39. The overall average period left to run calculated as described above should be limited to a maximum of six years under article 27(4) of the *Consolidated Life Directive* (or a maximum of ten years during the transitional period referred to in paragraph 5) before

applying it to the estimated annual profit in order to determine the maximum value of the future profits *implicit item*.

#### Definition of period to run

40. The definition of the period to run and the basis of the allowance for early termination should clearly be considered together. For certain types of contracts (e.g. pension contracts with a range of retirement ages or other options), there is inherent uncertainty about the likely term to run. In such circumstances any estimate for determining the amount of the future profits *implicit item* for which a *waiver* is sought should be based on prudent assumptions tending, if anything, to underestimate the average period to run.

#### Zillmerising

41. The *FSA* does not normally expect to grant *waivers* permitting *implicit items* due to *zillmerisation* except in very exceptional circumstances. *Zillmerisation* is an allowance for acquisition costs that are expected, under prudent assumptions, to be recoverable from future *premiums*. *Firms* can make a direct adjustment to their reserves for *zillmerisation*, subject to the requirements on *mathematical reserves* set out in *PRU* 7.3.43R, and this is the usual approach. However, where no such adjustment has been made, or where the maximum adjustment has not been made in the *mathematical reserves*, the *FSA* will consider an application for an *implicit item*, if the amount is consistent with the amount that would have been allowed as an adjustment to *mathematical reserves* under *PRU* 7.3.43R.

#### Hidden reserves

42. The *FSA* will grant *waivers* permitting *implicit items* due to hidden reserves only in very exceptional circumstances. These items relate to hidden reserves resulting from the underestimation of assets. The *rules* for the valuation of assets and liabilities (see *PRU* 1.3) which apply to assets and liabilities other than *mathematical reserves* are based on the valuation used by the *firm* for the purposes of its external accounts, with adjustments for regulatory prudence such as concentration limits for large holdings, and would not normally be expected to contain hidden reserves.

#### Case studies on “unduly burdensome”

43. Some examples of situations where the existing *rules* might be considered to be unduly burdensome are given below:

*A firm* writes *with-profits business*. The *firm's* investment policy is affected by its published financial position. Application of the *rules* without an *implicit item* would result in the *firm* adopting a lower equity backing ratio. It may be possible to demonstrate that, in the circumstances, it would be unduly burdensome to require the *firm* to incur costs (which might prejudice *policyholders*) resulting from the lower equity backing ratio, rather than take allowance for an *implicit item*.

*A firm* has purchased a block of in-force business, on which the future profits may be reasonably estimated. However, this asset is given no value under the *rules*. It may be

possible to demonstrate that it is unduly burdensome for the *firm* to recognise the cost of acquiring the assets whilst giving no value to the asset acquired.

A *firm* has a block of in-force business, on which the future profits may be reasonably estimated. Application of the *rules* without an *implicit item* would result in a need to obtain additional capital. It may be possible to demonstrate that it is unduly burdensome, having regard to the particular circumstances of the *firm*, to require it to incur the costs involved in the injection of further capital rather than take allowance for an *implicit item*.

A *firm* has purchased matching assets for guaranteed annuity liabilities. The operation of the asset and liability valuation *rules* leads to statutory losses in certain circumstances in spite of good matching of assets and liabilities on a realistic basis of assessment. It may be possible to demonstrate that it is unduly burdensome to require the *firm* to incur the costs involved in the injection of further capital rather than take allowance for an *implicit item*.

Conditions which will typically be applied to implicit items waivers

Limits

44. Where *implicit items waivers* are granted, the value cannot exceed (and will normally be less than) the monetary limits described in paragraph 27, except that during the transitional period the pre-Solvency I limits will apply. In addition, time limits will apply and *waivers* will normally only last for 12 months.

Publicity

45. The *FSA* will publish the *waiver* (see *SUP* 8.6 and *SUP* 8.7). Public disclosure is standard practice unless the *FSA* is satisfied that publication is inappropriate or unnecessary (see section 148 of the *Act*). Any request that a direction not be published should be made to the *FSA* in writing with grounds in support, as set out in *SUP* 8.6.

Disclosure of a *waiver* will normally be required in the *firm's* annual *returns*.

	Annex 3G
A1	This annex provides an illustrative qualitative example of how a small <i>firm</i> could undertake its stress and scenario analysis without this being disproportionate to the size and complexity of its business so as to comply with <i>PRU</i> 1.2.35R. For these reasons, the example does not provide any quantitative guidance as we believe this would be impractical given the diverse nature of each <i>firm</i> 's individual circumstances.
A2	This example is based on <i>guidance</i> contained in <i>PRU</i> 2.3. The areas discussed are not exhaustive and it is likely that in practice a <i>firm</i> will need to consider a range of other issues.
A3	The scenarios that the <i>firm</i> generates as part of its analysis should aim to reflect the degree of risk in a variety of areas. How extreme these scenarios are will influence the ultimate level of capital required by the <i>firm</i> . The <i>firm</i> should not necessarily develop scenarios based on the current trading or economic conditions, but on possible trading or economic conditions that could occur during the next three to five years.
A4	In addition to examining its event scenarios, a <i>firm</i> should also be able to meet any individual risk (however unlikely) that it has accepted (or proposes to accept through its business plan) from <i>policyholders</i> . It therefore should analyse its exposures and ensure that it has sufficient capital or available <i>reinsurance</i> to cover its largest individual risks and accumulations.
	Worked example
	Background
A5	The <i>firm</i> used for this example is an <i>insurer</i> carrying on <i>general insurance business</i> within a large <i>group</i> , writing predominantly personal lines, household and motor policies of approximately £25m <i>gross written premium</i> . This business has a reasonable geographical spread, sourced significantly from within the <i>United Kingdom</i> . The <i>firm</i> has purchased appropriate <i>reinsurance</i> cover from a variety of <i>reinsurers</i> and has a demonstrated record of utilising this cover. Its settlement pattern for <i>claims</i> averages three years, however, there is a small element of the account with longer tail liability <i>claims</i> . The <i>firm</i> 's investments and IT support are outsourced.
	Insurance risk
A6	The risk of incorrect or inaccurate pricing of business over the scenario period can be addressed by examining typical uncertainties within the pricing basis and the volatility of <i>claims</i> experience.
A7	In examining the adequacy of its pricing, the <i>firm</i> establishes its underwriting and <i>claims</i> trend over a ten-year base period by reviewing profit and loss accounts (particularly underwriting profit). In particular it examines the following:
	(i) the volatility of losses in a particular line of business;
	(ii) whether the loss ratio exceeded 100% in any line of business; and
	(iii) whether the <i>deferred acquisition cost</i> (DAC) amount had been written down; e.g. whether an unexpired risk provision (URP) was necessary.
A8	The <i>firm</i> also examines whether its <i>premiums</i> over the last ten years have been:

	(i)	reasonably stable;
	(ii)	responsive enough to changes in <i>claim</i> exposures (so that profitability is maintained);
	(iii)	providing adequately for contingencies (such as major losses e.g. hail, earthquake etc);
	(iv)	encouraged loss control (through the use of deductibles, no claim bonuses etc);
A9	The <i>firm</i> also reviews its method of pricing. The <i>firm</i> considers and performs the following:	
	(i)	a review of acceptable rates, e.g. <i>premiums</i> being charged by competitors for similar products;
	(ii)	an examination of whether there have been any difficulties in the past with delegated authorities in relation to pricing including the ability and experience of staff members setting or recommending <i>premium</i> prices;
	(iii)	an examination of whether the <i>firm</i> has the appropriate mechanisms in place regarding <i>premium</i> rate changes (that is, who makes these decisions, frequency, and on what basis?); and
	(iv)	a benchmark price assessment (e.g. the ability to provide adequate competitive <i>premium</i> rates). For example, indicative rates being determined through the use of industry statistics, competitor statistics and the <i>firm's</i> own analysis for all classes.
A10	Other factors the <i>firm</i> considers are:	
	(i)	changes in environment (e.g. legislation, social, economic etc);
	(ii)	changes in <i>policy</i> conditions and deductibles; and
	(iii)	impact of market segments (e.g. the effects of different <i>claim</i> frequencies and costs impacting the price charged).
A11	Having completed its analysis, the <i>firm</i> makes the following assumptions to define its underwriting risk:	
	(i)	<i>claims</i> costs. The <i>firm</i> assumes these are X% higher than in the <i>premium</i> basis;
	(ii)	<i>claims</i> inflation. The <i>firm</i> assumes a X% <i>claims</i> inflation over the scenario period, compared to Y% in the pricing basis;
	(iii)	<i>policy</i> expenses (fixed and variable) are X% higher than anticipated in the pricing basis;
	(iv)	<i>reinsurance</i> charges are X% higher than anticipated in the pricing basis; and
	(v)	investment income is X% lower than anticipated in the pricing basis.
As a result of the above analysis on a per risk basis, the <i>firm</i> considers that capital of between £X and £Y would cover the possibility of material deviations to projected results.		
	Allowing for catastrophes	
A12	The allowance for catastrophic events within the insurance risk scenario should reflect both the severity and the frequency of these events.	
A13	After considering the catastrophe <i>reinsurance</i> programme it may be clear that the upper limit is set at a level unlikely to be breached e.g. a 1 in 200 year event. Thus, for the purposes of the capital assessment, it would not be necessary to assume losses in excess of this retention.	

A14	However, it may be determined that there is possible exhaustion of free reinstatements or of horizontal cover in total. For example, if there were a significant chance of three catastrophic losses in any one period but the <i>reinsurance</i> allowed only one free reinstatement, then the assessment may be to hold two retentions and the entire gross loss for the third event.
As a result of the above analysis, the <i>firm</i> considers it appropriate to hold capital sufficient to absorb three catastrophic losses: one European windstorm of £X, one UK flood of £Y, and one large man made explosion of £Z.	
The <i>reinsurance</i> structure in place allows for X number of reinstatements at full <i>premium</i> .	
Deterioration of reserves	
A15	The <i>firm</i> considers the adequacy of its <i>claims</i> reserves by focussing on the liability valuation.
A16	The liability valuation may contain a range of answers that might indicate possible reserve variability. Also, the valuation will contain areas where judgement has been applied and assumptions formulated which are subjective. These areas are considered and stressed as appropriate.
A17	The <i>firm</i> also reviews the historic level of <i>claims</i> reserves and subsequent level of settlements to help determine the size of any historic levels of under and over reserving.
A18	<i>Reinsurance</i> arrangements are considered and the extent to which these arrangements protect against reserve deterioration is assessed.
A19	For <i>unearned premium</i> , where losses have yet to occur, the <i>firm</i> considers that the level of uncertainty is greater and considers similar factors to those relating to underwriting risk in addition to those discussed above.
As a result of the above analysis, the <i>firm</i> considers it appropriate to apply a X% loading to the outstanding <i>claims</i> provision, a Y% loading to the <i>unearned premium</i> provision and Z% to all other liability values. The <i>firm</i> considers that capital of between £X and £Y would adequately cover reserve deterioration.	
Credit risk	
A20	Credit risk relates to the risk of default by <i>counterparties</i> . The <i>firm</i> believes its exposure to credit risk results from financial transactions with <i>counterparties</i> including issuers, debtors, borrowers, brokers, <i>policyholders</i> , <i>reinsurers</i> and guarantors.
A21	When assessing credit risk the <i>firm</i> makes an assessment of the creditworthiness of <i>counterparties</i> to the assets of the <i>firm</i> .
A22	The assessment includes an evaluation of the credit risk associated with loans and investment portfolios; the quality of on and off balance sheet assets; the ongoing management of the loans and investment portfolios; as well as loss provisions and reserves.
A23	The <i>firm</i> believes its exposure to credit risk also arises due to its exposure to its <i>reinsurers</i> . In this regard, the <i>firm</i> uses the credit ratings assigned to particular <i>counterparties</i> as a measure of credit risk, most notably Standard & Poor's, Moody's Investors Service and AM Best's (particularly for <i>reinsurers</i> ).
A24	When forming an opinion on credit risk the <i>firm</i> considers:
Reinsurance	
A25	The <i>firm</i> 's strategy is to lessen exposure to a single lead <i>reinsurer</i> to less than 30%, with other participants holding no more than 15%. In all cases,

	the panel of <i>reinsurers</i> all have a specified rating. The <i>firm</i> has no prior experience of disputes, and their working relationship with the panel may be excellent, and thus the <i>firm</i> does not envisage any future difficulties arising in this regard.
A26	Bond default rates could then be used to assess a likely credit risk figure for <i>reinsurance</i> recoveries (including <i>IBNR</i> recoveries).
	The <i>firm</i> considers that capital of between £X and £Y would cover <i>reinsurance</i> defaults, with no additional allowance for disputes.
	Overseas financial institutions and banks
A27	The <i>firm</i> investigates its business relationships with overseas financial institution <i>counterparties</i> including <i>banks</i> , and decides no additional allowance is required.
	Quality of counterparties and trends in counterparty risk
A28	The <i>firm</i> assesses the level and age of debtors, focussing particularly upon unpaid <i>premiums</i> , especially those greater than three months old, and reviews the level and trend of contingent liabilities. For example, the <i>firm</i> estimates that the credit risk scenario equates to taking a 10% reduction in the asset value of debtors, based on bond default rates and age of debt.
	The <i>firm</i> considers that capital of between £X and £Y would cover credit risk to counterparties.
	Off-balance sheet transactions
A29	The <i>firm</i> investigates any unfunded commitments, credit <i>derivatives</i> , commercial or standby letters of credit. Where these exist the possibility of a loss on these instruments is considered in relation to the requirement of the credit risk scenario.
	The <i>firm</i> considers that no additional capital is necessary.
	Market risk
A30	<i>Market risk</i> encompasses an adverse movement in the value of the assets as a consequence of market movements such as interest rates, foreign exchange rates, equity prices, etc. which is not matched by a corresponding movement in the value of the liabilities.
A31	In examining possible market risks, the <i>firm</i> considers its sensitivity to <i>market risk</i> by evaluating the degree to which changes in interest rates, foreign exchange rates, equity prices, or other areas can adversely affect the <i>firm's</i> earnings or capital.
A32	The <i>firm</i> believes its assets and liabilities are approximately matched e.g. there is no existence of large unmatched or unhedged currency positions; short tail business is backed by cash/fixed interest assets of suitable term and long tail business with real assets e.g. shares/property. If mismatching does exist this should be allowed for within the estimate.
A33	In developing the scenario the <i>firm</i> estimates the effect of a X% increase in interest rates on bond values.
A34	Similarly, the <i>firm</i> estimates the effect on equity values of a major recession to estimate the possible reduction in the value of equity capital. Also, it uses a suitable equity index to determine the size of historical falls in equity values and indicate possible future falls.
A35	<i>Counterparty</i> risk might be allowed for by assuming one or several major corporate bond holding defaults.
A36	For all investments, the stability of trading revenues should be examined to

	determine the volatility of investment.
From the above analysis, the <i>firm</i> considers that capital of between £X and £Y would be appropriate to protect it against adverse movement in <i>market risk</i> .	
Liquidity risk	
A37	<i>Liquidity risk</i> is the potential that the <i>firm</i> may be unable to meet its obligations as they fall due as a consequence of having a timing mismatch. The <i>firm</i> considers <i>liquidity risk</i> relates to the risk associated with the processes of managing timing relationship between asset and liability cash flow patterns.
A38	When assessing <i>liquidity risk</i> , the <i>firm</i> considers the extent of mismatch between assets and liabilities and the amount of assets held in a highly liquid, marketable form should unexpected cashflows lead to a liquidity crunch.
A39	The price concession of liquidating assets is a prime concern when assessing <i>liquidity risk</i> and is built into the scenario.
A40	In examining the <i>liquidity risk</i> , the <i>firm</i> examines the following:
Marketability, quality and liquidity of assets	
A41	The <i>firm</i> considers the assets held and makes an assessment regarding the quality and liquidity of these assets. Even though the assets matched the liabilities, residual risk remains given that timings are uncertain and there is a possibility that assets will be realised at unfavourable times. This is allowed for by assuming a 2.5% reduction in the market value of assets at realisation compared to the current market value.
The <i>firm</i> considers that capital of between £X and £Y would cover timing risk to <i>counterparties</i> .	
Reliance on new business income	
A42	The <i>firm</i> relies partially upon new business cash flows to meet current liabilities as they fall due. The <i>firm</i> analyses the sensitivity of future cash flow projections and new business assumptions and considers the effect of a reduced level of new business.
A43	The <i>firm</i> finds that it did not have immediate alternatives in place in case these expected new business cash flows were reduced. In this regard, it considers that these sources should be stressed by X%.
The <i>firm</i> considers that capital of between £X and £Y would cover possible effects of adjusting the asset portfolio to switch to more liquid assets.	
A44	The <i>firm</i> also examines the volatility and cost of on- and off-balance sheet funding sources. The <i>firm</i> is satisfied that no concerns need to be raised and that there should not be any impact on its liquidity position.
A45	The <i>firm</i> believes it is well placed to manage unplanned changes in funding sources as well as react to changes in market conditions that affect its ability to quickly liquidate assets with minimal loss. The <i>firm</i> assesses that it has reasonable access to money markets and other sources of funding such as lines of credit.
A46	The <i>firm</i> has no previous problems or delays in meeting obligations (or accessing external funding).
Overall, from the above analysis, the <i>firm</i> considers that capital of between £X and £Y would be necessary to withstand the effects of deterioration in liquidity.	
Governance Risk	
A47	Governance risk relates to the risk associated with the board and/or senior

	management of the <i>firm</i> not effectively performing their respective roles.
A48	The existence and level of directors and officers insurance in place is investigated compared to known incidence of <i>claims</i> of this type.
A49	The <i>firm</i> assesses whether the current level of governance is appropriate for the <i>firm</i> , and the likelihood that the <i>firm's</i> practices may result in the board and/or senior management not adequately undertaking their roles. The cost of altering and strengthening the current board structure is considered.
A50	In this regard, the <i>firm</i> makes an assessment that it may be reliant on only a few senior executives, and may be exposed if they experience any misadventure.
The <i>firm</i> considers that capital of between £X and £Y would cover governance risk.	
Strategic Risk	
A51	Strategic risk arises from an inability to implement appropriate business plans and strategies, make decisions, allocate resources or adapt to changes in the business environment.
A52	The <i>firm</i> therefore assesses the prudence and appropriateness of its business strategy in the context of the <i>firm's</i> competitive and economic environment. In particular the assumptions, forecasting and projections are assessed considering the possibility of a fundamental market change due, for example, to higher numbers of competitors, changes in sales channels, new forms of insurance or changes in legislation. This review includes whether the <i>reinsurance</i> programme is appropriate for the risks selected by the <i>firm</i> and whether it adequately takes account of the underwriting and business plans of the <i>firm</i> generally.
A53	The <i>firm</i> considers the likelihood of a fundamental strategic shift too remote to include within the scenario given the maturity of the market in which they operate.
Operational risks	
A54	In reviewing the operational risk exposures, the <i>firm</i> has examined its administration, compliance, event, fraud, governance, strategic and technological risks.
Administration	
A55	The <i>firm</i> considers the risk of error or failure associated with the administrative aspects of the operation of its business. In this regard, the <i>firm</i> considers likelihood of financial loss and reputation harm due to failure or errors occurring and the likely size of these losses.
A56	None of the <i>firm's</i> administration is out-sourced to service providers.
A57	In undertaking the assessment, the <i>firm</i> considers the history of failure or error from transaction processing or control within the <i>firm</i> . Exception reports are produced on a quarterly basis. Past reports highlighted past administrative deficiencies. The biggest event in the past 10 years related to a situation where <i>claim</i> -handling staff shared access codes to the <i>claims</i> administration system. This resulted in an overpayment to some clients.
A58	The <i>firm</i> also examines the nature and extent of centralised and decentralised functions within the <i>firm</i> . Three branches report regularly to the central office and an appropriate system is in place to record financial information, handle complaints etc.
A59	The <i>firm</i> also reviews the segregation of duties between staff. It is satisfied that an adequate segregation of duties between underwriting <i>claims</i> and

	payments divisions exist in terms of acceptance, authorisation and payments. It is also satisfied that sufficient interaction between the front, middle and back offices exist in terms of financial control and risk management. For example, it is confident that its guidelines for accepting risks are adequate and that any breach would be picked up by exception reporting.
A60	The <i>firm</i> also investigates the level of staff expertise and training to administer its product range/services.
	The <i>firm</i> considers that capital of between £X and £Y would cover the risk of future administration issues.
	Compliance Risk
A61	The <i>firm</i> believes its main compliance risk relates to the risk of non-adherence to legislative and internal <i>firm</i> requirements.
A62	An investigation into compliance over the last 10 years finds no history of non-compliance with <i>firm</i> policy and control systems nor have there been any reported areas of non-compliance with legislation or other requirements.
A63	Regulatory reforms including corporate and consumer law are considered and it is assumed that expenses costs will rise as a result of developments in the next 5 years. As a result an additional X% of <i>premium</i> income was assumed for the expense ratio.
	The <i>firm</i> considers that capital of between £X and £Y would cover the risk of future compliance issues.
	Event risk
A64	Event risk relates to risks associated with the potential impact of significant events (e.g., financial system crisis, major change in fiscal system, natural disaster) on the operations of the <i>firm</i> .
A65	The definition of event risk is not intended to cover events that are directly associated with products and services offered, for example, events which may directly impact on the <i>general insurance business</i> .
A66	The <i>firm</i> concludes that no additional specific allocation is required.
	Fraud Risk
A67	Fraud risk relates to the risk associated with intentional misappropriation of funds, undertaken with the objective of personal benefit at the expense of the <i>firm</i> .
A68	In assessing fraud risk, the <i>firm</i> considers the possibility of fraudulent acts occurring within the <i>firm</i> and the extent of controls which management has established to mitigate such acts.
A69	The <i>firm</i> examines fraud issues over a period of 10 years and finds one major incident where it was subject to a fraudulent activity. This involved fraudulent payments being made by a member of staff which resulted in a loss for the <i>firm</i> of £Xm. Based on this previous incident and allowing for improvements in controls, the company assessed a financial figure that it believes is consistent with the probability for this scenario.
	The <i>firm</i> considers that capital of between £X and £Y would cover the risk of future fraud.
	Technology Risk
A70	The <i>firm</i> considers the risk of error or failure associated with the technological aspects (IT systems) of its operations. Specifically, technology risk refers to both the hardware systems and the software utilised to run those systems.

A71	In relation to the <i>firm's</i> information systems, the <i>firm</i> assesses the past reliability and future functionality and believes them to be adequate. It does not have any future plans to either replace its systems or make major systems modifications.
A72	Concerning business continuity management and disaster recovery planning (and testing of plans), the <i>firm</i> reviews these plans regularly and tests them quarterly. A full back-up site exists with full recovery capabilities. Costs associated with utilising the site and associated business interruption insurance was estimated.
The <i>firm</i> considers that capital of between £X and £Y would cover technology risk.	
Group risk	
A73	The size of the group risk element within operational risk will depend on the ownership structure of the <i>firm</i> and how it is funded by the parent.
A74	The <i>firm</i> considers the likelihood and financial consequences of both insolvency and credit downgrading of its parent. Given the <i>firm</i> shares the parent's name there is a large risk of association.
A75	The <i>firm</i> considers it within the scope of the scenario to allow for a single downgrade of the parent's credit rating from AA to A. It does not believe the chance of insolvency great enough to allow for directly.
A76	The <i>firm</i> estimates the effect on its business plan and profit margins of the downgrade. It estimates the amount of business lost and the increase in marketing costs required to maintain the client base. It also allows for a change in the pricing basis to incorporate a reduced profit margin (with knock on impacts on the business volume and loss ratios).
From the above analysis, the <i>firm</i> considers that capital of between £X and £Y would be required to cover group risks.	
Overall assessment	
A77	After individually assessing each risk area, the <i>firm</i> considers the capital that it has estimated might be absorbed under each scenario. In aggregate the range of capital absorbed is between £X and £Y. It considers how many of these scenarios might reasonably occur within a period and the extent to which it could replace capital within that period. It takes into account scenarios which might reasonably be linked, the difficulty with which capital might be replaced if the scenarios occurred, and the changes in strategy which might need to be adopted if the scenarios occurred.
A78	The <i>firm</i> decides that the worst realistic combination of circumstances that might arise would absorb capital of between £A and £B.

## Annex E

### PRU 3

In this Annex, all the text is new and is not underlined.

#### 3.1 Credit risk management systems and controls

##### Application

3.1.1 G *PRU 3.1* applies to an *insurer* unless it is:

- (1) a *non-directive friendly society*; or
- (2) an *incoming EEA firm*; or
- (3) an *incoming Treaty firm*.

3.1.2 G *PRU 3.1* applies to:

- (1) an *EEA-deposit insurer*; and
- (2) a *Swiss general insurer*;  
only in respect of the activities of the *firm* carried on from a *branch* in the *United Kingdom*.

##### Purpose

3.1.3 G This section provides *guidance* on how to interpret *PRU 1.4* insofar as it relates to the management of credit risk.

3.1.4 G Credit risk is incurred whenever a *firm* is exposed to loss if another party fails to perform its financial obligations to the *firm*, including failing to perform them in a timely manner. It arises from both on and off balance sheet items. For contracts for traded *financial instruments*, for example the purchase and sale of *securities* or *over the counter derivatives*, risks may arise if the *firm's counterparty* does not honour its side of the contract. This constitutes counterparty risk, which can be considered a subset of credit risk. Another risk is issuer risk, which could potentially result in a *firm* losing the full price of a market instrument since default by the issuer could result in the value of its bonds or stocks falling to nil. In insurance *firms*, credit risk can arise from *premium* debtors, where cover under *contracts of insurance* may either commence before *premiums* become due or continue after their non-payment. Credit risk can also arise if a *reinsurer* fails to fulfil its financial obligation to repay a *firm* upon submission of a *claim*.

3.1.5 G Credit risk concerns the *FSA* in a *prudential context* because inadequate systems and controls for credit risk management can create a threat to the *regulatory objectives* of market confidence and consumer protection by:

- (1) the erosion of a *firm's* capital due to excessive credit losses thereby threatening its viability as a going concern;
- (2) an inability of a *firm* to meet its own obligations to depositors, *policvholders* or other market *counterparties* due to capital erosion.

- 3.1.6 G Appropriate systems and controls for the management of credit risk will vary with the scale, nature and complexity of the *firm's* activities. Therefore the material in this section is *guidance*. A *firm* should assess the appropriateness of any particular item of *guidance* in the light of the scale, nature and complexity of its activities as well as its obligations as set out in *Principle 3* to organise and control its affairs responsibly and effectively.

#### Requirements

- 3.1.7 G High level requirements for prudential systems and controls, including those for credit risk, are set out in *PRU 1.4*. In particular:
- (1) *PRU 1.4.19R(2)* requires a *firm* to document its policy for credit risk, including its risk appetite and how it identifies, measures, monitors and controls that risk;
  - (2) *PRU 1.4.19R(2)* requires a *firm* to document its provisioning policy. Documentation should describe the systems and controls that it intends to use to ensure that the policy is correctly implemented;
  - (3) *PRU 1.4.18R* requires it to establish and maintain risk management systems to identify, measure, monitor and control credit risk (in accordance with its credit risk policy), and to take reasonable steps to ensure that its systems are adequate for that purpose;
  - (4) In line with *PRU 1.4.11G*, the ultimate responsibility for the management of credit risk should rest with a *firm's governing body*. Where delegation of authority occurs the *governing body* and relevant *senior managers* should approve and periodically review systems and controls to ensure that delegated duties are being performed correctly.

#### Credit risk policy

- 3.1.8 G *PRU 1.4.18R* requires a *firm* to establish, maintain and document a business plan and risk policies. They should provide a clear indication of the amount and nature of credit risk that the *firm* wishes to incur. In particular, they should cover for credit risk:
- (1) how, with particular reference to its activities, the *firm* defines and measures credit risk;
  - (2) the *firm's* business aims in incurring credit risk including:
    - (a) identifying the types and sources of credit risk to which the *firm* wishes to be exposed (and the limits on that exposure) and those to which the *firm* wishes not to be exposed (and how that is to be achieved, for example how exposure is to be avoided or mitigated);

- (b) specifying the level of diversification required by the *firm* and the *firm's* tolerance for risk concentrations (and the limits on those exposures and concentrations); and
  - (c) drawing the distinction between activities where credit risk is taken in order to achieve a return (for example, lending) and activities where credit exposure arises as a consequence of pursuing some other objective (for example, the purchase of a *derivative* in order to mitigate *market risk*);
- (3) how credit risk is assessed both when credit is granted or incurred and subsequently, including how the adequacy of any security and other risk mitigation techniques is assessed;
- (4) the detailed limit structure for credit risk which should:
- (a) address all key risk factors, including *intra-group* exposures and indirect exposures (for example, exposures held by *related* and *subsidiary undertakings*);
  - (b) be commensurate with the volume and complexity of activity;
  - (c) be consistent with the *firm's* business aims, historical performance, and its risk appetite;
- (5) procedures for:
- (a) approving new or additional exposures to *counterparties*;
  - (b) approving new products and activities that give rise to credit risk;
  - (c) regular risk position and performance reporting;
  - (d) limit exception reporting and approval; and
  - (e) identifying and dealing with problem exposures caused by the failure or the downgrading of a *counterparty*;
- (6) the methods and assumptions used for the stress testing and scenario analysis required by *PRU 1.2* (Adequacy of financial resources), including how these methods and assumptions are selected and tested;
- (7) the allocation of responsibilities for implementing the credit risk policy and for monitoring adherence to, and the effectiveness of, the policy.

Counterparty assessment

- 3.1.9 G The *firm* should make a suitable assessment of the risk profile of the *counterparty*. The factors to be considered will vary according to both the type of credit and the *counterparty* being considered. This may include:
- (1) the purpose of the credit, the duration of the agreement and the source of repayment;
  - (2) an assessment and continuous monitoring of the credit quality of the *counterparty*;
  - (3) an assessment of the *claims* payment record where the *counterparty* is a *reinsurer*;
  - (4) an assessment of the nature and amount of risk attached to the *counterparty* in the context of the industrial sector or geographical region or country in which it operates, as well as the potential impact on the *counterparty* of political, economic and market changes; and
  - (5) the proposed terms and conditions attached to the granting of credit, including ongoing provision of information by the *counterparty*, covenants attached to the facility as well as the adequacy and enforceability of *collateral*, security and guarantees.
- 3.1.10 G It is important that sound and legally enforceable documentation is in place for each agreement that gives rise to credit risk as this may be called upon in the event of a default or dispute. A *firm* should therefore consider whether it is appropriate for an independent legal opinion to be sought on documentation used by the *firm*. Documentation should normally be in place before the *firm* enters into a contractual obligation or releases funds.
- 3.1.11 G Where *premium* payments are made via *brokers* or *intermediaries*, the *firm* should describe how it monitors and controls its exposure to those *brokers* and *intermediaries*. In particular, the policy should identify whether the risk of default by the *broker* or *intermediary* is borne by the *firm* or the *policyholder*.
- 3.1.12 G Any variation from the usual credit policy should be documented.
- 3.1.13 G A *firm* involved in loan syndications or consortia should not rely on other parties' assessment of the credit risks involved. It will remain responsible for forming its own judgement on the appropriateness of the credit risk thereby incurred with reference to its stated credit risk policy. Similarly a *firm* remains responsible for assessing the credit risk associated with any insurance or *reinsurance* placed on its behalf by other parties.
- 3.1.14 G Where a credit scoring approach or other *counterparty* assessment process is used, the *firm* should periodically assess the particular approach taken in the light of past and expected future *counterparty* performance and ensure that any statistical process is adjusted accordingly to ensure that the business written complies with the *firm's* risk appetite.

- 3.1.15 G In assessing its contingent exposure to a *counterparty*, the *firm* should identify the amount which would be due from the *counterparty* if the value, index or other factor upon which that amount depends were to change.

#### Credit risk measurement

- 3.1.16 G A *firm* should measure its credit risk using a robust and consistent methodology which should be described in its credit risk policy; the appropriate method of measurement will depend upon the nature of the credit product provided. The *firm* should consider whether the measurement methodologies should be backtested and the frequency of such backtesting.
- 3.1.17 G A *firm* should also be able to measure its credit exposure across its entire portfolio or within particular categories such as exposures to particular industries, economic sectors or geographical areas.
- 3.1.18 G Where a *firm* is a member of a *group* that is subject to consolidated reporting, the *group* should be able to monitor credit exposures on a consolidated basis. See *PRU 8* (Group risk).
- 3.1.19 G A *firm* should have the capability to measure its credit exposure to individual *counterparties* on at least a daily basis.

#### Risk monitoring

- 3.1.20 G A *firm* should implement an effective system for monitoring its credit risk which should be described in its credit risk policy.
- 3.1.21 G A *firm* should have a system of management reporting which provides clear, concise, timely and accurate credit risk reports to relevant functions within the *firm*. The reports could cover exceptions to the *firm's* credit risk policy, non-performing exposures and changes to the level of credit risk within the *firm's* credit portfolio. A *firm* should have procedures for taking appropriate action according to the information within the management reports, such as a review of *counterparty* limits, or of the overall credit policy.
- 3.1.22 G Individual credit facilities and overall limits should be periodically reviewed in order to check their appropriateness for both the current circumstances of the *counterparty* and the *firm's* current internal and external economic environment. The frequency of review should be appropriate to the nature of the facility.
- 3.1.23 G A *firm* should utilise appropriate stress testing and scenario analysis of credit exposures to examine the potential effects of economic or industry downturns, market events, changes in interest rates, changes in foreign exchange rates, changes in liquidity conditions and changes in levels of insurance losses where relevant.

#### Problem exposures

- 3.1.24 G A *firm* should have systematic processes for the timely identification, management and monitoring of problem exposures. These processes should be described in the credit risk policy.
- 3.1.25 G A *firm* should have adequate procedures for recovering exposures in arrears or that have had provisions made against them. A *firm* should allocate responsibility, either internally or externally, for its arrears management and recovery.

#### Provisioning

- 3.1.26 G *PRU* 1.4.19R(2) requires a *firm* to document its provisioning policy. A *firm*'s provisioning policy can be maintained either as a separate document or as part of its credit risk policy.
- 3.1.27 G At intervals that are appropriate to the nature, scale and complexity of its activities a *firm* should review and update its provisioning policy and associated systems.
- 3.1.28 G In line with *PRU* 3.1.6G, the *FSA* recognises that the frequency with which a *firm* reviews its provisioning policy once it has been established will vary from *firm* to *firm*. However, the *FSA* expects a *firm* to review at least annually whether its policy remains appropriate for the business it undertakes and the economic environment in which it operates.
- 3.1.29 G In line with *PRU* 1.4.12G, the provisioning policy referred to in *PRU* 3.1.26G must be approved by the *firm's governing body* or another appropriate body to which the *firm's governing body* has delegated this responsibility.
- 3.1.30 G In line with *PRU* 1.4.24G, the *FSA* may request a *firm* to provide it with a copy of its current provisioning policy.
- 3.1.31 G Provisions may be general (against the whole of a given portfolio), specific (against particular exposures identified as bad or doubtful) or both. The *FSA* expects contingent liabilities (for example guarantees) and anticipated losses to be recognised in accordance with accepted accounting standards at the relevant time, such as those embodied in the Financial Reporting Standards issued by the Accounting Standards Board.

#### Risk mitigation

- 3.1.32 G A *firm* may choose to use various credit risk mitigation techniques including the taking of *collateral*, the use of letters of credit or guarantees, or *counterparty netting* agreements to manage and control their *counterparty* exposures. The use of such techniques does not obviate the need for thorough credit analysis and procedures. The reliance placed by a *firm* on risk mitigation should be described in the credit risk policy.
- 3.1.33 G A *firm* should consider the legal and financial ability of a guarantor to fulfil the guarantee if called upon to do so.

- 3.1.34 G A *firm* should monitor the validity and enforceability of its *collateral* arrangements.
- 3.1.35 G The *firm* should analyse carefully the protection afforded by risk mitigants such as *netting* agreements or credit *derivatives*, to ensure that any residual risk is identified, measured, monitored and controlled.

#### Record keeping

- 3.1.36 G Prudential records made under *PRU* 1.4.53R should include appropriate records of:
- (1) credit exposures, including aggregations of credit exposures, as appropriate, by:
    - (a) groups of connected *counterparties*;
    - (b) types of *counterparty* as defined, for example, by the nature or geographical location of the *counterparty*;
  - (2) credit decisions, including details of the decision and the facts or circumstances upon which it was made; and
  - (3) information relevant to assessing current *counterparty* and risk quality.
- 3.1.37 G Credit records should be retained as long as they are needed for the purpose described in *PRU* 3.1.36G (subject to the minimum three year retention period). In particular, a *firm* should consider whether it is appropriate to retain information regarding *counterparty* history such as a record of credit events as well as a record indicating how credit decisions were taken.

## 3.2 Credit risk in insurance

### Application

- 3.2.1 R *PRU 3.2* applies to an *insurer* unless it is:
- (1) a *non-directive friendly society*; or
  - (2) an *incoming EEA firm*; or
  - (3) an *incoming Treaty firm*.
- 3.2.2 R All of *PRU 3.2*, except *PRU 3.2.20R* and *PRU 3.2.23R* to *PRU 3.2.32G*, applies to:
- (1) an *EEA-deposit insurer*; and
  - (2) a *Swiss general insurer*;
- but only in respect of the activities of the *firm* carried on from a *branch* in the *United Kingdom*.
- 3.2.3 G The scope of application of *PRU 3.2* is not restricted to *firms* that are subject to relevant EC directives. It applies, for example, to *pure reinsurers*.
- 3.2.4 R (1) This section applies to a *firm* in relation to the whole of its business, except where a particular provision provides for a narrower scope.
- (2) Where a *firm* carries on both *long-term insurance business* and *general insurance business*, this section applies separately to each type of business.

### Purpose

- 3.2.5 G The purpose of this section is to protect *policyholders* and potential *policyholders* by setting out the requirements applicable to a *firm* in respect of credit risk. Credit risk is incurred whenever a *firm* is exposed to loss if a *counterparty* fails to perform its contractual obligations including failure to perform them in a timely manner. Credit risk may therefore have an impact upon a *firm*'s ability to meet its valid *claims* as they fall due. Credit risk can also arise from underlying causes that have an impact upon the creditworthiness of all *counterparties* of a particular description or geographical location. A detailed explanation of credit risk is given at *PRU 3.1.4G*.
- 3.2.6 G The requirements in this section address both current and contingent exposure to credit risk. *PRIN*, *SYSC* and *PRU 1.4* require a *firm* to establish adequate internal systems and controls for exposure to credit risk. This section requires a *firm* to restrict its exposure to different *counterparties* and assets to prudent levels and to ensure that those exposures are adequately diversified. It also requires a *firm* to make deductions from the value of assets in respect of exposures to one asset, *counterparty* or group of closely related *counterparties* in excess of prescribed limits.
- 3.2.7 G This section also sets limits on the *market risk* arising from holding assets including *securities* issued or guaranteed by *counterparties*. This *market risk* is incurred whenever a

*firm* is exposed to loss if an asset were to reduce in value or even become worthless. These *market risk* limits are set out in this section rather than the *market risk* sections in *PRU* because they are closely linked to the *counterparty* limits set out in this section.

#### Overall limitation of credit risk

- 3.2.8 R Taking into account relevant risks, a *firm* must restrict its *counterparty* exposures and asset exposures to prudent levels and ensure that those exposures are adequately diversified.
- 3.2.9 R
- (1) For the purposes of *PRU* 3.2, *counterparty* exposure is the amount a *firm* would lose if a *counterparty* were to fail to meet its obligations (either to the *firm* or to any other *person*) and if simultaneously *securities* issued or guaranteed by the *counterparty* were to become worthless.
  - (2) For the purposes of *PRU* 3.2, asset exposure is the amount a *firm* would lose if an asset or class of identical assets (whether or not held directly by the *firm*) were to become worthless.
  - (3) For the purposes of (1) and (2), the amount of loss is the amount, if any, by which the *firm's* capital resources (as calculated in accordance with *PRU* 2.2.14R but without making any deduction for assets in excess of *market risk* and *counterparty* limits) would decrease as a result of the *counterparty* failing to meet its obligations and the *securities* or assets becoming worthless.
  - (4) In determining the amount of loss in accordance with (3), the *firm* must take into account decreases in its capital resources that would result not only from its own direct exposures but also from:
    - (a) exposures held by any of its *subsidiary undertakings*; and
    - (b) synthetic exposures arising from *derivatives* or *quasi-derivatives* held or entered into by the *firm* or any of its *subsidiary undertakings*.
  - (5) If a *firm* elects under *PRU* 3.2.35R to make a deduction in respect of *collateral*, the *firm* must deduct from the amount of loss determined in accordance with (3) so much of the value of that *collateral* as:
    - (a) would be realised by the *firm* were it to exercise its rights in relation to the *collateral*; and
    - (b) does not exceed any of the relevant limits in *PRU* 3.2.22R(3).
- 3.2.10 G Exposure is defined in terms of loss (which is decrease in capital). It does not include exposures arising from assets that are not represented in capital or exposures which if crystallised in a loss would be offset by a consequent gain, reduction in liabilities or release of provisions, but only in so far as that gain, reduction or release would itself lead to an offsetting increase in *capital resources*. Examples include:
- (1) exposure from the holding of assets to which the *firm* has attributed no value;
  - (2) exposure from the holding of assets that the *firm* has deducted from *capital*

*resources*; and

- (3) exposure in respect of which (and to the extent that) the *firm* has established a provision.

3.2.11 G In assessing the adequacy of diversification required by *PRU 3.2.8R*, a *firm* should take into account concentrations of exposure including those arising from:

- (1) different types of exposure to the same *counterparty*, such as *deposits*, loans, *securities*, *reinsurance* and *derivatives*;
- (2) links between *counterparties* such that default by one might have an impact upon the creditworthiness of another; and
- (3) possible changes in circumstance that would have an impact upon the creditworthiness of all *counterparties* of particular description or geographical location.

3.2.12 G A *firm* should consider how the spreading of credit risk will impact on overall *counterparty* quality.

3.2.13 G In assessing its exposure to a *counterparty* for the purpose of *PRU 3.2.8R*, a *firm* should take into account:

- (1) the period for which the exposure to that *counterparty* might continue;
- (2) the likelihood of default during that period by the *counterparty*; and
- (3) the loss that might result in the event of default.

3.2.14 G In assessing the loss that might result from the default of a *counterparty* for the purposes of *PRU 3.2.8R*, a *firm* should take into account the circumstances that might lead to default and, in particular, how these might have an impact upon:

- (1) the amount of exposure to the *counterparty*; and
- (2) the effectiveness of any loss mitigation techniques employed by the *firm*.

3.2.15 G Often the same circumstances which lead to the crystallisation of contingent credit exposure, e.g. a significant *claims* event or a significant movement in interest, currency or asset values, also lead to an increase in the risk of default by the *counterparty*. In particular, if a *reinsurer* or *derivative counterparty* is being relied upon to provide protection against the consequences of an event or circumstance, a *firm* should take into account how that event or circumstance might have an impact upon the creditworthiness of the *reinsurer* or *derivative counterparty*.

3.2.16 R For the purposes of *PRU 3.2.8R* and of determining *counterparty* exposure and asset exposure in accordance with *PRU 3.2.9R* and *reinsurance* exposure in accordance with *PRU 3.2.25R*, a *firm* must only rely upon a loss mitigation technique where it has good reason to believe that, taking into account the possible circumstances of default, it is likely to be effective.

- 3.2.17 G Loss mitigation techniques include:
- (1) the right, upon default, to preferential access to some or all of the *counterparty's* assets, for example by exercising rights of set off, holding *collateral* or assets deposited back, or exercising rights under fixed or floating charges;
  - (2) rights against third parties upon default by the *counterparty*, such as guarantees, credit insurance and credit *derivatives*; and
  - (3) where the *counterparty* is a *reinsurer*, having back-up or flexible *reinsurance* which covers the gap in coverage left by the *reinsurer's* default, for example 'top and drop' *reinsurance*.
- 3.2.18 R For the purposes of *PRU* 3.2.8R and of determining *counterparty* exposure and asset exposure in accordance with *PRU* 3.2.9R and *reinsurance* exposure in accordance with *PRU* 3.2.25R, a *firm* must not rely upon preferential access to assets unless it has taken into account appropriate professional advice as to its effectiveness.
- 3.2.19 G In particular, a *firm* should consider whether any preferential access to a *counterparty's* assets would be effective even if the *counterparty* were wound up by a court or other legal process or it were to be subject to any other insolvency process. A *firm* should also consider, where it is relying upon a right against a third party, whether, in the circumstances of the *counterparty's* default, the creditworthiness of that third party might be impaired.

#### Large exposure limits

- 3.2.20 R (1) A *firm* must take reasonable steps to limit its *counterparty* exposure or asset exposure to:
- (a) a single *counterparty*;
  - (b) each of the *counterparties* within a group of closely related *counterparties*; and
  - (c) an asset or class of identical assets;
- to a level where, if a total default were to occur, the *firm* would not become unable to meet its liabilities as they fall due.
- (2) In (1), a total default occurs where:
- (a) the single *counterparty* or all of the *counterparties* within the group of closely related *counterparties* fail to meet its or their obligations and simultaneously any *securities* issued or guaranteed by it or any of them become worthless; or
  - (b) the asset becomes worthless or all of the assets within the identical class become worthless at the same time.
- (3) (1) does not apply to:
- (a) a *reinsurance* exposure; or

(b) a *counterparty* exposure or asset exposure to an *approved credit institution*.

3.2.21 G In assessing its exposure to a *counterparty* or group of closely related *counterparties*, a *firm* should consider exposures from different sources including *deposits*, loans, *securities* and *derivatives*.

#### Market risk and counterparty limits

3.2.22 R (1) A *firm* must calculate the amount of the deduction from total capital required by stage L in the Table in *PRU 2.2.14R* in respect of assets in excess of *market risk* and *counterparty* limits as the aggregate amount by which its *counterparty* exposures and asset exposures exceed the relevant limits set out in (3).

(2) Except where the contrary is expressly stated in *PRU*, whenever:

(a) a *rule* in *PRU* refers to assets of a *firm*, or of any part of a *firm*, or of any fund or part of a fund within a *firm*, which are assets of a kind referred to in any of the limits in (3); and

(b) the *firm's counterparty* exposure (or aggregate exposure arising from the *counterparty* exposures to each member of a group of closely related *persons*) or asset exposure in respect of those assets exceeds any of the limits in (3);

the *firm* must deduct from the measure of the value of those assets (as determined in accordance with *PRU 1.3*) the amount by which that exposure exceeds the relevant limit in (3), or that portion of the deduction that relates to the part of the *firm* or fund or part of a fund in question.

(3) The limits referred to in (1) and (2) are the following, expressed as a percentage of the *firm's* business amount:

(a) for a *counterparty* exposure to an individual, unincorporated body of individuals or the aggregate exposure arising from the *counterparty* exposures to each member of a group of closely related individuals or unincorporated bodies of individuals:

(i)  $\frac{1}{4}\%$  for that part of the exposure that arises from *unsecured debt*;

(ii) 1% for the whole exposure (after deduction of the excess arising from the limit in (a)(i));

(b) for a *counterparty* exposure to an *approved counterparty* or the aggregate exposure arising from the *counterparty* exposures to each member of a group of closely related *approved counterparties*:

(i) 5% for that part of the exposure not arising from short term *deposits* made with an *approved credit institution*; this limit is increased to 10% if the total of such exposures which exceed 5% is less than 40%;

(ii) 20% or £2 million if larger for the whole exposure (after deduction of the excess arising from the limit in (b)(i));

- (c) for a *counterparty* exposure to a *person*, or the aggregate exposure arising from the *counterparty* exposures to each member of a group of closely related *persons*, who do not fall into the categories of *counterparty* to whom (a) and (b) apply:
    - (i) 1% for that part of the exposure arising from *unsecured debt*; this limit is increased to 2.5% in the case of an exposure to a *regulated institution*;
    - (ii) 1% for that part of the exposure arising from *shares*, bonds, *debt securities* and other *money market instruments* and capital market instruments from the same *counterparty* that are not dealt in on a *regulated market*, or any beneficial interest in a *collective investment scheme* which is not a *UCITS scheme*, a *non-UCITS retail scheme* or a *recognised scheme*; the limit for that part of the exposure arising from *debt securities* (other than hybrid securities) issued by the same *regulated institution* is increased to 5%;
    - (iii) 5% for the whole exposure (after deduction of the excesses arising from the limits in (c)(i) and (ii));
  - (d) 5% for the aggregate of all *counterparty* exposures that fall within (c)(i) whether or not they arise from *persons* who are closely related, but excluding amounts that are in excess of the limit in (c)(i);
  - (e) 10% for the aggregate of all *counterparty* exposures that fall within (c)(ii) whether or not they arise from *persons* who are closely related, but excluding amounts that are in excess of the limit in (c)(ii);
  - (f) 5% for the aggregate of all *counterparty* exposures arising from unsecured loans, other than those falling within (3)(b);
  - (g) 3% for the asset exposure arising from all cash in hand;
  - (h) 10% for the asset exposure (including an exposure arising from a reversionary interest) arising from any one piece of land or building, or a number of pieces of land or buildings close enough to each other to be considered effectively as one investment.
- (4) In (3) a *firm's* business amount means the sum of:
- (a) the *firm's* total gross *technical provisions*;
  - (b) the amount of its other liabilities (except those included in the calculation of capital resources in accordance with *PRU 2.2.14R*); and
  - (c) such amount as the *firm* may select not exceeding the amount of the *firm's* total capital after deductions as calculated at stage M of the calculation in *PRU 2.2.14R* or, if higher:
    - (i) in the case of a *firm* carrying on *general insurance business*, the amount of its *general insurance capital requirement*; and

- (ii) in the case of a *firm* carrying on *long-term insurance business*, the amount of its *long-term insurance capital requirement* and the amount of its *resilience capital requirement*.
- (5) For the purpose of (4)(a), a *firm's* total gross *technical provisions* exclude *technical provisions* in respect of *index-linked liabilities* or *property-linked liabilities*, except that where the *linked long-term contract of insurance* in question includes a guarantee of investment performance or some other guaranteed benefit, the total gross *technical provisions* include the *technical provisions* in respect of that guaranteed element.
  - (6) In (3)(c)(ii) hybrid security means a *debt security*, other than an *approved security*, the terms of which provide, or have the effect that, the holder does not, or would not, have an unconditional entitlement to payment of interest and repayment of capital in full within 75 years of the date on which the *security* is being valued.

Large exposure calculation for reinsurance exposures

- 3.2.23 R A *firm* must notify the *FSA* in accordance with *SUP 15.7* as soon as it first becomes aware that:
  - (1) a *reinsurance* exposure to a *reinsurer* or group of closely related *reinsurers* is reasonably likely to exceed 100% of its *capital resources*, excluding *capital resources* held to cover *property-linked liabilities*; or
  - (2) if (1) does not apply, that it has exceeded this limit.
- 3.2.24 R Upon notification under *PRU 3.2.23R*, a *firm* must:
  - (1) demonstrate that prudent provision has been made for the *reinsurance* exposure in excess of the 100% limit, or explain why in the opinion of the *firm* no provision is required; and
  - (2) explain how the *reinsurance* exposure is being safely managed.
- 3.2.25 R (1) For the purposes of *PRU 3.2*, a *reinsurance* exposure is the amount of loss which a *firm* would suffer if a *reinsurer* or group of closely related *reinsurers* were to fail to meet its or their obligations under contracts of *reinsurance* reinsuring any of the *firm's contracts of insurance*.
  - (2) For the purposes of (1), the amount of loss is the amount, if any, by which the *firm's* capital resources (as calculated in accordance with *PRU 2.2.14R* but without making any deduction for assets in excess of *market risk* and *counterparty* limits) would decrease as a result of the *reinsurer* or group of closely related *reinsurers* failing to meet its or their obligations under the contracts of *reinsurance*.
  - (3) If a *firm* elects under *PRU 3.2.35R* to make a deduction in respect of *collateral*, the *firm* must deduct from the amount of loss determined in accordance with (2) so much of the value of that *collateral* as:
    - (a) would be realised by the *firm* were it to exercise its rights in relation to the

*collateral*; and

(b) does not exceed any of the relevant limits in *PRU 3.2.22R(3)*.

- 3.2.26 R A *firm* must, in determining its *reinsurance* exposures for the purposes of *PRU 3.2*, aggregate any *reinsurance* exposure where the identity of the *reinsurer* is not known by the *firm* with the highest *reinsurance* exposure where it does know the identity of the *reinsurer*.
- 3.2.27 G *PRU 3.2.8R* provides that, taking into account relevant risks, a *firm* must restrict to prudent levels, and adequately diversify, its exposure to *counterparties*.
- 3.2.28 E (1) In each *financial year*, a *firm* should restrict the *gross earned premiums* which it pays to a *reinsurer* or group of closely related *reinsurers* to the higher of:
- (a) 20% of the *firm's* projected *gross earned premiums* for that *financial year*; or
  - (b) £4 million.
- (2) Compliance with this provision may be relied upon as tending to establish compliance with *PRU 3.2.8R*.
- 3.2.29 R A *firm* must notify the *FSA* immediately in accordance with *SUP 15.7* if it has exceeded, or anticipates exceeding, the limit expressed in *PRU 3.2.28E*.
- 3.2.30 R Upon notification under *PRU 3.2.29R*, a *firm* must explain to the *FSA* how, despite the excess *reinsurance* concentration, the credit risk is being safely managed.
- 3.2.31 G For the purposes of *PRU 3.2.24R* and *PRU 3.2.30R*, a *firm's* explanation of how a *reinsurance* exposure is being safely managed should also describe the *reinsurance* market in which the exposure has occurred, and the nature of the *reinsurance* contract. If appropriate, the *firm* should also provide a detailed plan and timetable explaining how the excess exposure will be reduced to an acceptable level. The explanation should be approved by a person at the *firm* of appropriate seniority.
- 3.2.32 G Where a *firm* can demonstrate that the arrangement does not give rise to unacceptable levels of credit risk it is unlikely that further action will be required.

#### Exposures excluded from limits

- 3.2.33 R In *PRU 3.2.20R* and *PRU 3.2.22R*, references to a *counterparty* exposure or an asset exposure do not include such an exposure arising from:
- (1) a debt which is fully secured on assets whose value at least equals the amount of the debt;
  - (2) *premium* debts;
  - (3) advances secured on, and not exceeding the *surrender value* of, *long-term insurance contracts* of the *firm*;
  - (4) rights of salvage or subrogation;

- (5) *deferred acquisition costs*;
- (6) assets held to cover *index-linked liabilities* or *property-linked liabilities*, except that where the *linked long-term contract of insurance* in question includes a guarantee of investment performance or some other guaranteed benefit, *PRU 3.2.20R and PRU 3.2.22R* will nevertheless apply to assets held to cover that guaranteed element;
- (7) *moneys* due from, or guaranteed by, a *Zone A country*;
- (8) an *approved security*;
- (9) a holding in a *UCITS scheme*.

3.2.34 R In *PRU 3.2.22R* references to a *counterparty* exposure or an asset exposure do not include such an exposure arising from *reinsurance* debts and the *reinsurer's* share of *technical provisions*.

3.2.35 R If:

- (1) a *firm* has a *counterparty* exposure, an asset exposure or a *reinsurance* exposure in respect of which it has rights over *collateral*; and
- (2) the assets constituting that *collateral* would, if owned by the *firm*, be *admissible assets*;

the *firm* may, in determining the amount of that exposure, deduct the value of that *collateral* in accordance with *PRU 3.2.9R(5)* or, in the case of a *reinsurance* exposure, *PRU 3.2.25R(3)*.

3.2.36 R If a *firm* has a *counterparty* exposure, asset exposure or *reinsurance exposure* the whole or any part of which is:

- (1) guaranteed by a *credit institution* or an *investment firm* subject in either case to the *Capital Adequacy Directive* or supervision by a third country (non-EEA) supervisory authority with a *Capital Adequacy Directive*-equivalent regime; or
- (2) adequately mitigated by a *credit derivative*;

the *firm* may, for the purposes of *PRU 3.2.20R*, *PRU 3.2.22R* and *PRU 3.2.23R*, treat that exposure, or that part of the exposure which is so guaranteed or mitigated, as an exposure to the guarantor or *derivative counterparty*, rather than to the original *counterparty*, asset or *reinsurer*.

3.2.37 R For the purposes of *PRU 3.2.36R*, references to an exposure being guaranteed include an exposure secured by a letter of credit, but to fall within *PRU 3.2.36R* the guarantee or letter of credit must be direct, explicit, unconditional and irrevocable.

3.2.38 G The portion of exposure which is guaranteed or mitigated by a *credit derivative* is itself, as an exposure to the guarantor or *derivative counterparty*, subject to the limits in *PRU 3.2.20R* and *PRU 3.2.22R*.

- 3.2.39 R For the purposes of *PRU 3.2.20R* and *PRU 3.2.22R*, a *UCITS scheme*, a *non-UCITS retail scheme*, a *recognised scheme* or any other *collective investment scheme* that invests only in *admissible assets* (including any *derivatives* or *quasi-derivatives* held by the scheme) is to be treated as closely related to the *issuer* of the *units* in that scheme.

Meaning of closely related

- 3.2.40 R For the purposes of *PRU 3.2*, a group of *persons* is closely related if it consists solely of two or more natural or legal persons who, unless it is shown otherwise, constitute a single risk because as between any two of them one or other of the following relationships apply:
- (1) one of them, directly or indirectly, has control, as defined in *PRU 3.2.41R*, over the other or they are both controlled by the same third party; or
  - (2) there is no relationship of control as defined in *PRU 3.2.41R* but they are to be regarded as constituting a single risk because they are so interconnected that, if one of them were to experience financial problems, the other would be likely to encounter repayment difficulties.
- 3.2.41 R For the purposes of *PRU 3.2.40R*, control means the relationship between a *parent undertaking* and a *subsidiary undertaking*, as defined in Article 1 of the Consolidated Accounts Directive (83/349/EEC), or a similar relationship between any natural or legal person and an *undertaking*.

3.3 Asset-related Capital Requirement  
Application

- 3.3.1 R *PRU 3.3* applies to an *insurer* unless it is:
- (1) a *non-directive friendly society*; or
  - (2) a *Swiss general insurer*; or
  - (3) an *EEA-deposit insurer*; or
  - (4) an *incoming EEA firm*; or
  - (5) an *incoming Treaty firm*.

3.3.2 G The scope of application of *PRU 3.3* is not restricted to *firms* that are subject to the relevant EC directives. It applies, for example, to *pure reinsurers*.

3.3.3 R *PRU 3.3* applies to a *firm* only in relation to its *general insurance business*.

3.3.4 G The adequacy of a *firm's* financial resources needs to be assessed in relation to all the activities of the *firm* and the risks to which they give rise.

3.3.5 G The requirements in *PRU 3.3* apply to a *firm* on a solo basis.

Purpose

3.3.6 G *PRU 2.1.9R* requires that a *firm* must maintain at all times *capital resources* equal to or in excess of its *capital resources requirement*. *PRU 2.1.14R* provides that for a *firm* carrying on *general insurance business* the *firm's capital resources requirement* is the *Minimum Capital Requirement*.

3.3.7 G The *FSA* will use the *Enhanced Capital Requirement* as the benchmark for individual *capital guidance* for a *firm* carrying on *general insurance business*, other than a *non-directive insurer*. The *Enhanced Capital Requirement* is the sum of the *asset-related capital requirement* and the *insurance-related capital requirement* less the *firm's equalisation provisions*. This section sets out *rules and guidance* relating to the *asset-related capital requirement*. *Rules and guidance* relating to the *insurance-related capital requirement* are set out in *PRU 7.2*.

3.3.8 G The *asset-related capital requirement* is a measure of the capital that a *firm* should hold against the risk of loss if another party fails to perform its financial obligations to the *firm* or from adverse movements in the value of assets.

3.3.9 G The *asset-related capital requirement* is calculated by applying capital charge factors, expressed as a percentage, to different categories of a *firm's* assets. A *firm* should refer to *PRU 1.3* which sets out how a *firm* must recognise and value assets and liabilities.

Calculation of asset-related capital requirement

3.3.10 R A *firm* must calculate its *asset-related capital requirement* in accordance with *PRU 3.3.11R*.

- 3.3.11 R
- (1) The value of each of the *firm's* assets of a kind listed in the table in *PRU 3.3.16R* must be multiplied by the corresponding capital charge factor.
  - (2) If any amount which is to be multiplied by a capital charge factor is a negative amount, that amount shall be treated as zero.
  - (3) No account shall be taken of:
    - (a) the value of any asset which is not an *admissible asset*;
    - (b) the amount (if any) by which the value of any assets exceeds the limits on exposures to a type of asset or *counterparty* as set out in *PRU 3.2.22R*.
  - (4) Where a *firm* has entered into a *derivative*, then for the purposes of applying the appropriate capital charge factor as set out in *PRU 3.3.16R*, it must treat the value of the *derivative* and the value of the asset associated with the *derivative* as a single asset of a type and value which most closely reflects the economic risk to the *firm* of the combined rights and obligations associated with the *derivative* and the asset associated with the *derivative*.

- (5) The amounts resulting from multiplying each of the asset items referred to in (1) by the corresponding capital charge factor must be aggregated.
- (6) The *asset-related capital requirement* is the amount resulting from the aggregation in (5).
- 3.3.12 G *Options*: some *derivatives* may allow a *firm* an *option* whether to buy or sell a particular asset. If an *option* has a positive market value (that is, in-the-money) it is likely that the *firm* will exercise the *option* in the future and the current value of the *derivative* and associated asset will generally acquire new characteristics and volatility (a 'synthetic asset'). For instance, an *option* to acquire *shares* at a price below their current market value is likely to be exercised and the appropriate *asset-related capital requirement* calculation would be to combine the cash cost of acquiring the number of *shares* covered by the *option* with the value of the *derivative* and apply a factor of 16% to that combined value. If an *option* has no market value (that is, out-of-the-money) then it is unlikely that a *firm* would exercise the *option* in which case the appropriate *asset-related capital requirement* charge would be zero in respect of the *derivative*, and the corresponding capital charge contained in Table PRU 3.3.16R in relation to the asset associated with the *derivative*.
- 3.3.13 G *Futures and swaps*: *futures* or *swaps* may not allow the *firm* such an option in which case the appropriate asset-related capital charge factor to apply is the one corresponding to the asset that would be held on fulfilment of the contract and the value to which this should be applied would be the value of the asset held after the contract is fulfilled.
- 3.3.14 R (1) The asset-related capital charge factor for money market funds set out in the Table PRU 3.3.16R must be applied to exposures to funds that meet the definition in (2).
- (2) In PRU 3.3 an investment in a money market fund means a participation in a *collective investment scheme* which satisfies the following conditions:
- (a) the primary investment objective of the *collective investment scheme* is:
- (i) to maintain the net asset value of the *collective investment scheme* constant at par (net of earnings); or
- (ii) to maintain the net asset value of the *collective investment scheme* at the value of investors' initial capital plus earnings;
- (b) in order to pursue its primary investment objective the *collective investment scheme* invests exclusively in cash or in short term instruments with characteristics similar to cash or both; and
- (c) the *collective investment scheme* undertakes to abide by the following conditions:
- (i) not to allow the assets held in the *collective investment scheme* to exceed a weighted average maturity of 60 days;
- (ii) not to invest in equity or *securities* with characteristics similar to equity; and
- (iii) on a basis of marking-to-market at least weekly, not to permit the value of each *collective investment scheme* unit at any point in time to move by more than 50 basis points (0.5% of total *collective investment scheme* value).
- 3.3.15 R In PRU 3.3.16R an insurance dependant means a *regulated related undertaking* which is an *insurance undertaking* or an *insurance holding company*.

3.3.16R Table: Asset-related capital charge factors

Asset item			ECR asset-related capital charge factor	
Investments	Land and Buildings		7.5%	
	<i>Investments in group undertakings and participating interests</i>	<i>Shares in group undertakings</i> excluding participating interests	Insurance dependants	0%
			Other	7.5%
		<i>Debt securities</i> issued by, and loans to, <i>group undertakings</i>		3.5%
		Participating interests		7.5%
		<i>Debt securities</i> issued by, and loans to, <i>undertakings</i> in which the <i>insurer</i> has a participating interest		3.5%
		Other financial investments	<i>Shares</i> and other variable-yield <i>securities</i> and units in unit trusts	
	Money market funds		0%	
	<i>Debt securities</i> and other fixed income securities		<i>Approved securities</i>	3.5%
			Other	3.5%
	Participation in investment pools		16.0%	
	Loans secured by mortgages		2.5%	
	Other loans		2.5%	
	<i>Deposits with approved credit institutions and approved financial institutions</i>		0%	
	Other		7.5%	
		Deposits with ceding <i>undertakings</i>		3.5%
	<i>Reinsurers' share of technical provisions</i>	Provision for <i>unearned premium</i>		2.5%
		<i>Claims</i> outstanding		2.5%
		Other		2.5%
Debtors	Debtors arising out of direct insurance operations	<i>Policyholders</i>	4.5%	
		Intermediaries	3.5%	
	Debtors arising out of <i>reinsurance</i> operations		2.5%	
	Other debtors		1.5%	
	Called up <i>share</i> capital not paid		0%	
Other Assets	Tangible assets		7.5%	
	Cash at bank and in hand		0%	
	Other		0%	

Prepayments and accrued income	Accrued interest and rent	0%
	<i>Deferred acquisition costs</i>	0%
	Other prepayments and accrued income	0%

## Annex F

### PRU 4

In this Annex, all the text is new and is not underlined.

#### 4.1 Market risk management systems and controls

##### Application

4.1.1 G PRU 4.1 applies to an *insurer* unless it is:

- (1) a *non-directive friendly society*; or
- (2) an *incoming EEA firm*; or
- (3) an *incoming Treaty firm*.

4.1.2 G PRU 4.1 applies to:

- (1) an *EEA-deposit insurer*; and
- (2) a *Swiss general insurer*;

only in respect of the activities of the *firm* carried on from a *branch* in the *United Kingdom*.

4.1.3 G *Firms* should also see PRU 1.2 (PRU 1.2.40G to PRU 1.2.55G) and PRU 4.2.

##### Purpose

- 4.1.4 G
- (1) The purpose of this section is to amplify PRU 1.4 insofar as it relates to *market risk*.
  - (2) *Market risk* includes equity, interest rate, FX, commodity risk and interest rate risk on *long-term insurance contracts*. The price of *financial instruments* may also be influenced by other risks such as *spread risk, basis risk, correlation, specific risk* and *volatility risk*.
  - (3) This section does not deal with the risk management of *market risk* in a *group* context. A *firm* that is a member of a *group* should also read PRU 8.1 (Group risk systems and controls) which outlines the *FSA's* requirements for the risk management of *market risk* within a *group*.
  - (4) Appropriate systems and controls for the management of *market risk* will vary with the scale, nature and complexity of the *firm's* activities. Therefore the material in this section is *guidance*. A *firm* should assess the appropriateness of any particular item of *guidance* in the light of the scale, nature and complexity of its activities as well as its obligations as set out in *Principle 3* to organise and control its affairs responsibly and effectively.

##### Requirements

- 4.1.5 G High level requirements for prudential systems and controls, including those for *market risk*, are set out in PRU 1.4. In particular:
- (1) PRU 1.4.19R(2) requires a *firm* to document its policy for *market risk*, including its risk appetite and how it identifies, measures, monitors and controls that risk;

- (2) *PRU 1.4.19R(4)* requires a *firm* to document its asset and liability recognition policy. Documentation should describe the systems and controls that it intends to use to comply with the policy;
- (3) *PRU 1.4.19R* requires a *firm* to establish and maintain risk management systems to identify, measure, monitor and control *market risk* (in accordance with its *market risk* policy), and to take reasonable steps to establish systems adequate for that purpose;
- (4) In line with *PRU 1.4.11G*, the ultimate responsibility for the management of *market risk* should rest with a *firm's governing body*. Where delegation of authority occurs the *governing body* and relevant *senior managers* should approve and adequately review systems and controls to check that delegated duties are being performed correctly.

#### Market risk policy

- 4.1.6 G *PRU 1.4* requires a *firm* to establish, maintain and document a business plan and risk policies. They should provide a clear indication of the amount and nature of *market risk* that the *firm* wishes to incur. In particular, they should cover for *market risk*:
- (1) how, with particular reference to its activities, the *firm* defines and measures *market risk*;
  - (2) the *firm's* business aims in incurring *market risk* including:
    - (a) identifying the types and sources of *market risk* to which the *firm* wishes to be exposed (and the limits on that exposure) and those to which the *firm* wishes not to be exposed (and how that is to be achieved, for example how exposure is to be avoided or mitigated); and
    - (b) specifying the level of diversification required by the *firm* and the *firm's* tolerance for risk concentrations (and the limits on those exposures and concentrations).
- 4.1.7 G The *market risk* policy of a *firm* should be endorsed by the *firm's governing body* and implemented by its senior management, who should take adequate steps to disseminate the policy and train the relevant staff such that they can effectively implement the policy.
- 4.1.8 G The *market risk* policy of a *firm* should enforce the risk management and control principles and include detailed information on:
- (1) the *financial instruments*, commodities, assets and liabilities (and mismatches between assets and liabilities) that a *firm* is exposed to and the limits on those exposures;
  - (2) the *firm's* investment strategy as applicable between each insurance fund;
  - (3) activities that are intended to hedge or mitigate *market risk* including mismatches caused by for example differences in the assets and liabilities and maturity mismatches; and

- (4) the methods and assumptions used for measuring linear, non-linear and geared *market risk* including the rationale for selection, ongoing validation and testing. Methods might include stress testing and scenario analysis, option Greeks, asset/liability analysis, correlation analysis and Value-at-Risk (VaR). Exposure to non-linear or geared *market risk* is typically through the use of *derivatives*.

#### Risk identification

- 4.1.9 G A *firm* should have in place appropriate risk reporting systems that enable it to identify the types and amount of *market risk* to which it is, and potentially could be, exposed. The information that systems should capture may include but is not limited to:
- (1) position information which may include a description of individual *financial instruments* and their cash flows; and
  - (2) market data which may consist of raw time series of market rates, index levels and prices and derived time series of benchmark yield curves, spreads, implied volatilities, historical volatilities and correlations.

#### Risk measurement

- 4.1.10 G Having identified the *market risk* that the *firm* is exposed to on at least a daily basis, a *firm* should be able to measure and manage that *market risk* on a consistent basis. This may be achieved by:
- (1) regularly stress testing all or parts of the *firm's* portfolio to estimate potential economic losses in a range of market conditions including abnormal markets. Corporate level stress test results should be discussed regularly by risk monitors, senior management and risk takers, and should guide the *firm's market risk* appetite (for example, stress tests may lead to discussions on how best to unwind or hedge a position), and influence the internal capital allocation process;
  - (2) measuring the *firm's* exposure to particular categories of *market risk* (for example, equity, interest rate, foreign exchange and commodities) as well as across its entire portfolio of *market risks*;
  - (3) analysing the impact that new transactions or businesses may have on its *market risk* position on an on-going basis; and
  - (4) regularly backtesting realised results against internal model generated *market risk* measures in order to evaluate and assess its accuracy. For example, a *firm* should keep a database of daily risk measures such as VaR and option Greeks, and use these to back test predicted profit and loss against actual profit and loss for all trading desks and business units, and monitor the number of exceptions from agreed confidence bands.

#### Valuation

- 4.1.11 G A *firm* should take reasonable steps to establish systems and control procedures such that the *firm* complies with the requirements of *PRU 1.3* (Valuation).

- 4.1.12 G The systems and controls referred to in *PRU* 4.1.11G should include the following:
- (1) the department responsible for the validation of the value of assets and liabilities should be independent of the business trading area, and should be adequately resourced by suitably qualified staff. The department should report to a suitably qualified individual, independent from the business trading area, who has sufficient authority to enforce the systems and controls policies and any alterations to valuation treatments where necessary;
  - (2) all valuations should be checked and validated at appropriate intervals. Where a *firm* has chosen not to validate all valuations on a daily basis this should be agreed by senior management;
  - (3) a *firm* should establish a review procedure to check that the valuation procedures are followed and are producing valuations in compliance with the requirements in this section. The review should be undertaken by suitably qualified staff independent of the business trading area, on a regular and ad hoc basis. In particular, this review procedure should include:
    - (a) the quality and appropriateness of the price sources used;
    - (b) valuation reserves held; and
    - (c) the valuation methodology employed for each product and consistent adherence to that methodology;
  - (4) where a valuation is disputed and the dispute cannot be resolved in a timely manner it should be reported to senior management. It should continue to be reported to senior management until agreement is reached;
  - (5) where a *firm* is marking positions to market it should take reasonable steps to establish a price source that is reliable and appropriate to enable compliance with the provisions in this section on an ongoing basis;
  - (6) a *firm* should document its policies and procedures relating to the entire valuation process. In particular, the following should be documented:
    - (a) the valuation methodologies employed for all product categories;
    - (b) details of the price sources used for each product;
    - (c) the procedures to be followed where a valuation is disputed;
    - (d) the valuation adjustment and reserving policies;
    - (e) the level at which a difference between a valuation assigned to an asset or liability and the valuation used for validation purposes will be reported on an exceptions basis and investigated;
    - (f) where a *firm* is using its own internal estimate to produce a valuation, it should document in detail the process followed in order to produce the valuation; and

- (g) the review procedures established by a *firm* in relation to the requirements of this section should be adequately documented and include the rationale for the policy;
- (7) a *firm* should maintain records which demonstrate:
  - (a) senior management's approval of the policies and procedures established; and
  - (b) management sign-off of the reviews undertaken in accordance with *PRU* 4.1.11G.

#### Risk monitoring

- 4.1.13 G Risk monitoring is the operational process by which a *firm* monitors compliance with defined policies and procedures of the *market risk* policy. The *firm*'s risk monitoring system should be independent of the *employees* who are responsible for exposing the *firm* to *market risk*.
- 4.1.14 G The *market risk* policy of a *firm* may require the production of *market risk* reports at various levels within the *firm*. These reports should provide sufficiently accurate *market risk* data to relevant functions within the *firm*, and should be timely enough to allow any appropriate remedial action to be proposed and taken, for example:
  - (1) at *firm* wide level, a *market risk* report may include information:
    - (a) summarising and commenting on the total *market risk* that a *firm* is exposed to and *market risk* concentrations by business unit, asset class and country;
    - (b) on VaR reports against risk limits by business unit, asset class and country;
    - (c) commenting on significant risk concentrations and market developments; and
    - (d) on *market risk* in particular legal entities and geographical regions;
  - (2) at the business unit level, a *market risk* report may include information summarising *market risk* by currency, trading desk, maturity or duration band, or by instrument type;
  - (3) at the trading desk level, a *market risk* report may include detailed information summarising *market risk* by individual trader, instrument, position, currency, or maturity or duration band; and
  - (4) all risk data should be readily reconcilable back to the prime books of entry with a fully documented audit trail.
- 4.1.15 G Risk monitoring may also include information on:
  - (1) the procedures for taking appropriate action in response to the information within the *market risk* reports;
  - (2) ensuring that there are controls and procedures for identifying and reporting trades and positions booked at off-market rates;
  - (3) the process for new product approvals;

- (4) the process for dealing with situations (authorised and unauthorised) where particular *market risk* exposures exceed predetermined risk limits and criteria; and
  - (5) the periodic review of the risk monitoring process in order to check its suitability for both current market conditions and the *firm's* overall risk appetite.
- 4.1.16 G Risk monitoring should be subject to periodic independent review by suitably qualified staff.

#### Risk control

- 4.1.17 G Risk control is the independent monitoring, assessment and supervision of business units within the defined policies and procedures of the *market risk* policy. This may be achieved by:
- (1) setting an appropriate *market risk* limit structure to control the *firm's* exposure to *market risk*; for example, by setting out a detailed *market risk* limit structure at the corporate level, the business unit level and the trading desk level which addresses all the key *market risk* factors and is commensurate with the volume and complexity of activity that the *firm* undertakes;
  - (2) setting limits on risks such as price or rate risk, as well as those factors arising from *options* such as delta, gamma, vega, rho and theta;
  - (3) setting limits on net and gross positions, *market risk* concentrations, the maximum allowable loss (also called “stop-loss”), VaR, potential risks arising from stress testing and scenario analysis, gap analysis, correlation, liquidity and volatility; and
  - (4) considering whether it is appropriate to set intermediate (early warning) thresholds that alert management when limits are being approached, triggering review and action where appropriate.

#### Record keeping

- 4.1.18 G High level requirements for record keeping are set out in *PRU* 1.4.
- 4.1.19 G In relation to *market risk*, a *firm* should retain appropriate prudential records of:
- (1) off and on market trades in *financial instruments*;
  - (2) the nature and amounts of off and on balance sheet exposures, including aggregations of exposures;
  - (3) trades in *financial instruments* and other assets and liabilities; and
  - (4) methods and assumptions used in stress testing and scenario analysis and in VaR models.
- 4.1.20 G A *firm* should keep a data history to enable it to perform back testing of methods and assumptions used for stress testing and scenario analysis and for VaR models.

## 4.2 Market risk in insurance

### Application

- 4.2.1 R *PRU 4.2 applies to an insurer, unless it is:*
- (1) *a non-directive friendly society; or*
  - (2) *an incoming EEA firm; or*
  - (3) *an incoming Treaty firm.*
- 4.2.2 G The scope of application of *PRU 4.2* is not restricted to *firms* that are subject to the relevant EC directives. It applies, for example, to *pure reinsurers* (with the exception of *PRU 4.2.53R*).
- 4.2.3 R (1) *PRU 4.2 applies to a firm in relation to the whole of its business, except where a particular provision provides for a narrower scope.*
- (2) *Where a firm carries on both long-term insurance business and general insurance business, PRU 4.2 applies separately to each type of business.*

### Purpose

- 4.2.4 G This section sets out *rules and guidance* relating to *market risk*. Under *PRU 7.2.20R*, a *firm* is required to hold *admissible assets* of a value sufficient to cover *technical provisions*. In addition, *PRU 7.2.34R* sets the requirement that a *firm* must hold assets of appropriate amount, currency, term, safety and yield, to ensure that the cash inflows from those assets will be sufficient to meet expected cash outflows from its insurance liabilities as they are due.
- 4.2.5 G *Market risk* is the risk that as a result of market movements a *firm* may be exposed to fluctuations in the value of its assets, the amount of its liabilities, or the income from its assets. Sources of general *market risk* include movements in interest rates, equities, exchange rates and real estate prices. It is important to note that none of these sources of risk is independent of the others. For example, fluctuations in interest rates often have an impact upon equity and currency values and vice versa. Giving due consideration to these correlations is an important aspect of the prudent management of *market risk*.
- 4.2.6 G A *firm* may also be exposed to specific *market risk*, which is the risk that the *market value* of a specific asset, or income from that asset, may fluctuate for reasons that are not dependent on general market movements. The limits in *PRU 3.2.22R* cover *market risk* as well as *counterparty risk*.
- 4.2.7 G *PRU 4.2* addresses the impact of *market risk* on *insurance business* in the ways set out below:

- (1) Any *firm* that carries on *long-term insurance business* must comply with the *resilience capital requirement*. This requires the *firm* to hold capital to cover *market risk*. The *resilience capital requirement* is dealt with in *PRU 4.2.9G* to *PRU 4.2.26R*.
- (2) For a *firm* that carries on *long-term insurance business*, the assets that it must hold must be of a value sufficient to cover the *firm's mathematical reserve* requirements. *PRU 7.3* contains *rules* and *guidance* as to the methods and assumptions to be used in calculating these *mathematical reserves*. One of these assumptions is the assumed rate of interest to be used in calculating the present value of future payments by or to a *firm*. *PRU 4.2.28R* to *PRU 4.2.48G* set out the methodology to be used in relation to *long-term insurance liabilities*.
- (3) *Firms* carrying on either *long-term insurance business* or *general insurance business* are also subject to currency risk. That is, the risk that fluctuations in exchange rates may impact adversely on a *firm*. *PRU 4.2.49G* to *PRU 4.2.56G* set out the requirements a *firm* must meet so as to cover this risk.
- (4) For a *firm* carrying on *general insurance business*, the *Enhanced Capital Requirement* already captures some elements of *market risk*. In addition, the requirements as to the assumed rate of interest used in calculating the present value of *general insurance liabilities* are contained in the *insurance accounts rules*, and these requirements are outlined in *PRU 4.2.27G*.
- (5) *Firms* carrying on *long-term insurance business* that have *property-linked liabilities* or *index-linked liabilities* must cover these liabilities by holding appropriate assets. *PRU 4.2.57R* and *PRU 4.2.58R* set out these cover requirements.

## Definitions

- 4.2.8 R For the purposes of *PRU 4.2*:
- (1) real estate means an interest in land, buildings or other immovable property;
  - (2) a significant territory is any country or territory in which more than 2.5% of a *firm's long-term insurance assets* (by *market value*), excluding assets held to cover *index-linked liabilities* or *property-linked liabilities* (see *PRU 4.2.57R* and *PRU 4.2.58R*), are invested; and
  - (3) the long term gilt yield means the annualised equivalent of the fifteen year gilt yield for the *United Kingdom* Government fixed-interest *securities* index jointly compiled by the Financial Times, the Institute of Actuaries and the Faculty of Actuaries.

Resilience capital requirement (applicable to long-term insurance business only)

- 4.2.9 G The *resilience capital requirement* forms part of the calculation of the *capital resources requirement* for all firms carrying on *long-term insurance business*. *PRU 2.1.15R* to *PRU 2.1.20R* set out the different elements of this calculation. These include the *Minimum Capital Requirement* and the *Enhanced Capital Requirement*. The *resilience capital requirement* forms part of both of these requirements (see *PRU 2.1.22R(2)* and *PRU 2.1.34R(2)*).
- 4.2.10 R (1) A firm that carries on *long-term insurance business* must calculate a *resilience capital requirement* in accordance with (2) to (5).
- (2) From amongst its *long-term insurance assets*, the firm must identify assets which after applying the scenarios in (3) have a value that is equal to the firm's *long-term insurance liabilities* under those scenarios.
- (3) For the purpose of (2), the scenarios are:
- (a) for those assets invested in the *United Kingdom*, the *market risk* scenario set out in *PRU 4.2.16R*;
- (b) subject to (c) and to *PRU 4.2.26R*, for those assets invested outside of the *United Kingdom*, the *market risk* scenario set out in *PRU 4.2.23R*; and
- (c) where the assets in (b) are:
- (i) held to cover *index-linked liabilities* or *property-linked liabilities*; or
- (ii) not invested in a significant territory outside the *United Kingdom*;  
the *market risk* scenario set out in *PRU 4.2.16R*.
- (4) The *resilience capital requirement* is the result of deducting B from A, where:
- (a) A is the value of the assets which will produce the result described in (2); and
- (b) B is the firm's *long-term insurance liabilities*.
- (5) In calculating the value of the firm's *long-term insurance liabilities* under any scenario, a firm is not required to adjust the provision made under *PRU 1.3.5R* in respect of a *defined benefits pension scheme*.
- 4.2.11 G The purpose of the *resilience capital requirement* is to cover adverse deviation from:
- (1) the value of *long-term insurance liabilities*;
- (2) the value of assets held to cover *long-term insurance liabilities*; and
- (3) the value of assets held to cover the *resilience capital requirement*;

arising from the effects of *market risk* for equities, real estate and fixed interest *securities*. Other risks are not explicitly addressed by the *resilience capital requirement*.

- 4.2.12 G The amount of the *resilience capital requirement* calculated by the *firm* will depend on the *firm's* choice of assets held to cover the *resilience capital requirement*. The *resilience capital requirement* is held to cover not only the shortfall between the change in the value of *long-term insurance liabilities* and the change in the value of the assets identified to cover those liabilities, but also the change in the value of the assets identified to cover the *resilience capital requirement* itself.
- 4.2.13 G As part of the assessment of the financial resources a *firm* needs to hold to comply with *PRU 1.2.22R*, *PRU 1.2.35R* requires a *firm* to carry out stress tests and scenario analyses appropriate to the major sources of risk to its ability to meet its liabilities as they fall due identified in accordance with *PRU 1.2.31R*. In considering the stress tests and scenario analyses relevant to the major sources of risk in the category of *market risk*, a *firm* should consider the extent to which the *market risk* scenarios set out in *PRU 4.2.16R* to *PRU 4.2.26R* are appropriate to the nature of its asset portfolio. A *firm* may judge that given the nature of its portfolio, a more severe stress should be adopted. The *firm* may also wish to bring in other asset classes, such as index-linked bonds, which should be stressed on appropriate bases, and to consider the impact of currency mismatching and any *derivative* positions held.
- 4.2.14 G The *resilience capital requirement* requires *firms* to assume different adverse *market risk* scenarios for equities, real estate and fixed interest *securities* (see *PRU 4.2.16R* and *PRU 4.2.23R*) to those required by *PRU 7.4.68R* (UK and certain other assets) and *PRU 7.4.73R* (non-UK assets) in relation to the calculation of the *risk capital margin* for a *with-profits fund* by a *realistic basis life firm* calculating its *with-profits insurance capital component*.
- 4.2.15 G Where the *resilience capital requirement* is affected by the presence of *derivative* or *quasi-derivative* instruments, the *firm* will need to consider whether the protection afforded is of suitable length or security. The *firm* should include the exposure to *counterparties* in the credit considerations of *PRU 4.2.41R* both before and after calculating the *resilience capital requirement*. If the *derivative* protection is very short term the *firm* should consider whether issues arise under *PRU 7.3.26R* (Avoidance of future valuation strain); when a *derivative* expires the financial position of the *firm* may deteriorate as a result of, for example, falls in asset values. Unless the *firm* holds a further reserve, the *firm* is likely to need to have either undertaken a fresh protection strategy or carried through the alternative to the *derivative* protection (such as selling equities in place of a put *option*) if the existing protection expires before the financial year end. If the existing *derivative* protection continues beyond the time of financial year end the *firm* must have sufficient confidence that it can renew its *derivative* protection or an alternative to achieve the same effect.

Market risk scenario for assets invested in the United Kingdom

- 4.2.16 R In *PRU 4.2.10R(3)(a)*, the *market risk* scenario for assets invested in the *United Kingdom* and for assets (including assets invested outside the *United Kingdom*) held to cover *index-linked liabilities* or *property-linked liabilities* which a *firm* must assume is:
- (1) a fall in the *market value* of equities of at least 10% or, if greater, the lower of:
    - (a) a percentage fall in the *market value* of equities which would produce an earnings yield on the FTSE Actuaries All Share Index equal to  $\frac{4}{3}$  of the long-term gilt yield; and
    - (b) a fall in the *market value* of equities of 25% less the *equity market adjustment ratio* (see *PRU 4.2.19R*);
  - (2) a fall in real estate values of 20% less the *real estate market adjustment ratio* for an appropriate real estate index (see *PRU 4.2.21R*);
  - (3) (a) the more onerous of either a fall or rise in yields on all fixed interest *securities* by the percentage point amount determined in (b);
    - (b) for the purpose of (a), the percentage point amount is equal to 20% of the long-term gilt yield.
- 4.2.17 R For the purposes of *PRU 4.2.16R(1)* and (2), a *firm* must:
- (1) assume that earnings for equities and rack rents for real estate fall by 10%, but dividends for equities remain unaltered (see *PRU 4.2.36R* to *PRU 4.2.38R*); and
  - (2) model a fall in equity and real estate markets as if the fall occurred instantaneously.
- 4.2.18 G An example of *PRU 4.2.16R(3)* is that, where the long-term gilt yield is currently 6%, a *firm* would assume an increase of 20% in that yield, that is, a change of 1.2 percentage points. For the purpose of the scenario in *PRU 4.2.16R(3)(a)*, the *firm* would assume a fall or rise of 1.2 percentage points in yields on all fixed interest *securities*.

#### Equity market adjustment ratio

- 4.2.19 R The equity market adjustment ratio referred to in *PRU 4.2.16R(1)(b)* is:
- (1) if the ratio calculated in (a) and (b) lies between 75% and 100%, the result of 100% less the ratio (expressed as a percentage) of:
    - (a) the current value of the FTSE Actuaries All Share Index; to
    - (b) the average value of the FTSE Actuaries All Share Index over the preceding 90 calendar days;

- (2) 0%, if the ratio calculated in (1)(a) and (b) is more than 100%; and
- (3) 25%, if the ratio calculated in (1)(a) and (b) is less than 75%.

4.2.20 R In *PRU 4.2.19R*, the average value of the FTSE Actuaries All Share Index over any period of 90 calendar days means the arithmetic mean based on levels at the close of business on each of the days in that period on which the London Stock Exchange was open for trading.

#### Real estate market adjustment ratio

4.2.21 R The real estate market adjustment ratio for a real estate index referred to in *PRU 4.2.16R(2)* and *PRU 4.2.23R(2)* is:

- (1) if the ratio calculated in (a) and (b) lies between 90% and 100%, the result of 100% less the ratio (expressed as a percentage) of:

- (a) the current value of the real estate index; to
- (b) the average value of that real estate index over the three preceding *financial years*;

- (2) 0%, if the ratio calculated in (1)(a) and (b) is more than 100%; and
- (3) 10%, if the ratio calculated in (1)(a) and (b) is less than 90%.

4.2.22 G For the purpose of calculating the *real estate market adjustment ratio* in *PRU 4.2.21R*, a *firm* should select an appropriate index of real estate values such that:

- (1) the constituents of the index are reasonably representative of the nature and territory of the real estate included in the range of assets identified in accordance with *PRU 4.2.10R*; and
- (2) the frequency of, and historical data relating to, published values of the index are sufficient to enable an average value(s) of the index to be calculated over the three preceding *financial years*.

#### Market risk scenario for assets invested outside the United Kingdom

4.2.23 R In *PRU 4.2.10R(3)(b)*, subject to *PRU 4.2.26R*, the *market risk* scenario for assets invested outside the *United Kingdom* (other than assets held to cover *index-linked liabilities* or *property-linked liabilities*) which a *firm* must assume is, for each significant territory in which assets are invested outside the *United Kingdom*:

- (1) an appropriate fall in the *market value* of equities invested in that territory, which is at least equal to the percentage fall determined in *PRU 4.2.16R*;

- (2) a fall in real estate values in that territory of 20% less the *real estate market adjustment ratio* for an appropriate real estate index for that territory (see *PRU 4.2.21R*); and
  - (3) (a) the more onerous of either a fall or a rise in yields on all fixed interest *securities* by the percentage point amount determined in (b);
    - (b) for the purpose of (a), the percentage point amount is equal to 20% of the nearest equivalent (in respect of the method of calculation) to the long term gilt yield.
- 4.2.24 R For the purposes of *PRU 4.2.23R(1)*, an appropriate fall in the *market value* of equities invested in a significant territory must be determined having regard to:
- (1) an appropriate equity market index for that territory; and
  - (2) the historical volatility of the equity market index selected in (1).
- 4.2.25 G For the purpose of *PRU 4.2.24R(1)*, an appropriate equity market index for a territory is such that:
- (1) the constituents of the index are reasonably representative of the nature of the equities held in that territory which are included in the range of assets identified in accordance with *PRU 4.2.10R*; and
  - (2) the frequency of, and historical data relating to, published values of the index are sufficient to enable an average value(s) and historical volatility of the index to be calculated over at least the three preceding *financial years*.
- 4.2.26 R Where the assets of a *firm* invested in a significant territory of a kind referred to in *PRU 4.2.23R(1)*, (2) or (3)(a) represent less than 0.5% of the *firm's long-term insurance assets* (excluding assets held to cover *index-linked liabilities* or *property-linked liabilities*), measured by *market value*, the *firm* may assume for those assets the *market risk* scenario for assets of that kind invested in the *United Kingdom* set out in *PRU 4.2.16R* instead of the *market risk* scenario set out in *PRU 4.2.23R*.

#### Interest rate risk

#### Interest rates: general insurance liabilities

- 4.2.27 G The rates of interest to be used for the calculation of the present values of *general insurance liabilities* are specified in the *insurance accounts rules*. These state that the rate of interest to be used must not exceed the lowest of:
- (1) a rate prudently estimated by the *firm* to be earned by assets of the *firm* that are appropriate in magnitude and nature to cover the provisions for *claims* being discounted, during the period necessary for the payment of such *claims*;

- (2) a rate justified by the performance of such assets over the preceding five years; and
- (3) a rate justified by the performance of such assets during the year preceding the balance sheet date.

Interest rates: long-term insurance liabilities

- 4.2.28 R The rates of interest to be used for the calculation of the present value of a *long-term insurance liability* must not exceed 97.5% of the risk-adjusted yield (see *PRU 4.2.30R to PRU 4.2.48G*) that is expected to be achieved on:
- (1) the assets allocated to cover that liability;
  - (2) the reinvestment of sums expected to be received from those assets (see *PRU 4.2.45R to PRU 4.2.48G*); and
  - (3) the investment of future *premium* receipts (see *PRU 4.2.45R to PRU 4.2.48G*).
- 4.2.29 R For the purposes of *PRU 4.2.28R*, the rates of interest assumed must allow appropriately for the rates of tax that apply to the investment return on policyholder assets. The rates of tax assumed must be such that the *firm's* total implied liability for tax arising from the allocation of assets to liabilities is not less than the *firm's* actual expected liability for tax for the period in respect of which tax is to be assessed.

Risk-adjusted yield

- 4.2.30 R A risk-adjusted yield on an asset must be calculated by:
- (1) taking the asset together with any covering *derivatives*, forward transactions and *quasi-derivatives*;
  - (2) assuming that the factors which affect the yield will remain unchanged after the valuation date (see *PRU 4.2.33R*);
  - (3) valuing the asset (together with any offsetting transaction) in accordance with *PRU 1.3* (Valuation);
  - (4) making reasonable assumptions as to whether, and if so when, any options or other rights embedded in the asset (or in any offsetting transaction) will be exercised.
- 4.2.31 G Examples of calculating a combined yield for the purposes of *PRU 4.2.30R(1)*:
- (1) 1000 £1 *shares* (fully paid) of ABC plc covered by a sold *future* on the *shares*. Calculating the combined yield effectively results in a position that behaves like cash (with dividend income but no capital gain or loss on the value of the assets); and

- (2) where a covering *derivative* contains an *option* exercisable by the *firm* (e.g. a bought put *option* or receiver swaption), the calculation of the risk adjusted yield should take into account the fact that on the valuation assumptions any time value will reduce over time (known as the 'wasting' nature of the time value of the *option*), for example, an at-the money *option* will expire worthless and hence the covering *derivative* will effectively be a negative yielding asset. There are various ways of allowing for this, for example a *firm* could treat the covering *derivative* and the asset as a single asset and calculate an internal rate of return on this combined asset. Alternatively, an explicit reserve could be set up equal and opposite to the time value of the covering *derivative* which would be written off in the same way as the time value on the covering *derivative*.
- 4.2.32 G The requirements in relation to offsetting transactions are set out in *PRU 4.3*. The options and other rights referred to in *PRU 4.2.30R(4)* include those exercisable by the *firm* as well as those exercisable by other parties.
- 4.2.33 R For the purpose of *PRU 4.2.30R(2)*, the factors that affect yield should be ascertained as at the valuation date (that is, the date to which present values of cash flows are being calculated). All changes known to have occurred by that date must be taken into account including:
- (1) changes in the rental income from real estate;
  - (2) changes in dividends or audited profit on equities;
  - (3) known or forecast changes in dividends which have been publicly announced by the issuer by the valuation date;
  - (4) known or forecast changes in earnings which have been publicly announced by the issuer by the valuation date;
  - (5) alterations in capital structure; and
  - (6) the value (at the most recent date at or before the valuation date for which it is known) of any determinant of the amount of any future interest or capital payment.
- 4.2.34 R The risk-adjusted yield is either:
- (1) (for equities and real estate) a running yield (see *PRU 4.2.36R* to *PRU 4.2.38R*, *PRU 4.2.41R* and *PRU 4.2.44R*); or
  - (2) (for all other assets) the internal rate of return (see *PRU 4.2.39R*, *PRU 4.2.41R* and *PRU 4.2.44R*).
- 4.2.35 R The risk-adjusted yield on a basket of assets is the arithmetic mean of the risk-adjusted yield on each asset weighted by that asset's *market value*.

The running yield for real estate

- 4.2.36 R For real estate the running yield is the ratio of:
- (1) the rental income arising from the real estate over the previous 12 months; to
  - (2) the *market value* of the real estate.

The running yield for equities

- 4.2.37 R For equities the running yield is:
- (1) the dividend yield, if the dividend yield is more than the earnings yield;
  - (2) otherwise, the sum of the dividend yield and the earnings yield, divided by two.

- 4.2.38 R For the purposes of *PRU 4.2.37R*:
- (1) the dividend yield is the ratio (expressed as a percentage) of dividend income over the previous 12 months from the equities for which the running yield is being calculated (“the relevant equities”) to the *market value* of those equities;
  - (2) the earnings yield is the ratio (expressed as a percentage) of the audited profit (including exceptional items and extraordinary items) for the preceding *financial year* of the issuer of the relevant equities to the *market value* of those equities;
  - (3) the earnings yield must be calculated in accordance with whichever is most appropriate (to the issuer of the relevant equities) of *United Kingdom*, US or international generally accepted accounting practice.

The internal rate of return

- 4.2.39 R The internal rate of return on an asset is the annual rate of interest which, if used to calculate the present value of future income (before deduction of tax) and of repayments of capital (before deduction of tax) would result in the sum of those amounts being equal to the *market value* of the asset.
- 4.2.40 G The risk adjusted yield for a *collective investment scheme* may be determined as the weighted average of the yields on each of the investments held by the *collective investment scheme*.

Credit risk

- 4.2.41 R In both the running yield and internal rate of return the yield must be reduced to exclude that part of the yield that represents compensation for credit risk arising from the asset.
- 4.2.42 G An allowance for credit risk should be made for all *securities* except risk-free *securities*.

- 4.2.43 G Provision for credit risk for credit-rated *securities* may be made by reference to historic default rates of *securities* with a similar credit rating. However, allowance should be made both for any recent or expected changes in market conditions that may invalidate historic default rates and for the likelihood that the credit ratings on *securities* may deteriorate or (following such deterioration) that the issuer may default.
- 4.2.44 R Provision for credit risk for *securities* that are not credit-rated must be made on principles at least as prudent as those adopted for credit-rated *securities*.

#### Investment and reinvestment

- 4.2.45 R Except as provided in *PRU 4.2.46R*:
- (1) the risk-adjusted yield assumed for the investment or reinvestment of sterling sums (other than sums expected to be received within the next three years) must not exceed the lowest of:
    - (a) the long-term gilt yield;
    - (b) 3% per annum, increased by two thirds of the excess, if any, of the long-term gilt yield over 3% per annum; and
    - (c) 6.5% per annum; and
  - (2) the risk-adjusted yield assumed for the investment or reinvestment of those sterling sums expected to be received within the next three years must not exceed the risk-adjusted yield on the assets actually held adjusted linearly over the three-year period to the risk-adjusted yield determined under (1).
- 4.2.46 R For the *with-profits insurance contracts* of a *realistic basis life firm*, the risk-adjusted yield assumed for the investment or reinvestment of sums denominated in sterling must be no more than rates derived from the forward gilts yield.
- 4.2.47 R The risk-adjusted yield assumed for the investment or reinvestment of non-sterling sums must be at least as prudent as in *PRU 4.2.45R* and *PRU 4.2.46R*.
- 4.2.48 G The purpose of *PRU 4.2.45R* to *PRU 4.2.47R* is to help protect against ‘reinvestment risk’. Reinvestment risk is the risk that, when the sums are actually received, interest rates (and so yields available on assets) might have fallen below current expectations.

#### Currency risk

##### Sources of currency risk

- 4.2.49 G Fluctuations in foreign exchange rates may impact adversely upon a *firm*, including where it holds an open position in a foreign currency. This is where future cash outflows (that is liabilities) in one currency are matched by future cash inflows (that is assets) in a different currency. The circumstances in which this could arise include where the *firm*:
- (1) has entered into contracts for the purchase or sale of foreign currency; or
  - (2) has entered into *contracts of insurance* under which *claims* are payable in, or determined by reference to a value or price expressed in, a foreign currency; or
  - (3) holds assets denominated in a foreign currency.

#### Cover for spot and forward currency transactions

- 4.2.50 R A *firm* must cover a contract providing for the purchase or sale of foreign currency by:
- (1) holding the currency that must be paid by the *firm* under the contract; or
  - (2) being subject to an offsetting transaction.
- 4.2.51 G The requirements in relation to cover and offsetting transactions are set out in *PRU 4.3*.

#### Currency matching of assets and liabilities

- 4.2.52 G *PRU 7.2.34R* requires a *firm* to cover its liabilities with assets that enable it to match, in timing, amount and currency, the cash inflows and outflows from those assets and liabilities. This permits some currency mismatching of assets and liabilities, but only if sufficient excess assets are held to cover the exposure arising from such mismatching. The level of permitted currency mismatching is also limited by *PRU 4.2.53R*.
- 4.2.53 R Subject to *PRU 4.2.54R*, a *firm* must hold *admissible assets* in each currency of an amount equal to at least 80% of the amount of its liabilities (excluding, for a *firm* that carries on *general insurance business*, any *equalisation provision*) in that currency, except where the amount of those assets does not exceed 7% of the assets in other currencies.
- 4.2.54 R *PRU 4.2.53R* does not apply to:
- (1) a *pure reinsurer*; or
  - (2) assets held to cover *index-linked liabilities* or *property-linked liabilities*.
- 4.2.55 R For the purpose of *PRU 4.2.53R*, the currency of the liability under a *contract of insurance* is the currency in which the cover under the *contract of insurance* is expressed or, if the contract does not specify a currency:

- (1) the currency of the country or territory in which the risk is situated; or
- (2) if the *firm* on reasonable grounds so decides, the currency in which the *premium* payable under the contract is expressed; or
- (3) if, taking into account the nature of the risks insured, the *firm* considers it more appropriate:
  - (a) the currency (based on past experience) in which it expects the *claims* to be paid; or
  - (b) if there is no past experience, the currency of the country or territory in which the *firm* or relevant branch is established:
    - (i) for contracts covering risks falling within *general insurance business classes* 4, 5, 6, 7, 11, 12 and 13 (producer's liability only); and
    - (ii) for contracts covering risks falling within any other *general insurance business class* where, in accordance with the nature of the risks, the *firm's* liabilities are liabilities to be provided in a currency other than that which would result from the application of (1) or (2); or
- (4) (where a *claim* has been notified to the *firm* and the *firm's* liability in respect of that *claim* is payable in a currency other than that which would result from the application of (1), (2) or (3)) the currency in which the *claim* is to be paid; or
- (5) (where a *claim* is assessed in a currency known to the *firm* in advance and is a currency other than that which would result from the application of (1), (2), (3) or (4)) the currency in which the *claim* is to be assessed.

4.2.56 G The reasonable grounds in *PRU* 4.2.55R(2) include if, from the time the contract is entered into, it appears likely that a *claim* will be paid in the currency of the *premium* and not in the currency of the country in which the risk is situated.

#### Covering linked liabilities

4.2.57 R A *firm* must cover its *property-linked liabilities* with:

- (1) (as closely as possible) the assets to which those liabilities are linked; or
- (2) a property-linked *reinsurance* contract; or
- (3) a combination of (1) and (2).

4.2.58 R A *firm* must cover its *index-linked liabilities* with:

- (1) either:

- (a) the assets which represent that index; or
  - (b) assets of appropriate security and marketability which correspond, as closely as possible, to the assets which are comprised in, or which form, the index or other reference of value to which those liabilities are linked; or
- (2) a portfolio of assets whose value or yield is reasonably expected to correspond closely with the *index-linked liability*; or
  - (3) an index-linked *reinsurance* contract; or
  - (4) an index-linked *approved derivative*; or
  - (5) an index-linked *approved quasi-derivative*; or
  - (6) a combination of any of (1) to (5).
- 4.2.59 G For the purposes of *PRU 4.2.57R* and *PRU 4.2.58R*, a *firm* is not permitted to hold different assets and to cover the mismatch by holding excess assets.
- 4.2.60 G If a *firm* has incurred a *policy* liability which cannot be exactly matched by appropriate assets (for example the Limited Price Index (LPI) and Earnings Index), the *firm* should seek to match assets that at least cover the liabilities. For example, an LPI limited to 5% per annum may be matched by a 5% fixed interest bond or a RPI bond.
- 4.2.61 G In selecting the appropriate cover, the *firm* should ensure that both credit risk, and the risk that the value or yield in the assets will not, in all circumstances, match fluctuations in the relevant index, are within acceptable limits. *Rules* and *guidance* relating to credit risk are set out in *PRU 3.2*.

### 4.3 Derivatives in insurance

#### Application

- 4.3.1 R This section applies to an *insurer*, unless it is:
- (1) a *non-directive friendly society*; or
  - (2) an *incoming EEA firm*; or
  - (3) an *incoming Treaty firm*.
- 4.3.2 G The scope of application of *PRU 4.3* is not restricted to *firms* that are subject to the relevant EC directives. It applies, for example, to *pure reinsurers*.
- 4.3.3 (1) This section applies to a *firm* in relation to the whole of its business, except where a particular provision provides for a narrower scope.
- (2) Where a *firm* carries on both *long-term insurance business* and *general insurance business*, this section applies separately to each type of business.

#### Purpose

- 4.3.4 G *PRU 2.2.12R* requires a *firm* to calculate its *capital resources* for the purpose of *PRU* in accordance with Table *PRU 2.2.14R*, subject to the limits in *PRU 2.2.16R* to *PRU 2.2.26R*. Table *PRU 2.2.14R* and *PRU 2.2.86R* require a *firm* to deduct from total *capital resources* the value of any asset included in an insurance fund which is not an *admissible asset* as listed in *PRU 2 Ann 1R*. *PRU 2 Ann 1R* provides that a *derivative*, *quasi-derivative* or *stock lending transaction* will only be an *admissible asset* if it is approved. This section sets out the criteria for determining when a *derivative*, *quasi-derivative* or *stock lending transaction* is approved for this purpose. *PRU 4.3.5R* to *PRU 4.3.35R* set out the criteria for *derivatives* and *quasi-derivatives*. *PRU 4.3.36R* to *PRU 4.3.41R* set out the criteria for *stock lending transactions*.

#### Derivatives and quasi-derivatives

- 4.3.5 R For the purpose of *PRU 2 Ann 1R* (Admissible assets in insurance), a *derivative* or *quasi-derivative* is approved if:
- (1) it is held for the purpose of efficient portfolio management (*PRU 4.3.6R* to *PRU 4.3.7R*) or reduction of investment risk (*PRU 4.3.8R* to *PRU 4.3.13G*);
  - (2) it is covered (*PRU 4.3.14R* to *PRU 4.3.33G*); and
  - (3) it is effected or issued:
    - (a) on or under the rules of a *regulated market*; or
    - (b) off-market with an *approved counterparty* and, except for a forward transaction, on approved terms and is capable of valuation (*PRU 4.3.34R* to *4.3.35R*).

#### Efficient portfolio management

- 4.3.6 R A *derivative* or *quasi-derivative* is held for the purpose of efficient portfolio management if the *firm* reasonably believes the *derivative* or *quasi-derivative* (either alone or together with any other covered transactions) enables the *firm* to achieve its investment objectives by one of the following:
- (1) generating additional capital or income in one of the ways described in *PRU 4.3.7R*; or
  - (2) reducing tax or investment cost in relation to *admissible assets*; or
  - (3) acquiring or disposing of rights in relation to *admissible assets*, or their equivalent, more efficiently or effectively.

#### Generation of additional capital or income

- 4.3.7 R The generation of additional capital or income falls within *PRU 4.3.6R(1)* where it arises from:
- (1) taking advantage of pricing imperfections in relation to the acquisition and disposal (or disposal and acquisition) of rights in relation to assets the same as, or equivalent to, *admissible assets*; or
  - (2) receiving a premium for selling a covered call *option* or its equivalent, the underlying of which is an *admissible asset*, even if that additional capital or income is obtained at the expense of surrendering the chance of greater capital or income.
- Reduction of investment risk
- 4.3.8 R A *derivative* or *quasi-derivative* is held for the purpose of reducing investment risk if the *derivative* or *quasi-derivative* (either alone or together with other fully covered transactions) reduces any aspect of investment risk without significantly increasing any other aspect of that risk.
- Significant increase in risk
- 4.3.9 R For the purposes of *PRU 4.3.8R*, an increase in risk from a *derivative* or *quasi-derivative* is significant unless:
- (1) relative to any reduction in investment risk it is both small and reasonable; or
  - (2) the risk is remote.
- 4.3.10 G *PRU 4.3.8R* does not require that a *derivative* or *quasi-derivative* has no possible adverse consequences. Often a *derivative* or *quasi-derivative* is effected to protect against a severe adverse consequence that only arises in one circumstance. In all other circumstances it may itself lead to adverse consequences, even if only because it expires worthless resulting in the loss of the purchase price. Conversely a *derivative* or *quasi-derivative* may reduce risk in a wide range of circumstances but lead to adverse consequences when a particular circumstance arises, e.g. the default of the *counterparty*. Only rarely does a *derivative* or *quasi-derivative* give rise to no adverse consequences in any circumstances. The test is merely that the increase in risk should not be significant, that is it should be both small and reasonable, or the risk should be remote.
- 4.3.11 G *Firms* are reminded that *PRU 3.2* (Credit risk in insurance) sets out the different types of loss mitigation techniques.
- Investment risk
- 4.3.12 R For the purposes of *PRU 4.3.8R*, investment risk is the risk that the assets held by a *firm*:
- (1) (where they are *admissible assets* held by the *firm* to cover its *technical provisions*) might not be:
    - (a) of a value at least equal to the amount of those *technical provisions* as required by *PRU 7.2.20R*; or
    - (b) of appropriate safety, yield and marketability as required by *PRU 7.2.34R(1)(a)*; or
    - (c) of an appropriate currency match as required by *PRU 4.2.53R*;
  - (2) (where they are held to cover *index-linked liabilities*) might not be appropriate cover for those liabilities as required by *PRU 4.2.58R*; and

- (3) (where they are held to cover *property-linked liabilities*) might not be appropriately selected in accordance with contractual and constructive liabilities as required by *PRU 7.6.36R* and appropriate cover for those liabilities as required by *PRU 4.2.57R*.
- 4.3.13 G In assessing whether investment risk is reduced, the impact of a transaction on both the assets and liabilities should be considered. In particular, where the amount of liabilities depends upon the fluctuations in an index or other factor, investment risk is reduced where assets whose value fluctuates in the same way match those liabilities. In appropriate circumstances this may include:
- (1) a *derivative* or *quasi-derivative* that is linked to the same index as the liabilities from the index-linked contracts; and
  - (2) a *derivative* or *quasi-derivative* whose value depends upon the factors which give rise to general insurance claims, e.g. a weather *quasi-derivative*.
- Cover
- 4.3.14 R A *firm* must cover an obligation to transfer assets or pay monetary amounts that arises from:
- (1) a *derivative* or *quasi-derivative*; or
  - (2) a contract (other than a *contract of insurance*) for the purchase, sale or exchange of assets.
- 4.3.15 R An obligation to transfer assets or pay monetary amounts (see *PRU 4.3.14R*) must be covered:
- (1) by assets, a liability or a provision (see *PRU 4.3.16R* to *PRU 4.3.24R*); or
  - (2) by an offsetting transaction (see *PRU 4.3.25R* to *PRU 4.3.27R*).
- 4.3.16 R An obligation to transfer assets (other than *money*) or to pay monetary amounts based on the value of, or income from, assets is covered if the *firm* holds:
- (1) those assets; or
  - (2) in the case of an index or basket of assets, a reasonable approximation to those assets.
- 4.3.17 R An obligation to pay a monetary amount (whether or not falling in *PRU 4.3.16R*) is covered if:
- (1) the *firm* holds *admissible assets* that are sufficient in value so that the *firm* reasonably believes that following reasonably foreseeable adverse variations (relying solely on cashflows from, or from realising, those assets) it could pay the monetary amount in the right currency when it falls due; or
  - (2) the obligation to pay the monetary amount is offset by a liability. An obligation is offset by a liability where an increase in the amount of that obligation would be offset by a decrease in the amount of that liability; or
  - (3) a provision at least equal to the value of the assets in (1) is implicitly or explicitly set up. A provision is implicitly set up to the extent that the obligation to pay the monetary amount is recognised under *PRU 1.3* (Valuation) either by offset against an asset or as a separate liability. A provision is explicitly set up if it is in addition to an implicit provision.
- 4.3.18 R A *firm* must implicitly or explicitly set up a provision equal to the value of the assets or offsetting transactions held to cover a non-approved *derivative* or *quasi-derivative* transaction.

- 4.3.19 G Where a *firm* partially covers a *derivative* (or other contract falling within *PRU* 4.3.14R(1) and (2)), the *firm* may split the *derivative* into a covered portion and an uncovered portion. The portion of the *derivative* that is covered (after taking into account the requirement to cover reasonably foreseeable adverse variations in *PRU* 4.3.17R(1)) is an *approved derivative*, provided it also meets the requirements in *PRU* 4.3.5R(1) and (3); the uncovered portion is not an *approved derivative*.
- 4.3.20 G Exposure to a transaction includes exposure that arises from a right at the *firm's* (or its *subsidiary undertaking's*) option to dispose of assets.
- 4.3.21 G Cover serves three purposes. First, it protects against exposure to loss from the transaction which is being covered. The value of the cover increases (or if the cover is a liability the amount of that liability decreases) to match any increase in obligations under the transaction.
- 4.3.22 G The second purpose of cover is that it prevents excessive gearing in the investment portfolio by the use of *options* and their equivalent. A *firm* is required to cover all obligations under an admissible transaction including obligations that would arise only at the option of the *firm*, e.g. the liability to pay the exercise price under a bought *option*.
- 4.3.23 G The third purpose of cover is that it protects against the risk that the *firm* may not be able to deliver assets (including *money* in any currency) of the right type when the obligation falls due under the transaction. An obligation to deliver assets is covered only if the *firm* holds those assets or has entered into an offsetting transaction that would deliver those assets when needed. An obligation to pay *money* is offset only if the *firm* holds cash in the right currency, its equivalent or assets that could reliably be converted into cash in the right currency.
- 4.3.24 R Cover used for one transaction must not be used for cover in respect of another transaction or any other agreement to acquire, or dispose of, assets or to pay or repay *money*.
- Offsetting transactions
- 4.3.25 R An offsetting transaction means:
- (1) an *approved derivative*, *approved stock lending transaction* or an *approved quasi-derivative*; or
  - (2) a covered transaction with an *approved counterparty* for the purchase of assets.
- 4.3.26 R A transaction offsets an obligation to transfer assets away from the *firm* only if it provides for the transfer to the *firm* of those assets, or their value, at the time, or before, the obligation falls due.
- 4.3.27 R A transaction offsets an obligation to pay a monetary amount only if it provides for that monetary amount to be paid to the *firm* at or before the earliest date on which the obligation might fall due.
- Lending and borrowing assets
- 4.3.28 R Assets that have been lent by the *firm* are not available for cover, unless:
- (1) they are non-monetary assets that have been lent under a transaction that fulfils the conditions in *PRU* 4.3.36R; and
  - (2) the *firm* reasonably believes the assets to be obtainable (by return or re-acquisition) in time to meet the obligation for which cover is required.
- 4.3.29 R Assets that have been borrowed by the *firm* are not available for cover except as allowed by *PRU* 4.3.30R.
- 4.3.30 R Borrowed *money* may be used as cover only where:

- (1) the *money* has been advanced or an *approved credit institution* has committed itself to advance the *money*; and
- (2) the borrowing is or would be covered.
- 4.3.31 G *PRU 4.3.30R* in effect allows borrowings to be used to bridge the gap between an obligation under a transaction that might fall due at one date and cash or its equivalent that would only become due at a later date. Borrowings may not be used to gear the investment portfolio.

Examples of cover requirements

- 4.3.32 G Examples of cover by assets for the purposes of *PRU 4.3.16R* :
- (1) a bought put *option* (or a sold call *option*) on 1000 £1 *shares* (fully paid) of ABC plc is covered by an existing holding in the fund of 1000 £1 *shares* (fully paid) of ABC plc;
- (2) a bought call *option* (or sold put *option*) on 1000 ordinary £1 *shares* (fully paid) of ABC plc is covered by cash (or its equivalent) which is sufficient in amount to meet the purchase price of the *shares* on exercise of the *option*;
- (3) a bought or sold *contract for differences* on short-dated sterling is covered by cash (or its equivalent), the value of which together at least match the notional principal of the contract. For example, a LIFFE short sterling contract, or a successive series of such contracts, is covered by £500,000; and
- (4) a sold *future* on the FT-SE 100 index is covered by holdings of equities, which satisfy the reasonable approximation test for cover in *PRU 4.3.16R(2)* in relation to that *future*, and the values of which together at least match the current mark to market valuation of the *future*. For example, if the multiplier per full point is £10, and if the eventual obligation under the *future* is currently 2800, the valuation of the *futures* position is  $2800 \times £10 = £28,000$ .

- 4.3.33 G Examples of cover by offsetting transactions for the purpose of *PRU 4.3.25R* would include a bought *future* which is guaranteed to deliver to the *firm* at the relevant time sufficient assets to cover liabilities under a sold call *option*.

Over the counter transactions

- 4.3.34 R For the purpose of *PRU 4.3.5R(3)(b)*, a transaction is on approved terms only if the *counterparty* has agreed to enter into a further transaction to close out the first transaction at a price based on current market conditions.
- 4.3.35 R A transaction is capable of valuation only if the *firm*, throughout the life of the transaction, will be able to value it with reasonable accuracy on a reliable basis reflecting an up-to-date mark-to-market value.

Stock lending

- 4.3.36 R For the purposes of *PRU 2 Ann 1R* (Admissible assets in insurance), a *stock lending* transaction is approved if:
- (1) the assets lent are *admissible assets*;
- (2) the *counterparty* is an *authorised person* or an *approved counterparty*; and
- (3) adequate and sufficiently immediate *collateral* (*PRU 4.3.38R* to *PRU 4.3.41R*) is obtained to secure the obligation of the *counterparty*.
- 4.3.37 G *PRU 4.3.36R* refers only to *stock lending* transactions where the *firm* is the lender. There are no special *rules* for a transaction under which the *firm* borrows *securities*.

Collateral

- 4.3.38 R For the purposes of *PRU 4.3.36R(3)*, *collateral* is adequate only if it:
- (1) is transferred to the *firm* or its agent;
  - (2) is, at the time of the transfer, at least equal in value to the value of the *securities* transferred, or consideration provided, by the *firm*; and
  - (3) is of adequate quality.
- 4.3.39 G For the purposes of assessing adequate quality in *PRU 4.3.38R(3)*, reference should be made to the criteria for credit risk loss mitigation set out in *PRU 3.2.16R*. The valuation rules in *PRU 1.3* apply for the purpose of determining the value of both *collateral* received and the *securities* transferred. In addition, *collateral* that is not an *admissible asset* does not have a value (see *PRU 2 Ann 1R*).
- 4.3.40 R For the purposes of *PRU 4.3.36R(3)*, *collateral* is sufficiently immediate only if:
- (1) it is transferred before, or at the same time as, the transfer of the *securities* by the *firm*; or
  - (2) it will be transferred, at latest, by the close of business on the day of the transfer.
- 4.3.41 R *Collateral* continues to be adequate only if its value is at all times at least equal to the value of the *securities* transferred by the *firm*. This will be satisfied in respect of *collateral* the validity of which is about to expire or has expired where sufficient *collateral* will again be transferred at the latest by the close of business on the day of expiry.

## Annex G

### PRU 5

In this Annex, all the text is new and is not underlined.

- 5.1 Liquidity risk systems and controls
- Application
- 5.1.1 R *PRU 5.1* applies to an *insurer* unless *PRU 5.1.8R* applies.
- 5.1.2 R All of *PRU 5.1*, except *PRU 5.1.17G*, *PRU 5.1.27G*, *PRU 5.1.58G* to *PRU 5.1.60G*, *PRU 5.1.61E*, *PRU 5.1.62G*, *PRU 5.1.85G*, *PRU 5.1.86E*, and *PRU 5.1.87G* to *PRU 5.1.91G*, applies to:
- (1) an *EEA-deposit insurer*; and
  - (2) a *Swiss general insurer*;
- but only in respect of the activities of the *firm* carried on from a *branch* in the *United Kingdom*.
- 5.1.3 R Subject to *PRU 5.1.5R*, *PRU 5.1.6R* and *PRU 5.1.8R*, the following provisions of *PRU 5.1* apply to a *firm* described in *PRU 5.1.4R*:
- (1) *PRU 5.1.18G*;
  - (2) *PRU 5.1.58G* to *PRU 5.1.60G*;
  - (3) *PRU 5.1.61E*;
  - (4) *PRU 5.1.62G*;
  - (5) *PRU 5.1.85G*;
  - (6) *PRU 5.1.86E*; and
  - (7) *PRU 5.1.87G* to *PRU 5.1.91G*.
- 5.1.4 R The *firms* referred to in *PRU 5.1.3R* are:
- (1) a *building society*;
  - (2) a *bank* or an *own account dealer* (other than a *venture capital firm*) that is a *UK firm*;
  - (3) an *incoming EEA firm* which:
    - (a) is a *full BCD credit institution*; and
    - (b) has a *branch* in the *United Kingdom*;
  - (4) an *overseas firm* which is a *bank* or an *own account dealer* (other than a *venture capital firm*) but which is not:
    - (a) an *incoming EEA firm*; or

- (b) a *lead-regulated firm*;
- (5) an *overseas firm* which:
  - (a) is a *bank*;
  - (b) is a *lead-regulated firm*;
  - (c) is not an *incoming EEA firm*; and
  - (d) has a *branch* in the *United Kingdom*.
- 5.1.5 R For a *firm* described in *PRU 5.1.4R(3)* or *PRU 5.1.4R(5)*, *PRU 5.1* applies only with respect to the *branch*.
- 5.1.6 R This section applies to an *incoming EEA firm* only to the extent that the relevant matter is not reserved by the relevant *Single Market Directive* to the *firm's Home State regulator*.
- 5.1.7 R If a *firm* carries on:
  - (1) *long-term insurance business*; and
  - (2) *general insurance business*;
 this section applies separately to each type of business.
- 5.1.8 R This section does not apply to:
  - (1) a *non-directive friendly society*; or
  - (2) a *UCITS qualifier*; or
  - (3) an *ICVC*; or
  - (4) an *incoming EEA firm* (unless *PRU 5.1.4R* applies); or
  - (5) an *incoming Treaty firm*.
- 5.1.9 R For the purposes of this section, the *guidance* in *PRU 1.4.14G* to *PRU 1.4.16G* applies to a *firm* described in *PRU 5.1.4R*.
- Purpose
- 5.1.10 G The purpose of this section is to amplify parts of *PRU* in their application to *liquidity risk* and, in so doing, to suggest minimum standards for systems and controls in respect of that risk. The main relevant part, *PRU 1.4*, itself amplifies *Principle 3* (Management and control) and *SYSC* (Senior management arrangements, Systems and Controls).
- 5.1.11 G Appropriate systems and controls for the management of *liquidity risk* will vary with the scale, nature and complexity of the *firm's* activities. Most of the material in this section is, therefore, *guidance*. The section lays out some of

the main issues that the *FSA* expects a *firm* to consider in relation to *liquidity risk*. A *firm* should assess the appropriateness of any particular item of *guidance* in the light of the scale, nature and complexity of its activities as well as its obligations as set out in *Principle 3* to organise and control its affairs responsibly and effectively.

- 5.1.12 G For *insurers*, references to *liquidity risk* in this section are intended to cover only those aspects of *liquidity risk* that do not fall under the heading of insurance risk. For such *firms*, the *FSA* sees the coverage of this section, broadly, as the management of risk arising from short-term cash-flows, rather than the risk arising from longer-term matching of assets and liabilities, which is part of insurance risk. *Guidance* on systems and controls for managing insurance risk is set out in *PRU 7.1*.
- 5.1.13 G The *FSA* recognises that a typical *firm* of a type described in *PRU 5.1.4R* generally faces *liquidity risk* from a wider range of sources and of greater significance than a typical *insurer*. This section therefore explicitly applies some items of *guidance to firms* in *PRU 5.1.4R*. Other parts of the *guidance* are also not relevant to many *insurers*. In particular, where the *guidance* refers to factors that a *firm* should consider in relation to a specific type of business, a *firm* that does not undertake such business does not need to carry out such consideration.
- 5.1.14 G This section addresses the need to have appropriate systems and controls to deal both with liquidity management issues under normal market conditions, and with stressed or extreme situations resulting from either general market turbulence or firm-specific difficulties.

#### Requirements

- 5.1.15 G High level requirements for prudential systems and controls including for *liquidity risk* are set out in *PRU 1.4*. In particular:
- (1) *PRU 1.4.18R* requires a *firm*, among other things, to take reasonable steps to ensure the establishment of a business plan and appropriate systems for the management of prudential risk; and
  - (2) *PRU 1.4.19R(2)* requires a *firm*, among other things, to document its policy for managing *liquidity risk*, including its appetite or tolerance for this risk and how it identifies, measures, monitors and controls this risk.
- 5.1.16 G This section sets out *guidance* on each of these areas, and notes a number of matters which the *FSA* would expect a *firm* to deal with in its *liquidity risk* policy statement as follows:
- (1) its *liquidity risk* strategy (see *PRU 5.1.23G* to *PRU 5.1.25G*), including:

- (a) the role of marketable, or otherwise realisable, assets (see *PRU 5.1.32G*); and
  - (b) its strategy for mitigating *liquidity risk* on the liability side (see *PRU 5.1.37G*);
  - (2) its method for measuring *liquidity risk* (see *PRU 5.1.55G*);
  - (3) its system for monitoring *liquidity risk* (see *PRU 5.1.63G*); and
  - (4) its system for controlling *liquidity risk* (see *PRU 5.1.71G*).
- 5.1.17 G High level requirements in relation to carrying out stress testing and scenario analysis are set out in *PRU 1.2*. In particular, *PRU 1.2.35R* requires a *firm* to carry out appropriate stress testing and scenario analysis. This section gives *guidance* in relation to these tests in the case of *liquidity risk*.

#### Firms with group liquidity management

- 5.1.18 G *Firms* with group liquidity management should refer to *PRU 1.4.14G* to *1.4.16G*.

#### Managing liquidity risk

- 5.1.19 G This section amplifies the general requirements in *PRU 1.4* by describing the key high level arrangements that the *FSA* would normally expect to be in place to ensure that a *firm's liquidity risk* management system is adequate.

#### Governing body and senior management oversight

- 5.1.20 G *PRU 1.4.11G* amplifies *SYSC 2.1.1R* and *SYSC 2.1.3R* which require the apportionment, and allocation, of significant responsibilities to be such that the business and affairs of the *firm* can be adequately monitored and controlled by the *directors*, relevant senior executives and *governing body* of the *firm*. Effective *liquidity risk* management entails an informed board, capable management and appropriate staffing. The *governing body* and senior management are responsible for understanding the nature and level of *liquidity risk* assumed by the *firm* and the tools used to manage that risk.
- 5.1.21 G In relation to *liquidity risk*, the *governing body's* responsibilities should normally include:
- (1) approving the *firm's liquidity risk* policy, which includes taking reasonable steps to ensure that it is consistent with the *firm's* expressed risk tolerance (see *PRU 5.1.23G* to *PRU 5.1.25G*);
  - (2) establishing a structure for the management of *liquidity risk* including the allocation of appropriate *senior managers* who have the authority and responsibility to manage *liquidity risk* effectively, including the establishment and maintenance of the *firm's liquidity risk* policy;

- (3) monitoring the *firm's* overall *liquidity risk* profile on a regular basis and being made aware of any material changes in the *firm's* current or prospective *liquidity risk* profile; and
- (4) taking reasonable steps to ensure that *liquidity risk* is adequately identified, measured, monitored and controlled.

5.1.22 G A *firm* should have an appropriate senior management structure in place to oversee the daily and long-term management of *liquidity risk* in line with the *governing body*-approved *liquidity risk* policy (see *PRU* 5.1.23G to *PRU* 5.1.25G). The *FSA* would normally expect the senior management to:

- (1) oversee the development, establishment and maintenance of procedures and practices that translate the goals, objectives and risk tolerances approved by the *governing body* into operating standards that are consistent with the *governing body's* intent and understood by the relevant members of a *firm's* personnel;
- (2) adhere to the lines of authority and responsibility that the *governing body* has established for managing *liquidity risk*;
- (3) oversee the establishment and maintenance of management information (see *PRU* 5.1.66G to *PRU* 5.1.70G) and other systems that identify, measure, monitor and control the *firm's* *liquidity risk*; and
- (4) oversee the establishment of effective *internal controls* over the *liquidity risk* management process (see *PRU* 5.1.71G to *PRU* 5.1.90G (Controlling liquidity risk)).

#### Liquidity risk policy

5.1.23 G *SYSC* 3.2.17G gives *guidance*, which amplifies *SYSC* 3.2.6R, on the need for a *firm* to plan its business appropriately so that it is able to identify, measure, monitor and control risks of regulatory concern. A *firm* should, therefore, have an agreed policy for the day-to-day and longer term management of *liquidity risk* which is appropriate to the nature, scale and complexity of the activities carried on.

5.1.24 G The *liquidity risk* policy should cover the general approach that the *firm* will take to *liquidity risk* management, including, as appropriate, various quantitative and qualitative targets. This general approach should be communicated to all relevant functions within the organisation and be included in the *firm's* *liquidity risk* policy statement.

5.1.25 G The policy for managing *liquidity risk* should cover specific aspects of *liquidity risk* management. So far as appropriate to the nature, scale and complexity of the activities carried on, such aspects might include:

- (1) the basis for managing liquidity (for example, regional or central);
- (2) the degree of concentrations, potentially affecting *liquidity risk*, that are acceptable to the *firm*;
- (3) a policy for managing the liability side of *liquidity risk* (see *PRU* 5.1.37G);
- (4) the role of marketable, or otherwise realisable, assets (see *PRU* 5.1.32G);
- (5) ways of managing both the *firm's* aggregate foreign currency liquidity needs and its needs in each individual currency;
- (6) ways of managing market access;
- (7) the use of *derivatives* to minimise *liquidity risk*; and
- (8) the management of intra-day liquidity, where this is appropriate, for instance where the *firm* is a member of or participates (directly or indirectly) in a system for the intra-day settlement of payments or transactions in investments.

#### Identifying liquidity risk

- 5.1.26 G In order to manage *liquidity risk* successfully, a *firm* should be aware of the ways in which its activities can affect its *liquidity risk* profile, and how outside influences may affect its liquidity position. A *firm* should consider not only its current *liquidity risk*, but how existing activities may affect its *liquidity risk* profile in the future; it should also consider the implications of new products or business lines. This section identifies the main sources of *liquidity risk* and the key factors that a *firm* might consider when analysing its *liquidity risk* profile.
- 5.1.27 G *PRU* 1.2.22R states that a *firm* must maintain overall financial resources adequate, both as to amount and quality, to ensure that there is no significant risk that its liabilities cannot be met as they fall due. The *firm* should, therefore, ensure that, overall, its financial resources are of appropriate maturity, and in a form which is sufficiently marketable or otherwise realisable, having regard to the expected timing of liabilities and the risk that liabilities may fall due earlier than expected (for which prudent allowance must be made when assessing whether assets are of appropriate maturity or sufficiently realisable).

#### Asset liquidity

- 5.1.28 G A *firm's* asset portfolio can provide liquidity in three major ways:
- (a) through the maturity of an asset;

(b) the sale of an asset for cash; or

(c) the use of an asset as *collateral* to back other transactions, such as for secured borrowing (including repos), or for deposits with insureds or cedants to back insurance or *reinsurance* transactions.

- 5.1.29 G A *firm* may incur *liquidity risk* where inflows from the realisation of assets (at either maturity or time of sale) are less than anticipated because of the crystallisation of credit risk or *market risk*. Inflows arising from the renewal of secured funding, including repos, are similarly affected, if the haircut (the difference between the value of an asset and the amount lent to the *firm* by the counterparty using that security as *collateral*) required by a *firm's* counterparty is larger than anticipated (see *PRU 5.1.39G*).
- 5.1.30 G Asset concentrations often increase these sources of *liquidity risk*. A *firm* should, therefore, identify significant concentrations within its asset portfolio, including in relation to:
- (1) individual counterparties or related groups of counterparties;
  - (2) credit ratings of the assets in its portfolio;
  - (3) the proportion of an issue held;
  - (4) instrument types;
  - (5) geographical regions; and
  - (6) economic sectors.

#### Marketable assets

- 5.1.31 G Criteria for the marketability of its assets should be decided by the *firm* and may reflect the *firm's* access to, and expertise in, individual markets. In determining the appropriateness of the marketability or realisability of assets, a *firm* may take into account:
- (1) the depth and liquidity of the market, including:
    - (a) the speed with which assets may be realised;
    - (b) the likelihood and extent of forced-sale loss; and
    - (c) the potential for using the asset as *collateral* in secured funding and the size of the haircut (see *PRU 5.1.29G*) likely to be required by the counterparty;
  - (2) the expected date of maturity, redemption, repayment or disposal;
  - (3) the proportion of an issue held;

- (4) the credit ratings of the assets;
  - (5) the impact of exchange rate risk on the realised value of the asset, where assets are denominated in different currencies from its liabilities; and
  - (6) where applicable, the impact on certain assets' liquidity of their use as eligible *collateral* either in open-market operations conducted by, or in real-time or other payment systems operated by, a central bank.
- 5.1.32 G The role of marketable, or otherwise realisable, assets in a *firm's liquidity risk* policy, in both normal and stressed conditions, should be set out in its *liquidity risk* policy statement.
- 5.1.33 G In considering the marketability of an asset, a *firm* should assess how its value and liquidity would be affected in a variety of scenarios (see *PRU 5.1.58G* to *PRU 5.1.60G*, *PRU 5.1.61E* and *PRU 5.1.62G*).

#### Adjusting for the behavioural characteristics of assets

- 5.1.34 G In order to manage its *liquidity risk* effectively, a *firm* should be able to adjust for the behavioural characteristics of the repayment profiles of assets, that is how their actual behaviour may vary from that suggested by their contractual terms. Such an adjustment may be necessary in order to reduce the risk of wrongly estimating the inflows in relation to, in particular:
- (1) standby facilities or other commitments that have already been drawn down;
  - (2) retail and wholesale overdrafts;
  - (3) mortgages; and
  - (4) credit cards.
- 5.1.35 G The repayment profiles should be considered under both normal market conditions and stressed conditions resulting from either general market turbulence or *firm-specific* difficulties (see *PRU 5.1.58G* to *PRU 5.1.60G*, *PRU 5.1.61E* and *PRU 5.1.62G*, and *PRU 5.1.85G*, *PRU 5.1.86E*, and *PRU 5.1.87G* to *PRU 5.1.90G*).

#### Inflows from off balance sheet items

- 5.1.36 G Where a *firm* has in place a committed facility for the provision of a portion of its funding, it should take care to monitor any covenants included in the agreement. It should also make efforts to retain a good relationship with the provider of the facility and, where possible without jeopardising that relationship, regularly test access to the funds. A *firm* should also assess the extent to which committed facilities can be relied upon under stressed conditions (see *PRU 5.1.62G(1)(c)* and *PRU 5.1.88G(4)*).

## Liability liquidity

- 5.1.37 G Holding marketable, or otherwise realisable, assets is not the only way for a *firm* to mitigate the *liquidity risk* it faces. There are a number of liability-side strategies that can be used to reduce a *firm's liquidity risk*, such as ensuring a spread of maturities and lengthening the term structure of its liabilities. In order to manage its *liquidity risk* effectively a *firm* should have a liability-side policy that is appropriate to the nature and scale of its activities; this policy should be described in its *liquidity risk* policy statement.
- 5.1.38 G When determining the appropriate mix of liabilities, a *firm's* management should consider potential concentrations. A concentration exists when a single decision or factor could cause a significant and sudden claim on liabilities. What constitutes a liability concentration depends on the nature and scale of a *firm's* activities. A *firm* should, however, normally consider:
- (1) the term structure of its liabilities;
  - (2) the credit-sensitivity of its liabilities;
  - (3) the mix of secured and unsecured funding;
  - (4) concentrations among its liability providers, or related groups of liability providers;
  - (5) reliance on particular instruments or products;
  - (6) the geographical location of liability providers; and
  - (7) reliance on intra-group funding.
- 5.1.39 G A *firm* with credit-sensitive liabilities should be aware that, in times of market turbulence, a proportion of that funding may be withdrawn, particularly funding which is unsecured. Secured funding may also be affected, with counterparties seeking better quality *collateral* or larger haircuts (see *PRU 5.1.29G*) on *collateral*. A *firm* should recognise these characteristics of its credit-sensitive liabilities and take account of them in its stress testing and scenario analysis and *contingency funding plan* (see *PRU 5.1.58G* to *PRU 5.1.60G*, *PRU 5.1.61E* and *PRU 5.1.62G*, and *PRU 5.1.85G*, *PRU 5.1.86E*, and *PRU 5.1.87G* to *PRU 5.1.90G*).
- 5.1.40 G A *firm* should consider the dynamics of its *liquidity risk* including, for example, the normal level of roll-overs, and growth, of liabilities.

## Adjusting for the behavioural characteristics of liabilities

- 5.1.41 G In order to meet the requirement to maintain sufficient liquid financial resources (see *PRU 5.1.27G*), a *firm* should consider the behavioural characteristics of its liabilities, that is how their actual behaviour may vary from that suggested by their contractual terms.

- 5.1.42 G In assessing how to adjust for the behavioural characteristics of its liabilities in the context of *liquidity risk*, an *insurer* may take into account:
- (1) the type of *insurance business*;
  - (2) the past history of volatility in the pattern of *claims* payment;
  - (3) options available to *policyholders* and the circumstances in which they are likely to be exercised;
  - (4) options available to the *insurer* and any incentive for the *insurer* to exercise them;
  - (5) any relevant requirements to deposit *collateral* either with the insured (or cedants) under the terms of the insurance Treaty or by requirements of overseas regulators as a condition for covering risks in a particular territory; and
  - (6) the other cash flow needs of the business.

Outflows from off balance sheet items

- 5.1.43 G The contingent or optional nature of many off balance sheet instruments adds to the complexity of managing off balance sheet cash flows. In particular, in stressed conditions off balance sheet commitments may be a significant drain on liquidity.
- 5.1.44 G A *firm* should consider how its wholesale off balance sheet activities affect its cash flows and *liquidity risk* profile under both normal and stressed conditions. In particular, as appropriate, it should consider the amount of funding required by:
- (1) commitments given;
  - (2) standby facilities given;
  - (3) wholesale overdraft facilities given;
  - (4) proprietary *derivatives* positions; and
  - (5) liquidity facilities given for securitisation transactions.
- 5.1.45 G Similarly, a *firm* with retail *customers* should be able to assess the likely draw-down on retail products under a variety of circumstances and taking into account seasonal factors. In particular, as appropriate, it should consider the amount of funding required in relation to:
- (1) mortgages that have been agreed but not yet drawn down;
  - (2) overdrafts; and

- (3) credit cards.

#### Asset securitisations

- 5.1.46 G If controlled properly, asset securitisation can be a useful tool in enhancing a *firm's* liquidity. However, features of certain securitisations, such as early amortisation triggers, as well as excessive reliance on a single funding vehicle, can increase *liquidity risk*.
- 5.1.47 G The implications of securitisations on a *firm's* liquidity position should be considered for both day-to-day liquidity management and its contingency planning for *liquidity risk*. A contemplated securitisation should be analysed for its impact on *liquidity risk*. A *firm* using securitisation should consider:
- (1) the volume of *securities* issued in connection with the securitisation that are scheduled to amortise during any particular period;
  - (2) the existence of early amortisation triggers (see also *PRU 5.1.62G(3)(c)*);
  - (3) its plans for meeting its funding requirements (including their timing);
  - (4) strategies for obtaining substantial amounts of liquidity at short notice (see also *PRU 5.1.86E* and *PRU 5.1.88G*); and
  - (5) operational issues associated with the rollover of short-dated *securities*, particularly commercial paper.
- 5.1.48 G If a *firm* is a provider of liquidity facilities for securitisation transactions it should be able to assess the probability and scale of draw-down and make provision for it.
- 5.1.49 G A *firm* using securitisation should also be aware that its ability to securitise assets may diminish in stressed market conditions and take account of this in its stress testing and *contingency funding plan*. In addition, the time taken to organise a securitisation transaction may mean that it cannot be relied upon to provide liquidity at short notice.

#### Foreign currency liquidity

- 5.1.50 G Foreign currency *liquidity risk* arises where a *firm* faces actual or potential future outflows in a particular currency which it may not be able to meet from likely available inflows in that currency. A *firm's* exposure to foreign currency *liquidity risk* depends on the nature, scale and complexity of its business. Where a *firm* has significant, unhedged liquidity mismatches in particular currencies, it should consider:
- (1) the volatilities of the exchange rates of the mismatched currencies;

- (2) likely access to the foreign exchange markets in normal and stressed conditions; and
- (3) the stickiness of deposits in those currencies with the *firm* in stressed conditions.

5.1.51 G A possible strategy for mitigating foreign currency *liquidity risk*, which is effective and simple, is for a *firm* to hold assets in a particular currency in an amount equal to, and realisable at maturities no later than, its liabilities in that currency. This strategy may be worth considering particularly where, as a result of the nature, scale and complexity of its business, a *firm's liquidity risk* is relatively small.

#### Intra-day liquidity

5.1.52 G SYSC 3.1.1R requires a *firm* to take reasonable care to establish and maintain systems and controls appropriate to its business. This includes appropriate systems and controls over activities that give rise to significant *market*, credit, *liquidity*, insurance, operational or group risk, including over the processes of settling and paying debts and other commitments that arise from those activities.

5.1.53 G Structural and operational changes in payment systems have increased the importance of intra-day liquidity for many *firms*. Within real time gross settlement systems, for example, a *firm* needs to take appropriate steps to ensure that it has sufficient *collateral* to cover cash positions and has systems capable of monitoring intra-day liquidity positions and cash needs.

5.1.54 G A *firm* should be aware that in stressed conditions it is likely to require more intra-day liquidity than in normal market conditions, for a variety of reasons including payments due to the *firm* being delayed and wholesale depositors withdrawing from the market. A *firm* should take account of this in its stress testing and scenario analysis.

#### Measuring liquidity risk

5.1.55 G A *firm* should establish and maintain a process for the measurement of *liquidity risk*, using a robust and consistent method which should be described in its *liquidity risk* policy statement.

5.1.56 G A number of techniques can be used for measuring *liquidity risk*, ranging from simple calculations to highly sophisticated modelling; a *firm* should use a measurement method which is appropriate to the nature, scale and complexity of its activities.

5.1.57 G The method that a *firm* uses for measuring *liquidity risk* should be capable of:

- (1) measuring the extent of the *liquidity risk* it is incurring;

- (2) dealing with the dynamic aspects of a *firm's* liquidity profile (for example, rollovers of funding and assets or new business);
- (3) assessing the behavioural characteristics of its on and off balance sheet instruments; and
- (4) where appropriate, measuring the *firm's* exposure to foreign currency *liquidity risk*.

#### Stress testing and scenario analysis

- 5.1.58 G *PRU 1.2.26R, PRU 1.2.27R, PRU 1.2.31R, PRU 1.2.33R and PRU 1.2.35R* entail that, for the purposes of determining the adequacy of its overall financial resources, a *firm* must carry out appropriate stress testing and scenario analysis, including taking reasonable steps to identify an appropriate range of realistic adverse circumstances and events in which *liquidity risk* might occur or crystallise.
- 5.1.59 G *PRU 1.2.36G and PRU 1.2.40G to PRU 1.2.55G* give guidance on stress testing and scenario analysis, including on how to choose appropriate scenarios, but the precise scenarios that a *firm* chooses to use will depend on the nature of its activities. For the purposes of testing *liquidity risk*, however, a *firm* should normally consider scenarios based on varying degrees of stress and both *firm-specific* and market-wide difficulties. In developing any scenario of extreme market-wide stress that may pose systemic risk, it may be appropriate for a *firm* to make assumptions about the likelihood and nature of central bank intervention.
- 5.1.60 G A *firm* should review frequently the assumptions used in stress testing scenarios to gain assurance that they continue to be appropriate.
- 5.1.61 E (1) A scenario analysis in relation to *liquidity risk* required under *PRU 1.2.35R* should include a cash-flow projection for each scenario tested, based on reasonable estimates of the impact (both on and off balance sheet) of that scenario on the *firm's* funding needs and sources.
- (2) Contravention of (1) may be relied on as tending to establish contravention of *PRU 1.2.35R*.
- 5.1.62 G In identifying the possible on and off balance sheet impact referred to in *PRU 5.1.61E(1)*, a *firm* may take into account:
- (1) possible changes in the market's perception of the *firm* and the effects that this might have on the *firm's* access to the markets, including:
    - (a) (where the *firm* funds its holdings of assets in one currency with liabilities in another) access to foreign exchange markets, particularly in less frequently traded currencies;

- (b) access to secured funding, including by way of repo transactions; and
  - (c) the extent to which the *firm* may rely on committed facilities made available to it;
- (2) (if applicable) the possible effect of each scenario analysed on currencies whose exchange rates are currently pegged or fixed; and
- (3) that:
- (a) general market turbulence may trigger a substantial increase in the extent to which *persons* exercise rights against the *firm* under off balance sheet instruments to which the *firm* is party;
  - (b) access to *OTC derivative* and foreign exchange markets are sensitive to credit-ratings;
  - (c) the scenario may involve the triggering of early amortisation in asset securitisation transactions with which the *firm* has a connection; and
  - (d) its ability to securitise assets may be reduced.

#### Monitoring liquidity risk

- 5.1.63 G A *firm* should establish and maintain an appropriate system for monitoring its *liquidity risk*, which should be described in its *liquidity risk* policy statement.
- 5.1.64 G A *firm* should establish and maintain a system of management reporting which provides clear, concise, timely and accurate *liquidity risk* reports to relevant functions within the *firm*. These reports should alert management when the *firm* approaches, or breaches, predefined thresholds or limits, including quantitative limits imposed by the *FSA* or another regulator.
- 5.1.65 G Where a *firm* is a member of a *group*, it should be able to assess the potential impact on it of *liquidity risk* arising in other parts of the *group*.

#### Management information systems

- 5.1.66 G A *firm* should have adequate information systems for controlling and reporting *liquidity risk*. The management information system should be used to check for compliance with the *firm's* established policies, procedures and limits.
- 5.1.67 G Reports on *liquidity risk* should be provided on a timely basis to the *firm's governing body*, senior management and other appropriate personnel. The appropriate content and format of reports depends on a *firm's* liquidity management practices and the nature, scale and complexity of the *firm's*

business. Reports to the *firm's governing body* may be less detailed and less frequent than reports to senior management with responsibility for managing *liquidity risk*.

- 5.1.68 G For a *firm* described in *PRU 5.1.4R*, management information would normally contain the following:
- (1) a cash-flow or funding gap report;
  - (2) a funding maturity schedule;
  - (3) a list of large providers of funding; and
  - (4) a limit monitoring and exception report.
- 5.1.69 G When considering what else might be included in *liquidity risk* management information, a *firm* should consider other types of information that may be important for understanding its *liquidity risk* profile.
- 5.1.70 G For a *firm* described in *PRU 5.1.4R*, the additional information referred to in *PRU 5.1.69G* may include:
- (1) asset quality and trends;
  - (2) any changes in the *firm's* funding strategy;
  - (3) earnings projections; and
  - (4) the *firm's* reputation in the market and the condition of the market itself.

#### Controlling liquidity risk

- 5.1.71 G A *firm* should establish and maintain an appropriate system for controlling its *liquidity risk*, which should be described in its *liquidity risk* policy statement. Such a system should allow the *firm's governing body* and senior management to review compliance with established limits and operating procedures.
- 5.1.72 G A *firm* should have in place appropriate approval processes, limits and other mechanisms designed to provide reasonable assurance that the *firm's liquidity risk* management processes are adhered to.
- 5.1.73 G When revisions or enhancements to *internal controls* are warranted, a *firm* should implement them in a timely manner.
- 5.1.74 G The effectiveness of a *firm's liquidity risk* management system should be regularly reviewed and evaluated by individuals unconnected with day-to-day *liquidity risk* management in order to check that personnel are following established policies and procedures, and that procedures accomplish the

intended objectives.

- 5.1.75 G In addition to the regular review and evaluation described in *PRU 5.1.74G*, a *firm's* internal audit function should periodically review the *liquidity risk* management process in order to identify any weaknesses or problems. Any weaknesses should be addressed by management in a timely and effective manner.

#### Limit setting

- 5.1.76 G A *firm's* senior management should decide what limits need to be set, in accordance with the nature, scale and complexity of its activities. The structure of limits should reflect the need for a *firm* to have systems and controls in place to guard against a spectrum of possible risks, from those arising in day-to-day *liquidity risk* management to those arising in stressed conditions.
- 5.1.77 G *PRU 1.4.18R* states that a *firm* must take reasonable steps to ensure the establishment and maintenance of a business plan and appropriate systems for the management of prudential risk.
- 5.1.78 E (1) If a *firm* has *liquidity risk* that arises because it has substantial exposures in foreign currencies, the risk management systems of the *firm* referred to in *PRU 1.4.18R* should include systems and procedures that are designed to ensure that the *firm* does not, except in accordance with those procedures, exceed limits that are designed to limit:
- (a) the aggregate amount of its *liquidity risk* for all exposures in foreign currencies; and
  - (b) the amount of its *liquidity risk* for each individual currency in which it has a significant exposure.
- (2) Contravention of (1) may be relied upon as tending to establish contravention of *PRU 1.4.18R*.
- 5.1.79 G The *FSA* would normally expect a *firm* described in *PRU 5.1.4R* to consider setting limits on:
- (1) liability concentrations in relation to:
    - (a) individual, or related groups of, liability providers;
    - (b) instrument types;
    - (c) maturities, including the amount of debt maturing in a particular period; and
    - (d) retail and wholesale liabilities; and
  - (2) where appropriate, *net leverage* and *gross leverage*.
- 5.1.80 G A *firm* should periodically review and, where appropriate, adjust its limits

when conditions or risk tolerances change.

- 5.1.81 G Policy or limit exceptions should receive the prompt attention of the appropriate management and should be resolved according to processes described in approved policies.

#### Managing market access

- 5.1.82 G A *firm* should periodically review its efforts to establish and maintain relationships with liability providers, to maintain adequate diversification of liabilities, and to ensure adequate capacity to sell assets, or use them as *collateral* in secured funding. Where possible the *firm* should aim regularly to test its access to the individual markets in assets that it holds for liquidity purposes.
- 5.1.83 G Market access should be assessed under a variety of normal and stressed conditions.
- 5.1.84 G In some circumstances, the disclosure of information about a *firm* may be useful in managing the public perception of its organisation and soundness. A *firm* should consider the role of disclosure in managing the *liquidity risk* to which it is exposed.

#### Contingency funding plans

- 5.1.85 G *PRU 1.2.22R* states that a *firm* must at all times maintain overall financial resources adequate to ensure that there is no significant risk that its liabilities cannot be met as they fall due. *PRU 1.2.35R(2)* states that for the purposes of determining the adequacy of its overall financial resources, a *firm* must estimate the financial resources it would need in each of the circumstances and events considered in carrying out its stress testing and scenario analysis in order to meet its liabilities as they fall due.
- 5.1.86 E (1) A *firm* should have a *contingency funding plan* for taking action to ensure, so far as it can, that, in each of the scenarios analysed under *PRU 1.2.35R(2)*, it would still have sufficient liquid financial resources to meet liabilities as they fall due.
- (2) The *contingency funding plan* should cover what events or circumstances will lead the *firm* to put into action any part of the plan.
- (3) Contravention of (1) or (2) may be relied upon as tending to establish contravention of *PRU 1.2.22R*.
- 5.1.87 G A *firm* should adequately document the *contingency funding plan* referred to in *PRU 5.1.86E*.

- 5.1.88 G The *contingency funding plan* of a *firm* described in *PRU 5.1.4R* should cover the extent to which the actions in *PRU 5.1.86E(1)* include:
- (1) selling, using as *collateral* in secured funding (including repo), or securitising, its assets;
  - (2) otherwise reducing its assets;
  - (3) modifying the structure of its liabilities or increasing its liabilities; and
  - (4) the use of committed facilities.
- 5.1.89 G A *firm's contingency funding plan* should, where relevant, take account of the impact of stressed market conditions on:
- (1) the behaviour of any credit-sensitive liabilities it has; and
  - (2) its ability to securitise assets.
- 5.1.90 G The *contingency funding plan* should contain administrative policies and procedures that will enable the *firm* to manage the plan's implementation effectively, including:
- (1) the responsibilities of senior management;
  - (2) names and contact details of members of the team responsible for implementing the *contingency funding plan*;
  - (3) where, geographically, team members will be assigned;
  - (4) who within the team is responsible for contact with head office (if appropriate), analysts, investors, external auditors, press, significant *customers*, regulators, lawyers and others; and
  - (5) mechanisms that enable senior management and the *governing body* to receive management information that is both relevant and timely.

#### Documentation

- 5.1.91 G *PRU 1.2.37R* states that a *firm* must document its assessment of the adequacy of its liquidity financial resources, how it intends to deal with those risks, and details of the stress tests and scenario analyses carried out and the resulting financial resources estimated to be required. Accordingly, a *firm* should document both its stress testing and scenario analysis (see *PRU 5.1.58G*) and its *contingency funding plan* (see *PRU 5.1.85G*).

## Annex H

### PRU 6

In this Annex, all the text is new and is not underlined.

#### 6.1 Operational Risk: Prudential Systems and Controls

##### Application

6.1.1 G *PRU 6.1* applies to an *insurer* unless it is:

- (1) a *non-directive friendly society*; or
- (2) an *incoming EEA firm*; or
- (3) an *incoming Treaty firm*.

6.1.2 G *PRU 6.1* applies to:

- (1) an *EEA-deposit insurer*; and
  - (2) a *Swiss general insurer*;
- only in respect of the activities of the *firm* carried on from a *branch* in the *United Kingdom*.

##### Purpose

6.1.3 G This section provides *guidance* on how to interpret *PRU 1.4.18R* and *PRU 1.4.19R(2)* (which relate to the design and documentation of risk management systems) in so far as they relate to the management of operational risk in a *prudential context*. Operational risk has been described by the Basel Committee on Banking Supervision as “the risk of loss, resulting from inadequate or failed internal processes, people and systems, or from external events”. Thus this section covers systems and controls relating to risks concerning any of the *firm*’s operations, whether caused by internal or external matters. However, it does not cover systems and controls as they relate to credit, market, liquidity and insurance risk. Examples of operational risk exposures that the systems and controls covered in this section are meant to address include internal and external fraud; failure to comply with employment law or meet workplace safety standards; damage to physical assets; business disruptions and system failures; and transaction processing failures.

6.1.4 G Operational risk concerns the *FSA* in a *prudential context* because inappropriate systems and controls for the management of operational risk can adversely affect the solvency or business continuity of a *firm*, threatening the *regulatory objectives* of market confidence and consumer protection.

6.1.5 G This section contains *guidance* on how a *firm* should determine, in a *prudential context*, its policy for operational risk management and its processes for the identification, assessment, monitoring and control of operational risk. In addition, *guidance* is provided on record keeping in relation to operational risk.

- 6.1.6 G The *guidance* contained within this section is not designed to be exhaustive. When establishing and maintaining its systems and controls for operational risk, a *firm* should have regard to other parts of the *Handbook* as well as the material that is issued by other industry or regulatory bodies. In particular, a *firm* should read this section in conjunction with SYSC 3A (Operational Risk Systems and Controls) which contains high level *guidance* on the management of people, processes and systems, and external events in relation to operational risk. SYSC 3A also outlines some *guidance* on the areas that are covered by operational risk systems and controls (including the FSA's interpretation of some frequently used risk management terms in relation to operational risk), business continuity management, outsourcing, and the role of insurance in financing operational risk. In addition, a *firm* should read PRU 1.4, which contains the FSA's general policy on prudential systems and controls. PRU 1.4 contains some *rules* and *guidance* on which this section offers additional *guidance*.
- 6.1.7 G *Guidance* on the application of this section to a *firm* that is a member of a *group* is provided in PRU 8.1 (Group Risk Systems and Controls).
- 6.1.8 G Appropriate systems and controls for the management of operational risk will vary with the scale, nature and complexity of a *firm's* activities. Therefore the material in this section is *guidance*. A *firm* should assess the appropriateness of any particular item of *guidance* in the light of the scale, nature and complexity of its activities as well as its obligations as set out in *Principle 3* to organise and control its affairs responsibly and effectively.

#### General Requirements

- 6.1.9 G High level *rules* and *guidance* for prudential systems and controls including those for operational risk are set out in PRU 1.4. In particular:
- (1) PRU 1.4.18R requires a *firm* to take reasonable steps to ensure that the risk management systems put in place to identify, assess, monitor and control operational risk are adequate for that purpose;
  - (2) PRU 1.4.19R(2) requires a *firm* to document its policy for operational risk, including its risk appetite and how it identifies, assesses, monitors and controls that risk; and
  - (3) PRU 1.4.27 R requires a *firm* to take reasonable steps to establish and maintain adequate *internal controls* to enable it to assess and monitor the effectiveness and implementation of its business plan and prudential risk management systems.

