respect to a *group* of which it is a member if the only relationship of the kind set out in paragraph (3) of the definition of *group* between it and the other members of the *group* is nothing more than a *participation*; and

(e) do not apply with respect to a *third-country group*.

8.1.6 G For the purposes of *PRU* 8.1, a *group* is defined in the *Glossary*, and includes the whole of a firm's group, including financial and non-financial undertakings. It also covers undertakings with other links to *group* members if their omission from the scope of *group* risk systems and controls would be misleading. The scope of the *group* systems and controls requirements may therefore differ from the scope of the quantitative requirements for *groups*.

#### Purpose

8.1.7 G The purpose of this chapter is to set out how systems and controls requirements apply where a *firm* is part of a *group*. *SYSC* 3.1 (Systems and controls) requires a *firm* to take reasonable care to establish and maintain such systems and controls as are appropriate to the nature, scale and complexity of its business. If a *firm* is a member of a *group*, it should be able to assess the potential impact of risks arising from other parts of its *group* as well as from its own activities.

8.1.8 G *PRU* 8.1 implements Articles 52(6) (Supervision on a consolidated basis of credit institutions) and 55a (Intra-group transactions with mixed activity holding companies) of the *Banking Consolidation Directive*, Article 9 of the *Financial Groups Directive* (Internal control mechanisms and risk management processes) and Article 8 of the *Insurance Groups Directive* (Intra-group transactions).

#### General rules

8.1.9 R A *firm* must:

- (1) have adequate, sound and appropriate risk management processes and internal control mechanisms for the purpose of assessing and managing its own exposure to *group* risk, including sound administrative and accounting procedures; and
- (2) ensure that its *group* has adequate, sound and appropriate risk management processes and internal control mechanisms at the level of the *group*, including sound administrative and accounting procedures.

8.1.10 G For the purposes of *PRU* 8.1.9R, the question of whether the risk management processes and internal control mechanisms are adequate, sound and appropriate should be judged in the light of the nature, scale and complexity of the *group*'s business.

8.1.11 R The internal control mechanisms referred to in *PRU* 8.1.9R must include:

- (1) mechanisms that are adequate for the purpose of producing any data and information which would be relevant for the purpose of monitoring compliance with any prudential requirements (including any reporting requirements and any requirements relating to capital adequacy, solvency and large exposures):
  - (a) to which the *firm* is subject with respect to its membership of a *group*; or
  - (b) that apply to or with respect to that *group* or part of it; and
- (2) mechanisms that are adequate to monitor funding within the *group*.

Financial conglomerates

- 8.1.12 R Where *PRU* 8.1 applies with respect to a *financial conglomerate*, the risk management processes referred to in *PRU* 8.1.9R(2) must include:
- (1) sound governance and management processes, which must include the approval and periodic review by the appropriate managing bodies within the *financial conglomerate* of the strategies and policies of the *financial conglomerate* in respect of all the risks assumed by the *financial conglomerate*, such review and approval being carried out at the level of the *financial conglomerate*;
  - (2) adequate capital adequacy policies at the level of the *financial conglomerate*, one of the purposes of which must be to anticipate the impact of the business strategy of the *financial conglomerate* on its risk profile and on the capital adequacy requirements to which it and its members are subject;
  - (3) adequate procedures for the purpose of ensuring that the risk monitoring systems of the *financial conglomerate* and its members are well integrated into their organisation; and
  - (4) adequate procedures for the purpose of ensuring that the systems and controls of the members of the *financial conglomerate* are consistent and that the risks can be measured, monitored and controlled at the level of the *financial conglomerate*.
- 8.1.13 R Where *PRU* 8.1 applies with respect to a *financial conglomerate*, the internal control mechanisms referred to in *PRU* 8.1.9R(2) must include:
- (1) mechanisms that are adequate to identify and measure all material risks incurred by members of the *financial conglomerate* and appropriately relate capital in the *financial conglomerate* to risks; and
  - (2) sound reporting and accounting procedures for the purpose of identifying, measuring, monitoring and controlling *intra-group transactions* and *risk concentrations*.

Credit institutions and investment firms

8.1.14 R In the case of a *firm* that:

(1) is a *credit institution* or *investment firm*; and

(2) has a *mixed-activity holding company* as a *parent undertaking*;

the risk management processes and internal control mechanisms referred to in *PRU* 8.1.9R must include sound reporting and accounting procedures and other mechanisms that are adequate to identify, measure, monitor and control transactions between the *firm's parent undertaking mixed-activity holding company* and any of the *mixed-activity holding company's subsidiary undertakings*.

Insurance undertakings

8.1.15 R In the case of an *insurer* that has a *mixed-activity insurance holding company* as a *parent undertaking*, the risk management processes and internal control mechanisms referred to in *PRU* 8.1.9R must include sound reporting and accounting procedures and other mechanisms that are adequate to identify, measure, monitor and control transactions between the *firm's parent undertaking mixed-activity insurance holding company* and any of the *mixed-activity insurance holding company's subsidiary undertakings*.

8.1.16 G *PRU* 8.1.14R cannot apply to a *building society* as it cannot have a *mixed-activity holding company* as a *parent undertaking*. *PRU* 8.1.15R cannot apply to a *friendly society* as it cannot have a *mixed-activity insurance holding company* as a *parent undertaking*.

Nature and extent of requirements and allocation of responsibilities within the group

8.1.17 G Assessment of the adequacy of a *group's* systems and controls required by *PRU* 8.1 will form part of the *FSA's* risk management process.

8.1.18 G The nature and extent of the systems and controls necessary under *PRU* 8.1.9R(1) to address *group* risk will vary according to the materiality of those risks to the *firm* and the position of the *firm* within the *group*.

8.1.19 G In some cases the management of the systems and controls used to address the risks described in *PRU* 8.1.9R(1) may be organised on a *group-wide* basis. If the *firm* is not carrying out those functions itself, it should delegate them to the *group* members that are carrying them out. However, this does not relieve the *firm* of responsibility for complying with its obligations under *PRU* 8.1.9R(1). A *firm* cannot absolve itself of such a responsibility by claiming that any breach of that *rule* is caused by the actions of another member of the *group* to whom the *firm* has delegated tasks. The risk management arrangements are still those of the *firm*, even though personnel elsewhere in the *firm's group* are carrying out these functions on its behalf.

- 8.1.20 G *PRU 8.1.9R(1)* deals with the systems and controls that a *firm* should have in respect of the exposure it has to the rest of the *group*. On the other hand, the purpose of *PRU 8.1.9R(2)* and the *rules* in *PRU 8.1* that amplify it is to require *groups* to have adequate systems and controls. However a *group* is not a single legal entity on which obligations can be imposed. Therefore the obligations have to be placed on individual *firms*. The purpose of imposing the obligations on each *firm* in the *group* is to make sure that the *FSA* can take supervisory action against any *firm* in a *group* whose systems and controls do not meet the standards in *PRU 8.1*. Thus responsibility for compliance with the *rules* for *group* systems and controls is a joint one.
- 8.1.21 G If both a *firm* and its *parent undertaking* are subject to *PRU 8.1.9R(2)*, the *FSA* would not expect systems and controls to be duplicated. In this case, the *firm* should assess whether and to what extent it can rely on its parent's *group* risk systems and controls.

Sections 8.2 and 8.3 - to follow.

Insert new Sections 8.4 and 8.5 as follows:

8.4 Cross sector groups

Application

- 8.4.1 R (1) *PRU 8.4* applies to every *firm* that is a member of a *financial conglomerate* other than:
- (a) an *incoming EEA firm*;
  - (b) an *incoming Treaty firm*;
  - (c) a *UCITS qualifier*; and
  - (d) an *ICVC*.
- (2) *PRU 8.4* does not apply to a *firm* with respect to a *financial conglomerate* of which it is a member if the interest of the *financial conglomerate* in that *firm* is no more than a *participation*.
- (3) *PRU 8.4.25* (Capital adequacy requirements: high level requirement), *PRU 8.4.26R* (Capital adequacy requirements: application of Method 4 from Annex I of the Financial Groups Directive), *PRU 8.4.29R* (Capital adequacy requirements: application of Methods 1, 2 or 3 from Annex I of the Financial Groups Directive) and *PRU 8.4.35* (Risk concentration and intra group transactions: the main rule) do not apply with respect to a *third-country financial conglomerate*.

## Purpose

- 8.4.2 G PRU 8.4 implements the *Financial Groups Directive*. However, material on the following topics is to be found elsewhere in the *Handbook* as follows:
- (1) further material on *third-country financial conglomerates* can be found in PRU 8.5;
  - (2) SUP 15.9 contains notification *rules* for members of *financial conglomerates*;
  - (3) material on reporting obligations can be found in SUP 16.7.73R and SUP 16.7.74R; and
  - (4) material on systems and controls in *financial conglomerates* can be found in PRU 8.1.

## Introduction: identifying a financial conglomerate

- 8.4.3 G
- (1) In general the process in (2) to (8) applies for identifying *financial conglomerates*.
  - (2) *Competent authorities* that have authorised *regulated entities* should try to identify any *consolidation group* that is a *financial conglomerate*. If a *competent authority* is of the opinion that a *regulated entity* authorised by that *competent authority* is a member of a *consolidation group* which may be a *financial conglomerate* it should communicate its view to the other *competent authorities* concerned.
  - (3) A *competent authority* may start (as described in (2)) the process of deciding whether a group is a *financial conglomerate* even if it would not be the *coordinator*.
  - (4) A member of a group may also start that process by notifying one of the *competent authorities* that have authorised group members that its group may be a *financial conglomerate*, for example by notification under SUP 15.9.
  - (5) If a group member gives a notification in accordance with (4), that does not automatically mean that the group should be treated as a *financial conglomerate*. The process described in (6) to (9) still applies.
  - (6) The *competent authority* that would be *coordinator* will take the lead in establishing whether a group is a *financial conglomerate* once the process has been started as described in (2) and (3).
  - (7) The process of establishing whether a group is a *financial conglomerate* will normally involve discussions between the *financial conglomerate* and the *competent authorities* concerned.

- (8) A *financial conglomerate* should be notified by its *coordinator* that it has been identified as a *financial conglomerate* and of the appointment of the *coordinator*. The notification should be given to the *parent undertaking* at the head of the group or, in the absence of a *parent undertaking*, the *regulated entity* with the largest balance sheet total in the *most important financial sector*. That notification does not of itself make a group into a *financial conglomerate*; whether or not a group is a *financial conglomerate* is governed by the definition of *financial conglomerate* as set out in PRU 8.4.
- (9) PRU 8 Ann 4G is a questionnaire (together with its explanatory notes) that the FSA asks groups that may be *financial conglomerates* to fill out in order to decide whether or not they are.

Introduction: The role of other competent authorities

- 8.4.4 G A lead supervisor (called the *coordinator*) is appointed for each *financial conglomerate*. Article 10 of the *Financial Groups Directive* describes the criteria for deciding which *competent authority* is appointed as *coordinator*. Article 11 of the *Financial Groups Directive* sets out the tasks of the *coordinator*.

Definition of financial conglomerate: basic definition

- 8.4.5 R A *financial conglomerate* means a *consolidation group* that is identified as a *financial conglomerate* in accordance with the decision tree in PRU 8 Ann 3R.

Definition of financial conglomerate: sub-groups

- 8.4.6 R A *consolidation group* is not prevented from being a *financial conglomerate* because it is part of a wider:

- (1) *consolidation group*; or
- (2) *financial conglomerate*; or
- (3) group of persons linked in some other way.

Definition of financial conglomerate: the financial sectors: general

- 8.4.7 R For the purpose of the definition of *financial conglomerate*, there are two *financial sectors* as follows:

- (1) the *banking sector* and the *investment services sector*, taken together; and
- (2) the *insurance sector*.

- 8.4.8 R (1) This *rule* applies for the purpose of the definition of *financial conglomerate* and the *financial conglomerate definition decision tree*.
- (2) Any *mixed financial holding company* is considered to be outside the *overall financial sector* for the purpose of the tests set out in the boxes titled Threshold Test 1, Threshold Test 2 and Threshold Test 3 in the *financial*

*conglomerate definition decision tree.*

- (3) Determining whether the tests set out in the boxes titled Threshold Test 2 and Threshold Test 3 in the *financial conglomerate definition decision tree* are passed is based on considering the consolidated and/or aggregated activities of the members of the *consolidation group* within the *insurance sector* and the consolidated and/or aggregated activities of the members of the *consolidation group* within the *banking sector* and the *investment services sector*.

Definition of financial conglomerate: adjustment of the percentages

- 8.4.9 R Once a *financial conglomerate* has become a *financial conglomerate* and subject to supervision in accordance with the *Financial Groups Directive*, the figures in the *financial conglomerate definition decision tree* are altered as follows:
- (1) the figure of 40% in the box titled Threshold Test 1 is replaced by 35%;
  - (2) the figure of 10% in the box titled Threshold Test 2 is replaced by 8%; and
  - (3) the figure of six billion Euro in the box titled Threshold Test 3 is replaced by five billion Euro.

- 8.4.10 R The alteration in *PRU 8.4.9R* only applies to a *financial conglomerate* during the period that:
- (1) begins when the *financial conglomerate* would otherwise have stopped being a *financial conglomerate* because it does not meet one of the unaltered thresholds referred to in *PRU 8.4.9R*; and
  - (2) covers the three years following that date.

Definition of financial conglomerate: balance sheet totals

- 8.4.11 R The calculations referred to in the *financial conglomerate definition decision tree* regarding the balance sheet must be made on the basis of the aggregated balance sheet total of the members of the *consolidation group*, according to their annual accounts. For the purposes of this calculation, *undertakings* in which a *participation* is held must be taken into account as regards the amount of their balance sheet total corresponding to the aggregated proportional share held by the *consolidation group*. However, where consolidated accounts are available, they must be used instead of aggregated accounts.

Definition of financial conglomerate: solvency requirement

- 8.4.12 R The solvency and capital adequacy requirements referred to in the *financial conglomerate definition decision tree* must be calculated in accordance with the provisions of the relevant *sectoral rules*.

Definition of financial conglomerate: discretionary changes to the definition

- 8.4.13 G Articles 3(3) to 3(6), Article 5(4) and Article 6(5) of the *Financial Groups Directive* allow *competent authorities*, on a case by case basis, to:
- (1) change the definition of *financial conglomerate* and the obligations applying with respect to a *financial conglomerate*;
  - (2) apply the scheme in the *Financial Groups Directive* to *EEA regulated entities* in specified kinds of group structures that do not come within the definition of *financial conglomerate*; and
  - (3) exclude a particular entity in the scope of capital adequacy requirements that apply with respect to a *financial conglomerate*.

Capital adequacy requirements: introduction

- 8.4.14 G The capital adequacy provisions of PRU 8.4 are designed to be applied to *EEA-based financial conglomerates*.
- 8.4.15 G *PRU 8.4.25R* is a high level capital adequacy *rule*. It applies whether or not the *FSA* is the *coordinator* of the *financial conglomerate* concerned.
- 8.4.16 G *PRU 8.4.26R* to *PRU 8.4.31R* and *PRU 8 Ann 1R* implement the detailed capital adequacy requirements of the *Financial Groups Directive*. They only deal with a *financial conglomerate* for which the *FSA* is the *coordinator*. If another *competent authority* is *coordinator* of a *financial conglomerate*, those *rules* do not apply with respect to that *financial conglomerate* and instead that *coordinator* will be responsible for implementing those detailed requirements.
- 8.4.17 G Annex I of the *Financial Groups Directive* lays down four methods for calculating capital adequacy at the level of a *financial conglomerate*. Those four methods are implemented as follows:
- (1) Method 1 calculates capital adequacy using accounting consolidation. It is implemented by *PRU 8.4.29R* to *PRU 8.4.31R* and Part 1 of *PRU 8 Ann 1R*.
  - (2) Method 2 calculates capital adequacy using a deduction and aggregation approach. It is implemented by *PRU 8.4.29R* to *PRU 8.4.31R* and Part 2 of *PRU 8 Ann 1R*.
  - (3) Method 3 calculates capital adequacy using book values and the deduction of capital requirements. It is implemented by *PRU 8.4.29R* to *PRU 8.4.31R* and Part 3 of *PRU 8 Ann 1R*.
  - (4) Method 4 consists of a combination of Methods 1, 2 and 3 from Annex I of the *Financial Groups Directive*, or a combination of two of those Methods. It is implemented by *PRU 8.4.26R* to *PRU 8.4.28R*, *PRU 8.4.30R* and Part 4 of *PRU 8 Ann 1R*.

- 8.4.18 G Part 4 of *PRU 8 Ann 1R* (Use of Method 4 from Annex I of the *Financial Conglomerates Directive*) applies the *FSA's sectoral rules* with respect to the *financial conglomerate* as a whole, with some adjustments. Where Part 4 of *PRU 8 Ann 1R* applies the *FSA's sectoral rules* for:
- (1) the *insurance sector*, that involves a combination of Methods 2 and 3; and
  - (2) the *banking sector* and the *investment services sector*, that involves a combination of Methods 1 and 3.
- 8.4.19 G Paragraph 5.5 of *PRU 8 Ann 1R* (Capital adequacy calculations for financial conglomerates) deals with a case in which there are no capital ties between entities in a *financial conglomerate*. In particular, the *FSA*, after consultation with the other *relevant competent authorities* and in accordance with Annex I of the *Financial Groups Directive*, will determine which proportional share of a solvency deficit in such an entity will have to be taken into account, bearing in mind the liability to which the existing relationship gives rise.
- 8.4.20 G (1) In the following cases, the *FSA* (acting as *coordinator*) may choose which of the four methods for calculating capital adequacy laid down in Annex I of the *Financial Groups Directive* should apply:
- (a) where a *financial conglomerate* is headed by a *regulated entity* that has been authorised by the *FSA*; or
  - (b) the only *relevant competent authority* for the *financial conglomerate* is the *FSA*.
- (2) *PRU 8.4.28R* automatically applies Method 4 from Annex I of the *Financial Groups Directive* in these circumstances except in the cases set out in *PRU 8.4.28R(1)(e)* and *PRU 8.4.28R(1)(f)*. The process in *PRU 8.4.22G* does not apply.
- 8.4.21 G Where *PRU 8.4.20G* does not apply, the Annex I method to be applied is decided by the *coordinator* after consultation with the *relevant competent authorities* and the *financial conglomerate* itself.
- 8.4.22 G The method of calculating capital adequacy chosen in respect of a *financial conglomerate* as described in *PRU 8.4.21G* will be applied with respect to that *financial conglomerate* by varying the *Part IV permission* of a *firm* in that *financial conglomerate* to include a *requirement*. That *requirement* will have the effect of obliging the *firm* to ensure that the *financial conglomerate* has capital resources of the type and amount needed to comply with whichever of the methods in *PRU 8 Ann 1R* is to be applied with respect to that *financial conglomerate*. The powers in the *Act* relating to *waivers* and varying a *firm's Part IV permission* can be used to implement one of the methods from Annex I of the *Financial Groups Directive* in a way that is different from that set out in *PRU 8.4* and *PRU 8 Ann 1R* if that is necessary to reflect the consultations referred to in *PRU 8.4.21G*.

8.4.23 G If there is more than one *firm* in a *financial conglomerate* with a *Part IV permission*, the *FSA* would not normally expect to apply the *requirement* described in *PRU 8.4.22G* to all of them. Normally it will only be necessary to apply it to one.

8.4.24 G The *FSA* expects that in all or most cases falling into *PRU 8.4.21G*, the *rules* in Part 4 of *PRU 8 Ann 1R* will be applied.

Capital adequacy requirements: high level requirement

8.4.25 R (1) A *firm* that is a member of a *financial conglomerate* must at all times have capital resources of such an amount and type that results in the capital resources of the *financial conglomerate* taken as a whole being adequate.

(2) This *rule* does not apply with respect to any *financial conglomerate* until notification has been made that it has been identified as a *financial conglomerate* as contemplated by Article 4(2) of the *Financial Groups Directive*.

Capital adequacy requirements: application of Method 4 from Annex I of the *Financial Groups Directive*

8.4.26 R If this *rule* applies under *PRU 8.4.27R* to a *firm* with respect to a *financial conglomerate* of which it is a member, the *firm* must at all times have capital resources of an amount and type:

(1) that ensure that the *financial conglomerate* has capital resources of an amount and type that comply with the *rules* applicable with respect to that *financial conglomerate* under Part 4 of *PRU 8 Ann 1R* (as modified by that annex); and

(2) that as a result ensure that the *firm* complies with those *rules* (as so modified) with respect to that *financial conglomerate*.

8.4.27 R *PRU 8.4.26R* applies to a *firm* with respect to a *financial conglomerate* of which it is a member if one of the following conditions is satisfied:

(1) the condition in *PRU 8.4.28R* is satisfied; or

(2) this *rule* is applied to the *firm* with respect to that *financial conglomerate* as described in *PRU 8.4.30R*.

Capital adequacy requirements: compulsory application of Method 4 from Annex I of the *Financial Groups Directive*

8.4.28 R (1) The condition in this *rule* is satisfied for the purpose of *PRU 8.4.27R*(1) with respect to a *firm* and a *financial conglomerate* of which it is a member (with the result that *PRU 8.4.26R* automatically applies to that *firm*) if:

- (a) notification has been made in accordance with regulation 2 of the *Financial Groups Directive Regulations* that the *financial conglomerate* is a *financial conglomerate* and that the *FSA* is *coordinator* of that *financial conglomerate*;
  - (b) the *financial conglomerate* is not part of a wider *FSA regulated EEA financial conglomerate*;
  - (c) the *financial conglomerate* is not an *FSA regulated EEA financial conglomerate* under another *rule* or under paragraph (b) of the definition of *FSA regulated EEA financial conglomerate* (application of supplementary supervision through a *firm's Part IV permission*);
  - (d) one of the following conditions is satisfied:
    - (i) the *financial conglomerate* is headed by a *regulated entity* that is a *UK domestic firm*; or
    - (ii) the only *relevant competent authority* for that *financial conglomerate* is the *FSA*;
  - (e) this *rule* is not disapplied under paragraph 5.5 of *PRU 8 Ann 1R* (No capital ties); and
  - (f) the *financial conglomerate* meets the condition set out in the box titled Threshold Test 2 (10% average of balance sheet and solvency requirements) in the *financial conglomerate definition decision tree*.
- (2) Once *PRU 8.4.26R* applies to a *firm* with respect to a *financial conglomerate* of which it is a member under *PRU 8.4.27R(1)*, (1)(f) ceases to apply with respect to that *financial conglomerate*. Therefore the fact that the *financial conglomerate* subsequently ceases to meet the condition in (1)(f) does not mean that the condition in this *rule* is not satisfied.

Capital adequacy requirements: application of Methods 1, 2 or 3 from Annex I of the Financial Groups Directive

- 8.4.29 R If with respect to a *firm* and a *financial conglomerate* of which it is a member, this *rule* is applied to the *firm* with respect to that *financial conglomerate* as described in *PRU 8.4.30R*, the *firm* must at all times have capital resources of an amount and type that ensures that the *conglomerate capital resources* of that *financial conglomerate* at all times equal or exceed its *conglomerate capital resources requirement*.

Capital adequacy requirements: use of Part IV permission to apply Annex I of the Financial Groups Directive

- 8.4.30 R With respect to a *firm* and a *financial conglomerate* of which it is a member:

- (1) *PRU 8.4.26R* (Method 4 from Annex I of the *Financial Groups Directive*) is applied to the *firm* with respect to that *financial conglomerate* for the purposes of *PRU 8.4.27R(2)*; or
- (2) *PRU 8.4.29R* (Methods 1 to 3 from Annex I of the *Financial Groups Directive*) is applied to the *firm* with respect to that *financial conglomerate*;

if the *firm's Part IV permission* contains a *requirement* obliging the *firm* to comply with *PRU 8.4.26R* or, as the case may be, *PRU 8.4.29R*.

- 8.4.31 R If *PRU 8.4.29R* (Methods 1-3 from Annex I of the *Financial Groups Directive*) applies to a *firm* with respect to a *financial conglomerate* of which it is a member, the definitions of *conglomerate capital resources* and *conglomerate capital resources requirement* that apply for the purposes of that *rule* are the ones from whichever of Part 1, Part 2 or Part 3 of *PRU 8 Ann 1R* is specified in the *requirement* referred to in *PRU 8.4.30R*.

Risk concentration and intra-group transactions: introduction

- 8.4.32 G *PRU 8.4.35R* implements Article 7(4) and Article 8(4) of the *Financial Groups Directive*, which provide that where a *financial conglomerate* is headed by a *mixed financial holding company*, the *sectoral rules* regarding *risk concentration* and *intra-group transactions* of the *most important financial sector* in the *financial conglomerate*, if any, shall apply to that sector as a whole, including the *mixed financial holding company*.

- 8.4.33 G Articles 7(3) (Risk concentration) and 8(3) (Intra-group transactions) and Annex II (Technical application of the provisions on intra-group transactions and risk concentration) of the *Financial Groups Directive* say that Member States may apply at the level of the *financial conglomerate* the provisions of the *sectoral rules* on *risk concentrations* and *intra-group transactions*. *PRU 8.4* does not take up that option, although the *FSA* may impose such obligations on a case by case basis.

Risk concentration and intra-group transactions: application

- 8.4.34 R *PRU 8.4.35R* applies to a *firm* with respect to a *financial conglomerate* of which it is a member if:
- (1) the condition in Articles 7(4) and 8(4) of the *Financial Groups Directive* is satisfied (the *financial conglomerate* is headed by a *mixed financial holding company*); and
  - (2) that *financial conglomerate* is an *FSA regulated EEA financial conglomerate*.

Risk concentration and intra group transactions: the main rule

- 8.4.35 R A firm must ensure that the *sectoral rules* regarding *risk concentration* and *intra-group transactions* of the *most important financial sector* in the *financial conglomerate* referred to in PRU 8.4.34R are complied with with respect to that *financial sector* as a whole, including the *mixed financial holding company*. The *FSA's sectoral rules* for these purposes are those identified in the table in PRU 8.4.36R.

Risk concentration and intra-group transactions: Table of applicable sectoral rules

- 8.4.36 R Table: application of sectoral rules  
This table belongs to PRU 8.4.35R

The most important financial sector	Applicable sectoral rules	
	Risk concentration	Intra-group transactions
<i>Banking sector</i>	<i>Rules 3.3.13, 3.3.19 and 3.3.21 of chapter GN of IPRU(BANK) (as they apply to large exposures on a consolidated basis)</i>	<i>Rules 3.3.13, 3.3.19 and 3.3.21 of chapter GN of IPRU(BANK) (as they apply to large exposures on a solo basis)</i>
<i>Insurance sector</i>	None	<i>Rule 9.39 of IPRU(INS)</i>
<i>Investment services sector</i>	<i>Rule 14.3.2 in Chapter 14 of IPRU(INV)</i>	<i>Rule 10-190 in Chapter 10 of IPRU(INV) as it applies on a solo basis</i>
Note:	The <i>rules</i> as applied in column three apply without any concession or exemption for exposures to other group members.	
Note	The decision tree in paragraph 4.5 of PRU 8 Ann 1R applies for the purpose of identifying the <i>most important financial sector</i> .	

- 8.4.37 G The material in *IPRU(BANK)* that has particular application to the *rules* in *IPRU(BANK)* referred to in the table in PRU 8.4.36R is:
- (1) (in the case of column 2) Chapter LE as it applies on a consolidated basis;
  - (2) (in the case of column 3) Chapter LE as it applies on a solo basis.
- 8.4.38 G The table in PRU 8.4.36R does not refer to the *rules* for *building societies* as a *building society* cannot have a *mixed financial holding company* as a parent.

The financial sectors: asset management companies

- 8.4.39 R (1) In accordance with Article 30 of the *Financial Groups Directive* (Asset management companies), this *rule* deals with the inclusion of an *asset management company* that is a member of a *financial conglomerate* in the scope of regulation of *financial conglomerates*. This *rule* does not apply to the definition of *financial conglomerate*.
- (2) An *asset management company* is in the *overall financial sector* and is a *regulated entity* for the purpose of:
- (a) *PRU 8.4.26R* to *PRU 8.4.36R*;
  - (b) *PRU 8 Ann 1R* (Capital adequacy calculations for financial conglomerates) and *PRU 8 Ann 2R* (Prudential rules for third country groups); and
  - (c) any other provision of the *Handbook* relating to the supervision of *financial conglomerates*.
- (3) In the case of a *financial conglomerate* for which the *FSA* is the *coordinator*, all *asset management companies* must be allocated to one *financial sector* for the purposes in (2), being either the *investment services sector* or the *insurance sector*. But if that choice has not been made in accordance with (4) and notified to the *FSA* in accordance with (4)(d), an *asset management company* must be allocated to the *investment services sector*.
- (4) The choice in (3):
- (a) must be made by the *undertaking* in the *financial conglomerate* holding the position referred to in Article 4(2) of the *Financial Groups Directive* (group member to whom notice must be given that the group has been found to be a *financial conglomerate*);
  - (b) applies to all *asset management companies* that are members of the *financial conglomerate* from time to time;
  - (c) cannot be changed; and
  - (d) must be notified to the *FSA* as soon as reasonably practicable after the notification in (4)(a).

8.5 Third-country groups  
Application

8.5.1 R *PRU 8.5 applies to every firm that is a member of a third-country group. But it does not apply to:*

- (1) *an incoming EEA firm; or*
- (2) *an incoming Treaty firm; or*
- (3) *a UCITS qualifier; or*
- (4) *an ICVC.*

#### Purpose

8.5.2 G *PRU 8.5 implements in part Article 18 of the Financial Groups Directive and Article 56a of the Banking Consolidation Directive.*

#### Equivalence

8.5.3 G *The first question that must be asked about a third-country financial group is whether the EEA regulated entities in that third-country group are subject to supervision by a third-country competent authority, which is equivalent to that provided for by the Financial Groups Directive (in the case of a financial conglomerate) or the EEA prudential sectoral legislation for the banking sector or the investment services sector (in the case of a banking and investment group). Article 18(1) of the Financial Groups Directive sets out the process for establishing equivalence with respect to third-country financial conglomerates and the first three paragraphs of Article 56a of the Banking Consolidation Directive does so with respect to third-country banking and investment groups.*

#### Other methods: General

8.5.4 G *If the supervision of a third-country group by a third-country competent authority does not meet the equivalence test referred to in PRU 8.5.3G, competent authorities may apply other methods that ensure appropriate supervision of the EEA regulated entities in that third-country group in accordance with the aims of supplementary supervision under the Financial Groups Directive or consolidated supervision under the applicable EEA prudential sectoral legislation.*

Supervision by analogy: introduction

- 8.5.5 G If the supervision of a *third-country group* by a *third-country competent authority* does not meet the equivalence test referred to in *PRU 8.5.3G*, a *competent authority* may, rather than take the measures described in *PRU 8.5.4G*, apply, by analogy, the provisions concerning supplementary supervision under the *Financial Groups Directive* or, as applicable, consolidated supervision under the applicable *EEA prudential sectoral legislation*, to the *EEA regulated entities* in the *banking sector*, *investment services sector* and (in the case of a *financial conglomerate* ) *insurance sector*.
- 8.5.6 G The *FSA* believes that it will only be right to adopt the option in *PRU 8.5.5G* in response to very unusual group structures.
- 8.5.7 G *PRU 8.5.8R* and *PRU 8.5.9R* and *PRU 8 Ann 2* set out *rules* to deal with the situation covered in *PRU 8.5.5G*. Those *rules* do not apply automatically. Instead, they can only be applied with respect to a particular *third-country group* through the *Part IV permission* of a *firm* in that *third-country group*. Broadly speaking the procedure described in *PRU 8.4.22G* also applies to this process.

Supervision by analogy: rules for third-country conglomerates

- 8.5.8 R If the *Part IV permission* of a *firm* contains a *requirement* obliging it to comply with this *rule* with respect to a *third-country financial conglomerate* of which it is a member, it must comply, with respect to that *third-country financial conglomerate*, with the *rules* in Part 1 of *PRU 8 Ann 2R*, as adjusted by Part 3 of that annex.

Supervision by analogy: rules for third-country banking and investment groups

- 8.5.9 R If the *Part IV permission* of a *firm* contains a *requirement* obliging it to comply with this *rule* with respect to a *third-country banking and investment group* of which it is a member, it must comply, with respect to that *third-country banking and investment group*, with the *rules* in Part 2 of *PRU 8 Ann 2R*, as adjusted by Part 3 of that annex.

PRU 8 Ann 1R

Capital adequacy calculations for financial conglomerates (PRU 8.4.26R and PRU 8.4.29R)

1 Table: PART 1: Method of Annex I of the Financial Groups Directive (Accounting Consolidation Method)

Capital resources	1.1	The <i>conglomerate capital resources</i> of a <i>financial conglomerate</i> calculated in accordance with this Part are the capital of that <i>financial conglomerate</i> , calculated on an accounting consolidation basis, that qualifies under paragraph 1.2.	
	1.2	The elements of capital that qualify for the purposes of paragraph 1.1 are those that qualify in accordance with the <i>applicable sectoral rules</i> , in accordance with the following:	
		(1)	the <i>conglomerate capital resources requirement</i> is divided up in accordance with the contribution of each <i>financial sector</i> to it; and
		(2)	the portion of the <i>conglomerate capital resources requirement</i> attributable to a particular <i>financial sector</i> must be met by capital resources that are eligible in accordance with the <i>applicable sectoral rules</i> for that <i>financial sector</i> .
Capital resources requirement	1.3	The <i>conglomerate capital resources requirement</i> of a <i>financial conglomerate</i> calculated in accordance with this Part is equal to the sum of the capital adequacy and solvency requirements for each <i>financial sector</i> calculated in accordance with the <i>applicable sectoral rules</i> for that <i>financial sector</i> .	
Consolidation	1.4	The information required for the purpose of establishing whether or not a <i>firm</i> is complying with PRU 8.4.29R (insofar as the definitions in this Part are applied for the purpose of that <i>rule</i> ) must be based on the consolidated accounts of the <i>financial conglomerate</i> , together with such other sources of information as appropriate.	
	1.5	The <i>applicable sectoral rules</i> that are applied under this Part are the <i>applicable sectoral consolidation rules</i> . Other <i>applicable sectoral rules</i> must be applied if required.	

2 Table: PART 2: Method 2 of Annex I of the Financial Groups Directive (Deduction and aggregation Method)

Capital resources	2.1	<p>The <i>conglomerate capital resources</i> of a <i>financial conglomerate</i> calculated in accordance with this Part are equal to the sum of the following amounts (so far as they qualify under paragraph 2.3) for each member of the <i>overall financial sector</i>:</p> <p>(1) (for the <i>person</i> at the head of the <i>financial conglomerate</i>) its <i>solo capital resources</i>;</p> <p>(2) (for any other member):</p> <p>(a) its <i>solo capital resources</i>; less</p> <p>(b) the book value of the <i>financial conglomerate's</i> investment in that member.</p>
	2.2	<p>The deduction in paragraph 2.1(2) must be carried out separately for each type of capital represented by the <i>financial conglomerate's</i> investment in the member concerned.</p>
	2.3	<p>The elements of capital that qualify for the purposes of paragraph 2.1 are those that qualify in accordance with the <i>applicable sectoral rules</i>. In particular, the portion of the <i>conglomerate capital resources requirement</i> attributable to a particular member of a <i>financial sector</i> must be met by capital resources that would be eligible under the <i>sectoral rules</i> that apply to the calculation of its <i>solo capital resources</i>.</p>
Capital resources requirement	2.4	<p>The <i>conglomerate capital resources requirement</i> of a <i>financial conglomerate</i> calculated in accordance with this Part is equal to the sum of the <i>solo capital resources requirement</i> for each member of the <i>financial conglomerate</i> that is in the <i>overall financial sector</i>.</p>
Partial inclusion	2.5	<p>The capital resources and capital resources requirements of a member of the <i>financial conglomerate</i> in the <i>overall financial sector</i> must be included proportionally. If however the member is a <i>subsidiary undertaking</i> and it has a <i>solvency deficit</i>, they must be included in full.</p>
Accounts	2.6	<p>The information required for the purpose of establishing whether or not a <i>firm</i> is complying with <i>PRU 8.4.29R</i> (insofar as the definitions in this Part are applied for the purpose of that <i>rule</i>) must be based on the individual accounts of members of the <i>financial conglomerate</i>, together with such other sources of information as appropriate.</p>

3. Table: PART 3: Method 3 of Annex I of the Financial Groups Directive  
(Book value/Requirement Method)

Capital resources	3.1	The <i>conglomerate capital resources</i> of a <i>financial conglomerate</i> calculated in accordance with this Part are equal to the capital resources of the <i>person</i> at the head of the <i>financial conglomerate</i> that qualify under paragraph 3.2.
Capital resources requirement	3.2	The elements of capital that qualify for the purposes of paragraph 3.1 are those that qualify in accordance with the <i>applicable sectoral rules</i> . In particular, the portion of the <i>conglomerate capital resources requirement</i> attributable to a particular member of a <i>financial sector</i> must be met by capital resources that would be eligible under the <i>sectoral rules</i> that apply to the calculation of its <i>solo capital resources</i> .
Capital resources requirement	3.3	The <i>conglomerate capital resources requirement</i> of a <i>financial conglomerate</i> calculated in accordance with this Part is equal to the sum of the following amounts for each member of the <i>overall financial sector</i> :  (1) (in the case of the <i>person</i> at the head of the <i>financial conglomerate</i> ) its <i>solo capital resources requirement</i> ;  (2) (in the case of any other member) the higher of the following two amounts:  (a) its <i>solo capital resources requirement</i> ; and  (b) the book value of the interest of the <i>person</i> at the head of the <i>financial conglomerate</i> in that member.
Capital resources requirement	3.4	A <i>participation</i> may be valued using the equity method of accounting.
Partial inclusion	3.5	The capital resources requirement of a member of the <i>financial conglomerate</i> in the <i>overall financial sector</i> must be included proportionally. If however the member has a <i>solvency deficit</i> and is a <i>subsidiary undertaking</i> , it must be included in full.
Accounts	3.6	The information required for the purpose of establishing whether or not a <i>firm</i> is complying with <i>PRU 8.4.29R</i> (insofar as the definitions in this Part are applied for the purpose of that <i>rule</i> ) must be based on the individual accounts of members of the <i>financial conglomerate</i> , together with such other sources of information as appropriate.

**4 Table: PART 4: Method 4 of Annex I of the Financial Groups Directive**  
(Combination of Methods 1, 2 and 3)

Applicable sectoral rules	4.1	The <i>rules</i> that apply with respect to a particular <i>financial conglomerate</i> under <i>PRU</i> 8.4.26R are those relating to capital adequacy and solvency set out in the table in paragraph 4.2.
---------------------------	-----	--

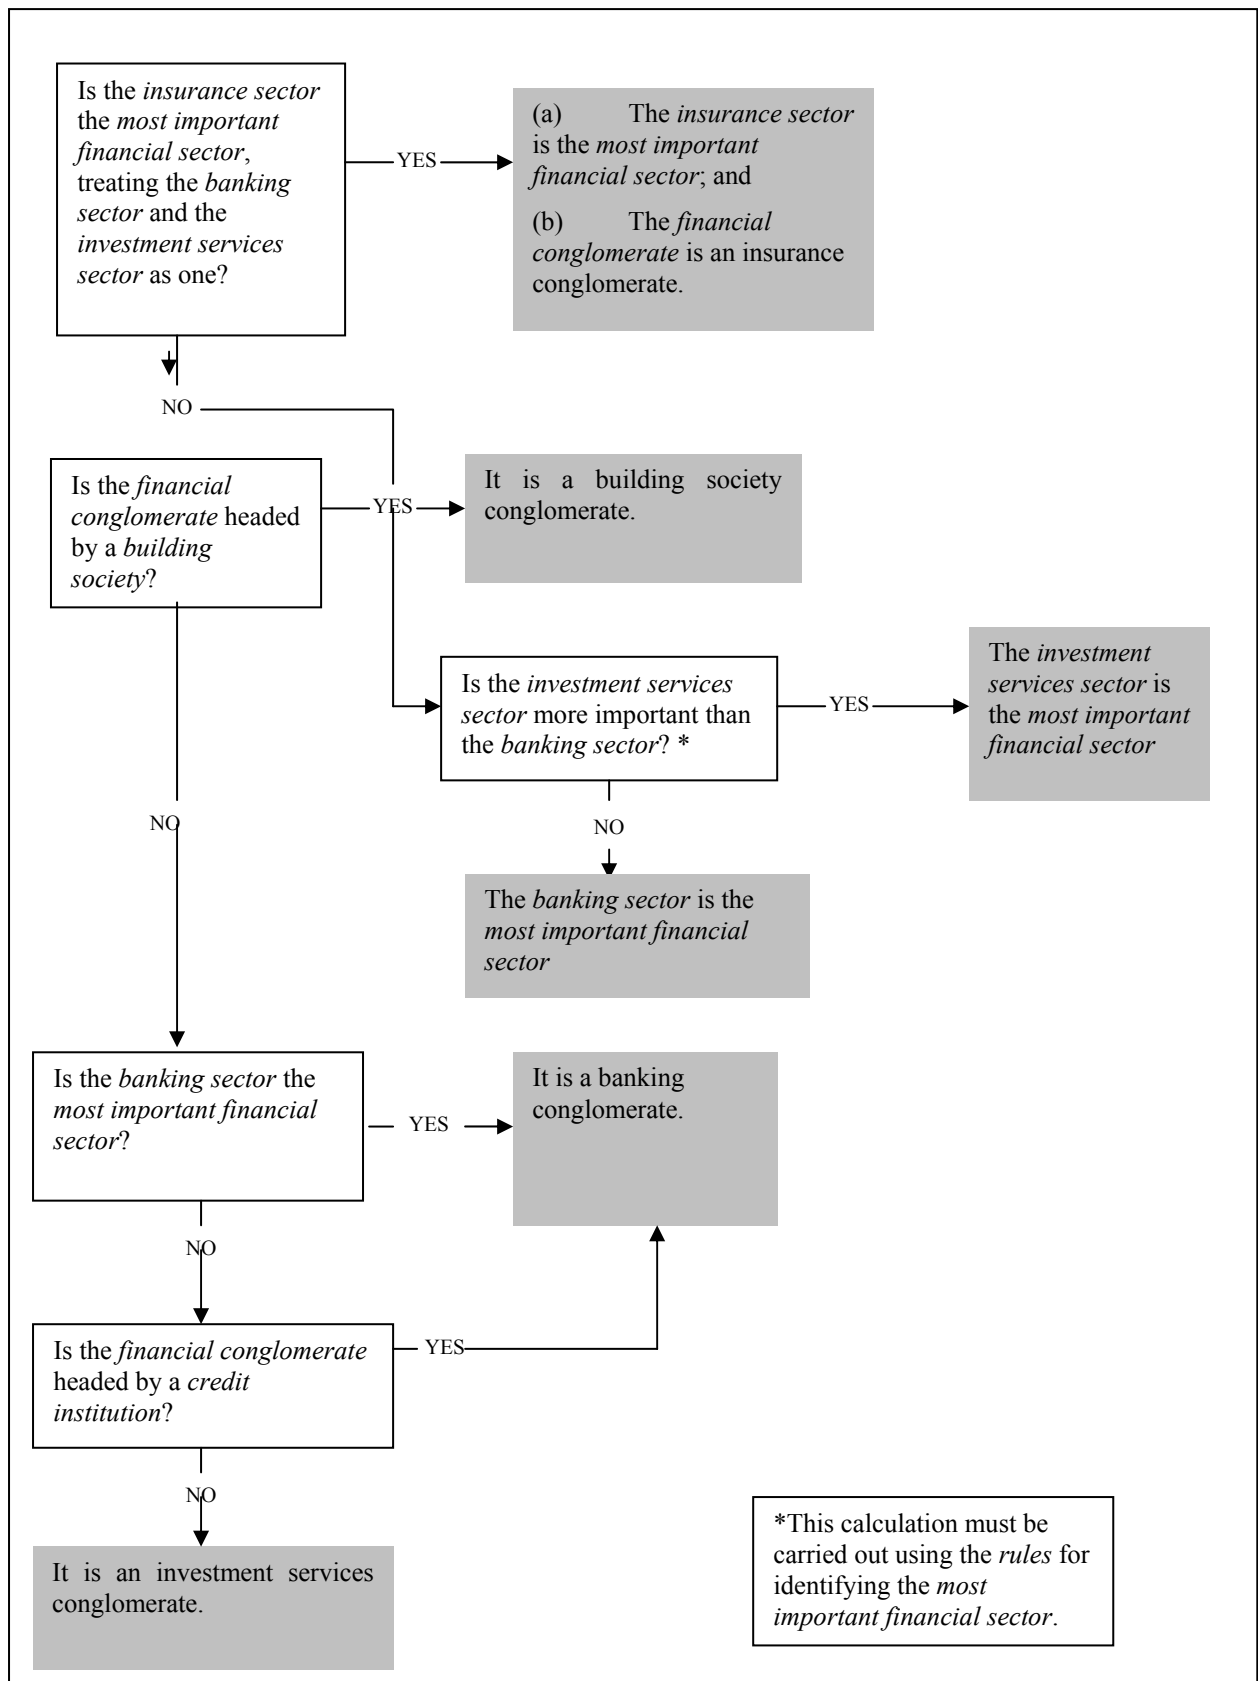

**5 Table: Paragraph 4.2: Application of sectoral consolidation rules**

Type of financial conglomerate	Applicable sectoral consolidation rules
<i>Banking conglomerate</i>	<i>IPRU(BANK)</i> Chapter GN <i>rule</i> 3.3.13 (as it applies on a consolidated basis), subject to paragraph 4.7.
<i>Insurance conglomerate</i>	Whichever of <i>IPRU(INS)</i> or <i>IPRU(FSOC)</i> would apply if those <i>rules</i> were amended in accordance with Part 5.
<i>Building society conglomerate</i>	<i>IPRU(BSOC)</i> (Volume 1) Chapter 1, <i>rule</i> 1.2.1 (as it applies on a consolidated basis).
<i>Investment services conglomerate</i>	Chapter 14 of <i>IPRU(INV)</i> .

6 Table

How to apply chapter 14 of IPRU(INV)	4.3	<p>Where chapter 14 of <i>IPRU(INV)</i> applies:</p> <ol style="list-style-type: none"> <li>(1) the <i>main investment services undertaking</i> is treated as being the main firm for the purpose of <i>rule 14.4.2</i> of chapter 14 of <i>IPRU(INV)</i>;</li> <li>(2) if the <i>main investment services undertaking</i> is not subject to any of the <i>FSA's sectoral rules</i> applied by chapter 14 of <i>IPRU(INV)</i>, then the <i>FSA's sectoral rules</i> that are applied are those that would do so if: <ol style="list-style-type: none"> <li>(a) it were a <i>UK domestic firm</i>; and</li> <li>(b) it had a <i>permission</i> that includes all the <i>regulated activities</i> that it would need to have in its <i>Part IV permission</i> if it carried on all its activities in the <i>United Kingdom</i>.</li> </ol> </li> </ol>
The different types of financial conglomerate	4.4	<ol style="list-style-type: none"> <li>(1) The decision tree in paragraph 4.5: <ol style="list-style-type: none"> <li>(a) decides into which of the categories listed in the table in paragraph 4.2 a <i>financial conglomerate</i> falls; and</li> <li>(b) modifies the definition of the <i>most important financial sector</i> for the purposes of <i>PRU 8 Ann 1R</i> and for the purposes of any other provision in <i>PRU 8 (Group risk)</i> that applies that decision tree.</li> </ol> </li> <li>(2) Paragraph 6.1(2) (<i>financial institution</i> allocated to the <i>banking sector</i>) and paragraph 6.1(3) (allocation of <i>asset management companies</i>) apply for the purpose of 4.4 and the table in paragraph 4.5.</li> </ol>

Table: Paragraph 4.5: Types of financial conglomerate and definition of most important financial sector

8 Table

A mixed financial holding company	4.6	<p>A <i>mixed financial holding company</i> must be treated in the same way as:</p> <ol style="list-style-type: none"> <li>(1) a <i>financial holding company</i> (if the <i>rules</i> in <i>IPRU(BANK)</i> or <i>IPRU(INV)</i>) are applied; or</li> <li>(2) an <i>insurance holding company</i> (if the <i>rules</i> in <i>IPRU(INS)</i> are applied).</li> </ol>
E-money	4.7	<p>If there are no <i>full credit institutions</i> or <i>investment firms</i> in a <i>banking conglomerate</i> but there are one or more <i>e-money issuers</i>, the <i>sectoral rules</i> in <i>IPRU(BANK)</i> are amended as follows :</p> <ol style="list-style-type: none"> <li>(1) the <i>rules</i> in <i>ELM</i> that apply on a solo basis must be used to establish the capital requirement for the <i>e- money issuers</i>; and</li> <li>(2) for the purpose of (1), those <i>rules</i> in <i>ELM</i> shall be amended by calculating the amount of the deductions in respect of <i>ownership shares</i> and capital falling into <i>ELM 2.4.17R(6)</i> in accordance with paragraph 3.3(2).</li> </ol>

9 Table: **PART 5: Principles applicable to all methods**

Transferability of capital	5.1	<p>Capital may not be included in:</p> <ol style="list-style-type: none"> <li>(1) a <i>firm's conglomerate capital resources</i> under <i>PRU 8.4.29R</i>; or</li> <li>(2) in the capital resources of the <i>financial conglomerate</i> for the purposes of <i>PRU 8.4.26R</i>;</li> </ol> <p>if the effectiveness of the transferability and availability of the capital across the different members of the <i>financial conglomerate</i> is insufficient, given the objectives (as referred to in the third unnumbered sub-paragraph of paragraph 2(ii) of Annex I of the <i>Financial Groups Directive</i> (Technical principles)) of the capital adequacy rules for <i>financial conglomerates</i>.</p>
Double counting	5.2	<p>Capital must not be included in:</p> <ol style="list-style-type: none"> <li>(1) a <i>firm's conglomerate capital resources</i> under <i>PRU 8.4.29R</i>;</li> </ol>

		<p>or</p> <p>(2) the capital resources of the <i>financial conglomerate</i> for the purposes of <i>PRU 8.4.26R</i>;</p> <p>if:</p> <p>(3) it would involve double counting or multiple use of the same capital; or</p> <p>(4) it results from any inappropriate intra-group creation of capital.</p>
Cross sectoral capital	5.3	<p>In accordance with the second sub-paragraph of paragraph 2(ii) of Section I of Annex I of the <i>Financial Groups Directive</i> (Other technical principles and insofar as not already required in Parts 1-3):</p> <p>(1) the solvency requirements for each different <i>financial sector</i> represented in a <i>financial conglomerate</i> required by <i>PRU 8.4.26R</i> or, as the case may be, <i>PRU 8.4.29R</i> must be covered by own funds elements in accordance with the corresponding <i>applicable sectoral rules</i>; and</p> <p>(2) if there is a deficit of own funds at the <i>financial conglomerate</i> level, only cross sectoral capital (as referred to in that sub-paragraph) shall qualify for verification of compliance with the additional solvency requirement required by <i>PRU 8.4.26R</i> or, as the case may be, <i>PRU 8.4.29R</i>.</p>
Application of sectoral rules	5.4	<p>The following adjustments apply to the <i>applicable sectoral rules</i> as they are applied by the <i>rules</i> in this annex.</p> <p>(1) The scope of those <i>rules</i> will be extended to cover any <i>mixed financial holding company</i> and each other member of the <i>overall financial sector</i>.</p> <p>(2) If any of those <i>rules</i> would otherwise not apply to a situation in which they are applied by <i>PRU 8 Ann 1R</i>, those <i>rules</i> nevertheless still apply (and in particular, any of those <i>rules</i> that would otherwise have the effect of disapplying consolidated supervision (or, in the case of the <i>insurance sector</i>, supplementary supervision) do not apply).</p> <p>(3) (If it would not otherwise have been included) an <i>ancillary investment services undertaking</i> is included in the <i>investment services sector</i>.</p> <p>(4) (If it would not otherwise have been included) an <i>ancillary insurance services undertaking</i> is included in the <i>insurance sector</i>.</p>

		<p>(5) (In relation to the <i>insurance sector</i>) to the extent that:</p> <ul style="list-style-type: none"> <li>(a) those <i>rules</i> merely require a report on whether or not a specified level of solvency is met (a soft limit); or</li> <li>(b) the requirements in those <i>rules</i> concern having certain net assets of an amount at or above certain levels;</li> </ul> <p>those requirements are restated so as to include an obligation at all times actually to have capital at or above that level (a hard limit), thereby turning a soft limit drafted by reference to assets and liabilities into a hard limit requiring capital to be held at or above specified levels. If those <i>rules</i> apply both a hard and a soft limit, and the level of the soft limit is higher, that soft limit is applied under this annex, but translated into a hard limit in accordance with the earlier provisions of (5).</p> <p>(6) The scope of the those <i>rules</i> is amended so as to remove restrictions relating to where members of the <i>financial conglomerate</i> are incorporated or have their head office, so that the scope covers every member of the <i>financial conglomerate</i> that would have been included in the scope of those <i>rules</i> if those members had their head offices in an <i>EEA State</i>.</p> <p>(7) (For the purposes of Parts 1 to 3) those <i>rules</i> must be adjusted, if necessary, when calculating the capital resources, capital resources requirements or solvency requirements for a particular <i>financial sector</i> to exclude those for a member of another <i>financial sector</i>.</p>
No capital ties	5.5	<p>(1) This <i>rule</i> deals with a <i>financial conglomerate</i> in which some of the members are not linked by capital ties at the time of the notification referred to in <i>PRU 8.4.28R(1)</i> (Capital adequacy requirements: Compulsory application of Method 4 from Annex I of the Financial Groups Directive).</p> <p>(2) If:</p> <ul style="list-style-type: none"> <li>(a) <i>PRU 8.4.26R</i> (Capital adequacy requirements: Application of Method 4 from Annex I of the Financial Groups Directive) would otherwise apply with respect to a <i>financial conglomerate</i> under <i>PRU 8.4.28R</i>; and</li> </ul>

- (b) all members of that *financial conglomerate* are linked directly or indirectly with each other by capital ties except for members that collectively are of negligible interest with respect to the objectives of supplementary supervision of *regulated entities* in a *financial conglomerate* (the "peripheral members");

*PRU 8.4.28R* continues to apply. Otherwise *PRU 8.4.28R* does not apply with respect to a *financial conglomerate* falling into (1).

- (3) If *PRU 8.4.28R* applies with respect to a *financial conglomerate* in accordance with (2) the peripheral members must be excluded from the calculations under *PRU 8.4.26R*.

- (4) If:

- (a) *PRU 8.4.26R* applies with respect to a *financial conglomerate* falling into (1) under *PRU 8.4.27R(2)* (Use of *Part IV permission* to apply Annex I of the *Financial Groups Directive*); or
- (b) *PRU 8.4.49R* (Capital adequacy requirements: Application of Methods 1, 2 or 3 from Annex I of the *Financial Groups Directive*) applies with respect to a *financial conglomerate* falling into (1);

then:

- (c) the treatment of the links in (1) (including the treatment of any *solvency deficit*) is as provided for in the *requirement* referred to in *PRU 8.4.30R*; and
  - (d) *PRU 8.4.26R* or *PRU 8.4.29R*, as the case may be, apply even if the *applicable sectoral rules* do not deal with how *undertakings* not linked by capital ties are to be dealt with for the purposes of consolidated supervision (or, in the case of the *insurance sector*, supplementary supervision).
- (5) Once *PRU 8.4.26R* applies to a *firm* with respect to a *financial conglomerate* of which it is a member under *PRU 8.4.27R(1)* (automatic application of Method 4 from Annex I of the *Financial Groups Directive* on satisfaction of the condition in *PRU 8.4.28R*), the disapplication of *PRU 8.4.28R* under (2) ceases to apply with respect to that *financial conglomerate*.

10 Table: PART 6: Definitions used in this Annex

Defining the financial sectors	6.1	<p>For the purposes of Parts 1 to 3 of this annex (but, unless specified otherwise in paragraph 4.4, not for the purposes of the definition of <i>most important financial sector</i>):</p> <ol style="list-style-type: none"> <li>(1) the <i>banking sector</i> and the <i>investment services sector</i> are considered separately;</li> <li>(2) if a <i>financial institution</i> could otherwise fall into both the <i>banking sector</i> and the <i>investment services sector</i>, it must be allocated to the <i>banking sector</i>;</li> <li>(3) an <i>asset management company</i> is allocated in accordance with PRU 8.4.39R; and</li> <li>(4) a <i>mixed financial holding company</i> must be treated as being a member of the <i>most important financial sector</i>.</li> </ol>
Solo capital resources requirement: UK domestic firms	6.2	<p>The <i>solo capital resources requirement</i> for a <i>regulated entity</i> that is a <i>UK domestic firm</i> is its solo regulatory capital requirement under the <i>FSA's sectoral rules</i> for its <i>financial sector</i> applicable to it.</p>
Solo capital resources requirement: EEA firms	6.3	<p>The <i>solo capital resources requirement</i> for an <i>EEA regulated entity</i> that is subject to the solo capital adequacy <i>sectoral rules</i> for its <i>financial sector</i> of the <i>competent authority</i> that authorised it is equal to the amount of capital resources it is obliged to hold under those <i>sectoral rules</i>.</p>
Solo capital resources requirement: mixed financial holding company	6.4	<p>The <i>solo capital resources requirement</i> for a <i>mixed financial holding company</i> is a notional capital requirement. It is the capital adequacy requirement that applies to <i>regulated entities</i> in the <i>most important financial sector</i> under the table in paragraph 6.8.</p>
Solo capital resources requirement: non-EEA firms subject to equivalent regimes	6.5	<p>The <i>solo capital resources requirement</i> for a <i>regulated entity</i> that:</p> <ol style="list-style-type: none"> <li>(1) does not fall into paragraphs 6.2 to 6.4;</li> <li>(2) is subject to any of the <i>sectoral rules</i> referred to in paragraph 6.6 applicable to its <i>financial sector</i>; and</li> <li>(3) is incorporated in and has its head office in: <ol style="list-style-type: none"> <li>(a) (where the <i>sectoral rules</i> in (2) are for the <i>banking sector</i> or the <i>investment services sector</i>) the same state</li> </ol> </li> </ol>

Solo capital resources requirement: other members		<p>or territory as the regulator for those <i>sectoral rules</i>, as referred to in paragraph 6.6(1) or 6.6(2)); or</p> <p>(b) (where the <i>sectoral rules</i> in (2) are for the <i>insurance sector</i>) the designated state or territory in question, as referred to in 6.6(3);</p>
	6.6	<p>is equal to the amount of capital resources it is obliged to hold under those <i>sectoral rules</i>. However, where 3(b) would otherwise apply, paragraph 6.7 may be applied instead.</p> <p>The <i>sectoral rules</i> referred to in paragraph 6.5 are:</p> <p>(1) (for the <i>banking sector</i>) the <i>sectoral rules</i> of or administered by one of the regulators listed in Appendix D of chapter CS of <i>IPRU(BANK)</i>;</p> <p>(2) (for the <i>investment services sector</i>) the <i>sectoral rules</i> of or administered by one of the regulators listed in Appendix 59 of chapter 10 of <i>IPRU(INV)</i>; and</p> <p>(3) (for the <i>insurance sector</i>) the <i>sectoral rules</i> of the states or territories referred to in the definition of designated states or territories in chapter 11 of <i>IPRU(INS)</i> (Definitions), but excluding <i>EEA States</i>.</p>
	6.7	<p>The <i>solo capital resources requirement</i> for any member of a <i>financial conglomerate</i> in the <i>overall financial sector</i> not treated under paragraphs 6.2 to 6.6 is a notional capital requirement. It is the capital resources requirement that would apply to it under the following <i>rules</i>:</p> <p>(1) (in the case of an <i>asset management company</i>) the <i>rules</i> in Chapter 7 of <i>IPRU(INV)</i>; and</p> <p>(2) (in any other case) the <i>rules</i> applicable to its <i>financial sector</i> under the table in paragraph 6.8.</p>

11 Table: Paragraph 6.8: The FSA's sectoral rules for the solo capital resources requirement

Financial sector	FSA's sectoral rules
<i>Banking sector</i>	The <i>FSA's sectoral rules</i> for <i>banks</i> , except that <i>e-money issuers</i> are subject to <i>ELM</i> .
<i>Insurance sector</i>	The <i>FSA's sectoral rules</i> for <i>insurance undertakings</i> .
<i>Investment services sector</i>	(1) The <i>rules</i> in <i>IPRU(INV)</i> that would apply on the assumptions in paragraph 4.3(2).  (2) (If (1) does not result in the application of any <i>rules</i> in <i>IPRU(INV)</i> ) the <i>rules</i> in <i>IPRU(INV)</i> that would be applied to it under <i>rule</i> 14.5.2 of Chapter 14 of <i>IPRU(INV)</i> (Group financial resources requirement).

12 Table

Solo capital resources requirement: the insurance sector	6.9	References to capital requirements in the provisions of <i>PRU</i> 8 Ann 1R defining <i>solo capital resources requirement</i> must be interpreted in accordance with paragraph 5.4(5).
Applicable sectoral consolidation rules	6.10	The <i>applicable sectoral consolidation rules</i> for a <i>financial sector</i> are the <i>FSA's sectoral rules</i> about capital adequacy and solvency on a consolidated basis that are applied in the table in paragraph 6.11.

13 Table: Paragraph 6.11: Application of sectoral consolidation rules

Financial sector	Type of financial conglomerate	FSA's sectoral rules
<i>Banking sector</i>	<i>Building society conglomerate</i>	The <i>rules</i> for <i>building societies</i> .
	Any other type	The <i>rules</i> for <i>banks</i> .
<i>Insurance sector</i>	N/A	The <i>rules</i> for <i>insurance undertakings</i> .
<i>Investment services sector</i>	N/A	The <i>rules</i> for <i>investment firms</i> .
Note 1: Paragraph 4.6 applies for the purposes of those <i>rules</i> .		

14 Table:

Applicable sectoral consolidation rules (contd.)	6.12	<p>The <i>rules</i> referred to in the third column of the table in paragraph 6.11 are as follows:</p> <ol style="list-style-type: none"> <li>(1) the <i>rules</i> for <i>building societies</i> are the ones for <i>building society conglomerates</i> listed in the table in paragraph 4.2;</li> <li>(2) the <i>rules</i> for <i>banks</i> are the ones for <i>banking conglomerates</i> listed in the table in paragraph 4.2 as adjusted under paragraph 4.7;</li> <li>(3) the <i>rules</i> for <i>insurance undertakings</i> are whichever of the ones for <i>insurance conglomerates</i> that are applied by the table in paragraph 4.2; and</li> <li>(4) the <i>rules</i> for <i>investment firms</i> are the ones for <i>investment services conglomerates</i> listed in the table in paragraph 4.2 as applied under paragraph 4.3 (How to apply chapter 14 of IPRU(INV)).</li> </ol>
--	------	--

Prudential rules for third country groups (PRU 8.5.8R to PRU 8.5.9R)

1 Table: PART 1: Third-country financial conglomerates

1.1	This Part of this annex sets out the <i>rules</i> with which a <i>firm</i> must comply under <i>PRU 8.5.8R</i> with respect to a <i>financial conglomerate</i> of which it is a member.
1.2	A <i>firm</i> must comply, with respect to the <i>financial conglomerate</i> referred to in paragraph 1.1, with whichever of <i>PRU 8.4.26R</i> and <i>PRU 8.4.29R</i> is applied under paragraph 1.3.
1.3	For the purposes of paragraph 1.2: <ol style="list-style-type: none"> <li>(1) the <i>rule</i> in <i>PRU 8.4</i> that applies as referred to in paragraph 1.2 is the one that is specified by the <i>requirement</i> referred to in <i>PRU 8.5.8R</i>;</li> <li>(2) (where <i>PRU 8.4.29R</i> is applied) the definitions of <i>conglomerate capital resources</i> and <i>conglomerate capital resources requirement</i> that apply for the purposes of that <i>rule</i> are the ones from whichever of Part 1, Part 2 or Part 3 of <i>PRU 8 Ann 1R</i> is specified in that <i>requirement</i>; and</li> <li>(3) the <i>rules</i> so applied (including those in <i>PRU 8 Ann 1R</i>) are adjusted in accordance with paragraph 3.1.</li> </ol>
1.4	If the condition in Articles 7(4) and 8(4) of the <i>Financial Groups Directive</i> is satisfied (the <i>financial conglomerate</i> is headed by a <i>mixed financial holding company</i> ) with respect to the <i>financial conglomerate</i> referred to in paragraph 1.1 the <i>firm</i> must also comply with <i>PRU 8.4.35R</i> (as adjusted in accordance with paragraph 3.1) with respect to that <i>financial conglomerate</i> .
1.5	A <i>firm</i> must comply with the following with respect to the <i>financial conglomerate</i> referred to in paragraph 1.1: <ol style="list-style-type: none"> <li>(1) <i>PRU 8.1</i> (as it applies to <i>financial conglomerates</i> and as adjusted under paragraph 3.1); and</li> <li>(2) <i>PRU 8.4.25R</i>.</li> </ol>

2 Table: PART 2: Third-country banking and investment groups

2.1	This Part of this annex sets out the <i>rules</i> with which a <i>firm</i> must comply under <i>PRU 8.5.9R</i> with respect to a <i>third-country banking and investment group</i> of which it is a member.
-----	---

2.2	A <i>firm</i> must comply with one of the sets of <i>rules</i> specified in paragraph 2.3 as adjusted under paragraph 3.1 with respect to the <i>third-country banking and investment group</i> referred to in paragraph 2.1.
2.3	The <i>rules</i> referred to in paragraph 2.2 are as follows: <ul style="list-style-type: none"> <li>(1) the <i>applicable sectoral consolidation rules</i> in <i>IPRU(BANK)</i>; or</li> <li>(2) the <i>applicable sectoral consolidation rules</i> for the <i>investment services sector</i>; or</li> <li>(3) the <i>rules</i> in <i>ELM 7</i>.</li> </ul>
2.4	The set of <i>rules</i> from paragraph 2.3 that apply with respect to a particular <i>third-country banking and investment group</i> (as referred to in paragraph 2.1) are those that would apply if they were adjusted in accordance with paragraph 3.1.
2.5	The <i>sectoral rules</i> applied by Part 2 of this annex cover all prudential <i>rules</i> applying on a consolidated basis including those relating to large exposures.
2.6	A <i>firm</i> must comply with <i>PRU 8.1</i> (as it applies to <i>banking and investment groups</i> and as adjusted under paragraph 3.1) with respect to the <i>third-country banking and investment group</i> referred to in paragraph 2.1.

3 Table: PART 3: Adjustment of scope

3.1	The adjustments that must be carried out under this paragraph are that the scope of the <i>rules</i> referred in Part 1 or Part 2 of this annex, as the case may be, are amended: <ul style="list-style-type: none"> <li>(1) so as to remove any provisions disapplying those <i>rules</i> for <i>third-country groups</i>;</li> <li>(2) so as to remove all limitations relating to where a member of the <i>third-country group</i> is incorporated or has its head office; and</li> <li>(3) so that the scope covers every member of the <i>third-country group</i> that would have been included in the scope of those <i>rules</i> if those members had their head offices in, and were incorporated in, an <i>EEA State</i>.</li> </ul>
-----	---

**PRU 8 Ann 3G: CLASSIFICATION OF GROUPS (PRU 8.4.3G)**

(form ref)

**Part 1 : General Information**

<b>A</b>	Name of Group:	
----------	----------------	--

<b>B</b>	Name of FSA supervisor:	
----------	-------------------------	--

<b>C</b>	Name of entity at head of the group:	
----------	--------------------------------------	--

<b>D</b>	Type of entity at head of the group:	<b>D1</b>	EU regulated entity country of authorisation	
----------	--------------------------------------	-----------	--	--

(select one of D1, D2, D3 and D4)

<b>(a)</b>	Credit institution	<input type="checkbox"/>
<b>(b)</b>	Investment firm	<input type="checkbox"/>
<b>(c)</b>	Insurance firm	<input type="checkbox"/>

(tick one)

<b>D2</b>	EU non-regulated entity country of location	
-----------	---	--

<b>D3</b>	Non-EU regulated entity country of authorisation	
-----------	--	--

<b>D4</b>	Non- EU non-regulated entity country of location	
-----------	--	--

<b>E</b>	Year-end for group consolidation purposes	
----------	---	--

## Part 2 : Threshold Information

F1	Is at least one of the entities in the group within the insurance sector and at least one in the banking/investment sector?	<input type="checkbox"/> Yes	<input type="checkbox"/> No (go to part 3)
F2	For D2 & D4 groups only: enter the ratio of the balance sheet total of the financial sectors in the group to the balance sheet total of the group as a whole. <i>Enter percentage in box*.</i>	<input type="text"/>	%
F3	What is the smallest financial sector?	<input type="checkbox"/>	Insurance
		<input type="checkbox"/>	Banking/Investment
F4	Ratio of balance sheet total of smallest financial sector to the balance sheet total of the financial sector entities in the group. <i>Enter percentage in box*.</i>	<input type="text"/>	%
F5	Ratio of the solvency requirement of the smallest financial sector to the solvency requirements of the total financial sector entities in the group. <i>Enter percentage in box*.</i>	<input type="text"/>	%
F6	What is the balance sheet total of the smallest financial sector in the group (identified in F3)*?	<input type="text"/>	(€'m)

\*see guidance notes on a recommended method of calculation

**Part 3: Conclusion on reason for becoming a financial conglomerate**

**G** Select **ONE** of the following based on the answers in section 1 & 2.

**If answer to F1 is NO or if none of the following are met then select type Z:**

<b>Z</b>		Not a conglomerate.
----------	--	---------------------

If the group is category D1 or D3 and the average of F4 and F5 is greater than 10% then select type i.

<b>i</b>		Conglomerate headed by a regulated institution with significant cross sector activities. [article 3(2)]
----------	--	---

If the group is category D1 or D3 and the average of F4 and F5 is less than 10% but F6 is greater than €6bn then select ii.

<b>ii</b>		Possible conglomerate headed by a regulated institution with presumed significant cross sector activities. [article 3(3)]
-----------	--	---

If the group is category D2 or D4 and the answer to F2 is greater than 40% AND the average of F4 and F5 is greater than 10% then select type iii.

<b>iii</b>		Conglomerate headed by non-regulated entity with significant cross sector activities. [article 3(1) & 3(2)]
------------	--	---

If the group is category D2 or D4 and the answer to F2 is greater than 40% AND the average of F4 and F5 is less than 10% but F6 is greater than €6bn then select type iv.

<b>iv</b>		Possible conglomerate headed by non-regulated entity with presumed significant cross sector activities. [article 3(1) & 3(3)]
-----------	--	---

**Part 4: Other relevant information**

H1	<p>Who do you think are the relevant competent authorities for your group (i.e. supervisors in EEA States in which the group has significant regulated activity)?</p> <p>See article 2 (17)(a) for definition of relevant competent authorities.</p>	
H2	<p>Who do you think should be the likely coordinator for the group (i.e. EEA supervisor of the group's most important regulated activity in the EU)?</p> <p>See article 10(1) and 10(2).</p>	
H3	<p>Do you consider that balance sheet value and solvency requirements were an appropriate criterion to determine whether a group is financial and whether cross sector activities exist? If not, do you consider there are other parameters (as referred to in article 3(5)) that would be more appropriate?</p>	
H4	<p>Do you have any other relevant comments? (use continuation sheet if necessary)</p>	

## **PRU 8 Ann 3G: Guidance Notes for Classification of Groups**

### **Purpose and scope**

The form is designed to identify groups and sub-groups that are likely to be financial conglomerates under the Financial Groups Directive. A group may be a financial conglomerate if it contains both insurance and banking/investment businesses and meets certain threshold tests. The FSA needs to identify conglomerates with their head offices in the EEA and those with their head offices outside the EEA, although this does not necessarily mean that the latter will be subject to EEA conglomerate supervision.

This form's purpose is to enable the FSA to obtain sufficient information so as to be able to determine how likely a group/sub-group is to be a financial conglomerate. In certain cases this can only be determined after consultation with the other EU relevant competent authorities. A second purpose of the form is therefore to identify any groups and sub-groups that may need such consultation so that this can be made as soon as possible. This should allow firms time to prepare to comply.

The third purpose of the form is to gain information from firms on the most efficient way to implement the threshold calculations in detail (consistently with the directive). We have, therefore, asked for some additional information in part 4 of the form.

A copy of this form will can be found on the FSA's Financial Groups Website with current contact details.

Please include workings showing the method employed to determine the percentages in part 2 (for the threshold conditions) and giving details of all important assumptions / approximations made in doing the calculations.

The definition of financial conglomerate includes not only conventional groups made up of parent-subsidiary relationships but groups linked by control and "consolidation Article 12(1) relationships". If this is the case for your group, please submit along with this form a statement that this is the case. Please include in that statement an explanation of how you have included group members not linked by capital ties in the questionnaire calculations.

A consolidation Article 12(1) relationship arises between undertakings in the circumstances set out in Article 12(1) of the Seventh Company Law Directive. These are set out in the Handbook Glossary (in the definition of consolidation Article 12(1) relationship). Broadly speaking, undertakings come within this definition if they do not form a conventional group but:

- (a) are managed on a unified basis; or
- (b) have common management.

## *General guidance*

We would like this to be completed based on the most senior parent in the group, and, if applicable, for the company heading the most senior conglomerate group in the EEA. If appropriate, please also attach a list of all other likely conglomerate sub-groups.

Please use the most recent accounts for the top level company in the group together with the corresponding accounts for all subsidiaries and participations that are included in the consolidated accounts. Please indicate the names of any significant subsidiaries with a different year-end from the group's year-end.

Please note the following:

- (a) Branches should be included as part of the parent entity.
- (b) Include in the calculations overseas entities owned by the relevant group or sub-group.
- (c) There are only two sectors for this purpose: banking/investment and insurance.
- (d) You will need to assign non-regulated financial entities to one of these sectors:
  - **banking/investment** activities are listed in - IPRU Banks CS 10 Appendix A
  - **insurance** activities are listed in - IPRU Insurers Annex 11.1 and 11.2 p 163-168.
  - Any **operator of a UCITS scheme, insurance intermediary, mortgage broker and mixed financial holding company** does not fall into the directive definitions of either financial sector or insurance sector. They should therefore be ignored for the purposes of these calculations.

## Threshold tests

For the purpose of completing section 2 of the form relating to the threshold tests, the following guidance should be used. However, if you consider that for your group there is a more appropriate calculation then you may use this calculation so long as the method of computation is submitted with the form.

## Calculating balance sheet totals

Generally, use total (gross) assets for the balance sheet total of a group/entity. However, investments in other entities that are part of the group will need to be deducted from the sector that has made the investment and the balance sheet total of the entity is added to the sector in which it operates.

Our expectation of how this may be achieved efficiently is as follows:

- (i) Off-balance-sheet items should be excluded.
- (ii) Where off-balance sheet treatment of **funds under management** and on-balance sheet treatment of **policy holders' funds** may distort the threshold calculation, groups should consult the FSA on the appropriateness of using other measures under article 3.5 of the Financial Groups Directive.
- (iii) If consolidated accounts exist for a sub-group consisting of financial entities from only one of the two sectors, these consolidated accounts should be used to measure the balance-sheet total of the sub-group (i.e. total assets less investments in entities in the other sector). If consolidated accounts do not exist, intra-group balances should be netted out when calculating the balance sheet total of a single sector (but cross-sector intra-group balances should not be netted out).
- (iv) Where consolidated accounts are used, minority interests should be excluded and goodwill should be included.
- (v) Where accounting standards differ between entities, groups should consult the FSA if they believe this is likely materially to affect the threshold calculation.
- (vi) Where there is a subsidiary or participation in the opposite sector from its parent (i.e. insurance sector for a banking/investment firm parent and vice versa), the balance sheet amount of the subsidiary or participation should be allocated to its sector using its individual accounts.
- (vii) The balance-sheet total of the parent entity/sub-group is measured as total assets of the parent/sub-group less the book value of its subsidiaries or participations in the other sector (i.e. the value of the subsidiary or participation in the parent's consolidated accounts is deducted from the parent's consolidated assets).
- (viii) The cross-sector subsidiaries or participations referred to above, valued according to their own accounts, are allocated pro-rata, according to the aggregated share owned by the parent/sub-group, to their own sector.

- (ix) If the cross-sector entities above themselves own group entities in the first sector (i.e. that of the top parent/sub-group) these should (in accordance with the methods above) be excluded from the second sector and added to the first sector using individual accounts.

#### Solvency (capital adequacy) requirements

Generally, the solvency requirements should be according to sectoral rules (that is EEA prudential sectoral legislation – see Glossary). However, for convenience, you may choose to use either EEA rules, FSA rules or local rules. But if this choice makes a significant difference, either with respect to whether the group is a financial conglomerate or with respect to which sector is the biggest, you should consult with the FSA. Non-regulated financial entities should have proxy requirements calculated on the basis of the most appropriate sector. If sub-groups submit single sector consolidated returns then the solvency requirement may be taken from those returns.

Our expectation of how this may be achieved efficiently is as follows:

- (i) If you complete a solvency return for a sub-group consisting of financial entities from only one of the two sectors, the total solvency requirement for the sub-group should be used.
- (ii) Solvency requirements taken must include any deductions from available capital so as to allow the appropriate aggregation of requirements.
- (iii) Where there is a regulated subsidiary or participation in the opposite sector from its parent/sub-group, the solvency requirement of the subsidiary or participation should be from its individual regulatory return. If there is an identifiable contribution to the parent's solvency requirement in respect of the cross-sector subsidiary or participation, the parent's solvency requirement may be adjusted to exclude this.
- (iv) Where there is an unregulated financial undertaking in the opposite sector from its parent/sub-group, the solvency requirement of the subsidiary or participation should be one of the following:
  - (a) as if the entity were regulated by the FSA under the appropriate sectoral rules;
  - (b) using EU minimum requirements for the appropriate sector; or
  - (c) using non-EU local requirements\* for the appropriate sector.

Please note on the form which of these options you have used, according to the country and sector, and whether this is the same treatment as in your latest overall group solvency calculation.

(v) For banking/investment requirements, use the total amount of capital required.

(vi) For insurance requirements, use the Required Minimum Margin:

(a) UK firms, Form 9: for general insurance business = capital resources requirement [line 29]; for long-term insurance business = capital resources requirement (higher of Minimum Capital Requirement and Enhanced Capital Resources Requirement) [line 52].

(b) Overseas firms, either:

- the local requirement\*;
- the EU minimum; or
- the FSA requirement.

\* N.B. local requirements may only be used if they are at least equivalent to the EU minimum (designated states or territories). However, local requirements of a non-designated state or territory may be used if the resulting ratio in F5 is significantly below the 10% threshold (for this purpose "significantly below" may be taken to mean <5%).

### Market share measures

These are not defined by the directive. The aim is to identify any standard industry approaches to measuring market share in individual EU countries by sector, or any data sources which are commonly used as a proxy.

### Threshold tests

#### *Test F2*

**B/S of banking/investment + insurance sector = result %**  
**B/S total**

#### *Test F3/F4/F5*

**B/S of insurance sector**  
**B/S of banking/investment sector + insurance sector = A%**

**B/S of banking/investment sector**

**B/S of banking/investment sector + insurance sector = B%**

**Solvency requirement of insurance sector**

Solvency requirement of banking/investment sector + insurance sector = C%

**Solvency requirement of banking/investment sector**

Solvency requirement of banking/investment sector + insurance sector = D%

The relevant percentage for the insurance sector is:

$$(A\% + C\%)/2 = I\%$$

The relevant percentage for the banking/investment sector is:

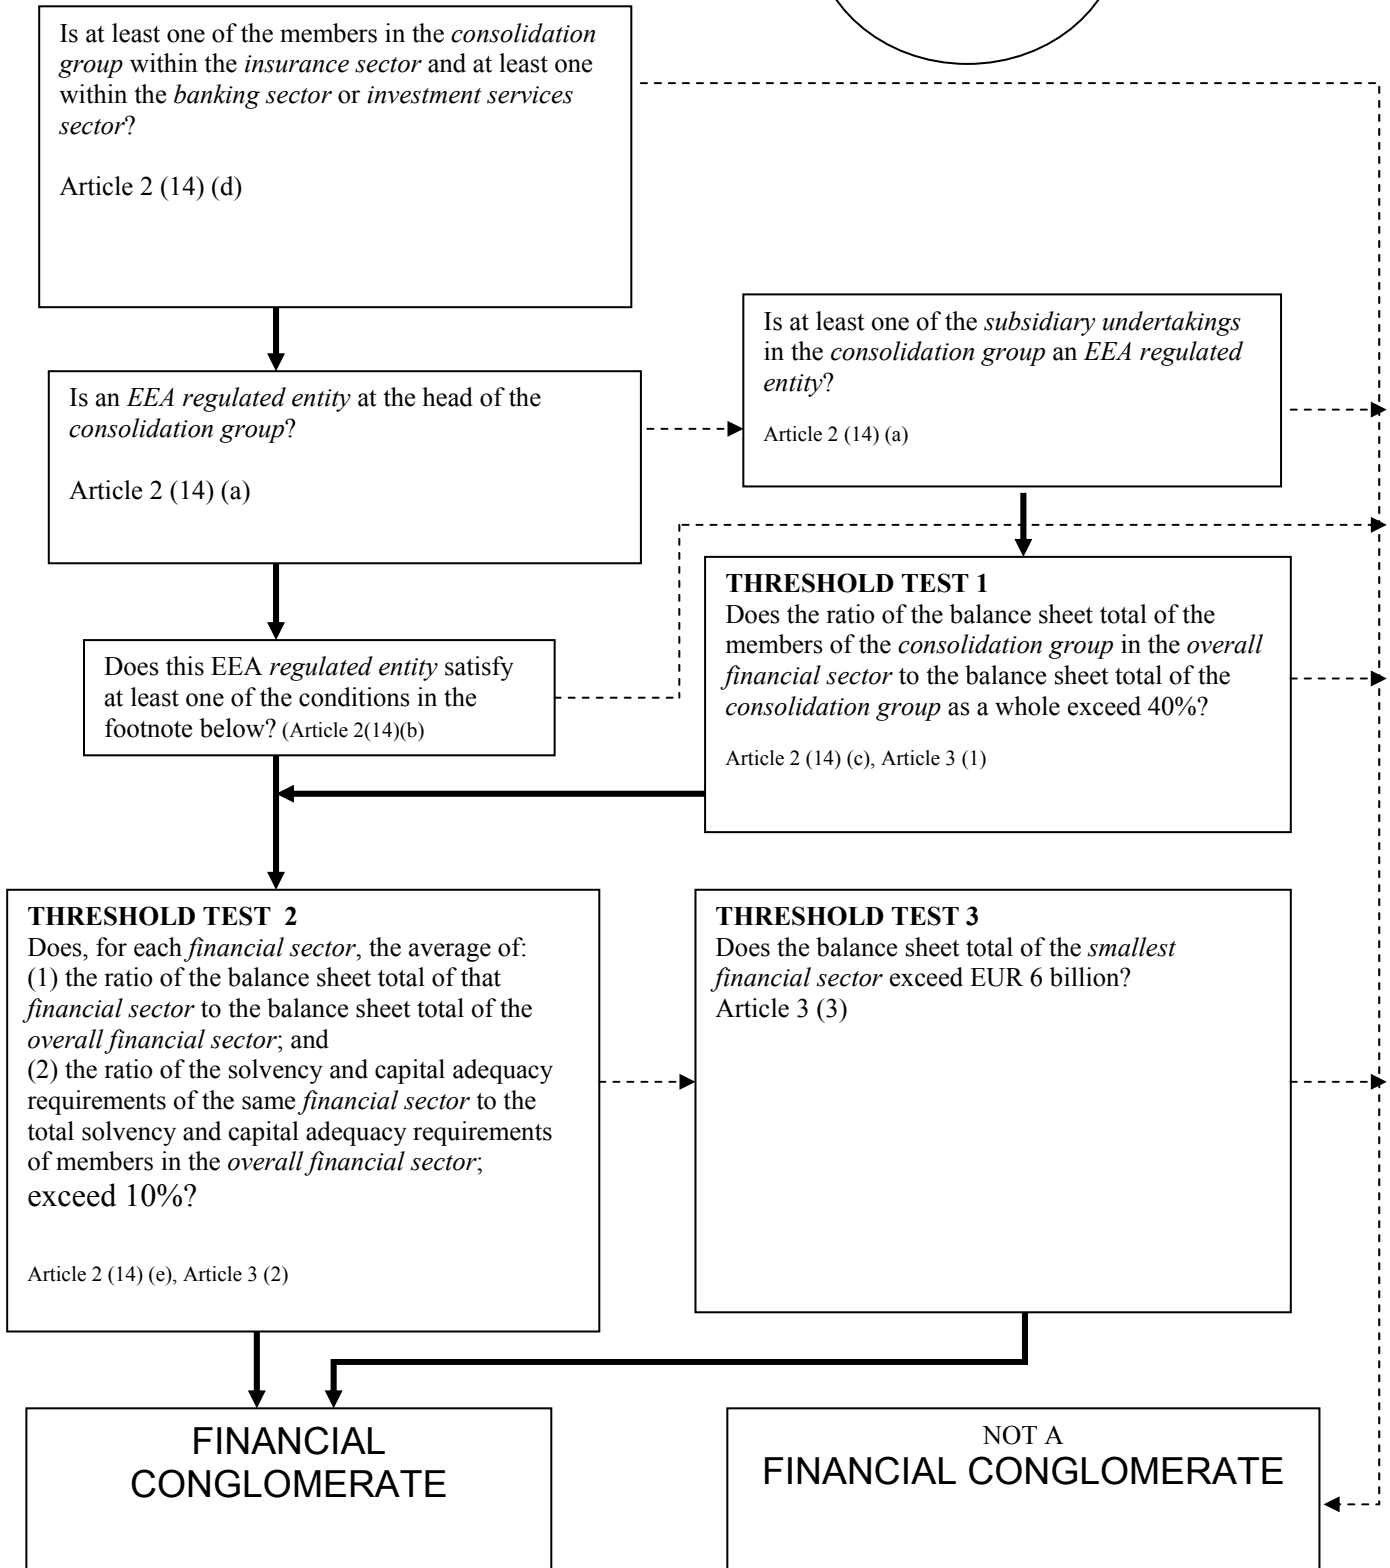

$$(B\% + D\%)/2 = BI\%$$

The smallest sector is the sector with the smallest relevant percentage.