#### Operational risk policy

- 6.1.10 G Much of the management of operational risk is about identifying, assessing, monitoring and controlling failures or inadequacies in a *firm's* systems and controls. As such, a *firm* may often find that there is no clear boundary between its risk management systems for operational risk and all its other systems and controls. When drafting its operational risk policy, a *firm* should try to distinguish between its systems and controls for credit, market, liquidity and insurance risk, and its systems and controls for operational risk. Where such a distinction is not possible a *firm* should still try to identify those systems and controls that are used in the management of operational risk, even when they have other purposes as well.
- 6.1.11 G A *firm* should document its policy for managing operational risk. This policy should outline a *firm's* strategy and objectives for operational risk management and the processes that it intends to adopt to achieve these objectives. In complying with *PRU* 1.4.19R(2), the documented operational risk policy of a *firm* should include:
- (1) an analysis of the *firm's* operational risk profile (see the *FSA's* interpretation of this term in *SYSC* 3A.5.1G(3)), including where relevant some consideration of the effects that operational risk may have on the *firm*, including consideration of those operational risks within a *firm* that may have an adverse impact upon the quality of service afforded to its *clients*;
  - (2) the operational risks that the *firm* is prepared to accept and those that it is not prepared to accept, including where relevant some consideration of its appetite or tolerance (see *PRU* 6.1.13G) for specific operational risks;
  - (3) how the *firm* intends to identify, assess, monitor, and control its operational risks, including an overview of the people, processes and systems that are used; and
  - (4) where assessments of the *firm's* risk exposures are used for internal capital allocation purposes, a description of how operational risk is incorporated into this methodology.
- 6.1.12 G A *firm* may also wish to set threshold levels in its operational risk policy for particular types of operational risk (based on its risk appetite or tolerance for risk), which when exceeded trigger a response (such as the allocation of more resources to control the risk or a reappraisal of business plans).

- 6.1.13 G Given its association with a willingness to take risk, a *firm* may wish to replace the term appetite for tolerance when drafting its operational risk policy. Tolerance describes the types and degree of operational risk that a *firm* is prepared to incur (based on factors such as the adequacy of its resources and the nature of its operating environment). Tolerance may be described in terms of the maximum budgeted (that is, expected) costs of an operational risk that a *firm* is prepared to bear, or by reference to risk indicators such as the cost or number of system failures, available spare capacity and the number of failed trades.
- 6.1.14 G The term risk assessment can be used to represent both the qualitative and quantitative evaluation or measurement of operational exposures.

#### Risk identification

- 6.1.15 G In order to understand its operational risk profile, a *firm* should identify the types of operational risk that it is exposed to as far as reasonably possible. This might include, but is not limited to, consideration of:
- (1) the nature of a *firm's* customers, products and activities, including sources of business, distribution mechanisms, and the complexity and volumes of transactions;
  - (2) the design, implementation, and operation of the processes and systems used in the end-to-end operating cycle for a *firm's* products and activities;
  - (3) the risk culture and human resource management practices at a *firm*; and
  - (4) the business operating environment, including political, legal, socio-demographic, technological, and economic factors as well as the competitive environment and market structure.
- 6.1.16 G A *firm* should recognise that it may face significant operational exposures from a product or activity that may not be material to its business strategy. A *firm* should consider the appropriate level of detail at which risk identification is to take place, and may wish to manage the operational risks that it faces in risk categories that are appropriate to its organisational and legal structures.
- 6.1.17 G The *FSA's* interpretation of the term operational exposure is provided in SYSC 3A.5.1G(2).

#### Risk assessment

- 6.1.18 G The *FSA* recognises that risk management systems for operational risk are still developing, and that it may be neither feasible nor appropriate to measure certain types of operational risk in a quantitative way. A *firm* may wish to take a qualitative approach to the assessment of its operational risks using, for example, relative estimates (such as high, medium, low) to understand its exposure to them.

- 6.1.19 G In order to understand the effects of its operational exposures a *firm* should continually assess its operational risks. This might include, but is not limited to, consideration of:
- (1) actual operational losses that have occurred within a *firm*, or events that could have resulted in significant operational losses, but were avoided (for example, the waiving of financial penalties by a third party as a gesture of goodwill or where by chance the *firm* realised profits);
  - (2) internal assessment of risks inherent in its operations and the effectiveness of controls implemented to reduce these risks (through activities such as self-assessment or stress testing and scenario analysis);
  - (3) other risk indicators, such as *customer* complaints, processing volumes, *employee* turnover, large numbers of reconciling items, process or system failures, fragmented systems, systems subject to a high degree of manual intervention and transactions processed outside a *firm*'s mainstream systems;
  - (4) reported external (peer) operational losses and exposures; and
  - (5) changes in its business operating environment.
- 6.1.20 G When assessing its operational risks, a *firm* may be able to differentiate between expected and unexpected operational losses. A *firm* should consider whether it is appropriate to adopt a more quantitative approach to the assessment of its expected operational losses, for example by defining tolerance, setting thresholds, and measuring and monitoring operational losses and exposures. In contrast, a *firm* may wish to take a more qualitative approach to assessing its unexpected losses.
- 6.1.21 G Although a *firm* may currently be unable to assess certain operational risks with a high degree of accuracy or consistency, it should, according to the nature, scale and complexity of its business, consider the use of more sophisticated qualitative and quantitative techniques as they become available.

#### Risk monitoring

- 6.1.22 G In monitoring its operational risks, a *firm* should:
- (1) as appropriate, regularly report to the relevant level of management its operational exposures, loss experience (including if possible cumulative losses), and authorised deviations from the *firm*'s operational risk policy;
  - (2) engage in exception-based escalation to management of:

- (a) unauthorised deviations from the *firm's* operational risk policy;
- (b) likely or actual breaches in predefined thresholds for operational exposures and losses, where set; and
- (c) significant increases in the *firm's* exposure to operational risk or alterations to its operational risk profile.

#### Risk control

6.1.23 G A *firm* should control its operational risks, as appropriate, through activities for the avoidance, transfer, prevention or reduction of the likelihood of occurrence or potential impact of an operational exposure. This might include, but is not limited to, consideration of:

- (1) adjusting a *firm's* risk culture and creating appropriate incentives to facilitate the implementation of its risk control strategy (see SYSC 3A.6 People);
- (2) adapting internal processes and systems (see SYSC 3A.7 Processes and systems);
- (3) transferring or changing the operational exposure through mechanisms such as *outsourcing* (see SYSC 3A.9 Outsourcing) and insurance (see SYSC 3A.10 Insurance);
- (4) the active acceptance of a given operational risk within the *firm's* stated risk appetite or tolerance; and
- (5) providing for expected losses, and maintaining adequate financial resources against unexpected losses that may be encountered in the normal course of a *firm's* business activities.

#### Record keeping

6.1.24 G The FSA's high level *rules* and *guidance* for record keeping are outlined in SYSC 3.2.20R (Records). Additional *rules* and *guidance* in relation to the *prudential context* are set out in PRU 1.4.51G to PRU 1.4.64G (Record keeping). In complying with these *rules* and all associated *guidance*, a *firm* should retain an appropriate record of its operational risk management activities. This may, for example, include records of:

- (1) the results of risk identification, measurement, and monitoring activities;
- (2) actions taken to control identified risks;
- (3) where relevant, any exposure thresholds that have been set for identified operational risks;

- (4) an assessment of the effectiveness of the risk control tools that are used; and
- (5) actual exposures against stated risk appetite or tolerance.

## Annex I

### PRU 7

In this Annex, all the text is new and is not underlined.

#### 7.1 Insurance risk systems and controls

##### Application

7.1.1 G *PRU 7.1* applies to an *insurer* unless it is:

- (1) a *non-directive friendly society*; or
- (2) an *incoming EEA firm*; or
- (3) an *incoming Treaty firm*.

7.1.2 G *PRU 7.1* applies to:

- (1) an *EEA-deposit insurer*; and
- (2) a *Swiss general insurer*;  
only in respect of the activities of the *firm* carried on from a *branch* in the *United Kingdom*.

##### Purpose

7.1.3 G This section provides *guidance* on how to interpret *PRU 1.4* (Prudential risk management and associated systems and controls) in so far as it relates to the management of insurance risk. Insurance risk refers to fluctuations in the timing, frequency and severity of insured events, relative to the expectations of the *firm* at the time of underwriting. Insurance risk can also refer to fluctuations in the timing and amount of *claim* settlements. For *general insurance business* some specific examples of insurance risk include variations in the amount or frequency of *claims* or the unexpected occurrence of multiple *claims* arising from a single cause. For *long-term insurance business* examples include variations in the mortality and persistency rates of *policyholders*, or the possibility that guarantees could acquire a value that adversely affects the finances of a *firm* and its ability to treat its *policyholders* fairly consistent with the *firm's* obligations under *Principle 6*. More generally, insurance risk includes the potential for expense overruns relative to pricing or provisioning assumptions.

7.1.4 G Insurance risk concerns the *FSA* in a *prudential context* because inadequate systems and controls for its management can create a threat to the *regulatory objectives* of market confidence and consumer protection. Inadequately managed insurance risk may result in:

- (1) the inability of a *firm* to meet its contractual insurance liabilities as they fall due; and

- (2) the inability of a *firm* to treat its *policyholders* fairly consistent with the *firm's* obligations under *Principle 6* (for example, in relation to bonus payments).

- 7.1.5 G *Guidance* on the application of this section to a *firm* that is a member of a *group* is provided in *PRU 8.1* (Group risk systems and controls).
- 7.1.6 G The *guidance* contained within this section should be read in conjunction with *SYSC* and *PRU 1.4*.
- 7.1.7 G Appropriate systems and controls for the management of insurance risk will vary with the scale, nature and complexity of a *firm's* activities. Therefore, the material in this section is *guidance*. A *firm* should assess the appropriateness of any particular item of *guidance* in the light of the scale, nature and complexity of its activities as well as its obligations, as set out in *Principle 3*, to organise and control its affairs responsibly and effectively.

#### General requirements

- 7.1.8 G High level *rules* and *guidance* for prudential systems and controls for insurance risk are set out in *PRU 1.4*. In particular:
- (1) *PRU 1.4.18R* requires a *firm* to take reasonable steps to establish and maintain a business plan and appropriate risk management systems;
  - (2) *PRU 1.4.19R(2)* requires a *firm* to document its policy for insurance risk, including its risk appetite and how it identifies, measures, monitors and controls that risk; and
  - (3) *PRU 1.4.27R* requires a *firm* to take reasonable steps to establish and maintain adequate *internal controls* to enable it to assess and monitor the effectiveness and implementation of its business plan and prudential risk management systems.

#### Insurance risk policy

- 7.1.9 G A *firm's* insurance risk policy should outline its objectives in carrying out *insurance business*, its appetite for insurance risk and its policies for identifying, measuring, monitoring and controlling insurance risk. The insurance risk policy should cover any activities that are associated with the creation or management of insurance risk. For example, underwriting, *claims* management and settlement, assessing *technical provisions* in the balance sheet, risk mitigation and risk transfer, record keeping and management reporting. Specific matters that should normally be in a *firm's* insurance risk policy include:
- (1) a statement of the *firm's* willingness and capacity to accept insurance risk;
  - (2) the classes and characteristics of *insurance business* that the *firm* is prepared to accept;

- (3) the underwriting criteria that the *firm* intends to adopt, including how these can influence its rating and pricing decisions;
- (4) its approach to limiting significant aggregations of insurance risk, for example, by setting limits on the amount of business that can be underwritten in one region or with one *policyholder*;
- (5) where relevant, the *firm's* approach to pricing *long-term insurance contracts*, including the determination of the appropriate level of any reviewable *premiums*;
- (6) the *firm's* policy for identifying, monitoring and managing risk when it has delegated underwriting authority to another party (additional *guidance* on the management of *outsourcing* arrangements is provided in SYSC 3A.9);
- (7) the *firm's* approach to managing its expense levels, including acquisition costs, recurring costs, and one-off costs, taking account of the margins available in both the prices for products and in the *technical provisions* in the balance sheet;
- (8) the *firm's* approach to the exercise of any discretion (e.g. on charges or the level of benefits payable) that is available in its *long-term insurance contracts*, in the context also of the legal and regulatory constraints existing on the application of this discretion;
- (9) the *firm's* approach to the inclusion of options within new *long-term insurance contracts* and to the possible exercise by *policyholders* of options on existing contracts;
- (10) the *firm's* approach to managing persistency risk;
- (11) the *firm's* approach to managing risks arising from timing differences in taxation or from changes in tax laws;
- (12) the *firm's* approach to the use of *reinsurance* or the use of some other means of risk transfer;
- (13) how the *firm* intends to assess the effectiveness of its risk transfer arrangements and manage the residual or transformed risks (for example, how it intends to handle disputes over contract wordings, potential payout delays and *counterparty* performance risks);
- (14) a summary of the data and information to be collected and reported on underwriting, *claims* and risk control (including internal accounting records), management reporting requirements and external data for risk assessment purposes;
- (15) the risk measurement and analysis techniques to be used for setting underwriting *premiums*, *technical provisions* in the balance sheet, and assessing capital requirements; and

- (16) the *firm's* approach to stress testing and scenario analysis, as required by *PRU 1.2* (Adequacy of financial resources), including the methods adopted, any assumptions made and the use that is to be made of the results.

7.1.10 G Further, more detailed, *guidance* is given in *PRU 7.1.11G* to *PRU 7.1.37G* on the identification, measurement, monitoring and control (including the use of *reinsurance* and other forms of risk transfer) of insurance risk. A *firm* should consider what additional material to that set out above should be included in its insurance risk policy on each of these for its various activities.

#### Risk identification

7.1.11 G A *firm* should seek to identify the causes of fluctuations in the occurrence, amount and timing of its insurance liabilities. A *firm* should also seek to identify aggregations of risk that may give rise to large single or multiple *claims*.

7.1.12 G The identification of insurance risk should normally include:

- (1) in connection with the *firm's* business plan:
  - (a) processes for identifying the types of insurance risks that may be associated with a new product and for comparing the risk types that are present in different classes of business (in order to identify possible aggregations in particular insurance risks); and
  - (b) processes for identifying business environment changes (for example landmark legal rulings) and for collecting internal and external data to test and modify business plans;
- (2) at the point of sale, processes for identifying the underwriting risks associated with a particular *policyholder* or a group of *policyholders* (for example, processes for identifying potential claims for mis-selling and for collecting information on the *claims* histories of *policyholders*, including whether they have made any potentially false or inaccurate *claims*, to identify possible adverse selection or moral hazard problems);
- (3) after the point of sale, processes for identifying potential and emerging *claims* for the purposes of *claims* management and *claims* provisioning; this could include:
  - (a) identifying possible judicial rulings;
  - (b) keeping up to date with developments in market practice; and

- (c) collecting information on industry wide initiatives and settlements.
- 7.1.13 G A *firm* should also identify potential pricing risks, where the liabilities or costs arising from the sale of a product may not be as expected.
- Risk measurement
- 7.1.14 G A *firm* should have in place appropriate systems for collecting the data it needs to measure insurance risk. At a minimum this data should be capable of allowing a *firm* to evaluate the types of *claims* experienced, *claims* frequency and severity, expense levels, persistency levels and, where relevant, potential changes in the value of guarantees and options in *long-term insurance contracts*.
- 7.1.15 G A *firm* should ensure that the data it collects and the measurement methodologies that it uses are sufficient to enable it to evaluate, as appropriate:
- (1) its exposure to insurance risk at all relevant levels, for example, by contract, *policyholder*, product line or insurance class;
  - (2) its exposure to insurance risk across different geographical areas and time horizons;
  - (3) its total, firm-wide, exposure to insurance risk and any other risks that may arise out of the *contracts of insurance* that it issues;
  - (4) how changes in the volume of business (for example via changes in *premium* levels or the number of new contracts that are underwritten) may influence its exposure to insurance risk;
  - (5) how changes in *policy* terms may influence its exposure to insurance risk; and
  - (6) the effects of specific loss scenarios on the insurance liabilities of the *firm*.
- 7.1.16 G A *firm* should hold data in a manner that allows for it to be used in a flexible way. For example, data should be sufficiently detailed and disaggregated so that contract details may be aggregated in different combinations to assess different risks.
- 7.1.17 G A *firm* should be able to justify its choice of measurement methodologies. This justification should normally be documented.
- 7.1.18 G A *firm* should periodically review the appropriateness of the measurement methodologies that it uses. This could, for example, include back testing (that is, by comparing actual versus expected results) and updating for changes in market practice.

- 7.1.19 G A *firm* should ensure that it has access to the necessary skills and resources that it needs to measure insurance risk using its chosen methodology.
- 7.1.20 G When measuring its insurance risks, a *firm* should consider how emerging experience could be used to update its underwriting process, in particular in relation to contract terms and pricing and also its assessment of the *technical provisions* in the balance sheet.
- 7.1.21 G A *firm* should have the capability to measure its exposure to insurance risk on a regular basis. In deciding on the frequency of measurement, a *firm* should consider:
- (1) the time it takes to acquire and process all necessary data;
  - (2) the speed at which exposures could change; and
  - (3) that it may need to measure its exposure to certain types of insurance risk on a daily basis (for example, weather catastrophes).

#### Risk monitoring

- 7.1.22 G A *firm* should provide regular and timely information on its insurance risks to the appropriate level of management. This could include providing reports on the following:
- (1) a statement of the *firm's* profits or losses for each class of business that it underwrites (with an associated analysis of how these have arisen for any *long-term insurance contracts*), including a variance analysis detailing any deviations from budget or changes in the key performance indicators that are used to assess the success of its business plan for insurance;
  - (2) the *firm's* exposure to insurance risk at all relevant levels (see *PRU 7.1.15G(1)*), as well as across different geographical areas and time zones (see *PRU 7.1.15G(2)*), also senior management should be kept informed of the *firm's* total exposure to insurance risk (see *PRU 7.1.15G(3)*);
  - (3) an analysis of any internal or external trends that could influence the *firm's* exposure to insurance risk in the future (e.g. new weather patterns, socio-demographic changes, expense overruns etc);
  - (4) any new or emerging developments in *claims* experience (e.g. changes in the type of *claims*, average *claim* amounts or the number of similar *claims*);
  - (5) the results of any stress testing or scenario analyses;
  - (6) the amount and details of new business written and the amount of business that has lapsed or been cancelled;
  - (7) identified fraudulent *claims*;

- (8) a watch list, detailing, for example, material/catastrophic events that could give rise to significant numbers of new *claims* or very large *claims*, contested *claims*, client complaints, legal and other developments;
  - (9) the performance of any *reinsurance*/risk transfer arrangements; and
  - (10) progress reports on matters that have previously been referred under escalation procedures (see *PRU 7.1.23G*).
- 7.1.23 G A *firm* should establish and maintain procedures for the escalation of appropriate matters to the relevant level of management. Such matters may include:
- (1) any significant new exposures to insurance risk, including for example any landmark rulings in the courts;
  - (2) a significant increase in the size or number of *claims*;
  - (3) any breaches of the limits set out in *PRU 7.1.27G* and *PRU 7.1.28G*, in particular senior management should be informed where any maximum limits have been breached (see *PRU 7.1.29G*); and
  - (4) any unauthorised deviations from its insurance risk policy (including those by a *broker*, *appointed representative* or other delegated authority).
- 7.1.24 G A *firm* should regularly monitor the effectiveness of its analysis techniques for setting provisions for *claims* on *general insurance contracts*.
- 7.1.25 G A *firm* should have appropriate procedures in place to allow managers to monitor the application (and hence the effect) of its *reinsurance* programme. This would include, for a general *insurer*, procedures for monitoring how its *reinsurance* programme affects the gross provisions that it makes for outstanding *claims* (including *claims* that are incurred but not reported).
- Risk control
- 7.1.26 G A *firm* should take appropriate action to ensure that it is not exposed to insurance risk in excess of its risk appetite. In so doing, the *firm* should be both reactive, responding to actual increases in exposure, and proactive, responding to potential future increases. Being proactive should involve close co-ordination between the processes of risk control, risk identification and risk measurement, as potential future exposures need to be identified and understood before effective action can be taken to control them.
- 7.1.27 G A *firm* should consider setting limits for its exposure to insurance risk, which trigger action to be taken to control exposure. Periodically these limits should be amended in the light of new information (e.g. on the expected number or size of *claims*). For example, limits could be set for:

- (1) the *firm's* aggregate exposure to a single source of insurance risk or for events that may be the result of a number of different sources;
  - (2) the *firm's* exposure to specific geographic areas or any other groupings of risks whose outcomes may be positively correlated;
  - (3) the number of fraudulent *claims*;
  - (4) the number of very large *claims* that could arise;
  - (5) the number of unauthorised deviations from its insurance risk policy;
  - (6) the amount of insurance risk than can be transferred to a particular *reinsurer*;
  - (7) the level of expenses incurred in respect of each relevant business area; and
  - (8) the level of persistency by product line or distribution channel.
- 7.1.28 G A *firm* should also consider setting individual underwriting limits for all *employees* and agents that have the authority to underwrite insurance risk. This could include both monetary limits and limits on the types of risk that they can underwrite. Where individual underwriting limits are set, the *firm* should ensure that they are adhered to.
- 7.1.29 G In addition to setting some 'normal' limits for insurance risk, a *firm* should consider setting some maximum limits, beyond which immediate, emergency action should be taken. These maximum limits could be determined through stress testing and scenario analysis.
- 7.1.30 G A *firm* should pay close attention to the wording of its *policy* documentation to ensure that these wordings do not expose it to more, or higher, *claims* than it is expecting. In so doing, the *firm* should consider:
- (1) whether it has adequate in-house legal resources;
  - (2) the need for periodic independent legal review of *policy* documentation;
  - (3) the use of standardised documentation and referral procedures for variation of terms;
  - (4) reviewing the documentation used by other insurance companies;
  - (5) revising documentation for new *policies* in the light of past experience; and
  - (6) the operation of law in the jurisdiction of the *policyholder*.

- 7.1.31 G A *firm* should ensure that it has appropriate systems and controls for assessing the validity of *claims*. This could involve consideration of the evidence that will be required from *policyholders* and how this evidence is to be tested as well as procedures to determine when experts such as loss adjusters, lawyers or accountants should be used.
- 7.1.32 G Particular care should be taken to ensure that a *firm* has appropriate systems and controls to deal with large *claims* or large groups of *claims* that could significantly deplete its financial resources. This should include systems to ensure that senior management (that is, the *governing body* and relevant *senior managers*) is involved in the processing of such *claims* from the outset.
- 7.1.33 G A *firm* should consider how it intends to use *reinsurance* or some other form of insurance risk transfer agreement to help to control its exposure to insurance risk. Additional *guidance* on the use of *reinsurance*/risk transfer is provided below.

#### Reinsurance and other forms of risk transfer

- 7.1.34 G Before entering into or significantly changing a *reinsurance* agreement, or any other form of insurance risk transfer agreement, a *firm* should:
- (1) analyse how the proposed *reinsurance*/risk transfer agreement will affect its exposure to insurance risk, its underwriting strategy and its ability to meet its regulatory obligations;
  - (2) ensure there are adequate legal checking procedures in respect of the draft agreement;
  - (3) conduct an appropriate due diligence of the *reinsurer's* financial stability (that is, solvency) and expertise; and
  - (4) understand the nature and limits of the agreement (particular attention should be given to the wording of contracts to ensure that all of the required risks are covered, that the level of available cover is appropriate, and that all the terms, conditions and warranties are unambiguous and understood).
- 7.1.35 G In managing its *reinsurance* agreements, or any other form of insurance risk transfer agreement, a *firm* should have in place appropriate systems that allow it to maintain its desired level of cover. This could involve systems for:
- (1) monitoring the risks that are covered (that is, the scope of cover) by these agreements and the level of available cover;
  - (2) keeping underwriting staff informed of any changes in the scope or level of cover;
  - (3) properly co-ordinating all *reinsurance*/risk transfer activities so that, in aggregate, the desired level and scope of cover is maintained;

- (4) ensuring that the *firm* does not become overly reliant on any one *reinsurer* or other risk transfer provider;
  - (5) conducting regular stress testing and scenario analysis to assess the resilience of its *reinsurance* and risk transfer programmes to catastrophic events that may give rise to large and or numerous *claims*.
- 7.1.36 G In making a claim on a *reinsurance* contract (that is, its *reinsurance* recoveries) or some other risk transfer contract a *firm* should ensure:
- (1) that it is able to identify and recover any money that it is due in a timely manner; and
  - (2) that it makes adequate financial provision for the risk that it is unable to recover any money that it expected to be due, as a result of either a dispute with or a default by the *reinsurer*/risk transfer provider. Additional *guidance* on credit risk in *reinsurance*/risk transfer contracts is provided in *PRU* 3.2 (Credit risk in insurance).
- 7.1.37 G Where the planned level or scope of cover from a *reinsurance*/risk transfer contract is not obtained, a *firm* should consider revising its underwriting strategy.

#### Record keeping

- 7.1.38 G The *FSA*'s high level *rules* and *guidance* for record keeping are outlined in *SYSC* 3.2.20R (Records). Additional *rules* and *guidance* in relation to the *prudential context* are set out in *PRU* 1.4.51G to *PRU* 1.4.64G. In complying with these *rules* and *guidance*, a *firm* should retain an appropriate record of its insurance risk management activities. This may, for example, include records of:
- (1) each new risk that is underwritten (noting that these records may be held by agents or cedants, rather than directly by the *firm* provided that the *firm* has adequate access to those records);
  - (2) any material aggregation of exposure to risk from a single source, or of the same kind or to the same potential catastrophe or event;
  - (3) each notified *claim* including the amounts notified and paid, precautionary notices and any re-opened *claims*;
  - (4) *policy* and contractual documents and any relevant representations made to *policyholders*;
  - (5) other events or circumstances relevant to determining the risks and commitments that arise out of *contracts of insurance* (including discretionary benefits and charges under any *long-term insurance contracts*);

- (6) the formal wordings of *reinsurance* contracts; and
- (7) any other relevant information on the *firm's reinsurance* or other risk-transfer arrangements, including the extent to which they:
  - (a) have been exhausted by recoveries on paid *claims*; and
  - (b) will be exhausted by recoveries on reported *claims* and, to the extent known, on incurred but not reported *claims*.

7.1.39 G A *firm* should retain its underwriting and *claims* histories for as long as they may be needed to inform pricing or provisioning decisions.

## 7.2 Capital resources requirements and technical provisions for insurance business

### Application

- 7.2.1 R *PRU 7.2* applies to an *insurer* unless it is:
- (1) a *non-directive friendly society*; or
  - (2) an *incoming EEA firm*; or
  - (3) an *incoming Treaty firm*.
- 7.2.2 R (1) This section applies to a *firm* in relation to the whole of its business, except where a particular provision provides for a narrower scope.
- (2) Where a *firm* carries on both *long-term insurance business* and *general insurance business*, this section applies separately to each type of business.
- 7.2.3 R For a *non-EEA direct insurer* with a *branch* in the *United Kingdom*, the part of this section headed “Capital requirements for insurers” (*PRU 7.2.43G* to *PRU 7.2.91R*) applies to its world-wide activities, whilst the parts of this section headed “Establishing technical provisions” (*PRU 7.2.12R* to *PRU 7.2.19G*), “Assets of a value sufficient to cover technical provisions” (*PRU 7.2.20R* to *PRU 7.2.29G*), “Matching of assets and liabilities” (*PRU 7.2.34R* to *PRU 7.2.40G*) and “Premiums for new business” (*PRU 7.2.41R* to *PRU 7.2.42G*) apply in respect of its activities carried on from a *branch* in the *United Kingdom*. The part of this section headed “Localisation” (*PRU 7.2.30R* to *PRU 7.2.33R*) does not apply (see *PRU 7.6* (Internal contagion risk)).
- 7.2.4 R For an *EEA-deposit insurer* or a *Swiss general insurer*, the parts of this section headed “Establishing technical provisions” (*PRU 7.2.12R* to *PRU 7.2.19G*), “Assets of a value sufficient to cover technical provisions” (*PRU 7.2.20R* to *PRU 7.2.29G*), “Matching of assets and liabilities” (*PRU 7.2.34R* to *PRU 7.2.40G*) and “Premiums for new business” (*PRU 7.2.41R* to *PRU 7.2.42G*) apply in respect of the activities of the *firm* carried on from a *branch* in the *United Kingdom*. The parts of this section headed “Capital requirements for insurers” (*PRU 7.2.43G* to *PRU 7.2.91R*) and “Localisation” (*PRU 7.2.30R* to *PRU 7.2.33R*) do not apply.
- 7.2.5 R For an *UK-deposit insurer*, the part of this section headed “Capital requirements for insurers” (*PRU 7.2.43G* to *PRU 7.2.91R*) applies to its world-wide activities, whilst the parts of this section headed “Establishing technical provisions” (*PRU 7.2.12R* to *PRU 7.2.19G*), “Assets of a value sufficient to cover technical provisions” (*PRU 7.2.20R* to *PRU 7.2.29G*), “Matching of assets and liabilities” (*PRU 7.2.34R* to *PRU 7.2.40G*) and “Premiums for new business” (*PRU 7.2.41R* to *PRU 7.2.42G*) apply in respect of the activities of the *firm* carried on from *branches* in *EEA States*. The part of this section headed “Localisation” (*PRU 7.2.30R* to *PRU 7.2.33R*) does not apply (see *PRU 7.6* (Internal contagion risk)).

- 7.2.6 G This section may apply in cases where a *firm* has its head office in another *EEA State* but is neither an *incoming EEA firm* nor an *incoming Treaty firm*; this could arise in the case of a *non-directive mutual* or a *pure reinsurer*.

#### Purpose

- 7.2.7 G *PRU 7.2* has the aim of reducing the risk that a *firm* may fail to meet its liabilities to its *policyholders* as a result of insurance risk, that is, the risk that arises from the inherent uncertainties as to the occurrence, amount and timing of insurance liabilities.
- 7.2.8 G This section requires that the *technical provisions* that *firms* establish are adequate to meet their liabilities to *policyholders* under *contracts of insurance*. It also requires that *firms* hold assets of a value sufficient to cover their liabilities, including *technical provisions*, and that there is suitable matching of assets and liabilities. *Technical provisions* are the on-balance sheet provisions made by a *firm* in respect of liabilities arising under or in connection with *contracts of insurance*. There are different *rules* and *guidance* applicable to the calculation of *technical provisions* for *general insurance business* and for *long-term insurance business*.
- 7.2.9 G This section implements requirements of the *Insurance Directives* for both *general insurance business* and *long-term insurance business* with regard to the *technical provisions*. The relevant articles of the Directives include:
- (1) article 15 of the *First Non-Life Directive*, as substituted by article 17 of the *Third Non-Life Directive*; and
  - (2) article 20 of the *Consolidated Life Directive* (this Directive consolidates the provisions of the previous *First, Second* and *Third Life Directives*).
- 7.2.10 G This section also sets out detailed *rules* and *guidance* on the calculation of the following elements of a *firm's capital resources requirement (CRR)* (see *PRU 2.1*):
- (1) the *general insurance capital requirement*; and
  - (2) the *long-term insurance capital requirement*.
- 7.2.11 G These requirements are dealt with in the part of this section headed “Capital requirements for insurers” (see *PRU 7.2.43G* to *PRU 7.2.91R*). That part of this section also contains *rules* about the calculation of the *insurance-related capital requirement*, which forms part of the *enhanced capital requirement* for *firms* carrying on *general insurance business*. The *asset-related capital requirement* for *firms* carrying on *general insurance business* is set out in *PRU 3.3*.

#### Establishing technical provisions

- 7.2.12 R For *general insurance business*, a *firm* must establish adequate technical provisions:
- (1) in accordance with the *rules* in *PRU 7.5* for *equalisation provisions*; and

- (2) otherwise, in accordance with *PRU 1.3.5R*.
- 7.2.13 G For *general insurance business*, the *technical provisions* include outstanding *claims provisions*, *unearned premiums provisions*, unexpired risk provisions and *equalisation provisions*. These provisions take into account the expected ultimate cost of *claims*, including those not yet incurred, related expenses and include an allowance for smoothing *claims* (the *equalisation provision*).
- 7.2.14 G *Discounting* (that is discounting for the time value of money) *general insurance business technical provisions* may be carried out only in limited circumstances and on a prudent basis (see *PRU 2.2.80R* and *PRU 2.2.81R* and paragraph 48 of the *insurance accounts rules*). The fact that the expected liabilities are generally not *discounted* helps to protect against risk from inherent uncertainty in the timing, but not necessarily the amount, of *claims*.
- 7.2.15 G For some categories of *general insurance business*, *equalisation provisions* are required. These ensure that a *firm* retains additional assets to provide some extra protection against uncertainty as to the amount of *claims*. *Equalisation provisions* are particularly suitable for volatile business, where *claims* in any future year may be subject to significant adverse deviation from recent or average expected *claims* experience, or where trends in *claims* experience may be subject to change. Such volatile *claims* experience arises in a number of types of business, for example, property, marine and aviation, nuclear, certain *non-proportional reinsurance treaty* business, and credit insurance. The *equalisation provisions* help to equalise fluctuations in loss ratios in future years (see *PRU 7.5 (Equalisation provisions)*).
- 7.2.16 R For *long-term insurance business*, a *firm* must establish adequate technical provisions:
- (1) for its *long-term insurance contracts*, in accordance with the *rules* and *guidance* in *PRU 7.3* relating to *mathematical reserves*, and with due regard to generally accepted actuarial practice; and
  - (2) for *long-term insurance liabilities* which have fallen due, in accordance with *PRU 1.3.5R*.
- 7.2.17 G *Rules* and *guidance* for calculating *mathematical reserves* are set out in *PRU 7.3*. *Firms* are advised by the *actuarial function* (see *SUP 4*) on the methods and assumptions to be used in calculating the *mathematical reserves*. The standards and guidance issued by the Faculty and Institute of Actuaries to assist actuaries appointed to the *actuarial function* are important sources of evidence as to generally accepted actuarial practice, as referred to in *PRU 7.2.16R(1)*.
- 7.2.18 G For *long-term insurance business*, the *technical provisions* include the *mathematical reserves*. These are actuarial estimates of a *firm's* liabilities in respect of future benefits due to *policyholders*, including bonuses already declared. The *mathematical reserves* may be reduced by the actuarial value of that component of future *premiums* attributable to meeting future liabilities (see *PRU 7.3 (Mathematical reserves)*).

- 7.2.19 G For *long-term insurance business*, the *mathematical reserves* are typically valued on a discounted basis but include valuation margins intended to provide protection against adverse deviations in experience (see *PRU 7.3*).

Assets of a value sufficient to cover technical provisions

- 7.2.20 R A *firm* must hold *admissible assets* of a value at least equal to the amount of the *technical provisions* that it is required to establish under *PRU 7.2.12R* and *PRU 7.2.16R* (excluding *technical provisions* for *property-linked* and *index-linked benefits* and the assets held to cover them under *PRU 4.2.57R* and *PRU 4.2.58R*).
- 7.2.21 R A *composite firm* must ensure that:
- (1) its separately identified *long-term insurance assets* have a value at least equal to the amount of:
    - (a) its *technical provisions* for *long-term insurance liabilities*; and
    - (b) any other liabilities connected with *long-term insurance business*; and
  - (2) that it has other *admissible assets* of a value at least equal to the amount of its *technical provisions* for *general insurance liabilities*.
- 7.2.22 G *PRU 7.6* (Internal-contagion risk) sets out the *rules* and *guidance* on identifying and holding in a separate fund *long-term insurance assets*.
- 7.2.23 G When valuing assets for the purposes of *PRU 7.2.20R* and *PRU 7.2.21R*, a *firm* should bear in mind:
- (1) that the *technical provisions* should be covered by *admissible assets* (see *PRU 2 Ann 1R*); and
  - (2) the market and *counterparty* limits set out in *PRU 3.2* (Credit risk in *insurance*). *PRU 3.2* requires that a *firm* restrict to prudent levels its exposure to *reinsurer* and other *counterparties*, and, in particular, that for the purpose of its balance sheet, a *firm* must not take into account any exposure which exceeds the large exposure limits.
- 7.2.24 G *Rules* and *guidance* on the valuation of assets are set out in *PRU 1.3* (Valuation), including the treatment of *shares* in, and debts due from, *related undertakings* in *PRU 1.3.31R* to *PRU 1.3.42G*. *PRU 4.2* (Market risk in insurance) addresses *market risk* and sets out the matching requirements for linked assets and liabilities. *PRU 4.2* also sets out *rules* and *guidance* on the matching by currency of assets and liabilities, to reduce a *firm's* exposure to currency *market risk*.
- 7.2.25 R For the purpose of determining the value of assets available to meet *long-term insurance liabilities* in accordance with *PRU 7.2.20R*, *PRU 7.2.21R*, *PRU 7.2.27R* and *PRU 7.2.28R*, no value is to be attributed to debts and *claims* other than in respect of:
- (1) amounts that have already fallen due;

- (2) tax recoveries and claims against *compensation funds* to the extent not already offset in *mathematical reserves*.
- 7.2.26 G Certain debts and *claims* are excluded from *PRU 7.2.20R*, *PRU 7.2.21R*, *PRU 7.2.27R* and *PRU 7.2.28R* to avoid double-counting. The *rules and guidance* in *PRU 7.3 (Mathematical reserves)* set out how a *firm* may offset debts and *claims* against liabilities in calculating the *mathematical reserves* required for *long-term insurance business*. Tax recoveries and claims against *compensation funds* in *PRU 7.2.25R(2)* are set out in the list of *admissible assets* (see *PRU 2 Ann 1R*).
- 7.2.27 R A *firm* carrying on *long-term insurance business* must ensure that it has *admissible assets* in each of its *with-profits funds* of a value sufficient to cover the *technical provisions* in respect of all the business written in that *with-profits fund*.
- 7.2.28 R In addition to complying with *PRU 7.2.27R*, a *realistic basis life firm* must also ensure that the *realistic value of assets* for each of its *with-profits funds* is at least equal to the *realistic value of liabilities* of that fund.
- 7.2.29 G *PRU 7.2.27R* and *PRU 7.2.28R* support the funding of *policyholder* benefits by requiring *firms* to maintain *admissible assets* in *with-profits funds* to cover the *technical provisions* relating to all the business in that fund and, in the case of a *realistic basis life firm*, realistic assets to cover the realistic liabilities of the *with-profits insurance contracts* written in the fund.

Localisation (UK firms only)

- 7.2.30 R (1) Subject to (2), a *UK firm* must hold *admissible assets* held pursuant to *PRU 4.2.53R*:
- (a) (where the *admissible assets* cover *technical provisions* in pounds sterling), in any *EEA State*; and
- (b) (where the *admissible assets* cover *technical provisions* in any currency other than pounds sterling), in any *EEA State* or in the country of that currency.
- (2) In the case of a *community co-insurance operation* and a *relevant insurer*, the *admissible assets* covering *technical provisions* must be held in any *EEA State*.
- 7.2.31 G *PRU 7.6 (Internal contagion risk)* sets out the *rules and guidance* on localisation for *firms* other than *UK firms*.
- 7.2.32 R *PRU 7.2.30R* does not apply to:
- (1) a *pure reinsurer*; or
- (2) debts owed by *reinsurers*; or
- (3) *insurance business* carried on by a *UK firm* outside the *EEA States*; or

- (4) *general insurance business class* groups 3 and 4 in IPRU(Ins), Annex 11.2, Part II.

7.2.33 R For the purposes of *PRU 7.2.30R*:

- (1) a tangible asset is to be treated as held in the country or territory where it is situated;
- (2) an *admissible asset* consisting of a claim against a debtor is to be treated as held in any country or territory where it can be enforced by legal action;
- (3) a *listed security* is to be treated as held in any country or territory where there is a *regulated market* on which the *security* is dealt; and
- (4) a *security* which is not a *listed security* is to be treated as held in the country or territory in which the *issuer* has its head office.

#### Matching of assets and liabilities

7.2.34 R (1) Subject to (4), the assets held by a *firm* to cover its *technical provisions* (see *PRU 7.2.20R* and *PRU 7.2.21R*) must:

- (a) have characteristics of safety, yield and marketability which are appropriate to the type of business carried on by the *firm*;
- (b) be diversified and adequately spread; and
- (c) comply with (2).
- (2) The assets referred to in (1) must, in addition to meeting the criteria set out in (1)(a) and (b), be of a sufficient amount, and of an appropriate currency and term, to ensure that the cash inflows from those assets will meet the expected cash outflows from the *firm's* insurance liabilities as they become due.
- (3) For the purpose of (2), a *firm* must take into consideration in determining expected cash outflows any options which exist in the *firm's contracts of insurance*.
- (4) (1) does not apply to assets held to cover *index-linked liabilities* or *property-linked liabilities*, except that where the *linked long-term contract of insurance* in question includes a guarantee of investment performance or some other guaranteed benefit, (1) will nevertheless apply to assets held to cover that guaranteed element.

7.2.35 G A *firm* should take account of the amount, currency and timing of its expected cash outflows in determining whether the assets it holds to cover its *technical provisions* meet the requirements of *PRU 7.2.34R(2)*.

7.2.36 G For the purpose of *PRU 7.2.34R(2)*, the relevant cash inflows are those which the *firm* reasonably expects to receive from the *admissible assets* which it holds to cover its *technical provisions*. A *firm* may receive cash inflows as a result of:

- (1) selling assets or closing out transactions;
  - (2) holding assets that generate dividends, interest or other income; and
  - (3) receiving future *premiums* for existing business.
- 7.2.37 G Anticipated cash inflows from future new business should not be included, for example where the *customer* has not yet contracted to pay the *premium*, and where the associated liabilities and potential cash outflows should also not be included.
- 7.2.38 G A *firm* should compare cash inflows and outflows based on current expectations of amounts and timings. Current market expectations of future asset values, interest rates and currency exchange rates should be used. Where inflows are received in a currency different from that in which outflows are to be paid, account should be taken of the cost of converting the currency received.
- 7.2.39 G In considering the value and suitability of assets required to ensure that the *firm*'s liabilities are met as they become due, a *firm* should take account of the risk of default on inflows from those assets, and other risks that may mean that future inflows are reduced relative to outflows.
- 7.2.40 G *PRU 7.2.20R* lays down a general requirement for a *firm* that carries on *long-term insurance business* to hold *admissible assets* that are of a value sufficient to cover its *mathematical reserves* (calculated in accordance with the *rules* in *PRU 7.3*). The *PRU 7.2.34R(2)* requirement to match liabilities with assets that allow cash outflows to be met with suitable inflows as the outflows become due may mean that a *firm* has to hold assets of a value greater than would otherwise be required by the general *rule* in *PRU 7.2.20R*.

#### Premiums for new business

- 7.2.41 R A *firm* must not enter into a *long-term insurance contract* unless it is satisfied on reasonable actuarial assumptions that:
- (1) the *premiums* receivable and the investment income expected to be earned from those *premiums*; and
  - (2) the *reinsurance* arrangements made in respect of the risk or risks covered by that new contract;
- are sufficient to enable it, when taken together with the *firm's* other resources, to:
- (a) establish adequate *technical provisions* as required by *PRU 7.2.16R*;
  - (b) hold *admissible assets* of a value at least equal to the amount of the *technical provisions* as required by *PRU 7.2.20R* to *PRU 7.2.28R*; and
  - (c) maintain adequate overall financial resources as required by *PRU 1.2.22R*.

- 7.2.42 G For the purposes of *PRU 7.2.41R*, the adequacy of *premiums* may be assessed in the context of a *firm's* total portfolio of business and its other resources. It thus does not prevent a *firm* writing loss leaders nor writing contracts which might incur large losses, but only if the *firm* can meet the losses that might reasonably arise, including those that would arise from an event specifically insured against.

#### Capital requirements for insurers

- 7.2.43 G (1) *PRU 2.1.9R* requires a *firm* to maintain *capital resources* equal to or in excess of its *capital resources requirement (CRR)*. *PRU 2.1* sets out the overall framework of the *CRR*; in particular, *PRU 2.1.14R* requires that for a *firm* carrying on *general insurance business* the *CRR* is equal to the *minimum capital requirement (MCR)*. *PRU 2.1.15R* requires that for *realistic basis life firms* the *CRR* is the higher of the *MCR* and the *ECR*. *PRU 2.1.20R* requires that for *regulatory basis only life firms* the *CRR* is equal to the *MCR*.
- (2) For non-life *firms* the *MCR* represents the *minimum capital requirement* (or margin of solvency) prescribed by the *Insurance Directives*. *PRU 2.1.21R* provides that, for a *firm* carrying on *general insurance business*, the *MCR* in respect of that business is the higher of the *base capital resources requirement for general insurance business* applicable to that *firm* and the *general insurance capital requirement*. *PRU 2.1.22R* provides that, for a *firm* carrying on *long-term insurance business*, the *MCR* in respect of that business is the higher of the *base capital resources requirement for long-term insurance business* applicable to that *firm* and the sum of the *long-term insurance capital requirement* and the *resilience capital requirement*. As specified in *PRU 2.1.10R*, a *firm* carrying on both *general insurance business* and *long-term insurance business* must apply *PRU 2.1.9R* (referred to in paragraph (1) above) separately to its *general insurance business* and its *long-term insurance business*.
- (3) The calculation of the *general insurance capital requirement* is set out in *PRU 7.2.44G* to *PRU 7.2.72R* below. *PRU 7.2.73G* to *PRU 7.2.79R* set out the calculation of the *insurance-related capital requirement* for non-life *firms*. The calculation of the *long-term insurance capital requirement* is set out in *PRU 7.2.80G* to *PRU 7.2.91R* below.

#### General insurance capital requirement

- 7.2.44 G In relation to the *MCR* (see *PRU 7.2.43G*), *PRU 2.1.30R* requires a *firm* to calculate its *general insurance capital requirement (GICR)* as the highest of the *premiums amount*, the *claims amount*, and the *brought forward amount*. The elements for this computation are set out in *PRU 7.2* as follows:
- (1) the *premiums amount* in *PRU 7.2.45R*;
  - (2) the *claims amount* in *PRU 7.2.47R*; and
  - (3) the *brought forward amount* in *PRU 7.2.51R*.

#### The premiums amount

- 7.2.45 R The *premiums amount* is:
- (1) 18% of the *gross adjusted premiums amount*; less 2% of the amount, if any, by which the *gross adjusted premiums amount* exceeds €50 million; multiplied by
  - (2) the reinsurance ratio set out in *PRU 7.2.54R*.

7.2.46 G *Rules and guidance* as to how the *gross adjusted premiums amount* is to be calculated are set out in *PRU 7.2.56R* to *PRU 7.2.59G*.

The claims amount

- 7.2.47 R The *claims amount* is:
- (1) 26% of the *gross adjusted claims amount*; less 3% of the amount, if any, by which the *gross adjusted claims amount* exceeds € 35 million; multiplied by
  - (2) the reinsurance ratio set out in *PRU 7.2.54R*.

7.2.48 G *Rules and guidance* as to how the *gross adjusted claims amount* is to be calculated are set out in *PRU 7.2.60R* to *PRU 7.2.65G*.

- 7.2.49 R
- (1) Subject to (2) and (3), the Euro amounts specified in *PRU 7.2.45R(1)* and *7.2.47R(1)* will increase each year, starting on the first review date of 20 September 2005 (and annually after that), by the percentage change in the European index of consumer prices (comprising all European Union member states, as published by Eurostat) from 20 March 2002 to the relevant review date, rounded up to a multiple of €100,000.
  - (2) In any year, if the percentage change since the last increase is less than 5%, then there will be no increase.
  - (3) The increase will take effect 30 days after the EU Commission has informed the European Parliament and Council of its review and the relevant percentage change.

7.2.50 R For the purposes of *PRU 7.2.45R(1)* and *PRU 7.2.47R(1)*, the exchange rate from the Euro to the pound sterling for each year beginning on 31 December is the rate applicable on the last day of the preceding October for which the exchange rates for the currencies of all the European Union member states were published in the Official Journal of the European Union.

The brought forward amount

7.2.51 R The *brought forward amount* is the *general insurance capital requirement (GICR)* for the prior *financial year*, multiplied, if the ratio is less than one, by the ratio (expressed as a percentage) of:

- (1) the *technical provisions* (calculated net of *reinsurance*) for *claims* outstanding at the end of the prior *financial year*, determined in accordance with *PRU 7.2.12R*; to
- (2) the *technical provisions* (calculated net of *reinsurance*) for *claims* outstanding at the beginning of the prior *financial year*, determined in accordance with *PRU 7.2.12R*.

7.2.52 G The *brought forward amount* is the same as the *GICR* for the prior *financial year*, except where *claims* outstanding have fallen during that *financial year*. If they have fallen, the *brought forward amount* is itself reduced by the same percentage fall.

7.2.53 G If the *GICR* for the prior *financial year* is less than the *premiums amount* or the *claims amount*, then a *brought forward amount* is not required to be calculated.

Reinsurance ratio used in calculating the premiums amount and the claims amount

7.2.54 R The reinsurance ratio referred to in *PRU 7.2.45R(2)* and *PRU 7.2.47R(2)* is:

- (1) if the ratio lies between 50% and 100%, the ratio (expressed as a percentage) of:
  - (a) the *claims* incurred (net of *reinsurance*) in the *financial year in question* and the two previous *financial years*; to
  - (b) the gross *claims* incurred in that three-year period;
- (2) 50%, if the ratio calculated in (a) and (b) of (1) is 50% or less; and
- (3) 100%, if the ratio calculated in (a) and (b) of (1) is 100% or more.

7.2.55 G *Rules* and *guidance* as to how the net and gross *claims* are to be calculated are set out in *PRU 7.2.66R* to *PRU 7.2.71R*.

Gross adjusted premiums amount used in calculating the premiums amount

7.2.56 R For the purpose of *PRU 7.2.45R*, the *gross adjusted premiums amount* is the higher of the *written* and *earned gross premiums* (as determined in accordance with *PRU 7.2.66R*) for the *financial year in question*, adjusted by:

- (1) except for a *pure reinsurer* that does not have *permission* under the *Act* to *effect contracts of insurance*, increasing by 50% the amount included in respect of the *premiums* for *general insurance business classes* 11, 12 and 13;
- (2) deducting 66.7% of the *premiums* for *actuarial health insurance* that meets the conditions set out in *PRU 7.2.72R*; and

- (3) multiplying the resulting figure by 12 and dividing by the number of months in the *financial year*. For the purposes of this calculation, the number of months in the *financial year* is the number of complete calendar months in the *financial year* plus any fractions of a month at the beginning and the end of the *financial year*.

- 7.2.57 G A *firm* may use statistical methods in order to allocate *premiums* in respect of the *classes* 11, 12 and 13 for the purposes of *PRU 7.2.56R*.
- 7.2.58 G *General insurance business classes* 11, 12 and 13 are, respectively, the marine liability, aviation liability and general liability insurance classes.
- 7.2.59 G Where the *firm* did not carry on *insurance business* in the *financial year in question*, the *gross adjusted premiums amount*, and therefore the *premiums amount*, is nil.

Gross adjusted claims amount used in calculating the claims amount

- 7.2.60 R For the purpose of *PRU 7.2.47R* and subject to *PRU 7.2.62R*, the *gross adjusted claims amount* is the amount of *gross claims* incurred (as determined in accordance with *PRU 7.2.66R*) over the reference period (as specified in *PRU 7.2.63R*) and adjusted by:
- (1) except for a *pure reinsurer* that does not have *permission* under the *Act* to effect contracts of insurance, increasing by 50% the amount included in respect of the *claims* incurred for *general insurance business classes* 11, 12 and 13;
  - (2) deducting 66.7% of the *claims* for *actuarial health insurance* that meets the conditions set out in *PRU 7.2.72R*; and
  - (3) multiplying the resulting figure by 12 and dividing by the number of months in the reference period. For the purposes of this calculation, the number of months in the reference period is the number of complete calendar months in the reference period plus any fractions of a month at the beginning and the end of the reference period.
- 7.2.61 G A *firm* may use statistical methods in order to allocate *claims* in respect of *classes* 11, 12 and 13 for the purposes of *PRU 7.2.60R*.
- 7.2.62 R For the purposes of *PRU 7.2.47R*, in relation to *general insurance business class* 18, the amount of *claims* incurred used to calculate the *gross adjusted claims amount* must be the amount of costs recorded in the *firm's* books in the reference period as borne by the *firm* (whether or not borne in the reference period) in respect of the assistance given.
- 7.2.63 R (1) Except in those cases where paragraph (2) applies, the reference period to be used in *PRU 7.2.60R* and *PRU 7.2.62R* must be:
- (a) the *financial year in question* and the two previous *financial years*; or

- (b) the period the *firm* had been in existence at the end of the *financial year in question*, if shorter.
- (2) In the case of a *firm* which underwrites only one or more of the *general insurance business* risks of credit, storm, hail or frost (including other business written in connection with such risks), the reference period to be used must be:
- (a) the *financial year in question* and the six previous *financial years*; or
  - (b) the period the *firm* had been in existence at the end of the *financial year in question*, if shorter.
- 7.2.64 G The classification of the risks referred to in *PRU 7.2.63R(2)* is as follows: credit - as included in *general insurance business class 14*; storm – as included in *general insurance business class 8*; hail – as included in *general insurance business class 9*; and frost – as included in *general insurance business class 9*.
- 7.2.65 G Where the *firm* did not carry on *insurance business* in the reference period, the *gross adjusted claims amount*, and therefore the *claims amount*, is nil.

Accounting for premiums and claims

- 7.2.66 R For the purposes of *PRU 7.2.54R*, *PRU 7.2.56R*, *PRU 7.2.60R* and *PRU 7.2.62R*, amounts of *premiums* and *claims* must be:
- (1) determined in accordance with *PRU 1.3 (Valuation)*; and
  - (2) adjusted for transfers that were approved by the relevant authority (or became effective where approval by an authority was not required) before the end of the *financial year in question*:
    - (a) to exclude any amount included in, or adjustment made to, *premiums* and *claims* to reflect the consideration for a transfer of *contracts of insurance* to or from the *firm*;
    - (b) to exclude *premiums* and *claims* which arose from *contracts of insurance* that have been transferred by the *firm* to another body; and
    - (c) to account for *premiums* and *claims* which arose from *contracts of insurance* that have been transferred to the *firm* from another body as if they were receivable by or payable to the *firm*.

- 7.2.67 G To ensure that all rights and obligations under a *contract of insurance* are transferred, a number of alternative mechanisms could be used. These are: an *insurance business transfer* under Part VII of the *Act*; under earlier *United Kingdom* insurance legislation; under equivalent foreign legislation; or by novation of contracts. The term “relevant authority” in paragraph (2) of *PRU 7.2.66R* may refer to whatever body has responsibility in a country, whether within or outside the *EEA*, for the approval of transfers of portfolios of *contracts of insurance*; the body may be a supervisory authority for financial services as such or it may be a judicial authority which has the necessary responsibility.
- 7.2.68 G *PRU 7.2.66R(2)(b)* requires a *firm*, for the purpose of calculating its *GICR*, to account for *contracts of insurance* transferred by it to another body as if it had never written those contracts. All amounts of *premiums* and *claims* arising in respect of those contracts are excluded, including amounts that arose in the *financial year in question* or previous *financial years*.
- 7.2.69 G Conversely, *PRU 7.2.66R(2)(c)* requires a *firm*, for the purpose of calculating its *GICR*, to account for *contracts of insurance* transferred to it by another body as if it had been responsible for those contracts from inception and not merely from the date of transfer. All amounts of *premiums* and *claims* that arose from those contracts are included even where they arose prior to the date of transfer and were, in fact, receivable by or payable to the other body.
- 7.2.70 G For both transfers to and from the *firm*, the consideration receivable or payable in respect of the transfer is excluded from *premiums* and *claims* in order to avoid double counting.
- 7.2.71 R Where there has been a significant change in the business portfolio of the *firm* since the end of the *financial year in question*, for example, a line of business has been transferred to another *firm*, or the *firm* no longer carries on a particular *class of insurance business*, the *gross adjusted premiums amount* and the *gross adjusted claims amount* must both be recalculated to take into account the impact of this change. The recalculation must take into account the requirements of *PRU 1.3* (Valuation).

#### Actuarial health insurance

- 7.2.72 R The conditions referred to in *PRU 7.2.56R(2)* and *PRU 7.2.60R(2)* are that:
- (1) the health insurance is underwritten on a similar technical basis to that of life insurance;
  - (2) the *premiums* paid are calculated on the basis of sickness tables according to the mathematical method applied in insurance;
  - (3) a provision is set up for increasing age;
  - (4) an additional *premium* is collected in order to set up a safety margin of an appropriate amount;
  - (5) it is not possible for the *firm* to cancel the contract after the end of the third year of insurance; and

- (6) the contract provides for the possibility of increasing *premiums* or reducing payments even for current contracts.

#### Insurance-related capital requirement (general insurance business only)

- 7.2.73 G *PRU 2.3.11R* requires *firms* carrying on *general insurance business*, other than a *non-directive insurer*, to calculate their *ECR* as the sum of the *asset-related capital requirement* and the *insurance-related capital requirement* less the *firm's equalisation provisions*. The *ECR* for *firms* carrying on *general insurance business* is an indicative measure of the *capital resources* that a *firm* may need to hold based on risk sensitive calculations applied to its business profile. For *firms* carrying on *general insurance business*, the *FSA* will use the *ECR* as a benchmark for individual capital guidance for a *firm* carrying on *general insurance business*. Details of the calculation of the *asset-related capital requirement* are set out in *PRU 3.3*. Details of the calculation of the *insurance-related capital requirement* are set out in *PRU 7.2.76R* to *PRU 7.2.79R*.
- 7.2.74 G The *insurance-related capital requirement* is a measure of the capital that a *firm* should hold against the risk of:
- (1) an adverse movement in the value of a *firm's* liabilities, to recognise that there may be substantial volatility in *claims* and other *technical provisions* made by the *firm*. Such variations may be due to inflationary increases, interest rate changes, movements in the underlying provisions themselves, changes in expense costs, inadequate rate pricing or *premium* collections (or both) from intermediaries differing from projected assumptions; and
  - (2) the *premiums* a *firm* charges in respect of particular business not being adequate to fund future liabilities arising from that business.
- 7.2.75 G The *insurance-related capital requirement* is calculated by applying capital charge factors, expressed as a percentage, to the value of the *net written premiums* and the *technical provisions* in respect of different classes of business. *Firms* should refer to *PRU 1.3.5R* which sets out how a *firm* must recognise and value assets and liabilities.

#### Calculation of the insurance-related capital requirement

- 7.2.76 R A *firm* must calculate its *insurance-related capital requirement* in accordance with *PRU 7.2.77R*.
- 7.2.77 R (1) The value of:
- (a) the *net written premiums*; and
  - (b) the *technical provisions*;
- in respect of each class of business listed in the table in *PRU 7.2.79R* must be multiplied by the corresponding capital charge factor.

- (2) If any amount which is to be multiplied by a capital charge factor is a negative amount, that amount shall be treated as zero.
- (3) The amounts resulting from multiplying the *net written premiums* in respect of each such class of business by the corresponding capital charge factor must be aggregated.
- (4) The amounts resulting from multiplying the *technical provisions* in respect of each such class of business by the corresponding capital charge factor must be aggregated.
- (5) The *insurance-related capital requirement* is the sum of the amounts calculated in accordance with (3) and (4).

7.2.78 R In PRU 7.2.77R references to *technical provisions* comprise:

- (1) outstanding *claims*;
- (2) provisions for incurred but not reported (*IBNR claims*);
- (3) provisions for incurred but not enough reported (*IBNER claims*);
- (4) *unearned premium* reserves less *deferred acquisition costs*; and
- (5) unexpired risk reserves;

in each case net of *reinsurance* receivables.

7.2.79 R Table: Insurance-related Capital Charge Factors

Class of Business	Net Written Premium capital charge factor	Technical provision capital charge factor
Reporting Group: Direct Personal Motor

## Long-term insurance capital requirement

- 7.2.80 G *PRU 2.1.9R* requires a *firm* to which *PRU 2* applies to maintain *capital resources* equal to or in excess of its *capital resources requirement*. *PRU 2.1.15R* defines the *capital resources requirement* for a *firm* to which that rule applies (a *realistic basis life firm*) as the higher of the *MCR* and the *ECR*. For other *firms* carrying on *long-term insurance business (regulatory basis only life firms)*, the *capital resources requirement* is equal to the *MCR*. The *MCR* is defined as the higher of the *base capital resources requirement* and the sum of the *long-term insurance capital requirement (LTICR)* and the *resilience capital requirement* (see *PRU 2.1.22R*). *PRU 2.1.32R* defines the *LTICR* as the sum of the *insurance death, health, expense, and market risk capital components* (see *PRU 7.2.81R* to *PRU 7.2.91R*). *Rules and guidance* about the *resilience capital requirement* are set out in *PRU 4.2.9G* to *PRU 4.2.26R*.

## Insurance death risk capital component

- 7.2.81 R The *insurance death risk capital component* is the aggregate of the amounts which represent the fractions specified by *PRU 7.2.82R* of the capital at risk, defined in *PRU 7.2.83R*, for those contracts where the capital at risk is not a negative figure, multiplied by the higher of:
- (1) 50%; and
  - (2) the ratio as at the end of the preceding *financial year* of:
    - (a) the aggregate capital at risk net of *reinsurance* cessions; to
    - (b) the aggregate capital at risk gross of *reinsurance* cessions.
- 7.2.82 R For the purpose of *PRU 7.2.81R*, the fraction is:
- (1) for *long-term insurance business classes I, II and IX*, except for a *pure reinsurer*:
    - (a) 0.1% for temporary insurance on death where the original term of the contract is three years or less;
    - (b) 0.15% for temporary insurance on death where the original term of the contract is five years or less but more than three years; and
    - (c) 0.3% in any other case;
  - (2) 0.3% for *long-term insurance business classes III, VII and VIII*, except for a *pure reinsurer*; and
  - (3) 0.1% for a *pure reinsurer*.
- 7.2.83 R For the purpose of *PRU 7.2.81R*, the capital at risk is:

- (1) where the benefit under a *contract of insurance* payable as a result of death includes periodic or deferred payments, the present value of the benefits payable; and
- (2) in any other case, the amount payable as a result of death;

less, in either case, the *mathematical reserves* for the contract.

- 7.2.84 G The *insurance death risk capital component* only relates to the risk of death. There is a separate risk component for insured health risks (*class IV*). *Tontines* (*class V*) and *capital redemption* operations (*class VI*) also have separate risk components. There is no specified risk margin for other insured risks.

#### Insurance health risk capital component

- 7.2.85 R The *insurance health risk capital component* is the highest of:
- (1) the *premiums amount* (determined in accordance with *PRU 7.2.45R*);
  - (2) the *claims amount* (determined in accordance with *PRU 7.2.47R*); and
  - (3) the *brought forward amount* (determined in accordance with *PRU 7.2.51R*);
- in respect of:
- (a) *contracts of insurance* falling in *long-term insurance business class IV* (see *PRU 7.2.86R*); and
  - (b) risks falling in *general insurance business classes 1 or 2* that are written as part of a *long-term insurance contract*.

- 7.2.86 R For the purposes of *PRU 7.2.85R*, in the case of *contracts of insurance* falling in *long-term insurance business class IV*, condition (3) as set out in *PRU 7.2.72R* (*Actuarial health insurance*) is modified to: "either the reserves include a provision for increasing age, or the business is conducted on a group basis."

- 7.2.87 G The *insurance health risk capital component* only arises for *permanent health insurance* (*long-term insurance business class IV*) and *accident and sickness insurance* (*general insurance business classes 1 and 2*).

#### Insurance expense risk capital component

- 7.2.88 R The *insurance expense risk capital component* is:
- (1) in respect of *long-term insurance business classes III, VII and VIII*, an amount equivalent to 25% of the net *administrative expenses* in the preceding *financial year* relevant to the business of each of those *classes*, in so far as the *firm* bears no investment risk and the allocation to cover *management expenses* in the *contract of insurance* does not have a fixed upper limit which is effective as a limit for a period exceeding 5 years from the commencement of the contract;

- (2) in respect of any *tontine* (*long-term insurance business class V*), 1% of the assets of the *tontine*;
- (3) in the case of any other *long-term insurance business*, 1% of the “adjusted *mathematical reserves*” (as defined in *PRU 7.2.90R* and *PRU 7.2.91R*).

Insurance market risk capital component

- 7.2.89 R The *insurance market risk capital component* is 3% of the “adjusted *mathematical reserves*” (as defined in *PRU 7.2.90R* and *PRU 7.2.91R*) for all *contracts of insurance* except those which:
- (1) fall in *long-term insurance business classes III, VII or VIII* and in respect of which the *firm* does not bear any investment risk; or
  - (2) fall in *long-term insurance business class V*.

Adjusted mathematical reserves

- 7.2.90 R For the purpose of *PRU 7.2.88R* and *PRU 7.2.89R*, the “adjusted *mathematical reserves*” is the amount of *mathematical reserves* (gross of *reinsurance cessions*), multiplied by the higher of:
- (1) 85% or, in the case of a *pure reinsurer*, 50%; and
  - (2) the ratio as at the end of the preceding *financial year* of:
    - (a) the *mathematical reserves* net of *reinsurance cessions*; to
    - (b) the *mathematical reserves* gross of *reinsurance cessions*.
- 7.2.91 R The “adjusted *mathematical reserves*” do not include:
- (1) for the purposes of *PRU 7.2.88R(3)* and *PRU 7.2.89R*, amounts arising from *tontines* (*long-term insurance business class V*);
  - (2) for the purposes of *PRU 7.2.88R(3)*, amounts arising from *insurance business* in *classes III, VII or VIII*, to the extent that such business meets the conditions in *PRU 7.2.88R(1)*;
  - (3) for the purposes of *PRU 7.2.89R*, amounts arising from *insurance business* in *classes III, VII or VIII*, to the extent that such business meets the conditions in *PRU 7.2.89R(1)*.

## 7.3 Mathematical reserves

### Application

7.3.1 R *PRU 7.3 applies to a long-term insurer unless it is:*

- (1) *a non-directive friendly society; or*
- (2) *an incoming EEA firm; or*
- (3) *an incoming Treaty firm.*

### Purpose

7.3.2 G This section follows on from the overall requirement on *firms* to establish adequate *technical provisions* (see *PRU 7.2.16R*). The *mathematical reserves* form the main component of *technical provisions* for *long-term insurance business*. *PRU 7.3* sets out *rules and guidance* as to the methods and assumptions to be used in calculating the *mathematical reserves*. The *rules and guidance* set out the minimum basis for *mathematical reserves*. Methods and assumptions that produce reserves that are demonstrably equal to or greater than the minimum basis may also be used, though they must meet the basic requirements for methods and assumptions set out in *PRU 7.3.7R* to *PRU 7.3.27G*.

7.3.3 G This section applies to all *firms* carrying on *long-term insurance business* and implements some of the requirements contained in article 20 of the *Consolidated Life Directive*. The implementation is designed to ensure that a *firm's mathematical reserves* in respect of *long-term insurance contracts* meet the minimum requirements set by the *Consolidated Life Directive*. A *firm* may use a prospective or a retrospective method to value its *mathematical reserves* (see *PRU 7.3.7R*).

7.3.4 G The required procedures are summarised in the flowchart in *PRU 7 Ann 1G*.

7.3.5 G *Firms* to which *PRU 2.1.15R* applies are required to calculate a *with-profits insurance capital component* (see *PRU 2.1.34R*). In order to calculate its *with-profits insurance capital component*, such a *firm* is required to carry out additional calculations of its liabilities on a realistic basis (see *PRU 7.4*), which it is required to report to the *FSA* (see Forms 18,19). A *firm* that reports its liabilities on a realistic basis is referred to in *PRU* as a *realistic basis life firm*. Such *firms* are subject to different *rules* relating to the calculation of *mathematical reserves* (see *PRU 7.3.46R* and *PRU 7.3.76R*) compared with those that apply to *firms* that report on a regulatory basis only (*regulatory basis only life firms*).

7.3.6 G A number of the *rules* in this section require a *firm* to take into account its regulatory duty to treat *customers* fairly. In this section, references to such a duty are to a *firm's* duty to pay due regard to the interests of its *customers* and to treat them fairly (see *Principle 6* in *PRIN*). This duty is owed to both *policyholders* and potential *policyholders*.

### Basic valuation method

7.3.7 R (1) Subject to (2), a *firm* must establish its *mathematical reserves* using a prospective actuarial valuation on prudent assumptions of all future cash flows expected to arise under, or in respect of, each of its *long-term insurance contracts*.

(2) But a *firm* may use a retrospective actuarial valuation where:

- (a) a prospective method cannot be applied to a particular type of contract;

- or
- (b) the *firm* can demonstrate that the resulting amount of the *mathematical reserves* would be no lower than would be required by a prudent prospective actuarial valuation.
- 7.3.8 G A prospective valuation sets the *mathematical reserves* at the present value of future net cash flows. A retrospective method typically sets the *mathematical reserves* at the level of *premiums* received (and accumulated with investment return), less *claims* and expenses paid. A prospective valuation is preferred because it takes account of circumstances that might have arisen since the *premium* rate was set and of changes in the perception of future experience. Circumstances in which a retrospective valuation might be appropriate include:
- (1) where the assumptions initially made in determining the *premium* rate were sufficiently prudent at inception and have not been overtaken by subsequent events; and
  - (2) where the liability depends on the emerging experience.
- 7.3.9 R Except in *PRU 7.3.71R(1)*, *PRU 7.3* does not apply to *final bonuses*. In addition, for *realistic basis life firms* only, *PRU 7.3* does not apply to future *annual bonuses*.
- Methods and assumptions
- 7.3.10 R In the actuarial valuation under *PRU 7.3.7R*, a *firm* must use methods and prudent assumptions which:
- (1) are appropriate to the business of the *firm*;
  - (2) are consistent from year to year without arbitrary changes (see *PRU 7.3.11G*);
  - (3) are consistent with the method of valuing assets (see *PRU 1.3*);
  - (4) include appropriate margins for adverse deviation of relevant factors (see *PRU 7.3.12G*);
  - (5) recognise the distribution of profits (that is, emerging surplus) in an appropriate way over the duration of each *contract of insurance*;
  - (6) take into account its regulatory duty to treat its *customers* fairly (see *Principle 6*); and
  - (7) are in accordance with generally accepted actuarial practice.
- 7.3.11 G *PRU 7.3.10R(2)* prohibits only arbitrary changes in methods and assumptions, that is, changes made without adequate reasons. Any such changes would hinder comparisons over time as to the amount of the *mathematical reserves* and so obscure trends in solvency and the emergence of surplus.
- 7.3.12 G The relevant factors referred to in *PRU 7.3.10R(4)* may include, but are not limited to, factors such as future investment returns, expenses, mortality, morbidity, options, persistency and *reinsurance* (see also *PRU 7.3.13R* to *PRU 7.3.19G*).
- Margins for adverse deviation
- 7.3.13 R The appropriate margins for adverse deviation required by *PRU 7.3.10R(4)* must be sufficiently prudent to ensure that there is no significant foreseeable risk that liabilities to *policyholders* in respect of *long-term insurance contracts* will not be met as they fall due.
- 7.3.14 G The margins for adverse deviation are a prudential margin in respect of the risks that arise under a *long-term insurance contract*.
- 7.3.15 G *PRU 7.3.13R* sets the normal standard of prudence required for margins. *PRU*

- 7.3.16G suggests benchmarks against which a *firm* should compare the margins it has set in accordance with *PRU 7.3.10R(4)* and *PRU 7.3.13R*. *PRU 7.3.17G* gives *guidance* where a market risk premium is not readily obtainable.
- 7.3.16 G When setting the margins for adverse deviation required by *PRU 7.3.10R(4)* in relation to a particular contract, a *firm* should consider, where appropriate:
- (1) the margin for adverse deviation included in the *premium* for similar *long-term insurance contracts*, if any, newly issued by the *firm*; and
  - (2) where a sufficiently developed and diversified market for transferring a risk exists, the risk premium that would be required by an unconnected party to assume the risk in respect of the contract.
- The margin for adverse deviation of a risk should generally be greater than or equal to the relevant market price for that risk.
- 7.3.17 G Where a risk premium is not readily available, or cannot be determined, an external proxy for the risk should be used, such as adjusted industry mortality tables. Where there is a considerable range of possible outcomes, the *FSA* expects *firms* to use stochastic techniques to evaluate these risks. In time, for example, longevity risk, where this constitutes a significant risk for the *firm*, may fall into this category.
- 7.3.18 G The margins for adverse deviation should be recognised as profit only as the *firm* itself is released from risk over the duration of the contract.
- 7.3.19 G Further detailed *rules* and *guidance* on margins for adverse deviation are included in *PRU 7.3.32G* to *PRU 7.3.91G*. In particular, the cross-references for the different assumptions used in calculating the *mathematical reserves* are as follows:
- (1) expenses (*PRU 7.3.50R* to *PRU 7.3.58G*);
  - (2) mortality and morbidity (*PRU 7.3.59R* to *PRU 7.3.61G*);
  - (3) options (*PRU 7.3.62R* to *PRU 7.3.72G*);
  - (4) persistency (*PRU 7.3.73G* to *PRU 7.3.77G*); and
  - (5) *reinsurance* (*PRU 7.3.78G* to *PRU 7.3.91G*).
- The *rules* and *guidance* on margins for adverse deviation in respect of future investment returns, which are also required in the calculation of *mathematical reserves*, are set out in *PRU 4.2.28R* to *PRU 4.2.48G*.
- Record keeping
- 7.3.20 R A *firm* must make, and retain for an appropriate period, a record of:
- (1) the methods and assumptions used in establishing its *mathematical reserves*, including the margins for adverse deviation, and the reasons for their use; and
  - (2) the nature of, reasons for, and effect of, any change in approach, including the amount by which the change in approach increases or decreases its *mathematical reserves*.
- 7.3.21 G *PRU 1.4.53R* requires *firms* to maintain accounting and other records for a minimum of three years, or longer as appropriate. For the purposes of *PRU 7.3.20R*, a period of longer than three years will be appropriate for a *firm's long-term insurance business*. In determining an appropriate period, a *firm* should have regard to:
- (1) the detailed *rules* and *guidance* on record keeping in *PRU 1.4.51G* to *PRU 1.4.64G*;
  - (2) the nature and term of the *firm's long-term insurance business*; and

- (3) any additional provisions or statutory requirements applicable to the *firm* or its records.

Valuation of individual contracts

- 7.3.22 R (1) Subject to (2) and (3), a *firm* must determine the amount of the *mathematical reserves* separately for each *long-term insurance contract*.  
(2) Approximations or generalisations may be made where they are likely to provide the same, or a higher, result.  
(3) A *firm* must set up additional *mathematical reserves* on an aggregated basis for general risks that are not specific to individual contracts.
- 7.3.23 G *PRU 7.3.22R* to *PRU 7.3.91G* set out *rules* and *guidance* for the separate prospective valuation of each contract. These may be applied instead to groups of contracts where the conditions set out in *PRU 7.3.22R(2)* are satisfied.

Contracts not to be treated as assets

- 7.3.24 R A *firm* must not treat a *long-term insurance contract* as an asset.
- 7.3.25 G A separate prospective valuation for each contract may identify contracts for which the value of future cash inflows exceeds that of outflows, that is, the contracts have an asset value, rather than liability value. However, the *surrender value* of a contract is always greater than or equal to zero and the *Consolidated Life Directive* requires that no contract should be valued at less than its guaranteed *surrender value*. As a result, no contract should be treated as an asset.

Avoidance of future valuation strain

- 7.3.26 R (1) A *firm* must establish *mathematical reserves* for a *contract of insurance* which are sufficient to ensure that, at any subsequent date, the *mathematical reserves* then required are covered solely by:  
(a) the assets covering the current *mathematical reserves*; and  
(b) the resources arising from those assets and from the contract itself.  
(2) For the purposes of (1), the *firm* must assume that:  
(a) the assumptions adopted for the current valuation of liabilities remain unaltered and are met; and  
(b) discretionary benefits and charges will be set so as to fulfil its regulatory duty to treat its *customers* fairly.  
(3) (1) may be applied to a group of similar contracts instead of to the individual contracts within that group.
- 7.3.27 G The valuation of each contract, or group of similar contracts, should allow for the possibility, where it exists, that contracts may be surrendered (wholly or in part), lapsed or made paid-up at any time. The valuation assumptions include margins for adverse deviation (see *PRU 7.3.13R*). *PRU 7.3.26R* requires *mathematical reserves* to be established such that, if future experience is in line with the valuation assumptions, there would be no future valuation strain.

Cash flows to be valued

- 7.3.28 R In a prospective valuation, a *firm* must include the following in the cash flows to be valued:  
(1) future *premiums* (see *PRU 7.3.35G* to *PRU 7.3.47G*);  
(2) expenses, including *commissions* (see *PRU 7.3.50R* to *PRU 7.3.58G*);  
(3) benefits payable (see *PRU 7.3.29R*); and  
(4) amounts to be received or paid in respect of the *long-term insurance*

- contracts* under contracts of *reinsurance* or analogous non-*reinsurance* financing agreements (*PRU 7.3.78G* to *PRU 7.3.91G*).
- 7.3.29 R For the purpose of *PRU 7.3.28R(3)*, benefits payable include:
- (1) all guaranteed benefits including guaranteed *surrender values* and paid-up values;
  - (2) vested, declared and allotted bonuses to which the *policyholder* is entitled;
  - (3) all options available to the *policyholder* under the terms of the contract; and
  - (4) discretionary benefits payable in accordance with the *firm's regulatory duty* to treat its *customers* fairly.
- 7.3.30 G All cash flows are to be valued using prudent assumptions in accordance with generally accepted actuarial practice. Cash flows may be omitted from the valuation calculations provided the reserves obtained as a result of leaving those cash flows out of the calculation are not less than would have resulted had all cash flows been included (see *PRU 7.3.22R(2)*). Provision for future expenses in respect of *with-profits insurance contracts* (excluding *accumulating with-profits policies*) may be made implicitly, using the *net premium* method of valuation (see *PRU 7.3.43R* below). For the purposes of *PRU 7.3.28R(2)*, any charges included in expenses should be determined in accordance with the *firm's regulatory duty* to treat its *customers* fairly.
- 7.3.31 G *PRU 7.3.29R(4)* requires *regulatory basis only life firms* to make allowance for any future *annual bonus* that a *firm* would expect to grant, assuming future experience is in line with the assumptions used in the calculation of the *mathematical reserves*. *Final bonuses* do not have to be taken into consideration in these calculations (see *PRU 7.3.9R*). For *realistic basis life firms*, except for *accumulating with-profits policies*, the *mathematical reserves* may be calculated as the amount required to cover guaranteed benefits as for such *firms* full allowance for discretionary benefits is made in the calculation of the *realistic value of liabilities* (see *PRU 7.4.105R(5)*). The calculations required for *accumulating with-profits policies* are set out in *PRU 7.3.71R(1)*.
- Valuation assumptions: detailed rules and guidance
- 7.3.32 G More detailed *rules* and *guidance* about the valuation of cash flows are set out in *PRU 7.3.33R* to *PRU 7.3.91G*.
- Valuation rates of interest
- 7.3.33 R In calculating the present value of future net cash flows, a *firm* must determine the rates of interest to be used in accordance with *PRU 4.2.28R* to *PRU 4.2.47R*.
- 7.3.34 G The *rules* in *PRU 4.2.28R* to *PRU 4.2.47R* set out the approach *firms* must take in setting margins for adverse deviation in the interest rates assumed in calculating the *mathematical reserves*. This includes a margin to allow for adverse deviation in *market risk* and, where relevant, credit risk. The requirements set out in *PRU 4.2.28R* to *PRU 4.2.47R* protect against the *market risk* that the return actually achieved on assets may fall below the market yields on assets at the *actuarial valuation date*.
- Future premiums
- 7.3.35 G *PRU 7.3.46R* and *PRU 7.3.47G* apply to the valuation of *with-profits insurance liabilities* for a *realistic basis life firm*. *PRU 7.3.38R* to *PRU 7.3.45G* apply to a *regulatory basis only life firm*.
- 7.3.36 G For *non-profit insurance contracts* no specific method of valuation for future

*premiums* is required by *PRU*. However, the method of valuation used should be sufficiently prudent taking into account, in particular, the risk of voluntary discontinuance by the *policyholder*.

Future premiums: firms reporting only on a regulatory basis

- 7.3.37 R *PRU 7.3.38R to PRU 7.3.43R apply to a regulatory basis only life firm.*
- 7.3.38 R (1) This rule applies to *with-profits insurance contracts* except *accumulating with-profits policies* written on a recurring single *premium* basis.
- (2) The value attributed to a *premium* due in any future *financial year* (a future *premium*) must not exceed the lower of the value of:
- (a) the actual *premium* payable under the contract; and
- (b) the *net premium*.
- (3) The *net premium* may be increased for *deferred acquisition costs* in accordance with *PRU 7.3.43R*.
- 7.3.39 G The valuation method for future *premiums* in *PRU 7.3.38R* retains the difference, if any, between the gross *premium* and the *net premium* as an implicit margin available to finance future bonuses, expenses and other costs. It thus helps to protect against the risk that adequate resources may not be available in the future to meet those costs.
- 7.3.40 R Where the terms of a *contract of insurance* have changed since it was first entered into, a *firm* must apply one of the methods in *PRU 7.3.41R* in determining the *net premium* for the purpose of *PRU 7.3.38R(2)(b)*.
- 7.3.41 R A *firm* must treat the change referred to in *PRU 7.3.40R* as if either:
- (1) it had been included in the original contract but came into effect from the time the change became effective; or
- (2) the original contract were cancelled and replaced by a new contract (with an initial *premium* paid on the new contract equal to the liability under the original contract immediately prior to the change); or
- (3) it gave rise to two separate contracts where:
- (a) all *premiums* are payable under the first contract and that contract provides only for such benefits as those *premiums* could have purchased from the *firm* at the date the change became effective; and
- (b) no *premiums* are payable under the second contract and that contract provides for all the other benefits.
- 7.3.42 G *PRU 7.3.41R* permits three alternative methods. However, the third method is only possible where a meaningful comparison can be made between the terms of the contract (as changed) and the terms upon which the *firm* was *effecting* its new *contracts of insurance* at the time the contract was changed.

Future net premiums: adjustment for deferred acquisition costs

- 7.3.43 R (1) The amount of any increase to the *net premium* for *deferred acquisition costs* must not exceed the equivalent of the recoverable acquisition expenses spread over the period of *premium* payments and calculated in accordance with the rates of interest, mortality and morbidity assumed in calculating the *mathematical reserves*.
- (2) For the purpose of (1), recoverable acquisition expenses means the amount of expenses, after allowing for the effects of taxation, which it is reasonable to expect will be recovered from future *premiums* payable under the contract.
- (3) The recoverable acquisition expenses in (1) must not exceed the lower of:
- (a) the value of the excess of actual *premiums* over *net premiums*; and

- (b) 3.5% of the *relevant capital sum*.
- (4) Recoverable acquisition expenses may be calculated as the average for a group of similar contracts weighted by the *relevant capital sum* for each contract.
- 7.3.44 G *PRU 7.3.43R* allows a *firm* to spread acquisition costs over the lifetime of a *contract of insurance*, but only if it is reasonable to expect those costs to be recoverable from future *premium* income from that contract. Further prudence is provided by the limitation of recoverable acquisition expenses to 3.5% of the *relevant capital sum*. This adjustment for acquisition costs is sometimes termed a Zillmer adjustment.
- 7.3.45 G In determining the extent, if any, to which it is reasonable to expect acquisition costs to be recoverable from future *premium* income, the *firm* should make prudent assumptions as to levels of voluntary discontinuance by *policyholders*.  
Future premiums: firms also reporting with-profits insurance liabilities on a realistic basis
- 7.3.46 R (1) Subject to (2), for a *realistic basis life firm*, the future *premiums* to be valued in the calculation of the *mathematical reserves* for its *with-profits insurance contracts* must not be greater than the gross *premiums* payable by the *policyholder*.  
(2) This *rule* does not apply to *accumulating with-profits policies* written on a recurring single *premium* basis (see *PRU 7.3.48R*).
- 7.3.47 G The gross *premium* is the full amount of *premium* payable by the *policyholder* to the *firm*. The gross *premium* method contrasts with the *net premium* method which is required from *regulatory basis only life firms* (see *PRU 7.3.37R* to *PRU 7.3.45G*).  
Future premiums: accumulating with-profits policies
- 7.3.48 R (1) This *rule* applies to *accumulating with-profits policies* written on a recurring single *premium* basis.  
(2) A *firm* must not attribute any value to a future *premium* under the contract.  
(3) Any liability arising only upon the payment of that *premium* may be ignored except to the extent that the value of that liability upon payment would exceed the amount of that *premium*.
- 7.3.49 G *PRU 7.3.48R* prohibits a *firm* from taking credit for recurring single *premiums* under *accumulating with-profits policies*. As there is no contractual commitment to pay any future *premiums* the amount and timing of which are uncertain, the recognition of any potential margins would not be prudent. Where the payment of a future *premium* would give rise to a liability in excess of the *premium* a provision should be established.  
Expenses
- 7.3.50 R (1) A *firm* must make provision for expenses, either implicitly or explicitly, in its *mathematical reserves* of an amount which is not less than the amount expected, on prudent assumptions, to be incurred in fulfilling its *long-term insurance contracts*.  
(2) For the purpose of (1), expenses must be valued:  
(a) after taking account of the effect of taxation;  
(b) having regard to the *firm's* actual expenses in the last 12 months before the *actuarial valuation date* and any increases in expenses

- expected to occur in the future;
- (c) after making prudent assumptions as to the effects of inflation on future increases in prices and earnings; and
  - (d) at no less than the level that would be incurred if the *firm* were to cease to transact new business 12 months after the *actuarial valuation date*.
- (3) A *firm* must not rely upon an implicit provision arising from the method of valuing future *premiums* except to the extent that:
- (a) it is reasonable to assume that expenses will be recoverable from future *premiums*; and
  - (b) the expenses would only arise if the future *premiums* were received.
- 7.3.51 G For *with-profits insurance contracts* where the *net premium* valuation method applies, an implicit provision arises because the future *premiums* valued are limited to the *net premium* adjusted as permitted by *PRU 7.3.43R*. This excludes the allowance within the gross *premium* for expenses (other than recoverable acquisition expenses). It also excludes other margins within the actual *premium* that are a prudential margin in respect of the risks that arise under the contract or that are needed to provide for future discretionary benefits. To the extent that these other margins are not needed for the purpose for which they were originally established, they may also constitute an implicit provision for expenses.
- 7.3.52 G An implicit provision may also arise for other types of *long-term insurance contract* where, for example, no value is attributed to future *premiums*, but the *firm* is entitled to make deductions from future regular *premiums* before allocating them to secure *policyholder* benefits.
- 7.3.53 G A *firm* should only reduce the provision for future expenses to take account of expected taxation recoveries related to those expenses where recovery is reasonably certain, and after taking into account the assumption that the *firm* ceases to transact new business 12 months after the *actuarial valuation date*. An appropriate adjustment for discounting should be made where receipt of the taxation recoveries is not expected until significantly after the expenses are incurred.
- 7.3.54 G The *firm's* actual expenses in the 12 months prior to the *actuarial valuation date* may serve as a guide to the assumptions for future expenses, taking into consideration the mix of acquisition and renewal expenses. The expense assumptions should not be reduced to account for expected future improvements in efficiency until such efficiency improvements result in a reduced level of actual expenditure. However, the assumptions should take account of all factors which might increase costs including earnings and price inflation.
- 7.3.55 R The provisions for expenses (whether implicit or explicit) required by *PRU 7.3.50R* must be sufficient to cover all the expenses of running off the *firm's* existing *long-term insurance business* including:
- (1) all discontinuance costs (for example, redundancy costs and closure costs) that would arise if the *firm* were to cease transacting new business 12 months after the *actuarial valuation date* in circumstances where (and to the extent that) the discontinuance costs exceed the projected surplus available to meet such costs;
  - (2) all costs of continuing to service the existing business taking into account the loss of economies of scale from, and any other likely consequences of, ceasing to transact new business at that time; and
  - (3) the lower of:

- (a) any projected valuation strain from writing new business for the 12 months following the *actuarial valuation date* to the extent the actual amount of that strain exceeds the projected surplus on prudent assumptions from existing business in the 12 months following the *actuarial valuation date*; and
  - (b) any projected new business expense overrun from writing new business for the 12 months following the *actuarial valuation date* to the extent the projected expenses exceed the expenses that the new business can support on a prudent basis.
- 7.3.56 G The provision for future expenses, whether implicit or explicit, should include a prudent margin for adverse deviation in the level and timing of expenses (see *PRU 7.3.13R* to *PRU 7.3.19G*). The margin should cover the risk of underestimating expenses whether due to, for example, initial under-calculation or subsequent increases in the amount of expenses. In setting the amount of the margin, the *firm* should take into account the extent to which:
- (1) an appropriately validated method based on reliable data is used to allocate expenses by product type, by distribution channel and as between acquisition and non-acquisition expenses;
  - (2) the volume of existing and new business and its distribution by product type or distribution channel is stable or predictable;
  - (3) costs vary in the short, medium or long term dependent upon the volume of existing or new business and its distribution by product type or distribution channel; and
  - (4) cost control is well-managed.
- 7.3.57 G In setting the margin, the *firm* should also take into account:
- (1) the length of the period over which it is necessary to project costs;
  - (2) the extent to which it is reasonable to expect inflation to be stable or predictable over that period; and
  - (3) whether, if inflation is higher than expected, it is reasonable to expect that the excess would be offset by increases in investment returns.
- 7.3.58 G Where a *firm* has entered into an agreement with any other person for the sharing or reimbursement of costs, in setting the margin it should take into account the potential impact of that agreement and of its discontinuance.
- Mortality and Morbidity
- 7.3.59 R A *firm* must set the assumptions for mortality and morbidity using prudent rates of mortality and morbidity that are appropriate to the country or territory of residence of the person whose life or health is insured.
- 7.3.60 G The rates of mortality or morbidity should contain prudent margins for adverse deviation (see *PRU 7.3.13R* to *PRU 7.3.19G*). In setting those rates, a *firm* should take account of:
- (1) the systems and controls applied in underwriting *long-term insurance contracts* and whether they provide adequate protection against anti-selection (that is, selection against the *firm*) including:
    - (a) adequately defining and identifying non-standard risks; and
    - (b) where such risks are underwritten, allocating to them an appropriate weighting;
  - (2) the nature of the contractual exposure to mortality or morbidity risk including:
    - (a) whether lower mortality increases or decreases the *firm*'s liability;

- (b) the period of cover and whether risk charges can be varied during that period and, if so, how quickly; and
- (c) whether the options in the contract give rise to a significant risk of anti-selection (for example, opportunities for voluntary discontinuance, guaranteed renewal at the option of the *policyholder* and rights for conversion of benefits);
- (3) the credibility of the *firm's* actual experience as a basis for projecting future experience including:
  - (a) whether there is sufficient data (especially for medical or financial risks and for new types of benefit or new methods of distribution); and
  - (b) whether the data is reliable and has been appropriately validated;
- (4) the availability and reliability of:
  - (a) any published tables of mortality or morbidity for the country or territory of residence of the person whose life or health is insured; and
  - (b) any other information as to the industry-wide insurance experience for that country or territory;
- (5) anticipated or possible future trends in experience including, but only where they increase the liability:
  - (a) anticipated improvements in mortality;
  - (b) changes arising from improved detection of morbidity (including critical illnesses);
  - (c) diseases the impact of which may not yet be reflected fully in current experience; and
  - (d) changes in market segmentation (such as impaired life annuities) which, in the light of developing experience, may require different assumptions for different parts of the policy class.

7.3.61 G An additional provision for diseases covered by *PRU 7.3.60G(5)(c)* may be needed, in particular for unit-linked policies. In determining whether such a provision is needed a *firm* may take into consideration any ability to increase product charges commensurately (provided that such increase does not infringe on its regulatory duty to treat its *customers* fairly), but a provision would still be required for the period until such an increase could be brought into effect.

Options

7.3.62 R When a *firm* establishes its *mathematical reserves* in respect of a *long-term insurance contract*, the *firm* must include an amount to cover any increase in liabilities which might be the direct result of its *policyholder* exercising an option under, or by virtue of, that *contract of insurance*. Where the *surrender value* of a contract is guaranteed, the amount of the *mathematical reserves* for that contract at any time must be at least as great as the value guaranteed at that time.

7.3.63 G An option exists where a *policyholder* is given a choice between alternative forms of benefit, for example, a choice between receiving a cash benefit upon maturity or an annuity at a guaranteed rate. In some cases, the contract may designate one or other of these alternatives as the principal benefit and any other as an option. This designation, in itself, is not one of substance in the context of reserving since it does not affect the *policyholder's* choices. Other forms of option include:

- (1) the right to convert to a different contract on guaranteed terms;
- (2) the right to increase cover on guaranteed terms;
- (3) the right to a specified amount on surrender; and
- (4) the right to a paid up value.

- 7.3.64 G The *firm* should provide for the benefit which the *firm* anticipates the *policyholder* is most likely to choose. Except for the “option” of voluntary discontinuance in the case of *regulatory basis only life firms* (see *PRU 7.3.74R*), past experience may be used as a guide, but only if this is likely to give a reasonable estimate of future experience. For example, past experience of the take-up of a cash payment option instead of an annuity would not be a reliable guide, if, in the past, market rates exceeded those guaranteed in the annuity but no longer do so. Similarly, past experience on the take-up of options may not be relevant in the light of the assumptions made in respect of future interest rates and mortality rates in the valuation of the benefits.
- 7.3.65 G Many options are long-term and need careful consideration. Improving longevity, for example, can increase the value of guaranteed annuity options vesting further in the future. *Firms* also need to have regard to the fact that *policyholder* behaviour can change in the future as *policyholders* become more aware of the value of their options. The impact on *policyholder* behaviour of possible changes in taxation should also be considered.
- 7.3.66 G In accordance with *PRU 7.3.7R* and *PRU 7.3.13R*, take-up rates for guaranteed annuity options should be assessed on a prudent basis with assumptions that include margins for adverse deviation (see *PRU 7.3.13R* to *PRU 7.3.19G*) that take account of current experience and the potential for future change. The *firm* should reserve for option take-up at least at a prudent margin over current experience for options shortly to vest. For longer term options where the option becomes increasingly valuable in the future due to projected mortality improvements, increased take-up rates should be assumed. In view of the growing uncertainty over take-up rates for projections further in the future, for guaranteed annuity option dates 20 years or more ahead at least a 95% take-up rate assumption should be made.
- 7.3.67 G Where there is considerable variation in the cost of the option depending on conditions at the time the option is exercised, and where that variation constitutes a material risk for the *firm*, it will generally be appropriate to use stochastic modelling. In this case prices from the asset model used in the stochastic approach should be benchmarked to relevant market asset prices before determining the value of the option. Where stochastic modelling is not undertaken, market option prices should be used to determine suitable assumptions for the valuation of the option. If no market exists for a particular option, a *firm* should take the value of the nearest equivalent benefit or right for which a market exists and document the way in which it has adjusted that valuation to reflect the original option.
- 7.3.68 G Where the option offers a choice between two non-discretionary financial benefits (such as between a guaranteed cash sum or a guaranteed annuity value, or between a unit value and a maturity guarantee) and where there is a wide range of possible outcomes, the *firm* should normally model such liabilities stochastically. In carrying out such modelling *firms* should take into account the likely choices to be made by *policyholders* in each scenario. *Firms* should make and retain a record of the development and application of the model.
- 7.3.69 G The value of a contract with an option is greater than the value of a similar contract without the option, that is, the option has value whether it is expected to be exercised or not. Although in theory a *firm* can rebalance its investments to match the expected cost of the option to the *firm* (including the time value of the option), this takes time to achieve and the market may move more quickly than the *firm* is able to respond. Also, there are likely to be transaction costs. *Firms* should

- take these aspects into consideration in setting up *mathematical reserves*.
- 7.3.70 R (1) Where a *policyholder* may opt to be paid a cash amount, or a series of cash payments, the *mathematical reserves* for the *contract of insurance* established under *PRU 7.3.7R* must be sufficient to ensure that the payment or payments could be made solely from:
- (a) the assets covering those *mathematical reserves*; and
  - (b) the resources arising from those assets and from the contract itself.
- (2) In (1) references to a cash amount or a series of cash payments include the amount or amounts likely to be paid on a voluntary discontinuance.
- (3) For the purposes of (1), the *firm* must assume that:
- (a) the assumptions adopted for the current valuation remain unaltered and are met; and
  - (b) discretionary benefits and charges will be set so as to fulfil the *firm's* regulatory duty to treat its *customers* fairly.
- (4) (1) may be applied to a group of similar contracts instead of to the individual contracts within that group.
- 7.3.71 R For the purposes of *PRU 7.3.70R*, a *firm* must assume that the amount of a cash payment secured by the exercise of an option is:
- (1) in the case of an *accumulating with-profits policy*, the lower of:
    - (a) the amount which the *policyholder* would reasonably expect to be paid if the option were exercised, having regard to the representations made by the *firm* and including any expectations of a *final bonus*; and
    - (b) that amount, disregarding all discretionary adjustments;
  - (2) in the case of any other *policy*, the amount which the *policyholder* would reasonably expect to be paid if the option were exercised, having regard to the representations made by the *firm*, without taking into account any expectations regarding future distributions of profits or the granting of discretionary additions in respect of an *established surplus*.
- 7.3.72 G In *PRU 7.3.71R(1)(a)* *firms* must take into consideration, for example, a market value adjustment where such an adjustment has been described in representations made to *policyholders* by the *firm*. However, any discretionary adjustment, such as a market value adjustment, cannot be included in the amount calculated in *PRU 7.3.71R(1)(b)*.
- Persistence assumptions
- 7.3.73 G *PRU 7.3.76R* and *PRU 7.3.77G* apply to the valuation of the *with-profits insurance liabilities* of *realistic basis life firms*. *PRU 7.3.74R* and *PRU 7.3.75G* apply to the valuation of all other liabilities.
- 7.3.74 R Except as permitted by *PRU 7.3.76R*, a *firm* must not make any allowance in the calculation of the *mathematical reserves* for the voluntary discontinuance of any *contract of insurance* if the amount of the *mathematical reserves* so determined would, as a result, be reduced.
- 7.3.75 G The rate of voluntary discontinuance (that is, lapse, surrender or paying up) is often difficult to predict and may be volatile especially in the short term during stressful economic conditions. Depending upon the circumstances and contract terms, voluntary discontinuance may increase or decrease the *firm's* liability. In effect, *PRU 7.3.74R* requires a *firm* to assume that there will be no voluntary discontinuance if assuming voluntary discontinuance would reduce the liability. This protects against the risk that arises from volatility in the rate of voluntary discontinuance. In addition, there is the risk of assets not being realisable when

- needed due to the rates of discontinuance exceeding expected levels.
- 7.3.76 R *A realistic basis life firm* may make assumptions about voluntary discontinuance rates in the calculation of the *mathematical reserves* for its *with-profits insurance business* provided that those assumptions meet the general requirements for prudent assumptions as set out in *PRU 7.3.10R* and *PRU 7.3.13R*.
- 7.3.77 G The prudential margin in respect of assumptions of voluntary discontinuance should be validated both in relation to recent experience and to variations in future experience that might arise as a result of reasonably foreseeable changes in conditions. In particular, where estimates of experience are being made well into the future, the assumptions should contain margins that take into account the increased risk of adverse experience arising from changed circumstances. *Firms* should also consider the possibility of anti-selection by *policyholders* and of variations in persistency experience for different classes and cohorts of business.

#### Reinsurance

- 7.3.78 G The prospective valuation of future cash flows to determine the amount of the *mathematical reserves* includes amounts to be received or paid under contracts of *reinsurance* in respect of *long-term insurance business* (see *PRU 7.3.28R(4)*). This applies even where those cash flows cannot be identified as related to particular *long-term insurance contracts* (see *PRU 7.3.22R(3)*).
- 7.3.79 R *A firm* must value *reinsurance* cash flows using methods and assumptions which are at least as prudent as the methods and assumptions used to value the underlying *contracts of insurance* which have been reinsured. In particular:
- (1) *reinsurance* recoveries must not be recognised unless the underlying liabilities to which they relate have also been recognised;
  - (2) *reinsurance* cash outflows that are unambiguously linked to the emergence as surplus of margins included in the valuation of existing *contracts of insurance* or to the exercise by a *reinsurer* of its rights under a termination clause need not be valued (see *PRU 7.3.85R*); and
  - (3) *reinsurance* cash inflows that are contingent on factors or conditions other than the insurance risks that are reinsured must not be valued.
- 7.3.80 G In valuing *reinsurance* cash flows, a *firm* should establish prudent margins for adverse deviation (see *PRU 7.3.13R* to *PRU 7.3.19G*) including margins in respect of:
- (1) any uncertainty as to the amount or timing of amounts to be paid or received; and
  - (2) the risk of credit default by the *reinsurer*.
- 7.3.81 G In assessing the risk of credit default, the *firm* should take into account the *rules and guidance* in *PRU 3.2* (Credit risk in insurance).
- 7.3.82 G It will not necessarily be appropriate to use the same assumptions in *PRU 7.3.79R* as for the underlying contracts. For example, if only a subgroup of the original contracts is reinsured, it may be appropriate to use different mortality rates.
- 7.3.83 G Only *reinsurance* cash inflows that are triggered unambiguously by the insurance risks of the *firm* that are reinsured may be valued. *Reinsurance* cash inflows that depend on other contingencies where the outcome does not form part of the valuation basis should not be given credit.
- 7.3.84 G *Firms* should assess the extent of margins in the valuation of the existing *contracts of insurance* where these provide implicit provision for the *reinsurance* cash outflows in *PRU 7.3.79R*. Where the *reinsurance* asset exceeds the estimated value of the future surplus under reinsured contracts *firms* should assess their

- credit risk exposure to the *reinsurer* .
- 7.3.85 R For the purposes of *PRU 7.3.79R(2)*, the “link” must be such that a contingent liability to pay or repay the amount to the *reinsurer* could not arise except when, and to the extent that, the margins in the valuation of the existing *contracts of insurance* emerge as surplus, or the *reinsurer* exercises its rights under a termination clause as a result of fraud, misrepresentation, the non-payment of *reinsurance premiums* by the *firm* or a failure by the *firm* to obtain the agreement of the *reinsurer* to a transfer of business by the *firm*.
- 7.3.86 R For the purposes of *PRU 7.3.79R(2)* and *PRU 7.3.85R*, future surplus may only be offset against future *reinsurance* cash outflow in respect of surplus on *non-profit insurance contracts* and the charges or shareholder transfers arising as surplus from *with-profits insurance contracts*. Such charges and transfers may only be allowed for to the extent consistent with the regulatory duty of the *firm* to treat its *customers* fairly.
- 7.3.87 G For the purposes of *PRU 7.3.85R*, a contingent liability means a liability that would only arise upon the happening of a particular contingency, even where that contingency is not expected to occur. For example, if the *firm* has a *reinsurance* arrangement in force that in the event the *firm* were wound up would give rise to repayments other than out of surplus emerging, the *reinsurance* cash outflows should be valued as a liability.
- 7.3.88 G *PRU 7.3.85R* allows a *firm* not to value *reinsurance* cash outflows provided the contingencies in which the *reinsurance* would require repayment other than out of future surpluses are limited to termination clauses concerning fraud, misrepresentation, non-payment of *reinsurance premiums* by the *firm* or a failure by the *firm* to obtain the agreement of the *reinsurer* to a transfer of business by the *firm*.
- 7.3.89 G Where the *reinsurance* cash outflow is payable by a fund or sub-fund that generates such profits, charges or transfers, the *firm* need make no provision for such payments provided that repayment to the *reinsurer* is linked unambiguously (as defined in *PRU 7.3.85R*) to the emergence of future surplus. Where the profits, charges or transfers arising under a block of business are payable by a fund or sub-fund to another part of the *firm* then only where the *firm* has committed to remit such profits, charges or transfers directly to the *reinsurer* would it be acceptable for no provision for payments to the *reinsurer* to be made.
- 7.3.90 R In *PRU 7.3.78G* to *PRU 7.3.89G* references to *reinsurance* and contracts of *reinsurance* include analogous non-*reinsurance* financing agreements.
- 7.3.91 G In *PRU 7.3.78G* to *PRU 7.3.89G* references to *reinsurance* cash outflow include any provision for the reduction in *policy* liabilities recognised as covered under a contract of *reinsurance* or for the reduction of any debt to the *firm* previously created under a contract of *reinsurance*. In *PRU 7.3.90R* analogous non-*reinsurance* financing agreements include contingent loans, securitisations and any other arrangements giving rise to charges on future surplus arising.

## 7.4 With-profits insurance capital component

### Application

- 7.4.1 R *PRU 7.4 applies to a realistic basis life firm.*
- 7.4.2 G *A realistic basis life firm means a firm to which PRU 2.1.15R applies. The application of PRU 2.1.15R is set out in PRU 2.1.16R and PRU 2.1.17R. PRU 2.1.9R requires that a firm must maintain at all times capital resources equal to or in excess of its capital resources requirement. The enhanced capital requirement forms part of the capital resources requirement for a realistic basis life firm. The with-profits insurance capital component forms part of the enhanced capital requirement which a realistic basis life firm is required to calculate in accordance with PRU 2.1.34R.*

### Purpose

- 7.4.3 G *This section sets out rules and guidance as to the methods and assumptions to be used in calculating the with-profits insurance capital component.*
- 7.4.4 G *The purpose of the with-profits insurance capital component is to supplement the mathematical reserves so as to ensure that a firm holds adequate financial resources for the conduct of its with-profits insurance business. In particular, capital in excess of the mathematical reserves may be needed to ensure that adequate final bonuses can be awarded to policyholders. That is, adequate in the sense that in setting bonuses payable to policyholders the firm pays due regard to the interests of its policyholders and treats them fairly. The mathematical reserves for a realistic basis life firm are not required to include provision for future annual bonuses or final bonuses (PRU 7.3.9R).*
- 7.4.5 G *The required procedures are summarised in the flowchart in PRU 7 Ann 1G.*

### Main requirements

- 7.4.6 R *A firm must calculate the with-profits insurance capital component in accordance with PRU 7.4.7R.*
- 7.4.7 R (1) *The with-profits insurance capital component for a firm is the aggregate of any amounts that:*
- (a) *result from the calculations specified in (2) and (3); and*
  - (b) *are greater than zero.*
- (2) *Subject to (3), in relation to each with-profits fund within the firm, the firm must deduct B from A, where:*

- (a) A is the amount of the *regulatory excess capital* for that fund (see *PRU 7.4.23R*); and
  - (b) B is the amount of the *realistic excess capital* for that fund (see *PRU 7.4.32R*).
- (3) Where a capital instrument that can be included in the *firm's capital resources* in accordance with *PRU 2.2* has been attributed wholly or partly to a *with-profits fund* and that instrument meets the requirements of *PRU 2.2.93R*, the *firm* must add to the amount calculated under (2) for that fund the result, subject to a minimum of zero, of deducting D from C where:
- (a) C is the outstanding face amount of the instrument to the extent attributed to the fund; and
  - (b) D is the realistic value of the instrument to the extent attributed to the fund in the single event that determines the *risk capital margin* under *PRU 7.4.43R*.
- 7.4.8 G Subordinated debt which is subordinated to *policyholder* interests (see *PRU 2.2.93R*) is an example of the sort of capital instrument that may give rise to a component of the *WPICC* under *PRU 7.4.7R(3)*. Such instruments are treated as capital under *PRU 2.2*, subject to the requirements of *PRU 2.2.93R*. Under realistic reserving the capital instrument is valued as a realistic liability (see *PRU 7.4.40R*) and in calculating the *risk capital margin* such an instrument would be valued at its realistic value in the single event outlined in *PRU 7.4.43R* (see also *PRU 7.4.162R*). Overall, the effect of *PRU 2.2*, *PRU 7.4.7R(3)* and *PRU 7.4.43R* is to enable a *firm* that obtains subordinated debt to benefit from additional *capital resources* equal to the face amount of that debt.
- 7.4.9 G *SUP 4* (Actuaries) sets out the role and responsibilities of the *actuarial function* and of the *with-profits actuary*.
- (1) As part of his duties under *SUP 4.3.13R*, the *actuary* appointed by the *firm* to perform the *actuarial function* must calculate the *firm's mathematical reserves* and, in the context of the calculation of the *with-profits insurance capital component*, must also:
- (a) advise the *firm's governing body* on the methods and assumptions to be used in the calculation of the *firm's with-profits insurance capital component*;
  - (b) perform that calculation in accordance with the methods and assumptions determined by the *firm's governing body*; and
  - (c) report to the *firm's governing body* on the results of that calculation.

- (2) As part of his duties under SUP 4.3.16R, the *with-profits actuary* must advise the *firm's governing body* on the discretion exercised by the *firm*. In the context of the calculation of the *with-profits insurance capital component*, the *with-profits actuary* must also advise the *firm's governing body* as to whether the methods and assumptions (including the allowance for management actions) used for that calculation are consistent with the *firm's Principles and Practices of Financial Management (PPFM - see COB 6.10)* and with its regulatory duty to treat its *customers* fairly.

## General

### Definitions

- 7.4.10 R In this section, real estate means an interest in land, buildings or other immovable property.
- 7.4.11 R In this section, the long-term gilt yield is the annualised equivalent of the yield on the 15-year index for United Kingdom Government fixed-interest securities jointly compiled by the Financial Times, the Institute of Actuaries and the Faculty of Actuaries.
- 7.4.12 R For the purposes of this section, a *firm* has an exposure to an asset or liability where the *firm's* valuation of its assets or liabilities changes when the value of the asset or liability changes.
- 7.4.13 R Unless the context otherwise requires, all references (however expressed) in this section to realistic liabilities, or to liabilities which are included in the calculation of realistic liabilities, include discretionary benefits payable by the *firm* in accordance with the *firm's* regulatory duty to treat its *customers* fairly.
- 7.4.14 G In this section, any reference to a *firm's* regulatory duty to treat its *customers* fairly is a reference to the *firm's* duty under *Principle 6* (Customers' interests). This states that a *firm* must pay due regard to the interests of its *customers* and treat them fairly.
- 7.4.15 G In this section, any reference to the *Principles and Practices of Financial Management (PPFM)* is a reference to the requirements in COB 6.10 (Principles and Practices of Financial Management) for *firms* to establish, maintain and record the principles and practices of financial management according to which the business of its *with-profits funds* is conducted.
- 7.4.16 G The extent to which a *firm* requires a separate *PPFM* for each of its *with-profits funds* will depend on the *firm's* circumstances and any relevant representations made by the *firm* to its *with-profits policyholders*. In this section, any reference to a *firm's PPFM* refers to the *PPFM* which relate to the *with-profits fund* or the *with-profits insurance contracts* in question.

### Record keeping

- 7.4.17 R A *firm* must make, and retain for an appropriate period of time, a record of:
- (1) the methods and assumptions used in making any calculation required for the purposes of this section (and any subsequent changes) and the reasons for their use; and
  - (2) any change in practice and the nature of, reasons for, and effect of, any change in approach with respect to those methods and assumptions.
- 7.4.18 G *PRU 1.4.53R* requires *firms* to maintain accounting and other records for a minimum of three years, or longer as appropriate. For the purposes of *PRU 7.4.17R*, a period of longer than three years will be appropriate for a *firm's long-term insurance business*. In determining an appropriate time period, a *firm* should have regard to:
- (1) the detailed *guidance* on record keeping in *PRU 1.4.51G* to *PRU 1.4.64G*;
  - (2) the nature and term of the *firm's long-term insurance contracts*; and
  - (3) any additional provisions or statutory requirements applicable to the *firm* or its records.
- 7.4.19 R A *firm* must also identify in the record required to be kept by *PRU 7.4.17R* changes in practice, in particular changes in those items which will or may be significant in relation to the eventual *claim* values.
- 7.4.20 G Some of the changes identified in accordance with *PRU 7.4.19R* may have to be notified to the *firm's policyholders* in accordance with the *firm's PPFM*.

General principles for allocating aggregate amounts

- 7.4.21 R Where any calculation is required under this section which:
- (1) is to be made in respect of any *with-profits fund* of a *firm*; and
  - (2) covers an amount that is otherwise calculated in relation to the *firm* as a whole;
- the *firm* must make an allocation of that amount as between all of its funds (including funds which are not *with-profits funds*).
- 7.4.22 R In any case where:
- (1) *non-profit insurance contracts* are written in any *with-profits fund* of a *firm*; and
  - (2) any calculation is required under this section which:

- (a) is to be made in respect of the *regulatory excess capital* or *realistic excess capital* for the fund; and
- (b) covers an amount that is otherwise calculated or allocated in relation to the fund as a whole;

the *firm* must make an allocation of the amount in (2)(b) as between the *with-profits insurance contracts* and *non-profit insurance contracts* written in the fund.

#### Calculation of regulatory excess capital

- 7.4.23 R A *firm* must calculate the *regulatory excess capital* for each of its *with-profits funds* by deducting B from A, where:
- (1) A is the *regulatory value of assets* of the fund (see *PRU 7.4.24R*); and
  - (2) B is the sum of:
    - (a) the *regulatory value of liabilities* of the fund (see *PRU 7.4.29R*);
    - (b) the *long-term insurance capital requirement* in respect of the fund's *with-profits insurance contracts*; and
    - (c) the *resilience capital requirement* in respect of the fund's *with-profits insurance contracts*.

#### Regulatory value of assets

- 7.4.24 R (1) For the purposes of *PRU 7.4.23R(1)*, the *regulatory value of assets* of a *with-profits fund* is equal to the sum of:
- (a) the amount of the fund's *long-term admissible assets*; and
  - (b) the amount of any *implicit items* allocated to that fund;
- less an amount, representing any *non-profit insurance contracts* written in that fund, determined in accordance with (2).
- (2) Where *non-profit insurance contracts* are written in a *with-profits fund*, the amount representing those contracts is the sum of:
- (a) the *mathematical reserves* in respect of the *non-profit insurance contracts* written in the fund; and
  - (b) the following amounts, to the extent that each of them is covered by the fund's *long-term admissible assets*:

- (i) an amount in respect of the *non-profit insurance contracts* written in the fund which represents an appropriate allocation of the *firm's long-term insurance capital requirement*; and
  - (ii) an amount in respect of the *non-profit insurance contracts* written in the fund which represents an appropriate allocation of the *firm's resilience capital requirement*.
- 7.4.25 R For the purpose of determining the value of a fund's *long-term admissible assets* in accordance with *PRU 7.4.24R(1)(a)*, no value is to be attributed to debts and claims other than in respect of:
- (1) amounts that have already fallen due; and
  - (2) tax recoveries and claims against *compensation funds* to the extent not already offset in the *mathematical reserves*.
- 7.4.26 R In making a determination in accordance with *PRU 7.4.24R(2)*, a *firm* must allocate *long-term admissible assets* of an appropriate nature and term to any *non-profit insurance contracts* written in the *with-profits fund*.
- 7.4.27 G In calculating the amount of a *firm's resilience capital requirement* allocated to the *non-profit insurance contracts* in the *with-profits fund*, the *firm* should calculate the amount of resilience capital that would be required if that business were in a standalone company owning the assets allocated. The *resilience capital requirement* for the *with-profits insurance business* should also be calculated as if it were a stand-alone company. An allocation of the *firm's total resilience capital requirement* should then be made in a manner that would produce a result materially consistent with an allocation in proportion to the amounts calculated for each part of the business as stand-alone entities.
- 7.4.28 G A *firm* needs to obtain an *implicit item waiver* from the *FSA* in order to bring in an amount under *PRU 7.4.24R(1)(b)*. For *guidance* on applying for an *implicit item waiver* in respect of future surpluses relating to *with-profits funds* see *PRU 2 Ann 2G*. The amount of any *implicit item* allocated to a *with-profits fund* may be defined in the terms of any *waiver* granted.

#### Regulatory value of liabilities

- 7.4.29 R For the purposes of *PRU 7.4.23R(2)(a)*, the *regulatory value of liabilities* of a *with-profits fund* is equal to the sum of:
- (1) the *mathematical reserves*, in respect of the fund's *with-profits insurance contracts*, including the value of any provisions reflecting bonuses allocated at the *actuarial valuation date*; and
  - (2) the *regulatory current liabilities* of the fund (see *PRU 7.4.30R*).

- 7.4.30 R For the purposes of *PRU 7.4.29R(2)*, the *regulatory current liabilities* of a *with-profits fund* are equal to the sum of the following amounts to the extent that they relate to that fund:
- (1) accounting liabilities (including *long-term insurance liabilities* which have fallen due before the end of the *financial year*);
  - (2) liabilities from *deposit back arrangements*; and
  - (3) any provision for adverse variations (determined in accordance with *PRU 4.3.17R*).

- 7.4.31 G The amount of *regulatory current liabilities* for a *with-profits fund* refers to the sum of the amounts in (1) and (2) in respect of the fund:
- (1) the amount of ‘Total other insurance and non-insurance liabilities’; and
  - (2) the amount of ‘Cash bonuses which had not been paid to *policyholders* prior to the end of the financial year’;

as disclosed at lines 49 and 12 respectively of the appropriate Form 14 (‘Long-term business liabilities and margins’) for that fund as part of the Annual Returns required to be deposited with the *FSA* under *IPRU(INS)* rule 9.6(1).

#### Calculation of realistic excess capital

- 7.4.32 R A *firm* must calculate the *realistic excess capital* for each of its *with-profits funds* by deducting B from A, where:
- (1) A is the *realistic value of assets* of the fund (see *PRU 7.4.33R*); and
  - (2) B is the sum of:
    - (a) the *realistic value of liabilities* of the fund (see *PRU 7.4.40R*); and
    - (b) the *risk capital margin* for the fund (see *PRU 7.4.43R*).

#### Realistic value of assets

- 7.4.33 R (1) For the purposes of *PRU 7.4.32R(1)*, the *realistic value of assets* of a *with-profits fund* is the sum of:
- (a) the amount of the fund’s *regulatory value of assets* determined in accordance with *PRU 7.4.24R*, but with no value given to any *implicit item* and excluding the regulatory value of any *shares* in a *related undertaking* which carries on *long-term insurance business*;
  - (b) the amount of the fund’s excess *admissible assets* (see *PRU 7.4.36R*);

- (c) the present value of future profits (or losses) on any *non-profit insurance contracts* written in the *with-profits fund* (see *PRU 7.4.37R*);
  - (d) the value of any *derivative* or *quasi-derivative* held in the fund (see *PRU 1.3.11R* to *PRU 1.3.30R*) to the extent its value is not reflected in (a), (b) or (c);
  - (e) any amount determined under (2); and
  - (f) the amount of any prepayments made from the fund.
- (2) Where any equity *shares* held (directly or indirectly) by a *firm* (A):
- (a) are *shares* in a *related undertaking* (B) which carries on *long-term insurance business*; and
  - (b) have been identified by A under *PRU 7.4.21R* as *long-term insurance assets* which are held in the *with-profits fund* for which the realistic value is to be determined under (1);

the amount required under (1)(e) is the relevant proportion of the value of all B's equity *shares* as determined in (3).

- (3) For the purposes of (2):
- (a) the relevant proportion is the proportion of the total number of equity *shares* issued by B which are held (directly or indirectly) by A;
  - (b) the value of all B's equity *shares* must be taken as D deducted from C, where C is equal to the sum of:
    - (i) the shareholder net assets of B;
    - (ii) any surplus assets in the *non-profit funds* of B;
    - (iii) any additional amount arising from the excess of the present value of future profits (or losses) on any *non-profit insurance contracts* written by B (calculated on a basis consistent with *PRU 7.4.37R*), excluding any amount arising from business that is written in a *with-profits fund*, over any present value of future profits (or losses) used in calculating B's regulatory capital requirements and arising from business outside its *with-profits funds*; and
    - (iv) where B has any *with-profits funds*, the present value of projected future transfers out of those funds to shareholder funds of B;

and D is equal to the sum of:

- (v) the *long-term insurance capital requirement* in respect of any *non-profit insurance contracts* written in a *non-profit fund* of B;
  - (vi) the amount of the *resilience capital requirement* in respect of any *non-profit insurance contracts* written in a *non-profit fund* of B;
  - (vii) any part of the *with-profits insurance capital component* of B, to the extent that this is not covered from the assets of the *with-profits fund* from which it arises after deducting from those assets the amount calculated under (iv); and
  - (viii) any assets of B that back its regulatory capital requirements and that are valued in (iii) in the calculation of the present value of future profits of *non-profit insurance business* written by B.
- (4) The methods and assumptions used in the calculations under (3)(b)(iii) and (iv) must follow a consistent approach to that set out in *PRU 7.4.37R*.
- 7.4.34 G In *PRU 7.4.33R(1)(d)*, where a *derivative* or *quasi-derivative* has a positive asset value, credit should be given within the *realistic value of assets*. If the *derivative* or *quasi-derivative* has a negative asset value it should be valued within realistic liabilities as an element of *realistic current liabilities* (see *PRU 7.4.40R(3)*).
- 7.4.35 G Where a *firm* identifies *shares* in a *related undertaking* which carries on *long-term insurance business* as *shares* held in one of its *with-profits funds*, *PRU 7.4.33R(1)(e)*, (2) and (3) brings in a realistic valuation of the *related undertaking* equal to its net assets plus the present value of future profits, less its regulatory capital requirements (see *PRU 7.4.33R(3)(v)*, (vi) and (vii)). Where the *related undertaking* has taken the present value of future profits arising from its contracts into consideration in covering its regulatory capital requirements (for example, its *risk capital margin*, under *PRU 7.4.45R(2)(c)*), *PRU 7.4.33R(3)(b)(iii)* requires a *firm* to exclude those future profits in valuing the *related undertaking*. The subtraction of the capital requirements in the calculation provides a straightforward method of allowing for the change in the *related undertaking's* value in stress conditions, as the value of the *related undertaking* is not subject to the realistic stress tests of the *risk capital margin*. In calculating the present value of future profits on *non-profit insurance business* written in the *related undertaking* under *PRU 7.4.33R(3)(b)(iii)*, a *firm* may value the release of capital requirements as the business runs off (see *PRU 7.4.38G*). *PRU 7.4.33R(3)(b)(viii)* ensures that any such capital is not double-counted.
- 7.4.36 R Excess *admissible assets* of a *with-profits fund* means *admissible assets* which exceed any of the percentage limits referred to in *PRU 3.2.22R*.
- 7.4.37 R A *firm* must calculate the present value of future profits (or losses) on *non-profit insurance contracts* written in the *with-profits fund* using methodology and assumptions which:
- (1) are based on current estimates of future experience;

- (2) involve reasonable (but not excessively prudent) adjustments to reflect risk and uncertainty;
- (3) allow for a market-consistent valuation of any guarantees or options within the contracts valued;
- (4) are derived from current market yields;
- (5) have regard to generally accepted actuarial practice and generally accepted industry standards appropriate for *firms* carrying on *long-term insurance business*;
- (6) are consistent with the allocation, made in accordance with *PRU 7.4.22R*, of any aggregate amounts as between the *with-profits insurance contracts* and the *non-profit insurance contracts* written in the fund;
- (7) allow for any tax that would be payable out of the *with-profits fund* in respect of the contracts valued; and
- (8) are consistent with the allocation, made in accordance with *PRU 7.4.26R*, of *long-term admissible assets* as between the *with-profits insurance contracts* and any *non-profit insurance contracts* written in the fund.

7.4.38 G In calculating the present value of future profits (or losses) for *non-profit insurance business* required by *PRU 7.4.33R(1)(c)*, to the extent that the *long-term insurance capital requirement* and the *resilience capital requirement* are covered by the *with-profits fund's long-term admissible assets*, a *firm* may take into consideration any release of these items as the relevant *policies* go off the books.

7.4.39 G Annuities do not typically fall to be valued on a market-consistent basis under *PRU 7.4.37R(3)* as they are not "options and guarantees" as defined for accounting purposes. This is because they do not have "time value" in the option-pricing meaning of that term. However where, atypically, annuities do fall to be valued on a market-consistent basis under *PRU 7.4.37R(3)*, the discount rate used should be appropriate to the characteristics of the liability, including its illiquidity. The appropriate interest rate, therefore, would not typically be the risk-free rate. Where illiquid assets are used to closely match similar illiquid liabilities, as could be the case in annuities business, it would be appropriate to look at the liquidity premium that is implicit in the market value of the assets as a proxy for the liquidity premium that should be included in a market consistent valuation of the liabilities. However, care should be exercised in doing this. Assets and liabilities are rarely perfectly matched and an appropriate margin needs to be included in the valuation to cover the risk of unexpected mismatch.

#### Realistic value of liabilities: general

7.4.40 R For the purposes of *PRU 7.4.32R(2)(a)*, the *realistic value of liabilities* of a *with-profits fund* is the sum of:

- (1) the *with-profits benefits reserve* of the fund;
- (2) the *future policy related liabilities* of the fund; and
- (3) the *realistic current liabilities* of the fund.

7.4.41 G All liabilities arising under, or in connection with, *with-profits insurance contracts* written in the fund should be included in the *realistic value of liabilities* referred to in *PRU 7.4.40R*, including those in respect of guarantees and the value of options.

7.4.42 G Detailed *rules and guidance* for the calculation of the three elements referred to in *PRU 7.4.40R* are contained below in this section:

- (1) *PRU 7.4.116R* to *PRU 7.4.135G* refer to the *with-profits benefits reserve*;
- (2) *PRU 7.4.136G* to *PRU 7.4.189G* refer to the *future policy related liabilities*; and
- (3) *PRU 7.4.190R* and *PRU 7.4.191R* refer to the *realistic current liabilities*.

#### Risk capital margin

- 7.4.43 R
- (1) A *firm* must calculate a *risk capital margin* for each of its *with-profits funds* in accordance with (2) to (6).
  - (2) The *firm* must identify relevant assets (see *PRU 7.4.45R*) which, in the most adverse scenario, will have a value (see *PRU 7.4.46R*) which is equal to the *realistic value of liabilities* of the fund under that scenario.
  - (3) The most adverse scenario means the single event comprising that combination of the scenarios in *PRU 7.4.44R* which gives rise to the largest positive value that results from deducting B from A, where:
    - (a) A is the value of relevant assets which will produce the result described in (2); and
    - (b) B is the *realistic value of liabilities* of the fund.
  - (4) The *risk capital margin* for the fund is the result of deducting C from A, where C is the sum of:
    - (a) B; and
    - (b) any amount included within relevant assets under *PRU 7.4.45R(2)(c)*.

- (5) In calculating the value of relevant assets for the purpose of determining the most adverse scenario in (3), a *firm* must not adjust the valuation of any asset taken into consideration under *PRU 7.4.33R(1)(e) (related undertakings carrying on long-term insurance business)* or *PRU 7.4.45R(2)(c) (present value of future profits arising from insurance contracts written outside the with-profits fund)*.
- (6) In calculating the *realistic value of liabilities* of a fund under any scenario, a *firm* is not required to adjust the best estimate provision made under *PRU 7.4.190R(1)* in respect of a *defined benefits pension scheme* in accordance with *PRU 7.4.191R*.

7.4.44 R For the purposes of *PRU 7.4.43R(3)*, the scenarios are one scenario selected from each of the following:

- (1) in respect of *UK* and other assets within *PRU 7.4.62R(1)(a)*:
  - (a) the range of *market risk* scenarios identified in accordance with *PRU 7.4.68R(1)* (equities);
  - (b) the range of *market risk* scenarios identified in accordance with *PRU 7.4.68R(2)* (real estate); and
  - (c) the range of *market risk* scenarios identified in accordance with *PRU 7.4.68R(3)* (fixed interest securities);
- (2) in respect of non-*UK* assets within *PRU 7.4.62R(1)(b)*:
  - (a) the range of *market risk* scenarios identified in accordance with *PRU 7.4.73R(1)* (equities);
  - (b) the range of *market risk* scenarios identified in accordance with *PRU 7.4.73R(2)* (real estate); and
  - (c) the range of *market risk* scenarios identified in accordance with *PRU 7.4.73R(3)* (fixed interest securities);
- (3) the range of credit risk scenarios identified in accordance with *PRU 7.4.78R(1)* (bond or debt items);
- (4) the range of credit risk scenarios identified in accordance with *PRU 7.4.78R(2)* (*reinsurance* items or analogous non-*reinsurance* financing agreements);
- (5) the range of credit risk scenarios identified in accordance with *PRU 7.4.78R(3)* (other items including *derivatives* and *quasi-derivatives*); and
- (6) the persistency risk scenario identified in accordance with *PRU 7.4.100R*.

- 7.4.45 R (1) In *PRU 7.4.43R*, in relation to a *with-profits fund*, the relevant assets means a range of assets which meets the following conditions:
- (a) the range is selected on a basis which is consistent with the *firm's* regulatory duty to treat its *customers* fairly;
  - (b) the range must include assets from within the *with-profits fund* the value of which is greater than or equal to the *realistic value of liabilities* of the fund;
  - (c) the range is selected in accordance with (2); and
  - (d) no asset of the *firm* may be allocated to the range of assets identified in respect of more than one *with-profits fund*.
- (2) The range of assets must be selected from the assets specified in (a) to (c), in the order specified:
- (a) assets that have a realistic value under *PRU 7.4.33R*;
  - (b) where a *firm* has selected all the assets within (a), any *admissible assets* that are not identified as held within the *with-profits fund*; and
  - (c) where a *firm* has selected all the assets within (a) and (b), any additional assets.
- (3) But a *firm* must not bring any amounts into account under (2)(b) or (2)(c) in respect of any *with-profits fund* if that would result in the *firm* exceeding its overall maximum limit (determined according to whether the *firm* has only one *with-profits fund* or more than one such fund).
- (4) A *firm* exceeds its overall maximum limit for amounts brought into account under (2)(b) where:
- (a) in the case of a *firm* with a single *with-profits fund*, the amount the *firm* brings into account in respect of that fund;
  - (b) in the case of a *firm* with two or more *with-profits funds*, the aggregate of the amounts the *firm* brings into account in respect of each of those funds;
- exceeds the sum of the *firm's* shareholder net assets and the surplus assets in the *firm's non-profits funds*, less any regulatory capital requirements in respect of business written outside its *with-profits funds*.
- (5) A *firm* exceeds its overall maximum limit for amounts brought into account under (2)(c) where:

- (a) in the case of a *firm* with a single *with-profits fund*, the amount the *firm* brings into account in respect of that fund;
- (b) in the case of a *firm* with two or more *with-profits funds*, the aggregate of the amounts the *firm* brings into account in respect of each of those funds;

exceeds 50% of the present value of future profits arising from *insurance contracts* written by the *firm* outside its *with-profits funds*.

- 7.4.46 R In valuing the relevant assets identified under *PRU 7.4.43R(2)*, a *firm* must use the same methods of valuation as in *PRU 7.4.33R*, except that:
- (1) the value of any *admissible assets* not identified as held within the *with-profits fund* (see *PRU 7.4.45R(2)(b)*) must be as determined under *PRU 1.3*; and
  - (2) the value of any asset which forms part of the range of assets as a result of *PRU 7.4.45R(2)(c)* must be determined on a basis consistent with that described in *PRU 7.4.37R*.
- 7.4.47 G The purpose of the *risk capital margin* for a *with-profits fund* is to cover adverse deviation from:
- (1) the fund's *realistic value of liabilities*;
  - (2) the value of assets identified, in accordance with *PRU 7.4.43R(2)*, to cover the amount in (1) and the fund's *risk capital margin*;
- arising from the effects of *market risk*, credit risk and persistency risk. Other risks are not explicitly addressed by the *risk capital margin*.
- 7.4.48 G The amount of the *risk capital margin* calculated by the *firm* for a *with-profits fund* will depend on the *firm*'s choice of assets held to cover the fund's *realistic value of liabilities* and the margin. *PRU 7.4.43R* requires the relevant assets to be sufficient, in the most adverse scenario, to cover the *realistic value of liabilities* in the event that scenario was to arise.

- 7.4.49 G *PRU 7.4.45R(2)(c)* allows *firms* to bring the economic value of *non-profit insurance business* written outside a *with-profits fund* into the assets available to cover the *risk capital margin*. To place a prudent limit on the amount of future profits taken into consideration a maximum of 50% of the present value of *non-profit insurance business* can be taken into the calculation (*PRU 7.4.45R(5)*). Where a contract is written in a *non-profit fund* but the assets arising from that contract are invested in a *with-profits fund* which is subject to charges for investment management or other services which benefit the *non-profit fund*, such charges can be taken into consideration in calculating the present value of future profits of the *non-profit insurance business*. Where a proportion of the present value of future profits on *non-profit insurance business* written outside a *with-profits fund* is brought in as an asset, no stress tests apply to this asset (see *PRU 7.4.43R(5)*) as the amount taken into consideration is limited to 50% of the total present value.
- 7.4.50 G A *firm* using a stochastic approach in *PRU 7.4.169R(1)* should keep recalibration in the post-stress scenarios to the minimum required to reflect any change in the underlying risk-free yields. A *firm* using the market costs of hedging approach, as in *PRU 7.4.169R(2)*, may assume in estimating the market cost of hedging in the post-stress scenarios that market volatilities are unchanged.
- 7.4.51 G In the scenario tests set out in *PRU 7.4.62R* to *PRU 7.4.103G*, *firms* are required to test for worst case scenarios across a range of assumptions. The tests are, with the exception of the credit risk test, two-sided, requiring both increases and decreases in the assumptions. The *FSA* does not expect a *firm* to investigate every possible stress, but a *firm* should be able to demonstrate that it is reasonable to assume that it has successfully identified the single event that determines the *risk capital margin* for the *firm's* business, as required by *PRU 7.4.43R(3)*.

#### Management actions

- 7.4.52 R In calculating the *risk capital margin* for a *with-profits fund*, a *firm* may reflect, in its projections of the value of assets and liabilities under the scenarios in *PRU 7.4.44R*, the *firm's* prospective management actions (see *PRU 7.4.53R*).
- 7.4.53 R Prospective management actions refer to the foreseeable actions that would be taken by the *firm's* management, taking into account:
- (1) an appropriately realistic period of time for the management actions to take effect; and
  - (2) the *firm's* *PPFM* and its regulatory duty to treat its *customers* fairly.
- 7.4.54 G The management actions in *PRU 7.4.53R* may include, but are not limited to, changes in future bonus rates, reductions in *surrender values*, changes in asset dispositions (taking into account the associated selling costs) and changes in the amount of charges deducted from asset shares for *with-profits insurance contracts*.

- 7.4.55 G A *firm* should use reasonable assumptions in incorporating management actions into its projections of *claims* such that the mitigating effects of the management actions are not overstated. In modelling management actions, a *firm* should ensure consistency with its *PPFM* and take into account its regulatory duty to treat its *customers* fairly.
- 7.4.56 G In accordance with *PRU 7.4.17R*, a *firm* should make and retain a record of the approach used, in particular the nature and effect of anticipated management actions (including, where practicable, the amount by which the actions would serve to reduce the projected values of assets and liabilities).
- 7.4.57 G A *firm* which deducts charges in respect of any adverse experience or cost of capital to *with-profits insurance contracts* should keep a record under *PRU 7.4.17R* of the amount of any such charges to its *customers* and of how it has ensured their fair treatment.

#### Policyholder actions

- 7.4.58 R In calculating the *risk capital margin* for a *with-profits fund*, a *firm* must reflect, in its projections of the value of assets and liabilities under the scenarios in *PRU 7.4.44R*, a realistic assessment of the actions of its *policyholders* (see *PRU 7.4.59R*).
- 7.4.59 R *Policyholder* actions refer to the foreseeable actions that would be taken by the *firm's policyholders*, taking into account:
- (1) the experience of the *firm* in the past; and
  - (2) the changes that may occur in the future if options and guarantees become more valuable to *policyholders* than in the past.
- 7.4.60 G A *firm* should use realistic assumptions in incorporating *policyholder* actions into its projections of *claims* such that any mitigating effects of *policyholder* actions are not overstated and any exacerbating effects of *policyholder* actions are not understated. In modelling *policyholder* actions, a *firm* should ensure consistency with its *PPFM* and take into account its regulatory duty to treat its *customers* fairly in determining the options and information that would be available to *policyholders*.
- 7.4.61 G In calculating the persistency scenario in *PRU 7.4.100R*, a *firm* needs to make assumptions regarding the future termination rates exhibited by *policies*, at points described in particular in *PRU 7.4.101R*. Such assumptions should be realistic. However, the *firm* must have regard to the economic scenarios being projected. For example, if the value of an option became significantly greater in a future scenario than in the recent past, then the behaviour of *policyholders* in taking up the option is likely to differ in this future scenario compared with the recent past.

#### Market risk scenario

- 7.4.62 R (1) For the purposes of *PRU 7.4.44R*, the ranges of *market risk* scenarios that a *firm* must assume are:
- (a) for exposures to *UK* assets and for exposures to non-*UK* assets within (2), the ranges of scenarios set out in *PRU 7.4.68R*; and
  - (b) for exposures to other non-*UK* assets, the ranges of scenarios set out in *PRU 7.4.73R*.
- (2) The exposures to non-*UK* assets within this paragraph are:
- (a) exposures which do not arise from a significant territory outside the *United Kingdom* (see *PRU 7.4.63R*); or
  - (b) exposures which do arise from a significant territory outside the *United Kingdom* but which represent less than 0.5% of the *realistic value of assets* of the *with-profits fund*, measured by *market value*.
- 7.4.63 R For the purposes of this section in relation to a *with-profits fund*, a significant territory is any country or territory in which more than 2.5% of the fund's *realistic value of assets* (by *market value*) are invested.
- 7.4.64 G In determining its most adverse scenario, a *firm* applying *PRU 7.4.68R* and *PRU 7.4.73R* should consider separately possible movements in *UK* and non-*UK* markets. It should not assume that market prices in different markets move in a similar way at the same time. A *firm* should also allow for the effect of the other components of the single event comprising the combination of scenarios applicable under *PRU 7.4.43R*.
- 7.4.65 G In relation to the *market risk* scenarios in *PRU 7.4.68R* and *PRU 7.4.73R*, the effect of *PRU 7.4.52R* and *PRU 7.4.58R* is that a *firm* may reflect management actions and must make a realistic assessment of *policyholder* actions in projecting the assets and liabilities in its calculation of the *risk capital margin* for a *with-profits fund* within the *firm*. This contrasts with the position for calculating the *resilience capital requirement* for the *firm* (see *PRU 4.2.9G* to *PRU 4.2.26R*).
- 7.4.66 G In *PRU 7.4.62R* to *PRU 7.4.76G*, where there is reference to exposure to assets invested in a territory this should be interpreted as follows:
- (1) for equities, a stock that is listed on a stock market in that territory or, if unlisted, the stock of a *company* that is incorporated in that territory;
  - (2) for bonds, one that is denominated in the currency of that territory, or issued by an institution incorporated in that territory;
  - (3) for real estate, a property that is located in that territory; and

- (4) for *derivatives, quasi-derivatives* and other instruments, one where the assets to which the instrument is exposed are assets invested in that territory.

In *PRU 7.4.62R* to *PRU 7.4.76G*, a *preference share* should be subjected to the same stress tests as an equity share.

- 7.4.67 G The relevant assets identified under *PRU 7.4.43R(2)* to calculate the *risk capital margin* may, in certain circumstances, include up to 50% of the present value of future profits arising from *insurance contracts* written by the *firm* outside its *with-profits funds*. *PRU 7.4.43R(5)* exempts such an asset from the *market risk* stress tests.

Market risk scenario for exposures to UK assets and certain non-UK assets

- 7.4.68 R The range of *market risk* scenarios referred to in *PRU 7.4.62R(1)(a)* is:
- (1) a rise or fall in the *market value* of equities of up to the greater of:
    - (a) 10%; and
    - (b) 20%, less the *equity market adjustment ratio* (see *PRU 7.4.71R*);
  - (2) a rise or fall in real estate values of up to 12.5%; and
  - (3) a rise or fall in yields on all fixed interest securities of up to 17.5% of the long-term gilt yield.

- 7.4.69 R For the purposes of *PRU 7.4.68R*, a *firm* must:
- (1) assume that yields on equities and real estate remain unchanged from those applicable at market levels before applying each scenario; and
  - (2) model a rise or fall in equity, real estate and fixed interest markets as if the movement occurred instantaneously.

- 7.4.70 G For example, where the long-term gilt yield is 6%, a change of 17.5% in that yield would amount to a change of 1.05 percentage points. For the purpose of the scenarios in *PRU 7.4.68R(3)*, the *firm* would assume a fall or rise of up to 1.05 percentage points in yields on all fixed interest securities.

Equity market adjustment ratio

- 7.4.71 R The equity market adjustment ratio referred to in *PRU 7.4.68R(1)(b)* is:
- (1) if the ratio calculated in (a) and (b) lies between 80% and 100%, the result of 100% less the ratio (expressed as a percentage) of:
    - (a) the current value of the FTSE Actuaries All Share Index; to

- (b) the average value of the FTSE Actuaries All Share Index over the preceding 90 calendar days;
  - (2) 0%, if the ratio calculated in (1)(a) and (b) is more than 100%; and
  - (3) 20%, if the ratio calculated in (1)(a) and (b) is less than 80%.
- 7.4.72 R In *PRU 7.4.71R(1)(b)*, the average value of the FTSE Actuaries All Share Index over any period of 90 calendar days means the arithmetic mean based on levels at the close of business on each of the days in that period on which the London Stock Exchange was open for trading.
- Market risk scenario for exposures to other non-UK assets
- 7.4.73 R The range of *market risk* scenarios referred to in *PRU 7.4.62R(1)(b)* is:
- (1) an appropriate rise or fall in the *market value* of equities listed in that territory (see *PRU 7.4.75R*), which must be at least equal to the percentage determined in *PRU 7.4.68R(1)*;
  - (2) a rise or fall in real estate values in that territory of up to 12.5%; and
  - (3) a rise or fall in yields on all fixed interest securities of up to 17.5% of the nearest equivalent (in respect of the method of calculation) of the long-term gilt yield.
- 7.4.74 R For the purposes of *PRU 7.4.73R*, a *firm* must:
- (1) assume that yields on equities and real estate remain unchanged from those applicable at market levels before applying each scenario; and
  - (2) model a rise or fall in equity, real estate and fixed interest markets as if the movement occurred instantaneously.
- 7.4.75 R For the purposes of *PRU 7.4.73R(1)*, an appropriate rise or fall in the *market value* of equities to which a *firm* has exposure in a significant territory must be determined having regard to:
- (1) an appropriate equity market index (or indices) for that territory; and
  - (2) the historical volatility of the equity market index (or indices) selected in (1).
- 7.4.76 G For the purpose of *PRU 7.4.75R(1)*, an appropriate equity market index (or indices) for a territory should be such that:

- (1) the constituents of the index (or indices) are reasonably representative of the nature of the equities to which the *firm* is exposed in that territory which are included in the relevant assets identified in accordance with *PRU* 7.4.43R(2); and
- (2) the frequency of, and historical data relating to, published values of the index (or indices) are sufficient to enable an average value(s) and historical volatility of the index (or indices) to be calculated over at least the three preceding *financial years*.

#### Credit risk scenarios

##### General

- 7.4.77 G (1) The purpose of the credit risk scenarios in *PRU* 7.4.78R to *PRU* 7.4.99G is to show the financial effect of specified changes in the general credit risk environment on a *firm*'s direct (*counterparty*) and indirect credit risk exposures. The scenarios apply in relation to corporate bonds, debt, *reinsurance* and other exposures, including *derivatives* and *quasi-derivatives*. This is thus quite separate from any reference to allowance for credit risk in *PRU* 4.2.
- (2) In the case of bonds and debts, the scenarios are described in terms of an assumed credit rating dependent on the widening of credit spreads - changes in bond and debt credit spreads will have a direct impact on the value of bond and debt assets. Credit ratings are intended to give an indication of the security of the income and capital payments for a bond – the higher the credit rating, the more secure the payments. The reaction of credit spreads to developments in markets for credit risk varies by credit rating and so the scenarios to be assumed for bonds and debts depend on their ratings. The credit spreads on bonds and debt represent compensation to the investor for the risk of default and downgrade, but also for illiquidity, price volatility and the uncertainty of recovery rates relative to government bonds. Credit spreads on bonds tend to widen during an economic recession to reflect the increased expectations that corporate borrowers may default on their obligations or be subject to rating downgrades.
  - (3) Changes in bond and debt credit spreads will also be indicative of a change in direct *counterparty* exposure in relation to *reinsurance* and other exposures including *derivatives* and *quasi-derivatives*.
  - (4) In addition, changes in bond and debt credit spreads may indirectly impact on credit exposures, for example by affecting the payments anticipated under credit *derivative* instruments.

- (5) A *firm* will also need to allow for the effect of other components of the single event comprising the combination of scenarios applicable under *PRU 7.4.43R* in assessing exposure to credit risk. For example, in the case of an equity put *option* and a fall in equity market values, the resulting increase in the level of exposure to the *firm's counterparty* for the *option* combined with a change in the quality of the *counterparty* should be allowed for.
- 7.4.78 R For the purposes of *PRU 7.4.44R*, the range of credit risk scenarios that a *firm* must assume is:
- (1) changes in value resulting from an increase in credit spreads by an amount of up to the spread stress determined according to *PRU 7.4.84R* in respect of any bond or debt item;
  - (2) changes in value determined according to *PRU 7.4.94R* in respect of any *reinsurance* item or any analogous non-*reinsurance* financing agreement item; and
  - (3) changes in value determined according to *PRU 7.4.98R* for any other item (including any *derivative* or *quasi-derivative*).
- 7.4.79 R For the purposes of *PRU 7.4.78R*, a *firm* must make appropriate allowance for any loss mitigation techniques to the extent that they are loss mitigation techniques relied on for the purpose of *PRU 3.2.8R* in accordance with *PRU 3.2.16R* and *PRU 3.2.18R*.
- 7.4.80 G The change in asset or liability values to be determined in relation to a credit risk scenario for the purposes of *PRU 7.4.43R* and *PRU 7.4.44R* is the change in value which would arise on the occurrence of the relevant credit risk scenario as a result of bond, debt, *reinsurance* or other exposures whether or not there is a direct *counterparty* exposure.
- 7.4.81 R Where a bond or a debt item or *reinsurance* asset is currently in default, it may be ignored by a *firm* for the purpose of applying *PRU 7.4.78R*.
- 7.4.82 G Where a bond or a debt item or a *reinsurance* asset is currently in default and has been specifically provisioned, in accordance with relevant accounting standards, a *firm* is not required to increase the existing default provisions to reflect a worsening of recovery rates.
- 7.4.83 R Where the credit risk scenarios in *PRU 7.4.78R* to *PRU 7.4.99G* require a *firm* to assume a change in current credit spread, or a direct change in market value, the *firm* must not change the risk-free yields used to discount future cash flows in calculating the revised *realistic value of liabilities* and *realistic value of assets* (see *PRU 7.4.43R(2)*) resulting from those credit risk scenarios.

Spread stresses to be assumed for bonds and debt

- 7.4.84 R (1) In *PRU 7.4.78R*(1) the spread stress which a *firm* must assume for any bond or debt item is:
- (a) for any bond or debt item issued or guaranteed by an organisation which is in accordance with *PRU 7.4.87R* a credit risk scenario exempt organisation in respect of that item, zero basis points; and
  - (b) for any other bond or debt item:
    - (i) Y if the credit rating description of that other bond or debt item determined by reference to *PRU 7.4.89R* is not "Highly speculative or very vulnerable"; and
    - (ii) otherwise the larger of Y and Z.
- (2) For the purpose of (1)(b):
- (a) Y is the product of the spread factor for that bond or debt item and the square root of S, where:
    - (i) the spread factor for a bond or debt item is the spread factor shown in the final column of Table *PRU 7.4.90R*, in the row of that Table corresponding to the credit rating description of the bond or debt item determined for the purpose of this *rule* by reference to *PRU 7.4.89R*; and
    - (ii) subject to (3), S is the current credit spread for a bond or debt item, expressed as a number of basis points, which the *firm* must determine as the current yield on that bond or debt item in excess of the current gross redemption yield on the government bond most similar to that bond or debt item in terms of currency of denomination and equivalent term; and
  - (b) Z is the change in credit spread expressed as a number of basis points that would result in the current market value of the bond or debt falling by 5%.
- (3) Where, for the purposes of (2)(a)(ii), there is no suitable government bond, the *firm* must use its best estimate of the gross redemption yield that would apply for a notional government bond similar to the bond or debt item in terms of currency of denomination and equivalent term.
- 7.4.85 R For the purpose of *PRU 7.4.84R*(1)(a), a guarantee must be direct, explicit, unconditional and irrevocable.

- 7.4.86 G (1) As an example, a bond item has the credit rating description "exceptional or extremely strong" and currently yields 49 basis points in excess of the most similar government bond. The spread factor for that bond item is 3.00 by reference to Table *PRU 7.4.90R*. Since S is 49, the square root of S is 7 and the spread stress for that item is 3 times 7, that is, 21 basis points. The *firm* must consider the impact of an increase in spreads by up to 21 basis points for that item.
- (2) As a further example, a bond item has the credit rating description "highly speculative or very vulnerable". For this bond, S is 400, being the current spread for that bond expressed as a number of basis points. The spread factor for the bond is 24.00. So the *firm* must consider the impact of an increase in spreads by up to 24.00 times 20 i.e. 480 basis points for that item. The bond is however of short duration and the reduction in market value resulting from an additional spread of 480 basis points is less than 5 per cent of its current market value. A 5 per cent reduction in its market value would result from a spread widening of 525 basis points. The *firm* must consider the impact of an increase in spreads by up to 525 basis points for that item by virtue of its credit rating description.
- (3) The calculation of the credit spread on commercial floating rate notes warrants particular consideration. Suppose, for example, that a notional floating rate note guaranteed by the *UK* government would have a market consistent price of X. This price can be estimated based on an assumed distribution of future payments under the floating rate note, and the current forward gilt curve. Suppose further that the market price of the commercial floating rate note is Y, where Y is less than X. A *firm* could calculate what parallel upward shift in the forward gilt curve would result in the notional government-backed floating rate note having a market price of Y for an unchanged assumed distribution of future payments. The size of the resulting shift could then be taken as the credit spread on the commercial floating rate note.
- (4) In arriving at the estimated gross redemption yield in *PRU 7.4.84R(3)*, the *firm* may have regard to any appropriate swap rates for the currency of denomination of the bond or debt item, adjusted to take appropriate account of observed differences between swap rates and the yields on government bonds.

7.4.87 R For the purposes of this section:

- (1) an organisation is a credit risk scenario exempt organisation in respect of an item if the organisation is:
- (a) the European Central Bank; or
  - (b) any central government or central bank which, in relation to that item, satisfies the conditions in (2); or

- (c) a multilateral development bank which is listed in (3); or
  - (d) an international organisation which is listed in (4);
- (2) the conditions in (1)(b) are that, for any claim against the central government or central bank denominated in the currency in which the item is denominated:
- (a) a credit rating is available from at least one listed rating agency nominated in accordance with *PRU 7.4.92R*; and
  - (b) the credit rating description in the first column of Table *PRU 7.4.90R* corresponding to the lowest such credit rating is either "exceptionally or extremely strong" or "very strong";
- (3) for the purposes of (1)(c) the listed multilateral development banks are:
- (a) the International Bank for Reconstruction and Development;
  - (b) the International Finance Corporation;
  - (c) the Inter-American Development Bank;
  - (d) the Asian Development Bank;
  - (e) the African Development Bank;
  - (f) the Council of Europe Development Bank;
  - (g) the Nordic Investment Bank;
  - (h) the Caribbean Development Bank;
  - (i) the European Bank for Reconstruction and Development;
  - (j) the European Investment Bank; and
  - (k) the European Investment Fund;
  - (l) the Multilateral Investment Guarantee Agency;
- (4) for the purposes of (1)(d) the listed international organisations are:
- (a) the European Community;
  - (b) the International Monetary Fund; and
  - (c) the Bank for International Settlements.

7.4.88 G Under *PRU 7.4.87R(2)*, a *firm* needs to take account of the currency in which the claim is denominated when it is considering claims on or guaranteed by a central government or central bank. It is possible, for example, that a given central bank would be a credit risk scenario exempt organisation in respect of claims on it denominated in its domestic currency, while not being a credit risk scenario exempt organisation in respect of claims on it denominated in a currency other than its domestic currency – the central government or central bank may have been assigned different credit assessments depending on the currency in which the claim on it is denominated.

- 7.4.89 R (1) For the purposes of this section, the credit rating description of a bond or debt item is to be determined in accordance with (2) and (3).
- (2) If the item has at least one credit rating nominated in accordance with *PRU 7.4.92R* ("a rated item"), its credit rating description is:
- (a) where it has only one nominated credit rating, the general description given in the first column of Table *PRU 7.4.90R* corresponding to that rating; or
  - (b) where it has two or more nominated credit ratings and the two highest nominated ratings fall within the same general description given in the first column of that Table, that description; or
  - (c) where it has two or more nominated credit ratings and the two highest nominated ratings do not fall within the same general description given in the first column of that Table, the second highest of those two descriptions.
- (3) If the item is not a rated item, its credit rating description is the general description given in the first column of Table *PRU 7.4.90R* that most closely corresponds to the *firm's* own assessment of the item's credit quality.
- (4) An assessment under (3) must be made by the *firm* for the purposes of the credit risk scenario having due regard to the seniority of the bond or debt and the credit quality of the bond or debt issuer.

7.4.90 R Table : Listed rating agencies, credit rating descriptions, spread factors

Credit Rating Description	Listed rating agencies				Spread Factor
	A.M. Best Company	Fitch Ratings	Moody's Investors Service	Standard & Poor's Corporation	
Exceptional or extremely strong	aaa	AAA	Aaa	AAA	3.00
Very strong	aa	AA	Aa	AA	5.25
Strong	a	A	A	A	6.75
Adequate	bbb	BBB	Baa	BBB	9.25

Speculative or less vulnerable	bb	BB	Ba	BB	15.00
Very speculative or more vulnerable	b	B	B	B	24.00
Highly speculative or very vulnerable	Below b	Below B	Below B	Below B	24.00

- 7.4.91 G Where listed rating agencies provide ratings by sub-category then all ratings should be allocated to the main ratings category (e.g. ratings sub-category A+ or A- would be allocated to the assigned ratings category "Strong").
- 7.4.92 R For the purposes of *PRU 7.4.87R* and *PRU 7.4.89R*, a *firm* may, subject to (1) to (5), nominate for use credit ratings produced by one or more of the rating agencies listed in *PRU 7.4.93R*:
- (1) if the *firm* decides to nominate for use for an item the credit rating produced by one or more rating agencies, it must do so consistently for all similar items;
  - (2) the *firm* must use credit ratings in a continuous and consistent way over time;
  - (3) the *firm* must nominate for use only credit ratings that take into account both principal and interest;
  - (4) if the *firm* nominates for use credit ratings produced by one of the listed rating agencies then the *firm* must use solicited credit ratings produced by that listed rating agency; and
  - (5) the *firm* may nominate for use unsolicited credit ratings produced by one or more of the listed rating agencies except where there are reasonable grounds for believing that any unsolicited credit ratings produced by the agency are used so as to obtain inappropriate advantages in the relationship with rated parties.
- 7.4.93 R In this section, a listed rating agency is:
- (1) A.M. Best Company; or
  - (2) Fitch Ratings; or
  - (3) Moody's Investors Service; or
  - (4) Standard & Poor's Corporation.

Credit risk scenario for reinsurance

- 7.4.94 R (1) The contracts of *reinsurance* or analogous non-*reinsurance* financing agreements to which *PRU 7.4.78R(2)* applies are those:
- (a) into which the *firm* has entered;
  - (b) which represent an economic asset under the single event applicable under *PRU 7.4.43R(3)*; and
  - (c) which are material (individually or in aggregate).
- (2) For the purposes of (1), no account is to be taken of *reinsurance* or analogous non-*reinsurance* financing arrangements between *undertakings* in the same *group* where:
- (a) the ceding and accepting *undertakings* are regulated by the *FSA* or a regulatory body in a *designated State or territory* for insurance (including *reinsurance*);
  - (b) no subsequent cessions of the ceded risk which are material (individually or in aggregate) are made to subsequent accepting *undertakings* by accepting *undertakings* (including subsequent accepting *undertakings*) other than to subsequent accepting *undertakings* which are in the same *group*; and
  - (c) for any subsequent cession or cessions of the ceded risk which are material (individually or in aggregate) each of the ceding and accepting *undertakings* (including subsequent accepting *undertakings*) is regulated by the *FSA* or a regulatory body in a *designated State or territory* for insurance (including *reinsurance*).
- (3) The change in value which a *firm* must determine for a contract of *reinsurance* or an analogous non-*reinsurance* financing agreement is the *firm's* best estimate of the change in realistic value which would result from changes in credit risk market conditions consistent, subject to (4), with the changes in credit spreads determined in accordance with *PRU 7.4.78R(1)*.
- (4) For the purpose of (3), 5% should be replaced by 10% in *PRU 7.4.84R(2)(b)*.