**If  $I\% < BI\%$  then F3 is insurance, F4 = A%, and F5 = C%**

**If  $BI\% < I\%$  then F3 is banking/investment, F4 = B% and F5 = D%**

**PRU 8 Ann 4R (see PRU 8.4.5R)**

Footnote: The conditions are that the EEA regulated entity at the head of the consolidation group: (1) is a parent undertaking of a member of the consolidation group in the overall financial sector; (2) has a participation in a member of the consolidation group that is in the overall financial sector; or (3) has a consolidation Article 12(1) relationship with a member of the consolidation group that is in the overall financial sector.

Insert schedules into PRU as follows:

# The Integrated Prudential Sourcebook

## Schedule 1

### Record Keeping Requirements

G

1 There are no record keeping requirements in *PRU 1* or *PRU 8*. This Schedule does not cover any other chapter of *PRU*.

# The Integrated Prudential Sourcebook

## Schedule 2

### Notification requirements

#### G

- 1 There are no notification requirements in *PRU* 1 or *PRU* 8. This Schedule does not cover any other chapter of *PRU*.

# The Integrated Prudential Sourcebook

## Schedule 3

### Fees and other required payments

#### G

- 1 There are no requirements for fees or other payments in *PRU 1* or *PRU 8*. This Schedule does not cover any other chapter of *PRU*.

# The Integrated Prudential Sourcebook

## Schedule 4

### Powers Exercised

#### G

- 1 The following powers and related provision in the *Act* have been exercised by the *FSA* to make the *rules* in *PRU 1* and *PRU 8*:
  - (1) section 138 (General rule -making power)
  - (2) section 150(2) (Actions for damages)
  - (3) section 156 (General Supplementary powers).
- 2 The following power in the *Act* has been exercised by the *FSA* to give the *guidance* in *PRU 1* and *PRU 8*:

Section 157(1) (Guidance).
- 3 This Schedule does not cover any other chapter of *PRU*.

## Schedule 5

### Rights of action for damages

G

- 1 The table below sets out the rules in *PRU* contravention of which by an *authorised person* may be actionable under section 150 of the *Act* (Actions for damages) by a person who suffers loss as a result of the contravention.
- 2 If a "Yes" appears in the column headed "For private person", the *rule* may be actionable by a *private person* under section 150 (or, in certain circumstances, his fiduciary or representative; see article 6(2) and (3)(c) of the Financial Services and Markets Act 2000 (Rights of Action) Regulations 2001 (SI 2001 No 2256)). A "Yes" in the column headed "Removed" indicates that the *FSA* has removed the right of action under section 150(2) of the *Act*. If so, a reference to the *rule* in which it is removed is also given.
- 3 The column headed "For other person" indicates whether the *rule* may be actionable by a person other than a *private person* (or his fiduciary or representative) under article 6(2) and (3) of those Regulations. If so, an indication of the type of person by whom the *rule* may be actionable is given.
- 4 Table

Chapter/Appendix	Section/Annex	Rights of action under section 150			
		For private person	Removed	For other person	
All <i>rules</i> in <i>PRU</i>		No	Yes ( <i>PRU</i> 1.8.1R)	No	

# The Integrated Prudential Sourcebook

## Schedule 6

### Rules that can be waived

#### G

- 1 The *rules* in *PRU 8* can be waived by the *FSA* under section 148 of the *Act* (Modification or waiver of rules). This Schedule does not cover any other chapter of *PRU*.

## Annex H

### Amendments to the Authorisation manual

In this Annex, underlining indicates new text.

Connected persons

3.9.22 G (1) ...

- (1A) The *Financial Groups Directive Regulations* make special provision where the *FSA* is exercising its functions under Part IV of the *Act* (Permission to carry on regulated activities) for the purposes of carrying on supplementary supervision. Broadly, where the *FSA*, in the course of carrying on supplementary supervision, is considering varying the *Part IV permission* of a *person* who is a member of a group which is a *financial conglomerate*, the consultation provisions in section 49(2) of the *Act* are disapplied. In their place, the regulations impose special obligations, linked to the *Financial Groups Directive*, to obtain the consent of the relevant *competent authorities*, to consult those authorities and to consult with the group itself.

## Annex I

### Amendments to the Supervision manual

In this Annex underlining indicates new text and striking through indicates deleted text. Where an entire section of text is being deleted or inserted, the place where the change will be made is indicated and the text is not struck through or underlined.

3.9.5 R Table Auditor's report

...

whether in the auditor's opinion:	
(14)	... if the <i>firm</i> prepares a consolidated <del>reporting statement</del> <u>supervision return</u> at its <i>accounting reference date</i> , that it has been prepared in accordance with the <i>rules</i> .

...

When will the FSA grant an application for variation of permission?

...

6.3.31 G In considering whether to grant a *firm's* application to vary its *Part IV permission*, the *FSA* will also have regard, under section 49(1) of the *Act* (Persons connected with an applicant), to any ~~person~~ person appearing to be, or likely to be, in a relationship with the *firm* which is relevant (see *AUTH 3.9.22G* to *AUTH 3.9.24G* (Connected persons)). The *Financial Groups Directive Regulations* make special consultation provisions where the *FSA* is exercising its functions under Part IV of the *Act* (Permission to carry on regulated activities) for the purposes of carrying on supplementary supervision – see *AUTH 3.9.22G(1A)*.

...

7.3: Criteria for varying a firm's permission

...

7.3.2 G The *FSA* may seek to vary a *firm's Part IV permission* on its own initiative in certain situations, including the following:

...

(4) If a *firm* is a member of a *financial conglomerate* and the *FSA* is implementing supplementary supervision under the *Financial Groups Directive* with respect to that *financial conglomerate* by imposing obligations on the *firm*. Further material on this can be found in *PRU 8.4* (Cross sector groups) and *SUP 16.7.73R* to *SUP*

16.7.74R (reporting requirements with respect to *financial conglomerates*).

...

8.9: Decision making

...

8.9.2 G If the FSA, in the course of carrying on supplementary supervision of a *financial conglomerate*, is considering exercising its powers under section 148 of the *Act* (Modification or waiver of rules), regulation 4 of the *Financial Groups Directive Regulations* contains special provisions. The FSA must, in broad terms, do two things. Where required by those regulations, it must obtain the consent of the relevant competent authorities of the group. And, where required by those Regulations, it must consult those competent authorities.

...

11.5: Form of notification by firms

...

11.5.4A G *Firms* are also reminded that a change in *control* may give rise to a notification as a *financial conglomerate* or a change in the supplementary supervision of a *financial conglomerate* (see PRU 8.4 (Cross sector groups) and PRU 8.5 (Third country groups)).

...

The FSA's timeframe for responding to a notification

...

11.7.13 G Before giving an approval notice or *warning notice*, the FSA ~~may be required to consult with~~ must comply with certain requirements as to consultation with competent authorities outside the *United Kingdom* (sections 183(2) and 188(2) of the *Act* and the *Financial Services and Markets Act 2000 (Consultation with Competent Authorities) Regulations 2001*). The *Financial Groups Directive Regulations* make special provision in relation to (the change in *control* over a UK authorised person (within the meaning of section 178(4) of the *Act*) which is a member of a *third country group*.

...

After SUP 15.8.7G insert the following new section SUP 15.9:

15.9 Notifications by members of financial conglomerates

15.9.1 R A *firm* that is a *regulated entity* must notify the FSA immediately it becomes aware that any *consolidation group* of which it is a member:

- (1) is a *financial conglomerate*; or
- (2) has ceased to be a *financial conglomerate*.

- 15.9.2 R (1) A *firm* that is a *regulated entity* must establish whether or not any *consolidation group* of which it is a member:
- (a) is a *financial conglomerate*; or
  - (b) has ceased to be a *financial conglomerate*;
- if:
- (c) the *firm* believes; or
  - (d) a reasonable *firm* that is complying with the requirements of the *regulatory system* would believe; that it is likely that (a) or (b) is true.
- (2) A *firm* does not need to determine whether (1)(a) is the case if the *consolidation group* is already being regulated as a *financial conglomerate*.
- (3) A *firm* does not need to determine whether (1)(b) is the case if notification has already been given as contemplated by SUP 15.9.4R
- 15.9.3 G A *firm* should consider the requirements in SUP 15.9.2R on a continuing basis, and in particular, when the *group* prepares its financial statements and on the occurrence of an event affecting the *consolidated group*. Such events include, but are not limited to, an acquisition, merger or sale.
- 15.9.4 R A *firm* does not have to give notice to the *FSA* under SUP 15.9.1R if it or another member of the *consolidation group* has already given notice of the relevant fact to:
- (1) the *FSA*; or
  - (2) (if another *competent authority* is *co-ordinator* of the *financial conglomerate*) that *competent authority*; or
  - (3) (in the case of a *financial conglomerate* that does not yet have a *co-ordinator*) the *competent authority* who would be *co-ordinator* under Article 10(2) of the *Financial Groups Directive* (Competent authority responsible for exercising supplementary supervision (the *co-ordinator*)).

...

#### Reports from groups

- 16.3.25 G If this chapter requires the submission of a report covering a *group*, a single report may be submitted, and so satisfy the requirements of all *firms* in the *group*. Such a report should contain the information required from all of them, meet all relevant due dates and indicate all the *firms* on whose behalf it is submitted; if necessary a separate covering sheet should list the *firms* on whose behalf a report is submitted. Nevertheless, the requirement to provide a report, and the responsibility for the report, remains with each *firm* in the *group*. However, reporting requirements that apply to a *firm*, by reason of the *firm* being a member of a *financial conglomerate*, are imposed on only one member of the *financial conglomerate* (see, for example, SUP 16.7.73R).

...

16.4.5 R Reporting requirement

(4) ...

(4A) A firm that is a regulated entity must include in its report to the FSA under (1) whether any consolidation group of which it is a member is a third-country banking and investment group.

(4B) A firm does not have to give notice to the FSA under (4A) if it, or another member of the third-country banking and investment group, has already given notice to the FSA of the relevant fact.

(5) ...

...		

- 16.7.69R A UCITS management company must submit the ~~required~~ reports in SUP 16.7.68R in accordance with, and in the same format as:
- (1) the forms contained in SUP 16 Ann 16R, and ~~according to the requirements contained in~~ as required by section 3 of that annex; and
  - (2) the form contained in SUP 16 Ann 20R, and having regard to SUP 16 Ann 21G.

...

After SUP 16.7.72R, insert the following new rules, SUP 16.7.73R and SUP 16.7.74R:

#### Financial conglomerates

- 16.7.73 R (1) A *firm* that is a member of a *financial conglomerate* must submit financial reports to the *FSA* in accordance with the table in SUP 16.7.74R if:
- (a) it is at the head of an *FSA regulated EEA financial conglomerate*; or
  - (b) its *Part IV permission* contains a relevant *requirement*.
- (2) In (1)(b), a relevant *requirement* is one which:
- (a) applies SUP 16.7.74R to the *firm*; or
  - (b) applies SUP 16.7.74R to the *firm* unless the *mixed financial holding company* of the *financial conglomerate* to which the *firm* belongs submits the report required under this *rule* (as if the *rule* applied to it).

- 16.7.74 R Table Financial reports from a member of a financial conglomerate (see SUP 16.7.73R)

Content of Report	Form (Note 1)	Frequency	Due Date
Calculation of supplementary capital adequacy requirements in accordance with one of the four technical calculation methods	Note 2	Note 5	Note 5
Identification of significant <i>risk concentration</i> levels	Note 3	Yearly	4 months after year end
Identification of significant <i>intra-group transactions</i>	Note 4	Yearly	4 months after year end
Report on compliance with <i>PRU</i> 8.4.35R where it applies	Note 6	Note 5	Note 5

Note 1 = When giving the report required, a *firm* must use the form indicated, if any.

Note 2 = If Part 1 of *PRU* 8 Annex 1 (method 1), Part 2 of *PRU* 8 Annex 1 (method 2), or Part 3 of *PRU* 8 Annex 1 (method 3) applies, there is no specific form. Adequate information must be provided, and each *financial conglomerate* for which the *FSA* is the *co-ordinator* must discuss with the *FSA* how to do this.

If Part 4 of *PRU* 8 Annex 1 applies (method 4):

- (1) a *banking conglomerate* must use form *SUP* 16 Ann 1R (BSD3);
- (2) a *building society conglomerate* must use form *SUP* 16 Ann 3R (MFS1 Tables D&F);
- (3) an *investment services conglomerate* must use form *SUP* 16 Ann 20R;
- (4) an *insurance conglomerate* must use the Parent Undertaking Reporting Format example in GN 10.1 of *IPRU(INS)*.

Note 3 = Rather than specifying a standard format for each *financial conglomerate* to use, each *financial conglomerate* for which the *FSA* is the *co-ordinator* must discuss with the *FSA* the form of the information to be reported. This should mean that usual information management systems of the *financial conglomerate* can be used to the extent possible to generate and analyse the information required.

When reviewing the *risk concentration* levels, the *FSA* will in particular monitor the possible risk of contagion in the *financial conglomerate*, the risk of a conflict of interests, the risk of circumvention of sectoral *rules*, and the level or volume of risks.

Note 4 = For the purposes of this reporting requirement, an *intra-group transaction* will be presumed to be significant if its amount exceeds 5% of the total amount of capital adequacy requirements at the level of the *financial conglomerate*.

Rather than specifying a standard format for each *financial conglomerate* to use,

each *financial conglomerate* for which the *FSA* is the *co-ordinator* will need to discuss with the *FSA* the form of the information to be reported. This should mean that usual information management systems of the *financial conglomerate* can be used to the extent possible to generate and analyse the information required.

When reviewing the *intra-group transactions*, the *FSA* will in particular monitor the possible risk of contagion in the *financial conglomerate*, the risk of a conflict of interests, the risk of circumvention of *sectoral rules*, and the level or volume of risks.

Note 5 = The frequency and due date will be as follows:

1. *banking conglomerate*: frequency is half-yearly with due date 20 *business days* after period end (24 *business days* if submitted electronically);
2. *building society conglomerate*: frequency is quarterly with due date seven *business days* after *month end* (largest societies) and ten *business days* after *month end* (other societies);
3. *investment services conglomerate*: frequency is half yearly with due date three *months* after period end;
4. *insurance conglomerate*: frequency is yearly with due date four *months* after period end for the capital adequacy return and three *months* after period end for the *intra-group transactions*.

Note 6 = Adequate information must be added as a separate item to the relevant form for sectoral reporting.

...

Ann 2G: Guidance notes on completion of banks' reporting forms (including validations)

In "Form BSD3 –Reporting instructions", "D400-D470 Deductions from capital", insert the following paragraph at the end of item D460:

Where the reporting institution is required to deduct the amount of material insurance holdings (see IPRU (BANK) Chapter CA, section 10.2), the deduction should be the higher of the book value and the regulatory capital requirement of the affiliate concerned, the latter pro rata to the interest held. The book value should already have been included in item A160, and deducted from capital in item D400; where the regulatory capital requirement is a higher figure, the difference over the book value should be included here.

Ann 3R: Building societies' reporting forms  
Building society quarterly statement - QFS1; D Capital Available: Own Funds: Society and Group

Note (d) Capital instruments in other CFI's, deductions in respect of ~~life companies~~ material insurance holdings, mortgage indemnity insurance captives, securitisations etc. - [Chapter 1 (Solvency) of Volume 1 of the IPSB for building societies refers].

...

Ann 4G: Guidance notes on completion of building societies' reporting forms  
Quarterly statement QSF1 – Guidance notes; Section D: Capital available: own funds

#### D3.1 Deductions not shown elsewhere

Deduct all holdings of capital instruments of other credit or financial institutions, CFIs. (See Annex of P/G for fuller definitions). This means holdings of share capital in a society's connected undertakings. For society columns it is any such holdings in CFIs; for Group columns only include holdings in such bodies that are not consolidated in Group figures.

Also include deductions (described in P/G) in respect of the following: ~~life and general insurance companies~~ material insurance holdings, mortgage indemnity insurance captives, securitisations, etc.

...

After SUP 16 Ann 19, insert the following new provisions, SUP 16 Ann 20R and SUP 16 Ann 21G:

SUP 16 ANN 20R: CONSOLIDATED SUPERVISION RETURN FOR INVESTMENT FIRMS

PART 1: GROUP FINANCIAL RESOURCES:

Name of regulated firm:

Name of ultimate EEA financial holding company for group (“parent”):

Group Tier 1:

ordinary share capital  
 share premium  
 audited consolidated reserves  
 non-cumulative preference shares  
 other reserves  
 minority interests  
 externally verified interim profits  
 Less:  
 intangible assets  
 material unaudited consolidated losses since balance sheet date (for half-yearly return)

A1

Group Tier 2:

non-fixed-term cumulative preference shares  
 non-fixed-term long term subordinated loans  
 consolidated revaluation reserves  
 minority interests  
 fixed-term cumulative preference shares  
 fixed-term long term subordinated loan  
 minority interests

B1

Group Tier 3:

short term subordinated loan  
 unaudited consolidated trading book profits  
 Total Group Tier 3:  
 Group Material Holdings in credit and financial institutions:

C

D1

investments in own shares

*B2*

*Group Material  
Insurance Holdings:*

*D2*

Total Group Net Tier 1:

*A2*

Total Group Tier 2:  
B=B1+B2

*B*

Group Financial Resources:

*E*

E = A2 + B1 + B2 + C – D1 – D2  
B, B1, B2, and C are subject to eligibility limits as set out in the relevant chapter of IPRU(INV).

PART 2: GROUP FINANCIAL RESOURCES REQUIREMENT:

Name of regulated firm:

Name of ultimate EEA financial holding company for group (“parent”):

F	F1	F2
Name of <i>subsidiary</i> or <i>participation</i>	% ownership	Local regulator (or state if unregulated)

G	H
Financial Resources Requirement of F	State how Financial Resources Requirement has been calculated.

--

---

Total Group Surplus / (Deficit) (=E-K)

(L)

SUP 16 ANN 21G: CONSOLIDATED SUPERVISION RETURN FOR INVESTMENT FIRMS

Notes to the completion of Part 1: Group Financial Resources

Ref	Notes
A1	The material unaudited consolidated losses since balance sheet date only need to be reported on in the half-yearly return.
A2	<p>The Group should calculate its financial resources based on the consolidated financial statements prepared at the level of the ultimate EEA financial holding company in the group. The financial statements should be prepared in accordance with the relevant accounting standards but investments in insurance companies should be de-consolidated.</p> <p>The Group Tier 1 capital should be calculated by taking the relevant capital items from the consolidated balance sheet. Deductions must be made in arriving at Tier 1 for intangible assets (including goodwill arising from consolidation), investments in own shares and for material unaudited losses since the balance sheet date. Unaudited losses should be regarded as material if they exceed 10% of Group Tier 1 before taking into account this deduction.</p>
B1	This is the sum of non-fixed-term (undated) cumulative preference shares, non-fixed-term (undated) long-term subordinated loans and revaluation reserves and other consolidated reserves.
B2	This is the sum of fixed-term cumulative preference shares and fixed-term long-term subordinated loans.
C	The total of short-term subordinated loans external to the group and unaudited consolidated profits arising from trading book activities should be shown here.
D1	The definition of material holdings in non-group credit institutions and investment firms should be derived on the basis of the prudential rules applied to the most significant sector in the group except that references to “own funds” should be replaced by “consolidated own funds”. For this purpose consolidated own funds is equal to A+B after the application of the eligibility limits as set out in the relevant chapter of IPRU(INV).
D2	Insurance members of the group should be de-consolidated and material insurance holdings should be deducted here. They normally represent the book value of the investment in insurance undertakings, reinsurance undertakings and insurance holding companies in which the group holds a participation, unless the group’s share of the undertaking’s notional or local requirement is higher, in which case, there is a

Ref	Notes
	deduction in full.
E	<p>The Group Financial Resources should be shown here. This represents the sum of eligible capital in A, B1, B2 and C, minus the deductions in D1 and D2. No other deductions should be made. Liquidity adjustments and other similar deductions that are made at the solo level should be included in the Group Financial Resources Requirement.</p> <p>The limits applied at the group level to the inclusion of items in the group financial resources should be the same as the limits applied at the level of the main firm in the group.</p>

Notes to the completion of PART 2: Group Financial Resources Requirement

Ref	Notes
F	<p>List the name of each <i>subsidiary</i> and <i>participation</i>.</p> <p>A <i>firm</i> may combine several entities together where these are not material in relation to the group. For example, entities where total assets are in aggregate less than 5% of the group's total assets. The <i>firm</i> should list the relevant entities in a note to the return and should be able to demonstrate the contribution of the individual entities to the group calculation.</p>
F1	<p>List the percentage interest in the <i>subsidiary</i> or <i>participation</i> held by the parent. If the shares are not held directly by the parent, but by another group company, enter the effective percentage interest of the parent in the company. Where the entity is a <i>subsidiary</i> of a <i>subsidiary</i> of the parent, indicate (S) after the effective percentage interest. Such an entity will be treated as a <i>subsidiary</i> of the parent and will be included in full in the calculations.</p>
F2	<p>Specify if the <i>subsidiary</i> or <i>participation</i> is regulated by the <i>FSA</i> or another regulator. If the entity is unregulated, state "unregulated".</p>
G	<p>The financial resources requirement of entity F should be shown here. The financial resources requirement for a participation must be pro-rated (i.e. it should be multiplied by F1).</p> <p>This should be equal to the solo financial resources requirement plus any deductions from own funds made in arriving at the solo financial resources.</p> <p>In the case of a firm regulated by the FSA under IPRU(INV) Chapter 5 rules (as an investment management firm) this should be equal to the financial resources requirement calculated in accordance with IPRU(INV) 5.2.3 plus the illiquid assets adjustment calculated in accordance with IPRU(INV) Table 5.2.2(1) part II paragraph 10, but less any qualifying property adjustment.</p> <p>For unregulated firms this should be equal to the proxy financial resources requirement, which should also include illiquid assets and other deductions (where appropriate).</p>
G1	<p>This is the sum of figures in column G.</p>
H	<p>Details of the method used to calculate G (the financial resources requirement) for each firm should be given here. For example for an</p>

<i>Ref</i>	<i>Notes</i>
	<p>FSA-regulated firm column H should contain the IPRU reference (eg IPRU(INV) Chapter 5). For an overseas regulated firm where the prudential calculation is recognised by FSA as being equivalent the applicable overseas regulator should be given.</p> <p>For proxy requirements for unregulated firms column H should state the regulatory rules that have been applied to calculate the proxy requirement.</p>
I	<p>The financial resources requirement of the parent should be shown here.</p> <p>This should be equal to the solo financial resources requirement (excluding any large exposures requirement and requirements in respect of intra-group balances) and any adjustments made to financial resources in accordance with Rule 14.4.3R.</p>
J	<p>The group large exposures requirement should be shown here. This will only be calculated if there are trading book activities within the group.</p>
K	<p>The Group Financial Resources Requirement should be shown here. It is equal to the sum of G1, I and J.</p>
L	<p>The overall group surplus or deficit is equal to the difference between the Total Group Financial Resources (E) and the Group Financial Resources Requirement (K).</p>

...

*ELM* 2.4.2R Table: Calculation of initial capital and own funds

...

~~material holdings in financial institutions or credit institutions~~ the total amount of material holdings in certain persons (see *ELM* 2.4.17R)

...

*ELM* 2.4.17R Material holdings

- (1) The total amount of a firm's material holdings as referred to at stage F of the calculation in the table in *ELM* 2.4.2R is ~~in financial institutions or credit institutions~~ are the sum of:

- (a) the total value of all *ownership shares* and all ~~subordinated loan~~ capital coming within (6) owned by the *firm* (or in which it has a position) in any *relevant financial services company* or *financial institution* in which the *firm* owns more than 10% of the *ownership shares*; ~~and~~
- (b) the amount by which the total amount specified in (3) exceeds 10% of the *firm's own funds* (calculated before the deduction of *material holdings* at stage F of the calculation in *ELM 2.4.2 R*);<sub>2</sub>
- (c) *ownership shares* in any:
- (i) *insurance undertaking*; or
- (ii) *insurance holding company*;
- if it fulfils one of the following conditions:
- (iii) it is a *subsidiary undertaking* of the *firm*; or
- (iv) the *firm* holds a *participation* in it; and
- (d) any item of capital of a type referred to in (6) in an *insurance undertaking* or *insurance holding company* coming within (1)(c).
- (2) ...
- (3) The amount referred to in (1)(b) is the sum of the total value of all the *ownership shares* and all ~~subordinated loan~~ capital coming within (6) owned by the *firm* (or in which it has a position) in *financial institutions* or ~~*credit institutions*~~ *relevant financial services companies* except for *financial institutions* or ~~*credit institutions*~~ *relevant financial services companies* that fall into (1)(a).
- (4) The *firm* must include *ownership shares* and ~~subordinated loan capital~~ any item of capital of the type referred to in (6); and *ownership shares*<sub>2</sub> and ~~subordinated loan capital~~
- (a) of which it is not the registered owner but which it owns beneficially;  
or
- (b) that are or should be included as an asset in its accounting records.
- (5) The value of *ownership shares* and ~~subordinated loan~~ capital coming within (6) for the purposes of *ELM 2.4.17R* ~~(1)(a) and (3)~~ is the full balance sheet value.
- (6) An item falls into this paragraph if it is a subordinated debt or other item of capital that:

- (a) (in the case of an *insurance undertaking* or *insurance holding company*) falls into Article 16(3) of the *First Non-Life Directive* or, as applicable, Article 27(4) of the *Consolidated Life Directive*; or
- (b) (in the case of a *relevant financial services company* or *financial institution*) falls into Article 35 or Article 36(3) of the *Banking Consolidation Directive*.

...

After ELM 7.8.8G insert the following new provisions, ELM 7.8.9G and ELM 7.8.10G:

- 7.8.9 G If a *firm* is linked to other *financial services undertakings* by a *consolidation Article 12(1) relationship*, the *FSA* will determine how to apply the provisions of this chapter.
- 7.8.10 G If a *firm* is part of a *financial conglomerate*, the provisions of *PRU 8.4* apply. If a *firm* is part of a *third-country group*, the provisions of *PRU 8.5* apply.

**Annex L**  
**Amendments to the Glossary**

**PART 1 (NEW DEFINITIONS)**

In this part of this Annex, all the text is new and is not underlined.

*ancillary insurance services undertaking* (in relation to any *undertaking* in a *consolidation group, sub-group* or other group of *persons*) an *undertaking* complying with the following conditions:

- (a) its principal activity consists of:
  - (i) owning or managing property; or
  - (ii) managing data-processing services; or
  - (iii) any other similar activity;
- (b) the activity in (a) is ancillary to the principal activity of one or more *insurance undertakings*;
- (c) those *insurance undertakings* are also members of that *consolidation group, sub-group* or other group of *persons*; and
- (d) (for the purpose of *PRU 8.4* (Cross sector groups), *PRU 8.5* (Third country groups), *PRU 8 Ann 1R* (Capital adequacy calculations for financial conglomerates) and *PRU 8 Ann 2R* (Prudential rules for third country groups) it is not an *ancillary banking services undertaking*.

*ancillary investment services undertaking* (in relation to any *undertaking* in a *consolidation group, sub-group* or other group of *persons*) an *undertaking* complying with the following conditions:

- (a) its principal activity consists in:
  - (i) owning or managing property; or
  - (ii) managing data-processing services; or
  - (iii) any other similar activity;
- (b) the activity in (a) is ancillary to the principal activity of one or more *investment firms*;
- (c) those *investment firms* are also members of that *consolidation group, sub-group* or other group of *persons*; and

	(d) (for the purpose of <i>PRU 8.4</i> (Cross sector groups), <i>PRU 8.5</i> (Third country groups), <i>PRU 8 Ann 1R</i> (Capital adequacy calculations for financial conglomerates) and <i>PRU 8 Ann 2R</i> (Prudential rules for third country groups) it is not an <i>ancillary banking services undertaking</i> .
<i>applicable sectoral consolidation rules</i>	(in respect of a <i>financial sector</i> and in accordance with paragraph 6.10 of <i>PRU 8 Ann 1R</i> (Applicable sectoral consolidation rules)) the <i>FSA's sectoral rules</i> about capital adequacy and solvency on a consolidated basis applicable to that <i>financial sector</i> under the table in paragraph 6.11 of <i>PRU 8 Ann 1R</i> .
<i>applicable sectoral rules</i>	(in respect of a <i>financial sector</i> ) <i>applicable sectoral consolidation rules</i> for that <i>financial sector</i> and the <i>FSA's sectoral rules</i> about capital adequacy and solvency applicable to that <i>financial sector</i> under the table in paragraph 6.8 of <i>PRU 8 Ann 1R</i> ; which of those sets of <i>rules</i> apply for the purpose of a particular calculation depends on the nature of that calculation.
<i>asset management company</i>	(for the purpose of <i>ELM</i> and <i>PRU 8</i> (Group risk) and in accordance with Article 2(5) of the <i>Financial Groups Directive</i> (Definitions)) a management company within the meaning of Article 1a(2) of the <i>UCITS Directive</i> , as well as an <i>undertaking</i> the registered office of which is outside the <i>EEA</i> and which would require authorisation in accordance with Article 5(1) of the <i>UCITS Directive</i> if it had its registered office within the <i>EEA</i> .
<i>Bank Accounts Directive</i>	Council Directive 86/635/EEC of 8 December 1986 on the annual accounts and consolidated accounts of banks and other financial institutions.
<i>banking and investment group</i>	a group of <i>persons</i> (at least one of which is an <i>EEA regulated entity</i> that is a <i>credit institution</i> or an <i>investment firm</i> ) who: <ul style="list-style-type: none"> <li>(a) form a group in respect of which the consolidated capital adequacy requirements for the <i>banking sector</i> or the <i>investment services sector</i> under: <ul style="list-style-type: none"> <li>(i) the <i>FSA's sectoral rules</i>; or</li> <li>(ii) the <i>sectoral rules</i> of another <i>competent authority</i>; apply; or</li> </ul> </li> <li>(b) would form such a group if the scope of those <i>sectoral rules</i> were amended as described in paragraph 3.1 of <i>PRU 8 Ann 2R</i> (removing restrictions relating to place of incorporation or head office of members of those <i>financial sectors</i>).</li> </ul>

<i>banking conglomerate</i>	a <i>financial conglomerate</i> identified as a banking conglomerate in the decision tree in paragraph 4.5 of <i>PRU 8 Ann 1R</i> (Decision tree for types of <i>financial conglomerate</i> and definition of <i>most important financial sector</i> ).
<i>banking sector</i>	a sector composed of one or more of the following entities: <ul style="list-style-type: none"> <li>(a) a <i>credit institution</i>;</li> <li>(b) a <i>financial institution</i>; and</li> <li>(c) an <i>ancillary banking services undertaking</i>.</li> </ul>
<i>broker/manager</i>	a <i>firm</i> with <i>permission</i> for <i>dealing in investments as agent or managing investments</i> (including an <i>operator</i> of an <i>unregulated collective investment scheme</i> ) but which: <ul style="list-style-type: none"> <li>(a) does not have <i>permission</i> to <i>deal in investments as principal</i>;</li> <li>(b) is not a <i>UCITS management company</i>;</li> <li>(c) is not an <i>insurer</i>; and</li> <li>(d) is not a <i>bank</i>, a <i>building society</i> or an <i>ELMI</i>.</li> </ul>
<i>building society conglomerate</i>	a <i>financial conglomerate</i> identified as a <i>building society conglomerate</i> in the decision tree in paragraph 4.5 of <i>PRU 8 Ann 1R</i> (Decision tree for types of <i>financial conglomerate</i> and definition of <i>most important financial sector</i> ).
<i>coordinator</i>	(in relation to a <i>financial conglomerate</i> ) the <i>competent authority</i> which has been appointed, in accordance with Article 10 of the <i>Financial Groups Directive</i> (Competent authority responsible for exercising supplementary supervision (the coordinator)), as the <i>competent authority</i> which is responsible for the co-ordination and exercise of supplementary supervision of that <i>financial conglomerate</i> .
<i>conglomerate capital resources</i>	(in relation to a <i>financial conglomerate</i> with respect to which <i>PRU 8.4.29R</i> (Application of methods 1, 2 or 3 from Annex I of the <i>Financial Groups Directive</i> ) applies) capital resources as defined in whichever of paragraphs 1.1, 2.1 or 3.1 of <i>PRU 8 Ann 1R</i> (Capital adequacy calculations for financial conglomerates) applies with respect to that <i>financial conglomerate</i> .
<i>conglomerate capital resources requirement</i>	(in relation to a <i>financial conglomerate</i> with respect to which <i>PRU 8.4.29R</i> (Application of methods 1, 2 or 3 from Annex I of the <i>Financial Groups Directive</i> ) applies) the capital resources requirement defined in whichever of paragraphs 1.3, 2.4 or 3.3 of <i>PRU 8 Ann 1R</i> (Capital adequacy calculations for financial conglomerates) applies with respect to that <i>financial conglomerate</i> .

*consolidation Article 12(1) relationship*

a relationship between one *undertaking* (the first undertaking) and one or more other *undertakings* satisfying the conditions set out in Article 12(1) of the *Seventh Company Law Directive*, which in summary are as follows:

- (a) those *undertakings* are not connected, as described in article 1(1) or (2) of that Directive; and
- (b) one of the following conditions is satisfied:
  - (i) they are managed on a unified basis pursuant to a contract concluded with the first undertaking or provisions in the memorandum or articles of association of those *undertakings*; or
  - (ii) the administrative, management or supervisory bodies of those *undertakings* consist, for the major part, of the same *persons* in office during the financial year in respect of which it is being decided whether such a relationship exists.

*consolidation group*

the following:

- (a) a *conventional group*; or
- (b) *undertakings* linked by a *consolidation Article 12(1) relationship*.

If a *parent undertaking* or *subsidiary undertaking* in a *conventional group* (the first person) has a *consolidation Article 12(1) relationship* with another *person* (the second person), the second person (and any *subsidiary undertaking* of the second person) is also a member of the same *consolidation group*.

*conventional group*

(for the purposes of PRU 8 (Group Risk)) a group of *undertakings* that consists of a *parent undertaking* and the rest of its *sub-group*.

*EEA banking and investment group*

a *banking and investment group* that satisfies one or more of the following conditions:

- (a) it is headed by:
  - (i) an *investment firm* or *credit institution* that is authorised and incorporated in an *EEA State*; or
  - (ii) a *financial holding company* that has its head office in an *EEA State*; or
- (b) it has as a member an *investment firm* or *credit institution* that:

- (i) is authorised and incorporated in an *EEA State*; and
- (ii) is linked with another member that is in the *banking sector* or the *investment services sector* by a *consolidation Article 12(1) relationship*; or
- (c) it is otherwise required by *EEA prudential sectoral legislation* for the *banking sector* or the *investment services sector* (except Article 56a of the *Banking Consolidation Directive* (Third-country parent undertakings)) to be subject to consolidated supervision by a *competent authority*.

*EEA financial conglomerate* a *financial conglomerate* that is of a type that falls under Article 5(2) of the *Financial Groups Directive* (Scope of supplementary supervision of *regulated entities* referred to in Article 1 of that Directive) which in summary means a *financial conglomerate*:

- (a) that is headed by an *EEA regulated entity*; or
- (b) in which the *parent undertaking* of an *EEA regulated entity* is a *mixed financial holding company* which has its head office in the *EEA*; or
- (c) in which an *EEA regulated entity* is linked with a member of the *financial conglomerate* in the *overall financial sector* by a *consolidation Article 12(1) relationship*.

*EEA prudential sectoral legislation*

(in relation to a *financial sector*) requirements applicable to *persons* in that *financial sector* in accordance with *EEA* legislation about prudential supervision of *regulated entities* in that *financial sector* and so that:

- (a) (in relation to the *banking sector* and the *investment services sector*) in particular this includes the requirements laid down in the *Banking Consolidation Directive* and the *Capital Adequacy Directive*; and
- (b) (in relation to the *insurance sector*) in particular this includes requirements laid down in the *First Non-Life Directive*, the *Consolidated Life Directive* and the *Insurance Groups Directive*.

*EEA regulated entity*

a *regulated entity* that is an *EEA firm* or a *UK firm*.

*exempt CAD firm*

(in accordance with Article 2(2) of the *Capital Adequacy Directive* (Definitions)) a *firm* that satisfies the following conditions:

- (a) it is an *ISD investment firm*;
- (b) it is not an *insurer*, a *bank*, a *building society* or an *ELMI*;

	(c) its <i>permission</i> is subject to a <i>limitation or requirement</i> preventing it from holding <i>client money</i> or <i>clients' assets</i> and for that reason it may not at any time place itself in debit with its <i>clients</i> ; and
	(d) the only <i>core investment service</i> for which it has <i>permission</i> is receiving and transmitting on behalf of investors orders in relation to one or more of the instruments listed in Section B of the Annex to the <i>ISD</i> .
<i>financial conglomerate</i>	(in accordance with Article 2(14) of the <i>Financial Groups Directive</i> (Definitions)) a <i>consolidation group</i> that is identified as a <i>financial conglomerate</i> by the <i>financial conglomerate definition decision tree</i> .
<i>financial conglomerate definition decision tree</i>	the decision tree in <i>PRU 8 Ann 4R</i> .
<i>Financial Groups Directive</i>	Directive 2002/87/EC of the European Parliament and of the Council of 16 December 2002 on the supplementary supervision of credit institutions, insurance undertakings and investment firms in a financial conglomerate.
<i>Financial Groups Directive Regulations</i>	<i>[To be included in the Glossary when those Regulations are made]</i>
<i>financial sector</i>	one of the <i>banking sector</i> , the <i>insurance sector</i> or the <i>investment services sector</i> .
<i>FSA regulated EEA financial conglomerate</i>	a <i>financial conglomerate</i> (other than a <i>third-country financial conglomerate</i> ) that satisfies one of the following conditions: <ul style="list-style-type: none"> <li>(a) <i>PRU 8.4.26R</i> or <i>PRU 8.4.29R</i> (Capital adequacy calculations for <i>financial conglomerates</i>) applies with respect to it; or</li> <li>(b) a <i>firm</i> that is a member of that <i>financial conglomerate</i> is subject to obligations imposed through its <i>Part IV permission</i> to ensure that that <i>financial conglomerate</i> meets levels of capital adequacy based or stated to be based on Annex I of the <i>Financial Groups Directive</i>.</li> </ul>
<i>insurance conglomerate</i>	a <i>financial conglomerate</i> identified as an insurance conglomerate in the decision tree in paragraph 4.5 of <i>PRU 8 Ann 1R</i> (Decision tree for types of <i>financial conglomerate</i> and definition of <i>most important financial sector</i> ).
<i>Insurance Groups Directive</i>	Directive of the European Parliament and of the Council of 27 October 1998 on the supplementary supervision of insurance undertakings in an insurance group (1998/78/EC).

- insurance holding company* (1) a *parent undertaking*, other than an *insurance undertaking*, the main business of which is to acquire and hold participations in *subsidiary undertakings* and which fulfils the following conditions:
- (a) its *subsidiary undertakings* are either exclusively or mainly *insurance undertakings*;
  - (b) at least one of those *subsidiary undertakings* is a *UK insurer* or an *EEA firm* that is a *regulated insurance entity*; and
  - (c) it is not a *mixed financial holding company*.
- (2) For the purposes of:
- (a) the definition of the *insurance sector*; and
  - (b) *ELM*;
- paragraph (1)(b) of this definition does not apply.
- insurance sector* a sector composed of one or more of the following entities:
- (a) an *insurance undertaking*;
  - (b) an *insurance holding company*; and
  - (c) (in the circumstances described in *PRU 8.4.39R* (The financial sectors: Asset management companies)) an *asset management company*.
- intra-group transactions* (in accordance with Article 2(18) of the *Financial Groups Directive* (Definitions)) all transactions by which *regulated entities* within a *financial conglomerate* rely either directly or indirectly upon other *undertakings* within the same *financial conglomerate* or upon any *person* linked to the *undertakings* within that *financial conglomerate* by *close links*, for the fulfilment of an obligation whether or not contractual, and whether or not for payment.
- investment services conglomerate* a *financial conglomerate* identified as an investment services conglomerate in the decision tree in paragraph 4.5 of *PRU 8 Ann 1R* (Decision tree for types of *financial conglomerate* and definition of *most important financial sector*).
- investment services sector* a sector composed of one or more of the following entities:
- (a) an *investment firm*;
  - (b) a *financial institution*; and

- (c) (in the circumstances described in *PRU 8.4.39R* (The financial sectors: Asset management companies)) an *asset management company*.

*main investment services undertaking*

(for the purpose of *PRU 8* (Group Risk) and in relation to a *financial conglomerate*):

- (a) (if there is only one *investment firm* in that *financial conglomerate*) that *investment firm*; and
- (b) (if there is more than one *investment firm* in that *financial conglomerate*) the member of the *financial conglomerate* identified in the same way as the main firm for the purposes of *rule 14.4.2* of Chapter 14 of *IPRU(INV)* (Group Financial Resources), but so that the comparison required by that *rule* must be carried out with respect to all *investment firms* in the *financial conglomerate*.

*matched principal broker*

a *firm* with *permission to deal in investments as principal* other than:

- (a) a *bank*, a *building society* or an *ELMI*; or
- (b) a *UCITS management company*; or
- (c) an *insurer*; or
- (d) a *local*;

and which satisfies the following conditions:

- (e) it *deals* as principal only to fulfil customer orders;
- (f) it holds positions for its own account only as a result of a failure to match investors' orders precisely;
- (g) the total market value of the positions is no higher than 15% of the *firm's initial capital*; and
- (h) the positions are incidental and provisional in nature and strictly limited to the time required to carry out the transaction in question.

*mixed-activity holding company*

one of the following:

- (a) (in accordance with Article 1(22) of the *Banking Consolidation Directive* (Definitions)) a *parent undertaking*, other than a *financial holding company*, a *credit institution* or a *mixed financial holding company*, the *subsidiary undertakings* of which include at least one *credit institution*; or

	(b) (in accordance with Article 7(3) of the <i>Capital Adequacy Directive</i> (Supervision on a consolidated basis) and in relation to a <i>banking and investment group</i> without any <i>credit institutions</i> in it) a <i>parent undertaking</i> , other than a <i>financial holding company</i> , an <i>investment firm</i> or a <i>mixed financial holding company</i> , the <i>subsidiary undertakings</i> of which include at least one <i>investment firm</i> .
<i>mixed-activity insurance holding company</i>	(in accordance with Article 1(j) of the <i>Insurance Groups Directive</i> (Definitions)) a <i>parent undertaking</i> , other than an <i>insurance undertaking</i> , an <i>insurance holding company</i> or a <i>mixed financial holding company</i> , the <i>subsidiary undertakings</i> of which include at least one <i>insurance undertaking</i> .
<i>mixed financial holding company</i>	(in accordance with Article 2(15) of the <i>Financial Groups Directive</i> (Definitions)) a <i>parent undertaking</i> , other than a <i>regulated entity</i> , which together with its <i>subsidiary undertakings</i> , at least one of which is an <i>EEA regulated entity</i> , and other entities, constitutes a <i>financial conglomerate</i> .
<i>most important financial sector</i>	(in relation to a <i>financial sector</i> in a <i>consolidation group</i> or a <i>financial conglomerate</i> and in accordance with PRU 8.4 (Cross sector groups)) the <i>financial sector</i> with the largest average referred to in the box titled Threshold Test 2 in the <i>financial conglomerate definition decision tree</i> (10% ratio of balance sheet size and solvency requirements); and so that: <ul style="list-style-type: none"> <li>(a) the <i>investment services sector</i> and the <i>banking sector</i> are treated as one for the purposes set out in PRU 8.4.7R (Definition of financial conglomerate: The financial sectors: General); and</li> <li>(b) the definition is altered as set out in paragraph 4.4 and the decision tree in paragraph 4.5 of PRU 8 Ann 1R (Types of financial conglomerate and definition of most important financial sector) for the purposes set out in paragraph 4.4 of PRU 8 Ann 1R.</li> </ul>
<i>overall financial sector</i>	a sector composed of one or more the following types of entities: <ul style="list-style-type: none"> <li>(a) members of each of the <i>financial sectors</i>; and</li> <li>(b) (except where PRU 8.4 (Cross sector groups) or PRU 8 Ann 1R (Capital adequacy calculations for financial conglomerates) provide otherwise) a <i>mixed financial holding company</i>.</li> </ul>
<i>own account dealer</i>	a <i>firm</i> with <i>permission to deal in investments as principal</i> other than: <ul style="list-style-type: none"> <li>(a) a <i>bank</i>, a <i>building society</i> or an <i>ELMI</i>; or</li> </ul>

- (b) an *insurer*; or
- (c) a *UCITS management company*; or
- (d) a *matched principal broker*; or
- (e) an *ICVC*; or
- (f) a *local*.

*participation*

(for the purposes of *ELM* and *PRU* 8 (Group risk)):

- (a) a participating interest as defined in section 260 of the Companies Act 1985; or
- (b) the direct or indirect ownership of 20% or more of the voting rights or capital of an *undertaking*;

but excluding the interest of a *parent undertaking* in its *subsidiary undertaking*.

*PRU*

the Integrated Prudential Sourcebook.

*regulated entity*

one of the following:

- (a) a *credit institution*; or
- (b) a *regulated insurance entity*; or
- (c) an *investment firm*;

whether or not it is incorporated in, or has its head office in, an *EEA State*.

An *asset management company* is treated as a regulated entity for the purposes described in *PRU* 8.4.39R (The financial sectors: asset management companies).

*regulated insurance entity*

an insurance undertaking within the meaning of Article 4 of the *Consolidated Life Directive*, Article 6 of the *First Non-Life Directive* or Article 1(b) of the *Insurance Groups Directive*.

*relevant competent authorities*

(in relation to a *financial conglomerate*) those *competent authorities* which are, or which have been appointed as, relevant competent authorities in relation to that *financial conglomerate* under Article 2(17) of the *Financial Groups Directive* (Definitions).

*risk concentration*

(in accordance with Article 2(19) of the *Financial Groups Directive* (Definitions)) all exposures with a loss potential borne by entities within a *financial conglomerate*, which are large enough to threaten the solvency or the financial position in general of the *regulated entities* in the *financial conglomerate*; such exposures may be caused by counterparty risk, credit risk, investment risk, insurance risk, market risk, other risks, or a combination or interaction of these risks.

*sectoral rules*

(in relation to a *financial sector*) rules and requirements relating to the prudential supervision of *regulated entities* applicable to *regulated entities* in that *financial sector* as follows:

- (a) (for the purposes of *PRU 8.4.12R* (Definition of financial conglomerate: Solvency requirement)) *EEA prudential sectoral legislation* for that *financial sector* together with as appropriate the rules and requirements in (c); or
- (b) (for the purpose of calculating *solo capital resources* and a *solo capital resources requirement*):
  - (i) (to the extent provided for in paragraph 6.5 of *PRU 8 Ann 1R*) rules and requirements that are referred to in paragraph 6.6 of *PRU 8 Ann 1R* (Solo capital resources requirement: Non-EEA firms subject to equivalent regimes); and
  - (ii) the rules and requirements in (c); or
- (c) (for all other purposes) rules and requirements:
  - (i) of the *FSA*; or
  - (ii) of or administered by another *competent authority*;

and so that:

- (d) (in relation to prudential rules about consolidated supervision for any *financial sector*) those requirements include ones relating to the form and extent of consolidation;
- (e) (in relation to any *financial sector*) those requirements include ones relating to the eligibility of different types of capital;
- (f) (in relation to any *financial sector*) those requirements include both ones applying on a solo basis and ones applying on a consolidated basis;

- (g) (in relation to the *insurance sector*) references in this definition to consolidated supervision are to supplementary supervision, similar expressions being interpreted accordingly; and
- (h) references to the *FSA's sectoral rules* are to *sectoral rules* in the form of *rules*.

*smallest financial sector* (in relation to a *financial sector* in a *consolidation group* or a *financial conglomerate* and in accordance with *PRU 8.4* (Cross sector groups)) the *financial sector* with the smallest average referred to in the box titled Threshold Test 2 in the *financial conglomerate definition decision tree* (10% ratio of balance sheet size and solvency requirements), the *banking sector* and *investment services sector* being treated as one *financial sector* in the circumstances set out in *PRU 8.4*.

*solo capital resources* (for the purposes of *PRU 8* (Group risk) and in relation to a member of a *financial conglomerate* in the *overall financial sector*) capital resources that are or would be eligible as capital under the *sectoral rules* that apply for the purpose of calculating its *solo capital resources requirement*. Paragraph 6.9 of *PRU 8 Ann 1R* (Solo capital resources requirement: the insurance sector) applies for the purpose of this definition in the same way as it does for the definition of *solo capital resources requirement*.

*solo capital resources requirement* (for the purpose of *PRU 8* (Group risk)) a capital resources requirement calculated on a solo basis as defined in paragraphs 6.2-6.9 of *PRU 8 Ann 1R* (Solo capital resources requirement: the insurance sector).

*solvency deficit* (in *PRU 8 Ann 1R* (Capital adequacy calculations with respect to financial conglomerates) and in respect of a member of the *overall financial sector*) the amount (if any) by which its *solo capital resources* fall short of its *solo capital resources requirement*.

*third-country banking and investment group* a *banking and investment group* that meets the following conditions:

- (a) it is headed by:
  - (i) a *credit institution*; or
  - (ii) an *asset management company*; or
  - (iii) an *investment firm*; or
  - (iv) a *financial holding company*;
 that has its head office outside the *EEA*; and

(b) it is not part of a wider *EEA banking and investment group*.

*third-country competent authority*

the authority of a country or territory which is not an *EEA State* that is empowered by law or regulation to supervise (whether on an individual or group-wide basis) *regulated entities*.

*third-country financial conglomerate*

a *financial conglomerate* that is of a type that falls under Article 5(3) of the *Financial Groups Directive*, which in summary is a *financial conglomerate* headed by a *regulated entity* or a *mixed financial holding company* that has its head office outside the *EEA*.

*third-country group*

a *third-country financial conglomerate* or a *third-country banking and investment group*.

## PART 2 (AMENDED DEFINITIONS)

In this part of this Annex, underlining indicates new text and striking through indicates deleted text.

- ancillary banking services undertaking* (~~in ELM~~) (as defined in article 1.23 of the ~~Banking Coordination Consolidation Directive~~ (Definitions)) and in relation to an undertaking in a consolidation group, sub-group or another group of persons) an undertaking complying with the following conditions:
- (a) its ~~the~~ principal activity ~~of which~~ consists in:
    - (i) owning or managing property;
    - (ii) managing data-processing services; or
    - (iii) any other similar activity;
  - (b) the activity in (a) ~~which~~ is ancillary to the principal activity of one or more *credit institutions*; and
  - (c) those credit institutions are also members of that consolidation group, sub-group or group.
- arranger* (1) (For the purposes of PRU 8 (Group risk) a firm with permission for one or more of the following:
- (a) arranging (bringing about) deals in investments; or
  - (b) making arrangements with a view to transactions in investments;
- and which:
- (c) is not a bank, a building society or an ELMI;
  - (d) is not an insurer;
  - (e) is not a UCITS management company;
  - (f) is not a local; and
  - (g) does not have permission:
    - (i) to deal in investments as principal; or
    - (ii) for dealing in investments as agent; or
    - (iii) for managing investments.

- (2) (for all other purposes) a person who is arranging (bringing about) deals in investments, making arrangements with a view to transactions in investments, or agreeing to carry on any of those regulated activities.
- competent authority*
- (1) ...
- (2) ...
- (3) (for the purposes of PRU 8.1 (Group risk systems and controls requirement), PRU 8.4 (Cross sector groups), PRU 8.5 (Third country groups), PRU 8 Ann 1R (Capital adequacy calculations for financial conglomerates) and PRU 8 Ann 2R (Prudential rules for third country groups)) any national authority of an EEA State which is empowered by law or regulation to supervise regulated entities, whether on an individual or group-wide basis.
- financial holding company* ~~(in ELM)~~ a financial institution, that fulfils the following conditions:
- (a) ~~the~~ its subsidiary undertakings of which are either exclusively or mainly ~~relevant financial services companies credit institutions, investment firms or financial institutions;~~
- (b) ~~one of which~~ at least one of those subsidiary undertakings is a ~~relevant financial services company credit institution or an investment firm;~~ and
- (c) it is not a mixed financial holding company.
- financial institution*
- (1) (in accordance with paragraph 5(c) of Schedule 3 to the Act (EEA Passport Rights: EEA firm) and article 1(5) of the *Banking Consolidation Directive* (Definitions), but not for the purposes of ELM or PRU 8 (Group risk)), an *undertaking*, other than a *credit institution*, the principal activity of which is to acquire holdings or to carry on one or more of the *listed activities* listed in points 2 to 12 of Annex I to the *BCD*, which is a subsidiary of the kind mentioned in article 19 of the *BCD* and which fulfils the conditions in articles 18 and 19 of the *BCD*.
- (2) (for the purposes of ELM and PRU 8 (Group risk) and in accordance with Articles 1(5) (Definitions) and 2(2) (Scope) of the Banking Consolidation Directive);

- (a) an undertaking, other than a credit institution, the principal activity of which is to acquire holdings or to carry on one or more of the listed activities listed in points 2 to 12 of Annex I to the Banking Consolidation Directive; ~~(in ELM) an undertaking other than a credit institution, the principal activity of which is to acquire holdings or to carry on one or more of the activities listed in points 2 to 12 of Annex 1 of the Banking Consolidation Directive.~~
- (b) those institutions permanently excluded by paragraph 2(3) of the Banking Consolidation Directive (Scope), with the exception of the central banks of Member States, but so that, so far as this paragraph (b) applies for the purposes of ELM, it only applies for the purposes of chapter 7 (Consolidated financial supervision) of ELM; and
- (c) (for the purposes of ELM) an asset management company.

*FSA consolidation rule*

(in ELM) the following rules in IPRU:

- (a) 3.3.13R in chapter GN of IPRU(BANK) (as it applies on a consolidated ~~except as it applies to a bank purely on a sole basis);~~
- (b) IPRU(BSOC) 1.2.1R (as it applies on a consolidated ~~except as it applies to a building society purely on a sole basis); and~~
- (c) Chapter 14 of IPRU(INV) ~~5.7.1R;~~
- (d) IPRU(INV) 10.200R(1) to 10.204R;
- (e) IPRU(INV) 13.7.2AR and 13.2.7BR.

*group*

- (1) (except in relation to an ICVC and except for the purposes of PRU 8.1 (Group risk systems and controls requirement)) (as defined in section 421 of the Act (Group)) (in relation to a person ("A")) A and any person who is:  
  - ...
- (2) ...
- (3) (for the purposes of PRU 8.1 (Group risk systems and controls requirement) and in relation to a person "A")) A and any person:
  - (a) who falls into (1);

- (b) who is a member of the same *financial conglomerate* as A;
- (c) who has a *consolidation Article 12(1) relationship* with A;
- (d) who has a *consolidation Article 12(1) relationship* with any *person* in (3)(a);
- (e) who is a *subsidiary undertaking* of a person in (3)(c) or (3)(d); or
- (f) whose omission from an assessment of the risks to A of A's connection to any *person* coming within (3)(a)-(3)(e) or an assessment of the financial resources available to such *persons* would be misleading.

*initial capital*

- (1) (in *ELM*) items coming into stage A of the calculation in *ELM* 2.4.2R (Calculation of initial capital and own funds).
- (2) (for the purposes of the definition of *matched principal dealer*, in accordance with Article 2(24) of the *Capital Adequacy Directive* (Definitions) and with respect to a *firm*) capital that is recognised for the purpose of the *rules* about capital adequacy to which that *firm* is subject but excluding, in accordance with items (1) and (2) of Article 34(2) of the *Banking Consolidation Directive* (General principles), anything that does not fall within the following classes of capital:
  - (a) capital within the meaning of Article 22 of the *Bank Accounts Directive* (Liabilities: Item 9 – Subscribed capital), insofar as it has been paid up, plus share premium accounts but excluding cumulative preferential shares; or
  - (b) reserves within the meaning of Article 23 of the *Bank Accounts Directive* (Liabilities: Item 11 – Reserves) and profits and losses brought forward as a result of the application of the final profit or loss. Interim profits can only be included before a formal decision has been taken only if these profits have been verified by *persons* responsible for the auditing of the accounts and if the amount thereof has been evaluated in accordance with the principles set out in the *Bank Accounts Directive* and is net of any foreseeable charge or dividend.

In the case of a firm subject to the rules in chapter 10 of IPRU(INV), initial capital means initial capital as defined in the Glossary to that chapter.

*parent undertaking*

(in accordance with section 420 of the *Act* (Parent and subsidiary undertaking) and section 258 of the Companies Act 1985 (Parent and subsidiary undertakings))

(a) (in relation to whether an *undertaking*, other than an *incorporated friendly society*, is a parent undertaking and except for the purposes of PRU 8.4 (Cross sector groups), PRU 8.5 (Third country groups), PRU 8 Ann 1R (Capital adequacy calculations for financial conglomerates) and PRU 8 Ann 2R (Prudential rules for third country groups)) an *undertaking* which has the following relationship to another *undertaking* ("S"):

...

(b) (in relation to whether an *incorporated friendly society* is a parent undertaking and except for the purposes of PRU 8.4 (Cross sector groups), PRU 8.5 (Third country groups), PRU 8 Ann 1R (Capital adequacy calculations for financial conglomerates) and PRU 8 Ann 2R (Prudential rules for third country groups)) an *incorporated friendly society* which has the following relationship to a *body corporate* ("S"):

...

(c) (for the purposes of PRU 8.4 (Cross sector groups), PRU 8.5 (Third country groups), PRU 8 Ann 1R (Capital adequacy calculations for financial conglomerates) and PRU 8 Ann 2R (Prudential rules for third country groups) and in relation to whether an *undertaking* is a parent undertaking) an *undertaking* which has the following relationship to another *undertaking* ("S"):

(i) a relationship described in (a) other than (a)(vii); or

(ii) it effectively exercises a dominant influence over S

and so that (ii) applies also for the purpose of PRU 8.1 (Group risk systems and controls requirement).

*sub-group*

~~(in ELM)~~ (in relation to a *person*):

...

## ADDENDUM

### FINANCIAL CONGLOMERATES AND OTHER FINANCIAL GROUPS INSTRUMENT 2004

In this Addendum, underlining indicates new text and striking through indicates deleted text.

Annex G of this instrument is amended as follows to ensure that correct rule references of SUP 16.7.82R and SUP 16.7.83R are referred to in PRU 8.4.2G:

#### Purpose

8.4.2 G *PRU 8.4* implements the *Financial Groups Directive*. However, material on the following topics is to be found elsewhere in the *Handbook* as follows:

...

(3) material on reporting obligations can be found in ~~SUP 16.7.73R~~ SUP 16.7.82R and ~~SUP 16.7.74R~~ SUP 16.7.83R; and

...

...

Annex I of this instrument is amended as follows to ensure that the correct rule references of SUP 16.7.82R and SUP 16.7.83R are referred to in SUP 7 and SUP 16:

7.3.2 G The *FSA* may seek to vary a *firm's Part IV permission* on its own initiative in certain situations, including the following:

...

(4) If a *firm* is a member of *financial conglomerate* and the *FSA* is implementing supplementary supervision under the *Financial Groups Directive* with respect to that *financial conglomerate* by imposing obligations on the *firm*. Further material on this can be found in *PRU 8.4* (Cross sector groups) and ~~SUP 16.7.73R~~ SUP 16.7.82R and ~~SUP 16.7.74R~~ SUP 16.7.83R (reporting requirements with respect to *financial conglomerates*).

...

#### Reports from groups

16.3.25 G If this chapter requires the submission of a report covering a *group*, a single report may be submitted, and so satisfy the requirements of all *firms* in the *group*. Such a report should contain the information required from all of them, meet all relevant due dates and indicate all the *firms* on whose behalf

it is submitted; if necessary a separate covering sheet should list the *firms* on whose behalf a report is submitted. Nevertheless, the requirement to provide a report, and the responsibility for the report, remains with each *firm* in the *group*. However, reporting requirements that apply to a *firm*, by reason of the *firm* being a member of a *financial conglomerate*, are imposed on only one member of the *financial conglomerate* (see, for example, ~~SUP 16.7.73R~~ SUP 16.7.82R).

...

16.7.5 G Applicable rules and guidance on financial reports (see SUP 16.7.1G)

Firm category	Applicable rules and guidance
<i>Bank, other than an EEA bank with permission for cross border services only</i>	<del>SUP 16.7.7R - SUP 16.7.15R</del> <del>SUP 16.7.73R - SUP 16.7.74R</del> <u>SUP 16.7.82R - SUP 16.7.83R</u>
<i>Building society</i>	<del>SUP 16.7.16R - SUP 16.7.19R</del> <del>SUP 16.7.73R - SUP 16.7.74R</del> <u>SUP 16.7.82R - SUP 16.7.83R</u>
...	
<i>Securities and futures firm</i> (Note 1)	<del>SUP 16.7.22R - SUP 16.7.34G</del> <del>SUP 16.7.73R - SUP 16.7.74R</del> <u>SUP 16.7.82R - SUP 16.7.83R</u>
<i>Investment management firm</i>	<del>SUP 16.7.35R - SUP 16.7.41R</del> <del>SUP 16.7.73R - SUP 16.7.74R</del> <u>SUP 16.7.82R - SUP 16.7.83R</u>
<i>Personal investment firm</i>	<del>SUP 16.7.42G - SUP 16.7.53G</del> <del>SUP 16.7.73R - SUP 16.7.74R</del> <u>SUP 16.7.82R - SUP 16.7.83R</u>
...	
<i>ELMI</i>	<del>SUP 16.7.64R - SUP 16.7.66R</del> <del>SUP 16.7.73R - SUP 16.7.74R</del> <u>SUP 16.7.82R - SUP 16.7.83R</u>
...	

...

After ~~SUP 16.7.72R~~ SUP 16.7.81G, insert the following new rules, ~~SUP 16.7.73R~~ and ~~16.7.74R~~ SUP 16.7.82R and SUP 16.7.83R:

Financial conglomerates

- 16.7.7382 R (1) A *firm* that is a member of a *financial conglomerate* must submit financial reports to the *FSA* in accordance with the table in SUP 16.7.7483R if:
- (a) it is at the head of an *FSA regulated EEA* ~~EEA~~ *financial conglomerate*; or
  - (b) its *Part IV permission* contains a relevant *requirement*.
- (2) In (1)(b), a relevant *requirement* is one which:
- (a) applies SUP 16.7.7483R to the *firm*; or
  - (b) applies SUP 16.7.7483R to the *firm* unless the *mixed financial holding company* of the *financial conglomerate* to which the *firm* belongs submits the report required under this *rule* (as if the *rule* applied to it).
- 16.7.7483 R Table Financial reports from a member of a financial conglomerate (see SUP 16.7.7382R)

**INTERIM PRUDENTIAL SOURCEBOOK FOR INVESTMENT BUSINESSES  
(PROFESSIONAL INDEMNITY INSURANCE FOR PROFESSIONAL FIRMS)  
INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) section 138 (General rule-making power);
  - (2) section 149 (Evidential provisions);
  - (3) section 156 (General supplementary powers); and
  - (4) section 157(1) (Guidance).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C. This instrument comes into force on 1 August 2004.

**Amendments to the Interim Prudential sourcebook for investment businesses**

- D. The Interim Prudential sourcebook for investment businesses is amended in accordance with the Annex to this instrument.

**Citation**

- E. This instrument may be cited as the Interim Prudential Sourcebook for Investment Businesses (Professional Indemnity Insurance for Professional Firms) Instrument 2004.

By order of the Board  
15 July 2004

## Annex

### Amendment to the Interim Prudential sourcebook for investment businesses

In this Annex, underlining indicates new text and striking through indicates deleted text.

#### 2.3 Professional Indemnity Insurance

2.3.1 R A *firm* must effect and maintain at all times adequate professional indemnity insurance cover for all the business activities which it carries on, or for which it is responsible.

- 2.3.2 ~~E~~  
G (1) ~~To effect and maintain adequate professional indemnity insurance cover a *firm* should obtain cover which is at least equivalent to the requirements of its *designated professional body* which were in force immediately before commencement.~~
- (2) ~~Compliance with (1) may be relied upon by the FSA as tending to establish compliance with *IPRU(INV)* 2.3.1.~~
- (3) ~~Contravention of (1) may be relied upon by the FSA as tending to establish contravention of *IPRU(INV)* 2.3.1.~~ In assessing the adequacy of a *firms'* professional indemnity insurance cover for the purposes of *IPRU(INV)* 2.3.1R, the *FSA* may have regard to a *firm's* compliance with the professional indemnity insurance requirements of its *designated professional body* in force at the time.

**IDENTIFICATION OF CONTRACTS OF INSURANCE INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the power in section 157(1) (Guidance) of the Financial Services and Markets Act 2000.

**Commencement**

- B. This instrument comes into force on 1 August 2004.

**Amendments to the Authorisation manual**

- C. The Authorisation manual is amended in accordance with the Annex to this instrument.

**Citation**

- D. This instrument may be cited as the Identification of Contracts of Insurance Instrument 2004.

By order of the Board  
15 July 2004

## Annex

### Amendments to the Authorisation manual

In this Annex, underlining indicates new text and striking through indicates deleted text. Where an entire section of text is being inserted, the place where the change will be made is indicated and the text is not underlined.

AUTH App 5.3.6 G ~~The FSA has consulted (in CP150 (The Authorisation manual—consultation on draft guidance on the identification of contracts of insurance)) on draft~~ Guidance describing how the FSA identifies contracts of insurance is in AUTH App 6 (Guidance on the Identification of Contracts of Insurance).

...

After AUTH Appendix 5 insert the following new appendix:

AUTH App 6. Guidance on the Identification of Contracts of Insurance

6.1 Application

6.1.1 G This chapter is relevant to any *person* who needs to know what activities fall within the scope of the *Act*.

6.2 Purpose of guidance

6.2.1 G The purpose of this *guidance* is to set out:

(1) at AUTH App 6.5 the general principles; and

(2) at AUTH App 6.6 the range of specific factors;

that the FSA regards as relevant in deciding whether any arrangement is a contract of insurance.

6.2.2 G This *guidance* includes (at AUTH App 6.7) a number of examples, showing how the factors have been applied to reach conclusions with respect to specific categories of business. Further examples may be published from time-to-time.

6.3 Background

6.3.1 G The business of effecting or carrying out contracts of insurance is subject to prior *authorisation* and regulation by the FSA. (There are some limited exceptions to this requirement, for example, for breakdown insurance.)

- 6.3.2 G The *Regulated Activities Order*, which sets out the activities for which *authorisation* is required, does not attempt an exhaustive definition of a ‘contract of insurance’. Instead, it makes some specific extensions and limitations to the general common law meaning of the concept. For example, it expressly extends the concept to fidelity bonds and similar contracts of guarantee, which are not contracts of insurance at common law, and it excludes certain *funeral plan contracts*, which would generally be contracts of insurance at common law. Similarly, the *Exemption Order* excludes certain trade union provident business, which would also be insurance at common law. One consequence of this is that common law judicial decisions about whether particular contracts amount to ‘insurance’ or ‘insurance business’ are relevant in defining the scope of the *FSA’s authorisation* and regulatory activities, as they were under predecessor legislation.
- 6.3.3 G The Courts have not fully defined the common law meaning of ‘insurance’ and ‘insurance business’, since they have, on the whole, confined their decisions to the facts before them. They have, however, given useful guidance in the form of descriptions of contracts of insurance.
- 6.3.4 G The best established of these descriptions appears in the case of *Prudential v. Commissioners of Inland Revenue* [1904] 2 KB 658. This case, read with a number of later cases, treats as insurance any enforceable contract under which a ‘provider’ undertakes:
- (1) in consideration of one or more payments;
  - (2) to pay money or provide a corresponding benefit (including in some cases services to be paid for by the provider) to a ‘recipient’;
  - (3) in response to a defined event the occurrence of which is uncertain (either as to when it will occur or as to whether it will occur at all) and adverse to the interests of the recipient.
- 6.4 Limitations of this guidance
- 6.4.1 G Although what appears below is the *FSA’s* approach, it cannot state what the law is, as that is a matter for the Courts. Accordingly, this *guidance* is not a substitute for adequate legal advice on any transaction.
- 6.4.2 G The list of principles and factors is not closed and this *guidance* by no means covers all types of insurance-like business.
- 6.4.3 G The *FSA* will consider each case on its facts and on its merits.
- 6.4.4 G In some cases transactions with the same commercial purpose or economic effect may be classified differently, ie some as insurance and some as non-insurance.
- 6.5 General principles

- 6.5.1 G The starting point for the identification of a contract of insurance is the case of *Prudential v. Commissioners of Inland Revenue* [1904] 2 KB 658, from which the description set out in *AUTH* App 6.3.4G is drawn. Any contracts that fall outside that description are unlikely to be contracts of insurance.
- 6.5.2 G The *FSA* will interpret and apply the description in *AUTH* App 6.3.4G in the light of applicable legislation and common law, including case law.
- 6.5.3 G In particular, if the common law is unclear as to whether or not a particular contract is a contract of insurance, the *FSA* will interpret and apply the common law in the context of and in a way that is consistent with the purpose of the *Act* as expressed in the *FSA*'s statutory objectives.
- 6.5.4 G The *FSA* will apply the following principles of construction to determine whether a contract is a contract of insurance.
- (1) In applying the description in *AUTH* App 6.3.4G, more weight attaches to the substance of the contract, than to the form of the contract. The form of the contract is relevant (see *AUTH* App 6.6.8G (3) and (4)) but not decisive of whether a contract is a contract of insurance: *Fuji Finance Inc. v. Aetna Life Insurance Co. Ltd* [1997] Ch. 173 (C.A.).
  - (2) In particular, the substance of the provider's obligation determines the substance of the contract: *In re Sentinel Securities* [1996] 1 WLR 316. Accordingly, the *FSA* is unlikely to treat the provider's or the customer's intention or purpose in entering into a contract as relevant to its classification.
  - (3) The contract must be characterised as a whole and not according to its 'dominant purpose' or the relative weight of its 'insurance content': *Fuji Finance Inc. v. Aetna Life Insurance Co. Ltd* [1997] Ch. 173 (C.A.).
  - (4) Since only contracts of marine insurance and certain contracts of insurance effected without consideration are required to be in writing, a contract of insurance may be oral or may be expressed in a number of documents.
- 6.6 The factors
- 6.6.1 G Contracts under which the provider has an absolute discretion as to whether any benefit is provided on the occurrence of the uncertain event, are not contracts of insurance. This may be the case even if, in practice, the provider has never exercised its discretion so as to deny a benefit: *Medical Defence Union v. Department of Trade and Industry* [1979] 2 W.L.R. 686. The degree of discretion required and the matters to which it must relate are illustrated in *AUTH* App 6.7.1G (Example 1: discretionary medical schemes).

- 6.6.2 G The ‘assumption of risk’ by the provider is an important descriptive feature of all contracts of insurance. The ‘assumption of risk’ has the meaning in (1) and (3), derived from the case law in (2) and (4) below. The application of the ‘assumption of risk’ concept is illustrated in *AUTH* App 6.7.2G (Example 2: disaster recovery business).
- (1) Case law establishes that the provider's obligation under a contract of insurance is an enforceable obligation to respond (usually, by providing some benefit in the form of money or services) to the occurrence of the uncertain event. This *guidance* describes the assumption of that obligation as the ‘assumption’ by the provider of (all or part of) the insured risk. ‘Transfer of risk’ has the same meaning in this *guidance*.
  - (2) The case law referred to in (1) is *Prudential v. Commissioners of Inland Revenue* [1904] 2 KB 658, read with *Hampton v. Toxteth Co-operative Provident Society Ltd* [1915] 1 Ch. 721 (C.A.), *Department of Trade and Industry v. St Christopher Motorists Assoc. Ltd* [1974] 1 All E.R. 395, *Medical Defence Union v. Department of Trade and Industry* [1979] 2 W.L.R. 686 and *Wooding v. Monmouthshire and South Wales Mutual Indemnity Soc. Ltd* [1939] 4 All E.R. 570 (H.L.).
  - (3) The *FSA* recognises that there is a line of case law in relation to *long-term insurance business* that establishes that a contract may be a contract of insurance even if, having effected that contract, the provider ‘trades without any risk’. The *FSA* accepts that the insurer's risk of profit or loss from insurance business is not a relevant descriptive feature of a contract of insurance. But in the *FSA*'s view that is distinct from and does not undermine the different proposition in (1).
  - (4) The case law referred to in (3) is *Flood v. Irish Provident Assurance Co. Ltd* [1912] 2 Ch. 597 (C.A.), *Fuji Finance Inc. v. Aetna Life Insurance Co. Ltd* [1995] Ch. 122, *Re Barrett; Ex parte Young v. NM Superannuation Pty Ltd*, (1992) 106 A.L.R. 549, *Fuji Finance Inc. v. Aetna Life Insurance Co. Ltd* [1997] Ch. 173 (C.A.).
- 6.6.3 G Contracts, under which the amount and timing of the payments made by the recipient make it reasonable to conclude that there is a genuine pre-payment for services to be rendered in response to a future contingency, are unlikely to be regarded as insurance. In general, the *FSA* expects that this requirement will be satisfied where there is a commercially reasonable and objectively justifiable relationship between the amount of the payment and the cost of providing the contract benefit.
- 6.6.4 G Contracts under which the provider undertakes to provide periodic maintenance of goods or facilities, whether or not any uncertain or adverse event (in the form of, for example, a breakdown or failure) has occurred, are unlikely to be contracts of insurance.

- 6.6.5 G Contracts under which, in consideration for an initial payment, the provider stands ready to provide services on the occurrence of a future contingency, on condition that the services actually provided are paid for by the recipient at a commercial rate, are unlikely to be regarded as insurance. Contrast *AUTH* App 6.7.21G (Example 7: solicitors' retainers) with *AUTH* App 6.7.22G (Example 8: time and distance cover).
- 6.6.6 G The recipient's payment for a contract of insurance need not take the form of a discrete or distinct premium. Consideration may be part of some other payment, for example the purchase price of goods (*Nelson v. Board of Trade* (1901) 17 T.L.R. 456). Consideration may also be provided in a non-monetary form, for example as part of the service that an employee is contractually required to provide under a contract of employment (*Australian Health Insurance Assoc. Ltd v. Esso Australia Pty Ltd* (1993) 116 A.L.R. 253).
- 6.6.7 G Under most commercial contracts with a *customer*, a provider will assume more than one obligation. Some of these may be insurance obligations, others may not. The *FSA* will apply the principles in *AUTH* App 6.5.4G in the way described in (1) to (3) to determine whether the contract is a contract of insurance.
- (1) If a provider undertakes an identifiable and distinct obligation that is, in substance an insurance obligation as described in *AUTH* App 6.5.4G, then, other things being equal, the *FSA* is likely to find that by undertaking that obligation the provider has effected a contract of insurance.
  - (2) The presence of an insurance obligation will mean that the contract is a contract of insurance, whether or not that obligation is 'substantial' in comparison with the other obligations in the contract.
  - (3) The presence of an insurance obligation will mean that the contract is a contract of insurance, whether or not entering into that obligation forms a significant part of the provider's business. The *FSA* generally regards a provider as undertaking an obligation 'by way of business' if he takes on an obligation in connection with or for the purposes of his core business, to realise a commercial advantage or benefit.
- 6.6.8 G The following factors are also relevant.
- (1) A contract is more likely to be regarded as a contract of insurance if the amount payable by the recipient under the contract is calculated by reference to either or both of the probability of occurrence or likely severity of the uncertain event.
  - (2) A contract is less likely to be regarded as a contract of insurance if it requires the provider to assume a speculative risk (ie a risk carrying the possibility of either profit or loss) rather than a pure risk (ie a risk of loss only).

- (3) A contract is more likely to be regarded as a contract of insurance if the contract is described as insurance and contains terms that are consistent with its classification as a contract of insurance, for example, obligations of the utmost good faith.
- (4) A contract that contains terms that are inconsistent with obligations of good faith may, therefore, be less likely to be classified as a contract of insurance; however, since it is the substance of the provider's rights and obligations under the contract that is more significant, a contract does not cease to be a contract of insurance simply because the terms included are not usual insurance terms.

6.7 Examples

Example 1: discretionary medical schemes

- 6.7.1 G Medical schemes under which an employer operates or contributes to a fund, from which the employee has a right to a benefit (for example, a payment) on the occurrence of a specified illness or injury, are likely to be insurance schemes. This will be the case whether the employee makes any contribution to the fund, or the scheme is funded by the employer as an emolument. The scheme would not be insurance, however, if the employer has an absolute discretion whether or not to provide any benefit to the employee. Absolute discretion requires, for example, that the employer has an unfettered discretion both as to whether the employee will receive a benefit and as to the amount of that benefit. The absolutely discretionary nature of the benefits should also be clear from the terms of the scheme and any literature published about or in relation to it. If these requirements are met, it may not be relevant that, in practice, the employer has never refused to meet a valid claim under the scheme.

Example 2: disaster recovery business

- 6.7.2 G The disaster recovery provider sets up and maintains a range of IT and related facilities (PABX etc). The disaster recovery contracts so far considered by the *FSA* give the recipient, subject to certain conditions including an up front payment, priority access to all or a specified part of these facilities if a 'disaster' causes the failure of a similar business system on which the recipient relies. The provider sells access to the same facilities to a number of different recipients, both for use in response to 'disasters' and, more usually, for use in testing and refining the recipient's ability to switch to alternative systems in the event of a disaster.

- 6.7.3 G In principle, a significant part of disaster recovery business could potentially fall within the description of a contract of insurance set out in *AUTH* App 6.3.4G. The provider undertakes, in consideration of a payment, to provide the recipient with services (alternative facilities) in response to a defined event (a disaster), which is adverse to the interests of the recipient and the occurrence of which is uncertain. The risk dealt with under the disaster recovery contract is a pure risk (see *AUTH* App 6.6.8G(2)) and, at least at the commencement of the contract, the provider assumes that risk, within the terms of *AUTH* App 6.6.2G.
- 6.7.4 G However, the disaster recovery contracts considered by the *FSA* had two key features.
- (1) Priority access to facilities in the event of a disaster was expressed to be on a ‘first come, first served’ basis. The contracts provided expressly that if the facilities needed by recipient A were already in use, following an earlier invocation by recipient B, the provider’s obligation to recipient A was reduced to no more than an obligation of ‘best endeavours’ to meet A’s requirements. The entry into additional contracts of this kind did not increase the probability that the provider’s existing resources would be inadequate to meet all possible claims. The terms of the contract were such that there was no pattern of claims that would cause the provider to have to pay claims from its own resources.
  - (2) In general, the contracts were priced so that the total consideration collected from the recipient over the life of the contract bore a reasonable and justifiable relationship to the commercial cost of the services actually provided to the recipient (see *AUTH* App 6.6.5G). This was achieved, for example, by post-invocation charges levied according to the actual usage of services.
- 6.7.5 G Based on these features, the *FSA* reached the conclusion, with which the other terms of the contracts were consistent (*AUTH* App 6.6.8G (3)), that these disaster recovery contracts were not contracts of insurance.
- 6.7.6 G An important part of the conclusion in *AUTH* App 6.7.5G was that, although the provider assumed a risk at the outset of the contract, looking at the contract as a whole and interpreting the common law in the context of the *FSA*’s objectives (see *AUTH* App 6.6.2G) there was no relevant assumption of risk.
- (1) The presence or absence of an assumption of risk is an important part of the statutory rationale for the prudential regulation of insurance.

- (2) In *Medical Defence Union v. Department of Trade and Industry* [1979] 2 W.L.R. 686, the Court accepted that since there was no common law definition of a contract of insurance, the meaning of the term ‘fell to be construed in its context according to the general law’. The Court recognised that in deciding whether a contract was a contract of insurance for the purposes of the Insurance Companies Act 1974, the ‘context’ included the purpose of the regulatory statute.
- (3) Accordingly, when the common law is unclear, the *FSA* will assess the desirability of regulating a particular contract as insurance in the light of the statutory objectives in the *Act*. The *FSA* will use that assessment as an indicator of whether or not a sufficient assumption of risk is present for the contract to be classified as a contract of insurance at common law.
- (4) In the case of disaster recovery contracts, the fact that there was no pattern of claims that would cause the provider to have to pay claims from its own resources led the *FSA* to conclude that there was no relevant assumption of risk by the disaster recovery provider.

Example 3: manufacturers' and retailers' warranties

- 6.7.7 G Under a simple manufacturer’s or retailer’s warranty the purchase price of the goods includes an amount, in consideration of which the manufacturer undertakes an obligation (the warranty) to respond (without further expense to the purchaser) to specified defects in the product that emerge within a defined time after purchase. When the warranty operates, the manufacturer or retailer provides repairs or replacement products in response to a defined event (the emergence of a latent defect in the product), which is adverse to the interests of the purchaser and the occurrence of which is uncertain. In summary, therefore, a simple manufacturer’s or retailer’s warranty is an identifiable and distinct obligation that is similar to and capable of being described as an insurance obligation in substance under *AUTH* App 6.3.4G.
- 6.7.8 G Notwithstanding *AUTH* App 6.7.7G, the *FSA*’s view is that an obligation that is of the same nature as a seller's or supplier's usual obligations as regards the quality of the goods or services is unlikely to be an insurance obligation in substance.
- 6.7.9 G The *FSA* is unlikely to classify a contract containing a simple manufacturer’s or retailer’s warranty as a contract of insurance, if the *FSA* is satisfied that the warranty does no more than crystallise or recognise obligations that are of the same nature as a seller's or supplier's usual obligations as regards the quality of the goods or services.

- 6.7.10 G For the purpose of *AUTH* App 6.7.9G, an obligation is likely to be of the same nature as the seller's or supplier's usual obligations as regards the quality of goods or services if it is an obligation of the seller to the buyer, assumed by the seller in consideration of the purchase price, which:
- (1) implements, or bears a reasonable relationship to, the seller's statutory or common law obligations as regards the quality of goods or services of that kind; or
  - (2) is a usual obligation relevant to quality or fitness in commercial contracts for the sale of goods or supply of services of that kind.

Example 4: separate warranty transactions and extended warranties

- 6.7.11 G It follows from *AUTH* App 6.7.10G that the *FSA* is unlikely to be satisfied that an obligation in a contract of sale or supply is of the same nature as the seller's or supplier's usual obligations as regards the quality of goods or services, if that obligation has one or more of the following features:
- (1) it is assumed by a person other than the seller or supplier (a 'third party'); or
  - (2) it is significantly more extensive in content, scope or duration than a seller's usual obligations as to the quality of goods or services of that kind.
- 6.7.12 G Other things being equal, the *FSA* is likely to classify a contract of sale containing a warranty that has one or more of the features in *AUTH* App 6.7.11G as a contract of insurance. The features in *AUTH* App 6.7.11G (1) and (2) typically distinguish a 'third party' warranty and an 'extended warranty' from a 'simple' manufacturer's or retailer's warranty.
- 6.7.13 G If a warranty is provided by a third party, the *FSA* will usually treat this as conclusive of the fact that there are different transactions and an assumption or transfer of risk. This conclusion would not usually depend on whether the provider is (or is not) a part of the same group of companies as the manufacturer or retailer. But it will be the third party (who assumes the risk) that is potentially effecting a contract of insurance.
- 6.7.14 G A manufacturer or retailer may undertake a warranty obligation to his customer in a separate contract with the customer, distinct from the contract of sale or supply of goods or services. The *FSA* will examine the separate contract to see if it is a contract of insurance. But the mere existence of a separate warranty contract is unlikely to be conclusive by itself.

- 6.7.15 G A manufacturer or retailer may undertake an obligation to ensure that the customer becomes a party to a separate contract of insurance in respect of the goods sold. This would include, for example, a contract for the sale of a freezer, with a simple warranty in relation to the quality of the freezer, but also providing insurance (underwritten by an *insurer* and in respect of which the customer is the *policyholder*) covering loss of frozen food if the freezer fails. The *FSA* is unlikely to treat a contract containing an obligation of this kind as a contract of insurance. However, the manufacturer or retailer may be in the position of an intermediary and may be liable to regulation in that capacity.
- 6.7.16 G The *FSA* distinguishes the contract in *AUTH* App 6.7.15G from a contract under which the manufacturer or retailer assumes the obligation to provide the customer with an indemnity against loss or damage if the freezer fails, but takes out insurance to cover the cost of having to provide the indemnity to the customer. The obligation to indemnify is of a different nature from the seller's or supplier's usual obligations as regards the quality of goods or services and is an insurance obligation. By assuming it, other things being equal, the manufacturer or retailer effects a contract of insurance. The fact that the manufacturer or retailer may take out insurance to cover the cost of having to provide the indemnity is irrelevant.

Example 5: typical warranty schemes administered by motor dealers

- 6.7.17 G The following are examples of typical warranty schemes operated by motor dealers. Provided that, in each case, the *FSA* is satisfied that the obligations assumed by the dealer are not significantly more extensive in content, scope or duration than a dealer's usual obligations as to the quality of motor vehicles of that kind, the *FSA* would not usually classify the contracts embodying these transactions as contracts of insurance.
- (1) The dealer gives a verbal undertaking to the purchaser that during a specified period (usually 3 months) he will rectify any fault occurring with the vehicle. No money changes hands, and the dealer is responsible for meeting the warranty obligation.
  - (2) The dealer undertakes warranty obligations to his customer. The warranty obligations are either included in the contract for the sale of the vehicle or are set out in a separate contract between dealer and customer at the time of sale. The dealer administers his own warranty scheme and does not employ a separate company (for example a subsidiary) to run the scheme. In the event of a fault, the purchaser must contact the dealer, who is responsible for meeting the warranty obligation. The dealer decides whether or not to put money aside to meet potential claims.

- (3) The dealer purchases proprietary warranty booklets issued by an administration company. These booklets contain 'terms and conditions' under which the dealer undertakes warranty obligations to the customer. The dealer sells these 'products' to his customer under a separate contract or inflates the price of the vehicle to include them as part of the sale of the vehicle. The administration company administers any claims that arise. The financial arrangements are that the dealer charges his customer for the warranty, passing a fee to the administration company for the purchase of the booklet and any administration relating to the processing of claims. The dealer retains all monies (less administration fee) received from the sale of the warranties and keeps any surplus after claims have been paid. The dealer is responsible for meeting the warranty obligation.
- (4) The dealer undertakes warranty obligations to his customer. The warranty obligations are either included in the contract for the sale of the vehicle or are set out in a separate contract between dealer and customer at the time of sale. The dealer employs an administration company to handle all the claims and associated administrative work. The administration company usually has access to a bank account, funded by the dealer and specifically set aside to meet warranty claims. The administration company authorises and pays warranty claims from the bank account in accordance with the dealer's instructions. The dealer ultimately decides on the amount of claims payable from this account and retains all surplus monies. The dealer is responsible for meeting the warranty obligation.

#### Example 6: tax investigation schemes

- 6.7.18 G When self-assessment for income tax was first introduced, a number of providers set up schemes connected with their tax accounting and tax advisory services. In consideration of an annual fee, the provider undertakes to deal with any enquiries or investigations that the Inland Revenue might launch into the self-assessment that the provider completes for the recipient. The event covered by these schemes (an investigation) is both uncertain and adverse to the interests of the recipient, who would, if the scheme were not in place, have to devote resources to dealing with the investigation. Accordingly, these schemes fall within the description of a contract of insurance (see *AUTH* App 6.3.4G).

- 6.7.19 G Some providers argued that these schemes amount to nothing more than a ‘manufacturer’s warranty’ of their own work, within the scope of *AUTH* App 6.7.7G (Example 3: manufacturers’ and retailers’ warranties). However, the Inland Revenue is expected to make a significant number of random checks of self-assessment forms, irrespective of the quality of the work done by the provider. These random checks are also covered by the schemes. The *FSA* concluded, therefore, that these schemes were not analogous to manufacturers’ warranties and that the better view was that they were contracts of insurance.

Example 7: solicitors' retainers

- 6.7.20 G A contract under which a provider undertakes, in consideration of an initial payment, to stand ready to provide, or to procure the provision of, legal services on the occurrence of an uncertain event (for example, if the recipient is sued), is capable of being construed as a contract of insurance (see *AUTH* App 6.3.4G). Indeed, *legal expenses* insurance is commonplace.
- 6.7.21 G If, however, a contract of this kind were structured so that the recipient was charged at a commercial rate for any legal services in fact provided, the *FSA*’s approach will be to treat the arrangement as non-insurance. This is principally because, by taking on obligations of this kind, the provider does not assume a relevant risk (see *AUTH* App 6.7.6G). The position might be different if the solicitor carries the additional obligation to pay for alternative legal services to be provided if the solicitor is unable to act. In that case, the *FSA*’s approach will be to examine all the elements of the contract to determine whether the substance of the solicitor’s obligation (see *AUTH* App 6.5.4G(2)) is to insure, or to give legal advice for a fee.

Example 8: contracts providing for ultimate repayment of any indemnity (‘time and distance cover’)

- 6.7.22 G A contract under which a provider agrees to meet a specified obligation on behalf of the recipient (for example an obligation to pay for the re-purchase of shares or to meet a debt) immediately that obligation falls due, subject to later reimbursement by the recipient, would be a contract of insurance if in all other respects it fell within the description of such contract (see *AUTH* App 6.3.4G). This is principally because the provider assumes the risk that an immediate payment will be required and, depending on the terms of the contract, may also assume the risk that the recipient will be unable to make future repayments (see *AUTH* App 6.6.2G).

**COMPLAINTS SOURCEBOOK (MORTGAGE AND GENERAL INSURANCE  
TRANSITIONAL COMPLAINTS) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 ("the Act"):
- (1) section 138 (General rule-making power);
  - (2) section 156 (General supplementary powers);
  - (3) section 157(1) (Guidance);
  - (4) section 226 (Compulsory jurisdiction);
  - (5) section 229 (Awards);
  - (6) section 234 (Industry funding);
  - (7) paragraph 13 of schedule 17 (Authority's procedural rules); and
  - (8) articles 9 and 12 of the Financial Services and Markets Act 2000 (Transitional Provisions) (Complaints Relating to General Insurance and Mortgages) Order 2004 (SI 2004/454).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C. This instrument comes into force on 31 October 2004.

**Amendments to the Disputes resolution: Complaints sourcebook**

- D. The Dispute resolution: Complaints sourcebook is amended in accordance with Annex A to this instrument.

**Amendments to the Glossary**

- E. The Glossary is amended in accordance with Annex B to this instrument.

**Citation**

- F. This instrument may be cited as the Complaints Sourcebook (Mortgage and General Insurance Transitional Complaints) Instrument 2004.

By order of the Board  
15 July 2004

Amended by Addendum  
17 August 2004

## Annex A

### Amendments to the Disputes resolution: Complaints sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

#### Transitional provisions

(1)	Material provision to which transitional applies	(3)	(4) Transitional provision	Transitional provision: dates in force	(6) Handbook provision coming into force
...					
<u>10</u>	<u>DISP 1</u>	<u>R</u>	<p><u>Where, at the <i>relevant commencement date</i>, a <i>firm</i> is still dealing with a complaint that is capable of being referred to the <i>Financial Ombudsman Service</i> as a <i>relevant transitional complaint</i>:</u></p> <p>(1) <u>it may continue to try to resolve the complaint in accordance with the complaints procedures that applied previously; but</u></p> <p>(2) <u>it must, within eight weeks of the <i>relevant commencement date</i>, send the complainant a response which satisfies <i>DISP 1.4.5R</i>, unless <i>DISP 1.4.3AR</i> or <i>DISP 1.4.9R</i> applies.</u></p>	<p><u>31 October 2004 (for a complaint to which the <i>MCAS Scheme</i> applied immediately before that date)</u></p> <p><u>14 January 2005 (for a complaint to which the <i>GISC Facility</i> applied immediately before that date)</u></p>	<u>31 October 2004</u>
<u>11</u>		<u>G</u>	<p><u><i>DISP TP10</i> recognises that where a <i>firm</i> has already received, but only partly completed the handling of, a complaint which is capable of becoming a <i>relevant</i></u></p>		

			<u>transitional complaint, it may not always be practicable to handle the complaint in accordance with DISP 1 after the relevant commencement date.</u>		
--	--	--	---	--	--

...

1.1.5R Except as otherwise specified, references to a "complaint" in this chapter include a complaint which is capable of becoming a *relevant new complaint* or a relevant transitional complaint.

...

1.3.2R *DISP 1.4 – DISP 1.6* also apply to any complaints that are capable of becoming *relevant new complaints* or relevant transitional complaints, unless *DISP 1.3.3R* applies.

...

1.3.4G Under the *Ombudsman Transitional Order* and the *Mortgage and General Insurance Complaints Transitional Order*, a complaint received by a *firm*, either before or after *commencement*, relating to an act or omission relating to business which was not a regulated activity at the time of the matter complained of is capable of becoming a *relevant new complaint* or a *relevant transitional complaint*. A *firm* is expected to handle such complaints in accordance with *DISP 1*. However, where a *firm* has already received, but only partly completed the handling of, such a complaint by *commencement*, *DISP 1.4.6R* recognises that this may not always be practicable.

...

Complaints being dealt with at commencement

1.4.6R Where, at *commencement*, a *firm* is still dealing with a complaint that is capable of being referred to the *Financial Ombudsman Service* as a *relevant new complaint*:

- (1) ~~it may continue to try to resolve the complaint in accordance with its pre-*commencement* complaints procedures; but~~
- (2) ~~it must, within eight weeks of *commencement*, send the complainant a response which satisfies *DISP 1.4.5R*, unless *DISP 1.4.3AR* or *DISP 1.4.9R* applies. [deleted]~~

...

2.1.3R A reference in this chapter to a "complaint":

- (1) includes part of a complaint; and
- (2) under the *Compulsory Jurisdiction* includes all or part of a *relevant new complaint* and all or part of a relevant transitional complaint.

...

Complaints (other than relevant new complaints or relevant transitional complaints)

2.2.1G The following conditions will need to be satisfied before a complaint (other than a *relevant new complaint* or relevant transitional complaint) can be dealt with ...

...

#### Relevant transitional complaints

2.2.2AG (1) Article 2 of the Mortgage and General Insurance Complaints Transitional Order provides that (subject to certain modifications) the Compulsory Jurisdiction applies to a *relevant transitional complaint*, provided that:

- (a) the act or omission is that of a person ("R") who, at the time of that act or omission, was subject to a former scheme;
- (b) R was an authorised person on or after the relevant commencement date;
- (c) the act or omission occurred in the carrying on by R of an activity to which that former scheme applied; and
- (d) the complainant is eligible and wishes to have the complaint dealt with under the new scheme.

(2) For the purposes of (1)(d), the Mortgage and General Insurance Complaints Transitional Order enables the *Ombudsman*, if he considers it appropriate, to treat the complainant as eligible if he would have been entitled to refer an equivalent complaint to the *former scheme* in question immediately before the *relevant commencement date*.

(3) The Mortgage and General Insurance Complaints Transitional Order enables *relevant transitional complaints* to be handled, so far as possible, under the *Financial Ombudsman Service* procedures, but provides for the *rules* of the former schemes to apply or be taken into account in certain circumstances.

...

2.3.1R ...

- (2) ... or where the *firm* or *VJ participant* has not objected to the *Ombudsman* considering the complaint.

...

2.4.2G *Eligible complainants* are those falling within one of the classes of *person* specified in *DISP 2.4.3R*; and

...

or, in relation to *relevant complaints*, those specified in the *Ombudsman Transitional Order* or the *Mortgage and General Insurance Complaints Transitional Order* (see *DISP 2.4.14G*, ~~and~~ *DISP 2.4.15G*, *DISP 2.4.15AG*, *DISP 2.4.15BG* and *DISP App 1.3.1G*).

...

2.4.14G In respect of a *relevant new complaint* or a *relevant transitional complaint*, where the complainant is not eligible in accordance with *DISP 2.4*, article 3(3) of the *Ombudsman Transitional Order* and article 2(3) of the *Mortgage and General Insurance Complaints Transitional Order* provides that the *Ombudsman* may, nonetheless, if he considers it appropriate...

...

2.4.15AG Article 2(4) of the *Mortgage and General Insurance Complaints Transitional Order* provides that, in the case of a *relevant transitional complaint*, where the *former scheme* in question is the *GISC facility*, a complainant is not to be treated as an *eligible complainant* unless:

- (1) he is an individual; and
- (2) he is acting otherwise than solely for the purposes of his business.

2.4.15BG Article 2(5) of the *Mortgage and General Insurance Complaints Transitional Order* provides that, in the case of a *relevant transitional complaint*, where the *former scheme* in question is the *MCAS scheme*, a complainant is not to be treated as an *eligible complainant* if:

- (1) the complaint does not relate to a breach of the Mortgage Code published by the Council of Mortgage Lenders;
- (2) the complaint concerns physical injury, illness, nervous shock or their consequences; or
- (3) the complainant is claiming a sum of money that exceeds £100,000.

...

2.6.3AG Under article 2 of the *Mortgage and General Insurance Complaints Transitional Order*, the *Ombudsman* can also consider a *relevant transitional complaint* under the *Compulsory Jurisdiction* where it relates to an act or omission of a *firm* which was, immediately before the *relevant commencement date*, subject to a *former scheme*, provided that:

- (1) the act or omission occurred in the carrying on by that *firm* of an activity to which that *former scheme* applied; and
- (2) the complainant is eligible and wishes to have the complaint dealt with under the new scheme.

...

3.1.4R Except as otherwise specified, references in this chapter to a "complaint" include:

- (1) a *relevant new complaint* and a *relevant transitional complaint*; and
- (2) part of a complaint or a *relevant new complaint* or a *relevant transitional complaint*.

...

3.1.6G The *Ombudsman Transitional Order* and the *Mortgage and General Insurance Complaints Transitional Order* provides, with some exceptions (see *DISP 2.2.2G* and *DISP 2.2.2AG* (scope of Compulsory Jurisdiction and Relevant transitional complaints), *DISP 2.3.2G* (time limits), *DISP 2.4.14G* and *DISP 2.4.15R* (*eligible complainant*) and *DISP 3.8.2G* and *DISP 3.8.2AG* (determinations) for *relevant new complaints* and *relevant transitional complaints* to be determined in accordance with the requirements of the *Financial Ombudsman Service*.

...

3.3.2AG Under article 4(2) of the *Mortgage and General Insurance Complaints Transitional Order*, the *Ombudsman*, in deciding whether a *relevant transitional complaint* is to be dismissed without consideration of its merits, must take into account whether an equivalent complaint would have been so dismissed under the *former scheme* in question, as it had effect immediately before the *relevant commencement date*.

...

3.8.2AG In determining, in relation to a *relevant transitional complaint*, what is fair and reasonable in all the circumstances of the case and what amount (if any) constitutes fair compensation for the purposes of section 229(2)(a) of the *Act*, the *Ombudsman* is required, under article 5(2) of the *Mortgage and General Insurance Complaints Transitional Order*, to take into account what determination might have been expected to be made under the *former scheme* in question and what amount (if any) might have been expected to have been awarded or recommended by way of compensation under that scheme, in relation to an equivalent complaint dealt with under the *former scheme* immediately before the *relevant commencement date*.

...

3.9.4AG In determining, in relation to a *relevant transitional complaint*, what amount (if any) constitutes fair compensation for the purposes of section 229(2)(a) of the *Act*, the *Ombudsman* is required under article 5(2) of the *Mortgage and General Insurance Complaints Transitional Order* to take into account what amount (if

any) might have been expected to have been awarded or recommended by way of compensation under that scheme, in relation to an equivalent complaint dealt with under the former scheme immediately before the relevant commencement date.

...

3.10.2G Under article 11 of the *Ombudsman Transitional Order* and article 11 of the *Mortgage and General Insurance Complaints Transitional Order*, any information held by any *person* responsible for the operation of a *former scheme* in connection with the operation of a *former scheme* may be disclosed by that *person* (after commencement or, as the case may be, the relevant commencement date) to *FOS Ltd* or to an *Ombudsman* without contravening any restriction on disclosure of that information (imposed by statute or otherwise) to which that *person* was subject. But *FOS Ltd* or the *Ombudsman* is subject to any restrictions on disclosure (and exceptions) which would have applied to the former holder of that information.

3.10.3G Article 11 of the *Ombudsman Transitional Order* and article 11 of the *Mortgage and General Insurance Complaints Transitional Order* does not, however, prevent the application of section 31(4A) of the Data Protection Act 1998. ...

## Annex B

### Amendments to the Glossary

In this Annex, underlining indicates new text and striking through indicates deleted text.

<i>former scheme</i>	<p>(1) <u>(except in relation to a <i>relevant transitional complaint</i>)</u> any of the following:</p> <p>(a) ...</p> <p>...</p> <p>(h) ...;</p> <p>(2) <u>(in relation to a <i>relevant transitional complaint</i>)</u></p> <p>(a) <u>the <i>GISC facility</i>; or</u></p> <p>(b) <u>the <i>MCAS scheme</i>.</u></p>

**COMPLAINTS AGAINST THE FSA SCHEME (AMENDMENT) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) (a) paragraphs 7 and 8 of Schedule 1;  
(b) section 157(1) (Guidance); and
  - (2) (a) article 2(2) of the Financial Services and Markets Act 2000 (Commencement No.4 and Transitional Provisions) Order 2001 (SI 2001/2364); and

Complaints against the FSA Transitional

provisions TP 1 Transitional Provisions

Complaints against the FSA

COAF 1 There are no transitional provisions in COAF. However, COAF  
2 (Transitional Complaints Scheme) is itself a separate Transitional  
Complaints Scheme covering complaints against the FSA or  
PIA, IMRO or SFASFA in respect of matters arising before  
the date that section 19 (the general prohibition) of the Act  
comes into force.

2 Table: Transitional Provisions

1	Every provision in COAF	G	The FSA and the <i>Complaints Commissioner</i> will continue to treat complaints received before 1 October 2004 in accordance with COAF as in force before amendment by the <i>Complaints against the FSA Scheme (Amendment) Instrument 2004</i> .	From 1 October 2004 for eighteen months	3 September 2001

1.1 Introduction ...

1. 1.1.2 G The *complaints scheme* provides that there may be two distinct stages for each complaint. In the first stage, the FSA itself will investigate any complaint that meets the requirements of the *complaints scheme* (see COAF 1.4 (Coverage and scope of the scheme)) and take whatever action to resolve the matter it thinks appropriate. A complaint will normally only proceed to the second stage if the complainant is dissatisfied with the FSA's determination of his complaint or how it has been handled. This second stage consists of investigation of the complaint by the *Complaints Commissioner*, followed, wherever he finds for the complainant, by his recommendation to the FSA on the form of redress, if any, that is appropriate in the circumstances.

.1.1.3 G (1) ...

(2) ....

(3) Each provision in the *complaints scheme* is, consistent with the style and format of the Handbook, identified by the letter "G". It nevertheless constitutes a definitive

statement of the *complaints scheme* which the *FSA* is required to maintain.

...

1.1.5 G In this *complaints scheme*, “complaint” means any expression of dissatisfaction about the manner in which the *FSA* has carried out, or failed to carry out, its functions under the *Act* other than its legislative functions.

...

## 1.2 Application

1. 1.2.1 G Anyone directly affected by the way in which the *FSA* has carried out its functions, or anyone acting directly on such a *person’s* behalf, may bring a complaint under the *complaints scheme*, provided the complaint meets the requirements of the *complaints scheme* (see *COAF* 1.4 (Coverage and scope of the scheme)). This includes *firms* and *issuers*issuers of *listed securities*listed securities and any *customer* or prospective *customer*, whether an individual or a *body corporate*, or *market counterparty*. Groups, such as trade associations, may bring a complaint under the *complaints scheme* where they themselves have been directly affected by the *FSA’s* actions or inactions. Groups may also bring complaints on behalf of one or more named members that have been directly affected by the *FSA’s* actions or inactions, but cannot bring complaints on behalf of their members generally if it is not apparent that all of the group’s members have been directly affected.

2. 1.2.2 G The *complaints scheme* applies in relation to complaints made about the way in which the *FSA* has carried out, or failed to carry out, its functions

under the *Act*. The *FSA* is also applying the main elements of the *complaints scheme* in respect of complaints against the *FSA* arising in connection with the exercise of its functions under previous legislation and in respect of complaints made against *PIA*, *IMRO* and *SFA*. Those arrangements are set out in the *transitional complaints scheme*.

## 1.3 The Complaints Commissioner

1.3.1 G (1) ...

(2) In appointing the *Complaints Commissioner*, the *FSA* is advised by an appointment panel comprising the Deputy Chairman of the *FSA*, the Chairmen of the Practitioner and Consumer Panels *Consumer Panels* established under sections 9 and 10 of the *Act* and another person who is independent of the *FSA*.

...

1. 1.3.3 G The *FSA* will provide remunerate the *Complaints Commissioner* and will provide him with sufficient financial and other resources to allow him to fulfil his role under the *complaints scheme* properly equip him with suitable accommodation and staff. No member of the *Complaints Commissioner’s* staff may be an employee of, or perform any duties for, the *FSA*.

2. 1.4 Coverage and scope of the scheme

1.4.1 G (1) ...

~~.(2) Because the *complaints scheme* is concerned with complaints about the way in which the FSA has discharged its functions, it does not cover complaints about the actions of the *Financial Ombudsman Service* or the *Financial Services Compensation Scheme*. [deleted]~~

.(3) To be eligible to make a complaint under the *complaints scheme*, a *person* (see COAF 1.2.1G) must be seeking a remedy, (which for this purpose may include an apology, see COAF 1.5.5G) in respect of some inconvenience, distress or loss which the *person* has suffered as a result of being directly affected by the FSA's actions or inaction.

Exclusions from the scheme

1.4.2 G Each of the following is excluded from the *complaints scheme*:

- .(1) ...
- .(2) ...; and
- (3) ...; and

. (4) complaints about the actions, or inactions, of the *Financial Ombudsman Service* or the *Financial Services Compensation Scheme*.

Circumstances under which the FSA will not investigate

1.4.2A G The FSA will not investigate a complaint under the *complaints scheme* which it reasonably considers amounts to no more than dissatisfaction with the FSA's general policies or with the exercise of, or failure to exercise, a discretion where no unreasonable, unprofessional or other misconduct is alleged.

Complaints that are more appropriately dealt with in another way ~~Alternative remedies~~

1.4.3 G The FSA will not investigate a complaint under the *complaints scheme* which it reasonably considers: (1) could have been, or would be, more appropriately dealt with in another way (for example by referring the matter to the *Tribunal* or by the institution of other legal proceedings); or

~~(2) amounts to no more than dissatisfaction with the FSA's general policies or with the exercise of discretion where no unreasonable, unprofessional or other misconduct is alleged.~~

Investigations that may be deferred

1.4.4 G ...

~~Certain complaints to be in writing~~

1.4.5 G (1) ~~A complaint made orally by a consumer will be investigated by the FSA. If the complaint cannot be resolved quickly, the FSA will write to the complainant inviting him to confirm its understanding of the complaint.~~

~~(2) Other persons complaining orally will be asked to confirm their complaint in writing (this includes in electronic form), and the FSA will not normally investigate a complaint until the complainant has done so.[deleted]~~

...

## 1.5 Procedure

The FSA's initial response to complaints Telling complainants how the Complaints Scheme works

1.5.1 G The FSA will acknowledge a complaint within five working days of receipt. It will, in response to a each complaint made in a *durable medium*, send to theeach complainant a leaflet, in a *durable medium*, explaining how the *complaints scheme* works, including details of his right to refer the complaint to the *Complaints Commissioner* if he is dissatisfied with the way in which the FSA has dealt with it (see COAF 1.5.56G ).

The FSA's initial analysis of complaints

1.5.1A G On receiving a complaint, the FSA will determine whether it can be dealt with under the *complaints scheme* and whether it can be dealt with under the 'fast track' complaints handling procedure (see COAF 1.5.1DG).

1.5.1B G Where the FSA does not investigate a complaint under the *complaints scheme*, either because the FSA considers it to be outside of the scope of the *complaints scheme* or for another reason described in COAF (see COAF 1.2 (Application) and COAF 1.4 (Coverage and scope of the scheme)), the FSA will write to the complainant explaining why this is the case and informing him of his right to ask the *Complaints Commissioner* to review the decision. The FSA will do this within four weeks of receiving the complaint or, where COAF 1.5.1GG(1) applies, within four weeks of the complainant notifying the FSA that he is dissatisfied with the way his complaint has been handled.

Asking for information in writing

1.5.1C G (1) A complaint made orally by a *consumer* will be investigated by the FSA. However, if the FSA requires clarification from the complainant as to the nature or scope of the complaint, the FSA may either invite the complainant to confirm or clarify the details of the complaint, or it may communicate its understanding of the nature or scope of the complaint to the *consumer*, in a *durable medium*.

. (2) Other *persons* complaining orally will be asked to confirm their complaint in a *durable medium*.

. (3) The FSA may ask the complainant to explain what remedy he is seeking or to provide any factual information that supports his complaint in a *durable medium*.

.(4) The FSA may not be able to progress its investigation of a complaint until it has received the information described in (1) to (3), as it needs to understand from the complainant what the complaint is about if it is to investigate it properly.

'Fast track' complaints handling procedure

1.5.1D G (1) The FSA will use a 'fast track' procedure for investigating a complaint where it believes the complaint:

.(a) is of low impact from the perspective of both the complainant and the FSA (for example, it is about a minor administrative mistake); and

.(b) can be dealt with within five *business days* of the FSA first receiving communication of the complaint, in a way that the FSA believes remedies any adverse effect on the complainant.

(2) If, after initiating the 'fast track' complaints handling procedure for a particular complaint, the FSA then considers that the complaint does not meet the criteria in (1), it will then deal with it as described at COAF 1.5.1HG.

1.5.1E G The 'fast track' procedure will involve the complaint being dealt with under the *complaints scheme* by the area of the FSA most closely concerned with the matter complained of.

1.5.1F G For all complaints dealt with under the 'fast track' procedure, the FSA will advise the complainant of his right to refer his complaint to the FSA's Company Secretariat if he believes the complaint has not been resolved or is otherwise dissatisfied with the way it has been dealt with.

Handling of 'fast track' complaints referred to the Company Secretariat

1.5.1G G (1) If the complainant refers his complaint to the FSA's Company Secretariat, the FSA will acknowledge this complaint within five *business days* of receiving this referral.

(2) The FSA will review the complaint, at this point, to make sure that it falls within the scope of the *complaints scheme*. If the FSA considers that the complaint is outside the *complaints scheme*, it will follow the procedures in COAF 1.5.1BG. Otherwise, it will handle the complaint in accordance with COAF 1.5.2G.

'Non-fast track' complaints: the FSA's initial response

1.5.1H G Where a complaint is not suitable for the 'fast track' complaints handling procedure, the FSA will acknowledge it within five *business days* of receipt and will deal with it in accordance with COAF 1.5.2G.

Stage 1: Investigation of complaints by the FSA

1. 1.5.2 G The FSA will arrange for an initial investigation by its own staff of any complaint which is a complaint under the terms of the *complaints scheme* and which does not come within satisfies the provisions of COAF 1.4.1G to COAF 1.4.6G. That investigation will be carried out by a suitably senior member of staff who has not previously been involved in the matter complained of, with a view to resolving the matter to the complainant's satisfaction. The FSA will seek to resolve the complaint as quickly as possible.—

2. 1.5.3 G The FSA will seek to resolve the complaint as quickly as possible. The FSA will either complete aim to ensure that all investigations are completed within eight weeks. If it has not completed the investigation of a complaint within four weeks, or it will write to the complainant within this time setting out a reasonable timescale within which it plans to deal with the complaint. If the FSA has not already confirmed whether or not the complaint will be admitted to the complaints scheme, the FSA will include this informationthe FSA will write to the complainant reporting ~~that fact.~~

What are the possible outcomes for the complainant?

1. 1.5.4 G If the FSA concludes that a complaint is well founded, it will tell the complainant what it proposes to do to remedy the matters of complaint complained of.

2. 1.5.5 G Remedying a well founded complaint may include offering the

complainant an apology, taking steps to rectify an error or, if appropriate, the offer of a compensatory payment on an ex-gratia basis. If the FSA decides not to uphold or to reject a complaint, it will give its reasons for doing so to the complainant, and will inform the complainant of his right to ask the Complaints Commissioner to review the FSA's decision.

1.5.6 G Complainants who are dissatisfied with the outcome of an investigation, or who are dissatisfied with the FSA's progress in investigating a complaint, may refer the matter to the *Complaints Commissioner*, who may decide will consider whether or not to carry out his own investigation.

When will the If the FSA does not investigate a complaint, will the Complaints Commissioner investigate a complaint that the FSA has not investigated? do so?

1. 1.5.7 G When the FSA has told a complainant in writing that it will not investigate his complaint, as provided for by COAF 1.5.1AG, it will also notify the Complaints Commissioner of this fact. Within ten working days of ~~receiving a complaint, the FSA will notify the Complaints Commissioner of each complaint which it decides not to investigate and will inform the complainant that it has done so.~~ The Complaints Commissioner will not review the FSA's decision unless the complainant requests this. Where the complainant does request this, tThe Commissioner will, after considering any representations from the complainant and the FSA, then decide whether the complaint falls within the scope of the *complaints scheme* and, if so, whether to conduct an investigation.

2. 1.5.8 G (1) If a complaint is referred or notified to the *Complaints Commissioner* before the FSA has had the opportunity to conduct or complete an investigation, the *Complaints Commissioner* will consider whether it would be desirable to allow the FSA that opportunity before conducting his own investigation.

(2) Paragraph (1) also applies to a complaint received by the Complaints Commissioner when he is conducting a Stage 2 investigation into another complaint from the same complainant.

...

## Stage 2: Conduct of investigations by the *Complaints Commissioner*

1.5.10 G The *Complaints Commissioner* may conduct an investigation in whatever manner he thinks appropriate including obtaining, at the *FSA*'s expense, such external resources as may be reasonable. In considering what is appropriate, the *Complaints Commissioner* will take into account the need to ensure that complaints are dealt with fairly, quickly and cost effectively.

1.5.10A G In performing his functions in accordance with the *complaints scheme*, the *Complaints Commissioner* must at all times act independently of the *FSA*. ...

1.5.18 G The *Complaints Commissioner* may, if he thinks it appropriate, recommend that the *FSA* remedy the matters complained of, as described in *COAF* 1.5.5G. take either or both of the following steps:

- ~~(1) remedy the matters of complaint; or~~
- ~~(2) make a compensatory payment to the complainant. ...~~

### Responding to the Complaints Commissioner

1.5.24 G In deciding how it should respond to a report from the *Complaints Commissioner*, the *FSA* will, as well as having regard to its statutory objectives and the considerations set out in section 2(3) or 73(1) of the *Act*, normally take into account the following:

- .(1) ...
- .(2) ...
- .(3) whether what has gone wrong is at the operational or administrative level (rather than in relation to matters of policy or where the *FSA*'s ~~actions have necessarily had to reflect a balancing of conflicting interests and complex issues~~);

- (4) ... ..

### Annual Reports

1.6.2 G The *Complaints Commissioner* will each year submit a report to the *FSA* Board, for publication.;

.(1) a report on investigations concluded by him during the 12-month period ending 31 March. The report may include information concerning trends in the subject matter of complaints and on the general lessons which he considers the *FSA* should learn; and

.(2) information on his activities during that year, including such matters as the approach he adopted to handling different types of complaint and the extent to which he has met his service standards for dealing with complaints. (The *Complaints Commissioner* will set these standards himself.)

### Transitional complaints scheme ...

2.1.5 G (1) Where the *FSA* is required to make a particular arrangement as part of the *transitional complaints scheme*, this is recognised in the following text by use of

the word 'must'. In contrast, where a provision in the *transitional complaints scheme* states that someone "will" do something, this denotes that the *FSA* is committing itself or the *Complaints Commissioner* to some action which, though not specifically required, is nevertheless viewed as necessary to give effect to the intentions of the *Act*.

- (2) Each provision in the *transitional complaints scheme* is, consistent with the style and format of the *Handbook*, identified by the letter "G". It nevertheless constitutes a definitive statement of the *transitional complaints scheme* which the *FSA* is maintaining.

...

#### 2.1.9 G In this *transitional complaints scheme*:

(1) "complaint" means any expression of dissatisfaction about the manner in which the *FSA* has carried out, or failed to carry out, its statutory functions (other than its legislative functions) and about the manner in which *PIA*, *IMRO* or *SFA* have carried out their functions arising in connection with the Financial Services Act 1986 (other than their functions of making rules and issuing guidance);

(2) ...

(3) ... ..

## 2.2 Application

1. 2.2.1 G Anyone directly affected by the way in which the *FSA*, *PIA*, *IMRO* or *SFA* has carried out their functions, or anyone acting directly on such a *person's* behalf, may bring a complaint under the *transitional complaints scheme*, provided the complaint meets the requirements of the *transitional complaints scheme* (see *COAF* 2.3 (Coverage and scope of the scheme)). This includes *firms* and issuers of listed securities and any customer or prospective customer, whether an individual or a body corporate, or market counterparty. Groups, such as trade associations, may bring a complaint under the *transitional complaints scheme* where they themselves have been directly affected by the *FSA's* actions or inactions. Groups may also bring complaints on behalf of one or more named members that have been directly affected by the *FSA's* actions or inactions, but cannot bring complaints on behalf of their members generally if it is not apparent that all of the group's members have been affected.

2. 2.3 Coverage and scope of the scheme

2.3.1 G (1) ...

(2) The *transitional complaints scheme* does not cover complaints about ~~the actions of the Financial Ombudsman Service, the Financial Services Compensation Scheme, the Investors' Compensation Scheme or of any independent complaints investigation body established by *PIA*, *IMRO* or *SFA*.~~[deleted]

(3) ...

(4) To be eligible to make a complaint under the *transitional complaints scheme*, a *person* (see *COAF* 2.2.1G) must be seeking a remedy (which for this purpose may include an apology, see *COAF* 2.4.5G) in respect of some inconvenience, distress or loss which the

person has suffered as a result of being directly affected by the actions or inaction of the *FSA, PIA, IMRO* or *SFA*.

#### Exclusions from the scheme

2.3.2 G Each of the following is excluded from the *transitional complaints scheme*:

(1) ...

...

(4) ....; and

(5) complaints about the actions, or inactions, of the *Financial Ombudsman Service*, the *Financial Services Compensation Scheme*, the Investors' Compensation Scheme or of any independent complaints investigation body established by *PIA, IMRO* or *SFA*.

#### Circumstances under which the FSA will not investigate

2.3.2A G The *FSA* will not investigate a complaint under the *transitional complaints scheme* which it reasonably considers amounts to no more than dissatisfaction with the general policies of the *FSA* or of *PIA, IMRO* or *SFA* or with the exercise of a discretion by any such body where no unreasonable, unprofessional or other misconduct is alleged.

#### Complaints that are more appropriately dealt with in another way Alternative remedies

2.3.3 G The *FSA* will not investigate a complaint under the *transitional complaints scheme* which it reasonably considers: (1) could have been, or would be, more appropriately dealt with in another way (for example by referring the matter to the Financial Services Tribunal or to the committees, tribunals and appeal bodies or to any successor tribunal of *PIA, IMRO* or *SFA* or by the institution of other legal proceedings); or  
(2) ~~amounts to no more than dissatisfaction with the general policies of the *FSA* or of *PIA, IMRO* or *SFA* or with the exercise of discretion by any such body where no unreasonable, unprofessional or other misconduct is alleged.~~

#### Investigations that may be deferred

2.3.4 G ...

#### ~~Certain complaints to be in writing~~

2.3.5G (1) ~~— A complaint made orally by a consumer will be investigated by the *FSA*. If the complaint cannot be resolved quickly, the *FSA* will write to the complainant inviting him to confirm its understanding of the complaint.~~

~~(2) Other persons complaining orally will be asked to confirm their complaint in writing (this includes in electronic form) and the *FSA* will not normally investigate a complaint until the complainant has done so.[deleted]~~

...

2.4 Procedure

## The FSA's initial response to complaints

2.4.1 G The FSA will acknowledge a complaint within five *business days* working days of receipt. and will deal with it in accordance with COAF 2.4.2G-2.4.4G. Where the complaint is in a durable medium, the FSA It will send each complainant a leaflet, in a *durable medium*, explaining how the *transitional complaints scheme* works, including details of his right to refer the complaint to the *Complaints Commissioner* if he is dissatisfied with the way in which the FSA has dealt with it (see COAF 2.4.6G).

2.4.1A G Where the FSA does not investigate a complaint under the *transitional complaints scheme*, either because the FSA considers it to be outside of the scope of the *complaints scheme* or for another reason described in COAF (see COAF 2.2 (Application) and COAF 2.3 (Coverage and scope of the scheme)), the FSA will write to the complainant explaining why this is the case and informing him of his right to ask the *Complaints Commissioner* to review the decision. The FSA will do this within four weeks of receiving the complaint.

### Putting complaints in writing

2.4.1B G (1) A complaint made orally by a consumer will be investigated by the FSA. However, if the FSA requires further clarification from the complainant as to the nature or scope of the complaint, the FSA may either invite the complainant to confirm or clarify the details of the complaint, or it may communicate its understanding of the nature or scope of the complaint to the consumer, in a durable medium.

. (2) Other persons complaining orally will be asked to confirm their complaint in a durable medium.

. (3) The FSA may ask the complainant to explain what remedy he is seeking or to provide any factual information that supports his complaint in a durable medium.

. (4) The FSA may not be able to progress its investigation of a complaint until it has received the information described in (1) to (3), as it needs to understand from the complainant what the complaint is about if it is to investigate it properly.

### Stage 1: Investigation of complaints by the FSA

1. 2.4.2 G The FSA will arrange for an initial investigation by its own staff of any complaint which is a complaint under the terms of the *transitional complaints scheme* and which does not come within satisfies the provisions of COAF 2.3.21G to COAF 2.3.56G. That investigation will be carried out by a suitably senior member of staff who has not previously been involved in the matter complained of, with a view to resolving the matter to the complainant's satisfaction. The FSA will seek to resolve the complaint as quickly as possible.

2. 2.4.3 G The FSA will seek to resolve the complaint as quickly as possible. The FSA will either complete aim to ensure that all investigations are completed within eight weeks. If it has not completed the investigation of a complaint within four weeks, or it will write to the complainant within this time setting out a reasonable timescale within which it plans to deal with the complaint. If the FSA has not already confirmed whether or not the complaint will be admitted to the *complaints scheme*, the FSA will include this information the FSA will write to

the complainant reporting ~~that fact~~.

What are the possible outcomes for the complainant?

1. 2.4.4 G If the *FSA* concludes that a complaint is well founded it will tell the complainant what it proposes to do to remedy the matters of complaint complained of.
2. 2.4.5 G Remedying a well-founded complaint may include offering the complainant an apology and taking steps to rectify an error. If the *FSA* decides not to uphold to reject a complaint, it will give its reasons for doing so to the complainant, and will inform the complainant of his right to ask the *Complaints Commissioner* to review the *FSA*'s decision.
3. 2.4.6 G Complainants who are dissatisfied with the outcome of an investigation, or who are dissatisfied with the *FSA*'s progress in investigating a complaint, may refer the matter to the *Complaints Commissioner*, who may decide will consider whether or not to carry out his own investigation.

When will the If the *FSA* does not investigate a complaint, will the *Complaints Commissioner* investigate a complaint that the *FSA* has not investigated?do so?

2.4.7 G When the *FSA* has told a complainant in writing that it will investigate his complaint, as provided for by *COAF* 2.4.1BG, it will also notify the *Complaints Commissioner* of this fact. Within ten working days of receiving a complaint, the *FSA* will notify the *Complaints Commissioner* of each complaint which it decides not to investigate and will inform the complainant that it has done so. The *Complaints Commissioner* will not review the *FSA*'s decision unless the complainant requests this. Where the complainant does request this, Tthe *Commissioner* will, after considering any representations from the complainant and the *FSA*, then decide whether the complaint falls within the scope of the *transitional complaints scheme* and, if so, whether to conduct an investigation.

- 2.4.8 G (1) If a complaint is referred or notified to the *Complaints Commissioner* before the *FSA* has had the opportunity to conduct or complete an investigation, the *Complaints Commissioner* will consider whether it would be desirable to allow the *FSA* that opportunity before conducting his own investigation;
- (2) Paragraph (1) also applies to a complaint received by the *Complaints Commissioner* when he is conducting a Stage 2 investigation into another complaint by the same complainant.

...

Stage 2: Conduct of investigations by the *Complaints Commissioner*

2.4.10 G The *Complaints Commissioner* may conduct an investigation in whatever manner he thinks appropriate including obtaining, at the *FSA*'s expense, such external resources as may be reasonable. In considering what is appropriate, the *Complaints Commissioner* will take into account the need to ensure that complaints are dealt with fairly, quickly and cost effectively.

2.4.10A G In performing his functions in accordance with the *transitional complaints*

*scheme*, the *Complaints Commissioner* must at all times act independently of the *FSA*, *PIA*, *IMRO* and *SFA*.

...

#### Responding to the Complaints Commissioner

2.4.22 G The *FSA* must, in any case where the *Complaints Commissioner* has reported that a complaint is well founded or where he has criticised the *FSA*, *PIA*, *IMRO* or *SFA* in his report, inform the *Complaints Commissioner* and the complainant of the steps which it proposes to take by way of response.

...

#### Annual Reports

2.5.2 G The *Complaints Commissioner* will each year submit a report to the *FSA* Board, for publication:

. (1) a report on investigations concluded by him during the 12-month period ending 31 March. The report may include information concerning trends in the subject matter of complaints and on the general lessons which he considers the *FSA* should learn; and

.(2) information on his activities during that year, including such matters as the approach he adopted to handling different types of complaint and the extent to which he has met his service standards for dealing

with complaints. (The *Complaints Commissioner* will set these standards himself.)

**INTERIM PRUDENTIAL SOURCEBOOK FOR BANKS (AMENDMENT NO 6)  
INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the power in section 157(1) (Guidance) of the Financial Services and Markets Act 2000.

**Commencement**

- B. This instrument comes into force on 1 November 2004.

**Amendments to the Interim Prudential sourcebook for Banks**

- C. The Interim Prudential sourcebook for Banks is amended in accordance with the Annex to this instrument.

**Citation**

- D. This instrument may be cited as the Interim Prudential Sourcebook for Banks (Amendment No 6) Instrument 2004.

By order of the Board  
16 September 2004

## Annex

### Amendments to the Interim Prudential sourcebook for Banks

In this Annex, underlining indicates new text and striking through indicates deleted text.

Amend IPRU(BANK)), Volume 2, Chapter SE (Securitisation and Asset Transfer) as follows:

#### 1.3 ~~[deleted]~~Notification policy

6 ~~[deleted]~~A bank should give prior notification to the FSA when it proposes to act in any of the primary roles, either solely or jointly with one or more other parties. This should take place in reasonable time to allow the FSA to consider the proposal and raise any concerns that it may have.

- a) ~~The responsibility for achieving supervisory non-objection to a proposal rests with the bank itself.~~

...

#### 6.3 Additional policy relating to asset packages

...

6 ...

(g)~~[deleted]~~—The name of a company used as a vehicle for a scheme should not include the name of the performer of the primary role nor imply any connection with it.

- a) ~~Where the bank acts in a primary role, this also applies to members of the consolidated group.~~

...

#### 9.6.2 Treatment for first loss

13 The originating bank may make a choice of either deducting the amount of the credit enhancement from capital or including the assets within their risk weighted asset ratio under normal rules as if there had been no securitisation. The choice should be made at the outset, and maintained for the duration of the credit enhancement facility and be advised to the FSA. Where the credit enhancement is permanently reduced through the remittance of funds to the originator, and without recourse to the originator thereafter, the amount deducted from capital can be reduced accordingly.

9.6.3 Treatment for second loss

- 14 An originator providing a second loss facility (in an acceptable form) should deduct the amount of the facility from capital. Where the credit enhancement is permanently reduced through the remittance of funds to the originator, and without recourse to the originator thereafter, the amount deducted from capital can be reduced accordingly.

...

9.7.2 Treatment for first loss

- 16 First loss credit enhancement facilities provided by a sponsor or repackager should be deducted from capital. Where the credit enhancement is permanently reduced through the remittance of funds to the sponsor or repackager, and without recourse to the sponsor or repackager thereafter, the amount deducted from capital can be reduced accordingly.

## Annex

### Amendments to the Interim Prudential sourcebook for banks

In this Annex, underlining indicates new text and striking through indicates deleted text.

Amend IPRU(BANK), Volume 2, Chapter LS as follows:

4.4 Definitions relevant to both components

4.4.1 *The stock of sterling liquid assets*

...

9 The stock of *sterling liquid assets* consists of:

...

- (e) sterling international bonds issued by certain EEA government and ~~or~~ ~~certain~~ international financial institutions, where they have been issued into Euroclear or Clearstream settlement systems;
- (f) Euro-denominated bonds issued by certain EEA governments and ~~or~~ ~~certain~~ international financial institutions, where they have been issued into Euroclear or Clearstream settlement systems and where they are eligible for use in ESCB monetary policy operations;
- (g) a range of Euro-denominated securities, where they are issued by the central governments and central banks of certain ~~the~~ EEA countries, where they are eligible for use in ESCB monetary policy operations, and where the relevant central bank of a country participating in EMU has agreed to act as a bank's custodian under the Correspondent Central Banking Model (CCBM);
  - a) Detailed lists of the bonds described in (d), (e), (f) and (g) above can be found on the Bank of England's website under OMO on the 'Eligible Securities' page (~~www.bankofengland.co.uk/eligsec.htm~~ www.bankofengland.co.uk/markets/money/eligiblesecurities.htm).
  - b) The FSA will automatically ~~extend~~ update the list of bonds that it considers banks may include in their stock of sterling liquid assets in line with the Bank of England's programme of ~~extending~~ reviewing its eligible securities ~~as outlined in the Bank's announcement of October 1998.~~
    - i) ~~This announcement (and other announcements)~~ All relevant announcements can be found on the Bank of England's website.
    - ii) The Bank of England will update its lists of eligible securities regularly.

## Annex A

### Amendments to the Interim Prudential sourcebook for Banks

In this Annex, underlining indicates new text and striking through indicates deleted text.

Amend IPRU(BANK), Volume 1, Chapter BC Section 3.2.4 paragraph 6(a) as follows:

(a) asset items constituting claims on ~~multilateral development banks~~ multilateral development banks as defined in the Handbook Glossary and claims guaranteed by or collateralised by the securities issued by these institutions;

a) ~~[deleted] The following institutions, as set out in The Banking Consolidation Directive (formerly the SRD) and subsequent amendments, are considered as multilateral development banks:~~

- ~~i) African Development Bank (AfDB);~~
- ~~ii) Asian Development Bank (AsDB);~~
- ~~iii) Caribbean Development Bank (CDB);~~
- ~~iv) Council of Europe Development Bank~~
- ~~v) European Bank for Reconstruction and Development (EBRD);~~
- ~~vi) European Investment Bank (EIB);~~
- ~~vii) European Investment Fund (EIF);~~
- ~~viii) Inter American Development Bank (IADB);~~
- ~~ix) Inter American Investment Corporation (IAIC);~~
- ~~x) International Bank for Reconstruction and Development (IBRD) including International Finance Corporation (IFC); and~~
- ~~xi) Nordic Investment Bank (NIB).~~

...

Amend IPRU(BANK), Volume 1, Chapter TI Section 5.2 paragraph 4(b) as follows:

(b) it is a security issued by, or fully collateralised by claims on, a multilateral development bank as defined in the Handbook Glossary ~~listed in the Solvency Ratio Directive.~~

~~a) For the list of qualifying multilateral development banks, see the relevant chapter.~~

Amend IPRU(BANK), Volume 1, Chapter TI paragraph 46G (as inserted by the Interim Prudential Sourcebook for Banks (Market Risk) Instrument 2004) as follows:

46 G A debt security is a *qualifying debt security* if:

(1)...

(2) it is issued by, or fully guaranteed by:

(a)...

(b) a multilateral development bank ~~listed in 3.2.4 of chapter BC~~ as defined in the Handbook Glossary;

...

## **Annex B**

### **Amendments to the Interim Prudential sourcebook for Building Societies**

In this Annex, underlining indicates new text and striking through indicates deleted text.

Amend IPRU(BSOC), Volume 1, Annex 1B, 1B.4.1 (6) as follows:

Securities issued or guaranteed by multilateral development banks as defined in the Handbook Glossary (~~International Bank for Reconstruction and Development, International Finance Corporation, Inter-American Development Bank, Asian Development Bank, African Development Bank, Caribbean Development Bank, European Investment Bank, European Bank for Reconstruction and Development, Nordic Investment Bank, Council of Europe Resettlement Fund, European Investment Fund and Inter-American Investment Corporation~~).

## Annex C

### Amendments to the Interim Prudential sourcebook for Investment Businesses

In this Annex, underlining indicates new text and striking through indicates deleted text.

Amend IPRU(INV), Chapter 3 (Financial resources for Securities and Futures Firms which are not Investment Firms) Appendix 35 Part 2 as follows:

#### PART 2

##### List of Supranational Organisations

a multilateral development bank;

~~The African Development Bank;~~

~~The Asian Development Bank;~~

The Bank for International Settlements;

~~The Caribbean Development Bank;~~

The Council of Europe;

Euratom (The European Atomic Energy Community);

Eurofina (The European Company for Financing of Railroad Rolling Stock);

~~The European Bank for Reconstruction and Development;~~

The European Coal and Steel Community;

The European Economic Community;

~~The European Investment Bank;~~

~~The Inter-American Development Bank;~~

~~The International Bank for Reconstruction and Development (World Bank);~~

~~The International Finance Corporation;~~

The International Monetary Fund.;

~~The Nordic Investment Bank.~~

...

Amend IPRU(INV), Chapter 5 (Interim Prudential Requirements for Former IMRO Firms), Appendix 1 as follows:

*exempt exposure* means an exposure:

...

(1) secured by marketable securities provided that such collateral exceeds the market value of the *exposure* by 150 per cent in the case of transactions relating to shares and by 50 per cent in relation to debt securities issued by a *credit institution*, a *member state* regional or local authority; or a multilateral development bank ~~the EIB, the IBRD, the IFC, the IADB, the Asian and African Development Banks, the Council of Europe Resettlement Fund, the Nordic Investment Bank and the Caribbean Development Bank.~~

Amend IPRU(INV), Chapter 10 (Financial resources for Securities and Futures Firms which are Investment Firms), Appendix 1 as follows:

*multilateral development bank* means ~~African Development Bank, Asian Development Bank, Caribbean Development Bank, Council of Europe Resettlement Fund, European Bank for Reconstruction and Development, European Investment Bank, Inter American Development Bank, International Finance Corporation, International Bank for Reconstruction and Development (IBRD) and Nordic Investment Bank (NIB);~~

...

*qualifying debt security* means a debt security which –

(1) (a) ...

(b) is issued or fully guaranteed by –

...

(vii) one of the following organisations -

- a multilateral development bank;
- ~~The African Development Bank;~~
- ~~The Asian Development Bank;~~
- The Bank for International Settlements;
- ~~The Caribbean Development Bank;~~
- The Council of Europe;
- Euratom (European Atomic Energy Community);
- Eurofina (European Company for Financing of Railroad Rolling Stock);
- ~~The European Bank for Reconstruction and Development;~~
- The European Coal and Steel Community;
- The European Economic Community;
- ~~The European Investment Bank;~~
- ~~The Inter American Development Bank;~~
- ~~The International Bank for Reconstruction and Development (World Bank);~~
- ~~The International Finance Corporation;~~
- The International Monetary Fund;
- ~~The Nordic Investment Bank;~~

Amend IPRU(INV), Chapter 10 (Financial resources for Securities and Futures Firms which are Investment Firms), Appendix 35 Part 2 as follows:

## **PART 2**

### **List of Supranational Organisations**

a multilateral development bank;

~~The African Development Bank;~~

~~The Asian Development Bank;~~

The Bank for International Settlements;

~~The Caribbean Development Bank;~~

The Council of Europe;

Euratom (The European Atomic Energy Community);

Eurofina (The European Company for Financing of Railroad Rolling Stock);

~~The European Bank for Reconstruction and Development;~~

The European Coal and Steel Community;

The European Economic Community;

~~The European Investment Bank;~~

~~The Inter American Development Bank;~~

~~The International Bank for Reconstruction and Development (World Bank);~~

~~The International Finance Corporation;~~

The International Monetary Fund;

~~The Nordic Investment Bank.~~

Amend IPRU(INV), Chapter 13 (Financial Resource Requirements for Personal Investment Firms) Appendix 13(1) as follows:

*qualifying debt security* a debt security which –

(a) ...

(iv) one of the following organisations:

- ~~a *multilateral development bank*;~~
- ~~The African Development Bank;~~
- ~~The Asian Development Bank;~~
- ~~The Caribbean Development Bank;~~
- ~~The Council of Europe;~~
- ~~The European Bank for Reconstruction and Development;~~
- ~~The European Investment Bank;~~
- ~~The Inter-American Development Bank;~~
- ~~The International Bank for Reconstruction and Development (World Bank);~~
- ~~The International Finance Corporation;~~
- ~~The Nordic Investment Bank;~~

...

## Annex D

### Amendments to the Glossary

In this Annex, underlining indicates new text and striking through indicates deleted text.

Amend the following definition as shown:

*multilateral development bank*      ~~(in ELM)~~ any of the following:  
African Development Bank (AfDB)  
Asian Development Bank (ASB)  
Caribbean Development Bank (CDB)  
Council of Europe Development Bank  
European Bank for Reconstruction & Development (EBRD)  
European Investment Bank (EIB)  
European Investment Fund (EIF)  
Inter-American Development Bank (IADB)  
Inter-American Investment Corporation (IAIC)  
International Bank for Reconstruction & Development (IBRD) including International Financial Corporation (IFC)  
Multilateral Investment Guarantee Agency (MIGA)  
Nordic Investment Bank (NIB)

Chapter 5, Appendix 1

#### GLOSSARY OF TERMS FOR CHAPTER 5 (FORMER IMRO FIRMS)

The following words or terms throughout Chapter 5 are to have the meanings given to them below if not inconsistent with the subject or context. If a defined term does not appear in the Chapter 5 glossary below, the definition ~~appearing in the Glossary~~ appearing in the *Glossary* applies.

...

*otc derivative* means interest rate and foreign exchange contracts covered by Annex ~~III~~ II to the ~~Solvency Ratio Directive~~ Banking Consolidation Directive and off balance sheet contracts based on equities which are not traded on a *recognised* or *designated investment exchange* or other exchange where they are subject to daily margin requirements, excluding any foreign exchange contract with an original maturity of 14 calendar days or less.

...

Chapter 13, Appendix 13(1)

...

#### Appendix 13 (1) Defined terms for Chapter 13

...

Category A firm a *personal investment firm* which is an *ISD investment firm*.

...

Category A2 firm a *Category A firm* whose *permission* does not include *dealing in investments as principal*; and which is not subject to a requirement preventing the holding or controlling of client money or custody assets.

Category A3 firm a *Category A firm* whose *permission* includes only *arranging* transactions in *investments, advising on investments* and ~~if applicable~~ *managing investments* but which is subject to a requirement not to hold or control client money or custody assets.

...

Category B2 firm a *Category B firm* whose *permission* does not include *dealing as principal*; and is not subject to a requirement preventing the holding or controlling of client money or custody assets.

Category B3 firm a *Category B firm* whose *permission* includes only *arranging* transactions in *life policies* and other insurance contracts, *advising on investments* and receiving and transmitting, on behalf of investors, orders in relation to *securities* and *units in collective investment schemes*; but which is subject to a requirement not to hold or control client money or custody assets.

**DISTANCE MARKETING DIRECTIVE (AMENDMENT) INSTRUMENT 2004****Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 ("the Act"):
- (1)
    - (a) section 118(8) (Market abuse);
    - (b) section 138 (General rule-making power);
    - (c) section 139(1) and (4) (Miscellaneous ancillary matters);
    - (d) section 145 (Financial promotion rules);
    - (e) section 147 (Control of information rules);
    - (f) section 149 (Evidential provisions);
    - (g) section 156 (General supplementary powers);
    - (h) section 157(1) (Guidance);
    - (i) section 247 (Trust scheme rules); and
  - (2)
    - (a) regulation 6(1) of the Open-Ended Investment Companies Regulations 2001 (SI 2001/1228);
    - (b) regulation 3 of the Electronic Commerce Directive (Financial Services and Markets Act 2000) Regulations 2002 (SI 2002/1775); and
    - (c) regulation 2 of the Financial Services and Markets Act 2000 (Fourth Motor Insurance Directive) Regulations 2002 (SI 2002/2706).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C. This instrument comes into force on 9 October 2004.

**Amendments to the Handbook**

- D. The modules of the FSA's Handbook of rules and guidance listed in column (1) below are amended in accordance with the Annexes to this instrument listed in column (2).

...

1.3.5 G *Firms* are reminded that the definition of *inter-professional business* does not include:

...

(3) ...;

(4) *corporate finance business*;

(4)(5) concluding a *distance contract* with a *retail customer*.

...

1.6.2 R Table Provisions of COB applied to stock lending activity  
This table belongs to COB 1.6.1R

COB	Subject
...	
<u>2.6</u>	<u>General provisions related to distance marketing, but only in relation to <i>distance contracts</i> concluded with <i>retail customers</i></u>
6.7	Cancellation and withdrawal, but only in relation to <i>distance contracts</i> concluded with <i>retail customers</i>
...	

...

1.6.4 R Table Provisions of COB applied to corporate finance business  
This table belongs to COB 1.6.3R

COB	Subject
...	
<u>2.6</u>	<u>General provisions related to distance marketing, but only in relation to <i>distance contracts</i> concluded with <i>retail customers</i></u>
<u>6.4.25R</u>	<u>Entering into a <i>distance contract</i> to accept deposits, but (a) as if <i>corporate finance business</i> was <i>accepting deposits</i> and (b) only in relation to <i>distance contracts</i> concluded with <i>retail customers</i></u>
6.7	Cancellation and withdrawal, but only in relation to <i>distance contracts</i> concluded with <i>retail customers</i>
...	

...

#### Distance contract

1.10.4 G not used

(1) To be a *distance contract*, a contract must be concluded under an 'organised distance sales or service-provision scheme' run by the contractual provider of the service who, for the purpose of the contract, makes exclusive use (directly or through an intermediary) of one or more *means of distance communication* up to and including the time at

which the contract is concluded. The expression 'organised distance sales or service-provision scheme' is not defined in the DMD, but:

- (a) recital 15 of the DMD states that contracts negotiated at a distance involve the use of *means of distance communication* which are used as part of such a scheme not involving the simultaneous physical presence of the supplier and the consumer; and
- (b) recital 18 of the DMD states that the expression is intended to exclude services provided on a strictly occasional basis and outside a commercial structure dedicated to the conclusion of *distance contracts*.

(2) So, in the FSA's view, this means that:

- (a) the *firm* must have put in place facilities designed to enable a *retail customer* to deal with it exclusively at a distance, such as facilities for a *retail customer* to deal with it purely by *post*, telephone, fax or the Internet. If a *firm* normally operates face-to-face and has no facilities in place enabling a *retail customer* to deal with it customarily by distance means, the DMD will not apply. A one-off transaction effected exclusively by distance means to meet a particular contingency or emergency will not be a *distance contract*; and
- (b) there must have been no simultaneous physical presence of the *firm* and the other party to the contract throughout the offer, negotiation and conclusion of the contract. So, for example, contracts offered, negotiated and concluded over the Internet, through a telemarketing operation or by *post* will normally be *distance contracts*. A *retail customer* may visit the local office of the *firm* in the course of the offer, negotiation or conclusion of the contract with that *firm*. Wherever, in the literal sense, there has been "simultaneous physical presence" of the *firm* and the *retail customer* at the time of such a visit, any ensuing contract will not be a *distance contract*.

...

#### Application of parts of the Distance Marketing Regulations

1.10.7 G *COB* implements most of the *Distance Marketing Directive* for *distance contracts* concluded by *firms*, the making or performance of which constitutes, or is part of, *designated investment business* or *accepting deposits*. However, certain aspects of the *Distance Marketing Directive* are implemented by provisions of the *Distance Marketing Regulations*, which apply in addition to *COB*, in particular:

- (1) regulation ~~4~~12 (Automatic cancellation of an attached distance contract) on which there is guidance in *COB* 6.7.51AG; and

(2) regulation ~~13~~14 (Payment by cards).

1.11 Application of COB in relation to deposits

1.11.1 G Table: Application of rules in COB in relation to deposits

Delete the existing table and replace with the following:

<del>COB 6.7 (Cancellation and withdrawal)</del>	

...

- 2.5.1 R (1) This section (~~other than COB 2.5.5R~~) applies to a *firm* that conducts *designated investment business*.
- (2) This section (~~other than COB 2.5.3R and COB 2.5.4R~~) also applies to a *firm* which enters into a *distance contract to accept deposits* with a *retail customer*.

...

Limits on the exclusion of liability: designated investment business

- 2.5.3 R A *firm* must not, in any written or oral communication in connection with *designated investment business*, seek to exclude or restrict, or to rely on any exclusion or restriction of, any duty or liability it may have to a *customer* (which for these purposes includes a *retail customer*) under the *regulatory system*.
- 2.5.4 R A *firm* must not, in any written or oral communication to a *private customer* in connection with *designated investment business*, seek to exclude or restrict, or to rely on any exclusion or restriction of, any duty or liability not referred to in COB 2.5.3R unless it is reasonable for it to do so.

...

Limits on the exclusion of liability: distance contracts to accept deposits

- 2.5.5 R A *firm* must not, in any written or oral communication to a *retail customer* in connection with a *distance contract to accept deposits* with a *retail customer*, seek to exclude or restrict, or to rely on any exclusion or restriction of, any duty or liability it may have to a *retail customer* under COB (~~but see COB 1.11.2R (Exemption for firms which follow the Banking Code Guidance)~~).

...

## 2.6 General provisions related to distance ~~contracts~~ marketing

Application

- 2.6.1 R This section applies to a *firm* which:
- (1) conducts *designated investment business* with or for a *retail customer* ~~in relation to a distance contract~~;

- (2) ~~enters into a distance contract to accept~~ a deposits ~~with~~ from a retail customer (but see *COB 1.11.2R* (Exemption for firms which follow the *Banking Code Guidance*)).

...

#### Unsolicited services

- 2.6.3 R (1) Subject to *COB 2.6.4R*, a *firm* must not:
- (1a) ~~advise on, arrange, enter into or conduct any designated investment business in relation to a distance contract with~~ supply a service to a retail customer without a prior request on his part, when the supply of such service includes a request for immediate or deferred payment; or
  - (2b) enforce any obligations against a *retail customer* in the event of unsolicited supplies of such services, the absence of reply not constituting consent.
- (2) Paragraph (1) applies in relation to designated investment business, and accepting deposits, under an organised distance sales or service-provision scheme run by the firm or by an intermediary, who, for the purpose of that supply, makes exclusive use of one or more means of distance communication up to and including the time at which the services are supplied.

...

- 3.2.3 R (1) To the extent that a *financial promotion* relates to:
- (a) a *deposit*; or
  - (b) ...
- only *COB 3.1* to *COB 3.5* and *COB 3.8.4R* to *COB 3.8.6G* and *COB 3.14* apply, unless the *financial promotion* relates to a *cash deposit ISA* in which case *COB 3.9.6R(1)*, *COB 3.9.7AR* and *COB 3.9.8R* also apply; and
- (2) ...

...

(3A) Contractual terms and conditions for distance contracts *COB 3.9.7AR*

...  
(9) Information to be contained in direct offer financial promotions regarding:

...  
(d) ~~cancellation rights~~ EIS or non-packaged products, ISAs or PEPs with no right of withdrawal *COB 3.9.21R to COB 3.9.22G*

...

#### Cash deposit ISAs

3.9.8 R A direct offer financial promotion relating to a cash deposit ISA must contain the information required by *COB 6.5.42R(1) to (8)* and *COB App 1* (but see *COB 1.11.2R (Exemption for firms which follow the Banking Code Guidance)*).

...

#### Authorised professional firms

4.2.3 G ...  
(3) the *Distance Marketing Regulations* may apply and require the provision of pre-contractual information in certain circumstances (see *PROF 5.4*).

...

#### COB 4 Annex 1R

1 Table: Circumstances in which the terms of business requirement in *COB 4.2.5R* does not apply and conditions for using the exemption (R)

This table belongs to *COB 4.2.5R*

	Exempted type of firm or transaction or event:	Conditions for using the exemption:
(1)	Voice telephony communications	<p>...</p> <p>(b) if the <i>customer</i> gives his explicit consent to receiving only limited information about the <i>terms of business</i>, the <i>firm</i> must in good time before the <i>retail customer</i> is bound by a contract or offer on the telephone, provide the <i>customer</i> with <u>at least</u> the following information:</p> <p>...</p> <p>(c) if the customer does not give his explicit consent to receiving <del>only the</del> limited information <del>in (b)</del>, and the parties wish to proceed by telephone, the firm must in good time before the retail customer is bound by a contract or offer on the telephone, provide all of the information required by COB App 1 orally to the customer; and</p> <p>...</p>

...

COB 4 Annex 2E

1 Table Content of terms of business provided to a customer: general requirements

This table belongs to  
COB 4.2.11E

A <i>firm's terms of business</i> (including a <i>client agreement</i> ) provided to a <i>customer</i> should, where relevant, include some provision about:	
...	
(15)	<i>Customer's</i> understanding of risk When a <i>firm</i> chooses to fulfil its obligations under COB 5.4.3R (Requirement for risk warnings) in the <i>terms of business</i> in relation to any of the following:
	...
	<u>(f) a security or an investment trust savings scheme which satisfies the conditions specified in COB 3.8.9G(6);</u>
	the relevant risk warning.
...	

...

- 5.3.3 G *Firms* are reminded of the requirements of COB 3.9.76R (Direct offer financial promotions: general requirements) a *direct offer financial promotion* must make it clear that, if a *private customer* is in any doubt about the suitability of the agreement which is the subject of the promotion, he should contact the *firm*, or an *independent intermediary* if the *firm* does not offer *advice*.

...

- 6.1.1AB R In COB 6.1 to COB 6.5, references to a *private customer* include, in relation to the conclusion of a *distance contract*, a *retail customer*.

...

#### Quality and production of key features

- 6.1.5 R A *firm* must ensure that any *key features* or information document it produces in relation to a packaged product or cash deposit ISA is in writing, whether in printed hard copy or in electronic format, and:

- (1) ...

...

#### Medium for provision of key features

- 6.2.2 R The *key features* or information which the *rules* in COB 6.1, COB 6.2 and COB 6.4 require a *firm* to provide to a *private customer* in relation to a packaged product or cash deposit ISA must be provided by the *firm* in a *durable medium*.

...

6.2.7 R When a *firm* sells, *personally recommends* or arranges the sale of a *life policy* to a *private customer*, the *private customer* must be provided with appropriate *key features* before the *private customer* completes an application for the *policy*, subject to *COB 6.2.9R* (Sales through intermediaries) and *COB 6.4.27R to COB 6.4.31R* (telephone sales and other exemptions).

...

6.2.12 R ...

(2) If (1)(a) to (c) apply, then, subject to *COB 6.4.27R to COB 6.4.31R* (telephone sales and other exemptions), if the contract is to be a *distance contract* with a *retail customer*, the *retail customer* must be provided with details of such changes in a *durable medium* in good time before the contract is concluded.

...

#### Variations to existing life policies

6.2.16 R ...

(2) ... ;  
in a *durable medium* by the *firm* personally recommending, arranging or effecting the variation in good time before it is put into effect, unless *COB 6.2.19R* (sales through intermediaries) or *COB 6.4.27R to COB 6.4.31R* (telephone sales and other exemptions) applies.

...

6.2.18 R When a policyholder applies to vary a *policy* issued before 1 January 1995 (or is *personally recommended* to do so) and the variation of the *policy* gives rise to a right to cancel under *COB 6.7.7R*, information must be given to the policyholder by the *firm* that is *personally recommending*, arranging or effecting the variation before it is put into effect, unless *COB 6.2.19R* or *COB 6.4.27R to COB 6.4.31R* (telephone sales and other exemptions) applies. The *firm* must:

(1) ...

...

#### Schemes

6.2.22 R When a *firm* sells, *personally recommends* or arranges for the sale of

a *scheme* to a *private customer*, unless *COB* 6.2.24R (exceptions) or *COB* 6.4.27R to *COB* 6.4.31R (telephone sales and other exemptions) applies, the *private customer* must be provided with *key features* for the *scheme* before the *private customer* completes an application for the *scheme holding*.

...

#### Income withdrawals

- 6.4.8 R When a *firm personally recommends*, arranges or effects *income withdrawals* to or for a *private customer*, the *customer* must be provided with *key features* in good time before the *customer* signs any form of application or authority electing to make those withdrawals, whether that election is made with *advice on investments* or on an execution-only basis, unless *COB* 6.4.10R to *COB* 6.4.12R ~~apply~~ or *COB* 6.4.27R to *COB* 6.4.31R (telephone sales and other exemptions) applies.

...

#### Cash Deposit ISAs

- 6.4.13 R When a *firm* manages, *personally recommends* or sells a *cash deposit ISA* to a *private customer* that *customer* must be provided with the information specified in *COB* 6.5.42R in good time before the *customer* is bound by the transaction, unless *COB* 6.4.27R to *COB* 6.4.31R (telephone sales and other exemptions) applies (~~but see *COB* 1.11.2R (Exemption for firms which follow the Banking Code Guidance)~~)).

...

#### Stakeholder pension schemes

- 6.4.15 R When a *firm* sells, manages, *personally recommends* or arranges the sale of a *stakeholder pension scheme* to or for a *private customer*, the *firm* must, subject to *COB* 6.4.18R and unless *COB* 6.4.27R to *COB* 6.4.31R (telephone sales and other exemptions) applies, provide the *private customer* with *key features* before the *private customer* completes an application for the *stakeholder pension scheme*.

...

#### Entering into a distance contract for accepting deposits (other than a cash deposit ISA)

- 6.4.25 R (1) A *retail customer* must be provided with all the contractual terms and conditions and the information in *COB* App 1 in a *durable medium* in good time before he is bound by a *distance contract* or offer under which the *firm* will *accept deposits*

(other than a cash deposit ISA, for which see COB 6.5.42R), unless an exemption in (2), (3), (4) or (5) COB 6.4.27R to COB 6.4.31R (telephone sales and other exemptions) applies.

~~(2) Exemption: telephone sales~~

~~The exemption in COB 6.4.27R applies in the case of voice telephony communications (References to a 'customer' in that those rules should be read as references to a 'retail customer').~~

~~(3) Exemption: certain other means of distance communication~~

~~This exemption applies, if the contract is concluded at the retail customer's request using a means of distance communication (other than telephone) which does not enable provision of the contractual terms and conditions and the information in accordance with (1). In that case, the firm must provide it to the retail customer in a durable medium immediately after the conclusion of the distance contract.~~

~~(4) Exemption: successive or separate operations under an initial service agreement~~

~~This exemption applies if the firm has an initial service agreement with the retail customer and the contract is in relation to a successive operation or a separate operation of the same nature under that agreement (see COB 1.10.2G (1)).~~

~~(5) Exemption: other successive or separate operations~~

~~This exemption applies if:~~

~~(a) the firm has no initial service agreement with the retail customer;~~

~~(b) the firm has performed an operation with the retail customer within the last year; and~~

~~(c) the contract is in relation to a successive operation or separate operation of the same nature (see COB 1.10.2G (2)).~~

6.4.26 G ~~[deleted] There is a further exemption for those firms which subscribe to the Banking Code Guidance (see COB 1.11.2R).~~

~~Provision of key features or other information in relation to a telephone call~~ Exemption: telephone sales

6.4.27 R (1) ...

(b) provided the *customer* gives his explicit consent to receiving only limited information, may proceed on the basis of at least the following oral information only:

...

(2) If the *customer* does not give his explicit consent to receiving ~~only the limited information in (1)(b)~~, and the parties wish to proceed by telephone, the *firm* must prior to the conclusion of the contract provide all of the information required by *COB* App 1 orally to the *customer*.

...

(4) ~~If the service relates to a tax-exempt policy issued by a friendly society, the firm may send an abbreviated key features in accordance with COB 6.5.43R (Friendly Society tax-exempt policies).~~

6.4.28 G *Firms* are reminded of the requirements in *COB* 3.8.21G (Real time financial promotions) and *COB* 3.10 (Unsolicited real time financial promotions) in relation to telephone calls that may fall within the definition of a *financial promotion*. *Firms* are also reminded that in relation to a stakeholder pension scheme COB 6.4.16R continues to apply.

Exemption: certain other means of distance communication

6.4.29 R This exemption applies where this chapter requires *key features* or other information to be provided in relation to a *distance contract*, if the *distance contract* is concluded at the *customer's* request using a *means of distance communication* (other than telephone) which does not enable provision of the information in a *durable medium* before the *customer* is bound by the contract or offer. In that case, the *firm* must provide *key features* or other information to the *customer* in a *durable medium* immediately after the conclusion of the contract.

Exemption: successive or separate operations under an initial service agreement

6.4.30 R This exemption applies where this chapter requires *key features* or other information to be provided in relation to a *distance contract*, if the *firm* has an initial service agreement with the *customer* and the contract is in relation to a successive operation or a separate operation of the same nature under that agreement (see *COB* 1.10.2G (1)).

Exemption: other successive or separate operations

6.4.31 R This exemption applies where this chapter requires *key features* or other information to be provided in relation to a *distance contract*, if:

- (1) the *firm* has no initial service agreement with the *customer*;
- (2) the *firm* has performed an operation for the *customer* within the last year; and
- (3) the contract is in relation to a successive operation or separate operation of the same nature (see *COB 1.10.2G (2)*).

...

General

6.5.2 R A *firm* must ensure, unless *COB 6.5.3R* applies, that:

- (3) the information document or abbreviated form of *key features* it produces:
  - (a) relating to *friendly society tax exempt policies*, ~~or *traded life policies*~~, ~~or *broker funds*~~, contains the applicable information specified in *COB 6.4.43R-~~COB 6.4.454R~~*;
  - (b) relating to *broker funds* contains the applicable information in *COB 6.4.45R*;
- (4) ...;
- (5) ...; and
- ...
- (6) all:
  - (a) *key features*; and
  - (b) abbreviated *key features* mentioned at *COB 6.5.2R(3)(a)* above.

it produces in relation to a *distance contract* with a *retail customer* include or are accompanied by all the contractual terms and conditions and the information in *COB App 1* except to the extent that they are separately provided to the *retail customer* in a *durable medium* at the same time in good time before the *retail customer* is bound by the contract or offer.

...

6.5.41 G ~~[deleted] *COB 6.5.42R* does not apply to a *cash deposit ISA* offered by a *bank* or *building society* which subscribes to the Banking Code Guidance (see *COB 1.11.2R*).~~

6.5.42 R If *COB 6.4.13R(+)* applies, for a *cash deposit ISA*, the *private customer*

must be given the following information (in accordance with *COB* 6.4.13R) and, in relation to a *distance contract* with a *retail customer*, all the contractual terms and conditions and the information in *COB* App 1 in place of *key features*:

...

Friendly Society tax exempt policies

6.5.43 R Where a *private customer* buys a *tax-exempt policy* issued by a *friendly society*, or agrees to make additional contributions to such a *policy*, the *firm* may, where there is a right to cancel under *COB* 6.7 (Cancellation and withdrawal), issue an abbreviated form of *key features* containing the following details ~~and, in relation to a *distance contract* with a *retail customer*, all the contractual terms and conditions and the information required under *COB* App 1:~~

...

(3) ...; ~~and~~

(4) ...; and

(5) in relation to a *distance contract* with a *retail customer*, all the contractual terms and conditions and the information in *COB* App 1.

...

6.7.2 G *COB* 6.7 (Cancellation and withdrawal) does not act to cancel *distance contracts* entered into by an *appointed representative* as principal to provide intermediation services to a *retail customer*. Regulations 89 (Right to cancel) to 1213 (Payment for services provided before cancellation) of the *Distance Marketing Regulations* may apply instead (see regulation 4(53)).

...

6.7.5 G Cancellable investment agreements.  
This table belongs to *COB* 6.7.4G

Cancellable investment agreements			
	Post-sale right to cancel?	Pre-sale right to withdraw ?	Maximum period of reflection (but see <i>COB</i> 6.7.11R)

<b>Cancellable investment agreements</b>			
<b>A. Contracts where the right arises regardless of means of sale.</b>			
<i>Appropriate personal pension (APP)</i>	Yes <sup>5,6</sup>	No	30 days
<i>Cash deposit ISA</i>	Yes <sup>5,6</sup>	No	14 days
<i>Life policy (including pension policy, pension annuity or within ISA)</i>	Yes <sup>1,5,6</sup>	No <sup>1</sup>	30 days <sup>2</sup>
<i>Personal pension contract</i>	Yes <sup>1,5,6</sup>	No <sup>1</sup>	30 days <sup>2</sup>
<i>Stakeholder pension scheme (SHP)</i>	Yes <sup>1,5,6</sup>	No <sup>1</sup>	30 days <sup>2</sup>
<i>Certain variations of existing life policies, pension contracts and SHPs</i>	Yes <sup>1,5,6</sup>	No <sup>1</sup>	30 days <sup>2</sup>
<b>B. Contracts where the right arises only if advice is given or if sold by distance contract.</b>			
<i>Units in an AUT, recognised scheme or ICVC (within an ISA or PEP)</i> (1) if sold by <i>distance contract</i> ; (2) if sold otherwise with advice	No Yes <sup>4</sup>	No No <sup>4</sup>	14 days
<i>ISA or PEP not mentioned in any other row</i>  (1) if sold by <i>distance contract</i> (2) if sold otherwise with advice	Yes <sup>5,6</sup> No	No Yes <sup>3</sup>	14 days 7 days

<b>Cancellable investment agreements</b>			
<i>Units in an AUT, recognised scheme or ICVC (outside an ISA or PEP)</i>			
(1) if sold by <i>distance contract</i>	No	No	
(2) if sold otherwise with advice	Yes	No	14 days
<i>EIS</i>			
(1) if sold by <i>distance contract</i>	Yes <sup>5,6</sup>	No	14 days
(2) if sold otherwise with advice	No	Yes <sup>3</sup>	7 days
<b>C. Contracts where the right arises for distance contracts only</b>			
<i>Distance contract to accept deposits</i>	Yes <sup>5,6</sup>	No	14 days
<i>Distance contract not mentioned in another row the making or performance of which constitutes, or is part of, designated investment business</i>	Yes <sup>5,6,7</sup>	No	14 days
Notes:			
1. For a <i>pension annuity</i> or <i>pension transfer</i> (and a relevant variation), the <i>firm</i> can, in certain circumstances, choose to <u>provide the right to cancel, in whole or part, through a operate a pre-sale right to withdraw in COB 6.7.19R instead of a post-sale right to cancel (see COB 6.7.14R(2)).</u> A <i>firm</i> may offer a <u>pre-sale right to withdraw</u> , even where there is no right to cancel.			
2. <del>[Deleted] The period is at least 14 days if the option of pre-sale withdrawal is offered.</del>			
...			

...

Post-sale right to cancel

6.7.7 R A retail customer has a right to cancel:

...

- (3) a contract for a *cash deposit ISA*, unless the right to cancel is disapplied for a *distance contract* by case 15 of row 2 to COB 6.7.17R (but see COB 1.11.2R (Exemption for firms which follow the Banking Code Guidance));

- (4) a variation of a *life policy, pension contract* or *stakeholder pension scheme* for which a right to cancel applies under *COB 6.7.23R* and *COB 6.7.26AR*.

...

6.7.9 G ...

- (2) A *product provider* or operator of a *stakeholder pension scheme* (~~see *COB 6.7.2G*~~) may be unsure whether any of the situations in row 2 of *COB 6.7.17R* applies to the contract in question. In such circumstances the *product provider* or operator of a *stakeholder pension scheme* may find it convenient to contract with an intermediary for the provision of documentary evidence needed to confirm the status of *customers*. However, the responsibility for ensuring compliance with the *cancellation rules* remains with the *product provider* or operator of a *stakeholder pension scheme*.

...

Right to cancel a stakeholder pension scheme

- 6.7.12 R (1) A *retail customer* who has entered into a contract for a *stakeholder pension scheme* has a right to cancel, unless the right to cancel is disapplied for a *distance contract* by case 15 of row 2 to *COB 6.7.17R*.

...

Pre-sale right to withdraw

6.7.14 R A *retail customer* has a right to withdraw an offer to enter into:

- (1) an *EIS, ISA* or *PEP*:
- (a) following *advice on investments*;
  - (b) which is not a *distance contract*;
  - (c) unless a right to cancel is offered under *COB 6.7.7R(3)*, *COB 6.7.15R* or *COB 6.7.17R*; and
  - (d) subject to cases 8 and 9 of row 2 *COB 6.7.17R*

~~(unless a right to cancel is offered for an *ISA* or *PEP* under *COB 6.7.7R(3)*, *COB 6.7.15R* or *COB 6.7.17R* and subject to cases 8 and 9 of row 2 *COB 6.7.17R*)~~ an *EIS, ISA* or *PEP*, following *advice on investments*; the right to withdraw procedures are that the offer made by the *customer* to enter into the contract cannot be accepted by the *firm* until at least seven days after the offer is made; or

- (2) a *pension annuity* or a *pension transfer* (or a relevant variation), ~~if a right to cancel has been replaced by a right to withdraw under case 4(a) or 7(a) of row 2, COB 6.7.15R, case 12 of row 2, COB 6.7.17R, COB 6.7.23R (3), or COB 6.7.26AR (2); the~~ to the extent that the right to cancel is provided through a right to withdraw ~~under the~~ procedures ~~are~~ set out in COB 6.7.19R.

6.7.15 R Cancellable contracts and exceptions – life  
This table belongs to COB 6.7.7R(1).

<b>Cancellable contracts and exceptions – life</b>	
<i>Long-term insurance contracts</i> which a <i>retail customer</i> has a right to cancel under COB 6.7.7R(1) (subject to row 2):	
...	
Row 2	<p>There is no right to cancel where any one or more of the following cases applies:</p> <p>...</p> <p>4. <i>pension policy</i> or <i>stakeholder pension scheme</i> funded (wholly or in part) from payments derived from:</p> <p>(a) a <i>pension transfer</i>, <del>for which</del> <u>to the extent that</u> the right to cancel is <del>replaced by</del> <u>provided through</u> the right to withdraw (see COB 6.7.14R(2)), using the cancellation substitute in COB 6.7.19R; or</p> <p>...</p> <p>7. <i>pension annuity</i> that is:</p> <p>(a) due to commence within a year and a day of the contract, <del>for which</del> <u>to the extent that</u> the right to cancel is <del>replaced by</del> <u>provided through</u> the right to withdraw (see COB 6.7.14R(2)), using the cancellation substitute in COB 6.7.19R; or</p> <p>...</p>

...

6.7.17 R Cancellable contracts and exceptions – non-life  
This table belongs to COB 6.7.7R (1) and COB 6.7.14R (1)

<b>Cancellable contracts and exceptions – non-life</b>	
Contracts which a <i>retail customer</i> has a right to cancel under <i>COB</i> 6.7.7R(1) (subject to row 2):	
...	
Row 2	<p>There is no right to cancel where any one or more of the following cases applies:</p> <p>...</p> <p>12. <i>pension contract</i> or <i>stakeholder pension scheme</i> funded (wholly or in part) from payments derived from a <i>pension transfer</i> <del>for which a</del> <u>to the extent that the</u> right to cancel is <del>replaced by</del> <u>provided through</u> a right to withdraw (see <i>COB</i> 6.7.14R(2)) using the cancellation substitute in <i>COB</i> 6.7.19R;</p> <p>...</p>

...

#### 6.7.19 R Cancellation substitute

This table belongs to *COB* 6.7.14R(2), cases 4(a) and 7(a) of row 2 to *COB* 6.7.15R, ~~and~~ case 12 of row 2 to *COB* 6.7.17R, *COB* 6.7.23(3) and *COB* 6.7.26A(2).

<b>Cancellation substitute</b>	
The <i>retail customer's</i> right to cancel under <i>COB</i> 6.7.7R(1) or (4) is <del>replaced</del> <u>provided through</u> (see note 2) <del>by the</del> <u>a</u> right to withdraw only if:	
1.	The <i>firm</i> has supplied (or has reasonably relied upon another <i>firm</i> to supply) to the <i>retail customer</i> , at least <del>30</del> <u>14</u> days <del>in the case of a life policy and 14 days in any other case</del> before the contract is concluded, a written notice (see note 1) which prominently states:
(a)	that the <i>retail customer</i> has <del>that</del> <u>a specified</u> period <del>within</del> which to consider his pension options;
(b)	the dates at which the period begins and ends (which must be, in the case of a <i>pension transfer</i> , before the transfer has been irrevocably effected);
(c)	the pension options available (for example, the <i>open-market option</i> in relation to a <i>pension annuity</i> );
(d)	the steps the <i>retail customer</i> must take in order to exercise a particular pension option;
(e)	that the <i>retail customer</i> is entitled to <i>key features</i> and is advised to check with the <i>firm</i> if it has not been received;
(f)	the cost of any advice given to the <i>retail customer</i> in relation to the transaction; and

<b>Cancellation substitute</b>	
2.	The <i>firm</i> has taken sufficient steps (or has reasonably relied upon the same <i>firm</i> as in 1. to take those steps) to ensure that the <i>customer</i> has been informed and made fully aware of the potential advantages and disadvantages of proceeding and has had an opportunity to consider all other possible alternatives.
Notes:	
1. The notice must be issued separately or feature prominently as part of the application form or <i>suitability letter</i> supplied to the <i>customer</i> .	
2. <u>Where the <i>retail customer's</i> right to cancel is provided through a right to withdraw of less than 30 days, a further right to cancel of at least 30 days less the right to withdraw period must be provided in accordance with these <i>rules</i> so that the total period provided is at least 30 days.</u>	

...

- 6.7.26A R (1) If a *customer* who is an individual varies an existing *pension scheme* by exercising an option to make *income withdrawals*, he has a right to cancel that first variation, ~~unless the right to cancel is replaced by the right to withdraw under (2).~~
- (2) ~~The customer's right to cancel under (1) is replaced by the right to withdraw if the firm follows the procedures in COB 6.7.19R~~  
A firm may use the cancellation substitute in COB 6.7.19R in relation to the right to cancel in (1) .

...

#### Automatic cancellation of an attached distance contract

- 6.7.51A G Regulation ~~411~~12 (Automatic cancellation of an attached distance contract) of the *Distance Marketing Regulations*, has the effect that when notice of cancellation is given in relation to a contract, that notice also operates to cancel any attached distance financial services contract which does not fall within one of the exceptions to the right to cancel in regulation ~~4011~~, unless the *retail customer* gives notice that cancellation of the main contract is not to operate to cancel the attached contract. So, for example, the attached contract will not be cancelled if the price of the service depends on fluctuations in the financial market outside the *firm's* control or if performance of the contract has been fully completed by both parties at the consumer's express request.

#### Obligations on cancellation

- 6.7.52 R ...

...

#### Shortfall ~~where there is a right to cancel a non-distance contract~~

6.7.54 R Subject to *COB* 6.7.56R, the *firm* is entitled under *COB* 6.7.52R(2)(b) to charge the *retail customer* for the market loss (that is, *shortfall*), calculated in accordance with *COB* 6.7.58R, which the firm would incur in cancelling any contract specified in *COB* 6.7.57R.

6.8.12 R ...subject to *COB* 6.8.13 and ~~*COB* 6.8.13A~~ provide the individual with:

...

6.8.13A R ~~[deleted] *COB* 6.8.12R does not apply if the contract is a *distance contract* with a *retail customer* who is not present in the *United Kingdom*.~~

## Annex B

### Amendments to the Client Assets sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

- 2.5.5 E (1) In the case of a *private customer*, the appropriate terms and conditions referred to in *CASS 2.5.4R* include those specified in ~~*COB 4.2.15E(19)*~~ *4 Annex 2E(18)* (Content of terms of business provided to a customer: stock lending).

...

...

- 2.5.11 G The *stock lending* requirements in ~~*COB 4.2.15E(19)*~~ *4 Annex 2E(18)* also apply to *safe custody investments* held collectively on behalf of a *firm's customers* in any *custody* or settlement system. If the *custody* or settlement system operates an 'automatic' *stock lending* programme, the *firm* should maintain a separate account or be able to demonstrate that it maintains adequate systems to differentiate between the *safe custody investments* of those *customers* who have not consented to *stock lending activity* through that programme from the *designated investments* of those that have consented.