- 7.4.95 G (1) *Reinsurance* and analogous non-*reinsurance* financing agreements entered into by the *firm*, either with or acting as a *reinsurer*, must be included within the scope of the scenario. The combined rights and obligations under a contract of *reinsurance* or an analogous non-*reinsurance* financing agreement may represent an economic asset or liability. The value placed by the *firm* on the *reinsurance* item or non-*reinsurance* financing item should allow for a realistic assessment of the risks transferred and the risks of *counterparty* default associated with the item. In the case of analogous non-*reinsurance* financing agreements, references to terms such as "*reinsurer*", "*ceding undertakings*" and "*accepting undertakings*" include *undertakings* which by analogy are *reinsurers*, *ceding* or *accepting undertakings*. Analogous non-*reinsurance* financing agreements include contingent loans, securitisations and any other arrangements giving rise to charges on future surplus arising.
- (2) In assessing values in accordance with *PRU 7.4.94R*, a *firm* may consider it appropriate to determine values by drawing an analogy with the approach in respect of bond and debt items set out in *PRU 7.4.84R*. (This might be the case if, in economic terms, the item being valued sufficiently resembles a bond or debt item - an alternative approach might otherwise be preferred). If the *firm* does consider it appropriate to draw an analogy, the "credit spread" assumed should be consistent with the assumed default probabilities and the values placed on the *reinsurance* asset for the purposes of determining the *realistic values of assets and liabilities*. A *firm* may regard it as appropriate to have regard to any financial strength ratings applicable to the *reinsurer*, but if so should apply the same principles set out in *PRU 7.4.92R* for the nomination of financial strength ratings. Table *PRU 7.4.97G* provides *guidance* as to the allocation of spread factors which a *firm* may, by analogy, deem appropriate to apply. Appropriate allowance should be made for any change in the extent of the *counterparty* exposure under the assumed scenario.
- (3) The changes in credit risk spreads determined for bond and debt items in accordance with *PRU 7.4.78R(1)* are required to result in a reduction in market value for some items of 5% of their current value through the operation of *PRU 7.4.84R(2)(b)*. For *reinsurance* contracts and analogous non-*reinsurance* financing agreements, determining the change in value by reference to *PRU 7.4.94R(3)* requires a *firm* to consider the possibility of *counterparty* default in changed credit risk market conditions. Where in the changed credit risk market conditions assumed to apply the *firm's* assessment of the *counterparty* risk would result in the asset being considered equivalent to "Highly speculative or very vulnerable", the reduction in value required is at least 10% of its current value. *PRU 7.4.94R(4)* relates to this requirement.
- 7.4.96 G A financial strength rating of a *reinsurer* refers to a current assessment of the financial security characteristics of the *reinsurer* with respect to its ability to pay *claims* under its *reinsurance* contracts and treaties in accordance with their terms.
- 7.4.97 G Table: Listed rating agencies, financial strength descriptions and spread factors

Financial Strength Description	A.M. Best Company	Fitch Ratings	Moody's Investors Service	Standard & Poor's Corporation	Spread Factor
Superior, extremely strong	A++	AAA	Aaa	AAA	3.00
Superior, very strong	A+	AA	Aa	AA	5.25
Excellent or strong	A, A-	A	A	A	6.75
Good	B++,B+	BBB	Baa	BBB	9.25
Fair, marginal	B, B-	BB	Ba	BB	15.00
Marginal, weak	C++,C+	B	B	B	24.00
Unrated or very weak	Unrated or below C++,C+	Unrated or below B	Unrated or below B	Unrated or below B	24.00

Credit risk scenario for other exposures (including any derivative or quasi-derivative)

- 7.4.98 R For the purposes of *PRU 7.4.78R(3)*, the change in value which must be determined for any other item (including any *derivative* or *quasi-derivative*) which represents an economic asset under the single event applicable under *PRU 7.4.43R(3)* is the *firm's* best estimate of the change in the realistic value of that item which would result from changes in credit risk market conditions consistent with the changes in credit spreads determined in accordance with *PRU 7.4.78R(1)* and the changes in value determined in accordance with *PRU 7.4.78R(2)*.
- 7.4.99 G In applying *PRU 7.4.98R*, a *firm* should assess the total impact on the value of the item resulting from the assumed changed credit risk market conditions. The total change in value may result from the interaction of a number of separate influences. For example, a widening of credit spreads may imply an impact on the amount exposed to *counterparty* default as well as on the likelihood of that default. Each factor influencing the change in value needs separate consideration. It should be assumed, both for determining amounts exposed to *counterparty* default and the likelihood of such default that there will be no change in the likelihood of default in relation to an item issued by or guaranteed by an organisation which is in respect of that item a credit risk scenario exempt organisation (see *PRU 7.4.87R*). *PRU 7.4.77G(5)* is also relevant in this context.

Persistency risk scenario

- 7.4.100 R For the purposes of the persistency risk scenario in *PRU 7.4.44R(6)*, a *firm* must allow for the effects of an increase or a decrease in persistency experience of its *with-profits insurance contracts* by adjusting the termination rates in each year of projection by 32.5% of the termination rates assumed in the calculation of the *realistic value of liabilities* in *PRU 7.4.40R*.

- 7.4.101 R The termination rates referred to in *PRU 7.4.100R* are the rates of termination (including the paying-up of *policies*, but excluding deaths, maturities and retirements) other than on dates specified by the *firm* where:
- (1) a guaranteed amount applies as the minimum amount which will be paid on *claim*; or
  - (2) any payments to the *policyholder* cannot be reduced at the discretion of the *firm* by its applying a market value adjustment.
- 7.4.102 R For the purposes of *PRU 7.4.100R*, the increase or decrease in termination rates must be applied to the projection of terminations up to *policy* guarantee dates and between *policy* guarantee dates, but not to the assumptions as to the proportion of *policyholders* taking up the guarantees at *policy* guarantee dates.
- 7.4.103 G *PRU 7.4.100R* to *PRU 7.4.102R* require *firms* to apply a persistency stress test to the *realistic value of liabilities*. Where a *firm* brings the present value of *non-profit insurance business* in a *with-profits fund* into the calculation of the *realistic value of assets* (see *PRU 7.4.33R*) there is no requirement to stress this asset for changes in persistency assumptions.

Realistic value of liabilities: detailed provisions

- 7.4.104 G *PRU 7.4.40R* sets out the three elements comprising the *realistic value of liabilities* for a *with-profits fund*. The remainder of this section contains general *rules* and *guidance* on determining the *realistic value of liabilities* plus further detail relating to each of those elements separately, as follows:
- (1) general *rules* and *guidance* in *PRU 7.4.105R* to *PRU 7.4.115G*;
  - (2) *with-profits benefits reserve* in *PRU 7.4.116R* to *PRU 7.4.135G*;
  - (3) *future policy related liabilities* in *PRU 7.4.136G* to *PRU 7.4.189G*; and
  - (4) *realistic current liabilities* in *PRU 7.4.190R* and *PRU 7.4.191R*.

Methods and assumptions: general

- 7.4.105 R In calculating the *realistic value of liabilities* for a *with-profits fund*, a *firm* must use methods and assumptions which:
- (1) are appropriate to the business of the *firm*;
  - (2) are consistent from year to year without arbitrary changes (that is, changes without adequate reasons);
  - (3) are consistent with the method of valuing assets (see *PRU 1.3*);

- (4) make full provision for tax payable out of the *with-profits fund*, based on current legislation and practice, together with any known future changes, and on a consistent basis with the other methods and assumptions used;
- (5) take into account discretionary benefits which are at least equal to, and charges which are no more than, the levels required for the *firm* to fulfil its regulatory duty to treat its *customers* fairly;
- (6) take into account prospective management actions (see *PRU 7.4.53R*) and *policyholder* actions (see *PRU 7.4.59R*);
- (7) provide for shareholder transfers out of the *with-profits fund* as a liability of the fund;
- (8) have regard to generally accepted actuarial practice; and
- (9) are consistent with the *firm's PPFM*.

- 7.4.106 G More specific *rules* and *guidance* are set out below on some aspects of the methods and assumptions to be used in calculating the *realistic value of liabilities* for a *with-profits fund*. In contrast to the *mathematical reserves* requirements in *PRU 7.3.10R(4)* and *PRU 7.3.13R*, there is no requirement to include margins for adverse deviation of relevant factors in calculating the *realistic value of liabilities*. Assumptions need be no more prudent than is necessary to achieve a best estimate, taking into account the *firm's PPFM* and its regulatory duty to treat its *customers* fairly. Where there is no requirement for a *PPFM*, for example non-UK business, a *firm* should use assumptions that are consistent with the *firm's* documented approach to treating its *customers* fairly. A *firm* may judge that a margin should be included in its calculations to avoid an understatement of the *realistic value of liabilities* as a result of uncertainty, for example, either in its method or in its data.
- 7.4.107 G The amount and timing of tax charges affect the amount of assets available to meet *policyholder* liabilities. *PRU 7.4.105R(4)* requires *firms* to provide fully for all tax payable out of the *with-profits fund* on a basis consistent with the other assumptions and methods used in deriving the realistic balance sheet. So, for example, all projections which underlie the realistic valuation of assets or liabilities must allow for taxation. The approach adopted should not give any credit for any reduction in tax deriving from future expenses or deficits which is attributable to future new business. For assets backing capital requirements it is not necessary to take into consideration future tax charges on investment income generated by those assets. However, *firms* should consider this aspect in their capital planning.
- 7.4.108 G *PRU 7.4.105R(7)* requires *firms* to provide fully for shareholder transfers. Such transfers do not therefore count as capital in the *with-profits fund*. However, a *firm* may apply under section 148 of the *Act* for a *waiver* from this requirement. In exercising its discretion under section 148 of the *Act*, the *FSA* will have regard (among other factors) to whether a *firm* has put in place undertakings satisfactory to the *FSA*, including that future transfers will not be paid out of the *firm* by way of dividend.

## Valuation of contracts: General

- 7.4.109 R (1) A *firm* must determine the amount of the *with-profits benefits reserve* or the *future policy related liabilities* for a *with-profits fund* by carrying out a separate calculation in relation to each *with-profits insurance contract* or for each group of similar contracts.
- (2) Appropriate approximations or generalisations may be made where they are likely to provide the same, or a higher, result than a separate calculation for each contract.
- (3) A *firm* must set up additional reserves on an aggregated basis for general risks which are not specific to individual contracts or a group of similar contacts where the *firm* considers the *realistic value of liabilities* may otherwise be understated.
- 7.4.110 R For the purpose of *PRU 7.4.109R(1)*, a group of similar contracts is such that the conditions in *PRU 7.4.109(2)* are satisfied.
- 7.4.111 G Where a *firm* has grouped individual contracts for the purpose of calculating the *mathematical reserves* for a *with-profits fund* (in accordance with *PRU 7.3.22R*), the *firm* is not required to use the same grouping of contracts in calculating the *with-profits benefits reserve* or *future policy related liabilities* for that fund.
- 7.4.112 G In contrast to *PRU 7.3.24R* for the *mathematical reserves*, treating individual contracts as an asset is not prohibited if, and to the extent that, this treatment does not conflict with a *firm's* regulatory duty to treat its *customers* fairly.
- 7.4.113 G In calculating the *with-profits benefits reserve*, an overall (grouped or pooled) approach may be appropriate under either of the two methods set out in *PRU 7.4.116R*. In particular, the calculation of aggregate retrospective reserves (see *PRU 7.4.118R*) and the projection of future cash flows (see *PRU 7.4.128R*) based on suitable specimen *policies* is permitted.
- 7.4.114 G In calculating the *future policy related liabilities*, the grouping of *policies* for valuing the costs of guarantees, options or smoothing, and their representation by representative *policies*, is acceptable provided the *firm* can demonstrate that the grouping of *policies* does not materially misrepresent the underlying exposure and does not significantly misstate the costs. A *firm* should exercise care in grouping *policies* in order to ensure that the risk exposure is not inappropriately distorted by, for example, forming groups containing *policies* with guarantees that are “in the money” and *policies* with guarantees well “out of the money”. A *firm* should also have regard to the effects of *policyholder* behaviour over time on the spread of the outstanding guarantees or options.
- 7.4.115 G Where a *firm* groups similar *policies* for the purpose of calculating the *with-profits benefits reserve* or the *future policy related liabilities*, the *firm* should carry out sufficient validation to be reasonably sure that the grouping of *policies* has not resulted in the loss of any significant attributes of the portfolio being valued.

With-profits benefits reserve

- 7.4.116 R A *firm* must calculate a *with-profits benefits reserve* for a *with-profits fund* using either:
- (1) a retrospective calculation under *PRU 7.4.118R* (the retrospective method); or
  - (2) a prospective calculation under *PRU 7.4.128R* of all future cash flows expected to arise under, or in respect of, each of the *with-profits insurance contracts* written in that fund (the prospective method).
- 7.4.117 R Subject to *PRU 7.4.105R(2)*, a *firm* may use different methods under *PRU 7.4.116R* for different types or generations of *with-profits insurance contracts*.

Retrospective method

- 7.4.118 R In the retrospective method of calculating a *with-profits benefits reserve*, a *firm* must calculate either the aggregate of the retrospective reserves in respect of each *with-profits insurance contract* or, to the extent permitted by *PRU 7.4.109R* and *PRU 7.4.110R*, the total retrospective reserve in respect of each group of *with-profits insurance contracts*.
- 7.4.119 R In calculating the retrospective reserve for a *with-profits insurance contract*, or the total retrospective reserve in respect of a group of *with-profits insurance contracts*, a *firm* must take account of at least the following:
- (1) *premiums* received from the *policyholder*;
  - (2) any expenses incurred or charges made (including *commissions*);
  - (3) any partial benefits paid or due;
  - (4) any investment income on, and any increases (or decreases) in, asset values;
  - (5) any tax paid or payable;
  - (6) any amounts received (or paid) under contracts of *reinsurance* or analogous non-*reinsurance* financing agreements, where relevant to retrospective reserves;
  - (7) any shareholder transfers and any associated tax paid or payable; and
  - (8) any permanent enhancements to (or deductions from) the retrospective reserves made by the *firm*.

- 7.4.120 G In taking account of amounts in *PRU 7.4.119R(6)*, due regard should be had to the specific details of each relevant contract of *reinsurance* or analogous non-*reinsurance* financing agreement and the relationship between the amounts received (or paid) and the value of the benefit granted (or received) under the arrangement. This should take into consideration, for example, the risk of default and differences in the *firm's* realistic assessment of the risks transferred and the contractual terms for such transfer of risk. Analogous non-*reinsurance* financing agreements include contingent loans, securitisations and any other arrangements giving rise to charges on future surplus arising.
- 7.4.121 G Where allowance is made for shareholder transfers, this should be in respect of the accrued bonus entitlement reflected in the retrospective reserve. This would include both *annual bonuses* already declared and accrued *final bonus*. However, shareholder transfers in respect of surplus yet to be credited to retrospective reserves should not be charged to those reserves until the corresponding surplus is credited.
- 7.4.122 R In calculating retrospective reserves, a *firm* must have regard to its regulatory duty to treat its *customers* fairly and must ensure that its approach is consistent with its *Principles and Practices of Financial Management*.
- 7.4.123 R In calculating retrospective reserves, a *firm* must ensure its treatment of past cash flows, and of any future cash flows, is consistent with those cash flows valued in its prospective calculation of the *future policy related liabilities* for that fund in accordance with the *rules* in *PRU 7.4.136G* to *PRU 7.4.189G*.
- 7.4.124 G An example of *PRU 7.4.123R* concerns future shareholder transfers. A *firm* must make adequate provision for future shareholder transfers within the *future policy related liabilities* (see *PRU 7.4.165R*). The basis of provisioning needs to be consistent with the amounts accrued within retrospective reserves and the amounts already transferred out of the *with-profits fund*.
- 7.4.125 G Another example of the application of *PRU 7.4.123R* relates to the reference in *PRU 7.4.119R(8)* to past permanent enhancements to (or deductions from) retrospective reserves made by *firms*. This item may include past miscellaneous surplus (or losses) which have been credited to (or debited from) retrospective reserves. Any other enhancements (or deductions) made on a temporary basis and any future surplus (or losses) that *firms* intend to credit to (or debit from) retrospective reserves should be included under the *future policy related liabilities* (see *PRU 7.4.137R*).

- 7.4.126 G *Firms* characteristically use a range of calculation methods to determine retrospective reserves. A *firm's* definition and calculation of retrospective reserves will depend on a number of factors. These include: the *firm's* practice; its administration and accounting systems; the extent of its historical records; and the composition of its with-profits portfolio. The *rules* and *guidance* for the retrospective method are drawn up to be sufficiently flexible to accommodate the diversity of calculation methods used by *firms*, rather than to enforce any particular method of calculation of retrospective reserves. *PRU 7.4.119R* simply sets minimum standards that all retrospective methods must meet.
- 7.4.127 G For the purposes of *PRU 7.4.119R(2)* and *PRU 7.4.128R(2)*, the phrases 'charges made' or 'charges to be made' refer to circumstances where types of risk (such as mortality risk, longevity risk and investment risk) are met by the *firm* or *with-profits fund* in return for a charge deducted by the *firm* from the *with-profits benefits reserve*.

#### Prospective method

- 7.4.128 R In the prospective method of calculating a *with-profits benefits reserve*, a *firm* must take account of at least the following cash flows:
- (1) future *premiums*;
  - (2) expenses to be incurred or charges to be made, including *commissions*;
  - (3) benefits payable (see *PRU 7.4.129R*);
  - (4) tax payable;
  - (5) any amounts to be received (or paid) under contracts of *reinsurance* or analogous non-*reinsurance* financing agreements, where relevant to *with-profits insurance contracts* being valued; and
  - (6) shareholder transfers.
- 7.4.129 R For the purposes of *PRU 7.4.128R(3)*, benefits payable include:
- (1) all guaranteed benefits, including guaranteed amounts payable on death and maturity, guaranteed *surrender values* and paid-up values;
  - (2) vested, declared and allotted bonuses to which *policyholders* are entitled; and
  - (3) future *annual* and *final bonuses* at least equal to the levels required for the *firm* to fulfil its regulatory duty to treat its *customers* fairly.
- 7.4.130 R A *firm* must value the cash flows listed in *PRU 7.4.128R* using best estimate assumptions of future experience, having regard to generally accepted actuarial practice and taking into account the *firm's PPFM* and its regulatory duty to treat its *customers* fairly.

- 7.4.131 G The prospective method sets the *with-profits benefits reserve* at the net present value of future cash flows listed in *PRU 7.4.128R*.
- 7.4.132 G In contrast to *PRU 7.3.10R(4)* and *PRU 7.3.13R* relating to the methods and assumptions used to value the *mathematical reserves*, there is no requirement to value future cash flows using assumptions that include margins for adverse deviation. Also there are no detailed *rules* as to the future yields on assets, discount rates, *premium* levels, expenses, tax, mortality, morbidity, persistency and *reinsurance*. A *firm* should make its own assessment as to the amount of these future cash flows including bonuses and discretionary surrender or transfer values. A *firm* should make a realistic assessment of longevity risk and asset default risk (including default risk arising under contracts of *reinsurance* or analogous non-*reinsurance* financing agreements) within the best estimate assumptions of future experience required by *PRU 7.4.130R*.
- 7.4.133 G In valuing the future cash flows listed in *PRU 7.4.128R*, the *firm* should use a projection term which is long enough to capture all material cash flows arising from the contract or groups of contracts being valued. If the projection term does not extend to the term of the last *policy*, the *firm* should check that the shorter projection term does not significantly affect the results.
- 7.4.134 R Where a *firm* expects to pay additional benefits that are not included in the cash flows listed in *PRU 7.4.128R*, it must make adequate provision for these benefits in calculating the *future policy related liabilities* in accordance with the *rules* in *PRU 7.4.136G* to *PRU 7.4.189G*.
- 7.4.135 G The prospective assessment of the *with-profits benefits reserve* will usually be on a deterministic basis. A *firm* will have to make further provision in the *future policy-related liabilities* for, for example, the costs of potential asset fluctuations or *policy* options.

#### Future policy related liabilities

#### Overview of liabilities

- 7.4.136 G *PRU 7.4.137R* lists the *future policy related liabilities* for a *with-profits fund* that form part of a *firm's realistic value of liabilities* in *PRU 7.4.40R*. Detailed *rules* and *guidance* relating to particular types of liability and asset are set out in *PRU 7.4.139R* to *PRU 7.4.168G*. These are followed by *rules* and *guidance* that deal with certain aspects of several liabilities (that is, liabilities relating to guarantees, options and smoothing):
- (1) *PRU 7.4.169R* to *PRU 7.4.186G* refer to valuing the costs of guarantees, options and smoothing; and
  - (2) *PRU 7.4.187R* to *PRU 7.4.189G* refer to the treatment of surplus on guarantees, options and smoothing.

- 7.4.137 R The *future policy related liabilities* for a *with-profits fund* are equal to the sum of amounts, as they relate to that fund, in respect of (1) to (11) to the extent each is valued as a liability less the sum of amounts, as they relate to that fund, in respect of (1) to (11) to the extent each is valued as an asset:
- (1) past miscellaneous surplus (or deficit) planned to be attributed to the *with-profits benefits reserve* (see *PRU 7.4.139R*);
  - (2) planned enhancements to the *with-profits benefits reserve* (see *PRU 7.4.141R*);
  - (3) planned deductions for the costs of guarantees, options and smoothing from the *with-profits benefits reserve* (see *PRU 7.4.144R*);
  - (4) planned deductions for other costs deemed chargeable to the *with-profits benefits reserve* (see *PRU 7.4.146R*);
  - (5) future costs of contractual guarantees (other than financial options) (see *PRU 7.4.148R*);
  - (6) future costs of non-contractual commitments (see *PRU 7.4.154R*);
  - (7) future costs of financial options (see *PRU 7.4.156G*);
  - (8) future costs of smoothing (see *PRU 7.4.158R*);
  - (9) financing costs (see *PRU 7.4.162R*);
  - (10) any other further liabilities required for the *firm* to fulfil its regulatory duty to treat its *customers* fairly; and
  - (11) other *long-term insurance liabilities* (see *PRU 7.4.165R*).
- 7.4.138 G Some of the elements of the calculation set out in *PRU 7.4.137R* may have already been taken into consideration in the calculation of the *with-profits benefits reserve*, either under the retrospective method (see *PRU 7.4.118R* onwards) or the prospective method (see *PRU 7.4.128R* onwards). Where this is the case, the adjustments made under *PRU 7.4.137R* should be such that no double-counting arises.

Past miscellaneous surplus (or deficit) planned to be attributed to the with-profits benefits reserve

- 7.4.139 R In calculating the *future policy related liabilities* for a *with-profits fund*, a *firm* must allow for past miscellaneous surplus (or deficit) which it intends to attribute to the *with-profits benefits reserve* for that fund but which has not yet been permanently credited to (or debited from) the *with-profits benefits reserve* for that fund.

- 7.4.140 G Past miscellaneous surplus (or deficit) already permanently credited to (or debited from) the *with-profits benefits reserve* will have been included in the calculation of the *with-profits benefits reserve* in accordance with *PRU 7.4.119R(8)*.

Planned enhancements to the with-profits benefits reserve

- 7.4.141 R In calculating the *future policy related liabilities* for a *with-profits fund*, a *firm* must make provision for any future planned enhancements to the *with-profits benefits reserve* for that fund that cannot be financed out of the resources of the *with-profits benefits reserve* and future *premiums*.
- 7.4.142 G For the purposes of *PRU 7.4.141R*, planned enhancements to the *with-profits benefits reserve* will arise when a *firm* has a contractual obligation, or a non-contractual commitment (arising from its regulatory duty to treat *customers* fairly), to enhance *claims* on some classes of *policy* (perhaps in the form of specially enhanced future bonus rates). In such circumstances, the present value of the costs of paying out a target asset share that is more than the projected *with-profits benefit reserve* for those classes of *policy* for which this practice is applicable should be included in the amount of the *future policy related liabilities*. For example, a *firm* may have a non-contractual commitment (arising from its regulatory duty to treat *customers* fairly) to pay enhanced benefits but have discretion not to make such payments in adverse circumstances. Such planned enhancements should be provided for in the realistic balance sheet, but allowance should be made for management action in the calculation of the *risk capital margin*.
- 7.4.143 G The valuation of *claims* in excess of targeted asset shares in respect of guarantees, options and smoothing, including those arising under guaranteed annuity rates, should be carried out in accordance with *PRU 7.4.169R* to *PRU 7.4.186G*.

Planned deductions for the costs of guarantees, options and smoothing from the with-profits benefits reserve

- 7.4.144 R Where a *firm* expects to deduct future charges from the *with-profits benefits reserve* for a *with-profits fund* to cover the costs of guarantees, options or smoothing for that fund, the *firm* must take credit for these future charges in calculating the *future policy related liabilities* for that fund.
- 7.4.145 G In calculating *future policy related liabilities* for a *with-profits fund*, a *firm* should take credit under *PRU 7.4.137R(3)* for the present value of the future “margins” available in respect of charges deducted to cover the costs of guarantees, options and smoothing. *PRU 7.4.188R* requires *firms* that accumulate the charges made less costs incurred to provide for any surplus on the experience account as a realistic liability. Any such provision should be made under *PRU 7.4.137R(5)*, (7) or (8), depending on the nature of the charges made, and has no effect on the amount calculated under *PRU 7.4.144R*.

Planned deductions for other costs deemed chargeable to the with-profits benefits reserve

- 7.4.146 R Where a *firm* expects to deduct future charges (other than those valued in *PRU 7.4.144R*) from the *with-profits benefits reserve* for a *with-profits fund*, the *firm* must take credit for these future charges in calculating the *future policy related liabilities* for that fund.
- 7.4.147 G A *firm* should take credit for the present value of the other future “margins” available. The circumstances where such margins may arise include:
- (1) where a *firm* is targeting *claims* at less than 100% of the *with-profits benefits reserve*, the amount of such shortfall; and
  - (2) where a *firm* expects to deduct any future charges (other than those for guarantees, options and smoothing) from the *with-profits benefits reserve*.

Future costs of contractual guarantees (other than financial options)

- 7.4.148 R A *firm* must make provision for the costs of paying excess *claim* amounts for a *with-profits fund* where the *firm* expects that the amount in (1) may be greater than the amount in (2), calculated as at the date of *claim*:
- (1) the value of guarantees arising under a *policy* or group of *policies* in the fund; and
  - (2) the fund’s *with-profits benefits reserve* allocated in respect of that *policy* or group of *policies*.
- 7.4.149 R For the purposes of *PRU 7.4.148R*, the future costs of guarantees cannot be negative.
- 7.4.150 G In carrying out projections to calculate the cost of guarantees under *PRU 7.4.137R* the opening liability should be set equal to the *with-profits benefit reserve* (see *PRU 7.4.118R*), adjusted for miscellaneous surplus or deficits (see *PRU 7.4.137R(1)*) and planned enhancements (see *PRU 7.4.141R*).
- 7.4.151 G In projecting forward the *with-profits benefits reserve*, adjusted as in *PRU 7.4.150G*, to the date of *claim* for the purposes of *PRU 7.4.148R*, the *firm* should use market consistent assumptions for the expected future *premium* and investment income (including realised and unrealised gains or losses), expenses and *claims*, any charges to be deducted, tax and any other item of income or outgo. This projection should be carried out on the same basis as is described in *PRU 7.4.130R*.
- 7.4.152 G *PRU 7.4.169R* to *PRU 7.4.186G* contain further *rules* and *guidance* on the valuation of guarantees, options and smoothing.
- 7.4.153 G Some examples of contractual guarantees are:
- (1) for conventional *with-profits insurance contracts*, guaranteed sums assured and bonuses on death, maturity or retirement; and

- (2) for *accumulating with-profits policies*, guarantees at a point in time or guaranteed minimum bonus rates.

#### Future costs of non-contractual commitments

- 7.4.154 R A *firm* must make provision for future costs in addition to those in *PRU 7.4.148R* where the *firm* expects to pay further amounts to meet non-contractual commitments to *customers* or pay other benefits that need to be provided to fulfil a *firm's* regulatory duty to treat its *customers* fairly.
- 7.4.155 G Some examples of these non-contractual commitments are:
- (1) statements by the *firm* regarding the ability of *policies* to cover defined amounts, such as the repayment of a mortgage;
  - (2) statements by the *firm* regarding regular withdrawals from a *policy* being without penalty;
  - (3) guaranteed annuity and cash option rates being provided beyond the strict interpretation of the *policy*; and
  - (4) the costs of any promises to *customers* or other benefits that need to be provided to fulfil a *firm's* regulatory duty to treat its *customers* fairly.

#### Future costs of financial options

- 7.4.156 G Financial options include guaranteed annuity and cash option rates.
- 7.4.157 G *PRU 7.4.169R* to *PRU 7.4.186G* contain further *rules* and *guidance* on the valuation of options.

#### Future costs of smoothing

- 7.4.158 R A *firm* must make provision for future smoothing costs of a *with-profits fund* where the *firm* expects that the *claims* paid on a *policy* or group of *policies* in the fund will vary from the greater of:
- (1) the value of guarantees determined in *PRU 7.4.148R* in respect of that *policy* or group of *policies*; and
  - (2) the fund's *with-profits benefits reserve* allocated in respect of that *policy* or group of *policies*, which must be enhanced as described in *PRU 7.4.141R*;
- calculated as at the date of *claim*.
- 7.4.159 R For the purposes of *PRU 7.4.158R*, smoothing costs are defined as the present value of the difference between projected *claims* and the projected *with-profits benefit reserve* after enhancements (see *PRU 7.4.141R*), other than payouts on guarantees (see *PRU 7.4.148R*).

- 7.4.160 R Subject to *PRU 7.4.188R*, the future costs of smoothing can be negative.
- 7.4.161 G *PRU 7.4.169R* to *PRU 7.4.186G* contain further *rules* and *guidance* on the valuation of the future costs of smoothing.
- Financing costs
- 7.4.162 R A *firm* must provide for future liabilities to repay financing costs of a *with-profits fund* where the *firm* expects to have to meet such liabilities and to the extent that these liabilities are not already provided for by amounts included in the fund's *realistic current liabilities* (see *PRU 7.4.190R* and *PRU 7.4.191R*). The amount of the liabilities to repay financing costs must be assessed on a market-consistent basis.
- 7.4.163 G In *PRU 7.4.162R*, financing costs refer to the future costs incurred by way of capital, interest and fees payable to the provider. A *firm* should make a realistic assessment of the requirement to repay such financing in its expected future circumstances (which may be worse than currently). Having taken account of its particular circumstances:
- (1) where a *firm* has no liability to repay such financing, it should not include such repayment as a liability;
  - (2) where a *firm* has a reduced liability to repay such financing, it should include a reduced repayment as a liability.
- 7.4.164 G In *PRU 7.4.162R*, financing includes *reinsurance* financing arrangements and analogous non-*reinsurance* financing arrangements, such as contingent loans, securitisations and any other arrangements giving rise to charges on future surplus arising.
- Other long-term insurance liabilities
- 7.4.165 R A *firm* must provide for any other *long-term insurance liabilities* arising from or in connection with *with-profits insurance contracts* in a *with-profits fund*, to the extent that adequate provision has not been made in the *with-profits benefits reserve* or in any other part of the *future policy related liabilities* for that fund.
- 7.4.166 G Some examples of these other *long-term insurance liabilities* are:
- (1) pension and other mis-selling reserves;
  - (2) provisions for tax; and
  - (3) provisions for future shareholder transfers.
- 7.4.167 G In determining the realistic liability for taxation *firms* should apply the general principles set out in *PRU 7.4.105R* and the *guidance* given in *PRU 7.4.107G*.

- 7.4.168 G *PRU 7.4.105R* requires *firms* to provide for shareholder transfers out of the *with-profits fund* as a liability of the fund. The provision should be consistent with the methods and assumptions used in valuing the other realistic liabilities. So, for example, where the *with-profits benefits reserve* includes amounts that would be paid to *policyholders* through future bonuses, provision should also be made for future shareholder transfers associated with those bonuses.

Valuing the costs of guarantees, options and smoothing

- 7.4.169 R For the purposes of *PRU 7.4.137R(5)*, (7) and (8), a *firm* must calculate the costs of any guarantees, options and smoothing using one or more of the following three methods:
- (1) a stochastic approach using a market-consistent asset model (see *PRU 7.4.170R*);
  - (2) using the market costs of hedging the guarantee or option;
  - (3) a series of deterministic projections with attributed probabilities.
- 7.4.170 R The market-consistent asset model in *PRU 7.4.169R(1)*:
- (1) means a model that delivers prices for assets and liabilities that can be directly verified from the market; and
  - (2) must be calibrated to deliver market-consistent prices for those assets that reflect the nature and term of the *with-profits insurance liabilities* of the *with-profits fund*.
- 7.4.171 G Deterministic approaches will not usually capture the time value of the option generated by a guarantee. In order to calculate this value properly, *firms* are expected either to use market option values where these are readily available or to undertake a stochastic approach using a market-consistent asset model.
- 7.4.172 G The *FSA* considers stochastic modelling to be preferable for material groups or classes of *with-profits insurance contracts* unless it can be shown that more simplistic or alternative methods are both appropriate and sufficiently robust.

- 7.4.173 G Where the guarantee or option is relatively simple in nature, is capable of being hedged, and has a value unlikely to be affected by management actions (see *PRU 7.4.185R*) (for example, a guaranteed annuity rate option) then the cost of the guarantee or option would be the market cost of hedging the guarantee. Where that is generally the case but, in respect of a minor part of a portfolio, no market exists for hedging the option generated by the guarantee, a *firm* should take the value of the nearest equivalent benefit or right for which a market exists and record how it has adjusted the valuation to reflect the original option. Where the market value of the hedge is used *firms* should also make provisions for the credit risk arising from the hedge, both that arising from exposure to a *counterparty* and that arising from credit risk in the underlying instrument. The extent to which the guarantee or option is capable of being hedged depends on a *firm's* assumptions regarding future investment mix, persistency, annuitant mortality and take-up rates. While the *FSA* recognises that the hedge may not be perfectly matched to the underlying guarantee or option, a *firm* should ensure that hedge is reasonably well matched having regard to the sensitivity of the guarantee or option to the *firm's* choice of key assumptions.
- 7.4.174 G Where a *firm* has large cohorts of guarantees and uses stochastic or deterministic approaches, a *firm* should have regard to whether the cost of the guarantees determined under those approaches bears a reasonable relationship to the market cost of hedging those guarantees (where it exists).
- 7.4.175 G In determining the costs of smoothing, a *firm* should consider:
- (1) the consistency of its assumptions (including the exercise of management discretion over bonus rates); and
  - (2) where targeted payouts currently exceed retrospective reserves in respect of those *claims*, the assumptions used in reducing the excess, if applicable,
- having regard to the *firm's PPFM* and its regulatory duty to treat its *customers* fairly.

#### Stochastic approach

- 7.4.176 G For the purposes of *PRU 7.4.169R(1)*, a stochastic approach would consist of an appropriate market-consistent asset model for projections of asset prices and yields (such as equity prices, fixed interest yields and property yields), together with a dynamic model incorporating the corresponding value of liabilities and the impact of any foreseeable actions to be taken by management. Under the stochastic approach, the cost of the guarantee, option or smoothing would be equal to the average of these stochastic projections.
- 7.4.177 G In performing the projections of assets and liabilities under the stochastic approach in *PRU 7.4.169R(1)*, a *firm* should have regard to the aspects in (1) and (2).

- (1) The projection term should be long enough to capture all material cash flows arising from the contract or groups of contracts being valued. If the projection term does not extend to the term of the last *policy*, the *firm* should check that the shorter projection term does not significantly affect the results.
  - (2) The number of projections should be sufficient to ensure a reasonable degree of convergence in the results, including the determination of the result of the *risk capital margin*. The *firm* should test the sensitivity of the results to the number of projections.
- 7.4.178 G The *FSA* considers a holistic approach to stochastic modelling to be preferable so as to value all items of costs together rather than using separate methods for different items of the *realistic value of liabilities*. This approach requires the projection of all material cash flows arising under the contract or group of contracts for each stochastic projection, rather than only those arising from the guarantee or option within the contract. The advantages of this approach are that it ensures greater consistency in the valuation of different components of the contract and explicitly takes into account the underlying hedges or risk mitigation between components of the contract or group of contracts being valued. Where a *firm* can use a stochastic approach to value simultaneously all components of the contract or group of contracts, the *firm* should adopt this approach where practical and feasible.
- 7.4.179 G Where a stochastic approach is used, a *firm* should make and retain a record under *PRU 7.4.17R* of the nature of the asset model and of the assumptions used (including the volatility of asset values and any assumed correlations between asset classes or between asset classes and economic indicators, such as inflation).
- 7.4.180 G In calibrating asset models for the purposes of *PRU 7.4.170R*, a *firm* should have regard to the aspects in (1), (2) and (3).
- (1) Few (if any) asset models can replicate all the observable *market values* for a wide range of asset classes. A *firm* should calibrate its asset models to reflect the nature and term of the fund's liabilities giving rise to significant guarantee and option costs.
  - (2) A *firm* will need to apply judgement to determine suitable estimates of those parameters which cannot be implied from observable market prices (for example, long-term volatility). A *firm* should make and retain a record under *PRU 7.4.17R* of the choice of parameters and the reasons for their use.
  - (3) A *firm* should calibrate the model to the current risk-free yield curve. Risk-free yields should be determined after allowing for credit and all other risks arising. *Firms* may have regard to any guidance from the actuarial profession on the calculation of the risk-free yield but should not assume a higher yield than suggested by any such guidance.

#### Deterministic approach

- 7.4.181 R For the purposes of the deterministic approach in *PRU 7.4.169R(3)*, a *firm* must calculate a series of deterministic projections of the values of assets and corresponding liabilities, where each deterministic projection corresponds to a possible economic scenario or outcome.
- 7.4.182 G A *firm* should determine a range of scenarios or outcomes appropriate to both valuing the costs of the guarantee, option or smoothing and the underlying asset mix, together with the associated probability of occurrence. These probabilities of occurrence should be weighted towards adverse scenarios to reflect market pricing for risk. The costs of the guarantee, option or smoothing should be equal to the expected cost based on a series of deterministic projections of the values of assets and corresponding liabilities. In using a series of deterministic projections, a *firm* should consider whether its approach provides a suitably robust estimate of the costs of the guarantee, option or smoothing.
- 7.4.183 G In performing the projections of assets and liabilities under the deterministic approach in *PRU 7.4.169R(3)*, a *firm* should have regard to the aspects in (1) and (2).
- (1) The projection term should be long enough to capture all material cash flows arising from the contract or group of contracts being valued. If the projection term does not extend to the term of the last contract, the *firm* should check that the shorter projection term does not significantly affect the results.
- (2) The series of deterministic projections should be numerous enough to capture a wide range of possible outcomes and take into account the probability of each outcome's likelihood. The costs will be understated if only relatively benign or limited economic scenarios are considered.
- 7.4.184 G Where a series of deterministic projections is used, a *firm* should make and retain a record under *PRU 7.4.17R* of the range of projections and how the probabilities attributed to each projection or outcome were determined (including the period of reference for any relevant data on past experience).

#### Management and policyholder actions

- 7.4.185 R In calculating the costs of any guarantees, options or smoothing, a *firm*:
- (1) may reflect its prospective management actions (within the meaning of *PRU 7.4.53R*); and
- (2) must reflect a realistic assessment of the *policyholder* actions (within the meaning of *PRU 7.4.59R*);
- in its projections of the value of assets and liabilities.
- 7.4.186 G For the purposes of *PRU 7.4.185R*, the related *guidance* in *PRU 7.4.54G* to *PRU 7.4.57G* (management actions) and in *PRU 7.4.60G* (policyholder actions) applies.

#### Treatment of surplus on guarantees, options and smoothing

- 7.4.187 R *PRU 7.4.188R* applies to *firms* calculating the costs of guarantees, options and smoothing to be included in the *future policy-related liabilities* in accordance with *PRU 7.4.137R(5), (7) and (8)*.
- 7.4.188 R Where a *firm* accumulates past experience and deducts or is otherwise able to take credit for charges for guarantees or options or smoothing, the future costs of guarantees or options or smoothing (as appropriate) must not be less than the greater of:
- (1) the prospective calculation of the future cost of guarantees (see *PRU 7.4.148R*) or options (see *PRU 7.4.156G*) or smoothing (see *PRU 7.4.158R*) (as appropriate); and
  - (2) the sum of:
    - (a) the accumulated charges (after deduction of past costs) for guarantees or options or smoothing (as appropriate); and
    - (b) the prospective calculation of the future charges deducted for guarantees or options or smoothing (see *PRU 7.4.144R*) (as appropriate).
- 7.4.189 G The extent to which the amount in *PRU 7.4.188R(2)* exceeds the amount in *PRU 7.4.188R(1)* will determine the surplus available to support actions that would be taken by the *firm's* management. The purpose of *PRU 7.4.188R* is to ensure that any resulting surplus at the valuation date arising from the accumulation of charges less costs remains available to support foreseeable actions that would be taken by the *firm's* management. Any additional liability arising from *PRU 7.4.188R* is added to the liabilities under *PRU 7.4.137R(5), (7) and (8)* but has no impact on the adjustment for planned deductions for the costs of guarantees, options and smoothing (see *PRU 7.4.137R(3)* and *PRU 7.4.144R*).

#### Realistic current liabilities

- 7.4.190 R For the purposes of *PRU 7.4.40R(3)*, the *realistic current liabilities* of a *with-profits fund* are equal to the sum of the following amounts:
- (1) the *firm's* best estimate provision for those liabilities for which prudent provision is made in *regulatory current liabilities* (see *PRU 7.4.30R*); and
  - (2) to the extent that amounts have not been provided in (1), any tax and any other costs arising either in respect of excess *admissible assets* (within the meaning of *PRU 7.4.36R*) or on the recognition of future shareholder transfers.
- 7.4.191 R In assessing the best estimate provision to be made under *PRU 7.4.190R(1)* in respect of a *defined benefits pension scheme*, the *firm* must use the same amount as results from the application of *PRU 1.3.5R*.

## 7.5 Equalisation provisions

### Application

7.5.1 R *PRU 7.5* applies to an *insurer* carrying on *general insurance business* unless it is:

- (1) a *non-directive friendly society*; or
- (2) an *incoming EEA firm*; or
- (3) an *incoming Treaty firm*.

7.5.2 G The scope of *PRU 7.5.11R* to *PRU 7.5.37G* (non-credit equalisation provisions) is not restricted to *firms* subject to the relevant EC directives. It applies, for example, to *pure reinsurers*.

7.5.3 G The requirements of this section apply to a *firm* on a solo basis.

### Purpose

7.5.4 G This section sets out *rules* and *guidance* on the calculation of the amount of the *equalisation provisions* that are required to be maintained by *firms* that carry on non-credit *insurance business* or credit *insurance business*.

7.5.5 G *Credit* or *non-credit equalisation provisions* form part of the *technical provisions* that a *firm* is required to establish under *PRU 7.2.12R(1)*. They help to smooth fluctuations in loss ratios in future years for business where *claims* in any future year may be subject to significant deviation from recent or average *claims* experience, or where trends in experience may be subject to change. Such volatile *claims* experience might arise in the case, for example, of insurance against losses caused by major catastrophes such as hurricanes or earthquakes.

7.5.6 G In general terms, *PRU 7.5* sets out *rules* and *guidance* as to:

- (a) the circumstances in which a *firm* is required to maintain *equalisation provisions*;
- (b) the methods to be used in calculating the amount of each provision;
- (c) the geographical location of the business relevant to certain calculations for different types of *firm* – this is summarised in the Table in *PRU 7.5.7G*.

7.5.7

G

Table : Scope of <i>insurance business</i> to be included in calculations				
Type Of Firm		Credit Equalisation Provision		Non Credit Equalisation Provision
		Threshold in <i>PRU 7.5.44R</i>	Provision in <i>PRU 7.5.43R</i>	Threshold in <i>PRU 7.5.18R(2)</i> and provision in <i>PRU 7.5.17R</i>
<i>UK insurer</i>		World-wide	World-wide	World-wide
<i>Pure reinsurer with head office outside United Kingdom</i>		<i>PRU 7.5.39R to PRU 7.5.47G do not apply</i>		<i>UK</i>
<i>Pure reinsurer with head office in United Kingdom</i>		<i>PRU 7.5.39R to PRU 7.5.47G do not apply</i>		World-wide
<i>Non-EEA direct insurers</i>	<i>EEA-deposit insurer</i>	<i>UK</i>	<i>UK</i>	<i>UK</i>
	<i>Swiss general insurer</i>	<i>UK</i>	<i>UK</i>	<i>UK</i>
	<i>UK-deposit insurer</i>	All <i>EEA</i>	World-wide	<i>UK</i>
	All other <i>non-EEA direct insurers</i>	<i>UK</i>	World-wide	<i>UK</i>

7.5.8

G

The *First Non-Life Directive* (as amended) requires the calculation of *credit equalisation provisions*. *Non-credit equalisation provisions* are a domestic *United Kingdom* requirement. For insurance regulatory purposes under EC Directives, *credit equalisation provisions* are classified as liabilities.

7.5.9

G

However, *firms* are permitted to include *equalisation provisions* within their financial resources when demonstrating compliance with non-Directive capital requirements. Hence *equalisation provisions* are deducted from the available

*capital resources* of a *firm* for the purpose of meeting its *minimum capital requirement* for *general insurance business*; but, in the calculation of a *firm's enhanced capital requirement* for *general insurance business* under PRU 2.3.11R, its *equalisation provisions* (if any) are added back to its *capital resources*.

- 7.5.10 G Under International Accounting Standards (IAS), which will apply to the financial statements of some *insurers* from 2005, there will be no requirement to treat *equalisation provisions* as liabilities in *insurers'* published financial statements. However, they will continue to be treated as liabilities for the purposes of demonstrating compliance with Directive capital requirements.

Non-credit equalisation provision

Firms carrying on non-credit insurance business

- 7.5.11 R (1) PRU 7.5.11R to PRU 7.5.37G apply to any *firm*, other than an *assessable mutual*, which carries on the business of *effecting* or *carrying out general insurance contracts* falling within any description in column 2 in Table PRU 7.5.12R ("non-credit *insurance business*").
- (2) A *firm* falling within (1) must classify all of its non-credit *insurance business* into separate *insurance business groupings*, as specified in Table PRU 7.5.12R.

- 7.5.12 R Table : Groupings of non-credit *insurance business*

<i>Insurance Business Grouping</i>	General Insurance Contracts
A	<i>Contracts of insurance</i> which fall within <i>general insurance business classes</i> 4, 8 or 9, other than:
(a)	<i>contracts of insurance</i> under <i>non-proportional reinsurance treaties</i> ; and
(b)	<i>contracts of insurance</i> against <i>nuclear risks</i> .
B	<i>Contracts of insurance</i> which fall within <i>general insurance business class</i> 16(a) , other than:
(a)	<i>contracts of insurance</i> under <i>non-proportional reinsurance treaties</i> ; and
(b)	<i>contracts of insurance</i> against <i>nuclear risks</i> .

C		<i>Contracts of insurance</i> which fall within <i>general insurance business classes</i> 5, 6, 11 or 12, other than:
	(a)	<i>contracts of insurance</i> against nuclear risks; and
	(b)	<i>reinsurance</i> contracts corresponding to contracts in (a).
D		<i>Contracts of insurance</i> against nuclear risks.
E		<i>Contracts of insurance</i> under <i>non-proportional reinsurance treaties</i> and which fall within <i>general insurance business classes</i> 4, 8, 9 or 16(a) other than <i>contracts of insurance</i> against nuclear risks.

- 7.5.13 R For the purposes of *PRU 7.5.11R* to *PRU 7.5.37G*, a *firm* with its head office in the *United Kingdom* must take account of non-credit *insurance business* carried on by it world-wide.
- 7.5.14 R For the purposes of *PRU 7.5.11R* to *PRU 7.5.37G*, a *firm* with its head office outside the *United Kingdom* need only take account of non-credit *insurance business* carried on by it from a *branch* in the *United Kingdom*.
- 7.5.15 G The *insurers* affected by *PRU 7.5.11R* include *pure reinsurers*, *UK–deposit insurers*, *EEA–deposit insurers*, and *Swiss general insurers*.
- 7.5.16 G For *insurers* (including *pure reinsurers*) with a head office in the *United Kingdom*, the calculations must be made in respect of world-wide business.

Requirement to maintain non-credit equalisation provision

- 7.5.17 R In respect of each *financial year*, a *firm* must, unless *PRU 7.5.18R* applies:
- (1) calculate the amount of its *non-credit equalisation provision* as at the end of that year in accordance with *PRU 7.5.20R*; and
  - (2) maintain a *non-credit equalisation provision* calculated in accordance with *PRU 7.5.20R* for the following *financial year*.
- 7.5.18 R
- (1) *PRU 7.5.17R* does not apply to any *firm* in respect of any *financial year* if, as at the end of that year:
    - (a) no *non-credit equalisation provision* has been brought forward from the preceding *financial year*; and
    - (b) the amount of the *annualised net written premiums* for all the non-credit *insurance business* carried on by it in the *financial year* is less than the threshold amount.
  - (2) The threshold amount in respect of any *financial year* is the higher of:

- (a) 1,500,000 Euro; and
- (b) 4% of *net written premiums* in that *financial year* in respect of all its *general insurance business*, if this amount is less than 2,500,000 Euro.

7.5.19 G For *non-EEA insurers*, the calculation of the threshold amount in *PRU 7.5.18R (2)* is limited by *PRU 7.5.14R* to the business of the *firm* carried on in the *United Kingdom*. Such a *firm* may do little *UK non-credit insurance business*, and so would not be required to set up a *non-credit equalisation provision* under *PRU 7.5*, but may do significant business outside the *United Kingdom* characterised by high-impact, low-frequency *claims*. Such a *firm* is required by *PRU 7.6.41R* to hold adequate world-wide financial resources to avoid internal-contagion strain on the *branch* in the *United Kingdom*. In determining the adequacy of its financial resources, the *firm* should undertake stress and scenario testing of its underwriting and other risks as set out in *PRU 1.2*.

#### Calculating the amount of the provision

- 7.5.20 R (1) Unless *PRU 7.5.22R* applies, the amount of a *firm's non-credit equalisation provision* as at the end of a *financial year* is the higher of:
- (a) zero; and
  - (b) whichever is the lower of:
    - (i) the aggregate of the amounts of the maximum provision for each *insurance business grouping* as at the end of that *financial year*; and
    - (ii) the sum of A and B.
- (2) For the purposes of (1)(b)(ii):
- (a) A is the amount of the *non-credit equalisation provision*, if any, brought forward from the *financial year* immediately preceding that in respect of which the calculation is being performed; and
  - (b) B is:
    - (i) the aggregate of the amounts of the provisional transfers-in for each *insurance business grouping*; minus
    - (ii) the aggregate of the amounts of the provisional transfers-out for each *insurance business grouping*.
- (3) For any *insurance business grouping*:
- (a) the amount of the maximum provision in (1)(b)(i) is to be determined in accordance with *PRU 7.5.24R*;

- (b) the amount of the provisional transfers-in in (2)(b)(i) is to be determined in accordance with *PRU 7.5.26R*; and
  - (c) the amount of the provisional transfers-out in (2)(b)(ii) is to be determined in accordance with *PRU 7.5.29R*.
- 7.5.21 G If provisional transfers-out are in excess of provisional transfers-in, the *non-credit equalisation provision* as calculated in accordance with *PRU 7.5.20R* in respect of a particular *financial year* may be less than that calculated for the preceding *financial year* although, by virtue of *PRU 7.5.20R(1)(a)*, it cannot be negative.
- 7.5.22 R (1) The amount of a *firm's non-credit equalisation provision* as at the end of a *financial year* is zero if:
- (a) as at the end of that year, the *firm* meets either of the conditions specified in (2) and (3); and
  - (b) the *annualised net written premiums* for all the *non-credit insurance business* carried on by the *firm* in that year are less than the threshold amount.
- (2) The first condition is that the *firm* carried on *non-credit insurance business* in the first *financial year* of the relevant period and, for each of any two or more *financial years* of that period, the *annualised net written premiums* for business of that description were less than the threshold amount.
- (3) The second condition is that the *firm* did not carry on *non-credit insurance business* in the first *financial year* of the relevant period and the average of the *annualised net written premiums* for business of that description carried on by the *firm* in each *financial year* of the relevant period was less than the threshold amount.
- (4) For the purposes of this *rule*:
- (a) the threshold amount is the amount determined in accordance with *PRU 7.5.18R(2)*; and
  - (b) the relevant period is the period of four *financial years* ending immediately before the beginning of the *financial year* in (1).
- 7.5.23 G If *PRU 7.5.22R* applies, a *firm* may need to make sufficient transfers from its *non-credit equalisation provision* to bring the *non-credit equalisation provision* for that *financial year* to zero.

The calculation: the maximum provision

- 7.5.24 R (1) For the purposes of the calculation required by *PRU 7.5.20R*, the amount of the maximum provision for any *insurance business grouping* is to be determined in accordance with (2) to (5).

- (2) Unless (4) applies, the amount of the maximum provision for the grouping, as at the end of a *financial year*, is the amount determined by multiplying X and Y.
- (3) For the purposes of (2):
  - (a) X is the percentage specified in Table *PRU 7.5.25R* in relation to the grouping; and
  - (b) Y is the average of the amount of the *annualised net written premiums* for non-credit *insurance business* in the grouping carried on by the *firm* in each *financial year* of the relevant period.
- (4) Where Y is a negative amount, the maximum provision for that *insurance business grouping* is zero.
- (5) For the purposes of (3)(b), the relevant period is the five-year period comprising:
  - (a) the *financial year* in (2); and
  - (b) the previous four *financial years*.

7.5.25 R Table : Calculation of maximum provision for any *insurance business grouping*

Insurance Business Grouping	Percentage of average annualised net written premiums
A	20
B	20
C	40
D	600
E	75

The calculation: provisional transfers-in

- 7.5.26 R
- (1) For the purposes of the calculation required by *PRU 7.5.20R*, the amount of the provisional transfers-in for any *insurance business grouping* is to be determined in accordance with (2).
  - (2) The amount of the provisional transfers-in for the grouping, as at the end of a *financial year*, is the amount determined by multiplying X and Y.
  - (3) For the purposes of (2):

- (a) X is the percentage specified in Table *PRU 7.5.27R* in relation to the grouping; and
- (b) Y is the amount of the *net written premiums* for non-credit *insurance business* in the grouping that was carried on by the *firm* in the *financial year* in (2), including adjustments in respect of previous *financial years*.

7.5.27 R Table : Provisional transfers-in for any *insurance business grouping*

Insurance Business Grouping	Percentage of net written premiums
A	3
B	3
C	6
D	75
E	11

7.5.28 G Since each *insurance business grouping* should be assessed individually, negative *net written premiums* in relation to any *insurance business grouping* should be transferred in to the *non-credit equalisation provision*.

The calculation: provisional transfers-out

- 7.5.29 R (1) For the purposes of the calculation required by *PRU 7.5.20R*, the amount of the provisional transfers-out for any *insurance business grouping* is to be determined in accordance with (2).
- (2) The amount of the provisional transfers-out for the grouping, as at the end of a *financial year*, is the lower of:
- (a) the amount of the maximum provision for the grouping under *PRU 7.5.24R* for that *financial year*; and
  - (b) the abnormal loss for the grouping under *PRU 7.5.30R* for that *financial year*.

7.5.30 R For each *insurance business grouping*, the abnormal loss as at the end of a *financial year* in relation to which an *equalisation provision* is calculated is:

- (1) (for business within the *insurance business grouping* accounted for on an accident year basis) the amount, if any, by which the amount of net *claims* incurred exceeds the greater of:
  - (a) zero; and
  - (b) the percentage of *net earned premiums* in that *financial year*

specified in the Table in *PRU 7.5.31R*; or

- (2) (for business within the *insurance business grouping* accounted for on an underwriting year basis) the amount, if any, by which the amount of net *claims* paid (plus adjustment for change in net *technical provisions*, other than any change in provisions for *claims* handling expenses or equalisation) exceeds the greater of:
- (a) zero; and
  - (b) the percentage of *net written premiums* in that *financial year* specified in the Table in *PRU 7.5.31R*.

7.5.31 R Table : Abnormal loss for any insurance business grouping

Insurance business grouping	Percentage of net written premiums
A	72.5
B	72.5
C	95
D	25
E	100

Adjustments to calculations

Transfers of business from the firm

- 7.5.32 R (1) This *rule* applies to modify the application of *PRU 7.5.24R* and *PRU 7.5.26R* in any case where a *firm* has transferred to another *undertaking* any rights and obligations under *general insurance contracts* falling within any *insurance business grouping*.
- (2) As at the end of the *financial year* in which the transfer takes place, *net written premiums* in respect of the transferred contracts in any grouping must be deducted from total *net written premiums* for that grouping before calculating the maximum provision under *PRU 7.5.24R* or provisional transfers-in under *PRU 7.5.26R*.

7.5.33 R If all the rights and obligations of a *firm* in relation to non-credit *insurance business* in any *insurance business grouping* have been transferred, the maximum provision for the grouping under *PRU 7.5.24R* is zero.

Transfers of business to the firm

- 7.5.34 R (1) This *rule* applies to modify the application of *PRU 7.5.24R*, *PRU 7.5.26R* and *PRU 7.5.29R* in any case where another *undertaking* has transferred to a *firm* any rights and obligations under *general insurance contracts* falling within any *insurance business grouping*.
- (2) As at the end of the *financial year* in which the transfer takes place a sum equal to that part of the consideration for the transfer that relates to business in an *insurance business grouping* must be:
- (a) excluded from net *premiums* (written or earned) before performing the calculations required by *PRU 7.5.24R* (maximum provision) and *PRU 7.5.26R* (provisional transfers in);
- (b) included in net *premiums* (written or earned) before performing the calculation required by *PRU 7.5.30R* (abnormal loss); and
- (c) excluded from net *claims* (paid or incurred) before performing the calculation required by *PRU 7.5.30R* (abnormal loss).
- 7.5.35 G For the purposes of *PRU 7.5.34R*, the consideration payable should be apportioned between *insurance business groupings* according to the groupings within which the *general insurance contracts* which are the subject of the acquisition fall. In appropriate cases, apportionment may reflect the split of liabilities acquired, including *unearned premium*.
- 7.5.36 G Where business is accounted for on an accounting year basis, in any year following the transfer, *net earned premiums* must include an appropriate amount in respect of the transfer.
- 7.5.37 G *PRU 7.5.32R* to *PRU 7.5.34R* apply to transfers by way of transfer under Part VII of the *Act* and by novation.

#### Credit Equalisation Provisions

##### Firms carrying on credit insurance business

- 7.5.38 R *PRU 7.5.39R* to *PRU 7.5.47G* apply to:
- (1) any *UK insurer*; and
- (2) any *non-EEA direct insurer*;
- which carries on the business of *effecting* or *carrying out general insurance contracts* falling within *general insurance business class 14* (which business, excluding contracts of *reinsurance*, is referred to in *PRU 7.5* as "*credit insurance business*").
- 7.5.39 R For the purposes of *PRU 7.5.43R*, a *UK insurer* must take account of the *credit insurance business* carried on by it world-wide.
- 7.5.40 R (1) For the purposes of *PRU 7.5.43R*:

- (a) a *Swiss general insurer* or an *EEA-deposit insurer* must take account of the *credit insurance business* carried on by it in the *United Kingdom*; and
  - (b) a *UK-deposit insurer* must take account of the *credit insurance business* carried on by it world-wide.
- (2) For the purposes of *PRU 7.5.44R*:
- (a) a *UK-deposit insurer* need only take account of the *credit insurance business* carried on by it in all *EEA States*, taken together; and
  - (b) any other description of *non-EEA direct insurer* (including an *EEA-deposit insurer* and a *Swiss general insurer*) need only take account of the *credit insurance business* carried on by it in the *United Kingdom*.

7.5.41 G For *UK insurers* the calculations must be made in respect of world-wide business

7.5.42 G The requirements of *PRU 7.5.39R* and *PRU 7.5.40R* are summarised in the table in *PRU 7.5.7G*.

#### Requirement to maintain credit equalisation provision

7.5.43 R In respect of each *financial year*, a *UK insurer* or a *non-EEA direct insurer* must, unless *PRU 7.5.44R* applies:

- (1) calculate the amount of its *credit equalisation provision* as at the end of that year in accordance with *PRU 7.5.45R*; and
- (2) maintain a *credit equalisation provision* calculated in accordance with *PRU 7.5.45R* for the following *financial year*.

7.5.44 R *PRU 7.5.43R* does not apply to any *UK insurer* or a *non-EEA direct insurer* in respect of any *financial year* if, as at the end of that year, the *annualised net written premiums* for its *credit insurance business* are less than 4% of *annualised net written premiums* in that *financial year* in respect of all its *general insurance business*, if this amount is less than 2,500,000 Euro.

#### Calculating the amount of the provision

7.5.45 R (1) The amount of a *UK insurer's*, or a *non-EEA direct insurer's*, *credit equalisation provision* as at the end of a *financial year* ("*financial year A*") is the higher of:

- (a) zero; and
- (b) whichever is the lower of:

- (i) 150% of the highest amount of *net written premiums* for credit *insurance business* carried on by the *firm* in *financial year A* or in any of the previous four *financial years*; and
- (ii) the amount of the *credit equalisation provision* brought forward from the preceding *financial year*, after making either of the adjustments in (2).

(2) The adjustments are:

- (a) the deduction of the amount of any technical deficit arising in *financial year A*; or
- (b) the addition of the lower of:
  - (i) 75% of the amount of any technical surplus arising in *financial year A*; and
  - (ii) 12% of the amount of the *net written premiums* for credit *insurance business* carried on by the *firm* in *financial year A*.

(3) For the purposes of (2) the amount of technical deficit or technical surplus is to be determined in accordance with *PRU 7.5.46R*.

7.5.46 R For the purposes of the adjustments in *PRU 7.5.45R(2)*, technical surplus (or technical deficit) in respect of credit *insurance business* is the amount by which the aggregate of *net earned premiums* and other technical income exceeds (or falls short of) the sum of net *claims* incurred, *claims* management costs and any technical charges.

7.5.47 G The calculation of technical surplus or technical deficit should be made before tax and before any transfer to or from the *credit equalisation provision*. Investment income should not be included in these calculations.

#### Euro conversion

7.5.48 R For the purposes of *PRU 7.5*, the exchange rate from the Euro to the pound sterling for each year beginning on 31 December is the rate applicable on the last day of the preceding October for which the exchange rates for the currencies of all the European Union member states were published in the Official Journal of the European Union.

- 7.6 Internal-contagion risk
- Application
- 7.6.1 R *PRU 7.6* applies to an *insurer*.
- 7.6.2 R *PRU 7.6* does not apply, to the extent stated, to any *insurer* in (1) to (4):
- (1) none of the provisions apply to *non-directive friendly societies*;
  - (2) none of the provisions, apart from *PRU 7.6.33R* (payment of financial penalties) apply to *firms* which qualify for authorisation under Schedule 3 or 4 of the *Act*;
  - (3) *PRU 7.6.33R* (payment of financial penalties) does not apply to *mutuals*;
  - (4) *PRU 7.6.41R* to *PRU 7.6.57R* (*UK branches* of certain *non-EEA insurers*) do not apply to:
    - (a) *UK insurers*; or
    - (b) *non-EEA insurers* which are *pure reinsurers*; or
    - (c) *EEA-deposit insurers*; or
    - (d) *Swiss general insurers*.
- 7.6.3 G The scope of application of *PRU 7.6* is not restricted to *firms* that are subject to the relevant EC directives. It applies, for example, to *pure reinsurers*.
- 7.6.4 R In its application to a *firm* with its head office in the *United Kingdom*, this section applies to the whole of the *firm's* business carried on world-wide.
- 7.6.5 R In the application of this section to activities carried on by a *non-EEA insurer*:
- (1) *PRU 7.6.13R* to *PRU 7.6.15G* and *PRU 7.6.41R* apply in relation to the whole of its business carried on world-wide;
  - (2) all other provisions of this section apply only in relation to:
    - (a) in the case of any *UK-deposit insurer*, activities carried on from *branches* in any *EEA State*; and
    - (b) in any other case, activities carried on from a *branch* in the *United Kingdom*.
- 7.6.6 G The adequacy of a *firm's* financial resources needs to be assessed in relation to all the activities of the *firm* and the risks to which they give rise.

7.6.7 G The requirements of this section apply to a *firm* on a solo basis.

Purpose

7.6.8 G This section sets out requirements for a *firm* relating to ‘internal-contagion risk’. This is the risk that losses or liabilities from one activity might deplete or divert financial resources held to meet liabilities from another activity. It arises where the two activities are carried on within the same *firm*. It may also arise from the combination of activities within the same *group*, but this aspect of internal-contagion risk falls outside the scope of this section. Requirements relevant to *group* contagion risk are set out in *PRU* 8.

7.6.9 G Internal-contagion risk includes in particular the risk that arises where a *firm* carries on:

- (1) both insurance and non-insurance activities; or
- (2) two or more different types of insurance activity; or
- (3) insurance activities from offices or *branches* located in both the *United Kingdom* and overseas.

7.6.10 G This section requires *firms* to limit non-insurance activities to those that directly arise from their *insurance business*, e.g. investing assets, employing insurance staff etc. It also requires that an adequate provision be established for non-insurance liabilities.

7.6.11 G This section also sets out requirements for the separation of different types of insurance activity. However, in most circumstances the combination of different types of insurance activity within the same *firm* is a source of strength. Adequate pooling and diversification of insurance risk is fundamental to sound business practice. The requirements, therefore, only apply in two specific cases where without adequate protection the combination might operate to the detriment of *policyholders*. They apply where a *firm* carries on both:

- (1) *general insurance business* and *long-term insurance business*;
- (2) *linked and non-linked insurance business*.

7.6.12 G Finally, the section sets out requirements to protect *policyholders* of *branches* of non-*EEA firms* where these are supervised by the *FSA*. These apply only to a non-*EEA firm* that has established a *branch* in the *United Kingdom*.

Requirements: non-insurance activities

Restriction of business to insurance

7.6.13 R (1) A *firm* must not carry on any commercial business other than *insurance business* and activities directly arising from that business.

- (2) (1) does not prevent a *friendly society* which was on 15 March 1979 carrying on *long-term insurance business* from continuing to carry on savings business.

Financial limitation of non-insurance activities

- 7.6.14 R A *firm* must limit, manage and control its non-insurance activities so that there is no significant risk arising from those activities that it may be unable to meet its liabilities as they fall due.
- 7.6.15 G For the purpose of *PRU 7.6.14R* a *firm* should consider how the financial impact of non-insurance activities might diverge from expectations. However, it need only take into account unexpected variations in amount and timing in so far as they are reasonably possible and may take into account effective mitigating factors.

Requirements: long-term insurance business

- 7.6.16 G *PRU 7.6.18R*, *PRU 7.6.21R*, *PRU 7.6.30R* and *PRU 7.6.31R* require a *firm* to identify the assets attributable to the receipts of the *long-term insurance business*, called *long-term insurance assets*, and only to apply those assets for the purpose of that business. This has the effect of prohibiting a *composite firm* from using *long-term insurance assets* to meet *general insurance liabilities*. It also keeps *long-term insurance assets* separate from shareholder funds.

Permissions not to include both types of insurance

- 7.6.17 G Under section 31 of the *Act*, a *firm* may not carry on a *regulated activity* unless it has *permission* to do so (or is exempt in relation to the particular activity). Both *general insurance business* and *long-term insurance business* are *regulated activities* and *permission* will extend to the *effecting* or *carrying out* of one or more particular *classes of contracts of insurance*. A *firm's permission* can be varied so as to add other *classes*. It is *FSA* policy, in compliance with EC directives on insurance, not to grant or vary *permission* if that would allow a *firm* to engage in both *general insurance business* and *long-term insurance business*. This does not apply where a *firm's permission* is restricted to *reinsurance*. It also does not apply where a *firm's permission* extends to *effecting* or *carrying out life and annuity contracts of insurance*. This will automatically include *permission* to *effect* or *carry out accident contracts of insurance* or *sickness contracts of insurance* on an ancillary or supplementary basis (see article 2(1) of the *Consolidated Life Directive*).

Separately identify and maintain long term insurance assets

- 7.6.18 R A *firm* carrying on *long-term insurance business* must identify the assets relating to its *long-term insurance business* which it is required to hold by virtue of *PRU 7.2.20R* and *PRU 7.2.21R*.
- 7.6.19 G *PRU 7.2.16R* requires a *firm* to establish adequate *technical provisions* for its *long-term insurance contracts*. *PRU 7.2.20R* requires a *firm* to hold *admissible assets* of a value at least equal to the amount of the *technical provisions*. *PRU*

7.2.21R ensures that a *composite firm* identifies separate *long-term insurance assets* with a value at least equal to the *technical provisions* for *long-term insurance business* as well as holding other assets of a value at least equal to the amount of its *technical provisions* for *general insurance business*. The overall impact of these provisions in *PRU 7.2*, and of *PRU 7.6.18R*, is that any *firm* writing *long-term insurance business* must identify separately its *long-term insurance assets* and ensure that their value is at least equal to the amount of its *long-term insurance business technical provisions*.

- 7.6.20 G *PRU 7.6.18R* does not prohibit a *firm* from identifying other assets as being available to meet the liabilities of its *long-term insurance business*. It may transfer such other assets to a *long-term insurance fund* (see *PRU 7.6.21R* and *PRU 7.6.22R*) and the transfer will take effect when it is recorded in the *firm's* accounting records (see *PRU 7.6.23R*). After the transfer takes effect, a *firm* may not transfer the assets out of a *long-term insurance fund* except where they represent an *established surplus* (see *PRU 7.6.27R*).
- 7.6.21 R (1) A *firm's* long-term insurance assets are the items in (2), adjusted to take account of:
- (a) outgo in respect of the *firm's* *long-term insurance business*; and
  - (b) any transfers made in accordance with *PRU 7.6.27R*.
- (2) The items are:
- (a) the assets identified under *PRU 7.6.18R* (including assets into which those assets have been converted);
  - (b) any other assets identified by the *firm* as being available to cover its *long-term insurance liabilities*;
  - (c) *premiums* and other receivables in respect of *long-term insurance contracts*;
  - (d) other receipts of the *long-term insurance business*; and
  - (e) all income and capital receipts in respect of the items in (2).
- 7.6.22 R (1) Unless (2) applies, all the *long-term insurance assets* of the *firm* constitute its long-term insurance fund.
- (2) Where a *firm* identifies particular *long-term insurance assets* in connection with different parts of its *long-term insurance business*, the assets identified in relation to each such part constitute separate long-term insurance funds of the *firm*.
- 7.6.23 R A *firm* must maintain a separate accounting record in respect of each of its *long-term insurance funds* (including any *with-profits fund*).

- 7.6.24 G *Firms* must ensure that *long-term insurance assets* are separately identified and allocated to a *long-term insurance fund* at all times. Assets in external accounts, for example at banks, custodians, or brokers should be segregated in the *firm's* books and records into separate accounts for *long-term insurance business* and *general insurance business*. Where a *firm* has more than one *long-term insurance fund*, a separate accounting record must be maintained for each fund. Accounting records should clearly document the allocation.
- 7.6.25 G Where the surplus arising from business is shared between *policyholders* and shareholders in different ways for different blocks of business, it may be necessary to maintain a separate fund to ensure that *policyholders* are, and will be, treated fairly. For example, if a proprietary company writes some business on a with-profits basis, this should be written in a *with-profits fund* separate from any business where the surplus arising from that business is wholly owned by shareholders.
- 7.6.26 G Where a *firm* merges separate funds for different types of business, it will need to ensure that the merger will not result in *policyholders* being treated unfairly. When considering merging the funds, the *firm* should consider the impact on its *PPFM* (see *COB* 6.10) and on its obligations to notify the *FSA* (see *SUP* 15.3). In particular, a *firm* would need to consider how any *inherited estate* would be managed and how the fund would be run in future, such that *policyholders* are treated fairly.
- 7.6.27 R A *firm* may not transfer assets out of a *long-term insurance fund* unless:
- (1) the assets represent an *established surplus*; and
  - (2) no more than three months have passed since the determination of that surplus.
- 7.6.28 G As a result of *PRU* 7.6.27R(2), an *actuarial investigation* undertaken to determine an *established surplus* remains in-date for three months from the date as at which the determination of the surplus was made. However, even where the investigation is still in-date, the *firm* should not make the transfer unless there is sufficient surplus at the time of the transfer to allow it to be made without breach of *PRU* 7.2.20R or *PRU* 7.2.21R.
- 7.6.29 G *PRU* 7.2.27R and *PRU* 7.2.28R provide further constraints on the transfer of assets out of a *with-profits fund*. *PRU* 7.2.27R requires a *firm* to have *admissible assets* in each of its *with-profits funds* to cover the *technical provisions* relating to all the business in that fund. *PRU* 7.2.28R requires a *realistic basis life firm* to ensure that the *realistic value of assets* for each of its *with-profits funds* is at least equal to the *realistic value of liabilities* of that fund.

#### Exclusive use of long-term insurance assets

- 7.6.30 R (1) A *firm* must apply a *long-term insurance asset* only for the purposes of its *long-term insurance business*.

- (2) For the purpose of (1), applying an asset includes coming under any obligation (even if only contingently) to apply that asset.

- 7.6.31 R A *firm* must not agree to, or allow, any mortgage or charge on its *long-term insurance assets* other than in respect of a *long-term insurance liability*.
- 7.6.32 G The purposes of the *long-term insurance business* include the payment of *claims*, expenses and liabilities arising from that business, the acquisition of lawful access to fixed assets to be used in that business and the investment of assets. The payment of liabilities may include repaying a loan but only where that loan was incurred for the purpose of the *long-term insurance business*. The purchase or investment of assets may include an exchange at fair *market value* of assets (including *money*) between the *long-term insurance fund* and other assets of the *firm*.

#### Payment of financial penalties

- 7.6.33 R If the *FSA* imposes a financial penalty on a *long-term insurer*, the *firm* must not pay that financial penalty from a *long-term insurance fund*.
- 7.6.34 G *PRU 7.6.2R* states that this provision applies to all *firms*, except *mutuals*, and includes *firms* qualifying for authorisation under Schedule 3 or 4 to the *Act*.

#### Requirements: property-linked funds

- 7.6.35 G *PRU 4.2.57R* requires a *firm* to cover, as closely as possible, its *property-linked liabilities* by the property to which those liabilities are linked. In order to comply with this *rule*, a *firm* should identify the assets it holds to cover *property-linked liabilities* and should not apply those assets (as long as they are needed to cover the *property-linked liabilities*) for any purpose other than to meet those liabilities.
- 7.6.36 R A *firm* must select, allocate and manage the assets to which its *property-linked liabilities* are linked taking into account:
- (1) the *firm's* contractual obligations to holders of *property-linked policies*; and
  - (2) its regulatory duty to treat *customers* fairly, including in the way it makes discretionary decisions as to how it selects, allocates and manages assets.
- 7.6.37 G *Property-linked liabilities* may be linked either to specified assets (with no contractual discretion given to the *firm* as to the choice of assets) or to assets of a specified kind where the selection of the actual assets is left to the *firm*.

#### Requirements: UK branches of certain non-EEA firms

- 7.6.38 G The purpose of the *rules* and *guidance* set out in *PRU 7.6.38G* to *PRU 7.6.57R* is to protect against the risk that the financial resources required in respect of the activities of the *United Kingdom* (or *EEA*) *branch(es)* might be depleted by the other activities of the *non-EEA direct insurer*.

- 7.6.39 G By virtue of *PRU 7.6.2R(4)*, the *rules* in *PRU 7.6.41R* to *PRU 7.6.57R* apply to *non-EEA direct insurers* except for *Swiss general insurers* and *EEA-deposit insurers*. Responsibility for determining the adequacy of the world-wide financial resources of *Swiss general insurers* or *EEA-deposit insurers* rests exclusively with the Swiss authorities or the authorities in the *EEA state* (other than the *United Kingdom*) in which the deposit was made.
- 7.6.40 G (1) *PRU 7.6.41R* requires a *non-EEA direct insurer* to hold adequate world-wide resources to meet the needs of the world-wide business without the need to rely on *UK* or *EEA branch* assets other than to meet *branch liabilities*.
- (2) *PRU 7.6.42R* to *PRU 7.6.47R* require *non-EEA direct insurers* to calculate a local *MCR* and to hold assets representing that requirement in the *EEA* or the *United Kingdom*.
- (3) *PRU 7.6.48R* to *PRU 7.6.52R* require *non-EEA direct insurers* to hold a minimum level of assets in the *United Kingdom* or *EEA*.
- (4) *PRU 7.6.54R* requires the deposit of a minimum level of assets in the *United Kingdom*.
- (5) *PRU 7.6.56R* and *PRU 7.6.57R* require *non-EEA direct insurers* to keep adequate accounting records in the *United Kingdom*.

#### Worldwide financial resources

- 7.6.41 R (1) A *non-EEA direct insurer* must maintain adequate worldwide financial resources, to ensure that there is no significant risk that its liabilities cannot be met as they fall due.
- (2) For the purpose of (1):
- (a) a *UK-deposit insurer* must not rely upon the assets held under *PRU 7.2.20R* as available to meet liabilities other than those arising from the activities of its *branches* in *EEA States*;
- (b) other *non-EEA direct insurers* to whom (1) applies must not rely upon the assets held under *PRU 7.2.20R* as available to meet liabilities other than those arising from the activities of any *UK branch*.

#### UK or EEA MCR to be covered by admissible assets

- 7.6.42 R A *non-EEA direct insurer* must:
- (1) calculate a *UK* or *EEA MCR* in accordance with *PRU 7.6.44R* to *PRU 7.6.47R*; and
- (2) hold *admissible assets* (in addition to those required under *PRU 7.2.20R*)

to represent its *UK* or *EEA MCR* calculated under (1).

- 7.6.43 R The assets held under *PRU 7.6.42R(2)* must be identified and valued as if the *non-EEA direct insurer* was a *firm* with its head office in the *United Kingdom*.
- 7.6.44 R For the purposes of *PRU 7.6.42R*, a *non-EEA direct insurer* (except a *UK-deposit insurer*) must calculate a *UK MCR*:
- (1) for *long-term insurance business*, in accordance with *PRU 7.2.81R* to *PRU 7.2.91R* but only in relation to business carried on by the *firm* in the *United Kingdom*;
  - (2) for *general insurance business*, in accordance with *PRU 7.2.45R* to *PRU 7.2.72R* but only in relation to business carried on by the *firm* in the *United Kingdom*.
- 7.6.45 R For a *composite firm*, the *UK MCR* is the sum of the amounts arrived at under *PRU 7.6.44R(1)* and (2).
- 7.6.46 R For the purposes of *PRU 7.6.42R*, a *UK-deposit insurer* must calculate an *EEA MCR*:
- (1) for *long-term insurance business*, in accordance with *PRU 7.2.81R* to *PRU 7.2.91R* but only in relation to business carried on by the *firm* in all *EEA States*, taken together;
  - (2) for *general insurance business*, in accordance with *PRU 7.2.45R* to *PRU 7.2.72R* but only in relation to business carried on by the *firm* in all *EEA States*, taken together.
- 7.6.47 R For a *composite firm*, the *EEA MCR* is the sum of the amounts arrived at under *PRU 7.6.46R(1)* and (2).

#### Localisation of assets

- 7.6.48 R A *non-EEA direct insurer* (except a *UK-deposit insurer*) must hold *admissible assets*, which are required to cover its *technical provisions* in accordance with *PRU 7.2.20R* and to represent its *UK MCR* in accordance with *PRU 7.6.44R*:
- (1) (where the assets cover the *technical provisions* and the *guarantee fund*) in the *United Kingdom*;
  - (2) (where the assets represent the amount of the *UK MCR* in excess of the *guarantee fund*) in any *EEA State*.
- 7.6.49 R A *UK-deposit insurer* must hold *admissible assets*, which are required to cover its *technical provisions* in accordance with *PRU 7.2.20R* and to represent its *EEA MCR* in accordance with *PRU 7.6.46R*:

- (1) (where the assets cover the *technical provisions* and the *guarantee fund*) within the *EEA* states where the *firm* carries on *insurance business*;
  - (2) (where the assets represent the amount of the *EEA MCR* in excess of the *guarantee fund*) in any *EEA State*.
- 7.6.50 R *PRU 7.6.48R* and *PRU 7.6.49R* do not apply to assets covering *technical provisions* which are debts owed by *reinsurers*.
- 7.6.51 G The *admissible assets* in excess of the *technical provisions* and *UK* or *EEA MCR* may be held outside the *EEA*.
- 7.6.52 R For the purpose of *PRU 7.6.48R* and *PRU 7.6.49R*:
- (1) a tangible asset is to be treated as held in the country or territory where it is situated;
  - (2) an *admissible asset* consisting of a *claim* against a debtor is to be regarded as held in any country or territory where it can be enforced by legal action;
  - (3) a *listed security* is to be treated as held in any country or territory where there is a *regulated market* in which the security is dealt; and
  - (4) a *security* which is not a *listed security* is to be treated as held in the country or territory in which the *issuer* has its head office.
- 7.6.53 G *PRU 4.2.53R* to *PRU 4.2.55R* (currency matching of assets and liabilities) apply to the assets held to match insurance liabilities calculated under *PRU 7.2.12R* or *PRU 7.2.16R*.

#### Deposit of assets as security

- 7.6.54 R A *non-EEA direct insurer* must keep assets of a value at least equal to one half of the *base capital resources requirement* on deposit in the *United Kingdom* with a *BCD credit institution*.
- 7.6.55 G The assets deposited as security may count towards the assets required under *PRU 7.6.48R* and *PRU 7.6.49R*. If, after the deposit is made, the value of the deposited assets falls below one half of the *base capital resources requirement*, the *firm* should deposit further *admissible assets* in order to comply with *PRU 7.6.48R* and *PRU 7.6.49R*. Deposited assets may be exchanged for other *admissible assets* and excess assets may be withdrawn, provided that the exchange or deposit does not cause a breach of *PRU 7.6.48R* or *PRU 7.6.49R*.

#### Branch accounting records in the United Kingdom

- 7.6.56 R A *non-EEA direct insurer* must maintain at a place of business in the *United Kingdom* adequate records relating to:
- (1) the activities carried on from its *United Kingdom branch*; and

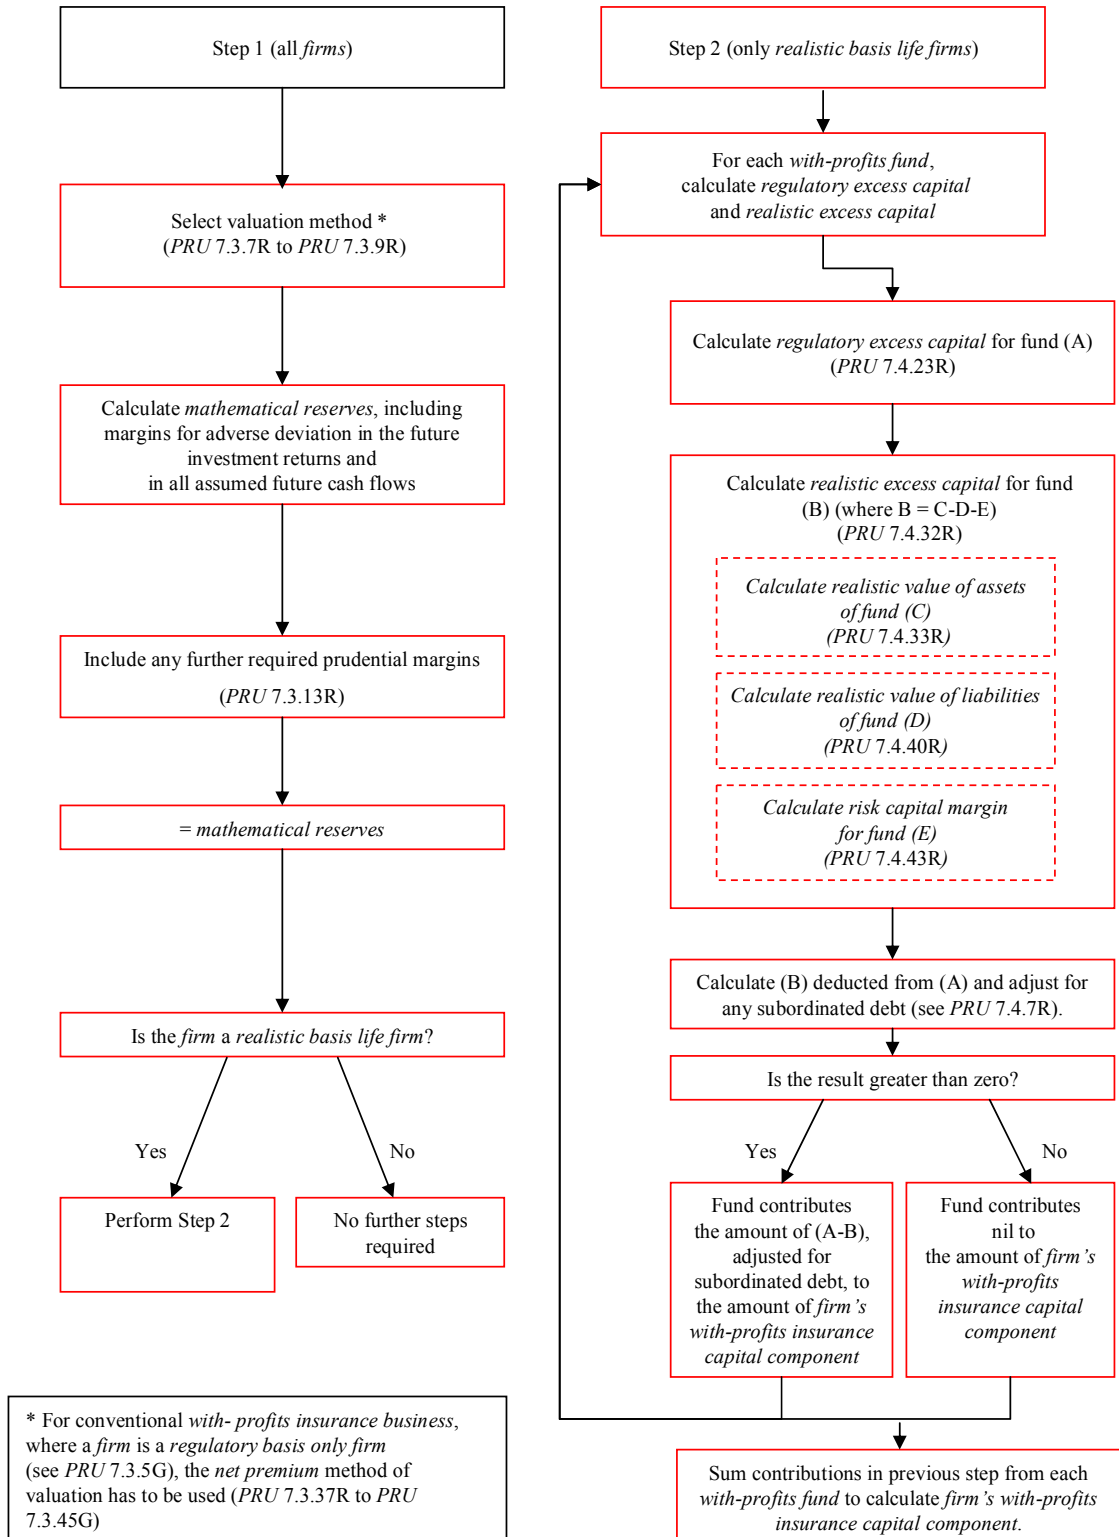

- (2) if it is an *EEA-deposit insurer*, the activities carried on from the *branches* in other *EEA States*.

7.6.57 R The records maintained as required by *PRU 7.6.56R* must include a record of:

- (1) the income, expenditure and liabilities arising from activities of the *branch* or *branches*; and
- (2) the assets identified under *PRU 7.2.20R* as available to meet those liabilities.

**Annex 1G**

**PRU 7.3 (Mathematical reserves) and PRU 7.4 (With-profits insurance capital component)**

## Annex J

### PRU 8.3

In this Annex, all the text is new and is not underlined.

#### 8.3 Group Risk: Insurance Groups

##### Application

8.3.1 R *PRU 8.3* applies to an *insurer* that is:

- (1) a *participating insurance undertaking*; or
- (2) a member of an *insurance group* (which is not a *participating insurance undertaking*).

8.3.2 R *PRU 8.3* does not apply to:

- (1) a *non-directive friendly society*; or
- (2) a *Swiss general insurer*; or
- (3) an *EEA-deposit insurer*; or
- (4) an *incoming EEA firm*; or
- (5) an *incoming Treaty firm*.

8.3.3 G *PRU 8.3* applies to a *firm*:

- (1) on a solo basis, as an adjusted solo calculation, where that *firm* is a *participating insurance undertaking*; and
- (2) on a group basis where that *firm* is a member of an *insurance group*.

8.3.4 G For the purposes of *PRU 8.3*, an *insurer* includes a *pure reinsurer*, a *friendly society* (other than a *non-directive friendly society*) and a *non-EEA insurer*.

##### Purpose

8.3.5 G The purpose of this section is to implement the *Insurance Groups Directive* on supplementary supervision of *firms* in an *insurance group*, as amended by the *Financial Groups Directive*. The *Financial Groups Directive* (by amending the *Insurance Directives* and the *Insurance Groups Directive*) introduces specific requirements for the treatment of *related undertakings* of an *insurance parent undertaking* or a *participating insurance undertaking* that are *credit institutions*, *investment firms* or *financial institutions*.

8.3.6 G *PRU 8.3* sets out the *sectoral rules* for *insurers* for:

- (1) *firms* that are *participating insurance undertakings* carrying out an adjusted solo calculation as contemplated by *PRU 2.1.9R(2)*;
- (2) *insurance groups*; and
- (3) *insurance conglomerates*.

8.3.7 G For a *firm* that is a *participating insurance undertaking*, the *rules* in *PRU 8.3* set out the minimum capital adequacy requirements for the *firm* itself. A *firm* that satisfies the test in *PRU 8.3.9R* in relation to its *group capital resources* is deemed by *PRU 2.1.9R(2)* to be in compliance with the capital adequacy requirement set out in *PRU 2.1.9R(1)*.

Requirement to calculate GCR and GCRR

8.3.8 R A *firm* must on a regular basis calculate the *group capital resources (GCR)* and *group capital resources requirement (GCRR)* of each *undertaking* referred to in *PRU 8.3.17R*.

Requirement to maintain group capital

8.3.9 R Where a *firm* is the *undertaking* referred to in *PRU 8.3.17R(1)(c)* or *PRU 8.3.17R(2)*, it must maintain at all times *tier one capital resources* and *tier two capital resources* of such an amount that its *group capital resources* are equal to or exceed its *group capital resources requirement*.

8.3.10 R A *firm* that is both:

- (1) a *composite firm*; and
- (2) an *undertaking* referred to in *PRU 8.3.17R(1)(c)* or *PRU 8.3.17R(2)*;

must comply with *PRU 8.3.9R* separately in respect of its *long-term insurance business* and its *general insurance business*.

8.3.11 R For the purposes of *PRU 8.3.10R*, a *firm* must include in the calculation of the *group capital resources* and *group capital resources requirement* of its *long-term insurance business* the *regulated related undertakings* and *ancillary services undertakings* that are *long-term insurance assets*.

8.3.12 G *PRU 7.6* sets out the detailed requirements for the separation of *long-term* and *general insurance business*.

8.3.13 G In order to comply with *PRU 8.3.10R*, a *composite firm* will need to:

- (1) establish the *group capital resources requirement* of its *general insurance business* and its *long-term insurance business* separately; and
- (2) allocate its *group capital resources* between its *general insurance business* and its *long-term insurance business* so that:

- (a) the *group capital resources* allocated to its *general insurance business* are equal to or in excess of the *group capital resources requirement* of its *general insurance business*; and
  - (b) the *group capital resources* allocated to its *long-term insurance business* are equal to or in excess of the *group capital resources requirement* of its *long-term insurance business*.
  
- 8.3.14 G Surplus *group capital resources* in the *long-term insurance business* cannot be used towards meeting the requirements of the *general insurance business* (see *PRU 8.3.41R*) but surplus *group capital resources* in the *general insurance business* may be used towards meeting the amount of the *group capital resources requirement* that relates to the *long-term insurance business*.
  
- 8.3.15 R Subject to *PRU 8.3.27R*, a *firm* must ensure that at all times its *capital resources* are of such an amount that the *group capital resources* of each *undertaking* referred to in *PRU 8.3.17R* (excluding those referred to in *PRU 8.3.9R*) are equal to or exceed that *undertaking's group capital resources requirement*.
  
- 8.3.16 G *Principle 4* requires a *firm* to maintain adequate financial resources, taking into account any activity of other members of the *group* of which the *firm* is a member. *PRU 8.3* sets out provisions that deal specifically with the way the activities of other members of the *group* should be taken into account. This results in the *firm* being required to hold sufficient capital resources so that the *group capital resources* are at least equal to the *group capital resources requirement*. However, the adequacy of the *group capital resources* needs to be assessed both by the *firm* and the *FSA*. *Firms* are required to carry out an assessment of the adequacy of their financial resources (*PRU 1.2.26R*) and the *FSA* will review this and may provide individual guidance on the amount and quality of *capital resources* the *FSA* considers adequate. As part of such reviews, the *FSA* may also form a view on the appropriateness of the *group capital resources requirement* and *group capital resources*. Where necessary, the *FSA* may also give individual guidance on the *capital resources* a *firm* should hold in order to comply with *Principle 4* expressed by reference to *PRU 8.3.9R* and *PRU 8.3.15R*.

Scope – undertakings whose group capital is to be calculated and maintained

- 8.3.17 R The *undertakings* referred to in *PRU 8.3.8R*, *PRU 8.3.9R*, *PRU 8.3.10R* and *PRU 8.3.15R* are:
  - (1) for any *firm* that is not within (2), each of the following:
    - (a) its *ultimate insurance parent undertaking*;
    - (b) its *ultimate EEA insurance parent undertaking* (if different);

- and
- (c) the *firm* itself, if it is a *participating insurance undertaking*; and
- (2) the *firm* itself, where the *firm* is a *participating insurance undertaking* and is:
- (a) a *pure reinsurer*; or
- (b) a *non-EEA insurer*; or
- (c) a *friendly society*.
- 8.3.18 G Article 3(3) of the *Insurance Groups Directive* allows an *undertaking* to be excluded from supplementary supervision if:
- (1) its head office is in a non-*EEA State* where there are legal impediments to the transfer of the necessary information; or
- (2) in the opinion of the *competent authority* responsible for exercising supplementary supervision, having regard to the objectives of supplementary supervision:
- (a) its inclusion would be inappropriate or misleading; or
- (b) it is of negligible interest.
- 8.3.19 G If an application is made for a *waiver*, it is the policy of the *FSA* to consider the effect, in the circumstances described in *PRU 8.3.18G*, of granting a *waiver* allowing the exclusion of a *related undertaking* from the calculation of *group capital resources* and the *group capital resources requirement* required by *PRU 8.3.8R*.
- 8.3.20 G Examples of *related undertakings* which may be excluded from supplementary supervision by Article 3(3) of the *Insurance Groups Directive* include *insurance holding companies* in the *insurance group* that are not the *ultimate insurance parent undertaking* or, if different, the *ultimate EEA insurance parent undertaking* of a *firm*.
- 8.3.21 G If more than one member of the *insurance group* is to be excluded in the circumstances described in *PRU 8.3.18G(2)(b)*, they may only be excluded if, considered together, they are of negligible interest in the context of the *insurance group*.
- 8.3.22 G When giving a *waiver* in the circumstances described in *PRU 8.3.18G*, the *FSA* may impose a condition requiring the *firm* to provide information about any member of the *insurance group* excluded pursuant to a *waiver* granted in the circumstances described in *PRU 8.3.18G*.

Optional alternative method of calculation for firms subject to supplementary

supervision by another EEA competent authority

- 8.3.23 R If the *competent authority* in an *EEA State* other than the *United Kingdom* has agreed to be the *competent authority* responsible for exercising supplementary supervision of an *insurance group* of which a *firm* is a member under Article 4(2) of the *Insurance Groups Directive*, the *firm* may prepare the calculations required under *PRU 8.3.8R* in relation to the *ultimate EEA insurance parent undertaking* in accordance with the requirements of supplementary supervision in that *EEA State*.
- 8.3.24 G The *FSA* will notify the *firm* if it has reached agreement with the *competent authority* in an *EEA State* other than the *United Kingdom* in accordance with Article 4(2) of the *Insurance Groups Directive*.

Non-EEA ultimate insurance parent undertakings

- 8.3.25 R Where the *ultimate insurance parent undertaking* of a *firm* has its head office in a non-*EEA State*, the *firm* may:
- (1) calculate the *group capital resources* and the *group capital resources requirement* of its *ultimate insurance parent undertaking* in accordance with accounting practice applicable for the purposes of the regulation of *insurance undertakings* in the state or territory of the head office of the *ultimate insurance parent undertaking* adapted as necessary to apply the general principles set out in Annex I (1) paragraphs B, C and D of the *Insurance Groups Directive*; and
  - (2) elect (see *PRU 8.3.26R*) to carry out the calculation referred to in (1) in accordance with the accounting consolidation method set out in Annex I (3) of the *Insurance Groups Directive*.
- 8.3.26 R A *firm* may elect to use the calculation method referred to in *PRU 8.3.25R* (2) if it has made the election by written notice to the *FSA* in a way that complies with the requirements for written notice in *SUP 15.7*.
- 8.3.27 R *PRU 8.3.15R* does not apply in respect of the *group capital resources* of a *firm's ultimate insurance parent undertaking* if that *ultimate insurance parent undertaking* has its head office in a non-*EEA State*.

Proportional holdings

- 8.3.28 R Subject to *PRU 8.3.30R* and *PRU 8.3.31R*, when calculating *group capital resources* and the *group capital resources requirement* of an *undertaking* in *PRU 8.3.17R*, a *firm* must take only the relevant proportion of the following items ("calculation items") into account:
- (1) the *solo capital resources* of a *regulated related undertaking*;
  - (2) the assets of a *regulated related undertaking* which are required to be deducted as part of the calculation of *group capital resources*; and
  - (3) the *individual capital resources requirement* of a *regulated related*

*undertaking.*

- 8.3.29 R In *PRU 8.3.28R*, the relevant proportion is either:
- (1) the proportion of the total number of issued *shares* in the *regulated related undertaking* held, directly or indirectly, by the *undertaking* in *PRU 8.3.17R*; or
  - (2) where a *consolidation Article 12(1) relationship* exists between *related undertakings* within the *insurance group*, such proportion as the *FSA* determines in accordance with Article 28(5) of the *Financial Groups Directive* and Regulation 15 of the *Financial Groups Directive Regulations*.
- 8.3.30 R Where the *undertaking* in *PRU 8.3.17R* is a *firm*, if the *individual capital resources requirement* of a *regulated related undertaking* that is a *subsidiary undertaking* and not an *insurer* exceeds the *solo capital resources* of that *undertaking* less the amount calculated in *PRU 8.3.74R(3)* (if any), the full amount of the calculation items of that *regulated related undertaking* less the amount in *PRU 8.3.74R(3)* must be taken into account in the calculation of *group capital resources* and the *group capital resources requirement*.
- 8.3.31 R Except where *PRU 8.3.30R* applies, if the *individual capital resources requirement* of a *regulated related undertaking* that is a *subsidiary undertaking* of the *undertaking* in *PRU 8.3.17R* exceeds its *solo capital resources*, the full amount of the calculation items of that *regulated related undertaking* must be taken into account in the calculation of *group capital resources* and the *group capital resources requirement*.
- 8.3.32 R For the purposes of *PRU 8.3.10R*, where a *composite firm* that is an *undertaking* in *PRU 8.3.17R(1)(c)* or (2):
- (1) holds directly or indirectly *shares* in a *regulated related undertaking*; and
  - (2) the *shares* in (1) are held partly by its *long-term insurance business* and partly by its *general insurance business*;
- the relevant proportion of the calculation items calculated in accordance with *PRU 8.3.29R*, subject to *PRU 8.3.30R* and *PRU 8.3.31R*, must be allocated between the *long-term* and *general insurance business* in proportion to their respective holdings, directly or indirectly, in the *shares* in that *regulated related undertaking*.

#### Calculation of the GCRR

- 8.3.33 R Subject to *PRU 8.3.23R* and *PRU 8.3.25R*, a *firm* must calculate the *group capital resources requirement* of an *undertaking* in *PRU 8.3.17R* as the sum of the *individual capital resources requirement* of that *undertaking* and the *individual capital resources requirement* of each of its *regulated related*

*undertakings.*

8.3.34 R For the purposes of *PRU 8.3*, an *individual capital resources requirement* is:

- (1) in respect of an *insurer* that is not within (2):
  - (a) its *capital resources requirement* calculated in accordance with *PRU 2.1*; less
  - (b) where the *capital resources requirements* of both the *insurer* and its *insurance parent undertaking* that is an *insurer* include *with-profits insurance capital components*, any element of double-counting that may arise from the aggregation of the *individual capital resources requirements* for the purposes of *PRU 8.3.33R*;
- (2) in respect of an *insurer* that is either a *pure reinsurer* or whose main business otherwise consists of *reinsurance*, and whose head office is in the *United Kingdom*, the *capital resources requirement* that would apply to the *firm* in accordance with *PRU 2.1* if its *insurance business* was not restricted to *reinsurance*;
- (3) in respect of an *insurance undertaking* that is not within (1) or (2) and whose main business is *reinsurance* and whose head office is in a *designated State or territory*, either:
  - (a) the *proxy capital resources requirement* that would apply to it if, in connection with its *reinsurance* activities, the *permissions* on the basis of which that *proxy capital resources requirement* is calculated were *permissions* to carry on *insurance business* that is not restricted to *reinsurance*; or
  - (b) the *solo capital resources requirement* that would apply to it if, in connection with its *reinsurance* activities, the *insurance undertaking* were a *regulated insurance entity* whose *insurance business* is not restricted to *reinsurance* for the purposes of calculating the *solo capital resources requirement* in accordance with the relevant *sectoral rules* of the *designated State or territory*;
- (4) in respect of an *insurance undertaking* that is not within (1) to (3) and whose main business is *reinsurance*, the *proxy capital resources requirement* that would apply to it if, in connection with its *reinsurance* activities, the *permissions* on the basis of which that *proxy capital resources requirement* is calculated were *permissions* to carry on *insurance business* that is not restricted to *reinsurance*;
- (5) in respect of an *EEA insurer*, the equivalent of the *capital resources requirement* as calculated in accordance with the applicable requirements in its *Home State*;

- (6) in respect of an *insurance undertaking* that is not within (1) to (5) and whose head office is in a *designated State or territory*, either:
  - (a) the *solo capital resources requirement* applicable to it in that *designated State or territory*; or
  - (b) its *proxy capital resources requirement*;
- (7) in respect of an *insurance undertaking* that is not within (1) to (6), its *proxy capital resources requirement*;
- (8) in respect of a *regulated entity* with its head office in the *EEA* (excluding an *insurance undertaking*), its *solo capital resources requirement* calculated in accordance with the *sectoral rules* for the *financial sector* applicable to it in the *EEA State* in which it has its head office;
- (9) in respect of a *regulated entity* not within (8) (excluding an *insurance undertaking*), its *solo capital resources requirement*;
- (10) in respect of an *asset management company*, the *solo capital resources requirement* that would apply to it if, in connection with its activities, it were treated as an *investment firm* for the purposes of calculating the *solo capital resources requirement*;
- (11) in respect of a *financial institution* that is not a *regulated entity* (including a *financial holding company*), the *solo capital resources requirement* that would apply to it if, in connection with its activities, it were treated as being within the *banking sector*; and
- (12) in respect of an *insurance holding company*, zero.

8.3.35 G The *Insurance Groups Directive* defines reinsurers in terms of the 'main business' they carry on. Under the directive, the individual capital resources requirements for reinsurers (including those whose head office is in the *United Kingdom*) are to be calculated on the basis of requirements analogous to those applicable to direct insurers (that is, *insurers* carrying on insurance business that is not restricted to *reinsurance*). Although *insurers* that are *pure reinsurers* are already subject to *PRU*, there are a number of respects in which the capital regime that applies to them differs from that applicable to *insurers* who are direct insurers. The effect of *PRU* 8.3.34R(2) to (4) is to calculate the *individual capital resources requirement* for all reinsurers as if they were carrying on direct insurance. This applies to:

- (1) *pure reinsurers* whose head office is in the *United Kingdom*;
- (2) *insurers* whose head office is in the *United Kingdom* and whose main business is *reinsurance* (because an *insurer* that is not a *pure reinsurer* with their business restricted to *reinsurance* may nevertheless in principle still have *reinsurance* as its main business);

- (3) reinsurers whose head office is in another *EEA State*;
- (4) reinsurers whose head office is in a *designated State or territory* (other than an *EEA State*); and
- (5) reinsurers whose head office is outside the *EEA*.

#### Calculation of GCR

- 8.3.36 R For the purposes of *PRU 8.3.8R* and subject to *PRU 8.3.23R* and *PRU 8.3.25R*, a *firm* must calculate the group capital resources of an *undertaking* in *PRU 8.3.17R* in accordance with the table in *PRU 8.3.43R*, subject to the limits in *PRU 8.3.45R*.
- 8.3.37 R For the purposes of *PRU 8.3*, the following expressions when used in relation to either an *undertaking* in *PRU 8.3.17R* or a *regulated related undertaking* which is not subject to *PRU 2.2.14R*, are to be construed as if that *undertaking* were required to calculate its capital resources in accordance with *PRU 2.2.14R*, but with such adjustments being made to secure that the *undertaking's* calculation of its *solo capital resources* complies with the relevant *sectoral rules* applicable to it:
- (1) *tier one capital resources*;
  - (2) *tier two capital resources*;
  - (3) *upper tier two capital resources*;
  - (4) *lower tier two capital resources*;
  - (5) *innovative tier one capital resources*; and
  - (6) *core tier one capital*.
- 8.3.38 R For the purposes of *PRU 8.3.37R*, the *sectoral rules* applicable to:
- (1) an *insurance holding company* are the *sectoral rules* that would apply to it if, in connection with its activities, it were treated as an *insurer*;
  - (2) an *asset management company* are the *sectoral rules* that would apply to it if, in connection with its activities, it were treated as an *investment firm*; and
  - (3) subject to *PRU 8.3.39R*, a *financial institution*, that is not a *regulated entity*, are the *sectoral rules* that would apply to it if, in connection with its activities, it were treated as being within the *banking sector*.
- 8.3.39 R Where a *financial institution*, that is not a *regulated entity*, has invested in *tier one capital* or *tier two capital* issued by a *parent undertaking* that is:

- (1) an *insurance holding company*; or
- (2) an *insurer*;

the *sectoral rules* that apply to that *financial institution* are the *sectoral rules* for the *insurance sector*.

8.3.40 R For the purposes of *PRU 8.3.36R*, the *capital resources* of a *financial institution* within *PRU 8.3.39R* that can be included in the calculations in *PRU 8.3.48R(2)*, *PRU 8.3.50R(2)*, *PRU 8.3.53R(2)*, *PRU 8.3.55R(2)* and *PRU 8.3.57R(2)* are:

- (1) the issued *tier one capital* or *tier two capital* of that *financial institution* held, directly or indirectly, by its *parent undertaking* referred to in *PRU 8.3.39R*; and
- (2) the lower of:
  - (a) the *tier one capital* or *tier two capital* issued by the *parent undertaking* referred to in *PRU 8.3.39R* pursuant to the investment by the *financial institution*; and
  - (b) the *tier one capital* or *tier two capital* issued by the *financial institution* to raise funds for its investment in the *capital resources* of the *parent undertaking* referred to in (a).

8.3.41 R (1) In calculating *group capital resources*, a *firm* must exclude the restricted assets of a *regulated related undertaking* except insofar as those assets are available to meet the *individual capital resources requirement* of that *regulated related undertaking*.

(2) In (1), "restricted assets" means assets of a *regulated related undertaking* which are subject to a legal restriction or other requirement having the effect that those assets cannot be transferred or otherwise made available to another *regulated related undertaking* for the purposes of meeting its *individual capital resources requirement* without causing a breach of that legal restriction or requirement.

8.3.42 G For the purposes of *PRU 8.3.41R*, in respect of an *insurance undertaking* that is a member of an *insurance group*, the assets of a *long-term insurance fund* are restricted assets within the meaning of *PRU 8.3.41R*. Any excess of assets over liabilities in the *long-term insurance business* may only be included in the calculation of the *group capital resources* up to the amount of the *capital resources requirement* related to that *long-term insurance business*.

8.3.43 R Table: Group capital resources

	Stage	Related text
Total group tier one capital		

	A	PRU 8.3.48R
Total group tier two capital	B	PRU 8.3.50R
Group capital resources before deductions	C=(A+B)	
Total deductions of inadmissible assets	D	PRU 8.3.59R
Total deductions under the requirement deduction method from group capital resources	E	PRU 8.3.62R
Total deductions of ineligible surplus capital*	F	PRU 8.3.65R
Deduction of assets in excess of market risk and counterparty exposure limits*	G	PRU 8.3.70R
Group capital resources	H=(C-(D+E+F*+G*))	
* = section (F) of the table (the deductions for ineligible surplus capital) and section (G) of the table (assets in excess of market risk and counterparty exposure limits) only apply and are required to be calculated for the purposes of the adjusted solo calculation of an <i>undertaking</i> in PRU 8.3.17R that is a <i>participating insurance undertaking</i> .		

#### Calculation of GCR – Limits on the use of different forms of capital

- 8.3.44 G As the various components of capital differ in the degree of protection that they offer the *insurance group*, restrictions are placed on the extent to which certain types of capital are eligible for inclusion in the *group capital resources* of the *undertaking* in PRU 8.3.17R. These restrictions are set out in PRU 8.3.45R.
- 8.3.45 R (1) For the purposes of PRU 8.3.9R, PRU 8.3.10R and PRU 8.3.15R, a *firm* must ensure that at all times its *tier one capital resources* and *tier two capital resources* are of such an amount that the *group capital resources* of the *undertaking* in PRU 8.3.17R comply with the following limits:
- (a)  $(P - Q) \geq \frac{1}{2} (R - S)$ ;

- (b)  $(P - Q + T - W) \geq \frac{3}{4} (R - S)$ ;
  - (c)  $V \geq \frac{1}{2} P$ ;
  - (d)  $Q \leq 15\%$  of P;
  - (e)  $T \leq P$ ; and
  - (f)  $W \leq \frac{1}{2} P$
- (2) For the purposes of *PRU 8.3.9R* and *PRU 8.3.10R*, a *firm* must ensure that at all times its *tier one capital resources* and *tier two capital resources* are of such an amount that its *group capital resources* comply with the following limit:

$$(P - Q + T) \geq \frac{1}{3}X + (R - S - U - X).$$

- (3) For the purposes of (1) and (2):
- (a) P is the *total group tier one capital* of the *undertaking* in *PRU 8.3.17R*;
  - (b) Q is the sum of the *innovative tier one capital resources* calculated in accordance with *PRU 8.3.53R*;
  - (c) R is the *group capital resources requirement* of the *undertaking* in *PRU 8.3.17R*;
  - (d) S is the sum of all the *with-profits insurance capital components* of an *undertaking* in *PRU 8.3.17R* that is an *insurer* and each of its *regulated related undertakings* that is an *insurer*;
  - (e) T is the *total group tier two capital* of the *undertaking* in *PRU 8.3.17R*;
  - (f) U is the sum of all the *resilience capital requirements* of an *undertaking* in *PRU 8.3.17R* that is an *insurer* and each of its *regulated related undertakings* that is an *insurer*;
  - (g) V is the sum of all the *core tier one capital* calculated in accordance with *PRU 8.3.55R*;
  - (h) W is the sum of the *lower tier two capital resources* calculated in accordance with *PRU 8.3.57R*; and
  - (i) X is the *MCR* of the *firm* less its *resilience capital requirement*, if any.

8.3.46 G The amount of any capital item excluded from *group capital resources* under *PRU 8.3.45R(1)(d)* may form part of *total group tier two capital* calculated in accordance with *PRU 8.3.50R* subject to the limits in *PRU*

8.3.45R(1)(e) and (f).

- 8.3.47 R For the purposes of *PRU 8.3.10R*, a *firm* must ensure that the *tier one capital resources* and *tier two capital resources* of each of its *long-term insurance business* and its *general insurance business* are of such an amount that the *group capital resources* of each its *long-term insurance business* and its *general insurance business* comply with the limits in *PRU 8.3.45R* separately for each type of business.

Calculation of GCR – Total group tier one capital

- 8.3.48 R For the purposes of *PRU 8.3.43R*, the *total group tier one capital* of an *undertaking* in *PRU 8.3.17R* is the sum of:
- (1) the *tier one capital resources* of the *undertaking* in *PRU 8.3.17R*; and
  - (2) subject to *PRU 8.3.40R*, the *tier one capital resources* of each of the *related undertakings* of that *undertaking* that is a *regulated related undertaking* after the deduction in *PRU 8.3.49R*.

- 8.3.49 R The deduction referred to in *PRU 8.3.48R* is the sum of:
- (1) the book value of the investment by the *undertaking* in *PRU 8.3.17R* in the *tier one capital resources* of each of its *related undertakings* that is a *regulated related undertaking*; and
  - (2) the book value of the investments by *related undertakings* of the *undertaking* in *PRU 8.3.17R* in the *tier one capital resources* of the *undertaking* in *PRU 8.3.17R* and each of its *related undertakings* that is a *regulated related undertaking*.

Calculation of GCR – Total group tier two capital

- 8.3.50 R For the purposes of *PRU 8.3.43R*, the *total group tier two capital* of an *undertaking* in *PRU 8.3.17R* is the sum of:
- (1) the *upper tier two capital resources* and the *lower tier two capital resources* of that *undertaking*; and
  - (2) subject to *PRU 8.3.40R*, the *upper tier two capital resources* and the *lower tier two capital resources* of each of the *related undertakings* of that *undertaking* that is a *regulated related undertaking* after the deduction in *PRU 8.3.51R*.
- 8.3.51 R The deduction referred to in *PRU 8.3.50R* is the sum of:
- (1) the book value of the investments by the *undertaking* in *PRU 8.3.17R* in the *upper tier two capital resources* and the *lower tier two capital resources* of each of its *related undertakings* that is a *regulated related undertaking*; and

- (2) the book value of the investments by *related undertakings* of the *undertaking* in PRU 8.3.17R in the *upper tier two capital resources* and the *lower tier two capital resources* of the *undertaking* in PRU 8.3.17R and each of its *related undertakings* that is a *regulated related undertaking*.

8.3.52 G For the purposes of PRU 8.3.50R(2), the limits in PRU 2.2.23R apply to the *upper tier two capital resources* and the *lower tier two capital resources* of any *regulated related undertaking* that is an *insurer*. Similar limits may apply to other *regulated related undertakings* under the relevant *sectoral rules*.

Calculation of GCR – Innovative tier one capital resources, lower tier two capital resources and core tier one capital

8.3.53 R For the purposes of PRU 8.3.45R(3)(b), the *innovative tier one capital resources* is the sum of:

- (1) the *innovative tier one capital resources* of the *undertaking* in PRU 8.3.17R; and
- (2) subject to PRU 8.3.40R, the *innovative tier one capital resources* of each of the *related undertakings* of that *undertaking* that is a *regulated related undertaking* after the deduction in PRU 8.3.54R.

8.3.54 R The deduction referred to in PRU 8.3.53R is the sum of:

- (1) the book value of the investments by the *undertaking* in PRU 8.3.17R in the *innovative tier one capital resources* of each of its *related undertakings* that is a *regulated related undertaking*; and
- (2) the book value of the investments by *related undertakings* of the *undertaking* in PRU 8.3.17R in the *innovative tier one capital resources* of the *undertaking* in PRU 8.3.17R and each of its *related undertakings* that is a *regulated related undertaking*.

8.3.55 R For the purposes of PRU 8.3.45R(3)(g), the *core tier one capital* is the sum of:

- (1) the *core tier one capital* of the *undertaking* of PRU 8.3.17R; and
- (2) subject to PRU 8.3.40R, the *core tier one capital* of each of the *related undertakings* of that *undertaking* that is a *regulated related undertaking* after the deduction in PRU 8.3.56R.

8.3.56 R The deduction referred to in PRU 8.3.55R is the sum of:

- (1) the book value of the investments by the *undertaking* in PRU 8.3.17R in the *core tier one capital* of each of its *related undertakings* that is a *regulated related undertaking*; and
- (2) the book value of the investments by *related undertakings* of the

*undertaking in PRU 8.3.17R in the core tier one capital of the undertaking in PRU 8.3.17R and each of its related undertakings that is a regulated related undertaking.*

- 8.3.57 R For the purposes of *PRU 8.3.45R(3)(h)*, the *lower tier two capital resources* is the sum of:
- (1) the *lower tier two capital resources* of the *undertaking in PRU 8.3.17R*; and
  - (2) subject to *PRU 8.3.40R*, the *lower tier two capital resources* of each of the *related undertakings* of that *undertaking* that is a *regulated related undertaking* after the deduction in *PRU 8.3.58R*.
- 8.3.58 R The deduction referred to in *PRU 8.3.57R* is the sum of:
- (1) the book value of the investments by the *undertaking in PRU 8.3.17R* in the *lower tier two capital resources* of each of its *related undertakings* that is a *regulated related undertaking*; and
  - (2) the book value of the investments by *related undertakings* of the *undertaking in PRU 8.3.17R* in the *lower tier two capital resources* of the *undertaking in PRU 8.3.17R* and each of its *related undertakings* that is a *regulated related undertaking*.

#### Calculation of GCR – Inadmissible assets

- 8.3.59 R For the purpose of *PRU 8.3.43R*, a *firm* must deduct from the group capital resources before deduction (calculated at stage C in the table in *PRU 8.3.43R*) of the *undertaking in PRU 8.3.17R*, the value of all assets of the *undertaking in PRU 8.3.17R* and each of its *regulated related undertakings* that are not admissible assets as set out in *PRU 8.3.60R*.
- 8.3.60 R For the purposes of *PRU 8.3.59R*, an asset is not an admissible asset if:
- (1) in respect of a *regulated related undertaking* or *undertaking in PRU 8.3.17R* that is an *insurer*, it is not an *admissible asset* as listed in *PRU 2 Ann 1R*;
  - (2) in respect of a *regulated related undertaking* or *undertaking in PRU 8.3.17R* that is not an *insurer*, it is an asset of the *undertaking* that is not admissible for the purpose of calculating that *undertaking's solo capital resources* in accordance with the *sectoral rules* applicable to it.
- 8.3.61 R For the purposes of *PRU 8.3.60R(2)*, the *sectoral rules* applicable to:
- (1) an *asset management company* are the *sectoral rules* that would apply to it if, in connection with its activities, it were treated as an *investment firm*; and
  - (2) a *financial institution* that is not a *regulated entity* are the *sectoral*

*rules* that would apply to it if, in connection with its activities, it were treated as being within the *banking sector*.

#### Calculation of GCR – Deductions under requirement deduction method from group capital resources

- 8.3.62 R For the purposes of *PRU 8.3.43R*, a *firm* must deduct from the group capital resources before deduction (calculated at stage C in the table in *PRU 8.3.43R*) of an *undertaking* in *PRU 8.3.17R*, the sum of the value of the direct or indirect investments by the *undertaking* in *PRU 8.3.17R* in each of its *related undertakings* which is an *ancillary services undertaking*, calculated in accordance with *PRU 8.3.63R*.
- 8.3.63 R The value of an investment in an *undertaking* referred to in *PRU 8.3.62R* is the higher of the book value of the direct or indirect investment by the *undertaking* in *PRU 8.3.17R* and the notional capital resources requirement of that *undertaking*.
- 8.3.64 R For the purposes of *PRU 8.3.63R*, the notional capital resources requirement is:
- (1) for an *ancillary insurance services undertaking*, zero;
  - (2) for any other *ancillary services undertaking*, the *capital resources requirement* that would apply to that *undertaking*, if it were a *regulated related undertaking*, in accordance with the *sectoral rules* applicable to a *regulated related undertaking* whose activities are closest in nature and scope to the activities of that *undertaking*.

#### Calculation of GCR – Deductions of ineligible surplus capital

- 8.3.65 R Where the *undertaking* in *PRU 8.3.17R* is a *participating insurance undertaking*, the *firm* must, for the purposes of *PRU 8.3.43R*, deduct from its group capital resources before deduction (calculated at stage C in the table in *PRU 8.3.43R*) the sum of the ineligible surplus capital of each of its *regulated related undertakings* that is an *insurance undertaking*, calculated in accordance with *PRU 8.3.67R*.
- 8.3.66 G The purpose of *PRU 8.3.65R* is to ensure that, where the *undertaking* in *PRU 8.3.17R* is a *firm*, *group capital resources* are not overstated by the inclusion of capital that, although surplus to the requirements of the relevant *regulated related undertaking* that is an *insurance undertaking*, cannot practically be transferred to support requirements arising elsewhere in the group. Therefore, ineligible surplus capital in a *regulated related undertaking* that is an *insurance undertaking* is deducted in arriving at *group capital resources*. Surplus capital in such a *regulated related undertaking* is regarded as transferable only to the extent that:
- (1) it can be transferred without the *regulated related undertaking* breaching its own limits on the use of different forms of capital;
  - (2) it does not contain assets that are restricted within the meaning of

*PRU 8.3.41R*; and

- (3) in the case of a *regulated related undertaking* that has a *long-term insurance business*, it does not contain any assets allocated to the *capital resources* of that *undertaking* for the purposes of the *capital resources* of its *long-term insurance business* meeting the *capital resources requirement* of its *long-term insurance business*.

8.3.67 R (1) For the purposes of *PRU 8.3.65R*, the ineligible surplus capital of a *regulated related undertaking* that is an *insurance undertaking* is calculated by deducting B from A where:

- (a) A is the *regulatory surplus value* of that *insurance undertaking* less any restricted assets of the *insurance undertaking* that have been excluded under *PRU 8.3.41R*; and
- (b) B is the transferable capital of that *undertaking*.

- (2) If A minus B is negative, the ineligible surplus capital is zero.

8.3.68 R For the purposes of *PRU 8.3.67R(1)(b)*, the transferable capital is calculated by deducting the sum of the following from the *tier one capital resources* of the *regulated related undertaking* that is an *insurance undertaking*:

- (1) any restricted assets of that *insurance undertaking* that have been excluded under *PRU 8.3.41R*;
- (2) any *tier one capital resources* of that *insurance undertaking* that have been allocated towards meeting the *individual capital resources requirement* of its *long-term insurance business*; and
- (3) the higher of:
- (a) 50% of the *individual capital resources requirement* of the *general insurance business* of that *insurance undertaking*; and
- (b) the *individual capital resources requirement* of the *general insurance business* of that *insurance undertaking* less the difference between E and F where:
- (i) E is its *tier two capital resources*; and
- (ii) F is the amount of its *tier two capital resources* that have been allocated towards meeting the *individual capital resources requirement* of its *long-term insurance business*.

8.3.69 G Examples of transferable and ineligible surplus capital:

Example 1

Share capital	Audited reserves	FFA	Tier two	Requirement
30	20	0	40	50

- (i) Under *PRU* 8.3.68R, transferable capital = *tier one capital resources* of 50, less the sum of:
- (1) restricted assets excluded under *PRU* 8.3.41R = (none);
  - (2) *tier one capital resources* allocated to the *long-term insurance business* = (none); and
  - (3) higher of (50% of 50 = 25 and 50 – 40 = 10) = (25)  
= (50 – 25) = 25
- (ii) Under *PRU* 8.3.67R, ineligible surplus capital = *regulatory surplus value* (40) less restricted assets excluded under *PRU* 8.3.41R (0) less transferable capital (25) = 15.

Example 2

Share capital	Audited reserves	FFA (of which 5 is restricted)	Tier two	Requirement (of which 5 relates to the <i>long-term insurance business</i> )
30	20	10	40	50

- (i) Under *PRU* 8.3.68R, transferable capital = *tier one capital resources* of 60, less the sum of:
- (1) restricted assets excluded under *PRU* 8.3.41R = (5);
  - (2) *tier one capital resources* allocated to the *long-term insurance business* = (5); and
  - (3) the higher of (50% of 45 = 22.5; and 45 – 40 = 5) = (22.5)  
= 60 – 32.5 = 27.5

- (ii) Under *PRU 8.3.67R*, ineligible surplus capital = *regulatory surplus value* (50) – restricted assets excluded under *PRU 8.3.41R* of (5) – transferable capital (27.5) = 17.5.

Example 3

Share capital	Audited reserves	FFA (of which 0 is restricted)	Tier two (40, of which 5 is excluded at the solo level – see below)	Requirement (of which 25 relates to the <i>long-term insurance business</i> )
20	10	20	35	50

The requirement relating to the *long-term insurance business* is met by the FFA of 20 and *tier two capital resources* of 5. Of the remaining *tier two capital resources* of 35, 5 is excluded at the solo level because the *tier one capital resources* allocated to the *general insurance business* are 30.

- (i) Under *PRU 8.3.68R*, transferable capital = *tier one capital resources* of 50, less the sum of:
- (1) restricted assets excluded under *PRU 8.3.41R* = (none);
  - (2) *tier one capital resources* allocated to the *long-term insurance business* = (20); and
  - (3) the higher of (50% of 25 = 12.5; and 25 – (35 - 5) = -5) = (12.5)
- = 50 – 32.5 = 17.5.
- (ii) Under *PRU 8.3.67R*, ineligible surplus capital = *regulatory surplus value* (35) – restricted assets excluded under *PRU 8.3.41R* of (0) – transferable capital (17.5) = 17.5.

Calculation of GCR – Assets in excess of market risk and counterparty exposure limits

- 8.3.70 R Where the *undertaking* in *PRU 8.3.17R* is a *participating insurance undertaking*, the *firm* must deduct from its group capital resources before deduction (calculated at stage C in the table in *PRU 8.3.43R*) the assets in excess of *market risk* and *counterparty* exposure limits calculated in accordance with *PRU 8.3.74R*.
- 8.3.71 G For the purposes of *PRU 8.3.43R*, where the *undertaking* in *PRU 8.3.17R* is a *participating insurance undertaking*, the investments referred to in *PRU*

8.3.48R and *PRU* 8.3.50R are not subject to the *market risk* and *counterparty* exposure limits.

- 8.3.72 R The *firm* (A) must, subject to *PRU* 8.3.73R, include in the calculation in *PRU* 8.3.74R each *related undertaking* (B) that is:
- (1) a *regulated related undertaking* that is a *subsidiary undertaking*; or
  - (2) a *related undertaking* where the *firm* has elected to value the *shares* held in that *undertaking* by the *firm* in accordance with *PRU* 1.3.35R for the purposes of calculating the *tier one capital resources* of the *firm*.
- 8.3.73 R The *related undertakings* in *PRU* 8.3.72R need only be included in the calculation in *PRU* 8.3.74R if:
- (1) where B is a *regulated related undertaking*, the *solo capital resources* of that *undertaking* exceed its *individual capital resources requirement*; or
  - (2) where B is an *undertaking* in *PRU* 8.3.72R(2), its assets that fall within one or more of the categories in *PRU* 2 Ann 1R exceed its accounting liabilities.
- 8.3.74 R A's assets in excess of the *market risk* and *counterparty* exposure limits are calculated as follows:
- (1) Subject to (2), a *firm* must apply the *market risk* and *counterparty* exposure limits in *PRU* 3.2.22R(3) to:
    - (a) where B is an *insurer*, the *admissible assets* of B;
    - (b) where B is a *regulated related undertaking* that is not an *insurer*, the assets of that *undertaking* less those assets identified in *PRU* 8.3.60R(2) as not being *admissible assets*.
  - (2) The *market risk* and *counterparty* exposure limits do not need to be applied to an *undertaking* in *PRU* 8.3.72R(2).
  - (3) Where the assets of B in *PRU* 8.3.74R(1) exceed the limits in *PRU* 3.2.22R(3), the assets of B in excess of the limits must be deducted by the *firm* from B's *solo capital resources* for the purposes of *PRU* 8.3.30R.
  - (4) After the application of (1) and (2), the surplus assets of B are aggregated with the *admissible assets* of A, where the surplus assets of B are:
    - (a) where B is a *firm*, the *admissible assets* of B that represent the amount by which the *capital resources* of B exceed its *capital resources requirement*, subject to *PRU* 8.3.77R, and limited to the amount of transferable capital calculated in

accordance with *PRU 8.3.68R*;

- (b) where B is a *regulated related undertaking* that is not a *firm*, the assets of the *undertaking* in *PRU 8.3.74R(1)(b)* that represent the amount by which the *solo capital resources* of B exceed its *individual capital resources requirement* and, where B is an *insurance undertaking* that is not a *firm*, limited to the amount of transferable capital calculated in accordance with *PRU 8.3.68R*; and
- (c) where B is an *undertaking* in *PRU 8.3.72R(2)*, the assets of the *undertaking* which represent those assets that fall within one or more of the categories in *PRU 2 Ann 1R* which exceed its accounting liabilities.

(5) The *market risk* and *counterparty* exposure limits are then applied to the aggregate of A's *admissible assets* and the surplus assets in *PRU 8.3.74R(4)*.

- 8.3.75 R The *firm* (A) must then deduct the amount by which the *admissible assets* aggregated in accordance with *PRU 8.3.74R(5)* exceed the *market risk* and *counterparty* exposure limits from A's group capital resources before deduction (calculated at stage C in the table in *PRU 8.3.43R*) in accordance with *PRU 8.3.70R*.
- 8.3.76 R In relation to any of its *regulated related undertakings* that is not an *insurer*, A may modify the calculation in *PRU 8.3.74R* by:
- (1) omitting the calculation in *PRU 8.3.74R(1)* and (3); and
  - (2) aggregating all of the assets of B identified in *PRU 8.3.74R(1)(b)* as *admissible assets* with the *admissible assets* of A in *PRU 8.3.74R(4)*.
- 8.3.77 R The *admissible assets* of either A or B that are part of a *long-term insurance fund* of A or B are excluded for the purposes of the calculation in *PRU 8.3.74R* except insofar as those assets are available to meet the liabilities and *capital resources requirement* of that *long-term insurance fund*.
- 8.3.78 R If B is itself either a *participating insurance undertaking* or an *insurance parent undertaking*, the *admissible assets* of B for the purposes of *PRU 8.3.74R(1)* must be calculated as in *PRU 8.3.75R* but as if B were A.

## Annex K

### Other amendments to the Integrated Prudential sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text. Where existing text will be replaced by new text, this is indicated and the new text is not underlined. Where new text is being inserted at the end of existing text, this is indicated and the additional text is not underlined. Where an entire section of text is being deleted, the place where the change will be made is indicated and the text is not struck through or reproduced.

Transitional provisions

...

Transitional provisions 3 and 4 are deleted.

3 [deleted]

4 [deleted]

Insert new transitional provisions as follows:

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
5	<i>Rules</i> in <i>PRU</i> listed in the Table at <i>PRU</i> TR Table 10R	R	<p>(1) A <i>rule</i> listed in column (2) is disappplied, or is modified in its application, to a <i>firm</i>:</p> <p>(a) in order to produce the same effect, including any conditions, as a <i>waiver</i> had on the corresponding <i>rule</i> in <i>IPRU(INS)</i>;</p> <p>(b) for the same period as the <i>waiver</i> would have lasted, if shorter than the period in column (5);</p> <p>provided the conditions set out in (2) are satisfied.</p> <p>(2) The conditions referred to in (1) are:</p>	From 31 December 2004 until the relevant <i>rule</i> is revoked	31 December 2004

			<p>(a) the <i>rule</i> is shown in the Table at <i>PRU</i> TR Table 10R as corresponding with the <i>rule</i> in <i>IPRU(INS)</i> in relation to which the <i>waiver</i> was granted to the <i>firm</i>;</p> <p>(b) the <i>waiver</i> was current as respects the <i>firm</i> immediately before the date specified in column (6); and</p> <p>(c) there is no specific transitional <i>rule</i> relating to the <i>waiver</i>.</p> <p>(3) (1) does not have effect if, and to the extent that, it would be inconsistent with any community obligation of the <i>United Kingdom</i>.</p>		
6	Rules in <i>PRU</i> not listed in the Table at <i>PRU</i> TR Table 10R	R	<p>(1) A <i>rule</i> listed in column (2) is disapplied, or is modified in its application, to a <i>firm</i>:</p> <p>(a) in order to produce the same effect, including any conditions, as a <i>waiver</i> had on a <i>rule</i> in <i>IPRU(INS)</i> or <i>IPRU(FSOC)</i>, or a written concession had on a pre-commencement provision listed in <i>PRU</i> TR 7 R;</p> <p>(b) for the same period as the <i>waiver</i> or written concession would have lasted, if shorter than the period in column (5); provided the conditions set out in (2) are satisfied.</p> <p>(2) The conditions referred to in (1) are:</p> <p>(a) the <i>rule</i> in <i>PRU</i> is substantially similar to the <i>rule</i> in <i>IPRU(INS)</i>, <i>IPRU(FSOC)</i>, or the pre-commencement provision, as the case may be,</p>	From 31 December 2004 until 30 June 2005	31 December 2004

			<p>with which the <i>waiver</i> or written concession was concerned;</p> <p>(b) the <i>waiver</i> or written concession was current as respects the <i>firm</i> immediately before the date specified in column (6);</p> <p>(c) there is no specific transitional <i>rule</i> relating to the <i>waiver</i> or written concession; and</p> <p>(d) in the case of a written concession, it has not been superseded by a <i>waiver</i> from the <i>FSA</i>.</p> <p>(3) (1) does not have effect if, and to the extent that, it would be inconsistent with any community obligation of the <i>United Kingdom</i>.</p>

11	PRU 1.2 PRU 5.1	R	If a <i>firm</i> , as at 31 December 2004, has the benefit of a <i>waiver</i> of: (1) SUP 16.7.10R; or (2) SUP 16.7.12R; under which the <i>firm</i> does not have to supply adequate information on mismatch liquidity, the provisions referred to in column (2) do not apply.	From 31 December 2004 until the date the <i>waiver</i> referred to in column (4) ceases to have effect.	31 December 2004
12	PRU 1.3.5R PRU 7.4.191R	R	(1) This <i>rule</i> applies to a <i>firm</i> which for the period specified in column (5) is required by PRU 1.3.5R to measure the surplus or deficit in a <i>defined benefits pension scheme</i> , for the purposes of PRU, in accordance with FRS 17 (Retirement Benefits).  (2) A <i>firm</i> must derecognise any measure of actuarial gains in respect of a <i>defined benefits pension scheme</i> .  (3) A <i>firm</i> may deduct from its liabilities the difference between the measure of actuarial losses in respect of a <i>defined benefits pension scheme</i> which would result from the application of PRU 1.3.5R and the <i>firm's</i> best estimate of the level of additional funding that it will provide for that <i>defined benefits pension scheme</i> over the next five years, as determined in conjunction with the scheme's <i>actuaries</i> or trustees (or both) as appropriate.	From 31 December 2004 to 30 December 2005	31 December 2004
13	PRU 1.3.14R	R	A <i>firm</i> will be treated as complying with the <i>rule</i> listed in column (2) if it marks to	From 31 December 2004 to 30 December	31 December 2004

			market by reference to market value as determined in accordance with generally accepted accounting concepts, bases and policies or other generally accepted methods appropriate to <i>insurers</i> .	2006	
14	PRU 1.3.31R PRU 2.2.90R	R	<p>(1) A <i>firm</i> may elect to apply PRU 1.3.11R to <i>shares</i> in a <i>regulated related undertaking</i> that is not an <i>insurance undertaking</i> or an <i>insurance holding company</i>.</p> <p>(2) A <i>firm</i> may apply PRU 1.3.11R if it has made the election referred to in subparagraph (1) by written notice to the <i>FSA</i> in a way which complies with the requirements for written notice in SUP 15.7.</p> <p>(3) Where a <i>firm</i> has made the election referred to in (1):</p> <p>(a) PRU 2.2.90R is disapplied in respect of the <i>shares</i> in that <i>regulated related undertaking</i>; and</p> <p>(b) the <i>shares</i> in that <i>regulated related undertaking</i> must be valued in accordance with (4).</p> <p>(4) Subject to (5), the <i>shares</i> in the <i>regulated related undertaking</i> within (3) must be valued in accordance with PRU 1.3.11R.</p> <p>(5) For the purposes of valuing the <i>shares</i> in a <i>regulated related undertaking</i> within (4), the value of those <i>shares</i> determined in accordance with PRU 1.3.11R must be reduced:</p> <p>(a) by an approximate amount, to the extent that the value of those <i>shares</i> in the <i>regulated</i></p>	From 31 December 2004 until the first day of the <i>firm's financial year</i> beginning in 2005	31 December 2004

			<p><i>related undertaking</i> cannot effectively be realised to meet the <i>capital resources requirement</i> of the <i>firm</i>; and</p> <p>(b) by an approximate amount, to exclude value attributable to goodwill generated from the business of the <i>regulated related undertaking</i> with other members of the <i>insurance group</i>.</p>		
15	As PRU TR 14R	G	<p>(1) The application of PRU 1.3.31R to a <i>regulated related undertaking</i> which is not an <i>insurance undertaking</i> or an <i>insurance holding company</i> implements the amendments to the <i>First Non-Life Directive</i>, the <i>First Life Directive</i> and the <i>Insurance Groups Directive</i> in Articles 22(2), 23(2) and 28(6) of the <i>Financial Groups Directive</i>.</p> <p>(2) PRU TR 14R allows the requirement to treat a <i>regulated related undertaking</i> which is not an <i>insurance undertaking</i> or an <i>insurance holding company</i> in accordance with PRU 1.3.31R to be postponed until the effective date of the <i>Financial Groups Directive</i>.</p> <p>(3) In the interim, a <i>firm</i> may elect either to apply PRU 1.3.11R or to value <i>shares</i> in a <i>regulated related undertaking</i> which is not an <i>insurance undertaking</i> or an <i>insurance holding company</i> in accordance with PRU 1.3.31R. The intention is to allow <i>firms</i> to continue to account for the value of <i>shares</i> held in these <i>regulated related undertakings</i> as they would formerly have done under <i>IPRU(INS)</i> for the purposes of calculating the</p>	As PRU TR 14R	As PRU TR 14R

			<i>capital resources of a firm.</i>		
16	<p>PRU 2.2.93R (3) PRU 2.2.101R (3) PRU 2.2.101R (4) PRU 2.2.102R PRU 2.2.103R PRU 2.2.105R</p>	R	<p>(1) This paragraph applies to a <i>firm</i> which immediately before the date specified in column (6) had the benefit of a <i>waiver</i> in relation to <i>IPRU(INS)</i> rule 2.10 or 5.2, or a written concession in relation to a pre-<i>commencement</i> provision listed in <i>PRU TR 7R</i>, in either case allowing the <i>firm</i> to exclude from the calculation of its liabilities obligations under a particular capital instrument issued by the <i>firm</i>.</p> <p>(2) Subject to (3) and to compliance with the conditions set out in (4), a <i>firm</i> will be treated as complying with a <i>rule</i> listed in column (2) in relation to the capital instrument to which the <i>waiver</i> or written concession referred to in (1) related so long as the <i>firm</i> is not obliged to pay any interest under the terms of the capital instrument in circumstances where the <i>firm</i> does not have <i>capital resources</i> equal to or in excess of its required margin of solvency under the <i>Insurance Directives</i>.</p> <p>(3) (2) ceases to apply to a <i>firm</i>:</p> <p>(a) once the <i>firm</i> has redeemed the capital instrument; or</p> <p>(b) on or after any date upon which the <i>firm</i> has the option to redeem the capital instrument and may prudently do so.</p> <p>(4) The conditions referred to in (2) are:</p> <p>(a) the <i>firm</i> must notify the <i>FSA</i> immediately if it becomes aware of any matter which is material</p>	<p>From 31 December 2004 until the relevant <i>rule</i> is revoked</p>	<p>31 December 2004</p>

			<p>to the relevance or appropriateness of the <i>waiver</i> or written concession;</p> <p>(b) the <i>firm</i> must maintain a written record of the <i>rule</i> in <i>PRU</i> to which it considers the <i>waiver</i> or written concession applies; and</p> <p>(c) the <i>firm</i> must make the record available to the <i>FSA</i> on request.</p>		
17	<i>PRU</i> 2.2.93R (2)	R	<p>(1) This paragraph applies to a <i>firm</i> carrying on <i>with-profits insurance business</i> which immediately before the date specified in column (6) had the benefit of a <i>waiver</i> in relation to <i>IPRU(INS)</i> rule 2.10 or 5.2 or a written concession in relation to a <i>pre-commencement</i> provision listed in <i>PRU</i> TR 7R in either case allowing the <i>firm</i> to exclude from the calculation of its liabilities obligations under a particular capital instrument issued by the <i>firm</i>.</p> <p>(2) Subject to compliance with the conditions set out in (3), <i>PRU</i> 2.2.93R (2) does not apply in relation to the capital instrument to which the <i>waiver</i> or written concession referred to in (1) related provided that capital instrument was issued by the <i>firm</i> on or before 30 December 2004.</p> <p>(3) The conditions referred to in (2) are:</p> <p>(a) the <i>firm</i> must notify the <i>FSA</i> immediately if it becomes aware of any matter which is material to the relevance or appropriateness of the <i>waiver</i> or written concession;</p>	From 31 December 2004 until 30 December 2005	31 December 2004

<i>Credit union which is a CTF provider</i>	Chapters 1 and 8

Insert after Chapter 7, a new Chapter 8, the text of this new chapter is not underlined.

8 Requirements on credit unions which are CTF providers

8.1 Application, general and professional indemnity insurance requirements

Application

8.1.1R (1) This chapter applies to a *credit union* to the extent that it is a *CTF provider* whose *permissions* relate to *accepting deposits* and *making arrangements with a view to transactions in investments*.

(2) The definitions in the Glossary at Appendix 13(1) apply to this chapter.

## General requirements

- 8.1.2R A *credit union* to which this chapter applies must:
- (1) have and maintain at all times financial resources of the kinds and amounts specified in, and calculated in accordance with, the *rules* of this chapter, in *CRED* and, where applicable, in *PRU* 9.3 (capital resources for *insurance mediation activity, mortgage mediation activity, mortgage lending and mortgage administration*); and
  - (2) be able to meet its liabilities as they fall due.
- 8.1.3G The *rules* in this chapter should be read with the *rules* relating to capital in *CRED* and, where applicable, *PRU*.

## Requirement to hold professional indemnity insurance

- 8.1.4G
- (1) Under *Principles* 3 and 4, a *credit union* is required to take reasonable care to organise and control its affairs responsibly and effectively with adequate risk management systems and to maintain adequate financial resources.
  - (2) Although financial resources and appropriate systems and controls can generally mitigate operational risk, professional indemnity insurance has a role in mitigating the risks a *credit union* faces in its day to day operations. The purpose of *IPRU(INV)* 8.1.6R to *IPRU(INV)* 8.1.14E is to ensure that a *credit union* has in place the type, and level, of professional indemnity insurance necessary to mitigate these risks.
- 8.1.5R The term "relevant income" in *IPRU(INV)* 8.1 refers to all income received or receivable which is commission, brokerage, fees or other related income, whether arising from the *credit union's* activities related to *making arrangements with a view to transactions in investments* or not, for the last accounting year prior to inception or renewal of the professional indemnity insurance policy ("the policy").
- 8.1.6R A *credit union* must take out and maintain at all times professional indemnity insurance that is at least equal to the requirements of *IPRU(INV)* 8.1.7R to *IPRU(INV)* 8.1.14E.

## Professional indemnity insurance policy terms

- 8.1.7R The professional indemnity insurance policy must incorporate terms which are appropriate and must make provision for:
- (1) cover in respect of any claim for loss or damage, for which the *credit union* may be liable as a result of an act or omission by:
    - (a) the *credit union*; or

- (b) any *person* acting on behalf of the *credit union* including *employees, appointed representatives* or its other agents;
- (2) the minimum *limits of indemnity* in each year if the *credit union* is an *IMD insurance intermediary* are as set out in *PRU 9.2.13R*;
- (3) the following *limits of indemnity* if the *credit union* is an investment intermediary other than an *IMD insurance intermediary*:
  - (a) if the *credit union* has relevant income of up to £3,000,000, no lower than £500,000 for a single claim against the *credit union* and £500,000 in the aggregate; or
  - (b) if the *credit union* has relevant income of more than £3,000,000, no lower than £650,000 for a single claim against the *credit union* and £1,000,000 in the aggregate.
- (4) If (2) applies, and the policy is denominated in any currency other than euros, a *credit union* must take reasonable steps to ensure that the *limits of indemnity* are, when the policy is effected (i.e. agreed) and at renewal, at least equivalent to those required in *IPRU(INV) 8.1.7R*.

Readily realisable own funds

8.1.8G For the purposes of the following provisions relating to professional indemnity insurance, the *FSA* expects items included in *own funds* to be regarded as “readily realisable” only if they can be realised, at any given time, within 90 days.

Additional requirements

- 8.1.9E (1) In addition to the specific requirements in *IPRU(INV) 8.1.7R*, to incorporate appropriate terms, the policy should make provision for the following:
- (a) for a *credit union* with relevant income of more than £6,000,000, the aggregate limit identified in the table below:

Relevant income is (£)		Minimum aggregate <i>limit of Indemnity</i> (£)
more than	up to	
6,000,000	7,000,000	1,150,000
7,000,000	8,000,000	1,300,000
8,000,000	9,000,000	1,450,000
9,000,000	10,000,000	1,600,000
10,000,000	12,500,000	2,000,000

12,500,000	15,000,000	2,400,000
15,000,000	17,500,000	2,800,000
17,500,000	20,000,000	3,150,000
20,000,000	25,000,000	3,800,000
25,000,000	30,000,000	4,250,000
30,000,000	35,000,000	4,500,000
35,000,000	40,000,000	4,750,000
40,000,000	50,000,000	5,500,000
50,000,000	60,000,000	6,000,000
60,000,000	70,000,000	6,750,000
70,000,000	80,000,000	7,250,000
80,000,000	90,000,000	7,750,000
90,000,000	100,000,000	8,500,000
100,000,000	150,000,000	11,250,000
150,000,000	200,000,000	14,000,000
200,000,000	250,000,000	17,000,000
250,000,000	300,000,000	19,750,000
300,000,000	n/a	22,500,000

(b) full retroactive cover in respect of the kinds of liabilities described in *IPRU(INV)* 8.1.7R for claims arising from work carried out by the *credit union*, or on its behalf, in the past; and

(c) cover in respect of *Ombudsman* awards made against the *credit union*.

(2) Compliance with (1)(a) may be relied on as tending to establish compliance with the requirement in *IPRU(INV)* 8.1.7R for the professional indemnity insurance terms to be appropriate.

(3) Contravention of (1)(a) may be relied on as tending to establish contravention of the requirement in *IPRU(INV)* 8.1.7R for the professional indemnity insurance terms to be appropriate.

8.1.10G A *credit union* should consider whether the overall cover is adequate taking account of *IPRU(INV)* 8.1.13G(2) and whether the *credit union* should seek additional cover or legal expenses insurance. (Legal defence costs are costs of defence against claims that fall under the terms of the policy.)

8.1.11G The cover provided by the policy should be wide enough to include the liability of the *credit union*, its *appointed representatives*, *employees* and its agents for breaches of the *credit union's* duty of skill and care, fiduciary duty,

duty to look after documents or assets, fraud, and breaches of obligations imposed by or under the *Act*.

#### Exclusions

- 8.1.12R The policy must not be subject to conditions or exclusions which unreasonably limit the cover provided for in *IPRU(INV)* 8.1.7R (whether by exclusion of cover, by policy excesses or otherwise).
- 8.1.13 G (1) The *FSA* considers it reasonable for a *credit union*'s policy to exclude cover for:
- (a) specific business lines if that type of business has not been carried out by the *credit union* in the past and will not be carried out by the *credit union* during the life of the policy; or
  - (b) specific claims that have been previously notified to the *credit union's insurer* and claimed for under another policy.
- (2) The *FSA* does not consider it reasonable for a *credit union's* policy to treat legal defence costs cover as part of the *limits of indemnity* if this reduces the cover available for any individual substantive claim.
- 8.1.14E (1) The policy should not:
- (a) make provision for payment by the *credit union* of an excess on any claim of more than £5,000. (This does not apply to the extent that the *credit union* holds additional *own funds* in a readily realisable form, in accordance with *IPRU(INV)* 8.1.16E); or
  - (b) exclude any type of business or activity that has been carried out by the *credit union* in the past or will be carried out by the *credit union* during the time for which the policy is in force. (This does not apply to the extent that the *credit union* holds, by way of additional *own funds* in a readily realisable form, an amount equivalent to a reasonable provision against its potential liabilities for that business or activity. *Guidance* on this is given in *IPRU(INV)* 8.1.17G and *IPRU(INV)* 8.1.18G); or
  - (c) exclude liability which is identified or crystallised as a result of regulatory action against the *credit union* (either individually or as a member of a class of *authorised person*).
- (2) Contravention of (1)(a) may be relied on as tending to establish contravention of *IPRU(INV)* 8.1.12R.

## Excess level

8.1.15E The reference to “excess” in *IPRU(INV)* 8.1.14E(1)(a) is to the highest excess level required to be paid under the policy unless that excess relates to a type of business that has not been carried out by the *credit union* in the past. In those circumstances, the reference is to the next highest excess level required by the policy.

## Additional own funds

8.1.16E The amount of additional *own funds* in *IPRU(INV)* 8.1.14E (1)(a) should be calculated by referring to the *credit union*'s relevant income and excess obtained in the following table:

All amounts are shown in £000s													
Relevant income is		Excess obtained, up to and including											
more than	up to	5	10	15	20	25	30	40	50	75	100	150	200+
0	100	0	4	7	9	12	14	18	21	28	34	45	54
100	200	0	7	11	14	17	20	25	29	38	46	59	70
200	300	0	9	14	18	21	24	30	35	45	54	69	82

9,000	10,000	0	63	80	95	108	120	141	160	201	236	294	344
10,000	100,000	0	63y	80y	95y	108y	120y	141y	160y	201y	236y	294y	344y
100,000	n/a	0	630	800	950	1080	1200	1410	1600	2010	2360	2940	3440
For <i>firms</i> with relevant income more than £10m but up to £100m value y is calculated by relevant income/ £10m													

## Exclusions

- 8.1.17G A *credit union* should take into account the following when assessing the amount of additional *own funds* to be held as provision as described in *IPRU(INV)* 8.1.14E(1)(b):
- (1) the type of business line or activity excluded and the types of claim which might arise from it;
  - (2) the number of contracts written or volume of activity;
  - (3) the number of complaints received by the *credit union* relating to the excluded business or activity;
  - (4) generally accepted accounting principles applicable to provisions; and
  - (5) any other relevant information.

- 8.1.18G If the *credit union* holds additional *own funds* in accordance with *IPRU(INV)* 8.1.17G then the amount should be reviewed regularly. The reviews should take account of changes in the status of the policy exclusion(s) and any relevant changes to the *credit union*'s circumstances.

## Policies providing cover for more than one credit union

- 8.1.19R If the policy provides cover to more than one *credit union* then in relation to *IPRU(INV)* 8.1.7R:
- (1) the relevant income for calculating the *limits of indemnity* is that of all the *credit unions* named in the policy combined;
  - (2) each *credit union* named in the policy must have the benefit of the minimum *limits of indemnity* as required in *IPRU(INV)* 8.1.7R;
  - (3) each *credit union* named in the policy must notify the *FSA* if the aggregate cover in the policy falls below the minimum in *IPRU(INV)* 8.1.7R.

## Exemption from holding professional indemnity insurance

- 8.1.20R
- (1) A *credit union* is not required to effect or maintain professional indemnity insurance in relation to *insurance mediation activity*, if another *authorised person* which has net tangible assets of more than £10 million provides a comparable guarantee.
  - (2) A 'comparable guarantee' means a written agreement on terms at least equal to those in *PRU* 9.2.10R to finance the claims that might arise as a result of a breach by the *credit union* of its duties under the *regulatory system* or civil law.

- 8.1.21R A *credit union* must take out professional indemnity insurance from:
- (1) any *insurance undertaking* which is authorised to transact professional indemnity insurance in the *EEA*; or
  - (2) a *person* of equivalent status in:
    - (a) a *Zone A country*;
    - (b) the Channel Islands, Gibraltar, Bermuda or the Isle of Man.

Notification requirements

- 8.1.22G Rule *IPRU(INV)* 8.1.24R is a *notification rule* and is in addition to any notification requirements in the Supervision manual (*SUP* 15).
- 8.1.23G *Credit unions* are reminded to comply with *SUP* 15.7 (Form and method of notification) when notifying the *FSA* in accordance with *IPRU(INV)* 8.1.24R.
- 8.1.24R A *credit union* must notify the *FSA* immediately it becomes aware, or has information which reasonably suggests, that any of the matters in Table 8.1(1) has occurred, may have occurred or may occur in the foreseeable future.

Table 8.1(1)

This table forms part of *IPRU(INV)* 8.1.24R

NOTIFIABLE EVENTS
<p>In relation to professional indemnity insurance, required in accordance with <i>IPRU(INV)</i> 8.1.6R to <i>IPRU(INV)</i> 8.1.21R, if:</p> <ol style="list-style-type: none"> <li>(1) it cannot be obtained within 28 days of the inception or renewal date;</li> <li>(2) it is cancelled;</li> <li>(3) the amount of aggregate cover is exhausted;</li> <li>(4) the <i>credit union</i> commences business lines for which it had not obtained cover;</li> <li>(5) the <i>credit union</i> is relying on <i>IPRU(INV)</i> 8.1.19R; or</li> <li>(6) the <i>credit union</i> is relying on <i>IPRU(INV)</i> 8.1.20R.</li> </ol>

8.2 Capital requirements

- 8.2.1R ‘Capital’ in this chapter has the meaning described in *CRED* 8.2.1R.
- 8.2.2R A *version 1 credit union* with total assets of more than £5 million or a total number of members of more than 5,000, or both, or a *version 2 credit union*, which acts as a *CTF provider* and whose *permissions* include *regulated activities* relating to *accepting deposits* and *making arrangements with a view*

*to transactions in investments other than contracts of insurance or rights to or interests in a life policy* must maintain at all times capital which is equal to the higher of:

- (1) £10,000; and
- (2) the capital requirements for the *credit union* under *CRED*.

8.2.3R

A *version 1 credit union* with total assets of more than £5 million or a total number of members of more than 5,000, or both, or a *version 2 credit union*, which acts as a *CTF provider* which *makes arrangements with a view to transactions in investments including contracts of insurance or rights to or interests in a life policy* must maintain at all times capital which is equal to the highest of:

- (1) £10,000;
- (2) the capital requirements for the *credit union* under *CRED*; and
- (3) the capital requirements for the *credit union* under *PRU 9.3*.

## Annex B

### Amendments to the Integrated Prudential sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

Application: credit unions

- 9.3.9 G
- (1) For *credit unions* to which this section applies and which are not CTF providers, the capital requirements will be the higher of the requirements in this section and in *CRED* (see *PRU* 9.3.25R).
  - (2) For *credit unions* to which this section applies and which are CTF providers with permission to carry on designated investment business, the capital requirements will be the highest of the requirements in this section, those in *CRED* and of *IPRU(INV)* Chapter 8 (see *PRU* 9.3.25R).

...

Capital resources requirement: firms carrying on regulated activities including designated investment business

9.3.24 R The capital resources requirement for a *firm* (other than a credit union) carrying on *regulated activities*, including *designated investment business*, is the higher of:

- (1) ...

Capital resources requirement: credit unions

9.3.25 R The capital resources requirement for a *credit union* to which this section applies (see *PRU* 9.3.8R) is the highest~~r~~ of:

- (1) the requirement which is applied by *PRU* 9.3.30R (Capital resources requirement: mediation activity only) treating that *rule* as applying to the *credit union* by disregarding activities which are not *insurance mediation activity* or *mortgage mediation activity*; ~~and~~
- (2) the amount which is applied by *CRED* 8 (Capital requirements)-; and
- (3) if the credit union is a CTF provider that has a permission to carry on designated investment business, the amount which is applied by IPRU(INV) Chapter 8.

## Annex C

### Amendments to the Conduct of Business Sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

7 Table: E

<del>PEP</del> <u>ISA</u> or <u>CTF</u> transfers
<p><i>A direct offer financial promotion</i> for a <del>PEP</del> <u>ISA</u> or <u>CTF</u> transfer should include details of the likely advantages and disadvantages of transferring an existing <del>PEP</del> <u>ISA</u> or <u>CTF</u> holding, including:</p> <p>...</p> <p>(5) potential for loss of income or growth, following a rise in the markets, whilst the <del>PEP</del> <u>ISA</u> or <u>CTF</u> transfer remains pending.</p>

...

COB 4 Ann 2E

1 Table: Content of terms of business provided to a customer: general requirements

This table belongs to *COB 4.2.11E*.

<i>A firm's terms of business</i> (including a <i>client agreement</i> ) provided to a <i>customer</i> should, where relevant, include some provision about:	
....	
(9)	<p>Cancellation and withdrawal</p> <p>(a) In the case of a <i>non-packaged product</i> <del>ISA</del> <u>PEP</u> or <u>CTF</u>, an explanation of any right to withdraw (see <i>COB 6.7</i> (Cancellation and withdrawal)) or, if it is the case, a statement that such rights will not apply.</p>
...	

...

5.1.4 R (1) If a decision is made by a *provider firm* to provide *advice on investments* in accordance with this section, to a *private customer* on a *stakeholder pension scheme* or a CTF produced by a *person* ("the

producer") other than the *firm* (or, where applicable, outside the *marketing group* of the *firm*), then that *stakeholder pension scheme* or CTF becomes an *adopted packaged product* of the *firm* (and, where relevant, of all the members of its *marketing group*).

...

...

- 5.1.12 R (1) A *provider firm* must, subject to (2), take reasonable steps to ensure that its *representatives* are able to sell with advice each type of *packaged product* that it issues itself, or is issued by its *marketing group*, or is an *adopted packaged product* other than an adopted packaged product to be held within a *CTF*.

...

5.3.13G

...

- (4) *COB 5.3.29G* contains *guidance* which is relevant for assessing the suitability of:

...

- (f) *ISA*, ~~or~~ PEP or CTF transfers; and

...

5.3.29G Guidance on matters which should be taken into account when assessing the suitability of various personal recommendations. This table belongs to *COB 5.3.13G (4)*.