## Annex C

### Amendments to the Credit Unions sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text. The text shown amended is the text in CRED, as amended by the Distance Marketing Directive Instrument 2004 (FSA 2004/39).

...

#### Exemptions

- 11.4.5 G The exemptions referred to in *CRED* 11.4.3G are set out in *COB* 6.4.~~25~~27R to *COB* 6.4.31R. They are relevant:
- (1) where the contract is concluded by telephone and the *retail customer* gives explicit consent to receiving a more limited range of information. *COB* 6.4.27R(1) sets out the information to be provided in such cases. Full information has to be provided, in a *durable medium*, immediately after conclusion of the *distance contract* (*COB* 6.4.~~25~~27R(2));
  - (2) where a means of communication (other than telephone) is used which does not enable provision of the required information in a *durable medium* before conclusion of the contract; in this case full information must also be provided in a *durable medium* immediately after conclusion of the *distance contract* (*COB* 6.4.~~25~~27R(3));
  - (3) where there is an initial service agreement and the contract is in relation to a successive or separate operation of the same nature under that agreement, or there is no initial service agreement and the contract is in relation to a successive or separate operation of the same nature and is being performed no more than one year from the date of performance of the last operation (*COB* 6.4.30R to *COB* 6.4.31R; and see *COB* 1.10.2G).
- 11.4.6 G The other provisions in *COB* which relate to the disclosure requirements and are of relevance to *credit unions* entering into a *distance contract* for *accepting deposits* are in *COB* 2.6 (General provisions related to distance contracts). ~~*COB* 1.11.2R (Exemption for firms which follow the Banking Code Guidance) would be relevant if a *credit union* came within its scope and subscribed to the Banking Code Guidance.~~

## Annex E

### Amendments to the Professional Firms sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text. The text shown amended is the text in PROF, as amended by the Distance Marketing Directive Instrument 2004 (FSA 2004/39).

#### 5.4 Application of the Distance Marketing Regulations

- 5.4.1 R (1) In addition to those provisions of the *Distance Marketing Regulations* which apply directly (see COB 1.10.7G), an authorised professional firm must, with respect to its *non-mainstream regulated activities*, comply with regulations ~~67 to 1011~~, ~~14 to 15(2)~~ and ~~16 to 2015~~ of the *Distance Marketing Regulations*, and ~~†~~Those regulations have effect to cancel *distance contracts* the making or performance of which by such firms constitutes a *non-mainstream regulated activity*.
- (2) Paragraph (1) does not apply in relation to regulations ~~67 to 78~~ and ~~14 to 15(2)~~15 if the *designated professional body* of the *authorised professional firm* has rules equivalent to those regulations and:
- (a) those rules have been approved by the *FSA* under section 332(5) of the *Act*; and
  - (b) the *authorised professional firm* is subject to those rules in the form in which they have been approved.

## Annex F

### Amendments to the Glossary of definitions

In this Annex, underlining indicates new text in the Glossary, as amended by the Distance Marketing Directive Instrument 2004 (FSA 2004/39).

Amend the following definition as shown:

<i>Distance Marketing Regulations</i>	The Financial Services (Distance Marketing) Regulations 2004 (SI 2004/ <u>2095</u> ).
---------------------------------------	---

**ADDENDUM**

**DISTANCE MARKETING DIRECTIVE (AMENDMENT) INSTRUMENT 2004**

In this Addendum, underlining indicates new text and striking through indicates deleted text.

Annex A of this instrument is amended as follows:

....

6.1.1BA R In *COB* 6.1 to *COB* 6.5, references to a *private customer* include, in relation to the conclusion of a *distance contract*, a *retail customer*.

...

...

General

6.5.2 R A *firm* must ensure, unless *COB* 6.5.3R applies, that:

- (3) the information document or abbreviated form of *key features* it produces:
  - (a) relating to *friendly society tax exempt policies*, or *traded life policies*, contains the applicable information specified in *COB* ~~6.4.5.43R~~-*COB* ~~6.4.5.44R~~;
  - (b) relating to *broker funds* contains the applicable information in *COB* ~~6.4.5.45R~~;

... ..

Additional information required when a <i>firm sells, advises on or communicates or approves a financial promotion</i> relating to a <i>structured capital-at-risk product</i> to a <i>person who is a private customer</i> , or manages the relevant assets of the issuer of a <i>structured capital-at-risk product</i> , <u>or acts as an <i>investment manager</i> where the <i>investments</i> managed include <i>structured capital-at-risk products</i></u>
....

## Annex B

### Amendments to the Glossary

In this Annex, underlining indicates new text.

Amend the following definition as shown:

*pension transfer* a transaction resulting from a decision made, with or without advice from a *firm*, by a *customer* who is an individual, to transfer deferred benefits from:

(a) an *occupational pension scheme*; or

(b) an *individual pension contract* providing fixed or guaranteed benefits that replaced similar benefits under a *defined benefits pension scheme*; or

(c) (in *COB 6.7 (Cancellation and withdrawal)*) a *stakeholder pension scheme* or a *personal pension scheme*)

to a *stakeholder pension scheme* or to a *personal pension scheme* (including a self-invested *personal pension scheme*), or to any deferred annuity policy (including a *pension buy-out contract*) where the eventual benefits depend in whole or in part on investment performance in the period up to the *intended retirement date*.

**INSURANCE: CONDUCT OF BUSINESS SOURCEBOOK  
(AMENDMENT) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the powers listed in Schedule 4 to the Insurance: Conduct of Business Sourcebook.
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Financial and Services and Markets Act 2000.

**Commencement**

- C. This instrument comes into force on 14 January 2005.

**Amendments to the Insurance: Conduct of Business sourcebook**

- D. The Insurance: Conduct of Business sourcebook is amended in accordance with the Annex to this instrument.

**Citation**

- E. This instrument may be cited as the Insurance: Conduct of Business Sourcebook (Amendment) Instrument 2004.

By order of the Board  
16 September 2004

## Annex

### Amendments to the Insurance: Conduct of Business sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

The amendments shown to ICOB 4.7.1R and ICOB 8.4.1R are to the text as amended by the Distance Marketing Directive Instrument 2004 (FSA 2004/39).

#### ICOB Transitional Rules

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: date in force	(6) Handbook provision: coming into force
1	Every <i>rule</i> in <i>ICOB</i> unless the context otherwise requires and subject to any more specific transitional provision relating to the matter.	R	If the application of any provision in <i>ICOB</i> is dependent on the occurrence of a series of events, some of which occur before, and some of which occur <u>on or</u> after 14 January 2005, the provision applies with respect to the events that occur <u>on or</u> after 14 January 2005.	14 January 2005 – 15 July 2005	14 January 2005
2		G	For example, if a <i>firm</i> were to <i>advise</i> a <i>customer</i> before 14 January 2005 to <i>buy</i> a <i>non-investment insurance contract</i> , the <i>firm</i> would not be required to comply with the provisions relating to <i>personal recommendations</i> in <i>ICOB</i> 4 if the <i>customer</i> were to <i>buy</i> the <i>non-investment insurance contract</i> <u>on or</u> after 14 January 2005. However, if the <i>firm</i> were to repeat the <i>personal recommendation</i> to the		

			<i>customer on or after 14 January 2005, those provisions in <i>ICOB 4</i> would apply.</i>		
...					
4	<i>ICOB 4.4</i>	G	Where, before 14 January 2005, an <i>insurance intermediary</i> makes a <i>personal recommendation</i> to a <i>customer</i> of a specific <i>non-investment insurance contract</i> , or <i>arranges</i> for the <i>customer</i> to enter into a <i>non-investment insurance contract</i> , but the contract is concluded <u>on or</u> after that date, the <i>insurance intermediary</i> will need to provide the <i>customer</i> with a statement of demands and needs in accordance with <i>ICOB 4.4.1R</i>		
...					
8	<u><i>ICOB 4.2.4G(1)</i></u>	<u>G</u>	<u>Until 31 May 2005, the reference in <i>ICOB 4.2.4G(1)</i> to the initial disclosure document set out in <i>ICOB 4 Ann 1G</i> includes an initial disclosure document which complies with <i>ICOB 4 Ann 1G</i> in the <i>Insurance: Conduct of Business Sourcebook Instrument 2004 (FSA 2004/06)</i>.</u>	<u>14 January 2005 – 31 May 2005</u>	<u>Already in force</u>

...

Customer to be treated as retail customer when contract covers him in both a private and business capacity

1.2.6A R      If an *insurance intermediary* or an *insurer* is dealing with a *customer* who is an individual in relation to a *non-investment insurance contract* or a *distance non-investment mediation contract* which would cover him in both a private and business capacity, the *insurance intermediary* or an *insurer* must comply with *ICOB* as if the *customer* were a *retail customer*.

...

1.2.8R      Where an *insurance intermediary* carries on *insurance mediation activities* for *commercial customers* in relation to *contracts of large risks* where the risk is located within the *European Economic Area*, the only provisions of *ICOB* that apply are:

- (1)      *ICOB* 5.4.5R (Provision of a policy document to commercial customers); and
- (2)      *ICOB* 5.4.8R and *ICOB* 5.4.9G (Group policies sold to commercial customers); ~~and~~
- (3)      ~~*ICOB* 7.6 (Motor vehicle liability insurers: claims representatives).~~

...

1.2.9A G      A provision in *ICOB* that applies to an *insurer* when acting as *product provider* or as a *motor vehicle liability insurer* applies where relevant in relation to *contracts of large risks* where the risk is located within the *European Economic Area*.

...

UK establishments – Exemption for insurers and managing agents

- 1.3.2A R
- (1)      Notwithstanding *ICOB* 1.3.1R, this *rule* sets out circumstances in which some or all of the *rules* in *ICOB* are disapplied for an *insurer* or a *managing agent* in relation to any *non-investment insurance contract* provided, or which may be provided, by it (or in the case of a *managing agent*, by *members* for whom it acts).
  - (2)      *ICOB* does not apply if:
    - (a)      the intermediary (whether or not an *insurance intermediary*) in contact with the *customer* is not established in the *United Kingdom*; and
    - (b)      the *customer* is not *habitually resident* in, and, if applicable, the *State of the risk* is outside, an *EEA State*.
  - (3)      A *rule* in *ICOB* which goes beyond the minimum required by Community legislation does not apply if the *customer* is *habitually resident* in (and, if applicable, the *State of the risk* is) an *EEA State*

other than the *United Kingdom*, to the extent that the *EEA State* in question imposes measures of like effect .

...

IMD passported activities

- 1.3.10 R
- (1) In addition to *ICOB 1.3.1R*, the provisions in *ICOB 1.3.11R* apply to the *passported activities* carried on by a *UK firm* under the *IMD* from a *branch* elsewhere in the *EEA* unless the *Host State regulator* imposes measures which implement articles 12 and 13 of the *IMD* for those activities.
  - (2) Notwithstanding *ICOB 1.3.1R*, the provisions in *ICOB* which implement articles 12 and 13 of the *IMD* do not apply to a *UK firm* providing *cross border services* in another *EEA State* under the *IMD*, except that:
    - (a) the provisions in *ICOB 1.3.11R* apply if the *Host State regulator* does not impose minimum measures which implement articles 12 and 13 of the *IMD* for those activities; and
    - (b) the other provisions in *ICOB* relating to articles 12 and 13 of the *IMD* apply unless the *Host State regulator* imposes measures of like effect for those activities.
  - (3) In addition to *ICOB 1.3.1R*:
    - (a) the provisions in *ICOB 1.3.11R* do not apply to an *incoming EEA firm* carrying on *passported activities* under the *IMD* from a *branch* in the *United Kingdom* if the *firm's Home State regulator* imposes minimum measures which implement articles 12 and 13 of the *IMD* for these activities;
    - (b) the provisions in *ICOB 1.3.11R* apply to an *incoming EEA firm* providing *cross border services* in the *United Kingdom* if the *firm's Home State regulator* does not impose minimum measures which implement articles 12 and 13 of the *IMD* for those activities; and
    - (c) the other provisions in *ICOB* relating to articles 12 and 13 of the *IMD* (beyond the minimum required to implement these articles) apply to an *incoming EEA firm* providing *cross-border services* in the *United Kingdom*, unless the *firm's Home State regulator* imposes measures of like effect for those activities.

1.3.11 R      The provisions referred to in *ICOB 1.3.10R* are:

- (1) ICOB 4.2.2R to 4.2.8R, ICOB 4.2.11R, ICOB 4.2.14R and ICOB 4.2.20R;
- (2) ICOB 4.3;
- (3) ICOB 4.4 (except ICOB 4.4.7R); and
- (4) ICOB 4.8.1R.

1.3.12 G

- (1) The provisions in ICOB 1.3.11R are the minimum provisions required for the implementation of articles 12 and 13 of the IMD.
- (2) The effect of ICOB 1.3.10R is to apply these minimum provisions to firms in respect of their insurance mediation activities passported under the IMD if other EEA States have not implemented articles 12 and 13 of the IMD for those activities.
- (3) Firms are reminded that insurers have passporting rights under the Insurance Directives but not under the IMD, and so ICOB 1.3.10R does not apply to insurers.

...

1.6.1G

- (1) ...
- (2) *ICOB 8.5 (Cancellation requirements) does not apply to a distance non-investment mediation contract entered into by an appointed representative itself to provide insurance mediation activity services to a retail customer. Regulation 89 (Right to cancel) to 1213 (Payment for services provided before cancellation) of the Distance Marketing Regulations apply instead (see regulation 4(5)). See also ICOB 1.7.3G (2)(e), (f) and (g) (4) (guidance on when a distance non-investment mediation contracts is concluded).*
- (3) ...

1.7.2G

- ...
- (1) Regulation 112 (Automatic cancellation of an attached distance contract); and
- (2) Regulation 1314 (Payment cards).

1.7.3G

- ...
- (1) Retail customer
  - (a) ...

- (b) Examples of individuals who would be regarded as *retail customers* include:
  - (i) ...; and
  - (ii) private individuals acting in personal or other family circumstances, for example, as trustee of a family trust; and.
  - (iii) ~~a customer who buys a non-investment insurance contract that covers him in both a private and business capacity, for example motor insurance for a driving instructor which also provides cover for social and domestic use, or insurance taken out by a sole trader which provides cover for him in both a private and business capacity.~~

...

2.7.1 R During the course of a *distance contract* with a *retail customer*, the making of which constitutes or is part of a *non-investment insurance contract*:

- (1) ...
- (2) the *firm* must comply with the *retail customer's* request to change the *means of distance communication* used, unless this is incompatible with the *non-investment insurance contract* concluded or the service being provided by the *firm*.

2.7.2 R A *firm* must ensure that information provided to a *retail customer* before the conclusion of a *distance contract* about his contractual obligations under that contract conforms with the contractual obligations that would be imposed on him under the law applying if the contract were concluded.

...

2.9 Communications with customers

2.9.1 R Where a *non-investment insurance contract* is effected jointly, the information required by any *rule* in *ICOB* may be sent only to the first-named *customer*.

...

4.2.2R ...

- (3) (a) ...
- (b) If *Provided* the *customer* gives his explicit consent to receiving only limited ~~disclosure~~ information, the *insurance intermediary* ~~must provide the *customer* with~~ may proceed on the basis of at least the following information:

...

- (c) If the *customer* does not give his explicit consent to receiving limited information, and the parties wish to proceed by telephone, the *insurance intermediary* must prior to the conclusion of the contract provide all of the information required by *ICOB 4.2.8R* orally to the *customer*.

4.2.8R Table: Information to be provided before conclusion of the contract or immediately after conclusion of the contract

This table belongs to *ICOB 4.2.2R*

...
(9) That the <i>customer</i> may be entitled to compensation from the <del><i>compensation scheme</i></del> <u>The compensation arrangements should the <i>insurance intermediary</i> be unable to meet its liabilities.</u>

...

4.4.4AG Where a *firm* has not made a *personal recommendation* and provides *key features* as an alternative to a *policy summary* under *ICOB 5.5.4R*, that constitutes provision of a statement of demands and needs.

...

4.6.1R Before the conclusion of a *non-investment insurance contract*, or at any other time, an *insurance intermediary* that conducts *insurance mediation activities* for a *commercial customer* must, if that *commercial customer* asks, promptly disclose the *commission* that he and any *associate* of his receives in connection with the *non-investment insurance contract* in question, in cash terms or, to the extent it cannot be indicated in cash terms, the basis for the calculation of the *commission*, in a *durable medium*.

...

4.6.7G In considering any disclosure of *commission* under *ICOB 4.6.1R*, an *insurance intermediary* should include all forms of remuneration from any arrangements he may have for remuneration in connection with the *non-investment insurance contract* (including arrangements for sharing profits, for payments relating to the volume of sales, and for payments from premium finance companies in connection with arranging finance for a *non-investment insurance contract*).

4.6.8G An example of a situation where the *commission* could not be stated in cash terms under *ICOB 4.6.1R* is where the *insurance intermediary* is remunerated under a profit share arrangement or any other similar arrangement under which the *insurance intermediary* may receive a non-fixed amount not specific to any particular *non-investment insurance contract*. The *commission*, to the

extent it cannot be indicated in cash terms, should instead be indicated by showing the basis of its calculation.

...

- 4.7.1R (1) Subject to *ICOB 4.7.2R*, an *insurance intermediary* or an *insurer* must not, ~~in relation to a *non-investment insurance contract* that is a *distance contract*:~~
- (1)(a) ~~advise on, arrange, enter into, carry out or assist in the administration and performance of such a contract for supply a service to a *retail customer* without a prior request on his part, when the supply of such a service includes a request for immediate or deferred payment; or~~
- (2)(b) ...
- (2) Paragraph (1) applies in relation to *insurance mediation activities and insurance business*, in relation to *non-investment insurance contracts* under an organised distance sales or service-provision scheme run by the *firm* or by an intermediary, who, for the purpose of that supply, makes exclusive use of one or more *means of distance communication* up to and including the time at which the services are supplied.

...

- 4.8.1 R (1) ~~All~~ Except as provided in (2), the information provided to customers in accordance with this chapter by a *firm* must:
- (a) ~~(if the *customer* is in the *United Kingdom*) be in English, unless the *customer* requests it to be, and the *firm* agrees to it being, in another language; or~~
- (b) ~~(if the *customer* is in another *EEA State*) be in an official language of that *EEA State*.~~
- (2) If a *customer* requests all the information provided to him in accordance with this chapter to be, and the *firm* agrees to it being, in another language then the information may be in that language.

**4 What will you have to pay us for our services? [Note 15]**

---

A fee [of £ [ ] ] [for] [list the types of services provided for *non-investment insurance contracts*]. [Note 15]

No fee [for] [list the types of services provided for *non-investment insurance contracts*].

You will receive a quotation which will tell you about any other fees relating to any particular insurance policy.

...

---

## 7 What to do if you have a complaint [Note 16]

---

...

If you cannot settle your complaint with us, you may be entitled to refer it to the Financial Ombudsman Service. [Note 26] [Note 26A]

---

## 8 Are we covered by the Financial Services Compensation Scheme (FSCS)? [Note 16] [Note 27] [Note 27A]

---

...

[or] [Note 28] [Note 29]

...

The following notes do not form part of the IDD.

...

Note 9 – this is the list required by *ICOB* 4.2.14R. This sentence is required only where a *firm* selects this service option.

...

Note 15 – if the *customer* will be charged a *fee* for *insurance mediation activities* in connection with *non-investment insurance contracts*, the *insurance intermediary* should insert a plain language description of what each *fee* is for and when each *fee* is payable. This should include any *fees* for *advising on* and *arranging a non-investment insurance contract* and any *fees* over the life of the contract, for example, for mid-term adjustments. If a *firm* does not charge a *fee* the text in the first box should be abbreviated to 'A fee'. If the *firm* is offering more than one type of service in connection with *non-investment insurance contracts*, the *firm* may aggregate the *fees* over all the services provided, and (if that is the case) identify the services for which there is no *fee*.

...

Note 20 – the *insurance intermediary* should insert a short, plain language description of the business for which it has permission which relates to the service it provides in relation to non-investment insurance contracts.

...

Note 26A – if the IDD is provided by an authorised professional firm which is exclusively carrying on non-mainstream regulated activities, the authorised professional firm should delete this sentence and refer to the alternative complaints handling arrangements.

...

Note 27A - when a firm which is not a participant firm provides the IDD, it must answer this question 'No' and should state the amount of cover provided (if any) and from whom further information about the compensation arrangements may be obtained.

...

Note 29 – where the insurance intermediary provides a service in relation to a contract which covers both a compulsory class of insurance and a class of insurance which is not compulsory, it should indicate the level of compensation that applies to each class.

...

- 5.2.3R (1) ...
- (2) Unless (3) applies, if an insurer operates from an establishment maintained by it in the United Kingdom but the intermediary does not, is not authorised, is a firm selling connected contracts, or is an authorised professional firm carrying on non-mainstream regulated activities, the insurer is responsible for the provision of the information in ICOB 5.2.9R to the customer, where the non-investment insurance contract relates to a customer habitually resident in the EEA, subject to ICOB 5.2.5R, as well as for the content and production of it.
- (3) If an insurer operates from an establishment maintained by it in the United Kingdom, but the intermediary does not, and the customer is habitually resident outside the EEA, ICOB 5 does not apply to the insurer.

- 5.2.4G (1) ICOB 5.2.3R(2) makes the insurer responsible for the content, production and provision of information to customers dealing through:
- (1)(a) intermediaries in the United Kingdom who do not have Part IV permission (for example, travel agents selling connected contracts, exempt professional firms and intermediaries who do not have an establishment in the United Kingdom); or
- (2)(b) firms selling connected contracts; or

- ~~(3)(c)~~ *authorised professional firms carrying on non-mainstream regulated activities.*
- (2) The insurer is not responsible for the content, production or provision of information to customers outside the EEA unless the insurer is acting as the insurance intermediary in contact with the customer.
- 5.2.5R (4) If an *insurer* deals with an intermediary who operates from an establishment in the *United Kingdom* but does not need to be *authorised*, who is a *firm* selling *connected contracts*, or who is an *authorised professional firm* carrying on *non-mainstream regulated activities*, despite *ICOB 5.2.3R(2)* the *insurer* need not produce or provide:
- ~~(a)~~ (1) a *policy summary*; and
- ~~(b)~~ (2) in respect of a distance sale, the directive-required information at *ICOB 5.5.20R(16)* to (21).
- (2) ~~If the insurer deals with an intermediary who does not operate from an establishment maintained by the intermediary in the United Kingdom, despite ICOB 5.2.3R(2) the insurer need not produce or provide a policy summary.~~
- ...
- 5.2.10A G Where any rule in this chapter refers to information about fees to be provided to customers, the fees so mentioned are all fees throughout the distribution chain between the insurer and the customer and which are payable by the customer in addition to the premium.
- ...
- 5.2.11A R An insurer may agree with an insurance intermediary that the insurance intermediary will be responsible for producing and providing to the retail customer the price and payment information referred to in ICOB 5.5.20R (17)(b) to (f).
- ...
- 5.3.6R (1) ...
- (e) information about the claims handling process (*ICOB 5.3.9R* to *ICOB 5.3.11G*); ~~and~~
- (f) information, where applicable, about cancellation rights (*ICOB 5.3.12R* to *ICOB 5.3.14G*); and

(g) information, where applicable, about the extent and level of compensation cover and how further information can be obtained about compensation arrangements, if not already included in (a).

(2) The following exemptions from (1) apply:

(a) Telephone sales

If a *non-investment insurance contract* is concluded by telephone, ~~and provided the retail customer gives his explicit consent to receiving only the limited information specified in (i) to (ix) below, an insurance intermediary must give may proceed on the basis of at least this the following information to the retail customer orally before the conclusion of the contract:~~

...

If the retail customer does not give his explicit consent to receiving limited information, and the parties wish to proceed by telephone, the insurance intermediary must prior to the conclusion of the contract provide all of the information required by (1) orally to the retail customer.

(b) ...

5.3.7G ~~[deleted]If the retail customer does not give explicit consent to receiving only limited information before conclusion of the contract in accordance with ICOB 5.3.6R(2)(a), the exemption at ICOB 5.3.6R(2)(a) does not apply and the information in ICOB 5.3.6R(1) must be provided to the retail customer in a durable medium before conclusion of the contract.~~

...

#### Group policies sold to retail customers

5.3.29R When an insurance intermediary sells a group policy to a retail customer the terms of which provide for persons, other than the retail customer who concludes the non-investment insurance contract, to become policyholders, the insurance intermediary must, promptly after the conclusion of the contract:

(1) provide a policy document and a policy summary containing the information in ICOB 5.5.5R except ICOB 5.5.5R(6) (cross-references to the policy document) to the retail customer;

(2) inform the retail customer that he should:

- (a) provide the *policy summary* containing the information in (1) to each *policyholder* who is capable of being a *retail customer*; and
  - (b) inform each *policyholder* that a copy of the *policy document* is available on request; and
  - (3) if the *policy* replaces a previous *group policy*, inform the *retail customer* that he should inform each *policyholder* who is capable of being a *retail customer* of any changes to the information in the *policy summary*.
- 5.3.30G
- (1) The *policyholder* referred to in *ICOB 5.3.29R* is a *person* who has rights under the *policy* to make a *claim* on the *insurance undertaking* of the *policy* (as distinct from a *person* who can only make a *claim* on, for example, his employer or on trustees in respect of the *policy* (see *ICOB 1.2.15R* and *ICOB 1.2.16G*). Such a *policyholder* will typically be a *retail customer* under *ICOB*.
  - (2) The *policy summary* information to be provided to *policyholders* in accordance with *ICOB 5.3.29R(2)* can be provided in any form, for example, on an employer's intranet, in a staff handbook or in a separate booklet, providing it is in writing.
- ...
- 5.4.8R
- When an *insurance intermediary* sells a *group policy* to a *commercial customer* the terms of which provide for *persons*, other than the *commercial customer* who concludes the *non-investment insurance contract*, to become *policyholders*, the *insurance intermediary* must, promptly after the conclusion of the contract:
- (1) provide a *policy document* and a *policy summary* containing the information in *ICOB 5.5.5R* except *ICOB 5.5.5R(6)* (cross-references to the *policy document*) to the *commercial customer* (but a *policy summary* need not be supplied if there is no *policyholder* who would be a *retail customer*);
  - (2) where a *policy summary* is provided, inform the *commercial customer* that he should:
    - (a) provide the *policy summary* containing the information in (1) to each *policyholder* who is capable of being a *retail customer*; and
    - (b) inform ~~them~~ each *policyholder* that a copy of the *policy document* is available on request; and
  - (3) where a *policy summary* is provided, if the *policy* replaces a previous *group policy*, inform the *commercial customer* that he should inform

each *policyholder* who is capable of being a *retail customer* of any changes to the information in the *policy summary*.

...

5.5.4R A *firm* may provide *key features* that meet the requirements of COB 6 on the content of the *key features*, instead of a *policy summary*. The *key features* must include the information required in ICOB 5.5.5R(6), (10) and (13) (cross-references from significant and unusual exclusions or limitations to related sections of the *policy document*, a telephone number or address for notification of *claims* and the key facts logo), in addition to that required by COB 6, but this rule does not require a *firm* to meet the requirements of COB 6.5.12R or COB 6.5.38R.

...

5.5.14A R Where an exact amount, required to be included in a statement of price in accordance with ICOB 5.5.14R, cannot be indicated, the statement of price must show the basis for calculation of the amount enabling the *retail customer* to verify it.

5.5.14B G A *firm* may only show the basis of calculation (in accordance with ICOB 5.5.14AR) if it is not possible to show an exact amount. So ICOB 5.5.14AR will not apply where, for example, a creditor insurance *policy* is financed by means of a loan agreement and it is possible to state the total amount payable in accordance with the requirements under the Consumer Credit Act 1974 to show the total price. In such cases ICOB 5.5.14R(3) requires the interest payable on the *premium* to be stated, and ICOB 5.5.14R(6) requires the total price to be stated.

...

5.5.15AG If the *non-investment insurance contract* contains optional elements of cover, the requirements of ICOB 5.5.14R also apply to each optional element of cover.

...

5.5.21R ~~[deleted]Where a *non-investment insurance contract* is effected jointly, the information required by ICOB 5.5.20R may be sent only to the first named *customer*.~~

...

6.1.5R This chapter does not apply to the following contracts:

...

- (5) a *general insurance contract* that is not a *distance contract* sold by an intermediary who is an *unauthorised person* (except where the intermediary is an *appointed representative*);

...

...

6.4.2G

(1) Regulation ~~11~~12 (Automatic cancellation of an attached distance contract) of the *Distance Marketing Regulations* has the effect that, when notice of cancellation is given in relation to a contract, that notice also operates to cancel any attached contract which is also a distance financial services contract which does not fall within one of the exceptions to the right to cancel in Regulation 11 (Exceptions to the right to cancel) of the *Distance Marketing Regulations*, unless the *retail customer* gives notice that cancellation of the main contract is not to operate to cancel the attached contract. So the attached contract will not be cancelled if the price of the service depends on fluctuations in the financial market outside the *firm's* control or if performance of the contract has been fully completed by both parties at the *retail customer's* express request. Whether a contract will be "attached" to the main contract will depend on the circumstances in each case. Regulation ~~11(1)(b)~~ 12(1) provides that the contract will be attached if any of the following conditions are satisfied:

- (a) it has been entered into in ~~accordance~~ compliance with a term of the main contract;
- (b) the main contract is financed or to be financed by the contract;
- (c) the main contract is a debtor-creditor-supplier agreement within the meaning of the Consumer Credit Act 1974 and the contract is to be financed by the main contract;
- ~~(e)~~(d) the *retail customer* has entered into the contract ~~for a purpose related to~~ to induce the supplier to enter into the main contract;  
or
- ~~(d)~~(e) performance of the contract requires performance of the main contract.

...

8.3.6R

(1) (a) ...

(b) ~~If~~ Provided the *retail customer* gives his explicit consent to receiving only limited ~~disclosure~~ information, the *insurance intermediary* ~~must~~ may proceed on the basis of at least the ~~prior to the conclusion of the *distance non-investment mediation contract* on the telephone,~~ provide the *retail customer* with the following information:

...

If the *retail customer* does not give his explicit consent to receiving limited information, and the parties wish to proceed by telephone, the *insurance intermediary* must prior to the conclusion of the contract provide all of the information required by *ICOB* 8.3.1R orally to the *retail customer*.

...

- 8.4.1R (1) Subject to *ICOB* 8.4.2R, an *insurance intermediary* must not, ~~in relation to a *distance non-investment mediation contract*:~~
- (1)(a) ~~advise on, arrange, enter into, carry out or assist in the administration and performance of such a contract for supply a service to a *retail customer* without a prior request on his part, when the supply of such a service includes a request for immediate or deferred payment; or~~
- (2)(b) ...
- (2) Paragraph (1) applies in relation to *insurance mediation activities in relation to distance non-investment mediation contracts under an organised distance sales or service-provision scheme run by the firm or by an intermediary, who, for the purpose of that supply, makes exclusive use of one or more means of distance communication up to and including the time at which the services are supplied.*

**MORTGAGES: CONDUCT OF BUSINESS SOURCEBOOK  
(AMENDMENT NO 2) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the powers listed in Schedule 4 to the Mortgages: Conduct of Business sourcebook.
- B. The rule-making powers listed in that Schedule are specified for the purpose of section 153(2) (Rule-making instruments) of the Financial Services and Markets Act 2000.

**Commencement**

- C. This instrument comes into force on 31 October 2004.

**Amendments to the Mortgages: Conduct of Business sourcebook**

- D. The Mortgages: Conduct of Business sourcebook is amended in accordance with the Annex to this instrument.

**Citation**

- E. This instrument may be cited as the Mortgages: Conduct of Business Sourcebook (Amendment No 2) Instrument 2004.

By order of the Board  
16 September 2004

...

2.2.3R In any communication to a *customer*, a *firm* must:

...

- (3) describe any *regulated lifetime mortgage contract* as a 'lifetime mortgage' and not use any other expression to describe such a mortgage or omit that description from the name given to any product that meets the definition.

...

2.2.5G *Firms* are reminded that they should follow the relevant ~~rules~~ rules in COB 5 and COB 6 relating to advice and disclosure on *investments* if they are *advising the customer on an investment (such as an ISA) such as an annuity linked to a regulated lifetime mortgage contract or an ISA used as a repayment vehicle.*

...

- 2.3.6R (1) *A firm* must not operate a system of giving or offering inducements to a *mortgage intermediary* or any other third party whereby the value of the inducement increases if the *mortgage intermediary* or third party, such as a packager, exceeds a target set for the amount of business referred (for example, a volume override).
- (2) *A firm* must not solicit or accept an inducement whereby the value of the inducement increases if the *firm* exceeds a target set for the amount of business referred.

...

2.7.5R *A firm* must ensure that information provided to a *retail customer* before the conclusion of a *distance contract* about his contractual obligations under that contract conform with the contractual obligations that would be imposed on him under the law applying if the contract were concluded.

#### Unsolicited services

- 2.7.6R (1) *A firm* must not:
- (a) supply a service to a *retail customer* without a prior request on his part, when this activity includes a request for immediate or deferred payment; or
  - (b) enforce any obligations against a *retail customer* in the event of unsolicited supplies of services, the absence of a reply not constituting consent.
- (2) Paragraph (1) applies in relation to *advising on, arranging or entering into a regulated mortgage contract* under an organised distance sales or service-provision scheme run by the *firm* or by an intermediary, who, for the purpose of that supply, makes exclusive use of one or more *means of distance communication* up to and including the time at which the services are supplied.

...

3.6.9R A *non-real time qualifying credit promotion* must:

- (1) describe any *early repayment charge* as an 'early repayment charge' and not use any other expression to describe such charges;
- (2) describe any *higher lending charge* as a 'higher lending charge' and not use any other expression to describe such charges; ~~and~~
- (3) not contain the 'key facts' logo unless it is required by a *rule*; and
- (4) describe any *regulated lifetime mortgage contract* as a 'lifetime mortgage' and not use any other expression to describe such a mortgage.

...

4.1.2R Table: This table belongs to *MCOB 4.1.1R*

(1) Category of firm	(2) Applicable section
<i>mortgage lender</i>  ...	whole chapter except <i>MCOB 4.56</i> and <i>MCOB 4.67</i>

...

4.1.5R In relation to a *regulated lifetime mortgage contract* or a home reversion scheme, this chapter *MCOB 4* is ~~replaced~~ modified by *MCOB 8* (Lifetime mortgages: advising and selling standards).

...

4.4.7R ...

- (2) Provided that the telephone call in (1) has not led the *firm* to conclude that the *customer* is ineligible for any of its *regulated mortgage contracts*, and that the *customer* has provided his contact details, the *firm* must send the *customer* a copy of the initial disclosure document required by *MCOB 4.4.1R*(~~4~~) in the form set out in *MCOB 4 Ann 1R* or *MCOB 4 Ann 2R* and any other information required to be provided, in a *durable medium* within five *business days* of the telephone call (see also *MCOB 4.5.2R*(2)(b) for the equivalent requirement in relation to *distance mortgage mediation contracts*).

...

4.5.2R If the initial contact of a kind in *MCOB 4.4.1R(1)* is with a *retail customer* with a view to concluding a *distance mortgage mediation contract*, a *firm* must:

...

(2) Exemption: telephone sales

(a) This exemption applies if the service is being provided on the telephone and the *customer* wishes to enter into a contract with the *firm*. Provided Subject to the customer gives giving his explicit consent to receiving only limited disclosure information, the firm must, prior to the conclusion of the contract on the telephone, may proceed provide the customer with on the basis of at least the following information in addition to the information in *MCOB 4.4.7R(1)*:

...

(aa) If the customer does not give his explicit consent to receiving limited information, and the parties wish to proceed by telephone, the firm must, prior to the conclusion of the contract, provide orally to the customer all of the information required by (1).

(b) Where (a) or (aa) applies, the *firm* must send the *retail customer* without delay and, at the latest immediately after a contract is concluded, the information in *MCOB 4 Ann 3R* and any other information required to be provided in accordance with *MCOB 4* required by (1), in a *durable medium*.

...

~~Unsolicited services~~

4.5.4R Subject to *MCOB 4.5.5R*, a *firm* must not:

(1) ~~advise on, arrange, or enter into, a distance mortgage mediation contract with a retail customer, without a prior request on his part, when the supply of such service includes a request for immediate or deferred payment; or~~

(2) ~~enforce any obligation against a retail customer in the event of unsolicited supplies of such services, the absence of a reply not constituting consent.~~

4.5.5R ~~*MCOB 4.5.4R* does not apply for a tacit renewal of a distance contract.~~

...

4.9.1AG Firms are reminded that in accordance with MCOB 1.2.3R, they should either comply in full with MCOB or comply with all tailored provisions in MCOB that relate to business loans. Therefore, a firm may only follow the tailored provisions in MCOB 4.9 if it also follows all other tailored provisions in MCOB.

...

---

## **7 What to do if you have a complaint [Note 18]**

---

...

If you cannot settle your complaint with us, you may be entitled to refer it to the Financial Ombudsman Service. [Note 22A]

---

## **8 Are we covered by the Financial Services Compensation Scheme (FSCS)? [Note 18] [Note 23] [Note 24]**

---

...

The following notes do not form part of the IDD

...

Note 9 - this sentence is required only where a firm selects this service option. It may also be omitted if a the firm chooses to list all of the lenders it offers mortgages from instead of the text "a limited number of lenders", in the previous line, so long as the firm offers all of the mortgages generally available from each lender.

...

Note 12 – if the *firm* receives commission instead of, or in addition to, *fees* from the *customer*, it must insert a plain language explanation of this (see specimen for a plain

language example). If the *firm* will pay over to the *customer* any commission the *firm* receives, it may refer to that fact here.

...

Note 14 - if, in section 4, it has been indicated that there will be 'No fee' or that any *fee* will be payable only if the mortgage completes, section 5 may be omitted altogether, and the following sections re-numbered accordingly.

...

Note 21 – insert a short, plain language description of the business for which the *firm* has *permission* in relation to *regulated mortgage contracts*.

...

Note 22A – if the IDD is provided by an authorised professional firm which is exclusively carrying on non-mainstream regulated activities, the authorised professional firm should delete this sentence and refer to the alternative complaints handling arrangements.

...

Note 24 - when a *firm* which is not a *participant firm* provides the IDD, it must answer this question 'No' and should state the amount of cover provided (if any) and from whom further information about the compensation arrangements may be obtained.

...

5.1.3R ...

- (2) In relation to further advances and other variations, MCOB 5 is modified by MCOB 7 (Disclosure at start of contract and after sale) ~~applies in place of MCOB 5~~, regardless of whether they are variations to an existing *regulated mortgage contract*, or are such that they involve the *customer* entering into a new *regulated mortgage contract*.
- (3) In relation to a *regulated lifetime mortgage contract*, MCOB 5 is modified by MCOB 9 (Lifetime mortgages: product disclosure) ~~applies in place of MCOB 5~~.

...

5.6.18R ...

- (3) If the amount on which the *illustration* is based includes the amount that the *customer* wants to borrow plus insurance premiums or insurance-related charges (other than a *higher lending charge* ~~or where the premium is repaid over a term of 12 months or less and no interest is charged on the premium~~) that have been added to the loan:
  - (a) except where (b) applies, this section must include the following text... "plus £[insert amount of premium or charges, or both, to

be added to the loan] for insurance [premiums] [and] [charges] that will be added to the loan – see Section 9 for details."; or

(b) where there are other insurance premiums or insurance-related charges, or both, that the *customer* must pay that have not been added to the loan, this section must include the following text ...: "plus £[insert amount of premium or charges, or both, to be added to the loan] for insurance [premiums] [and] [charges] that will be added to the loan. These and any additional insurance [premiums] [and] [charges] that you need to pay are shown in Section 9."

(4) If the amount on which the *illustration* is based..., Section 3 of the *illustration* must include the following text after the loan amount from *MCOB* 5.6.6R(2): "No fees have been added to this amount but the fees you need to pay are shown in Section 8. For details of any insurance charges, see Section 9."

(5) If the *regulated mortgage contract* on which the *illustration* is based has no charges or payments that must be paid by the *customer* (~~that is, there are no fees to pay in Section 8~~), and no insurance premiums are being added to the loan, ...

...

5.6.42R Section 6 of the *illustration* must contain the following information:

...

(2) the assumed start date that has been used in the *illustration* to estimate the number of payments to be charged at given interest rates ~~must be stated using the following text: "This illustration assumes that the mortgage will start on [insert assumed start date]."~~;

...

5.6.65R The following text must be included at the end of Section 7 'Are you comfortable with the risks?': "The FSA's information sheet 'You can afford your mortgage now, but what if...?' will help you consider the risks. You can get a free copy from [www.fsa.gov.uk/consumer](http://www.fsa.gov.uk/consumer), or by calling 0845 ~~606 1234~~ 456 1555."

...

5.6.70R ...

(2) If the *customer* has asked for any fees to be added to the loan, this ~~should~~ must be stated alongside each fee.

...

5.6.82R ...

(2) If the ~~customer~~ *customer* has asked to add any insurance premiums or insurance-related charges to the amount borrowed in accordance with *MCOB 5.6.18R(3)*, the *illustration* must state that this is the case.:

(a) ~~the insurance premiums must be included in Section 3; and~~

(b) ~~the following text must be used in Section 9:~~

~~"The annual insurance premium will be added to your mortgage account and increase the amount you owe. You can pay this premium in full by [insert details of the period of time that the *customer* will have to pay the premium in full before interest is charged on the insurance premium e.g. 'by the end of the month in which the *regulated mortgage contract* starts'] at no extra cost, otherwise interest will be charged at [insert details of the applicable interest rate e.g. 'the same rate as your mortgage' or 'the standard variable rate which is currently x%']."~~

...

5.6.129R If the *regulated mortgage contract* is a *shared appreciation mortgage*, *MCOB 5.6* applies to the *illustration* with the following amendments:

(1) Section 4 'Description of this mortgage' must contain the following additional information and text in this order after the details required by *MCOB 5.6.25R* to *MCOB 5.6.29R*:

...

(f) include this text after the cash examples in (c) (or, if applicable, after the cash examples in (d) or (e)): "This is not an indication of how the actual value of your property may change.";

...

...

5.6.145R The following text must be included at the end of Section 7 'Are you comfortable with the risks?': "The FSA's information sheet 'You can afford your mortgage now, but what if...?' will help you consider the risks. You can get a free copy from [www.fsa.gov.uk/consumer](http://www.fsa.gov.uk/consumer), or by calling 0845 ~~606 1234~~ 456 1555."

...

5.7.1AG *Firms* are reminded that, in accordance with *MCOB 1.2.3R*, they should either comply in full with *MCOB* or comply with all tailored provisions in *MCOB*

that relate to business loans. Therefore, a *firm* may only follow the tailored provisions in *MCOB* 5.7 if it also follows all other tailored provisions in *MCOB*.

...

---

## **7 What to do if you have a complaint [Note 19]**

---

...

If you cannot settle your complaint with us, you may be entitled to refer it to the Financial Ombudsman Service. [The Financial Ombudsman Service does not consider complaints about home reversion schemes]. [Note 3] [Note 23A]

---

## **8 Are we covered by the Financial Services Compensation Scheme (FSCS)? [Note 19] [Note 24] [Note 25]**

---

...

The following notes do not form part of the IDD.

...

Note 10 - this sentence is required only where a *firm* selects this service option. It may also be omitted if a ~~the~~ *firm* chooses to list all of the companies it offers products from instead of the text "a limited number of companies", in the previous line, so long as the *firm* offers all of the products generally available from each company.

...

Note 13 – if the *firm* receives commission instead of, or in addition to, *fees* from the *customer*, it must insert a plain language explanation of this (see specimen for a plain language example). If the *firm* will pay over to the *customer* any commission the *firm* receives, it may refer to that fact here.

...

Note 15 - if, in section 4, it has been indicated that there will be 'No fee' or that any *fee* will be payable only if the product completes, section 5 may be omitted altogether, and the following sections re-numbered accordingly.

...

Note 22 – insert a short, plain language description of the business for which the *firm* has *permission* in relation to *regulated lifetime mortgage contracts*.

...

Note 23A – if the IDD is provided by an *authorised professional firm* which is exclusively carrying on non-mainstream regulated activities, the *authorised professional firm* should delete this sentence and refer to the alternative complaints handling arrangements. It should also omit the information required under Note 3.

...

Note 25 - when a *firm* which is not a *participant firm* provides the IDD, it must answer this question 'No' and should state the amount of cover provided (if any) and from whom further information about the compensation arrangements may be obtained. It should also omit the information required under Note 3.

...

- 9.4.10R (1) In estimating a term under MCOB 9.4.6R(5) a *firm* must:
- (a) use the following mortality table: ~~the PA92 (male or female as appropriate) pensioners' 1991-94 table amounts, projected forward to 2010 from the Continuous Mortality Investigation Reports 16 and 17, PMA92(C=2010) and PFA92(C=2010) for males and females respectively, derivable from the Continuous Mortality Investigation Report 17 published by the Institute of Actuaries and the Faculty of Actuaries in 1998 and 1999 respectively; and~~

...

- 9.4.21R ...
- (4) If the amount on which the *illustration* is based includes the amount that the *customer* wants to borrow plus insurance premiums or insurance-related charges (other than a *higher lending charge* ~~or where the premium is repaid over a term of 12 months or less and no interest is charged on the premium~~) that have been added to the loan or amount to be drawn down:
    - (a) except where (b) applies, this section must include the following text... "plus £[insert amount of premium or charges, or both, to be added to the loan] for insurance [premiums] [and] [charges] that will be added to the loan [or amount drawn down] – see Section 12 for details."; or
    - (b) where there are other insurance premiums or insurance-related charges, or both, that the *customer* must pay that have not been added to the loan, this section must include the following text ... "plus £[insert amount of premium or charges, or both, to be added to the loan] for insurance [premiums] [and] [charges] that will be added to the loan [or amount drawn down]. These and

any additional insurance [premiums] [and] [charges] that you need to pay are shown in Section 12."

- (5) If the amount on which the *illustration* is based ..., Section 4 of the *illustration* must include the following text after the loan amount from *MCOB* 9.4.13R(1): "No fees have been added to this amount but the fees you need to pay are shown in Section 11. For details of any insurance charges, see Section 12.".
- (6) If the *regulated lifetime mortgage contract* on which the *illustration* is based has no charges ~~or payments~~ that must be paid by the *customer* (~~that is there are no fees to pay in Section 11~~), and no insurance premiums are being added to the loan, ...

...

9.4.39R Section 8 of the *illustration* must contain the following information:

...

- (2) the assumed start date that has been used in the *illustration* to estimate the number of payments to be charged at given interest rates ~~must be stated using the following text: "This illustration assumes that the lifetime mortgage will start on [insert assumed start date]."~~;

...

...

9.4.51R The table showing the projection in the section headed "Projection of roll-up of interest" should show annual details in columns under the following headings:

...

- (4) "Interest charged at [insert percentage(s)] ~~per year~~": this must be the interest charge for the year in question, ...

...

...

9.4.69R ...

- (2) If the *customer* has asked for any fees to be added to the loan ~~amount~~, this ~~should~~ must be stated alongside each fee.

9.4.81R ...

(2) If the *customer* has asked to add any insurance premiums or insurance-related charges to the amount borrowed in accordance with *MCOB 9.4.21R(4)*, the *illustration* must state that this is the case.:

(a) ~~the insurance premium(s) must be included in Section 4; and~~

(b) ~~the following text must be used in Section 12:~~

~~"The annual insurance premium will be added to your lifetime mortgage account and increase the amount you owe. You can pay this premium in full by [insert details of the period of time that the *customer* will have to pay the premium in full before interest is charged on the insurance premium e.g. 'by the end of the month in which the lifetime mortgage starts'] at no extra cost, otherwise interest will be charged at [insert details of the applicable interest rate e.g. 'the same rate as your lifetime mortgage' or 'the standard variable rate which is currently x%']."~~

...

9.4.130R If the *regulated lifetime mortgage contract* is a *shared appreciation mortgage*, *MCOB 9.4* applies to the *illustration* with the following modifications:

(1) Section 5 'Description of this mortgage' must contain the following additional information and text in this order after the details required by *MCOB 9.4.24R* to *MCOB 9.4.29R*:

...

(f) include this text after the cash examples in (c) (or, if applicable, after the cash examples in (d) or (e)): 'This is not an indication of how the actual value of your home may change.'

...

...

...

equity from your home in a booklet called 'Raising money from your home'. You can get this free through the FSA website [www.fsa.gov.uk/consumer](http://www.fsa.gov.uk/consumer) or by calling 0845 606 1234 456 1555.

...

12.3.4R Before:

...

- (3) changing all or part of a *regulated mortgage contract* from one ~~type of~~ interest rate to another; ...

...

12.6.2G *Firms* are also reminded that in accordance with *MCOB* 1.2.3R, they should either comply in full with *MCOB* or comply with all tailored provisions in *MCOB* that relate to business loans.

...

13.7.2G *Firms* are reminded that in accordance with *MCOB* 1.2.3R, they should either comply in full with *MCOB* or comply with all tailored provisions in *MCOB* that relate to business loans. Therefore, a *firm* may only follow the tailored provisions in *MCOB* 13.7, if it also follows all other tailored provisions in *MCOB*.

**INSURANCE MEDIATION AND MORTGAGE MEDIATION, LENDING AND  
ADMINISTRATION (MISCELLANEOUS AMENDMENTS) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) section 59 (Approval for particular arrangements);
  - (2) section 138 (General rule-making power);
  - (3) section 139 (Miscellaneous ancillary matters);
  - (4) section 156 (General supplementary powers); and
  - (5) section 157 (Guidance).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C. This instrument comes into force as indicated in this table:

Annex A	31 October 2004 (in part) and 14 January 2005 (in part) (see note)
Annex B	14 January 2005
Annex C	31 October 2004 (in part) and 14 January 2005 (in part) (see note)
Annex D	31 October 2004 (in part) and 14 January 2005 (in part) (see note)
Annex E	14 January 2005
Note - to the extent that a provision relates to any regulated activity in relation to a long-term care insurance contract or a regulated mortgage activity, it comes into force on 31 October 2004. Otherwise it comes into force on 14 January 2005.	

**Amendments to the Handbook**

- D. The Authorisation manual is amended in accordance with Annex A to this instrument.
- E. The Supervision manual is amended in accordance with Annex B to this instrument.
- F. The Integrated Prudential sourcebook is amended in accordance with Annex C to this instrument.
- G. The Interim Prudential sourcebook for Investment Businesses is amended in accordance with Annex D to this instrument.
- H. The Training and Competence sourcebook is amended in accordance with Annex E to this instrument.

**Citation**

- I. This instrument may be cited as the Insurance Mediation and Mortgage Mediation, Lending and Administration (Miscellaneous Amendments) Instrument 2004.

By order of the Board  
16 September 2004

## Annex A

### Amendments to the Authorisation manual

In this Annex underlining indicates new text and striking through indicates deleted text.

(This Annex amends in part the text made in the Mortgages: Conduct of Business Sourcebook (Consequential Amendments to the Handbook) Instrument 2003 (FSA 2003/72) and the Insurance Mediation and Mortgage Mediation, Lending and Administration (Prudential Provisions) Instrument 2004 (FSA 2004/01).)

#### AUTH 5 Annex 3

Table: G

<u>SUP 12 (Appointed representatives)</u>	<u>SUP 12 (Appointed representatives)</u>
Applies only if the <i>firm</i> has <i>permission</i> to carry on <i>designated investment business, <u>insurance mediation activity</u> or <u>mortgage mediation activity</u></i> and wishes to appoint, or has appointed, an <i>appointed representative (SUP 12.1.1R(1))</i> .	As column (2).

...

#### AUTH Appendix 4

4.3.8 G It follows that whether or not any particular *person* may be carrying on a *regulated mortgage activity* ‘by way of business’ will depend on his individual circumstances. However, some typical examples where the applicable business test would be likely to be satisfied are where a *person*:

- (1) enters into one or more *regulated mortgage contracts* as lender in the expectation of receiving interest or another form of payment that would enable him to profit from his actions ~~or recover the cost of taking them;~~

...

...

4.4.1 G Article 61(3)(a) of the *Regulated Activities Order* defines a *regulated mortgage contract* as a contract which, at the time it is entered into, satisfies the following conditions:

...

- (2) the contract provides for the obligation of the borrower to repay is to be secured by a first legal mortgage on land (other than timeshare accommodation) in the *United Kingdom*; and

...

#### Provision of credit

4.4.1A G (1) Article 61(3)(c) of the *Regulated Activities Order* states that credit includes a cash loan and any other form of financial accommodation. Although 'financial accommodation' has a potentially wide meaning, its scope is limited by the terms used in the definition of a *regulated mortgage contract* set out in *AUTH* App 4.4.1G. Whatever form the financial accommodation may take, article 61(3)(a) envisages that it must involve an obligation to repay on the part of the individual who receives it.

- (2) In the *FSA's* view, an obligation to repay implies the existence, or the potential for the existence, of a debt owed by the individual to whom the financial accommodation is provided (the 'borrower') to the person who provides it (the 'lender'). Consequently, for any facility under which any form of financial accommodation is being provided, the test is whether it allows for the possibility that the person providing the financial accommodation may be placed in a position where he becomes a creditor of the individual to whom he is providing it. An example of this would be the issue of a guarantee by a bank to a third party for an individual customer (such as a rent guarantee or a performance bond) where the guarantee is secured on a first legal charge over the customer's residential property. In the *FSA's* view, this would amount to a *regulated mortgage contract* as the customer would owe a debt to the bank in the event that the bank had to pay the third party under the guarantee.

...

4.4.8 G The requirement that at least 40% of the land area be used as or in connection with a dwelling means that 'buy to let' loans secured on the property to be let ~~are will usually be excluded, unless~~ However, such loans will not be excluded if:

- (1) the lessee is a 'related person' to the borrower. This will be the case ~~e~~Even if the borrower subsequently takes possession of the property, the loan will still not become a *regulated mortgage contract*, as the conditions set out in *AUTH* App 4.4.1G(1) to (3) were not satisfied at the outset of the contract (see *AUTH* App 4.4.3G); or
- (2) at the time the contract is entered into, the borrower has a real intention to use the land as, or in connection with, a dwelling (for example a member of the British Forces Posted Overseas who buys a property in the *United Kingdom* intending to live there on his return but which he lets out in the meantime).

...

4.4.12 G A number of products, however, are excluded from the definition, such as:

...

- (3) so-called 'home reversion schemes', under which a property owner (usually an older person) sells some or all of his interest in the property in return for a lump sum (usually a proportion of the value of the property sold) and a right to reside at the property for the rest of his life. (It should be noted, however, that the Treasury announced in May 2004 that 'home reversion schemes' are to be regulated by the FSA and that it would be introducing legislation to this effect.)

...

Exclusion: article 25A(1)(b) ~~and (2)~~ arrangements made in the course of administration by authorised person

4.5.9 G Article 29A of the *Regulated Activities Order* excludes from ~~both~~ article 25A(1)(b) (which covers making arrangements for another person to vary the terms of a regulated mortgage contract) ~~and (2)~~ certain activities of an *unauthorised person* who is taking advantage of the exclusion from *administering a regulated mortgage contract* in article 62 (Exclusion: arranging administration by authorised persons) (see *AUTH* App 4.8.4G).

...

4.6.30 G The main exclusion from *advising on regulated mortgage contracts* relates to advice given ...

...

- (2) enter as borrower ~~into~~ into regulated mortgage contracts ~~regulated mortgage contracts or vary the terms of~~ or vary the terms of regulated mortgage contracts entered into by such persons as the borrower.

...

...

4.13.1 G Certain named persons are exempted by the *Exemption Order* from the need to obtain *authorisation*. The following bodies are exempt ...

...

- (3) ~~housing associations or other bodies corporate~~ registered social landlords in Scotland within the meaning of the Housing (Scotland) Act 2001 ~~by Scottish Homes~~ (paragraph 48(2)(b) of the Schedule to the *Exemption Order*) but not their subsidiaries;

...

...

- 4.17.15 G Articles 90 and 91 of the *Regulated Activities Order* include provisions that have the effect of removing from CCA regulation *financial promotions* about *qualifying credit*. Such promotions will not, therefore, be subject to Part IV of the CCA, ~~the Consumer Credit (Advertisements) Regulations 1989 and the Consumer Credit (Content of Quotations) and Consumer Credit (Advertisements) (Amendment) Regulations 1999~~ or regulations made under that Part.

...

#### AUTH Appendix 5

...

- 5.11.6 G (1) The removal of the exclusion for *groups* and *joint enterprises* in article 69 of the *Regulated Activities Order* (Groups and joint enterprises) may have implications for ~~companies~~ a company providing services for:
- (1a) other members of its *group*; or
  - (2b) other participants in a *joint enterprise* of which it is a participant.
- (2) Such *companies* might typically provide risk or treasury management or administration services which may include *regulated activities* relating to a *contract of insurance*. If so, such *companies* will need *authorisation* or exemption if they conduct the activities by way of business (see AUTH App 5.4 (The business test) generally and (3) and (4)). This is unless another exclusion applies.
- (3) In the FSA's view, particular issues arise in applying the by way of business test to group companies. Recital 11 of the Insurance Mediation Directive states that the Directive should apply to persons whose activity consists in providing insurance mediation services to third parties for remuneration. This suggests that the Directive is intended to apply only where the service is provided to a third party. The expression 'third party' is not defined in the Directive. The FSA considers that a group company that is providing services solely for the benefit of other group companies would not normally be regarded as providing services to a third party. The FSA also considers that, as a result, a group company providing services solely for the benefit of other group companies should not normally be regarded as satisfying the requirement that it be remunerated for providing insurance mediation services to third parties. Were a group company to be remunerated other than by another group company, however, the situation may be different. For example, if the group company receives commission from an insurer or broker, that fact would tend to suggest that the company has been rewarded

for providing a service to the insurer or broker. In the FSA's view, it is appropriate to apply this principle to a *group* as defined in section 421 (Group) of the Act.

- (4) The FSA considers that similar principles to those applied to a group company in (2) may be applied to the participants in a joint enterprise. This would be where one participant in the joint enterprise is providing services solely for the benefit of another participant and for the purposes of the joint enterprise. This extends to any person in the same group as a participant in a joint enterprise and who provides insurance mediation services to one or more participants for the purposes of or in connection with the joint enterprise.

...

- 5.11.9 G Article 67 excludes from the activities of *dealing as agent, arranging (bringing about) deals in investments, making arrangements with a view to transactions in investments, and assisting in the administration and performance of a contract of insurance* and *advising on investments*, any activity which:

...

...

- 5.11.16 G Article 72D (Large risks contracts where risk situated outside the EEA) provides an exclusion for large risks situated outside the *EEA*. Broadly speaking, these are risks relating to:

...

- (3) ~~risks relating to~~ land vehicles, fire and natural forces, property damage, motor vehicle liability where the *policyholder* is a business of a certain size;
- (4) ~~certain financial loss where the *policyholder* is a business of a certain size.~~

For a fuller definition ...

5.16 Meaning of insurance mediation

5.16.1 G *AUTH* App 5.16.2G sets out the text of article 2.3 of the *Insurance Mediation Directive*. ...

## Annex B

### Amendments to the Supervision manual

In this Annex underlining indicates new text and striking through indicates deleted text.

(This Annex amends in part the text made in the Insurance Mediation and Mortgage Mediation, Lending and Administration (Prudential Provisions) Instrument 2004 (2004/01) and Annex D of the Appointed Representatives Instrument 2004 (2004/09).)

What the governing functions include

...

- 10.6.3A G *PRU 9.1.3R provides that an insurance intermediary, other than a sole trader, must allocate to a director or senior manager the responsibility for the firm's insurance mediation activity. PRU 9.1.4R(1) provides that the firm may allocate this responsibility to one or more of the persons performing a governing function (other than the non-executive director function).*

...

Business for which an appointed representative is exempt

- 12.2.7 G (1) The *Appointed Representatives Regulations* are made by the Treasury under section 39(1) of the *Act*. These regulations describe, among other things, the business for which an *appointed representative* may be exempt, which is business which comprises any of:
- (a) *dealing in investments as agent* (article 21 of the *Regulated Activities Order*) where the transaction relates to a *pure protection contract* (but only where the contract is not a *long-term care insurance contract*) ~~or general insurance contract;~~

...

- (f) *assisting in the administration and performance of a contract of insurance* (article 39A of the *Regulated Activities Order*) ~~where the activity relates to a general insurance contract;~~

...

- 12.2.8 G ...

- (2) The permitted scope of appointment of an *introducer appointed representative* does not include in particular:

...

- (c) *assisting in the administration and performance of a contract of insurance* ~~where the transaction relates to a general insurance contract;~~ or

...

...

12.5.2 G ...

(2) Under the *Appointed Representative Regulations*, an *appointed representative* is treated as representing other counterparties if, broadly, it:

...

(d) *assists in the administration and performance of a contract of insurance* (article 39A of the *Regulated Activities Order*) ~~where the activity relates to a general insurance contract;~~

...

...

12.7.7 R (1)

If:

(a) (i) the scope of appointment of the *appointed representative* is extended to cover *insurance mediation activities* for the first time; and

~~(b)~~ (ii) the *appointed representative* is not included on the *Register* as carrying on *insurance mediation activities* in another capacity; ~~and~~ or

~~(c)~~ (b) the scope of appointment of an *appointed representative* ceases to include *insurance mediation activity*;

the *appointed representative's principal* must give written notice to the *FSA* of that change before the *appointed representative* begins to carry on *insurance mediation activities* under the contract (see *SUP 12.4.9G*) or as soon as the scope of appointment of the *appointed representative* ceases to include *insurance mediation activity*.

## Annex C

### Amendments to the Integrated Prudential sourcebook

In this Annex underlining indicates new text and striking through indicates deleted text.

(This Annex amends in part the text made in the Insurance Mediation and Mortgage Mediation, Lending and Administration (Prudential Provisions) Instrument 2004 (2004/01).)

- 9.1.4 R The *firm* may allocate the responsibility for its *insurance mediation activity* under *PRU 9.1.3R* to an *approved person* (or *persons*) performing:
- (1) a *governing function* (other than the *non-executive director function*);  
or  
...
- 9.1.5 G (1) Typically an *insurance intermediary* will appoint a *person* performing a *governing function* (other than the *non-executive director function*) to direct its *insurance mediation activity*. Where this responsibility is allocated to a *person* performing another function, the *person* performing the *apportionment and oversight function* with responsibility for the apportionment of responsibilities under *SYSC 2.1.1R* must ensure that the *firm's insurance mediation activity* under *PRU 9.1.3R* is appropriately allocated.
- (2) ...
- (3) In the case of a *sole trader*, the *sole trader* will be responsible for the *firm's insurance mediation activity*, whether or not he is himself a *person approved to perform the sole trader function*.
- ...
- 9.1.7 G The *FSA* will specify in the *FSA Register* the name of the *persons* to whom the responsibility for the *firm's insurance mediation activity* has been allocated under *PRU 9.1.3R* by inserting after the relevant *controlled function* the words “(insurance mediation)”. In the case of a *sole trader*, the *FSA* will specify in the *FSA Register* the name of the *sole trader* as the 'contact person' in the *firm*.
- ...
- 9.2.8 G The minimum *limits of indemnity* for a *A firm* whose *Part IV permission* covers more than one *regulated activity* within the scope of this section ~~will need to comply with~~ is the higher of the *limits of indemnity* as set out in *PRU*

9.2.13R and the *limits of indemnity* as set out in *PRU 9.2.15R*. If the *firm* opts for a single comparable guarantee to finance the claims which might arise as a result of both activities, the provisions set out in *PRU 9.2.1R(3)* apply. ~~professional indemnity insurance requirements for each of these activities. However, this does not necessarily mean that the *firm* should purchase two or more separate *contracts of insurance*. It could, for example, purchase one contract that covers all of its activities, but which contains separate *limits of indemnity* and excesses for each individual activity.~~

Minimum limits of indemnity: insurance ~~intermediary~~ mediation activity

...

9.2.13 R ~~In relation to *insurance mediation activity*, If the *firm* is an *insurance intermediary*, then~~ the minimum *limits of indemnity* referred to in *PRU 9.2.10R(2)* are:

...

...

Minimum limits of indemnity: mortgage ~~intermediary~~ mediation activity

9.2.15 R ~~In relation to *mortgage mediation activity*, If the *firm* is a *mortgage intermediary*, then~~ the minimum *limit of indemnity* referred to in *PRU 9.2.10R(2)* is the higher of 10% of annual income (see *PRU 9.3.42R*) up to £1 million, and:

(1) ...

...

- 9.3.45 G
- (1) The purpose of *PRU 9.3.44R* is to ensure that the capital resources requirement is calculated on the basis only of brokerage and other amounts earned by a *firm* which are its own income.
  - (2) For the purposes of *PRU 9.3.43R* and *PRU 9.3.44R*, a *firm's* annual income includes *commissions* and other amounts the *firm* may have agreed to pay to other *persons* involved in a transaction, such as sub-agents or other intermediaries.
  - (3) A *firm's* annual income does not, however, include any amounts due to another *person* (for example, the product provider) which the *firm* has collected on behalf of that other *person*.

## Annex D

### Amendments to the Interim Prudential sourcebook for Investment Businesses

In this Annex underlining indicates new text and striking through indicates deleted text.

Chapter 13: Financial Resources Requirements for Personal Investment Firms

Appendix 13(1) – Defined terms for Chapter 13

...

Category A3 firm      a *Category A firm* whose *permission* includes only *insurance mediation activity in relation to non-investment insurance contracts, mortgage mediation activity, assisting in the administration and performance of contracts of insurances,* *arranging* transactions in *investments, advising on investments* and, if applicable *managing investments*;

...

Category B3 firm      a *Category B firm* whose *permission* includes only *insurance mediation activity in relation to non-investment insurance contracts, mortgage mediation activity, assisting in the administration and performance of contracts of insurances,* *arranging* transactions in *life policies* and other insurance contracts, *advising on investments* and receiving and transmitting, on behalf of investors, orders in relation to *securities* and units in *collective investment schemes*;

## Annex E

### Amendments to the Training and Competence sourcebook

In this Annex underlining indicates new text and striking through indicates deleted text.

- 2.1.2 R (1) In relation to *designated investment business*:
- (a) unless (aa) applies, this chapter applies to a *UK domestic firm*...
  - (aa) if the *designated investment business* constitutes *insurance mediation activity*, this chapter applies to a *UK domestic firm* in respect of its *employees* who engage in or oversee activities (to the extent indicated in *TC 2.1.4R*):
    - (i) from an establishment maintained by the *firm* (or its appointed representative) in the *United Kingdom*; or
    - (ii) from a *branch* established in another *EEA State*;  - (b) unless (bb) applies, ~~t~~ This chapter applies to an *overseas firm*...
  - (bb) if the *designated investment business* constitutes *insurance mediation activity*, this chapter does not apply to an *overseas firm* which is an *EEA firm*.
- ...
- (3) In relation to *insurance mediation activities* in respect of *non-investment insurance contracts* carried on with or for a *customer*, this chapter applies to any such activity carried on by a *UK domestic firm*:
- (a) from an establishment maintained by the *firm* (or its appointed representative) in the *United Kingdom*; or
  - (b) from a *branch* established in another *EEA State*.

By order of the Board  
20 October 2004

## Annex

### Amendments to the Interim Prudential sourcebook for Building Societies

In this Annex underlining indicates new text.

Amend IPRU(BSOC), Volume 1, Annex 4B, Chapter CD, s7 as follows:

See chs TS and TV	3	Banks may apply to the FSA to include credit derivatives in recognised models under CAD1 and also under <del>CAD2</del> <u>VaR</u> models. Banks may apply for recognition of <del>CAD2</del> <u>VaR</u> models which quantify partial offsets for specific risk positions where there is a maturity or asset mismatch.
	...	
	10	...
See ch TI s5 <u>46G</u>	...	a) For the specific risk position to be treated as a qualifying debt item, the reference asset should meet the standard conditions for a qualifying debt item as defined in the chapter on interest rate position risk.
	17	...
See ch TI s5 <u>46G</u>	...	a) Qualifying debt items are defined in the chapter on interest rate position risk.
	19	...
See ch TI s3 <u>37G</u>	(a)	the underlying and reference assets are issued by the same obligor;
	(b)	the underlying and reference asset specific risk positions meet the matching criteria set out in the chapter on interest rate position risk; and
	...	
See ch TI s6	23	Credit default products do not normally create a general market risk position.
	...	
	29	...
See ch TI s5 <u>46G</u>	a)	Qualifying debt items are defined in the chapter on interest rate position risk.
...		

Amend IPRU(BSOC), Volume 1, Annex 4B, Chapter CD, s8.3 as follows:

- 5 The option ~~carve-out treatment~~ standard method should be used for credit spread options only after consultation with the FSA. Banks should normally apply for recognition of option models covering credit spread options.

...

Amend IPRU(BSOC), Volume 1, s10 Chapter SE, s3.2.2 as follows:

- 4 (b) As a repackager, it sells *investment grade* third party *financial instruments* via its balance sheet to an SPV that then rebundles them and resells them to investors.
- a) In a *repackaging scheme*, the repackager is *not* the original lender and is therefore subject to fewer limitations than an originator.
- b) Where the assets are influenced in credit quality by reference to the repackaging bank, the bank will be regarded as an originator.
- c) For a definition of *investment grade* see the interest rate position risk chapter. Where the securities to be repackaged are not rated, the bank should be able to demonstrate that the asset are of a comparable quality.

See ch  
TI s9  
47G

...

Amend IPRU(BSOC), Volume 1, s10 Chapter SE, s9.3 as follows:

- 5 Securities issued that are deemed to be investment grade by relevant rating agencies, as defined, are deemed not to constitute credit enhancement if there is already sufficient credit enhancement within the terms of this section.

...

Amend IPRU(BSOC), Volume 1, s10 Chapter SE, s11.1 as follows:

- 3 ...
- a) ...
- b) ...
- c) The ability to deal in securities is limited to securities deemed to be of investment grade by a relevant rating agency as defined. Securities below investment grade fall within the definition of credit enhancement as described below.

See s6.2

See s9  
and ch  
TI s9

**MORTGAGE FIRMS AND INSURANCE INTERMEDIARIES (FEES)  
INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) section 156 (General supplementary powers);
  - (2) section 157(1) (Guidance); and
  - (3) paragraph 17(1) of Schedule 1 (Fees).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C. This instrument comes into force on 31 October 2004 (in part) and 14 January 2005 (in part). To the extent that a provision relates to any regulated activity in relation to a long-term care insurance contract or a regulated mortgage activity, it comes into force on 31 October 2004. Otherwise it comes into force on 14 January 2005.

**Amendments to the Supervision manual**

- D. The Supervision manual is amended in accordance with Annex A to this instrument.

**Amendments to the Professional Firms sourcebook**

- E. The Professional Firms sourcebook is amended in accordance with Annex B to this instrument.

**Amendments to the Authorisation manual**

- F. The Authorisation manual is amended in accordance with Annex C to this instrument.

**Citation**

- G. This instrument may be cited as the Mortgage Firms and Insurance Intermediaries (Fees) Instrument 2004.

By order of the Board  
20 October 2004

### Amendments to the Professional Firms sourcebook

In this Annex underlining indicates new text.

PROF 6 Ann 1R

...

Table: Fees payable by Designated Professional Bodies

...

Notes

- (1) The FSA register will include details of exempt professional firms carrying out insurance mediation activity.
- (2) In addition to the periodic fees shown above, the sum of £50,000 will be due from the designated professional bodies, divided between the bodies in proportion to the number of exempt professional firms each has on the FSA register on 14 January 2005. This is a contribution towards the costs of developing this part of the FSA register.
- (3) Each of the designated professional bodies will be invoiced for the appropriate amount in January 2005. The invoices must be paid on or before 28 February 2005.

## **PRUDENTIAL REPORTING FOR MARKET RISK BY BANKS INSTRUMENT 2004**

### **Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 ("the Act"):
- (1) section 138 (General rule-making power);
  - (2) section 156 (General supplementary powers); and
  - (3) section 157(1) (Guidance).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

### **Commencement**

- C. The annexes to this instrument come into force as follows:
- (1) Annexes A and B come into force on 1 November 2004; and
  - (2) Annex C comes into force as follows:
    - (a) (in the case of a firm that under paragraph 1 of Chapter TRANS of IPRU(BANK) is treating the material added to IPRU(BANK) by the Interim Prudential Sourcebook for Banks (Market Risk) Instrument 2004 as being in force) it comes into force on 1 November 2004; and
    - (b) (in other cases) it comes into force on 1 July 2005.

### **Amendments to the Supervision manual**

- D. The Supervision manual is amended in accordance with the Annexes to this instrument.

### **Citation**

- E. This instrument may be cited as the Prudential Reporting for Market Risk by Banks Instrument 2004.

By order of the Board  
20 October 2004

## **Annex A**

### **Amendments to SUP 16 Ann 1R**

In this Annex, underlining indicates new text and striking through indicates deleted text.

Amend Form BSD3 (Capital Adequacy Return) as follows. The pages of the form that are changed are the cover page and pages 24, 25, 33, 35 and 36 (these are in the position of pages 3 to 8 of this instrument).

### Notes on Completion

- 1 If you have any difficulty in completing this return, please telephone your normal supervisory contact at the FSA for guidance.
- 2 Complete the return quarterly on an unconsolidated/solo consolidated basis as at end of March, June, September and December. Institutions wishing to report at dates which coincide with the financial year end should apply to the FSA for a waiver (see SUP 8).
- 3 Complete the return half-yearly on a consolidated basis as at end of June and December. Institutions wishing to report at dates which coincide with the financial year end should apply to the FSA for a waiver (see SUP 8).
- 4 Enter amounts to the nearest thousands omitting £000s/€000s. Calculated amounts should be rounded to the nearest thousands, or two decimal places as appropriate.
- 5 For definitions of items, refer to the Guidance Notes
- 6 To assist with the scanning process, please enter all data neatly within the relevant boxes and do not enter the % symbol in any boxes on this return.
- 7 Submit within 10 business days for unconsolidated/solo consolidated returns and 20 business days for consolidated returns or 12 and 22 business days respectively for those institutions reporting electronically to:

**The Financial Services Authority**  
**c/o Monetary and Financial Statistics Division**  
**Domestic Banking Statistics (HO-4)**  
**Bank of England**  
**Threadneedle Street**  
**London EC2R 8AH**

- 8 Returns may also be delivered to the Works Gate at the Lothbury entrance of the Bank of England between 9.00am and 5.00pm, Monday to Friday. Envelopes should be clearly addressed as above.

FSA use only	Logged in	Data entered

## Annex B

### Amendments to SUP 16 Ann 2G

In this Annex, underlining indicates new text and striking through indicates deleted text.

#### Part 1

#### **BSD3 REPORTING INSTRUCTIONS**

...

#### **BSD3-SECTION B: TRADING BOOK FOR SOLO BANK AND LINE BY LINE CONSOLIDATED ENTITIES**

##### **General Notes**

1 For consolidated returns, the companies to be included in the consolidation should be those agreed between the reporting institution and the FSA in accordance with the FSA's Policy on Consolidated Supervision (Chapter CS (Consolidated supervision) of the FSA Policy Guide/IPRU (BANK)).

1A New market risk provisions were added to IPRU(BANK) in July 2004. They come into force for all banks on 1 July 2005. However banks may choose to apply them before then in accordance with paragraph 1 of chapter TRANS of IPRU(BANK).

If a bank has chosen to apply the new provisions before 1 July 2005 the following applies.

- (1) It should use boxes B170.2-B170.4, B210.2-B210.4, B250.2-B250.4 and B282.2-B282.4 as appropriate.
- (2) It should not use boxes B160, B170.1, B210.1, B250.1 or B282.1.
- (3) It should use these guidance notes in the form that was amended in October 2004 by the Prudential Reporting for Market Risk by Banks Instrument 2004. These amendments are set out in the Annexes to that Instrument. That instrument can be found at [www.fsa.gov.uk/handbook/instruments.html](http://www.fsa.gov.uk/handbook/instruments.html).

If a bank has not chosen to apply the new provisions then, until 1 July 2005, the following applies.

- (4) It should use boxes B160, B170.1-B170.2, B210.1-B210.2, B250.1-B250.2 and B282.1-B282.2 as appropriate.
- (5) It should not use boxes B170.3-B170.4, B210.3-B210.4, B250.3-B250.4 or B283.2-B282.4.

- (6) It should use the form of these guidance notes that does not incorporate the amendments contained in Annex C of the Prudential Reporting for Market Risk by Banks Instrument 2004. This unamended version can be found at:

[http://www.fsa.gov.uk/pubs/other/sup\\_chapter16\\_annex2g.pdf](http://www.fsa.gov.uk/pubs/other/sup_chapter16_annex2g.pdf)

## Annex C

### Further amendments to SUP 16 Ann 2G

In this Annex, underlining indicates new text and striking through indicates deleted text.

#### **BSD3 REPORTING INSTRUCTIONS**

##### **SECTION A: BANKING BOOK**

##### **ASSETS**

...

##### **A462 Aggregate net short open foreign currency position**

Reporting institutions which also complete Section B should not report a number in this item, as the capital requirement for foreign exchange position risk requirement should be calculated via item B180. All other reporting institutions should complete this item. The figure reported here should have a positive sign.

The aggregate net short position (net foreign exchange position) should be calculated in accordance with Chapter FX (Foreign exchange position risk requirement), ~~Section 3, of the FSA Policy Guide/IPRU (BANK)~~ as relevant. The amount reported in item A462 should be equal to Y+g in the notation of the open currency position plus the net gold position as calculated in Chapter FX (Foreign exchange position risk requirement), Section 4.4, of the FSA Policy Guide/IPRU (BANK). However, where fx options business is undertaken, the following adjustments should be made:

- (1) ~~w~~Where the simple curve-out standard or hedging method is used, the options capital charges should be multiplied by 12.5 and added to the net short position, so that the amount. The calculated amount will be reported in item A462. is equal to  $Y+g+12.5*(C+D)$  in the notation of Chapter FX (Foreign exchange risk), Section 4.4, of the FSA Policy Guide/IPRU (BANK).
- (2) ~~where one of the write-off methods is used, the options should not be included in the calculation of the net short position.~~
- (23) ~~w~~Where one of the other options methods are used, banks should consult their supervisor.

~~Institutions whose net open position calculated according to Chapter FX (Foreign exchange risk), Section 3, of the FSA Policy Guide/IPRU (BANK) is less than or equal to 2% of previous period's Large Exposures Capital Base may alternatively calculate their net open position as the difference between the value of foreign currency assets and the value of foreign currency liabilities (regardless of whether the result is long or short), on a consistent basis.~~

The basic method should be used to calculate foreign exchange risk unless the reporting institution is using a VaR model.

...

### **BSD3 - Section B: Trading book for solo bank and line by line consolidated entities**

...

#### **B150-B180 FOREIGN EXCHANGE POSITION RISK**

For more detailed information on the specification of capital for foreign exchange risk, see Chapter FX (Foreign exchange position risk requirement) of ~~the FSA Policy Guide~~/IPRU (BANK).

...

#### **B160 ~~For Backtesting Approach~~**

~~The total capital required for foreign exchange risk treated under the backtesting approach should be reported here. Item B160 should equal the item for the capital requirement for the backtesting method from Appendix B-V (column 3).~~~~[deleted]~~

...

#### **B170.1 ~~Using the Carve Out Approach~~**

~~Banks should report here the capital requirement arising from options on foreign exchange instruments treated under the carve out approach to options.~~~~[deleted]~~

#### **B170.2 Using CAD1 Models (Scenario Matrix/Buffer) Approach**

Banks should report here the capital requirement arising from options on foreign exchange instruments treated under the scenario matrix or buffer approach to options.

#### **B170.3 Using the Standard Method**

Banks should report here the position risk requirement arising from options on foreign exchange instruments treated under the standard method for options.

#### **B170.4 Using the Hedging Method**

Banks should report here the position risk requirement arising from options on foreign exchange that are treated under the hedging method.

#### **B180 Total foreign exchange risk requirement**

...

#### **B190-B220 INTEREST RATE POSITION RISK**

For more detailed information on the specification of capital for interest rate risk, see Chapter TI (Interest rate position risk requirement) of ~~the FSA Policy Guide~~/IPRU (BANK).

#### **B190 Specific Risk**

Report here the sum of individual net position (as defined in Chapter TI (Interest rate position risk requirement) of ~~the FSA Policy Guide~~/IPRU (BANK) within each risk weighted amount. ...

The specific risk weights are:

0.00% Certain Central Government debt instruments;

Debt instruments should be given a 0% specific risk weighting if they are:

- a) ~~they are issued by an issue of, or fully guaranteed by, or fully collateralised by securities issued by a Zone A<sup>+</sup> central governments and, central banks, including or the European Communities; or~~
- b) ~~they are issued by an issue of, or fully guaranteed by, Zone B central governments and central banks with a residual maturity of 1 year or less and are denominated in local currency and funded by liabilities in the same currency.~~

0.25% Qualifying Items debt securities up to 6 months residual maturity

1.00% Qualifying Items debt securities over 6 and up to 24 months residual maturity

1.60% Qualifying Items debt securities over 24 months residual maturity

~~Debt instruments should be treated as qualifying if any of the following conditions apply:~~

- a) ~~they are issued by, or fully guaranteed by, Zone B central governments and central banks with a residual maturity of over 1 year and are denominated in local currency and funded by liabilities in the same currency.~~
- b) ~~They are securities issued by, or fully collateralised by claims on, a multilateral development bank as listed in the Solvency Ratio Directive. The European Commission may amend this list periodically (see SGN Appendix E for more detail).~~
- e) ~~They are issued, guaranteed, endorsed, or accepted, by a credit institution incorporated in a Zone A country (see SGN Appendix C for details of Zone A and B countries);~~
- d) ~~They are issued, or guaranteed, endorsed, or accepted, by a credit institution incorporated in a Zone B country and have a residual maturity of 1 year or less;~~
- e) ~~They are issued, or guaranteed, by an investment firm that is incorporated in a Zone A country and subject to the Capital Adequacy Directive, or to a regime that FSA deems to be CAD equivalent;~~
- f) ~~They are issued, or guaranteed, by an investment firm that is incorporated in a Zone B country and subject to the Capital Adequacy Directive, or to a regime that the FSA deems to be CAD equivalent; and they have a residual maturity of 1 year or less;~~
- g) ~~They are issued by, or guaranteed by, Zone A public sector entities (see SGN23);~~
- h) ~~They are issued by, or guaranteed by, a company whose equity is eligible for 2% equity specific risk weighting.~~
- i) ~~The issue, or an issue of equivalent ranking in a liquidation, or an issue of equivalent ranking in a liquidation of the guarantor, is rated investment grade (or its equivalent for money market obligations), or above and the~~

---

<sup>+</sup>See SGN Appendix C.

~~reporting bank is unaware of any sub-investment grade<sup>2</sup> rating issued by any of the relevant credit rating agencies (see SGN Appendix H for the list of agencies which are considered relevant).~~

A debt security is a qualifying debt security if:

- (1) it attracts zero specific risk under table 44G of Chapter TI of IPRU(BANK); or
- (2) it is issued by, or fully guaranteed by:
  - (a) a Zone B central government or central bank and the security is denominated in the local currency of the issuer; or
  - (b) a multilateral development bank as defined in the Handbook Glossary; or
  - (c) a Zone A public sector entity; or
  - (d) a company whose equity is a constituent of one of the indices making up the FTSE All-World Index; or
  - (e) an issue of, or fully guaranteed by an investment firm or recognised third-country investment firm; or
- (3) it is issued by, fully guaranteed by, endorsed or accepted by:
  - (a) a credit institution incorporated in a Zone A country; or
  - (b) a credit institution incorporated in a Zone B country and the debt security has a residual maturity of one year or less; or
- (4) it is a mortgage backed security which meets the criteria in 7e of section 3.2.5 of Chapter BC of IPRU(BANK); or
- (5) it is rated by at least one of the agencies shown in table 47G of Chapter TI of IPRU(BANK), and every such rating equals or exceeds the corresponding minimum shown in that table.

Convertible securities, such as bonds and preference shares, that are treated as debt instruments should be given a specific risk weighting identical to other debt items for the same issuer as described in the preceding paragraphs. Convertible securities (as defined in Chapter TE (Equity position risk), ~~Section 2, Paragraph 4, of the FSA Policy Guide/IPRU (BANK)~~) should be treated as equities when:

- a) ...
- b) the convertible is trading at a premium of less than 10%, where the premium is defined as the current mark to market value of the convertible less the mark to market value of the underlying equity, expressed as a percentage of the mark to market value of the underlying equity market price of less than 110% of the underlying equity.

---

<sup>2</sup> ~~Chapter BC (Credit risk in the banking book), Section 5, of the FSA Policy Guide/IPRU (BANK) includes a list of the relevant cut off points for investment grade for each relevant ratings agency.~~

Otherwise, a bank may treat equity convertibles as either:-

- a) ~~an equity position based upon conversion of the bond and deducting from capital (by including in item B215) any losses, including accrued interest, that may arise from this “conversion” for the purposes of calculating the capital requirements, but limiting the size of any profits from the “conversion” to the sum of the specific and general risk requirements; or~~ an equity position (by including in item B215), where the bank's equity PRR should be adjusted by making an addition equal to the current value of any loss which the bank would make if it did convert to equity; or a deduction equal to the current value of any profit which the bank would make if it did convert to equity (subject to a maximum reduction equal to the PRR on the notional position underlying the convertible).
- b) a debt item.

...

#### **B210.1 Using the Carve Out Approach**

~~Banks should report here the capital requirement arising from options on interest rate instruments treated under the carve out approach to options (see in Chapter TI (Interest rate position risk), Section 7, of the FSA Policy Guide/IPRU (BANK)).~~[deleted]

#### **B210.2 Using CAD1 Models Approach**

Banks should report here the capital requirement arising from options on interest rate instruments treated under the scenario matrix or buffer approach to options.

#### **B210.3 Using the Standard Method**

Banks should report here the position risk requirement arising from options on interest rate instruments treated under the standard method for options (see Chapter TO of IPRU (BANK)).

#### **B210.4 Using the Hedging Method**

Banks should report here the position risk requirement arising from options or interest rate instruments treated under the hedging method (see Chapter TO of IPRU (BANK)).