Suitability guidance	
...	
F	<u>ISA</u> , <del>or</del> <u>PEP or CTF transfers</u>
	When a firm is advising a <i>customer</i> on whether to transfer existing <i>ISA</i> , <del>or</del> <u>PEP or CTF</u> holdings, <i>COB 5.2</i> (Know your <i>customer</i> ) and <i>COB 5.3</i> (Suitability) apply. All the advantages and disadvantages of transferring should be considered. In particular the following information (which is not exhaustive) should be considered and provided to the <i>customer</i> , usually as part of the <i>suitability letter</i> , before the transfer takes place:
	(a) ...
	...
	(e) potential for loss of income or growth, following a rise in markets, while the <i>ISA transfer</i> , <del>or</del> <u>PEP transfer or CTF transfer</u> remains pending.

...

6.1.1R COB 6.1 to COB 6.5 apply to a *firm*:

...

- (2) which manages, sells or *personally recommends* a *cash deposit ISA* or *cash deposit CTF* for or to a *private customer*; or

...

6.1.3G COB 6.1 to COB 6.5 amplify *Principle 7* (Communications with clients), which requires a *firm* to pay due regard to the information needs of its *customers*. In the case of *packaged products* there is a special need to ensure that *private customers* are supplied with information which will highlight particular *packaged product* features. This also needs to be achieved in a way which will optimise the *private customer's* ability to make a comparative analysis of different *packaged products*. These *rules* also address a similar information need in relation to *cash deposit ISAs*, *cash deposit CTFs* and when a *firm* enters into a *distance contract* to *accept deposits* with a *retail customer*.

6.1.4R ...

- (2) A *firm* to which COB 6.4.13R(1) applies must, for each *cash deposit ISA* or *cash deposit CTF* it offers, produce the information document required by COB 6.5.42R or COB 6.5.42AR instead of *key features*. That information document must comply with COB 6.1, COB 6.2 and COB 6.5 as to design and content.

Quality and production of key features

6.1.5R A *firm* must ensure that any *key features* or information document it produces in relation to a *packaged product*, ~~or~~ *cash deposit ISA* or *cash deposit CTF* is in writing, whether in printed hard copy or in electronic format, and:

- (1) is produced and presented to at least the same quality and standard as the associated sales or marketing material being used by the *firm* to promote the *packaged product*, ~~or~~ *cash deposit ISA* or *cash deposit CTF* to *customers*; and

...

6.2.2R The *key features* or information which the rules COB 6.1, COB 6.2 and COB 6.4 require a *firm* to provide to a *private customer* in relation to a *packaged product*, ~~or~~ *cash deposit ISA* or *cash deposit CTF* must be provided by the *firm* in a *durable medium*.

...

Exceptions for life policies: variations of policies held within a CTF

6.2.21AR COB 6.2.7R does not apply to a CTF provider in relation to a variation to an existing policy held within a CTF, if:

- (1) the terms and conditions, including all charges, are the same as applied at the time of the purchase, or the most recent purchase or payment, of the existing policy; and
- (2) key features outlining those terms and conditions were issued to the customer in respect of that previous purchase.

...

6.2.24R A firm need not provide *key features* to a *private customer* in respect of a *scheme* if:

...

- (6) a *private customer* is making a purchase of a *scheme holding* (whether or not held within a CTF) in a fund in which he already has a *scheme holding* and has already been provided with appropriate *key features* covering the purchase;

...

6.4.1R COB 6.4 applies to a *firm* in accordance with COB 6.1.1R, in respect of *occupational pension schemes, self invested personal pensions schemes, income withdrawals, cash deposit ISAs, cash deposit CTFs, Revenue allocated CTFs, traded life policies, stakeholder pension schemes, packaged products, other deposits and long-term care insurance contracts.*

...

Cash deposit ISAs and cash deposit CTFs

6.4.13R When a *firm* manages, *personally recommends* or sells a *cash deposit ISA* or *cash deposit CTF* to a *private customer*, that *customer* must be provided with the information specified in whichever of COB 6.5.42R or COB 6.5.42AR applies to it in good time before the *customer* is bound by the transaction, unless COB 6.4.27R to COB 6.4.31R (telephone sales and other exemptions) applies.

...

- 6.4.27R
- (1) Where this chapter requires *key features* or other information to be provided, in the case of voice telephony communications, a *firm*:
    - (a) must provide the *customer* at the beginning of the telephone conversation with the name of the *firm* and (if the call is initiated by the *firm*) the commercial purpose of the call; ~~and~~
    - (b) ...

- (vi) that other information is available on request, and the nature of that information, and
- (vii) in addition to (a) and (b) above, where the product is a CTF, provided the customer gives his explicit consent to receiving only limited information, may proceed on the basis of the information referred to in COB 6.5.40R (7) given orally.

...

Exemption: Revenue allocated accounts

6.4.34R When a firm opens a Revenue allocated CTF, the firm must send the private customer on the first available opportunity after the account has been opened, whichever of key features or other information is required in a durable medium.

6.4.35G In considering what the first available opportunity mentioned in COB 6.4.34R is, firms may take into account that there may generally be a delay between a Revenue allocated CTF being opened and the customer being informed that it had been opened.

6.5 Content of key features and important information: life policies, schemes, ISA and CTF cash deposit components and stakeholder pension schemes

...

6.5.2R A firm must ensure, unless COB 6.5.3R applies, that:

...

- (2) the information it produces under COB 6.4.13R (1) for a cash deposit ISA or cash deposit CTF ~~under COB 6.4.13R (1)~~ complies with whichever of 6.5.42R or COB 6.5.42AR applies to it;

...

6.5.21G The information required by COB 6.5.20R should include:

...

- (8) for a life policy or a scheme which is to be held within a CTF the information referred to in COB 6.5.40R (7).

...

6.5.28R The information relating to 'Total actual deductions to date' and 'Effect of deductions to date' in *COB 6.5.23R*, ...

- (1) ...
- (2) a *life policy* for a term not exceeding five years; and
- (3) a *life policy* held within a *CTF*.

...

6.5.30R For a *schemes*, a *firm* must include the contents of *COB 6.5.31R* unless the *scheme* is to be held within a *stakeholder CTF*.

...

Further information for life policies, schemes, insurance or equity ISAs, PEPs, CTFs and stakeholder pension schemes

6.5.40R A *firm* must include the following information in the *key features*, separately or as part of the information required by *COB 6.5.2R*:

...

- (7) For *investments* held within a *CTF*:
  - (a) a prominent statement that after *money* is paid into a *CTF* it is locked in, and that this means that it can only be accessed by the child when he is 18, except as permitted by the *CTF Regulations*, and any contributions made to the *CTF* cannot be returned to the donor;
  - (b) if the *CTF* is a *stakeholder CTF*, an explanation of the minimum standards (as described in paragraph 2 of the Schedule to the *CTF Regulations*) and *CTF* lifestyling approach (as defined in subparagraph 2 of the Schedule to the *CTF Regulations*), together with a statement that satisfying these minimum standards does not mean that the *investment* is suitable for the *customer* or that there is any guarantee of performance;
  - (c) if the *CTF* is a *non-stakeholder CTF*, a prominent statement that it is not a *stakeholder CTF* and that a *stakeholder CTF* is available from a named alternative *CTF provider*, together with a detailed description of that *stakeholder CTF*;
  - (d) a statement that the *CTF* will not be opened until any cancellation period has expired; and
  - (e) a balanced comparison between *stakeholder CTFs* and *non-stakeholder CTFs*.

Information requirements for cash deposit ISAs, cash deposit CTFs, friendly society tax-exempt policies, traded life policies and broker funds

...

6.5.42AR If COB 6.4.13R applies, for a cash deposit CTF, the private customer must be given in place of key features:

- (1) the information contained in COB 6.5.42R (4) to (6) and (8) to (11) and in COB 6.5.40R (7);
- (2) details of the arrangements for exercising any right to cancel;
- (3) a statement explaining where a private customer can obtain further information about CTFs; and
- (4) in relation to a distance contract with a retail customer, all the contractual terms and conditions and the information in COB App 1.

...

6.6.50R

Rate of return assumptions for all schemes, ordinary branch non-pensions, industrial branch, friendly society, immediate annuity and Holloway sickness policies (all monetary rates of return)			
	Lower rate	Intermediate rate	Higher rate
....			
(c) Tax-exempt business held within an ISA, or PEP or CTF or by a friendly society, relating to schemes, ordinary branch non-pensions and industrial branch business	5%	7%	9%
...			

...

6.7.1R COB 6.7 applies to:

- (1) a product provider;
- (1A) a CTF provider;
- (2) ...

(3) an independent intermediary, when acting as an *EIS manager*, *ISA manager*, *CTF provider* or *plan manager*, or when selling on to a customer units which the firm has bought or redeemed as *principal* for that purpose;

(4) a deposit-taking firm, when acting as *ISA manager*, *CTF provider* or as the firm responsible for holding deposits in respect of another firm's cash deposit *ISA* or *cash deposit CTF*; or

6.7.5G Table: Cancellable investment agreements  
This table belongs to COB 6.7.4G

Cancellable investment agreements			
	Post-sale right to cancel?	Pre-sale right to withdraw?	Maximum period of reflection (but see COB 6.7.11R)
A. Contracts where the right arises regardless of means of sale.			
...			
<i>Life policy (including pension policy, pension annuity or within ISA or CTF)</i>	Yes <sup>1,5, 6, 12</sup>	No <sup>1</sup>	30 days
...			
Certain variations of existing <i>life policies, pension contracts</i> and <i>SHPs</i>	Yes <sup>1,5, 6, 8</sup>	No <sup>1</sup>	30 days
B. Contracts where the right arises only if advice is given or if sold by <i>distance contract</i>			
...			
<u>Units in an AUT, recognised scheme or ICVC (within a CTF):</u>			
(1) if sold by <i>distance contract</i>	Yes <sup>10, 12</sup>	No	
(2) <i>non-stakeholder CTFs</i> not sold by <i>distance</i>	Yes <sup>11, 12</sup>	No	

<u>contract sold with advice</u>			
<u>(3) non-stakeholder CTFs not sold by distance contract sold without advice</u>	<u>No</u>	<u>No</u>	
<u>(4) stakeholder CTFs not sold by distance contract</u>	<u>No</u>	<u>No</u>	
<u>ISA, PEP or CTF not mentioned in any other row</u>			
(1) if sold by <i>distance contract</i>	Yes <sup>5, 6, 12</sup>	No	14 days
(2) if sold otherwise with advice	No	Yes <sup>3, 2</sup>	7 days
<u>Units in an AUT, recognised scheme or ICVC (outside an ISA, PEP or CTF)</u>	...	...	...
...			
Notes:			
...			
6. There is no post-sale right to cancel for a <i>distance contract</i> :			
(a) ...; or			
(b) where <del>the</del> a <i>firm</i> has an initial service agreement with the <i>customer</i> and the contract is in relation to a successive operation or separate operation of the same nature under that agreement (see COB 1.10.2G).			
<u>In the case of <i>life policies</i> held within a <i>CTF</i> sold by <i>distance contract</i>, the right to cancel applies only to any initial service agreement.</u>			
...			
<u>8. There is no right to cancel for variations of <i>life policies</i> held within a <i>CTF</i>.</u>			
<u>9. For contracts relating to a <i>CTF</i>, there is no right to withdraw.</u>			
<u>10. The initial service agreement is cancellable.</u>			
<u>11. The <i>cancellation rules</i> that apply are the same as those that apply to the <i>underlying investments</i>.</u>			

12. Where a right to cancel applies to an agreement relating to a <i>CTF</i> that has been opened, the <i>money</i> may be reinvested but will not be returned to the <i>private customer</i> .
---

...

6.7.7R A *retail customer* has a right to cancel:

...

- (3) a contract for a *cash deposit ISA*, unless the right to cancel is disapplied for a *distance contract* by case 15 of row 2 to *COB* 6.7.17R, or a *cash deposit CTF* if the *cash deposit CTF* is sold by *distance contract*;

...

6.7.10A R The cancellation period begins on:

- (1) (other than for *distance contracts*, ~~and~~ *cash deposit ISAs* and *CTFs*) the date the *customer* receives the reminder notice of his right to cancel in accordance with *COB* 6.7.30R;
- (2) for *distance contracts*, ~~and~~ *cash deposit ISAs* and *CTFs* the later of:
  - (a) ...

...

6.7.15R Cancellable contracts and exceptions – life

This table belongs to *COB* 6.7.7R (1).

Cancellable contracts and exceptions – life	
Row 1	... A. <i>Life policy</i> (whether or not held within an <i>ISA</i> or <i>CTF</i> – see notes 1, 2, <del>and</del> 3, 6 and 7 in <i>COB</i> 6.7.16R) (see <i>COB</i> 6.7.23R regarding variation of an existing <i>life policy</i> ).
Row 2	... 11. the contract is a <i>distance contract</i> where: ... (b) <del>the</del> a <i>firm</i> has an initial service agreement with the <i>retail customer</i> and the contract is in relation to a successive operation or successive operations of the same nature under the agreement (see <i>COB</i> 1.10.2G).

6.7.16R

...
-----

6. In the case of *life policies* held within *CTFs* that are *distance contracts*, the initial service agreement is cancellable.

7. If the *CTF* has been opened the life insurer must not cancel the *life policy* until it has new instructions to deal with the proceeds in accordance with the *CTF Regulations*.

8. In relation to *Revenue allocated accounts*, the life insurer must not accept any additional contributions until the cancellation period has expired without the right to cancel being exercised.

6.7.17R Cancellable contracts and exceptions – non-life

This table belongs to *COB 6.7.7R (1)* and *COB 6.7.14R (1)*

Cancellable contracts and exceptions – non-life	
Contracts which a <i>retail customer</i> has a right to cancel under <i>COB 6.7.7R(1)</i> (subject to row 2):	
Row 1	<p>...</p> <p>C. subscriptions (but see notes 1, 2 and 5 in <i>COB 6.7.18R</i>) which can be invested only in <i>units</i> (whether or not held within an <i>ISA</i>, <i>PEP</i> or <i>pension contract</i>, <u>but not if held within a <i>CTF</i></u>) in an <i>AUT</i>, <i>recognised scheme</i> or <i>ICVC</i> purchased from:</p> <p>(a) the <i>operator</i>; or</p> <p>(b) its <i>marketing group associate</i> acting as an <i>ISA manager</i>, or <i>plan manager</i>;</p> <p>D. <i>distance contracts</i> (but see notes 6 and 8 in <i>COB 6.7.18R</i>) (whether or not held within a <i>CTF</i>) (other than for a <i>life policy</i>, <i>stakeholder pension scheme</i>, <i>cash deposit ISA</i>, <i>cash deposit CTF</i> or a contract in A, B or C) the making or performance of which by the <i>firm</i> constitutes or is part of:</p> <p>(a) <i>dealing as agent</i>, <i>advising</i> or <i>arranging</i> in relation to <i>designated investments</i>, unless the <i>distance contract</i> is concluded merely as a stage in the provision of another service by the <i>firm</i> or another <i>person</i> (see <i>COB 1.10.6G</i>); or</p> <p>(b) any other <i>designated investment business</i>; or</p> <p>(c) <i>accepting deposits</i>.</p> <p><u>E. subscriptions (but see note 7 in <i>COB 6.7.18R</i>) which can be invested only in <i>units</i> held within a <i>non-stakeholder CTF</i></u></p>

	<u>(other than a contract contained in D) in an <i>AUT</i>, <i>recognised scheme</i> or <i>ICVC</i> purchased from a <i>CTF provider</i>, where advice is given.</u>
	...
Row 2	There is no right to cancel where any one or more of the following cases applies:
	...
	6. The contract is entered into under a <i>customer agreement</i> or during negotiations (which are not <i>ISA</i> , <del><i>or PEP</i></del> or <i>CTF</i> related) intended to lead to a <i>client agreement</i> (unless note 4 or note 5 in <i>COB 6.7.18R</i> applies);
	...
	8. The contract relates to an <i>EIS</i> or non-packaged product <i>ISA</i> , <del><i>or PEP</i></del> or <i>CTF</i> and is entered into, following <i>advice on investments</i> , and following an explanation that neither of the rights specified in case 7 will apply, given to the <i>customer</i> in accordance with <i>COB 3.9.21R</i> or <i>COB 4 Ann 2E(9)(a)</i> in a <i>direct offer financial promotion</i> , <i>terms of business</i> , or given in <i>EIS particulars</i> (but see note 5 in <i>COB 6.7.18R</i> );
	...

6.7.18R

...
<u>6. In the case of contracts held within <i>CTFs</i>, the initial service agreement is cancellable in all cases.</u>
<u>7. Cancellation rights exist only where the <i>registered contact</i> has received advice. In cases in which cancellation rights apply, they are the same as the cancellation rights that would apply to the underlying <i>units</i> if they were not held within a <i>CTF</i>.</u>
<u>8. In relation to <i>Revenue allocated accounts</i>, the <i>firm</i> must not accept any additional contributions until the cancellation period has expired without the right to cancel being exercised.</u>

...

6.7.23R

- ...
- (2) Paragraph (1) does not apply if:
- ...
- (b) ...; or
- (c) the variation is in respect of a *life policy* held within a *CTF*.
- ...

...

6.7.30R Other than for *distance contracts* and *cash deposit ISAs* and *CTFs* that are not *distance contracts*, where there is a right to cancel, the *firm* which enters into the contract with the *customer* must send the *customer*, in writing, a clear and prominent reminder notice of this right:

(1) ...

...

6.7.52R Unless the agreement relates to a CTF, when a retail customer exercises a right to cancel under COB 6.7.7R (1), (2), (3) or (4):

...

6.7.52AR (1) When a person exercises a right to cancel a contract in connection with a CTF that has been opened, the CTF provider must ensure that:

(a) where the CTF provider and the firm that provides the underlying investment are different persons, any money that was held by the firm that provides the underlying investment in connection with the CTF is returned to the CTF provider as soon as reasonably practicable;

(b) any sums which any person has paid to or for the benefit of any firm in connection with the CTF continue to be held in a CTF bank account until the CTF provider receives further instructions regarding the investment of those sums in accordance with the CTF Regulations;

(c) where a CTF provider holds sums in accordance with COB 6.7.52AR, the CTF provider notifies the private customer in writing as soon as reasonably practicable, stating that the money is held awaiting re-investment instructions; and

(d) if the CTF bank account is non-interest bearing, the registered contact is informed of that fact as soon as possible after the money has been deposited in the account.

(2) When a person exercises a right to cancel a contract in connection with a CTF that has not been opened and the CTF provider holds money awaiting instructions, the CTF provider must comply with the requirements of COB 6.7.52AR(1)(b), (c) and (d).

6.7.52BG Where cancellation rights are exercisable by a customer in relation to a CTF, the CTF provider will need permission to hold client money to be able to deal with the money from the cancelled contract unless they can take advantage of any exemption from the client money rules.

...

8.1.6R A *firm* need not despatch a confirmation when:

...

- (1A) the *designated investment* is held within a *CTF* and the annual statement provided under the *CTF Regulations* includes the information that would have been contained in a confirmation despatched in accordance with *COB* 8.1.3R relating to the transactions executed during the relevant period (but information which has since become irrelevant may be excluded); or

...

...

8.2.6R A *firm* need not:

...

- (2) ...; or
- (3) provide a *periodic statement* in respect of a *CTF* if the annual statement provided under the *CTF Regulations* contains the information that would be required to comply with *COB* 8.2.4R

8.2.6AG If *COB* 8.2.6R (3) applies, *COB* 8.2.10E provides an indication of how the requirement in *COB* 8.2.4R may be satisfied. Further *guidance* that is relevant if the *CTF* includes a discretionary managed portfolio or a *structured capital-at-risk product* is contained in *COB* 8.2.12R and *COB* 8.2.17E.

### Amendments to the Training and Competence sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

2.1.4R Table            Activities to which TC 2 applies

	Activity	Extent of Application
...		
2. <i>Employees</i> overseeing on a day-to-day basis:	...	Whole of <i>TC 2</i> applies except <i>TC 2.7</i> (Supervising).
	(c) the following <i>administrative functions</i> in relation to <i>managing investments</i> :	
	...	
	(iv) <i>ISA</i> , <del>or</del> <i>PEP</i> or <i>CTF</i> administration;	

## Annex E

### Amendments to the Supervision manual

In this Annex, underlining indicates new text.

#### CTF providers

- 15.8.8R
- (1) If a firm begins or ceases to hold itself out as acting as a CTF provider, it must notify the FSA as soon as reasonably practicable that it has done so.
- (2) A firm that acts as a CTF provider must provide the FSA, as soon as reasonably practicable, with details of:
- (a) any third party administrator that it engages;
- (b) details of whether it intends to offer Revenue allocated CTFs; and
- (c) whether it intends to provide its own stakeholder CTF account.

In SUP Schedule 2: Notification Requirements, insert the following:

Handbook reference	Matter to be notified	Contents of notification	Trigger event	Time allowed
...	...	...	...	...
<u>SUP 15.8.8R</u>	<u>CTF provider status</u>	<u>The fact of the firm beginning or ceasing to hold itself out as a CTF provider</u>	<u>Firm beginning or ceasing to hold itself out as a CTF provider</u>	<u>As soon as reasonably practicable</u>
	<u>CTF third party administrator</u>	<u>Engagement of third party administrator</u>	<u>Thirds party administrator engaged</u>	<u>As soon as reasonably practicable</u>
	<u>Intention to offer Revenue allocated CTFs</u>	<u>Whether it intends to offer Revenue allocated CTFs</u>	<u>Becoming a CTF provider</u>	<u>As soon as reasonably practicable</u>
	<u>Intention to provide stakeholder CTF</u>	<u>Whether it intends to provide its own stakeholder CTFs</u>	<u>Becoming a CTF provider</u>	<u>As soon as reasonably practicable</u>
...

In this Annex, underlining indicates new text and striking through indicates deleted text.

- 3.7.3G (1) ...
- (2) As a result, applicants will be asked to specify as part of their application whether or not they wish to carry on business activities that include:
- ...
- (b) ~~ISA, or PEP or CTF~~ management (including, in the case of CTF management, details of any third party administrator that it engages and with details of whether it intends to offer Revenue allocated CTFs and whether it intends to provide its own stakeholder CTF); or
- ...

## Annex G

### Amendments to the Credit Unions sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

#### Transitional provisions

##### 1. Table Transitional Provisions

(1)	(2)	(3)	(4)	(5)	(6)
	Material to which the transitional provision applies		Transitional provision	Transitional provision: dates in force	Handbook provision: coming into force
1	...				
5	<i>CRED</i> 7A.3.1R and 7A.3.1AG	R	<i>CRED</i> 7A.3.1R and 7A.3.1AG shall have no effect unless and until any amendment to the <i>CTF Regulations</i> is made to allow a <i>credit union</i> to provide <i>cash deposit CTFs</i> .	1 December 2004	1 December 2004

...

1.1.2G *CRED* does not encompass the requirements associated with any regulatory *permission* other than a *Part IV permission to accept deposits*. There are also additional requirements in the Handbook for credit unions that are CTF providers in relation to cash-deposit CTFs. Other *permissions* are covered elsewhere in the *Handbook*. Thus, for example, a *credit union* seeking a *permission* to undertake a *regulated mortgage activity* would need to comply with the requirements in *MCOB* and a *credit union* seeking a *permission* to undertake *insurance mediation activity* in relation to *non-investment insurance contracts* would need to comply with the requirements in *ICOB*.

...

#### 7A.3 Deposits

- 7A.3.1R (1) ...
- (2) A *credit union* must not accept *deposits* exceeding the greater of £5,000 and 1.5 per cent of the total shareholdings in the *credit union* from a person who is under the age at which, under section 20 of the Industrial and Provident Societies Act 1965, he may become a member

of the *credit union* unless the *deposits* are held in a *CTF*, in which case the *credit union* may accept a larger *deposit*.

7A3.1A G *Credit unions* that provide *CTFs* should ensure that under their rules depositors under the age of 18 whose *deposits* are held within a *CTF* continue to be treated as juvenile depositors until the age of 18. This will provide for the fact that *CTF* account holders may not withdraw any money from the *CTF* until they reach the age of 18 in contrast to the position in relation to other *deposits* which become shares and may be withdrawn earlier.

...

CTF providers

11.1.7G A *credit union* which acts as a *CTF provider* needs to be aware of the requirements relating to *CTFs* in *COB*, in particular *COB* Chapters 3,4,5,6 and 8, *SUP* 15 and, where relevant, *IPRU(INV)* Chapter 8 and *PRU* 9.

...

11.4.9G The effects of cancellation are set out in *COB* 6.7.51R to *COB* 6.7.52AR. Unless the contract relates to a *CTF*, the *credit union* has to return, ...

## Annex H

### Amendments to the Glossary of definitions

In this Annex, underlining indicates new text and striking through indicates deleted text.

Insert or amend the following definitions in the appropriate alphabetical position:

<i>administrative functions</i>	(a) (in relation to <i>managing investments</i> ): ... (iv) <del>ISA</del> , <del>or PEP</del> <u>or CTF</u> administration; ...
<i>adopted packaged product</i>	(in relation to a <i>firm</i> ) a <i>stakeholder pension scheme</i> <u>or a CTF</u> which is a <i>packaged product</i> :  (a) not produced by the <i>firm</i> or in the <i>firm's marketing group</i> , but by another producer (whether a <i>firm</i> or not); and  (b) on which the <i>firm</i> is able to advise as a result of a decision taken under <i>COB 5.1.4R(1)</i> .
<u><i>cash deposit CTF</i></u>	<u>a <i>deposit</i> account held within a <i>CTF</i>.</u>
<u><i>CTF</i></u>	<u>(as defined in section 1(2) of the Child Trust Funds Act 2004) a child trust fund, that is, an account which:</u>  (1) <u>is held by a child who is or has been an eligible child (as defined in section 2 of that Act);</u>  (2) <u>satisfies the requirements imposed by or under the Child Trust Funds Act 2004; and</u>  (3) <u>has been opened in accordance with the Child Trust Funds Act 2004.</u>
<u><i>CTF bank account</i></u>	<u>a bank account which fulfils the requirements of Regulation 11(5) of the <i>CTF Regulations</i>.</u>
<u><i>CTF provider</i></u>	<u>(in accordance with section 3(1) of the Child Trust Funds Act 2004) a <i>person</i> approved by the Inland Revenue in accordance with the <i>CTF Regulations</i>.</u>
<u><i>CTF Regulations</i></u>	<u>the Child Trust Funds Regulations 2004 (SI 2004/1450), as amended.</u>

<u>CTF transfer</u>	a transaction resulting from a decision by a <i>customer</i> , made with or without advice from a <i>firm</i> , to transfer the <i>investments</i> (or their value) held in an existing <i>CTF</i> into another <i>CTF</i> whether or not provided by the same <i>CTF provider</i> .
<u>non-stakeholder CTF</u>	a <i>CTF</i> that is not a <i>stakeholder CTF</i> .
<u>own funds</u>	...  (3) <u>(in IPRU(INV) Chapter 8) capital, as defined in CRED 8.2.1R.</u>
<u>packaged product</u>	(a) a <i>life policy</i> ;  (b) a <i>unit</i> in a <i>regulated collective investment scheme</i> ;  (c) an interest in an <i>investment trust savings scheme</i> ;  (d) a <i>stakeholder pension scheme</i> ;  whether or not (in the case of (a),(b) or (c)) held within a <i>PEP</i> , or an <i>ISA</i> or a <i>CTF</i> .
<u>parental responsibility</u>	<u>(as defined in section 3(9) of the Child Trust Fund Act 2004):</u>  (a) <u>parental responsibility within the meaning of the Children Act 1989 or the Children (Northern Ireland) Order 1995 (SI 1995/755 (N.I. 2)); or</u>  (b) <u>parental responsibilities within the meaning of the Children (Scotland) Act 1995.</u>
<u>private customer</u>	(1) (except in COB 3, 4.2 and 6.4) <u>subject to (h), a client who is not a market counterparty or an intermediate customer, including:</u>  ...  (e) <u>where the regulated activity (except for a personal recommendation relating to a contribution to a CTF) relates to a CTF and there is a registered contact, the registered contact;</u>  (f) <u>(in COB 6.1 to 6.5) where the regulated activity (except for a personal recommendation relating to a contribution to a CTF) relates to a CTF and there is no registered contact, the person to whom the annual statement must be sent in accordance with Regulation 10 of the CTF Regulations;</u>

- (g) (in COB 6.7) where the regulated activity (except for a personal recommendation relating to a contribution to a CTF) relates to a CTF and there is no registered contact, the child, via the person to whom the annual statement must be sent in accordance with Regulation 10 of the CTF Regulations;
- (h) a client who would otherwise be excluded as a market counterparty or intermediate customer if the client is within (e), (f) or (g);

but excluding a *client*, who would otherwise be a *private customer*;

- (i) when he is classified as an intermediate customer in accordance with COB 4.1.9R (Expert private customer classified as an intermediate customer); or
  - (ii) when the regulated activity relates to a CTF, any person other than (e), (f), (g) or (h).
- (2) (in COB 3) a person in (1) or a person excluded under (1)(h)(ii) or a person who would be such a person if he were a client.

...

registered contact

(as defined in regulation 8(1)(d) of the CTF Regulations) the person who is capable of giving instructions to the CTF provider with respect to the management of the CTF.

responsible person

(as defined in section 3(8) of the Child Trust Funds Act 2004) a person with parental responsibility in relation to a child under 16 who is not:

- (a) a local authority or, in Northern Ireland, an authority within the meaning of the Children (Northern Ireland) Order 1995 (SI 1995/755 (NI 2)); or
- (b) a person under 16.

Revenue allocated CTF

a CTF opened in accordance with Regulation 6 of the CTF Regulations.

stakeholder CTF

a CTF that has the characteristics, and complies with the conditions, set out in paragraph 2 of the Schedule to the CTF Regulations.

**DEPOLARISATION INSTRUMENT 2004****Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 ("the Act"):
- (1) section 138 (General rule-making power);
  - (2) section 145 (Financial promotion rules);
  - (3) section 149 (Evidential provisions);
  - (4) section 156 (General supplementary powers); and
  - (5) section 157(1) (Guidance).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C. This instrument comes into force as follows:
- (1) Annexes A to F, H and J to L come into force on 1 December 2004, other than the provisions specified in (2);
  - (2) the following provisions in Annex B come into force on 14 January 2005: COB 4.3.19R to 4.3.26R; COB 5.2.12R to 5.2.17G; and COB 5.3.18AR to 5.3.18DG;
  - (3) Annexes G and I come into force on 14 January 2005.
- D. The transitional rules operate so that a firm:
- (1) must, if applicable, comply with the provisions in this instrument that implement the Insurance Mediation Directive from 14 January 2005;
  - (2) must comply with the Handbook as otherwise amended by this instrument, from 1 June 2005; and
  - (3) may elect to comply with the Handbook as amended by this instrument, other than the provisions which implement the Insurance Mediation Directive, at any time during the period 1 December 2004 to 31 May 2005.

**Amendments to the Handbook**

- E. The modules of the FSA's Handbook of rules and guidance listed in column (1) below are amended in accordance with Annexes to this instrument listed in column (2) below:

(1)	(2)
General provisions (GEN)	Annex A
Conduct of Business sourcebook (COB)	Annex B

#### Chapter 5 The FSA logo and the keyfacts logo

##### Application

- 5.1.1 G This chapter contains:
- (a) *guidance for firms and appointed representatives on the circumstances in which the FSA permits firms and their appointed representatives to reproduce the FSA logo;*
  - (b) rules on the use by firms of the keyfacts logo.

...

- 5.1.4 G ...

##### The keyfacts logo

- 5.1.5 R A firm must not use the keyfacts logo other than as and when it is required to be used by the rules.
- 5.1.6 R A firm must take all reasonable steps to ensure that its representatives do not use the keyfacts logo other than as and when the logo is required to be used by the rules.
- 5.1.7 R A firm must take all reasonable steps to ensure that the keyfacts logo is not reproduced on any document that the firm, or any person acting on its behalf, provides to a customer unless the reproduction is required by the rules.

## Annex B

### Amendments to the Conduct of Business sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text. Where an entire section is deleted or inserted, the place where the change is made is indicated and the text is not struck through or underlined.

COB TR1, Transitional Rules for pre-N2 and ex Section 43 firms

			Depolarisation Instrument 2004, unless the <i>firm</i> is a <i>product provider</i> in which case it must comply with <i>COB 2.2.7G (7A)</i> , as it applies to a <i>product provider</i> , from 1 December 2004.		
2.	<i>COB rules</i> amended by the Depolarisation Instrument 2004	R	<p>(1) Subject to <i>COB TR7.1</i> and <i>TR7.6</i>, the Depolarisation Instrument 2004 may apply to a <i>firm</i> as follows.</p> <p>(2) A <i>firm</i> may elect at any time from 1 December 2004 to 31 May 2005, to comply with <i>COB</i> as amended by the Depolarisation Instrument 2004.</p> <p>(3) A <i>firm</i> must notify the <i>FSA</i> in writing of an election in (2) and of the date prior to 31 May 2005 from which it will commence compliance with <i>COB</i> as amended by the Depolarisation Instrument 2004.</p> <p>(4) A <i>firm</i> may make different elections in (2) for each <i>appointed representative</i> that acts on its behalf but can only make a single election in respect of each single <i>appointed representative</i>.</p>	From 1 December 2004 to 31 May 2005.	1 December 2004

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
3	<i>COB rules</i> amended by the Depolarisation Instrument 2004	R	A <i>firm</i> must, in relation to any <i>private customer</i> to whom it has begun to provide services in respect of a <i>packaged product</i> before 14 January 2005 or, if applicable, the date of an election in TR7 2(2), complete the provision of that service in accordance with <i>COB</i> as it applied before amendment by the Depolarisation Instrument 2004.	From 1 December 2004	1 December 2004
4	<i>COB 4 Annex 2E</i> and <i>COB 5.5.5E</i>	R	A <i>firm</i> may continue to rely upon compliance with <i>COB 4 Annex 2E</i> and <i>COB 5.5.5E</i> (including to the extent that a <i>firm</i> issues a <i>financial promotion</i> that complies with <i>COB 4 Annex 2E</i> ) provided:  (1) the information given to a <i>private customer</i> is not contradicted by any information given to the <i>customer</i> by way of an <i>initial disclosure document</i> or a <i>fees and commission statement</i> and;  (2) any <i>financial promotion</i> complies with <i>COB 3.8.19R</i> .	From 1 December 2004 until 30 November 2005	1 December 2004
5	<i>COB 2.2.6</i>	G	The <i>FSA</i> will not regard a <i>firm</i> as being in contravention of <i>COB 2.2.3R</i> if it gives or receives assistance in conducting the review of past business in <i>pension transfers</i> and <i>opt outs</i> provided the provision or receipt of such a benefit does not conflict with any duty the recipient owes to its <i>customers</i> .	From 1 December 2004 to 31 May 2006	1 December 2004

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
6	COB as amended by the Depolarisation Instrument 2004	R	<p>Notwithstanding COB TR7.1 and TR 7.2, a <i>firm</i> which does not elect under TR 7.2(2) to comply with COB as amended by the Depolarisation Instrument 2004 must, from 14 January 2005, comply with:</p> <p>(1) COB 1.2.1R, COB 1.4.12R and COB 4.3.19R to 4.3.26R, as amended by the Depolarisation Instrument 2004;</p> <p>(2) COB 4.3.19R to COB 4.3.25R as amended by the Depolarisation Instrument 2004 but as if they applied to a <i>firm</i> carrying out the activities in COB 4.3.19R (1)(a)-(c) with or on behalf of <i>private customers</i>;</p> <p>(3) COB 5.2.12R to 5.2.14R as amended by the Depolarisation Instrument 2004; and</p> <p>(4) COB 5.3.14R (1) and COB 5.3.18AR to COB 5.3.18CR, as amended by the Depolarisation Instrument 2004;</p> <p>unless the <i>firm</i> is an <i>insurer</i>, in which case it does not need to comply with the provisions specified in (2), (3) and (4).</p>	14 January 2005 until 31 May 2005	14 January 2005
7		G	<p>The effect of COB TR 7.6 is that from 14 January 2005, if a <i>firm</i> has not elected to comply with the new COB provisions, the <i>firm</i> is in any event required to comply with the requirements of the IMD as set out in the provisions referred to in COB TR 7.6.</p>		

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
			As regards the information requirements of the <i>IMD</i> , <i>firms</i> have the choice (by virtue of <i>COB</i> 4.3.23G) of providing the minimum information set out in <i>COB</i> 4.3.19R or using an <i>initial disclosure document</i> .		

...

1.2.1 R ...

- (3) ...; ~~and~~
- (4) *COB* does not apply to an *authorised professional firm* with respect to its *non-mainstream regulated activities*, except for:
  - (a) ...
  - (b) ...
  - (c) ...; and
  - (d) the *IMD* minimum implementation provisions and *COB* 4.3.19R to 4.3.25R as if they also applied to a *firm* carrying out the activities in *COB* 4.3.19R (1)(a)-(c) with or on behalf of *private customers*, unless:
    - (i) the *designated professional body* of the *firm* has made rules which implement some or all of the provisions of articles 12 and 13 of the *IMD*;
    - (ii) those rules have been approved by the *FSA* under section 332(5) of the *Act*; and
    - (iii) the *firm* is subject to the rules in the form in which they were approved;

in which case they are disappplied to the extent that articles 12 and 13 of the *IMD* are implemented by the rules of the *designated professional body*.

...

1.2.1B G The effect of *COB* 1.2.1R(4)(d) is that if the relevant *designated professional body* of an *authorised professional firm* does not make rules implementing articles 12 and 13 of the *IMD* applicable to *authorised professional firms*, those *firms* will need to comply with:

- (a) the IMD minimum implementation provisions; and
- (b) COB 4.3.19R to COB 4.3.25R as if they also applied to a firm carrying out the activities in COB 4.3.19R (1)(a)-(c) with or on behalf of private customers.

1.3.3 G (1) The application of many provisions in COB depends on the classification of the client with whom a firm is conducting business. A client must fall within one of three classifications: private customer, intermediate customer or market counterparty. In COB, the term "customer" refers to private customers and intermediate customers, but not market counterparties. The term "client" covers customers and market counterparties. Where relevant, each of the provisions of COB makes clear whether it applies to activities carried on with or for private customers, intermediate customers or both.

...

...

1.3.5\*\* G Firms are reminded that the definition of *inter-professional business* does not include:

- (1) ...
- (3) ...; ~~or~~
- (4) ...; or
- (5) regulated activities relating to life policies.

...

IMD passported activities

1.4.12R R (1) Notwithstanding COB 1.4.2R, the IMD minimum implementation provisions apply, on the basis outlined in (4), to the passported activities carried on by a UK firm under the IMD from a branch elsewhere in the EEA unless the Host State regulator imposes measures which implement articles 12 and 13 of the IMD for those activities.

(2) Notwithstanding COB 1.4.2R, the provisions in COB which implement articles 12 and 13 of the IMD (including COB 4.3.3R (1)(i) and (ii) (provision of initial disclosure document and fees and commission statement)) do not apply to a UK firm providing cross-border services in another EEA State under the IMD or the Consolidated Life Directive, except that the IMD minimum implementation provisions apply, on the basis outlined in (4), to a UK firm providing cross-border services in another EEA State under the IMD if the Host State regulator does not impose measures which implement the articles for those activities.

(3) In addition to the situation in COB 1.4.3R, the IMD minimum implementation provisions apply to an incoming EEA firm providing cross-border services in the United Kingdom under the IMD unless the firm's Home State regulator imposes measures which implement the articles for these activities.

(4) The IMD minimum implementation provisions apply to an activity pursuant to this rule as follows:

- (a) as outlined in the IMD minimum implementation provisions; and

\*\*See Second Addendum 18 August 2005 p.171

(b) as if COB 4.3.19R to 4.3.25R also applied to a firm carrying out the activities in COB 4.3.19R (1)(a)-(c) with or on behalf of private customers.

- 1.4.13 G (1) The IMD minimum implementation provisions are the minimum provisions required for the implementation of articles 12 and 13 of the IMD.
- (2) The effect of COB 1.4.12R is to apply these minimum provisions to firms in respect of their insurance mediation activities passported under the IMD if other EEA States have not implemented articles 12 and 13 of the IMD for those activities.
- (3) Firms are reminded that insurers have passporting rights under the Consolidated Life Directive but not under the IMD.

Restriction in connection with the sale of packaged products

- 2.2.5 E (1) A firm should not enter, and should take reasonable steps to ensure that no person acting on its behalf enters, into any of the following arrangements with ~~an independent intermediary~~ another firm in relation to the sale of a packaged product if any commission is required to be disclosed to a customer.
- ...
- (d) an arrangement to pay *commission* other than to the *firm* responsible for the sale, unless:
- (i) the *firm* responsible for the sale has passed on its right to receive the *commission* to the recipient; or
- (ii) another *firm* has given *advice on investments* to the same *customer* after the sale; or
- (iii) ~~the firm is a provider firm, the recipient is an independent intermediary and~~ the *commission* is paid following the sale of a *packaged product* by the ~~provider~~ *firm* in response to a *direct offer financial promotion* communicated by that *firm* to a *customer* of the ~~independent intermediary~~ *recipient firm*.
- (1A) COB 2.2.5 E (1) does not apply to arrangements between *firms* that are in the same *immediate group*. In this situation COB 5.7.5R will apply.

...

Financial assistance and product providers

- 2.2.5A\*\* E (1) This evidential provision applies in relation to a holding in, or the provision of credit to, a firm which holds itself out as giving advice on investments to private customers on packaged products except where the relevant transaction is between persons who are in the same immediate group.
- (2) A product provider should not take any step which would result in it:
- (a) having a direct or indirect holding in a firm in (1) of its capital or voting power; or
- (b) providing credit to a firm in (1) (other than commission due from the firm to the product provider in accordance with an indemnity commission clawback arrangement).
- (3) A firm in (1) should not take any step which would result in a product provider having a holding as in (2)(a) or providing credit as in (2)(b), unless

all the conditions in (4) are satisfied.

- (4) The conditions referred to in (3) are that:
- (a) the holding is acquired, or credit is provided, on commercial terms; that is terms objectively comparable to those on which an independent person unconnected to a product provider would, taking into account all relevant circumstances, be willing to acquire the holding or provide credit;
  - (b) the firm (or, if applicable, each of the firms) taking the step has reliable written evidence that (a) is satisfied;
  - (c) there are no arrangements, in connection with the holding or credit, relating to the channelling of business from the firm in (1) to the product provider; and
  - (d) the product provider is not able, and none of its associates is able, because of the holding or credit, to exercise any influence over the advice on investments in relation to packaged products given by the firm.
- (5) In this evidential provision, in applying (2) and (3) any holding of, or credit provided by, a product provider's associate is to be regarded as held by, or provided by, that product provider.
- (6) In this evidential provision, in applying (3) references to a "product provider" are to be taken as including an unauthorised equivalent of a product provider; that is, an unauthorised insurance undertaking or an unauthorised operator of a regulated collective investment scheme or of an investment trust savings scheme.
- (7) Contravention of (2) or (3) may be relied upon as tending to establish contravention of COB 2.2.3R.

Packaged products: guidance on indirect benefits

- 2.2.6 G (-2) To comply with COB 2.2.3R, neither a product provider nor any of its associates should give, and a firm should not receive from such persons, any indirect benefit, if the benefit is likely to conflict to a material extent with any duty owed by the receiving firm when giving advice on investments to private customers on packaged products. Such conflicts may arise, for example, where the gift might induce material bias as regards:
- (a) the choice of product provider whose products are recommended; or
  - (b) the type of product which is recommended.
- (-1) The guidance in COB 2.2.7 G is not relevant to indirect benefits which may be given by a product provider or its associate to its own representatives.
- (1) The FSA will not regard a firm as being in contravention of COB 2.2.3R if it gives or receives gifts, hospitality and promotional competition prizes of a reasonable value any of the following indirect benefits, providing they do not conflict with the duties that the recipient owes to his its customers.
- (a) gifts, hospitality and promotional competition prizes of a reasonable value;
  - (b) business leads channelled toward a particular independent intermediary provided that the independent intermediary is an

~~associate and complies with the requirements of COB 5.3.95R (Requirement for suitability: independent intermediary);~~

(e) ~~assistance in conducting the Review of past business in pension transfers and opt outs.~~

(2) A ~~product provider~~ may assist ~~an independent intermediary~~ another firm to promote its packaged products so that the quality of ~~their~~its service to customers is enhanced. Such assistance should not be of a kind or value that is likely to impair ~~an independent intermediary's~~ the other firm's ability to ~~act independently~~ pay due regard to the interests of its customers, and to give advice on, and recommend, packaged products available from the ~~market as a whole~~ recipient firm's whole range or ranges of packaged products. The ~~independent intermediary~~ recipient firm should be mindful of the requirements of COB 5.3.95R (Requirement for suitability: independent intermediaries generally).

...

(4) COB 2.2.6G does not apply to indirect benefits provided by a firm to another firm that is in the same immediate group. In this situation COB 5.7.5R will apply.

2.2.7 G Table Reasonable indirect benefits

This Table belongs to COB 2.2.6G

Reasonable indirect benefits	
	Joint marketing exercises
1	A <del>provider firm</del> <u>product provider</u> or its <u>associate</u> may provide generic product literature (that is, letterheading, leaflets, forms and envelopes) that is suitable for use and distribution by or on behalf of <del>an independent intermediary</del> <u>another firm</u> if:
	(a) the literature does not feature the <del>independent intermediary's</del> <u>recipient firm's</u> name or features it less prominently than that of the <u>product provider firm</u> and is not used to promote the <del>independent intermediary's</del> <u>recipient firm's broker fund</u> service; and
	(b) the total costs (for example, packaging, posting, mailing lists) of distributing such literature to its <u>customers</u> <del>is</del> are borne by the <del>independent intermediary</del> <u>recipient firm</u> .
2	A <del>provider firm</del> <u>product provider</u> or its <u>associate</u> may supply <del>an independent intermediary</del> <u>another firm</u> with 'freepost' envelopes, for forwarding such items as completed applications, medical reports or copy <u>client agreements</u> , when these are made generally available to all <del>independent intermediaries</del> <u>firms</u> from <del>which</del> <u>whom</u> the <u>provider</u> obtains business.
3	A <del>provider firm</del> <u>product provider</u> or its <u>associate</u> may supply product specific literature (for example, <u>key features</u> , minimum information, <u>direct offer financial promotions</u> ) to <del>an independent intermediary</del> <u>another firm</u> if:
	(a) the literature is not designed to promote the <del>independent intermediary's</del> <u>recipient firm's broker fund</u> service; or
	(b) the literature does not contain the name of any <del>independent</del>

		<i>intermediary</i> <u>other firm</u> ; or-
	(e)	the name of the <i>independent intermediary</i> <u>other firm</u> is only overprinted on the literature and the <i>provider firm's</i> name appears on the literature more prominently than that of the <i>independent intermediary</i> <u>other firm</u> .
	(c)	the name of the recipient <i>firm</i> (if it is included) appears only incidentally in the literature and the supplying <i>firm's</i> name appears with greater prominence.
4	A <del>provider firm</del> <u>product provider</u> or its <i>associate</i> may supply draft articles, news items and <i>financial promotions</i> for publication in an <i>independent intermediary's</i> <u>another firm's</u> magazine, only if in each case any costs paid by the <i>product provider</i> or its <i>associate</i> for placing the articles and <i>financial promotions</i> are not more than market rate, and exclude distribution costs.	
	Seminars and conferences	
5	A <del>provider firm</del> <u>product provider</u> or its <i>associate</i> may take part in a seminar organised by an <i>independent intermediary</i> <u>another firm</u> or a third party and may pay toward the cost of the seminar, if:	
	(a)	its participation is for a genuine business purpose;
	(b)	the contribution is reasonable and proportionate to its participation and by reference to the time and sessions at the seminar when its staff play an active role; and
	(c)	in the case of a seminar organised by a third party, the seminar is open to participation by <i>independent intermediaries</i> <u>other firms</u> generally.
	Technical services and information	
6	A <del>provider firm</del> <u>product provider</u> or its <i>associate</i> may supply a 'freephone' link to which it is connected only if it is available to <i>independent intermediaries</i> <u>other firms</u> generally.	
7	A <del>provider firm</del> <u>product provider</u> or its <i>associate</i> may supply an <i>independent intermediary</i> <u>another firm</u> with any of the following:	
	(a)	quotations and <i>projections</i> relating to its <i>packaged products</i> and, in relation to specific <i>investment</i> transactions (or for the purpose of any scheme for review of past business), advice on the completion of forms or other <i>documents</i> ;
	(b)	access to data processing facilities, or access to data, that is related to the <i>product provider's firm's</i> business;
	(c)	access to third party electronic dealing or quotation systems that are related to the <i>provider firm's product provider's</i> business; and
	(d)	software that gives information about the <i>product provider's firm's packaged products</i> or which is appropriate to its business (for example, for use in a scheme for review of past business or for producing <i>projections</i> or technical product information).
7A	A <u>product provider</u> may pay cash amounts or give other assistance to a <i>firm</i> not in the same <i>immediate group</i> for the development of software or other computer facilities necessary to operate software supplied by the <i>product</i>	

	<u>provider</u> , but only to the extent that by doing so it will generate equivalent cost savings to itself or consumers.
8	A <del>provider firm</del> <u>product provider</u> or its <u>associate</u> may supply a <u>broker fund adviser</u> (and its <u>customer</u> ) with a <u>periodic statement</u> relating to the relevant <u>broker fund</u> if the <u>broker fund adviser</u> is unable to supply the <u>periodic statement</u> .
9	A <del>provider firm</del> <u>product provider</u> or its <u>associate</u> may supply <del>an</del> <u>independent intermediary</u> <u>another firm</u> with information about sources of mortgage finance.
10	A <del>provider firm</del> <u>product provider</u> or its <u>associate</u> may supply <del>an</del> <u>independent intermediary</u> <u>another firm</u> with generic technical information in writing, not necessarily related to the <u>product provider's firm's</u> business, when this information:
	(a) is made available generally to <del>independent intermediaries</del> <u>other firms which give or might give advice on the product provider's packaged products</u> ; or
	(b) (i) is of a specialist nature and is made available to a particular class of <del>independent intermediary</del> <u>firm</u> (that is, one that promotes itself as an expert in the same specialist area); and
	(i) states clearly and prominently that it is produced by the <u>product provider</u> or (if different) <u>supplying firm</u> .
	Training
11	A <del>provider firm</del> <u>product provider</u> or its <u>associate</u> may provide <del>an</del> <u>independent intermediary</u> <u>another firm</u> with training facilities of any kind (for example, lectures, venue, written material and software) only if these are made available generally to all <del>independent intermediaries</del> <u>other firms which give or might give advice on the product provider's packaged products</u> .
	Travel and accommodation expenses
12	A <del>provider firm</del> <u>product provider</u> or its <u>associate</u> may reimburse an <del>independent intermediary's</del> <u>other firm's</u> reasonable travel and accommodation expenses when the <del>independent intermediary</del> <u>other firm</u> :
	(a) participates in market research conducted by or for the <u>product provider firm</u> ;
	(b) attends an annual national event of a <u>UK trade association</u> , hosted or co-hosted by the <u>product provider firm</u> ;
	(c) participates in the <u>product provider's firm's</u> training facilities (see 11);
	(d) visits the <u>product provider's firm's</u> <u>UK office</u> in order to:
	(i) receive information about the <u>product provider's firm's</u> administrative systems; or
	(ii) attend a meeting with the <u>product provider firm</u> and an existing or prospective <u>customer</u> of the <del>independent intermediary</del> <u>receiving firm</u> .

...

2.2.20 R ...  
(3) A firm must make a record of each benefit given to ~~an independent intermediary~~ another firm in accordance with COB 2.2.6G, and must keep that record for at least six years from the date on which it was given.

...

3.2.2 G ...  
(2) *Financial promotions* may be communicated, for example, by means of:  
...  
(e) written correspondence, telephone calls and face to face discussions including by ~~advisers~~ representatives;

...

...

3.2.8 G ...  
(2) Firms are reminded that if in the course of making a *financial promotion* of any kind ~~an adviser (independent or tied)~~ a representative gives specific *advice on investments* to a *private customer* about the suitability of a product for that individual, the ~~adviser~~ representative in giving the ~~advice~~ *advice on investments* is subject to the rules, as appropriate, on advising and selling in *COB 5*.

...

3.7.3 G ...  
(2) Records which should be retained include:  
(a) any written *financial promotion* used by a ~~financial adviser or representative~~;

...

...

Specific non-real time financial promotions: ~~provider firms~~ packaged products

Delete the existing *COB 3.8.19R rule* and replace with the following text which is not underlined:

3.8.19 R (1) A firm must not *communicate* or *approve* a *specific non-real time financial promotion* containing or offering *advice on investments* on *packaged products* unless the *promotion* discloses information to show whether the scope of the *advice on investments* which is given or offered is or will be based upon a selection of products from:  
(a) the whole market (or from the whole of a named sector of the market); or  
(b) a limited number of *product providers*; or  
(c) a single *product provider*.  
(2) A firm must not *communicate* or *approve* a *specific non-real time financial promotion* offering *packaged products* produced by a person, A:  
(a) that holds out any *person* other than A as the *packaged product's* producer; or

- (b) that does or says anything which might reasonably lead a *private customer* to be mistaken as to the identity of the product's producer; or
- (c) in which the prominence of A's brand is less than that of other brands included in the promotion.

...  
3.8.22 R ...

- (7) ~~If applicable, acts in conformity with the rules in COB 4.3 (Disclosing information about services, fees and commission - packaged products) and COB 5.1 (Advising on packaged products), concerning polarisation and status disclosure.~~

...  
3.8.24 G

- The requirements of COB 3.8.22R:
- (1) apply in respect of all individuals who initiate the communication, including ~~advisers~~ representatives, call centre operators and *introducers*.

...  
3.9.6 R

- (1) ...
- (2) In particular a *direct offer financial promotion* must contain:
  - (a) ...
  - (b) where it is the case that no advice on investments has been given, a prominent statement that: ~~if a person has any doubt about the suitability of the agreement which is the subject of the financial promotion, he should contact the firm which has communicated or approved the financial promotion for advice (or independent financial adviser, if the firm does not offer advice).~~
    - (i) no advice on investments has been given; and
    - (ii) if a person has any doubt about the suitability of the agreement which is the subject of the financial promotion he should contact the firm for advice on investments (or another appropriate firm if the firm does not offer advice on investments)

...  
3.9.18A G Firms are reminded of the provisions in COB 4.3, 5.2 and 5.3 requiring particular disclosures to clients in relation to life policies.

...  
Specific guidance

- 3.14.5 G
- (1) Key features, initial disclosure document and written contractual terms
    - (a) To meet the requirements of COB 3.9.10R, a *firm* should make it clear that the information is available to a recipient of the *direct offer financial promotion*, and easily obtainable, before any application is made.
    - (b) It is important that recipients should have the opportunity to view the

full text of the relevant *key features*, initial disclosure document, terms and conditions, customer agreement and any other applicable risk information required by the *rules*.

...

...

- 4.1.11 E (1) In the written warning required by *COB* 4.1.9R(1)(b)(i), a *firm* should, where relevant:
- (a) advise the *client* that he will lose the protection afforded by the following *rules* in *COB* applicable to *private customers*:
    - (i) *COB* 3 (Financial promotion);
    - (ii) *COB* 4.3 (Disclosing information about services, fees and commissions - packaged products);
    - (iii) *COB* 5.1 (Advising on packaged products);
    - (~~iv~~v) *COB* 5.4 (Customers' understanding of risk);
    - (~~iii~~v) *COB* 5.7 (Disclosure of charges, remuneration and commission);
    - (~~iv~~v) *COB* 6.1: (Packaged product and ISA disclosure);
    - (vii) *COB* 7.9 (Lending to private customers);
    - (viii) *COB* 7.10 (Margin requirements);
    - (~~viii~~x) *COB* 7.11 (Non-exchange traded securities);
  - (b) explain any consequences to the *client* in respect of the following *rules* in *COB* which are limited or modified in their application to *intermediate customers*:
    - (i) ~~{deleted}~~
    - (ii) ~~*COB* 5.1 (Polarisation and status disclosure)~~;
    - (iii) *COB* 8.1 (Confirmation of transactions);
    - (~~ii~~v) *COB* 8.2 (Periodic statements);

...

After *COB* 4.2 insert the following new section which is not underlined:

4.3 Disclosing information about services, fees and commission - packaged products

Application

4.3.1 R *COB* 4.3 applies:

- (1) to a *firm* when carrying on with or for *private customers* any of the following in relation to *packaged products*:
  - (a) *advising on investments*; or
  - (b) *dealing as agent*; or
  - (c) *arranging*;
- (2) to a *firm*, other than an *insurer*, that carries on in relation to a *life policy* any of the activities in (1) with or for an *intermediate customer* or a *market counter-party*.

## Purpose

- 4.3.2 G The *rules* in this section give further support to *Principle 7* (Communication with clients). There is, in relation to *packaged products*, a particular need for *private customers* to have information at an early stage about the nature and scope of the services which a *firm* may offer and the basis on which it may be remunerated. The *rules* also implement the *Insurance Mediation Directive*.

## Disclosure to private customers on first making contact

- 4.3.3 R (1) (a) A *firm* must take reasonable steps to ensure that its *representatives* on first making contact with a *private customer* with a view to:
- (i) *advising on investments on packaged products*; or
  - (ii) *dealing as agent in packaged products*; or
  - (iii) *arranging*;
- provide the *customer*, in a *durable medium*, with information concerning:
- (b) (i) the *firm* and the scope of and nature of its services (an *initial disclosure document*); and
  - (ii) where (a) applies, the *firm's* arrangements for charging and receiving *fees* and *commission* (a *fees and commission statement*);
- in both cases being information which the *firm* reasonably considers will be, or is likely to be, appropriate for the *customer* having regard to the type of service which the *firm* may provide or business which the *firm* may conduct.
- (2) A *firm* must also provide a *private customer* with an *initial disclosure document* if, in relation to the amendment of a *life policy* for that *private customer*, it:
- (a) *advises on investments on packaged products*; or
  - (b) *deals as agent in packaged products*; or
  - (c) *arranges*.
- (3) (a) The requirements in (1) and (2) do not apply:
- (i) to the extent that the appropriate information has already been given to the *customer* on a previous occasion and that information is still likely to be accurate and appropriate for the *customer*; or
  - (ii) if *COB 4.3.16R* (initial contact by telephone) applies; or
  - (iii) to a *firm* when it carries out an execution only *transaction* in non-life *packaged products*; or
  - (iv) to an *insurer* for those *customers* in respect of which it is not *advising on investments*.

- (b) A *firm* that reasonably expects it will not be *advising on investments* in respect of products falling within any of the product groups set out in Note 14 to COB 4 Annex 6R does not have to comply with the requirements in (1)(b)(ii) but if it does *advise on investments* on these products the *rules* will apply to the *firm* in respect of the *fees and commission statement* as if it was required by (1)(b)(ii) to provide the statement.
- (4) The requirements in (1) and (2) will apply to :
- (a) a *firm* that is acting as a discretionary *investment manager* for *private customers*; or
- (b) a *firm* which is effecting *execution-only transactions* in *packaged products* for *private customers*;
- only if the *firm* is carrying on an *insurance mediation activity* in relation to *life policies* for those *private customers*, in which case the requirements in (1) and (2) will only apply to the extent of requiring the *firm* to provide those *private customers* with an *initial disclosure document*.
- (5) A *firm* which acts for a *private customer* under a *non-discretionary management agreement* need not comply with the requirements in (1) above to provide an *initial disclosure document* or a *fees and commission statement* if the following are satisfied:
- (a) the *firm* is remunerated by the *customer* by the payment of a *fee*; and
- (b) the *agreement* provides that the *firm* may recommend *securities* as well as *packaged products* for inclusion in the *customer's* portfolio and that in respect of *packaged products* the *firm* will make selections from the whole market;
- but such a *firm* must, if it is carrying on an *insurance mediation activity* for a *private customer* in relation to *life policies*, comply with the requirements in (1) as to the provision of an *initial disclosure document* to the *private customer*.
- (6) A *firm* which is required in accordance with this *rule* to provide an *initial disclosure document* to a *private customer* may instead provide the *customer* with a *combined initial disclosure document* if it has reasonable grounds to be satisfied that the *services* which it is likely to provide to the *customer* will, in addition to *packaged products*, relate to one or more of the following:
- (a) *regulated mortgage contracts*;
- (b) *regulated lifetime mortgage contracts*;
- (c) *non-investment insurance contracts*.
- (7) The information contained in the *initial disclosure document* may be provided orally if a *firm* has not made a *personal recommendation* to a *private customer*, and:
- (a) the *customer* requests it; or
- (b) immediate cover is necessary;
- but in both cases the *firm* must provide the *initial disclosure document* immediately after the conclusion of the contract, in a *durable medium*.

- 4.3.4 G For certain types of *life policies*, such as annuities, it is customary for a *customer* to contact various *firms* for quotations which he can then compare. In these circumstances, it is not necessary for the *firm* to give an *initial disclosure document* (COB 4.3.3R(1)(i)) at the time that the quotation is provided, if the quotation cannot be accepted (and a contract cannot be formed) without the *firm* obtaining further information from the *customer*.

Provision of fees and commission statement on request

- 4.3.5 R A *firm* must take reasonable steps to ensure that it provides a *private customer* with an appropriate *fees and commission statement* whenever requested to do so.

Firms which charge fees

- 4.3.6 R (1) A *firm* must before starting to act for a *private customer* on the basis of a *fee* charging arrangement:
- (a) secure the *customer's* agreement to the particular rate or amount which the *firm* will charge for its services; and
  - (b) provide the *customer* with a record in a *durable medium* of the particular *fee* charging arrangement which will apply unless the *firm* starts to act for the *private customer* during a telephone call, in which case this record must be forwarded to the *customer* on conclusion of the call.
- (2) A *firm* which charges a *private customer* a *fee* must do so on the basis that it will, in respect of any *commission* which it receives in respect of transactions in *packaged products* for that *customer* (and to which the particular *fee* charging arrangement relates), ensure the value of that *commission* is transferred to the *customer* by one or more of the following:
- (a) reducing the amount of its *fee*;
  - (b) arranging for the amount invested by the *customer* to be increased; or
  - (c) refunding the amount of the *commission* to the *customer*;
- except that this does not prohibit such a *firm* from agreeing with the *customer* (in writing) that it will retain an amount or rate of trail or renewal *commission* up to an amount each year specified in the agreement and so small, relative to the overall amount of fees paid by the *customer*, that it would be manifestly disproportionate for the *firm* to be required to account to the *customer* in one of the ways outlined in (a) to (c).

Ongoing disclosure

- 4.3.7 R (1) A *firm* which has started to provide a *private customer* with services in relation to *packaged products* following the provision of a *fees and commission statement* must not (at least until the completion of those services):
- (a) increase the rate or amount of the *fees* it is charging the *customer*; or
  - (b) subject to (4), arrange to retain any *commission* which exceeds the maximum amount or rate disclosed in the *statement*;
- without first providing a further appropriate *statement* and obtaining the *customer's* prior consent to the proposed alteration in a *durable medium*.

- (2) A *firm* which in accordance with (1) secures a *private customer's* agreement to retain an increased rate or amount of *commission* must ensure that, if it subsequently provides the *customer* with a *suitability letter*, it includes an explanation of why it was necessary for the *firm* to recommend a *packaged product* in respect of which the *firm* will retain such higher *commission* or *fees*.
- (3) If a *firm* decides to provide a *private customer* with *advice on investments* on a type of *packaged product* (which falls within a product group specified in Note 14 to COB 4, Annex 6R) in relation to which the *fees and commission statement* previously given to the *customer* does not contain the information required in Note 14 to COB 4, Annex 6R, it must issue a new and appropriate *statement* to that *customer*.
- (4) (a) Notwithstanding (1)(b) a *firm* is not required to provide a further *fees and commission statement* for the purposes of (1) if:
  - (i) the maximum amounts or rates disclosed in the *statement* already provided to the *customer* only apply to policies of the example term or age of *policyholder* given in the *fees and commission statement* or to policies with shorter terms; and
  - (ii) the *firm* arranges a policy for a term longer than the example term in the *statement* (or longer than the term deemed for the example age given) and the increase in the *commission* which the *firm* arranges to retain over the maximum disclosed in the *statement* is not more than an amount that is directly proportional to the increase in the duration of the term of the policy (or to the term deemed from the age of *policyholder*).
- (b) If requested by a *customer*, a *firm* must explain the basis of the higher maximum *commission* or *fees* charged in accordance with (4)(a)(ii).

- 4.3.8 G (1) COB 4.3.7R (4) is intended to allow *firms* to arrange policies for a longer term than that given as the example in the *fees and commission statement* without requiring any further disclosure but only if the *commissions* the *firm* arranges to retain are directly proportional to the maximum *commissions* disclosed in the *statement* having regard to the duration of the policy. For example, if the *statement* disclosed a maximum *commission* of 10% on a 10 year policy, then on a 20 year policy the maximum *commission* the *firm* could arrange to retain is 20% without further disclosure
- (2) The maximum *commissions* that apply to *policies* of a particular term also apply as the relevant maxima for *policies* with a shorter duration. The *rule* is of no application in circumstances where a *firm* arranges to retain *commission* exceeding the maximum disclosed in the *fees and commission statement* if the policy arranged has a term shorter than the example given in the *statement*.
  - (3) Long-term care and whole of life *policies*, for which the example given in the *fees and commission statement* refers to the age of the *policyholder*, are deemed to have a term equal to the difference between the age of the *policyholder* (at the time that the policy is taken out) and the age of 85.

#### Initial disclosure document

- 4.3.9 R (1) An *initial disclosure document* must contain the keyfacts logo, headings and text in the order shown in *COB 4*, Annex 4R and in accordance with the Notes.
- (2) A *combined initial disclosure document* must contain the keyfacts logo, headings and text in the order shown in *COB 4*, Annex 5R and in accordance with the Notes.
- (3) If a *private customer* so requests, a *firm* should be able to provide an explanation of the basis on which it has chosen to market the particular *packaged products* within the *range* from which *advice on investments* will be given to that *customer* including an explanation of why the *firm* has selected particular *product providers*.
- (4) Information given in the initial disclosure information about compensation arrangements made by an *investment firm* must:
- (a) (if it relates to the activities of an *establishment* in the *United Kingdom*) be in English; or
- (b) (if it relates to the activities of a *branch* in another *EEA State*) be in an official language of that *EEA State*.
- (5) Information given in the initial disclosure information about the *insurance mediation activities* of a *firm* must be in English, unless the *customer* requests it to be, and the *firm* agrees to it being, in another language.
- 4.3.10 G *Firms* can obtain from the *FSA* website <http://www.fsa.gov.uk> a specimen of the *initial disclosure document*. Subject to *COB 4.3.9R*, a *firm* may produce its *initial disclosure document* by using its own house style and brand.

#### Fees and commission statement

- 4.3.11 R (1) A *fees and commission statement* must contain the keyfacts logo, heading and text in the order shown in *COB 4*, Annex 6R and in accordance with the Notes.
- (2) A *firm* must maintain as many versions of the *fees and commission statement* set out at *COB 4* Annex 6R as are appropriate to the different bases on which it may conduct business with *private customers*:
- (a) *fee* only (version 1);
- (b) *commission* (or *equivalent*) only (version 2);
- (c) *fee* or *commission* (or *equivalent*) (version 3);
- (d) *fee* or *commission* (or *equivalent*); or combination of *commission* (or *equivalent*) and *fee* (version 4);
- (e) *commission* (or *equivalent*); or combination of *commission* (or *equivalent*) and *fee* (version 5);
- (f) *fee*; or combination of *commission* (or *equivalent*) and *fee* (version 6).
- (3) A *firm* must keep its *fees and commission statements* up to date and keep a record of each *statement* for a period of six years from the date on which it was updated or replaced.

- (4) A *firm* must maintain a record of each particular *fees and commission statement* which it provides to a *private customer* (other than when given merely in response to a request).

4.3.12 G Where, as envisaged in COB 4.3.5R, a *firm* is asked to provide a *fees and commission statement* by a *person* with whom the *firm* has had no prior contact it may provide the *fees and commission statement* which is appropriate for its typical or most prevalent *customer* type and the business it conducts with them.

- 4.3.13 G (1) COB 4.3.11 requires a *firm* to maintain statements showing the amount it may charge its *customers* by way of *fees*, or which it may receive from others by way of *commission*, in either case in respect of services it provides in relation to the sale of *packaged products*. Consistent with COB 5.1 and COB 5.5 the basis on which a *firm* may provide such services may differ from *customer* to *customer* (for example as to whether the *firm* will select from the whole market, or a limited number of *product providers*).
- (2) A *firm* may maintain more than one version of the *fees and commission statement* but if it does, it must take reasonable steps to ensure that the statement provided to each *customer* in their initial contact is consistent with the description of the services given to the *customer* in the *firm's initial disclosure document* (as required by COB 4.3.3R) and with the record of the *range of packaged products* which the *firm* has supplied to the *customer* or which it would supply on request to the *customer* in accordance with COB 4.3.15R.
- (3) If a *firm* alters the nature of the services it provides for any *customer* then it may also change the basis or amount by which it will be remunerated whether by *fees* or *commission*. A *firm* proposing to make such a change should first provide the *customer* with a new *fees and commission statement* and explain its proposed altered basis for charging and receiving *commission* and seek the *customer's* consent to proceeding on that basis. A *firm* may when conducting further and separate services with a *customer* seek to do so on the basis of different arrangements for its remuneration.

#### Record for distribution of range of packaged products

4.3.14 R A *firm* which operates with a *range (or ranges) of packaged products* must produce in a *durable medium*, and in a form which is appropriate for distribution to *private customers*, the record of its *range (or ranges) of packaged products* which it maintains for the purposes of COB 5.1.6AR (1).

4.3.15 R A *firm* must take reasonable steps to ensure that its *representatives* provide a copy of the appropriate *range of packaged products* on the request of a *private customer* having regard to the services it is providing or may provide to the *customer*.

#### keyfacts information, terms of business and telephone sales

4.3.16 G (1) COB 4.3.17R and 4.3.18R enable provision by a *firm* of an *initial disclosure document* to a *private customer* to be taken as compliance also with analogous information provision requirements contained in COB 4.2 (Terms of business and client agreements with customers).

- (2) In cases where *firms* make initial contact with a *customer* on the telephone a *firm* may, in addition, have to take into account and comply with the additional requirements applicable to the conclusion of *distance contracts*. *COB 4.3.18R* expands on the items of information which a firm is required to give in accordance with *COB 4, Annex 1R* so that where the firm expects to conduct business relating to *packaged products* adequate information is given during the telephone call about the nature and scope of the services which the *firm* will or may provide.
- 4.3.17 R (1) A *firm* which complies with *COB 4.3.3R* will, in respect of any requirement imposed by *COB 4.2* as to the delivery or content of information to be included in its *terms of business*, be regarded as complying with any such analogous requirement.
- (2) Any information required by *COB 4.2* which is not covered by (1) may be satisfied by it being included at the end of an *initial disclosure document* which is given to a *private customer* in accordance with *COB 4.3.3R* or, if provided at the same time, by way of separate items of information.
- 4.3.18 R (1) Where a *firm's* initial contact with a *private customer* (for a purpose set out in *COB 4.3.3R*) is by telephone then the following information must be provided and requirements satisfied before proceeding further:
- (a) the name of the *firm* and, if the call is initiated by or on behalf of a *firm*, the commercial purpose of the call;
  - (b) whether the *firm* offers *packaged products* from the whole market or from a limited number of companies or from a single company or single group of companies;
  - (c) whether the *firm* will provide the *customer* with *advice on investments on packaged products*;
  - (d) if the *firm* does not offer products from the whole market, that the *customer* can request a copy of the appropriate *range of packaged products*;
  - (e) whether the *firm* offers a *fee based service*, a *commission based service*, a service based on a combination of fee and commission, or a combination of these three types of services, and the consequences for the *customer* of proceeding with each type of service;
  - (f) that the information given under (a) to (e) will subsequently be confirmed in writing.
- (2) A *firm* which complies with (1) will, subject to (3), satisfy the condition set out in item (1) of *COB 4, Annex 1R*.
- (3) If during the course of a telephone call a *firm* is to conclude a contract (whether for the provision of a mediation services and/or for the purchase or sale of a *packaged product*), it must as well as complying with (1) and (2) above satisfy the requirement in *COB 4.2.5R* and *COB 4, Annex 1R*.
- (4) If a *firm's* initial contact with a *private customer* by telephone is such that *COB 4.3.3R* (other than *COB 4.3.3R(2)(a)(ii)*) applies then, subject to any relevant exclusions, it must send the *customer* an *initial disclosure document* and a *fees and commission statement* as soon as is reasonably practicable following the conclusion of the call.

Intermediate customers and market counterparties (and private customers who are introduced): disclosure before conclusion of the contract or immediately after conclusion of the contract

- 4.3.19 R (1) *COB* 4.3.20R to 4.3.25R apply to a *firm*, other than an *insurer*, when it conducts any of the following in relation to *life policies* with or for an *intermediate customer* or a *market counterparty*:
- (a) *advising on investments*; or
  - (b) *dealing*; or
  - (c) *arranging*
- (2) *COB* 4.3.26R (disclosure by introducers) applies to a *firm*:
- (a) when it *introduces* a *private customer* to another *firm*;
  - (b) other than an *insurer* when it *introduces* an *intermediate customer* or *market counterparty* to another *firm*.
- 4.3.20 R (1) The information in *COB* 4.3.21R must be provided to the *client* in a *durable medium* at any time before conclusion of the contract, and if necessary upon amendment or renewal thereof, unless (2) or (4) applies.
- (2) The information in *COB* 4.3.21R:
- (a) may be provided orally if:
    - (i) the *client* requests this; or
    - (ii) the *client* requires immediate cover;
  - (b) need not be provided before conclusion of the contract if the contract is concluded by telephone, but if the *client* is a *retail customer* the requirements in *COB* 4.2.5R and *COB* 4, Annex 1R must be satisfied.
- (3) If (2) applies, the *client* must be provided with the information in *COB* 4.3.21R in a *durable medium* immediately after the conclusion of the contract.
- (4) The requirements in (1) do not apply to the extent that the information has already been given to the *client* on a previous occasion and that information is still likely to be accurate and up to date.
- 4.3.21 R Table Information to be provided before conclusion of the contract or immediately after conclusion of the contract.

This table belongs to *COB* 4.3.20R

1.	The name and address of the <i>firm</i> and, where relevant, the name and address of the <i>appointed representative</i> .
2.	The <i>firm's</i> statutory status (in accordance with <i>GEN</i> Ann 1R (Statutory status disclosure)).
3.	That items 1 and 2 can be checked on the <i>FSA Register</i> by visiting the <i>FSA's</i> website <a href="http://www.fsa.gov.uk/register">www.fsa.gov.uk/register</a> or by contacting the <i>FSA</i> on 0845 606 1234.
4.	Whether the <i>firm</i> or any <i>appointed representative</i> of the <i>firm</i> has any holding, direct or indirect, representing more than 10 per cent of the voting rights or of the capital in an <i>insurance undertaking</i> .
5.	Whether an <i>insurance undertaking</i> or parent of an <i>insurance undertaking</i>

	has a holding, direct or indirect, representing more than 10 per cent of the voting rights or of the capital in the <i>firm</i> or in any <i>appointed representative</i> of the <i>firm</i> .
6.	In relation to the <i>life policy</i> provided, whether the <i>firm</i> offers the product: <ul style="list-style-type: none"> <li>(a) on the basis of a fair analysis of the market; or</li> <li>(b) from a limited number of <i>insurance undertakings</i>; or</li> <li>(c) from a single <i>insurance undertaking</i>.</li> </ul> If (b) or (c) apply, the <i>firm</i> must also disclose whether it is contractually obliged to conduct <i>insurance mediation activity</i> in this way.
7.	If the contract has not been offered on the basis of a fair analysis of the market, that the <i>client</i> can request a copy of the list of the <i>insurance undertakings</i> from which the <i>firm</i> has offered the product.
8.	How to complain to the <i>firm</i> and, where relevant, that complaints may subsequently be referred to a named complaints scheme.
9.	Where relevant, that compensation may be available from a named compensation scheme should the <i>firm</i> be unable to meet its liabilities; the <i>firm</i> must describe the extent and level of cover and how further information can be obtained.

- 4.3.22 R (1) A *firm* must provide the information specified in COB 4.3.21R (9):
- (a) (if it relates to the activities of an *establishment* in the *United Kingdom*) in English; or
  - (b) (if it relates to the activities of a *branch* in another *EEA State*) in an official language of that *EEA State*.
- (2) The information provided by a *firm* pursuant to COB 4.3.20R and which relates to the *firm's insurance mediation activities*, must be in English, unless the *customer* requests it to be, and the *firm* agrees to it being, in another language.
- 4.3.23 G A *firm* can, subject to COB 4.3.24G, comply with COB 4.3.20R by providing the information specified in COB 4.3.21R in an *initial disclosure document* or, if appropriate, a *combined initial disclosure document*.
- 4.3.24 G A *firm* that provides the information required by COB 4.3.20R in an *initial disclosure document* or *combined initial disclosure document* may amend or delete sections of the document subject to the following:
- (a) the *firm* must not include the keyfacts logo and the heading and text in Section 1 unless it uses the document in full and without altering the text other than that in sections 5, 7 and 8, which may be amended or deleted; and
  - (b) the *firm* must still provide the information covered by the amended or deleted sections if required to do so by COB 4.3.20R.
- Information to be provided to clients on request
- 4.3.25 R (1) A *firm* that provides a service of a type described in COB 4.3.21R (6)(b) or (c) must maintain, and keep up to date, for each type of *life policy* it deals with, a list of *insurance undertakings* it deals with.
- (2) The information in (1) must be maintained in a form which allows a copy to

be provided to a *client* on request, in accordance with COB 4.3.21R (7), in a *durable medium*.

#### Disclosure by introducers

- 4.3.26 R (1) A *firm* that only *introduces* a *client* to another *firm* with a view to a transaction in a *life policy*, must provide the information in COB 4.3.21R (1) and (2) at the time it makes initial contact with the *client*. The information may be provided orally.
- (2) If the information required in (1) is provided orally, the information in COB 4.3.21R (1) and (2) must be provided in a *durable medium* immediately after the initial contact between the *firm* and the *client*.

#### Group Personal Pensions

- 4.3.27 R A *firm* must take reasonable steps to ensure that its *representatives* on first making contact with an employee with a view to advising on his employer's *group personal pension scheme* or *stakeholder pension scheme*, inform the employee:
- (1) that the *firm* will be providing *advice on investments* on *group personal pension schemes* and/or *stakeholder pension schemes* provided by the employer;
- (2) whether the employee will be provided with *advice on investments*:
- (a) that is restricted to the *group personal pension scheme* or *stakeholder pension scheme* provided the employer; or
- (b) the matters in (a) and other products;
- (3) the amount and nature (ie *fees* and/or *commission* (or *equivalent*)) and/or a combination of *fees* and *commission* (or *equivalent*)) of any payments that the employee will have to pay for the *advice on investments*.

Insert after COB 4 Annex 3 the following new annexes: Annex 4R, Annex 5R, Annex 6R, Annex 7R, Annex 8G and Annex 9G:

COB 4 Annex 4 R: Initial disclosure document required by COB 4.3.9 R (1) ("IDD")

1. Firms should omit the notes and square brackets which appear in the following specimen.

The IDD must contain the keyfacts logo, headings and text in the order shown and in accordance with the notes. [Note 1]

about our services [Note 2]

Financial Services

[Note 5]  
[123 Any Street  
Some Town  
ST21 7QB]

[Note 3] [Note 4]

---

## 1. The Financial Services Authority (FSA)

---

The FSA is the independent watchdog that regulates financial services. It requires us to give you this document. Use this information to decide if our services are right for you.

---

## 2. Whose products do we offer? [Note 6] [Note 7]

---

- We offer products from the whole market. [Note 6A]
- We [can] [Note 8] only offer products from a limited number of companies.  
 Ask us for a list of the companies and products we offer. [Note 11]
- We [can] [Note 8] only offer [a] product[s] from [a single group of companies] [name of single company]. [Note 9(1)] [Note 12]  
 [or] [Note 9(2)]  
 We only offer our own products.  
Ask us for a list of the companies and products we offer. [Note 11]

---

**3. Which service will we provide you with? [Note 6]**

---

- We will advise and make a recommendation for you after we have assessed your needs.
- You will not receive advice or a recommendation from us. We may ask some questions to narrow down the selection of products that we will provide details on. You will then need to make your own choice about how to proceed.
- We will ask questions about your income, savings and other circumstances in order to provide basic advice on stakeholder products but we will not:
- conduct a full assessment of your needs;
  - consider whether any other product outside the range we offer may be more suitable. **[Note 6A]**

---

**4. What will you have to pay us for our services?**

---

- Before we provide you with advice, we will give you our keyfacts guide 'about the cost of our services'.**[Note 13]**
- We will tell you how we get paid, and the amount, before we carry out any business for you.

---

**5. Who regulates us? [Note 14]**

---

[XYZ Financial Services] [123 Any Street, Some Town, ST21 7QB] **[Note 15]** **[Note 16]** is authorised and regulated by the Financial Services Authority. Our FSA Register number is [ ]. **[Note 17]**

Our permitted business is [ ]. **[Note 18]**

[or] **[Note 19]**

[Name of *appointed representative*] **[Notes 3 and 4]****[Note 3]** **[Note 4]** is an appointed representative of [name of *firm*] [address of *firm*] **[Note 15]** **[Note 16]** which is authorised and regulated by the Financial Services Authority. [Name of *firm's*] FSA Register number is [ ].

[Name of *firm's*] permitted business is [ ] **[Note 18]**

You can check this on the FSA's Register by visiting the FSA's website [www.fsa.gov.uk/register](http://www.fsa.gov.uk/register) or by contacting the FSA on 0845 606 1234.

---

**6. Loans and ownership [Note 20]**

---

[B&C Investments plc owns 20% of our share capital.]

[London Union plc provides us with loan finance of £250,000 per year.]

[XYZ Financial Services (or we) have 20% of the voting rights in Royal Edinburgh.]  
[Note 20][Note 21]Note 22][Note 23]

---

**7. What to do if you have a complaint [Note 14]**

---

If you wish to register a complaint, please contact us:

**...in writing**      Write to [XYZ Financial Services], [Complaints Department, 123 Any Street, Some Town, ST21 7QB].

**... by phone**      Telephone [0121 100 1234]. [Note 24]

If you cannot settle your complaint with us, you may be entitled to refer it to the Financial Ombudsman Service. [Note 25]

---

**8. Are we covered by the Financial Services Compensation Scheme (FSCS)? [Note 14]**  
[Note 26] [Note 26A]

---

We are covered by the FSCS. You may be entitled to compensation from the scheme if we cannot meet our obligations. This depends on the type of business and the circumstances of the claim.

Most types of investment business are covered for 100% of the first £30,000 and 90% of the next £20,000 so the maximum compensation is £48,000.

Further information about compensation scheme arrangements is available from the FSCS.

The following notes do not form part of the IDD.

**Note 1** – subject to this, a *firm* may use its own house style and brand.

**Note 2** – the *Financial Services Authority* has developed a common keyfacts logo to be used on significant pieces of information directed to *customers*. The keyfacts logo and the text 'about our services' must be used and positioned as shown in the IDD. The logo may be re-sized, but it must be reasonably prominent and its proportions must not be distorted. When reproducing the logo, *firms* may use colour providing this does not diminish the prominence of the logo. A specimen of the keyfacts logo can be obtained from the *FSA* website [http://www.fsa.gov.uk/pubs/other/keyfacts\\_logo](http://www.fsa.gov.uk/pubs/other/keyfacts_logo).

**Note 3** – insert the *firm's* or *appointed representative's* name (either the name under which it is *authorised* or the name under which it trades). A corporate logo or logos may be included.

**Note 4** – if an individual who is employed or engaged by an *appointed representative* provides the information, the individual should not put his or her own name on the IDD.

**Note 5** – insert the head office or if more appropriate the principal place of business from which the *firm* or *appointed representative* expects to conduct business (this can include a *branch*) with *customers*. (An *appointed representative* must not include the name and address of the *authorised firm* instead of its own.)

## **Section 2: Whose products do we offer?**

**Note 6** – The *firm* must select, for example by ticking, one box which is appropriate for the service which it expects to provide to the *customer*. This needs to be done only in relation to the service it is offering to a particular *customer*.

**Note 6A** – if a *firm* indicates that it will be providing *basic advice on stakeholder products* then the first box in section 2 must not be ticked as the *firm* will not be doing so on the basis of *advice on investments* from the whole market.

**Note 7** - if the IDD is provided by an *appointed representative*, the service described must be that offered by the *appointed representative*, in accordance with *COB 5*.

**Note 8** – insert “can” if the *firm's* range of products is determined by any contractual obligation. This does not apply where a *product provider, insurer, lender* or company is selling its own products.

**Note 9** – if the *firm* selects this box, it will be offering the products of one provider to the *customer*. It should therefore follow the format specified in (1) below except when offering its own products, in which case it should follow (2) instead. If the *firm* does not select this box, then the text must follow that set out in Note 12 below.

- (1) Insert the name of the provider. For example: "We can only offer products from [name of *product provider*]". If the provider has only one product, the *firm* must amend the text to the singular – for example: "We can only offer a pension from [name of lender]".

- (2) If the *firm* is a *product provider* offering only its own products, or is part of a *product provider* offering only the products sold under that part's trading name, it should use this alternative text.

**Note 11** – this sentence is required only where a *firm* selects this service option. The list of products will be the range of *packaged products* that is appropriate having regard to the services that the *firm* is providing, or may provide, to the *customer*. For services provided in relation to *non-investment insurance contracts*, this is the list required by *ICOB 4.2.14R*.

**Note 12** – if the *firm* does not select this box, it must alter the wording to say "a single group of companies". For example: "We only offer the products from a single group of companies" should replace the text in the specimen *IDD*.

#### **Section 4: What will you have to pay us for our services?**

**Note 13** – *firms* are only required to provide a *private customer* with an appropriate keyfacts guide 'about the costs of our services' (i.e. a menu) if they propose to give that *customer advice on investments on packaged products*. Where a *firm* is not required to provide that *customer* with a menu because the *firm* does not intend to give him *advice on investments on packaged products*, then it should tick the second box in section 4.

#### **Section 5: Who regulates us?**

**Note 14** – the *firm* may omit this section for services relating to *packaged products* if the *firm* has, on first contact with the *customer*, provided the *customer* with its *terms of business* which contains that information including the *firm's permitted business*. If this section is omitted, the other sections of the *IDD* must be renumbered accordingly.

**Note 15** – if the *firm's* address on the *FSA Register* differs from that given on the *IDD* under note 5, the address on the *FSA Register* must be given in this section. If the address is the same as that given under note 5 it should be repeated in this section.

**Note 16** – where the *authorised firm* trades under a different name from that under which it is *authorised*, it must include the name under which it is *authorised* and listed in the *FSA Register*. It may also include its trading name(s) if it wishes.

**Note 17** - an *incoming EEA firm* will need to modify this section if it chooses to use this *IDD* (see *GEN 4 Ann 1R(2)*).

**Note 18** – insert a short, plain language description of the business for which the *firm* has a *permission* which relates to the service it is providing.

**Note 19** – where the information is provided by an *appointed representative*, the *appointed representative* must use this text instead. The *appointed representative* must give details of the *authorised firm(s)* that is its *principal(s)* for each type of service that it is providing to a particular *customer*.

#### **Section 6: Loans and ownership**

**Note 20** – omit this section where there are no relevant loan or ownership arrangements under the following notes. If this section is omitted the other sections of the IDD must be renumbered accordingly. Where the information is provided by an *appointed representative*, it must cover loans made to or by that *appointed representative*, or holdings in or held by that *appointed representative*, as appropriate.

**Note 21** – insert, in the *firm's* own words, a short description of any direct or indirect holding of more than 10 per cent in the capital or voting power of the *firm* which is held by a provider of *packaged products* or by the parent of the provider.

**Note 22** – insert, in the *firm's* own words, a short description of any direct or indirect holding of more than 10 per cent in the capital or voting power of a provider of *packaged products* which is held by the *firm*.

**Note 23** – insert, in the *firm's* own words, a short description of any *credit* provided to the *firm* by a *product provider* (other than *commission* due to the *firm* in accordance with an indemnity claw-back arrangement) or by any *undertaking* in the *immediate group* of the *product provider* where the amount of the *credit* exceeds 10 per cent of the share and loan capital of the *firm*.

### **Section 7: What to do if you have a complaint**

**Note 24** - if different to the address in note 5, give the address and telephone number which is to be used by *customers* wishing to complain.

**Note 25** – if the *firm* is carrying on an activity from an establishment which is outside the *United Kingdom* it must make clear that the *Financial Ombudsman Service* will not be available. The *firm* may refer to any similar complaints scheme that may be applicable.

### **Section 8: Are we covered by the Financial Services Compensation Scheme (FSCS)?**

**Note 26** – when an *incoming EEA firm* provides the CIDD, it must modify this section as appropriate.

**Note 26A** - when a *firm* which is not a *participant firm* provides the CIDD, it must answer this question 'No' and should state the amount of cover provided (if any) and from whom further information about the compensation arrangements may be obtained.

COB 4 Annex 5 R: Combined initial disclosure document required by COB 4.3.9 R (2) (“CIDD”)

1. Firms should omit the notes, asterisks and square brackets which appear in the following specimen.

This specimen covers services in relation to *packaged products, non-investment insurance contracts and regulated mortgage contracts* (including *regulated lifetime mortgage contracts* and home reversion schemes). If the *firm* is only providing services in relation to two types of these products, the parts of the CIDD that are not relevant must be omitted. *Firms* must omit the notes and square brackets that appear in the following CIDD. The CIDD must contain the keyfacts logo, headings and text in the order shown and in accordance with the notes.

[Note 1]

about our services [Note 2]

Financial Services

[Note 5]  
[123 Any  
Street  
Some Town  
ST21 7QB]

[Note 3] [Note 4]

---

## 1 The Financial Services Authority (FSA)

---

The FSA is the independent watchdog that regulates financial services. It requires us to give you this document. Use this information to decide if our services are right for you.

---

## 2 Whose products do we offer? [Note 6] [Note 7]

---

### Investment

- We offer products from the whole market. [Note 6A]
- We [can] [Note 8] only offer products from a limited number of companies.  
Ask us for a list of the companies and products we offer. [Note 12]
- We [can] [Note 8] only offer [a] product[s] from [a single group of companies] [name of single company]. [Note 10(1)] [Note 13]

[or] [Note 10(2)]

We only offer our own products.

Ask us for a list of the companies and products we offer. [Note 12]

## Insurance

- We offer products from a range of insurers [for] [list the types of *non-investment insurance contracts*].
- We [can] [**Note 8**] only offer products from a limited number of insurers [for] [list the types of *non-investment insurance contracts*].

Ask us for a list of the insurers we offer insurance from. [**Note 12**]

- We [can] [**Note 8**] only offer [a] product[s] from [a single insurer] [name of single *insurance undertaking*] [for] [list the types of *non-investment insurance contracts*]. [**Note 9**] [**Note 10(1)**] [**Note 13**]

[or] [**Note 10(2)**]

We only offer our own products for [list the types of *non-investment insurance contracts*].

## [Lifetime] Mortgages [and home reversion schemes] [**Note 14**]

- We offer mortgages from the whole market.
- We [can] [**Note 8**] only offer mortgages from a limited number of lenders.

Ask us for a list of the lenders we offer mortgages from. [**Note 11**]

- We [can] [**Note 8**] only offer [a limited range of the] [a] mortgage[s] from [a single lender] [name of single lender]. [**Note 10(1)**][**Note 13**]

[or] [**Note 10(2)**]

We only offer our own mortgages.

---

### 3 Which service will we provide you with? [**Note 6**]

---

## Investment

- We will advise and make a recommendation for you after we have assessed your needs.
- You will not receive advice or a recommendation from us. We may ask some questions to narrow down the selection of products that we will provide details on. You will then need to make your own choice about how to proceed.
- We will provide basic advice on a limited range of stakeholder products and in order to do this we will ask some questions about your income, savings and other circumstances but we will not:

- Conduct a full assessment of your needs;
- Offer advice on whether a non-stakeholder product may be more suitable

[Note 6A]

### Insurance

- We will advise and make a recommendation for you after we have assessed your needs [for] [list the types of *non-investment insurance contracts*].
- You will not receive advice or a recommendation from us [for] [list the types of *non-investment insurance contracts*]. We may ask some questions to narrow down the selection of products that we will provide details on. You will then need to make your own choice about how to proceed.

### [Lifetime] Mortgages [and home reversion schemes] [Note 14]

- We will advise and make a recommendation for you after we have assessed your needs.
- You will not receive advice or a recommendation from us. We may ask some questions to narrow down the selection of products that we will provide details on. You will then need to make your own choice about how to proceed.

---

## 4 What will you have to pay us for our services?

---

### Investment

- Before we provide you with advice, we will give you our keyfacts guide 'about the cost of our services'. [Note 15]
- We will tell you how we get paid, and the amount, before we carry out any business for you.

### Insurance [Note 16]

- A fee [of £ [ ] ] [for] [list the types of services provided for *non-investment insurance contracts*].
- No fee [for] [list the types of services provided for *non-investment insurance contracts*].

You will receive a quotation which will tell you about any other fees relating to any particular insurance policy.

### [Lifetime] Mortgages [and home reversion schemes] [Note 14]

- No fee. [We will be paid by commission from the [lender/company].] [Note 17]

- A fee of £[ ] payable at the outset and £[ ] payable when you apply for a [lifetime] mortgage [or home reversion scheme]. [We will also be paid commission from the [lender/company.]] [Note 17] [Note 18]

You will receive a key facts illustration when considering a particular [lifetime] mortgage, [or further information about a particular home reversion scheme] which will tell you about any fees relating to it. [Note 14]

### Refund of fees [Note 19] [Note 14]

If we charge you a fee, and your [lifetime] mortgage [or home reversion scheme] does not go ahead, you will receive:

[Note 20]

- A full refund [if the [lender/company] rejects your application]. [Note 21]
- A refund of £ [ ] [if your application falls through]. [Note 21] [Note 22]
- No refund [if you decide not to proceed]. [Note 21]

---

## 5 Who regulates us? [Note 23]

---

[XYZ Financial Services] [123 Any Street, Some Town, ST21 7QB] [Note 24] [Note 25] is authorised and regulated by the Financial Services Authority. Our FSA Register number is [ ]. [Note 26]

Our permitted business is [ ]. [Note 27]

[or] [Note 28]

[Name of *appointed representative*] [Note 3] [Note 4] is an appointed representative of [name of *firm*] [address of *firm*] [Note 24] [Note 25] which is authorised and regulated by the Financial Services Authority. [Name of *firm's*] FSA Register number is [ ].

[Name of *firm's*] permitted business is [ ] [Note 27]

You can check this on the FSA's Register by visiting the FSA's website [www.fsa.gov.uk/register](http://www.fsa.gov.uk/register) or by contacting the FSA on 0845 606 1234.

[Home reversion schemes are not regulated by the FSA.] [Note 14]

---

## 6 Loans and ownership [Note 29]

---

[B&C Investments plc owns 20% of our share capital.]

[London Union plc provides us with loan finance of £250,000 per year.]

[XYZ Financial Services (or we) have 20% of the voting rights in Royal Edinburgh.] [Note 29][Note 30][Note 31][Note 32][Note 33][Note 34]

---

**7 What to do if you have a complaint [Note 23]**

---

If you wish to register a complaint, please contact us:

**...in writing** Write to [XYZ Financial Services], [Complaints Department, 123 Any Street, Some Town, ST21 7QB].

**... by phone** Telephone [0121 100 1234]. [Note 35]

If you cannot settle your complaint with us, you may be entitled to refer it to the Financial Ombudsman Service. [Note 36] [Note 36A] [Note 37] [The Financial Ombudsman Service does not consider complaints about home reversion schemes.] [Note 14]

---

**8 Are we covered by the Financial Services Compensation Scheme (FSCS)? [Note 23] [Note 38] [Note 38A]**

---

We are covered by the FSCS. You may be entitled to compensation from the scheme if we cannot meet our obligations. This depends on the type of business and the circumstances of the claim.

**Investment**

Most types of investment business are covered for 100% of the first £30,000 and 90% of the next £20,000 so the maximum compensation is £48,000.

**Insurance**

Insurance advising and arranging is covered for 100% of the first £2,000 and 90% of the remainder of the claim, without any upper limit.

[or] [Note 39] [Note 39A]

For compulsory classes of insurance, insurance advising and arranging is covered for 100% of the claim, without any upper limit.

**[Lifetime] Mortgages [and home reversion schemes] [Note 14]**

Mortgage advising and arranging is covered for 100% of the first £30,000 and 90% of the next £20,000 so the maximum compensation is £48,000. [Home reversion schemes are not covered by the Financial Services Compensation Scheme.] [Note 14]

Further information about compensation scheme arrangements is available from the FSCS.

**[Note 40] Message from the Financial Services Authority**

**Think carefully about this information before deciding whether you want to go ahead. If you are at all unsure about which lifetime mortgage or home reversion scheme is right for you, you should ask your adviser to make a recommendation.**

**Please remember that home reversion schemes are not regulated by the FSA.**

The following notes do not form part of the CIDD.

**Note 1** – subject to this, a *firm* may use its own house style and brand.

**Note 2** – the *Financial Services Authority* has developed a common key facts logo to be used on significant pieces of information directed to *customers*. The key facts logo and the text 'about our services' must be used and positioned as shown in the CIDD. The logo may be re-sized, but it must be reasonably prominent and its proportions must not be distorted. When reproducing the logo, *firms* may use colour providing this does not diminish the prominence of the logo. A specimen of the key facts logo can be obtained from the *FSA* website [http://www.fsa.gov.uk/pubs/other/keyfacts\\_logo](http://www.fsa.gov.uk/pubs/other/keyfacts_logo).

**Note 3** – insert the *firm's* or *appointed representative's* name (either the name under which it is *authorised* or the name under which it trades). A corporate logo or logos may be included.

**Note 4** – if an individual who is employed or engaged by an *appointed representative* provides the information, the individual should not put his or her own name on the CIDD.

**Note 5** – insert the head office or if more appropriate the principal place of business from which the *firm* or *appointed representative* expects to conduct business (this can include a *branch*) with *customers*. (An *appointed representative* must not include the name and address of the *authorised firm* instead of its own.)

## **Section 2: Whose products do we offer?**

**Note 6** – for services in relation to *packaged products* and *regulated mortgage contracts*, *regulated lifetime mortgage contracts* and home reversion schemes the *firm* must select, for example by ticking, one box which is appropriate for the service which it expects to provide to the *customer*. For services in relation to *non-investment insurance contracts*, the *firm* must select more than one box if the scope of the service or the type of service it provides to a particular *customer* varies by type of contract. For example, if it deals with a single *insurance undertaking* for motor insurance and a range of *insurance undertakings* for household insurance or if it provides *advice* on some types of contract but not others. In the case where more than one box is selected, the *firm* should specify which box relates to which type of *non-investment insurance contract*, by adding text to the CIDD. This needs to be done only in relation to the service it is offering to a particular *customer*.

**Note 6A** – if a *firm* indicates that it will be providing *basic advice on stakeholder products* then the first box in section 2 must not be ticked as the *firm* will not be doing so on the basis of *advice on investments* from the whole market.

**Note 7** - if the CIDD is provided by an *appointed representative*, the service described must be that offered by the *appointed representative*, in accordance with *COB 5*, *ICOB 4.2.8R* note 1(e) and *MCOB 4.3.10R*.

**Note 8** – insert “can” if the *firm's* range of products is determined by any contractual obligation. This does not apply where a *product provider*, *insurer*, lender or company is selling its own products.

**Note 9** – if the *insurance intermediary* deals with a different *insurance undertaking* for different types of *non-investment insurance contracts*, it should identify all the *insurance undertakings* and specify the type of contract to which they relate on the CIDD. This only needs to be done in

relation to the service it is offering a particular *customer*. For example, “we can only offer products from ABC Insurance for motor insurance and XYZ Insurance for household insurance”.

**Note 10** – if the *firm* selects this box, it will be offering the products of one provider to the *customer* for a particular product type. It should therefore follow the format specified in (1) below except when offering its own products, in which case it should follow (2) instead. In the case of *non-investment insurance contracts*, where the *firm* is providing a service in relation to different types of insurance, this box covers the situation where it is offering a particular type of insurance from a single *insurance undertaking*. If the *firm* does not select this box, then the text must follow that set out in note 13 below.

- (1) Insert the name of the provider, namely the *product provider* for *packaged products*, the *insurance undertaking(s)* for *non-investment insurance contracts*, the lender for *regulated mortgage contracts* and *regulated lifetime mortgage contracts* and the company for home reversion schemes. For example: "We can only offer products from [name of *product provider*]". For *non-investment insurance contracts* the type of insurance offered should also be included. For example: "We only offer XYZ's household insurance and ABC's motor insurance." If the provider has only one product, the *firm* must amend the text to the singular – for example: "We can only offer a mortgage from [name of lender]". If the *firm* does not offer all of the mortgages or home reversion schemes generally available from that provider, it must insert the words "a limited range of" as shown in the specimen.
- (2) If the *firm* is a *product provider* offering only its own products, or is part of a *product provider* offering only the products sold under that part's trading name, it should use this alternative text.

**Note 11** – for services provided in relation to *regulated mortgage contracts*, *regulated lifetime mortgage contracts* and home reversion schemes, this sentence is required only where a *firm* selects this service option. It may also be omitted if a *firm* chooses to list all of the lenders it offers mortgages from instead of the text "a limited number of lenders", in the previous line, so long as the *firm* offers all of the products generally available from each lender.

**Note 12** – this sentence is required only where a *firm* selects this service option. For services provided in relation to *packaged products*, the list of products will be the range of *packaged products* that is appropriate having regard to the services that the *firm* is providing, or may provide, to the *customer*. For services provided in relation to *non-investment insurance contracts*, this is the list required by *ICOB* 4.2.14R.

**Note 13** – if the *firm* does not select this box, it must alter the wording to say "a single group of companies" for *packaged products*, "a single insurer" for *non-investment insurance contracts*, "a single lender" for *regulated mortgage contracts* or *regulated lifetime mortgage contracts* and "a single company" for home reversion schemes. For example: "We only offer the products from a single group of companies" should replace the text in the specimen CIDD.

**Note 14** – change “mortgage” to “lifetime mortgage” where the *firm* sells only *regulated lifetime mortgage contracts*. *Firms* must insert the text relating to home reversion schemes and change “mortgage” to “product” and “lender” to “company” if they advise or give personalised information on home reversion schemes in addition to *advising on investments* or giving personalised information on *regulated lifetime mortgage contracts*.

#### **Section 4: What will you have to pay us for our services?**

**Note 15** – *firms* are only required to provide a *private customer* with an appropriate keyfacts guide "about the cost of our services" (i.e. a menu) if they propose to give that *customer advice on investments on packaged products*. Where a *firm* is not required to provide that *customer* with a menu because the *firm* does not intend to give him *advice on investments on packaged products*, then it should tick the second box in section 4.

**Note 16** – if the *customer* will be charged a *fee* for *insurance mediation activities* in connection with *non-investment insurance contracts*, insert a plain language description of what each *fee* is for and when each *fee* is payable. This should include any *fees* for *advising on* or *arranging a non-investment insurance contract* and any *fees* over the life of the contract, for example, for mid-term adjustments. If a *firm* does not charge a *fee* the text in the first box should be abbreviated to 'A fee'. If the *firm* is offering more than one type of service in connection with *non-investment insurance contracts*, the *firm* may aggregate the *fees* over all the services provided, and (if that is the case) identify the services for which there is no *fee*.

**Note 17** – if the *firm* receives commission instead of, or in addition to, *fees* from the *customer* for services relating to *regulated mortgage contracts*, *regulated lifetime mortgage contracts* or home reversion schemes, it must insert a plain language explanation of this (see specimen for a plain language example). If the *firm* will pay over to the *customer* any commission the *firm* receives, it may refer to that fact here.

**Note 18** – insert a plain language description of when any *fees* are payable for services relating to *regulated mortgage contracts*, *regulated lifetime mortgage contracts* or home reversion schemes. This description could include, for example, a cash amount, a percentage of the loan or reversion amount or the amount per hour, as appropriate. However, where a cash amount is not disclosed, one or more examples of the cash amount must be included. If a *firm* offers more than one pricing option, it may illustrate each with a separate box. If a *firm* does not charge a *fee*, the text for the second box should be abbreviated to 'A fee'.

**Note 19** – omit this part of the CIDD on 'Refund of fees' if the *firm* has indicated that there will be "No fee" for services in relation to *regulated mortgage contracts*, *regulated lifetime mortgage contracts* or home reversion schemes or that any *fee* will be payable only if the product completes.

**Note 20** – *firms* may select as many boxes as appropriate.

**Note 21** – insert a short, plain language description of the circumstances in which the *fee* for services in relation to *regulated mortgage contracts*, *regulated lifetime mortgage contracts* or home reversion schemes is refundable or not refundable as described.

**Note 22** – a *firm* may delete this line if it does not offer a partial refund for services in relation to *regulated mortgage contracts*, *regulated lifetime mortgage contracts* or home reversion schemes in any circumstances.

### **Section 5: Who regulates us?**

**Note 23** – the *firm* may omit this section for services relating to *packaged products* if the *firm* has, on first contact with the *customer*, provided the *customer* with its *terms of business* which contains that information including the *firm's permitted business*. This section may be omitted for services relating to *non-investment insurance contracts* if the *firm* provides the information covered by this section where it is required by *ICOB 4.2.8R* to the *customer* by some other means. This section may be omitted for services relating to *regulated mortgage contracts* (including *regulated lifetime mortgage contracts*) and home reversion schemes in accordance with *MCOB 4.4.1R(3)*. If this section is omitted, the other sections of the CIDD must be renumbered accordingly.

**Note 24** – if the *firm's* address on the *FSA Register* differs from that given on the CIDD under note 5, the address on the *FSA Register* must be given in this section. If the address is the same as that given under note 5 it should be repeated in this section.

**Note 25** – where the *authorised firm* trades under a different name from that under which it is *authorised*, it must include the name under which it is *authorised* and listed in the *FSA Register*. It may also include its trading name(s) if it wishes.

**Note 26** - an *incoming EEA firm* will need to modify this section if it chooses to use this CIDD (see *GEN 4 Ann 1R(2)*).

**Note 27** – insert a short, plain language description of the business for which the *firm* has a *permission* which relates to the service it is providing.

**Note 28** – where the information is provided by an *appointed representative*, the *appointed representative* must use this text instead. The *appointed representative* must give details of the *authorised firm(s)* that is its *principal(s)* for each type of service that it is providing to a particular *customer*.

## **Section 6: Loans and ownership**

**Note 29** – omit this section where there are no relevant loan or ownership arrangements under the following notes or if the *firm* is an *insurer* selling its own *non-investment insurance contracts*. If this section is omitted the other sections of the CIDD must be renumbered accordingly. If the *firm* is not providing services in relation to *packaged products*, the heading of this section must be changed to 'Ownership'. Where the information is provided by an appointed representative, it must cover loans made to or by that appointed representative or holdings in, or held by, that appointed representative as appropriate.

**Notes 30, 31 and 32** apply only to a *firm advising on, dealing in, or arranging* in relation to *packaged products* ~~for private customers~~.

**Note 30** – insert, in the *firm's* own words, a short description of any direct or indirect holding of more than 10 per cent in the capital or voting power of the *firm* which is held by a provider of *packaged products* or by the parent of the provider.

**Note 31** – insert, in the *firm's* own words, a short description of any direct or indirect holding of more than 10 per cent in the capital or voting power of a provider of *packaged products* which is held by the *firm*.

**Note 32** – insert, in the *firm's* own words, a short description of any *credit* provided to the *firm* by a *product provider* (other than *commission* due to the *firm* in accordance with an indemnity claw-back arrangement) or by any *undertaking* in the *immediate group* of the *product provider* where the amount of the *credit* exceeds 10 per cent of the share and loan capital of the *firm*.

**Notes 33 and 34** apply to an *insurance intermediary* that is not an *insurer* providing services in relation to *non-investment insurance contracts*.

**Note 33** – insert, in the *insurance intermediary's* own words, a short description of any direct or indirect holding of more than 10 per cent in the capital or voting power of the *insurance intermediary* which is held by an *insurance undertaking* or by the parent of an *insurance undertaking*.

**Note 34** – insert, in the *insurance intermediary's* own words, a short description of any direct or indirect holding of more than 10 per cent in the capital or voting power of an *insurance undertaking* which is held by the *insurance intermediary*.

**Section 7: What to do if you have a complaint**

**Note 35** – if different to the address in note 5, give the address and telephone number which is to be used by *customers* wishing to complain.

**Note 36** – this text may be omitted for *non-investment insurance contracts* if the *insurance intermediary* is aware that a *commercial customer* would not be an *eligible complainant*.

**Note 36A** – if the CIDD is provided by an authorised professional firm which is exclusively carrying on non-mainstream regulated activities, the authorised professional firm should delete this sentence and refer to the alternative complaints handling arrangements. It should also omit the information required under note 14.

**Note 37** – if the *firm* is carrying on an activity from an establishment which is outside the *United Kingdom* it must make clear that the *Financial Ombudsman Service* will not be available. The *firm* may refer to any similar complaints scheme that may be applicable.

**Section 8: Are we covered by the Financial Services Compensation Scheme (FSCS)?**

**Note 38** – when an *incoming EEA firm* provides the CIDD, it must modify this section as appropriate.

**Note 38A** - when a *firm* which is not a *participant firm* provides the CIDD, it must answer this question 'No' and should state the amount of cover provided (if any) and from whom further information about the compensation arrangements may be obtained. It should also omit the information required under note 14.

**Note 39** – where the *insurance intermediary* provides a service in relation to a compulsory class of insurance, such as *employers' liability insurance*, it must use this alternative text.

**Note 39A** – where the *insurance intermediary* provides a service in relation to a contract which covers both a compulsory class of insurance and a class of insurance which is not compulsory, it should indicate the level of compensation that applies to each class.

**Lifetime mortgage warning**

**Note 40** - This warning box should be added when the *firm* sells *regulated lifetime mortgage contracts* or home reversion schemes or both

COB 4 Annex 6R (Fees and Commission Statement required by COB 4.3.11R (1) and (2))

1. (1) Versions of the templates for the *fees and commission statement* prescribed for the purposes of COB 4.3.11R:
  - (a) *fee* only (version 1);
  - (b) *commission* (or *equivalent*) only (version 2);
  - (c) *fee* or *commission* (or *equivalent*) (version 3);
  - (d) *fee* or *commission* (or *equivalent*); or combination of *commission* (or *equivalent*) and *fee* (version 4);
  - (e) *commission* (or *equivalent*); or combination of *commission* (or *equivalent*) and *fee* (version 5); and
  - (f) *fee*; or combination of *commission* (or *equivalent*) and *fee* (version 6).
- (2) *Firms* must omit the notes and square brackets that appear in the following templates. Except to the extent indicated in the Notes set out at the end of this annex, *firms* must use the text, format and type size shown in the templates. In particular, the templates must contain the 'keyfacts' logo, headings and prescribed text in the position and order shown and in accordance with the Notes. Subject to this, a *firm* may use its own house style and brand.

2. Version 1 - fee only template in accordance with COB 4.3.11R.

[Note 1]

about the cost of our services

[Note 2]

Financial Services

[Note 3] Last updated [22 October 2004]

---

[ABC Financial Services plc, 123 Any Street, Some Town, ST21 7QB] [Note 4]

---

## 1. The Financial Services Authority (FSA)

The FSA is the independent regulator of financial services. It requires us to give you this document when advising on some savings and investments. You may use this information to compare value for money, to shop around and to decide which firm to use.

---

## 2. Our services [Note 5]

We offer an initial discussion (without charge) when we will describe our services more fully and explain the payment options. If you decide to go ahead, we will:

- gather and analyse personal information about you, your finances, your needs and objectives;
  - recommend and discuss any action we think you should take and, with your agreement, arrange relevant investments for you.
- 

## 3. What are your payment options? [Note 6(a)]

Not all firms charge for advice in the same way. We will discuss your payment options with you and answer any questions you have. We will not charge you anything until you have agreed how we are to be paid. **We have ticked the payment options we offer.**

**Paying by fee.** Whether you buy a product or not, you will pay us a fee for our advice and services. If we also receive commission from the product provider when you buy a product, we will pass on the full value of that commission to you in one or more ways. For example, we could reduce our fee; or reduce your product charges; or increase your investment amount; or refund the commission to you. [Note 6(b),(c),(d)]

**Paying by commission (or product charges).** If you buy a financial product, we will normally receive commission on the sale from the product provider. Although you pay nothing up-front, that does not mean our service is free. You still pay us indirectly through product charges. Product charges pay for the product provider's own costs and any commission. These charges reduce the amount left for investment. If you buy direct, the product charges could be the same as when buying through an adviser, or they could be higher or lower. We will tell you how much the commission will be before you complete an investment, but you may ask for this information earlier. [Note 6(e)]

---

#### 4. How much might our services cost? [Note 7] [Note 8]

We will agree the rate we will charge before beginning work. We will tell you if you have to pay VAT. [Note 9]

Our typical charges are: [Note 10]

Principal/Director/Partner	<b>£150-200 per hour</b>
Financial adviser	<b>£100-150 per hour</b>
Administration	<b>£25 per hour</b>

You may ask us for an estimate of how much in total we might charge. You may also ask us not to exceed a given amount without checking with you first. [Note 9]

---

#### 5. Further information [Note 22]

If you need any more help or information

- ask your adviser; or
- visit [www.fsa.gov.uk/consumer](http://www.fsa.gov.uk/consumer).

[Note 23]

[Note 3] Last updated [22 October 2004]

3. Version 2 - *commission* (or *equivalent*) only template in accordance with COB 4.3.11R.

We will tell you how much the commission will be before you complete an investment, but you may ask for this information earlier. [Note 6(e)]

## 4. How much might our services cost? [Note 7] [Note 8]

Tables 1 and 2 show examples of the amounts of commission we could receive (or the equivalent we earn through product charges) and compare those amounts with the market average (see notes 1 & 2 at the end of this section 4).

The amounts vary according to: the type of product, the amount you invest, and (sometimes) how long you invest for, or your age when you start the product. We will confirm the actual amount to you before you buy a product.

**Table 1 - Commission if you invest monthly [Notes 12-17]**

Products	Example term or age	Comparison of costs		Example based on £100 per month
		<i>Our maximum</i>	<i>Market average</i>	<i>This shows the maximum costs of our sales and advice for a monthly investment or premium of £100, ignoring any changes in fund value</i>
<b>Savings and investments</b>				
<b>Collective investments (eg unit trusts)</b>	Any	[Note 18]	[Note 19]	[Note 20]
<b>Endowments</b>	10 year term	[Note 18]	[Note 19]	[Note 20]
<b>Protection</b>				
<b>Whole of life assurance</b>	Age 40	[Note 18]	[Note 19]	[Note 20]
<b>Saving for retirement</b>				
<b>Personal and Stakeholder pensions</b>	25 year term	[Note 18]	[Note 19]	[Note 20]
	10 year term	[Note 18]	[Note 19]	[Note 20]

**Table 2 - Commission if you invest a lump sum [Notes 12-17]**

Products	Example term or age	Comparison of costs		Example based on £10 000 lump sum
		Our maximum	Market average	<i>This shows the maximum costs of our sales and advice for a lump sum investment of £10 000, ignoring any changes in fund value</i>
<b>Savings and investments</b>				
<b>Collective investments (eg unit trusts)</b>	Any	[Note 18]	[Note 19]	[Note 20]
<b>Investment bond</b>	Any	[Note 18]	[Note 19]	[Note 20]
<b>Saving for retirement</b>				
<b>Personal and Stakeholder pensions</b>	Any	[Note 18]	[Note 19]	[Note 20]
<b>At retirement</b>				
<b>Annuities</b>	Any	[Note 18]	[Note 19]	[Note 20]
<b>Income drawdown</b>	Any	[Note 18]	[Note 19]	[Note 20]

**Notes:**

1. The market average figures are calculated by the FSA using actual data from a representative sample of regulated firms and are shown in a way that you may compare with our own maximum rates. The market average figures will be updated by the FSA from time to time based on new data.
2. Where a firm sells its own products it must calculate its figures according to FSA guidelines. [Note 21]

**5. Further information [Note 22]**

If you need any more help or information

Principal/Director/Partner	<b>£150-200 per hour</b>
Financial adviser	<b>£100-150 per hour</b>
Administration	<b>£25 per hour</b>

You may ask us for an estimate of how much in total we might charge. You may also ask us not to exceed a given amount without checking with you first. [Note 9]

### If you choose the combination of commission and fee option [Note 11]

We will charge you a combination of fees and commission. The actual amounts will depend on the service provided to you, but will not exceed the total of the maximum fees set out above and the maximum commission set out in the tables below.

### If you choose the commission option

Tables 1 and 2 show examples of the amounts of commission we could receive (or the equivalent we earn through product charges) and compare those amounts with the market average (see notes 1 & 2 at the end of this section 4).

The amounts vary according to: the type of product, the amount you invest, and (sometimes) how long you invest for, or your age when you start the product. We will confirm the actual amount to you before you buy a product.

**Table 1 - Commission if you invest monthly [Notes 12- 17]**

Products	Example term or age	Comparison of costs		Example based on £100 per month
		<i>Our maximum</i>	<i>Market average</i>	<i>This shows the maximum costs of our sales and advice for a monthly investment or premium of £100, ignoring any changes in fund value</i>
<b>Savings and investments</b>				
<b>Collective investments (eg unit trusts)</b>	Any	[Note 18]	[Note 19]	[Note 20]
<b>Endowments</b>	10 year term	[Note 18]	[Note 19]	[Note 20]
<b>Protection</b>				
<b>Whole of life assurance</b>	Age 40	[Note 18]	[Note 19]	[Note 20]
<b>Saving for retirement</b>				
<b>Personal and Stakeholder pensions</b>	25 year term	[Note 18]	[Note 19]	[Note 20]
	10 year term	[Note 18]	[Note 19]	[Note 20]

**Table 2 - Commission if you invest a lump sum [Notes 12-17]**

Products	Example term or age	Comparison of costs		Example based on £10 000 lump sum
		Our maximum	Market average	<i>This shows the maximum costs of our sales and advice for a lump sum investment of £10 000, ignoring any changes in fund value</i>
<b>Savings and investments</b>				
<b>Collective investments (eg unit trusts)</b>	Any	[Note 18]	[Note 19]	[Note 20]
<b>Investment bond</b>	Any	[Note 18]	[Note 19]	[Note 20]
<b>Saving for retirement</b>				
<b>Personal and Stakeholder pensions</b>	Any	[Note 18]	[Note 19]	[Note 20]
<b>At retirement</b>				
<b>Annuities</b>	Any	[Note 18]	[Note 19]	[Note 20]
<b>Income drawdown</b>	Any	[Note 18]	[Note 19]	[Note 20]

**Notes:**

1. The market average figures are calculated by the FSA using actual data from a representative sample of regulated firms and are shown in a way that you may compare with our own maximum rates. The market average figures will be updated by the FSA from time to time based on new data.
2. Where a firm sells its own products it must calculate its figures according to FSA guidelines. [Note 21]

**5. Further information [Note 22]**

If you need any more help or information

- ask your adviser; or
- visit [www.fsa.gov.uk/consumer](http://www.fsa.gov.uk/consumer).

[Note 23]

7. Version 6 *fee*; or combination of *commission* (or *equivalent*) and *fee* template in accordance with COB 4.3.11R.

[Note 1]

about the cost of our services

Financial Services

[Note 2]

[Note 3] Last updated [22 October 2004]

---

[ABC Financial Services plc, 123 Any Street, Some Town, ST21 7QB] [Note 4]

---

## 1. The Financial Services Authority (FSA)

The FSA is the independent regulator of financial services. It requires us to give you this document when advising on some savings and investments. You may use this information to compare value for money, to shop around and to decide which firm to use.

---

## 2. Our services [Note 5]

We offer an initial discussion (without charge) when we will describe our services more fully and explain the payment options. If you decide to go ahead, we will:

- gather and analyse personal information about you, your finances, your needs and objectives;
- recommend and discuss any action we think you should take and, with your agreement, arrange relevant investments for you.

---

## 3. What are your payment options? [Note 6a]

Not all firms charge for advice in the same way. We will discuss your payment options with you and answer any questions you have. We will not charge you anything until you have agreed how we are to be paid. **We have ticked the payment options we offer.**

**Paying by fee.** Whether you buy a product or not, you will pay us a fee for our advice and services. If we also receive commission from the product provider when you buy a product, we will pass on the full value of that commission to you in one or more ways. For example, we could reduce our fee; or reduce your product charges; or increase your investment amount; or refund the commission to you. [Note 6(b),(c),(d)]

**Paying by commission (or product charges).** If you buy a financial product, we will normally receive commission on the sale from the product provider. Although you pay nothing up front, that does not mean our service is free. You still pay us indirectly through product charges. Product charges pay for the product provider's own costs and any commission. These charges reduce the amount left for investment. If you buy direct, the product charges could be the same as when buying through an adviser, or they could be higher or lower. We will tell you how much the commission will be before you complete an investment, but you may ask for this information earlier. [Note 6(e)]

**Paying by a combination of commission and fee.** In some circumstances, we also charge a fee on top of any commission we might receive. [Note 6(f)(g)]

## 4. How much might our services cost? [Note 7] [Note 8]

### If you choose the fee option

We will agree the rate we will charge before beginning work. We will tell you if you have to pay VAT. [Note 9]

Our typical charges are: [Note 10]

Principal/Director/Partner	<b>£150-200 per hour</b>
Financial adviser	<b>£100-150 per hour</b>
Administration	<b>£25 per hour</b>

You may ask us for an estimate of how much in total we might charge. You may also ask us not to exceed a given amount without checking with you first. [Note 9]

### If you choose the combination of commission and fee option [Note 11]

We will charge you a combination of fees and commission. The actual amounts will depend on the service provided to you, but will not exceed the total of the maximum fees set out above and the maximum commission set out in the tables below.

### If you choose the commission option

Tables 1 and 2 show examples of the amounts of commission we could receive (or the equivalent we earn through product charges) and compare those amounts with the market average (see notes 1 & 2 at the end of this section 4).

The amounts vary according to: the type of product, the amount you invest, and (sometimes) how long you invest for, or your age when you start the product. We will confirm the actual amount to you before you buy a product.

**Table 1 - Commission if you invest monthly [Notes 12- 17]**

Products	Example term or age	Comparison of costs		Example based on £100 per month
		<i>Our maximum</i>	<i>Market average</i>	<i>This shows the maximum costs of our sales and advice for a monthly investment or premium of £100, ignoring any changes in fund value</i>

<b>Income drawdown</b>	Any	[Note 18]	[Note 19]	[Note 20]

**Notes:**

1. The market average figures are calculated by the FSA using actual data from a representative sample of regulated firms and are shown in a way that you may compare with our own maximum rates. The market average figures will be updated by the FSA from time to time based on new data.
2. Where a firm sells its own products it must calculate its figures according to FSA guidelines. [Note 21]

**5. Further information** [Note 22]

If you need any more help or information

- ask your adviser; or
- visit [www.fsa.gov.uk/consumer](http://www.fsa.gov.uk/consumer).

[Note 23]

[Note 3] Last updated [22 October 2004]

The following Notes do not form part of the template.

- Note 1 The 'keyfacts' logo and the text "about the cost of our services" must be positioned as illustrated in the templates. The logo may be resized and re-coloured, but the size and colour must be prominent and its proportions must not be distorted.
- Note 2 Insert the name of the *firm* or its *appointed representative* (which in either case may be its *authorised* name or its trading name). A corporate logo or logos may also be included, where illustrated, but must be of equal prominence to 'keyfacts' logo. Where an *appointed representative* is providing the *fees and commission statement*, then the *appointed representative's* name must be inserted. An appointed representative may include its logo, but this must be in place of, and not in addition to, its principal's logo.
- Note 3 Insert the date on which the *fees and commission statement* was prepared or last amended, in accordance with COB 4.3.11R(3). This date may be shown either at the top of the front page of the *fees and commission statement* or at the end of the *fees and commission statement* after Section 5.
- Note 4 Insert the name and address of the head office or, if more appropriate, the principal place of business from where the *firm* or *appointed representative* expects to provide *advice on investments* to *private customers* on *packaged products*. The name and address of the *authorised firm* must not be included if the *fees and commission statement* is to be given by an *appointed representative*, which must insert its own address.

## Section 2

- Note 5 The text in Section 2 is not prescribed, but *firms* may adopt a form of the wording shown. *Firms* must describe the services they offer relating to *packaged products* in their own words, concisely, in plain language and within the space indicated in the template. This description must make clear that the initial discussion (not necessarily the initial meeting) about whether the *customer* wishes to use any of the *firm's* services will be without charge. A *firm* may choose to start charging (if appropriate) for the remainder of any or meeting, but only after any discussion on the content of the *fees and commission statement* has been concluded.

## Section 3

- Note 6
- (a) A *firm* must select, by inserting a tick, the appropriate boxes which show the service that the *firm* expects to provide to the *customer*. If the *fees and commission statement* is provided by an *appointed representative*, the service selected must be that offered by the *appointed representative*. The text in this Section 3 of the *fees and commission statement* is prescribed, except as indicated in Note 6(d) and (g) below.
  - (b) The "Paying by fee" option must be included in each *fees and commission statement* even if the *firm* is not offering a purely *fee* based option - in which case, the box and prescribed text must be included, but without a tick.

- (c) A *firm* which holds itself out as acting independently in the provision of *advice on investments on packaged products* must, in accordance with COB 5.1.11AR (1), offer a *private customer* the "Paying by fee" option.
- (d) A *firm* which offers a "contingent" *fee* based option (see COB 5.1.11BG(3)) must modify the wording by the "Paying by fee" option to explain (clearly and in plain language) how the contingent *fee* arrangement will operate. A *firm* could use the following example description: "If you buy a financial product, you will pay us a fee for our advice and services. But if no sale is made, you will not have to pay us anything."
- (e) The "Paying by commission (or product charges)" option must be included in each *fees and commission statement* even if the *firm* is not offering this option - in which case, the box and the prescribed text must be included, but without a tick. In this option, reference to "commission" means *commission* and *commission equivalent*.
- (f) A *firm* may only include the "Paying by a combination of commission and fee" option in the *fees and commission statement* where this option is actually offered to the *customer* to whom the *fees and commission statement* is given.
- (g) The text that accompanies the "Paying by a combination of commission and fee" option is not prescribed. However, a *firm* must insert a clear plain language description of how its maximum remuneration is calculated using both the *fee* and the *commission* information provided in Section 4 of the *fees and commission statement*.

## Section 4

- Note 7 In this section 4, if a *firm* offers both payment options to the *customer* to whom the *fees and commission statement* is given, then it must include the prescribed headings ("If you choose the fee option" and "If you choose the commission option") and accompanying text relating to both options. If either *fees* or *commission* are not offered, then the prescribed headings and text for whichever option is not offered should not be included in this section.
- Note 8 A *firm* which provides the "Paying by a combination of commission and fee" option must: (i) set out its maximum *fee* amount in the fee section of Section 4, and set out its maximum *commission* (or *equivalent*) amount in the commission section of Section 4; (ii) and ensure that the maximum amount of *fee* and *commission* (or *equivalent*) does not exceed the total of both options.

## Section 4 - Fees

Note 9 If a *fees and commission statement* contains information relating to *fees*, then a *firm* must ensure that the following statements are included:

1. "We will agree the rate we will charge before beginning work. We will tell you if you have to pay VAT."
2. "You may ask us for an estimate of how much in total we might charge. You may also ask us not to exceed a given amount without checking with you first."

Note 10 The text for describing a *firm's fee* charging arrangements is not prescribed, but must be clear and in plain language. A *firm* must provide numerical statements of the amount or rate of its *fees* and these must be expressed in pounds sterling or another appropriate currency, where relevant. Examples of statements which *firms* may use are:

### Hourly Rate

We will agree the rate we will charge before beginning work. Our typical charges are:

Principal/Director/Partner	£00-000 per hour
Financial adviser	£00-000 per hour
Administration	£00 per hour

Your adviser will tell you if you have to pay VAT.

### Lump Sum

We will agree what we will charge you before beginning work. Our typical charges are:

Individual financial review £00

Your adviser will tell you if you have to pay VAT.

### Percentage of funds under management

We will agree what we will charge you before beginning work. Our typical charges are:

Investment management agreement  
0% per year of the value of the investments you ask us to manage  
Your adviser will tell you if you have to pay VAT.

## Section 4 – Combination of commission (or equivalent) and fee

Note 11 If a *fees and commission statement* contains information relating to the combination of *commission* (or *equivalent*) and *fees*, then a *firm* must ensure that the maximum amount of *fee* and *commission* (or *equivalent*) does not exceed the total of both the fee and commission options. The maximum fee amount that a *firm* might charge must be set out in the fee section, and the maximum commission (or equivalent) amount must be set out in the commission section.

The text for describing a *firm's* charging arrangements where a *firm* offers the combination of *commission* (or *equivalent*) and *fees* option is not prescribed, but a *firm* must describe correctly (clearly and in plain language) its usual way of charging a combination of *fee* and *commission*. *Firms* may use a form of the wording set out in the following examples:

1. Where we charge a combination of fees and commission, our maximum rates are set out in the fee information section above and the commission section below.
2. We charge a consultation fee of up to £x, and, if you buy a financial product, we will also retain commission within the amounts set out in the commission tables below.
3. We will charge you a combination of fees and commission. The actual amounts will depend on the service provided to you, but will not exceed the total of the maximum fees set out above and the maximum commission set out in the tables below.
4. We charge an annual fee as described in the fee information set out above. If we arrange for you to purchase a financial product, then we will also retain commission which will be within the maximum commission amounts set out in the tables below.

## Section 4 – Commission (or equivalent)

Note 12 If a *fees and commission statement* contains information relating to *commission*, then a *firm* must set out information concerning *commission* (or *equivalent*) in the tabular format prescribed. The headings for Tables 1 and Table 2; the headings and sub-headings for each column; the product headings in each row of the first column; and the example term and age set out in the second column of each table are all prescribed and must not be amended.

Note 13 Each *fees and commission statement* must refer to the range of packaged products which the *firm* expects to be relevant for the particular *customer* or group of *customers* to whom the *fees and commission statement* is likely to be given. Where this stated range does not contain a product that is included in the templates, then a *firm* may delete the appropriate product row from the tables in its *fees and commission statement*.

Note 14 The text and information contained in the commission section of Section 4 must be included if a *firm* reasonably expects to provide those services to a *private customer* receiving the *fees and commission statement* in respect of any of the following product groups.

### Regular contribution business

The following product groups relate to regular contribution investments (including annual and quarterly premium contracts) and includes any non-contractual top-ups or increments (to existing regular contribution investments) which generate *commission (or equivalent)*.

(a) Collective investments

*Any regulated collective investment scheme or investment trust savings scheme.*

(b) Endowments

*A life policy that pays a sum of money on the survival of the life assured to a specific date or, if earlier, on death.*

(c) Whole of life assurance

*A life policy which, disregarding any benefit payable on surrender, secures a capital sum only on death or either on death or on disability, but does not include term assurance.*

(d) Personal and stakeholder pensions

*Any personal pension scheme, FSAVC scheme or stakeholder pension scheme (other than a group personal pension scheme or stakeholder pension scheme arranged on a group basis for the employees of a particular employer).*

### Lump sum business

*The following product groups relate to single contribution business, including commission (or equivalent) generating, non-contractual, top-ups or increments to existing lump sum investments.*

(a) Collective investments

*Any regulated collective investment scheme.*

(b) Investment bond

*A single premium whole of life assurance policy or endowment policy.*

(c) Personal and stakeholder pensions

*Any personal pension scheme, FSAVC scheme or stakeholder pension scheme (other than a group personal pension scheme or stakeholder pension scheme arranged on a group basis for the employees of a particular employer).*

(d) Annuities

*A pension annuity or purchased life annuity.*

(e) Income drawdown

*A pension contract effected for the purpose of income withdrawal from a pension fund.*

- Note 15 A *firm* which conducts business with *private customers* in relation to any *packaged products* not falling within any of the product groups may provide a *customer* with information about *commission* (or *equivalent*) relating to that business by way of a separate annex. For the purpose of the *rules*, any such information does not form part of a *firm's fees and commission statement*.
- Note 16 Having regard to the nature of the business which a *firm* reasonably expects to conduct with the *customers* to whom the *fees and commission statement* will be provided, a *firm* must (i) present information about *commission* receivable on regular monthly payments in accordance with Table 1; and (ii) present information about *commission* receivable on lump sums in accordance with Table 2. The information must be presented in the two separate but sequential Tables 1 and 2.
- Note 17 Where a *firm* reasonably expects not to conduct either regular contribution or lump sum business with the *customers* to whom the *fees and commission statement* will be provided, it may exclude the relevant table so that its *fees and commission statement* contains only the table relevant to the type of business it expects to conduct.
- Note 18 For each product group shown a *firm* must disclose the maximum amount or rate of *commission* (or *equivalent*) where applicable under COB 5.7.5R which it reasonably expects it would retain in respect of the sale of a *packaged product* falling within the product group. The maximum rate or amount must be ascertained in accordance with the procedure set out in COB 4 Annex 7R.
- Note 19 For each product group shown a *firm* must disclose the corresponding market average calculated and published by the FSA and in accordance with the procedure set out in COB 4 Annex 7R.
- Note 20 For each product group illustrated a *firm* must include an example in accordance with COB 4 Annex 7R.
- Note 21 The two notes shown at the end of Section 4 of the *fees and commission statement* are prescribed.

## **Section 5**

- Note 22 The text in section 5 is prescribed.
- Note 23 An example of a completed *fees and commission statement* is shown at COB 4 Annex 9 G.

## COB 4 Annex 7 R

### Identifying and describing the maximum rate of commission (or equivalent), the market average and the Example

1. A *firm* must state in each *fees and commission statement* it issues:
  - (a) its maximum rate of *commission (or equivalent)* for each product group in the statement;
  - (b) the market average rate for each product group;
  - (c) an illustration in the example column of an amount of *commission (or equivalent)* calculated by reference to its maximum rate for each product group in the statement and the example contribution levels stated in the tables (ie eg £100 per month or £10,000 lump sum).

### Maximum rate of commission (or equivalent)

2. The maximum rate of *commission (or equivalent)* specified by a *firm* must be the maximum amount that the firm decides to retain.
3. If the maximum *commission (or equivalent)* is not apparent from the rates supplied by a *product provider* then a *firm* must adopt the net present value comparison method set out below.
4. For any product group, the maximum rate of *commission (or equivalent)* must not be more than a *firm* could reasonably expect to receive from any *product provider*.

### Identifying a maximum rate of commission – comparison of net present value

5. A *firm* must use the assumptions set out in paragraphs 8-12 below when calculating the maximum commission figures to be inserted into its *fees and commission statement*. Where a *firm* uses a tool provided by the FSA for this express purpose (for example a calculator provided by the FSA on a cd-rom for the purpose of calculating the maximum commission figures), the calculations can be presumed to have used these assumptions.
6. The net present value for each *commission (or equivalent)* rate must be calculated as the sum of the discounted values of each *commission (or equivalent)* payment that the *firm* may retain for that *commission (or equivalent)* rate, using the assumptions set out in paragraphs 8-12 below.
7. For any product group, the *firm's* maximum rate of *commission (or equivalent)* is the *commission (or equivalent)* rate in that product group with the highest net present value.
8. A *firm* must use the assumptions outlined in Table 1 when calculating net present values.

COB 4 Annex 7 R Table 1 Table of assumptions to be used in calculating net present values.

<b>Product</b>	<b>a) Discount Rate</b>	<b>b) Net growth rate</b>	<b>c) Lapse rate (per annum)</b>	<b>d) Assumed Term</b>	<b>e) Withdrawal rate (per annum)</b>
<b>Regular premiums/contributions</b>					
<b>Collective investment scheme</b>	Net growth rate + 3%	6%	6%	10 years	
<b>Endowment</b>	Net growth rate + 3%	6%	6%	Maturity	
<b>Personal Pensions / SHP</b>	Net growth rate + 3%	6%	12% for 5 years then 5%	Maturity	
<b>Whole of Life</b>	Net growth rate + 3%	6%	6%	37 years	
<b>Single premiums/contributions</b>					
<b>Annuities</b>	Net growth rate + 3%	6%	0%	16 years	
<b>Bonds</b>	Net growth rate + 3%	6%	2.5%	7 years	5%
<b>Collective investment scheme</b>	Net growth rate + 3%	6%	6%	7 years	
<b>Personal Pensions / SHP</b>	Net growth rate + 3%	6%	2.5%	10 years	
<b>Income withdrawals</b>	Net growth rate + 3%	6%	0%	10 years	6%

9. *Commission (or equivalent)* payments must be assumed to be payable as outlined in COB 4 Annex 7 R Table 2

COB 4 Annex 7 R Table 2 – The timing of *commission (or equivalent)* payments

<b>Type of commission (or equivalent payment)</b>	<b>When payable</b>
Initial / indemnified commission	immediately at outset of the contract
Commission as a % of premiums	at the time of payment of the relevant monthly premium
Commission as a % of fund value	at the end of each policy month, immediately after any withdrawals and lapses, at a monthly rate of 1/12 <sup>th</sup> of the annual % of the fund value

10. Withdrawals must be assumed to occur monthly at a rate that is 1/12th of the assumed annual withdrawal rate.
11. Lapses must be assumed to occur monthly, at a rate that is 1/12<sup>th</sup> of the assumed annual lapse rate. In calculating the net present value, no commission should be assumed to be payable on the proportion of policies that are assumed to have lapsed.
12. Mortality rates must be ignored.

**Describing the maximum rate of commission (or equivalent)**

13. Subject to paragraph 14, a *firm* must use each appropriate description in COB 4 Annex 7 R Table 3 (ie one or more) to describe the maximum rates of *commission (or equivalent)* in its *fees and commission statement*.

COB 4 Annex 7 R Table 3

Type of commission (or equivalent)	Descriptions
Regular premium or contributions	i. "X% of the first 12 month's payments" ii. "X % of each of the first n month's payments" iii. "Y% of all payments" iv. "Y% of all payments from month p" v. "Z% of your fund value each year from year q".
Lump sums	i. "X% of the amount you invest" ii. "Z% of your fund value each year from year q"

14. A *firm* must adapt any of the descriptions prescribed by Tables 3 so that its *fees and commission statements* adequately describe the particular characteristics of a *firm's commission (or equivalent)* arrangements. For example, a *firm* can and should re-express the percentage figure, in the description taken from Table 3, in a "shape" (that is a description of the pattern of payments) that it considers to be typical of the way in which it retains *commission (or equivalent)*. This may differ from the shape in which the particular maximum rate of *commission (or equivalent)* is actually payable. Another example of the way in which a *firm* should adapt the descriptions in Table 3 is if the *commission* received by a *firm* is payable as a fixed cash amount per policy then alternative wording should be used by the *firm* to adequately describe the fixed nature of the payment in its description of the rate of commission.
15. A *firm* that uses more than one of the descriptions in COB 4 Annex 7 R Table 3 must make it clear that it has used more than one description (eg by inserting the word "plus" in between each description).
16. The maximum rate of *commission (or equivalent)* must be rounded to the nearest 0.1% unless the *commission (or equivalent)* is a multiple of 0.25% of a fund value in which case it should be shown rounded to the nearest 0.25%.

## Identifying and describing the market average

17. The *FSA* will publish the net present value of market average rates on its website from time to time.
18. A *firm* must express the market average rate in the shape or pattern of payments which most closely corresponds to the number, frequency and nature of payments in the shape or pattern of payments used to describe the firm's maximum *commission* (or *equivalent*).
19. A *firm* can use any suitable tool or method to re-express the market average in its *fees and commission statements*, as long as that method uses the assumptions set out in 8 - 12 above (for example a calculator contained on a cd-rom of the type referred to in paragraph 5).
20. The market average rate shown in the *fees and commission statement* must be a re-expression of the published net present value of the market average using the assumptions set out in 8 – 12 above. Subject to any rounding in the final description, this re-expression should have the same net present value as the published market average.
21. A *firm* must describe the market average rate using the most appropriate description in the Descriptions column in Table 3.

The market average may be equivalently expressed by adopting the method set out in the worked example in *COB 4 Annex 9 G* below, used in conjunction with tables of net present value factors that will be made available by the *FSA*. These factors will be calculated using the assumptions set out above. Alternatively, the market average expression may be expressed using such other tools, systems or methods as the *FSA* may make available from time to time.

## Changes in the market average

22. A *firm* must ensure that its *fees and commission statements* are revised to take account of changes in the market average rates published by the *FSA* by not later than:
  - (a) 2 months from the date on which the *FSA* prescribes amended market average rates if the effect of the amendment is to reduce any of the averages for a relevant product group by 4% or more of the previous average; and
  - (b) in all other cases at such time as the *firm* has occasion to revise its *statements*.

## The example

23. Subject to paragraph 26, a *firm* must use, in the example in its *fees and commission statement*, the description in Table 4 that corresponds to description(s) of the maximum rate of the *commission* (or *equivalent*) that appears in its *fees and commission statement*.

COB 4 Annex 7 R Table 4

Type of <i>commission</i> (or <i>equivalent</i> )	Description of the maximum rate of <i>commission</i> (or <i>equivalent</i> )	Corresponding description to be used in the example
Regular premium or contributions	i. "X% of the first 12 month's payments"	i. "£X initially"
	ii. "X % of each of the first n month's payments"	ii. "£X spread evenly over the first n months"
	iii. "Y% of all payments"	iii. "£Y each year"
	iv. "Y% of all payments from month p"	iv. "£Y each year from month p"
	v. "Z% of your fund value each year from year q".	v. "£Z in year p, £Z + A in year p + 1, and so on (the actual amounts will vary in line with your fund value)"
Lump sums	i. "X% of the amount you invest"	"£X initially"
	ii. "Z% of your fund value each year from year q"	"£Z each year from year p (The actual amounts will vary in line with your fund value)"

24. A *firm* that uses more than one of the descriptions in Table 4 must make it clear that it has used more than one description (eg by inserting the word "plus" in between each description).
25. A *firm* must adapt any of the descriptions prescribed by Tables 3 and 4 as are necessary to ensure that a *fees and commission statement* adequately describes the particular characteristics of a *firm's commission (or equivalent)* arrangement. Examples of the way in which the descriptions could be adapted are provided in paragraph 14 above.

## COB 4 Annex 8 G

### Calculation of a maximum rate of commission

1. The net present value of each *commission* (or *equivalent*) rate may be calculated by adopting the method set out in the worked example below, used in conjunction with tables of sample net present value factors issued by the *FSA*. These factors will be calculated using the assumptions set out in paragraphs 8 to 12 of *COB 4 Annex 7 R*.

### Worked Example of Commission Disclosure in a *fees and commission statement*

2. For the purposes of the following worked example four variations of *commission* (or *equivalent*) are shown for an investment bond. The market averages and NPV factors are purely illustrative.

A *firm* has commission arrangements for the sale of investment bonds with five *product providers* involving all four variations. The *firm* retains all commissions from each provider. The arrangements are:

Provider	Provider Commission		
	Initial	% of fund value	Fund based start month
1	5.25%	-	-
2	4.5%	-	-
3	-	0.75%	13
4	3.0%	0.5%	1
5	3.5%	0.25%	1

### Stage 1 - Comparison of net present value

The *firm* has to decide which provider pays "our maximum". The test is to calculate the net present value of the different commissions using the assumptions prescribed by the *FSA*. To do this, the method in form 1b below is used. The *firm* needs to look up the table of NPV factors which shall be made available by the *FSA*. Looking these up, and completing the form as follows gives:

Product group	Investment Bonds						
	Initial Commission			Fund Based Renewal / Trail Commission			Total NPV
	Commission Rate	NPV Factor	Value = Rate x Factor	Commission Rate (& Start Month)	NPV Factor	Value= Rate x Factor	
	A	B	$C = A \times B$	J	K	$L = J \times K$	
1	5.25%	1.00	5.25%	-	-	-	5.25%
2	4.5%	1.00	4.5%	-	-	-	4.5%
3	-	1.00	-	0.75% from month 13	3.997	2.98%	2.98%
4	3.0%	1.00	3.0%	0.5% from month 1	4.943	2.47%	5.47%
5	3.5%	1.00	3.5%	0.25% from month 1	4.943	1.24%	4.74%

So commission shape 4 has the highest net present value and is thus "our maximum".

### Stage 2 – Worked example

An example is calculated by applying "our maximum" rates to the prescribed lump sum or monthly amounts. £10000 in this case gives "£300 immediately plus £50 each year from year 1".

### Stage 3 – Market Average

"The market average" is the market average rate published by the *FSA* expressed in the shape that most corresponds to the shape of "our maximum". To do this, the method used in form 2 below is used. The *firm* needs to look up the table of NPV factors and the table of market average NPVs prescribed by the *FSA*. Looking these up, and completing the form as follows gives:

Form 1 (Worked Example)

Product group		Investment Bond						
Market Average NPV		5.0%						
		Fund Based Renewal / Trail Commission		Premium Based Renewal Commission		Spread initial / Non-Indemnified Commission		Initial / Indemnified Commission
		Commission rate	Start month	Commission rate	Start month	Commission rate	Spread period	Commission rate
Commission Shape of your maximum	A	0.5%	Month 1	-	-	-	-	3.0%
NPV Factor	B	4.943		-		-		1.000
Value of Commission Shape	C = A x B	2.47%		-		-		3.0%
Value of market average - Fund Based Commission	D1 – see notes	2.47%						
Value of market average – Premium Based Commission	D2 – see notes			-				
Value of market average - Spread Initial Commission	D3 – see notes					-		
Value of market average - Initial Commission	D4 – see notes							5.0% - 2.47% = 2.53%
Market Average Commission Shape	E = D ÷ B	2.47% / 4.943 = 0.5% from month 1		-		-		2.53% / 1.000 = 2.5%

Therefore the market average, expressed in the shape that most closely resembles "our maximum" is 2.5% of the lump sum plus 0.5% of the fund from month 1

#### Stage 4

Enter the appropriate figures in the fees and commission statement as shown below.

Lump sum products	Example term or age	Comparison of costs		Example based on £10,000 lump sum
		<i>Our maximum</i>	<i>Market average</i>	<i>This shows the maximum costs of our sales and advice for a lump sum investment of £10,000 ignoring any changes to fund value</i>
<b>Savings and investments</b>				
<b>Investment bond</b>	Any	<b>3.0%</b> of the amount you invest plus <b>0.5%</b> of your fund value each year from year 1	<b>2.5%</b> of the amount you invest plus <b>0.5%</b> of your fund value each year from year 1	<b>£300</b> in year 1 plus <b>£50</b> each year from year 1 (The actual amount will vary in line with your fund)

**Form 1a – Calculation of Maximum Commission Amounts (Monthly Premium Products)**

This form should be used to help decide which of the commission options received for a product group in the "monthly products" table should appear as "our maximum" on the *fees and commission statement*.

<b>Product group</b>													
	<b>Initial / Indemnified Commission</b>			<b>Spread Initial Commission</b>			<b>Premium Based Renewal Commission</b>			<b>Fund Based Renewal / Trail Commission</b>			<b>Total NPV</b>
	<b>Commission Rate</b>	<b>NPV Factor</b>	<b>Value = Rate x Factor</b>	<b>Commission Rate (&amp; Spread Period)</b>	<b>NPV Factor</b>	<b>Value= Rate x Factor</b>	<b>Commission Rate (&amp; Start Month)</b>	<b>NPV Factor</b>	<b>Value= Rate x Factor</b>	<b>Commission Rate (&amp; Start Month)</b>	<b>NPV Factor</b>	<b>Value= Rate x Factor</b>	
A	B	C = A x B	D	E	F = D x E	G	H	I = G x H	J	K	L = J x K	M = C + F + I + L	
1		1.00											
2		1.00											
3		1.00											
4		1.00											
5		1.00											
6		1.00											
7		1.00											
8		1.00											

***The maximum rate of commission for this product group is the shape with the highest Total NPV (column M).  
This maximum rate of commission should be included in the fees and commission statement for this product group***

## Notes for completion of form 1a

1. A separate form should be completed for all monthly product groupings appearing on the *fees and commission statement*.
2. Complete a separate row for each potential maximum commission shape that you receive in the chosen product group.
3. Commission shapes that are clearly lower in value than others of the same shape should be omitted – for example, 15% initial + 0.5% fund based paid from month 12 is clearly lower than 20% initial + 0.5% fund based paid from month 12, and so only the latter needs to be included in the calculations.
4. Commission rates used should be the highest rates of the total commission payable that you may retain;
5. Commission rates should be entered for each commission type as follows:
  - Column A (Initial/Indemnified) - a percentage of the first 12 months' premiums;
  - Column D (Spread Initial/Non-Indemnified Initial) – a percentage of each premium paid in the initial commission period;
  - Column I (Premium based renewal) – a percentage of each premium paid in the renewal period;
  - Column L (Fund Based renewal/trail) – a percentage of the fund value each year.
6. Level commissions, payable as a percentage of all monthly premiums, should be treated as premium-based renewal commissions.
7. The relevant NPV Factors in columns B, E, H & K should be inserted for the relevant Product Group, Commission Type, Spread Period and Start Month. They can be obtained from the document "Published NPV Factors".
8. Columns C, F, I, L & M should be calculated based on the figures inserted in the previous columns.
9. The commission shape which has the highest total NPV in column M should be used in the "Our Maximum" section of the *fees and commission statement*.

**Form 1b – Calculation of Maximum Commission Amounts (Lump Sum Products)**

This form should be used to help decide which of the commission options received for a product group in the "lump sum products" table should appear as "our maximum" on the *fees and commission statement*.

Product group							
	Initial Commission			Fund Based Renewal / Trail Commission			Total NPV
	Commission Rate	NPV Factor	Value = Rate x Factor	Commission Rate (& Start Month)	NPV Factor	Value= Rate x Factor	
	A	B	C = A x B	J	K	L = J x K	
		1.00					
2		1.00					
3		1.00					
4		1.00					
5		1.00					
6		1.00					
7		1.00					
8		1.00					

***The maximum rate of commission for this product group is the shape with the highest Total NPV (column M). This maximum rate of commission should be included in the fees and commission statement for this product group***

### Notes for completion of form 1b

1. A separate form should be completed for all lump sum products appearing on the *fees and commission statement*.
2. Complete a separate row for each potential maximum commission shape that you receive in the chosen product group.
3. Commission shapes that are clearly lower in value than others of the same shape should be omitted – for example, 15% initial + 0.5% fund based paid from month 12 is clearly lower than 20% initial + 0.5% fund based paid from month 12, and so only the latter needs to be included in the calculations.
4. Commission rates used should be the highest rates of the total commission payable that you may retain.
5. Commission rates should be entered for each commission type as follows:
  - Column A (Initial) - a percentage of the lump sum payment;
  - Column J (Fund Based renewal/trail) – a percentage of the fund value each year.
6. The relevant NPV Factors in columns B & K should be inserted for the relevant Product Group, Commission Type and Start Month. They can be viewed in the document "Published NPV Factors".
7. Columns C, L & M should be calculated based on the figures inserted in the previous columns.
8. The commission shape which has the highest total NPV in column M should be used in the "Our Maximum" section of the *fees and commission statement*.

**Form 2 – Re-expression of market average commission**

This form should be used to re-express the market average NPV into the relevant shape, for use in the *fees and commission statement*.

Product group								
Market Average NPV								
		Fund Based Renewal / Trail Commission		Premium Based Renewal Commission		Spread initial / Non-Indemnified Commission		Initial / Indemnified Commission
		Commission rate	Start month	Commission rate	Start month	Commission rate	Spread period	Commission rate
Commission Shape of your maximum	A							
NPV Factor	B							
Value of Commission Shape	C = A x B							
Value of market average - Fund Based Commission	D1 – see notes							
Value of market average – Premium Based Commission	D2 – see notes							
Value of market average - Spread Initial Commission	D3 – see notes							
Value of market average - Initial Commission	D4 – see notes							
Market Average Commission Shape	E = D ÷ B							

## Notes for completion of form 2

1. A separate form should be completed for each product group appearing on your fees and commission statement;
2. The Market Average NPV should be obtained from the FSA's most recent published list of market averages, choosing the appropriate rate for the relevant product group.
3. In row A, enter the details of the commission shape that the market average is to be expressed in. This should be the commission shape shown as "your maximum" for the relevant product group in your fees and commission statement.
4. Commission rates should be entered for each commission type as follows:
  - Fund Based renewal/trail – a percentage of the fund value each year;
  - Premium based renewal – a percentage of each premium paid in the renewal period;
  - Spread Initial/Non-Indemnified Initial – a percentage of each premium paid in the initial commission period;
  - Initial/Indemnified - a percentage of the first 12 months' premiums, or a percentage of the lump sum, as appropriate.
5. Level commissions, payable as a percentage of all monthly premiums, should be treated as premium-based renewal commissions.
6. Where "your maximum" commission does not contain a commission type (e.g. your maximum has no spread initial commission), the column relating to that commission type should be left blank.
7. The relevant NPV Factors in row B should be inserted for the relevant Product Group, Commission Type, Spread Period and Start Month. They can be obtained from the document "Published NPV Factors".
8. Row C should be calculated as the product of the relevant commission rate in row A and the NPV factor in row B.
9. Row D1 should be calculated as the lower of:
  - the Market Average NPV, and
  - Row C - The Value of Commission Shape for the **fund based commission** type (but see the note below)

**Note:** If the commission shape in row A contains no premium-based, spread initial or initial/indemnified commission (i.e. if fund based commission is the final commission type being considered) then the calculation in row C should be ignored when calculating D1. In this instance, the value in D1 should be equal to:

- the Market Average NPV

10. Row D2 should be calculated as the lower of:

- The Market Average NPV minus the value calculated for row D1; and
- Row C – The Value of Commission Shape for the **premium based commission** type (but see note below).

If this calculation gives a negative value, D2 should be set to zero.

**Note:** If the commission shape in row A contains no spread initial or initial/indemnified commission (i.e. if premium-based commission is the final commission type being considered) then the calculation in row C should be ignored when calculating D2. In this instance, the value in D2 should be equal to:

- The Market Average NPV minus the value calculated for row D1.

11. Row D3 should be calculated as the lower of:

- The Market Average NPV minus the value calculated for row D1,  
minus the value calculated for row D2, and
- Row C – The Value of Commission Shape for the **spread initial / non-indemnified commission** type (but see note below).

If this calculation gives a negative value, D2 should be set to zero.

**Note:** If the commission shape in row A contains no initial/indemnified commission (i.e. if premium-based commission is the final commission type being considered) then the calculation in row C should be ignored when calculating D3. In this instance, the value in D3 should be equal to:

- The Market Average NPV minus the value calculated for row D1, minus the value calculated for row D2.

12. Row D4 should be calculated as:

- The Market Average NPV minus the value calculated for row D1, minus the value calculated for row D2, minus the value calculated for row D3.

If this calculation gives a negative value, D4 should be set to zero.

13. Row E should be calculated as the value in the relevant row D (for that commission type, e.g. row D2 for premium based renewal commission) divided by the relevant NPV factor in row B. For presentation in the *fees and commission statement*, this result should be rounded to the nearest 0.1% (or the nearest 0.25%, if fund-based commission is paid as an exact multiple of this).

**keyfacts** about the cost of our services **ABC plc**  
Financial Services

Last updated 22 October 2004

---

ABC Financial Services plc, 123 Any Street, Some Town, ST21 7QB

---

## 1. The Financial Services Authority (FSA)

The FSA is the independent regulator of financial services. It requires us to give you this document when advising on some savings and investments. You may use this information to compare value for money, to shop around and to decide which firm to use.

---

## 2. Our services

We offer an initial discussion (without charge) when we will describe our services more fully and explain the payment options. If you decide to go ahead, we will:

- gather and analyse personal information about you, your finances, your needs and objectives;
  - recommend and discuss any action we think you should take and, with your agreement, arrange relevant investments for you.
- 

## 3. What are your payment options

Not all firms charge for advice in the same way. We will discuss your payment options with you and answer any questions you have. We will not charge you anything until you have agreed how we are to be paid. **We have ticked the payment options we offer.**

**Paying by fee.** Whether you buy a product or not, you will pay us a fee for our advice and services. If we also receive commission from the product provider when you buy a product, we will pass on the full value of that commission to you in one or more ways. For example, we could reduce our fee; or reduce your product charges; or increase your investment amount; or refund the commission to you.

**Paying by commission (or product charges).** If you buy a financial product, we will normally receive commission on the sale from the product provider. Although you pay nothing up front, that does not mean our service is free. You still pay us indirectly through product charges. Product charges pay for the product provider's own costs and any commission. These charges reduce the amount left for investment. If you buy direct, the product charges could be the same as when buying through an adviser, or they could be higher or lower. We will tell you how much the commission will be before you complete an investment, but you may ask for this information earlier.

## 4. How much might our services cost?

### If you choose the fee option

We will agree the rate we will charge before beginning work. We will tell you if you have to pay VAT.

Our typical charges are:

Principal/Director/Partner	<b>£150-200 per hour</b>
Financial adviser	<b>£100-150 per hour</b>
Administration	<b>£25 per hour</b>

You may ask us for an estimate of how much in total we might charge. You may also ask us not to exceed a given amount without checking with you first.

### If you choose the commission option

Tables 1 and 2 show examples of the amounts of commission we could receive (or the equivalent we earn through product charges) and compare those amounts with the market average (see notes 1 & 2 at the end of this section 4).

The amounts vary according to: the type of product, the amount you invest, and (sometimes) how long you invest for, or your age when you start the product. We will confirm the actual amount to you before you buy a product.