#### **B215 Interest Rate Risk on Equity Derivatives**

Reporting institutions should include in this box any interest rate risk arising from equity derivatives (including options) which is not processed via either an approved model or the usual methods for interest rate general market risk (see in Chapter TE (Equity position risk requirement), ~~Section 5, Paragraph 5, of the FSA Policy Guide/IPRU (BANK).~~

...

#### **B220 Total Interest Rate Position Risk Requirement**

This item should be the sum of items B190, B200, B210 and B215.

#### **B230-B270 EQUITY POSITION RISK REQUIREMENT**

...

### **B250.1 ~~Using the Carve Out Approach~~**

~~Banks should report here the capital requirement arising from options on equities treated under the carve out approach to options. [deleted]~~

### **B250.2 Using CAD1 Models Approach**

Banks should report here the capital requirement arising from options on equities treated under the scenario matrix or buffer approach to options.

### **B250.3 Using the Standard Method**

Banks should report here the position risk requirement arising from options on equities treated under the standard method (see Chapter TO of IPRU (BANK)).

### **B250.4 Using the Hedging Method**

Banks should report here the position risk requirement arising from options on equities treated under the hedging method (see Chapter TO of IPRU (BANK)).

### **B270 Total Equity Position Risk Requirement**

This item should be the sum of the capital requirements for specific and general market risk on equities plus any additional capital requirements reported for options.

### **B280 Commodity position risk requirement**

...

### **B282 Additional Capital Charge for Options**

... This item should equal the sum of items ~~B282.1 and B282.2~~, B282.3 and B282.4.

### **~~B282.1 Using the Carve Out Approach~~**

~~Banks should report here the capital requirement arising from options on commodity instruments treated under the carve out approach to options. [deleted]~~

### **B282.2 Using CAD1 Models (Scenario Matrix/Buffer) Approach**

Banks should report here the capital requirement arising from options on commodity instruments treated under the scenario matrix or buffer approach to options.

### **B282.3 Using the Standard Method**

Banks should report here the position risk requirement arising from options on commodity instruments treated under the standard method (see Chapter TO of IPRU (BANK)).

### **B282.4 Using the Hedging Method**

Banks should report here the position risk requirement arising from options on commodity instruments treated under the hedging method (see Chapter TO of IPRU (BANK)).

### **B284 Total commodity position risk requirement**

...

## **APPENDIX B-V: CAPITAL REQUIREMENT FOR FOREIGN EXCHANGE RISK**

...

The net open position in each currency (including gold but excluding the base currency) should be calculated according to Chapter FX (Foreign exchange position)

risk requirement), Section 3, of the FSA Policy Guide/IPRU(BANK). Positions in composite currencies may either be broken down into positions in the component currencies according to the quotas in force, or treated as positions in a separate currency. However, one or other method should be used consistently. Positions in American depository receipts should be treated as positions in the currency of the underlying instrument.

...

Positions in Column 1, other than the balancing item in the base currency, should be allocated to either Column 2 or 3 in line with the agreed policy set out in the Trading Book Policy Statement. (In certain circumstances, it may be appropriate to split the position in one pre-determined currency, with only a proportion included in the backtesting method. Such a treatment should also be agreed in advance with the supervisor).

...

The capital requirement for currency and gold positions included in the backtesting method should be reported at the bottom of column 3 and in item B160. The minimum requirement is 2% of the sum of the higher of net short/long open currency positions and the absolute value of the position in gold in Column 3: the entry at the bottom of Column 3 and in item B160 must be at least as large as this in order for the return to be processed.

From 1 September 1999, only the basic method ~~should be~~ has been used to calculate foreign exchange risk unless the reporting institution ~~is using~~ has used a VaR model. Accordingly, columns 2 and 3 are no longer applicable, as column 1 is the same as column 2.

## **APPENDIX B-VI - CAPITAL REQUIREMENT FOR INTEREST RATE GENERAL MARKET RISK**

Chapter TI (Interest rate position risk requirement) of the FSA Policy Guide/IPRU(BANK) contains three alternative methods that may be used for the calculation of interest rate general market risk. ...

### **Simplified Method: Interest Rate**

Reporting institutions which have chosen to apply the simplified method (Chapter TI (Interest rate position risk requirement), Section 4, of the FSA Policy Guide/IPRU(BANK)) for interest rate risk should report the resultant capital requirement for each currency in the simplified method column. ...

### **Embedded Interest Rate Risk On Equity Derivatives (Including Options)**

~~For general interest rate position risk on equity derivatives, an amount equal to the notional underlying equities may be included in Appendix B-VI as government securities with a coupon below 3% in the currency concerned. Banks should only report in this way if the FSA is satisfied, and has given express written agreement, that sufficient controls are in place to monitor this interest rate exposure and to take account of dividend exposures and liquidity risk. If a bank has an approved interest rate sensitivity model, the interest exposure may be incorporated into that model. Otherwise the embedded interest rate exposures in equity derivatives should be~~

calculated as in Chapter TI (Interest rate position risk requirement) or as in Chapter TE (Equity position risk requirement) of IPRU(BANK) and reported in item B215.

~~Unless otherwise agreed with the FSA, embedded interest rate exposures in equity derivatives should be calculated as in Chapter TE (Equity position risk), Section 5, Paragraphs 5-7, of the FSA Policy Guide/IPRU(BANK) and reported in item B215.~~

## APPENDIX B-VII: EQUITY POSITION RISK

...

### Standard Method

Gross equity positions (including positions in indices) should be reported in Columns 1, 2 or 3 according to the tests and definitions set out in Chapter TE (Equity position risk requirement), Section 4, of the FSA Policy Guide/IPRU(BANK). Under the standard method positions in qualifying equities ~~“highly liquid” stocks which form a “diversified portfolio”~~ for the country concerned should be reported in Column 2. Positions in highly liquid qualifying equity indices which attract a ~~charge for execution~~ zero specific risk charge should be reported in column 3. All other positions should be reported in Column 1. Banks should include any notional equity instruments underlying positions in derivatives, but should exclude positions in ~~“highly liquid”~~ qualifying equity indices, unless they have been broken down into their components for the purpose of offsetting other positions. The capital requirement for specific/~~execution~~ risk calculated from these positions is the total of Column 1 multiplied by 8% plus the total of Column 2 multiplied by 4% plus the total of Column 3 multiplied by 0%. This capital requirement should not be reported in Appendix B-VII, but in item B230. Column 4 is the sum of Columns 1, 2 and 3.

The absolute value (ie disregarding sign) of net equity positions should be reported in ~~columns 5 and 6~~. Banks should include any notional equity instruments, underlying positions in derivatives and also any positions in indices. ~~For “concentrated” positions, ie those which form more than 20% of the total gross equity position for the country concerned, the value of the position in excess of 20% should be reported in Column 5 (disregarding sign), the remainder of the position being included in Column 6. If more than one concentrated position exists within a country portfolio, the reported excess positions should be aggregated without offsetting (ie disregarding sign) or use zone A/B distinction. The concentration test is no longer in use. Therefore column 5 is no longer applicable so column 6 will equal column 7.~~

~~Column 7 is the sum of Columns 5 and 6. The capital requirement for general risk calculated from these positions is the total of amount in Columns 5 and 6 multiplied by 8%. This capital requirement should not be reported in Appendix B-VII, but in item B240.~~

Equity positions arising from underwriting should be included within the gross and net equity positions reported for the relevant country. When discount factors are applied to underwriting positions prior to Working Day Zero and for the subsequent five days, the discounted position should be aggregated with other net equity positions for that country without offsetting (ie disregarding sign). [See Chapter TU (Underwriting in the capital adequacy framework Securities Underwriting) of the FSA Policy Guide/IPRU(BANK) for more details on the treatment of underwriting.]

## Equity Simplified Method

~~Banks which have chosen to apply the simplified method for equity position risk should report gross equity positions either entirely in Column 1 (attracting an 8% charge). Equity index positions should be included in the gross position for the relevant country. The capital requirement for specific risk, which should be reported in item B230, is the total of Column 1 multiplied by 8%.~~

~~Under the simplified method the general risk requirement is calculated in the same way as under the standard method: the capital requirement for general market risk, which should be reported in item B240, is the total of Columns 5 and 6 multiplied by 8%.~~

Banks which have chosen to apply the simplified method for equity position risk should report gross equity positions in either Column 1 (attracting an 8% specific risk charge) or in Column 3 (attracting a 0% specific risk charge). Positions in qualifying equity indices attract a 0% specific risk charge and should be reported in column 3. All other positions attract an 8% specific risk charge and should be reported in column 1. Equity index positions should be included in the gross position for the relevant country. The capital requirement for specific risk calculated from these positions is the total of Column 1 multiplied by 8%, which should be reported in item B230.

Under the simplified method the gross equity positions should be summed, and reported under the relevant country in column 6. Netting of general market risk is not allowed under the simplified equity method. The general market risk requirement which should be reported in item B240 is Column 6 multiplied by 8%.

## APPENDIX B-VIII - COMMODITY POSITION RISK

This section outlines the calculation of capital charges for commodity position risk. For the purposes of this section, a commodity includes any physical or energy product (except gold) product which is or can be traded on a secondary market ~~and positions in respect of contracts whether tangibles or intangibles not covered elsewhere in these reporting instructions.~~ Commodities therefore include agricultural products, base metals, other minerals and various precious metals; however, gold is excluded and is treated as a foreign currency according to the methodology set out under Appendix B-V. ...

### Definition of a single commodity

Capital charges should be calculated for each commodity separately; long and short positions in the same commodity only should be matched (see below) prior to determining the net open position. For the purpose of these calculations, a bank should treat positions in different grades or brands of the same commodity-class as different commodities unless they: ~~specific items may be considered as being elements of the same commodity if:~~

- ~~(a) positions in different sub-categories are deliverable against each other can be delivered against each other; or~~
- ~~(b) positions in commodities which are close substitutes for each other such that price movements over a minimum period of one year can be shown to have a stable and~~

reliable correlation of at least 0.9. have price movements which have exhibited a stable correlation coefficient of at least 0.9 over the last 12 months. The bank should then monitor the correlation on a continuing basis.

Banks may undertake the matching of positions under option (b) above. However they should ~~obtain the prior approval of~~ notify their line supervisor before doing so as set out in Chapter CM, 23G of IPRU(BANK). A bank wishing to treat positions in respect of non-identical items as the same commodity should be able to demonstrate that the correlation is valid and to monitor its continuing validity.

### **Derivative positions**

...

- ~~options and warrants on commodities may be treated under one of two the hedging or standard methods. A simple method, called the carve-out, may be used for portfolios which contain (at most) only a small number of written options or warrants, and providing also they contain only plain vanilla and shorter dated instruments. Banks with larger and/or more complex options portfolios should seek recognition for one of the option risk management models described in Chapter TS (CAD1 models) in the FSA Policy Guide/IPRU(BANK).~~

### **Maturity ladder approach**

...

**Table 1 - Time bands and spread rates**

#### **Time bands and spread rates**

<b>Time band</b>	<b>Spread rate</b>
0-1 month	<del>1.5%</del> <u>3%</u>
1-3 months	<del>1.5%</del> <u>3%</u>
3-6 months	<del>1.5%</del> <u>3%</u>
6-12 months	<del>1.5%</del> <u>3%</u>
1-2 years	<del>1.5%</del> <u>3%</u>
2-3 years	<del>1.5%</del> <u>3%</u>
over 3 years	<del>1.5%</del> <u>3%</u>

Matched long and short positions in each time band should incur a capital charge. When calculating this charge, ~~the sum of matched positions (i.e. both long and short positions)~~ should be multiplied first by the spot price for that commodity and second by the spread rate for that band (~~1.5%~~3%). ...

...

## ONLINE SUBMISSION AND MANDATORY FORMS INSTRUMENT 2004

### **Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) section 51(3)(a) (Applications under this Part);
  - (2) section 138 (General rule-making power);
  - (3) section 157(1) (Guidance); and
  - (4) section 182(1) (Notification).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

### **Commencement**

- C. This instrument comes into force on 1 November 2004.

### **Amendments to the Supervision manual**

- D. The Supervision manual is amended in accordance with Annexes A and B to this instrument.

### **Citation**

- E. This instrument may be cited as the Online Submission and Mandatory Forms Instrument 2004.

By order of the Board  
20 October 2004

## Annex A

### Amendments to the Supervision manual

In this Annex underlining indicates new text and striking through indicates deleted text.

- 3.3.2 R A *firm* to which this section applies (see *SUP* 3.1) must:
- (1) ...
  - (2) notify the *FSA*, without delay, on the form in *SUP* 15 Ann 2R (Standing data form), in accordance with the instructions on the form, when it is aware that a vacancy in the office of auditor will arise or has arisen, giving the reason for the vacancy;
  - ...
  - (5) notify the *FSA* of the appointment of an auditor, on the form in *SUP* 15 Ann 2R (Standing data form), in accordance with the instructions on the form, advising the *FSA* of the name and business address of the auditor appointed and the date from which the appointment has effect.
- ...
- 6.3.15 D (1) ~~A If a firm which wishes to apply for a variation of *Part IV* permission, it must ~~do so in writing~~ complete and submit to the *FSA* the form in *SUP* 6 Ann 5D (Variation of permission application form), explaining the variation it seeks.~~
- ...
- 6.3.17 G (1) ~~Subject to *SUP* 6.3.20G, there is no application pack for a variation of *Part IV* permission. Instead, a *firm* should send an application under *SUP* 6.3.15D to its usual supervisory contact at the *FSA*. This application should set out the requirements in *SUP* 6.3.16G in as much detail as possible, together with a detailed description of the reasons and circumstances that have given rise to the request. [deleted]~~
- (2) ~~However, a A firm is ...~~
- ...
- 6.4.5 D (1) ~~If a *firm* wishes to cancel its *Part IV* permission, it must ~~write~~ complete and submit to the *FSA* the form in *SUP* 6 Ann 6D (Cancellation of permission application form) ~~giving the reasons for its application to cancel its *Part IV* permission), and the date on which the *firm* has ceased, or expects to cease, to carry on regulated activities. The *firm* must explain the full circumstances of its application.~~~~

...

- (3) ~~A firm's application for cancellation of Part IV permission must be served in the ways set out in SUP 15.7 (Form and method of notification)-[deleted]~~

...

Insert after SUP 6 Ann 4G the following two new links to forms (the forms are detailed in Annex B):

:

SUP 6 Ann 5D: Variation of permission application form

SUP 6 Ann 6D: Cancellation of permission application form

...

- 8.3.3A G (1) The FSA's preferred method of submission for *waiver* applications is by e-mail or by online submission at [www.fsa.gov.uk](http://www.fsa.gov.uk).

...

- 10.13.3 ~~G~~D A firm ~~should~~ must use Form E ...

...

- 11.3.7 D A notification ("notice of *control*") given to the FSA by a *person* who is acquiring *control* or increasing his *control* over a *firm*, in a way described in SUP 11.4.2R(1) to (4), must:

- (1) in the case of a *controller* or a proposed *controller* who is not an *authorised person*, contain the information required in:

...

- (2) in all other cases, contain the information required in Controllers Form A, sections 1, 5 and 6 (SUP 11 Ann4 D)-; and

- (3) if a notification is not submitted on the relevant form specified in (1) or (2), provide reasons why that form was not used.

...

- 11.3.11 G The FSA, for administrative reasons, expects notifications within SUP 11.3.7D to be given on Controllers Form A or Controllers Form B, as appropriate. If notifications are not made on these forms the applicant must inform FSA of the reasons for not using them. Copies of Controllers Form A and Controllers Form B are available on the FSA's website at [www.fsa.gov.uk](http://www.fsa.gov.uk). ...

...

- 12.7.1 R (1) *A firm* which appoints an *appointed representative* must complete and submit give written notice of the appointment to the FSA the form in SUP 12 Ann 3R (Appointed representative appointment form) in accordance with the instructions on the form and not more than ten *business days* after the date the appointment takes effect.
- (2) ~~*A firm's* notification under (1) must be given to a member of or addressed for the attention of the Authorisation and Approvals Department (Authorisation teams) at the address given in SUP 12.7.5R [deleted]~~

...

- 12.7.4 G (1) ~~*Firms* can obtain a standard notification form from either the FSA website at [www.fsa.gov.uk](http://www.fsa.gov.uk) or by post from the Corporate Authorisation department [Monitoring and Notifications Department<sup>1</sup>].~~
- (2) ~~*A firm's* notice under SUP 12.7.1 R should be returned to the department at the address below. [deleted]~~

...

- 12.7.7 R (1) ~~*A firm* must give written notice on the relevant form to the FSA of~~ Where there is a change in any of the information provided to the FSA under SUP 12.7.1R, a *firm* must complete and submit to the FSA the form in SUP 12 Ann 4R (Appointed representative notification form) in accordance with the instructions on the form and within ten *business days* of a that change being made or, if later, as soon as ~~it~~ the *firm* becomes aware of the change. The Appointed representative notification form notice must state that the information has changed.
- (2) ~~*A firm's* notification under (1) [and (2)<sup>2</sup>] must be given to a member of or addressed for the attention of the Authorisation and Approvals Department (Authorisation teams) [Monitoring and Notifications Department<sup>3</sup>] at the address given in SUP 12.7.5R. [deleted]~~

- 12.7.8 R (1) ~~*A firm* must give written notice to the FSA a~~ As soon as it a *firm* has reasonable grounds to believe that any of the conditions in SUP 12.4.2R or SUP 12.4.6R (as applicable) are not satisfied, or are likely not to be satisfied, in relation to any of its *appointed representatives*, it must complete and submit to the FSA the form in SUP 12 Ann 4R (Appointed representative notification form), in accordance with the instructions on the form.
- (2) ...

<sup>1</sup> Deleted text was due to come into force on 14 January 2005.

<sup>2</sup> Deleted text was due to come into force on 14 January 2005.

<sup>3</sup> Deleted text was due to come into force on 14 January 2005.

- (3) ~~A firm's notification under (1) must be given to a member of or addressed for the attention of the Corporate Authorisation department at the address given in SUP 12.7.5R [deleted]~~

...

12.8.1 R If either the *firm* or the *appointed representative* notifies the other that it proposes to terminate the contract of appointment or to amend it so that it no longer meets the requirements contained or referred to in SUP 12.5 (Contracts: required terms), the *firm* must:

- (1) ~~complete and submit give written notice to the FSA the form in SUP 12 Ann 5R (Appointed representative termination form) in accordance with the instructions on the form and no more than ten business days after the date of the decision to terminate or so amend the contract or, if later, as soon as it becomes aware that the contract is to be or has been terminated or amended;~~
- (2) ~~include in the written notice the reason for the termination or amendment, if the termination or amendment is due to misconduct or the appointed representative is resigning while under investigation by the firm, the FSA, another regulator, a clearing house, an exchange, a designated professional body, or a government body or agency; [deleted]~~
- (3) ~~if relevant, include in the written notice details of action taken by the firm and, if applicable, its outcome; and [deleted]~~
- (4) ~~ensure that the written notice is given to a member of or addressed for the attention of the Corporate Authorisation department at the address given in SUP 12.7.5R.[deleted]~~

...

## **Annex B**

In this Annex underlining indicates new text and striking through indicates deleted text.

The forms referred to in Annex A as detailed in Annex B are set out sequentially below.

SUP 6 Ann 5D: Variation of permission application form

SUP 6 Ann 6D: Cancellation of permission application form

SUP 12 Ann 3R: Appointed representative appointment form

SUP 12 Ann 4R: Appointed representative notification form

SUP 12 Ann 5R: Appointed representative termination form

SUP 15 Ann 2R: Standing data form

SUP 15 Ann 3R: Notification form

The attached form or its online equivalent (if any) is the form detailed in Annex B for SUP 6 Ann 5D: Variation of permission application form

# Variation of Part IV Permission (VOP)

## Application Form

(September 2004)

Firm name

("The Firm")

FSA reference number

Address

The Financial Services Authority  
Variation of Permission ('VOPs') Team  
Regulatory Decisions Department  
25 The North Colonnade  
Canary Wharf  
London E14 5HS  
United Kingdom  
Telephone +44 (0) 20 7066 1000  
Facsimile +44 (0) 20 7066 1099

Registered as a Limited Company in England and Wales No 1920623. Registered Office as above.

### **Purpose of this form**

This form will help you apply to vary the permission of your firm.

It may look long but it should be relatively straightforward to complete. For the majority of applications, completing this form will make it clear to us (the Financial Services Authority – ‘the FSA’) what you want to do and provide the information we need. However, you may be required to submit further information if necessary.

You should read through this form before you attempt to complete it to ensure that you can vary your permission in the way you want to, you have all the information required and have taken any additional steps necessary.

- **Authorisation and Permission**

Under section 19 of the Financial Services and Markets Act 2000 (FSMA 2000), no firm may carry on a regulated activity in the United Kingdom, or claim to do so, unless the firm is authorised by us or is an exempt person. This is referred to as the general prohibition. It is a serious offence, or ‘breach of the general prohibition’, if a firm conducts regulated activities within the UK and is not authorised or exempt.

When authorising a firm, we give the firm a permission - a “Part IV permission”. This lists all the services covered by FSMA 2000 ('regulated activities') that the firm is allowed to offer. For each of the regulated activities it will say what products ('investment types') the firm can offer in connection with that activity and to which class(es) of client ('customer types').

For example, an IFA’s permission might include:

- Regulated activity: Advising (excluding Pension Transfers/Opt Outs).
- Investment types related to this regulated activity: Certificates representing certain security, Debenture, Government and public security, Life Policy, Rights to or interests in investments (Contract Based Investments), Rights to or interests in investments (Security), Share, Stakeholder pension scheme, Unit, Warrant.
- Clients for this activity and these investment types: Intermediate Customer, Private Customer.

Note that in this example the IFA's permission does not allow it to give advice to Market Counterparties, nor would it be allowed to give advice on products not listed such as futures or Contracts for Difference.

If a firm decides that it wants to undertake a new type of business, extend a business line into a new product or to a new class of people, it must decide if this means that it needs to change its permission. If we do not regulate the business or service (the ‘activity’), then the firm will not need to apply for a change of permission. If we do regulate the activity, then before the firm starts doing the new activity, or starts doing an existing activity with a new investment type or customer type, it must apply to us for a variation of its Part IV permission. We must approve the variation before the firm can start the business. In making this decision, we are required by law to consider whether the firm will continue to meet the minimum standards for authorised firms. These standards are referred to as the Threshold Conditions. These are

detailed in the Threshold Conditions section of the FSA Handbook, which is referred to as COND. You will find this on our website at [www.fsa.gov.uk/vhb/html/cond/CONDtoc.html](http://www.fsa.gov.uk/vhb/html/cond/CONDtoc.html).

If a firm undertakes regulated business that is not covered by its permission, we can take enforcement action against the firm.

Similarly, if a firm ceases a business line or restricts the way it undertakes it in some way, it should consider whether it should remove a regulated activity or change the client types or instruments associated with a regulated activity. A permission should only reflect the activities that a firm undertakes.

- **Limitations and Requirements**

A permission may contain a ‘requirement’. This can restrict the way in which a firm can act in regard to the regulated activities listed. Requirements may be positive or negative, either requiring a firm to take specified action or not to take any action. This may extend to activities which are not regulated.

Some requirements restrict the way a permission can work, so that the firm fits a particular definition of a type of firm referred to in the FSA Handbook e.g. Oil Market Participants, Corporate Finance Firms, Venture Capital Firms. For example a common requirement for Venture Capital Firms is “the firm must not conduct designated investment business other than Venture Capital business”.

A particular regulated activity in the permission may have a ‘limitation’. These enable us to limit the description of a regulated activity as we see appropriate. A limitation may restrict the circumstances in which an activity may be carried out. For example, a common limitation for insurance firms is “the permission to accept deposits is limited to accepting deposits in the course of carrying on insurance business for which the insurer has a permission”.

A firm can apply to have requirements and limitations added, removed or changed.

### **Be aware**

When you vary your permission you must be aware that:

- for certain types of variation you may be charged an application fee, which you must pay even if you withdraw the application or it is refused;
- your FSA periodic fee may increase or decrease;
- you may have to demonstrate how your firm has enhanced its systems and controls to take into account new risks your firm faces by doing new types of business; and
- your firm’s financial category may change, so your financial resource requirements could increase.

You should fully understand how these points will affect your firm before completing this form.

### **Getting help**

If you have problems completing this application form you may find it helpful to consult the FSA Handbook:

- SUP 6.3 and Annex 2 for general information on VOP applications;
- AUTH 2 for information on regulated activities, instruments etc; and

- SUP 20 and AUTH 4.1 for fees.

If this does not resolve your problems then you should discuss the application with your usual supervisory contact at the FSA or seek professional help. If your questions specifically relate to how to complete this form then please contact the VoPs Team at the contact details at the end of this section.

- **Time to process this application**

We will attempt to process your application as quickly as possible. In doing so we will endeavour to meet any relevant dates you notify us of but to help us with this you should make any application in plenty of time. However, please note that we have six months to consider an application for variation of permission once received and deemed complete (see SUP 6.3.35G).

- **Complex variations**

If you are applying to add one of the activities listed in Table 1.2(c) below to your permission then you should be aware that you will be asked to complete further forms and provide more information, including all or part of an Authorisation Pack. This is because these will cause a fundamental change to the way you should run and control your business. You will be advised on this after we receive this application form.

- **Fee Blocks and Fees**

Authorised firms are required to pay annual periodic fees while they are authorised by us. Firms are categorised into groups that conduct similar types of business called Fee-blocks. The Fee-blocks determine the amount of fees that are charged to a firm in a particular category. This allows us to minimise any cross subsidising of one sector to another and ensure that similar businesses are charged fees on a similar basis. It is the regulated activities that determine which Fee-blocks a firm is in. This means that varying your permission can change the annual periodic fees that a firm pays.

Typically, the permission granted to an Independent Financial Adviser would cause the firm to be allocated to fee-blocks A.12 or A.13.

- **A.12** – Advisers, arrangers, dealers, brokers (holding and/or controlling client money and/or client assets).
- **A.13** – Advisers, arrangers, dealers, brokers (NOT holding and/or controlling client money and/or client assets).

Changing investment types and / or client types should not affect the Fee-blocks a firm is in but changing a requirement may. For example, removing a requirement to restrict the business of a firm to corporate finance will change a firm's fees.

### **Variation of Permission Application fees**

Your firm will have to pay an application fee if the variation you are applying for brings you into one of the Fee-blocks listed below for the first time. This is not refundable if you do not go ahead with the variation or if we refuse the variation. You do not have to pay a fee if you do not enter one of the fee blocks below. The questions in this form will help you determine whether you need to pay an application fee.

### **Table 1.2 - Variation of permission application fee**

This table is taken from AUTH 4, Annex 1R.

**(a) Straightforward (£1,000)**

<b>New Fee Block</b>	<b>Descriptions</b>
A.3	Friendly societies
A.4	Friendly societies
A.12	Advisory arrangers, dealers or brokers (holding or controlling client money and/or assets)
A.13	Advisory arrangers, dealers or brokers (not holding or controlling client money and/or assets)
A.14	Corporate finance advisers

**(b) Moderately complex (£2,500)**

<b>New Fee Block</b>	<b>Descriptions</b>
A.1	E-money issuers only
A.5	Managing agents at Lloyd's
A.7	Fund Managers (holding or controlling client money and/or assets)
A.9	Operators, trustees and depositaries of collective investment schemes
A.10	Firms dealing as principal

**(c) Complex (£12,500)**

<b>New Fee Block</b>	<b>Descriptions</b>
A.1	Deposit acceptors (excluding e-money issuers and credit unions)
A.3	Firms conducting insurance activities subject only to prudential regulation (excluding friendly societies)
A.4	Firms conducting insurance activities subject to both prudential and conduct of business regulation (excluding friendly societies)

**Changes to periodic fees**

If your firm is granted an additional permission or extends an existing permission during the course of a year, which takes you into a different Fee-block, then the periodic fees that you will be charged in future years will change. Also, an additional periodic fee will also be charged for the current year. The exact amount payable for the current year will depend on the date in our financial year when the permission is changed. The fee is a set proportion of the full annual periodic fee. The proportions payable are set out in Table 1.3 below.

**Table 1.3 - Proportion of full periodic fee payable for part-year authorisations**

<b>Quarter in which the permission is changed</b>	<b>• Proportion payable</b>
1 April to 30 June inclusive	100%
1 July to 30 September inclusive	75%
1 October to 31 December inclusive	50%

1 January to 31 March inclusive	25%
---------------------------------	-----

If a firm reduces or renounces its permission or recognition during our financial year, then we will give no refund of periodic fees.

If a firm formally applies to vary its permission before the start of a new fee period (1 April each year), and the permission is reduced within three months of the start of the new fee period, we will not charge a fee for any fee-block that applied to the firm before the variation took effect.

SUP 20 Annex 1 R ([www.fsa.gov.uk/vhb/html/SUP/SUP20Annex1.html](http://www.fsa.gov.uk/vhb/html/SUP/SUP20Annex1.html)) contains the fee rules and may be used for detailed information on Fee-blocks. You will find further information at [www.fsa.gov.uk/fees](http://www.fsa.gov.uk/fees) .

### **Instructions for submission**

When completed, submit this application form by post to:

Variation of Permission ('VoPs') Team  
Regulatory Decisions Department  
The Financial Services Authority  
25 The North Colonnade  
Canary Wharf  
London E14 5HS

**If you are requesting multiple variations, for example adding more than one activity, please copy the relevant section for each change as appropriate. Please note that all questions marked with an asterisk (\*) are mandatory and must be answered.**

- 1 Contact Name for this application  \*
- 2 Contact's Details:
  - a Position in the firm  \*
  - b Daytime telephone number  \*
  - c E-mail address
  - d Individual reference number (IRN), if applicable
- 3 If you have a specific target date for a decision on this application enter it here:  /  /

We will attempt to process your application as quickly as possible and, if feasible, endeavour to meet this date. However, we have six months to consider an application once received and deemed complete (See SUP 6.3.35G).

**Change Client Money Requirement**

**Section Ba**

**Answer this question if you are requesting to hold or control client money or assets or to cease doing so, otherwise consider Section Bb.**

We (the FSA) require firms that hold and/or control client money or assets to follow the Client Assets Sourcebook (CASS). You should read and be aware of your obligations under CASS.

- A1 New Client Money Requirement (please tick one):
  - Hold and Control Client Money
  - Control but not hold Client Money
  - Not hold and not control Client Money
  - Hold and control client money in respect of non-investment insurance contracts (Insurance Mediation activities only)
- A2 If you are applying to cease to hold client money then you must include a report from your auditors confirming that you have done this and it has either been paid back to the clients concerned or transferred to another entity that is authorised to hold it.
- A3 What type of account will your firm use to hold Client Money? (please tick one)

- Statutory Trust
- Non Statutory Trust
- Risk Transfer
- Not Applicable (Please explain why below):

- |           |  | Yes                      | No                       | N/A                      |
|-----------|--|--------------------------|--------------------------|--------------------------|
| <b>A4</b> | Is the account held at an approved bank? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

If you have answered 'Not Applicable' or 'No', please explain why below:

- |           |  | Yes                      | No                       | N/A                      |
|-----------|--|--------------------------|--------------------------|--------------------------|
| <b>A5</b> | Does this bank meet the requirements imposed under CASS 4.3? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

If you have answered 'Not Applicable' or 'No', please explain why below:

- |           |  | Yes                      | No                       | N/A                      |
|-----------|--|--------------------------|--------------------------|--------------------------|
| <b>A6</b> | Have you read and understood the Client Money rules that you are required to abide by? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

If you have answered 'Not Applicable' or 'No', please explain why below:

**Answer this question if you are requesting to add a new requirement, otherwise consider Section Bc.**

Please select **either** a standard requirement from Appendix A (attached to this form), or enter a non-standard requirement. Please also explain why you would like the new requirement to be added.

**B1** Standard Requirement:

If applicable, please enter the reference number and short description of the requirement that is being applied for (see Appendix A):

Ref Number      Short description

Ref Number	Short description

**B2** Non-Standard Requirement **hererer:**

**B3** Please explain why you would like this new requirement to be added:

\*

## Change Requirement

## Section Bc

Answer this question if you are requesting a change to an existing requirement, otherwise consider Section Bd.

Please state the current requirement that you wish to change:

\*

**C1** Please detail the change to the above requirement:

\*

**C2** Please explain why you would like this requirement to be changed:

\*

## Delete Requirement

## Section Bd

Answer this question if you are requesting to delete an existing requirement, otherwise consider Section Be.

Please state the current requirement that you wish to delete:

\*

**D1** Please explain why you would like this requirement to be deleted:

\*

Answer this question if you are requesting regulated activities to be added to your permission, otherwise consider Section Bf.

Please select a new activity, its associated customer types and investment types, and explain why you would like the new activity to be added.

**E1** Please choose an Activity Category and an Activity

<b>Activity Category</b>	<b>Activities</b>	
<b>Insurance Business</b>	<input type="checkbox"/> <i>Effecting contracts of insurance</i>	<input type="checkbox"/> <i>Carrying out contracts of insurance</i>
<b>Accepting Deposits</b>	<input type="checkbox"/> <i>Accepting Deposits</i>	<input type="checkbox"/>
<b>Designated Investment Business</b>	<input type="checkbox"/> <i>Establishing, operating or winding up a regulated collective investment scheme</i>	<input type="checkbox"/> <i>Establishing, operating or winding up an un-regulated collective investment scheme</i>
	<input type="checkbox"/> <i>Acting as trustee of an authorised unit trust scheme</i>	<input type="checkbox"/> <i>Acting as the depository or sole director of an open-ended investment company</i>

Regulated mortgage contract

**Insurance Mediation**

Non-investment insurance contract

**E4** Please detail any limitation(s) you would like to add to this activity:

**E5** Please explain why you would like to add this activity:

\*

**Answer this question if you are requesting to delete an activity, otherwise consider Section Bg.**

Please state the activity and activity category that you wish to delete:

• Activity: \*

• Activity Category: \*

**F1** Please explain why you would like this activity to be deleted:

\*

**Answer this question if you are requesting to change a customer type, otherwise go to Section Bh.**

Please state the activity and activity category that you wish to change the customer type for:

- Activity: \*

- Activity Category: \*

Amendments to customer types may affect your exemption status under DISP 1.1.7R, Dispute Resolution: Complaints and COMP 13.3.1, Compensation: Funding. This is particularly relevant if you are adding or removing the customer type 'private'. Please ensure you notify your normal supervisory contact in writing of any changes to your status under this exemption that this variation of permission may cause.

**G1** Current Customer type(s) (please tick as appropriate):

All	<input type="checkbox"/>	Intermediate Customer	<input type="checkbox"/>	Market Counterparty	<input type="checkbox"/>
Private Customer	<input type="checkbox"/>	Retail Customer (insurance mediation only)	<input type="checkbox"/>	Commercial Customer (insurance mediation only)	<input type="checkbox"/>
Customer (regulated mortgages only)	<input type="checkbox"/>				

**G2** Please select your new customer types:

All	<input type="checkbox"/>	Intermediate Customer	<input type="checkbox"/>	Market Counterparty	<input type="checkbox"/>
Private Customer	<input type="checkbox"/>	Retail Customer (insurance mediation only)	<input type="checkbox"/>	Commercial Customer (insurance mediation only)	<input type="checkbox"/>
Customer (regulated mortgages only)	<input type="checkbox"/>				

**G3** Please explain why you wish to change the customer type:

**Answer this question if you are requesting to change/add/delete a limitation, otherwise consider Section Bi.**

Please state the activity and activity category that you wish to change the customer type for:

- Activity:  \*

- Activity Category:  \*

- New limitations - for each limitation, please enter the details of the new limitation in the box provided. (If you require more than one limitation to be added to this activity, please copy this sheet and attach to this application).

- Change/deletion of current limitations – please detail the limitation that you wish to change or delete. (If you require more than one limitation to be added to this activity, please copy this sheet and attach to this application.)

- Do you wish to:  Delete this limitation  
 Change this limitation (please detail the change below)

- Please explain why you would like this limitation to be changed:

 \*

Answer this question if you are requesting changes to investment types, otherwise go to Section C.

Please state the activity and activity category that you wish to change the customer type for:

Activity: \*

Activity Category: \*

Please select the current investment types and new investment types you wish to be associated with this activity:

	Current Inv Type	New Inv Type		Current Inv Type	New Inv Type		Current Inv Type	New Inv Type
Accident	<input type="checkbox"/>	<input type="checkbox"/>	Sickness	<input type="checkbox"/>	<input type="checkbox"/>	Land Vehicles	<input type="checkbox"/>	<input type="checkbox"/>
Railway rolling stock	<input type="checkbox"/>	<input type="checkbox"/>	Aircraft	<input type="checkbox"/>	<input type="checkbox"/>	Ships	<input type="checkbox"/>	<input type="checkbox"/>

\*

Varying your permission can generate a variation of permission application fee and vary your periodic fees.

If an application fee is due, you are required to pay the fee before your application is considered. **This fee is non-refundable. You will not be invoiced for the application fee.**

#### Fee Blocks

- A1 Deposit acceptors
- A1 E-money issuers only
- A2 Mortgage lenders and administrators
- A3 Firms conducting insurance activities subject only to prudential regulation
- A3 Friendly Societies
- A4 Firms conducting insurance activities subject to both prudential and conduct of business regulation
- A4 Friendly Societies
- A5 Managing agents at Lloyd's
- A6 The Society of Lloyd's
- A7 Fund managers
- A9 Operators, trustees and depositories of collective investment schemes (CIS)
- A10 Firms dealing as principal
- A12 Advisers, arrangers, dealers, brokers (holding and/or controlling client money and/or client assets)
- A13 Advisers, arrangers, dealers, brokers (NOT holding and/or controlling client money and/or client assets)
- A14 Corporate finance advisers
- A18 Mortgage lenders, advisers and arrangers
- A19 General Insurance mediation

4 Which fee block(s) are you currently in?

5 Which fee block(s) will your firm be in after the variation?

6 Application fee payable: (see Table 1.2 of the notes at front of application form for assistance)

£

**All application fees must be paid by cheque within 5 business days of the date this form is submitted. We can only consider your application once we have received your application fee as well as the form.**

Please make the cheque payable to The Financial Services Authority, with your firm reference number and name written on the back, and send it to us with the form.

7 I confirm that the firm is ready and willing to pay the application fee (please tick to confirm)

Adding certain regulated activities will require you to have certain approved persons to perform Controlled Functions. You must have identified these people and ensured that they are competent to undertake the required functions.

Similarly, removing some activities may require you to remove Controlled Functions.

You should consider this before continuing with your application. If you require further help with this please call the Approved Persons Helpline on 0207 066 0019 or e-mail [iva@fsa.gov.uk](mailto:iva@fsa.gov.uk). The Controlled Functions that relate directly to activities are:

<b>Regulated Activity</b>	<b>CF</b>	<b>Controlled Function</b>
Advising on investments (except pension transfers and pension opt-outs)	CF21	Investment adviser
There is no single activity that covers this function. Ceasing business will require you to remove these approved persons and commencing this business will require you to have this controlled function.	CF22	Investment adviser (trainee)
	CF23	Corporate Finance adviser
Advising on pension transfers and pension opt-outs	CF24	Pension transfer specialist
Advising on syndicate participation at Lloyd's	CF25	Advisor on syndicate participation at Lloyd's
Dealing in investments as agent	CF26	Customer trading
Managing investments	CF27	Investment management

**Controlled functions required** Yes No

Will the change require new approved persons or additional controlled functions for existing approved persons in relation to the application? See SUP 6.3.8G.

Yes No N/A

**8a** Have you submitted the required Approved Person 'Form A' application form?

**8b** If you have answered 'Not Applicable' or 'No', please explain why below:

**8c** Please provide the names of applicant(s) for the new controlled functions:

**Controlled functions no longer required** Yes No N/A

**9a** The changes that you have requested may result in current controlled functions no longer being required. The FSA will now remove the specific functions from the profiles of the relevant approved persons. Do you accept this?

**9b** If you have answered 'Not Applicable' or 'No', please explain why below:

**Person responsible for insurance intermediation**

Every firm that carries on insurance mediation business must appoint an approved person who will be responsible for insurance mediation at the firm. This responsibility must be allocated to a director or senior manager (or in the case of a sole trader, to himself) performing:

- a governing function; or
- the apportionment and oversight function; or
- the significant management (other business operations) function.

The person will appear on the FSA Register as the person responsible for insurance mediation at the firm, and any appointed representatives that carry on insurance mediation activity on behalf of the firm. The FSA Register is a public record of all authorised firms and appointed representatives and lists the main contact name for each firm. Note that responsibility for insurance mediation is not a controlled function. This means that an approved person application will not be required if an existing approved person will take on this responsibility.

**10** If applicable, what is the name of the individual that the firm has appointed to be responsible for insurance mediation?

Title

Forename

Surname

**Please consult the chapter of AUTH specified or other parts of the Handbook referred to and then confirm whether you can apply for the variation by answering the following questions. If you cannot confirm this then you must not continue with the application or commence new business.**

	Yes	No	N/A
<b>11</b> Applicants seeking to carry on insurance business: Do you comply with the provisions of AUTH 3.12?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

If you answer 'No' to this question, please contact your normal supervisory contact to discuss this.

	Yes	No	N/A
<b>12a</b> Applicants seeking to carry on the regulated activity or accepting deposits: Do you comply with the provisions of AUTH 3.13 in that the applicant, under threshold condition 1 (legal status), is a firm which is either a body corporate or a partnership?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**12b** If you have answered 'No', please explain why below:

	Yes	No	N/A
<b>13a</b> Applicants seeking to establish, operate or wind up a stakeholder pension scheme: Do you comply with the provisions of AUTH 3.16?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**13b** If you have answered 'No', please explain why below:

	Yes	No	N/A
<b>14a</b> Applicants seeking to establish a collective investment scheme or to act as a manager of a regulated collective investment scheme: Do you comply with the provisions of AUTH 3.17?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**14b** If you have answered 'No', please explain why below:

The threshold conditions represent the minimum conditions that a firm is required to satisfy, and continue to satisfy, to be given and to retain Part IV permission. The firm must satisfy the FSA that all of these conditions will continue to be met if the application is granted. Details of the various prudential categories are noted below. For any change in your prudential requirements, you need to be able to meet the requirements now. **Note: we may ask you for evidence in support of your answers.**

Media

**16** What is your firm's current prudential category?

**17** If the application is granted, what prudential category will your firm be in?

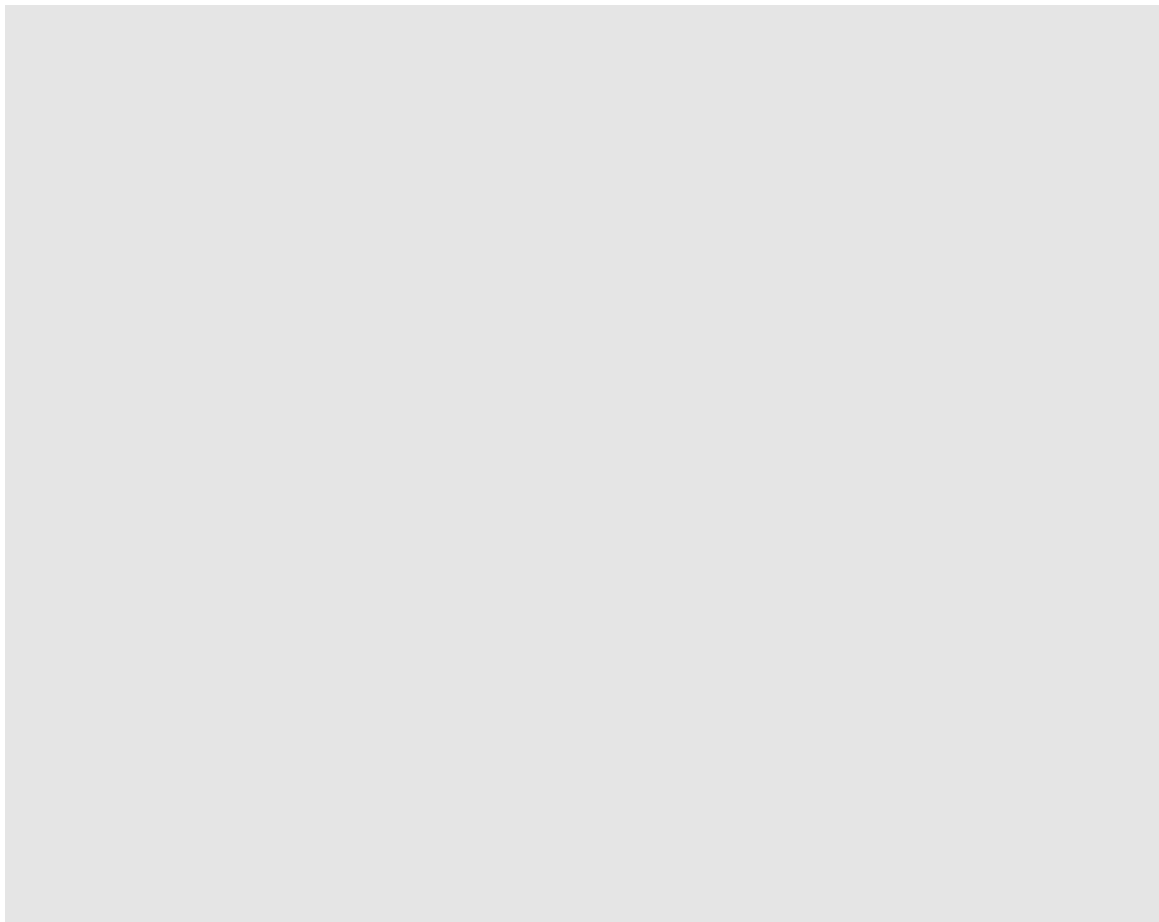

**18** Please detail the change in your financial requirements in the box below:

Yes No N/A

**19** Please confirm that your firm meets these new requirements:

The threshold conditions represent the minimum conditions that a firm is required to satisfy, and continue to satisfy, to be given and to retain Part IV permission. The firm must satisfy the FSA that all of these conditions will continue to be met if the application is granted.

- 20** If the Application is granted, enter in the box below how your firm will continue to meet the Systems and Controls required (see SYSC) – detail any enhancements you have made.

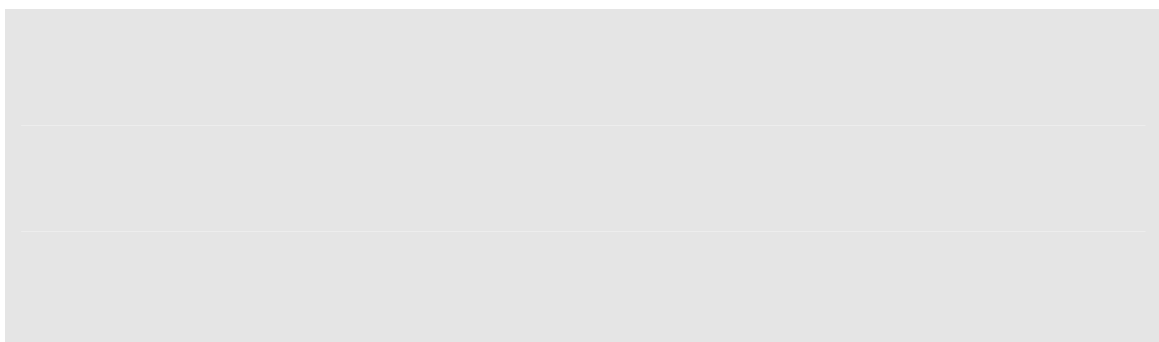

Yes    No    N/A

- 21a** Is your firm ready, willing and organised to comply with the relevant prudential, Conduct of Business and other regulatory requirements? See COND, especially 1.2.2G.

- 21b** If you have answered 'Not Applicable' or 'No', please explain why below:

If your firm is connected with a firm regulated outside the UK but within the European Economic Area (EEA), the FSA is required by s.49 of the Financial Services and Markets Act (FSMA) to consult with the appropriate EEA regulator.

Yes      No

**22** Is your firm connected with a firm regulated outside the United Kingdom but in the EEA?           

**23** If you have answered 'Yes', please enter each connection below

**23a**      Name of EEA Regulated Firm      Firm's main contact at EEA regulator      Name of EEA Regulator

Name of EEA Regulated Firm	Firm's main contact at EEA regulator	Name of EEA Regulator

Yes No N/A

**24** Is your firm **currently** an Authorised Professional Firm?  
(e.g. a firm of solicitors or accountants)

If you have answered 'yes', please complete the remainder of this section, otherwise continue to the next section.

**25** Please confirm that the current practice of your firm's profession (i.e. not including regulated activities) remains the main business of your firm.

**26a** If this variation of permission is approved, will you still be an Authorised Professional Firm as defined by the scale or nature of the activities that your firm seeks to carry on?

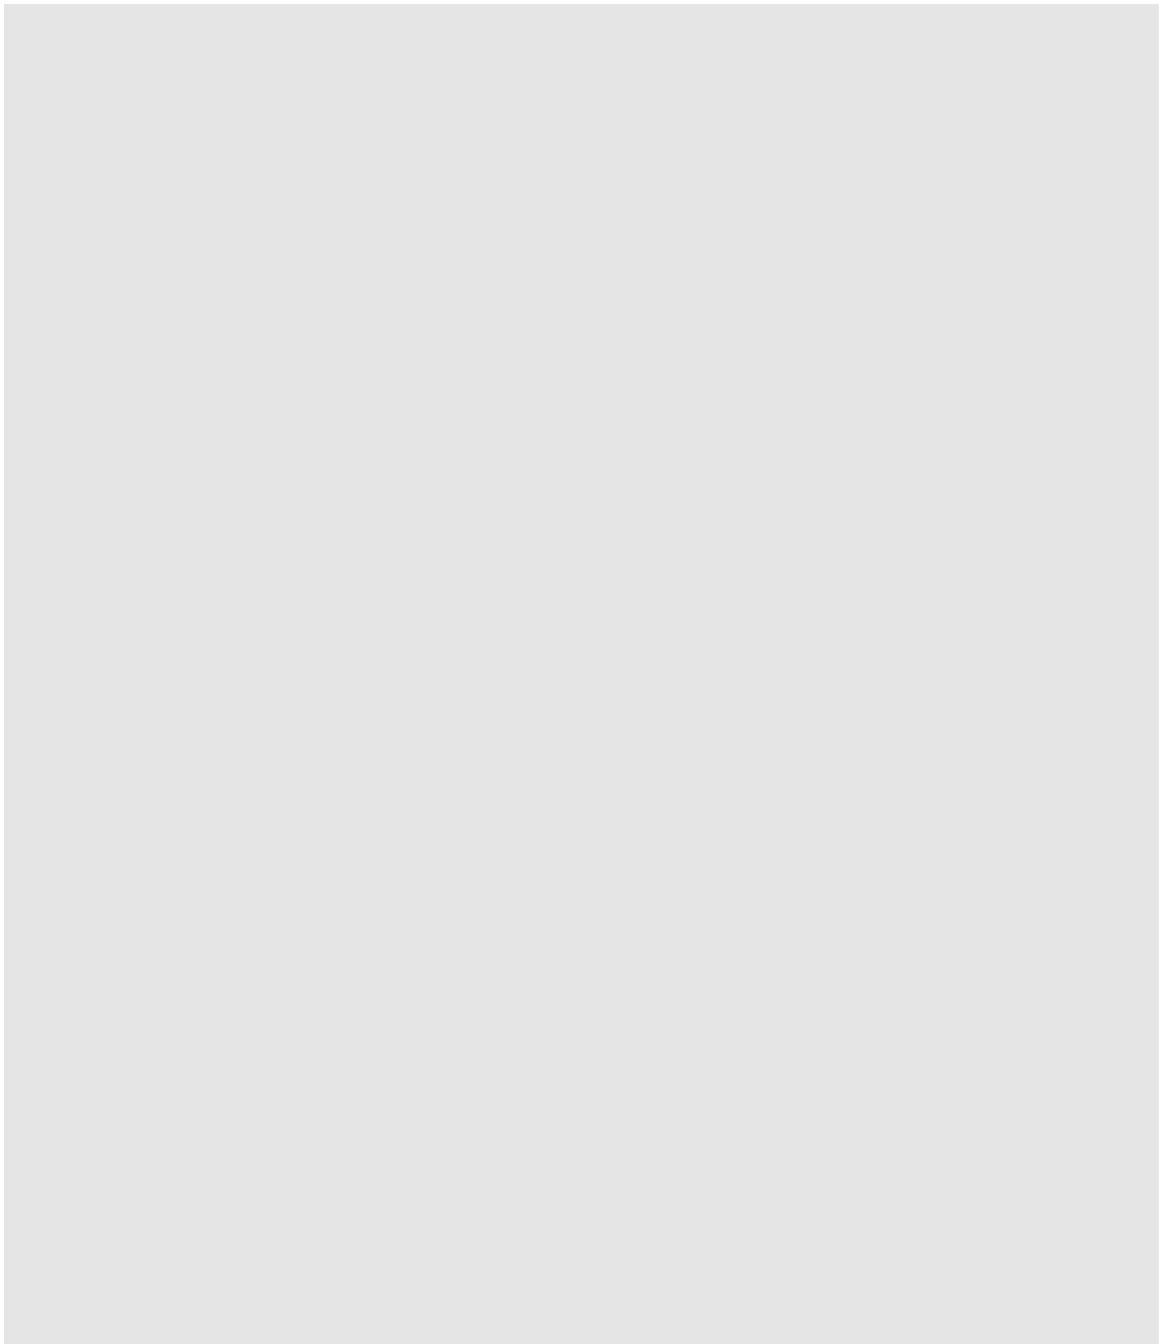

**26b** If no, do you confirm that you understand and will be able to comply with the new prudential requirements that will apply to your firm?

Please note that we are likely to contact you for further information and to discuss the firm's future status and Handbook obligations.

**26c** If you have answered 'No' to question 26b, please explain why below:

- 27 If there is any other information you think we should know when determining the application. Please enter it below or attach it as a document.

**Note that the FSA may ask you for additional information to support this application after you have submitted this form. For example, if you are undertaking insurance business or wish to start undertaking insurance business, you may later be asked to send a scheme of operation to support your application.**

### Warning

Knowingly or recklessly giving the FSA information, which is false or misleading in a material particular, may be a criminal offence (sections 398 and 400 of the Financial Services and Markets Act 2000). SUP 15.6.4R require an authorised person to take reasonable steps to ensure the accuracy and completeness of information given to the FSA and to notify the FSA immediately if materially inaccurate information has been provided. Contravention of these requirements may lead to disciplinary sanctions or other enforcement action by the FSA. It should not be assumed that information is known to the FSA just because it is in the public domain or has previously been disclosed to the FSA or another regulatory body. If you are not sure whether a piece of information is relevant, please include it anyway.

### Data Protection

For the purposes of complying with the Data Protection Act, the personal information in this form will be used by the Financial Services Authority to discharge its statutory functions under the Financial Services and Markets Act 2000 and other relevant legislation. It will not be disclosed for any other purposes without the permission of the applicant.

### Declaration

By submitting this application form

- I/we confirm that the information in this application is accurate and complete to the best of my/our knowledge and belief and that I/we have taken all reasonable steps to ensure that this is the case.
- I am/we are aware that it is a criminal offence knowingly or recklessly to give the FSA information that is false or misleading in a material particular.
- Some questions do not require supporting evidence. However, the records, which demonstrate the applicant firm's compliance with the rules in relation to the questions, must be available to the FSA on request.
- I/we will notify the FSA immediately if there is a significant change to the information given in the application pack. If I/we fail to do so, this may result in a delay in the application process or enforcement action.

34	No sales to pvte cstmers thru tied sales force	Firm is required to ensure that sales to Private Customers are not carried out through a tied sales force
35	Requirement to comply with IPRU (INV) 5	Requirement to comply with IPRU (INV) 5
36	Private customers for regulated CIS only	The firm may only conduct regulated activities for private customers which are regulated collective investment schemes.
37	No split capital investment trust business	The firm must not transact any Split Capital Investment Trust Business
38	EIS mktng not through tied sales force	The Firm is required to ensure that Enterprise Investment Scheme marketing to Private Customers is not to take place through a tied sales force.

The attached form or its online equivalent (if any) is the form detailed in Annex B for SUP 6 Ann 6D: Cancellation of permission application form

# Cancellation of Part IV Permission - Application Form

(September 2004)

Firm name

("The Firm")

FSA reference number

Address

**(Please return form to:)**

The Financial Services Authority  
Cancellations Team  
Regulatory Decisions Department  
25 The North Colonnade  
Canary Wharf  
London E14 5HS  
United Kingdom

Telephone +44 (0) 20 7066 1000

Facsimile +44 (0) 20 7066 1099

Registered as a Limited Company in England and Wales No 1920623. Registered Office as above.

## NOTES

Please note that before completing this form to cancel all of your firm's regulated activities, you may find it helpful to discuss your proposed application with your usual supervisory contact at the FSA.

You should ensure that all relevant information and confirmations are included in the form. If not, your application will be delayed whilst we seek the outstanding information and/or confirmations. Ultimately your application will be refused if the outstanding information and/or confirmations are not provided.

For more complex applications e.g. involving banks or insurance companies, we may request some additional information, in which case we will send a separate schedule.

**N.B.** an inwardly passporting EEA firm that is applying to cancel a top-up permission should only deal with matters in relation to that top-up permission in this form.

If you want to cancel some but not all of the regulated activities of your firm's permission then you should use the relevant Variation of Permission form to vary your firm's permission. Where a firm may require a long period in which to wind down (run off) its business, it is usually appropriate for the firm to apply to vary its permission before commencing the wind down. Please contact your normal supervisory contact to discuss your options.

To enable the FSA to process this application for the cancellation of your firm's Part IV permission, i.e. of all of its regulated activities, your firm should have taken the appropriate steps and be able to answer YES to each question below.

	Yes	No
• Have you notified all your firm's clients of its intention to cancel its permission and how this will affect them? (See SUP 6.4.11)	<input type="checkbox"/>	<input type="checkbox"/>
• Are your firm's fees paid up to date? (See SUP 6.4.22)	<input type="checkbox"/>	<input type="checkbox"/>
• Have all of your firm's regulatory returns been submitted up to date? (See SUP 6.4.9 & 16)	<input type="checkbox"/>	<input type="checkbox"/>
• Have you already informed your firm's approved persons of this application for cancellation?	<input type="checkbox"/>	<input type="checkbox"/>
• Can you confirm that there are no unsatisfied or undischarged complaints against the firm that have not been fully dealt with in accordance with your firm's complaints procedures? (See SUP 6.4.10 & 22)	<input type="checkbox"/>	<input type="checkbox"/>
• If your firm's carrying on of regulated activities has not already ceased, will your firm cease to do so within the next 6 months? (See SUP 6.4.3)	<input type="checkbox"/>	<input type="checkbox"/>
If you and the firm are not able to answer YES to all the questions above, you should NOT be making this application.		

**Personal Details**

**Section A**

- 1 Contact Name for this application \*
  
- 2 Contact's Details:
  - a Position in the firm \*
  - b Daytime telephone number \*
  - c E-mail address
  - d Individual reference number (IRN), if applicable

\* Denotes a mandatory field

**Application Details Part 1**

**Section B1**

3 On behalf of The Firm, I/we, the undersigned, hereby apply to cancel the Firm's Part IV permission and declare that:

The firm has ceased conducting all regulated activities from:     /     /

**OR**

The firm will cease conducting all regulated activities from:     /     /

Please note that all regulated activities must cease no later than six months from the date of any application to cancel Part IV permissions (see SUP 6.4.3 G).

If you do not intend to cease regulated activities within the next six months, you should NOT apply at this stage.

4 What are your firm's reason(s) for cancellation (please tick as appropriate):

- (a) Ceased to carry on regulated activities
- (b) Proposing only to be authorised through:
  - Association of Chartered Certified Accountants
  - Institute of Chartered Accountants in England and Wales
  - Institute of Chartered Accountants in Scotland
  - Law Society
  - Law Society of Scotland
- (c) Business transferred to another regulated firm
- (d) Joining a network
- (e) Merging with another regulated firm
- (f) To become an appointed representative of another regulated firm
- (g) Firm never carried on regulated activities
- (h) Non-availability of professional indemnity insurance cover
- (i) Cost of professional indemnity insurance cover
- (j) Other (please provide details)

- Yes    No
- 5 Is there any information, relating to the withdrawal of individual approved persons performing controlled functions, of which the FSA should be aware?

Please provide details:

- 6 **Does your firm hold or control client money or assets?**    
 We may ask you for an auditor's report. Please refer to SUP 6.4.15G, 6.4.16G and 6.4.17G.  
 All client money/client deposits/discharged custody assets and any other property belonging to clients must be repaid before cancellation can proceed. Please refer to SUP 6.2.22 (2)G.

- 7 **Are any of your firm's clients being transferred to another firm that is regulated by the FSA?**

7a If 'Yes', number of firms to whom business is being transferred \_\_\_\_\_

Please complete Section B2a for each firm to whom business is being transferred.

(If there is more than one transferee firm, please copy this page and attach to the form)

- Name of firm to which business is being transferred  \*
- a) On what date do you propose to transfer this business?  /  /  \*
- Yes  No
- b) Is this firm currently authorised?
- (If not, it must be authorised before the transfer takes place. You can find out whether a firm is authorised by checking the FSA Register on our website))
- If yes, please enter its FSA reference number
- c) Address of Firm
- d) If no, please enter the date on which it is expected to become authorised  /  /
- e) Principal compliance contact at firm  \*

\* Denotes a mandatory field

- | 8 | Does your firm:   | Yes                      | No                       |
|---|---|--------------------------|--------------------------|
|   | (i) undertake corporate finance business;               | <input type="checkbox"/> | <input type="checkbox"/> |
|   | (ii) have any investment agreements;                    | <input type="checkbox"/> | <input type="checkbox"/> |
|   | (iii) manage any Collective Investment Schemes;         | <input type="checkbox"/> | <input type="checkbox"/> |
|   | (iv) have any outstanding subordinated loan agreements? | <input type="checkbox"/> | <input type="checkbox"/> |

If you answer yes to any of the above, by signing this Form you will be declaring that, by the date of cancellation, in respect of:

Q8 (i) all mandates have been or will be transferred;

Q8 (ii) your firm has terminated or will be terminating all agreements;

Q8 (iii) schemes managed by the firm have been or will be wound up; and

Q8 (iv) all such loan agreements have been or will be terminated (See SUP 6 Annex 4 G: table 3)

---

**9 a) Pensions: Selling or advising between 29 April 1988 and 30 June 1994**

Tick as appropriate:

The firm did not undertake the business of pension selling or advising between 29 April 1988 and 30 June 1994.

The firm did undertake the business of pension selling or advising between 29 April 1988 and 30 June 1994 and has completed its review as specified by the rules and guidance issued by the PIA and the FSA.

The firm did undertake the business of pension selling or advising between 29 April 1988 and 30 June 1994 and has not completed its review (as specified by the rules and guidance issued by the PIA and the FSA) and has therefore been in contact with the FSA and carried out all the actions required.

**b) Free Standing Voluntary Contributions ('FSAVCs'): Advising or arranging between 29 April 1988 and 15 August 1999.**

Tick as appropriate:

The firm did not undertake the business of advising or arranging FSAVCs between 29 April 1988 and 15 August 1999.

The firm did undertake the business of advising or arranging FSAVCs between 29 April 1988 and 15 August 1999 and has completed its review as specified by the rules and guidance issued by the PIA and the FSA.

The firm did undertake the business of advising or arranging FSAVCs between 29 April 1988 and 15 August 1999 and has not completed its review (as specified by the rules and guidance issued by the PIA and the FSA) and has therefore been in contact with the FSA and carried out all the actions required.

**Note: Please only apply to cancel once the resolution of all Pension review and/or FSAVC review issues are near completion.**

### Warning

Knowingly or recklessly giving the FSA information, which is false or misleading in a material particular, may be a criminal offence (sections 398 and 400 of the Financial Services and Markets Act 2000). SUP 15.6.4R requires an authorised person to take reasonable steps to ensure the accuracy and completeness of information given to the FSA and to notify the FSA immediately if materially inaccurate information has been provided. Contravention of these requirements may lead to disciplinary sanctions or other enforcement action by the FSA. It should not be assumed that information is known to the FSA merely because it is in the public domain or has previously been disclosed to the FSA or another regulatory body. If you are not sure whether a piece of information is relevant, please include it anyway.

### Data Protection

For the purposes of complying with the Data Protection Act, the personal information in this form will be used by the Financial Services Authority to discharge its statutory functions under the Financial Services and Markets Act 2000 and other relevant legislation. It will not be disclosed for any other purposes without the permission of the applicant.

### Declaration

By signing this application form

- I/we confirm that this information is accurate and complete to the best of my knowledge and belief.
- I am/we are aware that it is a criminal offence knowingly or recklessly to give the FSA information that is false or misleading in a material particular.
- Some questions do not require supporting evidence. However, the records, which demonstrate the applicant firm's compliance with the rules in relation to the questions, must be available to the FSA on request.
- I/we will notify the FSA immediately if there is a significant change to the information given in the form. If I/we fail to do so, this may result in a delay in the application process or enforcement action.

(e) Firm Association Branch  (f) IVAD Contact Address

(g) Professional Advisor

Please enter the new address details:

2 Address

\*

Postcode:

3 Telephone number.

\*

4 Fax Number

5 Email address

6 Please enter the date on which the change becomes effective.

/ / \*

## Change of Accounting Reference Date

## Section F

1 Please enter the following details to change your accounting reference date:

(a) Current Accounting Reference Date (dd/mm)  \*

(b) New Accounting Reference Date (dd/mm)  \*

2 What accounting periods will result from the change? The new accounting reference date that you have entered could result in several different periods depending on whether you want to extend or reduce your periods and which period is the first period affected.

Although the FSA may accept accounting periods of up to 18 months, SUP 16.3.18G advises firms that accounting periods longer than 15 months may be deemed unacceptable as this may hinder the timely provision of relevant and important information to the FSA. If a firm wishes to have an accounting period of longer than 18 months (sole traders and certain partnerships), the firm must apply to the FSA in writing.

Please detail the start and end dates for the current accounting period and the two following periods below:

(a) Current Period  \*

(b) Next Period  \*

(c) Next Period 2  \*

**Note the change that you have requested will result in a change to your reporting timetable.**

3 I confirm the change requested above and that it is correctly represented by the accounting periods listed.

## Change of Website Address

## Section G

Please enter the new website address:

1 Website (format – www.fsa.gov.uk):

## Change Auditor Details

## Section H1

Please enter the following details to change your Auditor's details:

1 Firm name  \*

2 Address

Grey rectangular input field with an asterisk (\*) in the top right corner. The text "Postcode:" is centered near the bottom.

3 Telephone number.

Grey rectangular input field with an asterisk (\*) in the top right corner.

4 Fax Number

Grey rectangular input field.

5 Email address

Grey rectangular input field.

6 Effective date

Grey rectangular input field with pre-filled slashes (/ /) and an asterisk (\*) in the top right corner.

**Change Locum Details** **Section H2**

For details of the FSA’s requirements for locum arrangements, see AUTH 3.9.10(2)G.  
Please enter the following details to change your Locum’s details:

1 Title

Grey rectangular input field.

2 Forename(s)

Grey rectangular input field.

3 Surname

Grey rectangular input field.

Grey rectangular input field with an asterisk (\*) in the top right corner. The text "Postcode:" is centered near the bottom.

6 Telephone number.

Grey rectangular input field with an asterisk (\*) in the top right corner.

7 Fax Number

8 Email address

6 Effective date

**Warning**

Knowingly or recklessly giving the FSA information, which is false or misleading in a material particular, may be a criminal offence (sections 398 and 400 of the Financial Services and Markets Act 2000). SUP 15.6.4R requires an authorised person to take reasonable steps to ensure the accuracy and completeness of information given to the FSA and to notify the FSA immediately if materially inaccurate information has been provided. Contravention of these requirements may lead to disciplinary sanctions or other enforcement action by the FSA. It should not be assumed that information is known to the FSA merely because it is in the public domain or has previously been disclosed to the FSA or another regulatory body. If you are not sure whether a piece of information is relevant, please include it anyway.

**Data Protection**

For the purposes of complying with the Data Protection Act, the personal information in this form will be used by the Financial Services Authority to discharge its statutory functions under the Financial Services and Markets Act 2000 and other relevant legislation. It will not be disclosed for any other purposes without the permission of the applicant.

**Declaration**

By submitting this application form

- I/we confirm that the information contained in this form is accurate and complete to the best of my knowledge and belief and that I have taken all reasonable steps to ensure that this is the case.
- I am/we are aware that it is a criminal offence knowingly or recklessly to give the FSA information that is false or misleading in a material particular.
- I/we confirm that, for those questions that do not require supporting evidence, the records which demonstrate the firm's compliance with the rules in relation to the questions will be available to the FSA on request.
- I/we will notify the FSA immediately if there is a significant change to the information given in the form. If I/we fail to do so, this may result in enforcement action.

1 Contact Name for this form \*

2 Contact's Details:

a Position in the firm \*

b Daytime telephone number \*

c E-mail address [please complete where possible]

d Individual reference number (IRN), if applicable

There are circumstances where a firm must disclose information to the FSA in a timely manner including:

- where a particular rule has been breached;
- where it fails to satisfy a threshold condition;
- where a matter occurs which could have a significant adverse impact on a firm, including its ability to provide adequate services to a customer; and
- where a particular notifiable event may have occurred

A consolidated summary of some of the notification rules is in the FSA Handbook, Schedule 2 of the Supervision Manual (SUP). Also Principles for Businesses (No 11) requires a firm to disclose appropriately any information of which the FSA would reasonable expect notice. Other notification requirements are listed in Schedule 2 of many of the other FSA Manuals within the Handbook. This form allows you to make any of these notifications.

3 To help us process your notification efficiently, please select one or more of the categories below by ticking the appropriate box and then giving details in Section 4:

**Finance/capital issues**

For example:

- breach of capital requirements;
- excess in allowed large exposures requirements;
- qualification in audited annual accounts (financial issue);
- insolvency, bankruptcy or winding up; and
- company to be struck off by Companies House.

<b>Client money issues</b>	<input type="checkbox"/>
For example: <ul style="list-style-type: none"> <li>• negative client money account; and</li> <li>• notifiable issue in client assets report.</li> </ul>	
<b>Professional indemnity insurance (PII) cover</b>	<input type="checkbox"/>
For example: <ul style="list-style-type: none"> <li>• cover not renewed;</li> <li>• cover exhausted; and</li> <li>• cover does not meet FSA requirements.</li> </ul>	
<b>Complaints, including a decision not to pay a FOS award</b>	<input type="checkbox"/>
<ul style="list-style-type: none"> <li>• Any complaints received that could have a significant impact on a firm's financial resources</li> <li>• A decision not to pay a Financial Ombudsman Service (FOS) award.</li> <li>• A firm's inability to pay a consumer</li> </ul>	
<b>Fraud, error or other irregularities</b>	<input type="checkbox"/>
For example: <ul style="list-style-type: none"> <li>• fraud on the firm (actual or attempted);</li> <li>• fraud by staff (actual or attempted); and</li> <li>• money laundering issues.</li> </ul>	
<b>Litigation/disciplinary issues, including civil, criminal or disciplinary proceedings against the firm or any of its representatives.</b>	<input type="checkbox"/>
<b>Other rules breaches (not included above).</b>	<input type="checkbox"/>
<b>Other notification requirements (not relating to a rule breach).</b>	<input type="checkbox"/>

This form does not cover

- changes to standing data (e.g. change of firm name, address, contact details, website, auditor, accounting reference date). These changes need to be made via the FSA Standing data form; or
- whistle blowing (i.e. revealing a suspected wrongdoing in an organisation). In these circumstances you should email [whistle@fsa.gov.uk](mailto:whistle@fsa.gov.uk), write in or phone us (020 7066 9200). Please see our website for more details <http://www.fsa.gov.uk/whistle/>

Yes No

4 Has the Notifiable event occurred?

4a If selected 'Yes', what date did the event occur (record last applicable date)?  /  /

4b If selected 'No', what is the probability of the event occurring?

5 If this notification is about a specific rule, threshold condition and/or principle, please record its reference if known:

6 What are the details of the notification?

7 What (if any) is the impact of the notification?

Yes No N/A

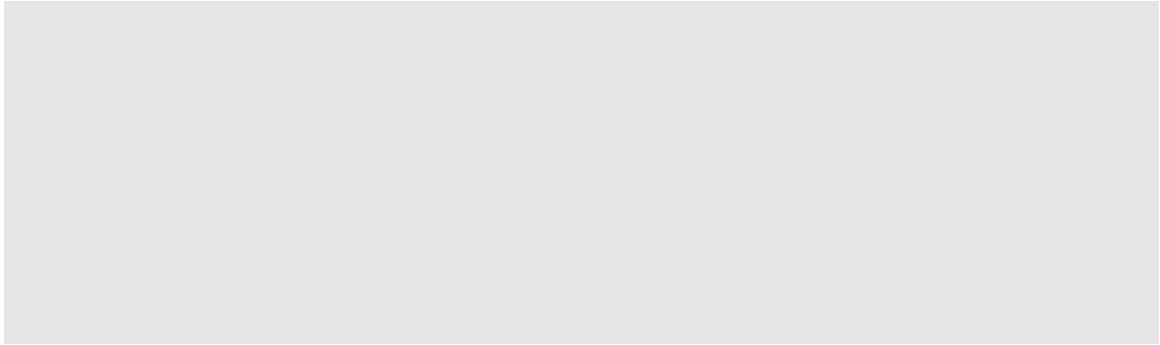

8 If relevant, have you resolved the issue?

8a If answered 'Yes'. When did you resolve the issue (end date)?

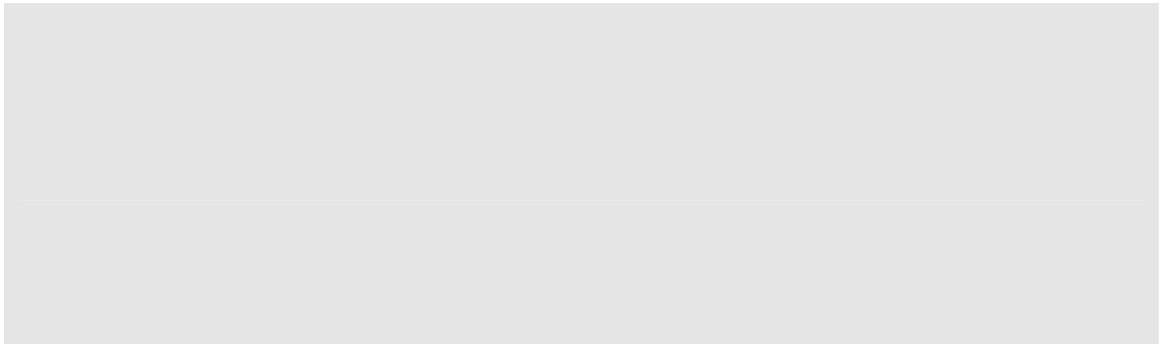

/ /

How was the issue resolved?

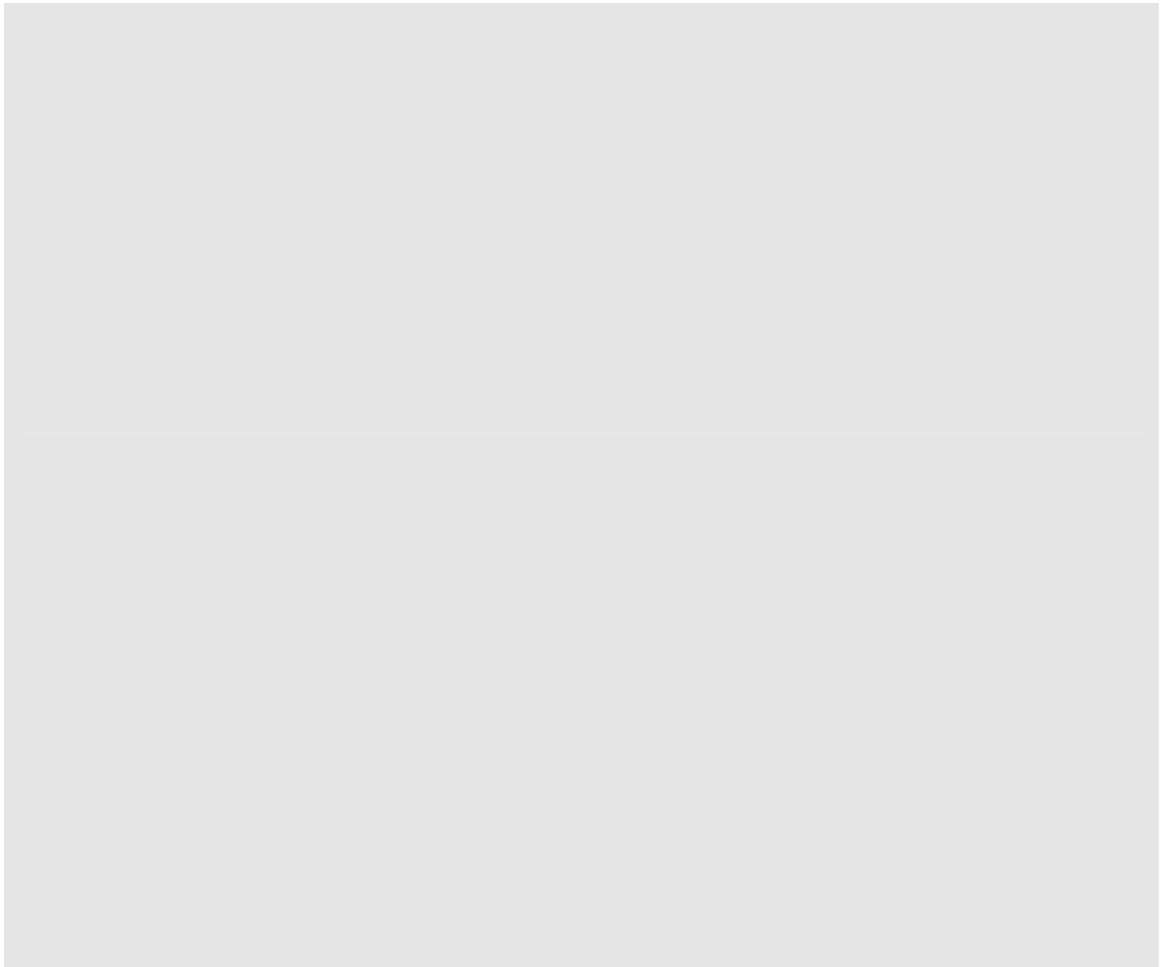

**8b** If answered 'No', what action (if any) will you be taking?

**8c** If answered 'Not applicable', please explain why below:

**9** If you have any additional information to add to this form, please enter it below or attach it as a document.

**Warning**

Knowingly or recklessly giving the FSA information, which is false or misleading in a material particular, may be a criminal offence (sections 398 and 400 of the Financial Services and Markets Act 2000). SUP 15.6.4R requires an authorised person to take reasonable steps to ensure the accuracy and completeness of information given to the FSA and to notify the FSA immediately if materially inaccurate information has been provided. Contravention of these requirements may lead to disciplinary sanctions or other enforcement action by the FSA. It should not be assumed that information is known to the FSA merely because it is in the public domain or has previously been disclosed to the FSA or another regulatory body. If you are not sure whether a piece of information is relevant, please include it anyway.

**Data Protection**

For the purposes of complying with the Data Protection Act, the personal information in this form will be used by the Financial Services Authority to discharge its statutory functions under the Financial Services and Markets Act 2000 and other relevant legislation. It will not be disclosed for any other purposes without the permission of the applicant.

**Declaration**

By submitting this application form

- I/we confirm that this information is accurate and complete to the best of my knowledge and belief and that I have taken all reasonable steps to ensure that this is the case.
- I/we am aware that it is a criminal offence knowingly or recklessly to give the FSA information that is false or misleading in a material particular.
- Some questions do not require supporting evidence. However, the records, which demonstrate the applicant firm's compliance with the rules in relation to the questions, must be available to the FSA on request.
- I/we will notify the FSA immediately if there is a significant change to the information given in the form. If I/we fail to do so, this may result in a delay in the application process or enforcement action.

## INTEGRATED REGULATORY REPORTING INSTRUMENT 2004

### **Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) section 138 (General rule-making power);
  - (2) section 156 (General supplementary powers); and
  - (3) section 157(1) (Guidance).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

### **Commencement**

- C. This instrument comes into force on 1 April 2005.

### **Amendments to the Supervision Manual (Reporting and Audit Requirements) Instrument 2004 (FSA 2004/29)**

- D. The commencement of certain provisions introduced by the Supervision Manual (Reporting and Audit Requirements) Instrument 2004 (FSA 2004/29) is suspended until the Financial Services Authority by subsequent instrument provides for the commencement of these provisions. The affected amendments are set out in Annex A to this instrument.

### **Amendments to the Electronic Reporting Requirements and Standing Data Instrument 2004 (FSA 2004/30)**

- E. The commencement of certain provisions introduced by the Electronic Reporting Requirements and Standing Data Instrument 2004 (FSA 2004/30) is suspended until the Financial Services Authority by subsequent instrument provides for the commencement of these provisions. The affected provisions are set out in Annex B to this instrument.

### **Amendments to the Supervision manual**

- F. The Supervision manual is amended in accordance with Annex C to this instrument.

### **Amendments to the Dispute resolution: Complaints sourcebook**

- G. The Dispute resolution: Complaints sourcebook is amended in accordance with Annex D to this instrument.

### **Citation**

- H. This instrument may be cited as the Integrated Regulatory Reporting Instrument 2004.

By order of the Board  
20 October 2004

**Annex A**  
**Amendments to the Supervision Manual (Reporting and Audit Requirements)**  
**Instrument 2004 (FSA 2004/29)**

The commencement of the following provisions made in Part 3 of Annex A of the Supervision Manual (Reporting and Audit Requirements) Instrument 2004 (FSA 2004/29) is suspended until the Financial Services Authority by subsequent instrument provides for the commencement of these provisions.

The provisions whose commencement is suspended are:

1. *SUP 16.1.3 R*: insertion into the table of:

...		
<i>SUP 16.7</i>	....	
	<i>Insurer</i> <i>Friendly society</i>	<i>SUP 16.7.73 R to SUP 16.7.75 R</i>
	...	

2. *SUP 16.7.2 G*: amendments made to this guidance

3. *SUP 16.7.5 G*: insertion into the table of:

...	
<i>Insurer</i> <i>Friendly society</i>	<i>SUP 16.7.73 R to SUP 16.7.75 R</i>
...	

4. Amendments made to:

- a. *SUP 16.7.8 R*
- b. *SUP 16.7.10 R*
- c. *SUP 16.7.12 R*
- d. *SUP 16.7.17 R*
- e. *SUP 16.7.21 R*
- f. *SUP 16.7.25 R*
- g. *SUP 16.7.27 R*
- h. *SUP 16.7.29 R*

- i. *SUP* 16.7.33 R
  - j. *SUP* 16.7.36 R
  - k. *SUP* 16.7.58 R
  - l. *SUP* 16.7.63 R
  - m. *SUP* 16.7.63A G
  - n. *SUP* 16.7.66 R
5. Insertion of the following new provisions:
- a. *SUP* 16.7.73 R
  - b. *SUP* 16.7.74 R
  - c. *SUP* 16.7.75 R

## Annex B

### Amendments to the Electronic Reporting Requirements and Standing Data Instrument 2004 (FSA 2004/30)

The commencement of the following provisions introduced by the Electronic Reporting Requirements and Standing Data Instrument 2004 (FSA 2004/30) is suspended until the Financial Services Authority by subsequent instrument provides for the commencement of these provisions.

The provisions whose commencement is suspended are:

1. *SUP* 16.10.4 R (2)
2. The following provisions of *SUP* 16 Annex 16R
  3. Country of incorporation
  11. Whether the *firm* is an "*ISD investment firm*"
  12. *Firm* types
  13. *Passported activities*
3. All of *SUP* 16 Annex 17R

## Annex C

### Amendments to the Supervision manual

In this Annex underlining indicates new text and striking through indicates deleted text.

#### Part 1: Amendments to SUP Transitional Provisions

**SECTION E: PII Self-Certification**

Is the firm exempt from the PII requirements in respect of any regulated activities? (tick as appropriate)

Mortgage advising/arranging	Non-inv insurance advising/arranging/dealing/assisting	Retail investment advising/arranging
RR0358	RR0359	RR0360

If not exempt, has the firm renewed its PII cover since the last reporting date?

RR0362	RR0363	RR0364
--------	--------	--------

Have any of the data items below changed since the last reporting date (or since you last notified the FSA of any changes)?

RR0366	RR0367	RR0368
--------	--------	--------

If any of the data items have changed, Please complete amend the following fields section as appropriate, in relation to each applicable PII policy:

What activities are covered by the policy?

Mortgage advising/arranging	RR0371
Non-inv insurance advising/arranging/dealing/assisting	RR0372
Retail investment advising/arranging	RR0373
Is the cover compliant?	RR0374
Annual premium	RR0375
Limit of Indemnity - single claim/aggregate	RR0376
Policy excess	RR0377
Increased excess(es) for specific business types	RR0378
Policy exclusion(s) for specific business types	RR0379
Renewal date	RR0380
Insurer name	RR0381

Amount of additional capital required for increased excess(es) (where applicable, total amount for all PII policies)

RR0383

**Personal investment firms only:**

Total amount of additional own funds required for policy exclusion(s)

RR0384

Total of additional own funds required

RR0386

Total of readily realisable own funds

RR0387

Excess/deficit of readily realisable own funds

RR0388

Y/N

Does the firm have any other PII policies?

RR0389

## SECTION F: Threshold conditions

### Adequate resources

Does the firm have adequate resources in relation to its regulated activities?

RR0392

### Close links

Are you exempt from close links reporting requirements?

RR0394

If not, have there been changes to your close links since the FSA was last informed?

RR0395

If yes, on what date did the changes take effect?  
(if no notification has been made, please notify us separately of the changes)

RR0396

### Approved persons

Have there been changes to your approved persons' details since the FSA was last informed?

RR0398

If yes, on what date did the changes take effect?  
(if no notification has been made, please notify us separately of the changes)

RR0399

### Controllers

Are you exempt from the controllers reporting requirements?

RR0401

If not, have there been changes to your controllers or to the percentage of shares or voting power in the firm held by any of them since the FSA was last informed?

RR0402

If yes, on what date did the changes take effect?  
(if no notification has been made, please notify us separately of the changes)

RR0403

**SECTION G: Training and Competence**

	Mortgages		Advising on non-investment insurance (retail customers)	Retail investments		Total
	advising	arranging		advising	arranging	
Total number of all staff						RR0405
Of which:						
Number of staff that give advice	RR0407		RR0408		RR0409	RR0410
<u>Number of staff that give advice (Full time equivalent)</u>						RR410a

SUP 16 Ann 18B G Notes for completion of the Retail Mediation Activities Return ('RMAR')

...

Introduction: general notes on the RMAR

...

Application of RMAR sections

6 ...

(c) *firms* (defined as *retail investment firms*) that have *private customers*, and have *permission* to carry on the following activities in relation to *retail investments*:

- *Advising on investments*;
  - *Arranging (bringing about) deals in investments*;
  - *Making arrangements with a view to transactions in investments*;
- and

(d) *personal investment firms*.

...

7 ~~Many of the *firms* conducting the above *regulated activities* also have the *permission* to carry on other *regulated activities*, including for example *mortgage lending and administration*, *managing investments* or *dealing in investments as agent*. These *firms* are required to complete the RMAR in addition to other data requirements.~~

Firms conducting *mortgage lending* or *mortgage administration* (including those that carry on an activity that is treated as *arranging in COB* - see *MCOB 1.2.12*) that also conduct the above activities are required to complete the *RMAR* in addition to other data requirements.

8 ~~However, not all *firms* are required to complete all sections of the RMAR. Certain data requirements will be duplicated because of the separate reporting requirements imposed in relation to other *regulated activities*. Broadly, a *firm* that has the *permission* to carry on other *regulated activities* will not be subject to our proposed data requirements for financial reporting (RMAR sections A, B, C, D & E) or *threshold conditions* (section F), as we would expect to be collecting similar information as part of the data requirements for these other activities. For details, see *SUP 16.7*.~~

However, these *firms* are not required to complete all sections of the *RMAR*. Certain data requirements will be de-duplicated because of the separate reporting requirements imposed in relation to other regulated activities in the form of the *MLAR*. Broadly, a *firm* that has the *permission* to carry on *mortgage lending* or *mortgage administration activities* will not be subject to our proposed data requirements for financial reporting in the *RMAR* (*RMAR*

sections A, B, C, D & E). For details, see *SUP 16.7*.

EEA Firms

9 In accordance with the relevant directives, ... The same applies to *incoming EEA firms* providing *cross border services* only, pursuant to the *ISD*.

...

NOTES FOR COMPLETION OF THE RMAR

...

Section C: Client money and assets

...

Note 3: firms should complete all applicable fields.

Section C: guide for completion of individual fields

...	
Client money credit total as at reporting date	This should be the total of credits on the <i>firm's client money</i> account(s) as at the current date of return. <u>These should be taken from the <i>firm's</i> ledgers.</u>
Client money debit total as at reporting date	This should be the total of any debits on the <i>firm's client money</i> account(s) as at the current date of return. <u>These should be taken from the <i>firm's</i> ledgers.</u>
Net client money balance as at reporting date	This should be the aggregate balance on the <i>firm's client money</i> account(s). ( <del>The reporting of this figure should not be taken to mean that firms are permitted to offset an overdrawn client bank account against one that is in credit.</del> )
...	

...

Section D: Regulatory Capital

'Higher of' requirements

...

(iii) other *personal investment firms*, and *firms* that are subject to *PRU*, but are also subject to *IPRU(INV)* or *CRED* (see below). These additional capital

requirements are not calculated as part of the RMAR.

...

Section D1: guide for completion of individual fields

...	
Eligible capital (mortgage and non-investment insurance)	
Incorporated firms	
Share capital	<del>As reported in section A</del> <u>Share capital in section A which is eligible for inclusion as regulatory capital</u>
Audited reserves	These are the audited accumulated profits retained by the <i>firm</i> ... Reserves also include gifts of capital, for example, from a <i>parent undertaking</i> . <del>If Any</del> <u>reserves that have not been audited this field should not be zero included.</u>
Interim net profits (audited)	Interim net profits should be audited by the <i>firm's</i> external auditor, net of tax or anticipated dividends and other appropriations <u>to be included as capital</u> . <del>Normally this will mean that they form a proportion of the firm's P&amp;L account in field BS24, but if no audit has been undertaken during the reporting period it should be a nil return.</del>
...	
<b>Less</b> interim net losses	<del>Interim net losses should be calculated in relation to the period following the date at which the capital resources are being calculated</del> <u>reported where they have not already been incorporated into audited reserves.</u> The figures do not have to be audited to be included.
Unincorporated firms	
...	
<b>Less</b> interim net losses	<del>Interim net losses should be calculated in relation to the period following the date as at which the capital resources are being calculated</del> <u>reported where they have not already been incorporated.</u> The figures do not have to be audited to be included.
...	..

...

Section E: guide for completion of individual fields

...	
Excess/deficit of readily realisable own funds	<del>This field will automatically calculate the excess or deficit, i.e. In this field, enter the result of the 'total of additional own funds required' less the 'total of readily realisable own funds'</del>

...

Section H: guide for completion of individual fields

...	
How often (if known) are the panel(s) reviewed?	<p>If the <i>firm</i> compiles its own panel(s), you should state the frequency with which the panel or list is reviewed and amended as appropriate, e.g. quarterly. <u>The frequency should be given in months eg if panels are reviewed quarterly, fill in "3".</u></p> <p>If separate panels are reviewed with differing frequencies, you should state the least frequent.</p> <p>It is acceptable to leave this field blank if, for example, the <i>firm</i> uses a panel or panels compiled by a product provider or packager firm.</p>

...

Section I: supplementary product sales data

...

Sub-heading: (i) non-investment insurance product information

In this section *firms* are asked for aggregate data on their ~~non-investment insurance~~ advising and arranging activities ~~(with~~ for non-investment insurance contracts with retail customers). The information required is an indication of the product types in which the *firm* has been active during the reporting period, and a further indication of how significant this activity is (i.e. whether it forms more than 40% by premium of all the *firm's* retail non-investment insurance activities).

...

Section I: guide for completion of individual fields

(i) non-investment insurance product information	
...	
Please indicate in column	You should state 'yes' in column B for each relevant

B where the firm's retail business in the product type formed more than 40% by premium of all of its non-investment insurance activities.	product based on an estimate of the percentage of business. If you think the product might account for more than 40% of business but are not sure, you should state 'yes'.
(ii) non-investment insurance chains	
Total non-investment insurance premium derived from retail customers	You should state here the total of premiums <u>paid payable</u> by <i>retail customers</i> during the reporting period in relation to non-investment insurance products.
...	
(iii) dealing as agent	
...	
Premium paid by retail customers during the reporting period where the firm dealt as agent	You should state here the total value of premiums <del>from policyholders</del> <u>payable</u> by <i>retail customers</i> during the reporting period <del>whether annual or one-off</del> —where the <i>firm</i> has dealt as agent of a product provider (i.e. with delegated authority). <del>For regular premium business, annualised figures should be used.</del>
...	

...

*SUP 16* Ann 19A R Mortgage Lending and Administration Return ('MLAR')

Amend the following pages of the MLAR making the underlined insertions and the struck through deletions. All amendments have been highlighted in grey to facilitate easy identification of the changes to the MLAR.

SUP 16 Ann 19B G      NOTES FOR COMPLETION OF THE MORTGAGE LENDING  
AND ADMINISTRATION RETURN ('MLAR')

Contents

...

[Version ~~10 March~~ October 2004]

...

INTRODUCTION: GENERAL NOTES ON RETURN

...

2.      Overview of reporting requirements

...

Commencement and transitional provisions

The *MLAR* sections on **Arrears** (tables F and H) are not required to be submitted as part of a *firm's* first *MLAR* submission ~~(if that first submission is in respect of the *firm's* first financial quarter starting on or after 1 April 2005; but this concession does not apply however to firms that are subject to delayed implementation of *MLAR* in 2006)~~. They should however be included in all subsequent quarterly submissions. A *firm* may of course submit these sections from the outset, but is not obliged to do so.

...

4.      Regulated mortgage contracts and the wider mortgage market

...

(ii)    Residential loans to individuals

...

It is lending to individuals secured by mortgage on land and buildings where the lender has either a first or second (or subsequent) charge, where at least 40% of the land and buildings is used for residential purposes, and where the premises are for occupation by either the borrower (or dependant), or any other third party (e.g. it includes 'buy to let' lending to individuals).

Only loans where there is a one-to-one correspondence between the loan and a specific security should be included within 'residential loans to individuals'. Do not include here any residential loans to individuals that are part of a 'business loans' type package (involving multiple loans and multiple securities, where there is no one-to-one correspondence between a loan and a specific security), but report them under 'other

secured lending'.

**Regulated mortgage contracts** are therefore a subset of this market category.

Examples of **non-regulated mortgage contracts** which fall under the wider category of residential loans to individuals include: buy-to-let loans and other types of loan where the property is not for use by the borrower (or qualifying dependants); and residential loans to individuals where the lender does not have a first charge. In the case where a lender takes a first and a second charge over the same residential property (for different purposes) we consider that generally the loan secured by the first charge will be a regulated mortgage contract, but that the loan secured by the second charge will invariably not and should be reported as non-regulated.

It is important, therefore, to separate this category from all other forms of secured lending.

(iii) Other secured lending

This covers all other forms of lending secured on land and buildings in the United Kingdom. Primarily it covers secured lending to corporate bodies (including to housing associations), but it also includes lending to individuals which, although being secured on land and buildings, is not deemed to be residential (e.g. the residential element is less than 40%). A corporate body for this purpose is any entity other than an individual.

It also includes any residential lending to an individual that forms part of a 'business loan' type package. These arrangements between a lender and a borrower are usually offered by a lender's specialist business or corporate lending departments. They typically involve a number of loans secured against a range of securities including the borrower's residential property, business premises and the business itself. Such packages involve no specific one-to-one correspondence between a single loan and a single security, and instead the lender assesses loan cover against the basket of securities in the package. Given the business nature of this type of lending, it would therefore be misleading to try and classify some or all of the loan elements in such cases to any part of 'residential lending to individuals', and hence all such lending should be reported under 'other secured lending'. This is for MLAR reporting purposes only; the actual categorisation or treatment for MCOB purposes remains unchanged.

...

8. Loans made before 31 October 2004

(i) Classifying the 'back book'

Loans made before 31 Oct 2004 fall into the following categories:

- residential loans to individuals (see Introduction, section 4(ii)) which should be classified as non-regulated (eg as at A3.3, and D1.2 etc)
- other secured loans (see Introduction, section 4(iii)) and shown for example at A3.4, D1.3 etc
- other loans (see Guidance for A3.5)

The approach to classification for pre-31 Oct 2004 loans will, of necessity, need to be a pragmatic one. We do not for example envisage the need to look at individual

paper loan files. Rather, we expect that a firm will apply its knowledge of its various loan books, products & their characteristics, to come up with some realistic allocation rules. This will then enable the firm to apply some automatic process to its computerised loan records, and thereby classify individual loans into each of the relevant categories used in the MLAR. Such a process may not be perfect, and it may result in a few loans being wrongly allocated, but it will be sufficient for the purpose. In many cases, there will be further transactions in relation to this type of loan in the period immediately following 31 October 2004, and this event will provide an opportunity for the loan classification to be re-assessed, and if necessary, revised.

(ii) Specific treatment of residential loans to individuals

Any loans made before 31 October 2004, ...

... causes it to be formally treated as a regulated contract.

(iii) Further advances on loans made before 31 October 2004

We cannot be prescriptive about whether, after the onset of mortgage regulation, a further advance (or any other variation) to a pre-31 October 2004 mortgage will have the effect of creating a new *regulated mortgage contract*. Our perimeter guidance (at AUTH App 4.4.13G) considers the effect of variations to contracts entered into before the onset of mortgage regulation. Whether a variation amounts to creating a new contract will depend on each lender's individual mortgage documentation. This documentation will differ, possibly significantly, between firms. Each lender will need to review its existing documentation and take a view on the scope that this provides for making changes.

In practice this means that:

- if the lender can make a further advance without creating a new contract, then the further advance should be added to the original loan and the combined loan treated as a single loan for MLAR reporting. This combined loan should be reported as 'non-regulated';
- if making a further advance creates a new contract, (and this further advance is a *regulated mortgage contract*) then the correct reporting approach will be determined as follows:
  - (a) where the original loan was made before 31 October 2004, but would otherwise satisfy the specific requirements of a *regulated mortgage contract*, the original loan and further advance may be treated as one for MLAR reporting, being shown as "Regulated" under "Residential loans to individuals";
  - (b) where the original loan did not satisfy the defined conditions of a *regulated mortgage contract* at the time it was entered into, the old loan and further advance will be treated as two separate loans for most aspects of MLAR reporting, the former being 'unregulated' while the latter will be reported as 'regulated'. However, for the LTV & Income Multiple analysis, while the firm should only show the amount of the further advance in the relevant "cell", the "cell" should be determined

by using the total amount of the loan (old loan + further advance) when deciding which LTV band and which Income Multiple band are applicable;

- (c) where the lender decides to combine the original loan and the further advance to create a single new contract that is a *regulated mortgage contract*, this should be reported as 'regulated'.

...

## SECTION D1: LENDING – BUSINESS FLOWS AND RATES

...

### D1 Loans: Advances/Repayments – Transactions (columns)

**Advances made in quarter** should include:

...

but should exclude:

...

- (h) sundry debits, i.e. any items not approved and not included in commitments, e.g. insurance debits, fines, insurance guarantees, valuation fees, arrangement fees etc. (unless formally treated as part of loan, that is where such amounts are repaid over the period of the loan);

- (i) any movements on overdrafts.

**Repayment of principal** should include:

...

but should exclude:

...

- (g) *investment* receipts temporarily posted to mortgage accounts;:

- (h) any movement in overdrafts.

...

**Other debits/(credits) and transfers (net) include:**

- (i) ... or change in status of loan from/to regulated/non-regulated etc);:

- (j) all movements on overdrafts (that is, net change in overdraft balances), other than write-offs.

NB Balances on loan books acquired/sold/securitised should be as at the date of the relevant event.

### **Overdraft analysis (final 3 columns of D1):**

The term “overdraft” here and in other columns of D1, is used to cover two types of revolving credit facilities: overdrafts and credit cards.

The balance at end of quarter in column 6 is further analysed into loan balances excluding overdrafts and, separately, balances on overdrafts.

The final column in D1 represents the sum total, across all overdraft accounts included in the penultimate column, of the individual credit limits on each such overdraft.

...

D3 Loans: Interest rates

Basis

Interest rates in this table are **nominal annual rates** charged to the *customer* on loan accounts excluding overdrafts (as defined in D1). They should ignore ...

This provides an analysis of weighted average interest rates for the loan assets reported ~~in the final~~ under 'Loans excluding overdrafts' in column 7 of D1 above. 'Interest rates at end of quarter' (columns 4, 5, and 6 of section D3) ...

...

D4 Loans: ~~e~~Commitments (columns)

Commitments made since end of previous quarter should include:

- (a) the aggregate of formally agreed advances (whether or not the mortgage offer has been accepted by the prospective borrower), including amounts recommended for retention, all instalment elements, and further advances;

but should exclude:

...

- (f) sundry debits, e.g. insurance debits, fines, insurance guarantees, valuation fees, arrangement fees etc (unless formally treated as part of the loan, that is where such amounts are repaid over the period of the loan). ~~premiums (unless additional to the loan), insurance of contents etc.~~

...

### **Advances made in quarter**

This refers to the same amount as covered under ‘advances in quarter’ in section D1 above.

### **Other debits/(credits) and transfers (net)**

This is unlikely to be needed on a routine basis. It is intended to cover less frequent events such as loan commitments acquired on merger with another firm or acquisition

of a loan book; or transferred on sale of a package of loans; or where 'commitments outstanding' need adjusting for reasons not attributable to other columns.

## SECTION E: RESIDENTIAL LOANS TO INDIVIDUALS - Income Multiples & LTV

...

### E3-6 Balances outstanding

Covers balances at end of the quarter. Relevant sub-totals should agree with corresponding balances shown ~~in the final columns~~ under 'Loans excluding overdrafts' in column 7 of D1.

...

### E3 Credit History

This seeks to categorise lending in terms of a borrower's previous credit history, as measured at the point when the new advance is made. For these purposes, it is only necessary to establish a borrower's credit history at a single point in time, i.e. at the time of making the loan. In practice this will usually be done at the 'offer' stage of making a loan. It is not intended that credit history should be reassessed after the loan has been made. However, if a further advance is made, then it will be necessary to re-assess.

In particular ...

(i) ...

(ii) ...

However, if there is subsequently a further advance on the loan (and which will be reported under 'Gross advances' in E3), this is an occasion to re-assess the borrower's credit history. At that stage, the total amount of the loan (including further advance) should be classified under 'Balances outstanding' on the basis of the credit history as determined at the time of making the further advance. This means that the further advance and total loan amount will be reported on a consistent basis.

### E3.1 Impaired credit history

...

**NB** In (i) to (v), *firms* should ignore whether the borrower has subsequently paid off arrears, or has satisfied/discharged a CCJ or IVA or bankruptcy.

In the case of loans involving **two or more borrowers**, the impaired credit test is whether any one of the borrowers individually meets any of the five listed impaired credit conditions.

...

E5 By drawing facility

These are loans which include ..., **but not** those arising only in relation to previous overpayments).

The drawing facility category is also meant to indicate a facility that is only exercisable by the borrower (e.g. via a cheque book, on line transaction or on demand). It would therefore not apply to situations where a loan is merely subject to retentions or stage payments, since the borrower does not have a draw-down option that he can exercise.

...

E6.1/2 House purchase

.... where the tenure of the main borrower immediately before this advance was not owner-occupier) and those to other buyers.

E6.2 Buy to let (BTL)

Such loans typically involve the borrower purchasing a residential property with the intention of letting it out on a rental basis.

The majority of BTL loans will be those used by the borrower to acquire a property with the intention of letting it on a commercial basis to unrelated third parties. That is to persons, who in relation to the borrower, are not 'related persons' (where 'related persons' are those set out in subsections (A), (B) and (C) of section 4 (iv) of the Introduction). These BTL loans are not regulated mortgage contracts and hence should be shown in columns 5 to 8 of E6.2 under 'Non regulated loans'.

However, where a BTL loan is used by the borrower to acquire a residential property that will be occupied by a related person, such a loan will normally be a regulated mortgage contract (providing it satisfies the other requirements of a regulated mortgage contract) and should therefore be shown in columns 1 to 4 of E6.2 under 'Regulated loans'. An example of such a loan is where a parent buys a house or flat for use by a student son or daughter, with a plan to take in other students on a rental basis.

Further advances and remortgages on any BTL loans should be included within E6.2.

E6.3 Further advance

...

The underlying purpose of the further advance ...; or as a 'drawdown' on a flexible mortgage.

However, further advances on existing buy to let loans, and on lifetime mortgage loans should instead be reported against E6.2 and E6.6 respectively.

## E6.4/5 Re-mortgage

Loans where the borrower is not moving house but ... even if it is larger than the existing loan.

Re-mortgages from another lender are well understood, and need no further comment.

But a 're-mortgage' by one of a firm's existing borrowers (i.e. 'own borrower' in E6.4) will not always be transacted in exactly the same way by different lenders. The following comments are designed to provide some illustrative examples, and indicate how the actual transaction between lender and borrower should be reported:

- **Example 1:** borrower changes from variable rate to fixed rate, with loan amount unchanged, at say £100k. Some lenders' systems formally treat this as a redemption and a new loan advance which is reportable under "advances" in D1 (in which case report as "re-mortgage" under this analysis of advances in E6), but other lenders treat it as an interest variation and not as a new advance (so not included in advances in D1 or E).
- **Example 2:** borrower changes from variable rate to fixed rate and takes out additional loan at the same time, say extra £25k on top of existing £100k. Some lenders will treat as a redemption of £100k and a new advance of £125k (in which case the £125k is a re-mortgage), but others may treat as two loans (with first loan regarded as just subject to an interest rate variation, and the extra loan as a "further advance").
- It is recognised that practices vary among lenders when it comes to further advances or re-mortgages. What is important is that the actual transaction between the lender and the borrower is reflected in the MLAR.
- Thus if a firm genuinely treats the advance of new money as a further advance (perhaps setting up a second sub account), then that should be reported as such (e.g. at E6.3)
- However if the old loan is formally replaced with a new loan (at the same or increased size) and this is reported in "advances" in D1, then the new loan should similarly be reported in E, and in E6.4 shown as "re-mortgage".

**NB** However, re-mortgages on existing buy to let loans, and on *lifetime mortgage* loans, should instead be reported against E6.2 and E6.6 respectively.

E6.6 Lifetime mortgages

**(i) Regulated loans: Lifetime mortgages (columns 1 to 4)**

This is a specific type of *regulated mortgage contract*, ...

(c) ...

- (vi) the *mortgage lender* exercises its legal right to take possession of the mortgaged land under the terms of the contract.

**(ii) Non-regulated loans: 'Lifetime mortgage' (columns 5 to 8)**

Loans to be included under these columns include:

- loans having broadly similar characteristics to those set out in (i)(a), (b) and (c) above, but which were advanced before 31 October 2004. Such loans will usually have been known as 'equity release loans';
- loans made after 31 October 2004, which whilst not satisfying the full criteria needed to be classed as a *regulated mortgage contract* (e.g. since a second but not a first charge is taken), nonetheless match the characteristics set out in (i)(a), (b) and (c) above.

**(iii) Further advances and re-mortgages on any of the loans described in (i) and (ii) above, should be included within E6.6**

...

SECTION F: LENDING - ARREARS ANALYSIS

Introduction

The guidance notes in this section serve two purposes: they provide guidance for

- (i) items **F1 to F5** shown in MLAR table F.

For these sections, the analysis of lending refers to on-balance sheet loan assets only, but excluding overdrafts (ie as included ~~in the final column~~ under 'Loans excluding overdrafts' in column 7 of section D1 of table D)

The responsibility for completing table F lies with the authorised lender, irrespective of whether the lender administers the loans itself or out-sources the administration elsewhere. The information should therefore appear as part of the lender's MLAR.

- (ii) items **H1 to H5** shown in MLAR table H.

For these sections, which cover reporting of arrears by *firms* with a *mortgage administrator's* activity, the analysis should include arrears in respect of the types of residential loans to individuals set out in the guidance notes for table G, but only where the firm is acting as 'principal administrator'. For *guidance* on items H1 to H5 see ...

...

- 6.2 The amount to be entered on the return is a percentage to 2 decimal places. Given the limitation described in 6.1 (ii), it cannot exceed 100%.

...

## SECTION G: MORTGAGE ADMINISTRATION – BUSINESS PROFILE

### Introduction

...

You should also note, however, ... then you should not complete this section of the *MLAR*.

### **‘Principal’ and ‘Other’ Administrators**

Because of the extent of specialisation and separation of activities in the provision of mortgage lending and administration services, we need to identify whether a firm that is authorised as a *mortgage administrator* is acting for MLAR purposes as a ‘principal administrator’ or as an ‘other administrator’:

- **Principal administrator:** this is where your firm is authorised to undertake a *mortgage administrator’s* activity, and is exercising that activity on behalf of either a lender or other firm that is not itself authorised to undertake a *mortgage administrator’s* activity;
- **Other administrator:** this is where your firm (although authorised to undertake a *mortgage administrator’s* activity) is undertaking loan administration for either a lender or other firm which itself is also authorised to undertake a *mortgage administrator’s* activity. In this situation, your firm is not regarded as the ‘principal administrator’, and you are merely acting on behalf of an authorised *mortgage administrator*.

- G1 Mortgage contracts administered at end quarter

#### **Where your firm is acting as Principal administrator (columns 1-3)**

Collects data on mortgage contracts administered as at the end of the quarter, ...

- G1.2 Outstanding balance on loans

...

The total (all loans) is the sum of *regulated mortgage contracts* and non-regulated loans.

#### **Where your firm is acting as Other administrator (columns 4-6)**

Record under these columns all of the mortgage contracts administered at the end of the quarter where you are not acting as a principal administrator.

...

G2 Lenders for whom mortgage administration was being carried out at quarter end

Collects data only on the top five lenders for each category by value ..., over and above the top five listed in each category.)

The analysis required in G2 covers all mortgage administration activity undertaken by your firm, irrespective of whether your firm is acting as a 'principal' or 'other' administrator. The final column of the analysis, however, asks you to indicate your status for each firm listed, namely whether acting as 'Principal' or as 'Other' administrator.

...

#### SECTION H: MORTGAGE ADMINISTRATION – Arrears Analysis

...

H1- Guidance on arrears items

H5 The *guidance* for these items is provided in section F of these guidance notes, where items H1 to H5 correspond to items F1 to F5.

The arrears analysis is of loan balances excluding overdrafts, as is used in section F.

...

SUP 16 Ann 20G

Products covered by the reporting requirements in SUP 16.11

This is the *guidance* referred to in SUP 16.11.6G.

~~SUP 16.11.3R requires certain firms to report product sales data. For reporting purposes, a reportable sale applies where the~~ A reportable sale is when a new contract has been made and the premium has been paid. A reportable sale does not include a policy renewal, a policy top-up, or any alteration to an existing policy.

...

3. OPTIONAL REPORTING FIELDS

The following data items are not currently mandatory reporting fields. ~~Firms are not obliged to report these items within the data report if the data is not readily available.~~

However, without this information, we will not be able to identify individual incorrect transactions. A firm would need to trawl through all submitted transactions until they could match the original transaction details and thus, correct and resubmit the information to us. These data items are essential for the smooth running of the regulatory reporting process both from the FSA's and the firm's perspective and because we understand that these data items are generally available to firms it is our intention to make these data items mandatory in due course. In the interim, we would encourage firms to build these extra items into their PSD reporting systems.

**COMPLAINTS AND COMPENSATION SOURCEBOOKS (MORTGAGE AND  
GENERAL INSURANCE INTERMEDIARIES FUNDING OF THE OMBUDSMAN  
AND COMPENSATION SCHEMES) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 ("the Act"):
- (1) section 138 (General rule-making power);
  - (2) section 156 (General supplementary powers);
  - (3) section 213 (The compensation scheme);
  - (4) section 214 (General);
  - (5) section 223 (Management expenses); and
  - (6) section 234 (Industry funding).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C. This instrument comes into force as follows:
- (1) The amendments in Annexes A, B and C come into force on 31 October 2004;
  - (2) The amendments in Annex D come into force on 14 January 2005.

**Amendments to the Dispute resolution: Complaints sourcebook**

- D. The Dispute resolution: Complaints sourcebook is amended in accordance with Annex A to this instrument.

**Amendments to the Compensation sourcebook**

- E. The Compensation sourcebook is amended in accordance with Annexes B and D to this instrument.

**Amendments to the Glossary**

- F. The Glossary is amended in accordance with Annex C to this instrument.

**Citation**

- G. This instrument may be cited as the Complaints and Compensation Sourcebooks (Mortgage and General Insurance Intermediaries Funding of the Ombudsman and Compensation Schemes) Instrument 2004.

## Annex C

### Amendment to the Glossary of definitions

In this Annex underlining indicates new text and strikethrough indicates deleted text.

Insert the following new definition in the appropriate alphabetical position:

*annual eligible income* (in *COMP*) the annual income (as described in Part 2 of *SUP* 20 Ann 1R) for the *firm's* last financial year preceding the date for submission of the information under COMP16.6.11R attributable to the relevant *contribution group*; or if the *firm* prefers, that amount of that annual income attributable to business conducted with *eligible claimants*, but only if the *firm* notifies *FSCS* of the amount in accordance with *FSCS* reporting requirements.

Amend the following definition as shown:

*sub-scheme* one of the ~~three~~ sub-schemes to which the *FSCS* allocates liabilities for *compensation costs* , as described in *COMP* 13.6.7R.

## Annex D

### Amendments to the Compensation sourcebook

In this Annex new sections of text are being inserted, so the place where the change will be made is indicated and the text is not struck through or underlined.

Insert the following new rule after *COMP* 3.2.3 R

- 3.2.4 R The *FSCS* may also pay compensation to a *firm*, who makes a claim in connection with *protected non-investment insurance mediation* on behalf of its *customers*, if the *FSCS* is satisfied that:
- (1) each *customer* has borne a *shortfall* in *client money* held by the *firm* caused by a *secondary pooling event* arising out of the *failure* of a broker or *settlement agent* which is a *relevant person in default*;
  - (2) the *customers* in respect of which compensation is to be paid satisfy the conditions set out in *COMP* 3.2.2R(1);
  - (3) the *customers* do not have a *claim* against the *relevant person* directly, nor a claim against the *firm*, in respect of the same loss;
  - (4) the *customers* would have been paid compensation by *FSCS* if the *customers* had a *claim* for their share of the *shortfall*, and if the *firm* were the *relevant person*; and
  - (5) the *firm* has agreed, on such terms as the *FSCS* thinks fit, to pay, or credit the accounts of, without deduction, each relevant *customer* in (1), that part of the compensation equal to the *customer's* financial loss, subject to the limits in *COMP* 10.2.

...

Insert the following new rule after *COMP* 6.3.7G:

- 6.3.8 R Claims arising under *COMP* 3.2.4R
- 6.3.8 R For the purposes of *COMP* 6.3 a claim made by a *firm* under *COMP* 3.2.4R is to be treated as if it were a *protected claim* against the *relevant person*.

...

Insert the following new rule after *COMP* 7.2.6G

- 7.2.7 R (1) For the purposes of compensation paid under *COMP* 3.2.4R, *FSCS* may require any *firm* (including, but not limited to, the claimant *firm*) to assign to *FSCS* any rights the *firm* may have to claim against the *relevant person* in relation to the amount of the *shortfall* in *client money* arising out of the *failure* of the *relevant person*.
- (2) A *firm* required by *FSCS* to assign its rights in (1), must assign those rights as requested, unless it has a reasonable

excuse for not doing so.

...

Insert the following new rule after *COMP* 10.2.8R

Claims arising under *COMP* 3.2.4R

- 10.2.9 R If a *firm* has a claim under *COMP* 3.2.4R, the *FSCS* must treat the share of the *shortfall* of each *customer* as if it were a *protected claim* for the purposes of calculating the limits of compensation payable, within *COMP* 10.2, in relation to that *customer*.

...

Insert the following new rule after *COMP* 12.6.11R

Claims arising under *COMP* 3.2.4R

- 12.6.12 R If a *firm* has a claim under *COMP* 3.2.4R, the *FSCS* must treat each *customer* of the *firm* as having the claim for the purposes of calculating compensation within *COMP* 12.

**COMPENSATION SOURCEBOOK (AMENDMENT NO 4) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 ("the Act"):
- (1) section 138 (General rule-making power);
  - (2) section 156 (General supplementary powers);
  - (3) section 213 (The compensation scheme);
  - (4) section 214 (General); and
  - (5) section 223 (Management expenses).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C This instrument comes into force immediately.

**Amendments to the Compensation sourcebook**

- D. The Compensation sourcebook is amended in accordance with the Annex to this instrument.

**Citation**

- E. This instrument may be cited as the Compensation Sourcebook (Amendment No 4) Instrument 2004.

## Annex

### Amendments to the Credit Unions sourcebook

In this annex, underlining indicates new text and striking through indicates deleted text. Where an entire new section of text is being inserted, the place where it goes is indicated and it is not underlined.

2.7.1 G ... Where a word or phrase which is shown in italics in one part of the text appears without italics in another part, it is meant to be given, where un-italicised, its ordinary natural meaning. See CRED 13 Annex 1A G 1(2) on the meaning of "credit union".

...

13.2.1 G Registration and becoming *authorised* as a *credit union* are two distinct statutory processes. The Credit Unions Act 1979 sets out the statutory requirements for registration and the *Act* sets out the statutory requirements relating to *authorisation*. Section 1 of the Credit Unions Act 1979 as amended (see CRED 13 Ann 1B G) provides that a credit union may not be registered unless it has applied to the FSA for a *Part IV permission to accept deposits*...

...

13.4.1 G (1) For registration, applicants must demonstrate to the satisfaction of the *FSA* that the statutory conditions set out in section 1 of the Credit Unions Act 1979 will be fulfilled. *CRED 13 Ann 1G* contains a table listing these statutory conditions.

(a) One of the conditions is that the objects of the credit union are those, and only those, of a credit union. The objects are set out in full in ~~the table~~ CRED 13 Ann 1B G. ...

(b) Another condition is that admission to membership of the credit union is restricted to persons who fulfil an appropriate membership qualification ("AMQ") and that in consequence a common bond exists among the members (see CRED 13 Ann 1A G – CRED 13 Ann 1C G).

...

Requirements of Registration

- 1 Table The requirements of registration under the Industrial and Provident Societies Act 1965, as set out in the Credit Unions Act 1979 and referred to in *CRED* 13.4.1G.

REQUIREMENT	SECTION OF THE RELEVANT ACTS
That the objects of the society are those, and only those of a credit union	Credit Unions Act 1979, s.1(2)(a)
<del>The objects of a credit union are:</del>	
<del>See <u>CRED 13 Ann 1B G Section 1 of the Credit Unions Act 1979 (as amended).</u></del>	Credit Unions Act 1979, s.1(3)
<del>the promotion of thrift among the members of the society by the accumulation of their savings</del>	
<del>the promotion of thrift among the members of the society by the accumulation of their savings</del>	Credit Unions Act 1979, s.1(3)
<del>the creation of sources of credit for the benefit of the members of the society at a fair and reasonable rate of interest</del>	Credit Unions Act 1979, s.1(3)
<del>the use and control of the members' savings for their mutual benefit</del>	Credit Unions Act 1979, s.1(3)
<del>the training and education of the members in the wise use of money and in the management of their financial affairs</del>	Credit Unions Act 1979, s.1(3)
That admission to membership of the society is restricted to individuals all of whom fulfil a specific qualification which is appropriate to a credit union (and that in consequence a "common bond" exists between members).	Credit Unions Act 1979, s.1(2)(b)
<del>The appropriate membership qualifications ("AMQs") for a credit union are:</del>	
<del>See <u>CRED 13 Ann 1B G Section 1 of the Credit Unions Act 1979 (as amended) - CRED 13 Ann 1C G Qualifications approved by the FSA (and the Registry of Friendly Societies).</u></del>	Credit Unions Act 1979, s.1(4)(a)
<del>following a particular occupation</del>	
<del>residing in a particular locality</del>	Credit Unions Act 1979, s.1(4)(b)
<del>being employed in a particular locality</del>	Credit Unions Act 1979, s.1(4)(c)
<del>being employed by a particular employer</del>	Credit Unions Act 1979, s.1(4)(d)
<del>being a member of a bona fide organisation or being otherwise associated with other members of the society for a purpose other than that of forming a society to be</del>	Credit Unions Act 1979, s.1(4)(e)

<p>registered as a credit union residing in or being employed in a particular locality</p>	<p>Credit Unions Act 1979, s.1(4)(f)</p>
<p>and such other qualifications as are for the time being approved by the FSA</p>	<p>Credit Unions Act 1979, s.1(4)</p>
<p>The following qualifications (in addition to those set out in section 1(4) of the Credit Unions Act 1979) have been approved by the FSA or its predecessor, the Registry of Friendly Societies:</p>	
<p>being currently in receipt of a continuing and regular contractual payment arising from employment by a particular employer</p>	<p>Credit Unions Act 1979, s.1(4)</p>
<p>being currently in receipt of a continuing and regular contractual payment arising from employment by particular employers in a particular area</p>	<p>Credit Unions Act 1979, s.1(4)</p>
<p>being currently in receipt of a continuing and regular payment arising from participation in the provision of a public service of a particular nature, or of particular services associated with such participation</p>	<p>Credit Unions Act 1979, s.1(4)</p>
<p>residing in a particular locality, or being a member of a bona fide organisation or group of organisations (or otherwise having a continuing and active association with one or more of such organisations) existing within that locality for a purpose other than that of forming a society to be registered as a credit union</p>	<p>Credit Unions Act 1979, s.1(4)</p>
<p>That the rules of the credit union are in a form as agreed by the FSA and provide for all matters required by the legislation.</p>	<p>Credit Unions Act 1979, s.4(1) and Schedule 1</p>
<p>That the registered office of the credit union is in Great Britain.</p>	<p>Credit Unions Act 1979, s.1(1)(c)</p>
<p><u>See CRED 13 Ann 1B G Section 1 of the Credit Unions Act 1979 (as amended).</u></p>	<p><u>Credit Unions Act 1979, s.1(1)(c)</u></p>

After CRED 13 Annex 1 G insert the following new annexes: CRED 13 Annex 1A G, CRED 13 Annex 1B G and CRED 13 Annex 1C G as follows:

## **CRED 13 Annex 1A G**

### **Common bond**

#### **Application**

1. (1) This Annex is relevant to:
  - (a) societies (typically known as “study groups”) seeking registration as credit unions (see *CRED* 13 Ann 1A G 1(2)); and
  - (b) credit unions seeking to amend their membership qualifications.
- (2) When the term “credit union” is in italics, its definition is in the *Glossary* to the *FSA Handbook*, which reads: “a body corporate registered under the Industrial and Provident Societies Act 1965 as a credit union in accordance with the Credit Unions Act, which is an *authorised person*”. When the term is not in italics, it may also refer to a credit union that does not have permission to take deposits, but is merely registered, or is a study group or other association seeking to be registered as a credit union. The term is only intended to refer to a credit union in Great Britain, not one in Northern Ireland.

#### **Introduction**

2. (1) This Annex relates to section 1 of the Credit Unions Act 1979 (see *CRED* 13 Ann 1B G). It explains how the *FSA* exercises its statutory function of satisfying itself before registration that a common bond exists among the members of a credit union.
- (2) These are the key points covered by this Annex:
  - (a) the need for a common bond is fundamental to the regulatory regime for credit unions;
  - (b) an “appropriate membership qualification” does not necessarily create a common bond;
  - (c) the *FSA* has adopted the following policy for the geographical extent of terms limiting membership qualifications:
    - (i) “locality” is comparable in extent to a principal tier of local government (for example: a single city, London borough or county); and

- (ii) “area” is comparable in extent to a single administrative region (for example: Scotland, Wales, North-East England or London);
- (d) a membership qualification based on association between members may be combined with another qualification set out in section 1(4) of the Credit Unions Act 1979 (for example, residing in or being employed in a particular locality - see *CRED* 13 Ann 1B G) but not with additional qualifications created under that subsection;
- (e) common bonds cannot be infinitely extended, so the *FSA* has adopted the policy of using the following presumptions for or against the existence of a common bond for different numbers of persons eligible for membership:
  - (i) up to 100,000 – there is a presumption for the common bond (if supported by a statutory declaration – see *CRED* 13 Ann 1A G 2(2)(g));
  - (ii) from 100,000 to 1 million – there is no presumption either way: the credit union has to make a case; and
  - (iii) over 1 million – there is a presumption against the common bond: the credit union will have to have particularly strong arguments to succeed in making a case;
- (f) the common bond is not a franchise, so:
  - (i) when deciding whether to approve a common bond, the *FSA* will not take into account whether the proposed area overlaps the area of another credit union; and
  - (ii) it is not necessary for a credit union to demonstrate an intention to service the whole of its common bond area;
- (g) (i) three members and the secretary of a credit union may make a statutory declaration that as a result of the qualification for admission to membership, a common bond exists between the members (but the *FSA* may require other evidence – see *CRED* 13 Ann1A 7(2)(b));
  - (ii) there is a special form for this purpose;
  - (iii) a statutory declaration is made under the provisions of the Statutory Declarations Act 1835 and must be signed before a solicitor or commissioner for oaths or notary public or justice of the peace;

- (iv) it is a criminal offence knowingly or wilfully to make a false statutory declaration, and an offender may be imprisoned or fined or both.

### **Statutory function**

- 3. A credit union may be registered if the *FSA* is satisfied (among other things) that admission is restricted to persons who fulfil an “appropriate membership qualification”, in consequence of which a “common bond” exists among the members (sections 1(1)(a) and 1(2)(b) of the Credit Unions Act 1979 (*CRED* 13 Ann 1B G)).

### **Handbook material**

- 4. *DEC* 1.2.8G – *DEC* 1.2.10G provide guidance on who within the *FSA* makes decisions under section 1 of the Credit Unions Act 1979. It is possible for such decisions to be taken to judicial review. *CRED* 13 (Registration and authorisation) is concerned with the registration and authorisation of credit unions.

### **What is a common bond?**

- 5. (1) The Credit Unions Act 1979 provides for the registration of credit unions under the Industrial and Provident Societies Act 1965 (the Act under which bona fide co-operatives are registered).
- (2) Credit unions are only allowed to have the objects set out in section 1(3) of the Credit Unions Act 1979 (see *CRED* 13 Ann 1B G). They are thus restricted to providing services to their members, not to the public at large.
- (3) Membership of a credit union must be restricted by an “appropriate membership qualification” that creates a common bond (section 1(2)(b) of the Credit Unions Act 1979 - see *CRED* 13 Ann 1B G and *CRED* 13 Ann 1C G).
- (4) It is apparent from the Parliamentary debates on the Credit Unions Act 1979 that persons who had a common bond were envisaged as having some degree of shared identity, a sense of belonging or a collective interest. The *FSA* considers that the bond should be sufficient to encourage members to do some or all of the following:
  - (a) play an active role in the credit union (for example, by volunteering);
  - (b) save regularly; and
  - (c) repay loans promptly.

The sense of obligation to save and repay among the members of credit unions would be greater than among persons dealing with an ordinary commercial provider.

- (5) The decision whether or not a common bond exists is made under the Credit Unions Act 1979, so the basis for the *FSA*'s decision will be confined to criteria under that Act, and prudential issues will not be directly involved. However, in discharging its responsibilities under the *Act*, the *FSA* will need to satisfy itself that the credit union will meet or continue to meet the *threshold conditions* and not put its members' funds at risk. These issues will be considered in a risk-based manner when the *FSA* decides whether or not to give a credit union permission to accept deposits. Section 1 of the Credit Unions Act 1979 as amended (see *CRED* 13 Ann 1B G) provides that a credit union may not be registered unless it has applied to the *FSA* for such permission, and the *FSA* shall not register a credit union unless it proposes to give the credit union permission. The *FSA* may give the credit union an opportunity of withdrawing an application for registration if it considers that it will not be able to grant authorisation. Prudential issues will also be considered separately when a credit union seeks to amend its membership qualification.
- (6) It is important that a credit union should not admit to membership any person who does not share the common bond; that is any person who is ineligible under the credit union's membership qualification. *CRED* 13 Ann 2G provides further guidance about the consequences of admitting ineligible persons.

### **What is an “appropriate membership qualification”?**

6. (1) “Appropriate membership qualifications” are such qualifications as “residing in a particular locality”, “being employed by a particular employer” and “being a member of a bona fide organisation”. Some of the qualifications were included when the Credit Unions Act 1979 was passed; others have been added to that Act by Deregulation and other Orders; and others have been approved by the *FSA*, or its predecessor, the Registry of Friendly Societies. A full list of “appropriate membership qualifications” is given in *CRED* 13 Ann 1B G (Section 1 of the Credit Unions Act 1979, as amended) and *CRED* 13 Ann 1C G (Qualifications approved by the *FSA* (and the Registry of Friendly Societies)). The *FSA* has power to approve further qualifications.
- (2) The membership of a credit union is made up of the following types of member:
  - (a) directly qualifying member – who fulfils the “appropriate membership qualification”;
  - (b) indirectly qualifying member (“family member”) - who lives in the same household as, and is a relative of, a directly qualifying member; and

- (c) non-qualifying member – who joined the credit union as a directly or indirectly qualifying member, but has ceased to be so.

Further guidance on eligibility for membership of a credit union is given in *CRED 13 Ann 2G*.

- (3) The two concepts of the “appropriate membership qualification” and the “common bond” are often treated in the credit union sector as though they were interchangeable, but this is not the case. The “appropriate membership qualification” exists as the basis for creating the common bond: thus, the “appropriate membership qualification” may be viewed as the cause and the “common bond” the effect. But the fact that there is an “appropriate membership qualification” does not necessarily mean that there will be a “common bond”.
- (4) For registration to be possible, both the “appropriate membership qualification” and the “common bond” have to be in place. On examining the “appropriate membership qualification”, the *FSA* could in theory infer from it the existence of a “common bond” (section 1(5)(b) of the Credit Unions Act 1979 – see *CRED 13 Ann 1B G*) without a statutory declaration or further evidence. However, the *FSA* is unlikely to be able to make this inference for any but the smallest of population pools – see *CRED 13 Ann 1A 7(2)*.
- (5) Since the Regulatory Reform (Credit Unions) Order 2003, it is possible for a credit union to adopt a membership qualification combining association and one of the other qualifications set out in section 1(4)(a), (b), (c), (d) or (f) of the Credit Unions Act 1979, as amended (without the need for the *FSA* to approve an additional qualification for each combination, under the power in the tailpiece to that subsection – see *CRED 13 Ann 1B G*). For example, a credit union may now adopt a membership qualification under which some members reside in the locality (but do not belong to a bona fide organisation there) and other members belong to a bona fide organisation in the locality (but do not reside there). However, a credit union cannot combine association and one of the qualifications approved by the *FSA* or Registry of Friendly Societies (see *CRED 13 Ann 1C G* and *CRED 13 Ann 1A G 10(2)*); nor may the qualifications in section 1(4)(a), (b), (c), (d) or (f) of the Credit Unions Act 1979, as amended, be combined with each other (see *CRED 13 Ann 1B G*).

- (6) Having chosen an “appropriate membership qualification” from the list, it has always been possible for a credit union to impose within its registered rules an additional requirement upon members. This is the effect of the words in section 1(2)(b) of the Credit Unions Act 1979 see *CRED* 13 Ann 1B G: “whether or not any other qualifications are also required by the rules”. Thus it has always been possible to adopt a requirement that each member of the credit union must both reside and belong to a bona fide organisation in the locality. Under such a qualification, neither a person who merely resides (but does not belong to the organisation), nor one who merely belongs to the organisation (but does not reside) may join the credit union.
- (7) *CRED* 13 Ann 1C G lists the qualifications approved by the *FSA* (or its predecessor, the Registry of Friendly Societies). The *FSA* has power, as previously mentioned, to approve further qualifications.

**What has the FSA to decide?**

- 7. (1) In relation to membership, the *FSA* has to be satisfied on two counts:
  - (a) there is an “appropriate membership qualification” ; and
  - (b) in consequence of the “appropriate membership qualification”, a common bond exists.

It is a two-stage process: the first stage is factual (a question of technical validity); the second is judgemental (and potentially subjective).

- (2) If it considers it proper in the circumstances of the case, the *FSA* may:
  - (a) infer the existence of a common bond from the appropriate membership qualification (but see *CRED* 13 Ann 1A G 6(4)); or
  - (b) rely on a statutory declaration (by 3 members and the secretary of the credit union or prospective credit union – see *CRED* 13 Ann 1A 2(2)(g)) that a common bond exists (section 1(5) of the Credit Unions Act 1979 – see *CRED* 13 Ann 1B G). Even where a statutory declaration is given, the *FSA* may require other evidence to support the credit union’s (or prospective credit union’s) contention that there is a common bond.

**Meaning of “locality ” in “appropriate membership qualifications ” based on residence**

- 8 (1) Although several of the “appropriate membership qualifications” (see *CRED* 13 Ann 1B G - *CRED* 13 Ann 1C G) use the term “locality”, it is not defined by the Credit Unions Act 1979. Historically, the Registry of Friendly Societies took a fairly restrictive view of its meaning, but the *FSA* is taking a broader one, drawing on case law and other statutory uses of that term.

- (2) The *FSA*'s working definition is that a "locality" is a natural geographical or administrative unit, comparable in size (but not limited to) the principal tier of local government in Great Britain, that is unitary authorities or county councils. The justification for this is that the common provision of "local" public services is currently made at this level.
- (3) So the *FSA* will generally accept that "locality" extends up to the area covered by such local authorities, and so may cover such areas as single cities, London boroughs or counties. If larger areas were proposed, the onus would lie with credit unions to demonstrate that they still constituted a "locality". Even if a geographical or administrative area satisfies the criteria for being a "locality", that does not mean that there will be a common bond (see *CRED* 13 Ann 1A G 2(2)(b) and 11(1)–(5)).

**Meaning of "area " in "appropriate membership qualifications " based on employment**

9. The "appropriate membership qualification" based on employment in *CRED* 13 Ann 1C G uses the term "area", but this is not defined in the Credit Unions Act 1979. The *FSA* accepts that the term "area" is potentially much larger in scope than "locality", and that it could extend up to the size of a single standard administrative region within Great Britain. So, for example, Scotland, Wales, the North-East of England or Greater London could be regarded as "areas" for the purpose of this "appropriate membership qualification". To be acceptable, it is not necessary for the boundary proposed by a credit union to coincide with an actual standard administrative region.

**Regulatory Reform (Credit Unions) Order 2003 and associational "appropriate membership qualification"**

10. (1) The "appropriate membership qualification" in section 1(4)(e) of the Credit Unions Act 1979 is that of "being a member of a bona fide organisation or being otherwise associated with other members of the society for a purpose other than that of forming a society to be registered as a credit union". So the members must be associated through something other than the credit union. The stronger the character of the association between the individuals, the more likely it is to form the basis for the existence of a common bond.

- (2) As a result of the Regulatory Reform (Credit Unions) Order 2003, it is now possible for a credit union to adopt a membership qualification combining association and one of the other qualifications set out in section 1(4)(a), (b), (c), (d) or (f) of the Credit Unions Act 1979, as amended (without the need for the *FSA* to approve an additional qualification for each combination, under the power in the tailpiece to that subsection - see *CRED 13 Ann 1B G* and *CRED 13 Ann 1A G 6(5)*). However, it is not possible for a credit union to combine association and one of those qualifications specifically approved by the *FSA* or its predecessor, the Registry of Friendly Societies - see *CRED 13 Ann 1C G* and *CRED 13 Ann 1A G 6(5)*, nor may the qualifications in section 1(4)(a), (b), (c), (d) or (f) of the Credit Unions Act 1979, as amended, be combined with each other. This means that a single credit union may be properly formed for persons who:
- (a) live or work in a locality; or
  - (b) associate with the residents and workers (through, for example, attending a religious centre in the locality).
- (3) However, it is still necessary to establish that the qualifications establish a common bond: this may be difficult if there is no shared identity between the members qualifying under the different qualifications (even where the population pool is below 100,000 – *CRED 13 Ann 1A G 11(3)*).

**Overall size of population pool for “appropriate membership qualifications”**

11. (1) It is in the nature of the common bond that the concept cannot be infinitely expanded: the larger the eligible population pool covered by an “appropriate membership qualification”, the weaker or less plausible will be the existence of a common bond.
- (2) It is not practical to expect credit unions to operate on the basis that members will be fully acquainted with each other, but there has to be some mutual identification, and some point at which this ceases to have a significant effect.
- (3) The Registry of Friendly Societies (a predecessor of the *FSA*) adopted 100,000 as an indicative maximum for the size of the residential population in a common bond area. The *FSA* has further developed that thinking through its decisions in subsequent cases. For full transparency, the indicative bands currently used by the *FSA* are set out below:
- (a) where an “appropriate membership qualification” covers a pool of up to 100,000 people eligible to be members:
    - (i) there is a presumption in favour of the existence of a common bond; and

- (ii) the *FSA* will (provided the “appropriate membership qualification” is technically valid and there are no unusual features) generally accept a simple explanation of the nature of the common bond, together with a statutory declaration (but see *CRED* 13 Ann 1A G 10(3)).
- (b) where an “appropriate membership qualification” covers a pool of between 100,000 and 1 million eligible people:
  - (i) there is no presumption in favour of the existence of a common bond; and
  - (ii) the *FSA* expects the credit union to make a positive, convincing case, marshalling all the information relevant to establishing that a common bond exists among the members.
- (c) where an “appropriate membership qualification” covers a pool of more than 1 million eligible people:
  - (i) there is a presumption that the common bond is so dilute as to be meaningless; but
  - (ii) it is open to a credit union to make a submission to convince the *FSA* that a common bond exists among the members: but its arguments would have to be particularly strong for it to succeed in making a case.
- (4) The *FSA*’s decision whether or not to accept the existence of a common bond (for a new or prospective credit union) is made on an individual basis. So decisions (whether made by the *FSA* or its predecessor, the Registry of Friendly Societies) create no binding precedent that a population pool of a given size is acceptable for a particular “appropriate membership qualification”.
- (5) Given the range of “appropriate membership qualification” and the different populations covered, it is not possible to be prescriptive about the information necessary to show that a common bond is real. In general, it has been the experience of the Registry of Friendly Societies and the *FSA* that it is fairly straightforward to make a plausible case for the existence of a common bond where the “appropriate membership qualification” is based on employment by a single employer. For residential qualifications, applicants should draw on their local knowledge to identify those elements, geographical and social that create a sense of cohesion. For a qualification based on living or working in a particular locality, the applicants might wish to identify the ways in which workers from outside the area become involved in the activities of the residential community.

- (6) The size thresholds set out above apply to the number of persons eligible for membership under any “appropriate membership qualification”, not just ones based on residence.

### **Overlapping common bond areas**

12. A common bond area cannot be regarded legally as a franchise, giving exclusive rights of access to a particular area or pool of potential members. The *FSA* recognises the value of consolidation in providing stronger entities, but there is no justification in current legislation for refusing the registration of a new credit union in an area already served by existing credit unions, nor even for consulting them: the *FSA's* decision on registration is based only on the criteria in the Credit Unions Act 1979 (see *CRED* 13 Ann 1A G 5(5)). In the absence of express statutory support, it would be wrong for the *FSA* to act in a manner that could be construed as anti-competitive. So the *FSA* will not refuse registration on the grounds of overlap, nor will it undertake to consult credit unions whose common bond area may be overlapped by a later registration.

### **Servicing whole of area**

13. Since the common bond is not a franchise, the *FSA* will not expect a credit union to service fully the whole of its area or population pool. But where the “appropriate membership qualification” covers a large population pool, the inference is that the bond is likely to be weaker, and there will need to be more justification. An intention to service only part of the area does not help to establish whether or not the “appropriate membership qualification” establishes a common bond for the area as a whole.

### **Mergers**

14. (1) The Credit Unions Act 1979 allows credit unions to merge, either by amalgamation (where a new credit union is created and the constituents cease to exist) or by transfer of engagements (where the credit union transferring its engagements ceases to exist, but the enlarged credit union accepting the engagements continues).
- (2) For either of these procedures to be practicable in individual cases:
  - (a) the merged credit union will need to have an “appropriate membership qualification” that creates a “common bond”; and
  - (b) members of the constituent credit unions will need to be eligible for membership of the merged credit union.
- (3) So in individual cases:

- (a) it might not be possible for the merged credit union to adopt an “appropriate membership qualification” (for example, the new catchment area required for the merger of two residential credit unions might not qualify under the definition of “locality” – see *CRED 13 Ann 1A G 8(1)-(3)*);
- (b) even though each credit union seeking to merge has a “common bond” among its own members, this does not necessarily mean that there would be a common bond among all the members of the merged credit union (for example, too large a population pool might be produced by the merger – see *CRED 13 Ann 1A G 11(1)*).

**What information does a credit union need to provide in support of a common bond application?**

15 Table

<b>Population pool</b>	<b>Information needed</b>
Up to 100,000	Statutory declaration Simple explanation of common bond (subject to <i>CRED 13 Ann 1A G 10(3)</i> )
100,000 to 1 million	Convincing case that common bond exists
Over 1 million	Evidence to rebut presumption against existence of common bond (special factors generating particular interaction in this population pool, despite its large size and the dilution normally expected in such circumstances)

## CRED 13 Annex 1B D

### Section 1 of the Credit Unions Act 1979 (as amended)

1. Registration as a credit union
  - (1) Subject to ... sections 2(1) and 7(1) of the Industrial and Provident Societies Act 1965 (in this Act referred to as “the 1965 Act”), a society may be registered under that Act if:
    - (a) it is shown to the satisfaction of the Authority that the conditions specified in subsection (2) below are fulfilled;
    - (b) the rules of the society comply with section 4(1) [of this Act];
    - (c) the place which under those rules is to be the society’s registered office is situated in Great Britain;
    - (d) the society has made an application to the Authority for Part IV permission under section 40 of the Financial Services and Markets Act 2000 (in this Act referred to as “the 2000 Act” to accept deposits; and
    - (e) the Authority is satisfied that, once registered under the 1965 Act, the society will satisfy, and continue to satisfy, the *threshold conditions* set out in Schedule 6 to the 2000 Act in relation to the regulated activity of accepting deposits; and a society which is so registered by virtue of this section shall be registered as, and is in this Act referred to as, a “credit union”.
  - (1A) The Authority shall not issue an acknowledgement of registration under section 2(3) of the 1965 Act to a credit union unless it also proposes to give that society permission under Part IV of the 2000 Act to accept deposits.
  - (2) The conditions referred to in subsection (1)(a) above are –
    - (a) that the objects of the society are those, and only those, of a credit union; and
    - (b) that as a result of any provision of the rules, admission to membership of the society meets the requirement specified in subsection (3A) or (3B) below (whether or not any other qualifications for admission to membership are also required by the rules) and that in consequence, a common bond exists between members of the society.
  - (3) The objects of a credit union are –

- (a) the promotion of thrift among the members of the society by the accumulation of their savings;
  - (b) the creation of sources of credit for the benefit of the members of the society at a fair and reasonable rate of interest;
  - (c) the use and control of the members' savings for their mutual benefit; and
  - (d) the training and education of the members in the wise use of money and in the management of their financial affairs.
- (3A) The requirement specified in this subsection is that admission to membership of the society is restricted to persons all of whom fulfil the same specific qualification for admission to membership, being a qualification specified in, or approved under, subsection (4) below as being appropriate to a credit union.
- (3B) The requirement specified in this subsection is that admission to membership of the society is restricted to persons each of whom fulfils either –
- (a) the qualification for admission to membership specified by paragraph (e) of subsection (4) below as being appropriate to a credit union; or
  - (b) the same specific qualification for admission to membership, being a qualification which is so specified in paragraph (a), (b), (c), (d) or (f) of that subsection.
- (4) The qualifications for admission to membership which are appropriate to a credit union are –
- (a) following a particular occupation;
  - (b) residing in a particular locality;
  - (c) being employed in a particular locality;
  - (d) being employed by a particular employer;
  - (e) being a member of a bona fide organisation or being otherwise associated with other members of the society for a purpose other than that of forming a society to be registered as a credit union;
  - (f) residing in or being employed in a particular locality;
- and such other qualifications as are for the time being approved by the Authority.

- (5) In ascertaining whether a common bond exists between the members of a society, the Authority –
- (a) may, if it considers it proper in the circumstances of the case, treat as sufficient evidence of the existence of a common bond a statutory declaration which is given by three members and the secretary of the society, and is to the effect that a common bond exists
  - (b) may, if it considers it proper in the circumstances of the case, treat the fact that admission to membership is restricted as mentioned in subsection (2)(b) above as sufficient evidence of the existence of a common bond.
- (6) For the purposes of this Act, if the rules of a credit union so provide, a person shall be treated as fulfilling a qualification for admission to membership stated in those rules if he is a member of the same household as, and is a relative of, another person who is a member of the credit union and fulfils that qualification directly.

In section 1 of the Credit Unions Act 1979, the *FSA* is referred to as "the Authority".

## CRED 13 Annex 1C D

### Qualifications approved by the FSA (and the Registry of Friendly Societies)

1. The following qualifications (in addition to those set out in section 1(4) of the Credit Unions Act 1979) have been approved by the *FSA* (and the Registry of Friendly Societies ("RFS")):
  - (1) being currently in receipt of a continuing and regular contractual payment arising from employment by a particular employer;  
RFS: 25 February 1994
  - (2) being currently in receipt of a continuing and regular contractual payment arising from employment by particular employers in a particular area;  
RFS: 6 October 1994
  - (3) being currently in receipt of a continuing and regular payment arising from participation in the provision of a public service of a particular nature, or of particular services associated with such participation;  
RFS: 22 May 1998
  - (4) residing in a particular locality, or being a member of a bona fide organisation or group of organisations (or otherwise having a continuing and active association with one or more of such organisations) existing within that locality for a purpose other than that of forming a society to be registered as a credit union;  
RFS: 15 November 1999
  - (5) being employed by an undertaking in a particular group of employers (and for this purpose "group" has the same meaning as in section 421 of the Financial Services and Markets Act 2000).  
FSA 1 January 2005
2. Section 421 of the *Act*:
  - (1) In this *Act* "group", in relation to a person ("A"), means A and any person who is-
    - (a) a parent undertaking of A;
    - (b) a subsidiary undertaking of A;
    - (c) a subsidiary undertaking of a parent undertaking of A;
    - (d) a parent undertaking of a subsidiary undertaking of A;
    - (e) an undertaking in which A or an undertaking mentioned in

paragraph (a), (b), (c) or (d) has a participating interest;

- (f) if A or an undertaking mentioned in paragraph (a) or (d) is a building society, an associated undertaking of the society; or
  - (g) if A or an undertaking mentioned in paragraph (a) or (d) is an incorporated friendly society, a body corporate of which the society has joint control (within the meaning of section 13(9)(c) or (cc) of the Friendly Societies Act 1992).
- (2) "Participating interest" has the same meaning as in Part VII of the Companies Act 1985 or Part VIII of the Companies (Northern Ireland) Order 1986; but also includes an interest held by an individual which would be a participating interest for the purposes of those provisions if he were taken to be an undertaking.
- (3) "Associated undertaking" has the meaning given in section 119(1) of the Building Societies Act 1986.

**LISTING RULES (AUDITORS' RESPONSIBILITIES IN RELATION TO THE  
COMBINED CODE) INSTRUMENT 2004**

**Powers Exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000:
- (1) section 74 (The official list);
  - (2) section 96 (Obligations of issuers of listed securities); and
  - (3) paragraph 1 of Schedule 7.

**Commencement**

- B. This instrument comes into force on 1 November 2004.

**Amendments to the Listing Rules**

- C. The Listing Rules are amended in accordance with the Annex to this instrument.

**Citation**

- D. This instrument may be cited as the Listing Rules (Auditors' Responsibilities in relation to the Combined Code) Instrument 2004.

By order of the Board  
20 October 2004

## Annex

### Amendments to the Listing Rules

In this annex underlining indicates new text, and striking through indicates deleted text.

Amend Chapter 12 of the Listing Rules detailing the application of the Combined Code in listing rule 12.43A as set out below:

Corporate governance and director's remuneration

...

## INTERIM PERMITTED MORTGAGE INTERMEDIARIES INSTRUMENT 2004

### Powers exercised

- A. The Financial Services Authority makes this instrument in the exercise of the powers and related provisions in:
- (1) article 4(1) of the Financial Services and Markets Act 2000 (Transitional Provisions) (Mortgages) Order 2004 (SI No 2004/2615) (“the Order”); and
  - (2) the following sections of the Financial Services and Markets Act 2000 (“the Act”):
    - (a) section 138 (General rule-making power);
    - (b) section 145 (Financial promotion rules);
    - (c) section 149 (Evidential provisions);
    - (d) section 156 (General supplementary powers);
    - (e) section 157(1) (Guidance);
    - (f) section 213 (The compensation scheme); and
    - (g) section 214 (General)
- B. Article 4(2) of the Order is relevant to the exercise of the powers set out in paragraph A(2) above because it provides that sections 155 (Consultation) and 157(3) (Guidance) of the Act do not apply to the rules and guidance set out in this instrument.
- C. The provisions listed above relevant to making rules are specified for the purposes of section 153(2) (Rule-making instruments) of the Act.

### Commencement

- D. This instrument comes into force on 31 October 2004.

### Citation

- E. This instrument may be cited as the Interim Permitted Mortgage Intermediaries Instrument 2004.
- F. The Annex to this instrument may be cited as the Directions, rules and guidance for Interim Permitted Mortgage Intermediaries.

Made under the authority of the Board and under article 4 of the Order

Clive Briault  
Managing Director, Retail Markets

29 October 2004

## Annex

### Directions, rules and guidance for Interim Permitted Mortgage Intermediaries

In this annex, new provisions relevant to interim permitted mortgage intermediaries (“IPMI”) are being introduced and they are not underlined.

#### 1. Handbook and other requirements for Interim Permitted Mortgage Intermediaries

##### 1.1 Application and purpose

1.1.1 R *IPMI* applies to *interim permitted mortgage intermediaries*.

1.1.2 G The purpose of *IPMI* is:

- (1) to make *rules* relating to disclosure of their regulated status by *interim permitted mortgage intermediaries*;
- (2) to direct, in accordance with article 4(1) of the *Mortgages Transitional Order*, that certain provisions of the *Handbook* that would otherwise apply to *interim permitted mortgage intermediaries*:
  - (a) are not to apply; or
  - (b) are to apply to them as modified in *IPMI*; and
- (3) to give ancillary *guidance* to *interim permitted mortgage intermediaries* as to the application of the *Handbook* to them.

##### 1.2 Disclosure of interim permitted mortgage intermediary status

1.2.1 G *IPMI* 1.2 makes special provision for *interim permitted mortgage intermediaries* in place of *GEN* 1.2 (Referring to approval by the FSA). The purpose is to prevent *clients* being misled about the extent to which the *FSA* has approved a *firm's* affairs.

1.2.2 D The *FSA* directs that *GEN* 1.2 (Referring to approval by the *FSA*) does not apply to an *interim permitted mortgage intermediary*.

1.2.3 R (1) Unless required to do so under the *regulatory system*, an *interim permitted mortgage intermediary* must ensure that neither it, nor anyone acting on its behalf claims, in a public statement or to a *client*, expressly or by implication, that its affairs, or any aspect of them, have the approval of the *FSA* or that it is an *authorised person* for the purposes of the *Act*.

- (2) Paragraph (1) does not apply to statements by or on behalf of an *interim permitted mortgage intermediary* who is an *interim authorised mortgage person* that explain, in a way that is fair, clear and not misleading, that:
- (a) the *firm* is an *interim permitted mortgage intermediary*;
  - (b) the *firm's approved persons* are deemed to be approved by the *FSA* for the purposes of section 59 of the *Act* (Approval for particular arrangements) pending determination of the *firm's* application for authorisation;
  - (c) the *firm* has been given express written approval by the *FSA* in respect of a specific aspect of the *firm's* affairs.
- (3) Paragraph (1) does not apply to any statement by or on behalf of an *interim permitted mortgage intermediary* who is not an *interim authorised mortgage person* that explains, in a way that is fair, clear and not misleading, that:
- (a) the *firm* is an *authorised person*;
  - (b) as appropriate:
    - (i) the *firm* has *permission* to carry on a specific activity; or
    - (ii) the *firm* has *interim permission* to carry out a specific activity;
  - (c) as appropriate:
    - (i) one or more of the *firm's approved persons* has been approved by the *FSA* for the purposes of section 59 of the *Act* (Approval for particular arrangements); or
    - (ii) one or more of the *firm's approved persons* is deemed to be approved by the *FSA* for the purposes of section 59 of the *Act* (Approval for particular arrangements) pending determination of the *firm's* application for *permission*; or
  - (d) the *firm* has been given express written approval by the *FSA* in respect of a specific aspect of the *firm's* affairs.
- (4) Paragraph (1) applies with respect to the carrying on of both *regulated activities* and *unregulated activities*.

## Required disclosures

- 1.2.4 R (1) An *interim permitted mortgage intermediary* who is an *interim authorised mortgage person* and who, in order to comply or to provide evidence of complying with a provision (including a provision mentioned in *IPMI 1.2.6R*) of the *Handbook*, discloses that he is authorised or regulated by the *FSA*, must also disclose that he is authorised or regulated on an interim basis only.
- (2) An *interim permitted mortgage intermediary* who, in the course of carrying on *mortgage mediation activity*, discloses that he is authorised or regulated by the *FSA*, must as part of that disclosure, and with equal prominence, disclose that the *FSCS* does not apply to any *mortgage mediation activity* that he undertakes.
- 1.2.5 E (1) An *interim permitted mortgage intermediary* should, in the circumstances mentioned in *IPMI 1.2.4R*, disclose that:
- (a) he is 'interim authorised under the Financial Services and Markets Act 2000' or 'interim regulated by the Financial Services Authority' or 'regulated by the Financial Services Authority as an interim authorised person' or use words to that effect; and
- (b) 'no compensation will be available from the Financial Services Compensation Scheme in the event that we are unable to meet our obligations under our mortgage business' or use words to that effect.
- (2) Compliance with (1) may be relied on as tending to establish compliance with *IPMI 1.2.4R*.
- (3) Contravention of (1) may be relied on as tending to establish contravention of *IPMI 1.2.4R*.
- 1.2.6 R Table Non-exhaustive list of provisions about status disclosure

This table belongs to *IPMI 1.2.4R*.

Provision	Topic
<i>MCOB 4.4.1R(1)(c)</i>	Initial disclosure requirements
<i>MCOB 4 Ann 1R</i>	
<i>MCOB 4 Ann 2R</i>	
<i>MCOB 8.4.1R</i>	Initial disclosure requirements for <i>lifetime mortgages</i> and <i>home reversion schemes</i>
<i>MCOB 8 Ann 1R</i>	

### 1.3 Application of the handbook to interim permitted mortgage intermediaries

- 1.3.1 G The *Mortgages Transitional Order* provides broadly that *interim permitted mortgage intermediaries* are to be treated, unless otherwise provided, as *authorised persons* for the purposes of the *Act* and of any provision made under the *Act* (see paragraph 5 of the Schedule to the *Mortgages Transitional Order*). As a result, the *Handbook* applies to *interim permitted mortgage intermediaries* and any *regulated activity* for which they are seeking *permission* is *regulated activity* for the purposes of the *Handbook*.
- 1.3.2 G Annex 4G to *MCOB 1* contains a list of the parts of the *Handbook* and their application to *mortgage intermediaries*. This annex is also relevant to *interim permitted mortgage intermediaries*, with the modifications set out in *IPMI 1.3.3G*.
- 1.3.3 G Table Modifications to *MCOB 1 Ann 4G* where the firm concerned is an interim permitted mortgage intermediary

This table belongs to *IPMI 1.3.2G*.

Part of Handbook	Extent of modification
Statements of Principle and Code of Practice for Approved Persons ( <i>APER</i> )	Under article 3 of the <i>Mortgages Transitional Order</i> , special provision is made for <i>approved persons</i> carrying on controlled functions for <i>interim permitted mortgage intermediaries</i> .
General provisions ( <i>GEN</i> )	<i>GEN 1.2</i> (Referring to approval by the <i>FSA</i> ) does not apply to <i>interim permitted mortgage intermediaries</i> : see <i>IPMI 1.2.2D</i> . Instead, <i>IPMI 1.2.3R</i> makes provision about <i>interim permitted mortgage intermediaries</i> referring to approval by the <i>FSA</i> or <i>authorisation</i> for the purposes of the <i>Act</i> .
Mortgages: Conduct of Business ( <i>MCOB</i> )	<p>(1) This applies.</p> <p>(2) <i>IPMI 1.2.4R</i> makes special provision for required status disclosure by <i>interim permitted mortgage intermediaries</i>.</p> <p>(3) Paragraph 6 of the Schedule to the <i>Mortgages Transitional Order</i> provides broadly that an <i>interim permitted mortgage intermediary</i> is not authorised for the purposes of sections 21(1) (Restrictions on financial promotion) and 25(2)(a)</p>

	<p>(Contravention of section 21) unless the communication invites an agreement the making or performance of which constitutes a <i>controlled activity</i> corresponding to a <i>regulated activity</i> covered by his <i>interim mortgage permission</i>.</p>
<p>Authorisation manual (<i>AUTH</i>)</p>	<p>(1) Paragraph 2 of the Schedule to the <i>Mortgages Transitional Order</i> provides that for the purposes of section 20 (Authorised persons acting without permission) a person's <i>interim mortgage permission</i> is treated as having been given to him under Part IV of the <i>Act</i>.</p> <p>(2) Paragraph 3 of the Schedule to the <i>Mortgages Transitional Order</i> provides that an applicant's <i>interim mortgage permission</i> is to be disregarded for the purposes of sections 38(2) (Exemption orders), 40(2) (Application for permission), 42 (Giving permission), 43 (Imposition of requirements) and 44(1), (4) and (5) (Variation etc. at request of authorised person) of the <i>Act</i>.</p> <p>(3) Under article 3 of the <i>Mortgages Transitional Order</i>, special provision is made for <i>approved persons</i> carrying on controlled functions for <i>interim permitted mortgage intermediaries</i>.</p> <p>(4) The Schedule to the <i>Mortgages Transitional Order</i> provides broadly that <i>interim permitted mortgage intermediaries</i>:</p> <p>(a) are to be treated, unless otherwise provided, as <i>authorised persons</i> for the purposes of the <i>Act</i> (see paragraph 5); and</p>

	(b) may still be <i>appointed representatives</i> (and hence may be treated as exempt from the <i>general prohibition</i> as a result of section 39(1) for the purposes of section 42(3)(a) of the <i>Act</i> (see paragraph 7).
Supervision manual ( <i>SUP</i> )	See notes (2), (3) and (4)(b) to <i>AUTH</i> which are relevant to <i>SUP 6</i> , <i>SUP 7</i> , <i>SUP 10</i> and <i>SUP 12</i> .
Compensation sourcebook ( <i>COMP</i> )	This does not apply:  (1) to an <i>interim permitted mortgage intermediary</i> who is an <i>interim authorised mortgage person</i> ; and  (2) to an <i>interim permitted mortgage intermediary</i> who is not an <i>interim authorised mortgage person</i> in respect of his <i>mortgage mediation activities</i> .

1.3.4 D The *FSA* directs that any special application or disapplication provisions in the *Handbook* are to apply to *interim permitted mortgage intermediaries* as nearly as possible as if the application for *permission* which gives rise to the *interim mortgage permission* has been granted in the terms applied for, including as if the *requirements* and *limitations* applied for (or otherwise required to give effect to the terms of the application) have already been included in that *permission*.

1.3.5 D The *FSA* directs that *COMP*:

- (1) does not apply to an *interim authorised mortgage person*;
- (2) does not apply to an *interim permitted mortgage intermediary* who is not an *interim authorised mortgage person* in respect of his *mortgage mediation activities*.

1.3.6 R In *COMP*, *relevant person* does not include:

- (1) an *interim authorised mortgage person*;
- (2) in respect of his *mortgage mediation activities*, an *interim permitted mortgage intermediary* who is not an *interim authorised mortgage person*.

- 1.3.7 G Where the *FSA* has given an *interim permitted mortgage intermediary* a *waiver* from a provision of the *Handbook*, the terms of that *waiver* are to be taken into account in determining the provisions of the *Handbook* that apply to that *interim permitted mortgage intermediary*.

## 2. Interpretation

### 2.1 GEN and Glossary apply

- 2.1.1 R The General provisions (*GEN*) of the *Handbook* and the *Glossary* made under the *Act* apply in the interpretation of *IPMI*, unless *IPMI* 1.2.2D applies.
- 2.1.2 R The terms in *IPMI* 2.1.3R are also defined for the purposes of *IPMI*.
- 2.1.3 R Terms defined for the purposes of *IPMI*

This table belongs to *IPMI* 2.1.2R.

Defined expression	Definition
<i>interim authorised mortgage person</i>	an <i>interim permitted mortgage intermediary</i> who is an <i>authorised person</i> only because he has an <i>interim mortgage permission</i> .
<i>interim mortgage permission</i>	a <i>Part IV permission</i> conferred by article 2 of the <i>Mortgages Transitional Order</i> .
<i>interim permitted mortgage intermediary</i>	a person who has an <i>interim mortgage permission</i> .
<i>IPMI</i>	Directions, rules and guidance for Interim Permitted Mortgage Intermediaries forming the Annex to the Interim Permitted Mortgage Intermediaries Instrument 2004 (FSA 2004/84).
<i>Mortgages Transitional Order</i>	The Financial Services and Markets Act 2000 (Transitional Provisions) (Mortgages) Order 2004 (SI 2004/2615).

**CHANGING ACCOUNTING FRAMEWORK INSTRUMENT 2004****Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) 138 (General rule-making power);
  - (2) 141 (Insurance business rules);
  - (3) 156 (General supplementary powers);
  - (4) 157 (Guidance).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C. This instrument comes into force as follows:
- (1) the amendments to SUP 16 Annex 18BG in Annex E, Part 2 come into force on 1 April 2005;
  - (2) all other amendments come into force on 1 January 2005.

**Amendments to the Handbook**

- D. The modules of the FSA’s Handbook of rules and guidance listed in column (1) below are amended in accordance with the Annexes to this instrument listed in column (2).

(1)	(2)
Interim Prudential sourcebook for Banks (IPRU(BANK))	Annex A
Interim Prudential sourcebook for Friendly Societies (IPRU(FSOC))	Annex B
Interim Prudential sourcebook for Insurers (IPRU(INS))	Annex C

- E. This instrument may be cited as the Changing Accounting Framework Instrument 2004.

By order of the Board  
18 November 2004

## Annex A

### Amendments to the Interim Prudential sourcebook for Banks

In this Annex, underlining indicates new text and striking through indicates deleted text.

#### Volume 2, LE LARGE EXPOSURES

...

#### 5 KEY DEFINITIONS: COUNTERPARTY

...

#### 5.3 Connected counterparties

...

9 *Parties connected to a bank* comprise:

(a) ...

(b) ~~associated companies~~ as defined by Financial Reporting Standard 9 or by International Accounting Standard 28;

...

#### Volume 2, VA VALUATION

...

#### 2 GENERAL POLICY ON VALUATION

...

5 The form and content of a bank's statutory financial statements are governed by:

(a) the Companies Act 1985, as amended by the Companies Act 1985 (Bank Accounts) Regulations 1991 ('BAR'), which implemented the EU Bank Accounts Directive, and the Companies Act 1985 (International Accounting Standards and Other Accounting Amendments) Regulations 2004 (SI 2004/to follow), which made arrangements for the use of *international accounting standards* (see definition in the *Glossary*) by companies and implemented the accounting Modernisation Directive (2003/51/EC) of 18 June 2003;

a) ...

(b) accounting standards comprising statements of standard accounting practice ('SSAPs') and financial reporting standards ('FRSs') or, where applicable, *international accounting standards*; and

a) SSAPs, ~~and~~ FRSs and *international accounting standards* focus on particular accounting issues and apply to the generality of companies.

(c) ...

a) Because ~~the SSAPs and FRSs~~ accounting standards apply to the generality of companies and not to banks specifically, they do not cover the accounting treatment of instruments and transactions peculiar to banks. SORPs issued by the BBA seek to plug this gap by codifying best banking industry practices.

...

## Volume 2, CS CONSOLIDATED SUPERVISION

...

### 4 SCOPE OF CONSOLIDATION

...

#### 4.3 Companies to be consolidated

3 Consolidation then extends to all relevant financial companies within that domain: that is the *parent company*; its *subsidiaries*; and companies in which the parent or its subsidiaries have a *participation*.

a) ...

b) ~~[deleted] The notion of *subsidiary* is also normally extended to cover a company over which the parent or one of its subsidiaries exercises *dominant influence*. The criteria used to determine whether dominant influence exists are those provided by the contemporary UK accounting standards.~~

i) ~~— The relevant accounting standard is FRS2, Accounting for Subsidiary Undertakings.~~

c) ...

...

## Volume 2, PN PROVISIONING POLICY STATEMENTS

...

### 2 THE FSA'S BASIC APPROACH TO PROVISIONING

1 The *FSA* regards the prudent valuation of assets and the establishment of provisions as of fundamental importance. The *FSA* expects contingent liabilities and anticipated losses to be recognised in accordance with accepted accounting standards (as embodied in the Statements of Standard Accounting Practice and Financial Reporting Standards or, where applicable, *international accounting standards* (see definition in the *Glossary*)).

#### 1 SOLVENCY

##### Annex 1G Definitions of Zone A and Zone B Countries

###### *1G.1.1*

~~Member States of the European Community and all other countries which are full members of the Organisation for Economic Co-operation and Development (OECD) and those countries which have concluded special lending arrangements with the International Monetary Fund (IMF) associated with the Fund's General Arrangements to Borrow (GAB). Any country which reschedules its external sovereign debt is however, precluded from Zone A for a period of 5 years. Zone A countries currently comprise Australia, Austria, Belgium, Canada, Czech Republic, Denmark, Finland, France, Germany (including pre-unification claims on East Germany), Greece, Hungary, Iceland, Ireland, Italy, Japan, South Korea, Luxembourg, Mexico, Netherlands, New Zealand, Norway, Poland, Portugal, Saudi Arabia, Spain, Sweden, Switzerland, Turkey, United Kingdom and USA. For the definition of Zone A country see the Handbook Glossary.~~

## Annex D

### Amendments to the Supervision manual

In this Annex, underlining indicates new text and striking through indicates deleted text.

SUP 16 Annex 2G: Guidance notes on completion of banks' reporting forms (including validations)

Supervisory Guidance Notes (SGN)

...

Appendix C

Zone A/Zone B countries

~~The term “Zone A” covers full members of the OECD and those countries which have concluded special lending arrangements with the IMF associated with the IMF’s General Arrangements to Borrow, provided they have not rescheduled their external sovereign debt to official or commercial bank creditors in the previous five years. At present, these countries comprise:~~

~~Australia, Austria, Belgium, Canada, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Japan, Luxembourg, Mexico, Netherlands, New Zealand, Norway, Poland, Portugal, Saudi Arabia, Spain, South Korea, Sweden, Switzerland, Turkey, United Kingdom and United States.~~

For the definition of *Zone A country* see the *Glossary*.

## Annex E

### Amendments to the Glossary

In this Annex underlining indicates new text and striking through indicates deleted text.

...

~~*Zone A country*~~

~~any *EEA State* and any other country which is a full member of the *OECD* and any country which has concluded special lending arrangements with the International Monetary Fund associated with the Fund's General Arrangements to Borrow.~~

*Zone A country*

(a) any *EEA State*;

(b) all other countries which are full members of the *OECD*; and

(c) those countries which have concluded special lending arrangements with the International Monetary Fund (IMF) associated with the Fund's general arrangements to borrow (GAB).

save that any country falling with (a), (b) or (c) which reschedules its external sovereign debt is precluded from Zone A for a period of five years.

**INTEGRATED PRUDENTIAL SOURCEBOOK (INSURERS AND OTHER  
AMENDMENTS) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 ("the Act"):
- (1) section 138 (General rule-making power);
  - (2) section 141 (Insurance business rules);
  - (3) section 149 (Evidential provisions);
  - (4) section 150(2) (Actions for damages);
  - (5) section 156 (General supplementary powers); and
  - (6) section 157(1) (Guidance).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C. This instrument comes into force as follows:
- (1) PRU 8.3.15R in Annex J comes into force on 31 December 2006;
  - (2) subject to (3), the remainder of this instrument comes into force on 31 December 2004;
  - (3) paragraph E below comes into force on 1 December 2004.

**Amendments to the Integrated Prudential sourcebook**

- D. The Integrated Prudential sourcebook is amended:
- (1) by inserting new chapters or sections of chapters, as listed in column (1) of the following table, in accordance with the Annexes to this instrument listed in column (2):

(1)	(2)
PRU 1.2	Annex A
PRU 1.3	Annex B
PRU 1.4	Annex C
PRU 2	Annex D
PRU 3	Annex E
PRU 4	Annex F
PRU 5	Annex G
PRU 6	Annex H
PRU 7	Annex I
PRU 8.3	Annex J

- (2) in accordance with Annex K to this instrument.

**Revocation**

- E. Annex E to the Financial Conglomerates and Other Financial Groups Instrument 2004 is revoked.

**Citation**

- F. This instrument may be cited as the Integrated Prudential Sourcebook (Insurers and Other Amendments) Instrument 2004.

By order of the Board  
18 November 2004

## Annex A

### PRU 1.2

In this Annex, all the text is new and is not underlined.

#### 1.2 Adequacy of financial resources

##### Application

- 1.2.1 R This section applies to an *insurer* unless *PRU 1.2.7R* applies.
- 1.2.2 R (1) In relation to *liquidity risk* only, this section applies to a *firm* in *PRU 1.2.3R* unless *PRU 1.2.7R* applies.
- (2) *Liquidity risk* includes the systems, processes and resources required by this section in respect of *liquidity risk*.
- 1.2.3 R The *firms* referred to in *PRU 1.2.2R(1)* are:
- (1) a *building society*;
- (2) a *bank* or an *own account dealer* (other than a *venture capital firm*) that is a *UK firm*;
- (3) an *incoming EEA firm* which:
- (a) is a *full BCD credit institution*; and
- (b) has a *branch* in the *United Kingdom*;
- (4) an *overseas firm* which is a *bank* or an *own account dealer* (other than a *venture capital firm*) but which is not:
- (a) an *incoming EEA firm*; or
- (b) a *lead-regulated firm*;
- (5) an *overseas firm* which:
- (a) is a *bank*;
- (b) is a *lead-regulated firm*;
- (c) is not an *incoming EEA firm*; and
- (d) has a *branch* in the *United Kingdom*.
- 1.2.4 R For a *firm* described in *PRU 1.2.3R(3)* or *PRU 1.2.3R(5)*, this section applies only with respect to the *branch*.

- 1.2.5 R This section applies to an *incoming EEA firm* only to the extent that the relevant matter is not reserved by the relevant *Single Market Directive* to the *firm's Home State regulator*.
- 1.2.6 R If a *firm* carries on:
- (1) *long-term insurance business*; and
  - (2) *general insurance business*;
- this section applies separately to each type of business.
- 1.2.7 R This section does not apply to:
- (1) a *non-directive friendly society*; or
  - (2) a *Swiss general insurer*; or
  - (3) an *EEA-deposit insurer*; or
  - (4) a *UCITS qualifier*; or
  - (5) an *ICVC*; or
  - (6) an *incoming EEA firm* (unless *PRU 1.2.3R* applies); or
  - (7) an *incoming Treaty firm*.
- 1.2.8 G The *guidance* in *PRU 1.2* is drafted with respect to a *firm* to which *PRU 1.2* and the other provisions of *PRU* referred to in *PRU 1.2* apply in full. The *guidance* in *PRU 1.2* is also applicable to a *firm* that falls into *PRU 1.2.2R*. However the *guidance* in *PRU 1.2*, as it applies to such a *firm*, should be read accordingly. In particular, the *guidance* in *PRU 1.2* only applies to such a *firm* in respect of *liquidity risk*.
- 1.2.9 G In the case of an *incoming EEA firm* that is a *full BCD credit institution* and of an *overseas firm* that is a *lead-regulated firm*, *PRU 1.2* only applies to its *United Kingdom branch*. However, as a *branch* is not itself a legal entity separate from the rest of a *firm*, this restriction does not mean that the rest of the *firm* can necessarily be left out of account when considering compliance with *PRU 1.2*. For example, the availability of the *branch's* liquidity resources may be affected by general liquidity problems in the *firm*. Likewise, there may be liquidity resources elsewhere in the *firm* that are available to meet liquidity problems in the *branch*.
- 1.2.10 G One factor that may affect the degree to which it is necessary to take into account the *firm* as a whole is the extent to which the *firm* manages the liquidity of the *branch* on an autonomous basis, or includes the *branch* within integrated liquidity management of the *firm* as a whole. In the latter case, for instance, the requirement in *PRU 1.2.35R* to carry out scenario analyses may be satisfied by the *firm* meeting similar requirements set by the regulator in its home country in respect of the *firm* as whole, provided that the *firm* separately identifies the impacts on the *United Kingdom branch* of the scenarios analysed. However, in the case of a *full BCD*

*credit institution*, the application of *PRU 1.2* is further restricted by *PRU 1.2.5R*.