**Table 1 - Commission if you invest monthly**

Products	Example term or age	Comparison of costs		Example based on £100 per month
		<i>Our maximum</i>	<i>Market average</i>	<i>This shows the maximum costs of our sales and advice for a monthly investment or premium of £100, ignoring any changes in fund value</i>
<b>Savings and investments</b>				
<b>Collective investments (eg unit trusts)</b>	Any	5% of all payments	5.5% of all payments	£60.00 each year
<b>Endowments</b>	10 year term	30% of each of the first 16 month's payments plus 2.5% of all payments from month 17	25.9% of each of the first 16 month's payments plus 2.5% of all payments from month 17	£360.00 spread evenly over the first 16 months plus £30.00 each year from month 17
<b>Protection</b>				
<b>Whole of life assurance</b>	Age 40	90% of each of the first 12 month's payments plus 2.5% of all payments from month 49	104.2% of each of the first 12 month's payments plus 2.5% of all payments from month 49	£1080.00 spread evenly over the first 12 months plus £30.00 each year from month 49
<b>Saving for retirement</b>				
<b>Personal and Stakeholder pensions</b>	25 year term	20% of each of the first 12 month's payments plus 0.25% of your fund value each year from year 1	20.9% of each of the first 12 month's payments plus 0.25% of your fund value each year from year 1	£240.00 spread evenly over the first 12 months plus £3.00 in year 1, £6.00 in year 2, and so on (The actual amount in later years will vary in line with your fund value)
	10 year term	15% of each of the first 12 month's payments plus 0.25% of your fund value each year from year 1	19.2% of each of the first 12 month's payments plus 0.25% of your fund value each year from year 1	£180.00 spread evenly over the first 12 months plus £3.00 in year 1, £6.00 in year 2, and so on (The actual amount in later years will vary in line with your fund value)

**Table 2 - Commission if you invest a lump sum**

Products	Example term or age	Comparison of costs		Example based on £10 000 lump sum
		<i>Our maximum</i>	<i>Market average</i>	<i>This shows the maximum costs of our sales and advice for a lump sum investment of £10 000, ignoring any changes in fund value</i>
<b>Savings and investments</b>				
<b>Collective investments (eg unit trusts)</b>	Any	<b>3%</b> of the amount you invest plus <b>0.25%</b> of your fund value each year from year 1	<b>2.5%</b> of the amount you invest plus <b>0.25%</b> of your fund value each year from year 1	<b>£300.00</b> initially plus <b>£25.00</b> each year from year 1 (The actual amount in later years will vary in line with your fund value)
<b>Investment bond</b>	Any	<b>7%</b> of the amount you invest	<b>5%</b> of the amount you invest	<b>£700.00</b> initially
<b>Saving for retirement</b>				
<b>Personal and Stakeholder pensions</b>	Any	<b>0.5%</b> of your fund value each year from year 1	<b>0.6%</b> of your fund value each year from year 1	<b>£50.00</b> each year from year 1 (The actual amount in later years will vary in line with your fund value)
<b>At retirement</b>				
<b>Annuities</b>	Any	<b>1.5%</b> of the amount you invest	<b>1.4%</b> of the amount you invest	<b>£150.00</b> initially
<b>Income drawdown</b>	Any	<b>3%</b> of the amount you invest plus <b>0.5%</b> of your fund value each year from year 1	<b>1.8%</b> of the amount you invest plus <b>0.5%</b> of your fund value each year from year 1	<b>£300.00</b> initially plus <b>£50.00</b> each year from year 1 (The actual amount in later years will vary in line with your fund value)

**Notes:**

1. The market average figures are calculated by the FSA using actual data from a representative sample of regulated firms and are shown in a way that you may compare with our own maximum rates. The market average figures will be updated by the FSA from time to time based on new data.
2. Where a firm sells its own products it must calculate its figures according to FSA guidelines.

---

**5. Further information**

If you need any more help or information

- ask your adviser; or
- visit [www.fsa.gov.uk/consumer](http://www.fsa.gov.uk/consumer).

Last updated 22 October 2004

5.1 ~~Polarisation and Status Disclosure~~ Advising on packaged products

Application

- 5.1.1 R This section applies to a *firm* which gives *advice on investments* to a *private customer* on *packaged products* ~~(including *adopted packaged products*), and to a *firm* which is a member of a *marketing group*.~~

Purpose

- 5.1.2 G This section gives support to *Principle 6* (Customers' interests) and *Principle 7* (Communications with clients) which require *firms* to have due regard to the information needs of their *customers* and treat them fairly. The purpose of this section is to ensure that *private customers* are adequately informed about the nature of the *advice on investments* which they may receive from a *firm* in relation to *packaged products*. In particular *firms* need to be clear to *private customers* about the scope and range of the products and *product providers* on which their *advice on investments* is based. ~~When *advice on investments* which are *packaged products* is given, it is important that a *private customer* is always clear whether a *firm*, its *advisers* or *representatives*, will act solely in his interests or whether the range of advice offered by the *firm* will be determined by the nature and number of the *firm's* commercial relationships. Accordingly, the *rules and guidance* in *COB 5.1* give effect to the regulatory policy of polarisation which, in relation only to *advice on packaged products* requires a *firm* to act either independently for the *private customer*, or to act on a tied basis where advice is restricted to its own products, those of its *marketing group* and *adopted packaged products*. Polarisation does not extend to an *execution-only transaction* or to a *financial promotion* of a *packaged product* which does not contain any *advice on investments*.~~

Delete the existing COB 5.1.3G to COB 5.1.6G inclusive, which are not shown struck through, and replace with the following new rules: COB 5.1.6AR to 5.1.6GR, which are not underlined:

- 5.1.3 G [deleted]
- 5.1.4 G [deleted]
- 5.1.5 G [deleted]

5.1.6 G [deleted]

Scope and range of advice on packaged products: general

- 5.1.6A R (1) A *firm* which gives *advice on investments* to *private customers* about *packaged products* must, subject to (2), take reasonable steps to ensure that the scope of the *advice on investments* given to a *private customer* is based upon a selection from one of the following:
- (a) the whole market (or the whole of a named sector of the market);  
or
  - (b) a limited number of *product providers*; or
  - (c) a single *company* or single group of *companies*.
- (2) A *firm* may change the scope of the *advice on investments* it gives to a particular *private customer* by widening the scope from that in (1)(c) through to that in (b) or (a) or from (b) to (a), but it must take reasonable steps to ensure that before doing so the *customer* is made aware of the proposed change by a communication in a durable *medium*.
- (3) If a *firm*:
- (a) extends the scope of the *advice on investments* it will give a *private customer*; or
  - (b) extends the *range of packaged products* on which its *advice on investments* will be based;

and as a consequence the *firm's* arrangements for its remuneration are materially altered, the *firm* must provide the *customer* with a new and appropriate *fees and commission statement*.

- 5.1.6B G (1) *COB 5.1.6AR* requires a *firm* when giving *advice on investments* to a *private customer* to do so on the basis that the scope of its *advice on investments* will involve a selection from the whole market (or from the whole of a sector of the market), or from a limited number of *product providers* or from a single provider and to adhere to such a scope during the advisory process unless the *firm* decides, and if necessary secures the *customer's* agreement, to widen the scope for the *customer* and, if necessary, any changes in the arrangements by which the *firm* will be remunerated (see *COB 4.3.6R*). A *firm* can choose to offer both whole of market and more limited *advice on investments*. The scope of the advice which the *customer* subsequently receives should always however be made clear and explained in a way which is likely to be understood.

- (2) The scope of *advice on investments* prescribed in each of COB 5.1.6AR (1) (a) to (c) will require different competencies on the part of a *firm's representatives* to enable the *firm* to discharge its advisory functions.
- (3) A *firm* selecting *packaged products* from a limited number of *product providers* or from a single provider may do so on the basis of a *range of packaged products* which comprises a selection of products available from those providers and accordingly a *firm* may have one or more such *ranges*. COB 4.3.3R requires a *firm* to give each *customer* some initial disclosure information – an *initial disclosure document* - which must indicate the scope of the *advice on investments* which the *customer* can expect to receive. This initial information must also invite the *customer* to ask for a copy of the *range of packaged products* from which the *firm* will make a selection. A *firm* which has several *ranges of packaged products* will need to ensure that each *customer* who asks for it is given information about the *range* which is appropriate for that *customer*.
- (4) If a *firm* holds itself out as giving *advice on investments* to *private customers* on *packaged products* from the whole market (or the whole of any sector of that market; see (5)), the *firm's* selection for this purpose will need to be sufficiently large to enable the *firm* to satisfy the suitability requirement in COB 5.3.9R (Requirement for suitability: whole-of-market advisers). One way in which such *firms* may wish to satisfy this requirement is by using “panels” of *product providers* which are sufficient for the purpose of giving advice from the whole market and which are reviewed on a regular basis. A *firm* which provides *advice on investments* from the whole market (or from the whole of a sector of the market) should ensure that its analysis of the market and the available *packaged products* is kept adequately up to date.
- (5) References to a *firm* advising on *packaged products* from the whole of a sector of the market are to a *firm* which, though holding itself out as giving *advice on investments* from the whole market, *advises on investments* in practice only on a relatively limited selection of *packaged products* which are available to meet the needs of a specialist sector or niche market (for example pension annuities). In such circumstances the quality of the *firm's* analysis of the sector or niche market should be commensurate with that which a *firm* would apply for the purposes of selecting products from the market as a whole.
- (6) IPRU(INS) 1.3 (Restriction of business to insurance) in practice restricts the *range of packaged products* that a *long-term insurer* may have and CIS 16.5.1R (Managers of UCITS schemes) restricts the *range of packaged products* that a *manager* of a *UCITS scheme* may have.

- (7) If a *firm* gives *advice on investments* to a *private customer* on a *packaged product* produced by another *person*, the *key features* must be “appropriate” (see *COB 6.2.7R* (Provision of key features: life policies) *COB 6.2.22R* (1) (Provision of key features: schemes) and *COB 6.4.15R* (Stakeholder pension schemes)). Therefore, if the terms of the *packaged product* are different from the terms of the product for which the *key features* was originally prepared by the *product provider*, for example there are additional charges, then the *key features* will need to be amended.
- (8) There are restrictions on *communicating* and *approving a financial promotion* relating to a *life policy* produced by an *unauthorised person* (see *COB 3.13.1R* (Additional requirements for financial promotions for an overseas long-term insurer)).
- (9) When a *firm* gives *advice on investments* relating to a *packaged product* which is not produced by the *firm*, it is responsible for the *advice on investments* given. The *product provider* is responsible for the relevant terms and conditions of the *packaged product*.
- (10) The *rules* in *COB 5.1* are mainly concerned to ensure that *firms* can offer a wide range of advisory services in relation to *packaged products*. In the course of giving such advice a *firm's representatives* may also need to consider the merits of whether a *customer* should give up, surrender or cease contributing to an existing *packaged product* and the *rules* in this section do not place a restriction on this (subject always to such *advice on investments* being suitable having regard to the *customer's* circumstances).

Range of packaged products: appointed representatives

- 5.1.6C R (1) A *firm* must maintain in writing and keep up to date a statement of:
- (a) the scope of *advice on investments* (within the meaning of *COB 5.1.6AR(1)*) which each of its *appointed representatives* is, through its contract with the *firm*, permitted to give; and including
  - (b) the *range* (or *ranges*) of *packaged products* on which each *appointed representative* advises.
- (2) In applying the *rules* in *COB* to a *firm* in respect of its *appointed representatives*, references to a *firm's* scope or *range of packaged products* are to be taken as references to the scope (or scopes) and to the *range* (or *ranges*) of its *appointed representatives*.

- 5.1.6D G An *appointed representative's range of packaged products* may be defined by a particular category of *packaged product* or by individual product, as long as it is clear (for example, "all pension products of ABC Co Limited"). It may be set out in a document separate from the *appointed representative's* contract of appointment and should, in any event, be separate from the main body of the contract for clarity.

Range of packaged products: records

- 5.1.6E R (1) A *firm* must make, and keep up to date, a record of the scope (or scopes) of the *advice* (within the meaning of COB 5.1.6AR(1)) which it provides, its *range* (or *ranges*) of *packaged products* and the *range* or *ranges* of each of its *appointed representatives* (if different from the *firm's*).
- (2) The record in (1) must be retained for six years from the date on which it was superseded by a more up-to-date record.
- (3) The record for distribution to a *customer* must be the particular *range of packaged products* which is appropriate for the services provided to that *customer* and include details of:
- (a) the identity of the *product providers* within the *range* whose *packaged products* the *firm* may sell; and
  - (b) a list of the categories of their products the *firm* may sell.
- (4) In the case of a *firm* whose scope of *advice on investments* is the selection of *packaged products* from the whole of the market (or from the whole of a sector of the market) and which provides no other scope of *advice on investments*, it will be sufficient if the *firm's* record is restricted to confirming that the *advice on investments* it provides is given on this basis (and in the case of a *firm* which provides *advice on investments* on the whole of a sector of the market, confirms the nature and parameters of that sector).
- (5) For the purposes of the record in (1), (3) and (6), in relation to the *packaged products* within a particular category available from a *product provider*:
- (a) where a *firm* provides services to a particular *customer* in relation to all of the products within that category the record may refer simply to that category and the *product provider* and not each particular product within the category; and
  - (b) notwithstanding (3)(b), where a *firm* does not provide services to a particular *customer* in relation to all of the products within that category the record must give details of each of the products in the category on which it does provide services.

- (6) A *firm* must maintain a record of the particular *range* of *packaged products* on which its *advice on investments* to each *private customer* is based and such a record must be kept for six years from the date on which the *advice on investments* is given.

#### Branding packaged products

- 5.1.6F R If a *firm* gives *advice on investments* to a *private customer* on a *packaged product* produced by another *person*, it must not:
- (1) hold itself out as the *packaged product's* producer; or
  - (2) do or say anything which might reasonably lead a *private customer* to be mistaken as to the identity of the product's producer.
- 5.1.6G R A *firm* must display the brand of the *product provider* at least as prominently as any other brand in the documentation that it makes available to its *customers* in relation to a *packaged product*.

#### ~~Tied advice by provider firms~~ Staying within the range of advice of packaged products

- 5.1.7 R (1) A ~~*provider firm*~~ must, subject to (2), take reasonable steps to ensure that neither it nor any of its *representatives* gives *advice on investments* to a *private customer* about the purchase of a *packaged product* unless the product is:
- ~~(a) issued by the *firm* itself or by another member of its *marketing group*; or~~
  - ~~(b) an *adopted packaged product*~~
  - (a) within the *firm's range* (or *ranges*) of *packaged products*; and
  - (b) is within the particular *range of packaged products* on which *advice on investments* is given to that *customer*.
- (2) The restriction in (1) does not apply where COB 5.3.7R (Suitability of packaged products: out-of-range recommendations) applies.
- 5.1.8 R [deleted]
- 5.1.9 G COB 5.1.7R (1) does not inhibit the sale by a ~~*provider firm*~~;

- (1) where the sale does not involve the provision of *advice on investments* to a *private customer*; a ~~A provider~~ firm may act as an intermediary for a transaction in a *packaged product* where that transaction is an *execution-only transaction* (*long-term insurers* are reminded of IPRU(INS)1.3 (Restriction of business to insurance) and *managers of UCITS schemes* are reminded of CIS 16.5.1R (Managers of UCITS schemes)); or
- (2) when the firm acts a discretionary investment manager.

5.1.11 R [deleted]

Restriction on holding out

- 5.1.11A R (1) A firm that, in relation to packaged products, provides advice on investments to a private customer, must not hold itself out as acting independently unless it intends to:
- (a) provide advice on investments to that customer that is on packaged products from the whole market (or the whole of a sector of the market); and
  - (b) offers the customer the opportunity of paying fees for the provision of such advice.
- (2) A firm which in accordance with (1) holds itself out as independent must ensure that the advice on investments subsequently given to the private customer concerned is on packaged products from the whole market (or the whole of a sector of the market).
- (3) A firm will not contravene (2) and does not need to offer the option of fee based advice on investments in accordance with (1), if it acts in accordance with COB 4.3.27R.
- 5.1.11B G (1) COB 5.1.11AR stipulates what a firm must do if it is to hold itself out to any particular client that it will act independently. Firms which wish to hold themselves out generally as acting independently should ensure that doing so (for example through a trading name or advertising) is consistent with the kind of service which private customers receive in relation to packaged products.
- (2) A firm that carries on business both in relation to packaged products and regulated mortgage contracts can do so in relation to the whole market and therefore be "independent" for one but offer only a limited service for the other. If this is the case the firm should explain the different nature of the services in a way which meets the requirement for clear, fair and not misleading communications in COB 2.1.3R (Clear, fair and not misleading communications).

- (3) COB 5.1.11AR (1)(b) means that a *firm* wishing to hold itself out as independent will need to give *customers* a purely *fee* based option for paying for its services. Such a *fee* may be offered on a contingent basis so that it does not become payable if the *customer* does not acquire a product. A *firm* offering a fee-based service may, in addition, provide the *customer* with other payment options, such as by *commission*.

Representatives to have access to whole range

- 5.1.12 R (1) A ~~provider~~ *firm* must, subject to (2), take reasonable steps to ensure that those of its representatives who give advice on investments on packaged products are able to sell with advice on investments each ~~type of packaged product~~ within the particular range of packaged products from which products are selected for a *customer* ~~that it issues itself or is issued by a member of its marketing group, or is an adopted packaged product~~.
- (2) A ~~provider~~ *firm* may restrict the ~~type of packaged products~~ it authorises a particular *representative* to sell, if:
- (a) that *representative* is not sufficiently competent to sell certain types of product; and
  - (b) it requires that *representative* to identify instances when another ~~packaged product of its own, or of the marketing group, or an adopted packaged product~~ outside his own restricted range within the relevant range of packaged products ought to be recommended; ~~The representative must then be required to refer the private customer to another representative within the marketing group of the firm~~ who is authorised and competent to sell that product.

Remuneration structure and referrals

- 5.1.13- R A ~~provider~~ *firm* must take reasonable steps to ensure that none of its representatives:
- (1) ~~is are not~~ likely to be influenced by the structure of ~~their~~ his or her remuneration to give unsuitable *advice on investments* to a *private customer*; and
  - (2) ~~do not~~ refers private customers to an independent intermediary another firm in circumstances which would amount to the provision of an inducement under COB 2.2.3R (Prohibition of inducements).

Excess charges on price-capped products

5.1.14 R A ~~firm which is a provider firm~~ must, if it gives advice on investments to a private customer about ~~on an adopted packaged product~~ stakeholder pensions scheme or other price capped product for which the firm is not the product provider, ensure that it does so only in accordance with arrangements under which the firm discloses any charges imposed by the firm in excess of those charged by the producer of the ~~adopted packaged product.~~

5.1.14A G Products subject to price caps within COB 5.1.14R would include ISAs marketed as “CAT standard”.

Delete the remaining provisions in this section COB 5.1.15R to 5.1.23G inclusive, these are not shown struck through.

to  
5.1.23G

...

5.2.1 R ...  
  
(3) ... ~~customer~~; or  
  
(4) is not an insurer and makes a personal recommendation to take out a life policy to an intermediate customer or a market counterparty; or  
  
(5) is not an insurer and is arranging (but not merely by introducing) a life policy;  
  
(6) is an insurer and is arranging a life policy for a private customer.

5.2.2 G ... However, the Insurance Mediation Directive requires that a statement of the demands and needs of a client is provided to the client, whether advice is given or not. This is required whatever the status of the client. Accordingly the demands and needs provisions in COB 5.2.12R to COB 5.2.17G apply to all circumstances relating to life policies.

#### Statement of demands and needs

5.2.12 R (1) Unless either COB 5.2.13R or COB 5.2.14R applies, a firm must provide the client with a statement of his demands and needs if:  
  
(a) it makes a personal recommendation of a life policy to a client; or

- (b) it arranges (whether through issuing a *direct offer financial promotion* or otherwise) for the *client* to enter into a *life policy*.
  - (2) Unless (3) applies, the statement in (1) must be provided:
    - (a) as soon as practicable, and in any event before the conclusion of the contract for the *life policy*; and
    - (b) in a durable *medium*.
  - (3) A *firm* may provide the statement in (1) orally if:
    - (a) the *client* requests it; or
    - (b) immediate cover is necessary;

but in both cases the *firm* must provide the information in (1) immediately after the conclusion of the contract, in a durable *medium*.
- 5.2.13 R If the only contact between the *firm* and the *client* before conclusion of the contract is by telephone, the statement of demands and needs must be provided immediately after the conclusion of the contract, in a durable *medium*.
- 5.2.14 R A *firm* need not provide a statement of demands and needs if the required information is contained in a *suitability letter*, or explanation of a *personal recommendation*, provided under COB 5.3.
- 5.2.15 G (1) A *firm* may provide the demands and needs statement as part of an application form so that the demands and needs statement is made dependent upon the *customer* providing personal information on the application form (including an application forming part of a *direct offer financial promotion*).
- (2) For quotations (see COB 4.3.3AG), there is no requirement for the *firm* to provide a demands and needs statement, but one must be provided before the conclusion of the contract, unless the only contact between the *firm* and the *client* is by telephone, in which case COB 5.2.13R applies.
- (3) A *key features* document that complies with COB 6.1.4R (Requirement to produce key features) may be used as the statement of demands and needs required by COB 5.1.12R (1)(b).
- 5.2.16 G COB 5.2.17G contains guidance on the contents of the statement required by COB 5.2.12R(1).
- 5.2.17 G Table
- Guidance on the contents of the statement required by COB 5.2.12R(1).

This table belongs to COB 5.2.16G.

	<u>Introduction</u>
(1)	<u>Where relevant, the statement should explain simply and clearly why the <i>personal recommendation</i> is viewed as suitable, having regard to the <i>client's</i> demands and needs.</u>
	<u>Style and Presentation</u>
(2)	<u>The style and presentation of the statement is left for the <i>firm</i> to decide, so that a statement can be designed which works best for the market in which the <i>firm</i> transacts business. A statement is more likely to be effective if it demonstrates these features:</u>
(a)	<u>simplicity and plain language: when technical terms need to be incorporated, they should be explained if the <i>client</i> is unlikely to understand their meaning; and</u>
(b)	<u>concise and clear messages: lengthy explanations and extensive statements are likely to reduce the effectiveness of the statement, and make the <i>client</i> less likely to read the statement properly.</u>

5.2.18 G Firms are reminded of the record keeping obligations under SYSC 3.2.20R.

...

5.3.1 R ...

(4) ... employees; ; or

(5) if the *firm* is not an *insurer*, makes a *personal recommendation* to an *intermediate customer* or a *market counterparty* to take out a *life policy*.

...

5.3.3 G Firms are reminded of the requirements of COB 3.9.6R (Direct offer financial promotions: general requirements). A *direct offer financial promotion* must make it clear that, if a *private customer* is in any doubt about the suitability of the agreement which is the subject of the promotion, he should contact the *firm*, or ~~an *independent intermediary*~~ another appropriate *firm* if the *firm* does not offer advice.

...

Requirement for suitability generally

5.3.5 R (1) A *firm* must take reasonable steps to ensure that, ~~it does not if~~ in the course of *designated investment business*:

(a) it makes any personal recommendation to a private customer to:

(i) buy, ~~or sell~~, subscribe for or underwrite a *designated investment* (or to exercise any right conferred by such an *investment* to do so); or

(ii) elect to make *income withdrawals*; or

... (iii) enter into a *pension transfer* or *pension opt-out* from an *occupational pension scheme*; or

(b) it effects a discretionary transaction for a *private customer* (except as in (3 5)); or

(c) it makes a *personal recommendation* to an *intermediate customer* or a *market counterparty* to take out a *life policy*;

~~unless the recommendation~~ *advice on investments* or transaction is suitable for the *private customer-client*. having regard to the facts disclosed by him and other relevant facts about the *private customer* of which the *firm* is, or reasonably should be, aware.

(2) If the recommendation or transaction in (1) relates to a *packaged product*:

(a) it must, subject to COB 5.3.7R - COB 5.3.10R, be the most suitable from the *range of packaged products*, on which *advice on investments* is given to the *client* as determined by COB 5.1.7R; and

(b) if there is no *packaged product* in the *firm's* relevant *range of packaged products* which is suitable for the *client*, no recommendation must be made.

(3) In making the recommendation or effecting the transaction in (1), the *firm* must have regard to:

(a) the facts disclosed by the *client*; and

(b) other relevant facts about the *client* of which the *firm* is, or reasonably should be, aware.

~~(2)~~ A *firm* which acts as an *investment manager* for a *private customer* must  
(4) take reasonable steps to ensure that the *private customer's* portfolio or account remains suitable, having regard to the facts disclosed by the *private customer* and any other relevant facts about the *private customer* of which the *firm* is or reasonably should be aware.

~~(3)~~ Where, with the agreement of the *private customer*, a *firm* has pooled his  
(5) funds with those of others with a view to taking common discretionary management decisions, the *firm* must take reasonable steps to ensure that a discretionary transaction is suitable for the *fund*, having regard to the stated *investment objectives* of the fund.

5.3.5A G (1) If circumstances arise in which a *firm* reasonably concludes that there are several *packaged products* in the relevant *range* which would satisfy the test in COB 5.3.5(2)R, it will act in conformity with that *rule* if it recommends only one of those *products*.

(2) If a *client* does not wish to proceed in accordance with a recommendation, a *firm* may nonetheless make further recommendations providing any such recommendation is suitable for the *client* in accordance with the obligation in COB 5.3.5R.

Delete the provisions, COB 5.3.6R to 5.3.8G inclusive, these are not shown struck through.

5.3.6 R ~~[deleted]~~

5.3.7 R ~~[deleted]~~

5.3.8 G ~~[deleted]~~

Suitability of packaged products: out-of-range recommendations

5.3.8A R (1) A *firm* when not selecting *packaged products* from the whole market (and notwithstanding COB 5.3.5R (2)) may recommend a *packaged product* outside the *range of packaged products* on which it provides advice to a particular *client* if the recommended *packaged product* is suitable for the *client* and had it been included would have been at least as suitable as the most suitable *packaged product* in that *range*.

(2) A *firm* must take reasonable steps to ensure that an *appointed representative* of a *firm* only acts as in (1) with its explicit written permission, either generally or in relation to the specific recommendation.

5.3.8B     G    COB 5.3.8AR enables a firm to advise on packaged products from outside a particular range of packaged products. This will enable such advice on investments to be given on a one-off basis by firms which have only one range of packaged products and by other firms which may have more than one but without the firm needing to change the scope or range of the advice on investments which the client is expecting to receive.

Delete the rules, COB 5.3.9R and COB 5.3.10R, these are not shown struck through.

5.3.9        R    [deleted]

5.3.10      R    [deleted]

Requirement for suitability: whole-of-market advisers

5.3.10A    R    (1) A firm which holds itself out as giving personal recommendations to private customers on packaged products from the whole market (or the whole of a sector of that market) must not give any such personal recommendation unless it:

(a) has carried out a reasonable analysis of a sufficiently large number of packaged products which are generally available from the market (or sector of the market); and

(b) conducts the analysis in (a) on the basis of criteria which reflect adequate knowledge of the packaged products generally available from the market as a whole (or from a relevant sector).

(2) A firm in (1) must satisfy the obligation in COB 5.3.5R (2) by taking reasonable steps to ensure that a personal recommendation given to a private customer is:

(a) in accordance with its analysis carried out under (1); and

(b) is the packaged product which on the basis of that analysis is the most suitable to meet the customer's needs.

5.3.10B    R    (1) A firm which holds itself out as giving personal recommendations to intermediate customers or market counterparties on life policies from the whole market (or from a relevant sector) must not give any such personal recommendation unless it:

(a) has carried out an analysis of a sufficiently large number of life policies which are generally available from the market (or sector of the market); and

(b) conducts the analysis in (a) on the basis of criteria which reflect adequate knowledge of the life policies generally available from the market as a whole (or from a relevant sector).

- (2) A firm in (1) must satisfy the obligation in COB 5.3.5R (2) by taking reasonable steps to ensure that a personal recommendation given to a client is :
- (a) in accordance with its analysis carried out under (1); and
  - (b) for a life policy which on the basis of that analysis is suitable to meet the client's needs.

Delete COB 5.3.11G in its entirety, the text of this provision is not shown struck through.

Requirements for suitability letter: other specific requirements

5.3.14 R (1) A firm that gives a personal recommendation, in relation to a life policy, to a person who is a policyholder or a prospective policyholder of a life policy, must provide the person with a suitability letter prior to the conclusion of the contract, unless one of the exceptions in COB 5.3.19R applies.

(2) If, following a personal recommendation by the firm that does not fall within (1), a private customer:

(a)(4) buys, sells, surrenders, converts, cancels, or suspends premiums for or contributions to, a ~~life policy~~, pension contract or a stakeholder pension scheme; or

(b)(2) elects to make income withdrawals;

(c)(3) acquires a holding in, or sells all or part of a holding in, a scheme; or

(d)(4) enters into a pension transfer or pension opt-out from an OPS;

the firm must provide the customer with a suitability letter, within the time period stipulated by COB 5.3.18R, unless one of the exceptions in COB 5.3.19R applies.

...

5.3.16 R The suitability letter in COB 5.3.14R must:

...

(3) ...; ~~and~~

- (4) ...;
- (5) if the recommended product is from a *product provider* (or if relevant, an undertaking in the *immediate group* of that *provider*) which is identified in section 6 of the *firm's initial disclosure document* given in accordance with *COB 4.3.3R(1)*, include the information given in section 6 or in section 6 of the *firm's combined initial disclosure document*; and
- (6) in the case of a recommendation by a *firm* under *COB 5.3.7R* (Suitability of packaged products: out-of-range recommendations) explain why it has recommended a *packaged product* outside the *firm's range of packaged products*, including why it is suitable for the *customer*.

...

- 5.3.18 R The firm must provide the letter required by *COB 5.3.14R (2)* to the *customer*:
- (1) in the case of a *life policy*, *pension contract* or *stakeholder pension scheme*, where...

...

- 5.3.18A R A *firm* may provide a statement of demands and needs to the *client* orally, instead of the *suitability letter* in *COB 5.3.14R*, if:
- (1) the *client* requests it; or
  - (2) immediate cover is necessary;
- but in both cases the *firm* must provide the *suitability letter* immediately after the conclusion of the contract, on a *durable medium*.
- 5.3.18B R If the only contact between the *firm* and the *client* before conclusion of the contract is by telephone, the *suitability letter* must be provided immediately after the conclusion of the contract, on a *durable medium*.

Suitability: intermediate customers and market counterparties

- 5.3.18C R (1) If a *firm* makes a *personal recommendation* to an *intermediate customer* or a *market counterparty* to take out a *life policy*, it must explain to the *client* the reasons for *personally recommending* that *life policy*.
- (2) The explanation required under (1) must:
    - (a) take account of the complexity of the *life policy* proposed; and
    - (b) be provided to the *client* before the contract is concluded.

5.3.18D G A firm should take the following into account when explaining the reasons for a personal recommendation to an intermediate customer or a market counterparty in accordance with COB 5.3.18AR:

- (1) the firm should explain why the client's demands and needs combine to make the recommended contract suitable for the client;
- (2) the firm should not merely state what contract is being recommended with no link to the client's demands and needs;
- (3) a firm that offers contracts from more than one insurance undertaking should include a statement of why a particular insurance undertaking has been recommended; reasons may include contract features not available anywhere else, price, or service levels.

...

5.3.19 R COB 5.3.14R does not apply:

...

- (4) to any personal recommendation by a friendly society for a life policy sold by it ~~a friendly society~~ with a premium not exceeding £50 a year or, if payable weekly, £1 a week;

...

...

6. A *firm* should take the following into account when constructing a *suitability letter*:

...

- (e) ~~*independent intermediaries*~~ where the range of *packaged products* from which *advice on investments* has been given contains the products of more than one *product provider* in respect of the same type of *packaged product*, the letter should include (the list is not exhaustive) why a particular *product provider* has been recommended; reasons may include product features not available elsewhere, price, service levels, performance track record, *investment* prospects, medical evidence terms, reputation and financial strength.

Signing

7. Each *suitability letter* should be signed by a *person* authorised by the *firm* to advise on the type of product which is being recommended. Ideally this will be the ~~*adviser representative*~~ who gave the particular *advice* but, if not, both the signatory and the ~~*adviser representative*~~ should accept responsibility for the letter and the recommendation.

5.5.5 E Table Table of information to be disclosed in written communications

This Table belongs to *COB 5.5.4E*.

Written communications

- (1) Any written communication, including stationery, business cards or other business documentation published by the *firm*, or used by its agents, ~~*representatives, financial advisers*~~ or *introducers*, should include:

...

(b) ~~[deleted]~~ the name of the *firm's marketing group* (if any);

...

(e) ~~[deleted]~~ In the case of a *provider firm*:

(i) a statement that the individual using the communication is the *representative* of, or represents only, the *firm* or its *marketing group*; and

(ii) a brief description, except in the case of business cards, of the *packaged products* and services provided by the *firm* or by members of its *marketing group* including any *adopted packaged products* which the *firm* or an member of the *marketing group* has adopted;

...

(2) ~~[deleted]~~ In the case of a *provider firm*, when the *firm's representative* first meets a *private customer*, the *customer* should be given the following particulars in writing, which may be in the form of a business card, either before progressing beyond the social preliminaries or as soon as reasonably practicable after a telephone conversation has ended:

(a) the name, address and telephone number of the *representative*;

(b) the name, business address and telephone number of the *firm's* branch or office to which the *representative* reports;

(c) the name of the *firm's marketing group* (if any);

(d) a statement that the *firm* is regulated by or authorised by the Financial Services Authority; and

(e) where relevant a statement that the *appointed representative* or *marketing group associate* represents only the specified *firm* or *marketing group* together (except in the case of a business card) with a brief description of the *packaged products* and services provided by that *firm* or *marketing group*, indicating which of those he is appointed to sell.

...

5.5.6 G ~~A firm which gives advice on investments to a private customer about packaged products is reminded of the additional disclosure requirements in COB 5.1 (Polarisation and status disclosure).~~~~[deleted]~~

...

5.6.2 G Principle 6 (Customer's interests) requires a *firm* to pay due regard to the interests of its *customers* and treat them fairly. The purpose of this section is to ensure that the *charges* a *firm* makes to its *private customers* are not excessive. The obligation to disclose to a *private customer* the *charges* that a *firm* intends to make are set out in COB 4.3 (Disclosing information about services, fees and commission – packaged products) and COB 5.7 (Disclosure of charges, remuneration and commission).

...

5.7.4 G (1) A *firm* may make the disclosures required by COB 5.7.3 R in its *terms of business* in a *client agreement*, or in a separate written statement. Disclosure should include any product-related *charges* that are deducted from the *private customer's investment*. If the product is a *packaged product*, product-related *charges* and expenses will be disclosed in the *key features document* or in the minimum information that the *firm* is required to provide to the *private customer* in accordance with COB 6.2 (Provision of key features) and COB 6.4 (Product disclosure: special situations). When a *firm* is a *broker fund adviser*, disclosure should include any *fees* payable to the *firm* or its *associate* in connection with that activity by a *provider firm*. In the case of advice provided in connection with *packaged products* a *firm* should, in accordance with COB 4.3.3 R, have provided its customer with a *fees and commission statement* setting out the maximum rates of any *fees* which the *customer* will pay and/or with an indication of the maximum rates of *commission* (or *equivalent*) which it, or its *representatives*, may retain in connection with the sale of *packaged products*. COB 5.7.3 R does not require any further disclosure of a *firm's fees* if, in accordance with COB 4.3.5 R it has confirmed the exact amount or rate that it will charge.

(2) In addition it is necessary that a *private customer* should, as soon as is practicable, be informed of the exact rate or the exact amount in cash terms of any *commission* (or *equivalent*) which the *firm* or its *representatives* will receive in respect of a specific transaction.

(3) In the case of a *packaged product*, product related charges and expenses will be disclosed in the *key features* document or in the minimum information that the *firm* is required to provide to *private customers* in accordance with COB 6.2 (Provision of key features) and COB 6.4 ( Product disclosure: special situations). When a *firm* is a *broker fund adviser*, disclosure should include any *fees* payable to the *firm* or its *associate* in connection with that activity by a *product provider*.

Delete the text within the existing COB 5.7.5 R and replace with the following text, which is not underlined:

Disclosure of commission (or equivalent) for packaged products

- 5.7.5 R (1) When a *firm* sells, *personally recommends* or arranges the sale of a *packaged product* to a *private customer*, and subsequently on the request of a *private customer*, the *firm* must disclose to the *private customer*, in cash terms:
- (a) any *commission equivalent* payable by it to a *representative* or *appointed representative*; and.
  - (b) any *commission* or *commission equivalent* receivable by it, or by any of its *associates* in connection with the transaction
- unless *COB 5.7.9 R* or *COB 5.7.10 R* applies.
- (2) In (1)(b) a *firm* is, in respect of any transaction, to be regarded as receiving *commission equivalent* if:
- (a) it is received from a *product provider* (“P”), or an *associate* of P; and
  - (b) either P or its *associate* is in the same *immediate group* as the *firm*; and
  - (c) the value of the *commission equivalent* (as assessed in accordance with these *rules*) is greater than the amount of *commission* in cash terms.
- (3) In (1) and (2) “cash terms” in relation to *commission* does not include the value of any indirect benefits which the *firm* may receive in accordance with *COB 2.2*.
- 5.7.6 R In determining the amount to be disclosed as ~~remuneration~~ commission equivalent in accordance with *COB 5.7.5R* a *firm* must put a proper value on the cash payments, benefits and services provided to its ~~employees and agents~~ representatives in connection with the transaction.
- 5.7.7 G ~~[deleted] For an adopted packaged product COB 5.7.6 R includes all cash payments, benefits and services provided by the provider of the adopted packaged product.~~
- 5.7.8 E (1) When determining the value of cash payments, benefits and services under *COB 5.7.6R*, a ~~provider~~-*firm* should follow the provisions of *COB 5.7.16E*.

...

5.7.10 R The requirement in *COB 5.7.5R* to disclose to a *private customer* the amount or value, in cash terms, of ~~remuneration or commission~~ or equivalent does not apply if the *firm* provides the *private customer* with example *key features*, in accordance with *COB 6.2.7R* (Life policies) and *COB 6.2.22R* (Schemes), provided that the *firm* *discloses* to the *private customer* the actual amount of value of ~~remuneration or commission~~ or equivalent within five *business days* of effecting the transaction.

...

5.7.12 G If the precise rate of ~~remuneration~~ or value of *commission* or equivalent is not known in advance, the *firm* should estimate the rate likely to apply to the ~~employee or agent in question~~ representative in respect of the transaction.

5.7.13 G The disclosures required by *COB 5.7.5R* should normally be made in writing. For example, if a specific *key features* document or *projection* is provided to a *private customer*, the required disclosures should either be contained in the *projection* or the *key features* document, or be given to the *private customer*. When a *private customer* does not make a written application to enter into a transaction contemplated by *COB 5.7.5 R*, for example, when the transaction is a telephone *deal* for *units* in a *regulated collective investment scheme*, the *firm* may disclose the amount or value of ~~remuneration or commission~~ or equivalent orally. In these circumstances, the *firm* should give written confirmation as soon as possible after the date of the transaction, and in any event within five *business days*. In preparing its written disclosure statement, a *firm* may wish to follow the *guidance* on content and wording set out in *COB 5.7.17G*.

...

5.7.15 R If the terms of a *packaged product* are varied in circumstances that require the issue of a cancellation notice, a *firm* must disclose to a *private customer* in writing any consequent increase in ~~remuneration or commission~~ or equivalent.

5.7.16 E Table Calculating ~~remuneration~~ commission equivalent

This table forms part of *COB 5.7.8 E*

Calculating ~~remuneration~~ commission equivalent

~~COB 5.7.8E applies only to a firm which is a product provider firm.~~ This table sets out the basis on which the *firm* should determine the value of cash payments, benefits and services to be disclosed as ~~remuneration~~ commission equivalent under COB 5.7.5R. Benefits and services, as set out in parts B and C below, need be included only where their value is such that they could not be provided to ~~an independent intermediary~~ a firm as an indirect benefit under COB 2.2.6G (Packaged products – guidance on indirect benefits) and COB 2.2.7G (Reasonable indirect benefits ~~—joint marketing exercises~~).

The result of the calculation should be that the amounts disclosed as commission equivalent are, as far as possible, the same as the amounts and value of commission which would be paid in a corresponding sale.

#### Part A: Cash payments

1. These cover all payments by a *firm* to a representative, appointed representative or a firm in the same immediate group in relation to a transaction in a *packaged product*, including:
  - (a) payments to any ~~employee or~~ *representative* of the *firm* in respect of the transaction (for example, a manager's override), including any payments from the *firm* to *introducers*;
  - (b) ...
  - (c) that element of any payment made in relation to other business which may be considered to result directly or indirectly from the transaction; for example, any extra element of ~~remuneration~~ commission equivalent payable on the sale of a mortgage which is to be repaid through an *investment* in a *packaged product*;
  - (d) payments resulting directly from business written in previous years (for example, renewal ~~remuneration~~ commission equivalent), which are conditional on the completion of minimum amounts of new business;
  - (e) ...
  - (f) salaries and other payments which do not relate directly to any one transaction, provided they are treated similarly to 'benefits' and 'services' (see paragraph ~~11~~ 14).
2. In determining the amounts to be included in the calculation, a *firm* should have regard to the following:
  - (a) When the precise rate of ~~remuneration~~ commission equivalent is not known in advance ...
  - ...

- (c) When a payment is made before the *firm* receives the *premium* or the investment monies to which it relates (for example, indemnity ~~remuneration~~ commission equivalent), it should be included as being received at the time of payment. If the ~~adviser-representative~~ or the *product provider* wishes to explain this arrangement to the *customer*, he is free to do so, provided this does not detract from the required disclosure.

...

#### Part C Services

5. These include benefits which could not be provided to ~~an independent intermediary a firm, A,~~ as an indirect benefit (under COB 2.2.3R (Prohibition of inducements) and COB 2.2.6G (*Packaged products – guidance on indirect benefits*)), and which ~~the intermediary A~~ would therefore have to fund out of its disclosable *commission*. For those services which can be provided as an indirect benefit, it is not necessary for the *firm* providing the benefit, B, actually to provide services to ~~an independent intermediary another firm, A,~~ for ~~it B~~ to be able to apply this criterion in relation to its *employees, representatives* or agents.
6. The following services should be included:
- (a) ...
- (b) loans where a commercial rate of interest is not charged, including ~~remuneration~~ commission equivalent advances overdue for repayment;
- ...
7. To put a value on these services, the following costs should be included:
- ...
- (h) in respect of ~~marketing group associates a firm in the same immediate group~~ and connected *appointed representatives*, where the name of the company is included in the *direct offer financial promotion*, the costs of any promotion in a newspaper or elsewhere and the provision of ~~representative specific~~ literature specific to the *representative* in connection with a *direct offer financial promotion*.
8. The following costs should be excluded:
- ...
- (g) the costs of head office and branch level management and support, other than payments to *managers* falling under Part 1, for *representatives*, where these services could also be provided to ~~an~~

~~independent intermediary a firm not in the same immediate group,~~  
for example, broker branches consultants and ‘inspectors’;

...

Part D: Calculation methodology ~~actuarial advice~~

9. ~~A long-term insurer or friendly society should take the advice of its appointed actuary (or if does not have one, an actuary) in determining the costs of benefits and services to be included and their apportionment over individual packaged product transactions. Where the firm does not follow its actuary’s advice, it should notify the FSA, giving the reasons for that decision and the alternative assumptions it plans to use.~~

Estimating commission equivalent

The cost of benefits and services should normally be based on the most recent relevant experience of the firm, except where one of the following applies:

- (a) the firm has reasonable grounds to believe that the commission equivalent for the period concerned will be higher than that implied by the experience; or
- (b) the firm has strong grounds to believe that the commission equivalent for the period concerned will be lower than that implied by the experience; or
- (c) no such experience is available.

If any of (a) to (c) applies, the estimate should be based on and evidenced by business plans which the firm is satisfied on reasonable grounds are achievable.

Delete the text COB 5.7.16E (10) to (12) and replace with the following new text for COB 5.7.16E(10) to (19), which is not shown underlined.

10. *Firms* that receive or expect to receive:
- (a) *commission* in respect of *packaged products* which are not its own products or the products of a *product provider* who is in the same *immediate group*; and
  - (b) *commission equivalent* in respect of its own products

must ensure that the costs and benefits attributed to these products do not exceed the amounts that can be financed from that *commission*.

Construction of ~~Remuneration~~ commission equivalent scales

11. The total costs of cash payments, benefits and services should be assessed and the normal approach is to split them into new business costs and after sale servicing costs. The costs of each of these functions should be assessed directly in relation to the work carried out by the *representatives*.
12.
  - (a) The *commission equivalent* costs identified in 11 should be spread across the business using a new business *commission equivalent* scale and a servicing *commission equivalent* scale respectively. The new business *commission equivalent* scales when applied to the total value/volumes of business should reproduce the total new business *commission equivalent* costs, and similarly for the servicing scales.
  - (b) The *commission equivalent* scales should distinguish between products for which the *commission equivalent to representatives* is likely to be different.
13. Where the *representative's commission equivalent* includes a cash payment related to volume and/or value of the transactions sold, the following method would be appropriate:
  - (a) The basic payment scale should comprise a new business payment scale and a servicing payment scale. The cost of benefits and services should be expressed in the form of a new business uplift factor and a servicing uplift factor. So the "new business uplift factor" would be the cost of new benefits and services divided by the new business payments. The "servicing uplift factor" would be the cost of servicing benefits and services divided by servicing payments.
  - (b) The payment scales should be grossed up by new business uplift factors or servicing uplift factors as appropriate to reflect the cost of benefits and services. The grossed up scales represent the new business and servicing *commission equivalent* scales, and are applied to each contract to derive the *commission equivalent* to be disclosed.
  - (c) Where the level of payment in the first year of a policy equals the level of payment in subsequent years then "new business payments" refers to payments in the first year of a contract and "servicing payment" refers to the level of payment in subsequent years.
  - (d) If servicing costs are expected to be incurred in any year in which no servicing payments are to be made on a contract, disclosure should still be made, for example by using a technique similar to that described in 14.

14. (a) When a *representative* receives a salary, or other payment unrelated to volume or sales:
  - (i) this should be amalgamated with the cost of benefits and services; and
  - (ii) the total costs should be apportioned over individual transactions in a way that reflects the value of a contract to a *firm* or the *firm's immediate group*.
- (b) Where a *firm* is a distributor for a *product provider* within the same *immediate group*, the *firm* must apportion total costs over individual transactions in a way that reflects the value of the contract to the *firm's immediate group*.
15. Where other methods of *commission equivalent* are employed, for example, part salary and part related to the volume/value of the sale, the salary element should be added to the cost of benefits and services and the method in 13 should be used.
16. Where a *representative* agrees to forgo part of his or her normal payment to improve the terms of the contract, the same uplift factor (in line with 13(a)) may be applied to the reduced payment, or the same monetary cost of benefits and services may be used, subject to the following constraints:
  - (a) the same uplift factor approach should only be adopted if the *customer* will also receive the full benefit of the lower of:
    - (i) the reduction in the amount of disclosed *commission equivalent* for non-financial benefits and services; and
    - (ii) an equivalent proportion of the policy loadings intended to cover non-financial benefits and services.
  - (b) Where the 'same uplift factor' approach is adopted, the proportion of payments foregone must be allowed for in calculating the uplift factor.
  - (c) Where an average scale of *commission equivalent* is used, the percentage reduction in payment in respect of the individual *representative* may be applied to the average payment in order to calculate the reduced payment.
17. The *firm* should review the *commission equivalent* scales if at any time it becomes aware that the *commission equivalent* figures have become misleading. A review should take place at least annually.

18. When an identical *commission equivalent* scale applies to all *representatives* (although they might earn differing percentages of it), the same average amount of *commission equivalent* (and the value of other benefits and services) in respect of identical transactions may be disclosed, regardless of the percentage of the scale paid to each individual *representative*. Averaging may be used for *representatives* on the same scale and *employees of firms* in the same *immediate group*, but not *appointed representatives*.

Payments to associates

19. Where a *firm* pays *commission equivalent* to a another *firm* in the same *immediate group*, or an *appointed representative* which is an *associate* of the *firm*, it should ensure that the calculation of the sum to be disclosed is the higher of:
- (a) all payments, benefits and services provided to the *firm* or *appointed representative*, from whatever source, plus an additional allowance for profit of 15% - unless the *firm* can demonstrate that another figure (higher or lower) is more appropriate; and
  - (b) the cash payments actually paid by the *firm*, plus the value of services provided.

...

- 6.2.9\*\* R (1) *COB 6.2.7R* does not apply to a *product provider* when its *life policy* is sold on the *personal recommendation* of, or arranged to be sold by, ~~an independent intermediary or marketing group associate~~ another firm.

...

...

- 6.2.11\*\* G An adequate oral explanation of the information required by *COB 6.2.9R (2)* should include the following:

...

- (4) where it is the case, the fact that *commission* or *commission equivalent* will be paid to the ~~adviser~~ *or representative*; and

...

...

6.2.19\*\* R (1) *COB 6.2.16R and COB 6.2.18R do not apply to a product provider when the variation to its life policy is effected on the personal recommendation of or arranged to be sold by an independent intermediary or marketing group associate another firm.*

...

...

Provision of key features: Schemes

6.2.22 R When a firm sells, personally recommends or arranges for the sale of a scheme to a private customer:

*the firm must, unless COB 6.2.24R (exceptions) or COB 6.4.27R to COB 6.4.31R (telephone sales and other exemptions) applies, provide the private customer with appropriate key features for the scheme before he completes an application for the scheme holding; or*

6.2.23\*\* G ...

(3) An adequate oral explanation of the information required by *COB 6.2.22R* should include the following:

...

(e) where it is the case, that *commission* or remuneration will be paid to the ~~adviser or representative~~; and

...

...

6.2.25\*\* R *COB 6.2.22R does not apply to a product provider when the scheme holding is sold on the personal recommendation of, or arranged to be sold by, an independent intermediary or marketing group associate another firm.*

...

*Commission and remuneration commission equivalent* for life policies, schemes and stakeholder pension schemes

6.5.38 R ....

(2) (a) the amount or value in cash terms of the *commission or remuneration equivalent*, and an indication of the timing of these payments; and

- (b) a statement that *commission* or ~~remuneration~~ *equivalent* is paid for out of ‘the deductions or charges, if more appropriate’ and, if applicable, that the amount will depend on the size of the premium or contribution and the length of the *life policy, scheme* or *stakeholder pension scheme* term.

6.5.39 G ~~The information given under~~ *COB 6.5.38 R (2)* may include the name of the *adviser representative* to whom the *commission* or ~~remuneration~~ *equivalent* is to be paid ~~may be given.~~

...

6.5.46 R The post-sale confirmation to be given to *private customers* in accordance with *COB 6.3.3 R* must include:

- (1) the information required by *COB 6.5.15 R - COB 6.5.19 R* (an Example), *COB 6.5.23 R* to *COB 6.5.28 R* (Tables and Deductions Summary) and *COB 6.5.38 R* (Commission and ~~Remuneration~~ *commission equivalent*);
- (2) ~~where the investment has been recommended to a private customer by a representative, a statement under the heading ‘adviser’s status’ that: ‘the person who advised you about this policy represents only [Name of firm, or, if appropriate, marketing group associate.]’~~

...

6.6.7 R ~~An independent intermediary~~ A firm must, in addition to complying with other rules in this section, ensure that a *projection* given to a particular *customer* is relevant to that *customer’s* circumstances.

...

6.7.1 R *COB 6.7* applies to:

- (1) a *product provider*;
- (2) an *insurer* which provides *pure protection contracts*;

- We [can] **[Note 8]** only offer products from a limited number of insurers [for] [list the types of *non-investment insurance contracts*].

Ask us for a list of the insurers we offer insurance from. **[Note 12]**

- We [can] **[Note 8]** only offer [a] product[s] from [a single insurer] [name of single *insurance undertaking*] [for] [list the types of *non-investment insurance contracts*]. **[Note 9] [Note 10(1)] [Note 13]**

[or] **[Note 10(2)]**

We only offer our own products for [list the types of *non-investment insurance contracts*].

**[Lifetime] Mortgages [and home reversion schemes] [Note 14]**

- We offer mortgages from the whole market.
- We [can] **[Note 8]** only offer mortgages from a limited number of lenders.

Ask us for a list of the lenders we offer mortgages from. **[Note 11]**

- We [can] **[Note 8]** only offer [a limited range of the] [a] mortgage[s] from [a single lender] [name of single lender]. **[Note 10(1)]****[Note 13]**

[or] **[Note 10(2)]**

We only offer our own mortgages.

---

### **3 Which service will we provide you with? [Note 6]**

---

#### **Investment**

- We will advise and make a recommendation for you after we have assessed your needs.
- You will not receive advice or a recommendation from us. We may ask some questions to narrow down the selection of products that we will provide details on. You will then need to make your own choice about how to proceed.
- We will provide basic advice on a limited range of stakeholder products and in order to do this we will ask some questions about your income, savings and other circumstances but we will not:
- Conduct a full assessment of your needs;
  - Offer advice on whether a non-stakeholder product may be more suitable

**[Note 6A]**

#### **Insurance**

- We will advise and make a recommendation for you after we have assessed your needs [for] [list the types of *non-investment insurance contracts*].
- You will not receive advice or a recommendation from us [for] [list the types of *non-investment insurance contracts*]. We may ask some questions to narrow down the selection of products that we will provide details on. You will then need to make your own choice about how to proceed.

**[Lifetime] Mortgages [and home reversion schemes] [Note 14]**

- We will advise and make a recommendation for you after we have assessed your needs.
- You will not receive advice or a recommendation from us. We may ask some questions to narrow down the selection of products that we will provide details on. You will then need to make your own choice about how to proceed.

---

**4 What will you have to pay us for our services?**

---

**Investment**

- Before we provide you with advice, we will give you our keyfacts guide 'about the cost of our services'. **[Note 15]**
- We will tell you how we get paid, and the amount, before we carry out any business for you.

**Insurance [Note 16]**

- A fee [of £ [ ] ] [for] [list the types of services provided for *non-investment insurance contracts*].
- No fee [for] [list the types of services provided for *non-investment insurance contracts*].

You will receive a quotation which will tell you about any other fees relating to any particular insurance policy.

**[Lifetime] Mortgages [and home reversion schemes] [Note 14]**

- No fee. [We will be paid by commission from the [lender/company].] **[Note 17]**
- A fee of £[ ] payable at the outset and £[ ] payable when you apply for a [lifetime] mortgage [or home reversion scheme]. [We will also be paid commission from the [lender/company].] **[Note 17] [Note 18]**

You will receive a keyfacts illustration when considering a particular [lifetime] mortgage, [or further information about a particular home reversion scheme] which will tell you about any fees relating to it. **[Note 14]**

**Refund of fees [Note 19] [Note 14]**

If we charge you a fee, and your [lifetime] mortgage [or home reversion scheme] does not go ahead, you will receive:

**[Note 20]**

- A full refund [if the [lender/company] rejects your application]. **[Note 21]**
- A refund of £ [ ] [if your application falls through]. **[Note 21]** **[Note 22]**
- No refund [if you decide not to proceed]. **[Note 21]**

---

**5 Who regulates us? [Note 23]**

---

[XYZ Financial Services] [123 Any Street, Some Town, ST21 7QB] **[Note 24]** **[Note 25]** is authorised and regulated by the Financial Services Authority. Our FSA Register number is [ ]. **[Note 26]**

Our permitted business is [ ]. **[Note 27]**

[or] **[Note 28]**

[Name of *appointed representative*] **[Note 3]** **[Note 4]** is an appointed representative of [name of *firm*] [address of *firm*] **[Note 24]** **[Note 25]** which is authorised and regulated by the Financial Services Authority. [Name of *firm's*] FSA Register number is [ ].

[Name of *firm's*] permitted business is [ ] **[Note 27]**

You can check this on the FSA's Register by visiting the FSA's website [www.fsa.gov.uk/register](http://www.fsa.gov.uk/register) or by contacting the FSA on 0845 606 1234.

[Home reversion schemes are not regulated by the FSA.] **[Note 14]**

---

**6 Loans and ownership [Note 29]**

---

[B&C Investments plc owns 20% of our share capital.]

[London Union plc provides us with loan finance of £250,000 per year.]

[XYZ Financial Services (or we) have 20% of the voting rights in Royal Edinburgh.] **[Note 29]****[Note 30]****[Note 31]****[Note 32]****[Note 33]****[Note 34]**

---

**7 What to do if you have a complaint [Note 23]**

---

If you wish to register a complaint, please contact us:

**...in writing** Write to [XYZ Financial Services], [Complaints Department, 123 Any Street, Some Town, ST21 7QB].

**... by phone** Telephone [0121 100 1234]. [Note 35]

If you cannot settle your complaint with us, you may be entitled to refer it to the Financial Ombudsman Service. [Note 36] [Note 36A] [Note 37] [The Financial Ombudsman Service does not consider complaints about home reversion schemes.] [Note 14]

---

**8 Are we covered by the Financial Services Compensation Scheme (FSCS)? [Note 23] [Note 38] [Note 38A]**

---

We are covered by the FSCS. You may be entitled to compensation from the scheme if we cannot meet our obligations. This depends on the type of business and the circumstances of the claim.

**Investment**

Most types of investment business are covered for 100% of the first £30,000 and 90% of the next £20,000 so the maximum compensation is £48,000.

**Insurance**

Insurance advising and arranging is covered for 100% of the first £2,000 and 90% of the remainder of the claim, without any upper limit.

[or] [Note 39] [Note 39A]

For compulsory classes of insurance, insurance advising and arranging is covered for 100% of the claim, without any upper limit.

**[Lifetime] Mortgages [and home reversion schemes] [Note 14]**

Mortgage advising and arranging is covered for 100% of the first £30,000 and 90% of the next £20,000 so the maximum compensation is £48,000. [Home reversion schemes are not covered by the Financial Services Compensation Scheme.] [Note 14]

Further information about compensation scheme arrangements is available from the FSCS.

---

*9 — Group personal pensions [Notes 40, 41 and 42]*

---

*This meeting has been arranged so that we can provide you with [information about] [advice upon whether or not you should join] the Group Personal Pension scheme which your employer has established. You should be aware that we cannot advise upon or recommend any other specific investment products during this meeting.*

**[Note 403] Message from the Financial Services Authority**

**Think carefully about this information before deciding whether you want to go ahead.**

**If you are at all unsure about which lifetime mortgage or home reversion scheme is right for you, you should ask your adviser to make a recommendation.**

**Please remember that home reversion schemes are not regulated by the FSA.**

The following notes do not form part of the CIDD.

**Note 1** – subject to this, a *firm* may use its own house style and brand.

**Note 2** – the *Financial Services Authority* has developed a common keyfacts logo to be used on significant pieces of information directed to *customers*. ~~ICOB 4.2.6R sets out the requirements on the use of the key facts logo.~~ The keyfacts logo and the text 'about our services' must be used and positioned as shown in the CIDD. The logo may be re-sized, but it must be reasonably prominent and its proportions must not be distorted. When reproducing the logo, firms may use colour providing this does not diminish the prominence of the logo. A specimen of the keyfacts logo can be obtained from the *FSA* website [http://www.fsa.gov.uk/pubs/other/keyfacts\\_logo](http://www.fsa.gov.uk/pubs/other/keyfacts_logo).

**Note 3** – insert the *firm's* or *appointed representative's* name (either the name under which it is *authorised* or the name under which it trades). A corporate logo or logos may be included.

**Note 4** – if an individual who is employed or engaged by an *appointed representative* provides the information, the individual should not put his or her own name on the CIDD.

**Note 5** – insert the head office or if more appropriate the principal place of business from which the *firm* or *appointed representative* expects to conduct business (this can include a *branch*) with *customers*. (An *appointed representative* must not include the name and address of the *authorised firm* instead of its own.)

## **Section 2: Whose products do we offer?**

**Note 6** – for services in relation to *packaged products* and *regulated mortgage contracts*, *regulated lifetime mortgage contracts* and home reversion schemes the *firm* must select, for example by ticking, one box which is appropriate for the service which it expects to provide to the *customer*. For services in relation to *non-investment insurance contracts*, the *firm* must select more than one box if the scope of the service or the type of service it provides to a particular *customer* varies by type of contract. For example, if it deals with a single *insurance undertaking* for motor insurance and a range of *insurance undertakings* for household insurance or if it provides *advice* on some types of contract but not others. In the case where more than one box is selected, the *firm* should specify which box relates to which type of *non-investment insurance contract*, by adding text to

the CIDD. This needs to be done only in relation to the service it is offering to a particular *customer*.

**Note 6A** – if a *firm* indicates that it will be providing *basic advice on stakeholder products* then the first box in section 2 must not be ticked as the *firm* will not be doing so on the basis of *advice on investments* from the whole market.

**Note 7** - if the CIDD is provided by an *appointed representative*, the service described must be that offered by the *appointed representative*, in accordance with COB 5, ICOB 4.2.8R note 1(e) and MCOB 4.3.10R.

**Note 8** – insert “can” if the *firm*'s range of products is determined by any contractual obligation. This does not apply where a *product provider, insurer, lender* or company is selling its own products.

**Note 9** – if the *insurance intermediary* deals with a different *insurance undertaking* for different types of *non-investment insurance contracts*, it should identify all the *insurance undertakings* and specify the type of contract to which they relate on the CIDD. This only needs to be done in relation to the service it is offering a particular *customer*. For example, “we can only offer products from ABC Insurance for motor insurance and XYZ Insurance for household insurance”.

**Note 10** – if the *firm* selects this box, it will be offering the products of one provider to the *customer* for a particular product type. It should therefore follow the format specified in (1) below except when offering its own products, in which case it should follow (2) instead. In the case of *non-investment insurance contracts*, where the *firm* is providing a service in relation to different types of insurance, this box covers the situation where it is offering a particular type of insurance from a single *insurance undertaking*. If the *firm* does not select this box, then the text must follow that set out in note 13 below.

- (1) Insert the name of the provider, namely the *product provider* for *packaged products*, the *insurance undertaking(s)* for *non-investment insurance contracts*, the lender for *regulated mortgage contracts* and *regulated lifetime mortgage contracts* and the company for home reversion schemes. For example: "We can only offer products from [name of *product provider*]". For *non-investment insurance contracts* the type of insurance offered should also be included. For example: "We only offer XYZ's household insurance and ABC's motor insurance." If the provider has only one product, the *firm* must amend the text to the singular – for example: "We can only offer a mortgage from [name of lender]". If the *firm* does not offer all of the ~~*packaged products*~~ or mortgages or home reversion schemes generally available from that provider, it must insert the words "a limited range of" as shown in the specimen.
- (2) If the *firm* is a *product provider* offering only its own products, or is part of a *product provider* offering only the products sold under that part's trading name, it should use this alternative text.

**Note 11** – for services provided in relation to *regulated mortgage contracts*, *regulated lifetime mortgage contracts* and home reversion schemes, this sentence is required only where a firm selects this service option. It may also be omitted if a the firm chooses to list all of the ~~companies~~ lenders it offers mortgages from instead of the text "a limited number of lenders", in the previous line, so long as the *firm* offers all of the products generally available from each ~~provider~~ lender.

**Note 12** – this sentence is required only where a firm selects this service option. For services provided in relation to *packaged products*, the list of products will be the range of *packaged products* that is appropriate having regard to the services that the *firm* is providing, or may provide, to the *customer*. For services provided in relation to *non-investment insurance contracts*, this is the list required by *ICOB 4.2.14R*.

**Note 13** – if the *firm* does not select this box, it must alter the wording to say "a single group of companies" for *packaged products*, "a single insurer" for *non-investment insurance contracts*, "a single lender" for *regulated mortgage contracts* or *regulated lifetime mortgage contracts* and "a single company" for home reversion schemes. For example: "We only offer the products from a single group of companies" should replace the text in the specimen CIDD.

**Note 14** – change “mortgage” to “lifetime mortgage” where the *firm* sells only *regulated lifetime mortgage contracts*. *Firms* must insert the text relating to home reversion schemes and change “mortgage” to “product” and “lender” to “company” if they advise or give personalised information on home reversion schemes in addition to *advising* or giving personalised information on *regulated lifetime mortgage contracts*.

#### **Section 4: What will you have to pay us for our services?**

**Note 15** – *firms* are only required to provide a *private customer* with an appropriate "keyfacts guide to the costs of services" (i.e. a menu) if they propose to give that *customer advice* on *packaged products*. Where a *firm* is not required to provide that *customer* with a menu because the *firm* does not intend to give him advice on *packaged products*, ~~the firm may omit the part of section 4 of the CIDD that relates to packaged products~~ then it should tick the second box in section 4.

**Note 16** – if the *customer* will be charged a *fee* for *insurance mediation activities* in connection with *non-investment insurance contracts*, insert a plain language description of what each *fee* is for and when each *fee* is payable. This should include any *fees* for *advising on* or *arranging a non-investment insurance contract* and any *fees* over the life of the contract, for example, for mid-term adjustments. If a *firm* does not charge a *fee* the text in the first box should be abbreviated to 'A fee'. If the firm is offering more than one type of service in connection with non-investment insurance contracts, the firm may aggregate the fees over all the services provided, and (if that is the case) identify the services for which there is no fee.

**Note 17** – if the *firm* receives commission instead of, or in addition to, *fees* from the *customer* for services relating to *regulated mortgage contracts*, *regulated lifetime mortgage contracts* or home reversion schemes, it must insert a plain language

explanation of this (see specimen for a plain language example). If the firm will pay over to the customer any commission the firm receives, it may refer to that fact here.

**Note 18** – insert a plain language description of when any *fees* are payable for services relating to *regulated mortgage contracts*, *regulated lifetime mortgage contracts* or home reversion schemes. This description could include, for example, a cash amount, a percentage of the loan or reversion amount or the amount per hour, as appropriate. However, where a cash amount is not disclosed, one or more examples of the cash amount must be included. If a *firm* offers more than one pricing option, it may illustrate each with a separate box. If a firm does not charge a *fee*, the text for the second box should be abbreviated to 'A fee'.

**Note 19** – omit this part of the CIDD on 'Refund of fees' if the *firm* has indicated that there will be "No fee" for services in relation to *regulated mortgage contracts*, *regulated lifetime mortgage contracts* or home reversion schemes or that any fee will be payable only if the product completes.

**Note 20** – *firms* may select as many boxes as appropriate.

**Note 21** – insert a short, plain language description of the circumstances in which the *fee* for services in relation to *regulated mortgage contracts*, *regulated lifetime mortgage contracts* or home reversion schemes is refundable or not refundable as described.

**Note 22** – a *firm* may delete this line if it does not offer a partial refund for services in relation to *regulated mortgage contracts*, *regulated lifetime mortgage contracts* or home reversion schemes in any circumstances.

### **Section 5: Who regulates us?**

**Note 23** – the *firm* may omit this section for services relating to *packaged products* if the *firm* has, on first contact with the *customer*, provided the *customer* with its *terms of business* which contains that information including the *firm's permitted business*. This section may be omitted for services relating to *non-investment insurance contracts* if the *firm* provides the information covered by this section where it is required by *ICOB 4.2.8R* to the *customer* by some other means. This section may be omitted for services relating to *regulated mortgage contracts* (including *regulated lifetime mortgage contracts*) and home reversion schemes in accordance with *MCOB 4.4.1R(3)*. If this section is omitted, the other sections of the CIDD must be renumbered accordingly.

**Note 24** – if the *firm's* address on the *FSA Register* differs from that given on the CIDD under note 5, the address on the *FSA Register* must be given in this section. If the address is the same as that given under note 5 it should be repeated in this section.

**Note 25** – where the *authorised firm* trades under a different name from that under which it is *authorised*, it must include the name under which it is *authorised* and listed in the *FSA Register*. It may also include its trading name(s) if it wishes.

**Note 26** - an *incoming EEA firm* will need to modify this section if it chooses to use this CIDD (see *GEN 4 Ann 1R(2)*).

**Note 27** – insert a short, plain language description of the business for which the *firm* has a *permission* which relates to the service it is providing.

**Note 28** – where the information is provided by an *appointed representative*, the *appointed representative* must use this text instead. The *appointed representative* must give details of the *authorised firm(s)* that is its *principal(s)* for each type of service that it is providing to a particular *customer*.

## **Section 6: Loans and ownership**

**Note 29** – omit this section where there are no relevant loan or ownership arrangements under the following notes or if the *firm* is an *insurer* selling its own *non-investment insurance contracts*. If this section is omitted the other sections of the CIDD must be renumbered accordingly. If the *firm* is not providing services in relation to *packaged products*, the heading of this section must be changed to 'Ownership'. Where the information is provided by an *appointed representative*, it must cover loans made to or by that *appointed representative* or holdings in, or held by, that *appointed representative* as appropriate.

**Notes 30, 31 and 32** apply only to a *firm* *advising on, dealing in, or arranging* in relation to *packaged products* ~~for private customers~~.

**Note 30** – insert, in the *firm's* own words, a short description of any direct or indirect holding of more than 10 per cent in the capital or voting power of the *firm* which is held by a provider of *packaged products* or by the parent of the provider.

**Note 31** – insert, in the *firm's* own words, a short description of any direct or indirect holding of more than 10 per cent in the capital or voting power of a provider of *packaged products* which is held by the *firm*.

**Note 32** – insert, in the *firm's* own words, a short description of any *credit* provided to the *firm* by a *product provider* (other than *commission* due to the *firm* in accordance with an indemnity claw-back arrangement) or by any *undertaking* in the *immediate group* of the *product provider* where the amount of the *credit* exceeds 10 per cent of the share and loan capital of the *firm*.

**Notes 33 and 34** apply to an *insurance intermediary* that is not an *insurer* providing services in relation to *non-investment insurance contracts*.

**Note 33** – insert, in the *insurance intermediary's* own words, a short description of any direct or indirect holding of more than 10 per cent in the capital or voting power of the *insurance intermediary* which is held by an *insurance undertaking* or by the parent of an *insurance undertaking*.

**Note 34** – insert, in the *insurance intermediary's* own words, a short description of any direct or indirect holding of more than 10 per cent in the capital or voting power of an *insurance undertaking* which is held by the *insurance intermediary*.

**Section 7: What to do if you have a complaint**

**Note 35** – if different to the address in note 5, give the address and telephone number which is to be used by *customers* wishing to complain.

**Note 36** – this text may be omitted for *non-investment insurance contracts* if the *insurance intermediary* is aware that a *commercial customer* would not be an *eligible complainant*.

**Note 36A** – if the CIDD is provided by an *authorised professional firm* which is exclusively carrying on *non-mainstream regulated activities*, the *authorised professional firm* should delete this sentence and refer to the alternative complaints handling arrangements. It should also omit the information required under note 14.

**Note 37** – if the *firm* is carrying on an activity from an establishment which is outside the *United Kingdom* it must make clear that the *Financial Ombudsman Service* will not be available. The *firm* may refer to any similar complaints scheme that may be applicable.

**Section 8: Are we covered by the Financial Services Compensation Scheme (FSCS)?**

**Note 38** – when an *incoming EEA firm* provides the CIDD, it must modify this section as appropriate.

**Note 38A** - when a *firm* which is not a *participant firm* provides the CIDD, it must answer this question 'No' and should state the amount of cover provided (if any) and from whom further information about the compensation arrangements may be obtained. It should also omit the information required under note 14.

**Note 39** – where the *insurance intermediary* provides a service in relation to a compulsory class of insurance, such as *employers' liability insurance*, it must use this alternative text.

**Note 39A** – where the *insurance intermediary* provides a service in relation to a contract which covers both a compulsory class of insurance and a class of insurance which is not compulsory, it should indicate the level of compensation that applies to each class.

**Section 9: Group personal pensions**

~~**Note 40** – *firms* should only include section 9 if they intend to give information about, or advise on, the opportunity for *employees* to join a *group personal pension scheme* established by their employer. In all other cases it should be omitted entirely.~~

~~**Note 41** – the words in square brackets should be omitted or included, as appropriate, depending upon whether the *firm* is *advising employees* whether or not to join a *group*~~

*personal pension scheme*, or merely providing them with factual information about the scheme.

**Note 42**—although *firms* must not use the occasion of a meeting to discuss a *group personal pension scheme* as an opportunity to give advice on other *designated investments*, this does not preclude the provision of *advice on non investment insurance contracts, regulated mortgage contracts or regulated lifetime mortgage contracts*. A *firm* may also, when giving *advice on a group personal pension scheme*, suggest that a further meeting be arranged to discuss *designated investments* and if so must provide a further appropriate IDD or CIDD.

### **Lifetime mortgage warning**

**Note 403** - This warning box should be added when the *firm* sells *regulated lifetime mortgage contracts* or home reversion schemes or both.

## Annex D

### Amendments to the Mortgages: Conduct of Business sourcebook

In this Annex underlining indicates new text and striking through indicates deleted text.

#### MCOB 4 Annex 2 R: Combined initial disclosure document (“CIDD”)\*\*

This Annex belongs to MCOB 4.4.1R(1).

This specimen covers services in relation to *packaged products, non-investment insurance contracts* and *regulated mortgage contracts* (including *regulated lifetime mortgage contracts* and home reversion schemes). If the *firm* is only providing services in relation to two types of these products, the parts of the CIDD that are not relevant must be omitted. *Firms* must omit the notes and square brackets that appear in the following CIDD. The CIDD must contain the keyfacts logo, headings and text in the order shown and in accordance with the notes. [Note 1]

---

about our services [Note 2]

[Note 5]  
[123 Any Street  
Some Town  
ST21 7QB]

[Note 3] [Note 4]

---

#### 1 The Financial Services Authority (FSA)

---

The FSA is the independent watchdog that regulates financial services. It requires us to give you this document. Use this information to decide if our services are right for you.

---

#### 2 Whose products do we offer? [Note 6] [Note 7]

---

##### Investment

- We offer products from the whole market. [Note 6A]
- We [can] [Note 8] only offer products from a limited number of companies.

Ask us for a list of the companies and products we offer. [Note 12]

We [can] [**Note 8**] only offer [a] [~~a limited range of the~~] product[s] from [a single group of companies] [name of single company]. [**Note 10(1)**] [**Note 13**]

[or] [**Note 10(2)**]

We only offer our own products.

Ask us for a list of the companies and products we offer. [**Note 12**]

[~~We will advise you about group personal pensions.~~]

### Insurance

We offer products from a range of insurers [for] [list the types of *non-investment insurance contracts*].

We [can] [**Note 8**] only offer products from a limited number of insurers [for] [list the types of *non-investment insurance contracts*].

Ask us for a list of the insurers we offer insurance from. [**Note 12**]

We [can] [**Note 8**] only offer [a] product[s] from [a single insurer] [name of single *insurance undertaking*] [for] [list the types of *non-investment insurance contracts*]. [**Note 9**] [**Note 10(1)**] [**Note 13**]

[or] [**Note 10(2)**]

We only offer our own products for [list the types of *non-investment insurance contracts*].

### [Lifetime] Mortgages [and home reversion schemes] [**Note 14**]

We offer mortgages from the whole market.

We [can] [**Note 8**] only offer mortgages from a limited number of lenders.

Ask us for a list of the lenders we offer mortgages from. [**Note 11**]

We [can] [**Note 8**] only offer [a limited range of the] [a] mortgage[s] from [a single lender] [name of single lender]. [**Note 10(1)**][**Note 13**]

[or] [**Note 10(2)**]

We only offer our own mortgages.

## 3 Which service will we provide you with? [**Note 6**]

---

## Investment

- We will advise and make a recommendation for you after we have assessed your needs.
- You will not receive advice or a recommendation from us. We may ask some questions to narrow down the selection of products that we will provide details on. You will then need to make your own choice about how to proceed.
- We will provide basic advice on a limited range of stakeholder products and in order to do this we will ask some questions about your income, savings and other circumstances but we will not:
- Conduct a full assessment of your needs;
  - Offer advice on whether a non-stakeholder product may be more suitable

### [Note 6A]

## Insurance

- We will advise and make a recommendation for you after we have assessed your needs [for] [list the types of *non-investment insurance contracts*].
- You will not receive advice or a recommendation from us [for] [list the types of *non-investment insurance contracts*]. We may ask some questions to narrow down the selection of products that we will provide details on. You will then need to make your own choice about how to proceed.

## **[Lifetime] Mortgages [and home reversion schemes] [Note 14]**

- We will advise and make a recommendation for you after we have assessed your needs.
- You will not receive advice or a recommendation from us. We may ask some questions to narrow down the selection of products that we will provide details on. You will then need to make your own choice about how to proceed.

---

## **4 What will you have to pay us for our services?**

---

## Investment

- Before we provide you with advice, we will give you our keyfacts guide 'about the cost of our services'. **[Note 15]**

- We will tell you how we get paid, and the amount, before we carry out any business for you.

### **Insurance [Note 16]**

- A fee [of £ [ ] ] [for] [list the types of services provided for non-investment insurance contracts].
- No fee [for] [list the types of services provided for non-investment insurance contracts].

You will receive a quotation which will tell you about any other fees relating to any particular insurance policy.

### **[Lifetime] Mortgages [and home reversion schemes] [Note 14]**

- No fee. [We will be paid by commission from the [lender/company].] [Note 17]
- A fee of £[ ] payable at the outset and £[ ] payable when you apply for a [lifetime] mortgage [or home reversion scheme]. [We will also be paid commission from the [lender/company].] [Note 17] [Note 18]

You will receive a keyfacts illustration when considering a particular [lifetime] mortgage, [or further information about a particular home reversion scheme] which will tell you about any fees relating to it. [Note 14]

### **Refund of fees [Note 19] [Note 14]**

If we charge you a fee, and your [lifetime] mortgage [or home reversion scheme] does not go ahead, you will receive:

#### **[Note 20]**

- A full refund [if the [lender/company] rejects your application]. [Note 21]
- A refund of £ [ ] [if your application falls through]. [Note 21] [Note 22]
- No refund [if you decide not to proceed]. [Note 21]

---

## **5 Who regulates us? [Note 23]**

---

[XYZ Financial Services] [123 Any Street, Some Town, ST21 7QB] [Note 24] [Note 25] is authorised and regulated by the Financial Services Authority. Our FSA Register number is [ ]. [Note 26]

Our permitted business is [ ]. [Note 27]

[or] [Note 28]

[Name of *appointed representative*] [Note 3] [Note 4] is an appointed representative of [name of *firm*] [address of *firm*] [Note 24] [Note 25] which is authorised and regulated by the Financial Services Authority. [Name of *firm's*] FSA Register number is [ ].

[Name of *firm's*] permitted business is [ ] [Note 27]

You can check this on the FSA's Register by visiting the FSA's website [www.fsa.gov.uk/register](http://www.fsa.gov.uk/register) or by contacting the FSA on 0845 606 1234.

[Home reversion schemes are not regulated by the FSA.] [Note 14]

---

## 6 Loans and ownership [Note 29]

---

[B&C Investments plc owns 20% of our share capital.]

[London Union plc provides us with loan finance of £250,000 per year.]

[XYZ Financial Services (or we) have 20% of the voting rights in Royal Edinburgh.]  
[Note 29][Note 30][Note 31][Note 32][Note 33][Note 34]

---

## 7 What to do if you have a complaint [Note 23]

---

If you wish to register a complaint, please contact us:

**...in writing** Write to [XYZ Financial Services], [Complaints Department, 123 Any Street, Some Town, ST21 7QB].

**... by phone** Telephone [0121 100 1234]. [Note 35]

If you cannot settle your complaint with us, you may be entitled to refer it to the Financial Ombudsman Service. [Note 36] [Note 36A] [Note 37] [The Financial Ombudsman Service does not consider complaints about home reversion schemes.] [Note 14]

---

## 8 Are we covered by the Financial Services Compensation Scheme (FSCS)? [Note 23] [Note 38] [Note 38A]

---

We are covered by the FSCS. You may be entitled to compensation from the scheme if we cannot meet our obligations. This depends on the type of business and the circumstances of the claim.

### Investment

*Most types of investment business are covered for 100% of the first £30,000 and 90% of the next £20,000 so the maximum compensation is £48,000.*

### Insurance

***Insurance advising and arranging is covered for 100% of the first £2,000 and 90% of the remainder of the claim, without any upper limit.***

*[or] [Note 39] [Note 39A]*

***For compulsory classes of insurance, insurance advising and arranging is covered for 100% of the claim, without any upper limit.***

**[Lifetime] Mortgages [and home reversion schemes] [Note 14]**

***Mortgage advising and arranging is covered for 100% of the first £30,000 and 90% of the next £20,000 so the maximum compensation is £48,000. [Home reversion schemes are not covered by the Financial Services Compensation Scheme.] [Note 14]***

***Further information about compensation scheme arrangements is available from the FSCS.***

---

*9 — Group personal pensions [Notes 40, 41 and 42]*

---

***~~This meeting has been arranged so that we can provide you with [information about] [advice upon whether or not you should join] the Group Personal Pension scheme which your employer has established. You should be aware that we cannot advise upon or recommend any other specific investment products during this meeting.~~***

***[Note 40~~3~~] Message from the Financial Services Authority***

***Think carefully about this information before deciding whether you want to go ahead.***

***If you are at all unsure about which lifetime mortgage or home reversion scheme is right for you, you should ask your adviser to make a recommendation.***

***Please remember that home reversion schemes are not regulated by the FSA.***

The following notes do not form part of the CIDD.

**Note 1** – subject to this, a *firm* may use its own house style and brand.

**Note 2** – the *Financial Services Authority* has developed a common keyfacts logo to be used on significant pieces of information directed to *customers*. ~~ICOB 4.2.6R sets out the requirements on the use of the key facts logo.~~ The keyfacts logo and the text 'about our services' must be used and positioned as shown in the CIDD. The logo may be re-sized, but it must be reasonably prominent and its proportions must not be distorted. When reproducing the logo, firms may use colour providing this does not diminish the prominence of the logo. A specimen of the keyfacts logo can be obtained from the *FSA* website [http://www.fsa.gov.uk/pubs/other/keyfacts\\_logo](http://www.fsa.gov.uk/pubs/other/keyfacts_logo).

**Note 3** – insert the *firm's* or *appointed representative's* name (either the name under which it is *authorised* or the name under which it trades). A corporate logo or logos may be included.

**Note 4** – if an individual who is employed or engaged by an *appointed representative* provides the information, the individual should not put his or her own name on the CIDD.

**Note 5** – insert the head office or if more appropriate the principal place of business from which the *firm* or *appointed representative* expects to conduct business (this can include a *branch*) with *customers*. (An *appointed representative* must not include the name and address of the *authorised firm* instead of its own.)

## **Section 2: Whose products do we offer?**

**Note 6** – for services in relation to *packaged products* and *regulated mortgage contracts*, *regulated lifetime mortgage contracts* and home reversion schemes the *firm* must select, for example by ticking, one box which is appropriate for the service which it expects to provide to the *customer*. For services in relation to *non-investment insurance contracts*, the *firm* must select more than one box if the scope of the service or the type of service it provides to a particular *customer* varies by type of contract. For example, if it deals with a single *insurance undertaking* for motor insurance and a range of *insurance undertakings* for household insurance or if it provides *advice* on some types of contract but not others. In the case where more than one box is selected, the *firm* should specify which box relates to which type of *non-investment insurance contract*, by adding text to the CIDD. This needs to be done only in relation to the service it is offering to a particular *customer*.

**Note 6A** – if a *firm* indicates that it will be providing *basic advice on stakeholder products* then the first box in section 2 must not be ticked as the *firm* will not be doing so on the basis of *advice on investments* from the whole market.

**Note 7** - if the CIDD is provided by an *appointed representative*, the service described must be that offered by the *appointed representative*, in accordance with *COB 5*, *ICOB 4.2.8R* note 1(e) and *MCOB 4.3.10R*.

**Note 8** – insert “can” if the *firm’s* range of products is determined by any contractual obligation. This does not apply where a *product provider, insurer, lender* or company is selling its own products.

**Note 9** – if the *insurance intermediary* deals with a different *insurance undertaking* for different types of *non-investment insurance contracts*, it should identify all the *insurance undertakings* and specify the type of contract to which they relate on the CIDD. This only needs to be done in relation to the service it is offering a particular *customer*. For example, “we can only offer products from ABC Insurance for motor insurance and XYZ Insurance for household insurance”.

**Note 10** – if the *firm* selects this box, it will be offering the products of one provider to the *customer* for a particular product type. It should therefore follow the format specified in (1) below except when offering its own products, in which case it should follow (2) instead. In the case of *non-investment insurance contracts*, where the *firm* is providing a service in relation to different types of insurance, this box covers the situation where it is offering a particular type of insurance from a single *insurance undertaking*. If the *firm* does not select this box, then the text must follow that set out in note 13 below.

- (1) Insert the name of the provider, namely the *product provider* for *packaged products*, the *insurance undertaking(s)* for *non-investment insurance contracts*, the lender for *regulated mortgage contracts* and *regulated lifetime mortgage contracts* and the company for home reversion schemes. For example: "We can only offer products from [name of *product provider*]". For *non-investment insurance contracts* the type of insurance offered should also be included. For example: "We only offer XYZ's household insurance and ABC's motor insurance." If the provider has only one product, the *firm* must amend the text to the singular – for example: "We can only offer a mortgage from [name of lender]". If the *firm* does not offer all of the ~~*packaged products*~~ or mortgages or home reversion schemes generally available from that provider, it must insert the words "a limited range of" as shown in the specimen.
- (2) If the *firm* is a *product provider* offering only its own products, or is part of a *product provider* offering only the products sold under that part’s trading name, it should use this alternative text.

**Note 11** – for services provided in relation to *regulated mortgage contracts, regulated lifetime mortgage contracts* and home reversion schemes, this sentence is required only where a *firm* selects this service option. It may also be omitted if a ~~the~~ *firm* chooses to list all of the ~~companies~~ lenders it offers mortgages from instead of the text "a limited number of lenders", in the previous line, so long as the *firm* offers all of the products generally available from each ~~provider~~ lender.

**Note 12** – this sentence is required only where a *firm* selects this service option. For services provided in relation to *packaged products*, the list of products will be the range of *packaged products* that is appropriate having regard to the services that the *firm* is providing, or may provide, to the *customer*. For services provided in relation to *non-investment insurance contracts*, this is the list required by *ICOB 4.2.14R*.

**Note 13** – if the *firm* does not select this box, it must alter the wording to say "a single group of companies" for *packaged products*, "a single insurer" for *non-investment insurance contracts*, "a single lender" for *regulated mortgage contracts* or *regulated lifetime mortgage contracts* and "a single company" for home reversion schemes. For example: "We only offer the products from a single group of companies" should replace the text in the specimen CIDD.

**Note 14** – change “mortgage” to “lifetime mortgage” where the *firm* sells only *regulated lifetime mortgage contracts*. *Firms* must insert the text relating to home reversion schemes and change “mortgage” to “product” and “lender” to “company” if they advise or give personalised information on home reversion schemes in addition to *advising* or giving personalised information on *regulated lifetime mortgage contracts*.

#### **Section 4: What will you have to pay us for our services?**

**Note 15** – *firms* are only required to provide a *private customer* with an appropriate "keyfacts guide to the costs of services" (i.e. a menu) if they propose to give that *customer advice* on *packaged products*. Where a *firm* is not required to provide that *customer* with a menu because the *firm* does not intend to give him advice on packaged products, ~~the firm may omit the part of section 4 of the CIDD that relates to packaged products~~ then it should tick the second box in section 4.

**Note 16** – if the *customer* will be charged a *fee* for *insurance mediation activities* in connection with *non-investment insurance contracts*, insert a plain language description of what each *fee* is for and when each *fee* is payable. This should include any *fees* for *advising on* or *arranging a non-investment insurance contract* and any *fees* over the life of the contract, for example, for mid-term adjustments. If a *firm* does not charge a *fee* the text in the first box should be abbreviated to 'A fee'. If the firm is offering more than one type of service in connection with non-investment insurance contracts, the firm may aggregate the fees over all the services provided, and (if that is the case) identify the services for which there is no fee.

**Note 17** – if the *firm* receives commission instead of, or in addition to, *fees* from the *customer* for services relating to *regulated mortgage contracts*, *regulated lifetime mortgage contracts* or home reversion schemes, it must insert a plain language explanation of this (see specimen for a plain language example). If the firm will pay over to the customer any commission the firm receives, it may refer to that fact here.

**Note 18** – insert a plain language description of when any *fees* are payable for services relating to *regulated mortgage contracts*, *regulated lifetime mortgage contracts* or home reversion schemes. This description could include, for example, a cash amount, a percentage of the loan or reversion amount or the amount per hour, as appropriate. However, where a cash amount is not disclosed, one or more examples of the cash amount must be included. If a *firm* offers more than one pricing option, it may illustrate each with a separate box. If a *firm* does not charge a *fee*, the text for the second box should be abbreviated to 'A fee'.

**Note 19** – omit this part of the CIDD on ‘Refund of fees’ if the *firm* has indicated that there will be “No fee” for services in relation to *regulated mortgage contracts, regulated lifetime mortgage contracts* or home reversion schemes or that any fee will be payable only if the product completes.

**Note 20** – *firms* may select as many boxes as appropriate.

**Note 21** – insert a short, plain language description of the circumstances in which the *fee* for services in relation to *regulated mortgage contracts, regulated lifetime mortgage contracts* or home reversion schemes is refundable or not refundable as described.

**Note 22** – a *firm* may delete this line if it does not offer a partial refund for services in relation to *regulated mortgage contracts, regulated lifetime mortgage contracts* or home reversion schemes in any circumstances.

### **Section 5: Who regulates us?**

**Note 23** – the *firm* may omit this section for services relating to *packaged products* if the *firm* has, on first contact with the *customer*, provided the *customer* with its *terms of business* which contains that information including the *firm’s permitted business*. This section may be omitted for services relating to *non-investment insurance contracts* if the *firm* provides the information covered by this section where it is required by *ICOB 4.2.8R* to the *customer* by some other means. This section may be omitted for services relating to *regulated mortgage contracts* (including *regulated lifetime mortgage contracts*) and home reversion schemes in accordance with *MCOB 4.4.1R(3)*. If this section is omitted, the other sections of the CIDD must be renumbered accordingly.

**Note 24** – if the *firm’s* address on the *FSA Register* differs from that given on the CIDD under note 5, the address on the *FSA Register* must be given in this section. If the address is the same as that given under note 5 it should be repeated in this section.

**Note 25** – where the *authorised firm* trades under a different name from that under which it is *authorised*, it must include the name under which it is *authorised* and listed in the *FSA Register*. It may also include its trading name(s) if it wishes.

**Note 26** - an *incoming EEA firm* will need to modify this section if it chooses to use this CIDD (see *GEN 4 Ann 1R(2)*).

**Note 27** – insert a short, plain language description of the business for which the *firm* has a *permission* which relates to the service it is providing.

**Note 28** – where the information is provided by an *appointed representative*, the *appointed representative* must use this text instead. The *appointed representative* must give details of the *authorised firm(s)* that is its *principal(s)* for each type of service that it is providing to a particular *customer*.

### **Section 6: Loans and ownership**

**Note 29** – omit this section where there are no relevant loan or ownership arrangements under the following notes or if the *firm* is an *insurer* selling its own *non-investment insurance contracts*. If this section is omitted the other sections of the CIDD must be renumbered accordingly. If the *firm* is not providing services in relation to *packaged products*, the heading of this section must be changed to 'Ownership'. Where the information is provided by an appointed representative, it must cover loans made to or by that appointed representative or holdings in, or held by, that appointed representative as appropriate.

**Notes 30, 31 and 32** apply only to a *firm* *advising on, dealing in, or arranging* in relation to *packaged products* ~~for private customers~~.

**Note 30** – insert, in the *firm's* own words, a short description of any direct or indirect holding of more than 10 per cent in the capital or voting power of the *firm* which is held by a provider of *packaged products* or by the parent of the provider.

**Note 31** – insert, in the *firm's* own words, a short description of any direct or indirect holding of more than 10 per cent in the capital or voting power of a provider of *packaged products* which is held by the *firm*.

**Note 32** – insert, in the *firm's* own words, a short description of any *credit* provided to the *firm* by a *product provider* (other than *commission* due to the *firm* in accordance with an indemnity claw-back arrangement) or by any *undertaking* in the *immediate group* of the *product provider* where the amount of the *credit* exceeds 10 per cent of the share and loan capital of the *firm*.

**Notes 33 and 34** apply to an *insurance intermediary* that is not an *insurer* providing services in relation to *non-investment insurance contracts*.

**Note 33** – insert, in the *insurance intermediary's* own words, a short description of any direct or indirect holding of more than 10 per cent in the capital or voting power of the *insurance intermediary* which is held by an *insurance undertaking* or by the parent of an *insurance undertaking*.

**Note 34** – insert, in the *insurance intermediary's* own words, a short description of any direct or indirect holding of more than 10 per cent in the capital or voting power of an *insurance undertaking* which is held by the *insurance intermediary*.

### **Section 7: What to do if you have a complaint**

**Note 35** – if different to the address in note 5, give the address and telephone number which is to be used by *customers* wishing to complain.

**Note 36** – this text may be omitted for *non-investment insurance contracts* if the *insurance intermediary* is aware that a *commercial customer* would not be an *eligible complainant*.

**Note 36A** – if the CIDD is provided by an authorised professional firm which is exclusively carrying on non-mainstream regulated activities, the authorised professional

firm should delete this sentence and refer to the alternative complaints handling arrangements. It should also omit the information required under note 14.

**Note 37** – if the *firm* is carrying on an activity from an establishment which is outside the *United Kingdom* it must make clear that the *Financial Ombudsman Service* will not be available. The *firm* may refer to any similar complaints scheme that may be applicable.

### **Section 8: Are we covered by the Financial Services Compensation Scheme (FSCS)?**

**Note 38** – when an *incoming EEA firm* provides the CIDD, it must modify this section as appropriate.

**Note 38A** - when a *firm* which is not a *participant firm* provides the CIDD, it must answer this question 'No' and should state the amount of cover provided (if any) and from whom further information about the compensation arrangements may be obtained. It should also omit the information required under note 14.

**Note 39** – where the *insurance intermediary* provides a service in relation to a compulsory class of insurance, such as *employers' liability insurance*, it must use this alternative text.

**Note 39A** – where the *insurance intermediary* provides a service in relation to a contract which covers both a compulsory class of insurance and a class of insurance which is not compulsory, it should indicate the level of compensation that applies to each class.

### **Section 9: Group personal pensions**

~~**Note 40** – *firms* should only include section 9 if they intend to give information about, or advise on, the opportunity for *employees* to join a *group personal pension scheme* established by their employer. In all other cases it should be omitted entirely.~~

~~**Note 41** – the words in square brackets should be omitted or included, as appropriate, depending upon whether the *firm* is *advising employees* whether or not to join a *group personal pension scheme*, or merely providing them with factual information about the scheme.~~

~~**Note 42** – although *firms* must not use the occasion of a meeting to discuss a *group personal pension scheme* as an opportunity to give *advice on other designated investments*, this does not preclude the provision of *advice on non investment insurance contracts, regulated mortgage contracts or regulated lifetime mortgage contracts*. A *firm* may also, when giving *advice on a group personal pension scheme*, suggest that a further meeting be arranged to discuss *designated investments* and if so must provide a further appropriate IDD or CIDD.~~

### **Lifetime mortgage warning**

**Note 403** - This warning box should be added when the *firm* sells *regulated lifetime mortgage contracts* or home reversion schemes or both.

## Annex E

### Amendments to the Client Assets sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

Money that is not client money: ‘opt outs’ for any business (including ISD business) other than insurance mediation activity

- 4.1.8 G The ‘opt out’ provisions provide a *firm* with the option of allowing an *intermediate customer* or *market counterparty* to choose whether their *money* is subject to the *client money rules* (unless the *firm* is conducting *insurance mediation activity*).
- 4.1.9 R Subject to CASS 4.1.11R, *money* is not *client money* when a *firm* (other than a sole trader) holds that *money* on behalf of, or receives it from, a *market counterparty* or an *intermediate customer*, other than in the course of *insurance mediation activity*, and the *firm* has obtained written acknowledgement from the *market counterparty* or *intermediate customer* that:
- (1) ...
- ‘Opt-outs’ for non-ISD or non-IMD business
- 4.1.10 G For a *firm* whose business is not governed by the *ISD* or the *IMD*, it is possible to ‘opt out’ on a one-way basis. ...
- 4.1.11 R *Money* is not *client money* if a *firm*, in respect of designated investment business which is not a *core investment service*, a *non-core investment service*, ~~or~~ a *listed activity* or *insurance mediation activity* :
- (1) ...

## Annex H

### Amendments to the Supervision manual

In this Annex, underlining indicates new text and striking through indicates deleted text.

...

12.2.5 G [deleted]

What is a “network”?

12.2.6 G ~~An independent intermediary~~ A firm is referred to as a ‘network’ if it appoints five or more *appointed representatives* or if it appoints less than five *appointed representatives* which have, between them, twenty-six or more ~~financial advisers~~ representatives. However, a network does not include:

(a) a product provider;

(b) a firm which markets the packaged products of a product provider in the same group as the firm and which does so other than by selecting products from the whole market;

(c) an insurer in relation to a non-investment insurance contract; or

(d) a mortgage lender.

...

Introducers, and representatives and financial advisers: what do these terms mean and what is the relationship with an appointed representative?

12.2.12 G A firm or its *appointed representative* may appoint or employ individuals to act as introducers, or representatives ~~or financial advisers~~ in respect of *designated investment business*.

12.2.13 G (1) An *introducer* is an individual appointed by a ~~provider~~ firm or by an *appointed representative* of such a firm to carry out, in the course of *designated investment business*, either or both of the following activities:

- ...
- 12.2.14 G (1) A *representative* is an individual who is appointed by a *provider firm* or an *appointed representative*...
- ...
- (2) If a *provider firm* appoints an *appointed representative* who is an individual in (1), that *appointed representative* will also be a *representative*...
- 12.2.15 G (1) ~~A *financial adviser* is an individual appointed by an *independent intermediary* or by its *appointed representative* to provide any or all of the following services:~~
- (a) ~~*advising on investments which are designated investments;*~~
- (b) ~~*arranging (bringing about) deals in investments or executing transactions involving, in each case, designated investments with or for clients;*~~
- (c) ~~*managing investments;*~~
- (d) ~~receiving or holding *client money* or other *client assets*;~~
- (e) ~~*safeguarding and administering investments.*~~
- (2) ~~Many of the activities for which an *appointed representative* can be appointed (see SUP 12.2.7G) are also within (1). If an *independent intermediary* appoints an *appointed representative* which is an individual in business on his own account, to perform such activities, that *appointed representative* will also be a financial adviser. The individual may need to be approved to perform the *sole trader function* and other relevant *controlled functions* (see SUP 12.6.8G and SUP 12.6.9G). Further, in these circumstances, in addition to complying with the requirements of SUP 12 and other regulatory requirements, the *firm* should ensure that the rules for financial advisers in COB 5 are complied with. [deleted]~~
- ...
- 12.5.6 G (1) If the *appointed representative* is appointed to give *advice on investments to private customers* concerning *packaged products*, the *firm* should also satisfy itself that:
- (a) the contract requires compliance with the *rules* in COB 5.1 (~~*Polarisation and status disclosure*~~ Advising on packaged products); and.
- ...

- (2) The contractual requirements in SUP 12.5.5R should extend to:
- (a) the activities of the *appointed representative*, if the *appointed representative* is a ~~representative, introducer or financial adviser~~ an individual; ~~or and~~
  - (b) the activities of the *employees* of, ~~or representatives, and introducers and financial advisers~~ appointed by, the *appointed representative*.

<u>17</u>	<u>DISP</u> <u>1.4.18R –</u> <u>DISP</u> <u>1.4.20G</u>	<u>R</u>	<u>A firm must apply DISP as it applied before amendment by the Depolarisation Instrument to complaints received before 14 January 2005.</u>	<u>From 14 January 2005.</u>	<u>14 January 2005</u>
...					

#### Purpose

1.1.12

G The purpose of this chapter is to set out the *rules* relating to the internal handling of complaints by *firms*, including the procedures which a *firm* must put in place, the time limits within which a *firm* must deal with a complaint, the referral of complaints, the records of a complaint which a *firm* must make and retain ...

#### Requirement to have internal complaint handling procedures

1.2.1

R A *firm, A*, must have in place and operate appropriate and effective internal complaint handling procedures (which must be written down) for:

(1) handling any expression of dissatisfaction, whether oral or written, and whether justified or not, from or on behalf of an *eligible complainant* about ~~that firm's~~ A's provision of, or failure to provide, a financial service; and

(2) referring to another firm, B, expressions of dissatisfaction about B's services, if A markets (or has marketed) B's financial services or if A's financial services are marketed by B.

...

1.2.4 G The internal complaints handling procedures should provide for:

...

(2) responding to complaints;

(2A) referring complaints to other firms;

(3) the appropriate investigation of complaints; and

...

1.2.6 G (1) *DISP* 1.2.1R does not prevent the use of a third party administrator for the purposes of handling complaints.

(2) It is acceptable for two or more firms to set up arrangements, such as a one-stop shop for complaints handling under a service level agreement, provided that this still secures for complainants an equivalent standard of service and, if appropriate, redress. Any such arrangements should be made clear to an eligible complainant.

...

Internal complaint handling procedures: additional requirements

1.3.3. R *DISP* 1.4 - *DISP* 1.5 do not apply:

(1) where the *firm* has taken reasonable steps to determine, and has determined, that the complaint:

(a) ...

(b) does not relate to an activity of that *firm* (or of any other firm with whom that firm has some connection in marketing financial services) which comes under the jurisdiction of the *Financial Ombudsman Service*; or

(c) ...

...

Written acknowledgement within five business days

1.4.1

R A firm must send a written acknowledgement of a complaint to the complainant within five business days of its receipt, ...

...

Referring complaints

1.4.18

R (1) A firm which has reasonable grounds to be satisfied that another firm may be solely responsible for the fault alleged in a complaint may refer the complaint to that other firm, but if it does so it must:

(a) refer the complaint promptly and in any event within five business days of the date on which it became satisfied that such other firm may be responsible for the subject matter of the complaint;

(b) make the referral using a durable medium; and

(c) inform the complainant of the referral by way of a final response and include the other firm's contact details.

(2) A firm which has reasonable grounds to be satisfied that another firm may be jointly responsible for the fault alleged in a complaint, may refer the complaint to that other firm but if it does so it must:

(a) refer the complaint promptly and in any event with five business days of the date on which it became satisfied that such other firm may be jointly responsible for the subject matter of the complaint;

(b) make the referral on a durable medium;

(c) at the same time inform the complainant of the referral and include the other firm's contact details; and

(d) comply with the obligations in DISP as to the investigation of that part of the complaint that is the firm's responsibility and, as soon as possible, inform the complainant of the outcome by a final response.

Dealing with a referred complaint

1.4.19

R When a firm receives a complaint referred to it under DISP 1.4.18R, the complaint is treated for the purposes of DISP as if made directly to that firm, and as if received by it when the referral was received.

1.4.20 G On receiving a complaint referred by another *firm*, the standard time limits will apply from the date on which the *firm* receives the referral. In particular, *DISP* 1.4.1R requires the *firm* to send a written acknowledgement to the complainant within five *business days*. A *firm* should copy this acknowledgement to the *firm* which made the referral.

...

1.5.2 G The records required by *DISP* 1.5.1R are for the purposes of monitoring by the *FSA* and also to ensure that the *firm* is able to cooperate, as necessary, with the *Financial Ombudsman Service*. They should include:

...

(2) ...; ~~and~~

(3) any correspondence between the *firm* and the complainant including details of any redress offered by the *firm*; ~~and~~

(4) documentation relating to the referral of a complaint under *DISP* 1.4.18R.

...

## Appendix 2 Handling Mortgage Endowment Complaints

2.6.15 G *Product providers* with windfall benefits in the form of *policy* augmentations should tell:

(1) their own relevant *customers* (mortgage endowment complainants);  
and

(2) ~~independent financial advisers~~ other *firms* with such *customers* (and any other interested parties);

that they have excluded windfall augmentation benefits from values used or to be used for loss and redress. ~~Firms~~Firms should provide this information to the *Financial Services Compensation Scheme* when providing them with a value to be used for loss or redress. Should their own relevant *customers*, ~~independent financial advisers~~ other *firms* with such *customers* (and any other interested parties) and the *Financial Services Compensation Scheme* request it, the *firm* should provide the value of these benefits and a description of the method used to exclude them.

## Annex J

### Amendments to the Credit Unions sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

Transitional provisions, Table 1

(1)	(2)	(3)	(4)	(5)	(6)
	Material to which the transitional provision applies		Transitional provision	Transitional provision: dates in force	Handbook provision: coming into force
...					
<u>5</u>	<u>CRED</u> <u>17.4.4 R –</u> <u>CRED</u> <u>17.4.6G</u>	<u>R</u>	<u>A credit union must apply CRED as it applied before amendment by the Depolarisation Instrument with respect to complaints received by a credit union before 14 January 2005</u>	<u>From 14 January 2005</u>	<u>14 January 2005</u>

...

17.1.5 G The purpose of this chapter is to set out the *rules* relating to the internal handling of complaints by a *credit union*, including:

...

(2A) the referral of complaints;

...

...

17.2.1 R A *credit union* must establish, maintain and implement appropriate and effective internal complaint handling procedures (which must be written down) for:

- (1) handling any expression of dissatisfaction whether oral or written, and whether justified or not, from or on behalf of an *eligible complainant* about that *credit union's* provision of, or failure to provide, a financial services activity; and
- (2) referring to another *firm*, A, expressions of dissatisfaction about A's services, if the *credit union* markets (or has marketed) A's financial services or if the *credit union's* financial services are marketed by A.

...

17.2.4 G The internal complaint handling procedures should provide for:

...

- (2A) referring complaints to other *firms*;
- (3) the appropriate investigation of complaints; and

...

17.2.6 G (1) A *credit union* is not prevented from using a third party administrator (for example, an outside organisation) for the purposes of handling complaints.

- (2) It is acceptable for two or more *credit unions* to set up arrangements, such as a one-stop shop for complaints handling under a service level agreement, provided that this still secures for complainants an equivalent standard of service and, if appropriate, redress. Any such arrangements should be made clear to an *eligible complainant*.

...

17.4.1 R The additional requirements in *CRED* 17.5 - *CRED* 17.7 (on time-limits, record-keeping; reporting and co-operation with *Ombudsman*) do not apply:

- (1) where the *credit union* has taken reasonable steps to determine, and has determined, that the complaint:
  - (a) is not made by, or on behalf of, an *eligible complainant*; or
  - (b) does not relate to an activity of that *credit union* (or of any other *firm* with whom that *credit union* has some connection in marketing financial services) which comes under the jurisdiction of the *Financial Ombudsman Service*; or

...

...

#### Referring complaints

17.4.4 R (1) A *credit union* which has reasonable grounds to be satisfied that another *firm* may be solely responsible for the fault alleged in a complaint may refer the complaint to that other *firm* but if it does so it must:

- (a) refer the complaint promptly and in any event within five business days of the date on which it became satisfied that such other firm may be responsible for the subject matter of the complaint;
  - (b) make the referral using a durable medium; and
  - (c) inform the complainant of the referral by way of a final response and include the other firm's contact details.
- (2) A credit union which has reasonable grounds to be satisfied that another firm may be jointly responsible for the fault alleged in a complaint, may refer the complaint to that other firm but if it does so it must:
- (a) refer the complaint promptly and in any event within five business days of the date on which it became satisfied that such other firm may be jointly responsible for the subject matter of the complaint;
  - (b) make the referral using a durable medium;
  - (c) at the same time inform the complainant of the referral and include the other firm's contact details; and
  - (d) comply with the obligations in CRED as to the investigation of that part of the complaint that is the credit union's responsibility and, as soon as possible, inform the complainant of the outcome by a final response.

#### Dealing with a referred complaint

- 17.4.5     R     When a firm receives a complaint referred to it under CRED 17.4.4R, the complaint is treated for the purposes of CRED as if made directly to that firm, and as if received by it when the referral was received.
- 17.4.6     G     On receiving a complaint referred by a firm, the standard time limits will apply from the date on which the credit union receives the referral. In particular, CRED 17.5.1 R requires the credit union to send a written acknowledgement to the complainant within five business days. A credit union should copy this acknowledgement to the firm which made the referral.

...

17.5.1 R A *credit union* must send a written acknowledgement of a complaint to the complainant within five ~~business days~~ *business days* of its receipt, giving the name or job title of the person handling the complaint within the *credit union* (together with details of the *credit union*'s internal complaint handling procedures).

...

17.6.2 G The records required are for the purposes of monitoring by the *FSA* and also to ensure that the *credit union* is able to cooperate, as necessary, with the *Financial Ombudsman Service*. These should include:

- (1) the name of the complainant;
- (2) the substance of the complaint;
- (3) any correspondence between the *credit union* and the complainant including details of any redress offered by the *credit union*; and
- (4) documentation relating to the referral of a complaint under *CRED* 17.4.4R.

## Annex K

### Amendments to the Professional Firms sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

5.3.2 G *COB* 1.2.1R (4) provides that *COB* does not apply to an *authorised professional firm* with respect to its *non-mainstream regulated activities*, except for:

(1) *COB* 2.1 (Clear, fair and not misleading communication), ... ; and

(2) (where these are *insurance mediation activities*) the *IMD implementation provisions* and *COB* 4.3.19R to 4.3.25R as if they also applied to a *firm* carrying out the activities in *COB* 4.3.19 R (1)(a)-(c) with or on behalf of *private customers*, unless:

(a) the *designated professional body* of the *firm* has made rules which implement some or all of articles 12 and 13 of the *IMD*;

(b) those rules have been approved by the *FSA* under section 332(5) of the *Act*; and

(c) the *firm* is subject to the rules in the form in which they were approved;

in which case they are disappplied to the extent that articles 12 and 13 of the *IMD* are implemented by the rules of the *designated professional body*.

(3) *COB* 1.2.1AG provides that the effect of *COB* 1.2.1R(4)(d) is that if the relevant *designated professional body* of an *authorised professional firm* does not make rules implementing articles 12 and 13 of the *IMD* applicable to *authorised professional firms*, those *firms* will need to comply with the *IMD implementation provisions* and *COB* 4.3.19R to 4.3.25R as if they also applied to a *firm* carrying out the activities in *COB* 4.3.19 R (1)(a)-(c) with or on behalf of *private customers*.

## Annex L

### Amendments to the Glossary of definitions

In this Annex, underlining indicates new text and striking through indicates deleted text.

<del><i>adopted packaged product</i></del>	<p><del>(in relation to a firm) a stakeholder pension scheme which is a packaged product:</del></p> <p>(a) <del>not produced by the firm or in the firm's marketing group, but by another producer (whether a firm or not); and</del></p> <p>(b) <del>on which the firm is able to advise as a result of a decision taken under COB 5.1.4R(1).</del></p>
<i>adviser</i>	<p>an individual who is:</p> <p>(a) <u>a financial adviser</u>; or</p> <p>(b) <del>a representative</del>; or</p> <p>(c) <u>an appointed representative</u>.</p>
<i>branded fund</i>	<p>a life policy or a regulated collective investment scheme other than a broker fund which is available as an investment only or mainly to the clients of a particular <u>independent intermediary firm other than a provider firm</u>.</p>
<i>broker fund adviser</i>	<p><del>an independent intermediary firm</del> <u>who</u> <del>which</del> has or whose associate being an authorised person has, an arrangement with a long-term insurer, overseas long-term insurer or operator of a regulated collective investment scheme, under which it is to be expected that the long-term insurer, overseas long-term insurer or operator will take into account the advice of that <u>independent intermediary firm</u> or <u>his</u> <u>its</u> associate:</p> <p>(a) ... into which cash contributions of that <u>independent intermediary's firm's</u> customers have been made;</p> <p>(b) ... into which the cash contributions of <u>that independent intermediary's firm's</u> customers have been made;</p> <p>in this definition <i>associate</i> includes any authorised person in respect of whose services the first <u>independent intermediary firm</u> receives any benefit or reward ...</p>
<u><i>combined initial disclosure document</i></u>	<p><u>information about the scope and nature of the services offered by a firm in relation to a combination of two or more of the following:</u></p> <p>(a) <u>packaged products</u>;</p> <p>(b) <u>non-investment insurance contracts</u>;</p>

- (c) regulated mortgage contracts; or
- (d) regulated lifetime mortgage contracts;
- commission*\* any form of commission or remuneration, including a benefit of any kind, offered or given in connection with:
- (a) *designated investment business* (other than *commission equivalent*); ~~or~~
- (b) *insurance mediation activity* in connection with a *non-investment insurance contract*; or
- (c) the sale of a *packaged product*, that is offered or given by the *product provider*.

Note that this definition of commission amends that which has been made by the Board in Instrument 2004/01 and which is due to come into force on 14 January 2005.

*fee* Any payment or remuneration offered or made by a *client* to a *firm* in connection with *designated investment business* or with any other business of the *firm*, including (where applicable) any *mark up or mark down*.

*fees and commission statement* a statement which a *firm* is required to maintain in accordance with COB 4.3.11R.

~~*financial adviser*~~ ~~an individual appointed by an independent intermediary or by its appointed representative to provide any or all of the following services:~~

(a) ~~giving advice on investments to clients;~~

(b) ~~arranging (bringing about) deals in investments or executing transactions involving, in each case, designated investments with or for clients;~~

(c) ~~managing investments;~~

(d) ~~receiving or holding client money or other clients' assets;~~

(e) ~~safeguarding and administering investments~~

~~*independent advice*~~ ~~advice on investments, other than in the form of a direct offer financial promotion, given to a customer by an independent intermediary in relation to packaged products.~~

~~*independent intermediary*~~ a *firm* acting as an intermediary, but excluding:

- (a) a *firm* which is a member of a *marketing group*;
- (b) a *product provider* which sells its own *packaged products*.

IMD minimum implementation provisions

The following provisions in *COB*:

- (1) COB 4.3.19R to COB 4.3.25R;
- (2) COB 5.2.12R to COB 5.2.14R; and
- (3) COB 5.3.14R (1) and COB 5.3.18AR to COB 5.3.18CR.

initial disclosure document

information about the scope and nature of the services offered by a firm in relation to packaged products as required by COB 4.3.9R; or stakeholder products as required by COB 5A.2.1 (1) R.

*inter-professional business*

the business of a *firm*:

- (a) ...
- (b) but excluding the carrying on of the following activities:
  - (i) ...
  - (vi) (vi) activities relating to life policies;

*introducer*

an individual appointed by a ~~*provider firm*~~ or by an *appointed representative of such a firm*, to carry out in the course of *designated investment business* either or both of the following activities:

- (a) *effecting introductions*;
- (b) *distributing non-real time financial promotions*.

*introducer appointed representative*

an *appointed representative* appointed by a ~~*provider firm*~~ whose scope of appointment is limited to:

- (a) *effecting introductions*; and
- (b) *distributing non-real time financial promotions*.

<i>introducing</i>	<p>...</p> <p><u>(in COB) the activity of effecting mere introductions carried on by a firm with permission for making arrangements with a view to deals in investments.</u></p>
<i>investment trust savings scheme</i>	<p>(a) a dealing service (whether or not held within a pension contract) dedicated to the securities of <del>a particular</del> <u>one or more</u> investment trusts, <del>or within a particular marketing group;</del></p> <p>...</p>
<i>marketing group</i>	<p>a group of persons who:</p> <p>(a) are allied together (either formally or informally) for purposes of marketing <del>packaged products</del> of the marketing group; and</p> <p>(b) each of which, if it holds itself out in the <i>United Kingdom</i> as marketing <del>packaged products to private customers</del>, does so only as an <i>investment manager</i> or in relation to <del>packaged products of the marketing group.</del></p>
<i>marketing group associate</i>	<p><del>a firm other than a product provider which is a member of a marketing group.</del></p>
<i>network</i>	<p>an <del>independent intermediary firm:</del></p> <p>(a) which has five or more <i>appointed representatives</i>; or</p> <p>(b) whose <i>appointed representatives</i> (being fewer than five) have, between them, 26 or more <u><i>financial advisers representatives</i></u>;</p> <p><u>but not:</u></p> <p>(i) <u>a product provider; or</u></p> <p>(ii) <u>a firm which markets the packaged products of a product provider which is in the same group as the firm and which does so other than by selecting products from the whole market; or</u></p> <p>(iii) <u>an insurer in relation to a non-investment insurance contract; or</u></p> <p>(iv) <u>a mortgage lender.</u></p>
<i>personal recommendation</i>	<p>a recommendation which is <u>advice on investments</u> given to a specific person.</p>
<i>provider firm</i>	<p>a <del>firm</del> that is:</p> <p>(a) <del>a product provider; or</del></p> <p>(b) <del>a marketing group associate.</del></p>

range of packaged products, range

(in relation to a firm) the range of packaged products on which the firm gives advice on investments to private customers (see COB 5.1.6AR) or if appropriate the list of packaged products in which the firm deals.

Delete existing definition for 'representative' and replace with the following text, which is not underlined:

*representative*

an individual who:

- (a) is appointed by a *firm*, or by an *appointed representative* of a *firm*, to carry on any of the following activities:
  - (i) *advising on investments*;
  - (ii) *arranging (bringing about) deals in investments*;
  - (iii) *dealing in investments*; or
- (b) although not appointed to do so, carries on any of the activities in (i) to (iii) on behalf of a *firm* or its *appointed representative*.

*small personal investment firm*

a *personal investment firm*:

- (a) which is not an *ISD investment firm*;
- (b) which is not a *network*; and
- (c) which has fewer than 26 ~~financial advisers or~~ *representatives*.

## ADDENDUM

### DEPOLARISATION INSTRUMENT 2004

In this Addendum, the underlining should have been in the Depolarisation Instrument 2004 where indicated. Where an entire section of text is being inserted, the place where the change will be made is indicated and the text is not underlined.

Annex L of this instrument is amended as follows:

*commission* any form of commission or remuneration, including a benefit of any kind, offered or given in connection with:

(a) *designated investment business* (other than *commission equivalent*); ...

Insert in the correct alphabetical position the following new definition:

*commission equivalent* (equivalent) the cash payments, benefits and services listed in *COB 5.7.16E* which satisfy the criteria in *COB 5.7.5R(2)*.

Addendum

9 December 2004

**SECOND ADDENDUM**  
**DEPOLARISATION INSTRUMENT 2004**

As a result of this Addendum, Paragraph C (1) of this instrument is amended to replace “Annexes A to F, H and J to M” with “Annexes A to F, H and J to L”. This revision is not shown underlined or struck through.

Elsewhere in this Addendum, underlining indicates new text and striking through indicates deleted text or revisions are explained in narrative.

Annex B of this instrument is amended as follows:

(i) COB 1.3.5G is shown as it should have appeared in the instrument:

1.3.5 G *Firms* are reminded that the definition of *inter-professional business* does not include:

...

(4) ...; ~~or~~

(5) ...; or

(6) *regulated activities relating to life policies.*

...

(ii) The text of COB 2.2.5AE which results following this instrument is further amended as follows:

Financial assistance and product providers

2.2.5A E ...

(2) ...

(a) ...

(b) ...;

unless all the conditions in (4) are satisfied. A product provider should also take reasonable steps to ensure that its associates do not

take any step which would result in it having a holding as in (a) or providing credit as in (b), having regard to (5).

(3) ...

(4) The conditions referred to in (2) and (3) are that:

...

(iii) The text in this instrument dealing with changes to COB 6.2.9R, COB 6.2.11G, COB 6.2.19R, COB 6.2.23G and COB 6.2.25R is deleted from the instrument.

Annex C of this instrument is amended as follows:

(iv) The following text amending ICOB 4 Annex 2R is that which should have appeared in the instrument:

ICOB 4 Annex 2R: Combined initial disclosure document ("CIDD")

...

---

#### 4 What will you have to pay us for our services?

---

##### Investment

Before we provide you with advice, we will give you our keyfacts guide ~~to~~ about the cost of our services'. [Note 15]

...

**Note 15** – *firms* are only required to provide a *private customer* with an appropriate "keyfacts guide ~~to~~ about the costs of our services" (i.e. a menu) if they propose to give that *customer advice on investments on packaged products*.

...

Annex D of this instrument is amended as follows:

- (v) The following text amending MCOB 4 Annex 2R is that which should have appeared in the instrument:

...

MCOB 4 Annex 2R: Combined initial disclosure document ("CIDD")

...

---

#### 4 What will you have to pay us for our services?

---

##### Investment

- Before we provide you with advice, we will give you our keyfacts guide ~~to~~ about the cost of our services'. [Note 15]

...

**Note 15** – *firms* are only required to provide a *private customer* with an appropriate "keyfacts guide ~~to~~ about the costs of our services" (i.e. a menu) if they propose to give that *customer advice* on investments on packaged products.

Second Addendum

18 August 2005

## BASIC ADVICE ON STAKEHOLDER PRODUCTS INSTRUMENT 2004

### Powers exercised

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) section 138 (General rule-making powers);
  - (2) section 145 (Financial promotion rules);
  - (3) section 149 (Evidential provisions);
  - (4) section 156 (General supplementary powers); and
  - (5) section 157(1) (Guidance).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

### Commencement

- C. Subject to D, this instrument comes into force on 6 April 2005.
- D. The amendments in Annex A to COB 6.5.15 R and 6.5.37A R will come into force on 1 December 2004.

### Amendments to the Handbook

- E. The modules of the FSA's Handbook of rules and guidance listed in column (1) below are amended in accordance with the Annexes to this instrument listed in column (2) below:

(1)	(2)
Principles for Business (PRIN)	Annex A
Conduct of Business sourcebook (COB)	Annex B
Training and Competence sourcebook (TC)	Annex C
Authorisation manual (AUTH)	Annex D
Supervision manual (SUP)	Annex E
Glossary of definitions	Annex F

### Citation

- F. This instrument may be cited as the Basic Advice on Stakeholder Products Instrument 2004.

By order of the Board  
18 November 2004

## Annex A

### Amendments to Principles for Business

In this Annex, underlining indicates new text and striking through indicates deleted text.

#### Classification: designated investment business

1.2.3 G (1) All firms, except those intending only to provide basic advice on a stakeholder product, are required by COB 4.1.4R (Requirement to classify) ~~requires a firm~~ to classify a client before conducting *designated investment business* with or for him, and that classification will be applicable for the purposes of *Principles 6, 7, 8 and 9*.

(2) The person to whom a firm provides basic advice on a stakeholder product will be a private customer for all purposes including the purposes of Principles 6, 7, 8 and 9.

...

3.4.3 G (1) The whole of *COB 4.1* (Client classification) applies to a firm intending to conduct, or conducting, *designated investment business other than providing basic advice on a stakeholder product*, and *ancillary activities* relating to *designated investment business*. Any *client* classifications established in relation to such business will be applicable for the purposes of *Principles 6, 7, 8 and 9*.

(2) The person to whom a firm provides basic advice on a stakeholder product will be a private customer for all purposes including the purposes of Principles 6, 7, 8 and 9.

## Annex B

### Amendments to the Conduct of Business Sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text. Where an entire new section is inserted, the place that it goes is indicated and the text is not underlined.

#### Contents

Chapter

...

5A Providing basic advice on stakeholder products

...

3.2.8 G ...

- (2) *Firms* are reminded that if in the course of making a *financial promotion* of any kind a *representative* gives specific *advice on investments* to a *private customer*, about the suitability of a product for that individual *or provides basic advice on a stakeholder product*, rules on advising and selling in COB 5 *or, as the case may be, 5A, apply*.

...

Specific non-real time financial promotions: packaged products

3.8.19 R (1) *A firm must not communicate or approve a specific non-real time financial promotion containing or offering advice on packaged products, or providing basic advice on a stakeholder product, unless the promotion discloses information to show whether the scope of the advice which is given or offered is or will be based upon a selection made from:*

- (a) the whole market (or from the whole of a named sector of the market); or

...

- (2) *A firm must not communicate or approve a specific non-real time financial promotion offering packaged products or stakeholder products produced by a person, A:*

... (a) that holds out any *person* other than A as the *packaged product's* producer; or

...

3.8.22 R ...

(7) if applicable acts in conformity with the *rules* in COB 4.3 (Disclosing information about services, fees and commission – packaged products), COB 5A.1 (Providing basic advice on Stakeholder Products) and COB 5.1 (Advising on packaged products).

...

4.1 Client classification

Application

4.1.1 R (1) This section applies to a *firm* intending to conduct, or conducting *designated investment business* or *ancillary business* relating to *designated investment business* (but not to a *firm* which in relation to any customer intends only to provide basic advice on a stakeholder product).

4.3 Disclosing information about services, fees and commission - packaged products

Application

4.3.1 R (1) COB 4.3 applies:

~~(a)~~ to a *firm* when carrying on with or for *private customers* any of the following in relation to *packaged products*:

~~(i)~~ *advising*; or

~~a)~~

~~(ii)~~ *dealing as agent*; or

~~b)~~

~~(iii)~~ *arranging*;

~~e)~~

(b) to a *firm*, other than an *insurer*, that carries on in relation to a *life policy* any of the activities in (1) with or for an *intermediate customer* or a *market counterparty*.

(2) COB 4.3, other than COB 4.3.7R (1) and (2), does not apply to a *firm* when providing basic advice on a stakeholder product.

...

5.1 Advising on packaged products

## Application

- 5.1.1 R This section applies to a *firm* which gives *advice on investments to a private customer on packaged products* but does not apply to a *firm* when providing basic advice on a stakeholder product.

...

## 5.2 Know your customer

### Application

- 5.2.1 R This section applies to a *firm* that:
- (1) gives a *personal recommendation* concerning a *designated investment* to a *private customer*;

...

- (6) is not an *insurer* and *arranges* (but not merely by *introducing*) a *life policy* for an *intermediate customer* or a *market counterparty*;

But this section does not apply to a *firm* when providing basic advice on a stakeholder product.

...

## 5.3 Suitability

### Application

- 5.3.1 R This section applies to a *firm* when it:
- (1) makes a *personal recommendation* concerning a *designated investment* to a *private customer*;

...

- (3) promotes a *personal pension scheme* by means of a *direct offer financial promotion* to a group of *employees*;

but this section does not apply to a *firm* when providing basic advice on a stakeholder product.

...

## 5.4 Customer's understanding of risk

### Application

- 5.4.1 R This section applies to a *firm* that conducts *designated investment business* with or for a *private customer* but does not apply to a *firm* when providing basic advice on a stakeholder product.

...

After Chapter 5 of *COB* insert a new Chapter 5A as follows, the text of this new chapter is not underlined:

## **Chapter 5A**

### **5A.1 Providing basic advice on stakeholder products**

#### **Application and Purpose**

5A.1.1 G This chapter sets out what *firms* must do when *providing basic advice on a stakeholder product*. The *rules* in the chapter are designed to enable *firms* to provide simple, quick and limited advice to *persons* who may be interested in buying a *stakeholder product*. The *rules* assume that *firms* will *provide basic advice* to *persons* who have no practical knowledge of investing in *stakeholder products* or *investments*.

### **5A.2 Disclosure on making first contact : information about services**

- 5A.2.1 R (1) **A *firm* must take reasonable steps to ensure that its *representatives*, on first making contact with a *customer* with a view to *providing basic advice on a stakeholder product*, provide, in a *durable medium*, an *initial disclosure document* that complies with *COB* 4.3.9R (1).**
- (2) **A *firm* must take reasonable steps to ensure that its *representatives* explain the contents of the *initial disclosure document* at the time it is provided to the *customer*.**
- (3) **The requirements in (1) and (2) do not apply:**
- (a) **to the extent that the information has already been given to the *customer* on a previous occasion and it is still likely to be accurate and appropriate for the *customer*; or**
- (b) **if *COB* 5A.2.6R (initial contact by telephone) applies.**
- (4) **A *firm* which is required by this *rule* to provide an *initial disclosure document* to a *private customer* may instead provide the *customer* with a *combined initial disclosure document*, that complies with *COB* 4.3.9R (2), if it has reasonable grounds to be satisfied that the *services* which it is likely to provide to the *customer* will, in addition to *stakeholder products*, relate to one or more of the following:**
- (a) ***regulated mortgage contracts*;**
- (b) ***regulated lifetime mortgage contracts*;**
- (c) ***non-investment insurance contracts*.**

- (5) **A firm must, if requested to do by a customer, provide an explanation of the basis on which it has chosen to market the particular stakeholder products within the range on which basic advice will be given to a customer, including an explanation of why the firm has selected particular product providers.**

#### **Smoothed Products**

- 5A.2.2 **R A firm must not provide basic advice on smoothed linked long term products.**
- 5A.2.3 **G COB 5A.2.2R does not prevent a firm from including smoothed linked long term products in regulated activity that does not involve the provision of basic advice.**

#### **Providing a copy of the range of stakeholder products**

- 5A.2.4 **R A firm must take reasonable steps to ensure that its representatives provide a copy of the appropriate range of stakeholder products on the request of a customer having regard to the services it is providing or may provide to the customer.**

#### **Terms of business and telephone sales**

- 5A.2.5 **R (1) A firm that, pursuant to COB 5A.2.1R, provides a customer with an initial disclosure document containing information that a corresponding rule in COB 4.2 says must be included in terms of business, will satisfy the corresponding rule by providing that information in the initial disclosure document.**
- (2) Any information required by COB 4.2 which is not included in an initial disclosure document provided to a customer in compliance with COB 5A.2.1R can be included at the end of the initial disclosure document provided to the customer or, if provided at the same time, by way of separate items of information.**
- 5A.2.6 **R (1) Where a firm's initial contact with a customer (for a purpose set out in COB 5A.2.1 R) is by telephone, then the firm must provide the following information and satisfy the following requirements before proceeding further:**
- (a) the name of the firm and, if the call is initiated by or on behalf of a firm, the commercial purpose of the call;**
- (b) whether the firm will select from or deal with stakeholder products from a limited number of companies or from a single company;**
- (c) that the firm will provide the customer with only basic advice on stakeholder products and without full assessment of his needs and circumstances;**

(d) that the information given under (a) to (c) will subsequently be confirmed in writing.

- (2) A *firm* which complies with (1) will, subject to (3), satisfy the condition set out in item (1) of *COB 4, Annex 1R*.
- (3) If during the course of a telephone call a *firm* is to conclude a contract (for example for the provision of a mediation services or for the purchase or sale of a *stakeholder product*), it must satisfy the requirements in *COB 4.2.5R* and *COB 4 Annex 1R* as well as comply with (1) and (2) above.

5A.2.7 R If the first contact a *firm* has with a *private customer* with a view to providing basic advice on stakeholder products, is by telephone then the *firm* must send the *customer* an *initial disclosure document* as soon as is reasonably practicable following the conclusion of the call.

5A.3 Scope and range of advice on stakeholder products: general

- 5A.3.1 R
- (1) A *firm* which provides a *private customer* with basic advice on a *stakeholder product* must take reasonable steps to ensure that the scope of the *basic advice* given to a *private customer* is based upon a selection of one of the following:
    - (a) a limited number of providers of *stakeholder products*; or
    - (b) a single provider of a *stakeholder product*.
  - (2) A *firm* which provides a *customer* with basic advice on a *stakeholder product* must do so only on the basis of a *range of stakeholder products* which includes no more than one of each of:
    - (a) a *CIS stakeholder product* or a *linked-life stakeholder product*;  
or
    - (b) a *stakeholder pension*; or
    - (c) a *stakeholder CTF*.
  - (3) A *firm* must take reasonable steps to ensure that any of its *representatives* which give *basic advice on stakeholder products* that offer a choice of funds, do not give *advice on*, or recommend, a particular fund for the *customer*.
  - (4) A *firm* must take reasonable steps to ensure that its *representatives* do not, while they are engaged in providing *basic advice on stakeholder products*, provide *advice* on products other than those within the *range* offered by the *firm*.
  - (5) A *firm* which has commenced the sales process for *stakeholder products* in respect of a particular *customer* may only depart from that process if:

(a) it has taken reasonable steps to ensure its *representatives* advise the *customer* that *basic advice on stakeholder products* within the *range* offered by the *firm* will not be provided during the period of departure; and

(b) it has taken reasonable steps to ensure its *representatives* do not *provide basic advice* during the period of departure.

(6) A *firm* must take reasonable steps to ensure that if its *representatives* return to the sales process for *stakeholder products* after the period of departure referred to in *COB 5A.3.1R (5)*, they first advise the *customer* that the period of departure has ended and the sales process for *stakeholder products* has recommenced.

5A.3.2 G (1) A *firm* can provide a *customer* with *basic advice on a stakeholder product* on the basis of a range of *stakeholder products* which includes more than one *deposit-based stakeholder product*.

G (2) A *firm* can provide advice on a *deposit based stakeholder product* during the period of departure referred to in *COB 5A.3.1R (5)*.

5A.3.3 G (1) A *firm* which *provides basic advice on stakeholder products* is required by *COB 5A.3.1R (2)* to do so, in relation to any particular *customer*, by reference to a *range of stakeholder products* which should include no more than one of each type of *stakeholder product* specified in *COB 5A.3.1R (2)*. A *firm* may however operate with more than one such *range*.

(2) When a *firm* *provides basic advice on a stakeholder product* which is not produced by the *firm*, it is responsible for the advice given. By contrast, the producer is responsible for the relevant terms and conditions of the *stakeholder product*.

#### **Range of stakeholder products: appointed representatives**

5A.3.4 R (1) A *firm* must maintain in writing and keep up to date a statement of:

(a) the scope of *basic advice* (within the meaning of *COB 5A.3.1R (1)*) which each of its *appointed representatives* is, through its contract with the *firm*, permitted to give; and including

(b) the *range (or ranges) of stakeholder products* on which each *appointed representative* advises.

(2) In applying the *rules in COB* to a *firm* in respect of its *appointed representatives*, references to a *firm's* scope or *range of stakeholder products* are to be taken as references to the scope (or scopes) and to the *range (or ranges) of its appointed representatives*.

5A.3.5 G An *appointed representative's range of stakeholder products* should be defined by means of a list of the names or titles of each of the *stakeholder products* which it is permitted to sell.

#### Range of stakeholder products: records

- 5A.3.6 R (1) **A firm must make, and keep up to date, a record of its scope and range (or ranges) of stakeholder products.**
- (2) **The record in (1) must be retained for six years from the date on which it was superseded by a more up-to-date record.**
- (3) **The record for distribution to a customer must be the particular range of stakeholder products which is appropriate for the services provided to that customer and include details of:**
- (a) **the identity of the firms within the range whose stakeholder products the firm may sell; and**
- (b) **a list of the products the firm may sell.**
- (4) **A firm must maintain a record of the particular range of stakeholder products on which its basic advice to each private customer is based and such a record must be kept for six years from the date on which the basic advice is given.**

#### Branding stakeholder products

- 5A.3.7 R **If a firm provides basic advice on a stakeholder product produced by another person, it must not:**
- (1) **hold itself out as the stakeholder product's producer;**
- (2) **do or say anything which might reasonably lead a customer to be mistaken as to the identity of the product's producer.**

#### Staying within the range of advice of stakeholder products

- 5A.3.8 R (1) **A firm must take reasonable steps to ensure that neither it nor any of its representatives provides basic advice on a stakeholder product unless the product is:**
- (a) **within the firm's range (or ranges) of stakeholder products; and**
- (b) **is within the particular range of stakeholder products on which the firm has indicated it will give basic advice to that customer.**

#### "Independence" - restriction on holding out

- 5A.3.9 R (1) **A firm must not in providing basic advice on stakeholder products hold itself out as giving such basic advice on an independent basis.**
- (2) **Notwithstanding (1) a firm may use its facilities and stationery which it may use for other business in respect of which it does hold itself out as acting or advising independently.**

Remuneration structure and referrals

- 5A.3.10 R** A *firm* must take reasonable steps to ensure that none of its *representatives*:
- (1)** is likely to be influenced by the structure of his or her *remuneration* to give unsuitable *basic advice* on *stakeholder products* to a *customer*; and
  - (2)** refers *customers* to another *firm* in circumstances which would amount to the provision of an inducement under *COB 2.2.3R* (Prohibition of inducements).

**5A.4** Providing basic advice on stakeholder products through scripted questions

- 5A.4.1 R**
- (1)** A *firm* which provides *basic advice on a stakeholder product* must do so through a sales process which incorporates pre-scripted questions put to the *customer*.
  - (2)** Unless excluded at the preliminary stage, a *customer* must be sent or given, in a *durable medium*, a copy of the completed scripted questions and answers.

Suitability of stakeholder products

- 5A.4.2 R**
- (1)** A *firm* must only recommend that a *customer* acquire a *stakeholder product* if:
    - (a)** it has taken reasonable steps to assess:
      - (i)** the *customer's* answers to the scripted questions;
      - (ii)** any other facts, circumstances or information disclosed by the *customer* during the sales process.
    - (b)** it has, having due regard to the information in (a), reasonable grounds for believing that the *stakeholder product* is suitable for the *customer*;
    - (c)** the *firm* reasonably believes that the *customer* understands the advice he has been given and the basis on which it was provided.
  - (2)** The requirements in (1)(b) do not apply in the case of a *deposit-based stakeholder product*.

**5A.4.3 G** *COB 5A Annex 1 G* contains *guidance* on the steps a *firm* could take to ensure it complies with the requirements in *COB 5A.4.2R* (1); it also includes *guidance* on providing advice on *stakeholder pensions* that will comply with *COB 5A.4.5R*.

**5A.4.4 R** A *firm* must not recommend or agree that a *customer* make contributions to an *ISA* in excess of the Inland Revenue's *ISA* limits.

**5A.4.5 R** A *firm* must not, in the course of *providing basic advice*, advise a *customer* on the contribution levels to a *stakeholder pension* needed to achieve a specific income in retirement.

**Procedure on making a recommendation**

**5A.4.6 R** On making a recommendation to acquire a *stakeholder product* a *firm* must, subject to *COB* 5A.4.7R, 5A.4.8R and 5A.4.9R, take reasonable steps to ensure that prior to the conclusion of a contract with the *customer* the *representative*:

- (1) explains to the *customer*, if necessary in summary form, the "aims", "risks" and "commitment" sections of the appropriate *key features* together with such other explanation of the *product* as will enable the *customer* to make an informed decision whether to accept the recommendation;
- (2) provides the *customer* with a summary sheet, in a *durable medium*, setting out for each *product* recommended:
  - (a) the specific amounts that the *customer* wishes to pay into each *product*;
  - (b) the reasons for the recommendation, including any information provided by the *customer* on which the recommendation is based, including the *customer's* attitude to risk;
- (3) informs the *customer* that in determining any subsequent complaint the *Ombudsman* may take into account the limited information on which the recommendation is based and that the recommendation is not tailored to take account of those aspects of a *customer's* financial needs and circumstances not covered by its sales process.

**5A.4.7 R** *COB* 5A.4.6R (1) does not apply to a recommendation to acquire a *deposit-based stakeholder product*.

**5A.4.8 R** A *firm* may provide the summary sheet required by *COB* 5A.4.6R (2) subsequent to the conclusion of the contract if requested to do so by the *customer* as long as it completes the steps in *COB* 5A.4.9R (1) and (2) prior to concluding a contract with the *customer*.

**5A.4.9 R** A *firm* which concludes the sale of a *stakeholder product* by telephone must take reasonable steps to ensure that its *representatives*:

- (1) read through the summary sheet required by *COB* 5A 4.6R (2);
- (2) inform the *customer* that in determining any subsequent complaint the *Ombudsman* may take into account the limited information on which the recommendation is based and that the recommendation is not tailored to take account of those aspects of a *customer's* financial needs and circumstances not covered by its sales process;

- (3) send the *customer* as soon as possible after that a copy of the *firm's* summary sheet, and the completed answers and questions, in a *durable medium*.

#### Record of recommendations

- 5A 4.10 R A *firm* must keep in a *durable medium* a record of each recommendation to acquire a *stakeholder product* and the *customer's* summary sheet and such a record must be kept for not less than six years from the date of the recommendation.

#### COB 5A Annex 1G sales processes for stakeholder products

This Annex forms part of COB 5A.4.3G and gives *guidance* on the standards and requirements to which a *firm* may have regard in designing a sales process for *stakeholder products* which meets the requirements of COB 5A.4.2R.

#### General Standards – all sales

1. A sales process for *stakeholder products* may allow the *representative* administering it to depart from scripted questions where this is desirable to enable the *customer* to better understand the points that need to be made provided this is compatible with the *representative's* competence and the degree of support offered by the *firm's* software and other systems. A software based system is more likely to provide an adaptable means of providing prompts and support for *representatives* which may accordingly support a more flexible sales process.
2. Questions, statements and warnings provided to a *customer* should be short, simple and couched in plain language that *customers* will understand. Questions should address one issue at a time.
3. The sales process should enable the *customer* to exit freely and without pressure at any stage and should make provision for the *representative* to terminate the process if at any stage it appears that there is no likelihood of any *product* being suitable for the *customer* (whether by reason of the affordability of *products* for the *customer*, the need to address other financial priorities (see below), the mis-match of risk or otherwise).
4. Where necessary the sales process should incorporate procedures to allow uncertainties in the *customer's* answers to be addressed before proceeding further and should generally reflect caution about proceeding further if clarification or further information cannot be obtained during the process (this would be likely to be the case for example if a *customer* were unable to confirm whether he or she was eligible for membership of an *occupational pension scheme*).

#### Preliminary - all sales

5. The following preliminary information and explanation should be given to the *customer* :

- (a) only *basic advice* will be given about *stakeholder products*;
  - (b) *stakeholder products* are intended to provide a relatively simple and low-cost way of investing and saving;
  - (c) the *range of products* on which the representative will give advice to that *customer*;
  - (d) the *customer* will be asked a series of questions about his or her circumstances and needs and at the end of the procedure he or she may be recommended to acquire a *stakeholder product*;
  - (e) that the assessment of whether a *stakeholder product* is suitable will be made without a detailed assessment of the *customer's* needs but will be based only upon the information disclosed during the questioning process; and
  - (f) the *customer's* answers will be noted and that at the end of the process, if a recommendation to acquire a *stakeholder product* is made, the *customer* will be provided with a copy of the completed questionnaire.
6. Following 5, the *customer* should be asked if he or she wishes to proceed and, if not, the sales process should cease.

#### **Affordability - all sales**

7. If it appears that the *customer* will be likely to be unable to afford a *stakeholder product*, the sale should be terminated at that stage and the *customer* given an explanation together with a copy of the questions and answers completed to that point.

#### **Financial Priorities and Debt - all sales**

8. A *customer* should be assessed to ascertain other possible financial priorities such as the need for insurance protection for self or dependents, the need for access to liquid cash to meet an emergency, or, a need to reduce a level of existing debt and, if appropriate, the *customer* should be given an unambiguous warning about the desirability of meeting those other priorities before making payments to a *stakeholder product*.
9. A stronger warning about the desirability of addressing debt as a priority should be given if it appears that the *customer* is significantly indebted, and particularly where there is a strong indication that such debt commitments may render any new commitment unaffordable in the short-term. For this purpose a *firm* should consider using a threshold or indicator to decide whether a *customer* should be excluded on the basis of affordability. Examples may include where the *customer* has (a) annual unsecured debt repayments in excess of 20% of gross annual income or (b) four or more active forms of unsecured credit or (c) has consistently reached his overdraft limit. A *firm* should review its chosen indicator or threshold regularly to ensure that it reflects prevailing economic conditions and takes account of industry best practice.
10. A *firm* should clearly explain the information it is seeking in respect of a *customer's* 'debt' and consider the use of a range of alternative words, such as 'loans', 'repayable

student loans 'borrowing' or 'other forms of credit', to ensure all relevant information is obtained. A *firm* may use a simple reckoner to assess *customer* debt but should be conscious of the nature of, and not give impression that they are providing anything more than, *basic advice*.

11. After a *firm* has given either or both of the warnings mentioned in 8 and 9 above, the *customer* should be invited to consider whether the sales process should be terminated at that stage.

### **Saving and investment objectives – all sales (except establishing a stakeholder CTF)**

12. A *customer's* savings and investment objectives, including the period over which the *customer* wishes to save or invest, should be ascertained including whether:
  - (a) early access to some or all of the amount saved or invested could be important;
  - (b) the *customer* wishes to save or invest for retirement; or whether
  - (c) the *customer* wants to accumulate a specific sum by a specific date.
13. If the information obtained under 12 above indicates that the *customer's* objective:
  - (a) is as described in 12 (c) then normally no *CIS*, *linked life stakeholder product* or topping up of a *stakeholder CTF* should be recommended; or
  - (b) is to save or invest for the short term only or that early access to the whole accumulated sum may be important, then no *CIS*, *linked life stakeholder product*, *stakeholder pension* or topping up of a *stakeholder CTF* should normally be recommended.

### **Tolerance of risk – all sales**

14. If a *customer* is not, in any circumstances, willing to accept any risk of the capital value of an investment being reduced then normally no *CIS*, *linked life stakeholder product*, or *stakeholder CTF* should be recommended. However a *firm* may, if it is appropriate, explain the effect of inflation on long-term savings especially in relation to pensions and invite the *customer* to consider his attitude to risk in the light of that explanation.
15. If a *customer* is willing to accept the risk of capital reduction in some circumstances but not others then, before any recommendation to acquire a *CIS* or *linked life stakeholder product* is made, the *customer* should be reminded of the other circumstances in which he or she is unwilling to accept risk to capital.

### **Stakeholder pensions**

16. A *stakeholder pension* should not be recommended and instead the *customer* should be advised to seek alternative or further *advice* if it appears that the *customer* :
  - (a) has or will have access to an *occupational pension scheme*; or

- (b) is likely to view income in retirement from state benefits as sufficient; or
- (c) already has a pension to which he or she could make further contributions; or
- (d) wishes to retire within five years.

17. In addition to providing the advice in 16, a *firm* may also want to advise the customer that there may be more beneficial courses of action than buying a *stakeholder pension* (for example joining an *occupational pension scheme*).
18. A *firm* designing a sales process for use in the workplace may take account of the benefits offered by the employer. If a *firm* recommends a *stakeholder pension* on the basis of benefits provided by an employer then it should explain the basis of the recommendation to the *customer* and suggest that the *customer* seek *advice* if he or she has any concerns.
19. A *firm* should design its processes with a view to addressing the risk that *customers* will fail to appreciate the significance of questions about their pension provision and should accordingly incorporate a range of questions and information designed to foster the *customer's* understanding of the issues and to elicit appropriate information.
20. *Customers* should be told that a *stakeholder pension* is life-styled and what this means.
21. A *firm* may provide a copy of the pension table specified in COB 6 Annex 1 R for the *customer's* reference but in doing so should also provide and explain the caveats and assumptions behind the table. A *firm* should make it clear that the decision on how much to invest is the *customer's* responsibility and that he should get further advice if has any concerns.

### **Child Trust Funds**

22. A *firm* is reminded of its obligation to provide a *customer* with the information relating to *stakeholder CTFs* that is specified in COB 6.5.40R (7)(a), (b), (d) and (e).

### **ISAs**

23. It should be ascertained whether the *customer* has already opened an *ISA* (whether a "maxi" or "mini" version) and if so whether it would be appropriate for the *customer* to open a non-*ISA* version of the same *product*.

### Amendment to Chapter 6 of COB

6.3 Post-sale confirmation: life policies

...

Exceptions to post-sale confirmation

6.3.6 R A *long term insurer* need not send or give the post-sale confirmation required by COB 6.3.3R when:

...

- (3) the *life policy* is purchased by the trustees or manager of a *stakeholder pension scheme* or if the *life policy* is otherwise sold as a *stakeholder product*;

...

6.5.15 R A *firm* must include a *projection*, illustrating how the principal terms of the proposed transaction apply to the *private customer*:

- (1) where the proposed transaction is for a *life policy* (other than:

(a) a *long-term care insurance contract* which is a *pure protection contract*); ~~or~~

(b) a *linked life stakeholder product*;

(c) one that relates to a CTF or a stakeholder product sold through basic advice;

- (2) where the proposed transaction does not relate to a CTF or a stakeholder product sold through basic advice and is for a scheme or a linked life stakeholder product;

...

...

6.5.19 R (1) A *life policy projection* within *key features* must be specified to the *private customer*, calculated on the basis of the *private customer's* age and sex, the sum assured, the *premium* and other principal factors of the proposed *life policy* unless:

(a) the *life policy* is a single premium *life policy*; or

...

(d) the *key features* are part of a *direct offer financial promotion*; ~~or~~

(e) the projection is in respect of a stakeholder product (which is not a stakeholder pension);

...

...

6.5.25 R When completing COB 6.5.24R a *firm* must:

- (1) under the heading "the early years" include figures for the first five years of the *life policy* or, if the *life policy* has a fixed term of less than five years, as many of them as fall before the maturity date;

...

- (9) (b) the standard ten-year figure must be used for the reduction in yield and the accompanying words amended accordingly;
- (10) in the case of a stakeholder product (which is not a stakeholder pension) the table may be given on the basis of generic figures and values.

...

6.5.32 R When including the contents of COB 6.5.31R a *firm* must replace the wording in brackets as directed by the instructions in those brackets and:

- (2) when the inclusion of a *scheme projection* within the *key features* is compulsory in accordance with *cob* 6.5.13R (2), include figures calculated in accordance with COB 6.6 (Projections):

...

- (10) in the case of a stakeholder product (which is not a stakeholder pension) the table may be given on the basis of generic figures and values.

...

#### CTFs and stakeholder products: annual charges

6.5.37A R (1) If a *firm* imposes one annual charge including expenses, it need not make the detailed disclosures required by COB 6.5.24R and COB 6.5.30R; but if it does not make those disclosures, it must instead include either:

- (a) the following statement (the last sentence must be included if and only if it is clear at the time of acquisition that the annual charge will reduce to r % after a fixed period):

"There is an annual charge of [y]% of the value of the funds you accumulate. If your fund is valued at £250 throughout the year, this means we deduct [£250 x y/100] that year. If your fund is valued at £500 throughout the year, this means we deduct [£500 x y/100] that year. After ten years these deductions would reduce to [£250 x r/100] and [£500 x r/100] respectively."

or;

- (b) the information required by COB 6.5.20R.

### Amendments to the Authorisation manual

In this Annex, underlining indicates new text and striking through indicates deleted text.

#### Providing basic advice on stakeholder products

- 2.7.14A      G      This activity covers advice in the form of a recommendation given to a retail consumer. The recommendation must relate to a stakeholder product and certain conditions must be met. These conditions are based on the need for the adviser to make an assessment of the consumer's needs based on the answers that the consumer provides to a series of pre-scripted questions. A fuller description of the activity is given in AUTH 2.7.14BG and explains what is meant by "retail customer". This activity is separate to the regulated activity of advising on investments (see AUTH 2.7.15G (Advising on investments)). The existence of this separate advising activity does not prevent a person from giving advice on stakeholder products in circumstances that do not satisfy the conditions set out in AUTH 2.7.14BG. But such advice is likely to amount to advising on investments unless the stakeholder product is a deposit. Neither does the existence of the activity prevent a person from selling stakeholder products in any other manner provided the person has the appropriate permission.
- 2.7.14B      G      A person ('P') carries on the regulated activity of providing basic advice on a stakeholder product when:
- (1) P gives the advice:
    - (a) to a person ('C') who does not receive the advice in the course of a business that he carries on; and
    - (b) in the course of a business that P carries on;
  - (2) the advice is on the merits of C opening or buying a stakeholder product;
  - (3) the following conditions are met:
    - (a) P asks C questions to enable P to assess whether a stakeholder product is appropriate for C;
    - (b) if P, relying solely on the information provided by C in response to the questions referred to in (a), assesses that a stakeholder product is appropriate for C, P:
      - (i) describes that product to C; and
      - (ii) gives a recommendation of that product to C; and

(4) C has indicated to P that he has understood the description and recommendation referred to in (3)(b).

2.7.16A      G      In certain circumstances, the activity of *advising on investments* can also amount to *providing basic advice on a stakeholder product* (see *AUTH 2.7.14A* (Providing basic advice on stakeholder products)).

...

*AUTH 2*      G  
Annex 2

Regulated activities and the permission regime

*AUTH 2* Annex 2 Table 1:

Regulated activity	Specified investment in relation to which the regulated activity (in the corresponding entry in column 1) may be carried on
...	
<b>Designated investment business [see note 1A and 1B to Table 1]</b>	
...	
(p) <i>establishing, operating or winding up a stakeholder pension scheme</i> (article 52)	
(pp) <i>providing advice on a stakeholder product</i> (article 52B)	<u>those <i>specified investments</i> that are also a <i>stakeholder product</i> [see note 7])</u>
...	

...

Note 7:

A stakeholder product is defined in the *Glossary* as:

- an investment of a kind specified in the *Stakeholder Regulations*;
- a stakeholder pension scheme; and
- a stakeholder CTF.

...

3.6.4 G (5) COB 4.1.4R does not apply to a firm which, in relation to any customer, intends only to provide advice on a stakeholder product.

...

App 1.24.3 G Each of the aspects referred to in *AUTH* App 1.24.2G is considered in greater detail in *AUTH* App 1.25 to *AUTH* 1.29. In addition, under article 52A of the *Regulated Activities Order providing advice on a stakeholder product is a regulated activity and under article 56 of the Regulated Activities Order...*

### Amendments to the Glossary

In this Annex, underlining indicates new text and striking through indicates deleted text.

Insert or amend the following definitions in the appropriate alphabetical position:

<u>basic advice</u>	see <u>providing basic advice on a stakeholder product</u>
<u>branded fund</u>	A life policy or a regulated collective investment scheme other than a broker fund which is available as an investment only or mainly to the clients of a particular <del>independent intermediary</del> firm other than a provider firm.  (a) ... into which cash contributions of that <del>independent intermediary's</del> firm's customers have been made;  (b) ... into which the cash contributions of that <del>independent intermediary's</del> firm's customers have been made;
<u>CIS stakeholder product</u>	<u>the stakeholder product specified by regulations 5 (units in certain collective investment schemes) and 7 of the Stakeholder Regulations;</u>
<u>combined initial disclosure document (CIDD)</u>	information about the scope and nature of the services offered by a firm in relation to:  (a) a combination of two or more of the following:  <del>(a)(i)</del> packaged products;  (ii) non-investment insurance contracts;  (iii) regulated mortgage contracts;  (iv) regulated lifetime mortgage contracts;  <u>or</u>  (b) <u>a combination of two or more of the following:</u>  (i) <u>stakeholder products;</u>  (ii) <u>regulated lifetime mortgage contracts;</u>  (iii) <u>regulated mortgage contracts;</u>  (iv) <u>non-investment insurance contracts.</u>

<u>deposit-based stakeholder product</u>	<u>the stakeholder product specified by regulation 4 (certain deposit accounts) of the Stakeholder Regulations;</u>
<u>designated investment business</u>	Any of the following activities, specified in Part II of the <i>Regulated Activities Order</i> (Specified Activities), which is carried on by way of business: <ul style="list-style-type: none"> <li>(a) ...</li> <li>(p) <u>providing basic advice on a stakeholder product (article 52B).</u></li> </ul>
<u>initial disclosure document (IDD)</u>	information about the scope and nature of the services offered by a <i>firm</i> in relation to <u>packaged products</u> as required by COB 4.3.7R; or <u>stakeholder products</u> as required by COB 5A.2.1R (1).
<u>linked life stakeholder product</u>	<u>the stakeholder product specified by regulations 6 and 7 (rights under certain linked long-term contracts) of the Stakeholder Regulations;</u>
<u>packaged product</u>	<ul style="list-style-type: none"> <li>(a) a <i>life policy</i></li> <li>(b) a <i>unit</i> in a <i>regulated collective investment scheme</i>;</li> <li>(c) an interest in an <i>investment trust savings scheme</i>;</li> <li>(d) a <i>stakeholder pension scheme</i></li> </ul> <p>whether or not (in the case of (a), (b) or (c)) held within a <i>PEP</i><del> or</del>, an <i>ISA</i> or a <i>CTF</i> and whether or not the <u>packaged product</u> is also a <u>stakeholder product</u>.</p>
<u>private customer</u>	<ul style="list-style-type: none"> <li>(1) (except in COB 3, COB 4.2 and COB 6.4) a <i>client</i> who is not a <i>market counterparty</i> or an <i>intermediate customer</i>, including: <ul style="list-style-type: none"> <li>...</li> <li>(e) <u>a person to whom a firm provides basic advice on stakeholder products;</u></li> <li>...</li> </ul> </li> </ul>
<u>providing basic advice on a stakeholder product</u>	<u>the regulated activity, specified in article 52B of the Regulated Activities Order (providing basic advice on stakeholder products)], which is in summary, advising on certain relatively low cost products by means of questions.</u>
<u>regulated activity</u>	(in accordance with section 22 of the <i>Act</i> (The classes of activity and categories of investment)) any of the following activities specified in Part II of the <i>Regulated Activities Order</i> (Specified Activities): <ul style="list-style-type: none"> <li>...</li> <li>(oa) <u>providing basic advice on a stakeholder product (article 52B);</u></li> </ul>

(p) ...

range see range of packaged products and range of stakeholder products

range of packaged products, range (in relation to a firm) the range of packaged products on which the firm gives advice on investments to private customers (see COB 5.1.6 A) or if appropriate the list of packaged products in which the firm deals.

range of stakeholder products, range (in relation to a firm) the range of stakeholder products on which the firm gives advice (see COB 5A.3.2R);

Delete the existing definition for ‘representative’ and replace with the following definition:

representative an individual who:

- (a) is appointed by a *firm*, or by an *appointed representative* of a *firm*, to carry on any of the following activities:
  - (i) *advising on investments*;
  - (ii) *providing basic advice on stakeholder products*;
  - (iii) *arranging (bringing about) deals in investments* ;
  - (iv) *dealing in investments*; or
- (b) although not appointed to do so, carries on any of the activities in (i) to (iii) on behalf of a *firm* or its *appointed representative*.

smoothed linked long term stakeholder product the stakeholder product specified by regulations 6, 7 and 8 (smoothed linked long term contracts) of the Stakeholder Regulations;

stakeholder CTF a CTF that has the characteristics and complies with the conditions set out in paragraph 2 of the schedule to the CTF Regulations;

stakeholder product (as defined in article 52B(3) of the Regulated Activities Order):

- (a) a stakeholder CTF; or
- (b) a stakeholder pension scheme; or
- (c) an investment of a kind specified in the Stakeholder Regulations.

Stakeholder Regulations the Financial Services and Markets Act 2000 (Stakeholder Products) Regulations 2004 (SI 2004/2738).

**CLIENT ASSETS (REVISED CFTC PART 30 ORDER)  
INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) section 138 (General rule-making power);
  - (2) section 139 (Miscellaneous ancillary matters);
  - (3) section 156 (General supplementary powers); and
  - (4) section 157(1) (Guidance).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C. This instrument comes into force on 1 January 2005.

**Amendments to the Client Assets sourcebook**

- D. The Client Assets sourcebook is amended in accordance with Annex A to this instrument.

18 November 2004

## Annex A

### Amendments to the Client Assets sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

Commodity Futures Trading Commission Part 30 exemption order

- 4.3.106A G United States (US) legislation restricts the ability of non-US firms to trade on behalf of US customers on non-US futures and options exchanges. The relevant US regulator (the CFTC) operates an exemption system for firms authorised by the FSA. The FSA sponsors the application from a firm for exemption from Part 30 of the General Regulations under the US Commodity Exchange Act in line with this system. The application forms and associated information can be found on the FSA website in the “Forms” section.
- 4.3.107 ~~R~~ G A firm with a Part 30 exemption order undertakes to the CFTC that it will refuse to allow any US customer to opt not to have ~~must treat~~ his money treated as client money ~~the money of any US resident investor which if it~~ is held or received in respect of transactions on non-US exchanges, unless that US customer is an “eligible contract participant” as defined in section 1a(12) of the Commodity Exchange Act, 7 U.S.C.. In doing so, the firm is representing that it will not make use of the opt-out arrangements in CASS 4.1.8G to CASS 4.1.11R in relation to that business.

...

- 5.1.4A     R     (1)     A firm which, in relation to a service charge, receives or holds client money and is required to segregate and account for such money in accordance with section 42 of the Landlord and Tenant Act 1987 ("the 1987 Act") will, if it complies with that provision and with (3), be deemed to comply with CASS 5.3 to 5.6.
- (2)     Paragraph (1) also applies to a firm in Scotland or in Northern Ireland if in acting as a property manager the firm receives or holds a service charge and complies (so far is practicable) with section 42 of the 1987 Act as if the requirements of that provision applied to it.
- (3)     In addition to complying with (1), a firm must ensure that an account in which money held pursuant to the trust fund mentioned in section 42(3) of the 1987 Act satisfies the requirements in CASS 5.5.49R.

- 5.1.5 R Subject to CASS 5.1.5AR ~~M~~money is not *client money*:  
 ...
- 5.1.5 A R CASS 5.1.5R(1)(b) and (2) do not apply, and hence *money is client money*, in any case where:
- (1) in relation to an activity specified in CASS 5.2.3R(1)(a) to (c), the *insurance undertaking* has agreed that the *firm* may treat *money* which it receives and holds as agent of the *undertaking*, as *client money* and in accordance with the provisions of CASS 5.3 to 5.6; and
- (2) the agreement in (1) is in writing and adequate to show that the *insurance undertaking* consents to its interests under the trusts (or in Scotland agency) in CASS 5.3.2R or CASS 5.4.7R being subordinated to the interests of the *firm's* other *clients*.
- 5.1.6 R ~~Except where a *firm* and an *insurance undertaking* have (in accordance with CASS 5.1.5AR) agreed otherwise, for the purposes of CASS 5.1 to 5.6 an *insurance undertaking* (when acting as such) with whom a *firm* conducts *insurance mediation activity* is not to be treated as a *client* of the *firm*.~~
- Purpose
- 5.1.7 G ...
- (2) There are two particular approaches which a *firm* can adopt which reflect options given in article 4.4. The first is to provide by law or contract for a transfer of risk from the *insurance intermediary* to the *insurance undertaking* (CASS 5.2). The second is that *clients' money* is strictly segregated by being transferred to *client accounts* that cannot be used to reimburse other creditors in the event of the *firm's* insolvency (CASS 5.3 and 5.4 provide different means of segregation). CASS 5.1.5AR permits a *firm* subject to certain conditions to treat *money* which it collects as agent of an *insurance undertaking* as *client money*; the principle of strict segregation is, however, satisfied because such *undertakings* must agree to their interests being subordinated to the interests of the *firm's* other *clients*.
- ...
- 5.2.1 G If a *firm* holds *money* as agent of an *insurance undertaking* then the *firm's clients* (who are not *insurance undertakings*) will be adequately protected to the extent that the *premiums* which it receives are treated as being received by the *insurance undertaking* when they are received by the agent and claims *money* and *premium* refunds will only be treated as received by the *client* when they are actually paid over. The *rules* in CASS 5.2 make provision for

agency agreements between *firms* and *insurance undertakings* to contain terms which make clear when *money* should be held by a *firm* as agent of an undertaking. *Firms* should refer to *CASS 5.1.5R* to determine the circumstances in which they may treat *money* held on behalf of *insurance undertakings* as *client money*. *Money* is not *client money* when a *firm* holds *money* as agent for an *insurance undertaking* to which *premiums* are, or will become, payable or from whom claims *money* or *premium* refunds are received for onward payment to the *firm's client*. This is because for the purposes of *CASS 5.1* to *5.6* an *insurance undertaking* with whom a *firm* transacts *insurance mediation activity* is not treated as a *client* of the *firm*. Where a *firm* acts as the agent of an *insurance undertaking* (for the purposes of receiving *premiums*, claims *money* and *premium* refunds) the *firm's clients* will be adequately protected because *premiums* will be treated as being received by the *insurance undertaking* when they are received by the agent and claims *money* and *premium* refunds will only be treated as received by the *client* when they are actually paid over.

- 5.2.2 G (1) Agency agreements between *insurance intermediaries* and *insurance undertakings* ... Accordingly such *money* is not, except where a *firm* and an *insurance undertaking* have in compliance with *CASS 5.1.5AR* agreed otherwise, *client money* for the purposes of *CASS 5*.
- (2) Other introductory agency agreements may also, depending on their precise terms, satisfy some or all of the requirements of the type of written agreement described in *CASS 5.2.3R* which will result in a transfer of risk for the purpose of *CASS 5.2*. It is desirable that an *intermediary* ...
- 5.2.3 R ...
- (3) Where a *firm* holds, or is to hold, *money* as agent for an *insurance undertaking* it must ensure that it informs those of its *clients* which are not *insurance undertakings* and whose transactions may be affected by the arrangement ...
- (4) A *firm* may (subject to the consent of the *insurance undertaking* concerned) include in an agreement in (1) provision for *client money* received by ~~an~~ its appointed representative, *field representatives* and other agents to be held ~~by the representative~~ as agent for the *insurance undertaking* (in which event the *firm* must ensure that the *representative* or agent provides the information to *clients* required by (3)).
- 5.2.4 G *Firms* are reminded that *CASS 5.1.5AR 5.1.5R(1)(b)* provides that, if the *insurance undertaking* has agreed in writing, *money* held in accordance with an agreement made under *CASS 5.2.3R* ~~is not~~ may be treated as *client money* and ~~in accordance with the rules in *CASS 5*, that *money* may (but not otherwise)~~ must not be kept in a *client bank account*.
- 5.2.5 G A *firm* which provides for the protection of a *client* (which is not an

*insurance undertaking*) under CASS 5.2 is relieved of the obligation to provide protection for that *client* under CASS 5.3 or CASS 5.4 to the extent of the items of ~~the~~ *client money* protected by the agency agreement.

5.2.6 G A *firm* may, in accordance with CASS 5.2.3R(4), arrange for an *insurance undertaking* to accept responsibility for the *money* held by its *appointed representatives, field representatives, and other agents*, in which event CASS 5.5.18R to CASS 5.5.25G will not apply.

...

5.3.2 R A *firm* (other than a *firm* acting in accordance with CASS 5.4) receives and holds *client money* as trustee (or in Scotland as agent) on the following terms:

- (1) for the purposes of and on the term of CASS 5.3, CASS 5.5 and the *client money (insurance) distribution rules*;
- (2) subject to ~~(34)~~, for the *clients (other than clients which are insurance undertakings when acting as such)* for whom that *money* is held, according to their respective interests in it;
- (3) after all valid claims in (2) have been met, for *clients* which are *insurance undertakings* according to their respective interests in it;
- ~~(34)~~ on the failure of the *firm*, for the payment of the costs properly attributable to the distribution of the *client money* in accordance with (2) and (3); and
- ~~(45)~~ after all valid claims and costs under (2) ~~and (3)~~ to (4) have been met, for the *firm* itself.

...

5.4.4 R A *firm* may not handle *client money* in accordance with the *rules* in this section unless each of the following conditions is satisfied:

- (1) ...
- (5) in relation to each of the *clients* for whom the *firm* holds *money* in accordance with CASS 5.4, the *firm* must take reasonable steps to ensure that its *terms of business* or other *client agreements* adequately explain, and obtain the *client's* informed consent to, the *firm* holding the *client's money* in accordance with CASS 5.4 (and in the case of a *client* which is an *insurance undertaking* (when acting as such) there must be an agreement which satisfies CASS 5.1.5AR).

...

5.4.6 R Except to the extent that a *firm* acts in accordance with CASS 5.3, A *firm*

must not receive or hold any *client money* unless it does so as trustee (or, in Scotland, as agent) and has properly executed a deed (or equivalent formal document) to that effect.

#### Contents of trust deed

5.4.7 R The deed referred to in CASS 5.4.6R must provide that the *money* (and if appropriate the *designated investments*) are held:

...

(2) subject to ~~(34)~~, for the *clients* (other than *clients* which are *insurance undertakings* when acting as such) for whom that *money* is held, according to their respective interests in it;

(3) after all valid claims in (2) have been met for *clients* which are *insurance undertakings* according to their respective interests in it;

~~(34)~~ on the *failure* of the *firm*, for the payment of the costs properly attributable to the distribution of the *client money* in accordance with (2) and (3); and

5.5.10 R If it is prudent to do so to ensure that *client money* is protected (and provided that doing so would otherwise be in accordance with CASS 5.5.63R~~(2)(b)(1)(b)(ii)~~) ...

...

5.5.11A G When a *firm* acts in accordance with CASS 5.3 (Statutory trust) it should not make a payment from the *client bank account* unless it is satisfied on reasonable grounds that the *client* has provided it with cleared funds. Accordingly, a *firm* should normally allow a reasonable period of time for cheques to clear. If a withdrawal is made and the *client's* cheque is subsequently dishonoured it will be the *firm's* responsibility to make good the *shortfall* in the account as quickly as possible (and without delay whilst a cheque is re-presented).

...

5.5.16 R (1) A *firm* may draw down *commission* from the *client bank account* if:

(a) it has received the *premium* from the *client* (or from a *third party premium* finance provider on the *client's* behalf); and

- (b) this is consistent with the firm's terms of business ~~terms of reference of~~ which it maintains with the relevant client and the insurance undertaking to whom the premium is will become payable;

and the *firm* may draw down *commission* before payment of the *premium* to the *insurance undertaking*, provided that the conditions in (a) and (b) are satisfied.

- (2) If a *firm* receives a *mixed remittance* (that is part *client money* and part other *money*), it must:
- (a) pay the full amount into a *client bank account* in accordance with *CASS 5.5.5R* ; and
- (b) pay the *money* that is not *client money* out of the *client bank account* as soon as reasonably practicable and in any event by not later than twenty five *business days* after the day on which the remittance is cleared (or, if earlier, when the firm performs the client money calculation in accordance with *CASS 5.5.63R(1)*.

- 5.5.17 G (1) As soon as *commission* becomes due to the *firm* (in accordance with *CASS 5.5.16R(1)*) it must be treated as a remittance which must be withdrawn in accordance with *CASS 5.5.16R (2)*. The procedure required by *CASS 5.5.16R* will also apply where ~~money becomes is due and payable~~ to the *firm* in respect of fees due from *clients* (whether to the *firm* or other professionals) ~~and amounts in respect of *commission* which becomes due to the *firm* from an *insurance undertaking*.~~
- (2) *Firms* are reminded that *money* received in accordance with *CASS 5.2* must not, except where a *firm* and an *insurance undertaking* have (in accordance with *CASS 5.1.5AR*) agreed otherwise, be kept in a *client bank account*. *Client money* received from a third party *premium* finance provider should, however, be segregated into a *client bank account*.
- (3) Where a *client* makes payments of *premium* to a *firm* in instalments, *CASS 5.5.16R(1)* applies in relation to each instalment.
- (4) If a *firm* is unable to match a remittance with a transaction it may be unable to immediately determine whether the payment comprises a *mixed remittance* or is *client money*. In such cases the remittance should be treated as *client money* while the *firm* takes steps to match the remittance to a transaction as soon as possible.

Appointed representatives, field representatives and other agents

- 5.5.18 R (1) Subject to (4), a firm must in relation to each of its appointed representatives, field representatives and other agents comply with CASS 5.5.19R to CASS 5.5.21R (Immediate segregation) or with CASS 5.5.23R (Periodic segregation and reconciliation).

...

- (4) (1) to (3) do not apply in relation to an appointed representative, field representative or other agent to which (if it were a firm) CASS 5.1.4AR(1) or (2) would apply, but subject to the representative or agent maintaining an account which satisfies the requirements of CASS 5.5.49R.

...

Client money calculation and reconciliation

- 5.5.62 G ~~The purpose of the client money calculation is to act as a check that the amount of client money (and where appropriate the value of segregated designated investments) that is segregated at banks (and where appropriate third parties) is sufficient to meet the firms obligations to its clients. For this purpose two, alternative, calculation methods are permitted, but a firm must use the same calculation method in relation to both CASS 5.3 and CASS 5.4. The first requires a firm to calculate its client money requirement by reference to individual client money balances. The second permits a firm to carry out the calculation on the basis of information in its business ledgers. In either case, the firm must carry out the calculation at least every 25 business days.~~

- (1) In order that a firm may check that it has sufficient money segregated in its client bank account (and held by third parties) to meet its obligations to clients it is required periodically to calculate the amount which should be segregated (the client money requirement) and to compare this with the amount shown as its client money resource. This calculation is, in the first instance, based upon the firm's accounting records and is followed by a reconciliation with its banking records. A firm is required to make a payment into the client bank account if there is a shortfall or to remove any money which is not required to meet the firm's obligations.

- (2) For the purpose of calculating its client money requirement two alternative calculation methods are permitted, but a firm must use the same method in relation to CASS 5.3 and CASS 5.4. The first refers to individual client cash balances; the second to aggregate amounts of client money recorded on a firm's business ledgers.

- 5.5.63 R (1) A *firm* must, as often as is necessary to ensure the accuracy of its records and at least at intervals of not more than 25 *business days*:
- (1) (a) check whether its *client money* resource, as determined by CASS 5.5.65R on the previous *business day*, was at least equal to the *client money* requirement, as determined by CASS 5.5.66R or CASS 5.5.68R, as at the close of business on that day; and
  - (2) (b) ensure that:
    - (a) (i) any *shortfall* is paid into a *client money bank account* by the close of business on the day the calculation is performed; or
    - (b) (ii) any excess is withdrawn within the same time period unless CASS 5.5.9R or CASS 5.5.10R applies to the extent that the *firm* is satisfied on reasonable grounds that it is prudent to maintain a positive margin to ensure the ~~test~~-calculation in (a) is satisfied having regard to any unreconciled items in its business ledgers as at the date on which the calculations are performed; and
  - (3) (c) ~~ensure that it~~ includes in any calculation of its *client money* requirement (whether calculated in accordance with CASS 5.5.66R or CASS 5.5.68R) any amounts attributable to *client money* received by its *appointed representatives*, *field representatives* or other agents and which, as at the date of calculation, it is required to segregate in accordance with CASS 5.5.19R.
- (2) A *firm* must within ten *business days* of the calculation in (a) reconcile the balance on each *client bank account* as recorded by the *firm* with the balance on that account as set out in the statement or other form of confirmation used by the bank with which that account is held.
- (3) When any discrepancy arises as a result of the reconciliation carried out in (2), the *firm* must identify the reason for the discrepancy and correct it as soon as possible, unless the discrepancy arises solely as a result of timing differences between the accounting systems of the party providing the statement or confirmation and those of the *firm*.

- (4) While a firm is unable to resolve a difference arising from a reconciliation, and one record or a set of records examined by the firm during its reconciliation indicates that there is a need to have a greater amount of client money than is in fact the case, the firm must assume, until the matter is finally resolved, that the record or set of records is accurate and either pay its own money into a relevant account or make a withdrawal of any excess.

...

- 5.5.65 R The *client money* resource, for the purposes of CASS 5.5.63R(1)(a), is
- (1) the aggregate of the balances on the *firm's client money bank accounts*, as at the close of business on the previous *business day* and, if held in accordance with CASS 5.4, *designated investments* (valued on a prudent and consistent basis) together with *client money* held by a third party in accordance with CASS 5.5.34 R; and
  - (2) (but only if the firm is comparing the client money resource with its client's money (accruals) requirement in accordance with CASS 5.5.68R) to the extent that *client money* is held in accordance with CASS 5.3 (statutory trust), insurance debtors (which in this case cannot include pre-funded items); and
  - (3) (but only if the firm is comparing the client money resource with its client's money (accruals) requirement in accordance with CASS 5.5.68R) to the extent that *client money* is held in accordance with CASS 5.4 (non-statutory trust):

...

But a firm may treat a transaction with an insurance undertaking which is not a UK domestic firm as complete, and accordingly may (but only for the purposes of the calculation in (1)) disregard any unreconciled items of client money transferred to an intermediate broker relating to such a transaction, if:

- (4) it has taken reasonable steps to ascertain whether the transaction is complete; and
- (5) it has no reason to consider the transaction has not been completed; and
- (6) a period of at least 12 months has elapsed since the money was transferred to the intermediate broker for the purpose of the transaction.

...

- 5.5.67 R The individual *client balance* for each *client* must be calculated as follows:

...

- (4) less the amount paid to *insurance undertakings* for the benefit of the *client* (to include all *premiums* and *commission* due to itself) (i.e. *commissions* that are due but have not yet been removed from the *client account*);

...

5.5.68 R A *firm's client money* (accruals) requirement is the sum of the following:

...

- (2) unearned ~~brokerage~~ *commission* being the amount of ~~brokerage~~ *commission* shown as accrued (but not shown as ~~earned~~ due and payable) as at the date of the calculation (a prudent estimate must be used if the *firm* is unable to produce an exact figure at the date of the calculation).

...

#### Reconciliation of client money: frequency of reconciliation

5.5.70 R ~~A *firm* must perform a reconciliation of the *client money* balances which it holds, or if appropriate perform the *client money* (accruals) calculation, as frequently as is necessary to ensure the accuracy of its record of *money* so held, and no less than once in every 25 *business days*. [deleted]~~

5.5.71 G ~~In determining whether the minimum acceptable frequency is sufficient, a *firm* should consider the risks to which the business is exposed, such as the volume of business, and where and with whom the *client money* is held. [deleted]~~

5.5.72 R ~~A *firm* must complete the reconciliation of *client money* within ten *business days* of the date on which the *client money* resource and *client money* requirements were determined. [deleted]~~

#### Verification of banking records

5.5.73 R ~~A *firm* must for the purpose of the reconciliation required by CASS 5.5.63R compare the balance on each *client bank account* as recorded by the *firm* with the balance on that account as set out in the statement or other form of confirmation used by the bank with which that account is held. [deleted]~~

#### Verification of discrepancies

5.5.74 R ~~When any discrepancy arises as a result of the verification carried out under CASS 5.5.73R, the *firm* must identify the reason for the discrepancy and correct it as soon as possible, unless the discrepancy arises solely as a result of timing differences between the accounting systems of the party providing the statement or confirmation and those of the *firm*. [deleted]~~

5.5.75 R ~~While a *firm* is unable to resolve a difference arising from a reconciliation, and one record or a set of records examined by the *firm* during its reconciliation indicates that there is a need to have a greater amount of *client money* than is in fact the case, the *firm* must assume, until the matter is finally resolved, that the record or set of records is accurate and pay its own *money* into a relevant account. [deleted]~~

Failure to perform calculations or reconciliation

5.5.76 R A *firm's* must notify the *FSA* immediately if it is unable to, or does not, perform the calculation required by *CASS* 5.5.63R(1).

5.5.77 R A *firm* must notify the *FSA* immediately it becomes aware that it may not be able to make good any *shortfall* identified by *CASS* 5.5.63R(1) by the close of business on the day the calculation is performed and if applicable when the reconciliation is completed.

5.5.78 R ~~A *firm* must notify the *FSA* as soon as possible if it is unable to comply with any of the requirements of *CASS* 5.5.70R, *CASS* 5.5.72R, *CASS* 5.5.73R, *CASS* 5.5.74R and *CASS* 5.5.75R. [deleted]~~

...

5.5.80 R *Money* ceases to be *client money* if it is paid:

...

(5) to the *firm* itself, when it is an excess in the *client bank account* as set out in *CASS* 5.5.63R(2)(b)(1)(b)(ii).

...

5.6.5 R A *primary pooling event* occurs:

...

(4) when the *firm* notifies, or is in breach of its duty to notify, the *FSA*, in accordance with *CASS* 5.5.787R ...

...

5.6.22 R *Money* held in each *general client bank account* of the *firm* must be treated as pooled and:

...

(4) the *firm* must use the new *client* entitlements, calculated in accordance with (2), when performing the *client money* calculation in accordance with *CASS* 5.5.63R to *CASS* 5.5.7569R.

...

5.6.24 R For each *client* with a *designated client bank account* held at the *failed* bank:

...

(4) the *firm* must use the new *client money* entitlements, calculated in accordance with (2), when performing the periodic *client money* calculation, in accordance with CASS 5.5.63R to CASS 5.5.7569R.

...

5.6.30 R *Money* held in each *general client bank account* of the *firm* must be treated as pooled and:

...

(4) the *firm* must use the new *client money* entitlements, calculated in accordance with (2), when performing the periodic *client money* calculation, in accordance with CASS 5.5.63R to CASS 5.5.7569R.

## Annex B

### Amendments to the Glossary of definitions

In this Annex striking through indicates deleted text.

Amend the following definition as shown:

*approved bank* (except in *COLL* and *CIS*) (in relation to a *bank* account opened by a *firm*):

- (a) if the account is opened at a branch in the *United Kingdom*:
  - (i) the Bank of England; or
  - (ii) the central bank of a member state of the *OECD*; or
  - (iii) a *bank*; or
  - (iv) a *building society* ~~which offers unrestrictedly, banking services~~; or

...

## ADDENDUM

### CLIENT ASSETS SOURCEBOOK (AMENDMENT NO 2) INSTRUMENT 2004

Annex A to this instrument is amended by replacing the text shown for the transitional provisions CASS TP 3 and TP 4 with the following text:

#### CASS Transitional Provisions

(1)	(2)	(3)	(4)	(5)	(6)
	Material to which the transitional provision applies		Transitional provision	Transitional provision: dates in force	Handbook provision: coming into force
3	CASS 5.1 to CASS 5.6	R	<del>In CASS 5.1 to CASS 5.6 an insurance undertaking (when acting as such) with whom a firm conducts insurance mediation activity may be treated by the firm as its client.</del> <u>Apply in relation to money (and where appropriate designated investments) held by a firm on 14 January 2005 (being money or designated investments to which CASS 5.1 to CASS 5.6 would not otherwise apply) to the extent that any such money (or designated investments) relate to business carried on before 14 January 2005 and which would, if conducted on or after 14 January 2005, be an insurance mediation activity.</u>	14 January 2005 for 12 months <u>Indefinitely</u>	14 January 2005

## CONTROLLERS AND CLOSE LINKS INSTRUMENT 2004

### Powers exercised

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) section 138 (General rule-making power);
  - (2) section 156 (General supplementary powers);
  - (3) section 157(1) (Guidance); and
  - (4) section 182 (1) (Notification).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

### Commencement

- C. This instrument comes into force on 1 December 2004, save for the amendment to SUP 11.2.8G which appears in square brackets, which comes into force on 14 January 2005 pursuant to the Insurance Mediation and Mortgage Mediation, Lending and Administration (Prudential Provisions) Instrument 2004 (FSA 2004/01).

### Amendments to the Supervision manual

- D. The Supervision manual is amended in accordance with the Annex to this instrument.

### Citation

- E. This instrument may be cited as the Controllers and Close Links Instrument 2004.

By order of the Board  
18 November 2004

## Annex

### Amendments to the Supervision manual

In this Annex, underlining indicates new text and striking through deleted text. Footnotes do not form part of this instrument, but have been inserted to assist the reader.

- 11.2 Purpose
- ...
- 11.2.2 G The *rules* in SUP 11.4 to SUP 11.6 are aimed at ensuring that the FSA receives information it needs from *firms* to assist the FSA with its responsibility to monitor and, in some cases, give prior approval to *firms' controllers*. ~~These rules also implement certain requirements relating to changes in control that are required under the Investment Services Directive, the Banking Consolidation Directive, the Third Life Directive and the Third Non-Life Directive.~~
- ...
- 11.2.5 G Similarly, the FSA needs to monitor a *firm's* continuing satisfaction of *threshold condition 3* (Close links) (see SUPCOND 2.3), which requires that a *firm's close links* are not likely to prevent the FSA's effective supervision of that *firm*. Accordingly the FSA needs to be notified of any changes in a *firm's close links*. This requirement is contained in SUP 11.9 and implements a requirement of the amending Directive (the *Post BCCI directive*) in relation to *close links*.
- 11.2.6 G Every *firm<sub>2</sub>* other than a *firm* listed in SUP 11.1.1R(1) to (6) or a *firm* excluded from the operation of SUP 16.4 or SUP 16.5 by SUP 16.1.3R, is required to submit an annual report on its *controllers* and *close links* as set out in SUP 16.4 and SUP 16.5.
- 11.2.7 G The requirements in SUP 11 implement certain provisions relating to changes in control and close links required under the Single Market Directives. ~~A summary of the notification requirements in this chapter is given in SUP 11Ann1G.~~
- 11.2.8 G An event described in SUP 11.4.2R(1) to (4) [and SUP 11.4.2AR(1) and (2)]<sup>1</sup> is referred to in this chapter as a "change in control".
- ...

---

<sup>1</sup> This amendment will come into force on 14 January 2005 pursuant to the Insurance Mediation and Mortgage Mediation, Lending and Administration (Prudential Provisions) Instrument 2004 (FSA2004/01). This amendment was made initially to SUP 11.3.2G but this instrument moves this text to SUP 11.2.8G and so the amendment made by FSA 2004/01 is transposed.

11.3 Requirements on controllers or proposed controllers under the Act

...

Requirement to notify a proposed change in control

11.3.2 G ~~Part XII~~ Sections 178(1) and 190(1) of the *Act* requires a *person* (whether or not he is an *authorised person*) to notify the *FSA* in writing if he proposes to take a step which would result in his acquiring *control* or increasing or reducing his *control* over a UK domestic firm in a way described in SUP 11.4.2R(1) to (4). Failure to notify is an offence under section 191(1) of the *Act* (Offences under this Part). ~~An event described in SUP 11.4.2R(1) to (4) is referred to in this chapter as a “change in control”.~~

...

11.3.3 G ~~The notifications referred to in SUP 11.3.2G may be given jointly with the firm as described in SUP 11.5.8G. [deleted]~~<sup>2</sup>

~~Prior a~~ Approval of required before acquiring or increasing control

11.3.4 G If a *person* proposes to acquire *control* or increase his *control* over a UK domestic firm in a way described in SUP 11.4.2R(1) to (4), he must obtain the *FSA's* approval before doing so. ~~Failure~~ Failure to obtain approval is an offence under section 191(3) of the *Act* (Offences under this Part). The *FSA* has up to three *months* to consider whether to ~~approve~~ approve such a change in *control*; see SUP 11.7 for guidance on the approval procedures. ~~A controller or proposed controller should take this period into account when deciding when to give his notification.~~

11.3.5 G The *FSA's* ~~approval~~ approval is not required before a *controller* reduces his *control* over a UK domestic firm.

Pre-notification and approval for fund managers

11.3.5A G The *FSA* recognises that *firms* acting as *investment managers* may have difficulties in complying with the prior notification requirements in sections 178(1) and 190(1) of the *Act* as a result of acquiring or disposing of listed *shares* in the course of that fund management activity. To ameliorate these difficulties, the *FSA* may accept pre-notification of proposed changes in *control*, made in accordance with SUP 11.3.5BD, and may grant approval of such changes for a period lasting up to a year.

11.3.5B D The *FSA* may treat as notice given in accordance with sections 178(1) and 190(1) of the *Act* a written notification from a *firm*

---

<sup>2</sup> Text moved to SUP 11.3.17G

which contains the following statements:

- (1) that the *firm* proposes to acquire and/or dispose of *control*, on one or more occasions, of any *UK domestic firm* whose *shares* or those of its ultimate *parent undertaking* are, at the time of the acquisition or disposal of *control*, listed or which are admitted to listing on a *designated investment exchange*;
- (2) that any such acquisitions and/or disposals of *control* will occur only in the course of the *firm's* business as an *investment manager*; and
- (3) that the level of *control* the *firm* so acquires in the pre-approval period will at all times remain less than 20%.

11.3.5C     G     Where the *FSA* approves changes in *control* proposed in a notice given under *SUP* 11.3.5BD:

- (1) the *controller* remains subject to the requirement to notify the *FSA* when a change in *control* actually occurs; and
- (2) the notification of change in *control* should be made no later than five *business days* after the end of each *month* and set out all changes in the *controller's control* position for each *UK domestic firm* for the *month* in question.

At that stage, the *FSA* may seek from the *controller* further information, including that which would have been supplied under *SUP* 11.3.7D(2).

Change in control without taking any step

11.3.6     G     If a change in *control* occurs without the *person* himself having taken any step (~~for example, because of an increase in the firm's capital~~), he must notify the *FSA* within 14 days of becoming aware of the change (sections 178(2) and 190(2) of the *Act*). Failure to notify is an offence under section 191(2) of the *Act*. Provisions determining when such a notice is treated as being received by the *FSA* are set out in regulation 10(1) of the Financial Services and Markets Act 2000 (Service of Notices) Regulations 2001 (SI 2001/1420).

Custodians obtaining control

11.3.6A     G     The *FSA* considers that a *custodian* or its wholly-owned subsidiary *nominee company*, acting only in that capacity, does not itself take any step for the purposes of sections 178(2) and 190(2) of the *Act* when it becomes the *controller* of a *UK domestic firm*, its *control* of a *UK domestic firm* changes or it ceases to be the *controller* of a *UK domestic firm* as a result of acquiring or disposing of *custody assets* in the form of *shares* in accordance with its *clients'*

instructions.

11.3.6B     D     For the purposes of sections 178(2) and 190(2) of the Act and where there has been more than one change in control for each UK domestic firm in a fortnightly period, a custodian or its wholly-owned subsidiary nominee company to which SUP 11.3.6AG applies need only notify the FSA of its final control position for each UK domestic firm for that fortnight, so long as it also supplies the highest control position for each UK domestic firm it obtained during that period.

11.3.6C     G     Reporting by a custodian or its wholly-owned subsidiary nominee company does not relieve any other person with an interest in any custody assets from its control notification responsibilities under Part XII of the Act.

Form of notification when acquiring or increasing control

11.3.7        D     A notification ("notice of control") given to the FSA by a person who is acquiring control or increasing his control over a UK domestic firm, in a way described in SUP 11.4.2R(1) to (4), must:

(1)        ~~where the in the case of a controller or a proposed controller who~~ is not an authorised person, contain ...

(1A)       ~~where the controller is a custodian or a nominee company notifying under SUP 11.3.6AD, comply with that direction;~~

(2)        ~~where the controller or proposed controller is any other authorised person in all other cases, contain the information required in those sections of Controllers Form A (SUP 11 Annex 4D) which deal with details of the proposed change in control and the persons involved in the notification;~~  
~~sections 1, 5 and 6; and~~

(3)        ...

...

11.3.11       G     The FSA, for administrative reasons, expects notifications within SUP 11.3.7D to be given on Controllers Form A or Controllers Form B, as appropriate. If notifications are not made on these forms the applicant must inform the FSA of the reasons for not using them. ~~Copies of the Controllers Form A and Controllers Form B are available on the FSA's website at [www.fsa.gov.uk](http://www.fsa.gov.uk).~~ Regulations 7 to 9 of the Financial Services and Markets Act 2001 (Services of Notices) Regulations 2001 (SI 2001/1420) govern the manner in which a notice of control may be submitted. In summary, ~~it should be delivered or posted to the FSA's address as shown on the Forms, and will be treated as given when it is received by the FSA. It should not be sent by fax or electronic mail.~~

11.3.12 G If a *controller* or proposed *controller* considers that the requirements in SUP 11.3.7D to SUP 11.3.9D are not appropriate to his circumstances, for example;

- (1) if the *control* is ~~to be held~~ temporary through a trust; or
- (2) if Form B is required (under SUP 11.3.8D) in relation to:
  - (a) an individual who is an *approved person*; ~~or~~
  - (b) a partnership of which one or more of the partners are bodies corporate;

he should consult the *FSA*. The *FSA* has power, under section 182(3) of the *Act* (Notification), to amend those requirements if it considers it appropriate to do so.

...

11.3.14 G ~~If item 1.05 of Controllers Form A is answered in the affirmative,~~ The *FSA* may be obliged to consult regulatory authorities in other *EEA States* before approving the change in *control* or giving a *warning notice* where:

- (1)
  - (a) the "target" UK domestic firm is an investment firm;
  - (b) the controller or proposed controller is an ISD investment firm or the parent undertaking of an ISD investment firm; and
  - (c) as a result of the acquisition or proposed acquisition, the controller or proposed controller would become the parent undertaking of the UK domestic firm; or
- (2)
  - (a) the "target" UK domestic firm has permission to accept deposits;
  - (b) the controller or proposed controller is a BCD credit institution or the parent undertaking of a BCD credit institution; and
  - (c) as a result of the acquisition or proposed acquisition, the controller or proposed controller would become the parent undertaking of the UK domestic firm.

Form of notification when reducing control

11.3.15 G A notification given to the *FSA* by a *person* who is reducing his *control* over a *UK domestic firm*, in a way described in SUP 11.4.2R(1) to (4), must, in accordance with section 190(4) of the *Act* (Notification):

- (1) be in writing; and
- (2) provide details of the extent of *control* (if any) which the *controller* will have following the change in *control*.

Notification when change in control occurs

- 11.3.16 G A *person* who is under a duty to notify the *FSA* of a proposed change in control is also required to notify the *FSA* when the relevant change in *control* has occurred (sections 178(3) and 190(3) of the *Act*). ~~The notification may be given jointly with the firm as described in SUP 11.6.6G. If a person has reduced his control, section 190(4) of the Act requires that the notification should provide details of the extent of control retained (if any).~~

Joint and shared notifications

- 11.3.17 G Notifications to the *FSA* by proposed *controllers* and *controllers* under Part XII of the *Act* may be made on a joint or shared basis outlined in SUP 11.5.8G to SUP 11.5.10G.

...

- 11.5 Form of notification by firms

...

- 11.5.3 G In determining what the *FSA* would reasonably expect notice of in accordance with row (4) in SUP 11.5.1R, a ~~firm~~ *firm* should have regard, in particular, to the following matters set out in items 1.03 to 1.07 and 6.02 of Controllers Form A (SUP 11 Annex 4D) to the extent that the *firm* is aware of such matters them:

- (1) whether the *controller* intends to make any significant changes to the *firm*'s or *firms*' regulated activities, business plan or strategy as a result of the change in *control*;
- (2) whether the *controller* intends any restructuring either in terms of the legal form of the *firm*(s) or in its or their borrowings, capital restructuring or financing arrangements;
- (3) whether the *FSA* is obliged to consult with regulatory authorities in other *EEA States* (see SUP 11.3.14G);
- (4) in the case of a share acquisition or similar, how it is to be financed;
- (5) whether the *controller* has any interests which may conflict with its role as *controller* of the *UK domestic firm*.

*Firms* are also reminded of the circumstances set out in SUP 15.3.8G (Communication with the *FSA* in accordance with

Principle 11) which may arise on a change in *control* and which should also be notified.

...

11.7 Acquisition or increase of control: approval procedures

...

11.7.3 G Alternatively, the *FSA* may decide to approve the proposed acquisition or increase of *control* subject to such conditions as it considers appropriate, having regard to the *FSA's* duty to ensure that the *firm* concerned will satisfy, and continue to satisfy, the *threshold conditions* (section 185 of the *Act*).

(1) If the *FSA* proposes to approve subject to conditions, it must give a *warning notice*.

(2) If the *FSA* decides to proceed to approve subject to conditions, it must give a *decision notice*.

...

11.7.7 G (1) If the *FSA* proposes to object, it must issue a *warning notice*.

(2) If the *FSA* decides to proceed with its proposed objection, it must issue a *decision notice*.

(3) If the *FSA* considers that the approval requirements would be met if a particular step were taken or not taken, the *decision notice* must identify that step (section 186(4) of the *Act*).

11.7.8 G ~~As well as objecting when satisfied that the approval requirements are not met,~~ The *FSA* may also object if it has not received sufficient information from either the *controller* or the *firm* to satisfy itself that the approval requirements are met.

...

The *FSA's* timeframe for responding to a notification

11.7.10 G If the *FSA* receives a valid notification from a *controller* or proposed *controller* (~~whether a joint notification in accordance with SUP 11.5.8G or otherwise~~), the *FSA* must respond within three ~~months~~ ~~regardless of when it receives a notification from the *firm*~~ (section 183(1) of the *Act*). The response from the *FSA* will be either an approval notice or a *warning notice*.

11.7.11 G (1) ~~Alternatively, the *FSA* may receive a notification from the *firm* but not from the *controller* or proposed *controller* or may otherwise become~~ Where the *FSA* becomes aware of a possible breach by the *controller* or proposed *controller* of his

obligations under section 178(1) or (2) of the *Act* (Obligation to notify the Authority); ~~it the FSA~~ may require the *person* concerned to provide additional information or *documents* (section 188(4) of the *Act*).

- (2) If the *FSA* is satisfied that a breach has occurred, but is not satisfied that the approval requirements are met, the *FSA* may give a *warning notice* to the *controller* or proposed *controller* (section 187(1) and 188(1) of the *Act*).
- (3) Alternatively, the *FSA* may retrospectively approve the change ~~of~~ *control* as if a notification had been received from the *controller* or proposed *controller* (section 187(2) of the *Act*).

...

#### The FSA's right to object to existing controllers

- 11.7.14 G If a *controller* fails to give a notification under section 178(3) of the *Act* on acquiring or increasing *control*, ...

...

#### 11.9 Changes in close links

##### Requirement to notify changes in close links

- 11.9.1 R A *firm* must notify the *FSA* ~~immediately it becomes aware~~ that it has become or ceased to be *closely linked* with any *person*. The notification must include the information set out in SUP 16.5.4R(4).

...

##### Timing of notification requirement

- 11.9.4 R The *firm* must make a notification to the *FSA* under SUP 11.9.1R:
  - (1) as soon as reasonably practicable and no later than one *month* after it becomes aware that it has become or ceased to be *closely linked* with any *person*; or
  - (2) where a *firm* has elected to report on a *monthly* basis, within fifteen *business days* of the end of each *month* and:
    - (a) including the information set out in SUP 16.5.4R(4) for that *month*; and
    - (b) if there is no *person* required to be included in the notification for a particular *month*, confirming this fact in the notification.

Electing to notify changes in close links monthly

- 11.9.5 R (1) A firm elects to report changes in close links on a monthly basis by sending a written notice of election to the firm's usual supervisory contact at the FSA.
- (2) An election to report changes in close links on a monthly basis will stand until such time as the firm gives its usual supervisory contact at the FSA at least one month's written notice of its intention to cease reporting changes in close links on a monthly basis.

- 11.9.6 G The FSA considers that monthly reporting of changes in close links will ordinarily only be appropriate for firms forming part of large groups.

...

16.4 Annual Controllers Report

Application

- 16.4.1 G ~~The effect of SUP 16.1.1R is that this~~ This section applies to every firm except those firms excluded from its operation by SUP 16.1.1R and SUP 16.1.3R. ÷

- ~~(1) a credit union;~~
- (1) an ICVC;
- (2) an incoming EEA firm;
- (3) an incoming Treaty firm;
- (4) a non-directive friendly society;

## SUPERVISION MANUAL (ACTUARIES) INSTRUMENT 2004

### Powers exercised

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) section 59 (Approval for particular arrangements);
  - (2) section 138 (General rule-making power);
  - (3) section 156 (General supplementary powers);
  - (4) section 157(1) (Guidance); and
  - (5) section 340 (Appointment).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

### Commencement

- C. This instrument comes into force on 31 December 2004.

### Amendments to the Handbook

- D. The modules of the FSA’s Handbook of rules and guidance listed in column (1) below are amended in accordance with the Annexes to this instrument listed in column (2) below.

(1)	(2)
The Threshold Conditions (COND)	Annex A
Conduct of Business sourcebook (COB)	Annex B
Authorisation manual (AUTH)	Annex C
Supervision manual (SUP)	Annex D
Enforcement manual (ENF)	Annex E
Glossary of definitions	Annex F

### Citation

- E. This instrument may be cited as the Supervision Manual (Actuaries) Instrument 2004.

By order of the Board  
18 November 2004

Amended by Addendum  
29 July 2005

## Annex A

### Amendments to the Threshold Conditions

In this Annex underlining indicates new text and striking through indicates deleted text.

2.5.7 G (11) where appropriate, the *firm* has appointed auditors and actuaries, who have sufficient experience in the areas of business to be conducted (see *SUP* 3.4 (Auditors' qualifications) and *SUP* 4.3.8G to *SUP* 4.3.1310G (~~Appointed~~ actuaries' qualifications)); and

...

## Annex B

### Amendments to the Conduct of Business sourcebook

In this Annex underlining indicates new text and striking through indicates deleted text.

6.11.11 R ~~Any~~The report to *with-profits policyholders* made under SUP 4.3.16AR (4) by a *with-profits actuary*~~from an *actuary* appointed under SUP 4 (Actuaries)~~ must be annexed to the annual report in COB 6.11.9R.

...

6.11.14 G In preparing the report to *with-profits policyholders* in COB 6.11.9R, a *firm* should take advice from a *with-profits actuary*~~*actuary*~~.

Insert the following new transitional provision in COB TR5.

(1)	(2)	(3)	(4)	(5)	(6)
	Material to which the transitional provision applies		Transitional provision	Transitional provision: dates in force	Handbook provision: coming into force
	COB 6.11.9	R	<p>Annual report to <i>with-profits policyholders</i></p> <p><i>A firm</i> must produce its first report to <i>with-profits policyholders</i> under COB 6.11.9R in respect of the part of its financial year that follows the date on which PRU 7.4 (With-profits Insurance Capital Component) comes into force.</p>	From 30 April 2004	30 April 2004

## Annex C

### Amendments to the Authorisation manual

In this Annex underlining indicates new text and striking through indicates deleted text.

- 3.9.19 D If an applicant appoints an actuary, ~~other than an appointed actuary~~, to report on an application for *Part IV permission*, the applicant is directed to take reasonable steps to ensure that the *actuary* satisfies the qualification tests in *SUP 4.3.9R* (~~Appointed actuaries'~~ qualifications).

...

## Annex D

### Amendments to the Supervision manual

In this Annex underlining indicates new text and striking through indicates deleted text.

Insert the following new transitional provisions in the correct sequential order:

(1)	(2)	(3)	(4)	(5)	(6)
	Material to which the transitional provision applies		Transitional provision	Transitional provision: dates in force	Handbook provision: coming into force
...					
4A	<i>SUP</i> 4	R	Anything done before 31 December 2004 for the purposes of an amended provision in <i>SUP</i> 4 has effect as if done under that provision.	From 31 December 2004	31 December 2004
4B	<i>SUP</i> 4.3.1R	R	A <i>firm</i> must notify the <i>FSA</i> immediately of all appointments under <i>SUP</i> 4.3.1R (as amended) which come into, or are in, effect on 31 December 2004, advising the <i>FSA</i> of the name and business address of each <i>actuary</i> appointed and the functions each <i>actuary</i> is to perform.	From 31 December 2004	31 December 2004
4C	<i>SUP</i> 4.5.9R	R	An <i>actuary</i> , who immediately before 31 December 2004 is the <i>appointed actuary</i> of a <i>firm</i> , must notify the <i>FSA</i> under <i>SUP</i> 4.5.9R (as amended) if on that date he is not appointed by the <i>firm</i> under <i>SUP</i> 4.3.1R (as amended).	From 31 December 2004	31 December 2004

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
4D	SUP 4.5.10R	R	<p>An <i>actuary</i>, who immediately before the relevant time in (a) or (b) below is the <i>appointed actuary</i> of a <i>firm</i>, must notify the <i>FSA</i> under SUP 4.5.10R (as amended) if:</p> <p>(a) he is not appointed by the <i>firm</i> under SUP 4.3.1R (as amended) on 31 December 2004;</p> <p>or</p> <p>(b) he is or has been formally notified that he will not be so appointed by the <i>firm</i>.</p>	From 31 December 2004	31 December 2004
4E	SUP 4.3.1R and SUP 4.3.3R	G	<p><i>Firms</i> and the <i>FSA</i> will need to make fresh appointments once these proposed amendments come into effect, even if an <i>actuary</i> has already been appointed under the existing provisions. A <i>firm</i> will not need to seek fresh approval under section 60 of the <i>Act</i> for an existing <i>appointed actuary</i> who continues to perform the <i>actuarial function</i> (CF12) or the</p>	From 31 December 2004	31 December 2004

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
			<p><i>with-profits actuary function</i> (CF12A). This is because both these <i>controlled functions</i> are already covered by an <i>actuary's</i> existing approval to perform the previous <i>appointed actuary function</i>. However, under <i>SUP TP4B firms</i> are required to notify the <i>FSA</i> of any new or continued appointments to perform either or both of these functions. The effect of <i>SUP TP4CR</i> and <i>SUP TP4DR</i> is to require an existing <i>appointed actuary</i> to notify the <i>FSA</i> under <i>SUP 4.5.9R</i> and <i>SUP 4.5.10R</i> if he ceases to hold any appointment at all under <i>SUP 4.3.1R</i>, but not if he is appointed to perform either or both functions.</p>		
...					

...

4.1 Application

4.1.1 R This chapter applies to:

- (1) every *firm* within a category listed in column (1) of the table in *SUP 4.1.3R*; and

- (2) every ~~the appointed actuary or appropriate actuary~~ appointed under this chapter of such a firm;

in accordance with column (2) of that table.

- 4.1.2 G This chapter applies to *long-term insurers* (including *friendly societies*) and other *friendly societies*. This chapter does not apply to the *Society of Lloyd's* or to *Lloyd's underwriting agents*. Requirements dealing with the appointment and duties of *actuaries* in relation to *Lloyd's insurance business* are contained in *LLD*. This chapter does not apply to actuaries advising the auditors of long-term insurers under IPRU(INS) 9.35(1A) or IPRU(FSOC) 5.11(2A), as they are not appointed to act on behalf of the firm.

...

## 4.2 Purpose

- 4.2.1 G Section 340 of the *Act* gives the *FSA* power to make *rules* requiring an *authorised person*, or an *authorised person* falling into a specified class, to appoint an ~~actuary~~ actuary. Section 340 further empowers the *FSA* to make *rules* governing the manner, timing and notification to the *FSA* of such an appointment and, where an appointment is not made, for the *FSA* to make an appointment on the *firm's* behalf. The *FSA's* rule-making powers under section 340 of the *Act* also extend to ~~the an actuary's~~ sactuary's duties and to the cessation of an ~~actuary's~~ sactuary's term of office.

- 4.2.2 G This chapter defines the relationship between ~~a firms~~ a firm's and ~~their~~ its ~~appointed actuaries or appropriate actuaries~~ appointed actuaries and clarifies the role which ~~appointed actuaries and appropriate actuaries~~ appointed actuaries play in the *FSA's* monitoring of *firms'* compliance with the requirements and standards under the *regulatory system*. The chapter sets out *rules* and *guidance* on the appointment of ~~an actuaries~~ an actuary to the position of ~~appointed actuary or appropriate actuary~~ appointed actuary, and the termination of ~~an their actuary's~~ an actuary's term of office, as well as setting out their respective rights and duties. The purpose of the chapter is to ensure that:

- (1) *long-term insurers* (other than certain *friendly societies*) have access to adequate actuarial advice, both in valuing their liabilities to policyholders and in exercising discretion affecting the interests of their with-profits policyholders; and
- (2) other *friendly societies* carrying on *insurance business* (and which have traditionally relied upon actuarial expertise) employ or use an *actuary* of appropriate seniority and experience to evaluate the liabilities of that business.

- 4.2.3 G The functions described by *SUP* 4.2.2G(1) ~~is~~ are performed by one or more ~~the appointed actuaries~~ the appointed actuaries who ~~is~~ are required to hold office continuously

and must be ~~an approved persons~~. The principal duty of ~~the~~ an appointed actuary appointed to perform these functions is to advise the *firm* (see *SUP* 4.3.13R to *SUP* 4.3.1824G for the rights and duties of ~~the~~ such an appointed actuary).

4.2.4 G The function described by *SUP* 4.2.2G(2) is performed by ~~the~~ an appropriate actuary who is appointed to prepare the triennial investigation and interim certificate or statement required by *IPRU(FSOC)* 5.2(1) (see *SUP* 4.4.76R to ~~and~~ *SUP* 4.4.10G 4.5.12G to *SUP* 4.5.14G for the rights and duties of an appropriate actuary).

4.2.5 G ~~Both the appointed actuary and the appropriate actuary~~ Actuaries act as a valuable source of information to the *FSA* in carrying out its functions. For example, in determining whether a *firm* satisfies the *threshold conditions*, the *FSA* has regard to whether the *firm* has appointed an appointed-actuary with sufficient experience in the areas of business to be conducted by the *firm* (*COND* 2.5.7G(11)).

4.2.6 G In making appointments under this chapter and in allocating duties to actuaries, firms are reminded of their obligation under SYSC 2.1.1R to maintain a clear and appropriate apportionment of significant responsibilities so that it is clear who has which of those responsibilities and that the business and affairs of the firm can be adequately monitored and controlled by the directors, relevant senior managers and governing body of the firm.

4.3 Appointedment of actuaries

Appointment by firms

4.3.1 R A *firm* to which this section applies (see *SUP* 4.1) must:

(1) appoint one or more ~~an actuaries~~ (the "appointed actuary") to perform:

(a) the actuarial function (see *SUP* 4.3.13R) in respect of all classes of its *long-term insurance business*; and

(b) the with-profits actuary function (see *SUP* 4.3.16AR) in respect of all classes of its *with-profits business* (if any);

(2) notify the *FSA*, without delay, when it is aware that a vacancy in the office of any such appointed-actuary will arise or has arisen, giving the reason for the vacancy;

(3) appoint an *actuary* to fill any such vacancy ~~in the office of appointed actuary~~ that has arisen; and

(4) ensure ~~the~~ a replacement actuary can take up office at the time the vacancy arises or as soon as is reasonably practicable after that.

4.3.2 G The provisions relating to the duties of an ~~the~~ appointed-actuary appointed

to perform these functions are set out in SUP 4.3.13R to SUP 4.3.1824G. The functions performed by *actuaries* appointed ~~Acting in the capacity of appointed-actuary~~ of by a firm under SUP 4.3.1R ~~is~~ are specified as a *controlled functions* (CF 12, the ~~appointed-actuarial~~ function, and CF 12A, the *with-profits actuary function*) in SUP 10 (*Approved persons*). As a result, an application must be made to the FSA under section 60 of the *Act* (Applications for approval) for approval of the *person* proposing to take up such an appointment ~~as an appointed-actuary~~. Section 61(3) of the *Act* (Determination of applications) gives the FSA three months to grant its approval or give a *warning notice* that it proposes to refuse the application. A firm should not appoint an *actuary* until the FSA has approved the *actuary*. In order to comply with SUP 4.3.1R, a firm should ensure it applies to the FSA as soon as practicable before the date when it needs the *actuary* to take office. The FSA will need time to consider the application before deciding whether to grant approval. See SUP 10 (*Approved persons*).

#### Appointment by the FSA

- 4.3.3 R If a firm, which is required to appoint one or more actuaries ~~an actuary~~ under SUP 4.3.1R, fails to do so within 28 days of a vacancy arising, the FSA may appoint one or more actuaries ~~an actuary~~ to perform the any function corresponding to the actuarial function or the with-profits actuary function ~~of appointed-actuary~~ on the following terms:
- (1) the *actuary* to be remunerated by the firm on the basis agreed between the *actuary* and the firm or, in the absence of agreement, on a reasonable basis; and
  - (2) the *actuary* to hold office until he resigns or the firm appoints another *actuary*.
- 4.3.4 G SUP 4.3.3R allows but does not require the FSA to appoint an *actuary* if the firm has failed to do so within the 28 day period. When it considers whether to use this power, the FSA will take into account the likely delay until the firm can make an appointment and the urgency of any pending duties of the ~~appointed-actuary~~.
- ...
- 4.3.7 G If the FSA appoints an *actuary* under SUP 4.3.3R, he will not be an ~~appointed-actuary~~ approved person (not being appointed under SUP 4.3.1R) ~~and will not therefore need to be an approved person~~. However, the firm is still under an obligation to appoint an *actuary* under SUP 4.3.1R and will need to seek prior approval of that *person* (even if the individual it proposes to appoint is the *person* who has been appointed by the FSA under SUP 4.3.3R).

#### ~~Appointed-actuary's~~ Actuaries' qualifications

- 4.3.8 G The FSA is concerned to ensure that every the appointed-actuary appointed by a firm under this section has the necessary skill and experience to provide

the *firm* with appropriate actuarial advice. *SUP 4.3.9R* to *SUP 4.3.10G* set out the *FSA's rules* and *guidance* aimed at achieving this.

- 4.3.9 R Before a *firm* applies for approval of its ~~proposed~~ the person it proposes to appoint as an appointed-actuary under *SUP 4.3.1R*, it must take reasonable steps to ensure that the *actuary*:
- (1) has the required skill and experience to perform his functions under the *regulatory system*; and
  - (2) is a Fellow of the Institute of Actuaries or of the Faculty of Actuaries.
- 4.3.10 G To comply with *SUP 4.3.9R* and *Principle 3*, before an ~~appointed~~ *actuary* takes up his appointment the *firm* should ensure that the *actuary*:
- (1) has skills and experience appropriate to the nature, scale and complexity of the *firm's* business and the requirements and standards under the *regulatory system* to which it is subject; and
  - (2) has adequate qualifications and experience, which includes holding an appropriate Appointed Actuaries Practising Certificate under the rules of the Institute of Actuaries or the Faculty of Actuaries;
- and seek confirmation of these from the *actuary*, or the *actuary's* current and previous employers, as appropriate.

#### Disqualified actuaries

- 4.3.11 R A *firm* must not appoint under *SUP 4.3.1R* ~~as appointed-actuary~~ an *actuary* who is disqualified by the *FSA* under section 345 of the *Act* (Disqualification) from acting as an *actuary* either for that *firm* or for a relevant class of *firm*.
- 4.3.12 G If it appears to the *FSA* that an ~~appointed~~ *actuary* has failed to comply with a duty imposed on him under the *Act*, it may disqualify him under section 345 of the *Act*. For more detail about what happens when the disqualification of an *actuary* is being considered or put into effect, see *ENF 17 (Disqualification of auditors and actuaries)*. A list of *actuaries* who are disqualified by the *FSA* may be found on the *FSA* website ([www.fsa.gov.uk](http://www.fsa.gov.uk)).

#### Conflicts of interest

- 4.3.12A R A *firm* must take reasonable steps to ensure that an *actuary* who is to be, or has been, appointed under *SUP 4.3.1R*:
- (1) does not perform the function of chairman or chief executive of the *firm*, or does not, if he is to perform the with-profits *actuary* function, become a member of the *firm's* governing body; and
  - (2) does not perform any other function on behalf of the *firm* which

could give rise to a significant conflict of interest.

- 4.3.12B G Both the *actuarial function* and the *with-profits actuary function* may be performed by *employees* of the *firm* or by external consultants, and performing other functions on behalf of the *firm* will not necessarily give rise to a significant conflict of interest. However, being a *director*, or a senior manager responsible, say, for sales or marketing in a *firm* (or for finance in a *proprietary firm*), is likely to give rise to a significant conflict of interest for an *actuary* performing the *with-profits actuary function*. He nevertheless retains direct access to the *firm's governing body* under SUP 4.3.17R(2).

The actuarial function ~~Rights and duties of the appointed actuary~~

- 4.3.13 R An ~~appointed~~ actuary appointed to perform the *actuarial function* must, in respect of those classes of the *firm's long-term insurance business* which are covered by his appointment:
- (1) ~~identify and monitor~~ advise the *firm's* management, at the level of seniority that is reasonably appropriate, on the risks the *firm* runs in so far as they may have a material impact on the *firm's* ability to meet *liabilities* to *policyholders* in respect of *long-term insurance contracts* as they fall due and on the capital needed to support the business, including regulatory capital requirements;
  - (2) monitor those risks and inform the *firm's* management, at the level of seniority that is reasonably appropriate, if he has any material concerns or good reason to believe that the *firm*:
    - (a) is not meeting *liabilities* to *policyholders* under *long-term insurance contracts* as they fall due, or may not be doing so, or might not have done so, or might, in reasonably foreseeable circumstances, not do so;
    - (b) is, or may be, effecting new *long-term insurance contracts* on ~~inadequate terms contrary to IPRU(INS) 3.5A or IPRU(FSOC) 4.13 [number to be inserted later]~~ as applicable; terms under which the resulting income earned is insufficient, under reasonable actuarial methods and assumptions, and taking into account the other financial resources that are available for the purpose, to enable the *firm* to meet its *liabilities* to *policyholders* as they fall due (including reasonable bonus expectations);-
    - (c) does not, or may not, have sufficient financial resources to meet *liabilities* to *policyholders* as they fall due (including reasonable bonus expectations) and the capital needed to support the business, including regulatory capital requirements or, if the *firm* currently has sufficient resources, might, in reasonably foreseeable circumstances, not continue

to have them;

- (3) advise the firm's governing body on the methods and assumptions to be used for the investigations required by IPRU(INS) 9.4R or IPRU(FSOC) 5.1R and the calculation of the with-profits insurance capital component under PRU 7.4 as applicable; perform actuarial investigations and prepare abstracts of those investigations as required by IPRU(INS) 9.4R or IPRU(FSOC) [number to be inserted later] as applicable;
- (4) perform those investigations and calculations in (3), in accordance with the methods and assumptions determined by the firm's governing body; request from the firm such information and explanations as are reasonably considered necessary to enable him to properly perform the duties described in SUP 4.3.13R(1) to (3); and
- (5) report to the firm's governing body on the results of those investigations and calculations in (3); and advise the firm as to the data and systems reasonably needing to be kept and maintained to provide such information and explanations.
- (6) in the case of a friendly society to which this section applies, perform the functions of the appropriate actuary under section 87 (Actuary's report as to margin of solvency) of the Friendly Societies Act 1992.

4.3.14 G IPRU(INS) 9.4R and IPRU(FSOC) 5.1R require firms to which this section applies to cause an investigation to be made at least yearly by the actuary or actuaries appointed to perform the actuarial function, and to report on the result of that investigation. PRU 7.4 requires realistic basis life firms to calculate the with-profits insurance component as part of their capital resources requirements. The firm is responsible for the methods and assumptions used to determine the liabilities attributable to its long-term insurance business. The obligation on friendly societies to obtain a report from the 'appropriate actuary' under section 87 of the Friendly Societies Act 1992 applies to a friendly society which is to receive a transfer of engagements under section 86 (transfer of engagements to or by a friendly society). The 'appropriate actuary' in this context is the actuary appointed to perform the actuarial function, rather than the appropriate actuary under SUP 4.4 (Appropriate actuaries). A liability to a policyholder is defined in the Glossary as any liability or obligation of an insurer to, or in respect of, a policyholder. It includes policyholder's reasonable expectations as to discretionary benefits and charges.

4.3.15 G The appointed actuary's duty to request information does not necessarily require him to undertake continuous monitoring. This depends on the firm's size, financial position, future plans and other circumstances, including the robustness of its systems and controls. If a periodic update or review is sufficient, it should be carried out as often as is reasonably necessary. An annual update may suffice for small, financially sound, well run insurers. Such periodic reviews might also usefully be supplemented by desk based monitoring to identify circumstances where the timing of the next review

~~might need to be brought forward.~~ SUP 4.3.13R is not intended to be exhaustive of the professional advice that a *firm* should take whether from an *actuary* appointed under this chapter or from any other *actuary* acting for the *firm*. *Firms* should consider what systems and controls are needed to ensure that they obtain appropriate professional advice on financial and risk analysis; for example:

- (1) risk identification, quantification and monitoring;
- (2) stress and scenario testing;
- (3) ongoing financial conditions;
- (4) financial projections for business planning;
- (5) investment strategy and asset-liability matching;
- (6) individual capital assessment;
- (7) pricing of business, including unit pricing;
- (8) variation of any charges for benefits or expenses;
- (9) discretionary surrender charges; and
- (10) adequacy of reinsurance protection.

#### The with-profits actuary function

4.3.16 ~~G If a *firm* also carries out general insurance contracts, the appointed actuary should consider the general insurance business to the extent, if any, that this might have an impact on the long term insurance business.~~ ~~[deleted]~~

4.3.16A R An actuary appointed to perform the with-profits actuary function must:

- (1) advise the *firm's* management, at the level of seniority that is reasonably appropriate, on key aspects of the discretion to be exercised affecting those classes of the *with-profits business* of the *firm* in respect of which he has been appointed;
- (2) where the *firm* is a realistic basis life firm advise the *firm's* governing body as to whether the assumptions used to calculate the *with-profits insurance component* under PRU 7.4 are consistent with the *firm's* PPFM in respect of those classes of the *firm's* *with-profits business*;
- (3) at least once a year, in respect of each financial year commencing on or after 1 January 2005, report to the *firm's* governing body on key aspects (including those aspects of the *firm's* application of its *Principles and Practices of Financial Management* on which the advice described in (1) has been given) of the discretion exercised in respect of the period covered by his report affecting those classes of

with-profits business of the firm;

- (4)\* in respect of each financial year commencing on or after 1 January 2005, make a written report addressed to the relevant classes of the firm's with-profits policyholders, to accompany the firm's annual report under COB 6.11.9R, as to whether, in his opinion and based on the information and explanations provided to him by the firm, the annual report and the discretion exercised by the firm in respect of the period covered by the report may be regarded as taking, or having taken, their interests into account in a reasonable and proportionate manner;
- (5) request from the firm such information and explanations as he reasonably considers necessary to enable him properly to perform the duties in (1) to (4);
- (6) advise the firm as to the data and systems that he reasonably considers necessary to be kept and maintained to provide the duties in (5); and
- (7) in the case of a friendly society to which this section applies, perform the function of appropriate actuary under section 12 (Reinsurance) of the Friendly Societies Act 1992 or section 23A (Reinsurance) of the Friendly Societies Act 1974 as applicable, in respect of those classes of its with-profits business covered by his appointment.

4.3.16B\* G In advising or reporting on the exercise of discretion, an actuary performing the with-profits actuary function should cover the implications for the fair treatment of the firm's with-profits policyholders. His opinion on any communication or report to them should also take into account their information needs and the extent to which the communication or report may be regarded as clear, fair and not misleading. Aspects of the business that should normally be included are:

- (1) bonus rates to be applied to policies at maturity or on the death of the policyholder, or when calculating the annual bonus;
- (2) investment policy in the light of product descriptions disclosed to customers;
- (3) surrender value methodology (including market value adjusters);
- (4) new business plans and premium rates;
- (5) allocation of expenses to with-profits business;
- (6) investment fees to be charged to with-profits business;
- (7) changes to the Principles and Practices of Financial Management;  
and
- (8) communication with policyholders or potential policyholders on the

\* See Addendum 29 July 2005 on p. 24

issues in (1) to (7).

- 4.3.16C G The report in SUP 4.3.16AR(3) should be proportionate to the nature of the *with-profits business*. For smaller *firms* with fewer products, the extent of reporting would be proportionately less.
- 4.3.16D G *Firms* should normally obtain advice, from the *actuary* appointed to perform the *with-profits actuary function* in respect of the affected class or classes of *with-profits business*, whenever they are preparing to make key decisions based on the exercise of discretion affecting their *with-profits business*. *Firms* should also have risk management processes in place to ensure that all relevant matters are referred to the *actuary* for advice.
- 4.3.17 R A *firm* must require and allow any ~~its appointed~~ *actuary* appointed to perform the *with-profits actuary function* to perform his duties and, in particular must:
- (1) keep him informed of the *firm's* business and other plans (including, where relevant, those of any related *firm*, to the extent it is aware of these);
  - (2) provide him with sufficient resources (including his own time and access to the time of others);
  - (3) hold such data and establish such systems as he reasonably requires;
  - (4)\* request his advice about the likely effect of material changes in the *firm's* business plans, practices or other circumstances on the fair treatment of *with-profits policyholders* rights and reasonable expectations of *policyholders* in respect of long term insurance contracts; and
  - (5) pay due regard to his advice, whether provided in response to a request under (4) or on the ~~*appointed actuary's*~~ own initiative; this will include, if he requests it, allowing him to present his advice directly to the *firm's governing body* (that is, the board of *directors* or, for a *friendly society*, the committee of management).
- 4.3.18 G A *firm's* duty to keep an ~~its appointed~~ *actuary* appointed to perform the *with-profits actuary function* informed includes providing relevant information, even where the ~~*appointed actuary*~~ does not ask for it. The *firm* needs to appreciate that the ~~*appointed actuary*~~ may be unaware of certain business developments and so unable to request relevant information.
- 4.3.19 G ~~Section 341 of the Act (Access to books etc.) provides that an *appointed actuary*:~~
- (1) ~~has a right of access at all times to the *firm's* books, accounts and vouchers; and~~
  - (2) ~~is entitled to require from the *firm's* officers such information and explanations as he reasonably considers necessary to perform his~~

\* See Addendum 29 July 2005 on p. 24

~~duties as *appointed actuary*.~~[deleted]

- 4.3.20 R ~~When carrying out his duties, an *appointed actuary* must pay due regard to generally accepted actuarial best practice.~~[deleted]
- 4.3.21 G ~~The standards and guidance issued from time to time by the Institute of Actuaries and the Faculty of Actuaries are important sources of actuarial best practice.~~[deleted]
- 4.4 Appropriate actuaries
- ...
- 4.4.5 G If it appears to the *FSA* that an *appropriate actuary* has failed to comply with a duty imposed on him under the *Act*, it may disqualify him under section 345 of the *Act*. For more detail about what happens when the disqualification of an *actuary* is being considered or put into effect, see *ENF 17 (Disqualification of auditors and actuaries)*. A list of *actuaries* who have been disqualified by the *FSA* may be found on the *FSA* website ([www.fsa.gov.uk](http://www.fsa.gov.uk)).

#### Specific Rights and duties of the appropriate actuary

- 4.4.6 R An *appropriate actuary* must carry out the triennial investigation and prepare an abstract of the report as required by *IPRU(FSOC) 5.2(2)* and provide the interim certificate or statement as required by *IPRU(FSOC) 5.2(3)*.
- 4.4.7 G ~~Section 341 of the *Act* (Access to books etc.) provides that an *appropriate actuary*:~~
- (1) ~~has a right of access at all times to the *firm's* books, accounts and vouchers; and~~
  - (2) ~~is entitled to require from the *firm's* officers such information and explanations as he reasonably considers necessary for the performance of his duties as *appropriate actuary*.~~[deleted]
- 4.4.8 R ~~In carrying out his duties an *appropriate actuary* must pay due regard to generally accepted actuarial best practice.~~[deleted]
- 4.4.9 G ~~The standards and guidance issued by the Institute of Actuaries and the Faculty of Actuaries are important sources of actuarial best practice.~~[deleted]
- 4.5 Provisions applicable to ~~both appointed and appropriate~~ all actuaries

#### Objectivity

- 4.5.1 R An ~~*appointed actuary* or *appropriate actuary*~~ appointed under this chapter must be objective in performing his duties.

- 4.5.2 G Objectivity requires the ~~appointed actuary or appropriate actuary~~ to perform his duties in such a manner that he can have an honest belief in his work and does not compromise the quality of his work or his judgment. An ~~appointed actuary or appropriate actuary~~ should not allow himself to be placed in situations where he feels unable to make objective professional judgments.
- 4.5.3 R An ~~appointed actuary or appropriate actuary~~ appointed under this chapter must take reasonable steps to satisfy himself that he is free from bias, or from any conflict of interest from which bias may reasonably be inferred. He must take appropriate action where this is not the case.
- 4.5.4 G The appropriate action may include asking the *firm's governing body* to re-assign temporarily some or all of his duties to another competent *actuary*. Where this is insufficient, the ~~appointed actuary or appropriate actuary~~ should resign his office.
- 4.5.5 G If the ~~appointed actuary or appropriate actuary~~ is an *employee* of the *firm*, the ordinary incentives of employment, including profit-related pay, *share options* or other financial interests in the *firm* or any *associate*, give rise to a conflict of interest only where they are disproportionate, or exceptional, relative to those of other employees of equivalent seniority.

...

#### ~~Appointed and appropriate a~~Actuaries' statutory duty to report

- 4.5.7 G ~~Appointed actuaries and appropriate a~~Actuaries appointed under this chapter are subject to regulations made by the Treasury under section 342(5) and 343(5) of the *Act* (Information given by *auditor* or *actuary* to the Authority). These regulations oblige *actuaries* to report certain matters to the *FSA*. Sections 342(3) and 343(3) of the *Act* provide that an *actuary* does not contravene any duty by giving information or expressing an opinion to the *FSA*, if he is acting in good faith and he reasonably believes that the information or opinion is relevant to any functions of the *FSA*. These provisions continue to have effect after the end of the *actuary's* term of appointment.

#### Termination of term of office

- 4.5.8 G *SUP 4.5.9R* to *SUP 4.5.11G* apply to a *person* who is or has been an ~~appointed actuary or appropriate actuary~~ appointed under this chapter.
- 4.5.9 R An ~~appointed actuary or appropriate actuary~~ appointed under this chapter must notify the *FSA* without delay if he:
- (1) is removed from office by a *firm*; or
  - (2) resigns before his term of office expires; or
  - (3) is not reappointed by a *firm*.

- 4.5.10 R An ~~actuary~~actuary who has ceased to be appointed under this chapter ~~the appointed actuary or appropriate actuary~~, or who has been formally notified that he will cease to be so appointed, ~~the appointed actuary or appropriate actuary~~, of a firm must notify the FSA without delay:
- (1) of any matter connected with the cessation which he thinks ought to be drawn to the FSA's attention; or
  - (2) that there is no such matter.
- 4.5.11 G When an ~~appointed actuary~~ appointed under SUP 4.3.1R ceases to hold office, he ceases to perform a controlled function ~~the appointed actuary function~~. A firm is therefore required under SUP 10.13.6R to tell the FSA within seven *business days* of its ~~appointed actuary~~ ceasing to hold office and to complete a withdrawal form (Form C, SUP 10 Ann 6R). Note also the requirement of SUP 10.13.7R in relation to qualified withdrawals.

Rights and duties

- 4.5.12 G Section 341 of the Act (Access to books etc.) provides that an actuary appointed under or as a result of the Act:
- (1) has a right of access at all times to the firm's books, accounts and vouchers; and
  - (2) is entitled to require from the firm's officers such information and explanations as he reasonably considers necessary to perform his duties as actuary.
- 4.5.13 R When carrying out his duties, an actuary appointed under this chapter must pay due regard to generally accepted actuarial best practice.
- 4.5.14 G The standards and guidance issued from time to time by the Institute of Actuaries and the Faculty of Actuaries are important sources of actuarial best practice.

...

- 10.4.5 R Table: Controlled functions

Type	CF	Description of controlled function
...		
<i>Required functions*</i>	8	<i>Apportionment and oversight</i>
	...	
	12	<del>Appointed actuary</del> Actuarial function
	12A	<del>With-profits actuary</del> function
...		

...

Appointed-actuary Actuarial function (CF12) and With-profits actuary function (CF12A)

- 10.7.17 R The ~~appointed-actuary actuarial function~~ is the function of acting in the capacity of ~~the an appointed-actuary appointed by~~ of a firm under SUP 4.3.1R to perform the duties set out in SUP 4.3.13R.
- 10.7.17A R The with-profits actuary function is the function of acting in the capacity of an actuary appointed by a firm under SUP 4.3.1R to perform the duties set out in SUP 4.3.16AR.
- 10.7.18 G The effect of SUP 4.1.1R (Application) and SUP 4.3.1R (Appointment of an actuary) is that a *long-term insurer* (unless it is a certain kind of *friendly society*) must appoint ~~an actuary~~ one or more actuaries to perform the actuarial function in respect of all classes of its long-term insurance business and the with-profits actuary function in respect of all classes of its with-profits business, defined in SUP 4.3.1R as an appointed-actuary. The kinds of *friendly society* to which the provisions do not apply are:
- (1) a *registered friendly society* which is a *non-directive friendly society*; and
  - (2) an *incorporated friendly society* that is a *flat rate benefits business friendly society*.
- 10.7.19 G The appointment of an actuary to perform either of these functions appointed-actuary is a personal appointment and the appointee is typically either typically is an employee of the firm. However, in many cases or a partner or employee in a firm of actuaries is appointed.
- 10.7.20 G The ~~appointed-actuary actuarial function~~ and the *with-profits actuary function* does not extend to the giving of actuarial advice to a *firm* by an *actuary* who has not been appointed to perform these functions is acting outside the capacity of appointed-actuary. A *person* who gives actuarial advice, whether occasionally or regularly, other than in his capacity the course of his duties as an appointed-actuary appointed to perform these functions would not be performing a controlled-the appointed-actuary function.
- 10.7.21 G The *rules and guidance* concerning the rights and duties of ~~an the appointed actuary~~ appointed to perform either of these functions are set out in SUP 4.3.130R to SUP 4.3.1817G.

## ADDENDUM

### SUPERVISION MANUAL (ACTUARIES) INSTRUMENT 2004

In this Addendum, the text shown is that which results following the making of this instrument, and all other instruments that have taken effect on or before 25 July 2005. That text is then amended. Underlining indicates new text and striking through indicates deleted text. These amendments make the effect and purpose of the rules clearer, so the position and obligations of the with-profits actuary is clearer.

This Addendum contains amendments to SUP 4.3.16AR(4), SUP 4.3.16BG, SUP 4.3.17R(4) and to SUP 18.2.58G.

Annex D (Supervision manual (SUP)) of this instrument is amended as follows:

- 4.3.16A R An *actuary* appointed to perform the *with-profits actuary function* must:
- ...
- (4) in respect of each financial year commencing on or after 1 January 2005, make a written report addressed to the relevant classes of the *firm's with-profits policyholders*, to accompany the *firm's* annual report under COB 6.11.9R, as to whether, in his opinion and based on the information and explanations provided to him by the *firm*, and taking into account where relevant the *rules* and *guidance* in COB 6.12, the annual report and the discretion exercised by the *firm* in respect of the period covered by the report may be regarded as taking, or having taken, ~~their~~ interests of the relevant classes of the *firm's with-profits policyholders* into account in a reasonable and proportionate manner;
- ...
- 4.3.16B G In advising or reporting on the exercise of discretion, an *actuary* performing the *with-profits actuary function* should cover the implications for the fair treatment of the relevant classes of the *firm's with-profits policyholders*. His opinion on any communication or report to them should also take into account their information needs and the extent to which the communication or report may be regarded as clear, fair and not misleading. Aspects of the business that should normally be included are:
- ...
- ...
- 4.3.17 R A *firm* must require and allow any *actuary* appointed to perform the *with-profits actuary function* to perform his duties and must:
- ...
- (4) request his advice about the likely effect of material changes in the *firm's* business plans, practices or other circumstances on the fair treatment of the relevant classes of the *firm's with-*

*profits policyholders; and*

...

...

- 18.2.58 G For *long-term insurance business*, the affidavit evidence to the court would normally include copies of reports on the transfer by the *appointed actuaries* of both *firms*, which should be provided to the *FSA* at an early stage. *SUP* 4.3.17R(4) requires a *firm* to consult its *appointed actuary* about the likely effect of material changes in its business plans on rights and reasonable expectations of ~~*long-term insurance business*~~ the relevant classes of its *with-profits* policyholders. A transfer would be material unless the liabilities transferred were not material relative to the total liabilities of the *firm*. The advice on a transfer would normally be in the form of a formal report by the *appointed actuary*.

...

Addendum  
29 July 2005

**COMPENSATION SOURCEBOOK (AMENDMENT NO 5) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) section 138 (General rule-making power);
  - (2) section 156 (General supplementary powers);
  - (3) section 213 (The compensation scheme); and
  - (4) section 214 (General).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C This instrument comes into force on 1 January 2005.

**Amendments to the Compensation sourcebook**

- D. The Compensation sourcebook is amended in accordance with the Annex to this instrument.

**Citation**

- E. This instrument may be cited as the Compensation Sourcebook (Amendment No 5) Instrument 2004.

18 November 2004

## Annex A

### Amendments to the Compensation sourcebook

In this Annex underlining indicates new text and striking through indicates deleted text.

- 4.2.2 R Table: Persons not eligible to claim unless *COMP* 4.3 applies (see *COMP* 4.2.1R)

This table belongs to *COMP* 4.2.1R

	...
(17)	<u>Where the <i>claim</i> is in relation to a <i>protected contract of insurance</i> or <i>protected non-investment insurance mediation, bodies corporate, partnerships, mutual associations and unincorporated associations which are not small businesses.</i></u>

...

- 4.3.4 R A ~~person coming~~ partnership which falls within category 14 or category 17 or both of *COMP* 4.2.2R is eligible to claim compensation in respect of a *relevant general insurance contract* entered into before *commencement*.

...

- 5.7.1 R *Protected non-investment insurance mediation* is an *insurance mediation activity* where the *investment* concerned is a *relevant general insurance contract* or a *pure protection contract* but ~~*non-investment insurance contract*~~ which is not a *long-term care insurance contract* or a *reinsurance contract*, provided that the condition in *COMP* 5.7.2R is satisfied.

- 5.7.2 R *COMP* 5.7.1R only applies if the conditions in (1) and (2) are satisfied:

(1) the *protected non-investment insurance mediation* was carried on from:

~~(1)~~ an establishment of the *relevant person* in the *United Kingdom*; or  
(a)

~~(2)~~ a *branch* of a *UK firm* established in another *EEA State* in the exercise of an *EEA right* derived from the *IMD*; and  
(b)

(2) the *customer* making the *claim* (or where *COMP* 3.2.4R applies, the *customer* on behalf of whom a *firm* makes a *claim*) was in contact with:

(a) a *firm* carrying on an *insurance mediation activity* in the *United Kingdom*; or

(b) a *branch* of a *UK firm* established in another *EEA State*

which is carrying on an insurance mediation activity in the exercise of an EEA right derived from the IMD.

...

6.2.2 G An incoming EEA firm, which is a credit institution, an IMD insurance intermediary, ~~an IMD reinsurance intermediary~~, an ISD investment firm or a UCITS management company, and its appointed representatives are not relevant persons in relation to the firm's passported activities, unless it has top-up cover (and in the case of a UCITS management company, only in relation to managing investments (other than of a collective investment scheme), advising on investments or safeguarding and administering investments). (See definition of "participant firm").

...

13.3.1A R COMP 13.3.1R does not apply to a participant firm that may be subject to a claim under COMP 3.2.4R.

13.3.1B G A participant firm to which COMP 13.3.1AR applies must report annual eligible income in accordance with COMP 13.6.11R. Such a participant firm may take advantage of the option to report its annual income attributable to business conducted with or on behalf of eligible claimants.

...

13.7.1 R If an incoming EEA firm, which is a BCD credit institution, an IMD insurance intermediary, ~~an IMD reinsurance intermediary~~ or ISD investment firm, is a participant firm, the FSCS must give the firm such discount (if any) as is appropriate on the share of any levy it would otherwise be required to pay, taking account of the nature of the levy and the extent of the compensation coverage provided by the firm's Home State scheme.

...

14.1.2 R This chapter also applies to an incoming EEA firm which is a credit institution, or an ISD investment firm (or both), an IMD insurance intermediary, ~~an IMD reinsurance intermediary~~ or a UCITS management company.

14.1.3 G This chapter provides supplementary rules and guidance for an incoming EEA firm which is a credit institution, an IMD insurance intermediary, ~~an IMD reinsurance intermediary~~, an ISD investment firm or UCITS management company. It reflects in part the implementation of the Deposit Guarantee Directive, Investors Compensation Directive and UCITS Directive. This sourcebook applies in the usual way to an incoming EEA firm which is exercising EEA rights under the Insurance Directives. Such a firm is not affected by the Deposit Guarantee Directive, the Investors Compensation Directive or the UCITS Directive.

14.1.4 G An incoming EEA firm, which is a credit institution, an IMD insurance

*intermediary, an IMD reinsurance intermediary, an ISD investment firm or a UCITS management company* is not a *participant firm* in relation to its *passport activities* unless it obtains the cover of, or ‘tops up’ into, the *compensation scheme*. This reflects section 213(10) of the Act (The *compensation scheme*) and regulation 2 of the *Electing Participants Regulations* (Persons not to be regarded as relevant persons). If an *incoming EEA firm* also carries on *non-passported activities* (or, for a *UCITS management company*, certain *passport activities*) for which the *compensation scheme* provides cover, it will be a *participant firm* in relation to those activities and will be covered by the *compensation scheme* for those activities in the usual way.

...

14.2.3 G A notice under *COMP* 14.2.1R should include details confirming that the *incoming EEA firm* falls within a prescribed category. In summary:

- (1) the *firm* must be a *credit institution, an IMD insurance intermediary, an IMD reinsurance intermediary, an ISD investment firm or a UCITS management company*;

...

## Annex B

### Amendment to the Glossary of definitions

In this Annex underlining indicates new text and striking through indicates deleted text.

*annual eligible income* (in *COMP*) the annual income (as described in Part 2 of *SUP* 20 Ann 1R) for the *firm's* last financial year preceding the date for submission of the information under *COMP* ~~1316.6.11R~~ attributable to the relevant *contribution group*; or if the *firm* prefers, that amount of that annual income attributable to business conducted with or on behalf of *eligible claimants*, but only if the *firm* notifies *FSCS* of the amount in accordance with *FSCS* reporting requirements.

**SENIOR MANAGEMENT ARRANGEMENTS, SYSTEMS AND CONTROLS  
(OPERATIONAL RISK) INSTRUMENT 2004**

**Power exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the power in section 157(1) (Guidance) of the Financial Services and Markets Act 2000.

**Commencement**

- B. This instrument comes into force on 31 December 2004.

**Amendments to the Senior Management Arrangements, Systems and Controls  
sourcebook**

- C. The Senior Management Arrangements, Systems and Controls sourcebook is amended in accordance with the Annex to this instrument.

**Citation**

- D. This instrument may be cited as the Senior Management Arrangements, Systems and Controls (Operational Risk) Instrument 2004.

By order of the Board  
16 December 2004

## Annex

### Amendments to the Senior Management Arrangements, Systems and Controls sourcebook

In this Annex, underlining indicates new text. Where an entire section of text is being inserted the place where the change will be made is indicated and the text is not underlined.

#### Application and purpose

##### 1.1 Application of SYSC 2 and SYSC 3

...

- 1.1.-1 G The application of SYSC 3A (Operational Risk: Systems and Controls) is set out in SYSC 3A.1.1G and SYSC 3A.1.2G. The application of SYSC 4 (Guidance on Public Interest Disclosure Act: Whistleblowing) is set out in SYSC 4.1.1G (Application).

...

Insert, after SYSC Chapter 3, the following new chapter, SYSC 3A. The text for this new chapter is not underlined.

#### 3A **Operational Risk: Systems and Controls**

##### 3A.1 **Application**

- 3A.1.1 G SYSC 3A applies to an *insurer* unless it is:

- (1) a *non-directive friendly society*; or
- (2) an *incoming EEA firm*; or
- (3) an *incoming Treaty firm*.

- 3A.1.2 G SYSC 3A applies to:

- (1) an *EEA-deposit insurer*; and
- (2) a *Swiss general insurer*;

only in respect of the activities of the *firm* carried on from a *branch* in the *United Kingdom*.

##### 3A.2 **Purpose**

- 3A.2.1 G This chapter provides *guidance* on how to interpret SYSC 3.1.1R and SYSC 3.2.6R, which deal with the establishment and maintenance of systems and

controls, in relation to the management of operational risk. Operational risk has been described by the Basel Committee on Banking Supervision as “the risk of loss, resulting from inadequate or failed internal processes, people and systems, or from external events”. This chapter covers systems and controls for managing risks concerning any of a *firm’s* operations, such as its IT systems and *outsourcing* arrangements. It does not cover systems and controls for managing credit, market, liquidity and insurance risk.

- 3A.2.2 G Operational risk is a concept that can have a different application for different *firms*. A *firm* should assess the appropriateness of the *guidance* in this chapter in the light of the scale, nature and complexity of its activities as well as its obligations as set out in *Principle 3*, to organise and control its affairs responsibly and effectively.
- 3A.2.3 G A *firm* should take steps to understand the types of operational risk that are relevant to its particular circumstances, and the operational losses to which they expose the *firm*. This should include considering the potential sources of operational risk addressed in this chapter: people; processes and systems; external events.
- 3A.2.4 G Operational risk can affect, amongst other things, a *firm’s* solvency, or lead to unfair treatment of consumers or lead to financial crime. A *firm* should consider all operational risk events that may affect these matters in establishing and maintaining its systems and controls.

### 3A.3 Other related Handbook sections

- 3A.3.1 G The following is a non-exhaustive list of *rules* and *guidance* in the *Handbook* that are relevant to a *firm’s* management of operational risk:
- (1) *PRU 1.4* and *PRU 6.1* contain specific *rules* and *guidance* for the establishment and maintenance of operational risk systems and controls in a *prudential context*.
  - (2) *COB* contains *rules* and *guidance* that can relate to the management of operational risk, for example, *COB 2* (Rules which apply to all firms conducting designated investment business), *COB 3* (Financial promotion), *COB 5* (Advising and selling), *COB 7* (Dealing and managing) and *COB 9* (Client assets).

### 3A.4 Requirements to notify the FSA

- 3A.4.1 G Under *Principle 11* and *SUP 15.3.1R* a *firm* must notify the *FSA* immediately of any operational risk matter of which the *FSA* would reasonably expect notice. *SUP 15.3.8G* provides *guidance* on the occurrences that this requirement covers, which include a significant failure in systems and controls and a significant operational loss.
- 3A.4.2 G Regarding operational risk, matters of which the *FSA* would expect notice under *Principle 11* include:

- (1) any significant operational exposures that a *firm* has identified;
- (2) the *firm's* invocation of a business continuity plan; and
- (3) any other significant change to a *firm's* organisation, infrastructure or business operating environment.

### 3A.5 Risk management terms

3A.5.1 G In this chapter, the following interpretations of risk management terms apply:

- (1) a *firm's* risk culture encompasses the general awareness, attitude and behaviour of its *employees* and *appointed representatives* to risk and the management of risk within the organisation;
- (2) operational exposure means the degree of operational risk faced by a *firm* and is usually expressed in terms of the likelihood and impact of a particular type of operational loss occurring (for example, fraud, damage to physical assets);
- (3) a *firm's* operational risk profile describes the types of operational risks that it faces, including those operational risks within a *firm* that may have an adverse impact upon the quality of service afforded to its *clients*, and its exposure to these risks.

### 3A.6 People

3A.6.1 G A *firm* should consult SYSC 3.2.2G to SYSC 3.2.5G for *guidance* on reporting lines and delegation of functions within a *firm* and SYSC 3.2.13G to SYSC 3.2.14G for *guidance* on the suitability of *employees* and *appointed representatives*. This section provides additional *guidance* on management of *employees* and other human resources in the context of operational risk.

3A.6.2 G A *firm* should establish and maintain appropriate systems and controls for the management of operational risks that can arise from *employees*. In doing so, a *firm* should have regard to:

- (1) its operational risk culture, and any variations in this or its human resource management practices, across its operations (including, for example, the extent to which the compliance culture is extended to in-house IT staff);
- (2) whether the way *employees* are remunerated exposes the *firm* to the risk that it will not be able to meet its regulatory obligations (see SYSC 3.2.18G). For example, a *firm* should consider how well remuneration and performance indicators reflect the *firm's* tolerance for operational risk, and the adequacy of these indicators for measuring performance;
- (3) whether inadequate or inappropriate training of *client-facing* services exposes *clients* to risk of loss or unfair treatment including by not

- enabling effective communication with the *firm*;
- (4) the extent of its compliance with applicable regulatory and other requirements that relate to the welfare and conduct of *employees*;
- (5) its arrangements for the continuity of operations in the event of *employee* unavailability or loss;
- (6) the relationship between indicators of ‘people risk’ (such as overtime, sickness, and *employee* turnover levels) and exposure to operational losses; and
- (7) the relevance of all the above to *employees* of a third party supplier who are involved in performing an *outsourcing* arrangement. As necessary, a *firm* should review and consider the adequacy of the staffing arrangements and policies of a service provider.

### **Employee Responsibilities**

- 3A.6.3 G A *firm* should ensure that all *employees* are capable of performing, and aware of, their operational risk management responsibilities, including by establishing and maintaining:
- (1) appropriate segregation of employees' duties and appropriate supervision of *employees* in the performance of their responsibilities (see SYSC 3.2.5G);
  - (2) appropriate recruitment and subsequent processes to review the fitness and propriety of *employees* (see SYSC 3.2.13G and SYSC 3.2.14G);
  - (3) clear policy statements and appropriate systems and procedures manuals that are effectively communicated to *employees* and available for *employees* to refer to as required. These should cover, for example, compliance, IT security and health and safety issues;
  - (4) training processes that enable *employees* to attain and maintain appropriate competence; and
  - (5) appropriate and properly enforced disciplinary and employment termination policies and procedures.
- 3A.6.4 G A *firm* should have regard to SYSC 3A.6.3G in relation to *approved persons*, people occupying positions of high personal trust (for example, security administration, payment and settlement functions); and people occupying positions requiring significant technical competence (for example, *derivatives* trading and technical security administration). A *firm* should also consider the *rules* and *guidance* for *approved persons* in other parts of the *Handbook* (including *APER* and *SUP*) and the *rules* and *guidance* on *senior manager* responsibilities in SYSC 2.1 (Apportionment of Responsibilities).

### 3A.7 **Processes and systems**

- 3A.7.1 G A *firm* should establish and maintain appropriate systems and controls for managing operational risks that can arise from inadequacies or failures in its processes and systems (and, as appropriate, the systems and processes of third party suppliers, agents and others). In doing so a *firm* should have regard to:
- (1) the importance and complexity of processes and systems used in the end-to-end operating cycle for products and activities (for example, the level of integration of systems);
  - (2) controls that will help it to prevent system and process failures or identify them to permit prompt rectification (including pre-approval or reconciliation processes);
  - (3) whether the design and use of its processes and systems allow it to comply adequately with regulatory and other requirements;
  - (4) its arrangements for the continuity of operations in the event that a significant process or system becomes unavailable or is destroyed; and
  - (5) the importance of monitoring indicators of process or system risk (including reconciliation exceptions, compensation payments for *client* losses and documentation errors) and experience of operational losses and exposures.

#### **Internal documentation**

- 3A.7.2 G Internal documentation may enhance understanding and aid continuity of operations, so a *firm* should ensure the adequacy of its internal documentation of processes and systems (including how documentation is developed, maintained and distributed) in managing operational risk.

#### **External documentation**

- 3A.7.3 G A *firm* may use external documentation (including contracts, transaction statements or advertising brochures) to define or clarify terms and conditions for its products or activities, its business strategy (for example, including through press statements), or its brand. Inappropriate or inaccurate information in external documents can lead to significant operational exposure.
- 3A.7.4 G A *firm* should ensure the adequacy of its processes and systems to review external documentation prior to issue (including review by its compliance, legal and marketing departments or by appropriately qualified external advisers). In doing so a *firm* should have regard to:
- (1) compliance with applicable regulatory and other requirements (such as *COB 3* (Financial promotion));

- (2) the extent to which its documentation uses standard terms (that are widely recognised, and have been tested in the courts) or non-standard terms (whose meaning may not yet be settled or whose effectiveness may be uncertain);
- (3) the manner in which its documentation is issued; and
- (4) the extent to which confirmation of acceptance is required (including by *customer* signature or counterparty confirmation).

### **IT systems**

- 3A.7.5 G IT systems include the computer systems and infrastructure required for the automation of processes, such as application and operating system software; network infrastructure; and desktop, server, and mainframe hardware. Automation may reduce a *firm's* exposure to some 'people risks' (including by reducing human errors or controlling access rights to enable segregation of duties), but will increase its dependency on the reliability of its IT systems.
- 3A.7.6 G A *firm* should establish and maintain appropriate systems and controls for the management of its IT system risks, having regard to:
- (1) its organisation and reporting structure for technology operations (including the adequacy of senior management oversight);
  - (2) the extent to which technology requirements are addressed in its business strategy;
  - (3) the appropriateness of its systems acquisition, development and maintenance activities (including the allocation of responsibilities between IT development and operational areas, processes for embedding security requirements into systems); and
  - (4) the appropriateness of its activities supporting the operation of IT systems (including the allocation of responsibilities between business and technology areas).

### **Information security**

- 3A.7.7 G Failures in processing information (whether physical, electronic or known by *employees* but not recorded) or of the security of the systems that maintain it can lead to significant operational losses. A *firm* should establish and maintain appropriate systems and controls to manage its information security risks. In doing so a *firm* should have regard to:
- (1) confidentiality: information should be accessible only to *persons* or systems with appropriate authority, which may require firewalls within a system, as well as entry restrictions;
  - (2) integrity: safeguarding the accuracy and completeness of information

and its processing;

- (3) availability and authentication: ensuring that appropriately authorised *persons* or systems have access to the information when required and that their identity is verified;
- (4) non-repudiation and accountability: ensuring that the *person* or system that processed the information cannot deny their actions.

3A.7.8 G A *firm* should ensure the adequacy of the systems and controls used to protect the processing and security of its information, and should have regard to established security standards such as ISO17799 (Information Security Management).

### **Geographic location**

3A.7.9 G Operating processes and systems at separate geographic locations may alter a *firm's* operational risk profile (including by allowing alternative sites for the continuity of operations). A *firm* should understand the effect of any differences in processes and systems at each of its locations, particularly if they are in different countries, having regard to:

- (1) the business operating environment of each country (for example, the likelihood and impact of political disruptions or cultural differences on the provision of services);
- (2) relevant local regulatory and other requirements regarding data protection and transfer;
- (3) the extent to which local regulatory and other requirements may restrict its ability to meet regulatory obligations in the *United Kingdom* (for example, access to information by the *FSA* and local restrictions on internal or external audit); and
- (4) the timeliness of information flows to and from its headquarters and whether the level of delegated authority and the risk management structures of the overseas operation are compatible with the *firm's* head office arrangements.

### **3A.8 External events and other changes**

3A.8.1 G The exposure of a *firm* to operational risk may increase during times of significant change to its organisation, infrastructure and business operating environment (for example, following a corporate restructure or changes in regulatory requirements). Before, during, and after expected changes, a *firm* should assess and monitor their effect on its risk profile, including with regard to :

- (1) untrained or de-motivated *employees* or a significant loss of *employees* during the period of change, or subsequently;
- (2) inadequate human resources or inexperienced *employees* carrying out

routine business activities owing to the prioritisation of resources to the programme or project;

- (3) process or system instability and poor management information due to failures in integration or increased demand; and
- (4) inadequate or inappropriate processes following business re-engineering.

- 3A.8.2 G A *firm* should establish and maintain appropriate systems and controls for the management of the risks involved in expected changes, such as by ensuring:
- (1) the adequacy of its organisation and reporting structure for managing the change (including the adequacy of senior management oversight);
  - (2) the adequacy of the management processes and systems for managing the change (including planning, approval, implementation and review processes); and
  - (3) the adequacy of its strategy for communicating changes in systems and controls to its *employees*.

#### **Unexpected changes and business continuity management**

- 3A.8.3 G *SYSC* 3.2.19G provides high level *guidance* on business continuity. This section provides additional *guidance* on managing business continuity in the context of operational risk.
- 3A.8.4 G The high level requirement for appropriate systems and controls at *SYSC* 3.1.1R applies at all times, including when a business continuity plan is invoked. However, the *FSA* recognises that, in an emergency, a *firm* may be unable to comply with a particular *rule* and the conditions for relief are outlined in *GEN* 1.3 (Emergency).
- 3A.8.5 G A *firm* should consider the likelihood and impact of a disruption to the continuity of its operations from unexpected events. This should include assessing the disruptions to which it is particularly susceptible (and the likely timescale of those disruptions) including through:
- (1) loss or failure of internal and external resources (such as people, systems and other assets);
  - (2) the loss or corruption of its information; and
  - (3) external events (such as vandalism, war and “acts of God”).
- 3A.8.6 G A *firm* should implement appropriate arrangements to maintain the continuity of its operations. A *firm* should act to reduce both the likelihood of a disruption (including by succession planning, systems resilience and dual processing); and the impact of a disruption (including by contingency

arrangements and insurance).

- 3A.8.7 G A *firm* should document its strategy for maintaining continuity of its operations, and its plans for communicating and regularly testing the adequacy and effectiveness of this strategy. A *firm* should establish:
- (1) formal business continuity plans that outline arrangements to reduce the impact of a short, medium or long-term disruption, including:
    - (a) resource requirements such as people, systems and other assets, and arrangements for obtaining these resources;
    - (b) the recovery priorities for the *firm's* operations; and
    - (c) communication arrangements for internal and external concerned parties (including the *FSA*, *clients* and the press);
  - (2) escalation and invocation plans that outline the processes for implementing the business continuity plans, together with relevant contact information;
  - (3) processes to validate the integrity of information affected by the disruption;
  - (4) processes to review and update (1) to (3) following changes to the *firm's* operations or risk profile (including changes identified through testing).
- 3A.8.8 G The use of an alternative site for recovery of operations is common practice in business continuity management. A *firm* that uses an alternative site should assess the appropriateness of the site, particularly for location, speed of recovery and adequacy of resources. Where a site is shared, a *firm* should evaluate the risk of multiple calls on shared resources and adjust its plans accordingly.
- 3A.9 **Outsourcing**
- 3A.9.1 G As *SYSC* 3.2.4G explains, a *firm* cannot contract out its regulatory obligations and should take reasonable care to supervise the discharge of *outsourced* functions. This section provides additional *guidance* on managing *outsourcing* arrangements (and will be relevant, to some extent, to other forms of third party dependency) in relation to operational risk. *Outsourcing* may affect a *firm's* exposure to operational risk through significant changes to, and reduced control over, people, processes and systems used in outsourced activities.
- 3A.9.2 G *Firms* should take particular care to manage *material outsourcing* arrangements and, as *SUP* 15.3.8G(1)(e) explains, a *firm* should notify the *FSA* when it intends to enter into a *material outsourcing* arrangement.
- 3A.9.3 G A *firm* should not assume that because a service provider is either a regulated *firm* or an intra-group entity an *outsourcing* arrangement with that

provider will, in itself, necessarily imply a reduction in operational risk.

3A.9.4 G Before entering into, or significantly changing, an *outsourcing* arrangement, a *firm* should:

- (1) analyse how the arrangement will fit with its organisation and reporting structure; business strategy; overall risk profile; and ability to meet its regulatory obligations;
- (2) consider whether the agreements establishing the arrangement will allow it to monitor and control its operational risk exposure relating to the *outsourcing*;
- (3) conduct appropriate due diligence of the service provider's financial stability and expertise;
- (4) consider how it will ensure a smooth transition of its operations from its current arrangements to a new or changed *outsourcing* arrangement (including what will happen on the termination of the contract); and
- (5) consider any concentration risk implications such as the business continuity implications that may arise if a single service provider is used by several *firms*.

3A.9.5 G In negotiating its contract with a service provider, a *firm* should have regard to:

- (1) reporting or notification requirements it may wish to impose on the service provider;
- (2) whether sufficient access will be available to its internal auditors, external auditors or *actuaries* (see section 341 of the *Act*) and to the *FSA* (see *SUP 2.3.5R* (Access to premises) and *SUP 2.3.7R* (Suppliers under material outsourcing arrangements));
- (3) information ownership rights, confidentiality agreements and *Chinese walls* to protect *client* and other information (including arrangements at the termination of the contract);
- (4) the adequacy of any guarantees and indemnities;
- (5) the extent to which the service provider must comply with the *firm's* policies and procedures (covering, for example, information security);
- (6) the extent to which a service provider will provide business continuity for *outsourced* operations, and whether exclusive access to its resources is agreed;
- (7) the need for continued availability of software following difficulty at

a third party supplier;

- (8) the processes for making changes to the *outsourcing* arrangement (for example, changes in processing volumes, activities and other contractual terms) and the conditions under which the *firm* or service provider can choose to change or terminate the *outsourcing* arrangement, such as where there is:
  - (a) a change of ownership or *control* (including insolvency or receivership) of the service provider or *firm*;
  - (b) significant change in the business operations (including sub-contracting) of the service provider or *firm*; or
  - (c) inadequate provision of services that may lead to the *firm* being unable to meet its regulatory obligations.

3A.9.6 G In implementing a relationship management framework, and drafting the service level agreement with the service provider, a *firm* should have regard to:

- (1) the identification of qualitative and quantitative performance targets to assess the adequacy of service provision, to both the *firm* and its *clients*, where appropriate;
- (2) the evaluation of performance through service delivery reports and periodic self certification or independent review by internal or external auditors; and
- (3) remedial action and escalation processes for dealing with inadequate performance.

3A.9.7 G In some circumstances, a *firm* may find it beneficial to use externally validated reports commissioned by the service provider, to seek comfort as to the adequacy and effectiveness of its systems and controls. The use of such reports does not absolve the *firm* of responsibility to maintain other oversight. In addition, the *firm* should not normally have to forfeit its right to access, for itself or its agents, to the service provider's premises.

3A.9.8 G A *firm* should ensure that it has appropriate contingency arrangements to allow business continuity in the event of a significant loss of services from the service provider. Particular issues to consider include a significant loss of resources at, or financial failure of, the service provider, and unexpected termination of the *outsourcing* arrangement.

### 3A.10 **Insurance**

3A.10.1 G Whilst a *firm* may take out insurance with the aim of reducing the monetary impact of operational risk events, non-monetary impacts may remain (including impact on the *firm's* reputation). A *firm* should not assume that insurance alone can replace robust systems and controls.

3A.10.2 G When considering utilising insurance, a *firm* should consider:

- (1) the time taken for the *insurer* to pay claims (including the potential time taken in disputing cover) and the *firm's* funding of operations whilst awaiting payment of claims;
- (2) the financial strength of the *insurer*, which may determine its ability to pay claims, particularly where large or numerous small claims are made at the same time; and
- (3) the effect of any limiting conditions and exclusion clauses that may restrict cover to a small number of specific operational losses and may exclude larger or hard to quantify indirect losses (such as lost business or reputational costs).

**INTEGRATED PRUDENTIAL SOURCEBOOK (INSURERS AND OTHER AMENDMENTS) (CONSEQUENTIAL AMENDMENTS) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) section 138 (General rule-making power);
  - (2) section 141 (Insurance business rules);
  - (3) section 150(2) (Actions for damages);
  - (4) section 156 (General supplementary powers);
  - (5) section 157(1) (Guidance); and
  - (6) section 340 (Appointment).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C. This instrument comes into force as follows:
- (1) the amendment to rule 5.11(1), and rule 5.11(1A), of IPRU(FSOC) in Annex F come into force on 31 December 2005;
  - (2) the remainder of this instrument comes into force on 31 December 2004.

**Amendments to the Handbook**

- D. The modules of the FSA’s Handbook of rules and guidance listed in column (1) below are amended in accordance with the Annexes to this instrument listed in column (2).

22 December 2004

## Annex A

### Amendments to Senior Management Arrangements, Systems and Controls

In this Annex, underlining indicates new text.

Appendix 1.1 Matters reserved to a Home State regulator (see SYSC 1.1.1R(1)(b) and SYSC 1.1.1R(1)(c))

...

1.1.8 G Examples of how the *FSA* considers that *SYSC 3* will apply in practice to an *incoming EEA firm* (see *SYSC 1.1.4G*) are as follows:

(1) The Integrated Prudential Sourcebook (*PRU*) (with the exception of *PRU 7.6.33R* on the payment of financial penalties) and the Interim Prudential sourcebook (insurers) (*IPRU(INS)*) (with the exception of rules 3.6 and 3.7) does not apply to an *insurer* which is an *incoming EEA firm*. Similarly, *SYSC 3* does not require such a *firm*:

(a) ...

(b) to establish systems and controls for compliance with that Interim Prudential sourcebook or *PRU* (*SYSC 3.2.6R*); or

  - (2) an expression in italics which relates to an expression defined in the *Glossary* must be interpreted accordingly.

## Annex D

### Amendments to the Interim Prudential sourcebook for Banks

In this Annex, underlining indicates new text and striking through indicates deleted text.

GN: Section 2

...

## 2 THE PRUDENTIAL SOURCEBOOK FOR BANKS: APPLICATION AND PURPOSE

### APPLICATION

1. ~~The Prudential Sourcebook for banks sets out the Financial Services Authority's ("the FSA's") detailed prudential standards and related notification requirements applying to *banks* authorised under the Financial Services and Markets Act 2000 ("the Act"). The sourcebook sets out material relevant to all *banks* (see definition in section 3.5 of Chapter GN). However, most of the material applies only to *UK banks*. From 31 December 2004 the Financial Services Authority (the FSA) has begun the phased implementation for *banks* of its Integrated Prudential Sourcebook (*PRU*). This will eventually replace the set of sectoral prudential sourcebooks applied on an interim basis, including this one applying to *banks* (*IPRU(BANK)*). Over the transition period until all the provisions of *IPRU(BANK)* have been revoked, the FSA's detailed prudential standards (and some related notification requirements) applying to *banks* authorised under the *Act* are set out in a combination of *PRU* and *IPRU(BANK)*. Where a chapter of *IPRU(BANK)* has been substantively affected by the implementation of *PRU*, the introductory section of that chapter has been amended to indicate in broad terms how the chapter's provisions relate to those in *PRU*. *Banks* are responsible for ensuring that they meet all the prudential standards applying to them in both *PRU* and *IPRU(BANK)* during the transitional period.~~
2. *IPRU(BANK)* sets out material relevant to all *banks* (see definition in section 3.5 of Chapter GN). However, most of the material applies only to *UK banks*. The only parts of the sourcebook *IPRU(BANK)* which apply to *EEA banks* are the rules and guidance on liquidity (Rule 3.3.15 and Chapter LM) and fraud (Chapter FR).

### PURPOSE

3. ...
4. The purpose of the prudential standards ~~set out in this sourcebook~~ applying to *banks* is to ensure that banks maintain capital and other financial resources commensurate with their risks and appropriate systems and controls to enable them to manage those risks. The FSA requires in particular that banks maintain adequate capital against their risks: capital enables banks to absorb losses without endangering customer deposits; that they maintain adequate liquidity; and that they identify and control their large credit exposures - which might otherwise be a source of loss to a bank on a scale that might threaten a bank's

solvency.

5. ~~This sourcebook, The prudential standards applying to banks, together with the separate prudential sourcebook those separately~~ applying to building societies, also implements EC directives setting out prudential standards as these apply to *credit institutions*. Where a bank is part of a financial conglomerate, it will also be subject to additional rules and guidance set out in *PRU* 8.4. A bank with an ultimate non-EEA parent may also be subject to some provisions in *PRU* 8.5. And all banks that are part of a group are subject to the general provisions in *PRU* 8.1.

## POWERS AND GENERAL APPROACH

6. ...
7. The prudential standards in this sourcebook applying to banks are set out in the form either of rules and evidential provisions which the FSA has made under Part X of the Act; or of guidance setting out the FSA's expectation of how *banks* should comply with these rules and with the related Principles for Businesses and how they should meet the relevant Threshold Conditions (see PRIN and COND). Where a *bank* complies with this guidance, the FSA will normally hold it to be in compliance with the relevant rules and to meet the relevant Threshold Conditions. ~~The FSA's~~ *IPRU(BANK)*'s rules and evidential provisions are set out in Section 3 of this chapter.
8. ~~This sourcebook applies to banks on an interim basis pending the preparation and implementation of a single Prudential Sourcebook applying to all firms regulated by the FSA—termed the Integrated Prudential Sourcebook.—In developing the interim sourcebook~~ *IPRU(BANK)*, the FSA has drawn on the standards which formerly applied to *banks* authorised under the Banking Act 1987. The FSA has expressed most of the equivalent standards in ~~this sourcebook~~ *IPRU(BANK)* as guidance, identifying to which rules the guidance refers. Only the requirements set out in Section 3 of this chapter take the form of rules. Each chapter sets out in the opening paragraphs the rules, including the Principles for Businesses and Threshold Conditions, to which the guidance refers.
9. This approach has been adopted, after consultation, as appropriate for material that will apply on an interim basis only. It is the FSA's intention in developing ~~its Integrated Prudential Sourcebook~~ *PRU* to make fuller use of its rule-making powers to express its detailed prudential standards.
10. ~~This sourcebook~~ *IPRU(BANK)* also sets out rules and guidance on the information related to prudential standards which *banks* should notify to the FSA. The FSA needs to be informed of certain information by *banks* if it is to monitor compliance with its requirements. The rules and guidance in ~~this sourcebook~~ *IPRU(BANK)* supplement, in respect to *banks*, the FSA's general notification requirements set out in the Supervision Manual [see SUP 13].

...

GN: Section 3

...

### 3 THE FSA'S PRUDENTIAL RULES FOR BANKS

...

3.4.12R A *bank* must send to the *FSA*:

(a) a copy of the policy statement it has first adopted in compliance with each of *IPRU (BANK)* 3.4.1R, ~~3.4.3R~~, 3.4.5R and 3.4.7R as soon as possible after adopting it; and

### MISMATCH LIQUIDITY

#### 1 INTRODUCTION

##### 1.1 Legal sources

1 ...

See ch  
GN s3

(c) The rules requiring a bank to maintain adequate liquidity appropriate to the nature and scale of its business, and to ~~provide the FSA with a statement of its liquidity policy~~ set out its policy on liquidity risk management in a written statement.

...

2 As part of the phased implementation of the Integrated Prudential Sourcebook (PRU), provisions in PRU 1.2 and PRU 5.1 relating to a firm's systems and controls for liquidity risk have been introduced, superseding – and leading to the revocation or amendment of – material formerly in this chapter. This chapter and chapter LS sets out the FSA's framework for monitoring the liquidity of banks authorised for the purposes of the Act to determine whether the above requirements are met.

...

...

## 10 POLICY STATEMENTS

See ch  
GN s3

1 In order to provide a framework for monitoring liquidity on a basis appropriate to each bank the FSA has made a rule requiring each bank to maintain ~~provide~~ a statement of its liquidity management policy (see rule 3.4.3).

...

See PRU  
5.1

4 The policy statement should consider the management of liquidity in both normal and abnormal circumstances. In particular, it should include details of the bank's contingency funding plan maintained as required by PRU 5.1.86E. ~~A bank should consider how it would react to severe funding difficulties affecting it:~~

- (a) The statement should also include specifically:
- (i) who is responsible for liquidity management on a day to day basis; ~~and who is responsible for crisis management in the event of a liquidity crisis; and~~
  - (ii) what are likely to be the most reliable sources of funds in normal ~~and crisis~~ circumstances;
  - (iii) ~~what warning indicators are used as signs of an approaching crisis; and~~
  - (iv) ~~what action is planned to pre-empt it.~~

## Annex E

### Amendments to the Interim Prudential sourcebook for Building Societies

In this Annex, underlining indicates new text and striking through indicates deleted text.

X Introductory Chapter

X.1 Introduction

...

X.1.2 G From 31 December 2004 as part of the programme to implement the Integrated Prudential sourcebook (PRU), rules and guidance on elements of liquidity risk systems and controls located in PRU 1.2 and PRU 5.1, come into effect, and supersede some original material in this sourcebook.

...

X.4.1 G The Interim Prudential Sourcebook for building societies sets out most of the FSA's detailed prudential standards and related notification requirements ~~applying (where these apply only to societies authorised under the Act)~~ and covers the constitutional matters referred to above. Other prudential standards applying to societies are set out in the Act and elsewhere in the Handbook: see, for example, the Threshold Conditions (COND), the Principles for Businesses (PRIN), ~~and~~ Senior Management Arrangements, Systems and Controls (SYSC) and the Integrated Prudential Sourcebook (PRU). Other notification requirements are set out in chapter 15 of the Supervision Manual (SUP).

...

X.4.3 G ~~This sourcebook applies to societies on an interim basis pending the preparation and implementation of a single Prudential Sourcebook applying to all firms regulated by the FSA—termed the Integrated Prudential Sourcebook. In developing the interim sourcebook, the FSA has drawn on the standards which formerly applied to societies authorised under the 1986 Act set out in the Statement of Principles and Prudential Notes issued by the Commission. These standards took the form of the Commission's interpretation of the criteria of prudent management in section 45 of the 1986 Act. The FSA has expressed some of the criteria of prudent management as rules in this Interim Prudential Sourcebook, but the majority of the previous material has now been recast as guidance under the Act. A significant amount of material previously published by the Commission has not been carried forward into the Interim Prudential Sourcebook, particularly descriptive, historical and explanatory material. This has been removed because the FSA considers that it is not appropriate material for prudential rules and guidance under the Act, not because the material is in~~

~~any way incorrect or irrelevant to societies' business.~~ The rules and evidential provisions are distributed throughout the prudential chapters of this sourcebook: rules can be found in paragraphs X.2.1, X.8.2, 1.2.1, 1.2.2, 4.2.1, 4.2.5, 4.2.6, ~~5.2.1, 5.2.7, 5.2.9,~~ 6.2.1, 6.2.2, 6.2.3, 7.6.2, 7.6.3, 7.7.1, 7.7.3, 8.2.1, 9.2.1, 9.2.7 and 9.2.8. Evidential provisions can be found in paragraphs 5.2.4, 9.2.3 and 9.2.5.

...

## 4 FINANCIAL RISK MANAGEMENT

...

- 4.2.3 G Societies should have credit limits in place for all counterparties both for placing liquidity and for transacting derivative contracts (further guidance is also in Chapter 5 (Liquidity) and in PRU 5.1 – stress testing and scenario analysis, and contingency funding plans).

...

### Stress Testing

- 4.7.7 G ... Boards and management should, periodically, review the extent of such stress testing to ensure that any "worst case" scenarios remain valid. Contingency plans should be in place to deal with the consequences should such scenarios become reality. Rules and guidance on stress testing, scenario analysis and contingency funding plans specifically for liquidity risk are in PRU 1.2 and PRU 5.1.

...

## 5 Liquidity

### 5.1 Introduction

- 5.1.1 G This chapter now sets out the FSA's quantitative regime for building societies' prudential liquidity, and further guidance specific to building societies on the management of their liquidity in accordance with the five approaches to financial risk management set out in chapter 4. This chapter complements PRU 5.1 (which contains rules and guidance for a wider range of firms on systems and controls appropriate for liquidity risk). Only certain provisions of PRU 5.1 apply to building societies, by virtue of PRU 5.1.3R and PRU 5.1.4R. Similarly it also complements PRU 1.2 (which sets out the high level requirements for liquidity that apply to deposit takers and own account dealers, as well as insurers). This chapter replaces PN 1998/5 issued by the Commission and contains rules and guidance for societies on the management of liquidity. It contains guidance for societies on what is meant by "adequate resources" in the Threshold Condition set out in paragraph

~~4(1) of Schedule 6 to the Act—see also COND 2.4—and in Principle 4, in respect of liquidity. The chapter explains outlines the FSA’s approach to liquidity for building societies and provides guidance on factors the FSA will take into account in assessing whether a society meets the rules set out in section 5.2 and PRU 1.2 and the guidance in PRU 5.1. A list of types of asset suitable for inclusion in prudential liquidity for societies on each of the approaches to financial risk management is set out in Annex 5A. "Prudential liquidity" has the meaning set out in paragraph 5.3.4G.~~

5.1.2 G Some material on liquidity systems and controls, previously in this chapter and superseded by PRU 5.1, has been deleted, but the original numbering has been retained: where an entire section has been deleted this is noted alongside the original section number. The new material in PRU 5.1 covers requirements for stress testing and scenario analysis, as well as contingency funding plans and their documentation.

5.2 Rules

~~5.2.1 R A society must maintain adequate liquid resources, including prudential liquidity, appropriate to the scale and nature of its business to enable it to meet its obligations as they fall due. [Deleted]~~

~~5.2.2 G “Adequate liquid resources” means of such amount and composition as will at all times enable the society to meet its obligations as they fall due. [Deleted]~~

~~5.2.3 G “Prudential liquidity” has the meaning set out in paragraph 5.3.4. A list of assets suitable for inclusion in prudential liquidity is set out in Annex 5A. [Deleted]~~

~~5.2.4 E (1) ...~~  
~~(2) Contravention of 5.2.4(1) may be relied upon as tending to establish contravention of 5.2.4 PRU 1.2.22R.~~

...

~~5.2.7 R A society must maintain, and submit to the FSA, a board-approved policy statement on liquidity.~~

5.2.8 G Guidance on the content of a liquidity policy statement is set out in paragraphs 5.6.2G to 5.6.4G and in Annex 5B. Societies will also find guidance on the requirements (set out at PRU 1.2.26R, PRU 1.2.27R, PRU 1.2.31R, PRU 1.2.33R, PRU 1.2.35R, PRU 1.2.37R and PRU 1.2.38R) for stress testing and scenario analysis at PRU 5.1.58R to PRU 5.1.62R. Further guidance on the requirements (set out at PRU 1.2.22R, PRU 1.2.35R and PRU 1.2.37R) on contingency funding plans and documentation is provided at PRU 5.1.85G – PRU 5.1.91G). Societies may, for convenience, wish to combine their documentation meeting these requirements with their liquidity policy statement, but need to be clear how any combined document meets

the separate requirements.

5.2.9 R ~~A society making any significant change to its policy statement on liquidity must provide the FSA with a copy of the amended policy statement as soon as possible after it has been adopted. [deleted]~~

...

5.6.2 G Rule 5.2.7 requires each society to have a liquidity policy statement. This should be approved by the society's board and be consistent with the society's strategic plan and its financial risk management policy statement. Societies should also have regard to the rules and guidance in PRU 1.2 and PRU 5.1, set out in more detail at PRU 5.2.8G.

...

5.6.5 G Boards should establish the objectives for liquidity including meeting obligations as they fall due (including any unexpected adverse cash flow), smoothing out the effect of maturity mismatches and the maintenance of public confidence. The need to earn a return may also be recognised as an objective, although this should be secondary to the security of the assets. Societies should also have regard to the rules and guidance in PRU 1.2 and PRU 5.1, set out in more detail at PRU 5.2.8G.

## Annex F

### Amendments to the Interim Prudential sourcebook for Friendly Societies

In this Annex underlining indicates new text and striking through indicates deleted text. Where an entirely new section of text is added, this is indicated and the new text is not underlined. Where an entire section of text is being deleted, the place where the change is made is indicated and the text is not struck through.

#### INTERIM PRUDENTIAL SOURCEBOOK FOR FRIENDLY SOCIETIES

#### GUIDANCE

#### THE PURPOSE OF THE PRUDENTIAL RULES FOR FRIENDLY SOCIETIES AND AN OVERALL DESCRIPTION

...

5. ~~The Interim Prudential Sourcebook for Friendly Societies (IPRU(FSOC)) starts by limiting the risks to which a friendly society may be subject. Rule 1.3 in Chapter 1 requires that the business of a directive friendly society is restricted to insurance business.~~ [deleted]

...

10. Provisions in Chapter 4 also require a liability in any particular currency to be matched by assets in that currency. Further provisions relate to the location of assets. [deleted]

...

15. FSA guidance is set out in the Annexes and friendly societies may also wish to refer to the guidance in IPRU(INS) and PRU.

...

## Chapter 1

### APPLICATION

---

#### Application

- 1.1 These rules apply to a *non-directive friendly society* which has permission under the *Act* to *effect* or *carry out contracts of insurance*.
- 1.1A The rules in Chapters 1, 2, 3 (with the exception of rule 3.1(7)), rules 4.20 to 4.23, rule 5.1A, Chapters 7, 8 and Appendix 3 also apply to a *directive friendly society* which has permission under the *Act* to *effect* or *carry out* contracts of insurance.

...

#### Restriction of business to insurance

- 1.3 (1) ~~A *directive friendly society* must not carry on any commercial business in the United Kingdom or elsewhere other than *insurance business* and activities directly arising from that business.~~
- (2) (1) does not prevent a *friendly society* which was on 15 March 1979 carrying on *long term insurance business* and a *savings business* in the United Kingdom from continuing to carry on the *savings business*. ~~[deleted]~~

...

## Chapter 3

### MANAGEMENT AND CONTROL

---

#### Accounting records and systems of control

- 3.1 ...
- (7) Every *non-directive friendly society* must within the period of 6 months beginning with the end of each *financial year* make and send to the *FSA* a statement of their opinion whether the requirements of this rule have been complied with in respect of that year by the *friendly society* and the statement must be signed by the chairman on behalf of the *committee* and by the chief executive.

...

## Chapter 4

### FINANCIAL PRUDENCE

---

#### I. MARGINS OF SOLVENCY

##### Basic requirement<sup>1</sup>

- 4.1 (1) Subject to (3), a *friendly society* (other than a *flat rate benefits business friendly society*) must maintain a ~~margin of solvency~~ margin of solvency equal to or greater than the required margin of solvency calculated in accordance with rules 4.2 to 4.10.

...

##### Calculating the required margin of solvency

- 4.2 (1) Subject to (2) to (7), the required margin of solvency must be determined -

...

- (2) For a *contract of insurance* to which rule 7.6(a) applies, the required margin of solvency must be determined by taking the aggregate of the results arrived at by applying-

...

- (3) Where a *friendly society* carries on *long-term insurance business* and owing to the nature of that business more than one required margin of solvency is produced in respect of that business by the operation of these rules, the margins in question must be aggregated.

- (4) Where a *friendly society* carries on both *long-term insurance business* and *general insurance business* and is accordingly required to maintain separate margins of solvency in respect of the two kinds of business-

- (a) the provisions in (1) to (3) apply for determining the required margin of solvency for each kind of business separately; and

...

- (5) Subject to (6), in each case in which (1)(b) applies, if the required margin of solvency under (1)(b) is lower than the required margin of solvency of the preceding *financial year*, then the required margin of solvency must be adjusted so it is at least equal to the required margin of solvency of the preceding *financial year* multiplied by the ratio of the amount of the *technical provisions* for *claims* outstanding at the end of the preceding *financial year* and the amount of the *technical provisions* for *claims* outstanding at the beginning of the preceding *financial year*.

---

<sup>1</sup> The requirement for a plan for the restoration of a sound financial position to be submitted by a *friendly society* which breaches this rule is in SUP, App II, 1.3.1.

(6) ...

#### **The guarantee fund<sup>4</sup>**

4.3 ~~A directive friendly society and a A non-directive incorporated friendly society~~ must ensure that its ~~required margin of solvency~~ margin of solvency does not fall below the *guarantee fund*.

#### **Calculating the guarantee fund**

4.4 (1) Subject to (2) to (5), one-third of the *required margin of solvency* constitutes the *guarantee fund*. ~~A friendly society must ensure that its margin of solvency does not fall below the guarantee fund.~~

(2) In the case of a *friendly society* which is a non-directive incorporated friendly society-

(a) ~~an incorporated friendly society;~~ or

(b) ~~an (unincorporated) friendly society, which is a directive friendly society;~~

the *guarantee fund* must not be less than an amount (the minimum *guarantee fund*) arrived at in accordance with rule 4.5 for *long-term insurance business* and rule 4.6 for *general insurance business*, whether the *required margin of solvency* is greater or less than that amount.

...

#### **Minimum guarantee fund: long-term insurance business**

4.5 (1) ~~Subject to (2) to (4) and to rule 4.6(3), the minimum guarantee fund for long-term insurance business carried on by a directive friendly society is 2,250,000 Euro. [deleted]~~

...

#### **Minimum guarantee fund: general insurance business**

4.6 (1) ~~Subject to (2) and (3), the minimum guarantee fund in respect of general insurance business carried on by a directive friendly society is 1,500,000 Euro. [deleted]~~

...

(3) ~~Subject to (4) and (5), the base amount in Euro specified in (1) and in Appendix 2 will increase each year, starting on the first review date of 20 September 2003 (and annually after that), by the percentage change in the~~

---

<sup>4</sup> The requirement for a short term plan to be submitted by a *friendly society* which breaches this rule is imposed by SUP, App 2

European index of consumer prices (comprising all EU member states as published by Eurostat) from 20 March 2002 to the relevant review date, rounded up to a multiple of 100,000 Euro. [deleted]

- (4) In any year, if the percentage change since the last increase is less than 5%, then there will be no increase. [deleted]
- (5) The increase will take effect 30 days after the EU Commission has informed the European Parliament and Council of its review and the relevant percentage change. [deleted]

...

## II. ADEQUACY OF ASSETS

4.11 Except for rule 4.24, which applies to all *friendly societies*, the remaining rules in this chapter do not apply to ~~non-directive~~ registered friendly societies.

4.12 (1) ...

- (b) without prejudice to the generality of (a), that its investments are appropriately diversified and adequately spread and that excessive reliance is not placed on investments of any particular category or description<sup>6</sup>.

...

The rules 4.13 to 4.19 are deleted in their entirety. The deleted text is not shown struck through.

## III ADEQUACY OF PREMIUMS

4.13 [deleted]

## IV CURRENCY MATCHING AND LOCALISATION

## Chapter 5

### PRUDENTIAL REPORTING

---

#### Annual actuarial investigation

5.1 (1) A *friendly society* which is

(a) ~~is a *directive friendly society*; or~~

(b) a *non-directive incorporated friendly society* (other than a *flat rate benefits business friendly society*),

must cause an investigation to be made, in accordance with the methods and assumptions determined by the *friendly society*, by the person or persons who for the time being are appointed to perform the *actuarial function* under the rules in SUP ~~appointed actuary~~ into the financial condition of the *friendly society* in respect of its *long-term insurance business* as at the end of each *financial year*.

(2) When such an investigation has been made, or when at any other time an investigation into the financial condition of the *friendly society* in respect of its *long-term insurance business* has been made with a view to the distribution of profits, or the results of which are made public the *friendly society* must-

(a) cause an abstract of the ~~actuary's~~ report of the investigation to be made; and

(b) deposit three copies of that abstract with the *FSA* within 6 months of the end of the *financial year* to which it relates,

and one of those copies must be signed as required by rule 5.12.<sup>8</sup>

...

---

<sup>8</sup> See Sup 16.3.6 to 16.3.10R for rules on submission of periodic reports

5.1A A directive friendly society must comply with rules 9.1 to 9.36, 9.37, and 9.39 of IPRU (INS) as if references to an insurer in those rules included a directive friendly society.

### **Triennial actuarial investigation**

5.2 (1) Subject to (1A) and at least once in every period of 3 years, a friendly society (other than a flat rate benefits business friendly society) which-

(a) ...

(b) is a ~~directive friendly society or a non-directive incorporated friendly society~~ must cause an investigation to be made by the *appropriate actuary* into the financial condition of the *friendly society* in respect of its *general insurance business*.

(1A) (1)(a) does not apply to a partnership pension society.

...

(9) ~~A directive friendly society or non-directive incorporated friendly society~~ (other than a *flat rate benefits business friendly society*) which is carrying on *general insurance business* must complete an abstract in the Form required under rules 5.14 to 5.19 (referred to as the “FSC3 return”).

...

### **The FSC1 return**

...

5.5 (1) The FSC1 return must include:

(a) Form FSC1

(b) a balance sheet;

(c) revenue accounts;

(d) a valuation abstract;

(e) a certificate and a statement that the friendly society consents to the FSC1 return being placed on its public file by the appointed actuary; and

(f) a report of the auditors.

~~(g) a statement that the friendly society consents to the FSC1 return being placed on its public file.~~

(2) Rules 5.6 to 5.12 apply to the preparation of the FSC1 return.

### **Balance sheet**

5.6 ...

~~(1A) Form 9A must be completed by every directive friendly society in respect of its long-term insurance business assets.~~

...

### **Actuary's Certificate**

- 5.10 ~~The appointed actuary must give a~~ A friendly society must ensure that a certificate is given in the terms, as appropriate, of Form 61B.

### **Auditor's Report**

- 5.11 (1) The auditor's report in Form 61C must state whether in his opinion the balance sheet, ~~and revenue accounts, valuation abstract and certificate~~ (Forms 9 to 45, 48, 49, 56, 58 and 60, including any supplementary notes) and information relating thereto have been properly prepared and presented in accordance with the rules in chapters 4 & 5.

(1A) To the extent that the auditor's opinion relates to matters covered by the investigation in rule 5.1

(a) the friendly society must ensure that the auditor takes appropriate advice from a suitably qualified actuary who is independent of the friendly society;

(b) the auditor's report in Form 61C must include a statement that the auditor has taken such advice.

(2) In giving this opinion the auditor must state whether he has relied on -

(a) the certificate ~~of the actuary~~ given in accordance with rule 5.10 with respect to the *mathematical reserves* and the *required minimum margin* of the *friendly society*; and

...

### **Signatures**

- 5.12 (1) ~~The appointed actuary must sign the certificate in Form 61B.~~ [deleted]

(3) The FSC1 Return must be signed, in Form 61B ~~61D~~, by ~~the appointed actuary~~ and the chief executive, the secretary and one *committee* member of the *friendly society* (or two members of the *committee* if the offices of chief executive and secretary are held by the same person).

...

- 5.26 ~~A directive friendly society must provide to any person (or the person who has already been provided with a copy under (a)) within 30 days of the date of request (or, in the case of (b), the date of deposit under rule 5.3):~~

(a) a copy of any of the documents last deposited by the friendly society under rules 5.1 or 5.2; and

~~(b) — a copy of any document deposited under rule 5.3 which corrects or makes good any document provided under (a);~~

~~in printed form, but (in the case of (a)) the *friendly society* may make a charge to cover its reasonable costs, including those of printing and postage.~~

<del><i>insurance Directives</i> means –</del>  (a) the <i>first non-life Directive</i> , the <i>second non-life Directive</i> and the <i>third non-life Directive</i> , and such other Directives as make provision with respect to the business of direct insurance other than long-term assurance; and  (b) the <u><i>Consolidated Life Directive</i></u> — <del><i>first life Directive</i>, the <i>second life Directive</i> and the <i>third life Directive</i></del> , and such other Directives as make provision with respect to the business of direct long-term assurance;
<del><i>insurance undertaking</i> has the meaning given in <i>IPRU(INS)</i>;</del>
<del><i>Insurer</i> has the meaning given in <i>IPRU(INS)</i>;</del>
<del><i>IPRU(FSOC)</i> means the Interim Prudential Sourcebook for Friendly Societies;</del>
<del><i>IPRU(INS)</i> means the Interim Prudential Sourcebook for Insurers;</del>
<del><i>life Directives</i> means the <i>first life insurance Directive</i>, the <i>second life Directive</i>, and the <i>third life Directive</i>; <u>Directive 2002/83/EC of 5 November 2002 concerning life assurance</u></del>

*non-directive friendly society* means:

- (1) — a *friendly society* whose *insurance business* is restricted to the provision of benefits which vary according to the resources available and in which the contributions of the members are determined on a flat-rate basis;
- (2) — a *friendly society* whose *long-term insurance business* is restricted to the provision of benefits for employed and self-employed persons belonging to an undertaking or group of undertakings, or a trade or group of trades, in the event of death or survival or of discontinuance or curtailment of activity (whether or not the *commitments* arising from such operations are fully covered at all times by *mathematical reserves*);
- (3) — a *friendly society* which undertakes to provide benefits solely in the event of death where the amount of such benefits does not exceed the average funeral costs for a single death or where the benefits are provided in kind;
- (4) — a *friendly society* (carrying on *long-term insurance business*) —
  - (a) — whose articles of association contain provisions for calling up additional contributions from members or reducing their benefits or claiming assistance from other persons who have undertaken to provide it; and
  - (b) — whose annual *gross premium* income (other than from contracts of reinsurance) has not exceeded 5 million Euro for each of the three preceding *financial years*;
- (5) — a *friendly society* (carrying on *general insurance business*) whose —
  - (a) — registered rules contain provisions for calling up additional contributions from members or reducing their benefits;
  - (b) — *gross premium* income (other than from contracts of reinsurance) for the preceding *financial year* did not exceed 5 million Euro; and
  - (c) — members provided at least half of that *gross premium* income;
- (6) — a *friendly society* whose liabilities in respect of *general insurance contracts* are fully reinsured with or guaranteed by other mutuals (including *friendly societies*);

and whose *insurance business* is limited to that described in paragraphs (1) to (6);

*non-directive incorporated friendly society* means a *non-directive friendly society* which is an *incorporated friendly society*;

*non-directive registered friendly society* means a *non-directive friendly society* which is a *registered friendly society*;

*non-life Directives* means the *first non-life Directive*, the *second non-life Directive*, and the *third non-life Directive*;

*notional required minimum margin* means:

- (a) in the case of an *insurance undertaking* (other than a *pure reinsurer*) that has its head office in a *designated state or territory*, the amount of the *required minimum margin* or *general insurance capital requirement* or the equivalent requirement under the regulatory requirements of that state or territory;
- (b) in the case of a *pure reinsurer* that has its head office in a *designated state or territory*, the amount that would be the *required minimum margin* or *general insurance capital requirement*, or the equivalent requirement under the regulatory requirements of that state or territory, if the regulatory requirements of that state or territory applicable to undertakings carrying on *direct insurance business* were applied to the *pure reinsurer* (whether they are or not); and
- (c) in all other cases, the amount of the *required minimum margin* or *general insurance capital requirement* that would apply if the *insurance undertaking* were an *insurer* (other than a *pure reinsurer*), with its head office in the United Kingdom (whether it is or not)

*participation* means:

- (a) the holding of a participating interest within the meaning of section 421(2)411(2) of the *Act*; or
- (b) the holding, directly or indirectly, of 20% or more of the voting rights or capital;

*partnership pension society* means an unincorporated *friendly society*, which satisfies the following conditions –

- (a) the purpose of the society is to effect or carry out unit-linked contracts to pay annuities on human life, which are approved by the Commissioners of the Inland Revenue under Section 620 of the Income and Corporation Taxes Act 1988;
- (b) the assets of each member of the society are separately identifiable;
- (c) the assets of each member of the society are invested solely or primarily by him or in accordance with his instructions;
- (d) the value of each member of the society's assets is dependent entirely on the performance of those assets;
- (e) no member of the society has a contract which comprises, or includes, a cash guarantee; and
- (f) no member of the society has a contract which is an annuity in payment.

*permitted derivative contract*

(1) for a *directive friendly society*, means a *derivative or quasi derivative* which satisfies the requirements of *PRU 4.3*, with the exception of *PRU 4.3.18R*, as applied in relation to assets covering liabilities in respect of *linked long term contracts*, amended as follows:

- (a) in *PRU 4.3.5R* and *PRU 4.3.36R*, "For the purpose of *PRU 2 Ann 1R (Admissible assets in insurance)*" is replaced by "For the purposes of *IPRU (FSOC) rule 4.21* and Appendix 3";
- (b) in *PRU 4.3.6R (2)* and (3), *PRU 4.3.7R (1)* and (2), *PRU 4.3.17R (1)* and *PRU 4.3.36R (1)* "*admissible assets*" is replaced by "*permitted connected property*";
- (c) *PRU 4.3.12R (2)* and (3) are replaced by:

“(2) (where they are held to cover *index-linked liabilities*) might:

- (a) not be appropriate cover for those liabilities as required by *PRU 4.2.58R*; or
- (b) fall in value; and

(3) (where they are held to cover *property-linked liabilities*) might:

- (a) not be appropriately selected in accordance with contractual and constructive liabilities as required by *PRU 7.6.36R* and appropriate cover for those liabilities as required by *PRU 4.2.57R*; or
- (b) fall in value”.

(2) for a *non-directive incorporated friendly society*, means a *derivative contract* which:

- (a) is covered and –
  - (i) is held in connection with property of the type described in rule 4.22 for the purpose of reduction of investment risk or efficient portfolio management, or
  - (ii) has the effect of a *permitted derivative contract* held in connection with such property for such purpose; and
- (b) satisfies the conditions in 13(6) to 13(8) of Appendix 4 except that the references in 13 of Appendix 4 to "an asset for the valuation of which provision is made in this chapter" is construed as reference to *permitted connected property*;

*policyholder* has the meaning given in *IPRU(INS)*;

<del><i>pure reinsurer</i> has the meaning given in <i>IPRU(INS)</i>;</del>
<del><i>registered friendly society</i> means a <i>friendly society</i> registered within the meaning of the <i>1974 Act</i> by virtue of section 7(1)(a) of that Act or any <i>enactment</i> which it replaced, and includes any <i>registered branches</i> of the <i>friendly society</i>;</del>
<del><i>required margin of solvency</i> has the meaning given in rule 4.1.4.2</del>
<del><i>Second non-life Directive</i> means Council Directive 88/357/EEC of 22 June 1988 on the co-ordination of laws, regulations and administrative provisions relating to direct insurance other than life assurance and laying down provisions to facilitate the effective exercise of freedom to provide services and amending Directive 73/239/EEC;</del>
<del><i>Second life Directive</i> means Council Directive 90/619/EEC of 8 November 1990 on the co-ordination of laws, regulations and administrative provisions relating to direct life assurance, laying down provisions to facilitate the effective exercise of freedom to provide services and amending Directive 79/267/EEC;</del>
<del><i>SUP</i> means the Supervision Manual;</del>
<del><i>third non-life Directive</i> means Council Directive 92/49/EEC of 18 June 1992 on the co-ordination of laws, regulations and administrative provisions relating to direct insurance other than life assurance and amending Directives 73/239/EEC and 88/357/EEC;</del>
<del><i>third life Directive</i> means Council Directive 92/96/EEC of 10 November 1992 on the co-ordination of laws, regulations and administrative provisions relating to direct life assurance and amending Directives 79/267/EEC and 90/619/EEC;</del>
<del><i>UCITS Directive</i> means Council Directive 85/611/EEC of 20 December 1985 on the co-ordination of laws, regulations and administrative provisions relating to undertakings for collective investments in transferable securities;</del>
<del><i>UK insurer</i> has the meaning given in <i>IPRU(INS)</i>;</del>

## Appendix 1

### LONG-TERM INSURANCE BUSINESS MARGIN OF SOLVENCY

#### Long-term classes I and II

1. (1) For *long-term insurance business* of class I or II the required margin of solvency~~margin of solvency~~ must be determined by taking the aggregate of the results arrived at by applying the calculation described in (2) ("the first calculation") and the calculation described in (3), (4) and (5) ("the second calculation").

...

## Appendix 4

### ASSET VALUATION RULES

...

#### Assets to be taken into account only to a specified extent

15. (1) Subject to (2) to (6), the aggregate value of the assets of a *non-directive incorporated*~~directive-friendly~~ *society* as determined in accordance with the *asset valuation rules* must, for any of the purposes for which the *asset valuation rules* apply, be reduced by an amount representing the aggregate of:
  - (a) the amount by which the ~~friendly~~ *society* is exposed to assets of any description in excess of the *permitted asset exposure limit* for assets of that description;
  - (b) the amount by which the ~~friendly~~ *society* is exposed to a *counterparty* in excess of the *permitted counterparty exposure limit* for such *counterparty*;
  - (c) the amount by which the ~~friendly~~ *society* has an *excess concentration with a number of counterparties*;
  - (d) the value of any assets transferred to or for the benefit of the ~~friendly~~ *society* in pursuance of a condition in a *derivative contract* to which 13 does not apply or a related contract; and
  - (e) the value of any assets transferred to or for the benefit of the ~~friendly~~ *society* in pursuance of a contract whose effect is that of a *derivative contract* to which 13 does not apply or a related contract,as determined in accordance with Annex B.

- (2) Where a *non-directive incorporated friendly society* is exposed to assets of any description in excess of the *permitted asset exposure limit* for such assets, the reduction required to be made by (1)(a) must be made-
- (a) by deducting (as far as possible) the amount of the excess from the assets of that description held by the *friendly society* society; and
  - (b) where the *friendly society* society does not hold sufficient assets of that description to eliminate the excess (or does not hold any assets of that description) by making an appropriate deduction from the aggregate value of the assets which the *friendly society* society would otherwise be permitted to take into account for any of the purposes for which the *asset valuation rules* apply.
- (3) Where a *friendly society* society is required to make a reduction in accordance with (1) (b), (c), (d) or (e), the reduction must be made by making a deduction from the aggregate value of the assets which the *friendly society* society would otherwise be permitted to take into account for any of the purposes for which the *asset valuation rules* apply.
- (4) Where a *non-directive incorporated friendly society* carrying on *long-term insurance business* has attributed assets partly to a *long-term insurance business* fund and partly to its other assets, any reduction required to be made by this rule must be made in the same proportion as the attribution.

## FSC 1 – FORM 14 (Sheet 2)

### Returns under the Friendly Societies Prudential Rules

Long term insurance business liabilities and margins

Name of Society

Period ended 31 December

	Reg No	Units £/£000
	<input type="text"/>	<input type="text"/>

Category of assets/Total

**1** As at the end of the year

**2** As at the end of the previous year

Excess of the value of net admissible assets (Note 8)

51

Total liabilities and margins

59

Amount included in line 59 attributable to liabilities to associated bodies, other than those under contracts of insurance or re-insurance

61

Amount included in line 59 attributable to liabilities in respect of property linked benefits

62

Amount of any additional mathematical reserves included in line 51 which have been taken into account in the ~~appointed actuary's~~ certificate in Form 61B (Note 9)

63

## FSC 1 – Notes to Form 14

- 1** The entry at lines 11 and 19b must equal the sum of lines 21, 43, 44 and 45 of the corresponding Form or Forms 58.
- 2** The entry at line 12 must equal the total of line 42 of the corresponding Form or Forms 58.
- 3** The entry at line 13 must equal the total of line 49 of the corresponding Form or Forms 58.
- 4** The entry at line 14 must equal the total of line 59 of the corresponding Form or Forms 40.
- 5** The entry at line 19a must equal the entry at line 49 on Form 40B.
- 6** The entry at lines 19b and 19c must equal the sum of the entries at line 59 on Form 40C.
- 7** The entry at line 19d must equal the entry at line 69 on Form 40A.
- 8** The entry at line 51 must be:
  - (a) the value of the admissible assets (as included in line 89 of the appropriate Form 13) representing the long term insurance business funds, fund or group of funds to which the Form relates, less
  - (b) the amount of those funds, fund or group of funds, being the sum of the amounts shown at lines 14 and 49.
- 9** The entry at line 63 must be the amount specified in paragraphs (a)(ii) of the certificate in the appointed actuary's certificate (Form 61B), but only insofar as it relates to the fund, funds or group of funds to which this Form 14 relates.

<input type="text"/>	<input type="text"/>

I ~~We~~ certify that:

- (a) (i) ~~in my opinion~~, the information in this Return complies with the rules in IPRU(FSOC) and proper records have been kept by the society adequate for the purpose of the valuation of the liabilities of its long term insurance business;
- (ii) the sum of the mathematical reserves and the deposits received from reinsurers as shown in Form 14 together, if the case so requires, with £..... (being part of the excess of the value of the admissible assets representing the long term insurance business funds over the amount of those funds shown in Form 14) constitute proper provision at the end of the financial year for the long term insurance liabilities (including all liabilities arising from deposit back arrangements, but excluding liabilities which have fallen due before the end of the financial year) including any increase in those liabilities arising from a distribution of surplus as a result of any investigation as at that date into the financial condition of the long term insurance business; and
- (iii) for the purpose of sub-paragraph (ii) above the liabilities have been assessed in accordance with Appendix 5 in the context of assets valued in accordance with Appendix 4, as shown in Form 13;
- (iv) ~~in my opinion~~, premiums for contracts entered into during the financial year and income earned thereon are sufficient, on reasonable actuarial assumptions, and taking into account the other financial resources of the society that are available for the purpose, to enable the society to meet its commitments in respect of those contracts, and, in particular, to establish adequate mathematical reserves; and
- (v) ~~I have complied with the Institute of Actuaries and Faculty of Actuaries professional guidance notes listed below.~~  
In preparing this Return, we have taken and paid due regard to advice from every *actuary* appointed by the society to perform the *actuarial function* in accordance with SUP 4.3.13R
- (b) The amount of the required minimum margin of solvency applicable to the society's long term insurance business immediately following the end of the financial year (including any amounts resulting from any increase in liabilities arising from a distribution of surplus as a result of the investigation into the financial condition of the long term insurance business) is £.....
- (c) I ~~We~~ have the following additional comments (use extra pages).

### Annex 3

#### Part I

#### GUIDANCE ON SYSTEMS OF ACCOUNTING, CONTROL OF BUSINESS AND INSPECTION AND REPORT

1. This Part of the Annex sets out the key issues that the *FSA* considers the *committee* and the management of a *friendly society* need to address if the *friendly society's* systems are to satisfy the principle 3 of the *FSA* Principles for Business. That principle requires a *friendly society* to take reasonable care to organise and control its affairs responsibly and effectively, with adequate risk management systems. The *FSA* expects that these issues will have been considered by a *non-directive friendly society's committee* in preparing its reports under rule 3.1.
  
- 1A. ~~A *friendly society* may also wish to have regard to Guidance Note P.3 (Systems and Controls in Insurers) in *IPRU(INS)*. Some of the issues addressed in that Guidance Note are already covered in parts of this sourcebook. Where they are not covered, *friendly societies* should look to the Guidance Note. Not all of the Guidance Note is appropriate for smaller *friendly societies*.~~ ~~[deleted]~~

...

#### Part II

#### GUIDANCE ON SYSTEMS OF CONTROL OVER INVESTMENTS

1. This Part of the Annex provides guidance on the main elements of systems of control over investments in conjunction with Part I of this Annex which provides guidance on Systems of Accounting, Control of Business and Inspection and Report. A and B of this Part of the Annex include guidance of general application to *friendly societies*. C provides guidance to ~~*directive friendly societies*~~ which make use of *derivative contracts*.

...

#### **Applicable to ~~directive~~ non-directive incorporated friendly societies**

9. Rule 4.12(1) requires the assets backing insurance liabilities (other than in respect of *linked benefits*) for a *non-directive incorporated directive friendly society* to satisfy the following conditions:

- (a) “.....of appropriate safety, yield and marketability having regard to the *classes* of business carried on”; and
- (b) “..... investments are appropriately diversified and adequately spread and that excessive reliance is not placed on investments of any particular category or description”.
10. Rule 4.12(2) applies to the *linked long-term contracts* of a ~~directive society~~ *non-directive incorporated friendly society* for which liabilities are covered by the value of assets in an internal fund, or units in a collective investment in transferable *securities*, or by reference to a share index, or by assets of appropriate safety, yield and marketability which correspond, as nearly as may be, to the assets on which the reference value is based.
11. Rule 4.12(3) also applies in respect of the *linked long-term contracts* of a ~~directive society~~ *non-directive incorporated friendly society* and requires the society to secure that its liabilities under the contract in respect of *linked benefits* are covered by assets of a description specified in Appendix 3.
12. 15 of, and Annex B to, Appendix 4 **specify** the reductions that should be applied to the aggregate value of a ~~directive society~~ *non-directive incorporated friendly society*'s assets for the purposes of the determination of the society's *required margin of solvency* taking account, amongst other matters, of *permitted asset* and *counterparty exposure limits* and *excess concentration with a number of counterparties* (see 20 to 22).
13. ~~Rules 4.14 to 4.19, which apply to directive societies, set out the requirements for matching and localisation of assets. [deleted]~~

...

## **B – Systems of control**

### **Importance of adequate controls**

...

16. Additional considerations for ~~directive~~ *friendly societies* which make use of *derivative contracts* are included in C (see 31 and 32).

### **Investment policy - general**

17. It is important that the *committee* gives consideration to documenting the investment policy and takes the necessary steps to ensure that the current investment policy is being applied, and that there are systems of control which would result in the *committee* being consulted before any decision is made which may not be in accordance with the current policy. In establishing the policy a *committee* will need to take account of these rules, any requirements in the society's registered rules and advice from the ~~appointed or~~ appropriate actuary or from the person or persons appointed to perform the actuarial function.

...

## Investment policy of a ~~directive~~ non-directive incorporated society - exposure limits

20. The *committee* of a ~~directive~~ non-directive incorporated *friendly society* should consider whether to include limits in its investment policy on the following matters:
- (a) the society's *exposure* to particular assets, taking the provisions and limits in Annex B to Appendix 4 (see 12) into account; and
  - (b) the society's *exposure* to particular *counterparties* taking the limits in B2 of Annex B to Appendix 4 into account (see also 22).

...

## Exposure limits - additional considerations

23. The *committee* of a non-directive incorporated ~~directive~~ *friendly society*, particularly if it makes use of the powers under section 14 of the *1992 Act*, should consider whether, in addition to any policy limits arising from the *exposure* and concentration provisions in Annex B to Appendix 4 (see 20 to 22), internal policy limits for aggregate exposures to certain categories of assets should be included in the investment policy. The limits for certain categories of assets will need to take account, where applicable, of rule 4.12(1) (see 9). In addition the level of the society's free assets should be taken into account, bearing in mind the possibility that such assets might in future be needed to cover *insurance liabilities* or minimum margin of solvency.

...

## C - Additional considerations for controls over derivative contracts

31. 13 to 15 of, and Annex B to, Appendix 4 includes specific provisions with respect to *derivative contracts* and contracts or assets having the effect of *derivative contracts*. This includes provisions restricting those contracts which may be counted as assets for the purposes of determining a ~~directive~~ *friendly society's required margin of solvency*. Annex 7 refers to PRU 4.3 which discusses the valuation issues surrounding the use of derivative contracts. ~~Annex 7 refers to Guidance Note 4.2 in IPRU(INS) which discusses valuation issues surrounding the use of derivative contracts.~~ That Annex also draws attention to the need for the *committee* and management of a society which uses *derivative contracts* to have sufficient understanding of the nature and risks of the contracts it uses to ensure there are effective systems in place to monitor the use of derivatives.

...

## ANNEX 4

### GUIDANCE ON MARGINS OF SOLVENCY AND THE GUARANTEE FUND

...

- 4A. ~~Guidance Note 2.2 in IPRU(INS)~~ Guidance in PRU 2 Annex 2G (Guidance on applications for waivers relating to implicit items) ~~applies to~~ is relevant to

*friendly societies* applying for a waiver of rule 4.7(3) of *IPRU(FSOC)* under section 148 of the *Act* (Modification or waiver of rules).

- 4B. ~~Guidance Note 2.1 in *IPRU(INS)* (Hybrid capital: Admissibility for solvency) applies to *friendly societies* applying for a waiver of rules 4.7(2) or (4) of *IPRU(FSOC)* under section 148 of the *Act* (Modification or waiver of rules).[deleted]~~

...

### **Guarantee fund**

5. Rules 4.3 to 4.7 provide for the maintenance of the *guarantee fund*. The *guarantee fund* is generally one-third of the calculated *required margin of solvency*. For ~~*directive*~~ and *non-directive incorporated friendly societies*, the *guarantee fund* should be not less than the amount set out in rules 4.5 and 4.6 and this is known as the *minimum guarantee fund*.

...

- 8 There are some important modifications contained in Chapter 4 by way of relaxation of the requirements for *friendly societies* which are *non-directive registered friendly societies* in recognition of their different status or much smaller size. These modifications are:

(a) ...

(b) the requirement to have a *minimum guarantee fund* does not apply to a *non-directive friendly society* which is not incorporated (rule 4.4); and

(c) ~~the matching and localisation provisions in rules 4.14 to 4.19 apply only to *directive friendly societies* (rule 4.11); and [deleted]~~

(d) the limits placed on the extent to which certain assets may be taken into account in determining their value in the insurance fund apply only to *directive non-directive incorporated friendly societies* (15(1) of Appendix 4).

9. In addition to these modifications, the *FSA* has power under section 148 of the *Act* to direct that certain requirements do not apply to any particular *friendly society*, and there may be circumstances where the *minimum guarantee fund* may be varied in the case of certain *non-directive incorporated friendly societies*. ~~In addition, the increases to the *minimum guarantee fund* required by virtue of the Solvency I Directives (2002/12/EC and 2002/13/EC of 5 March 2002) from 1 January 2004 have not been applied to *non-directive incorporated friendly societies*.~~

10. ...

### **11.1 The requirements for the various categories are summarised below:**

#### **Life Directive Friendly Societies**

- 11.2 (1) ~~These would include any *friendly society* which carries on *long-term insurance business* where:~~

- (a) ~~its rules do not contain provision for calling up additional contributions, for reducing benefits or for claiming assistance from other persons who have undertaken to provide it; or~~
  - (b) ~~its annual contribution income from long term insurance business exceeded 5 million Euro for 3 consecutive years.~~
- (2) ~~Valuation is made annually and the rules in chapter 4 and rule 5.1 apply. [deleted]~~

### **Non-life Directive Friendly Societies**

- 11.3 (1) ~~Similarly, these would include any friendly society which carries on general insurance business where:~~
- (a) ~~its rules do not contain provision for calling up additional contributions or for reducing benefits; or~~
  - (b) ~~its annual contribution income from general insurance business in any previous year exceeded 5 million Euro.~~
- (2) ~~Valuation is made triennially and rules in chapter 4 (other than rules 4.5 — minimum guarantee fund and rule 4.12 — adequacy of premiums) and rule 5.2 apply [deleted]~~

...

### **Other non-directive Friendly Societies**

- 11.6.1.1(1) *Non-directive registered friendly societies* which have permission to carry on long-term or general insurance business are within the scope of rule 4.1 and are required to be valued triennially.

...

## **12.1 Resilience Test**

...

- 12.3 *Friendly societies* should, as a minimum, consider the scenario of a fall in the market value of equities of ~~the greater of~~ at least 10%, or, if greater, the lower of:
- (1) 25%, or such lower amount which would not produce a P/E ratio on the FTSE Actuaries All Share Index lower than 75% of the inverse of the long-term gilt yield (as defined in paragraph 10(9) of Appendix 5 of *IPRU(FSOC)*); and
  - (2) ~~40%.~~ 25% less any percentage reduction between the current FTSE Actuaries All Share Index and its average over the last 90 calendar days.

12.4 At the same time, *friendly societies* should make the assumption that the earnings yield on equities will fall by 10% (shortly after the above fall in equity values), but that dividends would remain unaltered when assessing the corresponding rate of interest at which the liabilities should be valued.

In 12.3(2), the current index should be compared to its recent average, based on levels at the close of business. Of the last 90 calendar days, only those on which the London Stock exchange was open for trading should be taken into account in determining the average. Where there has been a fall, such a percentage fall should be deducted from the 25% in arriving at this resilience test.

12.5 The ~~appointed actuary~~, actuary appointed to perform the *actuarial function* under the rules in *SUP* ~~in advising the friendly society~~, would then be expected to apply his or her own professional judgement in advising the management of the friendly society on ~~considering~~ the level of changes in the *market value* of, and yield on, other types of investment held by the society for the purpose of ~~this~~ the resilience test. The prudence concept should be paramount. Reductions in fixed interest yields, or changes in the shape of the yield curve, are among the obvious possibilities.

...

#### ~~Shares in and debts due from a related undertaking~~

13. ~~Annex C of Guidance Note 4.1 (Guidance for insurers and auditors on the Valuation of Assets Rules) in IPRU(INS) applies to friendly societies for the purposes of the valuation of shares held in and debts due, or to become due, from a related undertaking under paragraphs 3 and 4 of Appendix 4. [deleted]~~

## Annex 5

### GUIDANCE ON EXEMPTION FROM TRIENNIAL VALUATION

...

2 Rule 5.1 requires any *friendly society* with permission to carry on *long-term insurance business* which is-

(a) ~~a directive friendly society~~; or

(b) an *incorporated friendly society*,

to cause the ~~appointed actuary~~ appointed to perform the actuarial function under the rules in SUP to carry out an annual investigation into the *friendly society's* financial condition in respect of its *long-term insurance business*.

...

## Annex 7

### GUIDANCE ON THE USE OF DERIVATIVE CONTRACTS BY ~~DIRECTIVE~~ FRIENDLY SOCIETIES

#### Introduction

1. The main purpose of this Annex is to draw attention to the rules which cover whether a *derivative contract* has an admissible value which can count towards a *friendly society's* solvency margin. ~~Guidance Note 4.2 in IPRU(INS) applicable to insurers other than friendly societies discusses the valuation issues surrounding the use of derivative contract. The guidance it gives is also generally applicable to friendly societies.~~

#### Approved derivatives contracts

2. An *approved derivative contract*, if held by a ~~directive-friendly society~~ which maintains the *required margin of solvency*, in accordance with Part I of Chapter 4, may have an admissible value which can count towards a *friendly society's required solvency margin*. However, any *derivative contract* which is a liability to a *friendly society* (whether or not it falls within the definition of an *approved derivative contract* and is held for the purposes specified in 13 of Appendix 4) will count as a liability for solvency purposes.