- 1.2.11 G The scope of application of *PRU 1.2* is not restricted to *firms* that are subject to the relevant EC Directives. It applies, for example, to *pure reinsurers*.
- 1.2.12 G The adequacy of a *firm's* financial resources needs to be assessed in relation to all the activities of the *firm* and the risks to which they give rise.
- 1.2.13 G The requirements in *PRU 1.2* apply to a *firm* on a solo basis.

#### Purpose

- 1.2.14 G This section amplifies *Principle 4*, under which a *firm* must maintain adequate financial resources. It is concerned with the adequacy of the financial resources which a *firm* needs to hold in order to be able to meet its liabilities as they fall due. These resources include both capital and liquidity resources. *PRU 2* sets out provisions relating to the adequacy of *capital resources*. *PRU 5* contains provisions relating to liquidity.
- 1.2.15 G This section therefore introduces *rules* requiring a *firm* to identify and assess risks to its being able to meet its liabilities as they fall due, how it intends to deal with those risks, and the amount and nature of financial resources the *firm* considers necessary. These assessments should be documented so that they can be easily reviewed by the *FSA* as part of the *FSA's* assessment of the adequacy of *capital resources*.
- 1.2.16 G This section also introduces *rules* requiring a *firm* to carry out appropriate stress tests and scenario analyses for the risks it has previously identified and to establish the amount of financial resources needed in each of the circumstances and events considered in carrying out the stress tests and scenario analyses.
- 1.2.17 G The adequacy of a *firm's capital resources* needs to be assessed both by the *firm* and the *FSA*. This is done, by the *FSA*, through comparing the *firm's capital resource requirements* with its *capital resources* and by review of a *firm's* processes and systems for assessing capital needs, the results of the *firm's* assessments, and other information available to the *FSA* on the risks faced by the *firm*.

#### Outline of other related provisions

- 1.2.18 G *PRU 2.1* sets out the minimum *capital resources requirements* for a *firm*. *PRU 2.2* sets out how *capital resources* are defined and measured for the purpose of meeting the requirements of *PRU 2.1*.
- 1.2.19 G *PRU 2.3* sets out detailed *guidance* on how *firms* could assess the adequacy of their *capital resources* both to comply with the *rules* set out in this section and to enable the *FSA* to assess better whether the minimum *capital resources requirements* of *PRU 2.1* are appropriate. The more thorough, objective, and prudent a *firm's* capital assessment is and can be demonstrated as being, the more reliance the *FSA* will be able to place on the results of that assessment. The *FSA* will consider the appropriateness of the *firm's* capital assessment to establish the level of *capital resources* the *firm* needs. This may result in the *FSA's* assessment of a *firm's*

*capital resources* needs being lower or higher than would otherwise be the case.

1.2.20 G *PRU 5.1* sets out general systems and controls provisions for *liquidity risk*.

1.2.21 G *PRU 1.4* sets out *rules* and *guidance* on the establishment and maintenance of systems and controls.

#### Main Requirements

1.2.22 R A *firm* must at all times maintain overall financial resources, including *capital resources* and liquidity resources, which are adequate, both as to amount and quality, to ensure that there is no significant risk that its liabilities cannot be met as they fall due.

1.2.23 G The liabilities referred to in *PRU 1.2.22R* include contingent and prospective liabilities that a *firm* has potentially incurred. It therefore excludes liabilities that might arise from transactions that a *firm* has not entered into and which it could avoid, for example, by ceasing to trade. It includes liabilities or costs that arise as a consequence of strategies other than continuing as a going concern. It also includes claims that could be made against a *firm*, which ought to be paid in accordance with fair treatment of *customers*, even if such claims could not be legally enforced.

1.2.24 G A *firm* should therefore make its assessment of adequate financial resources on realistic valuation bases for assets and liabilities taking into account the actual amounts and timing of cash flows under realistic adverse projections. This does not require a *firm* to hold financial resources sufficient to ensure that any particular margin of financial resources is maintained under such adverse projections.

1.2.25 G Risks may be addressed through holding capital to absorb losses that unexpectedly materialise. The ability to pay liabilities as they fall due also requires liquidity. Therefore, in assessing the adequacy of a *firm's* financial resources, both capital and liquidity needs should be considered. *PRU 5.1.86E* is an *evidential provision* relating to *PRU 1.2.22R* concerning *contingency funding plans*. A *firm* should also consider the quality of its financial resources such as the loss-absorbency of different types of capital and the time required to liquidate different types of asset.

1.2.26 R A *firm* must carry out regular assessments of the adequacy of its financial resources using processes and systems which comply with *PRU 1.2.27R*.

1.2.27 R The processes and systems required by *PRU 1.2.26R* must be proportionate to the nature, scale and complexity of the *firm's* activities.

1.2.28 G *PRU 1.2.27R* amplifies the requirement in *SYSC 3.2.6R*.

1.2.29 G The processes and systems are required for a *firm's* internal assessment of the adequacy of its financial resources. The appropriateness of the internal process, and the degree of involvement of senior management in the process, will be taken into account by the *FSA* when reviewing a *firm's* assessment as part of the *FSA's* own assessment of the adequacy of a *firm's* financial resources. The processes and systems should ensure that the assessment of the adequacy of a *firm's* financial resources is reported to its senior management as often as is necessary. In addition,

a *firm* would be expected to reassess the adequacy of its financial resources should the *firm* experience some material change to the nature or scale of its activities.

- 1.2.30 G The assessments undertaken by *firms in run-off* may not need to be as comprehensive or frequent compared to a *firm* not in run off since this may better reflect the reduced nature and complexity of its business and reduced access to new capital. Whilst a *firm in run-off* will still need to carefully monitor the progress of the run off, a more comprehensive assessment may only be appropriate on commencement of the run off or when considering a reduction in capital through the payment of a dividend or other capital distribution or if the *firm's* circumstances change materially.
- 1.2.31 R The processes and systems required by *PRU 1.2.26R* must enable the *firm* to identify the major sources of risk to its ability to meet its liabilities as they fall due, including the major sources of risk in each of the following categories:
- (1) credit risk;
  - (2) *market risk*;
  - (3) *liquidity risk*;
  - (4) operational risk; and
  - (5) insurance risk.
- 1.2.32 G In *PRU 1.2.31R*:
- (1) operational risk refers to the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events; and
  - (2) insurance risk refers to the inherent uncertainties as to the occurrence, amount and timing of insurance liabilities.
- 1.2.33 R The processes and systems required by *PRU 1.2.26R* must enable the *firm* to carry out an assessment of how it intends to deal with each of the major sources of risk identified in accordance with *PRU 1.2.31R*.
- 1.2.34 G Certain risks such as systems and controls weaknesses may not be adequately addressed by, for example, holding additional capital and a more appropriate response would be to rectify the weakness. In such circumstances, the amount of financial resources required to address these risks, which may not be adequately addressed by holding additional capital, will be zero. However, a *firm* must, in accordance with *PRU 1.2.37R*, document the approaches taken to manage these risks.
- 1.2.35 R For each of the major sources of risk identified in accordance with *PRU 1.2.31R*, the *firm* must carry out stress tests and scenario analyses that are appropriate to the nature of those major sources of risk, as part of which the *firm* must:
- (1) take reasonable steps to identify an appropriate range of realistic adverse

circumstances and events in which the risk identified crystallises; and

- (2) estimate the financial resources the *firm* would need in each of the circumstances and events considered in order to be able to meet its liabilities as they fall due.
- 1.2.36 G Stress tests and scenario analyses should be carried out at least annually. A *firm* should, however, consider whether the nature of the major sources of risks identified by it in accordance with *PRU* 1.2.31R and their possible impact on its financial resources suggest that such tests and analyses should be carried out more frequently. For instance, a sudden change in the economic outlook may prompt a *firm* to revise the parameters of some of its stress tests and scenario analyses. Similarly, if a *firm* has recently become exposed to a particular sectoral concentration, it may wish to add some stress tests and scenario analyses in order to reflect that concentration. *PRU* 5.1.61E is an *evidential provision* relating to *PRU* 1.2.35R concerning scenario analysis in relation to *liquidity risk*.
- 1.2.37 R A *firm* must make a written record of its assessment of the adequacy of its financial resources, including:
- (1) the major sources of risk identified in accordance with *PRU* 1.2.31R;
  - (2) how it intends to deal with those risks; and
  - (3) details of the stress tests and scenario analyses carried out and the resulting financial resources estimated to be required in accordance with *PRU* 1.2.35R.
- 1.2.38 R A *firm* must retain the records of its assessment of the adequacy of its financial resources for at least three years.
- 1.2.39 G Where a *firm* follows the *guidance* set out in *PRU* 2.3.35G to *PRU* 2.3.48G and assesses the adequacy of the *capital resources requirement (CRR)* in its particular circumstances as a basis for deciding what financial resources are adequate, it should include this in the documentation produced in accordance with *PRU* 1.2.37R.

#### Stress tests and scenario analyses

- 1.2.40 G A large part of the process of managing a *firm* is based on an understanding of the expected outcomes of its business operations and outside events and the normal variation about these expected outcomes. To gain a comprehensive view of the risks being run by a *firm*, an analysis of extreme events is also needed. Such analysis may take the form of stress tests and scenario analyses. For example, a *firm* may normally expect interest rates to increase or decrease by 1 or 2 percentage points due to normal variations in economic conditions. However, in some extreme circumstances, interest rates may change by a much greater amount. The use of stress tests and scenario analyses can give a *firm's* management a better understanding of the *firm's* true exposure in extreme circumstances.
- 1.2.41 G Stress testing typically refers to shifting the values of individual parameters that affect the financial position of a *firm* and determining the effect on the *firm's*

business.

- 1.2.42 G Scenario analysis typically refers to a wider range of parameters being varied at the same time. Scenario analyses often examine the impact of catastrophic events on the *firm's* financial position, for example, simultaneous movements in a number of risk categories affecting all of a *firm's* business operations such as business volumes, investment values and interest rate movements.
- 1.2.43 G Scenarios generally could also be considered under three broad categories. For example, changes to the business plan, scenarios that involve changes in business cycles and those relating to extreme events. The scenarios can be derived in a variety of ways including stochastic models, analysis of historic experience or a repetition of an historical event. Scenarios can be developed with varying degrees of precision and depth.
- 1.2.44 G Both stress tests and scenario analyses can be undertaken by *firms* to further a better understanding of the vulnerabilities that they face under extreme conditions. They are based on the analysis of the impact of unlikely, but not impossible, events. These events can be financial, operational, legal or relate to any other risk that might have an economic impact on the *firm*.
- 1.2.45 G *PRU 1.2.35R* requires a *firm*, as part of carrying out stress tests and scenario analyses, to take reasonable steps to identify an appropriate range of realistic circumstances and events in which a risk would crystallise. In particular:
- (1) a *firm* need only carry out stress tests and scenario analyses in so far as the circumstances or events are reasonably foreseeable, that is to say, their occurrence is not too remote a possibility; and
  - (2) a *firm* should also take into account the relative costs and benefits of carrying out the stress tests and scenario analyses in respect of the circumstances and events identified.
- 1.2.46 G The purpose of stress tests and scenario analyses is to test the adequacy of overall financial resources. Scenarios need only be identified, and their impact assessed, in so far as this facilitates that purpose. In particular, the nature, depth and detail of the analysis depend, in part, upon the *firm's* capital strength and the robustness of its risk prevention and risk mitigation measures.
- 1.2.47 G Both stress testing and scenario analyses are prospective analysis techniques, which seek to anticipate possible losses that might occur if an identified risk crystallises. In applying them, a *firm* needs to decide how far forward to look. This should depend upon:
- (1) how quickly it would be able to identify events or changes in circumstances that might lead to a risk crystallising resulting in a loss; and
  - (2) after it has identified the event or circumstance, how quickly and effectively it could act to prevent or mitigate any loss resulting from the risk crystallising and to reduce exposure to any further adverse event or change in circumstance.

- 1.2.48 G The time horizon over which stress tests and scenario analysis would need to be carried out for the *market risk* arising from the holding of *investments*, for example, should depend upon:
- (1) the extent to which there is a regular, open and transparent market in those assets, which would allow fluctuations in the value of the *investment* to be more readily and quickly identified; and
  - (2) the extent to which the market in those assets is liquid (and would remain liquid in the changed circumstances contemplated in the stress test or scenario analysis) which would allow the *firm*, if needed, to sell its holding so as to prevent or reduce exposure to future price fluctuations.
- 1.2.49 G In identifying scenarios, and assessing their impact, a *firm* should take into account, where material, how changes in circumstances might impact upon:
- (1) the nature, scale and mix of its future activities; and
  - (2) the behaviour of *counterparties*, and of the *firm* itself, including the exercise of choices (for example, options embedded in financial instruments or *contracts of insurance*).
- 1.2.50 G In determining whether it would have adequate financial resources in the event of each identified realistic adverse scenario, a *firm* should:
- (1) only include financial resources that could reasonably be relied upon as being available in the circumstances of the identified scenario; and
  - (2) take account of any legal or other restriction on the purposes for which financial resources may be used.
- 1.2.51 G A *firm* should consider conducting stress tests and scenario analyses which enable it to assess its exposure not only in its current position in the economic and business cycles, but also the possible changes in the cycles which might be expected over, say, the next three to five years.
- 1.2.52 G A *firm* may consider scenarios in which expected future profits will provide capital reserves against future risks. However, it would only be appropriate to take into account profits that can be foreseen with some certainty as arising before the risk against which they are being held could possibly arise. In estimating future reserves, a *firm* should deduct future dividend payment estimates from projections of future profits.
- 1.2.53 G A *firm* may substitute for traditional stress tests and scenario analyses more sophisticated modelling techniques and this approach is acceptable providing major risks are identified and the modelling has the effect of calculating the effect on a *firm's* financial position where the risks crystallise or are assumed to crystallise with a particular probability.
- 1.2.54 G Additional *guidance* on stress tests and scenario analyses for the assessment of *capital resources* is available in *PRU 2.3*.

- 1.2.55 G Additional *guidance* in relation to stress tests and scenario analysis for *liquidity risk* is available in *PRU 5.1.58G* to *PRU 5.1.62G*.

## Annex B

### PRU 1.3

In this Annex, all the text is new and is not underlined.

#### 1.3 Valuation

##### Application

- 1.3.1 R *PRU 1.3* applies to an *insurer*, unless it is:
- (1) a *non-directive friendly society*; or
  - (2) an *incoming EEA firm*; or
  - (3) an *incoming Treaty firm*.
- 1.3.2 G The scope of application of *PRU 1.3* is not restricted to *firms* that are subject to relevant EC directives. It applies, for example, to *pure reinsurers*.
- 1.3.3 R (1) *PRU 1.3* applies to a *firm* in relation to the whole of its business.
- (2) Where a *firm* carries on both *long-term insurance business* and *general insurance business*, *PRU 1.3* applies separately to each type of business.

##### Purpose

- 1.3.4 G *PRU 1.3* sets out, for the purposes of *PRU*, *rules* and *guidance* as to how a *firm* should recognise and value assets, liabilities, equity and income statement items. Except where a *rule* in *PRU* makes different provision, *PRU 1.3* applies whenever a *rule* in *PRU* refers to the value or amount of an asset, liability, equity or income statement item

##### General requirements: accounting principles to be applied

- 1.3.5 R Except where a *rule* in *PRU* provides for a different method of recognition or valuation, whenever a *rule* in *PRU* refers to an asset, liability, equity or income statement item, a *firm* must, for the purpose of that *rule*, recognise the asset, liability, equity or income statement item and measure its value in accordance with:
- (1) the *insurance accounts rules*, or the Friendly Societies (Accounts and Related Provisions) Regulations 1994;
  - (2) Financial Reporting Standards and Statements of Standard Accounting Practice issued or adopted by the Accounting Standards Board; and
  - (3) Statements of Recommended Practice, issued by industry or sectoral bodies recognised for this purpose by the Accounting Standards Board;

as applicable to the *firm* (or as would be applicable if the *firm* were a company with its head office in the *United Kingdom*).

- 1.3.6 G *PRU* 1.3.5R provides that unless a *rule* in *PRU* provides for a different method of recognition or valuation, the applicable provisions of the Companies Act 1985, the Companies Act (Northern Ireland) Order 1986 or the Friendly Societies (Accounts and Related Provisions) Regulations 1994, as supplemented by Financial Reporting Standards, Statements of Standard Accounting Practice, and Statements of Recommended Accounting Practice, should be used to determine the recognition and valuation of assets, liabilities, equity and income statement items for the purposes of *PRU*, including:
- (1) whether, and when, to recognise or de-recognise an asset or liability;
  - (2) the amount at which to value an asset, liability, equity or income statement item;
  - (3) which description to place on an asset, liability, equity or income statement item.
- 1.3.7 G In particular, unless an exception applies, *PRU* 1.3.5R should be applied for the purposes of *PRU* to determine how to account for:
- (1) netting of amounts due to or from the *firm*;
  - (2) the securitisation of assets and liabilities (see also *PRU* 1.3.8G);
  - (3) leased tangible assets;
  - (4) assets transferred or received under a *sale and repurchase* or *stock lending* transaction; and
  - (5) assets transferred or received by way of initial or variation margin under a *derivative* or similar transaction.
- 1.3.8 G Where assets or liabilities are securitised, *PRU* 1.3.5R only permits de-recognition where Financial Reporting Standard 5 permits either de-recognition or the linked presentation. However, the *FSA* will consider granting a *waiver* to permit de-recognition in other circumstances provided that the *firm* can demonstrate that securitisation has effectively transferred risk
- 1.3.9 G Specific provisions for the methods and assumptions to be used by a *firm* in calculating its *mathematical reserves* are made in *PRU* 7.3.
- 1.3.10 G *PRU* 1.3.5R implements the requirements of Articles 23.3(viii) and 24.2(iv) of the *Consolidated Life Directive*. These articles require assets of a *firm* that are managed on its behalf by a *subsidiary undertaking* to be taken into account for the purposes of determining the *firm's admissible assets* and its assets in excess of concentration limits. The application of *PRU* 1.3.5R will result in such assets remaining on the balance sheet of the *firm*.

## Investments, derivatives and quasi-derivatives

- 1.3.11 R Subject to *PRU* 1.3.31R, for the purposes of *PRU*, a *firm* must apply *PRU* 1.3.12R to *PRU* 1.3.30R in order to determine how to account for:
- (1) *investments* that are, or amounts owed arising from the disposal of:
    - (a) *debt securities*, bonds and other money- and capital-market instruments; or
    - (b) loans; or
    - (c) *shares* and other variable yield participations; or
    - (d) *units* in *UCITS schemes*, *non-UCITS retail schemes*, *recognised schemes* and any other *collective investment scheme* that invests only in *admissible assets* (including any *derivatives* or *quasi-derivatives* held by the scheme); and
  - (2) *derivatives* and *quasi-derivatives*.

## Marking to market

- 1.3.12 R Wherever possible, a *firm* must use mark to market in order to measure the value of the *investments* referred to in *PRU* 1.3.11R. Marking to market is valuation at readily available close out prices from independent sources.
- 1.3.13 G For the purposes of *PRU* 1.3.12R, examples of readily available close out prices include exchange prices, screen prices, or quotes from several independent reputable brokers.
- 1.3.14 R When marking to market, a *firm* must use the more prudent side of bid/offer price unless the *firm* is a significant market maker in a particular position type and it can close out at the mid-market price.

## Marking to model

- 1.3.15 R Where marking to market is not possible, a *firm* must use mark to model in order to measure the value of the *investments* referred to in *PRU* 1.3.11R. Marking to model is any valuation which has to be benchmarked, extrapolated or otherwise calculated from a market input.
- 1.3.16 R When the model used is developed by the *firm*, that model must be:
- (1) based on appropriate assumptions which have been assessed and challenged by suitably qualified parties independent of the development process; and
  - (2) independently tested, including validation of the mathematics, assumptions, and software implementation.
- 1.3.17 R A *firm* must ensure that its senior management are aware of the positions which are subject to mark to model and understand the materiality of the uncertainty this

creates in the reporting of the performance of the business of the *firm* and the risks to which it is subject.

- 1.3.18 R A *firm* must source market inputs in line with market prices so far as possible and assess the appropriateness of the market inputs for the position being valued and the parameters of the model on each valuation date.
- 1.3.19 R A *firm* must use generally accepted valuation methodologies for particular products where these are available.
- 1.3.20 R A *firm* must establish formal change control procedures, hold a secure copy of the model, and periodically use that model to check valuations.
- 1.3.21 R A *firm* must ensure that its risk management functions are aware of the weakness of the models used and how best to reflect those in the valuation output.
- 1.3.22 R A *firm* must periodically review the model to determine the accuracy of its performance.
- 1.3.23 G Examples of periodical review are assessing the continued appropriateness of the assumptions and comparison of actual close out values to model inputs.

#### Independent price verification

- 1.3.24 R In addition to marking to market or marking to model, a *firm* must perform independent price verification. This is the process by which market prices or model inputs are regularly verified for accuracy and independence.
- 1.3.25 G For independent price verification, where independent pricing sources are not available or pricing sources are more subjective, for example, only one available broker quote, prudent measures such as valuation adjustments may be appropriate.

#### Valuation adjustments or reserves

- 1.3.26 R A *firm* must establish and maintain procedures for considering valuation adjustments or reserves. These procedures must be compliant with the requirements set out in *PRU* 1.3.29R.
- 1.3.27 R A *firm* using third-party valuations, or marking to model, must consider whether valuation adjustments are necessary.
- 1.3.28 R A *firm* must consider the need for establishing reserves for less liquid positions and, on an ongoing basis, review their continued appropriateness in accordance with the requirements set out in *PRU* 1.3.29R.
- 1.3.29 R The requirements referred to in *PRU* 1.3.26R and *PRU* 1.3.28R are:
  - (1) a *firm* must consider the following adjustments or reserves: unearned credit spreads, close-out costs, operational risks, early termination, investing and funding costs, future administrative costs and, where appropriate, model risk; and

- (2) a *firm* must consider several factors when determining whether a valuation reserve is necessary for less liquid items. These factors include the amount of time it would take to hedge out the position/risks within the position; the average and volatility of bid/offer spreads; the availability of market quotes (number and identity of market makers); and the average and volatility of trading volumes.

1.3.30 R If the result of establishing adjustments or reserves under *PRU* 1.3.26R to *PRU* 1.3.29R is a valuation which differs from the fair value determined in accordance with Financial Reporting Standards issued or adopted by the Accounting Standards Board, a *firm* must reconcile the two valuations.

Shares in, and debts due from, related undertakings

1.3.31 R *PRU* 1.3.11R does not apply to *shares* in, and *debts* due from, a *related undertaking* that is:

- (1) a *regulated related undertaking*; or
- (2) an *ancillary services undertaking*; or
- (3) any other *subsidiary undertaking*, the *shares* of which a *firm* elects to value in accordance with *PRU* 1.3.35R.

1.3.32 G The effect of *PRU* 1.3.31R is that *shares* in, and *debts* due from, *related undertakings* of the types referred to are not valued on a mark to market basis. As a result, *debts* due from these *undertakings*, and *shares* in *related undertakings* which are *ancillary services undertakings*, are valued at their accounting book value in accordance with *PRU* 1.3.5R. *Shares* in *related undertakings* referred to in *PRU* 1.3.31R(1) or (3) are valued in accordance with *PRU* 1.3.33R to *PRU* 1.3.38R.

1.3.33 R Except where the contrary is expressly stated in *PRU*, whenever a rule in *PRU* refers to *shares* held in, and *debts* due from, an *undertaking* referred to in *PRU* 1.3.31R(1) or *PRU* 1.3.31R(3), a *firm* must value the *shares* held in accordance with *PRU* 1.3.35R.

1.3.34 R In relation to *shares* in, and *debts* due from, an *undertaking* referred to in *PRU* 1.3.31R(1), *PRU* 1.3.33R does not apply for the purposes of *PRU* 2.2.78R and *PRU* 8.3.

1.3.35 R For the purposes of *PRU* 1.3.33R, the value of the *shares* held in an *undertaking* referred to in *PRU* 1.3.31R(1) or *PRU* 1.3.31R(3) is the sum of:

- (1) the regulatory surplus value of that *undertaking*; less
- (2) for the purposes of *PRU* 2.2.90R, the book value of the total investments in the tier one capital resources and tier two capital resources of that *undertaking* by the *firm* and its *related undertakings*; or
- (3) for other purposes in *PRU*, the sum of:

- (a) the book value of the investments by the *firm* and its *related undertakings* in the tier two capital resources of the *undertaking*; and
  - (b) if the *undertaking* is an *insurance undertaking*, its ineligible surplus capital and any restricted assets of the *undertaking* which have been excluded under *PRU* 8.3.41R(1).
  
- 1.3.36 R For the purposes of *PRU* 1.3.35R(1), the regulatory surplus value of an *undertaking* referred to in *PRU* 1.3.31R(1) or *PRU* 1.3.31R(3) is, subject to *PRU* 1.3.37R, the sum of:
  - (1) the tier one capital resources of the *undertaking*; plus
  - (2) the tier two capital resources of the *undertaking*; less
  - (3) the individual capital resources requirement of the *undertaking*.
  
- 1.3.37 R (1) Subject to *PRU* 1.3.38R, for the purposes of *PRU* 1.3.36R, only the relevant proportion of the:
  - (a) tier one capital resources of the *undertaking*;
  - (b) tier two capital resources of the *undertaking*;
  - (c) individual capital resources requirement of the *undertaking*;
 is to be taken into account.
  - (2) In (1), the relevant proportion is the proportion of the total number of *shares* issued by the *undertaking* held, directly or indirectly, by the *firm*.
  
- 1.3.38 R If the individual capital resources requirement of an *undertaking* in *PRU* 1.3.31R(1) that is a *subsidiary undertaking* exceeds the sum of its tier one capital resources and tier two capital resources, the full amount of the items referred to in *PRU* 1.3.37R(1) are to be taken into account for the purposes of *PRU* 1.3.36R.
  
- 1.3.39 R For the purposes of *PRU* 1.3.35R to *PRU* 1.3.38R:
  - (1) in relation to an *undertaking* referred to in *PRU* 1.3.31R(1):
    - (a) individual capital resources requirement has the meaning given by *PRU* 8.3.34R;
    - (b) the following expressions are to be construed in accordance with *PRU* 8.3.37R:
      - (i) tier one capital resources; and
      - (ii) tier two capital resources;
    - (c) ineligible surplus capital has the meaning given by *PRU* 8.3.67R;

(2) in relation to an *undertaking* referred to in PRU 1.3.31R(3), the following expressions are to be construed as if that *undertaking* were an *insurance holding company*:

- (a) individual capital resources requirement;
- (b) tier one capital resources; and
- (c) tier two capital resources.

- 1.3.40 G PRU 1.3.35R to PRU 1.3.39R set out several different valuation bases for a *firm's shares* in *related undertakings*. The regulatory surplus value (defined in PRU 1.3.36R) measures the *related undertaking's* own capital surplus or deficit. This is used: (i) in PRU 1.3.35R as a basis for calculating the impact on the *firm's* position of its investments in *related undertakings*; and (ii) in PRU 8.3 as a starting point for the calculation of ineligible surplus capital.
- 1.3.41 G PRU 1.3.35R determines how, for the purposes of the solo capital adequacy calculation of a *firm*, that *firm's capital resources* should be adjusted to take into account its investments in *related undertakings*.
- 1.3.42 G The *rules* that specify how, for the purposes of the adjusted solo capital calculation, a *firm* must incorporate its *related undertakings* into its *capital resources* and *capital resources requirement* are set out in PRU 8.3.

Community co-insurance operations: general insurance business

- 1.3.43 R Where a *relevant insurer* determines the amount of a liability in order to make provision for outstanding *claims* under a *Community co-insurance operation*, then, if the *leading insurer* has informed the *relevant insurer* of the amount of the provision made by the *leading insurer* for such *claims*, the amount determined by the *relevant insurer*:
- (1) must be at least as great as the amount of the provision made by the *leading insurer*; or
  - (2) in a case where it is not the practice in the *United Kingdom* to make such provision separately, must be sufficient, when all liabilities are taken into account, to include provision at least as great as that made by the *leading insurer* for such *claims*;

due regard being had in either case to the proportion of the risk covered by the *relevant insurer* and by the *leading insurer* respectively.

## Annex C

### PRU 1.4

In this Annex, all the text is new and is not underlined.

#### 1.4 Prudential risk management and associated systems and controls

##### Application

1.4.1 R *PRU 1.4* applies to an *insurer* unless it is:

- (1) a *non-directive friendly society*; or
- (2) an *incoming EEA firm*; or
- (3) an *incoming Treaty firm*.

1.4.2 R *PRU 1.4* applies to:

- (1) an *EEA-deposit insurer*; and
- (2) a *Swiss general insurer*;

only in respect of the activities of the *firm* carried on from a *branch* in the *United Kingdom*.

##### Purpose

1.4.3 G *PRU 1.4* sets out some *rules* and *guidance* on the establishment and maintenance of systems and controls for the management of a *firm's* prudential risks. A *firm's* prudential risks are those that can reduce the adequacy of its financial resources, and as a result may adversely affect confidence in the financial system or prejudice *consumers*. Some key prudential risks are credit, market, liquidity, operational, insurance and group risk.

1.4.4 G The purpose of *PRU 1.4* is to serve the *FSA's regulatory objectives* of consumer protection and market confidence. In particular, this section aims to reduce the risk that a *firm* may pose a threat to these *regulatory objectives*, either because it is not prudently managed, or because it has inadequate systems to permit appropriate senior management oversight and control of its business.

1.4.5 G Both adequate financial resources and adequate systems and controls are necessary for the effective management of prudential risks. A *firm* may hold financial resources to help alleviate the financial consequences of minor weaknesses in its systems and controls (to reflect possible impairments in the accuracy or timing of its identification, measurement, monitoring and control of certain risks, for example). However, financial resources cannot adequately compensate for significant weaknesses in a *firm's* systems and controls that could fundamentally undermine its ability to control its affairs effectively.

##### How to interpret PRU 1.4

- 1.4.6 G *PRU 1.4 is designed to amplify Principle 3 (Management and control) which requires that a firm take reasonable care to organise and control its affairs responsibly and effectively, with adequate risk management systems. PRU 1.4 is also designed to be complementary to SYSC 2, SYSC 3 and SYSC 3A in that it contains some additional rules and guidance on senior management arrangements and associated systems and controls for firms that could have a significant impact on the FSA's objectives in a prudential context.*
- 1.4.7 G In addition to supporting *PRIN* and *SYSC*, *PRU 1.4* lays the foundations for the more specific *rules* and *guidance* on the management of credit, market, liquidity, operational, insurance and group risks that are in *PRU 3.1*, *PRU 4.1*, *PRU 5.1*, *PRU 6.1*, *PRU 7.1* and *PRU 8.1* respectively. Many of the elements raised here in general terms are expanded upon in these sections.
- 1.4.8 G Appropriate systems and controls for the management of prudential risk will vary from *firm* to *firm*. Therefore most of the material in *PRU 1.4* is *guidance*. In interpreting this *guidance*, a *firm* should have regard to its own particular circumstances. Following from *SYSC 3.1.2G*, this should include considering the nature, scale and complexity of its business, which may be influenced by factors such as:
- (1) the diversity of its operations, including geographical diversity;
  - (2) the volume and size of its transactions; and
  - (3) the degree of risk associated with each area of its operation.
- 1.4.9 G The *guidance* contained within this section is not designed to be exhaustive. When establishing and maintaining its systems and controls a *firm* should have regard not only to other parts of the *Handbook*, but also to material that is issued by other industry or regulatory bodies.

#### The role of systems and controls in a prudential context

- 1.4.10 G In a *prudential context*, a *firm's* systems and controls should provide its senior management with an adequate means of managing the *firm*. As such, they should be designed and maintained to ensure that senior management is able to make and implement integrated business planning and risk management decisions on the basis of accurate information about the risks that the *firm* faces and the financial resources that it has.

#### The prudential responsibilities of senior management and the apportionment of those responsibilities

- 1.4.11 G Ultimate responsibility for the management of prudential risks rests with a *firm's governing body* and relevant *senior managers*, and in particular with those individuals that undertake the *firm's governing functions* and the *apportionment and oversight function*. In particular, these responsibilities should include:
- (1) overseeing the establishment of an appropriate business plan and risk management strategy;
  - (2) overseeing the development of appropriate systems for the management of prudential risks;

- (3) establishing adequate *internal controls*; and
- (4) ensuring that the *firm* maintains adequate financial resources.

The delegation of responsibilities within the firm

- 1.4.12 G Although authority for the management of a *firm's* prudential risks is likely to be delegated, to some degree, to individuals at all levels of the organisation, overall responsibility for this activity should not be delegated from its *governing body* and relevant *senior managers*.
- 1.4.13 G Where delegation does occur, a *firm* should ensure that appropriate systems and controls are in place to allow its *governing body* and relevant *senior managers* to participate in and control its prudential risk management activities. The *governing body* and relevant *senior managers* should approve and periodically review these systems and controls to ensure that delegated duties are being performed correctly.

Firms subject to risk management on a group basis

- 1.4.14 G Some *firms* organise the management of their prudential risks on a stand-alone basis. In some cases, however, the management of a *firm's* prudential risks may be entirely or largely subsumed within a whole *group* or *sub-group* basis.
- (1) The latter arrangement may still comply with the *FSA's* prudential policy on systems and controls if the *firm's governing body* formally delegates the functions that are to be carried out in this way to the *persons* or bodies that are to carry them out. Before doing so, however, the *firm's governing body* should have explicitly considered the arrangement and decided that it is appropriate and that it enables the *firm* to meet the *FSA's* prudential policy on systems and controls. The *firm* should notify the *FSA* if the management of its prudential risks is to be carried out in this way.
  - (2) Where the management of a *firm's* prudential risks is largely, but not entirely, subsumed within a whole *group* or *sub-group* basis, the *firm* should ensure that any prudential issues that are specific to the *firm* are:
    - (a) identified and adequately covered by those to whom it has delegated certain prudential risk management tasks; or
    - (b) dealt with by the *firm* itself.

- 1.4.15 G Any delegation of the management of prudential risks to another part of a *firm's group* does not relieve it of responsibility for complying with the *FSA's* prudential policy on systems and controls. A *firm* cannot absolve itself of such a responsibility by claiming that any breach of the *FSA's* prudential policy on systems and controls is effected by the actions of a third party *firm* to whom the *firm* has delegated tasks. The risk management arrangements are still those of the *firm*, even though personnel elsewhere in the *firm's group* are carrying out these functions on its behalf. Thus any references in *PRU* to what a *firm*, its personnel and its management should and should not do still apply, and do not need any adjustment to cover the situation in which risk management functions are carried out on a *group-wide* basis.
- 1.4.16 G Where it is stated in *PRU* that a particular task in relation to a *firm's* systems and controls should be carried out by a *firm's governing body* this task should not be delegated to another part of its *group*. Furthermore, even where the management of a *firm's* prudential risks is delegated as described in *PRU* 1.4.14G, responsibility for its effectiveness and for ensuring that it remains appropriate remains with the *firm's governing body*. The *firm's governing body* should therefore keep any delegation under review to ensure that delegated duties are being performed correctly.

#### Business planning and risk management

- 1.4.17 G Business planning and risk management are closely related activities. In particular, the forward-looking assessment of a *firm's* financial resources needs, and of how business plans may affect the risks that it faces, are important elements of prudential risk management. A *firm's* business planning should also involve the creation of specific risk policies which will normally outline a *firm's* strategy and objectives for, as appropriate, the management of its market, credit, liquidity, operational, insurance and group risks and the processes that it intends to adopt to achieve these objectives. *PRU* 1.4.18R to *PRU* 1.4.25G set out some *rules and guidance* relating to business planning and risk management in a *prudential context* (see also *SYSC* 3.2.17G, which states that a *firm* should plan its business appropriately).
- 1.4.18 R A *firm* must take reasonable steps to ensure the establishment and maintenance of a business plan and appropriate systems for the management of prudential risk.
- 1.4.19 R When establishing and maintaining its business plan and prudential risk management systems, a *firm* must document:
- (1) an explanation of its overall business strategy, including its business objectives;
  - (2) a description of, as applicable, its policies towards market, credit (including provisioning), liquidity, operational, insurance and group risk (that is, its risk policies), including its appetite or tolerance for these risks and how it identifies, measures or assesses, monitors and controls these risks;

- (3) the systems and controls that it intends to use in order to ensure that its business plan and risk policies are implemented correctly;
  - (4) a description of how the *firm* accounts for assets and liabilities, including the circumstances under which items are netted, included or excluded from the *firm's* balance sheet and the methods and assumptions for valuation;
  - (5) appropriate financial *projections* and the results of its stress testing and scenario analysis (see *PRU 1.2 Adequacy of financial resources*); and
  - (6) details of, and the justification for, the methods and assumptions used in financial *projections* and stress testing and scenario analysis.
- 1.4.20 G The prudential risk management systems referred to in *PRU 1.4.18R* and *PRU 1.4.19R* are the means by which a *firm* is able to:
- (1) identify the prudential risks that are inherent in its business plan, operating environment and objectives, and determine its appetite or tolerance for these risks;
  - (2) measure or assess its prudential risks;
  - (3) monitor its prudential risks; and
  - (4) control or mitigate its prudential risks.
- PRU 5.1.78E* is an *evidential provision* relating to *PRU 1.4.18R* concerning risk management systems in respect of *liquidity risk* arising from substantial exposures in foreign currencies.
- 1.4.21 G A *firm* should consider the relationship between its business plan, risk policies and the financial resources that it has available (or can readily access), recognising that decisions made in respect of one element may have consequences for the other two.
- 1.4.22 G A *firm's* business plan and risk management systems should be:
- (1) effectively communicated so that all *employees* and contractors understand and adhere to the procedures related to their own responsibilities;
  - (2) regularly updated and revised, in particular when there is significant new information or when actual practice or performance differs materially from the documented strategy, policy or systems.
- 1.4.23 G The level of detail in a *firm's* business plan and its approach to the design of its risk management systems should be appropriate to the scale and complexity of its operations, and the nature and degree of risk that it faces.
- 1.4.24 G A *firm's* business plan and systems documentation should be accessible to the *firm's* management in line with their respective responsibilities and, upon request, to the *FSA*.

- 1.4.25 G *PRU 1.4.19R(5)* requires a *firm* to *document* its financial projections and the results of its stress testing and scenario analysis. Such financial projections, stress tests and scenario analysis should be used by a *firm's governing body* and relevant *senior managers* when deciding upon how much risk the *firm* is willing to accept in pursuit of its business objectives and how risk limits should be set. Further *rules* and *guidance* on stress testing and scenario analysis are outlined in *PRU 1.2* (Adequacy of financial resources) and *PRU 5.1* (Liquidity risk systems and controls).

Internal controls: introduction

- 1.4.26 G *Internal controls* should provide a *firm* with reasonable assurance that it will not be hindered in achieving its objectives, or in the orderly and legitimate conduct of its business, by events that may reasonably be foreseen. More specifically in a *prudential context*, *internal controls* should be concerned with ensuring that a *firm's* business plan and risk management systems are operating as expected and are being implemented as intended. The following *rule* (*PRU 1.4.27R*) reflects the importance of *internal controls* in a *prudential context*.
- 1.4.27 R A *firm* must take reasonable steps to establish and maintain adequate *internal controls*.
- 1.4.28 G The precise role and organisation of *internal controls* can vary from *firm* to *firm*. However, a *firm's internal controls* should normally be concerned with assisting its *governing body* and relevant *senior managers* to participate in ensuring that it meets the following objectives:
- (1) safeguarding both the assets of the *firm* and its *customers*, as well as identifying and managing liabilities;
  - (2) maintaining the efficiency and effectiveness of its operations;
  - (3) ensuring the reliability and completeness of all accounting, financial and management information; and
  - (4) ensuring compliance with its internal policies and procedures as well as all applicable laws and regulations.
- 1.4.29 G When determining the adequacy of its *internal controls*, a *firm* should consider both the potential risks that might hinder the achievement of the objectives listed in *PRU 1.4.28G*, and the extent to which it needs to control these risks. More specifically, this should normally include consideration of:
- (1) the appropriateness of its reporting and communication lines (see *SYSC 3.2.2G*);
  - (2) how the delegation or contracting of functions or activities to *employees*, *appointed representatives* or other third parties (for example *outsourcing*) is to be monitored and controlled (see *SYSC 3.2.3G* to *SYSC 3.2.4G*, *PRU 1.4.12G* to *PRU 1.4.16G* and *PRU 1.4.33G*; additional *guidance* on the management of *outsourcing* arrangements is also provided in *SYSC 3A.9*);
  - (3) the risk that a *firm's employees* or contractors might accidentally or deliberately breach a *firm's* policies and procedures (see *SYSC 3A.6.3G*);

- (4) the need for adequate segregation of duties (see *SYSC 3.2.5G* and *PRU 1.4.30G* to *PRU 1.4.33G*);
- (5) the establishment and control of risk management committees (see *PRU 1.4.34G* to *PRU 1.4.37G*);
- (6) the need for risk assessment and the establishment of a risk assessment function (see *SYSC 3.2.10G* and *PRU 1.4.38G* to *PRU 1.4.41G*); and
- (7) the need for internal audit and the establishment of an internal audit function and audit committee (see *SYSC 3.2.15G* to *SYSC 3.2.16G* and *PRU 1.4.42G* to *PRU 1.4.45G*).

Internal controls: segregation of duties

- 1.4.30 G The effective segregation of duties is an important internal control in the *prudential context*. In particular, it helps to ensure that no one individual is completely free to commit a *firm's* assets or incur liabilities on its behalf. Segregation can also help to ensure that a *firm's governing body* receives objective and accurate information on financial performance, the risks faced by the *firm* and the adequacy of its systems. In this regard, a *firm* should ensure that there is adequate segregation of duties between *employees* involved in:
- (1) taking on or controlling risk (which could include risk mitigation);
  - (2) risk assessment (which includes the identification and analysis of risk); and
  - (3) internal audit.
- 1.4.31 G In addition, a *firm* should normally ensure that no single individual has unrestricted authority to do all of the following:
- (1) initiate a transaction;
  - (2) bind the *firm*;
  - (3) make payments; and
  - (4) account for it.
- 1.4.32 G Where a *firm* is unable to ensure the complete segregation of duties (for example, because it has a limited number of staff), it should ensure that there are adequate compensating controls in place (for example, frequent review of an area by relevant *senior managers*).
- 1.4.33 G Where a *firm* outsources a *controlled function*, such as *internal audit*, it should take reasonable steps to ensure that every individual involved in the performance of this service is independent from the individuals who perform its external audit. This should not prevent services from being undertaken by a *firm's* external auditors provided that:
- (1) the work is carried out under the supervision and management of the *firm's* own internal staff; and
  - (2) potential conflicts of interest between the provision of external audit services and the provision of *controlled functions* are properly managed.

Internal controls: risk management committees

- 1.4.34 G In many *firms*, especially if there are multiple business lines, it is common for the *governing body* to delegate some tasks related to risk control and management to committees such as asset and liability committees (ALCO), credit risk committees and market risk committees.
- 1.4.35 G Where a *firm* decides to create one or more risk management committee(s), adequate *internal controls* should be put in place to ensure that these committees are effective and that their actions are consistent with the objectives outlined in *PRU* 1.4.28G. This should normally include consideration of the following:
- (1) setting clear terms of reference, including membership, reporting lines and responsibilities of each committee;
  - (2) setting limits on their authority;
  - (3) agreeing routine reporting and non-routine escalation procedures;
  - (4) agreeing the minimum frequency of committee meetings; and
  - (5) reviewing the performance of these risk management committees.
- 1.4.36 G The decision to delegate risk management tasks, along with the terms of reference of the committees and their performance, should be reviewed periodically by the *firm's governing body* and revised as appropriate.
- 1.4.37 G The effective use of risk management committees can help to enhance a *firm's internal controls*. In establishing and maintaining its risk management committees, a *firm* should consider:
- (1) their membership, which should normally include relevant *senior managers* (such as the head of group risk, head of legal, and the heads of market, credit, liquidity and operational risk, etc.), business line managers, risk management personnel and other appropriately skilled people, for example, actuaries, lawyers, accountants, IT specialists, etc.;
  - (2) using these committees to:
    - (i) inform the decisions made by a *firm's governing body* regarding its appetite or tolerance for risk taking;
    - (ii) highlight risk management issues that may require attention by the *governing body*;
    - (iii) consider risk at the firm-wide level and, within delegated limits, to determine the allocation of risk limits and financial resources across business lines;
    - (iv) consider how exposures may be unwound, hedged, or otherwise mitigated, as appropriate.

Internal controls: risk assessment

- 1.4.38 G Risk assessment is the process through which a *firm* identifies and analyses (using both qualitative and quantitative methodologies) the risks that it faces. A *firm's* risk assessment activities should normally include consideration of:
- (1) its total exposure to risk at the firm-wide level (that is, its exposure across business lines and risk categories);
  - (2) capital allocation and the need to calculate risk weighted returns for different business lines;

- (3) the potential correlations that can exist between the risks in different business lines; this should also include looking for risks to which a *firm's* business plan is particularly sensitive, such as interest rate risk, or multiple dealings with the same *counterparty*;
  - (4) the use of stress tests and scenario analysis;
  - (5) whether there are risks inherent in the *firm's* business that are not being addressed adequately;
  - (6) the risk adjusted return that the *firm* is achieving; and
  - (7) the adequacy and timeliness of management information on market, credit, insurance, liquidity, operational and group risks from the business lines, including risk limit utilisation.
- 1.4.39 G In accordance with SYSC 3.2.10G a *firm* should consider whether it needs to set up a separate *risk assessment function* (or functions) that is responsible for assessing the risks that the *firm* faces and advising its *governing body* and *senior managers* on them.
- 1.4.40 G Where a *firm* does decide that it needs a separate *risk assessment function*, the *employees* or contractors that carry out this function should not normally be involved in risk taking activities such as business line management (see PRU 1.4.30G to PRU 1.4.33G on the segregation of duties).
- 1.4.41 G A summary of the results of the analysis undertaken by a *firm's risk assessment function* (including, where necessary, an explanation of any assumptions that were adopted) should normally be reported to relevant *senior managers* as well as to the *firm's governing body*.
- Internal audit
- 1.4.42 G A *firm* should ensure that it has appropriate mechanisms in place to assess and monitor the appropriateness and effectiveness of its systems and controls. This should normally include consideration of:
- (1) adherence to and effectiveness of, as appropriate, its market, credit, liquidity, operational, insurance, and group risk policies;
  - (2) whether departures and variances from its documented systems and controls and risk policies have been adequately documented and appropriately reported, including whether appropriate pre-clearance authorisation has been sought for material departures and variances;
  - (3) adherence to and effectiveness of its accounting policies, and whether accounting records are complete and accurate;
  - (4) adherence to and effectiveness of its management reporting arrangements, including the timeliness of reporting, and whether information is comprehensive and accurate; and
  - (5) adherence to *FSA rules* and regulatory prudential standards.
- 1.4.43 G In accordance with SYSC 3.2.15G and SYSC 3.2.16G, a *firm* should consider whether it needs to set up a dedicated *internal audit function*.
- 1.4.44 G Where a *firm* decides to set up an *internal audit function*, this function should provide independent assurance to its *governing body*, audit committee or an appropriate *senior manager* of the integrity and effectiveness of its systems and controls.

- 1.4.45 G In forming its judgements, the *person* performing the *internal audit function* should test the practical operation of a *firm's* systems and controls as well as its accounting and risk policies. This should include examining the adequacy of supporting records.
- Management information
- 1.4.46 G Many individuals, at various levels of a *firm*, need management information relating to their activities. However, *PRU 1.4.47G* to *PRU 1.4.50G* concentrates on the management information that should be available to those at the highest level of a *firm*, that is, the *firm's governing body* and relevant *senior managers*. In so doing *PRU 1.4.47G* to *PRU 1.4.50G* amplifies *SYSC 3.2.11G* to *SYSC 3.2.12G* (which outlines the *FSA's* high level policy on senior management information) by providing some additional *guidance* on the management information that should be available in a *prudential context*.
- 1.4.47 G The role of management information should be to help a *firm's governing body* and *senior managers* to understand risk at a firm-wide level. In so doing, it should help them to:
- (1) determine whether a *firm* is prudently managed with adequate financial resources;
  - (2) make the decisions that fall within their ambit (for example, the high level business plans, strategy and risk tolerances of the *firm*); and
  - (3) oversee the execution of tasks for which they are responsible.
- 1.4.48 G A *firm* should consider what information needs to be made available to its *governing body* and *senior managers*. Some possible examples include:
- (1) firm-wide information such as the overall profitability and value of a *firm* and its total exposure to risk;
  - (2) reports from committees to which the *governing body* has delegated risk management tasks, if applicable;
  - (3) reports from a *firm's internal audit* and *risk assessment functions*, if applicable, including exception reports, where risk limits and policies have been breached or systems circumvented;
  - (4) financial projections under expected and abnormal (that is, stressed) conditions;
  - (5) reconciliation of actual profit and loss to previous financial projections and an analysis of any significant variances;
  - (6) matters which require a decision from the *governing body* or *senior managers*, for example a significant variation to a business plan, amendments to risk limits, the creation of a new business line, etc;
  - (7) compliance with *FSA rules* and regulatory prudential standards;
  - (8) risk weighted returns; and
  - (9) liquidity and funding requirements.
- 1.4.49 G The management information that is provided to a *firm's governing body* and *senior managers* should have the following characteristics:
- (1) it should be timely, its frequency being determined by factors such as:

- (a) the volatility of the business in which the *firm* is engaged (that is, the speed at which its risks can change);
  - (b) any time constraints on when action needs to be taken; and
  - (c) the level of risk that the *firm* is exposed to, compared to its available financial resources and tolerance for risk;
- (2) it should be reliable, having regard to the fact that it may be necessary to sacrifice a degree of accuracy for timeliness; and
  - (3) it should be presented in a manner that highlights any relevant issues on which those undertaking *governing functions* should focus particular attention.
- 1.4.50 G The production of management and other information may require the collation of data from a variety of separate manual and automated systems. In such cases, responsibility for the integrity of the information may be spread amongst a number of operational areas. A *firm* should ensure that it has appropriate processes to validate the integrity of its information.

Record keeping

- 1.4.51 G *SYSC 3.2.20R* requires a *firm* to take reasonable care to make and retain adequate records. The following policy on record keeping supplements *SYSC 3.2.20R* by providing some additional *rules* and *guidance* on record keeping in a *prudential context*. The purpose of this policy is to:
- (1) facilitate the prudential supervision of a *firm* by ensuring that adequate information is available regarding its past/current financial situation and business activities (which includes the design and implementation of systems and controls); and
  - (2) help the *FSA* to satisfy itself that a *firm* is operating in a prudent manner and is not prejudicing the interests of its *customers* or market confidence.
- 1.4.52 G In addition to the record keeping requirements in *PRU*, a *firm* should remember that it may be obliged, under other applicable laws or regulations, to keep similar or additional records.
- 1.4.53 R (1) A *firm* must make and regularly update accounting and other records that are sufficient to enable the *firm* to demonstrate to the *FSA*:
- (a) that the *firm* is financially sound and has appropriate systems and controls;
  - (b) the *firm's* financial position and exposure to risk (to a reasonable degree of accuracy); and
  - (c) the *firm's* compliance with the *rules* in *PRU*.
- (2) The records in (1) must be retained for a minimum of three years, or longer as appropriate.
- 1.4.54 G A *firm* should be able to make available the records described in *PRU 1.4.53R* within a reasonable timeframe when requested to do so by the *FSA*.

- 1.4.55 G The *FSA* recognises that not all records are specific to a particular point in time. As such, while it may be appropriate to update some records on a daily or continuous basis, for example expenditure and details of certain transactions, it may not be appropriate to update other records as regularly as this, for example those relating to its business plan and risk policies. A *firm* should decide how regularly it should update particular records.
- 1.4.56 G A *firm* should decide which records it needs to hold, noting that compliance with *PRU* 1.4.53R does not require it to hold records on every single aspect of its activities. Some specific *guidance* on the types of records that a *firm* should hold is set out in each of the risk specific sections on systems and controls (see *PRU* 3.1, *PRU* 4.1, *PRU* 5.1, *PRU* 6.1, *PRU* 7.1 and *PRU* 8.1).
- 1.4.57 G In deciding which records to hold, a *firm* should also take into account that failure to keep adequate records could make it harder for it to satisfy the *FSA* that it is compliant with the *rules* in *PRU*, and to defend any enforcement action taken against it.
- 1.4.58 G A *firm* should keep the records required in *PRU* in an appropriate format and language (in terms of format this could include holding them on paper or in electronic or some other form). However, whatever format or language a *firm* chooses, *SYSC* 3.2.20R requires that records be capable of being reproduced on paper and in English (except where they relate to business carried on from an establishment situated in a country where English is not an official language).
- 1.4.59 G In accordance with *SYSC* 3.2.20R, a *firm* should retain the records that it needs to comply with *PRU* 1.4.53R for as long as they are relevant for the purposes for which they were made.
- 1.4.60 R A *firm* must keep the *records* required in *PRU* 1.4.53R in the *United Kingdom*, except where:
- (1) they relate to business carried on from an establishment in a country or territory that is outside the *United Kingdom*; and
  - (2) they are kept in that country or territory.
- 1.4.61 R When a *firm* keeps the records required in *PRU* 1.4.53R outside the *United Kingdom*, it must periodically send an adequate summary of those records to the *United Kingdom*.
- 1.4.62 G Where a *firm* outsources the storage of some or all of its records to a third party service provider, it should ensure that these records are readily accessible and can be reproduced within a reasonable time period. The *firm* should also ensure that these records are stored in compliance with the *rules* and *guidance* on record keeping in *PRU*. Additional *guidance* on the management of *outsourcing* agreements is provided in *SYSC* 3A.
- 1.4.63 G A *firm* may rely on records that have been produced by a third party (for example, another *group* company or an external agent, such as an outsource service provider). However where the *firm* does so it should ensure that these records are readily accessible and can be reproduced within a reasonable time period. The *firm* should also ensure that these records comply with the *rules* and *guidance* on record keeping in *PRU*.

- 1.4.64 G In accordance with SYSC 3.2.21G, a *firm* should have adequate systems and controls for maintaining the security of its records so that they are reasonably safeguarded against loss, unauthorised access, alteration or destruction.

## Annex D

### PRU 2

In this Annex, all the text is new and is not underlined.

- 2.1 Calculation of capital resources requirements
- Application
- 2.1.1 R *PRU 2.1* applies to an *insurer* unless it is:
- (1) a *non-directive friendly society*; or
  - (2) a *Swiss general insurer*; or
  - (3) an *EEA-deposit insurer*; or
  - (4) an *incoming EEA firm*; or
  - (5) an *incoming Treaty firm*.
- 2.1.2 G The scope of application of *PRU 2.1* is not restricted to *firms* that are subject to the relevant EC Directives. It applies, for example, to *pure reinsurers*.
- 2.1.3 R (1) *PRU 2.1* applies to a *firm* in relation to the whole of its business, except where a particular provision provides for a narrower scope.
- (2) Where a *firm* carries on both *long-term insurance business* and *general insurance business*, *PRU 2.1* applies separately to each type of business.
- 2.1.4 G The adequacy of a *firm's capital resources* needs to be assessed in relation to all the activities of the *firm* and the risks to which they give rise.
- 2.1.5 G The requirements in *PRU 2.1* apply to a *firm* on a solo basis.
- Purpose
- 2.1.6 G *Principle 4* requires a *firm* to maintain adequate financial resources. *PRU 2* sets out provisions that deal specifically with the adequacy of that part of a *firm's* financial resources that consists of *capital resources*. The adequacy of a *firm's capital resources* needs to be assessed both by the *firm* and the *FSA*. Through its *rules*, the *FSA* sets minimum *capital resources requirements* for *firms*. It also reviews a *firm's* own assessment of its capital needs, and the processes and systems by which that assessment is made, in order to see if the minimum *capital resources requirements* are appropriate (see *PRU 2.3.2G* to *PRU 2.3.3G*).
- 2.1.7 G This section (*PRU 2.1*) sets *capital resources requirements* for a *firm*. *PRU 2.2* sets out how, for the purpose of this, the amounts or values of capital, assets and liabilities are to be determined. More detailed *rules* relating to capital, assets and liabilities are also set out in the following chapters and sections:
- PRU 1.3* Valuation;
  - PRU 3* Credit risk;
  - PRU 4* Market risk;
  - PRU 5* Liquidity risk;
  - PRU 6* Operational risk;
  - PRU 7* Insurance risk; and
  - PRU 8* Group risk.
- PRU 2.1* and *PRU 2.2* include appropriate cross-references to these chapters and sections.
- 2.1.8 G *PRU 2.1* implements minimum EC standards for the *capital resources* required to be held by a *firm* undertaking business that falls within the scope of the *Consolidated Life Directive* (2002/83/EC) or the *First Non-Life Directive* (73/239/EEC) as amended.

## Main requirements

- 2.1.9 R (1) A *firm* must maintain at all times *capital resources* equal to or in excess of its *capital resources requirement (CRR)*.  
(2) A *firm* which is a *participating insurance undertaking* and, in relation to its own *group capital resources*, is in compliance with *PRU 8.3.9R*, is deemed to comply with (1).
- 2.1.10 R A *firm* must comply with *PRU 2.1.9R* separately in respect of both its *long-term insurance business* and its *general insurance business*.
- 2.1.11 G In order to comply with *PRU 2.1.10R*, a *firm* carrying on both *general insurance business* and *long-term insurance business* will need to allocate its *capital resources* between its *general insurance business* and *long-term insurance business* so that the *capital resources* allocated to its *general insurance business* are equal to or in excess of its *CRR* for its *general insurance business* and the *capital resources* allocated to its *long-term insurance business* are equal to or in excess of its *CRR* for its *long-term insurance business*. Whereas *long-term insurance assets* cannot be used towards meeting a *firm's CRR* for its *general insurance business*, surplus general insurance assets may be used towards meeting the *CRR* for its *long-term insurance business* (see *PRU 7.6.30R* to *PRU 7.6.32G*). *PRU 7.6* sets out the detailed requirements for the separation of *long-term* and *general insurance business*.
- 2.1.12 G *Firms* commonly use different terminology for the various *PRU* requirements. For example, the *MCR* is traditionally known as the required minimum margin.
- 2.1.13 G The *FSA* may impose a higher capital requirement than the minimum requirement set out in this section as part of the *firm's Part IV permission*. (See *PRU 2.3*).
- Calculation of the *CRR*
- 2.1.14 R The *CRR* for any *firm* carrying on *general insurance business* is equal to the *MCR* in *PRU 2.1.21R*.
- 2.1.15 R The *CRR* for any *firm* to which this *rule* applies (see *PRU 2.1.16R* and *PRU 2.1.17R*) is the higher of:  
(1) the *MCR* in *PRU 2.1.22R*; and  
(2) the *ECR* in *PRU 2.1.34R*.
- 2.1.16 R Subject to *PRU 2.1.17R*, *PRU 2.1.15R* applies to a *firm* carrying on *long-term insurance business*, other than:  
(1) a *non-directive mutual*;  
(2) a *firm* which has no *with-profits insurance liabilities*; and  
(3) a *firm* which has *with-profits insurance liabilities* that are, and at all times since 31 December 2004 (the coming into force of *PRU 2.1.15R*) have remained, less than £500 million.
- 2.1.17 R *PRU 2.1.15R* also applies to a *firm* of a type listed in *PRU 2.1.16R(3)* if:  
(1) the *firm* makes an election that *PRU 2.1.15R* is to apply to it; and  
(2) that election is made by written notice given to the *FSA* in a way that complies with the requirements for written notice in *SUP 15.7*.

- 2.1.18 G The effect of *PRU 2.1.16R(3)* is that a *firm* to which *PRU 2.1.15R* applies because it has *with-profits insurance liabilities* of £500 million or more, will continue to be subject to *PRU 2.1.15R* even if its *with-profits insurance liabilities* fall below £500 million. However, if that happens, it may apply for a *waiver* from *PRU 2.1.15R* under section 148 of the *Act*. In exercising its discretion under section 148 of the *Act*, the *FSA* will have regard (among other factors) to whether there has been a material and permanent change to the *firm's* business and to the prospects of it continuing to have *with-profits insurance liabilities* of less than £500 million.
- 2.1.19 G A *firm* that has always had *with-profits insurance liabilities* of less than £500 million since *PRU 2.1.15R* came into force may wish to “opt in” to *PRU 2.1.15R* and therefore become a *realistic basis life firm*. By doing so, it becomes obliged to calculate a *with-profits insurance capital component* (see *PRU 2.1.34R* and *PRU 7.4*), but it also becomes entitled to certain modifications to the way that a *firm* is required to calculate its *mathematical reserves* (see *PRU 7.3.46R* and *PRU 7.3.76R*). The *firm* is also then required to report its liabilities on a realistic basis (see *IPRU(INS)* rule 9.31R(b)). In order to “opt in”, the *firm* must make an election under *PRU 2.1.17R* that *PRU 2.1.15R* is to apply to it. If a *firm* that has elected to calculate and report its *with-profits insurance liabilities* on a realistic basis subsequently decides that it no longer wishes to do so, it may seek to “opt out” by applying for a *waiver* from *PRU 2.1.15R* under section 148 of the *Act*. In exercising its discretion under section 148 of the *Act*, the *FSA* will have regard (among other factors) to whether there has been a material and permanent change to the *firm's* business and to whether it continues to have *with-profits insurance liabilities* of less than £500 million.
- 2.1.20 R The *CRR* for a *firm* carrying on *long-term insurance business*, but to which *PRU 2.1.15R* does not apply, is equal to the *MCR* in *PRU 2.1.22R*.
- Calculation of the *MCR*
- 2.1.21 R For a *firm* carrying on *general insurance business*, the *MCR* in respect of that business is the higher of:
- (1) the *base capital resources requirement* for *general insurance business* applicable to that *firm*; and
  - (2) the *general insurance capital requirement*.
- 2.1.22 R For a *firm* carrying on *long-term insurance business*, the *MCR* in respect of that business is the higher of:
- (1) the *base capital resources requirement* for *long-term insurance business* applicable to that *firm*; and
  - (2) the sum of:
    - (a) the *long-term insurance capital requirement*; and
    - (b) the *resilience capital requirement*.
- 2.1.23 G The *MCR* gives effect to the EC Directive minimum requirements. For *general insurance business*, the EC Directive minimum is the higher of the *general insurance capital requirement* and the relevant *base capital resources requirement*. For *long-term insurance business*, the EC Directive minimum is the higher of the *long-term insurance capital requirement* and the *base capital resources requirement*. The *base capital resources requirement* is the minimum guarantee fund for the purposes of article 29(2) of the *Consolidated Life Directive* (2002/83/EC) and article 17(2) of the *First Non-Life Directive* (73/239/EEC) as amended. The *resilience capital requirement* is an *FSA* requirement that is additional to the EC minimum requirement for *long-term insurance business*.
- 2.1.24 G The calculation of the *resilience capital requirement* is set out in *PRU 4.2*.

Calculation of the base capital resources requirement

2.1.25 R The amount of a *firm's base capital resources requirement* is set out in Table 2.1.26R.

2.1.26 R Table: Base capital resources requirement

Firm type			Amount: Currency equivalent of
<i>General insurance business</i>			
	<i>Liability insurer (classes 10-15)</i>	<i>Directive mutual</i>	€2.25 million
		<i>Non-directive insurer</i>	€300,000
		<i>Overseas firm</i>	€1.5 million
		<i>Other</i>	€3 million
	<i>Other insurer</i>	<i>Directive mutual</i>	€1.5 million
		<i>Non-directive insurer (classes 1 to 8, 16 or 18)</i>	€225,000
		<i>Non-directive insurer (classes 9 or 17)</i>	€150,000
		<i>Overseas firm</i>	€1 million
		<i>Other</i>	€2 million
<i>Long-term insurance business</i>			
	<i>Mutual</i>	<i>Directive</i>	€2.25 million
		<i>Non-directive</i>	€600,000
	<i>Overseas firm</i>		€1.5 million
	<i>Any other insurer</i>		€3 million

2.1.27 R (1) Subject to (2) and (3), the amount of the *base capital resources requirement* specified in the last column of the table in *PRU 2.1.26R* for a *firm* which is not a *non-directive insurer* will increase each year, starting on the review date of 20 September 2005 (and annually after that), by the percentage change in the European index of consumer prices (comprising all EU member states, as published by Eurostat) from 20 March 2002, to the relevant review date, rounded up to a multiple of €100,000.

(2) In any year, if the percentage change since the last increase is less than 5%, then there will be no increase.

(3) The increase will take effect 30 days after the EU Commission has informed the European Parliament and Council of its review and the relevant percentage change.

2.1.28 G Any increases in the *base capital resources requirement* referred to in *PRU 2.1.27R* will be published on the *FSA* website.

2.1.29 R For the purposes of the *base capital resources requirement*, the exchange rate from the Euro to the pound sterling for each year beginning on 31 December is the rate applicable on the last day of the preceding October for which the exchange rates for the currencies of all the European Union member states were published in the Official Journal of the European Union.

Calculation of the general insurance capital requirement

- 2.1.30 R A *firm* must calculate its *general insurance capital requirement* as the highest of:
- (1) the *premiums amount*;
  - (2) the *claims amount*; and
  - (3) the *brought forward amount*.
- 2.1.31 G The calculation of each of the *premiums amount*, *claims amount* and *brought forward amount* is set out in *PRU 7.2*.
- Calculation of the long-term insurance capital requirement
- 2.1.32 R A *firm* must calculate its *long-term insurance capital requirement* as the sum of:
- (1) the *insurance death risk capital component*;
  - (2) the *insurance health risk capital component*;
  - (3) the *insurance expense risk capital component*; and
  - (4) the *insurance market risk capital component*.
- 2.1.33 G The calculation of each of the capital components is set out in *PRU 7.2*.
- Calculation of the ECR
- 2.1.34 R For a *firm* carrying on *long-term insurance business*, the *ECR* in respect of that business is the sum of:
- (1) the *long-term insurance capital requirement*;
  - (2) the *resilience capital requirement*; and
  - (3) the *with-profits insurance capital component*.
- 2.1.35 G Details of the *resilience capital requirement* and the *with-profits insurance capital component* are set out in *PRU 4.2* and *PRU 7.4* respectively.
- Monitoring requirements
- 2.1.36 R A *firm* must at all times monitor whether it is complying with *PRU 2.1.9R* and be able to demonstrate that it knows at all times whether it is complying with that *rule*.
- 2.1.37 G For the purposes of *PRU 2.1.36R*, a *firm* should have systems in place to enable it to be certain whether it has adequate *capital resources* to comply with *PRU 2.1.9R* at all times. This does not necessarily mean that a *firm* needs to measure the precise amount of its *capital resources* and its *CRR* on a daily basis. A *firm* should, however, be able to demonstrate the adequacy of its *capital resources* at any particular time if asked to do so by the *FSA*.
- 2.1.38 R A *firm* must notify the *FSA* immediately of any breach, or expected breach, of *PRU 2.1.9R*.

- 2.2 Capital resources
- Application
- 2.2.1 R *PRU 2.2* applies to an *insurer* unless it is:
- (1) a *non-directive friendly society*; or
  - (2) a *Swiss general insurer*; or
  - (3) an *EEA-deposit insurer*; or
  - (4) an *incoming EEA firm*; or
  - (5) an *incoming Treaty firm*.
- Purpose
- 2.2.2 G *PRU 2.1* sets out minimum *capital resources requirements* for a *firm*. This section (*PRU 2.2*) sets out how, for the purpose of these requirements, *capital resources* are defined and measured. *PRU 2.2* also implements minimum EC standards for the composition of *capital resources* required to be held by a *firm* undertaking business that falls within the scope of the *Consolidated Life Directive* (2002/83/EC) or the *First Non-Life Directive* (73/239/EEC) as amended.
- Principles underlying the definition of capital resources
- 2.2.3 G The *FSA* has divided its definition of capital into categories, or tiers, reflecting differences in the extent to which the capital instruments concerned meet the purpose and conform to the characteristics of capital listed in *PRU 2.2.5G*. The *FSA* generally prefers a *firm* to hold higher quality capital that meets the characteristics of permanency and loss absorbency that are features of *tier one capital*. Capital instruments falling into *core tier one capital* can be included in a *firm's* regulatory capital without limit. Typically, other forms of capital are either subject to limits (see *PRU 2.2.16R* to *PRU 2.2.26R*) or, in the case of some specialist types of capital, may only be included with the express consent of the *FSA* (which takes the form of a *waiver* under section 148 of the *Act*).
- 2.2.4 G Details of the individual components of capital are set out in *PRU 2.2.14R*.
- Tier one capital
- 2.2.5 G *Tier one capital* typically has the following characteristics:
- (1) it is able to absorb losses;
  - (2) it is permanent;
  - (3) it ranks for repayment upon winding up after all other debts and liabilities; and
  - (4) it has no fixed costs, that is, there is no inescapable obligation to pay dividends or interest.
- 2.2.6 G The forms of capital that qualify for *tier one capital* are set out in *PRU 2.2.14R* and include, for example, *share* capital, reserves, verified interim net profits and, for a *mutual*, the *initial fund* plus permanent members' accounts. *Tier one capital* is divided into *core tier one capital*, perpetual non-cumulative *preference shares*, and *innovative tier one capital*.
- Upper and lower tier two capital
- 2.2.7 G *Tier two capital* includes forms of capital that do not meet the requirements for permanency and absence of fixed servicing costs that apply to *tier one capital*. *Tier two capital* includes, for example:
- (1) capital which is perpetual (that is, has no fixed term) but cumulative (that is, servicing costs cannot be waived at the issuer's option, although they may be deferred – for example cumulative *preference shares*); perpetual capital instruments may be included in *upper tier two capital*; and

- (2) capital which is not perpetual (that is, it has a fixed term) and which may also have fixed servicing costs that cannot generally be either waived or deferred, for example subordinated debt. Such capital should normally be of a medium to long-term maturity (that is, an original maturity of at least five years). Dated capital instruments are included in *lower tier two capital*.

Deductions from capital

- 2.2.8 G Deductions should be made at the relevant stage of the calculation of *capital resources* to reflect capital that may not be available to the *firm* or assets of uncertain value, for example, holdings of intangible assets and assets that are inadmissible for a *firm*.
- 2.2.9 G A full list of deductions from *capital resources* is shown in PRU 2.2.14R.
- Calculation of capital resources
- 2.2.10 G *Capital resources* can be calculated either as the total of eligible assets less foreseeable liabilities (which is the approach taken in the *Insurance Directives*) or by identifying the components of capital. Both calculations give the same result for the total amount of *capital resources*. The approach taken in this section has been to specify the components of capital and the relevant deductions. This is set out in PRU 2.2.14R. This approach is the same as that used for the calculation of *capital resources* for *banks, building societies* and *investment firms*. A simple example, showing the reconciliation of the two methods, is given in PRU 2.2.11G.
- 2.2.11 G Table: Approaches to calculating capital resources

Liabilities		Assets	
Borrowings	100	Admissible assets	350
Ordinary <i>shares</i>	200	Intangible assets	100
Profit and loss account and other reserves	100	Other inadmissible assets	100
Perpetual subordinated debt	150		
Total	<u>550</u>	Total	<u>550</u>
Calculation of <i>capital resources</i> : eligible assets less foreseeable liabilities			
Total assets		550	
less intangible assets		(100)	
less inadmissible assets		(100)	
less liabilities (borrowings)		(100)	
<i>Capital resources</i>		<u>250</u>	
Calculation of <i>capital resources</i> : components of capital			
Ordinary <i>shares</i>		200	
Profit and loss account and other reserves		100	
Perpetual subordinated debt		150	
less intangible assets		(100)	
less inadmissible assets		(100)	
<i>Capital resources</i>		<u>250</u>	

- 2.2.12 R A *firm* must calculate its *capital resources* for the purpose of *PRU* in accordance with *PRU* 2.2.14R, subject to the limits in *PRU* 2.2.16R to *PRU* 2.2.26R.
- 2.2.13 G Where *PRU* 2.2.14R refers to related text, it is necessary to refer to that text in order to understand fully what is included in the descriptions of capital items and deductions set out in the table.
- 2.2.14 R Table: Capital resources (see *PRU* 2.2.12R)

Limits on the use of different forms of capital

- 2.2.15 G As the various components of capital differ in the degree of protection that they offer the *firm* and its *customers*, restrictions are placed on the extent to which certain types of capital are eligible for inclusion in a *firm's capital resources*. These restrictions are set out in *PRU 2.2.16R* to *PRU 2.2.26R*.
- 2.2.16 R At least 50% of a *firm's MCR* must be accounted for by the sum of:  
(1) the amount calculated at stage A of the calculation in *PRU 2.2.14R*; and  
(2) notwithstanding *PRU 2.2.20R(1)*, the amount calculated at stage B of the calculation in *PRU 2.2.14R*;  
less the amount calculated at stage E of the calculation in *PRU 2.2.14R*.
- 2.2.17 R A *firm* carrying on *long-term insurance business* must meet the higher of:  
(1)  $\frac{1}{3}$  of the *long-term insurance capital requirement*; and  
(2) the *base capital resources requirement*;  
with the sum of the items listed at stages A, B, G and H less the sum of the items listed at stage E in *PRU 2.2.14R*.
- 2.2.18 R A *firm* carrying on *general insurance business* must meet the higher of:  
(1)  $\frac{1}{3}$  of the *general insurance capital requirement*; and  
(2) the *base capital resources requirement*;  
with the sum of the items listed at stages A, B, G and H less the sum of the items listed at stage E in *PRU 2.2.14R*.
- 2.2.19 G The purposes of the requirements in *PRU 2.2.16R* to *2.2.18R* are to comply with the *Insurance Directives'* requirement that *firms* maintain a *guarantee fund* of higher quality *capital resources* items and to ensure that at least 50% of the *firm's capital resources* needed to meet its *MCR* provide maximum loss absorbency to protect the *firm* from insolvency.
- 2.2.20 R In relation to a *firm's tier one capital resources* calculated at stage F of the calculation in *PRU 2.2.14R*:  
(1) at least 50% must be accounted for by *core tier one capital*; and  
(2) no more than 15% may be accounted for by *innovative tier one capital*.
- 2.2.21 G The purpose of the requirement in *PRU 2.2.20R(1)* is to ensure that at least 50% of the *firm's tier one capital resources* (net of *tier one capital* deductions) is met by *core tier one capital* which provides maximum loss absorbency on a going concern basis to protect the *firm* from insolvency. Although a perpetual non-cumulative *preference share* is in legal form a *share*, it behaves in many ways like a perpetual fixed interest debt instrument. Within the 50% limit on non-*core tier one capital*, *PRU 2.2.20R(2)* places a further sub-limit on the amount of *innovative tier one capital* that a *firm* may include in its *tier one capital resources*. This limit is necessary to ensure that most of a *firm's tier one capital* comprises items of capital of the highest quality.
- 2.2.22 G The amount of any capital item excluded from a *firm's tier one capital resources* under *PRU 2.2.20R* may form part of its *tier two capital resources* subject to the limits in *PRU 2.2.23R*.
- 2.2.23 R Subject to *PRU 2.2.24R*, a *firm* must exclude from the calculation of its *capital resources* the following:  
(1) the amount (if any) by which *tier two capital resources* exceed the amount calculated at stage F of the calculation in *PRU 2.2.14R*; and  
(2) the amount (if any) by which *lower tier two capital resources* exceed 50% of the amount calculated at stage F of the calculation in *PRU 2.2.14R*.
- 2.2.24 R At least 75% of a *firm's MCR* must be accounted for by the sum of:

- (1) the amount calculated at stage A plus stage B less stage E of the calculation in *PRU 2.2.14R*; and
- (2) the amount calculated at stage G of the calculation in *PRU 2.2.14R*.
- 2.2.25 G *PRU 2.2.23R* and *PRU 2.2.24R* give effect to the *Insurance Directives'* requirements that a *firm's tier two capital resources* must not exceed its *tier one capital resources* and that no more than 25% of a *firm's "required solvency margin"* should consist of *lower tier two capital resources*.
- 2.2.26 R A *firm* that carries on both *long-term insurance business* and *general insurance business* must apply the limits in *PRU 2.2.16R* to *PRU 2.2.24R* separately for each type of business.
- Characteristics of tier one capital
- 2.2.27 R A *firm* may not include a *share* in, or another investment in, or external contribution to the capital of, that *firm* in its *tier one capital resources* unless it complies with the following conditions:
- (1) it is included in one of the categories in *PRU 2.2.28R*;
- (2) it is not excluded by any of the *rules* in *PRU 2.2*; and
- (3) it complies with the conditions set out in *PRU 2.2.29R*.
- 2.2.28 R The categories referred to in *PRU 2.2.27R(1)* are:
- (1) *permanent share capital*;
- (2) a perpetual non-cumulative *preference share*; and
- (3) an *innovative tier one instrument*.
- 2.2.29 R Subject to *PRU 2.2.30R*, an item of capital in a *firm* complies with *PRU 2.2.27R(3)* if:
- (1) it is issued by the *firm*;
- (2) it is fully paid and the proceeds of issue are immediately and fully available to the *firm*;
- (3) it:
- (a) cannot be redeemed at all or can only be redeemed on a winding up of the *firm*; or
- (b) complies with the conditions in *PRU 2.2.38R* and *PRU 2.2.39 R*;
- (4) any *coupon* is either non-cumulative or, if it is cumulative, it complies with *PRU 2.2.40R*;
- (5) it is able to absorb losses to allow the *firm* to continue trading and in the case of an *innovative tier one instrument* it complies with *PRU 2.2.56R* to *PRU 2.2.58R*;
- (6) it ranks for repayment upon winding up no higher than a *share* of a company incorporated under the Companies Act 1985 or the Companies (Northern Ireland) Order 1986 (whether or not it is such a *share*);
- (7) the *firm* has the right to choose whether or not to pay a *coupon* on it in cash at any time;
- (8) the description of its characteristics used in its marketing is consistent with the characteristics required to satisfy *PRU 2.2.29R(1)* to (7).
- 2.2.30 R (1) An item of capital does not comply with *PRU 2.2.27R(3)* if the issue of that item of capital by the *firm* is connected with one or more other transactions which, when taken together with the issue of that item, could produce the effect described in (2).
- (2) The effect referred to in (1) is a reduction in the economic benefit intended to be conferred on the *firm* by the issue of the item of capital which means that the item of capital no longer displays all of the characteristics set out in *PRU 2.2.29R(1)* to (8).

- 2.2.31 R An item of capital does not comply with *PRU 2.2.29R(5)* if the holder of that item does not bear losses to at least the same degree as the holder of a *share* of a company incorporated under the Companies Act 1985 or the Companies (Northern Ireland) Order 1986 (whether or not it is such a *share*).
- 2.2.32 G *PRU 2.2.29R(2)* is stricter than the Companies Act definition of fully paid, which only requires an undertaking to pay.
- 2.2.33 G An item of capital does not comply with *PRU 2.2.29R(8)* if it is marketed as a capital instrument that would only qualify for a lower level of capital or on the basis that investing in it is like investing in a *lower tier two instrument*. For example, an undated capital instrument should not be marketed as a dated capital instrument if the terms of the capital instrument include an option by the issuer to redeem the capital instrument at a specified date in the future.
- 2.2.34 G For the purposes of *PRU 2.2.30R*, examples of connected transactions might include guarantees or any other side agreement provided to the holders of the capital instrument by the *firm* or a connected party or a related transaction designed, for example, to enhance their security or to achieve a tax benefit, but which may compromise the loss absorption capacity or permanence of the original capital item.
- 2.2.35 R A *firm* may not include a *share* in its *tier one capital resources* unless (in addition to complying with the other relevant *rules* in *PRU 2.2*):
- (1) (in the case of a *firm* that is a company as defined in the Companies Act 1985 or the Companies (Northern Ireland) Order 1986) it is “called-up *share* capital” within the meaning given to that term in that Act or, as the case may be, that Order; or
  - (2) (in the case of any other *firm*) it is:
    - (a) in economic terms; and
    - (b) in its characteristics as capital (including loss absorbency, permanency, ranking for repayment and fixed costs);
 substantially the same as called-up *share* capital falling into (1).
- Core tier one capital: permanent share capital
- 2.2.36 R *Permanent share capital* means an item of capital which (in addition to satisfying *PRU 2.2.29R*) meets the following conditions:
- (1) it is:
    - (a) an ordinary *share*; or
    - (b) a *members' contribution*; or
    - (c) part of the *initial fund* of a *mutual*;
  - (2) any *coupon* on it is not cumulative, and the *firm* has both the right to choose whether or not to pay a *coupon* and the right to choose the amount of that *coupon*; and
  - (3) the terms upon which it is issued do not permit redemption and it is otherwise incapable of being redeemed to at least the degree of an ordinary *share* issued by a company incorporated under the Companies Act 1985 or the Companies (Northern Ireland) Order 1986 (whether or not it is such a *share*).

- 2.2.37 G *PRU 2.2.36R* has the effect that the *firm* should be under no obligation to make any payment in respect of a *tier one instrument* if it is to form part of its *permanent share capital* unless and until the *firm* is wound up. A *tier one instrument* that forms part of *permanent share capital* could not therefore count as a liability before the *firm* is wound up. The fact that relevant company law permits the *firm* to make earlier repayment does not mean that the *tier one instruments* are not eligible. However, the *firm* should not be required by any contractual or other obligation arising out of the terms of that capital to repay *permanent share capital*. Similarly a *tier one instrument* may still qualify if company law allows dividends to be paid on this capital, provided the *firm* is not contractually or otherwise obliged to pay them. There should therefore be no fixed costs.
- Basic rules about redemption and cumulative coupons
- 2.2.38 R In relation to a perpetual non-cumulative *preference share* which is redeemable, a *firm* may not include it in its *tier one capital resources* unless its contractual terms are such that:
- (1) it is redeemable only at the option of the *firm*; and
  - (2) the *firm* cannot exercise that redemption right:
    - (a) on or before the fifth anniversary of its date of issue;
    - (b) unless it has given notice to the *FSA* in accordance with *PRU 2.2.72R*; and
    - (c) unless at the time of exercise of that right it complies with *PRU 2.1.9R* and will continue to do so after redemption.
- 2.2.39 R In relation to an *innovative tier one instrument* which is redeemable and which, either:
- (1) is or may become subject to a *step-up*; or
  - (2) satisfies *PRU 2.2.54R(2)*;
- a *firm* may not include it in its *tier one capital resources* unless it complies with the conditions in *PRU 2.2.38R*, except that in *PRU 2.2.38R(2)(a)*, "fifth anniversary" is replaced by "tenth anniversary".
- 2.2.40 R A *potential tier one instrument* with a cumulative *coupon* complies with *PRU 2.2.29R(4)* only if any such *coupon* must, if deferred, be paid by the *firm* in the form of *permanent share capital*.
- 2.2.41 G *PRU 2.2.38R* does not apply to *permanent share capital* because no item of capital that is either redeemable or that has a cumulative *coupon* can be *permanent share capital*.
- Further guidance on redemption
- 2.2.42 G The *rules* in *PRU 2.2* about redemption of *potential tier one instruments* fall into three classes:
- (1) *rules* defining whether a *firm's potential tier one instruments* are eligible for inclusion in its *tier one capital resources* at all;
  - (2) *rules* defining whether a *firm's potential tier one instruments* are eligible for inclusion in its *permanent share capital*; and
  - (3) *rules* defining whether a *firm's potential tier one instruments* must be classified as *innovative tier one instruments*.
- 2.2.43 G The *rules* about redemption that are relevant to deciding whether a *firm's potential tier one instruments* are eligible for inclusion in its *tier one capital resources* at all are as follows.
- (1) *PRU 2.2.29R(3)* and *PRU 2.2.39R* have the following provisions.

- (a) Any capital instrument that is redeemable at the option of the holder cannot form part of a *firm's tier one capital resources*. Instead, if it is redeemable at all, a capital instrument should only be redeemable at the option of the *firm*.
  - (b) A redemption right should be exercisable no earlier than the fifth anniversary of the date of issue. However, if an instrument is an *innovative tier one instrument* which is subject to a *step-up* or any other economic incentive to redeem, any such redemption should be exercisable no earlier than the tenth anniversary.
  - (c) Any redemption proceeds should be payable only in cash or in *shares*.
  - (d) The terms of the capital instrument should provide that any redemption right should not be exercised unless and until the *firm* has given the notice to the *FSA* required under *PRU 2.2.72R*.
  - (e) Any redemption right should not be exercisable unless both before and after the redemption the *firm* complies with *PRU 2.1.9R* (which requires that a *firm* has sufficient *capital resources* to meet its *capital resources requirement*).
- (2) Under *PRU 2.2.70R*, a *firm* should not include a *potential tier one instrument* that is redeemable in whole or in part in *permanent share capital* in its *tier one capital resources* unless the *firm* has:
    - (a) sufficient *permanent share capital* or sufficient authority to issue *permanent share capital* (and the authority to allot it) to meet any redemption obligations that have become due; and
    - (b) a prudent reserve of *permanent share capital* or sufficient authority to issue *permanent share capital* (and the authority to allot it) to meet possible future redemption obligations.
  - (3) *PRU 2.2.65R* contains limits on the amount of *permanent share capital* that may be issued on a redemption of a *potential tier one instrument* redeemable in *permanent share capital*.
- 2.2.44 G The *rules* defining whether a *firm's potential tier one instruments* are eligible for inclusion in its *permanent share capital* are to be found in *PRU 2.2.36R*. As far as redemption is concerned, it says that the capital instrument should be no more capable of being redeemed than a *share* under the Companies Act 1985 or the Companies (Northern Ireland) Order 1986. *PRU 2.2.38R* (which sets out the basic rules for redemption) does not apply to *permanent share capital* as a redeemable *potential tier one instrument* should not be included in *permanent share capital*.
- 2.2.45 G The *rules* about redemption that are relevant to deciding whether a *firm's potential tier one instruments* should be classified as *innovative tier one instruments* are as follows.
- (1) Under *PRU 2.2.53R*, a redeemable *potential tier one instrument* is always treated as an *innovative tier one instrument* if the redemption proceeds are payable otherwise than in cash.
  - (2) Under *PRU 2.2.54R*, any feature of a *tier one instrument* that in conjunction with a call would make a *firm* more likely to redeem it or to have an incentive to do so will make it an *innovative tier one instrument*.
  - (3) Under *PRU 2.2.62R* a *step-up* coupled with a right of redemption results in a *potential tier one instrument* being treated as an *innovative tier one instrument*.