...

#### Information for the FSA

4. A *friendly society* which proposes to make use of *derivative contracts* for the first time is asked to inform FSA staff of its proposals. Societies should note that they are likely to be strongly discouraged from using *derivative contracts* unless they can demonstrate robust systems and controls and a full understanding of the implications of the arrangement.

## **CONTENTS**

## Application

1.1 Insurers

1.2 The Society of Lloyd's

## ~~Restriction of business to insurance~~

1.3 ~~[deleted]~~

---

## Chapter 1

### ~~APPLICATION RULE AND RESTRICTION OF BUSINESS TO INSURANCE~~

---

## Application

### Insurers

1.1 An insurer must comply with *IPRU (INS)* unless it is –

(a) a *friendly society*<sup>1</sup>; or

(b) subject to ~~rule 3.5(3) (payment of financial penalties)~~ and rules 3.6 and 3.7 (application of rules to *linked long-term contracts*), an *EEA insurer* qualifying for authorisation under Schedules 3 or 4 to the *Act*.

The Society of Lloyd's<sup>2</sup>

1.2 No provisions of *IPRU (INS)* apply to the *Society of Lloyd's*, or members of the *Society of Lloyd's* except rules 9.37 and 9.38.

---

<sup>1</sup> A *non-directive friendly society* must comply with *IPRU(FSOC)*; a *directive friendly society* must comply with *PRU*; with Chapters 1, 2 and 3, 4 (rules 4.20 to 4.23 only), 5 (rule 5.1A only) 7, 8 and Appendix 3 of *IPRU(FSOC)*. Rule 5.1A of *IPRU(FSOC)* effectively applies most of Chapter 9 of *IPRU(INS)* to *directive friendly societies*, notwithstanding *IPRU(INS)* 1.1(a)

<sup>2</sup> *LLD* applies to the *Society*.

## **Restriction of business to insurance**

1.3 (1) ~~— An *insurer* must not carry on any commercial business in the United Kingdom or elsewhere other than *insurance business* and activities directly arising from that business.~~

### ~~In-house pension funds~~

(2) ~~— If an *insurer* manages assets of a pension fund solely for the benefit of—~~

(a) ~~— its ‘officers’ or ‘employees’; or~~

(b) ~~— its ‘officers’ or ‘employees’ and ‘officers’ or ‘employees’ of its *subsidiary* or *holding company* or a *subsidiary* of its *holding company*,~~

~~that activity is to be treated as directly arising from the *insurer’s insurance business*.~~

(3) ~~— **Officers** or **employees** include their dependants. [deleted]~~

---

Chapter 2 (Margins of solvency) is deleted

---

#### **CONTENTS**

##### **Part I - Identification and application of assets and liabilities**

3.1 Separation of assets and liabilities attributable to long-term insurance business

3.2 Application of assets of insurer with long-term insurance business

- 3.3 Allocations to policy holders
- 3.4 ~~Restriction on transactions with connected persons [deleted]~~
- 3.5 Arrangements to avoid unfairness between separate insurance funds, ~~source of funds~~  
for payment of financial penalties, etc

## **Part II - Linked long-term contracts**

- 3.6 Application
- 3.7 Linked long-term contracts

---

## **Chapter 3**

### **LONG-TERM INSURANCE BUSINESS**

---

#### **Part I**

#### **IDENTIFICATION AND APPLICATION OF ASSETS AND LIABILITIES**

##### **Separation of assets and liabilities attributable to long-term insurance business**

- 3.1 (1) ~~Where an insurer carries on ordinary long-term insurance business or industrial assurance business or both –~~
- ~~(a) — it must maintain a separate account in respect of each kind of business; and~~
  - ~~(b) — the receipts of each kind of business must be entered in the account maintained for that business and must be carried to and form a separate long-term insurance fund with an appropriate name. [deleted]~~
- (2) An insurer which carries on ordinary long-term insurance business or industrial assurance business must maintain such accounting and other records as are necessary for identifying -
- (a) the assets representing the ~~fund~~ long-term insurance fund maintained by it for that business ~~under (1)(b)~~ (but without necessarily distinguishing between the ~~funds or~~ funds if more than one); and
  - (b) the liabilities attributable to each kind of business which it carries on.

## Application of assets of insurer with long-term insurance business

### *Limitation on use of assets in long-term insurance fund*

- 3.2 ~~(1) Subject to (2) and (4), long-term insurance business assets must—~~
- ~~(a) be applied only for the purposes of its long-term insurance business; and~~
  - ~~(b) not be transferred so as to be available for other purposes of the insurer except where the transfer constitutes reimbursement of expenditure borne by other assets (in the same or the preceding financial year) in discharging liabilities wholly or partly attributable to long-term insurance business.~~

#### ~~First exception: the use of excess assets~~

- ~~(2) Where an actuarial investigation shows that the value of the assets mentioned in (1) exceeds the amount of the liabilities attributable to the long-term insurance business, the restriction imposed by that rule does not apply to so much of those assets as represents the excess.~~

#### ~~Qualification~~

- ~~(3) (2) does not authorise a transfer or other application of assets by virtue of an actuarial investigation at any time after the date when the abstract of the actuary's report of the investigation has been deposited with the FSA in accordance with rule 9.6(1).~~

#### ~~Second exception: exchanges at fair market value~~

- ~~(4) Nothing in (1) precludes an insurer from exchanging, at fair market value, long-term insurance business assets for other assets of the insurer.~~

#### ~~Further limitation on use of assets in long-term insurance fund~~

- ~~(5) Money from an insurer's long-term insurance fund must not be used for the purposes of any other business of the insurer notwithstanding any arrangement for its subsequent repayment out of the receipts of that other business. [(1) to (5) deleted]~~

#### ~~Restriction in relation to dividends~~

- ~~(6) A long-term insurer must not declare a dividend at any time when the value of the long-term insurance business assets, as determined in accordance with the Valuation of Assets Rules, PRU 1.3 and PRU 3.2 is less than the amount of the long-term insurance business liabilities technical provisions determined in accordance with the Determination of Liabilities Rules and any other~~

liabilities connected with the long-term insurance business.

...

### **Allocations to policy holders**

Allocation of established surplus

3.3 (1) ...

an *insurer* must not by virtue of ~~rule 3.2(2)~~ PRU 7.6.27R transfer or otherwise apply assets representing any part of the surplus mentioned in (a) unless the insurer has –

...

(7) (1) does not authorise the application for purposes other than those mentioned in ~~rule 3.2(1)~~ PRU 7.6.30R of assets representing any part of the surplus mentioned in (1)(a) which the *insurer* has decided to carry forward unappropriated; and for the purposes of (2) the amount of any surplus is treated as reduced by any part of it which the insurer has decided to carry forward unappropriated.

...

Restriction on transactions with connected persons

Rule 3.4 is deleted

3.4 [deleted]

3.5 **Arrangements to avoid unfairness between separate insurance funds, source of funds for payment of financial penalties, etc**

...

~~(3) Where the FSA imposes a financial penalty on a long-term insurer (including an insurer qualifying for authorisation under Schedules 3 or 4 to the Act), which is not a mutual, the insurer must not pay that financial penalty from a long-term insurance fund. [deleted]~~

### **Adequacy of premiums**

3.5A (1) ~~Before entering into a long-term insurance contract, a UK insurer must satisfy itself that the aggregate of~~

~~(a) — the premiums payable under the contract and the income which will be derived from them; and~~

~~(b) — any other resources of the *UK insurer* which are available for the purpose, will be sufficient, on reasonable actuarial assumptions, to meet all *commitments* arising under or in connection with the contract.~~

~~(2) — A *UK insurer* must not rely on other resources for the purposes of (1) — in such a way as to jeopardise its solvency in the long term. [deleted]~~

### Part I

#### DEPOSITS

##### ~~Making and amount of deposit~~

8.1 ~~(1) Subject to (2), a non-EEA insurer which has permission under the Act to carry on direct insurance business, other than a Swiss general insurer, must make and maintain a deposit in the United Kingdom with an approved credit institution which is no less than the minimum.~~

~~(2) Where~~

~~(a) the insurer carries on insurance business in the United Kingdom and one or more other EEA States; and~~

~~(b) the FSA and the appropriate supervisory authority or authorities in the EEA States have agreed that this rule should apply;~~

~~the insurer must make and maintain the deposit with such person as may be agreed between the FSA and the other authority or authorities.~~

~~[deleted]~~

### Part II

#### LOCATION OF ACCOUNTS AND RECORDS

8.2 ~~A non-EEA insurer which is not a Swiss general insurer must keep in the United Kingdom proper accounts and records in respect of insurance business carried on in the United Kingdom. [deleted]~~

### Part III

#### RULES APPLICABLE TO BRANCHES

8.3 ~~An insurer which has its head office outside the United Kingdom (other than a pure reinsurer which has a Treaty right under Schedule 4 to the Act, or a Swiss general insurer) must appoint and maintain the appointment of a chief executive (who alone or jointly with one or more others, is responsible for the conduct of its business through an establishment in the United Kingdom) and an authorised UK representative (who is resident in the United Kingdom and is authorised to act generally, and to accept service of any document, on behalf~~

of the *insurer* in the United Kingdom).

8.4 ~~A Swiss general insurer must appoint and maintain the appointment of an authorised UK representative as described above. [deleted]~~

8.5 ~~An insurer which has its head office outside the United Kingdom (other than a pure reinsurer which has a Treaty right under Schedule 4 to the Act) must be entitled to undertake insurance business under its national law. [deleted]~~

### FINANCIAL REPORTING

---

#### Part I

#### ACCOUNTS AND STATEMENTS

#### Application

- 9.1 These *Accounts and Statements Rules* apply to every *insurer* other than -
- (a) an *EEA-deposit insurer*, in relation to *insurance business* carried on by it outside the United Kingdom; or
  - ...
- Interpretation
- 9.2 ...
- (3) ...
  - (b) in relation to a *UK-deposit insurer*, to its entire *long-term insurance business* or to its entire *general insurance business* and to any *long-term insurance business* or *general insurance business* carried on by it through a branch in any *EEA State*,
- ...
- (ii) accounts prepared in respect of the *long-term insurance business* or the *general insurance business* carried on, in the case of an *external insurer*, by the branch in the United Kingdom and, in the case of a *UK-deposit insurer*, by the branches in question in the *EEA States* taken together.
- ...

#### **Half-yearly balance sheet and report for realistic valuation**

#### 9.3A

- (1) Every *long-term insurer* which is a *realistic basis life firm* must in respect of each *financial year* prepare **Forms 2, 18 and 19 of Appendix 9.1**, as at the end of the first six months of that *financial year*.

- (2) The Forms in (1) must be prepared in accordance with **Appendix 9.1**, and **Form 2** must be completed in respect of the *long-term insurance business* of the *firm* and **Forms 18 and 19** must be completed in respect of each of the *firm's with-profit funds*.
- (3) The Forms in (1) must be accompanied by a report (instead of the reports required under rule 9.4(1)(b)) identifying any changes to the methods and assumptions used from those set out in the report for the realistic valuation as at the end of the *preceding financial year* .
- (4) Rules 9.4, 9.6, 9.10, 9.11, 9.12, 9.33 and 9.34, **Appendices 9.1** and **9.4A** and **Part I of Appendix 9.6** apply to this rule and to any documents required under this rule as if –
- (a) an additional balance sheet were required under rule 9.3;
  - (b) the documents required by (1), and only those documents, were required by rule 9.12 for the purposes of the balance sheet in (a) above;
  - (c) an additional investigation were required under rule 9.4 in respect of the six-month period covered by this rule;
  - (d) any document required by (3) were a document required by rule 9.31(b) for the purposes of the investigation in (c) above;
  - (e) any reference to the *financial year in question* (however expressed) were a reference to the six-month period referred to in (1);
  - (f) any reference to the *preceding year* were a reference to the end of the *preceding financial year*;
  - (g) the required signatory in each case were any director of the *insurer*;
  - (h) any reference to a particular amount shown in a document not required under (1) or (3) were a reference to the amount which would be shown in that document (subject to any modifications in (a) to (f) above) in accordance with the *Accounts and Statements Rules* if that document were required to be produced; and
  - (i) any requirement (other than in this rule) to refer in the *return* or any certificate annexed to it by virtue of rule 9.34 to a document not required under (1) or (3) were omitted.
- (5) Instead of a valuation report under rule 9.31(a), the report referred to in (3) must include, in an additional numbered answer following the answers to the paragraphs in **Appendix 9.4A**–
- (a) a full description of each of the changes in the methods and assumptions used in the investigation for the purposes of rule 9.4(2)(a) and (b) since the previous investigation at the end of the *preceding financial year*; or

(b) if there has been no such change, a statement to that effect.

Rules 9.3, 9.5, 9.7, 9.13 to 9.30, 9.31, 9.32 and 9.35 to 9.39 do not apply in respect of the documents required under this rule.

### **Periodic actuarial investigation of long-term insurer**

- 9.4 (1) Every *long-term insurer* –
- (a) must, once in every period of 12 months, cause an investigation to be made into its financial condition in respect of its *long-term insurance business*, in accordance with the methods and assumptions determined by the insurer, by the person or persons who for the time being ~~is its appointed-actuary~~ are appointed to perform the actuarial function under the rules in *SUP*; and
  - (b) when such an investigation has been made, or when at any other time an investigation into the financial condition of the *insurer* in respect of its *long-term insurance business* has been made with a view to the distribution of profits, or the results of which are made public, must cause an abstract of the ~~appointed actuary's~~ report or reports of the investigation to be made.
- (2) An investigation to which (1)~~(b)~~ relates must include –
- (a) a determination of the liabilities of the *insurer* attributable to its *long-term insurance business*; ~~and~~
  - (b) a valuation of any excess over those liabilities of the assets representing the *long-term insurance fund* or *funds* and, where any rights of any long-term *policy holders* to participate in profits relate to particular parts of such a fund, a valuation of any excess of assets over liabilities in respect of those parts; and
  - (c) for every long-term insurer which is a realistic basis life firm, a calculation of the with-profits insurance capital component.
- (3) For the purposes of any investigation to which this rule applies, the value of any assets and the amount of any liabilities must be determined in accordance with ~~the Valuation of Assets Rules PRU 1.3, PRU 3.2 and the Determination of Liabilities Rules PRU 7.~~
- (4) The form and contents of any abstract under this rule must be in accordance with ~~the Accounts and Statements Rules~~ rule 9.31.

### **Audit of accounts**

9.5 (1) ...

(2) In (1), the reference to **accounts and balance sheets** includes a reference to any notes or statement or report annexed to them, save for -

(a) the *directors'* certificate annexed pursuant to rule 9.34, and

(b) Forms 46 to 47A, 50 to 55, 57 and 59.

#### **Deposit of accounts etc. with the FSA**

9.6 (1) ~~Subject to (1A), e~~Every 'account', 'balance sheet', abstract or statement required by rules 9.3, 9.4 and 9.36A and any report of the auditor of the *insurer* made in pursuance of rules 9.5 or 9.36E must be printed, and the 'required copies' must be deposited with the *FSA* within the periods set out in the table below.

	<b>deposit period following the <i>financial year end</i></b>	
<b><i>financial year ending on or after</i></b>	<b>where the deposit is made electronically or under rule 9.36A</b>	<b>otherwise</b>
31 December 2001	4 months	3 months and 15 days
31 December 2002 and following years	3 months	2 months and 15 days

~~(1A) For a *financial year* ending on a date from 31 December 2002 to 30 December 2003, the deposit periods for the 'required copies' of **Form 9A** set out in (1) are extended by 1 month.~~

...

#### **Value of assets and amount of liabilities**

9.10 Unless otherwise provided in the *Accounts and Statements Rules*, in the documents which an *insurer* is required to prepare in accordance with the *Accounts and Statements Rules* –

(a) the value or amount given for an asset ~~(other than a *linked asset* not required to be valued in accordance with the *Valuation of Assets Rules* by virtue of rule 4.1(2))~~ or a liability of the *insurer* is the value or amount of that asset or liability as determined in accordance with ~~the PRU 1.3 *Valuation of Assets Rules* and the *Determination of Liabilities Rules*~~ PRU

7 at the end of *the financial year in question*; and

- (b) ~~in the case of a *linked asset* of the *insurer* (other than a *linked asset* required to be valued in accordance with the *Valuation of Assets Rules* by virtue of rule 4.1), the value given is the value of that asset as determined in accordance with generally accepted accounting concepts, bases and policies or other generally accepted methods appropriate for *insurers*~~ no value shall be given to exposures in excess of the limits set out in PRU 3.2.22R (3);
- (c) notwithstanding (a) and (b) (but subject to the conditions set out in (d)), an *insurer* may, for the purposes of an *actuarial investigation*, elect to assign to any of its assets the value given to the asset in question in the books or other records of the *insurer*; and
- (d) the conditions referred to in (c) are that –
  - (i) the election does not enable the *insurer* to bring into account any asset that is not an *admissible asset*; and
  - (ii) the value assigned to the aggregate of the *insurer's* assets is not higher than the aggregate of the value of those assets as determined in accordance with (a) and (b), without taking advantage of (c).

...

### **Balance sheet**

- 9.12 (1) The balance sheet required to be prepared by an *insurer* under rule 9.3(1) must comply with the requirements of **Appendix 9.1** and must be in **Forms 1 to 3, 9 10 to 15 and 17 to 19** of that Appendix completed (as may be appropriate) as specified in (2) to (89).
- (2) **Form 9 1** must be completed by every *insurer* that carries on *general insurance business*, other than a *Swiss general insurer* or an *EEA-deposit insurer*.
  - (2A) **Form 9A 2** must be completed by every *long-term insurer*, other than an *EEA-deposit insurer* in respect of the ~~*long-term insurance business*~~ carried on by the insurer.
  - (3) **Form 10 3** must be completed by every *insurer* other than a *Swiss general insurer* or an *EEA-deposit insurer*.
  - (3A) **Form 10** must be completed by an *external insurer* (other than a *pure reinsurer*), an *EEA-deposit insurer* or a *Swiss general insurer*.
  - (4) **Forms 11 and 12** must be completed by every *insurer* which carries on *general insurance business*, other than a *Swiss general insurer* or an *EEA*

*deposit insurer and, except when the instructions for completion of **Forms 11 and 12** specify otherwise, by every insurer which carries on long-term insurance business.*

- (5) ...
- (a) ...
- (i) its total *long-term insurance business assets*; and
- (ii) the *long-term insurance business assets* appropriated by it in respect of each *long-term insurance fund* or, where such assets have been appropriated for a group of funds, those assets;
- (b) by every *insurer* in respect of its total assets other than *long-term insurance business assets*;
- (c) by every *external insurer* (other than a *pure reinsurer*) in respect of *long-term insurance business* or *general insurance business* carried on by it through a branch in the United Kingdom in respect of those assets which are -
- (i) deposited under ~~rule 8.1~~ PRU 7.6.54R,
- (ii) maintained in the United Kingdom, and
- (iii) maintained in the United Kingdom and the other *EEA States*; and
- (d) by every *UK-deposit insurer* in respect of *long-term insurance business* or *general insurance business* carried on by it through branches in the *EEA States* in respect of those assets which are -
- (i) deposited under ~~rule 8.1~~ PRU 7.6.54R,
- ...
- (6) **Form 14** must be completed by every *long-term insurer* in respect of -
- (a) its total *long-term insurance business liabilities* and margins; and
- (b) the *long-term insurance business liabilities* and margins for each *long-term insurance fund* or where *long-term insurance business assets*

group. have been appropriated in respect of a group of funds, for the *group*

...

- (9) **Forms 18 and 19** must be completed by every *long-term insurer* which is a realistic basis life firm, in respect of each of its *with profits funds*.

...

**Additional information on general insurance business (~~other than credit insurance business~~)**

- 9.22 (1) This rule applies to ~~Part II business~~ *non-credit insurance business* as defined in PRU 7.5.11R (1) and ~~Part III business~~ *credit insurance business* as defined in PRU 7.5.38R.

- (2) An ~~Part II insurer~~ to which PRU 7.5.11R to PRU 7.5.37G apply (unless PRU 7.5.18R applies) and an ~~Part III insurer~~ to which PRU 7.5.43R applies (unless PRU 7.5.44R applies) must, in accordance with the requirements of **Appendix 9.2**, prepare -

- (a) **Form 37**;
- (b) **Form 38** for business reported on **Forms 21, 22** and **23**; and
- (c) **Form 39** for business reported on **Forms 24** and **25**.

...

**Additional information on general insurance business: major treaty reinsurers**

9.25 ...

- (2) ...
- (b) in relation to which (whether alone or with any *company* which is 'connected' with the other *company*) the aggregate of the amounts referred to in (1)(d) and (f) exceeds the sum of 20,000 Euro and 5% of the insurer's liabilities arising from its general insurance business amount, net of reinsurance ceded.

## Additional information on general insurance business: major facultative reinsurers

9.26 ...

(2) ...

- (b) in relation to which, in respect of any *reinsurer* (a **major facultative reinsurer**) the aggregate of amounts in (1)(d) and (e) exceeds the sum of 4,000 Euro and 1% of the *insurer's* liabilities arising from its general insurance business ~~amount~~, net of reinsurance ceded.

...

## Additional information on derivative contracts

9.29 (1) Every *insurer* must, in respect of the *financial year in question*, annex to the documents referred to in rules 9.12, 9.13 and 9.14 a statement comprising a brief description of -

...

- (h) the circumstances surrounding the use of any '*derivative contract*' held at any time during the *financial year* which ~~did not fall within rule 4.12 (2)~~ required a 'significant' provision to be made for it under PRU 4.3.17R, or (where appropriate) did not fall within the definition of a permitted derivative contract; and

...

(1A) For the purposes of determining in accordance with (1)(h) whether a required provision is 'significant', the *insurer* must have regard to its obligations under the contract and the volatility of the assets identified by the *insurer* as being suitable to cover such obligations; and the required provision in respect of any one *derivative contract* must be treated as **significant** if –

- (a) the aggregate provision required in respect of all contracts having a similar effect is significant; or
- (b) the aggregate provision required in respect of all contracts with which it is connected is significant.

(2) In this rule, **derivative contract** includes a contract or asset which 'has the effect of a *derivative contract*' ~~within the meaning of rule 4.13~~ and, for the purposes of (1)(h), such a contract or asset must be treated as requiring a significant provision or falling within ~~rule 4.12(2)~~, ~~or~~ the definition of *derivative contract* which would require a significant permitted derivative contract, as appropriate, if it has the effect of a provision or fall within that provision definition.

(2A) Subject to (2C), for the purposes of (2), a contract has the effect of a *derivative contract* if it is a contract (other than a *derivative contract*) which provides, whether upon the exercise of a right by the *insurer* or otherwise –

(a) for payment (at any time) of amounts which are determined by fluctuations in –

(i) the value of property of any description;

(ii) an index of the value of property of any description;

(iii) income from property of any description; or

(iv) an index of income from property of any description;

(b) for delivery to or by the *insurer* of an asset other than any office machinery (including computer equipment), furniture, motor vehicles and other equipment; or

(c) for the conversion of an asset held by the *insurer* or another party to –

(i) an asset of a different type, or

(ii) a different asset of the same type.

(2B) Subject to (2C), for the purposes of (2) an asset has the effect of a *derivative contract* if the asset is an asset (other than an *approved security* or a unit, or other beneficial interest, in a scheme falling within the *UCITS Directive*) and the holding of the asset confers contractual rights or imposes contractual obligations to make or accept payment, delivery or conversion as set out in (2A)(a) to (c).

(2C) A contract or asset does not have the effect of a *derivative contract* by reason only that -

(a) it provides for the unconditional delivery of assets, or for the payment for unconditional delivery of assets, such delivery or payment to be made within a period commencing at the date of the contract and extending –

(i) in the case of a *listed security*, for the usual period for delivery or payment as determined by the rules of the stock exchange or *regulated market* on which the *securities* are *listed* or facilities for dealing have been granted, or

- (ii) in any other case, for no more than 20 working days;
  - (b) it is a contract for the conversion of currency in respect of which the conditions set out in (2D) have been satisfied; or
  - (c) it is a *stock lending* transaction which satisfies the conditions of *PRU 4.3.36R*.
- (2D) The conditions referred to in (2C)(b) are that –
- (a) the contract provides –
    - (i) for the conversion into another currency of an amount representing the sale of an asset which has, on the *relevant date*, been sold but not delivered, or
    - (ii) for the purchase of currency for the purpose of settling the purchase of an asset which has, on the *relevant date*, been purchased but not delivered;
  - (b) the conversion is to take place during a period which is –
    - (i) where the contract is in connection with the delivery of a *listed security*, a period commencing on the date of the contract and extending for the usual period of settlement as laid down by the rules of the relevant stock exchange or *regulated market*, or
    - (ii) where the contract is in connection with the delivery of any other asset, a period commencing on the date of the contract and extending for 20 working days thereafter; and
  - (c) the contract is *listed* or has been entered into with an *approved counterparty*.

...

**Periodic actuarial investigation Valuation reports on long-term insurance business**

- 9.31 Save in relation to (b), for the purposes of rule 9.4, *ordinary long-term insurance business* and *industrial assurance business* must be treated separately, and the Every insurer which carries on *long-term insurance business* must prepare and annex to the documents referred to in rules 9.12, 9.13 and 9.14 -

- (a) ~~for the purposes of rule 9.4 other than in relation to the calculation required by rule 9.4(2)(c), a valuation the abstract of the report of the appointed actuary on long-term insurance business which, – treating ordinary long-term insurance business and industrial assurance business separately, must comply complies with the requirements of **Appendix 9.4** and ~~must contain~~ the information ~~(together with such of Forms 46 to 49 and 51 to 58 as may be appropriate)~~ specified in that Appendix; and~~
- (b) ~~except in the case of an EEA deposit insurer, must also include Form 60 and, where appropriate, Form 61~~ for the purposes of rule 9.4 in relation to the calculation required by rule 9.4(2)(c) (if applicable), a valuation report for the realistic valuation which complies with the requirements of **Appendix 9.4A** and contains the information specified in that Appendix.

...

### Signature of documents

- 9.33 (1) In respect of any document relating to the *insurance business* of an *insurer*, wherever it may be carried on, the signatories for the purposes of rule 9.6 are -
- (a) ~~in any case –~~
- (i) ~~a) where there are more than two *directors* of the *insurer*, at least two of those *directors* and, where there are not more than two *directors*, all the *directors*, and~~
- (ii) ~~b) a chief executive, if any, of the *insurer* or (if there is no chief executive) the secretary, if any; and~~
- (b) ~~in the case of an abstract under rule 9.4, the actuary who made the investigation to which the abstract relates.~~
- (2) In respect of any document relating to *insurance business* carried on through a branch in the United Kingdom by a *Swiss general insurer*, an *EEA deposit insurer* or an *external insurer* or through branches in any *EEA State* (taken together) by a *UK deposit insurer*, the signatories for the purposes of rule 9.6(3) are -
- (a) ~~in any case –~~
- (i) ~~a) the authorised UK representative referred to in rule 8.3 or 8.4, as the case may be article 3(1)(a) of The Financial Services and Markets Act 2000 (Variation of Threshold Conditions) Order 2001 (2001/2507), and~~

- (~~ii~~ b) the chief executive appointed under rule 8.3 or, in the case of a *Swiss general insurer*, a person who alone or jointly with one of more others, is responsible for the conduct of its *insurance business* through the branch; ~~and~~

~~(b) in the case of an abstract under rule 9.4, the actuary who made the investigation to which the abstract relates.~~

### **Certificates by Directors**

9.34 There must be annexed to the documents referred to in rules 9.12, 9.13 and 9.14 ~~(a)~~ a certificate in accordance with the requirements of Part I of **Appendix 9.6** which must be signed by the persons required by rule 9.33 to sign the documents to which the certificate relates; ~~and~~

~~(b) in the case of an *insurer* which has at any time during the *financial year in question* carried on *long-term insurance business*, a certificate in accordance with the requirements of Part II of **Appendix 9.6** which must be signed by the *appointed actuary*.~~

### **Audit and auditor's report**

9.35 (1) The documents referred to in rules 9.12, 9.13 and 9.14, together with **Forms 40 to 45, 48, 49, 56, 58 and 60**, and every statement, analysis, ~~or~~ report ~~or~~ certificate annexed pursuant to rules 9.24 to 9.27, 9.29 and ~~9.31~~ 9.34(a) must be audited by a person, in accordance with the rules in *SUP*, who must make and annex to those documents a report in accordance with the requirements of Part ~~II~~ III of **Appendix 9.6**.

~~(1A) For the purposes of rule 9.5 and (1) and **Appendix 9.6**, to the extent that any document, form, statement, analysis or report to be audited under (1) contains amounts or information abstracted from the *actuarial investigation* performed pursuant to rule 9.4, the *insurer* must ensure that the auditor obtains and pays due regard to advice from a suitably qualified *actuary* who is independent of the *insurer*.~~

(2) ...

### **Information on ~~the appointed actuary~~ actuary who has been appointed to perform the with-profits actuary function**

9.36 (1) Subject to the provisions of this rule, there must be annexed to the documents referred to in rules 9.12, 9.13 and 9.14, with respect to every person who, at any time during the *financial year in question*, was the ~~appointed actuary~~ actuary who has been appointed to perform the *with-profits actuary function* ~~to~~ for the *insurer*, a statement of the following information -

(a) particulars of any *shares* in, or debentures of, ‘the *insurer*’ in which the *appointed* ‘actuary’ was ‘interested’ at any time during that year;

...

## **Part II**

### **ACCOUNTS AND STATEMENTS FOR A MARINE MUTUAL**

#### **Returns**

9.36A Subject to rules 9.36B, 9.36C, 9.36D and 9.36E and **Appendix 9.8**, a *marine mutual* may complete an abbreviated *return* which comprises –

- (1) **Forms 1, 3, 11 and 12**; and
- (2) **Forms M1 to M5 in Appendix 9.8**,

and, if so, rules 9.3 to 9.4, 9.12 to 9.28, 9.31 and 9.32 and 9.34 to 9.36 do not apply.

...

## **PART IV**

### **MATERIAL CONNECTED-PARTY TRANSACTIONS**

9.39 (1) If, during the *financial year in question*, an *insurer* has agreed to, or carried out, a *material connected-party transaction*, it must provide a brief description of that transaction by way of a supplementary note to **Form 20 (note 2007)** or **Form 40 (note 4009)**.

...

## **PART V**

### **GROUP CAPITAL ADEQUACY**

9.40 (1) Subject to (2), an *insurer* to which PRU 8.3 applies must, in respect of its *ultimate insurance parent undertaking* and its *ultimate EEA insurance parent undertaking* (if different), submit a report of:

- (a) the group capital resources of that undertaking (as calculated in accordance with PRU 8.3.36R); and
  - (b) the group capital resources requirement of that undertaking (as calculated in accordance with PRU 8.3.33R).
- (2) An insurer is not required to submit the report referred to in (1) where:
- (a) The insurer is an undertaking listed in PRU 8.3.17R (2); or
  - (b) under Article 4(2) of the Insurance Groups Directive, a competent authority of an EEA State other than the United Kingdom has agreed to be the competent authority responsible for exercising supplementary supervision in accordance with PRU 8.3.23R.
- (3) The report required in (1) must:
- (a) comply with the requirements of SUP 16.3;
  - (b) subject to (d), be signed by the persons described in IPRU(INS) 9.33(1);
  - (c) include a statement from the auditors of the insurer (or of an insurer under (d)) that, in their opinion, the report has been properly compiled in accordance with PRU 8.3 from information provided by members of the insurance group and from the insurer's own records; and
  - (d) be provided by either the insurer or on behalf of the insurer (the first insurer) by any other insurer to which PRU 8.3 applies and which is a member of the insurance group (the second insurer) where:
    - (i) it is signed by two directors of the second insurer, and
    - (ii) it contains a statement that it has been copied to the board of directors of the first insurer.

9.41 (1) Subject to (2), an insurer must include, in the report in rule 9.40(1), the details of any regulated related undertaking in the insurance group where the individual capital resources requirement of that undertaking exceeds its

solo capital resources, stating in each case:

- (a) where the undertaking in rule 9.41(1)(a) is a subsidiary undertaking of the ultimate insurance parent undertaking or ultimate EEA insurance parent undertaking (if different), the full amount of the calculation items set out in PRU 8.3.28R of that undertaking in accordance with PRU 8.3.30R and PRU 8.3.31R; or
  - (b) where the undertaking in rule 9.41(1)(a) is not a subsidiary undertaking, the ultimate insurance parent undertaking's or ultimate EEA insurance parent undertaking's relevant proportion, as set out in PRU 8.3.29R, of the calculation items set out in PRU 8.3.28R of that undertaking.
- (2) Subject to paragraph (4) an insurer can exclude a regulated related undertaking where the individual capital resources requirement of that undertaking exceeds its solo capital resources if:
- (a) the group capital resources of the ultimate insurance parent undertaking or the ultimate EEA insurance parent undertaking (as the case may be) exceed its group capital resources requirement;
  - (b) paragraph 3 applies to the regulated related undertaking.
- (3) This paragraph applies to a regulated related undertaking if:
- (a) in respect of the insurance group, it is not;
    - (i) the insurer; or
    - (ii) a parent undertaking of the insurer; or
    - (iii) a participating undertaking in the insurer; or
    - (iv) a related undertaking of the insurer; and
  - (b) the amount by which its individual capital resources requirement exceeds its solo capital resources does not exceed 5% of the amount that the group capital resources exceed the group capital resources requirement referred to in rule (2)(a)

(4) An insurer must include regulated related undertakings to which paragraph (2) would apply if the amount of D less E exceeds 10% of the amount that the group capital resources exceed the group capital resources requirement referred to in rule (2)(a), where:

(a) D is the sum of the individual capital resources requirements of the regulated related undertakings; and

(b) E is the sum of the solo capital resources of the regulated related undertakings.

9.42 (1) The report in rule 9.40(1) must include information and calculations required by 9.40 and 9.41:

(a) as at the end of the financial year of:

(i) the insurer; or

(ii) the ultimate EEA insurance parent undertaking; or

(iii) the ultimate insurance parent undertaking.

(b) subject to (2), as at the same date for every member of the insurance group to which the report relates. Where the financial year end of a member of the insurance group differs from the date chosen for the purposes of 1(a), interim calculations must be prepared for that member as at the date chosen for the purposes of 1(a); and

(c) as at a date no later than 12 months from the day after the end of the financial year by reference to which the information and calculations required in the report were last provided under this chapter or Chapter 10 of IPRU(INS).

(2) If it is not practical to prepare interim calculations for a member of the insurance group whose financial year end differs from the date chosen for the purposes of 1(a), calculations as at the member's last financial year end may be used, provided that:

(a) the member's financial year end is not more than three months

before the date chosen for the purposes of 1(a); and

- (b) the calculations are adjusted to take account of any changes between the *financial year* end and the date chosen for the purposes of 1(a) that materially affect the information and calculations required by rules 9.40 and 9.41.
- (3) If for any reason the end of the *financial year* chosen for the purposes of 1(a) is changed so as to end on a date later than that specified in 1(c):
  - (a) the report after the change takes effect must be as at the later date; but
  - (b) unless the report contains information and calculations that do not materially differ from what they would be as at the date specified in 1(c), the *insurer* must also provide the *FSA* with an interim statement.
- (4) The report in rule 9.40(1) must be provided to the *FSA* no later than 4 months from the end of:
  - (a) The *financial year in question*; or
  - (b) the *financial year* of the relevant parent, where the report is provided as at the end of its *financial year* under 1(a).

#### Guidance

- 9.43
- (1) An *insurer* may use Appendix 9.9 Form 95 for the purposes of the report required by rule 9.40(1).
  - (2) The report required by rule 9.40(1) does not form part of the *insurer's return*.
  - (3) Where several *insurers* to which rule 9.40 applies have the same *ultimate insurance parent undertaking* or *ultimate EEA insurance parent undertaking* or both, rule 9.40 applies to all of them. In these circumstances one *insurer* may submit the report in rule 9.40 on behalf of the other *insurers* in the *insurance group* as set out in rule 9.40(3)(d). This should consist of one package of the relevant information with confirmation that

the insurer submitting the information has made it available to the boards of directors of the other insurers in the insurance group. The purpose of this requirement is to ensure that all the insurers in the insurance group are aware of the relevance of the group information to themselves.

- (4) Where an insurance group consists of an ultimate insurance parent undertaking or ultimate EEA insurance parent undertaking which is itself an insurer whose head office is in the United Kingdom and which has a United Kingdom insurance subsidiary or subsidiaries which is or are themselves insurers, the report in rule 9.40 will cover the same group undertakings. The subsidiary insurer need not in these circumstances deposit the report in rule 9.40. However, this does not affect the requirement to provide information under rule 9.41.

#### **PART I**

#### **DEFINITIONS**

- 11.1 For the purposes of *IPRU (INS)*, the term or phrase in the first column has the meaning given to it in the second column unless the context otherwise requires.

Term or phrase	Definition
<i>1980 Regulations</i>	Insurance Companies (Accounts and Statements) Regulations (S.I. 1980 No. 6)

...

<i>Accounts Directives</i>	Council Directives 78/660/EEC for companies, 91/674/EEC for insurance companies, 86/635/EEC for banks and 83/349/EEC for consolidated accounts
<i>accumulating with-profits policy</i>	a <i>with-profits policy</i> which has a readily identifiable current benefit, whether or not this benefit is currently realisable, which is adjusted by an amount explicitly related to the amount of any premium payment and to which additional benefits are added in respect of participation in profits by additions directly related to the current benefit or a <i>policy</i> with similar characteristics
<i>Act</i>	Financial Services and Markets Act 2000
<i>admissible asset</i>	an asset which is not required by rule 4.1(3) to be left out of account for the purposes specified in rule 4.1(1) that falls into one or more categories in <i>PRU 2 Annex 1R</i>
<i>Amortised value</i>	the amortised value as determined in accordance with generally accepted accounting concepts, bases and policies or other generally accepted methods appropriate to <i>insurers</i>
<i>ancillary risk</i>	<p>(a) — in relation to an <i>insurer</i> with permission under the <i>Act</i> to insure a principal risk belonging to one <i>class</i> of <i>general insurance business</i>, means a risk included in another such <i>class</i> which is —</p> <ul style="list-style-type: none"> <li>—— connected with the principal risk,</li> <li>—— concerned with the object which is covered against the principal risk, and</li> <li>—— the subject of the same contract insuring the principal risk;</li> </ul> <p>(b) — but, the risks included in <i>classes</i> 14, 15 and 17</p>

	<p>may not be treated as risks ancillary to other <i>classes</i>;</p> <p>(e) — except, the risk included in <i>class 17</i> (legal expenses insurance) may be regarded as an ancillary risk of <i>class 18</i> where the conditions laid down in (a) are fulfilled and where the principal risk relates solely to assistance provided for persons who fall into difficulties while travelling, while away from home or while away from their permanent residence or where it concerns disputes or risks arising out of, or in connection with, the use of sea-going vessels</p>
<i>annuities on human life</i>	does not include superannuation allowances and annuities payable out of any fund applicable solely to the relief and maintenance of persons engaged or who have been engaged in any particular profession, trade or employment, or of the dependants of such persons
<i>appointed actuary</i>	the person appointed as actuary to an <i>insurer</i> under the rules in <i>SUP</i>
<i>approved counterparty</i> <sup>3</sup>	<p>any of the following—</p> <p>(a) — an <i>approved credit institution</i>;</p> <p>(b) — a person permitted under the <i>Act</i> to conduct investment business of a kind which includes entering into <i>unlisted derivative contracts</i> as principal; or</p> <p>(c) — in respect of a transaction involving a new issue of <i>securities</i> which are to be <i>listed</i>, the issuer or an <i>approved investment firm</i> acting on behalf of the issuer</p>
<i>approved credit institution</i>	an institution recognised or permitted under the law of an <i>EEA State</i> to carry on any of the activities set out in Annex 1 to the <i>Banking Co-ordination Directive</i> and, for the purposes of a <i>deposit</i> made before 1 December 2001, the Accountant General of the Supreme Court

<sup>3</sup> For guidance, see paragraph 3 of **Guidance Note 4.1**

<p><i>approved financial institution</i></p>	<p>any of the following—</p> <ul style="list-style-type: none"> <li>● <del>the European Central Bank;</del></li> <li>● <del>the central bank of an <i>EEA State</i>;</del></li> <li>● <del>the International Bank for Reconstruction and Development;</del></li> <li>● <del>the European Bank for Reconstruction and Development;</del></li> <li>● <del>the International Finance Corporation;</del></li> <li>● <del>the International Monetary Fund;</del></li> <li>● <del>the Inter-American Development Bank;</del></li> <li>● <del>the African Development Bank;</del></li> <li>● <del>the Asian Development Bank;</del></li> <li>● <del>the Caribbean Development Bank;</del></li> <li>● <del>the European Investment Bank;</del></li> <li>● <del>the European Community;</del></li> <li>● <del>the European Atomic Energy Community;</del></li> <li>● <del>the European Coal and Steel Community.</del></li> </ul>
<p><i>approved index</i></p>	<p>(a) an index which is -</p> <ul style="list-style-type: none"> <li>(i) calculated independently,</li> <li>(ii) published at least once every week,</li> <li>(iii) based on constituents, each of which is property falling within paragraphs (1) to (8) or (10) of Part I of <b>Appendix 3.2</b>, and</li> <li>(iv) calculated on a basis which is made available to the public and which includes both the rules for including and excluding constituents and the rules for valuation which must use an arithmetic average of the value of the constituents;</li> </ul> <p>(b) a national index of retail prices published by or under the authority of a government of a State belonging to Zone A as defined in the <i>Banking Co-ordination Consolidation Directive</i>; or</p>

	<p>(c) an index which is -</p> <p>(i) based on constituents, each of which is property falling within paragraphs (1) to (8) or (10) of Part I of <b>Appendix 3.2</b>, and</p> <p>(ii) in respect of which a <i>derivative contract</i> is listed</p>
<i>approved securities</i>	<p>any of the following -</p> <p>(a) any <i>securities</i> issued or guaranteed by, or the repayment of the principal of which, or the interest on which is guaranteed by, and any loans to or deposits with, any of the following, namely, any government, public or local authority or nationalised industry or undertaking, which belongs to Zone A as defined in the <i>Banking Co-ordination Consolidation Directive</i>;</p> <p>(b) any loan to, or deposit with, an <i>approved financial institution</i>; and</p> <p>(c) debentures issued prior to 31 December 1994 by the Agricultural Mortgage Corporation Ltd or the Scottish Agricultural Securities Corporation Ltd</p>
<del><i>assessable mutual</i></del>	<p><del>a mutual association—</del></p> <p><del>(a) where the <i>insurance business</i> carried on by the association is limited to the provision of insurance to its members; and</del></p> <p><del>(b) whose articles of association, rules or bye laws provide for the calling of additional contributions from members to meet claims</del></p>
<i>Asset Identification Rules</i>	the rules in Part I of Chapter 3
<i>authorised person</i>	a person who is authorised for the purposes of the <i>Act</i>
<i>AUTH</i>	<del>the Authorisation manual</del>

<i>available assets</i>	the excess of an <i>insurer's</i> assets (other than <i>implicit items</i> ) over its liabilities, in each case valued in accordance with the <i>Valuation of Assets Rules</i> and the <i>Determination of Liabilities Rules</i> and rule 2.10- <u>PRU 1.3</u> , <u>PRU 3.2</u> and <u>PRU 7</u>
<i>Banking Co-ordination Directive</i>	Council Directive of 20 March 2000, relating to the taking up and pursuit of the business of credit institutions (2000/12/EC)
<i>body corporate</i>	includes a body corporate constituted under the law of a country or territory outside the United Kingdom
<i>building society</i>	a building society within the meaning of the Building Societies Act 1986
<i>business amount</i>	(a) — for a company carrying on only <i>general insurance business</i> , the <i>general insurance business amount</i> ;  (b) — for a company carrying on only <i>long term insurance business</i> , the <i>long term insurance business amount</i> ; and  (c) — for a company carrying on both <i>general insurance business</i> and <i>long term insurance business</i> , in the case of its <i>general business assets</i> , the <i>general insurance business amount</i> and in the case of its <i>long term insurance business assets</i> , the <i>long term insurance business amount</i>
<i>business group</i>	a group comprising descriptions of <i>general insurance business</i> determined in accordance with rule 6.6
<i>business group maximum</i>	has the meaning given in Part III of <b>Appendix 6.1</b>
<i>charges for management</i>	amounts chargeable in respect of the management of an <i>internal linked fund</i> in accordance with the conditions of those <i>contracts of insurance</i> under which <i>property linked benefits</i> are linked to the value of the fund or units of the fund
<i>collective investment scheme</i>	has the meaning given in section 235 of the <i>Act</i>

<i>commission payable</i>	in relation to <del>long-term insurance business</del> , the amounts recorded during a <i>financial year</i> of the <i>insurer</i> as due to <del>intermediaries and cedants</del> in respect of the <i>inception</i> , amendment or renewal of <i>contracts of insurance</i> , whether or not paid during that year
<i>company</i>	(a) for the purposes of the <i>Accounts and Statements Rules</i> means an <i>insurance undertaking</i> ; and  (b) <del>otherwise for the purposes of the <i>Valuation of Assets Rules</i> and the <i>Determination of Liabilities Rules</i></del> , includes any <i>body corporate</i>

<i>EEA insurer</i>	an <i>insurer</i> , other than a <i>pure reinsurer</i> or a <i>non-directive insurer</i> , whose head office is in any <i>EEA State</i> except the United Kingdom and which has received authorisation under article 6 of the <i>First Life Directive</i> or of the <i>First Non-Life Directive</i> from its home state regulator
<i>EEA insurance parent undertaking</i>	an <i>insurance parent undertaking</i> that has its head office in the United Kingdom or another <i>EEA State</i>
<i>EEA margin of solvency</i>	the <i>margin of solvency</i> of an <i>insurer</i> computed by reference to the assets and liabilities of the business carried on by the <i>insurer</i> in <i>EEA States</i> (taken together) in accordance with rule 2.4(2)(b)
<i>EEA State</i> <sup>4</sup>	a State which is a contracting party to the agreement on the European Economic Area signed at Oporto on 2 May 1992 as it has effect for the time being
<i>equalisation reserve</i>	a reserve to be maintained under the <i>Equalisation Reserves Rules</i>
<i>Equalisation Reserves Rules</i>	the rules in Chapter 6
<i>equity share capital</i>	in relation to a <i>company</i> , its issued <i>share capital</i> excluding any part which, neither as respects dividends nor as respects capital, carries any right to participate beyond a specified amount in a distribution
<i>excess concentration with a number of counterparties</i>	is determined in accordance with paragraph 17 of <b>Appendix 4.2</b>
<i>exposure</i>	(a) — in relation to assets, means an amount determined in accordance with rule 4.14 and paragraphs 4 to 11A of <b>Appendix 4.2</b> ; and  (b) — in relation to a <i>counterparty</i> , means an amount terminated in accordance with rule 4.14 and paragraphs 13 to 15A of <b>Appendix 4.2</b>
<i>external insurer</i>	an <i>insurer</i> whose head office is outside the United

<sup>4</sup> These comprise the 15 EU states (ie the United Kingdom, Portugal, Spain, France, Italy, Ireland, Belgium, Luxembourg, the Netherlands, Denmark, Germany, Greece, Austria, Sweden and Finland) plus Norway, Iceland and Liechtenstein.

	Kingdom, other than an <i>EEA-insurer</i> , a <i>Swiss general insurer</i> or an <i>insurer</i> to which rule 8.1(2) applies <u>UK- or EEA-deposit insurer</u> .
<i>financial year</i>	(a) — for the purposes of the <i>Equalisation Reserves Rules</i> , a period of account; and  (b) — for all other purposes, each period at the end of which the balance of the accounts of the <i>insurer</i> is struck or, if no such balance is struck, the calendar year
<i>firm</i>	an <i>authorised person</i>
<i>first calculation</i>	in relation to the <i>Margins of Solvency Rules</i> , is the calculation described in rules 2.5(1) and (2)
<i>First Life Directive</i>	Council Directive (79/267/EEC) of 5 March 1979 on the coordination of laws, regulations and administrative provisions relating to the taking up and pursuit of the business of direct life assurance
<i>First Non-Life Directive</i>	Council Directive (73/239/EEC) of 24 July 1973 on the coordination of laws, regulations and administrative provisions relating to the taking up and pursuit of the business of direct insurance other than life insurance
<i>fixed interest securities</i>	<i>securities</i> which under their terms of issue provide for fixed amounts of interest
<i>friendly society</i>	an <i>incorporated friendly society</i> or <i>registered friendly society</i>
<i>futures contract</i>	a contract for the sale or delivery of a commodity or property of any other description under which delivery is to be made at a future date and at a price agreed on when the contract is made
<i>FSA</i>	Financial Services Authority
<i>general insurance business</i>	the business of effecting or carrying out <i>general insurance contracts</i>
<i>general insurance business amount</i>	is the higher of—  (a) — the total of:

	<p>(i) — <del>the insurer's insurance liabilities (net of reinsurance ceded) in respect of general insurance business less debts –</del></p> <p style="padding-left: 40px;">(A) — <del>which are due from dependants to which paragraph 11C of Part I of Appendix 4.2 relates;</del></p> <p style="padding-left: 40px;">(B) — <del>which are not reinsurance which has already been netted off the insurer's insurance liabilities; and</del></p> <p style="padding-left: 40px;">(C) — <del>which are included in general insurance business assets;</del></p> <p style="padding-left: 40px;"><del>which amount is to be zero where the debts are greater than the insurer's insurance liabilities; and</del></p> <p>(ii) — <del>an amount equal to whichever is the greater of 400,000 Euro or 20% of the general premium income; or</del></p> <p>(b) — <del>such other amount as the insurer may select not exceeding:-</del></p> <p style="padding-left: 40px;">(i) — <del>the value of its general insurance business assets as determined in accordance with the Valuation of Assets Rules;</del></p> <p style="padding-left: 40px;">(ii) — <del>excluding debts due from dependants to which paragraph 11C of Part I of Appendix 4.2 relates and reinsurance recoveries; and</del></p> <p style="padding-left: 40px;">(iii) — <del>less debts due to dependants of the insurer included in general insurance business liabilities (excluding reinsurance recoveries, other than amounts due or that relate to claims already paid by the dependant) except that for a dependant to which paragraph 11C of Part I of Appendix 4.2 does not relate, the amount deducted will not exceed the dependant's surplus assets (or proportional share)</del></p>
--	--

<i>general insurance business assets, and general insurance business liabilities</i>	respectively assets and liabilities of an <i>insurer</i> which are not <i>long-term insurance business assets</i> or <i>long-term insurance business liabilities</i>
<i>general insurance contract</i>	any <i>contract of insurance</i> falling within Part I of <b>Annex 11.2</b>
<i>general insurer</i>	an <i>insurer</i> whose business includes effecting or carrying out <i>general insurance contracts</i>
<i>general policy</i>	a policy evidencing a contract the effecting or carrying out of which constitutes the carrying on of <i>general insurance business</i>
<i>general premium income</i>	in any year, the net amount, after deduction of any premiums payable for <i>reinsurance</i> , of the premiums receivable in that year in respect of all <i>insurance business</i> other than <i>long-term insurance business</i>
<i>gross premiums</i>	in relation to an <i>insurer</i> and a <i>financial year</i> —  (a) — means premiums after deduction of discounts, refunds and rebates of premium but before deduction of premiums for <i>reinsurance ceded</i> and before deduction of <i>commission payable</i> by the <i>insurer</i> ; and  (b) — includes premiums receivable by the <i>insurer</i> under <i>reinsurance</i> contracts accepted by the <i>insurer</i>
<i>gross premiums earned</i>	in respect of a <i>financial year</i> , such proportion of <i>gross premiums written</i> or <i>gross premiums receivable</i> , as the case may be, as is attributable to risk borne by the <i>insurer</i> during that <i>financial year</i> .
<i>gross premiums written</i>	the amounts required by the <i>insurance accounts rules</i> to be shown in the <i>profit and loss account</i> of a <i>company</i> at general business technical account item I.1.(a), or for <i>class IV insurance business</i> , at <i>long-term business</i> technical account item II.1(a).

<i>group undertaking</i>	any of:  (a) — the <i>insurer</i> ;  (b) — its <i>related undertakings</i> ;  (c) — its <i>participating undertakings</i> ; and  (d) — the <i>related undertakings</i> of its <i>participating undertakings</i>
<i>guarantee fund</i>	has the meaning given in rule 2.9
<i>holding company</i>	is construed in accordance with section 736 of the <i>Companies Act</i> or Article 4 of the <i>1986 Order</i>
<i>hybrid linked contract</i>	<del>a contract of insurance</del> the effecting of which constitutes the carrying on of <i>long term insurance business</i> and which contains an option such that at some future time the contract may, according to how such option is exercised, constitute either a <i>linked contract</i> or a <i>non-linked contract</i>
<i>implicit item</i>	has the meaning given in rule 2.10(5)
<i>incorporated friendly society</i>	a society incorporated under the Friendly Societies Act 1992
<i>index linked benefits</i>	<del>benefits—</del>  (a) — provided for under a <i>linked long-term contract</i> ; and  (b) — determined by reference to an index of the value of property of any description (whether specified in the contract or not)
<i>index linked contract</i>	a <i>linked long-term contract of insurance</i> conferring <i>index-linked benefits</i>
<i>index linked liabilities</i>	<i>insurance liabilities</i> in respect of <i>index-linked benefits</i>

<i>industrial and provident society</i>	a society registered or deemed to be registered under the Industrial and Provident Societies Act 1965 or the Industrial and Provident Societies Act (Northern Ireland) 1969
<i>insurance accounts rules</i>	Schedule 9A to the <i>Companies Act</i> and Schedule 9A to the <i>1986 Order</i> for the preparation of accounts by <i>insurance undertakings</i>
<i>Insurance Accounts Directive</i>	Council Directive 91/674/EEC of 19 December 1991 on annual accounts and consolidated accounts of insurance undertakings
<i>insurance business</i>	the business of effecting or carrying out <i>contracts of insurance</i> as principal
<i>insurance group</i>	an <i>insurance parent undertaking</i> and its <i>related undertakings</i> that are—  (a) — <i>insurance undertakings</i> ; or  (b) — <i>insurance holding companies</i>
<i>Insurance Groups Directive</i>	Directive of the European Parliament and of the Council of 27 October 1998 on the supplementary supervision of insurance undertakings in an insurance group (1998/78/EC)
<i>insurance holding company</i>	an undertaking whose main business is to acquire and hold <i>participations in subsidiary undertakings</i> , where those <i>subsidiary undertakings</i> are exclusively or mainly <i>insurance undertakings</i>
<i>insurance liabilities</i>	amounts calculated in accordance with the <i>Determination of Liabilities Rules-PRU 1.3 (Valuation)</i> in respect of those items shown at C and D under the heading ‘Liabilities’ set out in paragraph 9 of the <i>insurance accounts rules</i>
<i>insurance parent undertaking</i>	in relation to an <i>insurer</i> , is a <i>parent undertaking</i> of that <i>insurer</i> which is either itself an <i>insurance undertaking</i> or an <i>insurance holding company</i>
<i>insurance undertaking</i>	an undertaking, whether or not an <i>insurer</i> , which carries on <i>insurance business</i>

<i>insurer</i>	a <i>firm</i> with permission under the <i>Act</i> to effect or carry out <i>contracts of insurance</i> , other than a bank
<i>intermediary</i>	a person who in the course of any business or profession invites other persons to make offers or proposals or to take other steps with a view to entering into <i>contracts of insurance</i> with an <i>insurer</i> , other than a person who only publishes such invitations on behalf of, or to the order of, some other person
<i>Investment Services Directive</i>	Council Directive of 10 May 1993 on investment services in the securities field (93/22/EEC)
<i>IPRU (INS)</i>	Interim Prudential Sourcebook for Insurers
<i>IPRU (FSOC)</i>	Interim Prudential Sourcebook for Friendly Societies
<i>issuer</i>	in respect of a <i>collective investment scheme</i> , means the manager or operator of the scheme and in respect of an interest in a limited partnership, means the partnership
<i>leading insurance undertaking</i>	in relation to a <i>relevant co-insurance operation</i> , means an <i>insurance undertaking</i> which—  (a) — is recognised as the leading insurance undertaking by the other <i>insurance undertakings</i> involved in the operation; and  (b) — determines the terms and conditions of insurance for the operation
<i>linked long-term contract</i>	a contract of the kind described in rule 2.3(4), and  linked contract and non-linked contract are construed accordingly
<i>LLD</i>	the Lloyd's Sourcebook
<i>localisation</i>	existence of assets, whether moveable or immovable, in a State
<i>long-term insurance business</i>	the business of effecting or carrying out <i>long-term insurance contracts</i>

<i>long-term insurance business amount</i>	<p>is the higher of—</p> <p>(a) — the total of—</p> <p style="padding-left: 40px;">(i) — the <i>insurer's insurance liabilities</i> in respect of <i>long-term insurance business</i> (net of <i>reinsurance ceded</i>) and the amount of any deposit back under a <i>deposit back arrangement</i> in relation to a contract of <i>reinsurance</i> in respect of <i>long-term insurance business</i>;</p> <p style="padding-left: 80px;">(A) — <i>excluding property linked liabilities</i>, and</p> <p style="padding-left: 80px;">(B) — less the amount of any <i>debt</i>, that is a <i>long-term insurance business asset</i> (excluding <i>reinsurance</i> that has already been netted off the <i>insurer's insurance liabilities</i>), due from a <i>dependant</i> to which paragraph 11C of Part I of Appendix 4.2 relates, and</p> <p style="padding-left: 80px;">(C) — less the amount of any <i>implicit item</i> valued in accordance with a waiver under section 148 of the <i>Act</i>,</p> <p style="padding-left: 40px;">adjusted to zero where the result is negative; and</p> <p style="padding-left: 40px;">(ii) — the amount of the <i>required margin of solvency</i> for its <i>long-term insurance business</i> (or the amount of the <i>minimum guarantee fund</i> if greater) determined in accordance with rules 2.5 to 2.9 and 2.4(3) (or, in the case of an <i>insurer</i> whose head office is not in the United Kingdom, that amount which would apply if its head office were in the United Kingdom) or</p> <p>(b) — such other amount as the <i>insurer</i> may select not exceeding the value of its assets valued in accordance with the <i>Valuation of Assets Rules</i>:</p>
--	---

(i) — ~~excluding:~~

(A) — ~~reinsurance recoveries;~~

(B) — ~~assets required to match property linked liabilities;~~

(C) — ~~debts due from dependants of the insurer to which paragraph 11C of Part I of Appendix 4.2 relates; and~~

(D) — ~~if the insurer is a general insurer, general insurance business assets, and~~

(ii) — ~~less:~~

(A) — ~~if the insurer is a general insurer, debts due to dependants of the insurer included in long-term insurance business liabilities (excluding reinsurance recoveries (other than amounts due or that relate to claims already paid by the dependant)), or~~

(B) — ~~if the insurer is not a general insurer, debts due to dependants of the insurer (excluding reinsurance recoveries (other than amounts due or that relate to claims already paid by the dependant)),~~

~~but for the purposes of (ii) above, for dependants to which paragraph 11C of Part I of Appendix 4.2 does not relate, the amount deducted will not exceed the dependant's surplus assets (or proportional share);~~

~~except that for the purposes of determining the permitted asset exposure limit under paragraph 2 of Part 1 of **Appendix 4.2**, index linked liabilities must also be excluded from (a)(i) and assets~~

	required to match such liabilities must be also excluded from (b)
<del>long-term insurance business assets, and long-term insurance business liabilities</del>	respectively assets of an <i>insurer</i> which are, for the time being, identified as representing the <i>long-term insurance fund or funds</i> , and liabilities of an <i>insurer</i> arising under or in connection with its <i>long-term insurance business</i> , including arising from <i>deposit back arrangements</i>
<del>long-term insurance contract</del>	any <i>contract of insurance</i> falling within <b>Annex 11.1</b>
<del>long-term insurance fund</del>	a fund maintained under rule 3.1
<del>long-term insurer</del>	an <i>insurer</i> whose business includes effecting or carrying out <i>long-term insurance contracts</i>
<del>majority shareholder controller</del>	a <i>shareholder controller</i> whose shareholding is such that the <i>insurer</i> is his <i>subsidiary undertaking</i>
<del>margin of solvency</del>	is the excess of the value of assets over the amount of liabilities, that value and amount being determined in accordance with the <i>Valuation of Assets Rules</i> , the <i>Determination of Liabilities Rules</i> and rule 2.10
<del>Margins of Solvency Rules</del>	the rules in Chapter 2
<del>market value</del>	in Appendix 3.2 the market value as determined in accordance with generally accepted accounting concepts, bases and policies or other generally accepted methods appropriate to <i>insurers</i>
<del>material connected-party transaction</del>	a <i>connected-party transaction</i> for which (together with any similar transactions): <ul style="list-style-type: none"> <li>(a) the price actually paid or received for the transfer of assets or liabilities or the performance of services; or</li> <li>(b) the price which would have been paid or received had that transaction been negotiated at arm's length between unconnected parties,</li> </ul>

	<p>exceeds:</p> <p>(c) in the case of an <i>insurer</i> that carries on either <del><i>general insurance business or long-term insurance business</i></del>, but not both, 5% of the <del><i>general insurance business amount or long-term business insurance amount</i></del>, as applicable – <u><i>long-term insurance business</i></u> but not <u><i>general insurance business</i></u>, 5% of the <u><i>insurer's liabilities arising from its long-term insurance business, excluding property-linked liabilities and net of reinsurance ceded</i></u>; or</p> <p>(d) in the case of an <i>insurer</i> that carries on <u><i>general insurance business</i></u>, but not <u><i>long-term insurance business</i></u>, the sum of Euro 20,000 and 5% of the <u><i>insurer's liabilities arising from its general insurance business, net of reinsurance ceded</i></u>; or</p> <p><del>(d)</del>(e) in the case of an <i>insurer</i> that carries on both types of business either –</p> <p>(i) 5% of the <del><i>long-term insurance business amount</i></del> of the <u><i>insurer's liabilities arising from its long-term insurance business, excluding property-linked liabilities, net of reinsurance ceded</i></u> where the transaction is in connection with the <u><i>insurer's long-term insurance business</i></u>, or</p> <p>(ii) in other cases, <u>the sum of Euro 20,000 and 5% of the <i>insurer's liabilities arising from general insurance business net of reinsurance ceded</i> 5% of the <i>general insurance business amount</i></u></p>
<i>maximum reserve</i>	For the purposes of the <i>Equalisation Reserves Rules</i> , the aggregate value of the <i>business group maxima</i> calculated in accordance with Part III of <b>Appendix 6.1</b>
<i>the minimum</i>	in relation to a <i>deposit</i> , means one half of the <i>minimum guarantee fund</i> appropriate to the <i>margin of solvency</i> which the <i>insurer</i> is required to maintain under rule 2.1(2)(b) or 2.1(3)(e)

<i>minimum-guarantee fund</i>	has the meaning given in rule 2.9
<i>mutual</i>	An <i>insurer</i> which—  (a) — if it is a <i>body corporate</i> has no share capital; or  (b) — a <i>registered society</i>
<i>net claims incurred</i>	in respect of a <i>financial year</i> means <i>claims</i> arising from incidents occurring during that <i>financial year</i> (including direct <i>claims</i> handling expenses), net of <i>reinsurance</i> and other recoveries but excluding <i>claims management costs</i>
<i>net claims paid</i>	in respect of a <i>financial year</i> means <i>claims</i> paid during that <i>financial year</i> (including direct <i>claims</i> handling expenses), net of <i>reinsurance</i> and other recoveries but excluding <i>claims management costs</i> , regardless of whether incidents giving rise to such <i>claims</i> occurred during that <i>financial year</i> or any preceding <i>financial year</i>
<i>net operating expenses</i>	the net amount paid in a <i>financial year</i> in respect of commissions, other acquisition expenses, administrative expenses, <i>reinsurance</i> commissions and profit participations
<i>net premiums earned, and net premiums written</i>	respectively, <i>gross premiums earned</i> , net of <i>reinsurance</i> premiums earned and <i>gross premiums written</i> , net of <i>reinsurance</i> premiums payable under <i>reinsurance ceded</i>
<i>non-directive insurer</i>	(1) — an <i>insurer</i> whose <i>insurance business</i> is restricted to the provision of benefits which vary according to the resources available and in which the contributions of the members are determined on a flat-rate basis;  (2) — an <i>insurer</i> whose <i>long-term insurance business</i> is restricted to the provision of benefits for employed and self-employed persons belonging to an undertaking or group of undertakings, or a trade or group of trades, in the event of death or survival or of discontinuance or curtailment of activity (whether or not the <i>commitments</i> arising from such operations are fully covered at all times)

	<p>by <i>mathematical reserves</i>);</p> <p>(3) — an <i>insurer</i> which undertakes to provide benefits solely in the event of death where the amount of such benefits does not exceed the average funeral costs for a single death or where the benefits are provided in kind;</p> <p>(4) — a <i>mutual</i> (carrying on <i>long term insurance business</i>) —</p> <p>(a) — whose articles of association contain provisions for calling up additional contributions from members or reducing their benefits or claiming assistance from other persons who have undertaken to provide it; and</p> <p>(b) — whose annual <i>gross premium</i> income (other than from contracts of <i>reinsurance</i>) has not exceeded 5 million Euro for each of the <i>financial year in question</i> and the two <i>previous financial years</i>;</p> <p>(5) — a <i>mutual</i> (carrying on <i>general insurance business</i>) whose —</p> <p>(a) — articles of association contain provisions for calling up additional contributions from members or reducing their benefits;</p> <p>(b) — business does not cover liability risks, other than <i>ancillary risks</i>, or credit or suretyship risks;</p> <p>(c) — <i>gross premium</i> income (other than from contracts of <i>reinsurance</i>) for the <i>financial year in question</i> did not exceed 5 million Euro; and</p> <p>(d) — members provided at least half of that <i>gross premium</i> income;</p> <p>(6) — an <i>insurer</i> whose <i>insurance business</i> (other than <i>reinsurance</i>) is —</p>
--	--

	<p>(a) <del>restricted to the provision of assistance for persons who get into difficulties while travelling, while away from home or while away from their permanent residence;</del></p> <p>(b) <del>carried out exclusively on a local basis and consists only of benefits in kind; and</del></p> <p>(c) <del>such that the gross premium income from the provision of assistance in the financial year in question did not exceed 200,000 Euro; or</del></p> <p>(7) <del>a mutual whose liabilities in respect of general insurance contracts are fully reinsured with or guaranteed by other mutuals (including friendly societies); and</del></p> <p><del>whose insurance business is limited to that described in paragraphs (1) to (7)</del></p>
<i>non-EEA insurer</i>	An insurer, other than a pure reinsurer, whose head office is not in an EEA State
<i>non-linked contract</i>	see <i>linked long-term contract</i>
<i>notional group solvency margin</i>	<p>in relation to an <i>ultimate insurance parent undertaking</i> or an <i>ultimate EEA insurance parent undertaking</i>, the sum of:</p> <p>(a) <del>the notional required minimum margin (if any) of that parent; and</del></p> <p>(b) <del>the sum of that parent's proportional shares of the notional required minimum margins of its related insurance undertakings</del></p>

<i>notional required minimum margin</i>	<p>(a) — in the case of an <i>insurance undertaking</i> (other than a <i>pure reinsurer</i>) that has its head office in a <i>designated state or territory</i>, the amount of the <i>required minimum margin</i>, or the equivalent requirement under the regulatory requirements of that state or territory;</p> <p>(b) — in the case of a <i>pure reinsurer</i> that has its head office in a <i>designated state or territory</i>, the amount that would be the <i>required minimum margin</i>, or the equivalent requirement under the regulatory requirements of that state or territory, if the regulatory requirements of that state or territory applicable to undertakings carrying on <i>direct insurance business</i> were applied to the <i>pure reinsurer</i> (whether they are or not); and</p> <p>(c) — in all other cases, the amount of the <i>required minimum margin</i> that would apply if the <i>insurance undertaking</i> were an <i>insurer</i> (other than a <i>pure reinsurer</i>), with its head office in the United Kingdom (whether it is or not)</p>
<i>nuclear installation</i>	any installation prescribed by the Nuclear Installations Regulations 1971
<i>nuclear matter, and nuclear reactor</i>	have the same meanings as in the Nuclear Installations Act 1965
<i>nuclear risks</i>	risks falling within any <i>class of general insurance business</i> and arising in connection with the construction or use of any <i>nuclear reactor</i> or <i>nuclear installation</i> or the carriage of any <i>nuclear matter</i>

<i>option</i>	<p>an option to acquire or dispose of—</p> <p>(a) — an investment falling within any of articles 76 to 82 or, so far as relevant to those articles, within article 89 of the <i>Regulated Activities Order</i>;</p> <p>(b) — a <i>contractually based investment</i>;</p> <p>(c) — currency of the United Kingdom or of any other country or territory;</p> <p>(d) — palladium, platinum, gold or silver; or</p> <p>(e) — an investment falling within this definition by virtue of (a), (b), (c) or (d);</p> <p>or a <i>warrant</i></p>
<i>parent undertaking</i>	is construed in accordance with section 258 of the <i>Companies Act</i> and article 266 of the <i>1986 Order</i>
<i>parent undertaking solvency calculation</i>	the calculation required under rule 10.2(3)(a)
<i>participating undertaking</i>	an undertaking which holds a <i>participation</i> in the undertaking in question
<i>participation</i>	<p>(a) — the holding of a participating interest within the meaning of section 421(2) of the <i>Act</i>; or</p> <p>(b) — the holding, directly or indirectly, of 20% or more of the voting rights or capital</p>
<i>Part II business, and Part III business</i>	the <i>insurance business</i> to which Part II and Part III, respectively, of the <i>Equalisation Reserves Rules</i> applies
<i>Part II insurer, and Part III insurer</i>	an <i>insurer</i> to which <i>Part II</i> and <i>Part III</i> , respectively, of the <i>Equalisation Reserves Rules</i> applies

<i>pension fund management contract</i>	means a contract to manage the investments of pension funds (other than funds solely for the benefit of the officers or employees of the person effecting or carrying out the contract and their dependants or, in the case of a <i>company</i> , partly for the benefit of officers or employees and their dependants of its <i>subsidiary</i> or <i>holding company</i> or a <i>subsidiary</i> of its <i>holding company</i> )
<i>period of risk</i>	the period for which a <i>contract of insurance</i> provides cover
<i>permanent health contract</i>	a contract falling within <i>class IV</i> of <i>long term insurance contracts</i>
<i>permitted asset exposure limit</i>	has the meaning given in paragraph 2 of <b>Appendix 4.2</b>
<i>permitted connected property</i>	property of any of the descriptions in paragraphs 1 to 8 or 10 of Part I of <b>Appendix 3.2</b> , which is not property falling within rule 3.7(3)
<i>permitted counterparty exposure limit</i>	has the meaning set out in paragraph 3 of <b>Appendix 4.2</b>
<i>permitted derivative contract</i>	for the purpose of <b>Appendix 3.2</b> , a <i>derivative contract</i> or <i>quasi-derivative</i>  (a) — which is 'covered' and  (i) — which is held in connection with 'property' for the purposes of reduction of investment risk or efficient portfolio management, or  (ii) — which has the effect of a <i>permitted derivative contract</i> held in connection with 'property' for such purposes; and  (b) — which satisfies the conditions in rules 4.12(6) to (8) except that the references in rule 4.12 to 'an

asset for the valuation of which provision is made in the *Valuation of Assets Rules* is construed as a reference to *permitted connected property*;

which satisfies the requirements of PRU 4.3 with the exception of PRU 4.3.18R, as applied in relation to assets covering liabilities in respect of linked long- term contracts of insurance, amended as follows:

(a) in PRU 4.3.5R and PRU 4.3.36R, "For the purpose of PRU 2 Ann 1R (Admissible assets in insurance)" is replaced by "For the purposes of IPRU (INS) rules 3.6 and 3.7 and Appendix 3.2";

(b) in PRU 4.3.6R (2) and (3), PRU 4.3.7R (1) and (2), PRU 4.3.17R (1) and PRU 4.3.36R (1) "admissible assets" is replaced by "permitted connected property";

(c) PRU 4.3.12R (2) and (3) are replaced by:

"(2) (where they are held to cover index-linked liabilities) might:

(a) not be appropriate cover for those liabilities as required by PRU 4.2.58R; or

(b) fall in value; and

(3) (where they are held to cover property-linked liabilities) might:

(a) not be appropriately selected in accordance with contractual and constructive liabilities as required by PRU 7.6.36R and appropriate cover for those liabilities as required by PRU 4.2.57R; or

	(b) <u>fall in value</u> ".
<i>permitted securities</i>	<del>securities in which cash under the control of or subject to the order of the Supreme Court may be invested pursuant to the relevant rules of court</del>
<i>policy</i>	<p>(a) <del>in relation to <i>long-term insurance business</i> and <i>industrial assurance business</i>, includes an instrument evidencing a contract to pay an <i>annuity upon human life</i>;</del></p> <p>(b) <del>in relation to <i>insurance business</i> of any other kind, includes any policy under which there is for the time being an existing liability already accrued or under which a liability may accrue; and</del></p> <p>(c) <del>in relation to capital redemption <i>insurance business</i>, includes any policy, bond, certificate, receipt or other instrument evidencing the <i>contract of insurance</i> with the <i>insurer</i></del></p>
<i>Policy holder</i>	<p>the person who for the time being is the legal holder of the <i>policy</i> for securing the contract with the <i>insurer</i>, and—</p> <p>(a) <del>in relation to such <i>long-term insurance business</i> or <i>industrial assurance business</i> as consists in the granting of <i>annuities upon human life</i>, includes an annuitant; and</del></p> <p>(b) <del>in relation to <i>insurance business</i> of any other kind, includes a person to whom, under a <i>policy</i>, a sum is due or a periodic payment is payable</del></p>
<i>proper valuation</i>	<del>in relation to land, a valuation made by a <i>qualified valuer</i> not more than three years before the <i>relevant date</i> which determined the amount which would be realised at the time of the valuation on an open market sale of the land free from any <i>mortgage</i> or charge</del>
<i>property linked benefits</i>	benefits other than <i>index linked benefits</i> provided for under a <i>linked long-term contract of insurance</i> .

<i>property linked contract</i>	a linked long-term contract <i>of insurance</i> conferring <i>property linked benefits</i> .
<i>proportional share</i>	in relation to a <i>related undertaking</i> , the percentage which is the percentage holding (directly or indirectly) in the <i>related undertaking's</i> capital
<i>pure reinsurer</i>	an <i>insurer</i> whose <i>insurance business</i> is as a matter of fact restricted to effecting or carrying out contracts of <i>reinsurance</i>
<i>qualified valuer</i>	<p>in relation to any particular type of land in any particular area, means—</p> <p>(a) — a person who is a fellow or professional associate of the Royal Institution of Chartered Surveyors or a fellow or associate of the Incorporated Society of Valuers and Auctioneers or a fellow or associate of the Rating and Valuation Association and either—</p> <p>(i) — has knowledge of and experience in the valuation of that particular type of land in that particular area; or</p> <p>(ii) — has knowledge of and experience in the valuation of land and has taken advice from a valuer who he is satisfied has knowledge of and experience in the valuation of that particular type of land in that particular area; or</p> <p>(b) — a person who conforms with (a)(i) or (ii) and immediately before 15 June 1981 was recognised as a qualified valuer by virtue of an approval by the Secretary of State under the Insurance Companies (Valuation of Assets) Regulations 1976 (and for these purposes an approval given under the Insurance Companies (Valuation of Assets) Regulations 1974 is deemed to have been given under the 1976 Regulations)</p>
<i>qualifying contract of insurance</i>	<p>means a <i>long-term insurance contract</i> which is not</p> <p>(a) — a <i>reinsurance contract</i>; or</p> <p>(b) — a contract in respect of which the following</p>

	<p><del>conditions are met—</del></p> <p><del>(i) the benefits under the contract are payable only on death or in respect of incapacity due to injury, sickness or infirmity;</del></p> <p><del>(ii) the contract provides that benefits are payable on death (other than death due to an accident) only where the death occurs within ten years of the date on which the life of the person in question was first insured under the contract, or where the death occurs before that person attains a specified age not exceeding seventy years;</del></p> <p><del>(iii) the contract has no surrender value, or the consideration consists of a single premium and the surrender value does not exceed that premium; and</del></p> <p><del>(iv) the contract makes no provision for its conversion or extension in a manner which would result in it ceasing to comply with any of the above conditions</del></p>
<p><i>readily realisable</i></p>	<p>in <u>Appendix 3.2</u>, in relation to an investment:</p> <p>(a) an investment which, had negotiations for the assignment or transfer of the investment commenced not more than seven working days before the <i>relevant date</i>, it is reasonable to assume could have been assigned or transferred on the <i>relevant date</i> for an amount not less than 97.5% of the <i>market value</i> to a person other than the <i>issuer</i> or an <i>associate</i> or <i>associated company</i> of the <i>issuer</i> or of the <i>insurer</i>; or</p> <p>(b) a <i>listed</i> investment with respect to which (a) does not apply by reason only that -</p> <p>(i) the listing of the investment has been temporarily suspended following receipt of price sensitive information received by the stock exchange on which the investment is <i>listed</i> or the <i>regulated market</i> on which facilities for dealing have been granted, or</p>

	(ii) the extent of the holding would prevent an orderly disposal of the investment for an amount equal to or greater than 97.5% of <i>market value</i>
<i>recoverable</i>	in relation to an <i>insurer</i> and a <i>financial year</i> , means recorded in the <i>insurer's</i> books as due in that year, whether or not the <i>insurer</i> has received any payment
<i>registered friendly society</i>	a society which is—  (a) a friendly society within the meaning of section 7(1)(a) of the Friendly Societies Act 1974; and  (b) registered within the meaning of that Act
<i>registered society</i>	a society registered or deemed to be registered under the Industrial and Provident Societies Act 1965 or the Industrial and Provident Societies Act (Northern Ireland) 1969
<i>Regulated Activities Order</i>	Financial Services and Markets Act (Regulated Activities) Order (S.I. 2001 No. 544)
<i>regulated activity</i>	is construed in accordance with the <i>Regulated Activities Order</i>
<i>regulated institution</i>	any of the following—  (a) an <i>EEA insurer</i> or <i>UK insurer</i> ;  (b) an <i>approved credit institution</i> ;  (c) a <i>friendly society</i> which is authorised to carry on <i>insurance business</i> ; and  (d) an <i>approved investment firm</i>
<i>reinsurance, and reinsurer</i>	include retrocession and retrocessionaire respectively
<i>related undertaking</i>	an undertaking in which a <i>participation</i> is held by another undertaking or which is a <i>subsidiary undertaking</i>

<i>relevant co-insurance operation</i>	has the meaning given in <b>Appendix 5.1</b>
<i>relevant date</i>	in relation to the valuation of any asset or liability, the date at which the value of the asset or liability falls to be determined for the purposes of reporting under the <i>Accounts and Statements Rules</i> any purpose for which the <i>Valuation of Assets Rules</i> apply, the date when the asset falls to be valued for that purpose and in relation to the determination of any liability for any purpose for which the <i>Determination of Liabilities Rules</i> apply, the date when the liability falls to be determined for that purpose
<i>relevant insurer</i>	in relation to a <i>relevant co-insurance operation</i> , an <i>insurer</i> which is concerned in the operation but is not the <i>leading insurance undertaking</i>
<i>relevant regulatory requirements</i>	<p>(a) — in the case of a <i>group undertaking</i> that is an <i>insurance undertaking</i>, <i>ultimate insurance parent undertaking</i> or <i>ultimate EEA insurance parent undertaking</i> established in a <i>designated state or territory</i>, at the option of the <i>insurer</i>:</p> <p>(i) — the regulatory requirements of that state or territory applicable to an undertaking carrying on <i>direct insurance business</i> (even if it only carries on <i>reinsurance business</i> or is an <i>insurance holding company</i>), or</p> <p>(ii) — the requirements referred to in (b); and</p> <p>(b) — in the case of any other <i>insurance undertaking</i> or <i>insurance holding company</i>, the rules in <i>IPRU (INS)</i> applicable to an <i>insurer</i> (other than a <i>pure reinsurer</i>) with its head office in the United Kingdom (whether or not it is such an <i>insurer</i>)</p>
<i>required margin of solvency</i>	a <i>margin of solvency</i> required by rule 2.1
<i>required minimum margin</i>	the greater of the appropriate <i>required margin of solvency</i> and the amount of the appropriate <i>guarantee fund</i> ; and  ‘required EEA minimum margin’ and ‘required United

	Kingdom minimum margin' are construed accordingly
<i>salvage right</i>	any right of an <i>insurer</i> under a <i>contract of insurance</i> to take possession of and to dispose of property by virtue of the fact that the <i>insurer</i> has made a payment or has become liable to make a payment in respect of a loss under the contract
<i>second calculation</i>	is the calculation described in rule 2(5)(1) and 2.5(3) to (6)
<i>secured debt</i>	<p>(1) — a <i>debt</i> owed to (or an obligation to be fulfilled for the benefit of) an <i>insurer</i> to the extent it is—</p> <p>(a) — secured by—</p> <p style="padding-left: 40px;">(i) — a letter of credit established with an <i>approved credit institution</i>, or</p> <p style="padding-left: 40px;">(ii) — a guarantee provided by an <i>approved credit institution</i>;</p> <p>where the sum of the aggregate amount available under all letters of credit established for the benefit of the <i>insurer</i> with the same <i>counterparty</i>; the aggregate amount of all guarantees issued for the benefit of the <i>insurer</i> by that <i>counterparty</i> and the amount of any <i>exposure</i> of the <i>insurer</i> to that <i>counterparty</i> does not exceed the <i>permitted counterparty exposure limit</i> for that <i>counterparty</i>; or</p> <p>(b) — secured by assets for the valuation of which provision is made in the <i>Valuation of Assets Rules</i> and—</p> <p style="padding-left: 40px;">(i) — the value of such assets (after deducting reasonable expenses of sale and the amount of any other <i>debt</i> or obligation secured by the assets having priority to in ranking equally with the <i>debt</i> or obligation) is sufficient to enable the <i>debt</i> or obligation to be discharged in full,</p>

(ii) — the value of the assets when aggregated with the *insurer's exposure* to assets of the same description does not exceed the *permitted exposure limit* for assets of that description (as calculated under rule 4.14 of **Appendix 4.2**); and

(iii) — where the assets give rise to *exposure to a counterparty*, the exposure of the *insurer* to that *counterparty*, when added to the aggregate amount available under all letters of credit established for the benefit of the *insurer* with that *counterparty*, and to the aggregate amount of all guarantees issued for the benefit of the *insurer* by that *counterparty*, does not exceed the *permitted counterparty exposure limit* for that *counterparty*;

(2) — for the purpose of (1) —

(a) — the aggregate amount available under letters of credit established with a *counterparty* must be taken not to exceed the sum of the aggregate amount of all *debts* and the aggregate value of all obligations in respect of which those letters of credit were established;

(b) — the aggregate amount of guarantees issued by a *counterparty* must be taken not to exceed the sum of the aggregate amount of all *debts* and the aggregate value of all obligations so guaranteed; and

(c) — assets which are securing any other *debt* owed to (or obligation to be fulfilled for the benefit of) the *insurer* must be treated as if they were assets of the *insurer*;

and unsecured debt is construed accordingly

	<p>a debt fully secured on:</p> <p>(a) <u>assets whose value at least equals the amount of debt; or</u></p> <p>(b) <u>a letter of credit or guarantee from an <i>approved counterparty</i>.</u></p>
<i>settlement date</i>	any date on which the fulfilment of an obligation under a <i>derivative contract</i> is or may be required
<i>share</i>	has the meaning given in the <i>Companies Act</i> or the <i>1986 Order</i> Part VII of the <i>Companies Act</i> or Part VIII of the <i>Companies (Northern Ireland) Order 1986</i>
<i>shareholder controller</i>	see rule 11.2 for <i>controller</i>
<i>short term deposit</i>	a sum of money which may be withdrawn at the discretion of the lender without penalty or loss of accrued interest by giving notice of withdrawal of one month or less
<i>Society</i>	the society incorporated by Lloyd's Act 1871 by the name of Lloyd's
<i>solvency deficit</i>	deficit in the assets available to cover the undertaking's liabilities and represent its <i>notional required minimum margin</i> (if any)
<i>subordinated debt</i>	any <i>debt</i> which, on a winding up of the debtor, ranks for payment after the claims of general creditors and is not to be repaid until the claims of all the general creditors outstanding at the time have been settled
<i>subsidiary</i>	is construed in accordance with section 736 of the <i>Companies Act</i> or Article 4 of the <i>1986 Order</i>
<i>SUP</i>	Supervision manual
<i>surplus assets</i>	has the meaning given in rule 4.2(2)
<i>Swiss general insurer</i>	a <i>non-EEA insurer</i> which has its head office in Switzerland and which has permission under the <i>Act</i> to effect or carry out <i>general insurance contracts</i> in

	accordance with the Swiss Treaty Agreement of 10 October 1989
<i>Third Life Directive</i>	Council Directive of 10 November 1992 on the co-ordination of laws, etc and amending Directives 79/267/EEC and 90/619/EEC (92/96/EEC)
<i>Third Non-Life Directive</i>	Council Directive of 18 June 1992 on the co-ordination of laws, etc, and amending Directives 73/239/EEC and 88/357/EEC (92/49/EEC)
<i>total capital resources</i>	the sum calculated at stage O of the calculation in <i>PRU</i> 2.2.14R
<i>ultimate EEA insurance parent undertaking</i>	an <i>EEA insurance parent undertaking</i> that is not itself the <i>subsidiary undertaking</i> of another <i>EEA insurance parent undertaking</i>
<i>ultimate insurance parent undertaking</i>	an <i>insurance parent undertaking</i> that is not itself the <i>subsidiary undertaking</i> of another <i>insurance parent undertaking</i>
<i>UCITS</i>	is an undertaking for collective investments in transferable <i>securities</i>
<i>UCITS Directive</i>	Council Directive 85/611/EEC of 20 December 1985 on the co-ordination of laws, regulations and administrative provisions relating to undertakings for collective investments in transferable <i>securities</i>
<i>UK deposit insurer</i>	a <i>non-EEA insurer</i> which has made a <i>deposit</i> in the United Kingdom in accordance with rule 8.1
<i>UK insurer</i>	an <i>insurer</i> , other than a <i>pure reinsurer</i> or a <i>non-directive insurer</i> , whose head office is in the United Kingdom
<i>UK margin of solvency</i>	an <i>insurer's margin of solvency</i> computed by reference to the assets and liabilities of the business carried on by that <i>insurer</i> in the United Kingdom under rule 2.4
<i>Unsecured debt</i>	see <i>secured debt</i>
<i>used notional group solvency margin</i>	in relation to an <i>ultimate insurance parent undertaking</i> or an <i>ultimate EEA insurance parent undertaking</i> , the sum of:  (a) — in the case of a parent which is itself an <i>insurance</i>

	<p><del>undertaking:</del></p> <p>(i) <del>all liabilities in respect of cumulative preference shares left out of account by it in accordance with rule 2.10(3), and</del></p> <p>(ii) <del>all liabilities in respect of subordinated debt left out of account by it in accordance with a direction under section 148 of the Act,</del></p> <p><del>or, in either case, in accordance with the relevant regulatory requirements of the state or territory where the head office of the parent is situated, as the case may be;</del></p> <p>(b) <del>the parent's proportional shares of all liabilities in respect of cumulative preferences shares left out of account by its related insurance undertakings in accordance with rule 2.10(3) or the relevant regulatory requirements of the state or territory where the head office of the relevant insurance undertaking is situated, as the case may be; and</del></p> <p>(c) <del>the parent's proportional shares of all liabilities in respect of subordinated debt left out of account by its related insurance undertakings in accordance with a direction under section 148 of the Act or the relevant regulatory requirements in the state or territory where the head office of the relevant insurance undertaking is situated, as the case may be</del></p>
<i>Valuation of Assets Rules</i>	the rules in Chapter 4
<i>Warrant</i>	an instrument which falls within article 79 of the <i>Regulated Activities Order</i>

<i>zillmerising</i>	in relation to the <i>Margins of Solvency Rules</i> , means the method known by that name for modifying the net premium reserve method of valuing a long term <i>policy</i> by increasing the part of the future premiums for which credit is taken so as to allow for initial expenses

## Chapter 12

### TRANSITIONAL ARRANGEMENTS

---

#### Guidance:

GEN (the part of the *FSA Handbook* in High Level Standards which has the title General Provisions) contains some technical transitional provisions that apply throughout the Handbook and which are designed to ensure a smooth transition at commencement of the *Act*. These include transitional provisions relevant to record keeping and notification rules.

*SUP* contains transitional provisions which carry forward written concessions relating to pre-commencement provisions.

Table

<u>(1)</u>	<u>(2)</u> <b><u>Material to which the transitional provision applies</u></b>	<u>(3)</u>	<u>(4)</u> <b><u>Transitional provision</u></b>	<u>(5)</u> <b><u>Transitional Provision:</u></b> <b><u>Dates in force</u></b>	<u>(6)</u> <b><u>Handbook provision:</u></b> <b><u>coming into force</u></b>
1	<u>IPRU (INS) rules 3.7 and 11.1 (Definitions), Appendix 3.2 paragraph 9</u>	R	For the period specified in column (5), for the purposes of the <i>rules</i> specified in column (2), an <i>insurer</i> must apply the definition of <i>permitted derivative contract</i> as it had effect immediately prior to the date specified in column (6)	From 31 December 2004 to 30 December 2005	31 December 2004
2	<u>IPRU(INS) rules 3.7 and 11.1 (Definitions), Appendix 3.2 paragraph 9</u>	R	(1) This paragraph applies to a contract concluded on or before 30 December 2005 which satisfies the definition of <i>permitted derivative contract</i> as it had effect immediately prior to the date specified in column (6).  (2) In relation to a contract to which this paragraph applies, for the purposes of the rules specified in	From 31 December 2004 until the relevant <i>rule</i> is revoked	31 December 2004

<sup>2</sup> See ~~Guidance Note 4.1~~ and ~~Guidance Note 9.1~~

**APPENDIX 9.1** (rules 9.12 and 9.13)

**BALANCE SHEET AND PROFIT AND LOSS ACCOUNT  
(FORMS 1 TO 3 AND 109 TO 179)**

---

**Introduction**

1. (1) All the forms included in the part of the *return* to which this Appendix relates (**Forms 1 to 3 and 109 to 179**) are to be laid out as shown in this Appendix, except that the instructions for the completion of the forms need not be reproduced.

...

5 ...

- (2) The bases of conversion adopted must be stated by way of supplementary note (code 1601) to **Form 16** or, if there is no Form 16, by way of supplementary note (code 4005) to **Form 40**.

...

8. (3) If amounts shown include amounts calculated on the basis set out in (2), a supplementary note to **Form 13** (code 1304 for other than *long-term insurance business* and code 1310 for *long-term insurance business*) to that effect must be provided.

...

**Premiums**

10. (1) Notwithstanding the requirements of the *insurance accounts rules*, amounts included in **Forms 11 and 12** in respect of -

- (a) *gross premiums receivable*;
- (b) *claims paid*;
- (c) *claims outstanding*; and
- (d) *reinsurance recoveries*,

must be determined in accordance with ~~**Appendices 2.1 to 2.3**~~ PRU 7.2.66R and PRU 7.2.71R.

...

**Counterparty exposure**

11. (1) There must be given by way of a supplementary note to **Form 13** (code 1305 for other than long-term insurance business and code 1311 for long-term insurance business) -

...

- (2) In each case where the *exposure* of the *insurer* to a *counterparty* at the end of the *financial year in question* exceeds:

(a) 5% of the sum of its base capital resources requirement and its long-term insurance business ~~amount~~ liabilities, excluding property linked liabilities and net of reinsurance ceded, or

(b) the sum of 20,000 Euro and 5% of its liabilities arising from its general insurance business ~~amount~~, net of reinsurance ceded,

as appropriate -

(a) the amount of that *exposure*; and

(b) the nature of the assets held which give rise to that *exposure*,

must be stated by way of a supplementary note to **Form 13** (code 1306 for other than long-term insurance business and code 1312 for long-term insurance business).

- (3) There must be stated by way of supplementary note to **Form 13** (code 1307 for other than long-term insurance business and code 1313 for long-term insurance business) the aggregate value of any rights to which PRU 3.2.35R or PRU 3.2.36R and PRU 3.2.37R relates paragraph 14 of Part I of Appendix 4.2.

#### **Provision for ~~adverse changes~~ reasonably foreseeable adverse variations**

12. There must be stated by way of supplementary note to **Form 14** (code 1401) or **15** (code 1501) the methods and assumptions used to determine the amount of any adjustment or provision made pursuant to PRU 1.3.26R to PRU 1.3.29R or PRU 4.3.17R to PRU 4.3.18R ~~rule 5.3~~ or, if there is no such adjustment or provision, the methods and assumptions used to determine that no adjustment or provision is required.

#### **Liabilities**

13. (1) Subject to (3), the following information must be given by way of a supplementary note to **Form 14** (code 1402) or **15** (code 1502) -

...

...

- (3) (1)(a) and (c) may be disregarded by an *insurer* in the case of -

- (a) one or more 'charges' over assets which are attributable to either the *long-term insurance assets* or the 'other general insurance business assets' and whose aggregate value (as shown on **Form 13**) does not exceed 2.5% of the *long-term insurance assets (other than reinsurance recoveries and assets required to match property linked liabilities)* or the 'other assets (other than reinsurance recoveries)' ~~or general insurance business amount~~, as the case may be; or
  - (b) one or more contingent liabilities whose aggregate value does not exceed 2.5% of the *long-term insurance assets (other than reinsurance recoveries and assets required to match property linked liabilities)* or the 'other assets (other than reinsurance recoveries)' ~~or general insurance business amount~~, as the case may be.
- (4) (1)(d) may be disregarded by an *insurer* in respect of one or more guarantees, indemnities or contractual commitments where the aggregate of the maximum liabilities specified in such guarantees, indemnities or contractual commitments does not exceed 2.5% of the *long-term insurance assets (other than reinsurance recoveries and assets required to match property linked liabilities)* or the 'other assets (other than reinsurance recoveries)' ~~or general insurance business amount~~, as the case may be.
- (5) For the purposes of this paragraph, **charge** includes any arrangement whatsoever, whether contractual or otherwise, which operates to secure the prior claim of any person over general creditors to any assets on a winding up of the *insurer*, and other assets means assets that are not *long-term insurance assets*.

### Reconciliation

14. (1) ~~For an *insurer* (other than a *company* incorporated outside the United Kingdom) an explanation must be given by way of supplementary note to **Form 10** reconciling—~~
- (a) ~~line 99 of **Form 13** (category of assets '1') less line 59 of **Form 15**; and~~
  - (b) ~~the amount shown under balance sheet item A 'capital and reserves' in the *insurer's* accounts prepared pursuant to the insurance accounts rules for the financial year in question.~~
- ~~(2) Where for an *insurer* (other than a *company* incorporated outside the United Kingdom) there are no accounts pursuant to 1(b) (or the accounts have not yet been prepared), this must be stated by way of supplementary note to **Form 10**.~~

A reconciliation of the *capital resources* of the *insurer* to the net *admissible assets* of the *insurer* must be provided in accordance with instruction 66 to **Form 3**.

...

16 Where, in respect of any *derivative contract* included in **Form 17**, assets have been transferred to or for the benefit of the *insurer* by way of *variation margin* there must be stated by way of supplementary note (code 1701) to **Form 17** –

...

17 If –

...

the corresponding value, if not zero, must be stated (by way of supplementary note (code 1702) to **Form 17**) for each line in **Forms 13, 14** or **15** and paragraph 16 applies to the insurer as if such assets had been included in **Form 17**.

---

## FORMS

[**Forms 1-3 and 10-179** to follow]

Forms 1, 2 and 3 of Appendix 9.1 (Balance sheet and profit and loss account) are inserted as follows:

**Statement of solvency – general insurance business**

Name of insurer

Global business/UK branch business/EEA branch

Financial year ended

Solo solvency calculation / Group solvency calculation

	Company registration number	GL/ UK/ CM	day	month	year	units
R1						£000
					<b>As at end of this financial year 1</b>	<b>As at end of the previous year 2</b>

**Capital resources**

Capital resources arising outside the long-term insurance fund	11		
Capital resources allocated towards long-term insurance business arising outside the long-term insurance fund	12		
Capital resources available to cover general insurance business capital resources requirement (11-12)	13		

**Guarantee fund**

Guarantee fund requirement	21		
Excess (deficiency) of available capital resources to cover guarantee fund requirement	22		

**Minimum capital requirement (MCR)**

General insurance capital requirement	31		
Base capital resources requirement	33		
Minimum capital requirement	34		
Excess (deficiency) of available capital resources to cover 50% of MCR	35		
Excess (deficiency) of available capital resources to cover 75% of MCR	36		

**Capital resources requirement (CRR)**

Capital resources requirement	41		
Excess (deficiency) of available capital resources to cover general insurance business CRR (13-41)	42		

**Contingent liabilities**

Quantifiable contingent liabilities in respect of other than long-term insurance business as shown in a supplementary note to Form 15	51		
---	----	--	--

## Instructions for completion of Form 1

1. An *insurer* (other than a *Swiss general insurer* or an *EEA-deposit insurer*) carrying on *general insurance business* must complete Form 1 in respect of its entire *general insurance business*. An *external insurer* (other than a *pure reinsurer*) that is carrying on *general insurance business* must complete Form 1 in respect of business carried on through a *branch* in the *United Kingdom*. An *UK-deposit insurer* that is carrying on *general insurance business* must complete Form 1 in respect of business carried on through its *branches* in *EEA States* taken together. Form 1 is not required for *Swiss general insurers* or *EEA-deposit insurers*.
2. In the case of a *marine mutual* completing an abbreviated *return* under rule 9.36A, units must be the same as those used in Form M1.
3. For *financial years* commencing on or before 31 December 2004 lines 11 to 42, column 2 must be blank.
4. The entry at line 13 must be equal to the *total capital resources* after deductions at line 79, column 1 on Form 3. The entry at line 11 includes also *capital resources* allocated towards the *long-term insurance business* (and included in column 2 on Form 3) that arise outside the *long-term insurance fund*. For a *branch* the entry at line 11 is equal to Form 10 line 29.
5. For a *firm* carrying on *long-term insurance business* the entry at line 12 on Form 1 must equal the entry at line 12 on Form 2. For a *firm* not carrying on *long-term insurance business* the entry at line 12 on Form 1 is nil.

### **Instructions 6-12 only apply to firms that do not meet the conditions specified in PRU 2.1.9R(2), i.e. that are not required to perform an adjusted solo calculation under PRU 8.3.**

6. The *guarantee fund* requirement at line 21 is calculated by reference to PRU 2.2.18R as the higher of line 33 and 1/3 of line 31.
7. The excess (deficiency) of available *capital resources* to cover the *guarantee fund* requirement at line 22 is equal to line 81 on Form 3 less line 21. For a *branch* this is equal to line 13 less line 21 less an adjustment because assets held to cover the *guarantee fund* must be held in the *United Kingdom* (or for *UK-deposit insurers*, in the *EEA States* where the *firm* carries on *insurance business*); the adjustment is the difference between form 13 line 89 for categories 4 and 3 (or 5), except for *branches* carrying on both *long-term insurance business* and *general insurance business* (composite *branches*); composite *branches* will need to state how the difference is allocated between *general insurance business* and *long-term insurance business* in a note to the Form.
8. The *general insurance capital requirement* at line 31 must be equal to the amount shown at line 43 of Form 12, which is calculated in accordance with PRU 2.1.30R.
9. The *base capital resources requirement* at line 33 must be taken from PRU 2.1.26R.
10. The excess (deficiency) of available *capital resources* to cover 50% of the *minimum capital requirement* at line 35 is equal to line 82, column 1 on Form 3 less 50% of line 34. For a *branch*, line 35 is to be left blank.
11. The excess (deficiency) of available *capital resources* to cover 75% of the *minimum capital requirement* at line 36 is equal to line 83, column 1 on Form 3 less 75% of line 34. For a *branch*, line 36 is to be left blank.
12. The *capital resources requirement* at line 41 is calculated in accordance with PRU 2.1.14R and is equal to line 34.

### **Instructions 13-20 only apply to firms that meet the conditions specified in PRU 2.1.9 R(2), i.e. that perform the adjusted solo solvency calculation in accordance with PRU 8.3.**

13. The *guarantee fund* requirement at line 21 is calculated as the share of the *general insurance business*

of  $\frac{1}{3}X + (R - S - U - X)$  by reference to *PRU* 8.3.45R.

14. The excess (deficiency) of available *capital resources* to cover the *guarantee fund* requirement at line 22 is equal to line 81, column 1 on Form 3 less line 21.
15. Line 31 is not applicable.
16. Line 33 is not applicable.
17. The entry at line 34 must equal the amount represented by (R-S) with reference to *PRU* 8.3.45R in relation to the *general insurance business*.
18. The excess (deficiency) of available *capital resources* to cover 50% of the *minimum capital requirement* at line 35 is equal to line 82, column 1 on Form 3 less 50% of line 34.
19. The excess (deficiency) of available *capital resources* to cover 75% of the *minimum capital requirement* at line 36 is equal to line 83, column 1 on Form 3 less 75% of line 34.
20. The entry at line 41 must equal the amount represented by R with reference to *PRU* 8.3.45R in relation to the *general insurance business*.

**Instructions 21 onwards apply to all firms**

21. The entry at line 51 must not include provision for any liability to tax on capital gains referred to in paragraph 13(1)(b) of Appendix 9.1. Amounts in *related undertakings* must not be included.
22. Where a direction under section 148 of the *Act* has been issued disapplying or modifying any of the provisions of the *Accounts and Statements Rules*, a note to **Form 1** explaining the effect of the order is usually required. The requirement for such a note would be specified in the direction itself. [Code 0101].

**Statement of solvency – long-term insurance business**

Name of insurer

Global business/UK branch business/EEA branch

Financial year ended

Solo solvency calculation / Group solvency calculation

	Company registration number	GL/ UK/ CM	day	month	year	units
R2						£000
					<b>As at end of this financial year 1</b>	<b>As at end of the previous year 2</b>

**Capital resources**

Capital resources arising within the long-term insurance fund	11		
Capital resources allocated towards long-term insurance business arising outside the long-term insurance fund	12		
Capital resources available to cover long-term insurance business capital resources requirement (11+12)	13		

**Guarantee fund**

Guarantee fund requirement	21		
Excess (deficiency) of available capital resources to cover guarantee fund requirement	22		

**Minimum capital requirement (MCR)**

Long-term insurance capital requirement	31		
Resilience capital requirement	32		
Base capital resources requirement	33		
Minimum capital requirement	34		
Excess (deficiency) of available capital resources to cover 50% of MCR	35		
Excess (deficiency) of available capital resources to cover 75% of MCR	36		

**Enhanced capital requirement**

With-profits insurance capital component	37		
Enhanced capital requirement	38		

**Capital resources requirement (CRR)**

Capital resources requirement (greater of 34 and 38)	41		
Excess (deficiency) of available capital resources to cover long-term insurance business CRR (13-41)	42		

**Contingent liabilities**

Quantifiable contingent liabilities in respect of long-term insurance business as shown in a supplementary note to Form 14	51		
--	----	--	--

## Instructions for completion of Form 2

1. An *insurer* (other than an *EEA-deposit insurer*) carrying on *long-term insurance business* must complete Form 2 in respect of its entire *long-term insurance business*. An *external insurer* (other than a *pure reinsurer*) or *EEA-deposit insurer* that is carrying on *long-term insurance business* must complete Form 2 in respect of business carried on through a *branch* in the *United Kingdom*. An *UK-deposit insurer* that is carrying on *long-term insurance business* must complete Form 2 in respect of business carried on through its *branches* in *EEA States* taken together.
2. The entry at line 13 must be equal to the *total capital resources* after deductions at line 79, column 2 on Form 3. The entry at line 11 represents items relating to the *long-term insurance fund*, and that at line 12 represents amounts arising outside the *long-term insurance fund*. For a *branch*, line 11 is equal to the sum of any *implicit items* plus form 10 line 11 less the sum of lines 11, 12 and 49 in Form 14: when there are *implicit items* it would be appropriate for note 0202 (see instruction 26) to include an analysis of line 11; if the *insurer* is not carrying on *general insurance business* through the *branch*, line 12 will be equal to Form 10 line 29.
3. For *financial years* commencing on or before 31 December 2004 lines 11 to 42, column 2 must be blank.
4. For *EEA-deposit insurers*, lines 21 to 42 must be blank.

**Instructions 5-14 only apply to firms that do not meet the conditions specified in PRU 2.1.9 R(2), i.e. that are not required to perform an adjusted solo calculation under PRU 8.3.**

5. The *guarantee fund* requirement at line 21 is calculated by reference to *PRU 2.2.17R* as the higher of line 33 and 1/3 of line 31.
6. The excess (deficiency) of available *capital resources* to cover the *guarantee fund* requirement at line 22 is equal to line 81, column 2 on Form 3 less line 21. For a *branch* this is equal to line 13 less line 21 less an adjustment because assets held to cover the *guarantee fund* must be held in the *United Kingdom* (or for *UK-deposit insurers*, in the *EEA States* where the *firm* carries on *insurance business*) and cannot include *implicit items*; an analysis would be appropriate in a note (code 0203) to the Form.
7. The *long-term insurance capital requirement* at line 31 must be equal to the amount shown at line 51 of Form 60, which is calculated in accordance with *PRU 2.1.32R*.
8. The *resilience capital requirement* at line 32 is calculated in accordance with the *rules* in *PRU 4.2*.
9. The *base capital resources requirement* at line 33 must be taken from *PRU 2.1.26R*.
10. The excess (deficiency) of available *capital resources* to cover 50% of the *minimum capital requirement* at line 35 is equal to line 82, column 2 on Form 3 less 50% of line 34. For a *branch*, line 35 must be blank.
11. The excess (deficiency) of available *capital resources* to cover 75% of the *minimum capital requirement* at line 36 is equal to line 83, column 2 on Form 3 less 75% of line 34. For a *branch*, line 36 must be blank.
12. The *with-profits insurance capital component* at line 37 must be the total of the amounts shown at line 64 on Forms 18, calculated in accordance with the *rules* in *PRU 7.4*.
13. The *enhanced capital requirement* at line 38 is calculated as the sum of lines 31, 32 and 37.
14. The *capital resources requirement* at line 41 is calculated in accordance with *PRU 2.1.15R*.

**Instructions 15-23 only apply to firms that meet the conditions specified in PRU 2.1.9R(2), i.e. that perform the adjusted solo solvency calculation in accordance with PRU 8.3.**

15. The *guarantee fund* requirement at line 21 is calculated as the share of the *long-term insurance*

*business of  $\frac{1}{3}X + (R - S - U - X)$  by reference to PRU 8.3.45R.*

16. The excess (deficiency) of available *capital resources* to cover the *guarantee fund* requirement at line 22 is equal to line 81, column 2 on Form 3 less line 21.
17. Lines 31, 32 and 33 are not applicable.
18. The entry at line 34 must include the amount represented by (R-S) with reference to PRU 8.3.45R in relation to the *long-term insurance business*.
19. The excess (deficiency) of available *capital resources* to cover 50% of the *minimum capital requirement* at line 35 is equal to line 82, column 2 on Form 3 less 50% of line 34.
20. The excess (deficiency) of available *capital resources* to cover 75% of the *minimum capital requirement* at line 36 is equal to line 83, column 2 on Form 3 less 75% of line 34.
21. The *with-profits insurance capital component* at line 37 must be the total of 'S' with reference to PRU 8.3.45R.
22. The entry at line 38 must be the sum of lines 34 and 37.
23. The entry at line 41 must equal the amount represented by R with reference to PRU 8.3.45R in relation to the *long-term insurance business*.

**Instructions 24 onwards apply to all firms**

24. The entry at line 51 must not include provision for any liability to tax on capital gains referred to in paragraph 13(1)(b) of Appendix 9.1. Amounts in *related undertakings* must not be included.
25. Where a direction under section 148 of the *Act* has been issued disapplying or modifying any of the provisions of the *Accounts and Statements Rules*, a note to **Form 2** explaining the effect of the direction is usually required. The requirement for such a note would be specified in the direction itself. (Code 0201).
26. Where a direction under section 148 of the *Act* has been issued to an *insurer* permitting it to take into account *implicit items* on *long-term insurance business*, that direction may specify that a note is to be included in the *return* explaining such items. That note should be included as a note to **Form 2**. (Code 0202).

### Instructions for completion of Form 3

1. An *insurer* (other than a *Swiss general insurer* or an *EEA-deposit insurer*) must complete Form 3 in respect of its entire business. An *external insurer* (other than a *pure reinsurer*), an *EEA-deposit insurer* or a *Swiss general insurer* must complete Form 10 in respect of business carried on through a *branch* in the *United Kingdom*. An *UK-deposit insurer* must complete Form 10 in respect of business carried on through its *branches* in *EEA States* taken together.
2. An *insurer* that is carrying on *long-term insurance business*, other than a *mutual* not carrying on *general insurance business*, that includes within its *capital resources* any capital instruments issued by its *long-term insurance fund*, must include a supplementary note (code 0302) analysing those instruments.
3. In the case of a *marine mutual* completing an abbreviated *return* under rule 9.36A, units must be the same as those used in Form M1. If units are in US\$ or US\$000, then the bases of conversion used in determining the *base capital resources requirement* must be those used in Forms 11 and 12.
4. Amounts in columns 1 and 2 refer to capital supporting the *general insurance business* and the *long-term insurance business* respectively. For a *firm* carrying on only *general insurance business* column 2 should be blank. For a *firm* carrying on only *long-term insurance business* column 1 should be blank. All items relating to the *long-term insurance fund* should be included in column 2. For a *composite firm* capital items arising outside the *long-term insurance fund* should be allocated between *general insurance business* and *long-term insurance business* in a manner consistent with the *firm's* view of what business that capital supports. Where there is a material change in way capital items are allocated from one year to the next, the *firm* should explain the change in a supplementary note (code 0303).
5. Column 3 is the sum of columns 1 and 2.
6. For *financial years* commencing on or before 31 December 2004 column 4 must be blank.
7. Amounts at lines 11-13 should be taken from the *firm's* stand-alone accounts prepared under the Companies Act 1985 or (for *firms* not preparing accounts under the Companies Act) equivalent overseas legislation or the applicable UK legislation.
8. The entry at line 15.2 must be the FFA taken from the *firm's* stand-alone accounts prepared under the Companies Act 1985 or (for *firms* not preparing accounts under the Companies Act) equivalent overseas legislation or the applicable *United Kingdom* legislation. The entry at line 15 column 1 must be blank.
9. *PRU 2.2.78R* and *2.2.79G* explain how to calculate the valuation differences for inclusion at line 14 or 35. Inadmissible assets or assets in excess of *market risk* and *counterparty* limits are not to be included in the valuation differences. Net valuation differences are shown at line 14 if positive or in line 35 if negative. The *firm* must state in a supplementary note (code 0308) to this form -
  - (a) The amount of positive valuation differences included within line 14 or 35 in respect of assets where valuation in *PRU* exceeds the valuation that the *firm* uses for external financial reporting purposes, together with a brief explanation indicating the nature of those assets;
  - (b) The amount of positive valuation differences included within line 14 or 35 in respect of liabilities where valuation in *PRU* is lower than the valuation that the *firm* uses for external financial reporting purposes, together with a brief explanation indicating the nature of those liabilities;
  - (c) The amount of negative valuation included within line 14 or 35 in respect of assets where valuation in *PRU* is lower than the valuation that the *firm* uses for external financial reporting purposes (excluding inadmissible assets and assets in excess of *market risk* and *counterparty* limits), together with a brief explanation indicating the nature of those assets; and
  - (d) The amount of negative valuation included within line 14 or 35 in respect of liabilities where valuation in *PRU* exceeds the valuation that the *firm* uses for external financial reporting

purposes (excluding amounts deducted from *technical provisions* for discounting shown at line 34), together with a brief explanation indicating the nature of those liabilities.

The amount in (a) plus the amount in (b) less the amount in (c) less the amount in (d) should equal the amount shown at line 14 if positive or at line 35 if negative."

**Instructions 10-32 only apply to firms that do not meet the conditions specified in PRU 2.1.9R(2), i.e. that are not required to perform an adjusted solo calculation under PRU 8.3.**

10. The entries at line 16 must be nil.
11. Amounts may only appear in lines 21 and 22 if the *FSA* has issued a *waiver* permitting these amounts to count as *tier one capital* (tier one waivers). These amounts are restricted by *PRU 2.2.20R* (1), so that amounts in line 24 may not be greater than corresponding amounts in line 19. If the *FSA* has issued a *waiver* permitting amounts to count as *tier two capital* (tier two waivers), these are to be included at line 41, together with any amounts that arise from the restriction at *PRU 2.2.20R*(1).
12. The entries at line 23 must be nil.
13. The entries at lines 25 and 27 must be restricted to comply with *PRU 2.2.20R*, so that the total of the amounts in lines 24, 25 and 27 is not greater than the amount in line 19 and the amount in line 27 is not greater than 15/85 of the total of the amounts in lines 19, 24 and 25. Amounts in excess of the limits are entered at lines 42 and 43 respectively.
14. The entries at lines 26 and 28 must be nil.
15. The entries at line 32 for investments in own *shares* should, in the majority of cases, be zero.
16. For the purpose of completing line 33, the *firm* should refer to *PRU 2.2.84R* and *PRU 2.2.85G*.
17. The amounts in line 34 must be calculated in accordance with *PRU 2.2.80R* and *PRU 2.2.81R*.
18. The entries at line 36 must be nil.
19. The entries at lines 45 and 46 for perpetual cumulative *preference shares*, *subordinated debt* and *securities* must be the total, unrestricted, amounts that the *firm* can include in *upper tier two capital* in accordance with *PRU 2.2.100G* to *PRU 2.2.106G*.
20. The entries at line 47 must be nil.
21. The types of capital instrument that a *firm* can include within its *lower tier two capital* are set out at *PRU 2.2.107G* to *PRU 2.2.115G*. These should be split between fixed term *preference shares* and other *tier two instruments* and entered at lines 51 and 52 respectively.
22. The entries at line 53 must be nil.
23. The effect of the restrictions at *PRU 2.2.23R* applying to *tier two capital* are shown at lines 62 and 63. Line 62 relates to *tier two capital* as a whole and equals the excess (if any) of line 61 over line 39. Line 63 relates to *lower tier two capital* and equals the excess (if any) of line 59 over the sum of line 62 and 1/2 line 39.
24. Line 71 must show positive adjustments for *related undertakings* that are *regulated related undertakings* (other than *insurance undertakings*) required by *PRU 2.2.90R*.
25. Line 73 must show the deductions for assets that are not *admissible assets* required by *PRU 2.2.86R*.
26. Line 74 must show the assets in excess of *market risk* and *counterparty* limits in *PRU 3.2.22R*.
27. Line 75 must show negative adjustments for *related undertakings* that are *ancillary services*

*undertakings* required by PRU 2.2.89R.

28. Line 76 must show negative adjustments for *related undertakings* that are *regulated related undertakings* (other than *insurance undertakings*) required by PRU 2.2.90R.
29. The entries at line 77 must be nil.
30. The entry at line 81 is determined as the amount of the *firm's capital resources* available to meet its *guarantee fund* requirement, having regard to PRU 2.2.17R and PRU 2.2.18R. Line 81 must be either:
  - line 79; or
  - (if less) the sum of lines 19, 25, 42, 45, 46 and 59 less the sum of lines 37, 62 and 63.
31. The entry at line 82 is determined as the amount of the *firm's capital resources* available to meet 50% of its *minimum capital requirement*, having regard to PRU 2.2.16R. Line 82 must be either:
  - line 79; or
  - (if less) the sum of lines 19, 24, 25 and 42 less line 37.
32. The entry at line 83 is determined as the amount of the *firm's capital resources* available to meet 75% of its *minimum capital requirement*, having regard to PRU 2.2.24R. Line 83 must be either:
  - line 79; or
  - (if less) the sum of lines 19, 24, 25, 41, 42, 45 and 46 less the sum of line 37 and any excess of line 62 over line 59.

**Instructions 33-57 only apply to firms that meet the conditions specified in PRU 2.1.9 R(2), i.e. that perform the adjusted solo solvency calculation in accordance with PRU 8.3.**

33. *Tier one capital resources* must be calculated in accordance with the *rules* in PRU 8.3.41R in relation to restricted assets.
34. The entries at line 16 must equal the net contribution to core *tier one capital resources* of the *firm's related undertakings* in accordance with the calculation in PRU 8.3.55R (2).
35. Amounts may only appear in lines 21-23 if the *FSA* has issued a *waiver* permitting these amounts to count as *tier one capital* (tier one waivers). These amounts are restricted by PRU 8.3.45R (1)(c), so the amounts in line 24 may not be greater than corresponding amounts in line 19. If the *FSA* has issued a *waiver* permitting amounts to count as *tier two capital* (tier two waivers), these are to be included at line 41, together with any amounts that arise from the restriction at PRU 8.3.45R (1)(c).
36. The entries at line 26 must include the net contribution to the *firm* of perpetual non-cumulative *preference shares* issued by the *firm's related undertakings* – ie. the capital represented by perpetual non-cumulative *preference shares* of each of the *firm's related undertakings* that is a *regulated related undertaking* after deduction of the sum of the book value of the investments by the *firm* in the perpetual non-cumulative *preference shares* of each of its *related undertakings* that is a *regulated related undertaking* and the book value of the investments by *related undertakings* of the *firm* in the perpetual non-cumulative *preference shares* of each of its *related undertakings* that is a *regulated related undertaking* – in a manner consistent with the calculation of *GCR* in PRU 8.3.
37. The entries at line 28 must equal the net contribution to innovative *tier one capital resources* of the *firm's related undertakings* in accordance with the calculation in PRU 8.3.53R (2).
38. The entries at lines 25-28 must be restricted to comply with PRU 8.3.45R, so that the total of the amounts in lines 24-28 is not greater than the amount in line 19, and the total amount in lines 27 and 28 is not greater than 15/85 of the total of the amounts in lines 19, 24, 25, 26. Amounts in excess of the limits are entered at lines 42 and 43 as appropriate. If line 42 or 43 includes amounts excluded from line 26 or 28, these amounts must be stated in a supplementary note (code 0304).
39. The entries at line 32 for investments in own *shares* should, in the majority of cases, be zero.
40. For the purpose of completing line 33, the *firm* should refer to PRU 2.2.84R and 2.2.85G.

41. The amounts in line 34 must be calculated in accordance with *PRU 2.2.80R* and *2.2.81R*.
42. The entries at line 36 must equal the total of any of the deductions of the type specified in lines 32-35 that apply to the *firm's related undertakings*.
43. The entries at lines 45 and 46 for perpetual cumulative *preference shares*, subordinated *debt* and *securities* must be the total, unrestricted, amounts that the *firm* can include in *upper tier two capital* in accordance with *PRU 2.2.100G* to *PRU 2.2.106G*.
44. The entries at line 47 must equal the net contribution to *upper tier two capital resources* of the *firm's related undertakings* – ie. the sum of the *firm's* share of the *upper tier two capital resources* of each *related undertaking* less the book value of the *firm's* investment in the *upper tier two capital* of its *related undertakings* – in a manner consistent with the calculation of *GCR* in *PRU 8.3*.
45. The types of capital instrument that a *firm* can include within its *lower tier two capital* are set out at *PRU 2.2.107G* to *PRU 2.2.115G*. These should be split between fixed term *preference shares* and other *tier two instruments* and entered at lines 51 and 52 respectively.
46. The entries at line 53 must equal the net contribution to *lower tier two capital resources* of the *insurer's related undertakings* in accordance with the calculation in *PRU 8.3.57R(2)*.
47. The effect of the restrictions at *PRU 8.3.45R* applying to *tier two capital* are shown at lines 62 and 63. Line 62 relates to *tier two capital* as a whole and equals the excess (if any) of line 61 over line 39. Line 63 relates to *lower tier two capital* and equals the excess (if any) of line 59 over the sum of line 62 and 1/2 line 39.
48. The entries at line 71 must be nil.
49. Line 73 must show the deductions for inadmissible assets required by *PRU 8.3.59R*.
50. Line 74 must show the assets in excess of *market risk* and *counterparty* limits in *PRU 8.3.70R*.
51. Line 75 must show negative adjustments for *related undertakings* that are *ancillary services undertakings* required by *PRU 8.3.62R*.
52. The entries at line 76 must be nil.
53. The entries in line 77 must show the total amount calculated in respect of ineligible surplus in accordance with *PRU 8.3.65R*.
54. The entry at line 81 is determined as the amount of the *firm's capital resources* available to meet its *guarantee fund* requirement, having regard to *PRU 8.3.45R(2)*. Line 81 must be either:
  - line 79; or
  - (if less) the sum of lines 19, 25, 26, 42, 45, 46, 47 and 59 less the sum of lines 37, 62 and 63.
55. The entry at line 82 is determined as the amount of the *firm's capital resources* available to meet 50% of its *minimum capital requirement*, having regard to *PRU 8.3.45R(1)(a)*. Line 82 must be either:
  - line 79; or
  - (if less) sum of lines 19, 24, 25, 26 and 42 less line 37.
56. The entry at line 83 is determined as the amount of the *firm's capital resources* available to meet 75% of its *minimum capital requirement*, having regard to *PRU 8.3.45R(1)(b)*. Line 83 must be either:
  - line 79; or
  - (if less) the sum of lines 19, 24, 25, 26, 41, 42, 45, 46 and 47 less line 37 and any excess of line 62 over line 59.
57. Amounts relating to financial engineering shown in lines 91-96 must not include amounts in *related undertakings*.

### Instructions 58 onwards apply to all firms

58. Any arrangement relating to *long-term insurance business* which is not entered in lines 91 to 95, but which falls within the definition of financing arrangement in paragraph 12(4) of Appendix 9.4 (Abstract of valuation report) must be disclosed in a supplementary note (code 0305) to this Form.
59. The entry at line 91 (implicit items) must equal the sum of the entries at lines 22 and 41. Lines 92 to 95 do not apply to *general insurance business* and line 91 is only likely to apply to *long-term insurance business*.
60. The entry at line 92 must equal the gross amount of any contingent liability to repay a *debt* to or recapture a liability from a *reinsurer* not already recognised in Form 14. The *firm* must provide in a supplementary note (code 0306) to this Form the following information on each material *reinsurance* arrangement:
- the amount of any *reinsurance* offset (i.e. the amount of the difference between the *mathematical reserves* at the end of the *financial year in question* were that *reinsurance* to be ignored and the amount of the *mathematical reserves* after deducting the *mathematical reserves* reinsured);
  - the amount of the contingent liability for payment to the *reinsurer*; and
  - the commutation value at the end of the *financial year in question* of the *reinsurance* arrangement.
61. The entry at line 93 must equal the amount of any contingent asset receivable from a *cedant* not already recognised in Form 13 or 14. The *firm* must provide in a supplementary note (code 0307) to this Form the following information on each material outgoing *reinsurance* arrangement:
- the amount of any *reinsurance* liability (i.e. the amount of the difference between the *mathematical reserves* at the end of the *financial year in question* including the *mathematical reserves* reinsured 'in', and the amount of the *mathematical reserves* were that *reinsurance* to be ignored);
  - the amount of the contingent asset for payments from *cedants*; and
  - the commutation value at the end of the *financial year in question* of the *reinsurance* arrangement.
62. The amount to be shown for contingent loans at line 94 must be the amount, including any interest accrued, still to be repaid from future profits under the arrangements, as at the end of the *financial year in question*, not already recognised in Form 14.
63. Line 95 must include the potential charge against future profits in respect of any other types of financial engineering not included in lines 91 to 94 where the gross amount of any contingent liability is not already recognised in Form 14.
64. The *firm* must provide an explanation of the nature of the adjustments in line 94 and 95 in a supplementary note (code 0308) to this Form, together with the amount of the adjustment for each material arrangement. As part of this note, the commutation value of each of the items included at lines 94 and 95, to the extent that value is not already a component of line 79, must be disclosed.
65. Details of any promises to *long-term insurance business policyholders* conditional upon future profits (other than bonuses not yet declared), or other charges to future profits not already disclosed, must be provided in a supplementary note (code 0309) to this Form.
66. A reconciliation of net *admissible assets* to *total capital resources* after deductions (line 79) must be provided as a supplementary note (code 0301). The reconciliation must contain the following items:
- (i) Net *admissible assets* [Form 13 line 89 (other than long-term business) plus Form 13 line 89 (long-term) less the sum of lines 11, 12 and 49 in Form 14 less Form 15 line 69]
  - (ii) Any components of *capital resources* that are treated as a liability in Form 14 or 15 (each to be specified and identified to the entries on Forms 3 and 14/15). (In particular this would include any subordinated loan capital.) [These items would be added to net *admissible assets*

in the reconciliation]

- (iii) Any components of *capital resources*, not included in (ii), that arise as a result of a *waiver* and are not represented by *admissible assets* included in Form 13 (each to be specified and identified to the entries on Form 3). (In particular this would include any *implicit items* included as a result of a *waiver* within *capital resources*.) [These items would be added to net *admissible assets* in the reconciliation]
- (iv) Any other items, each such item to be separately specified. An explanation of each such item is to be provided together with, if applicable, the reference to where the item is included elsewhere in the *return* or in the *firm's* stand-alone accounts prepared under the Companies Act 1985 or (for *firms* not preparing accounts under the Companies Act) equivalent overseas legislation or the applicable *United Kingdom* legislation). [These items would be added to or deducted from net *admissible assets* in the reconciliation as appropriate.]

The net *admissible assets* in item (i) plus or minus the additions and deductions in items (ii) to (iv), should equal line 79 (Total capital resources after deductions).

Forms 9 and 9A of Appendix 9.1 (Balance sheet and profit and loss account) are deleted.

The instructions for completion of Form 10 are amended as follows:

### **Instructions for completion of Form 10**

1. An external insurer (other than a pure reinsurer), an EEA-deposit insurer or a Swiss general insurer must complete Form 10 in respect of business carried on through a branch in the United Kingdom. An UK-deposit insurer must complete Form 10 in respect of business carried on through its branches in EEA States taken together.
2. Lines 24-27, 51 and 52 should be blank.
- ~~1. Amounts included at lines 24 to 27 must be as determined in accordance with Rule 2.10.~~
- ~~3.2.~~ Line 63 must be equal to lines 13.92.2 to 13.95.2 less lines 13.92.1 to lines 13.95.1 of the Form for the total other than *long-term insurance business assets* category.
- ~~4. 3.~~ Line 64 must be Form 15.61.2 less 15.61.1.
5. Line 65 should include transfers from or to head office. (note 1002).

Form 11 of Appendix 9.1 (Balance sheet and profit and loss account) is amended, and Form 12 and the instructions to Forms 11 and 12 are replaced as follows:

**Calculation of general insurance capital requirement – premiums amount and brought forward amount****General insurance business : Calculation of required margin of solvency – first method and brought forward**

<b>General insurance capital requirement</b> (higher of lines 41 and 42)							

## Instructions for completion of Forms 11 and 12

### Long-term insurance business

1. For a *composite firm*, Forms 11 and 12 must be completed separately for the total *general insurance business* and for the total *long-term insurance business* which is *class IV* or supplementary accident and sickness insurance business. For other *firms*, the forms must be completed for the total *general insurance business* or for the total *long-term insurance business* which is *class IV* or supplementary accident and sickness insurance business, as appropriate.
2. Notwithstanding instruction 1, if the gross annual office premiums for *class IV* business and supplementary accident and sickness insurance in force on the 'valuation date' do not exceed 1% of the gross annual office premiums in force on that date for all *long-term insurance business*, Forms 11 and 12 need not be completed for *long-term insurance business* as long as it can be stated that the entry in line 21 of Form 60 exceeds the amount that would be obtained if Forms 11 and 12 were to be completed for *long-term insurance business*. In this circumstance, the method of estimating the entry in line 21 of Form 60, together with a statement of the gross annual office premiums in force at the 'valuation date' in respect of *Class IV* business and supplementary accident and sickness insurance, must be given.
3. When completing Forms 11 and 12 for *long-term insurance business* the accounting conventions for *general insurance business* should be followed, but reasonable approximations may be used if they are unlikely to result in an underestimate of the *insurance health risk capital component*.

### Marine mutuals

4. In the case of a *marine mutual* completing an abbreviated *return* under rule 9.36A, units must be the same as those used in Form M1. If units are in US\$ or US\$000, then references to the sterling equivalent of Euro in line 33 of Form 11 and lines 33 of Form 12 must be taken to be references to the US\$ equivalent of the specified amount of Euro and the Forms must be amended to reflect the use of US\$. The bases of conversion adopted must be stated by way of a supplementary note to Form 11 (code 1101).

### Pure reinsurers

5. Lines 14 and 24 of Form 11 and line 27 of Form 12 must be left blank for a *pure reinsurer* that does not have *permission* under the *Act* to effect *contracts of insurance*.

### Prior year figures

6. *PRU 7.2.71R* requires recalculation of the *gross adjusted premiums amount* and the *gross adjusted claims amount* (but not during *financial years* beginning before 31 December 2004, because of the transitional provisions) if there has been a significant change to the business portfolio. This may alter the *claims amount* or the *premiums amount* used in calculating the *general insurance capital requirement* for the *financial year* in question. For this reason, entries in column 2 (but not the *brought forward amount*: this should (errors excepted) equal the *brought forward amount* calculated in the previous year's return) may differ from the corresponding entries from the previous year. Any restatement of the figures should be explained by way of a supplementary note to Form 11 (code 1102) and Form 12 (code 1202).
7. If the *financial year* began before 1 January 2004: then
  - 11.14.2, 11.24.2, 11.52.2 and 12.27.2 should be left blank;
  - lines 21 to 41, column 2, of Form 12 relating to *long-term insurance business*, should be left blank; and
  - no amounts should be included in column 2 of Form 11 that relate to *class IV* business.
8. Where the *financial year* began between 1 January 2004 and 31 December 2004 (inclusive), the previous *financial year's* figures would normally be those sent to the *FSA* under rule 9.6(1B) and may be unaudited.
9. If the *financial year* began before 1 January 2005:
  - the treatment of "actuarial health insurance" in the calculation will have changed and prior year figures in lines 32 and 33 of Form 11 and lines 32 and 33 of Form 12 may be inappropriate because the form does not represent the calculation at the time. If so, these figures should be left blank and an

explanation should be provided by way of a supplementary note to Form 11 (code 1103) and Form 12 (code 1203).

- the *firm* would not have had a reference period in relation to the *previous financial year* if it had been in existence for less than 3 or 7 *financial years* (as appropriate). If it had no reference period, then lines 11 to 41, column 2, of Form 12 should be left blank.

#### Premiums and claims

10. *PRU 7.2.66R* requires amounts of *premiums* and *claims* to be determined in accordance with *PRU 1.3* and so (by virtue of *PRU 1.3.5R*) normal accounting conventions will generally apply. However, *premiums* and *claims* are defined by references to *contracts of insurance* and these themselves are defined by the *Regulated Activities Order* so that *premiums* or *claims* may be included for contracts that would not be treated as insurance under normal accounting conventions.

#### Euro

11. The Euro amounts in the calculation of line 33 of Form 11 and line 33 of Form 12 will change from time to time as the result of indexation in accordance with *PRU 7.2.49R*. The conversion rate to be used is described in *PRU 7.2.50R*. Changes in the Euro amounts or conversion rates will not affect prior year figures.

#### Actuarial health insurance

12. "Actuarial health insurance" refers to health insurance business that meets the conditions of *PRU 7.2.72R* or for *class IV insurance business* those conditions as modified by *PRU 7.2.86R*.

#### **Instructions for completion of Form 11**

1. Line 30 represents the *gross adjusted premiums amount* calculated in accordance with *PRU 7.2.56R*, if the *financial year* has 12 months. Otherwise line 31 represents the *gross adjusted premiums amount*.
2. In accordance with *PRU 7.2.54R*, the reinsurance ratio calculated at line 49 must be:
  - 100% if sub-total D / sub-total C exceeds 100%;
  - 50% if sub-total D / sub-total C is less than 50%; and
  - sub-total D / sub-total C, otherwise.
3. The provisions in line 51 must be net of *reinsurance* and must not be discounted or reduced to take account of investment income, except for:
  - risks in *classes 1 or 2*;
  - reductions to reflect the discounting of annuities; and
  - a *pure reinsurer* that does not have *permission* under the *Act* to effect *contracts of insurance*.For these exceptions, the discount must be calculated in accordance with *PRU 1.3.5R* and, if any amounts in line 51 are discounted, a supplementary note to the Form 11 (code 1104) must describe the items that are discounted.

#### **Instructions for completion of Form 12**

1. The reference period in line 11 is specified in *PRU 7.2.63R*.
2. Statistical methods may be used to allocate the *claims*, provisions and recoveries in respect of *classes 11, 12 and 13* in line 27.
3. Line 31 represents the *gross adjusted claims amount* calculated in accordance with *PRU 7.2.60R*.

Line 43 represents the *general insurance capital requirement* that relates to the following *financial year*: that is the year commencing on the day after the year end to which the *returns* relate.

...

Forms 13, 14, 15 and 16 of Appendix 9.1 (Balance sheet and profit and loss account) are amended as follows:

**Analysis of admissible assets**

Name of insurer

Global business/UK branch business/EEA branch business

Assets of a type not valued above (as valued in accordance with the insurance accounts rules). Other inadmissible assets	<b>95</b>		
Total assets determined in accordance with the insurance accounts rules (91 to 95)	<b>99</b>		

Amounts included in line 89 attributable to debts due from related insurers, other than those under contracts of insurance or reinsurance	<b>100</b>		
---	------------	--	--

### Instructions for completion of Form 13

1. Form 13 must be completed for the total *long-term insurance business assets* of the *insurer* or *branch* and for each fund or group of funds for which separate assets are appropriated. The words "total *long-term insurance business assets*" or the name of the fund must be shown against the heading "Category of assets". The corresponding code box must contain "10" for the total assets and, in the case of separate funds, code numbers allocated sequentially beginning with code "11".
2. Form 13 must be completed in respect of the total assets of the *insurer* or *branch* other than any *long-term insurance business assets*. The words "total other than *long-term insurance business assets*" must be shown against the heading "Category of assets", and the corresponding code box must contain "1".
3. (a) In the case of the *United Kingdom branch return* of an *external insurer* (other than a *pure reinsurer*) Form 13 must be completed for the following categories of assets -

Category	Code - other than <i>long-term insurance business assets</i>	Code - <i>long-term insurance business assets</i>
In the case of a <i>non-EEA insurer</i> , assets deposited under <del>rule 8.1(1)</del> <u>PRU 7.6.54R</u>	2	6
Assets maintained in the <i>United Kingdom</i>	3	7
Assets maintained in the <i>United Kingdom</i> and the other <i>EEA States</i>	4	8

- (b) In the case of an *EEA branch return* of a *UK-deposit insurer* which has made a *deposit* under ~~rule 8.1(2)~~ PRU 7.6.54R, Form 13 must be completed for the following categories of assets -

Category	Code – other than <i>long-term insurance business assets</i>	Code – <i>long-term insurance business assets</i>
Assets deposited under <del>rule 8.1(2)</del> <u>PRU 7.6.54R</u>	2	6
Assets maintained in the <i>United Kingdom</i> and the other <i>EEA States</i>	4	8
Assets maintained in the <i>United Kingdom</i> and the <i>EEA States</i> where <i>insurance business</i> is carried on	5	9

4. In lines 11 to 86 -
  - (a) for the purpose of classifying (but not valuing) assets, headings and descriptions used above, wherever they also occur in the balance sheet format in Schedule 9A to the *Companies Act*, must have the same meaning as in that Schedule,
  - (b) *dependants* of the *firm* must be valued in accordance with PRU 1.3.35R,
  - (c) a *related undertaking* that is not a *dependant* of the *firm* must be valued in accordance with PRU 1.3.35R unless:
    - It is an *ancillary services undertaking* which must be valued at zero;

- It is a *related undertaking* that is not a *regulated related undertaking* which must be valued in accordance with *PRU 1.3.11R*; or
- It is a *regulated related undertaking* which the *firm* has made an election to value in accordance with *PRU TR 25R*

~~(b)~~(d) other assets must be valued in accordance with rule 9.10, and

~~(e)~~(e) assets of any particular description must be shown after deduction of assets of that description which (for any reason) fall to be left out of account under ~~rule 4.14(2)(a)~~ *PRU 3.2.22R(3)(a)*, (b), (c), (g) and (h). Negative amounts should not be shown at lines 11 to 86. If a deduction is more than the value of the assets to which it relates, the excess element of the deduction should be shown at line 87; and

(f) deductions in respect of *market risk* and *counterparty risk* are to be shown in line 87, to the extent that (e) does not require them to be recognised in other lines.

5. The aggregate value of those investments which are:

- (a) *unlisted* investments falling within any of lines 41, 42, 46 or 48 which have been valued in accordance with ~~the rules in rule 4.8~~ *PRU 1.3*;
- (b) *listed* investments falling within any of lines 41, 42, 46 or 48 which have been valued in accordance with ~~rule 4.8~~ the rules in *PRU 1.3* and which are not *readily realisable*;
- (c) units or other beneficial interests in *collective investment schemes* ~~falling within rule 4.9(1)(e)~~ that:
  - (i) are not schemes falling within the *UCITS Directive*;
  - (ii) are not authorised unit trust schemes or recognised schemes within the meaning of *Part XVII of the Act*;
  - (iii) do not employ *derivative contracts* unless they meet the criteria in *PRU 4.3.5R*;
  - (iv) do not employ contracts or assets having the effect of *derivative contracts* unless they have the effect of *derivative contracts* that meet the criteria in *PRU 4.3.5R*; and
  - (v) do not include assets other than *admissible assets* among their property; or
- (d) reversionary interests or remainders in property other than land or buildings,

must be stated by way of a supplementary note (code 1301 for other than *long-term insurance business* and code 1308 for *long-term insurance business*) to this Form, together with a description of such investments.

6. The aggregate value of those investments falling within lines 46 or 48 which are *hybrid securities* are to be stated by way of a supplementary note (code 1302 for other than *long-term insurance business* and code 1309 for *long-term insurance business*) to this Form.

7. Amounts in respect of salvage or subrogation included above other than at line 73 are to be stated by way of a supplementary note (code 1303) to this Form.

8. The entry at line 85 must be equal to the sum of lines 22.29.3 and lines 25.24.99-99.

9. In line 93 "*Solvency margin deduction for subsidiary undertakings which are insurance undertakings*" refers to deductions under rule 4.2. The amount to be shown in line 93 shall represent the total of the relevant proportions in accordance with *PRU 1.3.37R* and *PRU 1.3.38R* of the *individual capital*

resources requirements of the regulated related undertakings.

10. In line 95 "Assets of a type not valued above" refers to assets left out of account under rule 4.1(3). In line 95 "inadmissible assets" refers to those assets described at PRU 2.2.86R that are not assets listed in PRU 2 Annex 1R.
11. Lines 60 to 63 and 85 relate only to *general insurance business*.
12. Lines 60 to 63 and 85 must be left blank for "Category of assets" codes "2", "3", "4" and "5".
13. Since the *technical provisions* for *claims* outstanding shown in **Form 15** may only be discounted or reduced to take account of investment income in limited circumstances, the amount shown at line 12 of **Form 15** may need to be increased (see instruction 4 to **Form 15**). In such cases, the *reinsurers'* share shown at line 61 must be adjusted to be consistent with the amount shown in line 12.
14. It would be appropriate to state the amount of any tangible leased asset included at line 80 by way of a supplementary note (code 1314 for other than *long-term insurance business* and code 1316 for *long-term insurance business*) to this Form.
15. Particulars of any other assets included at line 83 must be stated by way of a supplementary note (code 1315 for other than *long-term insurance business* and code 1317 for *long-term insurance business*) to this Form.

The source column of Form 14 is deleted.

Form 14

**Long term insurance business liabilities and margins**

Name of insurer

Global business/UK branch business/EEA branch

Financial year ended

Category of assets

		Company registration number	GL/UK/CM	day	month	year	units	Category of assets	
R14							£000		
						As at end of this financial year 1	As at end of the previous year 2		
Mathematical reserves, after distribution of surplus						11			
Cash bonuses which had not been paid to policyholders prior to end of the financial year						12			
Balance of surplus / (valuation deficit)						13			
Long term insurance business fund carried forward (11 to 13)						14			
Claims outstanding which had fallen due for payment before the end of the financial year		Gross amount				15			
		Reinsurers' share				16			
		Net (15-16)				17			
Provisions for other risks and charges		Taxation				21			
		Other				22			
Deposits received from reinsurers						23			
Creditors and other liabilities	Arising out of insurance operations	Direct insurance business				31			
		Reinsurance accepted				32			
		Reinsurance ceded				33			
	Debenture loans	Secured				34			
		Unsecured				35			
	Amounts owed to credit institutions						36		
	Other creditors	Taxation				37			
		Other				38			
Accruals and deferred income						39			
Provisions for adverse changes (calculated in accordance with rule 5.3) Provision for "reasonably foreseeable adverse variations"						41			
Total other insurance and non-insurance liabilities (17 to 41)						49			
Excess of the value of net admissible assets						51			
Total liabilities and margins						59			
Amounts included in line 59 attributable to liabilities to related companies, other than those under contracts of insurance or reinsurance						61			
Amounts included in line 59 attributable to liabilities in respect of property linked benefits						62			
Amount of any additional mathematical reserves included in line 51 which have been taken into account in the appointed actuary's certificate						63			

## Instructions for completion of Form 14

1. The Form must be completed for the total *long-term insurance business liabilities* and margins of the *insurer* or *branch* and for each fund or group of funds for which separate assets are appropriated. The words “total *long term insurance business assets*” or the name of the fund must be shown against the heading “Category of assets”. The corresponding code box must be completed with the same entries as were used on the corresponding Form 13.
  2. The entry at line 11 must equal the sum of lines 21, 43, 44 and 45 of the appropriate Form or Forms 58.
  3. The entry at line 12 must equal line 42 of the appropriate Form or Forms 58.
  4. The entry at line 13 must equal line 49 of the appropriate Form or Forms 58.
  5. The entry at line 14 must equal line 59 of the appropriate Form or Forms 40.
  6. Where the provision required by PRU 4.3.17R(3) is implicit (i.e. the obligation to pay the monetary amount is recognised under the rules in PRU 1.3), it would be appropriate to state, in a supplementary note (code 1404) to this Form, the amount of the provision.
- 67 The entry at line 51 must be:
- (a) the value of the *admissible assets* (as included in line 89 of the appropriate Form 13) representing the *long-term insurance funds*, fund or group of funds to which the Form relates, less
  - (b) the amount of those funds, fund or group of funds, being the sum of the amounts shown at lines 14 and 49.
- 7-8 The entry at line 63 must be zero for financial years ending on or after 31 December 2004. the amount specified in the appointed actuary's certificate in accordance with paragraph 8(a)(ii) of Appendix 9.6, but only insofar as it relates to the fund, funds or group of funds to which this Form 14 relates.
9. It would be appropriate to state, in a supplementary note (code 1403) to this Form, the amount of each provision, included in line 22, in respect of a deficit in a regulated related undertaking and the identity of the undertaking.

**Liabilities (other than long term insurance business)**

Name of insurer

Global business/UK branch business/EEA branch business

Financial year ended

		Company registration number	GL/UK/CM	Period ended		Units	
		R15		day	month	£000	
				As at the end of this financial year	1	As at the end of the previous year	
				2			
Technical provisions (gross amount)	Provision for unearned premiums	11					
	Claims outstanding	12					
	Provision for unexpired risks	13					
	Equalisation provisions	Credit business	14				
		Other than credit business	15				
	Other	16					
	Total (11 to 16)	19					
Provisions for other risks and charges	Taxation	21					
	Other	22					
Deposits received from reinsurers		31					
Creditors	Arising out of insurance operations	Direct insurance business	41				
		Reinsurance accepted	42				
		Reinsurance ceded	43				
	Debenture loans	Secured	44				
		Unsecured	45				
	Amounts owed to credit institutions		46				
	Other creditors	Taxation	47				
		Recommended dividend	48				
Other		49					
Accruals and deferred income		51					
Total (19 to 51)		59					
Provision for "reasonably foreseeable adverse variations" adverse changes calculated in accordance with Rule 5.3 [Regulation 61 of the Insurance Companies Regulations 1994]		61					
Cumulative preference share capital		62					
Subordinated loan capital		63					
Total (59 to 63)		69					
Amounts included in line 69 attributable to liabilities to related insurers, other than those under contracts of insurance or reinsurance		71					

## Instructions for completion of Form 15

1. Amounts in lines 11 to 13 and 16 must be stated gross of *reinsurers'* share.
2. The aggregate amount of any accrued dividend in respect of cumulative *preference shares* issued by the *insurer* must be shown by way of a supplementary note (code 1503) to this Form.
3. Only equalisation provisions that are created as a result of a regulatory requirement are to be included at lines 14 and 15
4. The amount shown in line 12 may only be discounted or reduced to take account of investment income:
  - (a) for *Class 1* or *2* business; or
  - (b) in respect of annuities; or
  - (c) if the *insurer* is a *pure reinsurer* which does not have permission under the *Act* to effect *contracts of reinsurance*.

So, if the *technical provisions* for *claims* outstanding for other business are discounted or reduced to take account of investment income, then they must be increased by the difference between the undiscounted and the discounted provisions. If the *technical provisions* are increased the amount of the increase must be shown by way of a supplementary note (code 1505) to this Form, together with the corresponding increase in the *reinsurers'* share shown in line 61 of **Form 13**.

5. It would be appropriate to state the amount of each provision, included in line 22, in respect of a deficit in a regulated related undertaking and the identity of the undertaking in a supplementary note (code 1504) to this Form.
6. Where the provision required by PRU 4.3.17R(3) is implicit (i.e. the obligation to pay the monetary amount is recognised under the rules in PRU 1.3), it would be appropriate to state, in a supplementary note (code 1506) to this Form, the amount of the provision.

...

### **Instructions for completion of Form 16**

1. In addition to the supplementary note (code 1601) required under **Appendix 9.1** paragraph 5(2), where any brought forward amounts on any Form are restated due to currency reconversion it would be appropriate to briefly state this fact in a supplementary note (code 1602) to this Form in order to facilitate the FSA's computerised validation of the return. This fact may be stated by a simple statement, e.g. 'Some of the brought forward amounts shown in the forms xx to xx have been restated from the corresponding carried forward amounts included in the previous year's return due to the reconversion of foreign currency amounts at a different rate of exchange'. No further details need be given.
2. Particulars of any amounts included at lines 21 must be stated by way of a supplementary note (code 1603) to this Form.
3. Particulars of any amounts included at lines 41 must be stated by way of a supplementary note (code 1604) to this Form.

...

Forms 18 and 19 of Appendix 9.1 (Balance sheet and profit and loss account) are inserted as follows:

**With-profits insurance capital component for the fund**

Name of insurer  
 With-profits fund  
 Financial year ended  
 Units

	<b>As at end of this financial year 1</b>	<b>As at end of the previous year 2</b>
--	---	---

**Regulatory excess capital**

Regulatory value of assets	Long-term admissible assets of the fund	11		
	Implicit items allocated to the fund	12		
	Mathematical reserves in respect of non-profit insurance contracts written in the fund	13		
	Long-term admissible assets of the fund covering the long-term insurance capital requirement allocated in respect of non-profit insurance contracts written in the fund	14		
	Long-term admissible assets of the fund covering the resilience capital requirement allocated in respect of non-profit insurance contracts written in fund	15		
	Total (11+12-(13+14+15))	19		
Regulatory value of liabilities	Mathematical reserves (after distribution of surplus) in respect of the fund's with-profit insurance contracts	21		
	Regulatory current liabilities of the fund	22		
	Total (21+22)	29		
Long-term insurance capital requirement in respect of the fund's with-profits insurance contracts		31		
Resilience capital requirement in respect of the fund's with-profits insurance contracts		32		
Sum of regulatory value of liabilities, long-term insurance capital requirement and resilience capital requirement (29+31+32)		39		
Regulatory excess capital (19-39)		49		

**Realistic excess capital**

Realistic excess capital	51		
--------------------------	----	--	--

**Excess assets allocated to with-profits insurance business**

Excess (deficiency) of assets allocated to with-profits insurance business in fund (49-51)	61		
Face amount of capital instruments attributed to the fund and included in capital resources (unstressed)	62		
Realistic amount of capital instruments attributed to the fund and included in capital resources (stressed)	63		
With-profits insurance capital component for fund (if 62 exceeds 63, greater of 61+62-63 and zero; else greater of 61 and zero)	64		

**Instructions for completion of Form 18**

1. The entries at lines 11, 12, 13, 14 and 15 must equal the values determined in accordance with *PRU 7.4.24R*.
2. The entry at line 19 must equal the value determined in accordance with *PRU 7.4.23R(1)*.
3. The entries at lines 21 and 22 must equal the values determined in accordance with *PRU 7.4.29R*.
4. The entries at lines 29, 31 and 32 must equal the values determined in accordance with *PRU 7.4.23R(2)(a)*, (b) and (c) respectively.
5. The entry at line 39 must equal the value determined in accordance with *PRU 7.4.23R(2)*.
6. The entry at line 49 must equal the value determined in accordance with *PRU 7.4.23R*.
7. The entry at line 51 must equal the value at Form 19, Line 66.
8. The entry at line 62 must equal C, determined in accordance with *PRU 7.4.7R(3)(a)*.
9. The entry at line 63 must equal D, determined in accordance with *PRU 7.4.7R(3)(b)*.
10. The entry at line 64 must equal the contribution in respect of the fund to the aggregate value determined in accordance with *PRU 7.4.7R(1)*.

**Realistic balance sheet**

Name of insurer

Additional amount potentially available for inclusion in line 62	81		
Additional amount potentially available for inclusion in line 63	82		

## Instructions for completion of Form 19

1. The entry at line 11 must equal the value at Form 18, Line 19.
2. The entry at line 12 must equal the value at Form 18, Line 12.
3. The entry at line 13 must be the amount determined in accordance with *PRU* 1.3 and excluded from the amount calculated in accordance with *PRU* 7.4.33R(1)(a).
4. The entry at line 21 must be the amount of the fund's excess *admissible assets*, determined in accordance with *PRU* 7.4.33R(1)(b).
5. The entry at line 22 must be the present value of future profits (or losses) on any *non-profit insurance contracts* written in the *with-profits fund*, determined in accordance with *PRU* 7.4.33R(1)(c).
6. The entry at line 23 must be the market value of any *derivative* or *quasi-derivative* determined in accordance with *PRU* 7.4.33R(1)(d).
7. The entry at line 24 must be the amount determined in accordance with *PRU* 7.4.33R(1)(e).
8. The entry at line 25 must be the amount determined in accordance with *PRU* 7.4.33R(1)(f).
9. The entry at line 26 must be the amount determined in accordance with *PRU* 7.4.32R(1).
10. The entry at line 27 must be any other amount providing capital support to the fund under a support arrangement, included with the prior agreement of the *FSA*.
11. The entry at line 31 must be the amount determined in accordance with *PRU* 7.4.40R(1).
12. The entries at lines 32, 33, 34, 35, 36, 41, 42, 43, 44, 45, 46 and 47 must be the amounts determined in accordance with *PRU* 7.4.137R(1) to (11).
13. The entry at line 32 is the (positive) amount determined in accordance with *PRU* 7.4.137R(1) if this represents a surplus.
14. The entry at line 33 is the (positive) amount determined in accordance with *PRU* 7.4.137R(1) if this represents a deficit.
15. The entries at lines 34, 35, 36, 41, 42, 43, 44 and 45 are the amounts determined in accordance with *PRU* 7.4.137R(2) to (9) respectively.
16. The entries at lines 46 and 47 are the values determined in accordance with *PRU* 7.4.137R(10) and (11).
17. The entry at line 49 must be the amount determined in accordance with *PRU* 7.4.40R(2).
18. The entry at line 51 must be the amount determined in accordance with *PRU* 7.4.40R(3).
19. The entry at line 59 must be the amount determined in accordance with *PRU* 7.4.32R(2)(a).
20. The entry at line 62 must be the amount described as A and determined in accordance with *PRU* 7.4.43R(3)(a) adjusted to exclude any amount taken into consideration under *PRU* 7.4.45R(2)(c).
21. The entry at line 63 must be any amount taken into consideration under *PRU* 7.4.45R(2)(c) in determining the amount described as A in accordance with *PRU* 7.4.43R(3)(a).
22. The entry at line 64 must be the amount described as A and determined in accordance with *PRU* 7.4.43R(3)(a).
23. The entry at line 65 must be the amount determined in accordance with *PRU* 7.4.32R(2)(b).
24. The entry at line 66 must be the amount determined in accordance with *PRU* 7.4.32R.
25. The entry at line 81 must be an amount not exceeding the sum of the value of the net shareholders assets of the *firm* and the surplus assets of the *firm's non-profit funds*, to the extent not included at any Form 19 line 27 or at any Form 19 line 62 and to the extent not required to meet regulatory capital requirements in respect of any business written outside the fund.
26. The entry at line 82 must be an amount not exceeding 50% of the present value of future profits arising from insurance contracts written by the *firm* outside its *with-profits funds* reduced by the sum of any amounts included at any Form 19 line 63.

APPENDIX 9.2 (rules 9.14 and 9.22)

**GENERAL INSURANCE BUSINESS:  
REVENUE ACCOUNT AND ADDITIONAL INFORMATION  
(FORMS 20 TO 39)**

---

...

7. Where an *insurer* includes *insurance business* in another *accounting class* under 6(1) or 6(2)(a), the following information must be stated by way of a supplementary note (code 2001) to **Form 20** -

...

...

**Presentation of amounts**

- 8A Where in any Form an amount which is shown brought forward from a previous year differs from the corresponding amount shown as carried forward from that year and the difference is not due solely to the use of a different rate to express other currencies in sterling, an explanation of the reason for the difference must be given by way of a supplementary note to that Form in accordance with **Appendix 9.1** paragraph 7. For **Forms 21, 22, 23, 24, 26, 27, 28, 31, 32, 33, 34** or **35**, the code for the supplementary note is 2101, 2201, 2301, 2401, 2601, 2701, 2801, 3101, 3201, 3301, 3401 or 3501 respectively.

...

**UK and overseas business**

16. (1) For each *accounting class* there must be stated separately for business accounted for on an accident year and on an underwriting year basis the following by way of a supplementary note (code 2002) to **Form 20** –

...

...

**Transfers of general insurance business**

17. (1) If, during the *financial year*, *policies* already effected by another *insurer* have been transferred to the *insurer*, an *insurer* must state, in respect of each *accounting class*, the following by way of a supplementary note to **Form 23** (code 2302) and **Form 24** (code 2403) -

...

...

**Unearned premiums**

18. In **Forms 21** and **25**, the basis on which unearned premiums are calculated and the reason for adopting this basis must be stated by way of supplementary note

(code 2102 in the case of Form 21 and code 2501 in the case of Form 25).

...

### **Provision for unexpired risks**

...

20. (1) Where the amount included at column 3 line 19 (provision for unexpired risks) in any **Form 22** or at column 99-99 of line 23 (provision for unexpired risks) in any **Form 25** has been determined after taking into account expected investment return, the following must be stated by way of supplementary note (code 2205 in the case of Form 22 and code 2502 in the case of Form 25) –

...

...

### **Cessation of business**

21. (1) If the *insurer* has effected no 'new contracts of insurance' of any one or more *classes* of *general insurance business* during the financial year in question, the date on which the last 'new contract' of each such *class* was effected must be stated by way of a supplementary note (code 2003) to Form 20.

...

### **Claims management costs**

22. (1) In **Forms 22** and **24**, the basis used for the determination of amounts for *claims management costs* payable in the *financial year in question* and carried forward to the following financial year must be stated by way of a supplementary note (code 2202 in the case of Form 22 and code 2404 in the case of Form 24).

...

- (4) Where the amount in respect of *claims management costs* carried forward and included in any Form 22 or 24 has been determined after taking into account expected investment return, there must be stated by way of supplementary note to ~~that~~ Form 22 (code 2203) or Form 24 (code 2405)-

...

### **Acquisition costs**

23. The basis used for determination of the amounts for acquisition costs (other than commission) payable in the *financial year in question* and carried forward to the next *financial year*, as shown at line 22 of **Form 22** and line 42 of **Form 24**, must be stated by way of a supplementary note to ~~these~~ Forms 22 (code 2204) and Form 24 (code 2406).

### **Underwriting year accounting**

24. (1) With reference to the *financial year in question* and in respect of each *accounting class*, the following information must be stated by way of a supplementary note (code 2402) to **Form 24** –

...

**Business managed together**

...

25. ...  
(2) Where any amount is shown on **Form 25** or **29** for the transfer of anticipated surplus, the following must be stated by way of supplementary note to ~~that Form~~ **Form 25** (code 2504) or **Form 29** (code 2901) –

...

**Application of accounting practice**

26. ...  
(2) Where amounts of in respect of an inwards or outwards *contract of insurance* have been excluded from the revenue account, the following must be shown by way of a supplementary note (code 2004) to **Form 20** –

...

...

27. ...  
(5) The following must be stated by way of supplementary note (code 3003) to **Form 30** –

...

28. Where the *reinsurers'* share of *claims* incurred (as stated in any Form 22 or **25**) includes amounts expected to be covered from *reinsurers* more than 12 months after the payment of the underlying gross *claims* by the *insurer*, the following must be stated by way of supplementary note to **Form 22** (code 2206) or **25** (code 2503) (as appropriate) –

...