Further guidance on coupons

- 2.2.46 G The *rules* in PRU 2.2 about the *coupons* payable on *potential tier one instruments* fall into the same three classes that apply to the *rules* on redemption, as set out in PRU 2.2.42G.
- 2.2.47 G The *rules* about *coupons* that are relevant to deciding whether a *firm's potential tier one instruments* are eligible for inclusion in its *tier one capital resources* at all are as follows.
- (1) Under PRU 2.2.29R(4) and PRU 2.2.40R, any deferred cumulative *coupon* should only be payable in *permanent share capital*. If a cumulative *coupon* is payable on a *potential tier one instrument* in another form, it should not be included in the *firm's tier one capital resources*.
  - (2) Under PRU 2.2.29R(7), the *firm* has the right not to pay a *coupon* in cash at any time.
  - (3) PRU 2.2.63R says that a *potential tier one instrument* that may be subject to a *step-up* that potentially exceeds defined limits should not be included in the *firm's tier one capital resources*. PRU 2.2.64R says that any *step-up* should not arise before the tenth anniversary of the date of issue if it is to be included in the *firm's tier one capital resources*.
  - (4) The provisions of PRU 2.2.70R summarised in PRU 2.2.43G(2) also apply to the payment of *coupons*.
- 2.2.48 G PRU 2.2.36R(2) says that a capital instrument on which a cumulative *coupon* is payable must not be included in a *firm's permanent share capital*. The payment of a *coupon* must be purely discretionary.
- 2.2.49 G The *rules* about *coupons* that are relevant to deciding whether a *firm's potential tier one instruments* should be classified as *innovative tier one instruments* are as follows:
- (1) Under PRU 2.2.60R a *potential tier one instrument* with a cumulative *coupon* is an *innovative tier one instrument*.
  - (2) Under PRU 2.2.40R a *potential tier one instrument* with a *coupon* that if deferred must be paid in *permanent share capital* is an *innovative tier one instrument*.
  - (3) Under PRU 2.2.62R a *step-up* coupled with a right of redemption by the *firm* results in a *potential tier one instrument* being treated as an *innovative tier one instrument*.
- Perpetual non-cumulative preference shares
- 2.2.50 R A perpetual non-cumulative *preference share* may be included at stage B of the calculation in PRU 2.2.14R if:
- (1) it complies with PRU 2.2.29R, PRU 2.2.35R and PRU 2.2.38R;
  - (2) any *coupon* on it is not cumulative, and the *firm* has the right to choose whether or not to pay a *coupon* in all circumstances;
  - (3) it is not excluded from *tier one capital resources* by any of the *rules* in PRU 2.2; and
  - (4) it is not an *innovative tier one instrument*.
- 2.2.51 G Perpetual non-cumulative *preference shares* should be perpetual and redeemable only at the *firm's* option. Any feature that, in conjunction with a call, would make a *firm* more likely to redeem perpetual non-cumulative *preference shares* would normally result in classification as an *innovative tier one instrument*. Such features would include, but not be limited to, a *step-up*, bonus *coupon* on redemption or redemption at a premium to the original issue price of the *share*.
- Innovative tier one instruments: general rules

- 2.2.52 R If an item of capital is stated to be an *innovative tier one instrument* by the rules in *PRU 2.2*, it cannot be included in stages A or B of the calculation in *PRU 2.2.14R*.
- 2.2.53 R If a *tier one instrument* is redeemable at the option of the *firm*, it is an *innovative tier one instrument* unless it is redeemable solely in cash.
- 2.2.54 R If a *tier one instrument*:
- (1) is redeemable; and
  - (2) is issued on terms that are (or its terms are amended and the amended terms are) such that a reasonable *person* would (judging at or around the time of issue or amendment) think that:
    - (a) the *firm* is likely to redeem it; or
    - (b) the *firm* is likely to have a substantial economic incentive to redeem it;
 that *tier one instrument* is an *innovative tier one instrument*.
- 2.2.55 G Any feature that in conjunction with a call would make a *firm* more likely to redeem a *tier one instrument* would normally result in classification as *innovative tier one capital resources*. *Innovative tier one instruments* include but are not limited to those incorporating a *step-up* or principal stock settlement.
- Innovative tier one instruments: loss absorbency
- 2.2.56 R A capital instrument may only be included in *innovative tier one capital resources* if a *firm's* obligations under the instrument either:
- (1) do not constitute a liability (actual, contingent or prospective) under section 123(2) of the Insolvency Act 1986; or
  - (2) do constitute such a liability but the terms of the instrument are such that:
    - (a) any such liability is not relevant for the purposes of deciding whether:
      - (i) the *firm* is, or is likely to become, unable to pay its debts; or
      - (ii) its liabilities exceed its assets;
    - (b) a creditor (including, but not limited to, a holder of the instrument) is not able to petition for the winding up or administration of the *firm* on the grounds that the *firm* is or may become unable to pay any such liability; and
    - (c) the *firm* is not obliged to take into account such a liability for the purposes of deciding whether or not the *firm* is, or may become, insolvent for the purposes of section 214 of the Insolvency Act 1986 (wrongful trading).
- 2.2.57 G The effect of *PRU 2.2.56R* is that if a *potential tier one instrument* does constitute a liability, this should only be the case when the *firm* is able to pay that liability but chooses not to do so. As *tier one capital resources* must be undated, this will generally only be relevant on a solvent winding up of the *firm*.
- 2.2.58 R A *firm* wishing to issue an *innovative tier one instrument* must obtain an opinion from Queen's Counsel, or where the opinion relates to the law of a jurisdiction outside the *United Kingdom*, from a lawyer in that jurisdiction of equivalent status, confirming that the criteria in *PRU 2.2.29R(5)* and *PRU 2.2.31R* are met.
- 2.2.59 G The holder should agree that the *firm* has no liability (including any contingent or prospective liability) to pay any amount to the extent to which that liability would cause the *firm* to become insolvent if it made the payment or to the extent that its liabilities exceed its assets or would do if the payment were made. The terms of the capital instrument should be such that the *directors* can continue to trade in the best interests of the senior creditors even if this prejudices the interests of the holders of the instrument.

Innovative tier one instruments: Coupons

- 2.2.60 R A *tier one instrument* with a cumulative *coupon* which complies with PRU 2.2.40R is an *innovative tier one instrument*.
- 2.2.61 G An item of capital does not fall into PRU 2.2.60R merely because a *firm* has come under an obligation to pay a particular *coupon* in *permanent share capital* where that obligation is the result of a voluntary election by the holder or the *firm* to be paid the *coupon* in that form. Thus, for example, if a shareholder of a *firm* is allowed to elect to be paid a dividend in the form of a conventional scrip dividend, that does not make the *share* into an *innovative tier one instrument*.
- Innovative tier one instruments and other tier one instruments: step-ups
- 2.2.62 R If:
- (1) a *potential tier one instrument* is or may become subject to a *step-up*; and
  - (2) that *potential tier one instrument* is redeemable at any time (whether before, at or after the time of the *step-up*);
- that *potential tier one instrument* is an *innovative tier one instrument*.
- 2.2.63 R If a *potential tier one instrument* is or may become subject to a *step-up*, a *firm* must not include it in its *tier one capital resources* if the amount of the *step-up* exceeds or may exceed;
- (1) 100 basis points; and
  - (2) 50% of the *initial credit spread*.
- 2.2.64 R A *firm* must not include a *potential tier one instrument* that is or may become subject to a *step-up* in its *tier one capital resources* if the *step-up* can arise earlier than the tenth anniversary of the date of issue of that item of capital.
- Innovative tier one instruments: principal stock settlement
- 2.2.65 R A *firm* must not include a *potential tier one instrument* that is redeemable in whole or in part in *permanent share capital* in its *tier one capital resources* if:
- (1) the conversion ratio as at the date of redemption may be greater than the conversion ratio as at the time of issue by more than 200%; or
  - (2) the issue or market price of the conversion instruments issued in relation to one unit of the original capital item (plus any cash element of the redemption) may be greater than the issue price (or, as the case may be, market price) of that original capital item.
- 2.2.66 R In PRU 2.2.65R to PRU 2.2.69R:
- (1) the original capital item means the capital item that is being redeemed; and
  - (2) the conversion instrument means the *permanent share capital* issued on its redemption.
- 2.2.67 R In PRU 2.2.65R to PRU 2.2.69R, the conversion ratio means the ratio of:
- (1) the number of units of the conversion instrument that the *firm* must issue to satisfy its redemption obligation (so far as it is to be satisfied by the issue of conversion instruments) in respect of one unit of the original capital item; to
  - (2) one unit of the original capital item.
- 2.2.68 R In PRU 2.2.65R, the conversion ratio as at the date of issue of the original capital item is calculated as if the original capital item were redeemable at that time.
- 2.2.69 R If the conversion instruments or the original capital item are subdivided or consolidated or subject to any other occurrence that would otherwise result in like not being compared with like, the conversion ratio calculation in PRU 2.2.65R must be adjusted accordingly.
- Requirement to have sufficient unissued stock
- 2.2.70 R (1) This *rule* applies to a *potential tier one instrument* of a *firm* where either:
- (a) the redemption proceeds; or
  - (b) any *coupon* on that capital item;

can be satisfied by the issue of another *tier one instrument*.

- (2) A *firm* may only include an item of capital to which this *rule* applies in its *tier one capital resources* if the *firm* has authorised and unissued *tier one instruments* of the kind in question (and the authority to issue them):
- (a) that are sufficient to satisfy all such payments then due; and
  - (b) are of such amount as is prudent in respect of such payments that could become due in the future.

Notifying the *FSA* of the issue and redemption of tier one instruments

2.2.71 R A *firm* must not include any perpetual non-cumulative *preference shares* or *innovative tier one instruments* in its *tier one capital resources* for the purpose of *PRU 2.2* unless it has notified the *FSA* of its intention at least one month before it first includes them.

2.2.72 R A *firm* must not redeem any *tier one instrument* that it has included in its *tier one capital resources* for the purpose of *PRU 2.2* unless it has notified the *FSA* of its intention at least one month before it does so.

Non standard capital instruments

2.2.73 G There may be examples of capital instruments that, although based on a standard form, contain structural features that make the rules in *PRU 2.2* difficult to apply. In such circumstances, a *firm* may seek individual *guidance* on the application of those *rules* to the capital instrument in question. See *SUP 9* for the process to be followed when seeking individual *guidance*.

Step-ups

2.2.74 R In relation to a *tier one instrument*, a *step-up* means any change in the *coupon* rate on that instrument that results in an increase in the amount payable at any time, including a change already provided in the original terms governing those payments.

A *step-up*:

- (1) includes (in the case of a fixed rate) an increase in that *coupon* rate;
- (2) includes (in the case of a floating rate calculated by adding a fixed amount to a fluctuating amount) an increase in that fixed amount;
- (3) includes (in the case of a floating rate) a change in the identity of the benchmark by reference to which the fluctuating element of the *coupon* is calculated that results in an increase in the absolute amount of the *coupon*;
- (4) does not include (in the case of a floating rate) an increase in the absolute amount of the *coupon* caused by fluctuations in the fluctuating figure by reference to which the absolute amount of the *coupon* floats.

2.2.75 R Where a *rule* in *PRU 2.2* says that a particular treatment applies to an item of capital that is subject to a *step-up* of a specified amount, the question of whether that *rule* is satisfied must be judged by reference to the cumulative amount of all *step-ups* since the issue of that item of capital rather than just by reference to a particular *step-up*.

Profit and loss account and other reserves

2.2.76 R Negative amounts, including any interim net losses, must be deducted from *tier one capital resources*.

2.2.77 R Dividends must be deducted from reserves as soon as they are declared.

Valuation differences

2.2.78 R Valuation differences are all differences between the valuation of assets and liabilities as valued in *PRU* and the valuation that the *firm* uses for its external financial reporting purposes, except valuation differences which are dealt with elsewhere in *PRU 2.2.14R*. The sum of these valuation differences must either be added to (if positive) or deducted from (if negative) a *firm's capital resources* in accordance with *PRU 2.2.14R*.

- 2.2.79 G Additions to and deductions from *capital resources* will arise from the application of asset and liability valuation and admissibility rules (see *PRU 1.3*, *PRU 2.2.86R* and *PRU 2 Ann 1R*). Downward adjustments include *discounting of technical provisions* for *general insurance business* (which is optional for financial reporting but not permitted for regulatory valuation – see *PRU 2.2.80R* to *PRU 2.2.81R*). Details of valuation differences relating to *technical provisions* and liability adjustments for *long-term insurance business* are set out in *PRU 7.3*. In particular, contingent loans or other arrangements which are not valued as a liability under *PRU 7.3.79R(2)* result in a positive valuation difference.
- 2.2.80 R *PRU 2.2.81R* applies to a *firm* that carries on *general insurance business*, except a *pure reinsurer*, and which *discounts* or reduces its *technical provisions* for *claims* outstanding to take account of its investment income as permitted by Article 60(1)(g) of the *Annual Accounts Directive*.
- 2.2.81 R A *firm* of a kind referred to in *PRU 2.2.80R* must deduct from its *capital resources* the difference between the undiscounted *technical provisions* or *technical provisions* before deductions as disclosed in the notes on the accounts, and the discounted *technical provisions* or *technical provisions* after deductions. This adjustment must be made for all *general insurance business classes*, except for risks listed under *classes 1* and *2*. For *classes* other than *1* and *2*, no adjustment needs to be made in respect of the discounting of annuities included in *technical provisions*.
- Externally verified interim net profits
- 2.2.82 R Externally verified interim net profits are interim profits verified by a *firm's* external auditors after deduction of tax, declared dividends and other appropriations.
- 2.2.83 G The *FSA* may request a *firm* to provide it with a copy of the external auditor's opinion on whether the interim profits are fairly stated.
- Intangible assets
- 2.2.84 R A *firm* must deduct from its *tier one capital resources* the value of intangible assets.
- 2.2.85 G Intangible assets include goodwill, capitalised development costs, brand names, trademarks and similar rights, and licences.
- Inadmissible assets
- 2.2.86 R For the purposes of *PRU 2.2.14R*, a *firm* must deduct from total *capital resources* the value of any asset which is not an *admissible asset* as listed in *PRU 2 Ann 1R*.
- 2.2.87 G *PRU 2.2.86R* does not apply to intangible assets which must be deducted from *tier one capital resources* under *PRU 2.2.84R*.
- 2.2.88 G The list of *admissible assets* has been drawn with the aim of excluding assets:
- (1) for which a sufficiently objective and verifiable basis of valuation does not exist; or
  - (2) whose realisability cannot be relied upon with sufficient confidence; or
  - (3) whose nature presents an unacceptable custody risk; or
  - (4) the holding of which may give rise to significant liabilities or onerous duties.
- Adjustments for related undertakings
- 2.2.89 R A *firm* must deduct from its *capital resources* the value of its investments in each of its *related undertakings* that is an *ancillary services undertaking*.

- 2.2.90 R In relation to each of its *related undertakings* that is a *regulated related undertaking* (other than an *insurance undertaking*) a *firm* must add to (if positive), at stage J in *PRU 2.2.14R*, or deduct from (if negative), at stage L in *PRU 2.2.14R*, its *capital resources* the value of its *shares* in that *undertaking* calculated in accordance with *PRU 1.3.35R*.
- 2.2.91 G For the purposes of *PRU 2.2.89R*, investments must be valued at their accounting book value in accordance with *PRU 1.3.5R*.
- 2.2.92 G *Related undertakings* which are also *insurance undertakings* are not included in *PRU 2.2.90R* because a *firm* that is a *participating insurance undertaking* is subject to the requirements of *PRU 8.3*.
- Additional requirements for a tier one or tier two instrument issued by a firm carrying on with-profits insurance business
- 2.2.93 R A *firm* carrying on *with-profits insurance business* must, in addition to the other requirements in respect of *capital resources* elsewhere in *PRU 2.2*, meet the following conditions before a capital instrument can be included in the *firm's capital resources*:
- (1) the *firm* must manage the *with-profits fund* so that discretionary benefits under a *with-profits insurance contract* are calculated and paid disregarding, insofar as is necessary for its *customers* to be treated fairly, any liability the *firm* may have to make payments under the capital instrument;
  - (2) the intention to manage the *with-profits fund* on the basis set out in *PRU 2.2.93R(1)* must be disclosed in the *firm's Principles and Practices of Financial Management*; and
  - (3) no amounts, whether interest, principal, or other amounts, must be payable by the *firm* under the capital instrument if the *firm's* assets would then be insufficient to enable it to declare and pay under a *with-profits insurance contract* discretionary benefits that are consistent with the *firm's* obligations under *Principle 6*.
- 2.2.94 G The purpose of *PRU 2.2.93R* is to achieve practical subordination of capital instruments if they are to qualify as capital resources to the liabilities a *firm* has to *with-profits policyholders*, including liabilities which arise from the regulatory duty to treat *customers* fairly in setting discretionary benefits. (*Principle 6* (Customers' interests) requires a *firm* to pay due regard to the interests of its *customers* and treat them fairly.) It is not sufficient for a capital instrument to be subordinated to such liabilities only on winding up of the *firm* because such *liabilities to policyholders* may have been reduced by the inappropriate use of management discretion to enable funds to be applied in repaying subordinated capital instruments before winding up proceedings commence.
- 2.2.95 G *PRU 2.2.93R* is an additional requirement to all other rules in *PRU 2.2* concerning the eligibility of a capital instrument to count as a component of a *firm's capital resources*. Subordinated debt instruments will be the main type of capital instrument to which this *rule* is relevant, including both *upper tier two* (undated) and *lower tier two* (dated) subordinated debt instruments. Subordinated debt instruments which are issued by a *related undertaking* are not intended to be covered by this *rule* and may be included in *group capital resources* as appropriate if the other eligibility criteria are met.

- 2.2.96 G *PRU 2.2.29R(8) and PRU 2.2.108R(10) contain provisions concerning the marketing of a capital instrument. In relation to a firm to which PRU 2.2.93R applies, in order to comply with PRU 2.2.29R(8) and PRU 2.2.108R(10), it should draw to the attention of subscribers the risk that payments may be deferred or cancelled in order to operate the with-profits fund so as to give priority to the payment of discretionary benefits to with-profits policyholders.*
- 2.2.97 G (1) *Upper tier two instruments must meet the requirements of PRU 2.2.101R(3) which goes beyond the requirement in PRU 2.2.93R(3) since it requires a firm to have the option to defer payments in all circumstances, not just if necessary to treat customers fairly. However, for lower tier two instruments, PRU 2.2.93R(3) represents an additional requirement since a failure to pay amounts of interest or principal on a due date must not constitute an event of default under PRU 2.2.108R(2) for firms carrying on with-profits insurance business.*
- (2) *For firms which are realistic basis life firms compliance with PRU 2.2.93R(3) would usually be achieved if the capital instrument provides that no amounts will be payable under it unless the firm's capital resources exceed its capital resources requirement. However, such firms should ensure that the terms of the capital instrument refer to FSA capital resources requirements in force from time to time, including the current realistic reserving requirements and are not restricted to former minimum capital requirements based only on the Insurance Directives' required minimum margin of solvency. For firms which are not realistic basis life firms, compliance with PRU 2.2.93R(3) will probably require specific reference to be made to treating customers fairly in the terms of the capital instrument.*
- Tier two capital
- 2.2.98 G *Tier two capital resources is split into upper and lower tiers. The principal distinction between upper and lower tier two capital is that perpetual instruments may be included in upper tier two capital whereas dated instruments, such as fixed term preference shares and dated subordinated debt, are included in lower tier two capital.*
- 2.2.99 G *Tier two capital instruments are capital instruments that combine the features of debt and equity in that they are structured like debt, but exhibit some of the loss absorption and funding flexibility features of equity.*
- Upper tier two capital
- 2.2.100 G *Examples of capital instruments which may be eligible to count in upper tier two capital resources include the following:*
- (1) *perpetual cumulative preference shares;*
- (2) *perpetual subordinated debt; and*
- (3) *other instruments that have the same economic characteristics as (1) or (2).*
- 2.2.101 R *A capital instrument must meet the following conditions before it can be included in a firm's upper tier two capital resources:*
- (1) *it must meet the general conditions described in PRU 2.2.108R;*
- (2) *it must have no fixed maturity date;*
- (3) *the contractual terms of the instrument must provide for the firm to have the option to defer any interest payment in cash on the debt; and*
- (4) *the contractual terms of the instrument must provide for the loss-absorption capacity of the debt and unpaid interest, whilst enabling the firm to continue its business.*

- 2.2.102 R A capital instrument does not meet *PRU 2.2.101R(4)* unless it meets *PRU 2.2.103R* and *PRU 2.2.105R*.
- 2.2.103 R A capital instrument may only be included in *upper tier two capital resources* if a *firm's* obligations under the instrument either:
- (1) do not constitute a liability (actual, contingent or prospective) under section 123(2) of the Insolvency Act 1986; or
  - (2) do constitute such a liability but the terms of the instrument are such that:
    - (a) any such liability is not relevant for the purposes of deciding whether:
      - (i) the *firm* is, or is likely to become, unable to pay its debts; or
      - (ii) its liabilities exceed its assets;
    - (b) a creditor (including but not limited to a holder of the instrument) is not able to petition for the winding up or administration of the *firm* on the grounds that the *firm* is or may become unable to pay any such liability; and
    - (c) the *firm* is not obliged to take into account such a liability for the purposes of deciding whether or not the *firm* is, or may become, insolvent for the purposes of section 214 of the Insolvency Act 1986 (wrongful trading).
- 2.2.104 G The effect of *PRU 2.2.103R* is that if an *upper tier two instrument* does constitute a liability, this should only be the case when the *firm* is able to pay that liability but chooses not to do so. As *upper tier two capital resources* must be undated, this will generally only be relevant on a solvent winding up of the *firm*.
- 2.2.105 R A *firm* wishing to issue an *upper tier two instrument* other than a perpetual cumulative *preference share* must obtain an opinion from Queen's Counsel, or where the opinion relates to the law of a jurisdiction outside the *United Kingdom*, from a lawyer in that jurisdiction of equivalent status, confirming that the criteria in *PRU 2.2.101R(4)* are met.
- 2.2.106 G For the purpose of *PRU 2.2.103R(2)(b)* above, the holder should agree that the *firm* has no liability (including any contingent or prospective liability) to pay any amount to the extent to which that liability would cause the *firm* to become insolvent if it made the payment or to the extent that its liabilities exceed its assets or would do if the payment were made. The terms of the capital instrument should be such that the *directors* can continue to trade in the best interests of the senior creditors even if this prejudices the interests of the holders of the instrument.
- Lower tier two capital
- 2.2.107 G Capital instruments that meet the general conditions described in *PRU 2.2.108R* may be included in *lower tier two capital resources*.
- General conditions for eligibility as tier two capital
- 2.2.108 R A capital instrument must not form part of the *tier two capital resources* of a *firm* unless it meets the following conditions:
- (1) the claims of the creditors must rank behind those of all unsubordinated creditors;
  - (2) the only events of default must be non-payment of any amount falling due under the terms of the capital instrument or the winding-up of the *firm*;
  - (3) the remedies available to the subordinated creditor in the event of non-payment or other breach of the written agreement or instrument must be limited to petitioning for the winding-up of the *firm* or proving for the debt and claiming in the liquidation of the *firm*;
  - (4) any events of default and any remedy described in (3) must not prejudice the matters in (1) and (2);

- (5) in addition to the requirement about repayment in (1), the debt must not become due and payable before its stated final maturity date (if any) except on an event of default complying with (2);
  - (6) the debt agreement or terms of the capital instrument are governed by the law of England and Wales, or of Scotland or of Northern Ireland;
  - (7) to the fullest extent permitted under the laws of the relevant jurisdictions, creditors must waive their right to set off amounts they owe the *firm* against subordinated amounts included in the *firm's capital resources* owed to them by the *firm*;
  - (8) the terms of the capital instrument must be set out in a written agreement that contains terms that provide for the conditions set out in (1) to (7);
  - (9) the debt must be unsecured and fully paid up;
  - (10) the description of its characteristics used in its marketing is consistent with the characteristics required to satisfy (1) to (9); and
  - (11) the *firm* has obtained a properly reasoned external legal opinion stating that the requirements in (1) to (10) have been met.
- 2.2.109 G For the purposes of *PRU 2.2.108R(5)* the debt agreement or terms of the instrument should not contain any clause which might require early repayment of the debt (e.g. cross default clauses, negative pledges and restrictive covenants). A cross default clause is a clause which says that the loan goes into default if any of the borrower's other loans go into default. It is intended to prevent one creditor being repaid before other creditors, e.g. obtaining full repayment through the courts. A negative pledge is a clause which puts the loan into default if the borrower gives any further charge over its assets. A restrictive covenant is a term of contract that directly, or indirectly, could lead to early repayment of the debt. Some covenants, e.g. relating to the provision of management information or ownership restrictions, are likely to comply with *PRU 2.2.108R(5)* as long as monetary redress is ruled out, or any payments are covered by the subordination and limitation of remedies clauses (that is, if damages are unpaid, the only remedy is to petition for a winding up).
- 2.2.110 G The purpose of *PRU 2.2.108R(7)* is to ensure that all of the *firm's* assets are available to *customers* ahead of subordinated creditors. The waiver should apply both before and during liquidation.
- 2.2.111 R *PRU 2.2.108R(6)* does not apply if the *firm* has obtained a properly reasoned external legal opinion confirming that the same degree of subordination has been achieved under the law that governs the debt and the agreement as that which would have been achieved under the laws of England and Wales, Scotland, or Northern Ireland.
- 2.2.112 G An item of capital does not comply with *PRU 2.2.108R(10)* if it is marketed as a capital instrument that would only qualify for a lower level of capital or on the basis that investing in it is like investing in a lower tier capital instrument. For example, an undated capital instrument should not be marketed as a dated capital instrument if the terms of the capital instrument include an option by the issuer to redeem the capital instrument at a specified date in the future.
- 2.2.113 R (1) An item of capital does not comply with *PRU 2.2.101R* or *PRU 2.2.108R* if the issue of that item of capital by the *firm* is connected with one or more other transactions which, when taken together with the issue of that item, could produce the effect described in (2).

- (2) The effect referred to in (1) is a reduction in the economic benefit intended to be conferred on the *firm* by the issue of the item of capital which means that the item of capital no longer displays all of the characteristics set out in *PRU 2.2.101R* or *PRU 2.2.108R*.
- 2.2.114 G For the purposes of *PRU 2.2.113R*, examples of connected transactions might include guarantees or any other side agreement provided to the holders of the capital instrument by the *firm* or a connected party or a related transaction designed, for example, to enhance their security or to achieve a tax benefit, but which may compromise the loss absorption capacity or permanence of the original capital item.
- 2.2.115 G The *FSA* is more concerned that the subordination provisions listed in *PRU 2.2.108R* should be effective than that they should follow a particular form. The *FSA* does not, therefore, prescribe that the loan agreement should be drawn up in a standard form.
- 2.2.116 R A *firm* must not amend the terms of the debt and the documents referred to in *PRU 2.2.108R(8)* unless:
- (1) at least one month before the amendment is due to take effect, the *firm* has given the *FSA* notice in writing of the proposed amendment and the *FSA* has not objected; and
  - (2) that notice includes confirmation that the legal opinions referred to in *PRU 2.2.108R(11)* and, if applicable, *PRU 2.2.105R* and *PRU 2.2.111R*, continue in full force and effect in relation to the terms of the debt and documents, notwithstanding any proposed amendment.
- 2.2.117 R A *firm* must notify the *FSA* of its intention to repay a *tier two instrument* at least six months before the date of the proposed repayment (unless the *firm* intends to repay an instrument on its contractual repayment date) providing details of how it will meet its *capital resources requirement* after such repayment.
- Step-ups
- 2.2.118 R In relation to a *tier two instrument*, a *step-up* in a *coupon* rate means:
- (1) (in the case of a fixed rate) an increase in that rate;
  - (2) (in any other case) any change in the way that the interest or other payment is calculated that may result in an increase in the amount payable at any time, including a change already provided in the original terms governing those payments.
- 2.2.119 R Where a *tier two instrument* is subject to one or more *step-ups*, the first date that a *step-up* can take effect must be treated, for the purposes of this section, as the instrument's final maturity date if its actual maturity date occurs after that, unless the effect of the *step-up* or *step-ups* is to increase the *coupon* rate at which payments are to be made by no more than:
- (1) 50 basis points in the first ten years of the life of the debt; or
  - (2) 100 basis points over the whole life of the debt.
- 2.2.120 R A *firm* may not include in its *tier two capital resources* a capital instrument the terms of which provide for a *step-up* in the first five years after issue.
- 2.2.121 R Where a *step-up* arises through a change from paying a *coupon* on a debt instrument to paying a dividend on a *share* issued in settlement of the *coupon*, then any cost to the *firm* arising from the tax treatment of the dividend may be excluded.

- 2.2.122 G Debt instruments containing embedded options, e.g. issues containing options for the interest rate after the *step-up* to be at a margin over the higher of two (or more) reference rates, or for the interest rate in the previous period to act as a floor, may affect the funding costs of the borrower and imply a *step-up*. In such circumstances, a *firm* may wish to seek individual *guidance* on the application of the *rules* relating to *step-ups* to the capital instrument in question. See *SUP 9* for the process to be followed when seeking individual *guidance*.
- Other conditions for eligibility as lower tier two capital
- 2.2.123 R A capital instrument may be included in *lower tier two capital resources* only if it has an original maturity of at least five years or, where it has no fixed maturity date, notice of repayment of not less than five years has been given.
- 2.2.124 R In its final five years to maturity, for the purposes of calculating the amount of a *lower tier two instrument* which may be included in a *firm's capital resources*, the principal amount must be amortised on a straight line basis.
- 2.2.125 G *PRU 2.2.124R* applies both to a *tier two instrument* with a fixed maturity and to a *tier two instrument* with no fixed maturity but where the *firm* has given five years' notice of repayment.
- Unpaid share capital or initial funds and calls for supplementary contributions
- 2.2.126 G Unpaid *share capital* or, in the case of a *mutual*, *unpaid initial funds* and calls for supplementary contributions are excluded from the *capital resources* of a *firm* except to the extent allowed in a *waiver* under section 148 of the *Act*.
- 2.2.127 G Subject to a *waiver*, under the *Insurance Directives* a maximum of one half of unpaid *share capital* or, in the case of a *mutual*, one half of the *unpaid initial fund* may be included in a *firm's capital resources*, once the paid-up part amounts to 25% of that *share capital* or fund, up to 50% of total *capital resources*.
- 2.2.128 G In the case of a *mutual* carrying on *general insurance business* and subject to a *waiver*, calls for supplementary contributions within the *financial year* may only be included in a *firm's capital resources* up to a maximum of 50% of the difference between the maximum contributions and the contributions actually called in, subject to a limit of 50% of total *capital resources*. In the case of a *mutual* carrying on *long-term insurance business*, the *Consolidated Life Directive* does not permit calls for supplementary contributions to be included in a *firm's capital resources*.

## 2.3 Individual Capital Assessment

### Application

2.3.1 R *PRU 2.3* applies to an *insurer* unless it is:

- (1) a *non-directive friendly society*; or
- (2) a *Swiss general insurer*; or
- (3) an *EEA-deposit insurer*; or
- (4) an *incoming EEA firm*; or
- (5) an *incoming Treaty firm*.

### Purpose

2.3.2 G *Principle 4* requires a *firm* to maintain adequate financial resources. *PRU 2* sets out provisions that deal specifically with the adequacy of that part of a *firm's* financial resources that consists of *capital resources*. The adequacy of a *firm's* *capital resources* needs to be assessed both by the *firm* and the *FSA*. In *PRU 2.1*, the *FSA* sets minimum *capital resources requirements* for *firms*. It also reviews a *firm's* own assessment of its capital needs, and the processes and systems by which that assessment is made, in order to see if the minimum *capital resources requirements* are appropriate. *PRU 1.2* contains *rules* requiring a *firm* to identify and assess risks to its being able to meet its liabilities as they fall due, to assess how it intends to deal with those risks and to quantify the financial resources it considers necessary to mitigate those risks. To meet these requirements, a *firm* should consider the extent to which capital is an appropriate mitigant for the risks identified and assess the amount and quality of capital required. In accordance with *PRU 1.2.37R*, these assessments must be documented so that they can be easily reviewed by the *FSA* as part of the *FSA's* assessment of the adequacy of the *firm's* *capital resources*.

2.3.3 G This section (*PRU 2.3*) sets out *guidance* on how *firms* should assess the adequacy of their *capital resources*, both to comply with the *rules* in *PRU 1.2* and to enable the *FSA* better to assess whether the minimum *capital resources requirements* in *PRU 2.1* are appropriate. This section also requires *firms* carrying on *general insurance business* to calculate their *ECR*. The *ECR* for *firms* carrying on *general insurance business* is an indicative measure of the *capital resources* that a *firm* may need to hold based on risk sensitive calculations applied to its business profile. For *realistic basis life firms*, the *ECR* forms part of the calculation of the *firm's* *capital resources requirement* (see *PRU 2.1.15R*). The *ECR* for such *firms* requires the calculation of a *with-profits insurance capital component* (see *PRU 7.4*) that supplements the *mathematical reserves* so as to ensure that a *firm* holds adequate financial resources for the conduct of its *with-profits insurance business*. In the case of *firms* carrying on *general insurance business* and *realistic basis life firms*, the *FSA* will use the *ECR* as a benchmark for its consideration of the appropriateness of the *firm's* own capital assessment. For *firms* where an *ECR* is not calculated the *MCR* will provide a benchmark for the *firm's* own capital assessment. For *firms* generally, the more thorough, objective and prudent a *firm's* capital assessment is and can be demonstrated as being, the more reliance the *FSA* will be able to place on the results of that assessment. The *FSA* will consider the appropriateness of the *firm's* capital assessment to establish the level of *capital resources* the *firm* needs. This may result in the *FSA's* assessment of a *firm's* *capital resources* needs being lower or higher than would otherwise be the case.

2.3.4 G There are two main purposes of this section:

- (1) to enable *firms* to understand the issues which the *FSA* would expect to see assessed and the systems and processes which the *FSA* would expect to see in operation for capital adequacy assessments by the *firm* to be regarded as thorough, objective and prudent; and
- (2) to enable *firms* to understand the *FSA*'s approach to assessing whether the minimum *capital resources requirements* of *PRU 2.1* are appropriate and what action may be taken if the *FSA* concludes that those requirements are not appropriate to a *firm*'s circumstances.

Main requirements and guidance

- 2.3.5 G In making an assessment of capital adequacy, the *FSA* requires *firms* to identify the major risks they face and, where capital is appropriate to mitigate those risks, to quantify how much (and what type) of capital is appropriate. To do this, the *FSA* expects *firms* to conduct stress tests and scenario analyses in respect of each risk. For each risk the *firm* will then be able to estimate a range of probable outcomes and hence capital required to absorb losses which might arise. A *firm* must document the results of each of the stress tests and scenario analyses undertaken and should also document, as part of the details of those tests and analyses, the key assumptions including the aggregation of the results.
- 2.3.6 G The assessment which a *firm* makes should be based upon its future business plans and projections. This is the main area where the *firm*'s assessment may diverge from its prescribed *capital resources requirement* which, necessarily, is based upon historic data.
- 2.3.7 G In assessing the quality and the amount of *capital resources* projected to be available to meet its projected *capital resources requirement*, a *firm* should consider the timing of its liabilities to repay existing capital together with the prospects for raising new capital in the scenarios considered.
- 2.3.8 G The *FSA* may ask for the results of a *firm*'s assessment to be provided to it together with a description of the processes by which the assessment has been made, the range of results from each stress test or scenario analysis performed and the main assumptions made. The *FSA* may also carry out a more detailed examination of the details of the *firm*'s processes and calculations.
- 2.3.9 G Based upon this information and other information available to the *FSA*, the *FSA* will consider whether the *capital resources requirement* applicable to the *firm* is appropriate. Where relevant, the *firm*'s *ECR* will be a key input to the *FSA*'s assessment of the adequacy of the *firm*'s *capital resources*.
- 2.3.10 R A *firm* carrying on *general insurance business*, other than a *non-directive insurer*, must calculate the amount of its *ECR*.
- 2.3.11 R A *firm* to which *PRU 2.3.10R* applies must calculate its *ECR* in respect of its *general insurance business* as the sum of:
- (1) the *asset-related capital requirement*; and
  - (2) the *insurance-related capital requirement*; less
  - (3) the *firm*'s *equalisation provisions*.
- 2.3.12 G Details of the calculation of the *asset-related capital requirement* are set out in *PRU 3.3.10R* to *3.3.16R*. Details of the calculation of the *insurance-related capital requirement* are set out in *PRU 7.2.76R* to *7.2.79R*.
- 2.3.13 G Where the *FSA* considers that a *firm* will not comply with *PRU 1.2.22R* (adequate financial resources, including *capital resources*) by holding the *capital resources* required by *PRU 2.1*, the *FSA* may give the *firm* individual *guidance* advising it of the amount and quality of *capital resources* which the *FSA* considers it needs to hold in order to meet that *rule*.

- 2.3.14 G The individual *guidance* will be given taking into consideration *capital resources* consistent with a 99.5% confidence level over a one year timeframe or, if appropriate to the *firm's* business, an equivalent lower confidence level over a longer timeframe. *Firms* should therefore prepare an individual capital assessment on the same basis. Throughout whatever timeframe is adopted by *firms*, *firms* should ensure that their projected assets are, and will continue to be, sufficient, to enable their projected liabilities to be paid, and it would be reasonable for *firms* to test that this is the case at the end of each year of the timeframe. *Firms* may also wish to make estimates of capital adequacy using other assumptions for their own internal purposes and are free to do so if they so choose.
- 2.3.15 G If a *firm* considers that the individual *guidance* is inappropriate to its circumstances, then the *firm* should inform the *FSA* that it does not intend to follow that *guidance*. Informing the *FSA* of such an intention would be expected if a *firm* is to comply with *Principle 11* (relations with regulators).
- 2.3.16 G The *FSA* expects most disagreements about the adequacy of capital will be resolved through further analysis and discussion. The *FSA* may consider the use of its powers under section 166 of the *Act* (Reports by skilled persons) to assist in such circumstances. If the *FSA* and the *firm* still do not agree on an adequate level of capital, then the *FSA* may consider using its powers under section 45 of the *Act* to, on its own initiative, vary a *firm's Part IV permission* so as to require it to hold capital in accordance with the *FSA's* view of the capital necessary to comply with *PRU 1.2.22R*. *SUP 7* provides further information about the *FSA's* powers under section 45.
- 2.3.17 G Where a *firm* or the *FSA* considers that the *capital resources requirements* of *PRU 2.1* require the holding of more capital than is needed for the *firm* to comply with *PRU 1.2.22R* then the *firm* may apply to the *FSA* for a *waiver* of the requirements in *PRU 2.1* under section 148 of the *Act*. This section sets out the factors which the *FSA* will consider in deciding whether to grant such a *waiver* request, and if so, the terms and extent of any modification to the *rules* in *PRU 2.1*. In addition to the statutory tests under section 148, these will include the thoroughness, objectivity, and prudence of a *firm's* own capital assessment and the extent to which the *guidance* in this section has been followed. The *FSA* will not grant a *waiver* that would cause a breach of the minimum capital requirements under the *Insurance Directives*.
- Stress and scenario requirement
- 2.3.18 G *PRU 1.2.35R* requires a *firm* to carry out stress tests and scenario analyses for each of the sources of risk identified in accordance with *PRU 1.2.31R*. Using each of the risk categories set out in *PRU 1.2.31R*, 2.3.19G to 2.3.34G set out the factors that a *firm* should consider. *PRU 2 Ann 3G* provides a practical illustration of how a small *firm* carrying on *general insurance business* might undertake this analysis.
- Factors to consider when assessing credit risk
- 2.3.19 G Credit risk refers to the risk of loss if another party fails to perform its obligations or fails to perform them in a timely fashion.
- 2.3.20 G In assessing potential credit risk events that may affect the *firm's* solvency, a *firm* should allow for:
- (1) the financial effect of non-payment of *reinsurance*, considering the likelihood both of non-payment of outstanding *claims* and for the fact that *reinsurance* cover purchased for underwritten risks may not be effective (that is, offsetting potential liabilities); and

- (2) the financial effect of non-payment of *premium* debtors such as intermediaries and *policyholders*.
- 2.3.21 G Some further areas to consider in developing the credit risk stress tests and scenario analyses might include:
- (1) the adequacy of the *reinsurance* programme and whether it is appropriate for the risks selected by the *firm* and adequately takes account of the underwriting and business plans of the *firm* generally;
  - (2) the collapse of a *reinsurer* or several *reinsurers* on the *firm's reinsurance* programme and the subsequent impact this may have on the *firm's* outstanding *reinsurance* recoveries and *IBNR* recoveries;
  - (3) a deterioration in the creditworthiness of the *firm's reinsurers*, intermediaries or other *counterparties*;
  - (4) the degree of credit concentration. For example, the degree to which a *firm* is exposed to a single *counterparty* or *group*;
  - (5) the degree of concentration of exposure to *reinsurers* of particular rating grades;
  - (6) the prospect of *reinsurance* rates increasing substantially or *reinsurance* being unavailable;
  - (7) any existing or possible future disputes relating to *reinsurance* contracts on a pessimistic basis and the extent that they are not already reflected in the value attributed to the *reinsurances*;
  - (8) greater losses from bad debts than anticipated;
  - (9) deterioration in the extent and quality of *collateral*; and
  - (10) guarantees given by the *insurer* of the performance of others, whether under *contracts of insurance* or otherwise.
- Factors to consider when assessing market risk
- 2.3.22 G *Market risk* includes the risks that arise from fluctuations in values of, or income from, assets or in interest or exchange rates.
- 2.3.23 G In assessing potential *market risk* events that may affect the *firm's* solvency, a *firm* should allow for:
- (1) reduced market values of *investments*;
  - (2) variation in interest rates and the effect on the market value of *investments*;
  - (3) a lower level of investment income than planned; and
  - (4) the possibility of *counterparty* defaults.
- 2.3.24 G Some further areas to consider in developing the *market risk* scenario might include:
- (1) the possibility of a severe economic or market downturn or upturn leading to adverse interest rate movements affecting the *firm's* investment position;
  - (2) unanticipated losses and defaults of issuers;
  - (3) price shifts in asset classes, and their impact on the entire portfolio;
  - (4) inadequate valuation of assets;
  - (5) the direct impact on the portfolio of currency devaluation, as well as the effect on related markets and currencies;
  - (6) extent of any mismatch of assets and liabilities, including reinvestment risk;
  - (7) the impact on the portfolio value of a dramatic change in the spread between a market index of interest rates and the risk-free interest rates; and
  - (8) the extent to which market moves could have non-linear effects on values, such as *derivatives*.
- Factors to consider when assessing liquidity risk
- 2.3.25 G In accordance with *PRU 1.2.31R* a *firm* should consider the major sources of risk,

- including *liquidity risks*, and assess its response should each risk materialise.
- 2.3.26 G *PRU 5.1* (liquidity risk systems and controls) contains evidential provisions and *guidance* on how *firms* should meet *PRU 1.2.22R* for liquidity purposes.
- (1) *PRU 5.1.61E* states that a scenario analysis in relation to *liquidity risk* required under *PRU 1.2.35R* should include a cash-flow projection for each scenario tested, based on reasonable estimates of the impact of that scenario on the *firm's* funding needs and sources.
  - (2) *PRU 5.1.86E* states that a *firm* should have a contingency funding plan for taking action to ensure, so far as it can, that in each of the scenarios tested under *PRU 1.2.35R(2)*, it would still have sufficient liquid financial resources to meet liabilities as they fall due.
- 2.3.27 G When assessing *liquidity risk*, the *firm* should consider the extent of mismatch between assets and liabilities and the amount of assets held in highly liquid, marketable forms should unexpected cashflows lead to a liquidity problem. The price concession of liquidating assets is a prime concern when assessing such *liquidity risk* and should be built into any assessment of capital adequacy.
- 2.3.28 Some further areas to consider in developing the *liquidity risk* scenario might include:
- (1) any mismatching between expected asset and liability cash flows;
  - (2) the inability to sell assets quickly;
  - (3) the extent to which the *firm's* assets have been pledged;
  - (4) the cash-flow positions generally of the *firm* and its ability to withstand sharp, unexpected outflows of funds via *claims*, or an unexpected drop in the inflow of *premiums*; and
  - (5) the possible need to reduce large asset positions at different levels of market liquidity, and the related potential costs and timing constraints.
- Factors to consider when assessing operational risk
- 2.3.29 G Operational risk refers to the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events.
- 2.3.30 G A *firm* may wish to refer to *SYSC 3A* and *PRU 6.1* when carrying out its operational risk assessment.
- 2.3.31 G Examples of some issues that a *firm* might want to consider include:
- (1) the likelihood of fraudulent activity occurring that may impact upon the financial or operational aspects of the *firm*;
  - (2) the obligation a *firm* may have to fund a pension scheme for its employees;
  - (3) the technological risks that the *firm* may be exposed to regarding its operations. For example, risks relating to both the hardware systems and the software utilised to run those systems;
  - (4) the reputational risks to which the *firm* is exposed. For example, the impact on the *firm* if the *firm's* brand is damaged resulting in a loss of *policyholders* from the underwriting portfolio;
  - (5) the marketing and distribution risks that the *firm* may be exposed to. For example, the dependency on intermediary business or a *firm's* own sales force;
  - (6) the impact of legal risks. For example a non-insurance related legal action being pursued against the *firm*;
  - (7) the management of employees – for instance staff strikes, where dissatisfied staff may withdraw goodwill and may indulge in fraud or acts giving rise to reputational loss;

- (8) the resourcing of key functions such as the risk management function by staff in appropriate numbers and with an appropriate mix of skills such as underwriting, claims handling, accounting, actuarial and legal expertise.
- 2.3.32 G A *firm* may consider that investigation of operational weaknesses and corrective action is a better response than holding capital and may consider that a certain degree of operational risk is within its pre-defined risk tolerance. However, until the *firm* corrects any identified deficiencies a *firm* should consider capital as a (interim) response to the risk.
- Factors to consider when assessing insurance risk
- 2.3.33 G As a result of the differences between the nature of *general* and *long-term insurance business*, some aspects of the risk assessment vary depending on the type of business written. In assessing potential insurance risk events that may affect the *firm's* solvency, *general* and *long-term insurance business firms* should:
- (1) analyse the potential for catastrophic losses, including both risk and event losses, the cost of reinstatement *premiums* and any possible *reinsurance* exhaustion; and
  - (2) determine the likelihood of any other feature of insurance risk that may lead to a variation in projected outcomes.
  - (3) *Firms* carrying on *general insurance business* should in addition:
    - (a) analyse the potential for *claims* reserves to deteriorate beyond the current reserving level; and
    - (b) determine the effect of loss ratios being higher than planned by analysing historic loss ratio experience and volatility.
  - (4) *Firms* carrying on *long-term insurance business* should in addition:
    - (a) analyse the potential for *mathematical reserves* subsequently to prove inadequate compared with the current reserving level; and
    - (b) determine the effect of *claims* experience being more costly than planned by analysing historic *claims* experience, volatility and trends in experience.
- 2.3.34 G Some further areas to consider in developing the insurance risk scenario might include:
- (1) For underwriting risks, *general insurance business* and *long-term insurance business firms*:
    - (a) the adequacy of the *firm's* pricing. For example, the *firm* should be able to satisfy itself that it can charge adequate rates, taking into account the business and the risk profile of different products, the business environment (e.g. *premium* cycle-non-life) and its own internal profit targets;
    - (b) the uncertainty of *claims* experience;
    - (c) the dependence on intermediaries for a disproportionate share of the *insurer's premium* income; the effects of a high level of uncertainty in pricing in new or emerging underwriting markets due to a lack of information needed to enable the *insurer* to make a proper assessment of the price of the risk; the geographical mix of the portfolio or whether any geographical or jurisdictional concentrations exist;
    - (d) the appropriateness of *policy* wordings;
    - (e) the risk of mis-selling, for example, the number of complaints or disputed *claims*; and
    - (f) the tolerance for expense reserve variations or variations in expenses (including indirect costs).

- (2) For *firms* carrying on *general insurance business*, in addition:
  - (a) the length of tail of the *claims* development and latent *claims*; and
  - (b) the effects of rapid growth or decline in the volume of the underwriting portfolio.
- (3) For *firms* carrying on *long-term insurance business*, in addition:
  - (a) the uncertainty of future investment returns;
  - (b) the effects of rapid growth or decline in the volume and nature of new business written; and
  - (c) the ability of *firms* to adjust *premium* rates or charges for some products.
- (4) For reserving and *claims* risks, both *general insurance business* and *long term insurance business firms*:
  - (a) the frequency and size of large *claims*;
  - (b) possible outcomes relating to any disputed *claims*, particularly where the outcome is subject to legal proceedings;
  - (c) the ability of the *firm* to withstand catastrophic events, increases in unexpected exposures, latent *claims* or aggregation of *claims*;
  - (d) the possible exhaustion of *reinsurance* arrangements, both on a per risk and per event basis;
  - (e) social changes regarding an increase in the propensity to claim and to sue; and
  - (f) other social, economic and technological changes.
- (5) For *firms* carrying on *general insurance business*:
  - (a) the adequacy and uncertainty of the technical *claims* provisions, such as outstanding *claims*, *IBNR* and *claims* handling expense reserves;
  - (b) the adequacy of other underwriting provisions, such as the provisions for *unearned premium* and unexpired risk reserves;
  - (c) the appropriateness of catastrophe models and underlying assumptions used, such as possible maximum loss (PML) factors used;
  - (d) unanticipated legal judgements and legal change with retrospective effect specifically with regard to the *claims* reserves; and
  - (e) the effects of inflation.
- (6) For *firms* carrying on *long-term insurance business*:
  - (a) the adequacy and sensitivity of the *mathematical reserves* to variations in future experience, including:
    - (i) the risk that investment returns differ from those assumed in the reserving assumptions;
    - (ii) the risk of variations in mortality, morbidity and persistency experience and in the exercise of options under contracts;
    - (iii) the rates of taxation applied, in particular where there is uncertainty over the tax treatment; and
  - (b) unanticipated legal judgements and legal change with retrospective effect specifically with regard to the impact on *mathematical reserves*.

Other assessments of the adequacy of capital resources

- 2.3.35 G *Firms* must assess the adequacy of their financial resources and this will entail an assessment of both *capital resources* and liquidity resources. The stress tests and scenario analyses which a *firm* must carry out will assist with both assessments.

- However, *firms* may also find it helpful to approach their assessment of capital in another way.
- 2.3.36 G *Firms* may also wish to carry out an additional assessment to inform their view as to whether their *capital resources* are adequate. The additional assessment is to consider the extent to which the *capital resources requirement (CRR)* produces adequate capital for a *firm's* particular circumstances. In considering this, *firms* that are required to calculate an *Enhanced Capital Requirement (ECR)* may wish to note that the *ECR* as calculated is based upon the assumptions that a *firm's* business is well diversified, well managed with assets matching its liabilities and good controls, and stable with no large, unusual, or high risk transactions. *Firms* may find it helpful to assess the extent to which their actual business differs from these assumptions and therefore what adjustments it might be reasonable to make to the *CRR* or *ECR* to arrive at an adequate level of *capital resources*.
- 2.3.37 G *Firms* may find it helpful for their own assessment process if they also consider divergences from the assumptions described in *PRU 2.3.36G* under the headings set out below. These are the areas which the *FSA* considers when forming its view of the adequacy of a *firm's capital resources*.
- Business risk factors:
- (1) *market risk*;
  - (2) securitisation risk;
  - (3) residual risk;
  - (4) concentration risk;
  - (5) high impact, low probability events; and
  - (6) cyclical and capital planning.
- Control risk factors:
- (1) systems and controls.
- 2.3.38 G *Market risk*: a *firm* should assess its exposure to those elements of *market risk* that are not captured by the *CRR*. In doing so, *firms* may wish to use stress tests to determine the impact on their balance sheets of an appropriate move in market conditions. The results of this test should then be used by the *firm* to determine its *market risk*.
- 2.3.39 G *Securitisation risk*: a *firm* should assess its exposure to risks transferred through the securitisation of assets should those transfers fail for whatever reason. For instance, *firms* may contemplate two broad types of securitisation: 'embedded value securitisation' – the transfer of the value emerging from an existing block of business to bondholders; and 'risk transfer securitisation' – the purchase of protection against catastrophic risks to the *insurer* through the issuance of bonds whose repayment is contingent upon the non-occurrence of such risks. In either case, *firms* should consider the effect on their financial position of a failure of such complex arrangements to operate as anticipated or the values and risks transferred not emerging as expected.
- 2.3.40 G *Residual risk*: a *firm* should assess its exposure to the residual risks that may result from the partial performance or failure of risk mitigation techniques for reasons that are unconnected with their intrinsic value. This could result from (for example): ineffective documentation, a delay in payment or the inability to realise payment from a guarantor in a timely manner. Given that residual risks can always be present, *firms* should assess the appropriateness of their *capital resources requirement* against their assumptions for the risk mitigation measures that they may have in place.
- 2.3.41 G *Concentration risk*: a *firm* should assess and monitor its exposure to: sector,

- geographic, liability and asset concentrations, as well as granularity. The *FSA* considers that concentrations in these areas increase the *firm's* credit risk and where the *firm* identifies concentrations then they should consider the adequacy of the *capital resources requirement*. For instance, *firms* should monitor concentrations of exposure to particular *reinsurers* and ensure that they are aware of the implications of several of their *reinsurers* failing at the same time.
- 2.3.42 G High impact, low probability events: *firms* should consider stress tests and scenario analyses which are realistic – that is not too remote a possibility. However, should a *firm* decide to enter into a high impact, low probability transaction, the *firm* should satisfy itself that it has sufficient financial resources to meet its resulting financial obligation in the event the single risk materialises. For instance, a *firm* should not accept individual risks in circumstances where, if that single risk materialised, the *claim* arising would exceed the financial resources available to the *firm*.
- 2.3.43 G A *firm* should also consider the value of the financial obligation arising where the risks from a combination of high impact, low probability transactions that the *firm* has entered into materialise at the same time. A *firm* should ensure that in no circumstances would a combination of any consequent *claims* materially exceed the financial resources available to it.
- 2.3.44 G Cyclical and capital planning: a *firm's capital resources requirement* may vary as business cycles and economic conditions fluctuate over time. *Firms* should be aware that a deterioration in business or economic conditions could require them to raise capital or alternatively to contract their businesses at a time when market conditions are most unfavourable to raising capital. Such an effect is known as procyclicality.
- 2.3.45 G To reduce the impact of cyclical effects, *firms* should look to build-up capital levels through the course of an upturn in business and economic cycles to ensure that they have sufficient capital available to protect themselves against adverse conditions.
- 2.3.46 G To assess its expected capital requirements over the economic and business cycles, a *firm* may wish to project forward its financial position taking account of its business strategy and expected growth under a range of environmental assumptions. Projections over a three to five year period would be appropriate in most circumstances. *Firms* may then calculate their projected *capital resources requirement* and assess whether that requirement could be met from expected financial resources.
- 2.3.47 G Systems and controls: a *firm* may decide to hold additional *capital resources* to mitigate weaknesses in its overall control environment. Weaknesses might be indicated by the following:
- (1) a failure by the *firm* to complete an assessment of its systems and controls in line with *SYSC* 3.1 (Systems and Controls) and *PRU* 1.4;
  - (2) a failure by the *firm's* senior management to approve its financial results; and
  - (3) a failure by the *firm* to consider an analysis of relevant internal and external information on its business and control environment.
- 2.3.48 G In considering any systems and control weaknesses and their effect on the adequacy of the *capital resources requirement*, a *firm* may wish to be able to demonstrate to the *FSA* that all the issues identified in *SYSC* 3.2 (Areas covered by systems and controls) have been considered; and that appropriate plans and procedures exist to deal adequately with adverse scenarios.

Capital models

- 2.3.49 G A *firm* may approach its assessment of adequate *capital resources* by developing a model for some or all of its business risks. Where such a model captures some of the risks identified in accordance with *PRU* 1.2.31R then this will usually satisfy the requirement to perform stress tests in respect of those risks. However, the assumptions required to aggregate risks modelled and the confidence levels adopted should be considered by the *firm's* senior management. A *firm* should also consider whether any risks are not captured by the model and also the extent to which systems and control risks are not incorporated in the model.
- 2.3.50 G A *firm* should not expect the *FSA* to accept as adequate any particular model that it develops or that the results from the model are automatically reflected in any individual *guidance* given to the *firm* for the purpose of determining adequate *capital resources*. However, the *FSA* will take into account the results of any sound and prudent model when giving individual *guidance* or considering applications for a *waiver* under section 148 of the *Act* of the *capital resources requirement* in *PRU* 2.1. This section sets out the types of issues the *FSA* would consider before giving individual *guidance* or granting a *waiver* based on the results of a model.
- 2.3.51 G There is no prescribed modelling approach for how a *firm* develops its internal model. However, *firms* should be able to demonstrate:
- (1) the extent of use of the internal capital model within the *firm's* capital management policy;
  - (2) that sound and appropriate risk-management techniques are employed and are embedded in the daily operations and financial resources requirements of the *firm*;
  - (3) that all material risks to which the *firm* is exposed have been adequately addressed by quantitative and qualitative means as appropriate;
  - (4) the confidence levels set and whether these are linked to the *firm's* corporate strategy;
  - (5) the time horizons set for the different types of business that the *firm* undertakes;
  - (6) the extent of historic data used and back testing carried out; and
  - (7) whether sufficient accuracy and validation in the internal capital model has been undertaken.
- Quantitative factors
- 2.3.52 G The *firm's* model should be based on an appropriate probability of insolvency over an appropriate time period. A *firm* should be able to demonstrate the selected probability of insolvency and time horizon it has derived and explain why these are appropriate for its business.
- 2.3.53 G Good models will have as inputs (in addition to the specific examples given under the stress and scenario guidance):  
For both *firms* carrying on *general insurance business* and *long-term insurance business*:
- (1) assumed future investment returns. In particular, assumptions for future interest rates (to the extent that they impact on interest income on funds on deposit, price of and yield on fixed stock that may be purchased in future and interest income on variable interest rate assets), equity prices, dividend income, property prices, property rental income and inflation. The assumptions should take account of likely volatility and historic volatility in interest rates and asset prices;

- (2) five-year predictions as to *premium* rates in each homogeneous category of business taking account of the effect of underwriting cycles;
- (3) predictions of exposures written in each homogeneous category of business in the next five years;
- (4) predictions of *premium* volume and expected growth under a five year business plan;
- (5) expenses and commission;
- (6) catastrophic events, aggregations of *claims* and *claims* affecting more than one *class* of business;
- (7) inflation in terms of how it might affect future *claims*, non-settled *claims* that have occurred to date, future expenses, future *reinsurance* costs and future investment returns;
- (8) *reinsurance* programmes in place, allowing for changing term conditions, reinstatements and loss experience features;
- (9) estimates of non-recovery of *reinsurance* and other debtors taking account of the financial strength of each *reinsurance* or other *counterparty*; and
- (10) foreign exchange movements.

For *firms* carrying on *general insurance business* in particular:

- (11) frequency and severity of *claims* (including costs associated with *claims* such as professional fees) for each homogeneous category of business, allowing for any impact of future social, legal and inflationary effects (especially concerning price, earnings, medical and *claims*) on future *claims* costs;
- (12) settlement patterns of *claims* and *reinsurance* recoveries for each homogeneous category of business (including occurred and future *claims*);
- (13) unintended coverage of risks; and
- (14) correlation between these risks.

For *firms* carrying on *long-term insurance business* in particular:

- (15) projected *claims* experience for each homogeneous category of business allowing for trends in mortality/ morbidity experience;
- (16) assumptions for future *policyholder* actions such as lapsing or surrendering a *policy*, ceasing to pay *premiums* or choosing to exercise an option under the contract; and
- (17) for business where management has discretion over the level of benefits or charges, assumptions about management reactions to changes in economic conditions and consequent changes to the benefits or charges.

- 2.3.54 G The *FSA* places credence in approaches to financial models to aid the assessment of capital adequacy which involve the production of a Dynamic Financial Analysis (“DFA”) model. These models transform each element in the financial projection into a statistical distribution with a range of possible outcomes, and are therefore stochastic. They would generally incorporate a suitable economic model integrated into the DFA model and linked into the generation of insurance related assumptions. The model would, as far as possible, cover all risks and all areas of business. The future time period over which projections are made should be determined with reference to the type of insurance business written, the asset profile and the insurance cycle. It may be appropriate to consider several different time periods.
- 2.3.55 G Due regard should also be given to the historical experience of both the *firm* and the wider relevant industry and market when assigning values to the above inputs.
- 2.3.56 G The values assigned to each of the above inputs should be derived either

stochastically, by assuming the value of an item can follow an appropriate probability distribution and by selecting appropriate values at the tail of the distribution, or deterministically, using appropriate prudent assumptions. For *long-term insurance business* which includes options or guarantees that change in value significantly in certain economic or demographic circumstances, a stochastic approach would normally be appropriate.

## Annex 1R

### Admissible assets in insurance

- (1) Investments that are, or amounts owed arising from the disposal of:
  - (a) *debt securities*, bonds and other money and capital market instruments;
  - (b) loans;
  - (c) *shares* and other variable yield participations;
  - (d) *units* in *UCITS schemes*, *non-UCITS retail schemes*, *recognised schemes* and any other *collective investment scheme* that invests only in *admissible assets* (including any *derivatives* or *quasi-derivatives* held by the scheme);
  - (e) land, buildings and immovable property rights;
  - (f) an *approved derivative* or *quasi-derivative* transaction that satisfies the conditions in *PRU 4.3.5R* or an *approved stock lending* transaction that satisfies the conditions in *PRU 4.3.36R*.
- (2) Debts and claims
  - (a) debts owed by *reinsurers*, including *reinsurers' shares of technical provisions*;
  - (b) *deposits* with and debts owed by *ceding undertakings*;
  - (c) debts owed by *policyholders* and *intermediaries* arising out of direct and *reinsurance* operations (except where overdue for more than 3 months and other than *commission* prepaid to agents or *intermediaries*);
  - (d) for *general insurance business* only, claims arising out of salvage and subrogation;
  - (e) for *long-term insurance business* only, advances secured on, and not exceeding the *surrender value* of, *long-term insurance contracts* issued by the *insurer*;
  - (f) tax recoveries;
  - (g) claims against *compensation funds*.
- (3) Other assets
  - (a) tangible fixed assets, other than land and buildings;
  - (b) cash at bank and in hand, *deposits* with *credit institutions* and any other bodies authorised to receive *deposits*;
  - (c) for *general insurance business* only, *deferred acquisition costs*;
  - (d) accrued interest and rent, other accrued income and prepayments;
  - (e) for *long-term insurance business* only, reversionary interests.

## Annex 2G

### Guidance on applications for waivers relating to implicit items

#### Implicit items under the Act

1. *PRU 2.2.14R* does not permit *implicit items* to be included in the calculation of a *firm's capital resources*, except subject to a *waiver* under section 148 of the *Act*. Article 27(4) of the *Consolidated Life Directive* states that *implicit items* can be included in the calculation of a *firm's capital resources*, within limits, provided that the supervisory authority agrees. Certain *implicit items*, however, are not eligible for inclusion beyond 31 December 2009 (see paragraph 5). The *FSA* may be prepared to grant a *waiver* from *PRU 2.2.14 R* to allow *implicit items*, in line with the purpose of the *Consolidated Life Directive*, and provided the conditions as set out in article 27(4) of the *Consolidated Life Directive* are met. Such a *waiver* would allow an *implicit item* to count towards the *firm's capital resources* available to count against its *capital resources requirement (CRR)* set out for *realistic basis life firms* in *PRU 2.1.15R* and for *regulatory basis only life firms* in *PRU 2.1.20R*. Where a *firm* applies for an *implicit item waiver* the *firm* may also apply for a *waiver* from *PRU 2.2.16R*, which requires at least 50% of a *firm's MCR* to be covered by *core tier one capital* and perpetual non-cumulative *preference shares*. Under *PRU 2.2.17R* a *firm* must meet the *guarantee fund* from the sum of the items listed at stages A, B, G and H less the sum of the items listed at stage E of *PRU 2.2.14R*. *PRU 2.2.17R* addresses the requirement in article 29(1) of the *Consolidated Life Directive* that *implicit items* should be excluded from capital eligible to cover the *guarantee fund*. Where an *implicit items waiver* is granted, an *implicit item* may potentially count as either *tier one* or *tier two capital*, but not *core tier one capital*. *PRU 2.2.20R* requires that at least 50 % of a *firm's tier one capital resources* must be accounted for by *core tier one capital*.
2. Under section 148 of the *Act*, the *FSA* may, on the application of a *firm*, grant a *waiver* from *PRU*. There are general requirements that must be met before any *waiver* can be granted. As explained in *SUP 8*, the *FSA* may not give a *waiver* unless the *FSA* is satisfied that:
  - (1) compliance by the *firm* with the *rules* will be unduly burdensome, or would not achieve the purpose for which the *rules* were made; and
  - (2) the *waiver* would not result in undue risk to *persons* whose interests the *rules* are intended to protect.
3. The *FSA* will assess compliance with the requirements in the light of all the relevant circumstances. This will include consideration of the costs incurred by compliance with a particular *rule* or whether a *rule* is framed in a way that would make compliance difficult in view of the *firm's* circumstances. For example, the *firm* may demonstrate that if an *implicit item* were not allowed, the *firm* would either have to suffer increased (and unwarranted) costs in injecting further *capital resources* or operate with a lower equity backing ratio (see case studies in paragraph 43). Even if a *firm* can demonstrate a case for an *implicit item waiver*, it should not assume that the *FSA* will grant the *waiver* requested, or that any *waiver* will be granted for the full

amount of the *implicit item* which could be granted, as set out in this annex. The *FSA* will consider each application on its own merits, and taking into account all relevant circumstances, including the financial situation and business prospects of the *firm*.

4. *Implicit items* are economic reserves which are contained within the *long-term insurance business* provisions. Article 27(4) of the *Consolidated Life Directive* identifies three types of *implicit item*, in respect of: future profits, *zillmerisation* and hidden reserves. This annex is intended to amplify the *guidance* in *SUP 8* relating to the granting of *waivers* for *implicit items* and to provide *guidance* on other aspects. Whilst this *guidance* applies to applications for *waivers* for *implicit items* generally, for a *realistic basis life firm*, to the extent that an *implicit item* is allocated to a *with-profits fund*, this *guidance* relates to *implicit items* for the purposes of determining the *regulatory value of assets* (see *PRU 7.4.24R*).
5. The *Consolidated Life Directive* (reflecting the changes introduced by the *Solvency I Directive*) requires member states to end a *firm's* ability to take into account future profits *implicit items* by (at the latest) 31 December 2009. Until then, the maximum amount of the *implicit item* relating to future profits permitted under the *Consolidated Life Directive* is limited to 50% of the product of the estimated annual profits and the average period to run (not exceeding six years) on the *policies* in the portfolio. The *Consolidated Life Directive* further limits the maximum amount of these economic reserves that can be counted to 25% of the lesser of the available solvency margin and the required solvency margin. The changes introduced by the *Solvency I Directive* take effect for financial years beginning on or after 1 January 2004. However, the *Consolidated Life Directive* allows for a transitional period of five years, which runs from 20 March 2002 (the publication date of the *Solvency I Directive*), for *firms* to become fully compliant with these new requirements. *Firms* will need to consider the potential impact of these changes when engaging in future capital planning. When applying for an *implicit item waiver* a *firm* should provide the *FSA* with a plan showing how the *firm* intends to maintain its capital adequacy over the period to 31 December 2009. *Firms* should also be aware that the *FSA* will typically only grant *waivers* for a maximum of 12 months.

#### Future Profits

6. The future profits *implicit item* allows *firms* to take credit for margins in the *mathematical reserves* to the extent that these are expected to emerge from in force business. The future profit from in force business should be assessed, in the first instance, on prudent assumptions, to demonstrate that there is an 'economic reserve'. Having demonstrated that it exists, the amount should be limited to an amount calculated using a formula that takes into account the actual profit which has emerged over the last five years (see paragraph 28).

#### Zillmerisation

7. *Zillmerisation* is an allowance for acquisition costs that are expected, under prudent assumptions, to be recoverable from future *premiums*. *Firms* can make a direct adjustment to their reserves for *zillmerisation*, subject to the *rules* on *mathematical reserves*. However, where no such adjustment has been made, the *FSA* will consider an application for a *waiver* to take into account an *implicit item*.

## Hidden reserves

8. Hidden reserves are reserves resulting from the underestimation of assets (other than *mathematical reserves*).

## Process for applying for a waiver, including limits applicable when a waiver is granted

9. This annex sets out the procedures to be followed and the form of calculations and data which should be submitted by *firms* to the *FSA*. This *guidance* should also be read in conjunction with the general requirements relating to the *waiver* process described in *SUP 8*. The *FSA* expects that applications for *waivers* in respect of future profits and *zillmerising* will not normally be considered to pass the “not result in undue risk to persons whose interests the *rules* are intended to protect” test unless the relevant criteria set out in this *guidance* have been satisfied and an application for such a *waiver* may require further criteria to be satisfied for this test to be passed. As set out below, *waivers* in respect of either *zillmerising* or hidden reserves will not normally be given except in very exceptional circumstances.

## Timing

10. A *long-term insurer* may apply to the *FSA* for a *waiver* in respect of *implicit items*. A *waiver* will not apply retrospectively (see *SUP 8.3.6G*). Consequently, applications intended for a particular accounting reference date will normally need to be made well before that reference date. Applications by *firms* must be made to the *FSA* in writing and include the relevant details specified under *SUP 8.3.3D*. Given the uncertainty in predicting the future, *waivers* will normally be granted for a maximum of 12 months at a time and any further applications will need to be made accordingly.
11. The information that will be required to enable an application to be considered as set out below, should normally include a demonstration of how the *capital resources requirement* is to be met, with and without the *waiver*. Clearly, up-to-date information may not be available before the *financial year-end*. In some cases information from the previous year-end’s *return* may be used, as long as any known significant changes in the structure of the *firm*, or the assumptions used, have been taken into account.
12. If the application for a *waiver* is granted, when a *firm* submits its next *return* the amount of the *implicit item* shown should not exceed that supported by the *firm’s* calculations as at the valuation date. In the event that the amount of the future profits item calculated by the *firm* based on these updated assumptions is less than the amount calculated at the time of the *firm’s* *waiver* application, the lower figure should be used in the *return*.
13. An *implicit item* in respect of *zillmerising* or hidden reserves is related to the basis on which liabilities or assets have been valued. In the case of hidden reserves, as explained below, the granting of a *waiver* will be dependent on the overall *capital resources* of the *firm*. *Waivers* in respect of these *implicit items* will, therefore, only be made in relation to the position shown in a particular set of *returns* and it will be essential for *firms* to submit applications to the *FSA* well in advance of the latest date for the submission of the relevant *return*.

14. *Waivers* may be withdrawn by the *FSA* at any time (e.g. where the *FSA* considers the amount in respect of which a *waiver* has been given can no longer be justified). This may be as a result of changes in the *firm's* position or as a result of queries arising on scrutiny of the *returns*.

#### Information to be submitted

15. An application for a *waiver* (which includes an application for an extension to or other variation of a *waiver*) should be prepared using the standard application form for a *waiver* (see *SUP 8 Ann 2D*). In addition, the application should be accompanied by full supporting information to enable the *FSA* to arrive at a decision on the merits of the case. In particular, the application should state clearly the nature and the amounts of the *implicit items* that a *firm* wishes to count against its *capital resources requirement* and the treatment it proposes to adopt in counting the *implicit items* towards the *firm's capital resources*. Furthermore, the application should demonstrate that in allowing for *implicit items* there has been no double counting of future margins and that the basis for valuing such margins is prudent.
16. The *FSA* recognises that the assessment of the insurance *technical provisions* reflects the contractual obligations of the *firm*. *Implicit items* are therefore margins over and above an economic assessment in these *technical provisions* only. Non-contractual “constructive” obligations arising from a *firm's* regulatory duty to treat *customers* fairly e.g. regarding future terminal bonuses, are not fully captured by the *technical provisions*. A *firm* must instead be satisfied that it has sufficient *capital resources* at all times to meet its obligations under *Principle 6*. The granting of a *waiver* for an *implicit item* does not in any way detract from this requirement and a *firm* will need to be satisfied that this condition is still met.
17. As a minimum, applications for a future profits *implicit item* should be supported by the information contained in Forms 13, 14, 18, 19, 40, 41, 42, 48, 49, the answers to questions 1 to 12 of the abstract of the valuation report, Appendix 9.4 of *IPRU(INS)*, the abstract of the valuation report for the realistic valuation, Appendix 9.4A of *IPRU(INS)* and Forms 51, 52, 53, 54 and 58. For a *zillmerisation implicit item*, only those items noted above forming part of the abstract valuation report will normally be needed. Applications for a *waiver* in respect of a hidden reserves *implicit item* will normally be considered only if accompanied by the information which is contained in the annual regulatory *returns*. In particular, the balance sheet forms, *long-term insurance business* revenue accounts, and abstract of the valuation report as set out in Appendices 9.1, 9.3 and 9.4 of *IPRU(INS)* should be provided. This is not to say that a full regulatory *return* must be provided in the specified format, simply that the information contained in these forms should be provided. Where appropriate, the information may be summarised.
18. The following supporting information relating to the calculation of the amounts claimed should be supplied for each type of *implicit item* in respect of which a *waiver* is sought:

Future profits: in addition to information related to the prospective calculation and retrospective calculation described below, the profits reported in each of the last five *financial years* up to the date of the most recent available valuation under *rule 9.4* of

*IPRU(INS)* which has been submitted to the *FSA* prior to, or together with, the application, and the amounts and nature of any exceptional items left out of account; the method used for calculating the average period to run and the results for each of the main categories of business, both before and after allowing for premature termination (where the calculation has been made in two stages); and the basis on which this allowance has been made.

*Zillmerising*: the categories of contracts for which an item has been calculated and the percentages of the *relevant capital sum* in respect of which an adjustment has been made.

Hidden reserves: particulars, with supporting evidence, of the undervaluation of assets for which recognition is sought.

#### Continuous monitoring by firms

19. *Firms* should take into account any material changes in financial conditions or other relevant circumstances that may have an impact on the level of future profits that can prudently be taken into account. *Firms* should also re-evaluate whether an application to vary an *implicit item waiver* should be made whenever circumstances have changed. In the event that circumstances have changed such that an amendment is appropriate, the *firm* must contact the *FSA* as quickly as possible in accordance with *Principle 11*. (See *SUP 8.5.1R*). In this context, the *FSA* would expect notice of any matter that materially impacts on the *firm's* financial condition, or any *waivers* granted.

#### Future profits - factors to take into account when submitting calculations to support waiver applications

20. Where an application is made in respect of a *firm* which has separate *with-profits funds* and *non-profit funds*, the *firm* should ensure that the *capital resources requirement* in respect of the *non-profit fund* is not covered by future profits attributable to *policyholders* arising in the *with-profits fund*. Furthermore, for a *realistic basis life firm* the amount of the *implicit item* allocated to each *with-profits fund* should be calculated separately, as the amount allocated to each *with-profits fund* will be taken into consideration in the calculation of the *with-profits insurance capital component* (see *PRU 7.4.24R*)
21. *Firms* need to assess prospective future profit (i.e. how much can reasonably be expected to arise) and compare this to maximum limits (in article 27(4) of the *Consolidated Life Directive*), which relate to past profits.

#### Future profits - prospective calculation

22. The application for a *waiver* should be supported by details of a prospective calculation of future profits arising from in-force business. The information supplied to the *FSA* should include a description of the method used in the calculation and of the assumptions made, together with the results arising. From 31 December 2009 at the latest, future profits *implicit items* will no longer be permitted under the *Consolidated Life Directive*. Where a *firm* first applies for an *implicit items waiver* after *PRU 2.2* comes into effect, under the prospective calculation a *firm* should only take into

consideration future profits that are expected to emerge in the period up to 31 December 2009. *Implicit item waivers* granted before *PRU 2.2* comes into effect will continue to operate under the terms of those *waivers*, but an application to vary the terms of such a *waiver*, for example to extend the effective period, is an application for a new *waiver* for which a *firm* should usually only take into consideration future profits that are expected to emerge in the period up to 31 December 2009.

#### Assumptions

23. The assumptions made should be prudent, rather than best estimate, assumptions of future experience (that is, the prudent assumptions should allow for the fair market price for assuming that risk including associated expenses). In particular, it would not normally be considered appropriate for the projected return on any asset to be taken to be higher than the risk-free yield (that is, assessed by reference to the yield arrived at using a model of future risk free yields properly calibrated from the forward gilts market). It may also be appropriate to bring future withdrawals into account on a suitably prudent basis. For *with-profits business*, the assumptions for future investment returns should not capitalise future bonus loadings except where the *with-profits policyholders* share in risks other than the investment performance of the fund. Furthermore, the rate at which future profits are discounted should include an appropriate margin over a risk free rate of return. Calculations should also be carried out to demonstrate that the prospective calculation of the future profits arising from the in-force business supporting the application for the *implicit item* would be sufficient to support the amount of the *implicit item* under each scenario described for use in determining the *resilience capital requirement* – where the *waiver* relates to an *implicit item* allocated to more than one fund, this should be demonstrated separately for that element of the *implicit item* allocated to each fund. For an *implicit item* allocated to a *with-profits fund*, proper allowance should be made for any shareholder transfers to ensure that the *implicit item* is not supported by future profits which will be required to support those transfers. To the extent, if any, that future profits are dependent on the levying of explicit expense related charges (for example as in the case of unit-linked business) the documentation submitted should include a demonstration of the prudence of the assumptions made as to the level at which future charges will be levied and expenses incurred.

Other limitations on the extent to which waivers for implicit items will be granted to a realistic basis life firm

24. Where a *waiver* in respect of an *implicit item* is granted to a *realistic basis life firm* additional limits may apply by reference to a comparison of *realistic excess capital* and *regulatory excess capital* including allowance for the effect of the *waiver*. Where the *waiver* relates to an *implicit item* allocated partly or entirely to a *with-profits fund*, the *waiver* will contain a limitation to the effect that the *regulatory excess capital* for that *with-profits fund*, allowing for the effect of the *waiver*, may not exceed that fund's *realistic excess capital*. This limitation will apply on an ongoing basis so that, for example, in the case of an *implicit item* allocated to a *with-profits fund*, the amount of the *implicit item* would be limited to zero whenever the *regulatory excess capital* exceeded the *realistic excess capital* of that fund.

Other charges to future profits

25. To avoid double counting, no account should be taken of any future surplus arising from assets corresponding to explicit items which have been counted towards the *capital resources requirement* such as shareholders funds, surplus carried forward or investment reserves. Deductions should be made in the calculation of future surpluses for the impact of any other arrangements which give rise to a charge over future surplus emerging (e.g. financial *reinsurance* arrangements, subordinated loan capital or contingent loan agreements). Deductions should also be made to the extent that any credit has been taken for the purposes of *PRU 7.4.45R(2)(c)* for the present value of future profits relating to non-profit business written in a *non-profit fund*. The information supplied to the *FSA* should identify the amount and reason for any adjustments made to the calculation of the prospective amount of future profits.
26. The *firm* should confirm to the *FSA* that the calculations have been properly carried out and that there are no other factors that should be taken into account.

#### Future profits - retrospective calculation

#### Overriding limit

27. The maximum amount of the *implicit item* relating to future profits permitted under the *Consolidated Life Directive* is 50% of the product of the estimated annual profit and the average period to run (not exceeding six years (ten years during the transitional period referred to in paragraph 5)) on the *policies* in the portfolio. Article 27(4) of the *Consolidated Life Directive* also imposes a further limit on the amount of the *implicit item* equal to 25% of the lower of:
  - (1) the *firm's capital resources*; and
  - (2) the higher of its *base capital resources requirement* for long-term insurance business and its *long-term insurance capital requirement*.

Once the transitional period set out in article 71(1) of the *Consolidated Life Directive* has expired in 2007 (see paragraph 5), the *FSA* will not allow a *waiver* for more than the amount permitted by article 27(4) of the Directive.

#### Definition of profits

28. The estimated annual profit should be taken as the average annual surplus arising in the *long-term insurance fund* over the last five *financial years* up to the date of the most recent available valuation which has been submitted to the *FSA* prior to, or together with, the application. For this purpose, deficiencies arising should be treated as negative surpluses. Where a *firm's financial year* has altered, the surplus arising in a period falling partly outside the relevant five year period should be assumed to accrue uniformly over the period in question for the purpose of estimating the profits arising within the five year period. When there has been a transfer of a block of business into the *firm* (or out of the *firm*) during the period, the impact of the transfer will need to be taken into account to reflect the remaining portfolio.

29. Where a *firm* has been carrying on *long-term insurance business* for less than 5 years, the total profits made during the past five years should be taken to be the aggregate of any surpluses that have arisen during the period in which *long-term insurance business* has been carried on less any deficiencies that may have arisen during that period. The resulting total should still be divided by five to obtain the estimated annual profit.

#### Exceptional items

30. Substantial items of an exceptional nature should be excluded from the calculation of the estimated annual profit. Such items include profits arising from an exceptional change in the value at which assets are brought into account, where this is not reflected in a similar change in the amount of the liabilities, and profits arising from a change in the overall valuation approach between one year and another. An exceptional loss (i.e. a reduction of an exceptional nature in the surplus arising) may be excluded from the calculation only to the extent that it can be set against a profit or profits up to the amount of the loss and arising from a similar cause. It is not intended, however, that any adjustment should be made for the effect on surplus of a net strengthening of reserves for costs associated with an expansion of the business or for special capital expenditure, such as the purchase of computer systems.

#### Double counting

31. The inclusion of investment income arising from the assets representing the explicit components of *capital resources* (as part of the estimated annual profit for the purpose of determining the future profits *implicit item*) would result in double-counting. If those assets were required to meet the effects of adverse developments, this would automatically result in the cessation of the contribution to profits from the associated investment income. It would clearly not be appropriate for the *FSA* to grant a *waiver* which would enable a *firm* to meet the *capital resources requirement* on the basis of counting both the capital values of the assets and the value of the income flow which they can be expected to generate.
32. The definition of the estimated annual profit as the surplus arising in the *long-term insurance fund* ensures that any contribution to surplus arising from transfers from the profit and loss account, including investment income on shareholders' assets, is not included in the estimated annual profit. Thus double-counting should not arise in respect of shareholders' assets. Double-counting may arise, however, in respect of the investment income from the assets representing the explicit components of *capital resources* carried within the *long-term insurance fund* (e.g. surplus carried forward or investment reserves), but the amount of such investment income is not separately identified in the *return*.
33. Where there is reason to suspect that the elimination of any such double-counting would reduce a *firm's capital resources* to close to or below the required level, or would otherwise be significant, the *FSA* will request this information with a view to taking account of this factor in determining the amount of the *implicit item*. Additional information concerning investment income should be furnished with an application for a *waiver*, if a *firm* believes that any double-counting would fall into one of the categories mentioned above.

#### Average period to run

34. The average number of years remaining to run on *policies* should be calculated on the basis of the weighted average of the periods for individual *contracts of insurance*, using as weights the actuarial present value of the benefits payable under the contracts. A separate weighted average should be calculated for each of the various categories of contract and the results combined to obtain the weighted average for the portfolio as a whole. Approximate methods of calculation, which the *firm* considers will give results similar to the full calculation, will be accepted. In particular, the *FSA* will normally accept the calculation of an average period to run for a specific category of contract on the basis of the average valuation factor for future benefits derived from data contained in the abstract of the valuation report in the regulatory *returns*. A *firm* will be asked to demonstrate the validity of the method adopted only where an abnormal distribution of the business in force gives grounds for doubt about its accuracy.
35. Calculations will normally be requested only for the main categories of *insurance business*, accounting for not less than 90% of the *mathematical reserves*, except where there are grounds for expecting that the exclusion of certain categories of *policies* under this provision might have a significant effect on the resulting average period to run. Detailed calculations will not be required where a *waiver* is sought in respect of a low multiple of the annual profits, well within the average period to run for the *firm*.
36. Where, for a particular category of business, a method of valuation is used which does not involve the calculation of the value of future benefits and which is significant for the *firm* in question, the calculation of the average period to run should be based on estimates of the value of future benefits.

#### Premature termination of contracts

37. Allowance should be made for the premature termination of *contracts of insurance*, based on the actual experience of the *firm* over the last five years, or other appropriate period, and taking into account specific features of contracts such as options which can be expected to lead to premature termination (e.g. guaranteed surrender values on income bonds written as *long-term insurance contracts* and option dates on flexible whole-life contracts). The adjustment should be made separately for each of the main categories of business. The use of industry-wide rates of termination will be acceptable where a *firm* is satisfied that this will result in sufficient allowance being made having regard to the *firm's* own experience. Methods of calculation that involve a degree of approximation will be permitted.
38. For certain types of contract, where the period left to run is most naturally defined as the term to a fixed maturity or expiry date, the allowance for premature termination should also take into account terminations resulting from death.

#### Overall limit