...

29. ...  
(2) Where the name required by (1) is not sufficient to identify the nature of the objects exposed to such risks and the nature of the cover provided against such risks, the information must be stated by way of a supplementary note to **Form 31** (code 3102), **32** (code 3202) or **34** (code 3402) as the case may be.

...

...

### **Country codes**

31. The country codes required for **Forms 31, 32 and 34** must be in accordance with the following Table:

<b><u>COUNTRY</u></b>	<b><u>CODE</u></b>
<u>Afghanistan</u>	<u>QS</u>
<u>Albania</u>	<u>CE</u>
<u>Algeria</u>	<u>KA</u>

Forms 20, 21, 25, 26, 28, 30, 37, 38 and 39 of Appendix 9.2 (General Insurance Business: revenue account and additional information) are amended as follows:

**Instructions for completion of Form 20**

- Particulars of any amounts included at lines 16, 25 or 32 ('other technical income or charges') are required to be stated by way of a supplementary note (code 2005) to the form.

...

**Instructions for completion of Form 21**

- Lines 13 to 15 of **Form 21** should include *premiums* actually received prior to the *financial year*, but relating to risks incepted in the *financial year* and exclude *premiums* received during the *financial year*, but relating to risks incepting after the end of the *financial year*. In **Forms 13** and **15** the accounting treatment adopted for *premiums* received in respect of risks incepting in future *financial years* should be the same as that adopted in the shareholder accounts, or, if there are no shareholder accounts, should be in accordance with generally accepted accounting practice. If this results in different amounts for the provision of unearned premium (either gross or the *reinsurers'* share) being shown in **Forms 13** or **15** as compared to **Form 21**, it would be appropriate to identify, and provide an explanation, of the difference in a supplementary note (code 2103) to the form.

...

#### Instructions for completion of Form 25

...

8. Particulars of any amounts included at line 25 on must be stated in a supplementary note (code 2505) to the form.

...

#### Instructions for completion of Form 26

...

11. Where the allocation or apportionment to business categories of any *reinsurance* treaties accepted which have previously been reported differs from that adopted previously, rule 9.17(3)(a) requires an explanation of the nature of the change and the reasons for it in a supplementary note (code 2603) to this form.
12. Where the allocation or apportionment to business categories of any *reinsurance* treaties accepted differs from that adopted previously for *reinsurance* treaties relating to similar risks, rule 9.17(3)(a) requires an explanation of the nature of the change and the reasons for it in a supplementary note (code 2604) to this form.

...

#### Instructions for completion of Form 28

...

8. Where the allocation or apportionment to business categories of any *reinsurance* treaties accepted which have previously been reported differs from that adopted previously, rule 9.17(3)(a) requires an explanation of the nature of the change and the reasons for it in a supplementary note (code 2803) to this form.
9. Where the allocation or apportionment to business categories of any *reinsurance* treaties accepted differs from that adopted previously for *reinsurance* treaties relating to similar risks, rule 9.17(3)(a) requires an explanation of the nature of the change and the reasons for it in a supplementary note (code 2804) to this form.

...

**Instructions for completion of Form 30**

...

5. The methods and assumptions used in determining the yield in accordance with instruction 4 must be stated by way of a supplementary note (code 3001) to this Form.

...

7. The treatment of expected income payments from any asset where such payment is in default must be stated by way of a supplementary note (code 3002) to this Form.

...

**Equalisation provisions**

Global business/UK branch business/EEA branch business

Financial year ended

Company registration number	GL/UK/CM	Period ended			Units
		day	month	year	
<b>R37</b>					<b>£000</b>

	Business group grouping A (property)	Business group grouping B (business interruption)	Business group grouping C (marine and aviation)	Business group grouping D (nuclear)	Business group grouping E (non-proportional treaty)	All business groups	Credit insurance business
	1	2	3	4	5	6	7
<b>Calculation of the maximum provision</b>							
Total net premiums written in the previous 4 years	11						
Net premiums written in the current year	12						
Maximum provision	13						

**Calculation of the transfer to/from the provision**

Equalisation provision brought forward	21						
Transfers in	22						
Total abnormal loss	23						
Provisional transfers out	24						
Excess of provisional transfer out over fund available	25						
Provisional amount carried forward (21+22-24+25)	26						
Excess, if any, of 26 over 13	27						
Equalisation provision carried forward (26-27)	28						
Transfer in/(out) for financial year (28-21)	29						

### Instructions for completion of Form 37

1. Lines 11 & 12, columns 1 to 5, must include net written premium from ~~the~~ Form 21 (accident year *insurance business*) and/or Form 24 (underwriting year *insurance business*) that in whole or in part covers each ~~business group~~ insurance business grouping.
2. Only premium for *financial years* covered by the scheme may be included in lines 11 & 12, columns 1 to 5 (see ~~Appendix 6.1, Part 11~~ see PRU 7.5.20R). Adjustments in respect of prior years must be included at line 12.
3. Any *insurance business* that has been transferred must be excluded from lines 11 & 12, columns 1 to 5 (see ~~rules 6.8 and 6.9~~ see PRU 7.5.32R to PRU 7.5.37G).
4. Line 13, columns 1 to 5 must show the maximum provision for each ~~business group~~ insurance business grouping calculated in accordance with ~~Appendix 6.1~~ PRU 7.5.24R. If *insurance business* in a group has been written for less than 5 years, the average of the qualifying years must be used.
5. If all rights and obligations in an ~~business group~~ insurance business grouping have been transferred, line 13 columns 1 to 5 must be left blank at the appropriate column.
6. Line 22, columns 1 to 5 must be calculated by multiplying the figure at line 12 for each ~~business group~~ insurance business grouping by the % in ~~paragraph 3 of Part 1 of Appendix 6.1~~ PRU 7.5.27R.
7. Line 23 must be, for each ~~business group~~ insurance business grouping, the total of abnormal losses, if any, brought forward from Forms 38 and 39, line 19. These must be entered in the same columns as they were on Forms 38 and 39.
8. The transfer out for each ~~business group~~ insurance business grouping at line 24, columns 1 to 5 must not exceed the line 13 maximum provision for that group.
9. The sum of columns 1 to 5 of lines 13, 22 and 24 must be entered in column 6 of the relevant line.
10. In the first year of the scheme, line 21 column 6 must be left blank. In subsequent years this figure must be brought forward from the previous year's figure (normally the figure at Form 15, line 15). Only equalisation provisions required by ~~the rules in the Equalisation Reserves Rules~~ PRU 7.5.11R to PRU 7.5.37G may be included.
11. The calculations for lines 25 to 29, column 6 must be carried out and the net transfer in or out for the year must be entered at Form 16, line 12, and the provision carried forward entered at Form 15, line 15.
12. Line 13, column 7 must be 150% of the highest annual amount of net premiums written in the last 5 years.
13. Line 21, column 7 must equal the statutory credit equalisation provision, if any, brought forward from the previous year at Form 15, line 14.
14. Line 22, column 7 must be 75% of the technical surplus, if any, brought forward from Forms 38 and/or 39, line 29, subject to a limit of 12% of line 12.
15. Line 24, column 7 must equal the technical deficit, if any, brought forward from Forms 38 and/or 39, line 29.
16. The calculations for lines 25 to 29, column 7 must be carried out and the net transfer in or out for the year must be entered at Form 16, line 12, and the provision carried forward entered at Form 15, line 14.

**Equalisation provisions technical account : Accident year accounting**

### Instructions for completion of Form 39

1. Apart from *credit insurance business*, any *insurance business* transferred to an *insurer* by novation or under Part VII of the *Act* (or the *1982 Act*) must be accounted for in accordance with ~~rule 6.9~~ PRU 7.5.34R.
2. The entries at line 11 must be derived from Form 24, that in whole or in part covers the ~~*business group insurance business grouping*~~, at line 19, column 99-99.
3. The entries at line 12 must be derived from column 99-99 of Forms 24 and 25, that in whole or part covers the ~~*business group insurance business grouping*~~, as follows:  
  
line 29 on Form 24 plus line 29 less line 15 plus line 24 on Form 25 less line 29 plus line 15 less line 24 on Form 25 for the *preceding financial year*.
4. The entries at line 13 must be line 11 (or nil if line 11 is negative) multiplied by the trigger *claims* ratio for the ~~*business group insurance business grouping*~~.
5. For each ~~*business group insurance business grouping*~~ the entry at line 19 must be the amount, if any, by which the entry at line 12 for that ~~*business group insurance business grouping*~~ exceeds the entry at line 13. If the entry at line 12 does not exceed the entry at line 13, line 19 must be left blank.
6. The entry at line 21 must be derived from Form 24 for *accounting class* 8, at line 19, column 99-99, to include only *insurance business* in *general insurance business class* 14.
7. The entry at line 22 must be derived from Form 24 for *accounting class* 8, at line 29, column 99-99, plus line 53, column 99-99 less line 51, column 99-99, to include only *insurance business* in *general insurance business class* 14.
8. The entry at line 23 must be derived from Form 24 for *accounting class* 8, at line 39, column 99-99, to include only *insurance business* in *general insurance business class* 14.
9. The entry at line 24 must be derived from Form 24 for *accounting class* 8, at line 49 column 99-99, to include only *insurance business* in *general insurance business class* 14.
- ...

Forms 40, 43 and 44 of Appendix 9.3 (Long-term Insurance business: revenue account and additional information) are amended as follows:

#### Instructions for completion of Form 40

...

2. Any item of income which cannot properly be allocated to lines 11, 12, 13 or 14 must be entered in line 15, and similarly, any item of expenditure which cannot properly be allocated to lines 21, 22, 23 or 24 must be entered in line 25. Particulars of such items must be specified in a supplementary note (Code 4002).
3. Where an *insurer* decides to allocate to the *long-term insurance business* the whole or any part of investment income and/or net capital gains arising from assets not attributable to its *long-term insurance business*, the amounts in question must be shown as a transfer in line 26 and particulars must be specified in a supplementary note (Code 4003).
4. Where a transfer is made to the non-technical account, the entry at line 26 must show amounts which have been included in line 47 of Form 58. Transfers from or to other funds must be included in line 15 or 25, with transfers to reserves associated with a transfer of contracts from one fund to another specified in a supplementary note (Code 4004).

...

8. If any of the brought forward amounts differs from the corresponding carried forward amounts in the previous return, the reason must be stated in a supplementary note as specified in paragraph 7 of Appendix 9.1 (Code 4001).
9. If the bases of conversion adopted in respect of foreign currency for income and expenditure have not already been stated in a note to Form 16, the bases should be stated in a supplementary note as specified in paragraph 5(2) of Appendix 9.1 (Code 4005).
10. Where an insurer maintains more than one long-term insurance fund, the principles and methods applied to apportioning the investment income, the increase or decrease in the value of assets brought into account, expenses and taxation between the different funds must be stated in a supplementary note as specified in paragraph 4(1) of Appendix 9.3 (Code 4006).
11. Where arrangements have been in force during the financial year for the provision either by or to the insurer of management services, this fact must be stated in a supplementary note (Code 4008) together with the name of the other party (to whom or from whom such services were provided or received) - see paragraph 5 of Appendix 9.3. This statement is only needed where a substantial part of the day-to-day administration of an insurer is undertaken by another company or vice versa. Note that where the arrangement is between two insurers, the directors will need to consider very carefully the form of their certificate under Appendix 9.6, Part I paragraph 4(e).
12. Details of any material connected-party transactions as required under rule 9.39 must be stated in a supplementary note (Code 4009).

...

#### Instructions for completion of Form 43

1. The basis on which the assets have been valued must be stated in a supplementary note (Code 4301).
2. The aggregate value of rights (gross of *variation margin*) and the aggregate amount of liabilities (gross of *variation margin*) under *derivative contracts* (or in respect of contracts or assets which have the effect of a *derivative contract*) must each be stated in a supplementary note (Code 4302). The corresponding figures net of *variation margin* must also be stated. For this purpose, rights and liabilities must not be set off against one another unless

- (i) such rights and liabilities may be set off against each other in accordance with generally accepted accounting practice, and
  - (ii) such set off results (in whole or in part) from the closing out of obligations under a contract.
3. Where there is a liability to repay *variation margin* and there are no arrangements for netting of amounts outstanding or the arrangements would not permit the accounting of such amounts on a net basis in accordance with generally accepted accounting practice, it must be so stated in a supplementary note (Code 4303).

...

#### **Instructions for completion of Form 44**

...

2. Any item of income which cannot properly be allocated to lines 11, 12, or 13 must be entered in line 14, and similarly, any item of expenditure which cannot properly be allocated to lines 21, 22, 23, 24 or 25 must be entered in line 26. Particulars of such items must be specified in a supplementary note (Code 4402).

...

4. If any of the brought forward amounts differs from the corresponding carried forward amounts in the previous *return* the reason must be stated in a supplementary note as specified in paragraph 7 of **Appendix 9.1** (Code 4401).

...

...

#### APPENDIX 9.4 (rule 9.31)

### ABSTRACT OF VALUATION REPORT ~~PREPARED BY APPOINTED ACTUARY~~ (FORMS 46 to 60)

---

...

(c) references to **Form 57** are to either of the versions of that Form set out in this Appendix and an insurer is free to use either version; and

~~(e)~~ (d) boxes marked 'UK/OS' must be completed by the insertion of 'UK' for 'UK contracts' and 'OS' for 'overseas contracts'.

...

3. A statement that the valuation has been made in conformity with PRU 7.3.10R ~~rule 5.6~~ or, where this was not the case, such qualification, amplification or explanation as necessary.

...

6. (1) The general principles and methods adopted in the valuation, including specific reference to the following –

...

(b) the method by which due regard has been given to the duty to treat customers fairly ~~the reasonable expectations of policy holders~~, as required by PRU 7.3.10 R(6) ~~rule 5.6~~, and by which account has been taken of the custom and practice of the insurer in the manner and timing of the distribution of profits or the grant of discretionary additions over the duration of each policy, as required by PRU 7.3.10R(5) ~~rule 5.7(6)~~;

(c) where the net premium method has been used, whether and to what extent it has been modified, for what purposes any such modification has been made and whether any modifications on account of *zillmerising* conform to PRU 7.3.43R ~~rule 5.10~~;

(d) whether any negative reserves arose and the steps taken to ensure that *no contract of insurance* was treated as an asset, as required by PRU 7.3.24R ~~rule 5.15~~;

...

7. ...

- ~~(6) — A description of all the scenarios of future changes in the value of assets which have been tested in order to take account of the nature (including currency) and terms of the assets held in determining the amount of the *long term insurance business liabilities* in accordance with rule 5.17 identifying that scenario which produces the most onerous requirement (whether or not a reserve is required).~~
- ~~(7) — The amount of any reserve made pursuant to rule 5.17(a), together with a brief description of the method used and assumptions made to calculate any such reserve.~~
- ~~(8) — In respect of that scenario described under (6) which produces the most onerous requirement (whether or not a reserve is required), the amount of any reserve made pursuant to rule 5.17(b), together with—~~
- ~~(a) — a description of the changed assumptions made (other than the changed interest rate stated in **Form 57**) in calculating such requirement;~~
- ~~(b) — a brief description of the method used to calculate such requirement; and~~
- ~~(c) — resulting from the application of such changed assumptions—~~
- ~~(i) — the change in the aggregate amount of the *long term insurance business liabilities*, and~~
- ~~(ii) — the aggregate amount by which the assets allocated to match such liabilities in the scenario have changed in value from the amount of those assets shown in **Form 13**.~~
- (6) A statement of the most onerous scenario under PRU 4.2.16R for assets invested in the *United Kingdom* and other assets that fall under PRU 4.2.16R for the purposes of calculating the resilience capital requirement in PRU 4.2.10R.
- (7) A statement of the most onerous scenario under PRU 4.2.23R for each significant territory in which assets are invested outside the *United Kingdom* for the purposes of calculating the resilience capital requirement in PRU 4.2.10R.
- (8) In respect of the scenarios described under (6) and (7) which produce the most onerous requirement (whether or not a resilience capital requirement is required),
- (a) the amount of the *resilience capital requirement* if such a requirement arises,
- (b) the change in the aggregate amount of the *long-term insurance liabilities*, and
- (c) the aggregate amount by which the assets allocated to match such liabilities in the scenario have changed in value from the amount of those assets shown in Form 13.

8. In respect of non-linked contracts –

...

- (d) where, in valuing contracts falling within the circumstances described in PRU 7.3.38R ~~rule 5.9(1)~~, future *premiums* brought into account are not in accordance with that rule, such additional information as is necessary to demonstrate whether the *mathematical reserves* determined in the aggregate for each of the main categories of contract are greater than an amount for each such category calculated in accordance with PRU 7.3.24R to PRU 7.3.91G ~~rules 5.8 to 5.17~~,

...

9. For each category of linked contract –

...

- (b) where an explicit reserve has not been made for meeting the expenses likely to be incurred in future in fulfilling the existing contracts on the basis of specific assumptions in regard to the relevant factors, details of the basis used in testing the adequacy of the reserves to satisfy PRU 7.3.50R ~~rule 5.13(1)~~.

...

12. ...

(4) In this paragraph -

- (a) **financing arrangement** means any contract entered into by the *insurer*, in respect of *contracts of insurance* of the *insurer*, which has the effect of increasing the ~~amount of assets included at long term capital resources in line 13 34 of Form 9 2, representing assets of the insurer which are available to meet its required minimum margin for long term insurance business,~~ and which includes terms for -

...

20. ...

- (3) In the event that the liability for a specific fund link is wholly reinsured so that entries in columns 8 and 9 of **Form 55** are omitted in accordance with paragraph 7 of the instructions for the completion of that form a statement, if such be the case, to the effect that the provisions of PRU 4.2.57R ~~rule 7.2~~ have been complied with in accordance with any published guidance in relation to the liabilities so reinsured.

21. . . .
- (2) A general description of the method by which the yield on assets other than equity *shares* and land was adjusted in accordance with PRU 4.2.41R rule 5.11(7).
- (3) For assets which are equity *shares* or land, a description of the categories into which such assets were divided for the purposes of PRU 4.2.33R rule 5.11(7), together with the method and basis by which the yield on such assets was adjusted in accordance with that rule.

23. (1) A statement of the *long term insurance capital requirement required minimum margin for long term insurance business* in the form set out in **Form 60** and of the *required margin of solvency for Class IV business and supplementary accident and sickness insurance* in the form set out in **Forms 11 and 12**, in accordance with instruction 8 for completion of **Form 60**. When completing Forms 11 and 12, the accounting conventions for *general insurance business* should be followed, but reasonable approximations may be used if they are unlikely to result in an underestimate of the *required margin of solvency*.

The instructions for the completion of Forms 48, 49, 56 and 57 of Appendix 9.4 (Abstract of valuation report) are amended as follows:

**Instructions for completion of Form 48**

4. The expected income must be the amounts before deduction of tax which would be received in the next *financial year* on the assumption that the assets will be held throughout the year and that the factors which affect income will remain unchanged, but account must be taken of any changes in those factors known to have occurred by the *relevant date* (in particular changes of the type (a), (b), (c) or (d) ~~denoted in rule 5.11(5)(1), (2), (3), (4), (5) and (6) in PRU 4.2.33R~~). The expected income shown in this Form must be that determined before any adjustments considered necessary because of ~~rule 5.11(7)PRU 4.2.41R and PRU 4.2.44R~~.

7. The entries at 48.12.3, 48.13.3, 48.14.3 and 48.15.3 must be equal to 49.19.2, 49.29.2, 49.19.5 and 49.29.5 respectively. Subject to paragraphs 10 and 11, the yields to be inserted in column 3 for other categories of asset must be the running yields determined in accordance with ~~rules 5.11(3) to (6A)PRU 4.2.33R to PRU 4.3.34R~~ before any allowance for tax required by PRU 4.2.29R. The entry at 48.29.3 must be the weighted average of the yields in column 3, where the weight given to each asset is the value of that asset applicable for entry into column 1. Assets not producing income must be included in the calculation.

8. Where the yield in column 3 for a type of asset shown in line 17, 18 or 19 above (assumed to be zero for assets in line 19) is significantly different from the weighted average of the yields for each asset of that type determined in accordance with ~~rule 5.11(6)PRU 4.2.34R(2)~~ before any allowance for tax required by PRU 4.2.29R, then the latter yield figure must be shown in a supplementary note. For this purpose, the weighted average of the yields means an average yield weighted by the value of each

asset of that type as entered in column 1.

....

10. To the extent that ~~rule 5.11(5A)~~ PRU 4.2.34R (2) has not been, or would otherwise not be required to be, applied to calculate the yield on ~~equity shares or~~ holdings in *collective investment schemes*, that rule may be ignored (in which case ~~rule 5.11(5)~~ PRU 4.2.33R and PRU 4.2.34R(1) will apply, before any allowance for tax required by PRU 4.2.29R) for an amount up to the higher of £5 million or 5% of the value of equity *shares* and holdings in *collective investment schemes* required to be reported in Form 48.
11. To the extent that a yield greater than zero on equity *shares* or holdings in *collective investment schemes* is not needed for the purpose of determining rates of interest under ~~rule 5.11~~PRU 4.2.28R, rules 5.11(5) and (5A) PRU 4.2.33R and PRU 4.2.34R may be ignored for an amount of up to 1% of the value of equity *shares* and holdings in *collective investment schemes* required to be reported in Form 48, and the relevant yield will be taken as zero.

...

#### Instructions for completion of Form 49

...

2. The gross redemption yield in columns 2 and 5 for each asset must be calculated as in ~~rule 5.11(3), (4) and (6)~~ PRU 4.2.34R(2) before any allowance for tax required by PRU 4.2.29R, leaving out of account any adjustment considered necessary because of ~~rule 5.11(7)~~ PRU 4.2.41R and PRU 4.2.46R. Where a number of assets with different gross redemption yields are held, the weighted average gross redemption yield must be calculated using as weights the value of the asset applicable for entry into columns 1 and 4 respectively.

...

#### Instructions for completion of Form 56

...

7. Any provision for ~~adverse changes~~ "reasonably foreseeable adverse variations" must be determined in accordance with ~~rule 5.3~~ PRU 4.3.17R(3) and shown in a supplementary note.

...

#### Instructions for completion of Form 57

...

5. Separate Forms must be prepared for each separate asset mix determined by the notional allocation of assets to contracts ~~rate of interest used in the valuation in pursuance of rule 5.11(12)~~ and may include all contracts valued at the same rate, subject to 2 and 3. Contracts valued at a lower rate of interest but subject to the same apportionment of assets may also be included as long as the rationale for such inclusion is given in a supplementary note. Each of the valuation rates of interest used must be itemised against the heading "Valuation rate(s) of interest". The highest valuation rate of interest used must be shown in line 31 or 32 as appropriate and in the code box headed "Valuation rate of interest".

...

8. The risk adjusted yield in columns 2 and 6 for each asset included in column 1 and 5 respectively must be that calculated as in ~~rules 5.11(3) to (6)~~ PRU 4.2.34R before any allowance for tax required by PRU 4.2.29R, taking account of any adjustment considered necessary because of ~~rule 5.11(7)~~PRU 4.2.41R

and PRU 4.2.46R. Where a number of assets with different risk adjusted yields are held, the weighted average risk adjusted yield must be calculated using as weights the value of the asset applicable for entry into columns 2 and 6.

...

Alternative version of Form 57 of Appendix 9.4 (Abstract of valuation report) is inserted as follows:

**Long-term insurance business – analysis of valuation interest rate**

Name of insurer  
 Financial year ended  
 Category of surplus

Company registration number	GL/UK/CM	day	month	year	units	Category of surplus	
R57					£000		
Product group				Net mathematical reserves	Net valuation interest rate	Gross valuation interest rate	Risk adjusted yield on matching assets
1				2	3	4	5
<b>Total</b>					n/a	n/a	n/a

### Instructions for completion of Form 57

1. This Form must be completed for each separate fund or part of a fund for which a surplus is determined where *mathematical reserves* for non-linked business exceed £100m. The name of the fund or part of a fund is to be shown against the heading "Category of surplus". The corresponding code box must contain the code numbers consistent with Forms 51-54.
2. Separate lines are required for UK and overseas liabilities, for life assurance and annuity business, pension business, permanent health business and other business and for with-profits and non-profit business.
3. Separate lines are required for each separate asset mix determined by the notional allocation of assets to contracts.
4. Separate lines are required for each valuation interest rate.
5. The product group in column 1 must be a narrative description of the products included in the line sufficient to give an easy cross reference to Forms 51-54, e.g. 'UK L&GA WP Form 51 assurances'.
6. The *mathematical reserves* in column 2 must include any increase in reserves resulting from the bonus declaration for the year and must be net of *reinsurance ceded*.
7. Up to 10% of the total relevant liabilities for the fund may be shown in a line labelled 'Misc' in column 1. In this case columns 3 and 4 must be 'n/a'. The relevant liabilities are the total *mathematical reserves* including cost of bonus plus any deposit back, less property linked unit liabilities and index linked investment liabilities.
8. The risk adjusted yield in column 5 must allow for the adjustments from PRU 4.2.41R.

...

Form 60 of Appendix 9.4 (Abstract of valuation report) is replaced as follows:

## Long term insurance capital requirement

Name of insurer

Global business / UK branch / EEA branch

Financial year ended

	Company registration number	GL/UK/CM	day	month	year	units
	R60					£000
	LTICR factor	Gross reserves / capital at risk	Net reserves / capital at risk	Reinsurance factor	LTICR Financial year	LTICR Previous year
	1	2	3	4	5	6
<b>Insurance death risk capital component</b>						
Classes I, II and IX	11	0.1%				
Classes I, II and IX	12	0.15%				
Classes I, II and IX	13	0.3%				
Classes III, VII and VIII	14	0.3%				
<b>Total</b>	15					
<b>Insurance health risk capital component</b>						
Class IV and supplementary classes 1 and 2	21					
<b>Insurance expense risk capital component</b>						
Classes I, II and IX	31	1%				
Classes III, VII and VIII (investment risk)	32	1%				
Classes III, VII and VIII (expenses fixed 5 yrs +)	33	1%				
Classes III, VII and VIII (other)	34	25%				
Class IV	35	1%				
Class V	36	1%				
Class VI	37	1%				
<b>Total</b>	38					
<b>Insurance market risk capital component</b>						
Classes I, II and IX	41	3%				
Classes III, VII and VIII (investment risk)	42	3%				
Classes III, VII and VIII (expenses fixed 5 yrs +)	43	0%				
Classes III, VII and VIII (other)	44	0%				
Class IV	45	3%				
Class V	46	0%				
Class VI	47	3%				
<b>Total</b>	48					
<b>Long term insurance capital requirement</b>	51					

## Instructions for completion of Form 60

1. The *insurance death risk capital component* in lines 11-14 column 5 is based on capital at risk for those contracts where it is not negative. Capital at risk is the benefit payable as a result of death less the *mathematical reserves* after distribution of surplus. Business in classes I, II and IX must be split between lines 11, 12 and 13 in accordance with *PRU 7.2.82R*. Line 11 is for temporary insurance on death where the original term of the contract is 3 years or less or for a *pure reinsurer*. Line 12 is for temporary insurance where the original term is 5 years or less but more than 3 years. Line 13 is for other *class I, II or IX* business. For a *pure reinsurer* the factor of 0.3% in column 1 of line 14 should be replaced by 0.1%.
2. In lines 11-14 columns 2 and 3 are the gross and net capital at risk in accordance with *PRU 7.2.83R*. For lines 11-13 the reinsurance factor is calculated in aggregate, so column 4 is the sum of lines 11-13 column 3 divided by the sum of lines 11-13 column 2, subject to a minimum of 0.5 in accordance with *PRU 7.2.81R*. For line 14 column 4 is column 3 divided by column 2, subject to a minimum of 0.5 in accordance with *PRU 7.2.81R*. Column 5 is column 1 x column 2 x column 4.
3. The *insurance health risk capital component* in line 21 column 5 must be equal to the entry at line 43 in Form 12 for *long-term insurance business*.
4. For the purpose of calculating the *insurance expense risk capital component* and the *insurance market risk capital component* linked contracts should be allocated to:
  - lines 32 and 42 where the *firm* bears an investment risk,
  - lines 33 and 43 where the *firm* does not bear an investment risk but where the allocation to cover *management expenses* is fixed for a period exceeding 5 years from the commencement of the contract, and
  - lines 34 and 44, otherwise.
5. The *insurance expense risk capital component* for linked contracts where the *firm* bears no investment risk and the allocation to cover *management expenses* does not have a fixed upper limit for a period exceeding 5 years from the commencement of the contract in line 34 is 25% of net *administrative expenses* in accordance with *PRU 7.2.88R(1)*.
6. The *insurance expense risk capital component* for *class V* in line 36 column 5 is 1% of the assets of the tontine in accordance with *PRU 7.2.88R(2)*.
7. The *insurance expense risk capital component* for other business in lines 31, 32, 33, 35 and 37 column 5 is 1% of adjusted *mathematical reserves* after distribution of surplus in accordance with *PRU 7.2.88R(3)*. Column 4 is column 3 divided by column 2, subject to a minimum of 85% (50% for a pure reinsurer) in accordance with *PRU 7.2.90R*. Column 5 is column 1 x column 2 x column 4.
8. The *insurance market risk capital component* in lines 43 and 44 column 5 for class III, VII and VIII contracts where the *firm* does not bear any investment risk and in line 45 for class V contracts is nil in accordance with *PRU 7.2.89R*.
9. The *insurance market risk capital component* in line 41, 42, 45 and 47 column 5 is 3% of adjusted *mathematical reserves* after distribution of surplus in accordance with *PRU 7.2.89R*. Column 4 is column 3 divided by column 2 subject to a minimum of 85% (50% for a pure reinsurer) in accordance with *PRU 7.2.90R*. Column 5 is column 1 x column 2 x column 4.
10. The *long term insurance capital requirement* in line 51 column 5 is the sum of column 5 in lines 15, 21, 38 and 48.
11. For *financial years* starting before 1 January 2005 lines 11 to 48 of column 6 must be blank.

Appendix 9.4A is inserted as follows:

#### **APPENDIX 9.4A** (rule 9.31(b))

### **ABSTRACT OF VALUATION REPORT FOR REALISTIC VALUATION**

---

The following information must be provided in the abstract of the report required under rule 9.31(b), the answers being numbered to accord with the numbers of the corresponding paragraphs of this Appendix. For the purposes of this Appendix, the “report period” means the period from the date to which the previous calculation of the *with-profits insurance capital component* under rule 9.4(2)(c) related to the ‘valuation date’ (as defined in 1).

#### **Introduction**

1. (1) The date to which the actuarial investigation relates, namely, the **valuation date**.
- (2) The date of the previous valuation.
- (3) The dates of any interim valuations carried out since the previous ‘valuation date’.

#### **Assets**

2. (1) For each *with-profits fund* in which any *non-profit insurance contracts* are written, a table of the economic assumptions used to determine the value of future profits (or losses) on those contracts, showing the economic assumptions used at the end of the *financial year in question*, and used at the end of the *preceding financial year*.
- (2) For each *with-profits fund* in respect of which the *realistic value of the assets* includes an amount determined under *PRU 7.4.33R(2)*, a table of the economic assumptions used to determine any additional amount by reference to the value of future profits (or losses) on *non-profit insurance contracts* according to *PRU 7.4.33R(3)(b)(iii)*.
- (3) For each *with-profits fund* in respect of which an asset not exceeding 50 % of the present value of future profits arising from insurance contracts written outside the *with-profits funds* is included in the relevant assets for the purpose of *PRU 7.4.43R* in accordance with *PRU 7.4.45R(2)(c)* and *PRU 7.4.45R(5)*, a table of the economic assumptions used to determine that present value.
- (4) Where the valuation of the future profits (or losses) on *non-profit insurance contracts* in (1) or of any additional amount in (2) or of any present value in

- (3) involves more than one set of economic assumptions, (for example, different sets of economic assumptions are used for different *with-profits funds*), each different set of economic assumptions must be shown.
- (5) The separate disclosure of economic assumptions used to determine the valuation of future profits (or losses) on *non-profit insurance contracts* in (1) or of any additional amount in (2) or of any present value in (3) is not required to the extent the total of the values derived by reference to assumptions which are not disclosed is less than £20 million.

### **With-Profits Benefits Reserve Liabilities**

3. (1) For each *with-profits fund*, a table of the retrospective methods (see *PRU 7.4.119R*) and/or prospective methods (see *PRU 7.4.128R*) used to calculate the *with-profits benefits reserve* for that fund, showing:
- (a) the types of product or classes of *with-profits insurance contracts* to which each of the retrospective methods and/or prospective methods applies;
  - (b) for each type of product or class of *with-profits insurance contracts* and method, the corresponding amounts of the *with-profits benefits reserve* and the *future policy related liabilities*; and
  - (c) the aggregate amount of the *with-profits benefits reserve* and the *future policy related liabilities* for those types of product or classes of *with-profits insurance contracts* which are not required to be disclosed separately (in accordance with 3(3)).
- (2) If the total of the amounts of the *with-profits benefits reserve* and *future policy related liabilities* shown in the table under (1) do not correspond to the respective amounts shown at lines 31 and 49 of the appropriate **Form 19**, an explanation and reconciliation must be provided.
- (3) The separate disclosure of the retrospective methods and prospective methods used to calculate the *with-profits benefits reserve* of a *with-profits fund* is not required for types of products and/or classes of *with-profits insurance contracts* to the extent the aggregate amount of the *realistic value of liabilities* for all types of products and/or classes of *with-profits insurance contracts* in respect of which the valuation methods are not disclosed is less than the higher of 5% of the *realistic value of liabilities* for that fund and £20 million.
- (4) References in paragraph 3 of this Appendix to types of product and/or classes should be taken as meaning the constituent elements of a division of the portfolio of *with-profits insurance contracts* by grouping those contracts having regard to materially different guarantees and options such as pension contracts with minimum bonuses and annuity rate options, pension

contracts with minimum bonuses, pension contracts with no minimum bonuses, life bonds issued with no Market Value Reduction / Market Value Adjustment type clauses (MVR/MVAs), life bonds with spot MVR/MVA free dates (dates on which the MVR/MVAs do not apply), life bonds with no MVR/MVA free dates, etc.. The extent of disclosure should be sufficient to permit an identification of material groupings of contracts which offer significant variance in terms of the nature of benefits provided to *policyholders*.

#### **With-profits benefits reserve – Retrospective method**

4. (1) For each *with-profits fund*, a table of the retrospective methods used to calculate the *with-profits benefits reserve* showing for each retrospective method:
  - (a) the proportion of the *with-profits benefit reserve* calculated using that retrospective method for which contracts have been valued on an individual basis;
  - (b) the proportion of the *with-profits benefit reserve* calculated using that retrospective method for which contracts have been valued on a grouped basis; and
  - (c) in relation to any *with-profits insurance contracts* that have been grouped:
    - (i) a statement of the basis used to group contracts;
    - (ii) the number of individual contracts and the number of model points used to represent them; and
    - (iii) the nature of the validations made to ensure that significant attributes of the contract groupings have not been lost.
- (2) For each *with-profits fund*:
  - (a) a description of any significant changes to the valuation method for any types of product or classes of *with-profits insurance contracts* written in that fund compared to the previous valuation; and
  - (b) where the changes in (a) have resulted in any types of product or classes of *with-profits insurance contracts* written in that fund being valued using approaches more approximate than used for the previous valuation, a statement of the types of product or classes of *with-profits insurance contracts* affected.
- (3) For each *with-profits fund*, a description of the basis of allocating expenses to that fund during the *financial year in question* identifying:

- (a) the date of the previous expense investigation;
  - (b) the frequency of expense investigations;
  - (c) a table of the total expenses allocated to the *with-profits benefits reserve* during the *financial year in question* showing:
    - (i) the nature and amount of expenses identified as initial expenses;
    - (ii) the nature and amount of expenses identified as maintenance expenses;
    - (iii) how expenses are charged to the *with-profits benefits reserve* in respect of individual contracts (for example, by way of an average expense charge deducted from all contracts); and
    - (iv) the nature and amount of any expenses charged other than to the *with-profits benefits reserve*.
- (4) For each *with-profits fund*, a description of the nature and amount of any significant charges (for example for the costs of guarantees or the use of capital) deducted from the *with-profits benefits reserve* during the *financial year in question* and a comparison to the charges in the *preceding financial year*.
- (5) For each *with-profits fund*, a description of the nature and amount of any charges deducted from that fund for non-insurance risk (for example, charges deducted from investment only accumulating with-profit business).
- (6) For each *with-profits fund*, a statement of the average (expressed as a percentage) of the ratio of A to B for each of the three *preceding financial years* where:
- A is the total *claims* paid during the financial year on *with-profits insurance contracts* written in that fund; and
  - B is the sum of:
    - (i) *with-profits benefits reserve* for those *claims*; plus
    - (ii) any past miscellaneous surplus attributed to the *with-profits benefits reserve* in respect of those *claims*; less

- (iii) any past miscellaneous deficit attributed to the *with-profits benefits reserve* in respect of those *claims*;

Where there has been a change in procedures such that the ratio of A to B would not be directly comparable with that ratio disclosed at the end of the *preceding financial year*, details should be disclosed as to the change in procedures.

- (7) For each *with-profits fund*, the investment return before tax and expenses allocated to the *with-profits benefits reserve* in respect of the *financial year in question*. If the investment return allocated to the *with-profits benefits reserve* in respect of any types of product or classes of *with-profits insurance contracts* differs materially from that allocated to the *with-profits benefits reserve* in respect of other types of product or classes of *with-profits insurance contracts*, other than because of tax, an explanation and reconciliation must be provided.

#### **With-profits benefits reserve – Prospective method**

- 5. (1) For each *with-profits fund*, a table of the key assumptions used in the prospective method(s) of calculating the *with-profits benefits reserve* showing:
  - (a) the discount rate, together with an explanation of any difference between this rate and the risk free rates denoted "r" in the table required by 6(4)(a)(iii) below;
  - (b) the investment returns and risk adjustments made to assets (categorised as in **Form 48**);
  - (c) expense inflation;
  - (d) future assumed *annual* and *final bonus* rates for major types of products and/or classes of *with-profits insurance contracts*;
  - (e) assumptions as to future expenses and future charges for expenses for major types of products and/or classes of *with-profits insurance contracts*; and
  - (f) any significant persistency assumptions at quinquennial durations.
- (2) Where any of the prospective methods in (1) involves more than one set of key assumptions, each different set of key assumptions must be shown.

## Costs of guarantees, options and smoothing

6. (1) For each *with-profits fund*, where the costs of guarantees, options and smoothing do not exceed the lesser of £50m and 0.5% of the total *realistic value of liabilities*, disclosure of the valuation methods in accordance with the following sub-paragraphs is not required.
- (2) For each *with-profits fund*, a table of the valuation methods used to calculate the costs of guarantees, options and smoothing showing:
- (a) the types of product and/or classes of *with-profits insurance contracts* to which each valuation method applies;
  - (b) for each valuation method and each type of product and/or class of *with-profits insurance contract*:
    - (i) the proportion, measured by reference to the underlying asset shares, of the *with-profits insurance contracts* being valued for which costs have been valued on an individual basis;
    - (ii) the proportion, measured by reference to the underlying asset shares, of the *with-profits insurance contracts* being valued for which costs have been valued on a grouped basis; and
    - (iii) in relation to any *with-profits insurance contracts* that have been grouped,
      - a statement of the basis used to group contracts;
      - the number of individual contracts and the number of model points used to represent them; and
      - the nature of the validations made to ensure that significant attributes of the contract groupings have not been lost;
  - (c) if applicable to the disclosures in (a) and (b), a description of any significant approximations in method used for any residual types of product or classes of *with-profits insurance contracts*.
- (3) A description of any significant changes to the valuation methods for valuing the costs of guarantees, options or smoothing since the previous valuation.
- (4) For each of the valuation methods under (2)(b), the following information must be disclosed:
- (a) for each of the costs of guarantees, options and smoothing which have

been valued using a full stochastic approach:

- (i) the nature of the guarantee, option or smoothing being valued, including a description of the extent to which the guarantee or option is in or out of the money at the valuation date;
- (ii) a description of the nature of the asset model(s), including the choice of parameters for each model (including the assumed volatility of assets both short term and long term) and any assumed correlations between asset classes and/or between asset classes and economic indicators (such as inflation), and a justification for these assumptions;
- (iii) completion of the following table showing the annualised compound equivalent of the risk free rate(s) assumed for each duration (n) and values derived from the asset model(s) of specified assets/options as shown in the table:

		Asset type (all UK assets)	K=0.75				K=1				K=1.5			
			5	15	25	35	5	15	25	35	5	15	25	35
	n													
	r	Annualised compound equivalent of the risk free rate assumed for the period. (to two decimal places)					x	x	x	x	x	x	x	x
1		Risk-free zero coupon bond					x	x	x	x	x	x	x	x
2		FTSE All Share Index (p=1)												
3		FTSE All Share Index (p=0.8)												
4		Property (p=1)												
5		Property (p=0.8)												
6		15 year risk free zero coupon bonds (p=1)												

## Notes to Table

Row 1 should be completed showing the value of cash payments of £1,000,000 due  $n$  years after the valuation date.

Rows 2 to 15 inclusive should be completed for the appropriate asset classes showing the value of a put option on a portfolio worth £1,000,000 on the valuation date exercisable  $n$  years after the valuation date with strike price of  $K * £1,000,000 * (1+r*p)^n$ .

All references to 15 year bonds mean rolling bonds traded to maintain the 15 year duration at all future dates. The corporate bonds should be assumed to be rolling AA rated zero coupon bonds.

Row 16 should be completed showing the value of sterling receiver swaptions with a strike of 5% exercisable  $n$  years after the valuation date with swap durations on exercise of  $L$  years. The values should be expressed as a percentage of nominal.

In carrying out the calculations required to complete the table above firms should assume, where appropriate, that the underlying asset portfolios are continuously rebalanced to the stated proportions. The property put options should be assumed to relate to a well diversified portfolio of *United Kingdom* commercial property.

A zero trend growth in property prices should be assumed where this is relevant.

In each case the options should be valued with reinvestment of any dividend income into the FTSE All Share index and reinvestment of any rental or other property income into *United Kingdom* property.

Tax should be ignored in all calculations.

All options should be assumed to be European-style.

A *firm* may consider that its model does not need to be calibrated to produce a reasonable value for a particular entry in the table because that entry is insignificant to the valuation of its assets and liabilities. In such circumstances the *firm* may leave an entry in the table blank, but must give an explanation as a note to the table.

- (iv) a statement of the initial equity and property rental yields assumed for the *United Kingdom* and each significant territory as applicable;
- (v) for each significant territory other than the *United Kingdom* a statement of the entries that would be appropriate (for  $K=1$  only) for the risk free rate and lines 1 and 2;

- (vi) a table showing the outstanding durations of significant guarantees within material types of products and/or classes of *with-profits insurance contracts* together with the details of the fit of the asset model(s) to specimen relevant market-traded instruments at these durations;
  - (vii) a statement of the nature of the validations of the asset model(s) by projecting future income, gains and losses on asset values and comparing the net present value of these amounts to the current asset values;
  - (viii) a statement of the number of projections of assets and liabilities carried out and the nature of the validations to ensure reasonable convergence of the model results;
- (b) for each of the costs of guarantees, options and smoothing which have been valued using the market costs of hedging:
- (i) a description of the method and assumptions used to determine the option points and amounts implied by the underlying guarantee or option or smoothing;
  - (ii) a description of the method and assumptions used to value the implied options and hence to determine the costs of the underlying guarantee, option or smoothing (including the assumed volatility of assets both short term and long term and any assumed correlations between asset classes and/or between asset classes and economic indicators (such as inflation) and also including a description as to how those assumptions relate to available market traded instruments and have been assumed to apply in respect of non-available instruments);
  - (iii) completion of a table as at 6(4)(a)(iii) above showing the risk free rate(s) assumed and values derived from the asset model(s) of assets/options as shown in the table;
  - (iv) a statement of the equity and property rental yields assumed for the *United Kingdom* and each significant territory as applicable;
  - (v) a table showing the outstanding durations of significant guarantees within material types of products and/or classes of *with-profits insurance contracts*;
- (c) for each of the costs of guarantees, options and smoothing which have been valued using a series of deterministic projections using attributed probabilities:

- (i) a description of the number of projections of assets and liabilities carried out, the attributed probability to each projection and the range of key assumptions underlying the projections of assets and liabilities;
  - (ii) a description of how the range of projections was selected and how the attributed probabilities were determined;
  - (iii) completion of a table as at 6(4)(a)(iii) above showing the risk free rate(s) assumed and values derived from the asset model(s) of assets/options as shown in the table;
  - (iv) a table showing the outstanding durations of significant guarantees within material types of products and/or classes of *with-profits insurance contracts*.
- (5) Where management actions have been assumed in the projection of assets and liabilities used to determine the costs in (4) (a), (b) and (c):
- (a) a description of the nature of the management actions assumed in the projection of assets and liabilities; and
  - (b) a table of the *firm's* best estimates as to the future proportions of the assets backing the *with-profits benefits reserve* which would consist of equities (whether UK or non-UK) and as to future bonus rates, in each case as at the end of the *financial year in question*, in 5 years time and in 10 years time, making the three sets of assumptions described in this paragraph as to annual investment returns over the periods in question. The table must show, in addition to the specimen equity backing ratios (for the fund), *annual bonus* rates on significant accumulating with-profits business (for each of life and pensions business separately). Calculations should be made assuming that the annual investment return on all assets over the period in question is (i) based on forward rates derived from the risk free interest rate curve as calibrated at the valuation date (ii) based on forward rates derived from the risk free interest rate curve increased across the period by 17.5 % of the long-term gilt yield and (iii) based on forward rates derived from the risk free interest rate curve reduced across the period by 17.5 % of the long-term gilt yield. The effect of any significant assumed equity *derivative contracts* or contracts having the effect of *derivative contracts* on the values disclosed in the table should be described by note. The long-term gilt yield is as defined in *PRU 7.4.11R*.
- (6) For material types of product or classes (as identified in 3 above) a statement of the persistency assumptions used to determine the costs in (4) (a), (b) and (c), and where appropriate the assumed take-up rates of guaranteed annuity

options and the rates of annuitant mortality assumed.

- (7) A statement of the assumptions made, regarding the foreseeable actions that would be taken by *policyholders*, in the projection of assets and liabilities in (4) (a), (b) and (c).

#### **Financing costs**

7. Where financing arrangements exist in connection with any *with-profits fund(s)*, a statement of the type of financing, the sources available for repayment of capital and interest, the extent to which repayments are subordinated to *policyholders'* interests, the face amount outstanding, the rate of interest payable, the level of fees payable, the expected amount to be repaid and the expected time period for such repayment (or, in the case of *reinsurance* arrangements, recapture).

#### **Other long-term insurance liabilities**

8. For each *with-profits fund*, a statement of the nature and amount of *long-term insurance liabilities* which have been included within the amounts of 'any other liabilities related to regulatory duty to treat customers fairly' and 'any other long-term insurance liabilities' shown at lines 46 and 47 of **Form 19**, including disclosure of any value attributed to future tax relief.

#### **Realistic current liabilities**

9. A statement of the nature and amount of current liabilities which have been included within the amount of the *realistic current liabilities* shown at line 51 of **Form 19** together with a reconciliation to the amount of the *regulatory current liabilities*.

#### **Risk capital margin**

10. For the calculation of the *risk capital margin* for each *with-profits fund*:
- (a) a statement of the amount of the *risk capital margin* and of information relating to the individual scenarios in *PRU 7.4.44R* which comprise the most adverse scenario for the purposes of calculating that margin in accordance with *PRU 7.4.43R*, including:
- (i) the percentage change assumed in accordance with *PRU 7.4.68R* for each of the market values of equities and real estate for the purpose of the *market risk* scenario for *United Kingdom* assets and each significant territory in *PRU 7.4.62R(1)(a)*, and a statement as to whether a rise or fall was the most onerous in each case;

- (ii) the nominal change in yields assumed in accordance with *PRU 7.4.68R* for fixed interest securities for the purpose of the *market risk* scenario for *United Kingdom* assets and each significant territory in *PRU 7.4.62R(1)* together with a statement of the percentage change in and level of the long-term gilt yield or nearest equivalent assumed in each case and a statement as to whether a fall or rise in yields is the more onerous in each case);
  - (iii) the average change in spread for bonds (weighted by value) and the total percentage change in asset value separately for (a) bonds, (b) debts, (c) *reinsurance* (d) analogous non-*reinsurance* financing agreements and (e) other assets (by reference to *PRU 7.4.78R*), where the total percentage change is, in each case, calculated as the overall percentage change that results from applying the credit risk scenario to the actual assets of each type held by a *firm*;
  - (iv) the overall percentage change in the *realistic value of liabilities* that results from applying the persistency risk scenario according to *PRU 7.4.100R*, that is, the impact of the persistency risk scenario assuming the market and credit risk stress scenarios have occurred; and
  - (v) to the extent any change in asset value in (iii) is not materially independent of the change in liability values in (iv), a description of the approach to deriving the disclosed changes in asset and liability values;
- (b) a statement of the nature of any management actions assumed in the *risk capital margin* calculation that are in addition to those set out in 6(5)(a) above; and any material changes to other assumptions;
  - (c) (i) a statement of the nature of the assets (categorised as in **Form 48**) and location of assets held to cover the *risk capital margin*;
  - (ii) if any of the assets to cover the *risk capital margin* are located outside of the *with-profits fund*, a statement as to the way the *firm* would intend to make such assets available to the *with-profits fund* should the need arise.

## Tax

11. A statement of the *firm's* treatment of tax included on assets backing (i) the *with-profits benefits reserve(s)*, (ii) any *future policy related liabilities* and (iii)

any *realistic current liabilities*, including any simplifying assumptions.

### **Derivatives**

12. A full description of any major positions in relation to *derivative contracts* or contracts having the effect of *derivative contracts* held by the *with-profits fund* or located outside the *with-profits fund* to cover the *risk capital margin* in part or in full at the valuation date.

### **Analysis of working capital**

13. For each *with-profits fund*, a reconciliation of the significant movements in the working capital of the *with-profits fund* from that shown at line 68 of **Form 19** at the end of the *preceding financial year* and that same entry shown for the *financial year in question*. Such movements must at least include investment return, tax, significant costs (of expenses, guarantees or smoothing) and enhancements or charges to retrospective reserve(s).

### **Optional disclosure**

14. At the option of the *firm*, a statement may be made for each *with-profits fund* of the amount of the *realistic value of liabilities* which relates to contractual obligations to *policyholders*, with a description of the approach taken to distinguishing contractual and non-contractual obligations to *policyholders*.

## **Instructions to the report**

Adhere to numbering above, enter ‘not applicable’ or ‘de minimis’ for sections where there is nil or de minimis data.

## **APPENDIX 9.5 (rule 9.32)**

### **GENERAL INSURANCE BUSINESS ADDITIONAL INFORMATION ON BUSINESS CEDED**

---

For the purposes of rule 9.32~~5~~, an *insurer* which carries on *general insurance business* must, in respect of the *financial year in question*, prepare a statement of the following information.

...

## APPENDIX 9.6 (rules 9.34 and 9.35)

Appendix 9.6 is amended as follows:

- (i) paragraphs 1 to 4 are replaced by the new paragraphs 1 to 4 set out below;
- (ii) paragraphs 5 to 11 and the associated headings are deleted; and
- (iii) otherwise as shown using underlining and strike through.

### **CERTIFICATES BY DIRECTORS ~~AND ACTUARY~~ AND REPORTS OF THE AUDITORS**

#### **Part I**

#### **Certificate by directors etc.**

- (1) Subject to 3, the certificate required by rule 9.34 must state -
    - (a) that the *return* has been properly prepared in accordance with the requirements in *IPRU(INS)* and *PRU*; and
    - (b) that the *directors* are satisfied that:
      - (i) throughout the *financial year in question*, the *insurer* has complied in all material respects with the requirements in *SYSC* and *PRIN* as well as the provisions of *IPRU(INS)* and *PRU*; and
      - (ii) it is reasonable to believe that the *insurer* has continued so to comply subsequently, and will continue so to comply in future.
  - (2) An *insurer* does not comply in all material respects with the requirements specified in (1)(b) if it commits a breach of any of those requirements which is significant, having regard to the potential financial loss to *policyholders* or to the *insurer*, frequency of the breach, implications for the *insurer's* systems and controls and if there were any delays in identifying or rectifying the breach.
2. Subject to 3, if the *insurer* carries on *long-term insurance business*, the certificate required by rule 9.34 must also state that -
- (a) in the *directors' opinion*, *premiums* for contracts entered into during the *financial year* and the resulting income earned are sufficient, under reasonable actuarial methods and assumptions, and taking into account the other financial resources of the *insurer* that are available for the purpose, to enable the *insurer* to meet its obligations in respect of those contracts and, in particular, to establish adequate *mathematical reserves*;
  - (b) the sum of the *mathematical reserves* and the deposits

received from *reinsurers* as shown in **Form 14**, together with any amount specified at line 63 of **Form 14** (being part of the excess of the value of the *admissible assets* representing the *long-term insurance funds* over the amount of those funds shown in **Form 14**), constitute proper provision at the end of the *financial year in question* for the *long-term insurance business liabilities* (including all liabilities arising from *deposit back arrangements*, but excluding other liabilities which had fallen due before the end of the *financial year*) including any increase in those liabilities arising from a distribution of surplus as a result of an *actuarial investigation* as at that date into the financial condition of the *long-term insurance business*;

- (c) the *with-profits fund* has been managed in accordance with the *Principles and Practices of Financial Management*, as established, maintained and recorded under *COB 6.10*; and
- (d) the *directors* have, in preparing the *return*, taken and paid due regard to-
  - (i) advice in preparing the *return* from every *actuary* appointed by the *insurer* to perform the *actuarial function* in accordance with *SUP 4.3.13R*; and
  - (ii) if applicable, advice from every *actuary* appointed by the *insurer* to perform the *with-profits actuarial function* in accordance with *SUP 4.3.16R*.

- 3. (1) Where, in the opinion of those signing the certificate, the circumstances are such that any of the statements required by 1 and 2 cannot truthfully be made, the relevant statements must be omitted.
- (2) Where, by virtue of (1), any statements have been omitted from the certificate, this fact, and the reasons for omission must be stated in a note to the certificate.

### **Part III-II**

#### **Auditor's report**

- 4. The report required by rule 9.35 must, in addition to any statement required under rule 9.35, state:
  - (a) whether, in the auditor's opinion:
    - (i) the documents referred to in rules 9.12, 9.13 and 9.14, together with **Forms 40 to 45, 48, 49, 56, 58 and 60** and the statements, analyses and reports annexed pursuant to rules 9.24 to 9.27,

9.29 and 9.31 have been properly prepared in accordance with the *Accounts and Statements Rules* and *PRU*; and

(ii) the methods and assumptions determined by the *insurer* and used to perform the *actuarial investigation* (as set out in the valuation reports) appropriately reflect the requirements of *PRU* 7.3 and *PRU* 7.4.

(b) that, in accordance with rule 9.35(1A), to the extent that any document, Form, statement, analysis or report to be audited under rule 9.35(1) contains amounts or information abstracted from the *actuarial investigation* performed pursuant to rule 9.4, the auditor has obtained and paid due regard to advice from a suitably qualified *actuary* who is independent of the *insurer*.

5. [deleted]

6. [deleted]

7. [deleted]

8. [deleted]

9. [deleted]

10. [deleted]

11. [deleted]

12. Where the auditor refers in the report or in any note attached to it to any uncertainty, the report must state whether, in the auditor's opinion, that uncertainty is material to determining whether the *insurer* has available assets in excess of its ~~*required minimum margin, required EEA minimum margin or required UK minimum margin*~~, as the case may be. *capital resources requirement*.

...

#### **APPENDIX 9.8 (rule 9.36A)**

#### **MARINE MUTUALS: ITEMS TO BE DISREGARDED, DIRECTORS' CERTIFICATES AND AUDITORS REPORTS**

. . . .

## Part II

### Directors' certificates

2. Subject to 4, every *return* provided by a *marine mutual* under rule 9.36A must include a certificate signed by the persons required by rule 9.33 to sign the documents to which the certificate relates –

- (a) confirming that –
  - (i) the *return* has been prepared in accordance with the requirements in *IPRU(INS)* and *PRU Accounts and Statements Rules*,
  - (ii) proper accounting records have been maintained and adequate information on which to base the *return* has been obtained the directors are satisfied that throughout the *financial year in question*, the *marine mutual* has complied in all material respects with the requirements in *SYSC* and *PRIN* as well as the provisions of *IPRU(INS)* and *PRU*, and that it is reasonable to believe that the *marine mutual* has continued so to comply subsequently, and will continue so to comply in future,
  - ~~(iii) appropriate systems and controls have been established and maintained by the *marine mutual* with respect to its transactions and records,~~
  - ~~(iv) the value or amount given for an asset or liability of the *marine mutual* has been determined in accordance with the *Valuation of Assets Rules* and the *Determination of Liabilities Rules*,~~
  - ~~(v) in respect of the *marine mutual's* insurance business not excluded by rule 7.6, throughout the *financial year in question* the *marine mutual* complied with rules 7.1 to 7.5 (currency matching and localisation),~~
  - ~~(vi) the *marine mutual* maintained the *required margin of solvency* throughout the *financial year in question*,~~
  - (viii) each member of the *marine mutual* which is subject to them has accepted those parts of the *marine mutual's* rules which oblige members to pay their share of any supplementary calls for the year and of calls to meet the *required minimum capital requirement margin* (including any sum needed to make good failure by other members to pay calls made on them), and
  - (iviii) the *marine mutual* is empowered to make supplementary calls

on its members which, if met, would produce sufficient assets to meet the ~~required minimum~~ capital requirement margin; and

...

3. Subject to 4, where the *directors* are satisfied that –
- (a) ~~the systems and controls established and maintained by the *marine mutual* in respect of its *insurance business* complied, at the end of the *financial year in question*, with the relevant guidance in **Guidance Notes P.1 and P.2** and it is reasonable to believe that those systems and controls continue so to comply and will continue so to comply in future; or~~
  - (b) ~~the *return* has been prepared in accordance with the relevant guidance in **Guidance Note 9.1**,~~
- ~~it must be so stated in the certificate. [deleted]~~
4. (1) Where, in the opinion of the *directors*, the circumstances are such that any of the matters specified in 2 and 3 cannot be confirmed or provided, the relevant statements or information must be omitted.
- (2) Where any statements or information have been omitted from the certificate in accordance with (1), this fact, and the reasons for omission, must be explained in a note to the certificate.

### Part III

#### Auditor's reports

5. Every *marine mutual* must procure an auditor's report, pursuant to *SUP*, stating whether, in the auditors' opinion –
- (a) the Forms, information and statements required have been properly prepared in accordance with the *Accounts and Statements Rules*; and
  - (b) where the auditors refer in their report or in any note to any uncertainty, that uncertainty is material to determining whether the *marine mutual* has *available assets* in excess of its *capital resources requirement required minimum margin, required EEA minimum margin, or required UK minimum margin*, as the case may be; and
  - (c) ~~subject to 6, it was or was not reasonable for the persons giving the *directors'* certificate to have made the statements in it.~~
- ~~6. Where the information or explanations given to the auditors is insufficient to allow them to be able to express an opinion on the reasonableness of the statements made in the *directors'* certificate, the report must include such~~

~~qualification, amplification or explanation as may be appropriate.~~

## FORM 95: INSURANCE GROUP CAPITAL ADEQUACY REPORTING INSTRUCTIONS

### Insurance Group Capital Adequacy

<i>Ref</i>	<i>Instructions</i>
A (pages 2, 3 & 4)	<p>List the name of each <i>related undertaking</i> of the <i>ultimate insurance parent undertaking</i> or <i>ultimate EEA insurance parent undertaking</i> (as applicable) which is a <i>regulated related undertaking</i> or an <i>ancillary services undertaking</i>.</p> <p>Pursuant to <i>PRU</i> 8.3.18R to 8.3.22R, several entities may be combined where these are not material in relation to the <i>insurance group</i>. The <i>firm</i> should list the relevant entities in a note to the return and should be able to demonstrate the contribution of the individual entities to the group calculation.</p>
A1 (page 2)	<p>List the percentage interest in the <i>regulated related undertaking</i> listed in A held by the <i>ultimate insurance parent undertaking</i> or <i>ultimate EEA insurance parent undertaking</i> (as applicable).</p> <p>For the purposes of calculating the percentage interest in accordance with <i>PRU</i> 8.3.28R and 8.2.29R, if the interest is not held directly by the <i>ultimate insurance parent undertaking</i> or <i>ultimate EEA insurance parent undertaking</i> but by another member of the <i>insurance group</i>, enter the effective percentage interest of the <i>ultimate insurance parent undertaking</i> or <i>ultimate EEA insurance parent undertaking</i> in that <i>undertaking</i> (e.g. where a <i>parent</i> has a 50% holding in a <i>subsidiary</i> which in turn has a 50% holding in another <i>subsidiary</i>, the <i>ultimate parent undertaking's</i> effective percentage interest in the second <i>subsidiary</i> is 25% etc.).</p> <p>Where the entity is a <i>subsidiary</i> of a <i>subsidiary</i> of the <i>parent undertaking</i> (etc.), indicate (S) after the effective percentage interest. Such an entity should be treated as a <i>subsidiary</i> of the <i>parent undertaking</i> and will be included in the calculations in proportion to the <i>parent undertaking's</i> effective percentage interest (or in full if there is a capital resources deficit) (see <i>PRU</i> 8.3.30R and 8.3.31R).</p>

**FORM 95: INSURANCE GROUP CAPITAL ADEQUACY REPORTING INSTRUCTIONS**

<i>Ref</i>	<i>Instructions</i>
A2 (page 2)	<p>State if the <i>related undertaking</i> listed in A is a <i>regulated insurance entity, pure reinsurer, insurance undertaking</i> that is not a <i>regulated insurance entity, insurance holding company, investment firm, credit institution, financial institution</i> which is not either a <i>credit institution or investment firm, financial holding company, asset management company or ancillary services undertaking</i>.</p> <p>For <i>related undertakings</i> which are <i>ancillary services undertakings</i> entries should only be made in this column and column D2 on page 2.</p>
B (page 2)	<p>State the <i>ultimate insurance parent undertaking or ultimate EEA insurance parent undertaking's</i> share (i.e multiplied by the percentage in A1) of the <i>individual capital resources requirement</i> of the <i>regulated related undertaking</i>, or the full amount if there is a capital resources deficit. This is the requirement set out in <i>PRU 8.3.34R</i>.</p>
C (page 2)	<p>State the <i>ultimate insurance parent undertaking or ultimate EEA insurance parent undertaking's</i> share (or the full amount if there is a capital resources deficit) of the <i>regulated related undertaking's</i> Tier 1 deductions calculated under the <i>sectoral rules</i> that apply to it.</p>
D1 (page 2)	<p>State the <i>ultimate insurance parent undertaking or ultimate EEA insurance parent undertaking's</i> share (or the full amount if there is a capital resources deficit) of any inadmissible assets held by the <i>regulated related undertaking</i> (see <i>PRU 8.3.60R</i>)</p>
D2 (page 2)	<p>This column should be completed only for <i>related undertakings</i> which are <i>ancillary services undertakings</i>. The entry is the higher of: the book value of the direct or indirect investment by the <i>ultimate insurance parent undertaking or ultimate EEA insurance parent undertaking</i> in the <i>ancillary services undertaking</i>; and the <i>ancillary services undertaking's</i> notional capital resources requirement (see <i>PRU 8.3.62R to 8.3.64R</i>)</p>

**FORM 95: INSURANCE GROUP CAPITAL ADEQUACY REPORTING INSTRUCTIONS**

<i>Ref</i>	<i>Instructions</i>
E1 E2 E3 E4 E5 (page 3)	<p>The entries in E1 to E5 should be the book value of the investments of all members of the <i>insurance group</i> in the <i>solo capital resources</i> of each <i>regulated related undertaking</i> listed in A (this represents internal group holdings of the <i>solo capital resources</i> of each <i>regulated related undertaking</i> to be excluded from <i>group capital resources</i> under <i>PRU</i> 8.3.49R, 8.3.51R, 8.3.54R, 8.3.56R and 8.3.58R).</p> <p>The book value of the group’s investment in <i>core tier one capital resources*</i> should be shown in E1; investments in perpetual non-cumulative <i>preference shares*</i> should be shown in E2; and investments in <i>innovative tier 1 capital resources*</i> should be shown in E3.</p> <p>The book value of the group’s investment in <i>tier two capital resources</i> should be shown in E4 (<i>upper tier two capital resources*</i>) and E5 (<i>lower tier two capital resources*</i>).</p> <p>[* these terms should be applied in accordance with <i>PRU</i> 8.3.37R to the <i>undertaking</i> in question].</p>
F1 F2 F3 F4 F5 (page 3)	<p>The entries in F1 to F5 should be the <i>ultimate insurance parent undertaking</i> or <i>ultimate EEA insurance parent undertaking's</i> share (or the full amount if there is a capital resources deficit) of the components of the <i>solo capital resources</i> of the <i>regulated related undertaking</i> (see <i>PRU</i> 8.3.48R(2), 8.3.50R(2), 8.3.53R(2), 8.3.55R(2) and 8.3.57R(2)).</p>

**FORM 95: INSURANCE GROUP CAPITAL ADEQUACY REPORTING INSTRUCTIONS**

<i>Ref</i>	<i>Instructions</i>
G1 G2 G3 G4 G5 (page 4)	<p>These entries represent the contribution to <i>group capital resources</i> of the <i>regulated related undertaking</i>. G1 is calculated as the difference between column F1 and E1. (G1 can be positive or negative. A negative figure would principally represent goodwill on acquisition).</p> <p>Similarly G2 is the difference between F2 and E2, G3 is the difference between F3 and E3 etc. (G2, G3, G4 &amp; G5 would normally be positive).</p> <p>The totals of columns G1, G2 and G3 respectively represent the group's <i>core tier one capital</i>, perpetual non-cumulative <i>preference shares</i> and <i>innovative tier one capital resources</i> (see H1 to H3 on page 1).</p> <p>The sum of columns G4 and G5 represent the group's <i>tier two capital resources</i> (see H5 and H6).</p>
Parent's capital resources (page 4)	<p>The entries in this line represent the <i>ultimate insurance parent undertaking</i> or <i>ultimate EEA insurance parent undertaking's capital resources</i>, after deduction of the book value of the investments taken together of the individual members of the <i>insurance group</i> in those <i>capital resources</i>. The deduction excludes any holding by the <i>ultimate insurance parent undertaking</i> or <i>ultimate EEA insurance parent undertaking</i> (as applicable) of its own <i>shares</i>; such holdings are deducted in calculating the parent's <i>tier one capital resources</i>.</p>
H1 H2 H3 H4 (page 1)	<p>H1 to H3 represent the total contribution of the <i>regulated related undertakings</i> and the <i>ultimate insurance parent undertaking</i> or <i>ultimate EEA insurance parent undertaking</i> to <i>total group tier one capital</i>. H4 represents the sum of the Tier 1 deductions for all members of the <i>insurance group</i>.</p>

**FORM 95: INSURANCE GROUP CAPITAL ADEQUACY REPORTING INSTRUCTIONS**

<i>Ref</i>	<i>Instructions</i>
TT1 (page 1)	<p>This entry is <i>total group tier one capital</i> (see stage A of PRU 8.3.43R) after application of limits 1, 2 and 3 below:</p> <p>Limit 1: <i>Total group tier one capital</i>, less <i>innovative tier one capital resources</i> included in <i>total group tier one capital</i>, must account for at least 50% of the <i>group capital resources requirement</i> less any <i>with-profits insurance capital components</i> included in the <i>group capital resources requirement</i> (see PRU 8.3.45R(1)(a)).</p> <p>Limit 2: <i>Core tier one capital resources</i> included in <i>total group tier one capital</i> must account for at least 50% of <i>total group tier one capital</i> (see PRU 8.3.45R(1)(c)).</p> <p>Limit 3: <i>Innovative tier one capital resources</i> included in <i>total group tier one capital</i> must not exceed 15% of <i>total group tier one capital</i> (see PRU 8.3.45R(1)(d)).</p> <p>Any capital item excluded by limit 3 may form part of <i>total group tier two capital</i> (see PRU 8.3.46G).</p>
H5 H6 (page 1)	<p>These entries represent the total contribution of the <i>regulated related undertakings</i> and the <i>ultimate insurance parent undertaking</i> or <i>ultimate EEA insurance parent undertaking</i> to <i>total group tier two capital</i>.</p>
TT2 (page 1)	<p>This entry is calculated as the sum of H5 and H6 which represents <i>total group tier two capital</i> (stage B in PRU 8.3.43R) after application of limits 4 and 5 as follows:</p> <p>Limit 4: <i>Total group tier two capital</i> must not exceed <i>total group tier one capital</i> (see PRU 8.3.45R(1)(e)).</p> <p>Limit 5: <i>Lower tier two capital resources</i> calculated in accordance with PRU 8.3.57R included in <i>total group tier two capital</i> must not exceed 50% of <i>total group tier one capital</i> (see PRU 8.3.45R(1)(f)).</p>

**FORM 95: INSURANCE GROUP CAPITAL ADEQUACY REPORTING INSTRUCTIONS**

<i>Ref</i>	<i>Instructions</i>
TCR (page 1)	<p>This entry is calculated as the sum of TT1 and TT2 and represents group capital resources before deductions (stage C in <i>PRU</i> 8.3.43R) after application of limit 6 as follows:</p> <p>Limit 6: <i>Total group tier one capital less innovative tier one capital resources included in total group tier one capital, plus total group tier two capital less any lower tier two capital resources included in total tier two capital must account for at least 75% of the group capital resources requirement less any with-profits insurance capital components included in the group capital resources requirement (PRU 8.3.45R(1)(b)).</i></p>
H7 (page1)	<p>This entry is the sum of columns D1 and D2 on page 2 which represent deductions to be made from total <i>group capital resources</i> in respect of the group's interest in inadmissible assets (see 8.3.59R), and <i>ancillary services undertakings</i> (see <i>PRU</i> 8.3.62R).</p>
GCR (page1)	<p>This entry is calculated as TCR less H7. This represents <i>group capital resources</i> (stage H in <i>PRU</i> 8.3.43R).</p>
GCCR (page 1)	<p>This entry is calculated as the sum of column B on page 2 which represents the <i>group capital resources requirement (PRU</i> 8.3.33R).</p>
I (page 1)	<p>This is calculated as total <i>group capital resources</i> less total <i>group capital resources requirement (GCR – GCRR)</i>. This represents the amount by which <i>group capital resources</i> exceed or fail to exceed the <i>group capital resources requirement</i>.</p>

### **Part 3: Amendments to volume 3 of the Interim Prudential sourcebook for insurers**

In this part underlining indicates new text and striking through indicates deleted text. Where an entire section is deleted, the place where the change will be made is indicated and the text is not struck through.

## Annex H

### Amendments to the Insurance: Conduct of Business sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

...

1.2.2 G (1) ...

(2) In relation to (1), *insurers* should note that ~~*IPRU(INS) 1.3R*~~ *PRU 7.6.13R* prevents an *insurer* from carrying on an *insurance mediation activity* ...

...

1 Annex 2G – Summary of Handbook provisions for insurance intermediaries

2. Table

...		
Business Standards	Interim Prudential sourcebooks	
	...	...
	Prudential sourcebook <i>PRU 9.1 – PRU 9.3</i>	Applies in respect of (1).
	<del><i>PRU 9.4</i></del>	Applies in respect of (1) where the <i>insurance intermediary</i> is also an <i>insurer</i> <del>or a mortgage lender</del> .
	<u><i>PRU 9.4</i></u>	<u>Applies in respect of (1) where the <i>insurance intermediary</i> is also a <i>mortgage lender</i>.</u>
...		

...

4.2.13 G (1) ...

(2) ~~*IPRU(INS) 1.3R*~~ *PRU 7.6.13R* (Restriction of business to insurance) in practice restricts the business which an *insurer* can carry on.

...

## Annex I

### Amendments to the Market Conduct sourcebook (MAR)

In this Annex, underlining indicates new text and striking through indicates deleted text.

...

3.3.2 G ... *Firms* should also consider the other provisions of the *Handbook*, especially but not exclusively *ML*, ~~and~~ *IPRU* and *PRU*.

...

## Annex J

### Amendments to the Authorisation manual (AUTH)

In this Annex, underlining indicates new text and striking through indicates deleted text.

1.5.3 G ...

- (1) Prudential requirements:
  - (a) ...
  - (b) the detailed prudential requirements in the Interim Prudential Sourcebooks (collectively referred to as *IPRU*) and in the Integrated Prudential Sourcebook (*PRU*) in the Business Standards part of the *Handbook*. In addition to *PRU* there are five interim sourcebooks that apply, respectively, to *banks (IPRU(BANK))*, *building societies (IPRU(BSOC))*, *friendly societies (IPRU(FSOC))*, *insurance companies (IPRU(INS))* and *investment business firms (IPRU(INV))*. *Guidance* is given to applicants in *AUTH 3 Annex 2G* on determining which prudential category, and which sourcebook of *IPRU* or section of *PRU* will apply.

...

- (2) Systems, controls and internal arrangements:
  - (a) ...
  - (b) the detailed requirements, many of which are *regulated activity* specific, in the sourcebooks in the Business Standards part of the *Handbook*; for example, in *IPRU*, *PRU*, the Training and Competence Sourcebook (*TC*), the Money Laundering Sourcebook (*ML*) and Conduct of Business Sourcebook (*COB*); ...

...

...

3.8.4 G (1) ...

- (2) The *Single Market Directives*, the *Capital Adequacy Directive* and the *E-Money Directive* set out minimum financial requirements for all *firms* which carry on banking, issuing e-money, insurance or investment services within the scope of the *Single Market Directives* and the *E-Money Directive*, that is, most *firms* that are *credit institutions*, *financial institutions*, *insurance undertakings* or *investment firms* as defined in these Directives. These requirements are reflected in *PRU* or in the

relevant *IPRU* for each type of *firm*.

...

3.8.6 G An applicant in the prudential category of *bank* or *insurer* should note that the *FSA* will give it individual guidance on its likely capital requirements: for example, the individual capital ratios for a *bank* (see *IPRU(BANK)* CO 4.1.1 (Individual capital ratios)) or the ~~capitalisation or solvency margin~~ *capital resources requirements* of an *insurer* (see ~~*IPRU(INS)* 2 (Margins of Solvency)~~ *PRU* 2.1)) during pre-application discussions (see *AUTH* 3.9.2G).

3.8.7 G Applicants should note that the prudential category and, where relevant, sub-category, not only determines which provisions in the relevant *IPRU* or *PRU* will apply, but which provisions on auditors, financial reporting and transaction reporting in ~~the~~ *SUP* will apply.

3.8.8 G An applicant that is a member of a *group* should note that the *FSA* may take into consideration the impact of other members of the *group* on the adequacy of its resources (see the relevant sections of *PRU* or *IPRU*).

...

3.12.2 G An applicant seeking to carry on *insurance business* should note the restrictions in ~~*IPRU(INS)* 1.3R(1) and *IPRU(FSOC)* 1.3R~~ *PRU* 7.6.13R which relate to the carrying on of other commercial business.

3.12.3 G (1) As a result of these restrictions, the *FSA* will grant an applicant seeking to carry on *insurance business Part IV permission* for *insurance business*, and any other *regulated activities*, only to the extent they are not restricted under ~~*IPRU(INS)* and *IPRU(FSOC)*~~ *PRU*.

(2) ... If the *FSA* gives an applicant *Part IV permission* for *insurance business* and other *regulated activities*, these other *regulated activities* will be subject to *limitations*, as appropriate, so as to comply with ~~*IPRU(INS)* 1.3R(1) and *IPRU(FSOC)* 1.3R~~ *PRU* 7.6.13R.

...

3.12.15 G An applicant which has its head office outside the *United Kingdom* (other than an *EEA firm*, *Treaty firm* or a *Swiss general insurance company*) should note the requirement in ~~*IPRU(INS)* 8.403R~~ to appoint a *chief executive* ...

3.12.16 G A *Swiss general insurance company* seeking to establish a *branch* in the *United Kingdom* should note the requirement referred to in ~~*IPRU(INS)* 18.11R~~ *COND* 2.6.1G to appoint an *authorised UK representative* for the *United Kingdom*.

3.12.17 G An applicant with its head office outside the *United Kingdom* (other than an *EEA firm* or a *Treaty firm*) seeking *permission* to carry on direct or both direct and reinsurance business in the *United Kingdom* should note that specific prudential requirements apply (see ~~*IPRU(INS)*~~*PRU*).

...

3.18.3 G The *FSA's* regulatory requirements, including *PRU* and *IPRU*, will apply to a *firm* in full and worldwide, unless otherwise stated. ...

...

Auth 5 Annex 3

2 G

(1) Module of Handbook	(2) Potential application to an incoming EEA firm with respect to activities carried on from an establishment of the firm (or its appointed representative) in the United Kingdom	(3) Potential application to an incoming EEA firm with respect to activities carried on other than from an establishment of the firm (or its appointed representative) in the United Kingdom
...		
<u><i>PRU</i></u>	... <u><i>PRU</i></u> 9.4...does not apply unless the <i>firm</i> has a <i>top-up permission</i> . <u>Otherwise, <i>PRU</i> does not apply unless the <i>firm</i> is an <i>insurer</i> to which <i>PRU</i> 7.6.33R applies</u>	
...		

## Annex K

### Amendments to the Supervision manual

#### Part 1: Amendments to SUP App 2

In this part, where existing text is replaced by new text, this is indicated and the new text is not underlined.

SUP App 2 is deleted and re-made, with amendments, as follows:

- 2 Insurers: Regulatory intervention points
  - 2.1 Application
    - 2.1.1 R This appendix applies to an *insurer* unless it is:
      - (1) a *Swiss general insurer*; or
      - (2) an *EEA-deposit insurer*; or
      - (3) an *incoming EEA firm*; or
      - (4) an *incoming Treaty firm*.
    - 2.1.2 G This appendix applies to every *friendly society* as a *friendly society* is an *insurer*.
  - 2.2 Interpretation
    - 2.2.1 R For the purpose of SUP App 2:
      - (1) “capital resources”:
        - (a) in relation to a *non-directive friendly society*, has the meaning given to “margin of solvency” in *rule 4.1(4) of IPRU(FSOC)*;
        - (b) in relation to a *participating insurance undertaking*, means P+T, where P and T have the meanings given by *PRU 8.3.45R(3)(a) and (e)* respectively, as calculated in accordance with *PRU 8.3.43R*; and
        - (c) in relation to any other *firm*, means the *firm’s capital resources* as calculated in accordance with *PRU 2.2.12R*;
      - (2) “guarantee fund”:
        - (a) in relation to a *non-directive friendly society*, has the meaning given to that term in *IPRU(FSOC)*;

- (b) in relation to a *participating insurance undertaking*, means the amount of capital resources which that *firm* must hold to comply with *PRU 8.3.45R(2)*;
  - (c) in relation to a *firm* which is not covered by (a) or (b), carrying on *general insurance business*, means the amount of capital resources which that *firm* must hold to comply with *PRU 2.2.18R*; and
  - (d) in relation to a *firm* which is not covered by (a) or (b), carrying on *long-term insurance business*, means the amount of capital resources which that *firm* must hold to comply with *PRU 2.2.17R*;
- (3) “material transaction” means a transaction (when aggregated with any similar transactions) in which:
- (a) the price actually paid or received for the transfer of assets or liabilities or the performance of services; or
  - (b) the price which would have been paid or received had that transaction been negotiated at arm’s length between unconnected parties;

exceeds:

- (c) in the case of a *firm* which carries on *long-term insurance business*, but not *general insurance business*, the sum of €20,000 and 5% of the *firm*’s liabilities arising from its *long-term insurance business*, excluding *property-linked liabilities* and net of *reinsurance ceded*; or
- (d) in the case of a *firm* which carries on *general insurance business*, but not *long-term insurance business*, the sum of €20,000 and 5% of the *firm*’s liabilities arising from its *general insurance business*, net of *reinsurance ceded*; or
- (e) in the case of a *firm* which carries on both *long-term insurance business* and *general insurance business*:
  - (i) where the transaction is in connection with the *firm*’s *long-term insurance business*, the sum of €20,000 and 5% of the *firm*’s liabilities arising from its *long-term insurance business*, excluding *property-linked liabilities* and net of *reinsurance ceded*; and
  - (ii) in all other cases, the sum of €20,000 and 5% of the *firm*’s liabilities arising from its *general insurance business*, net of *reinsurance ceded*; and

- (4) “required margin of solvency”:
- (a) in relation to a *non-directive friendly society*, has the meaning given to that term in *IPRU(FSOC)*;
  - (b) in relation to a *participating insurance undertaking*, means R-S-U, where R, S and U have the meanings given by *PRU* 8.3.45R(3)(c), (d) and (f) respectively;
  - (c) in relation to a *firm* which is not covered by (a) or (b), carrying on *general insurance business*, means the *general insurance capital requirement* applicable to that *firm*; and
  - (d) in relation to a *firm* which is not covered by (a) or (b), carrying on *long-term insurance business*, means the *long-term insurance capital requirement* applicable to that *firm*.

2.2.2 G The calculation of each of the *base capital resources requirement*, the *long-term insurance capital requirement* and the *general insurance capital requirement* is set out in *PRU* 2.1. The calculation of each of the “guarantee fund” and “required margin of solvency” for *non-directive friendly societies* is set out in chapter 4 of *IPRU(FSOC)*.

### 2.3 Purpose

2.3.1 G To fulfil its obligations under the *Insurance Directives*, and as part of the *FSA*’s risk-based approach to supervision, there are certain times when the *FSA* needs to monitor a *firm* more closely than it normally would. This is so the *FSA* can fulfil its function of supervising *firms* properly and meet the *regulatory objective* of securing an appropriate degree of protection for *consumers*.

2.3.2 G The *rules* in this appendix require a *firm* to submit reports and information to the *FSA* when:

- (1) a *firm* is failing to satisfy *threshold condition* 4 (Adequate resources) (see *COND* 2.2), and its capital resources have fallen below its required margin of solvency, or its guarantee fund; or
- (2) the capital resources of a *firm* have fallen below its *capital resources requirement*; or
- (3) a *firm* has decided to cease to *effect new contracts of insurance*; or
- (4) a *firm* is going through periods of potential uncertainty, for example, when it has come under the *control* of a new *parent undertaking* or following the grant or variation of *permission*.

2.3.3 G The *FSA* may also ask a *firm* to submit reports and information to it

when the *firm's* capital resources fall below the level advised in individual capital *guidance* given to the *firm*.

- 2.3.4 G In accordance with the *Insurance Directives*, a *firm* whose capital resources have fallen below its required margin of solvency, or its guarantee fund, is required, by the *rules* set out in this appendix, to submit a *scheme of operations*, together with an explanation of how its capital resources will be adequately restored. In order to secure an appropriate degree of protection for *consumers*, the *FSA* applies the *rules* in this appendix to *firms* to which the provisions of the *Insurance Directives* would not otherwise apply.
- 2.3.5 G A *firm* which is entering into run-off is required to submit a *scheme of operations*, including an explanation of how its *liabilities to policyholders* will be met in full. Where the capital resources of such a *firm* subsequently fall below its required margin of solvency, the *firm* is required to submit a plan for restoration.
- 2.3.6 G Following a change in *control*, or the grant or variation of *permission*, the reports submitted help the *FSA* to identify when a *firm* departs from the *scheme of operations* submitted as part of the notification of a change in *control*, or an application for the grant or variation of *permission*, and on which basis such notification or application was approved.
- 2.3.7 G *Principle 4* of the *FSA's* Principles for Businesses provides that *firms* should hold adequate financial resources, while *PRU 1.2.22R* requires a *firm* to maintain overall financial resources which are adequate to ensure that there is no significant risk that it cannot meet its liabilities as they fall due. In considering these requirements, a *firm* may decide to maintain capital resources above the level advised in individual capital *guidance* given by the *FSA*, or, if no individual capital *guidance* has been given, above its *capital resources requirement*. The amount of any such additional capital resources held is at the discretion of the *firm*. However, the extent to which a *firm* matches these additional capital resources to the volatility of its capital base, in conjunction with the strength of its systems and controls environment, is likely to affect the frequency with which it is subject to intervention under this appendix.
- 2.3.8 G In relation to a *firm* carrying on *with-profits insurance business*, action which it takes either to restore its capital resources to the levels set by the intervention points in this appendix, or to prevent its capital resources falling below those points, should be consistent with *Principle 6* of the *FSA's* Principles for Businesses. *Principle 6* requires a *firm* to pay due regard to the interests of its *customers* and treat them fairly.
- 2.3.9 G These *rules* are in addition to the other *rules* and *guidance* in *SUP*, in particular *SUP 2* (Information gathering by the *FSA* on its own

initiative), *SUP* 15 (Notifications to the *FSA*), *SUP* 16 (Reporting requirements) and the Principles for Businesses (*PRIN*).

## 2.4 Capital resources below guarantee fund

2.4.1 R If a *firm*'s capital resources fall below its guarantee fund, it must, within 14 days of the *firm* becoming aware of this event, submit to the *FSA* a short-term financial plan, including:

- (1) a *scheme of operations* (see *SUP* App 2.12); and
- (2) an explanation of how, if at all, and by when, it expects its capital resources to be adequately restored to the guarantee fund.

2.4.2 G See *SUP* App 2.11.2G for *guidance* on the period that the *scheme of operations* should cover.

## 2.5 Capital resources below required margin of solvency

2.5.1 R Unless *SUP* App 2.5.3R applies:

- (1) if a *firm*'s capital resources are such that they no longer equal or exceed its required margin of solvency; or
- (2) if a *firm* no longer complies with *PRU* 2.2.16R and *PRU* 2.2.24R, or *PRU* 8.3.45R(1)(a) and *PRU* 8.3.45R(1)(b), as applicable;

it must, within 28 days of becoming aware of this event, submit to the *FSA* a plan for the restoration of a sound financial position, including:

- (3) a *scheme of operations*; and
- (4) an explanation of how, if at all, and by when:
  - (a) it expects its capital resources to be restored to the required margin of solvency; or
  - (b) as the case may be, it expects to comply with *PRU* 2.2.16R and *PRU* 2.2.24R, or *PRU* 8.3.45R(1)(a) and *PRU* 8.3.45R(1)(b), as applicable.

2.5.2 G See *SUP* App 2.11.2G for *guidance* on the period that the *scheme of operations* should cover.

2.5.3 R If a *firm*:

- (1) falls into *SUP* App 2.5.1R(1) or (2); and
- (2) it has previously submitted either a run-off plan in accordance

with *SUP* App 2.8.1R or a *scheme of operations* in accordance with *SUP* App 2.5.1R;

it must, within 28 days of becoming aware that it falls into *SUP* App 2.5.1R(1) or (2):

- (3) notify the *FSA*; and
- (4) submit a plan for restoration which:
  - (a) explains why the *firm's* capital resources have fallen below its required margin of solvency or, as the case may be, it no longer complies with *PRU* 2.2.16R or *PRU* 2.2.24R, or *PRU* 8.3.45R(1)(a) and *PRU* 8.3.45R(1)(b), as applicable; and
  - (b) demonstrates how, if at all, and by when, the *firm* will restore it or, as the case may be, resume compliance with *PRU* 2.2.16R and *PRU* 2.2.24R, or *PRU* 8.3.45R(1)(a) and *PRU* 8.3.45R(1)(b), as applicable.

## 2.6 Capital resources below capital resources requirement

2.6.1 R Unless any of *SUP* App 2.4.1R, 2.5.1R or 2.5.3R applies, if a *firm's* capital resources fall below its *capital resources requirement*, it must, within 28 days of becoming aware of this event:

- (1) notify the *FSA*; and
- (2) submit a plan for restoration, which:
  - (a) explains why the *firm's* capital resources have fallen below its *capital resources requirement*; and
  - (b) demonstrates how, if at all, and by when, the *firm* will restore it.

## 2.7 Capital resources below the level of individual capital guidance

2.7.1 G Unless any of *SUP* App 2.4.1R, 2.5.1R, 2.5.3R or 2.6.1R applies, if a *firm's* circumstances change, such that its capital resources have fallen, or are expected to fall, below the level advised in individual capital *guidance* given to the *firm* by the *FSA*, then, consistent with *PRIN* 2.1.1R *Principle* 11 (Relations with regulators), a *firm* should inform the *FSA* of this fact as soon as practicable, explaining why capital resources have fallen, or are expected to fall, below the level advised in individual capital *guidance*, and:

- (1) what action the *firm* intends to take to increase its capital resources; or

- (2) what modification the *firm* considers should be made to the individual capital *guidance* which it has been given.
- 2.7.2 G In the circumstance set out in *SUP* App 2.7.1G, the *FSA* may ask a *firm* for alternative or more detailed proposals and plans or further assessments and analyses of capital adequacy and risks faced by the *firm*. The *FSA* will seek to agree with the *firm* appropriate timescales and scope for any such additional work, in light of the circumstances which have arisen.
- 2.7.3 G In relation to a *firm* carrying on *with-profits insurance business*, if it intends either (a) to remedy a fall in the level of capital resources advised in its individual capital *guidance*, or (b) to prevent a fall in the level advised in that *guidance*, for example, in either case, by taking management action to de-risk a *with-profits fund* or by reducing non-contractual benefits for *policyholders*, it should explain to the *FSA* how such proposed actions are consistent with the *firm's* obligations under *PRIN* 2.1 Principle 6 (Customers' interests).
- 2.7.4 G If a *firm's* capital resources fall below the level advised in individual capital *guidance* given to the *firm* and, at the same time, any one or more of *SUP* App 2.4.1R, 2.5.1R, 2.5.3R or 2.6.1R applies, the *firm* should first comply with those *rules*. Those *rules* are concerned with circumstances where capital resources are likely to have fallen to levels much lower than the level advised in individual capital *guidance* and are, in some cases, requirements imposed by the *Insurance Directives*.
- 2.7.5 G If a *firm* has not accepted individual capital *guidance* given by the *FSA* it should, nevertheless, inform the *FSA* as soon as practicable if its capital resources have fallen below the level suggested by that individual capital *guidance*. In such circumstances, the *FSA* may ask the *firm* for further explanation as to why it does not consider the individual capital *guidance* to be appropriate. The *FSA* may also consider using its powers under section 45 of the *Act* to, on its own initiative, vary a *firm's* Part IV *permission*, so as to require it to hold such capital as the *FSA* considers is necessary for the *firm* to comply with *PRU* 1.2.22R.
- 2.8 Ceasing to effect contracts of insurance
- 2.8.1 R If a *firm* decides to cease to *effect* new *contracts of insurance*, it must, within 28 days of that decision, submit a run-off plan to the *FSA* including:
- (1) a *scheme of operations*; and
  - (2) an explanation of how, or to what extent, all *liabilities to policyholders* (including, where relevant, liabilities which arise

from the regulatory duty to treat *customers* fairly in setting discretionary benefits) will be met in full as they fall due.

- 2.8.2 G *SUP* App 2.8.1R only applies if a *firm* ceases to *effect* new *contracts of insurance* in respect of the whole of its *insurance business*.
- 2.8.3 G For the purposes of *SUP* App 2.8.1R, a new *contract of insurance* excludes contracts effected under a term in a subsisting *contract of insurance*.
- 2.8.4 G Under *Principle 11*, the *FSA* normally expects to be notified by a *firm* when it decides to cease *effecting* new *contracts of insurance* in respect of one or more *classes of contract of insurance* (see *SUP* 15.3.8G). At the same time, the *FSA* would normally expect the *firm* to discuss with it the need for the *firm* to apply to vary its *permission* (see *SUP* 6.2.6G and *SUP* 6.2.7G) and, if appropriate, to submit a *scheme of operations* in accordance with *SUP* App 2.8.1R.
- 2.8.5 G See *SUP* App 2.11.2G for *guidance* on the period that the *scheme of operations* should cover.
- 2.9 Under control of a new parent undertaking
- 2.9.1 G A *firm* that has notified the *FSA* of a new *parent undertaking* may be requested to submit a *scheme of operations* (see *SUP* 11.5.5G). A *scheme of operations* would be requested if the significance and circumstances of the change were considered to be sufficient to merit that level of scrutiny. This is normally only likely to be necessary when there has been an ultimate change in *control*, or when, as a result of the change in *control*, significant changes are proposed to the *firm's regulated activities*, business plan or strategy. A *firm* which has submitted a *scheme of operations* under *SUP* 11.5.5G, is not required to submit a further *scheme of operations* under this appendix unless *SUP* App 2.4, 2.5 or 2.8 applies. *SUP* App 2.13 does, however, apply to such a *firm*.
- 2.10 Grant or variation of permission
- 2.10.1 G The *FSA* may ask a *firm* seeking a grant or variation of *permission* to provide a *scheme of operations* as part of the application process (see *AUTH* 3.9.9G(1) and *SUP* 6.3.25G). Such a *firm* is not required to submit a further *scheme of operations* under this appendix unless *SUP* App 2.4, 2.5 or 2.8 applies. *SUP* App 2.13 and *SUP* 6 Ann 4G do, however, apply to such a *firm*.
- 2.11 Submission of a scheme of operations or a plan for restoration
- 2.11.1 G A *firm* should discuss its plan in draft with the *FSA* before submitting it. If a plan is submitted which does not satisfy the *FSA* that the *firm* can restore its capital resources (as appropriate), or meet its liabilities

as they fall due, the *FSA* may use its *own-initiative power* to vary or cancel the *firm's permission*. If a *firm* submitting a plan is part of a *group of companies*, the *FSA* may ask that *firm* to provide additional information in relation to other *companies* in the *group*, if this is necessary to establish how the *firm* will restore its own sound financial position. The *firm* should agree in discussion with the *FSA* the nature of such additional information.

2.11.2 G The *schemes of operations* required when a *firm's* capital resources have fallen below its required margin of solvency or its guarantee fund (see *SUP App 2.5.1R* and *SUP App 2.4.1R*, respectively) should cover a period which is sufficient to demonstrate that the *firm's* capital resources will be adequately restored. Typically this would be a period of at least three years. However, if a *scheme of operations* has expired, but *SUP App 2.4.1R* or *2.5.1R* continues to apply, the *firm* should submit a new *scheme of operations*. The *scheme of operations* required by *SUP App 2.8.1R*, when a *firm* ceases to *effect new contracts of insurance*, should cover the run-off period until all *liabilities to policyholders* are met.

2.11.3 G The period to be covered by, and the details to be included in, the plan for restoration required by *SUP App 2.5.3R* will depend on the circumstances of the *firm*, why its capital resources have fallen below its required margin of solvency and the degree of risk that that fall will be repeated, even if the *firm* restores its capital resources in accordance with its plan.

2.11.4 G In relation to a *firm* which carries on *with-profits insurance business* and which submits a plan, the *FSA* would expect an explanation of how any actions it plans to take to restore capital resources to the level of the guarantee fund, required margin of solvency or *capital resources requirement* are consistent with the *firm's* obligations under *Principle 6* (Customers' interests).

2.12 Content of a scheme of operations

2.12.1 R A *scheme of operations* must:

- (1) describe the *firm's* business strategy;
- (2) include financial projections (including appropriate scenarios and stress-tests) as follows:
  - (a) a forecast summary profit and loss account in accordance with *SUP App 2.12.7R*;
  - (b) a forecast summary balance sheet in accordance with *SUP App 2.12.8R*; and
  - (c) a forecast statement of capital resources in accordance

with *SUP* App 2.12.9R; and

- (3) as at the end of each *financial year* which falls (in whole or part) within the period to which the *scheme of operations* relates:
- (a) describe the assumptions which underlie those forecasts and the reasons for adopting those assumptions; and
  - (b) identify any material transactions proposed to be effected or carried out with, or in respect of, any *associate*.
- 2.12.2 G The business strategy referred to at *SUP* App 2.12.1R(1) should include a description of the nature of the risks which the *firm* is underwriting, or intends to underwrite. It should also give an explanation of the *firm's* strategy for managing the risks associated with carrying on *insurance business* (including, in particular, *reinsurance*).
- 2.12.3 G The amount of detail to be given on the *firm's* business strategy required by *SUP* App 2.12.1R(1) should be appropriate to the scale and complexity of the *firm's* operations and the degree of risk involved.
- 2.12.4 R The information required by *SUP* App 2.12.1R must reflect the nature and content of the *rules* relating to capital resources applicable to a *firm*.
- 2.12.5 G In relation to *firms* covered by this appendix, *IPRU(FSOC)* 4.1 sets out the *rules* relating to capital resources for *non-directive friendly societies* and *PRU* 2.1, 2.2 and 8.3 set out the *rules* relating to capital resources for every other *firm*. The capital resources which a *firm* is required to maintain vary according to whether the *firm* has its head office in the *United Kingdom* or overseas, and depending on the nature of the *insurance business* it carries on. The information which a *firm* is required to submit under *SUP* App 2.12.1R should reflect the nature and content of the *rules* relating to capital resources identified above. For example, in order to satisfy *SUP* App 2.12.1R, a *firm* with its head office outside the *United Kingdom* which is carrying on direct *insurance business* in the *United Kingdom* should submit separate information concerning its world-wide activities and its *UK* activities.
- 2.12.6 G To reflect its obligations under *PRU* 2.1.10R or *IPRU(FSOC)* 4.1(2) (as applicable), in order to comply with *SUP* App 2.12.1R, a *firm* which carries on both *long-term insurance business* and *general insurance business* should submit separate information for each type of *insurance business*.
- 2.12.7 R Summary profit and loss account (see *SUP* App 2.12.1R(2)(a))

(1)	<i>Premiums and claims</i> (gross and net of <i>reinsurance</i> ) analysed by accounting <i>class of insurance business</i>
(2)	Investment return
(3)	Expenses
(4)	Other charges and income
(5)	Taxation
(6)	Dividends paid and accrued

2.12.8 R Summary balance sheet (see SUP App 2.12.1R(2)(b))

(1)	Investments analysed by type
(2)	Assets held to cover linked liabilities
(3)	Other assets and liabilities separately identifying cash at bank and in hand
(4)	Capital and reserves analysed into called up <i>share</i> capital or equivalent funds, <i>share</i> premium account, revaluation reserve, other reserves and profit and loss account
(5)	Subordinated liabilities
(6)	The fund for future appropriations
(7)	Technical provisions gross and net of <i>reinsurance</i> analysed by accounting <i>class of insurance business</i> and separately identifying the provision for linked liabilities, <i>unearned premiums</i> , unexpired risks and equalisation
(8)	Other liabilities and credits

2.12.9 R A forecast statement of capital resources (under SUP App 2.12.1R(2)(c)) must include the forecast capital resources and the forecast required margin of solvency at the end of each *financial year* or part *financial year*.

2.13 Obligations on firms which have previously submitted a scheme of operations

2.13.1 R A *firm* which has submitted a *scheme of operations* to the FSA, whether required by SUP App 2.4, 2.5 or 2.8, or as part of an application under SUP 6.3 (see SUP 6.3.25G), SUP 6.4 (see SUP 6 Ann 4G), AUTH 3.9 (see AUTH 3.9.9G(1)), or SUP 11.5 (see SUP 11.5.5G), or an amended *scheme of operations*, must during the period covered by that *scheme of operations*:

- (1) notify the FSA at least 28 days before entering into or carrying out any material transaction with, or in respect of, an *associate*, unless that transaction is in accordance with a *scheme of operations* which has been submitted to the FSA;

- (2) submit a quarterly financial return to the *FSA* which must include for, or as at the end of, each quarter:
  - (a) a summary profit and loss account prepared in accordance with *SUP* App 2.12.7R;
  - (b) a summary balance sheet prepared in accordance with *SUP* App 2.12.8R; and
  - (c) a statement of capital resources prepared in accordance with *SUP* App 2.12.9R;

and which must identify and explain differences between the actual results and the forecasts submitted in the *scheme of operations*; and

- (3) notify the *FSA* promptly of any matter which has either happened or is likely to happen and which represents a significant departure from the *scheme of operations*; the *firm* must either:
  - (a) explain the nature of the departure and the reasons for it and provide revised forecast financial information in the *scheme of operations* for its remaining term; or
  - (b) include an amended *scheme of operations* and explain the amendments and the reasons for them.

2.13.2 R A report under *SUP* App 2.13.1R(2) must be submitted in accordance with the *rules* in *SUP* 16.3.6R to *SUP* 16.3.13R.

2.13.3 G For the purpose of *SUP* App 2.13.1R(1), the *FSA* considers that transactions with, or in respect of, *associates* include:

- (1) contracting (as either party), advancing, repaying, writing off or agreeing to change the terms of any loan;
- (2) entering into (in any capacity), releasing, calling upon or agreeing to change the terms of any guarantee, pledge, security, charge or any off-balance-sheet transaction;
- (3) entering into agreements to acquire or dispose of property or which otherwise affect the nature or value of the *firm's* assets;
- (4) making an investment (directly or indirectly) in an *associate*;
- (5) entering into (as either party), commuting or agreeing to change the terms of, any contract of *reinsurance*; and

- (6) entering into, or changing the terms of, any agreement to give or provide services or to share costs.

2.13.4 G The *FSA* considers that a significant departure referred to in *SUP* App 2.13.1R(3) includes:

- (1) entry or withdrawal from a line of *insurance business*;
- (2) significant revision of the *firm's* strategy for managing risks, in particular the basis upon which risks are reinsured;
- (3) forecast *premiums* being exceeded, by more than 10%, for a single *financial year* (or part year if the period covered by the *scheme of operations* is or includes part of a *financial year*);
- (4) *claims* experience being significantly worse than forecast for a single *financial year* (or part year if the period covered by the *scheme of operations* is or includes part of a *financial year*);
- (5) the actual level of capital resources being significantly worse than forecast;
- (6) paid or proposed dividends being greater than those forecast; and
- (7) any other transaction or circumstance which is likely to have a material effect upon available assets (as defined in *IPRU(INS)* 11.1).

2.14 Financial Recovery Plan

2.14.1 G When:

- (1) the *FSA* has required a financial recovery plan within the meaning of article 20a of the *First Non-Life Directive*;
- (2) the *FSA* is of the view that *policyholders'* rights are threatened because the financial position of the *firm* is deteriorating; and
- (3) the *FSA* decides to require the *firm* to hold more capital than would otherwise be required under the *Handbook* to ensure that the *firm* will be able to fulfil the required margin of solvency in the near future;

any such higher capital requirement will be based on the financial recovery plan.

## Part 2: Other amendments to the Supervision manual

In this part, underlining indicates new text and striking through indicates deleted text.

4.5.13 R When carrying out his duties, an *actuary* appointed under this chapter must pay due regard to generally accepted actuarial ~~best~~ practice.

4.5.14 G The standards and guidance issued from time to time by the Institute of Actuaries and the Faculty of Actuaries are important sources of generally accepted actuarial ~~best~~ practice.

...

8.2.7 G Table Rules which can be waived (see *SUP* 8.2.6G)

Rules	Section of the Act or other provision under which rules are made	Chapters of the Handbook where such rules appear (Note 1)
...		
Insurance business rules	Section 141	<del>IPRU(INV)</del> <u>PRU</u>
...		

9.3.2 G The *FSA* may give individual *guidance* to a *firm* on its own initiative if it considers it appropriate to do so. For example:

...

(5) in relation to the maintenance of adequate financial resources, the *FSA* may give a *firm* individual *guidance* on the amount or type of financial resources the *FSA* considers appropriate, for example on individual capital ratios for *banks* and *building societies*; further *guidance* on how and when the *FSA* may give individual *guidance* on financial resources is contained in the Interim Prudential sourcebooks and in *PRU*:

...

(c) for a *securities and futures firm* (or other *firm* required to comply with *IPRU(INV)* 3 or *IPRU(INV)* 10): *IPRU(INV)* 10-74R and *IPRU(INV)* App 48-; and

(d) for an *insurer*: *PRU* 2.3.13G and *PRU* 2.3.14G.

...

10.12.3 G In accordance with section 60 of the *Act* (Applications for approval), applications must be submitted by, or on behalf of, the *firm* itself, not by the *candidate*. Usually this will be the *firm* that is employing the *candidate* to perform the *controlled function*. Where a *firm* has outsourced the performance of a *controlled function*, the details of the outsourcing determine where responsibility lies and whom the *FSA* anticipates will submit *approved persons* forms. *SUP* 10.12.4G describes some common situations. The *firm* which is outsourcing is referred to as "A" and the *person* to whom the performance of the function has been outsourced, or which makes the *arrangement* for the function to be performed, is referred to as "B". In each situation, A must take reasonable care to ensure that, in accordance with section 59(2) of the *Act*, no *person* performs a *controlled function* under an *arrangement* entered into by its contractor in relation to the carrying on by A of a *regulated activity*, without approval from the *FSA*. See also *SYSC* 3.2.4G and if applicable *IPRU(BANK)* OS<sub>2</sub> and *IPRU(BSOC)* OS<sub>2</sub> and for *insurers* *SYSC* 3A.9.

...

15.3.8 G Compliance with *Principle* 11 includes, but is not limited to, giving the *FSA* notice of:

- (1) any proposed restructuring, reorganisation or business expansion which could have a significant impact on the *firm's* risk profile or resources, including, but not limited to:

...

- (e) entering into, or significantly changing, a *material outsourcing* arrangement (a bank should also see *IPRU(BANK)* OS 4.2, and a building society should also see *IPRU(BSOC)* 4.2.11 OS 4.2, and an *insurer* should also see *SYSC* 3A.9 for further details); or

### Amendments to the Electronic Money sourcebook

In this Annex, underlining indicates new text.

1.5.2 G Application of other parts of the *Handbook* to *ELMIs*

...

Block	Module	Application
...		
Block 2 (Business Standards)	Interim Prudential sourcebooks: <i>IPRU(INS)</i> , <i>IPRU(FSOC)</i> , <i>IPRU(BANK)</i> , <i>IPRU(BSOC)</i> and <i>IPRU(INV)</i> <u>Integrated Prudential Sourcebook (PRU)</u>	<i>ELM 7</i> (Consolidated financial supervision) applies <i>IPRU(BANK)</i> , <i>IPRU(BSOC)</i> and <i>IPRU(INV)</i> to certain <i>ELMIs</i> who are members of a <i>group</i> . Chapter NE of <i>IPRU(BANK)</i> is relevant to <i>ELM 3.5.16R</i> , as described in <i>ELM 3.5.20G</i> . Otherwise, these sourcebooks do not apply to <i>ELMIs</i> .
...		

## Annex O

### Amendments to the Glossary

In this Annex, underlining indicates new text and striking through indicates deleted text. Where new definitions are being inserted, the text is not underlined.

#### Part 1: New definitions

Insert the following new definitions in the appropriate alphabetical position:

<i>accumulating with-profits policy</i>	a <i>with-profits insurance contract</i> which has a readily identifiable current benefit, whether or not this benefit is currently realisable, which is adjusted by an amount explicitly related to the amount of any <i>premium</i> payment and to which additional benefits are added in respect of participation in profits by additions directly related to the current benefit or a <i>policy</i> with similar characteristics.
<i>actuarial investigation</i>	an investigation to which <i>IPRU(INS)</i> rule 9.4 applies.
<i>actuarial valuation date</i>	(in <i>PRU</i> ) the date as at which the <i>mathematical reserves</i> are calculated.
<i>administrative expenses</i>	has the meaning set out in the <i>insurance accounts rules</i> .
<i>ancillary risk</i>	(in relation to an <i>insurer</i> with <i>permission</i> under the <i>Act</i> to insure a principal risk belonging to one <i>class</i> (as defined for the purposes of <i>AUTH, PRU, LLD</i> and <i>SUP</i> ) of <i>general insurance business</i> ) a risk included in another such <i>class</i> which is:  (a) connected with the principal risk, (b) concerned with the object which is covered against the principal risk, and (c) the subject of the same contract insuring the principal risk.  However, the risks included in <i>classes</i> 14, 15 and 17 may not be treated as risks ancillary to other <i>classes</i> , except that the risk included in <i>class</i> 17 (legal expenses insurance) may be regarded as an ancillary risk of <i>class</i> 18 where:  (d) the conditions laid down in (a) to (c) are fulfilled, and (e) the principal risk relates solely to assistance provided for <i>persons</i> who fall into difficulties while travelling, while away from home or while away from their permanent residence or where it concerns disputes or risks arising out of, or in connection with, the use of sea-going vessels.
<i>ancillary services undertaking</i>	an <i>ancillary insurance services undertaking</i> , an <i>ancillary banking services undertaking</i> or an <i>ancillary investment services undertaking</i> .
<i>Annual Accounts</i>	the Council Directive of 19 December 1991 concerning the annual

<i>Directive</i>	accounts and consolidated accounts of <i>insurance undertakings</i> (No. 91/674/EEC).
<i>annual bonus</i>	(in relation to a <i>with-profits insurance contract</i> ) a discretionary addition to <i>policy</i> benefits under a <i>with-profits insurance contract</i> made by a <i>long-term insurer</i> as a result of the annual <i>actuarial investigation</i> .
<i>annualised net written premiums</i>	(for the purposes of <i>PRU 7.5</i> ) in relation to a <i>financial year</i> , the <i>net written premiums</i> received during that <i>financial year</i> , except that in relation to a <i>financial year</i> that has been validly extended beyond, or shortened from, a period of 12 months, the amount of <i>net written premiums</i> is the amount determined in accordance with the formula: <div style="text-align: center; margin: 10px 0;"> <math display="block">\frac{NWP \times 365}{D}</math> </div> <p style="text-align: center;">D</p> <p>where:</p> <p>(1) NWP is the amount of <i>net written premiums</i> received in the <i>financial year</i>; and</p> <p>(2) D is the number of days in that <i>financial year</i>.</p>
<i>approved quasi-derivative</i>	a <i>quasi-derivative</i> in respect of which the conditions in <i>PRU 4.3.5R</i> are met.
<i>approved stock lending transaction</i>	a <i>stock lending</i> transaction in respect of which the conditions in <i>PRU 4.3.36R</i> have been met.
<i>assessable mutual</i>	(for the purposes of <i>PRU 7.5</i> ) a <i>mutual</i> where the <i>insurance business</i> carried on by the <i>mutual</i> is limited to the provision of <i>insurance business</i> to its members and whose articles of association, rules or by-laws provide for the calling of additional contributions from members to meet <i>claims</i> .
<i>asset-related capital requirement</i>	a component of the calculation of the <i>ECR</i> for a <i>firm</i> carrying on <i>general insurance business</i> as set out in <i>PRU 3.3</i> .
<i>base capital resources requirement</i>	an amount of <i>capital resources</i> that a <i>firm</i> must hold as set out in <i>PRU 2.1.26R</i> .
<i>basis risk</i>	the risk that the relationship between two financial variables will change, particularly between two sorts of interest rate or between a hedge and the position it ostensibly hedges.
<i>brought forward amount</i>	an amount, as defined in <i>PRU 7.2.51R</i> , used in the calculation of the <i>general insurance capital requirement</i> .
<i>capital resources</i>	in relation to a <i>firm</i> , the <i>firm's</i> capital resources as calculated in accordance with <i>PRU 2.2.12R</i> .
<i>capital resources requirement</i>	an amount of <i>capital resources</i> that a <i>firm</i> must hold as set out in <i>PRU 2.1.14R</i> to <i>PRU 2.1.20R</i> .

<i>claims amount</i>	an amount, as defined in <i>PRU 7.2.47R</i> , used in the calculation of the <i>general insurance capital requirement</i> .
<i>commitment</i>	a commitment represented by <i>insurance business</i> of any of the <i>classes</i> (as defined for the purposes of <i>AUTH, PRU, LLD</i> and <i>SUP</i> ) of <i>long-term insurance business</i> .
<i>compensation fund</i>	any <i>policyholder</i> compensation scheme in any <i>EEA State</i> .
<i>composite firm</i>	a <i>firm</i> that carries on both <i>long-term insurance business</i> and <i>general insurance business</i> .
<i>contingency funding plan</i>	a plan for taking action to ensure that a <i>firm</i> has adequately liquid financial resources to meet its liabilities as they fall due, prepared under <i>PRU 5.1.86E</i> .
<i>core tier one capital</i>	an item of capital that is stated in stage A of the table in <i>PRU 2.2.14R</i> to be core tier one capital.
<i>coupon</i>	a dividend, interest payment or any similar payment.
<i>credit equalisation provision</i>	the provision required to be established by <i>PRU 7.5.43R</i> .
<i>CRR</i>	<i>capital resources requirement</i> .
<i>deposit back arrangement</i>	(in relation to any contract of <i>reinsurance</i> ) an arrangement whereby an amount is deposited by the <i>reinsurer</i> with the cedant.
<i>ECR</i>	<i>enhanced capital requirement</i> .
<i>EEA-deposit insurer</i>	a <i>non-EEA insurer</i> that has made a deposit in an <i>EEA State</i> (other than the <i>United Kingdom</i> ) under article 23 of the <i>First Non-Life Directive</i> (as amended) in accordance with article 26 of that Directive or under article 51 of the <i>Consolidated Life Directive</i> in accordance with article 56 of that Directive.
<i>EEA insurance parent undertaking</i>	an <i>insurance parent undertaking</i> that has its head office in the <i>United Kingdom</i> or another <i>EEA State</i> .
<i>EEA MCR</i>	the <i>MCR</i> in relation to business carried on in all <i>EEA States</i> , taken together, calculated by a <i>UK-deposit insurer</i> in accordance with <i>PRU 7.6.46R</i> .
<i>enhanced capital requirement</i>	<ol style="list-style-type: none"> <li>(1) (in relation to a <i>firm</i> carrying on <i>general insurance business</i>) the amount calculated in accordance with <i>PRU 2.3.11R</i>.</li> <li>(2) (in relation to a <i>firm</i> carrying on <i>long-term insurance business</i>) an amount of <i>capital resources</i> that a <i>firm</i> must hold as set out in <i>PRU 2.1.34R</i>.</li> </ol>
<i>equalisation provision</i>	a provision required to be established under the <i>rules</i> in <i>PRU 7.5</i> .

<i>equity market adjustment ratio</i>	<p>(1) (in relation to the <i>resilience capital requirement</i>) has the meaning set out in <i>PRU 4.2.19R</i>.</p> <p>(2) (in relation to the <i>market risk</i> scenario for the <i>risk capital margin</i> of a <i>with-profits fund</i>) has the meaning set out in <i>PRU 7.4.71R</i>.</p>
<i>final bonus</i>	(in relation to a <i>with-profits insurance contract</i> ) a discretionary payment which might be made by a <i>long-term insurer</i> , in addition to the guaranteed benefits, when the benefits under the <i>with-profits insurance contract</i> become payable.
<i>financial instrument</i>	<p>as defined in Annex B of the <i>Investment Services Directive</i>, the following instruments:</p> <ul style="list-style-type: none"> <li>(a) (i) transferable securities;</li> <li style="padding-left: 2em;">(ii) units in collective investment undertakings;</li> <li>(b) money-market instruments;</li> <li>(c) financial futures contracts, including equivalent cash-settled instruments;</li> <li>(d) forward interest rate agreements (FRAs);</li> <li>(e) interest rate, currency and equity swaps; and</li> <li>(f) options to acquire or dispose of any of the instruments in (a) to (e), including equivalent cash-settled instruments (including in particular options on currency and options on interest rates).</li> </ul>
<i>financial year in question</i>	(for the purposes of <i>PRU 7.2</i> and of the definition of <i>non-directive insurer</i> ) the last <i>financial year</i> to end before the date on which the latest accounts of the <i>insurer</i> are required to be deposited with the <i>FSA</i> ; the preceding <i>financial year</i> and previous <i>financial years</i> are construed accordingly.
<i>financing cost amount</i>	(in relation to a <i>share</i> , <i>debenture</i> or other investment in, or external contribution to the capital of, a <i>firm</i> ) an amount that represents a reasonable estimate of the part of the <i>coupon</i> on that instrument that reflects the cost of financing generally but excludes costs reflecting factors relating to the issuer, guarantor or other person to whom the instrument creates an exposure.
<i>firm in run-off</i>	a <i>firm</i> whose <i>Part IV permission</i> has been varied so as to remove the <i>regulated activity</i> of <i>effecting contracts of insurance</i> .
<i>future policy-related liabilities</i>	(in relation to a <i>with-profits fund</i> ) the future <i>policy-related liabilities</i> of the <i>with-profits fund</i> calculated in accordance with the <i>rules</i> in <i>PRU 7.4.137R</i> to <i>PRU 7.4.189G</i> .
<i>GCR</i>	<i>group capital resources</i> .

<i>GCCR</i>	<i>group capital resources requirement.</i>
<i>general insurance capital requirement</i>	the highest of the <i>premiums amount</i> , <i>claims amount</i> and <i>brought forward amount</i> as set out in <i>PRU 7.2</i> .
<i>general insurance liabilities</i>	insurance liabilities arising from <i>general insurance business</i> .
<i>GICR</i>	<i>general insurance capital requirement.</i>
<i>gross adjusted claims amount</i>	(for the purposes of <i>PRU 7.2</i> ) an amount, as defined in <i>PRU 7.2.60R</i> to <i>PRU 7.2.65G</i> , used in calculating the <i>claims amount</i> .
<i>gross adjusted premiums amount</i>	(for the purposes of <i>PRU 7.2</i> ) an amount as defined in <i>PRU 7.2.56R</i> to <i>PRU 7.2.59G</i> , used in calculating the <i>premiums amount</i> .
<i>gross earned premiums</i>	(in relation to a <i>financial year</i> ) such proportion of <i>gross written premiums</i> as is attributable to risk borne by the <i>insurer</i> during that <i>financial year</i> .
<i>gross leverage</i>	the ratio of total assets to total equity.
<i>gross written premiums</i>	the amounts required by the <i>insurance accounts rules</i> to be shown in the profit and loss account of an <i>insurer</i> at general business technical account item I.1.(a), or for <i>class IV insurance business</i> , at long-term business technical account item II.1(a).
<i>group capital resources</i>	in relation to an <i>undertaking</i> in <i>PRU 8.3.17R</i> , that <i>undertaking's</i> group capital resources as calculated in accordance with <i>PRU 8.3.36R</i> .
<i>group capital resources requirement</i>	in relation to an <i>undertaking</i> in <i>PRU 8.3.17R</i> , that <i>undertaking's</i> group capital resources requirement as calculated in accordance with <i>PRU 8.3.33R</i> .
<i>IBNR</i>	(in relation to <i>claims</i> (as defined for the purposes of <i>PRU</i> , <i>LLD</i> , <i>SUP</i> and <i>TC</i> )) <i>claims</i> that have been incurred but not reported arising out of events that have occurred by the balance sheet date but have not been reported to the <i>insurance undertaking</i> at that date.
<i>implicit items</i>	(in relation to <i>long-term insurance business</i> ) economic reserves arising in respect of future profits, <i>zillmerising</i> or hidden reserves as more fully described in <i>PRU 2 Ann 2G</i> .
<i>index-linked benefits</i>	benefits: <ul style="list-style-type: none"> <li>(a) provided for under a <i>linked long-term contract of insurance</i>; and</li> <li>(b) determined by reference to an index of the value of property of any description (whether specified in the contract or not).</li> </ul>
<i>index-linked liabilities</i>	insurance liabilities in respect of <i>index-linked benefits</i> .

<i>individual capital resources requirement</i>	has the meaning in <i>PRU 8.3.34R</i> .
<i>initial coupon rate</i>	(in relation to a <i>tier one instrument</i> ) the <i>coupon rate</i> of the instrument at the time it is issued.
<i>initial credit spread</i>	(in relation to a <i>tier one instrument</i> ) the <i>initial coupon rate</i> less the <i>original financing cost amount</i> , and where the resulting amount is a negative figure, the initial credit spread is deemed to be zero.
<i>initial fund</i>	the items of capital which are available to a <i>mutual</i> at <i>authorisation</i> .
<i>innovative tier one capital</i>	an item of capital that is stated in stage C of the table in <i>PRU 2.2.14R</i> to be innovative tier one capital.
<i>innovative tier one capital resources</i>	the amount of <i>capital resources</i> at stage C of the table in <i>PRU 2.2.14R</i> .
<i>innovative tier one instrument</i>	a <i>potential tier one instrument</i> that is stated in <i>PRU 2.2.52R</i> to <i>PRU 2.2.69R</i> to be an innovative instrument.
<i>insurance business grouping</i>	a grouping comprising descriptions of <i>general insurance business</i> determined in accordance with <i>PRU 7.5.12R</i> .
<i>insurance death risk capital component</i>	one of the components of the <i>long-term insurance capital requirement</i> as set out in <i>PRU 7.2.81R</i> to <i>PRU 7.2.83R</i> .
<i>insurance expense risk capital component</i>	one of the components of the <i>long-term insurance capital requirement</i> as set out in <i>PRU 7.2.88R</i> .
<i>insurance group</i>	<p>(1) an <i>insurance parent undertaking</i> and its <i>related undertakings</i>; or</p> <p>(2) a <i>participating insurance undertaking</i> (not within (1)) and its <i>related undertakings</i>.</p>
<i>insurance health risk capital component</i>	one of the components of the <i>long-term insurance capital requirement</i> as set out in <i>PRU 7.2.85R</i> and <i>PRU 7.2.86R</i> .
<i>insurance market risk capital component</i>	one of the components of the <i>long-term insurance capital requirement</i> as set out in <i>PRU 7.2.89R</i> .
<i>insurance parent undertaking</i>	<p>a <i>parent undertaking</i> which is:</p> <p>(a) a <i>participating insurance undertaking</i> which has a <i>subsidiary undertaking</i> that is an <i>insurance undertaking</i>; or</p> <p>(b) an <i>insurance holding company</i> which has a <i>subsidiary undertaking</i> which is an <i>insurer</i>; or</p> <p>(c) an <i>insurance undertaking</i> (not within (a)) which has a <i>subsidiary undertaking</i> which is an <i>insurer</i>.</p>
<i>insurance-related capital</i>	a component of the calculation of the <i>ECR</i> for a <i>firm</i> carrying on

<i>requirement</i>	<i>general insurance business</i> as set out in <i>PRU 7.2.76R</i> to <i>PRU 7.2.79R</i> .
<i>liquidity risk</i>	the risk that a <i>firm</i> , although solvent, either does not have available sufficient financial resources to enable it to meet its obligations as they fall due, or can secure such resources only at excessive cost.
<i>long-term admissible asset</i>	a <i>long-term insurance asset</i> which is an <i>admissible asset</i> .
<i>long-term insurance asset</i>	has the meaning set out in <i>PRU 7.6.21R</i> .
<i>long-term insurance capital requirement</i>	(in relation to a <i>firm</i> carrying on <i>long-term insurance business</i> ) an amount of <i>capital resources</i> that the <i>firm</i> must hold calculated in accordance with <i>PRU 2.1.32R</i> .
<i>long-term insurance fund</i>	has the meaning set out in <i>PRU 7.6.22R</i> .
<i>long-term insurance liabilities</i>	insurance liabilities arising from <i>long-term insurance business</i> .
<i>lower tier two capital resources</i>	the sum calculated at stage H of the calculation in <i>PRU 2.2.14R</i> .
<i>lower tier two instrument</i>	an item of capital that meets the conditions in <i>PRU 2.2.108R</i> and is eligible to form part of a <i>firm's lower tier two capital resources</i> .
<i>LTICR</i>	<i>long-term insurance capital requirement</i> .
<i>market risk</i>	(in relation to a <i>firm</i> ) the risks that arise from fluctuations in values of, or income from, assets or in interest or exchange rates.
<i>MCR</i>	<i>minimum capital requirement</i> .
<i>member contribution</i>	any paid up contribution by a member of a <i>mutual</i> where the members' accounts meet the following criteria: <ul style="list-style-type: none"> <li>(a) the memorandum and articles of association or other constitutional documents must stipulate that payments may be made from these accounts to members only in so far as this does not cause the <i>firm's capital resources</i> to fall below the required level, or, if after dissolution of the <i>firm</i>, all the <i>firm's</i> other debts have been settled;</li> <li>(b) the memorandum and articles of association or other constitutional documents must stipulate, with respect to the payments referred to in (a) made for reasons other than the individual termination of membership, that the <i>FSA</i> must be notified at least one month in advance of the intended date of such payments; and</li> <li>(c) the <i>FSA</i> must be notified of any amendment to the relevant provisions of the memorandum and articles of association or other constitutional documents.</li> </ul>

<i>minimum capital requirement</i>	an amount of <i>capital resources</i> that a <i>firm</i> must hold as set out in <i>PRU 2.1.21R</i> and <i>PRU 2.1.22R</i> .
<i>mutual</i>	an <i>insurer</i> which: <ul style="list-style-type: none"> <li>(a) if it is a <i>body corporate</i> has no <i>share</i> capital (except a wholly owned <i>subsidiary</i> with no <i>share</i> capital but limited by guarantee); or</li> <li>(b) is a <i>registered friendly society</i> or <i>incorporated friendly society</i>; or</li> <li>(c) is a society registered or deemed to be registered under the Industrial and Provident Societies Act 1965 or the Industrial and Provident Societies (Northern Ireland) Act 1969.</li> </ul>
<i>net earned premiums</i>	<i>gross earned premiums</i> , less <i>reinsurance premiums</i> earned.
<i>net leverage</i>	the ratio of total assets, less those bought under reverse <i>repo</i> arrangements, to total equity.
<i>net premium</i>	the <i>premium</i> that is calculated to provide the basic sum assured under a <i>with-profits insurance contract</i> taking into consideration only the mortality and interest rate risks and using the same assumptions as used in the calculation of the <i>mathematical reserves</i> .
<i>netting</i>	a process by which the claims and obligations between two counterparties are offset against each other to leave a single net sum.
<i>net written premiums</i>	<i>gross written premiums</i> , less <i>reinsurance premiums</i> payable under <i>reinsurance ceded</i> .
<i>non-credit equalisation provision</i>	the provision required to be established under <i>PRU 7.5.17R</i> .
<i>non-directive mutual</i>	a <i>mutual</i> that falls into (d), (e) or (g) of the definition of a <i>non-directive insurer</i> .
<i>non-EEA direct insurer</i>	an <i>insurer</i> , other than a <i>pure reinsurer</i> , whose head office is not in an <i>EEA State</i> .
<i>non-EEA insurer</i>	an <i>insurer</i> whose head office is not in an <i>EEA State</i> .
<i>non-profit fund</i>	a <i>long-term insurance fund</i> which is not a <i>with-profits fund</i> .
<i>non-profit insurance business</i>	the business of <i>effecting</i> or <i>carrying out non-profit insurance contracts</i> .
<i>non-profit insurance contract</i>	a <i>long-term insurance contract</i> which is not a <i>with-profits insurance contract</i> .
<i>non-proportional</i>	see <i>proportional reinsurance treaty</i> .

<i>reinsurance treaty</i>	
<i>nuclear risks</i>	risks falling within any <i>class</i> of <i>general insurance business</i> and arising in connection with the construction and use of any nuclear reactor or nuclear installation or the carriage of any nuclear matter.
<i>original financing cost amount</i>	(in relation to a <i>share</i> , <i>debenture</i> or other investment in, or external contribution to the capital of, a <i>firm</i> that is subject to a <i>step-up</i> ) the <i>financing cost amount</i> for the instrument for a period beginning on or near the date of issue of the instrument and ending on or near the date of the first <i>step-up</i> .
<i>participating insurance undertaking</i>	an <i>insurer</i> which: <ul style="list-style-type: none"> <li>(a) has a <i>subsidiary undertaking</i> that is an <i>insurance undertaking</i>; or</li> <li>(b) holds a <i>participation</i> in an <i>insurance undertaking</i>; or</li> <li>(c) is linked to an <i>insurance undertaking</i> by a <i>consolidation Article 12(1) relationship</i>.</li> </ul>
<i>permanent share capital</i>	an item of capital that is stated in <i>PRU 2.2.36R</i> to be permanent share capital.
<i>potential tier one instrument</i>	an item of capital that falls into <i>PRU 2.2.27R</i> .
<i>preference share</i>	(in <i>PRU</i> ) a <i>share</i> with rights, in respect of capital or dividends, superior to those of ordinary <i>shares</i> .
<i>premiums amount</i>	(for the purposes of <i>PRU 7.2</i> ), an amount, as defined in <i>PRU 7.2.45R</i> , used in the calculation of the <i>general insurance capital requirement</i> .
<i>property-linked benefits</i>	benefits other than <i>index-linked benefits</i> provided for under a <i>linked long-term contract of insurance</i> .
<i>property-linked liabilities</i>	insurance liabilities in respect of <i>property-linked benefits</i> .
<i>proportional reinsurance treaty</i>	a <i>reinsurance treaty</i> under which a pre-determined proportion of each <i>claim</i> payment by the cedant under <i>policies</i> subject to the treaty is recoverable from the <i>reinsurer</i> ;
	<i>non-proportional reinsurance treaty</i> is construed accordingly.
<i>proxy capital resources requirement</i>	the <i>minimum capital requirement</i> to which an <i>undertaking</i> would have been subject if it had <i>permission</i> for each activity it carries on anywhere in the world, so far as that activity is a <i>regulated activity</i> .
<i>real estate market adjustment ratio</i>	has the meaning set out, in relation to the <i>resilience capital requirement</i> , in <i>PRU 4.2.21R</i> .
<i>realistic basis life firm</i>	a <i>firm</i> to which <i>PRU 2.1.15R</i> applies (and which is therefore required to calculate a <i>with-profits insurance capital component</i> in accordance with <i>PRU 7.4</i> ).

<i>realistic current liabilities</i>	(in relation to a <i>with-profits fund</i> ) the realistic current liabilities of the <i>with-profits fund</i> calculated in accordance with <i>PRU 7.4.190R</i> .
<i>realistic excess capital</i>	(in relation to a <i>with-profits fund</i> ) the excess, if any, of the <i>realistic value of assets</i> for the <i>with-profits fund</i> over the sum of the <i>realistic value of liabilities</i> and the <i>risk capital margin</i> for that fund, calculated in accordance with <i>PRU 7.4.32R</i> .
<i>realistic value of assets</i>	(in relation to a <i>with-profits fund</i> ) has the meaning set out in <i>PRU 7.4.33R</i> .
<i>realistic value of liabilities</i>	(in relation to a <i>with-profits fund</i> ) the sum of the <i>with-profits benefit reserve</i> , the <i>future policy related liabilities</i> and the <i>realistic current liabilities</i> for the <i>with-profits fund</i> .
<i>regulated related undertaking</i>	a <i>related undertaking</i> that is any of the following: <ul style="list-style-type: none"> <li>(a) a <i>regulated entity</i>; or</li> <li>(b) an <i>insurance undertaking</i> which is not a <i>regulated insurance entity</i>; or</li> <li>(c) an <i>asset management company</i>; or</li> <li>(d) a <i>financial institution</i> which is neither a <i>credit institution</i> nor an <i>investment firm</i>; or</li> <li>(e) a <i>financial holding company</i>; or</li> <li>(f) an <i>insurance holding company</i>.</li> </ul>
<i>regulatory basis only life firm</i>	a <i>firm</i> carrying on <i>long-term insurance business</i> which is not a <i>realistic basis life firm</i> .
<i>regulatory current liabilities</i>	(in relation to a <i>with-profits fund</i> ) the regulatory current liabilities of the <i>with-profits fund</i> calculated in accordance with <i>PRU 7.4.30R</i> .
<i>regulatory excess capital</i>	(in relation to a <i>with-profits fund</i> ) has the meaning set out in <i>PRU 7.4.23R</i> .
<i>regulatory surplus value</i>	has the meaning set out in <i>PRU 1.3.36R</i> .
<i>regulatory value of assets</i>	(in relation to a <i>with-profits fund</i> ) has the meaning set out in <i>PRU 7.4.24R</i> .
<i>regulatory value of liabilities</i>	(in relation to a <i>with-profits fund</i> ) has the meaning set out in <i>PRU 7.4.29R</i> .
<i>reinsurance</i>	includes retrocession.
<i>reinsurer</i>	an <i>insurer</i> whose business includes effecting or carrying out contracts of <i>reinsurance</i> ; includes a retrocessionnaire.
<i>related undertaking</i>	in relation to an <i>undertaking</i> ("U"): <ul style="list-style-type: none"> <li>(a) any <i>subsidiary undertaking</i> of U; or</li> <li>(b) any <i>undertaking</i> in which U or any of U's <i>subsidiary</i></li> </ul>

- (c) *undertakings* holds a *participation*; or any *undertaking* linked to U by a *consolidation Article 12(1) relationship*; or
- (d) any *undertaking* linked by a *consolidation Article 12(1) relationship* to an *undertaking* in (a), (b) or (c).

*relevant capital sum* for the purposes of PRU 7.3.43R, the sum under a *contract of insurance* which is:

- (a) unless (b) applies:
    - (i) for whole life assurances, the sum assured;
    - (ii) for *contracts of insurance* where a sum is payable on maturity (including contracts where a sum is also payable on earlier death), the sum payable on maturity;
    - (iii) for deferred annuities, the capitalised value of the annuity at the vesting date (or the cash option if it is greater);
    - (iv) for *capital redemption* contracts, the sum payable at the end of the contract period; and
    - (v) for *linked long-term contracts of insurance*, notwithstanding (i) to (iv), the lesser of:
      - (A) the amount for the time being payable on death; and
      - (B) the aggregate of the value for the time being of the units allocated to the contract (or, where entitlement is not denoted by means of units, the value for the time being of any other measure of entitlement under the contract equivalent to units) and the total amount of the *premiums* remaining to be paid during such of the term of the contract as is appropriate for *zillmerising* or, if such *premiums* are payable beyond the age of seventy-five, until that age;
- but excluding in all cases any vested reversionary bonus; and
- (b) for temporary assurances, the sum assured on the *actuarial valuation date*.

*relevant insurer* in relation to a *community co-insurance operation*, an *insurer* which is concerned in the operation but is not the *leading insurer*.

*resilience capital requirement* the capital component for *long-term insurance business* calculated in accordance with the *rules* in PRU 4.2.9G to PRU 4.2.26R.

*return* the documents required (taken together) to be deposited under *IPRU(INS) rule 9.6(1)*.

<i>risk capital margin</i>	the risk capital margin for a <i>with-profits fund</i> calculated in accordance with the <i>rules</i> in <i>PRU 7.4.43R</i> to <i>PRU 7.4.103G</i> .
<i>Solvency I Directive</i>	the Directive of the European Parliament and of the Council of 5 March 2002 amending Council Directive 79/267/EEC as regards the solvency margin requirements for life assurance undertakings (No. 2002/12/EC).
<i>specific risk</i>	unique risk that is due to the individual nature of an asset and can potentially be diversified.
<i>spread risk</i>	the risk that a spread (that is, the difference in price or yield) between two variables will change.
<i>step-up</i>	(1) (in relation to a <i>tier one instrument</i> ) has the meaning set out in <i>PRU 2.2.74R</i> ; and (2) (in relation to a <i>tier two instrument</i> ) has the meaning set out in <i>PRU 2.2.118R</i> .
<i>Swiss general insurer</i>	a <i>Swiss general insurance company</i> which has <i>permission</i> to <i>effect</i> or <i>carry out contracts of insurance</i> of a kind which is subject to the <i>Swiss Treaty Agreement</i> .
<i>tier one capital resources</i>	the sum calculated at stage F of the calculation in <i>PRU 2.2.14R</i> .
<i>tier one instrument</i>	an item of capital that falls into <i>PRU 2.2.27R</i> and is eligible to form part of a <i>firm's tier one capital resources</i> .
<i>tier two instrument</i>	an item of capital that meets the conditions in <i>PRU 2.2.101R</i> or <i>PRU 2.2.108R</i> and is eligible to form part of a <i>firm's tier two capital resources</i> .
<i>tier two capital resources</i>	the sum calculated at stage I of the calculation in <i>PRU 2.2.14R</i> .
<i>total group tier one capital</i>	the sum calculated at stage A of the calculation in <i>PRU 8.3.43R</i> .
<i>total group tier two capital</i>	the sum calculated at stage B of the calculation in <i>PRU 8.3.43R</i> .
<i>UK MCR</i>	the <i>MCR</i> calculated in accordance with <i>PRU 7.6.44R</i> by a <i>non-EEA direct insurer</i> (except a <i>UK-deposit insurer</i> , an <i>EEA-deposit insurer</i> or a <i>Swiss general insurer</i> ) in relation to business carried on by the <i>firm</i> in the <i>United Kingdom</i> .
<i>ultimate EEA insurance parent undertaking</i>	an <i>EEA insurance parent undertaking</i> that is not itself the <i>subsidiary undertaking</i> of another <i>EEA insurance parent undertaking</i> .
<i>ultimate insurance parent undertaking</i>	an <i>insurance parent undertaking</i> that is not itself the <i>subsidiary undertaking</i> of another <i>insurance parent undertaking</i> .

<i>unearned premium</i>	the amount set aside by a <i>firm</i> at the end of its <i>financial year</i> out of <i>premiums</i> in respect of risks to be borne by the <i>firm</i> after the end of the <i>financial year</i> under <i>contracts of insurance</i> entered into before the end of that year.
<i>unpaid initial fund</i>	part of the <i>initial fund</i> of a <i>mutual</i> which the <i>mutual</i> is prevented from including in its <i>tier one capital resources</i> as <i>permanent share capital</i> by reason of <i>PRU 2.2.29R</i> because it is not fully paid.
<i>unsecured debt</i>	debt that does not fall within the definition of <i>secured debt</i> .
<i>upper tier two capital resources</i>	the sum calculated at stage G of the calculation in <i>PRU 2.2.14R</i> .
<i>upper tier two instrument</i>	an item of capital that meets the conditions in <i>PRU 2.2.101R</i> and is eligible to form part of a <i>firm's upper tier two capital resources</i> .
<i>volatility risk</i>	the potential loss due to fluctuations in implied <i>option</i> volatilities.
<i>with-profits benefits reserve</i>	(in relation to a <i>with-profits fund</i> ) the with-profits benefits reserve for the <i>with-profits fund</i> calculated in accordance with the <i>rules</i> in <i>PRU 7.4.116R</i> to <i>PRU 7.4.135G</i> .
<i>with-profits insurance business</i>	the business of <i>effecting</i> or <i>carrying out with-profits insurance contracts</i> .
<i>with-profits insurance capital component</i>	the capital component for <i>with-profits insurance business</i> of a <i>realistic basis life firm</i> calculated in accordance with <i>PRU 7.4</i> .
<i>with-profits insurance contract</i>	a <i>long-term insurance contract</i> which provides for the <i>policyholder</i> to be eligible to participate in any surplus arising on the whole of, or any part of, the <i>insurer's long-term insurance business</i> .
<i>with-profits insurance liabilities</i>	insurance liabilities arising from <i>with-profits insurance business</i> .
<i>WPICC</i>	<i>with-profits insurance capital component</i> .
<i>zillmerising</i>	the method known by that name for modifying the <i>net premium</i> reserve method of valuing a <i>long-term insurance contract</i> by increasing the part of the future <i>premiums</i> for which credit is taken so as to allow for initial expenses.

## Part 2: Amended definitions

Amend the following definitions as shown:

<i>actuarial health insurance</i>	(1)	<u>(in LLD) ...</u>
	(2)	<u>(in PRU) (in the context of the rules in PRU 7.2 concerning the calculation of the general insurance capital requirement), health insurance which meets all the conditions set out in PRU 7.2.72R.</u>
<i>admissible asset</i>	(1)	<u>(in LLD) ...</u>
	(2)	<u>(in PRU) an asset that falls into one or more categories in PRU 2 Ann 1R.</u>
<i>approved counterparty</i>		<del>an approved counterparty as defined in IPRU(INS).</del> <u>any of the following:</u> (a) <u>an approved credit institution; or</u> (b) <u>a firm whose permission includes dealing in investments as principal with respect to derivatives which are not listed; or</u> (c) <u>an ISD investment firm whose authorisation (as referred to in article 3 of the ISD) authorises it to carry on activities of the kind referred to in (b); or</u> (d) <u>in respect of a transaction involving a new issue of securities which are to be listed, the issuer or an ISD investment firm acting on behalf of the issuer.</u>
<i>approved credit institution</i>		<del>an approved credit institution as defined in IPRU(INS).</del> <u>an institution recognised or permitted under the law of an EEA State to carry on any of the activities set out in Annex 1 to the Banking Consolidation Directive.</u>
<i>approved derivative</i>	(1)	<del>(in COLL and CIS COLL and CIS) ...</del>
	(2)	<u>(in PRU) a derivative in respect of which the conditions in PRU 4.3.5R are met.</u>
<i>approved financial institution</i>		<del>an approved financial institution as defined in IPRU(INS).</del> <u>any of the following:</u>

- (a) the European Central Bank;
- (b) the central bank of an EEA State;
- (c) the International Bank for Reconstruction and Development;
- (d) the European Bank for Reconstruction and Development;
- (e) the International Finance Corporation;
- (f) the International Monetary Fund;
- (g) the Inter-American Development Bank;
- (h) the African Development Bank;
- (i) the Asian Development Bank;
- (j) the Caribbean Development Bank;
- (k) the European Investment Bank;
- (l) the European Community; and
- (m) the European Atomic Energy Community.

*approved security*

- (1) (in *COLL* and *CIS*) ...
- (2) (in *LLD and PRU*) any of the following: ...

*broker*

(in *MAR and PRU*) any person when dealing as agent.

*capital at risk*

~~Capital at risk as defined in *IPRU(INS)* 2.5R(7).~~

*claim*

- (1) (in *COMP*)...
- (2) (in *PRU, LLD, SUP* and *TC*) ...

*class*

- (1) (in *AUTH, IPRU(FSOC), IPRU(INS), PRU, LLD* and *SUP*) (in relation to a *contract of insurance*) any class of *contract of insurance* listed in Schedule 1 to the *Regulated Activities Order (Contracts of insurance)* and references to:
  - (a) *general insurance business class 1, 2, 3, etc.*  
are references to *contracts of insurance* of

the kind mentioned in the corresponding numbered paragraph in Part I of Schedule 1 to that Order or, as the context may require, to the *effecting or carrying out of contracts of insurance* of that kind; and

(b) long-term insurance business class I, II, III, etc. are references to *contracts of insurance* of the kind mentioned in the corresponding numbered paragraph in Part II of Schedule 1 to that Order or, as the context may require, to the *effecting or carrying out of contracts of insurance* of that kind.

- collateral*
- (2) (in *COLL* and *CIS*): ...
  - (3) (in *COB*) ...
  - (1) (in *COLL* and *CIS*) ...
  - (2) (in *COB* and *CASS*) ...
  - (3) (in *PRU*) an asset that is subject to a mortgage, charge, pledge or other security interest.
- counterparty*
- (1) (in *LLD*) ...
  - (2) (in *PRU*) (in relation to an *insurer*):
    - (a) any one individual; or
    - (b) any one unincorporated body of *persons*; or
    - (c) any *company* which is not a member of a *group*; or
    - (d) any *group of companies* excluding any *companies* within the *group* which are *subsidiary undertakings* of the *insurer*; or
    - (e) any government of a State together with all the public bodies, local authorities or nationalised industries of that State,

in which the *insurer*, or any of its *subsidiary undertakings*, has made *investments* or against whom, or in respect of whom, it, or any of its *subsidiary undertakings*, has rights or obligations under a contract entered into by the *insurer* or any of its *subsidiary undertakings*.

<i>defined benefits pension scheme</i>	<p>(1) <u>(except in PRU) a pension policy or pension contract under which the only money-purchase benefits are benefits ancillary to other benefits which are not money-purchase benefits.</u></p> <p>(2) <u>(in PRU) an occupational pension scheme under which the only money-purchase benefits are benefits ancillary to other benefits which are not money-purchase benefits.</u></p>
<i>discounting</i>	(in LLD and in PRU) discounting or deductions to take account of investment income as set out in paragraph 48 of the <i>insurance accounts rules</i> .
<i>EEA insurer</i>	<del>(in COB)</del> an insurer, other than a pure reinsurer or a non-directive insurer, whose head office is in any EEA State except the United Kingdom and which has received authorisation under article 6 of the <i>First Life Directive</i> or article 4 of the <i>Consolidated Life Directive</i> or article 6 of the <i>First Non-Life Directive</i> from its Home State Regulator.
<i>financial year</i>	<p>(1) (in DISP) ...</p> <p>(2) (in LLD) ...</p> <p>(3) <u>(in PRU) the period at the end of which the balance of the accounts of the insurer is struck, or, if no balance is struck, the calendar year.</u></p>
<i>guarantee fund</i>	<p><del>(in relation to an insurer)</del> an amount equal to the greater of one third of the <i>required margin of solvency</i> and the <i>minimum guarantee fund</i>, as set out in <i>IPRU(INS) 2.9R</i>.</p> <p>(1) (a) <u>subject to (1)(b), in relation to a firm carrying on general insurance business, the higher of one third of the general insurance capital requirement and the base capital resources requirement applicable to that firm;</u></p> <p style="padding-left: 40px;">(b) <u>where the firm is required to calculate a UK MCR or an EEA MCR under PRU 7.6, for the purposes of that section the reference in (1)(a) to the general insurance capital requirement is replaced by UK MCR or EEA MCR, as appropriate.</u></p> <p>(2) (a) <u>subject to (2)(b), in relation to a firm carrying on long-term insurance business, the higher of one third of the long-term insurance capital requirement and the base capital resources requirement applicable to that firm;</u></p>

	(b)	<u>where the firm is required to calculate a UK MCR or an EEA MCR under PRU 7.6, for the purposes of that section the reference in (2)(a) to the long-term insurance capital requirement is replaced by UK MCR or EEA MCR, as appropriate.</u>
<i>Insurance Directives</i>		<del>the First Life Directive, Second Life Directive, and Third Life Directive and Consolidated Life Directive</del> and the <i>First Non-Life Directive, Second Non-Life Directive and Third Non-Life Directive</i> .
<i>listed</i>	(1)	(except in <i>LLD</i> and <i>PRU</i> ) included in an <i>official list</i> .
	(2)	(in <i>LLD</i> and <i>PRU</i> ) <ul style="list-style-type: none"> <li>(a) included in an <i>official list</i>; or</li> <li>(b) in respect of which facilities for <i>dealing</i> on a <i>regulated market</i> have been granted.</li> </ul>
<i>lower tier two capital</i>	(1)	(in <i>ELM</i> ) ...
	(2)	<u>(in <i>PRU</i>) an item of capital that is specified in stage H of the table in PRU 2.2.14R.</u>

	(2)	<u>(in <i>PRU</i>) in relation to long-term insurance business, means all expenses, other than commission, incurred in the administration of an insurer or its business.</u>
<i>margin of solvency</i>		<del>the excess of the value of an insurer's assets over the amount of its liabilities, that value and amount being determined in accordance with IPRU(INS) and IPRU(FSOC).</del>
<i>mathematical reserves</i>	(1)	(in <i>LLD</i> ) ...
	(2)	<u>(in <i>PRU</i>) the provision made by an insurer to cover liabilities (excluding liabilities which have fallen due and liabilities arising from deposit back arrangements) arising under or in connection with long-term insurance contracts.</u>
<i>minimum guarantee fund</i>		(in <i>LLD</i> ) a minimum guarantee fund as defined in <i>IPRU(INS)</i> 2.9 <u>as that rule was in force on 30 December 2004.</u>

*non-directive friendly society*

...

- (f) (i) *a friendly society* whose liabilities in respect of *general insurance contracts* are fully reinsured with or guaranteed by other ~~mutuals~~ mutuals (including *friendly societies*); and
- (ii) the mutuals providing the reinsurance or the guarantee are subject to the rules of the *First Non-Life Directive*;

...

*non-directive insurer*

~~a non-directive insurer as defined in *IPRU(INS)*.~~

- (a) an insurer whose insurance business is restricted to the provision of benefits which vary according to the resources available and in which the contributions are determined on a flat-rate basis; or
- (b) an insurer whose long-term insurance business is restricted to the provision of benefits for employed and self-employed persons belonging to an undertaking or group of undertakings, or a trade or group of trades, in the event of death or survival or of discontinuance or curtailment of activity (whether or not the commitments arising from such operations are fully covered at all times by mathematical reserves); or
- (c) an insurer which undertakes to provide benefits solely in the event of death where the amount of such benefits does not exceed the average funeral costs for a single death or where the benefits are provided in kind; or
- (d) a mutual (carrying on long-term insurance business) whose:
  - (i) articles of association contain provisions for calling up additional contributions from members or reducing their benefits or claiming assistance from other persons who have undertaken to provide it; and
  - (ii) annual gross premium income (other than from contracts of reinsurance) has not exceeded 5 million Euro for each of the financial year in question and the two previous financial years;

or

- (e) a mutual (carrying on general insurance business) whose:
  - (i) articles of association contain provisions for calling up additional contributions from members or reducing their benefits;
  - (ii) business does not cover liability risks, other than *ancillary risks*, or credit or suretyship risks;
  - (iii) gross premium income (other than from contracts of *reinsurance*) for the *financial year in question* did not exceed 5 million Euro; and
  - (iv) members provided at least half of that gross premium income; or
- (f) an insurer whose insurance business (other than *reinsurance*) is:
  - (i) restricted to the provision of assistance for persons who get into difficulties while travelling, while away from home or while away from their permanent residence;
  - (ii) carried out exclusively on a local basis and consists only of benefits in kind; and
  - (iii) such that the gross premium income from the provision of assistance in the *financial year in question* did not exceed 200,000 Euro; or
- (g) (i) a mutual whose liabilities in respect of general insurance contracts are fully reinsured with or guaranteed by other *mutuals* (including *friendly societies*); and
  - (ii) the *mutuals* providing the *reinsurance* or the guarantee are subject to the rules of the *First Non-Life Directive*.

*premium*

(1) ...

(2) (except in *ICOB* and *CASS 5*) (in relation to a *long-term insurance contract*) ~~a payment under the contract~~ the consideration payable under the contract by the *policyholder* to the *insurer*; ...

*prescribed pricing basis*

...  
(in relation to a *derivative contract*, or *quasi-derivative contract*), the pricing basis set out in *IPRU(INS) 4.12R(8)* (*Derivative contracts*) as that rule was in force on 30 December 2004.

*quasi-derivative contract or quasi-derivative*

a contract or asset having the effect of a *derivative contract*.

*regulated institution*

~~subject to the requirements of *IPRU* and as more fully defined in *IPRU*, an *insurance undertaking*, *credit institution*, *friendly society* or *investment firm*.~~

any of the following:

- (a) an *EEA insurer* or *UK insurer*; or
- (b) an *approved credit institution*; or
- (c) a *friendly society* (not within (a)) which is authorised to carry on *insurance business*; or
- (d) a *firm* whose *permission* includes *dealing in investments as principal* with respect to *derivatives* which are not *listed*; or
- (e) an *ISD investment firm* whose authorisation (as referred to in article 3 of the *ISD*) authorises it to carry on activities of the kind referred to in (d).

*regulated market*

- (1) (a) (as defined in article 1 of the *ISD*) ... ; and
- (b) (in *SUP 17* and, unless the context otherwise requires, elsewhere in the Handbook) ...
- (2) (in *PRU*) a market which is characterised by:
  - (a) regular operation;
  - (b) the fact that regulations issued or approved by the appropriate authority of the state where the market is situated:
    - (i) define the conditions for the operation of and access to the market;
    - (ii) define the conditions to be satisfied by a *financial instrument* in order for

	<u>it to be dealt in on the market; and</u>
	(iii) <u>require compliance with reporting and transparency requirements comparable to those laid down in articles 20 and 21 of the <i>Investment Services Directive</i>; and</u>
	(c) <u>in the case of a market situated outside the <i>EEA States</i>, the fact that the <i>financial instruments</i> dealt in are of a quality comparable to those in a regulated market in the <i>United Kingdom</i>.</u>
<i>required margin of solvency</i>	a <i>margin of solvency</i> required by <i>IPRU(INS)</i> or <i>IPRU(FSOC)</i> .
<i>required minimum margin</i>	for an <i>insurer</i> , the minimum margin required by <i>IPRU(INS)</i> .
<i>scheme of operations</i>	a scheme which: <ul style="list-style-type: none"> <li>(a) ...</li> <li>(b) contains the information required under <i>SUP App 2.9.1R</i> <del>2.12.1R</del>(Content of a scheme of operations).</li> </ul>
<i>secured debt</i>	(1) (in <i>LLD</i> ) ... <ul style="list-style-type: none"> <li>(2) (in <i>PRU</i>) a debt fully secured on: <ul style="list-style-type: none"> <li>(a) <u>assets whose value at least equals the amount of debt; or</u></li> <li>(b) <u>a letter of credit or guarantee from an <i>approved counterparty</i>.</u></li> </ul> </li> </ul>
<i>technical provision</i>	(1) (in <i>LLD</i> ) a technical provision as defined in the <i>insurance accounts rules</i> . <ul style="list-style-type: none"> <li>(2) (in <i>PRU</i>) a technical provision established: <ul style="list-style-type: none"> <li>(a) <u>for <i>general insurance business</i>, in accordance with <i>PRU 7.2.12R</i>; and</u></li> <li>(b) <u>for <i>long-term insurance business</i>, in accordance with <i>PRU 7.2.16R</i>.</u></li> </ul> </li> </ul>
<i>tier one capital</i>	(1) (in <i>ELM</i> ) ...

	(2)	<u>(in PRU) an item of capital that is specified in stages A, B or C of the table in PRU 2.2.14R.</u>
<i>tier two capital</i>	(1)	(in ELM) ...
	(2)	<u>(in PRU) an item of capital that is specified in stages G or H of the table in PRU 2.2.14R.</u>
<i>UK-deposit insurer</i>		<del>a UK deposit insurer as defined in IPRU(INS), which is in summary: a non-EEA insurer which has made a deposit in the United Kingdom in accordance with IPRU(INS) 8.1.</del>  <u>a non-EEA insurer that has made a deposit in the United Kingdom under article 23 of the First Non-Life Directive in accordance with article 26 of that Directive or under article 51 of the Consolidated Life Directive in accordance with article 56 of that Directive.</u>
<i>UK insurer</i>		<del>a UK insurer, as defined in IPRU(INS), which is in summary: an insurer, other than a pure reinsurer or a non-directive insurer, whose head office is in the United Kingdom.</del>  <u>an insurer, other than a pure reinsurer or a non-directive insurer, whose head office is in the United Kingdom.</u>
<i>upper tier two capital</i>	(1)	(in ELM) ...
	(2)	<u>(in PRU) an item of capital that is specified in stage G of the table in PRU 2.2.14R.</u>
<i>with-profits fund</i>	(1)	for the purposes of COB: ...
	(2)	<u>for the purposes of PRU, a long-term insurance fund in which policyholders are eligible to participate in any established surplus.</u>

## ADDENDUM

### INTEGRATED PRUDENTIAL SOURCEBOOK (INSURERS AND OTHER AMENDMENTS) (CONSEQUENTIAL AMENDMENTS) INSTRUMENT 2004

In Annex G to this instrument:

IPRU(INS) rule 9.29(2) is amended as follows, rather than as shown in the instrument:

- (2) In this rule, **derivative contract** includes a contract or asset which has the effect of a *derivative contract* ~~within the meaning of rule 4.13~~ and, for the purposes of (1)(h), such a contract or asset must be treated as requiring a significant provision or falling within rule 4.12 (2), ~~or the definition of permitted derivative contract~~, as appropriate, if it has the effect of a *derivative contract* which would require a significant provision or fall within that provision definition.

The definition of "permitted derivative contract" in IPRU(INS) Chapter 11, Part I is amended as follows, rather than as shown in the instrument:

<i>permitted derivative contract</i>	<p>(1) for the purpose of <b>Appendix 3.2</b>, a <i>derivative contract</i> or <u>quasi-derivative</u></p> <p>(a) which is 'covered' and—</p> <p>(i) which is held in connection with 'property' for the purposes of reduction of investment risk or efficient portfolio management, or</p> <p>(ii) which has the effect of a <i>permitted derivative contract</i> held in connection with 'property' for such purposes; and</p> <p>(b) which satisfies the conditions in rules 4.12(6) to (8) except that the references in rule 4.12 to 'an asset for the valuation of which provision is made in the <i>Valuation of Assets Rules</i>' is construed as a reference to <i>permitted connected property</i>;</p> <p><u>which satisfies the requirements of PRU 4.3 with the exception of PRU 4.3.18R, as applied in relation to assets covering liabilities in respect of linked long-term contracts of insurance, amended as follows:</u></p> <p>(a) in <u>PRU 4.3.5R and PRU 4.3.36R</u>, "For the purpose of PRU 2 Ann 1R (Admissible assets in</p>
--------------------------------------	---

	<p>insurance)" is replaced by "For the purposes of <u>IPRU(INS) rules 3.6 and 3.7 and Appendix 3.2</u>";</p> <p>(b) in <u>PRU 4.3.6R(2) and (3), PRU 4.3.7R(1) and (2), PRU 4.3.17R(1) and PRU 4.3.36R(1)</u> "<u>admissible assets</u>" is replaced by "<u>permitted connected property</u>";</p> <p>(c) <u>PRU 4.3.12R(2) and (3)</u> are replaced by:  <u>"(2) (where they are held to cover index-linked liabilities) might:</u></p> <p style="padding-left: 40px;">(a) <u>not be appropriate cover for those liabilities as required by PRU 4.2.58R; or</u></p> <p style="padding-left: 40px;">(b) <u>fall in value; and</u></p> <p><u>(3) (where they are held to cover property-linked liabilities) might:</u></p> <p style="padding-left: 40px;">(a) <u>not be appropriately selected in accordance with contractual and constructive liabilities as required by PRU 7.6.36R and appropriate cover for those liabilities as required by PRU 4.2.57R; or</u></p> <p style="padding-left: 40px;">(b) <u>fall in value".</u></p> <p>(2) <b>property is—</b></p> <p style="padding-left: 40px;">(a) <del>permitted connected property, not being a contract or asset having the effect of a derivative contract; or</del></p> <p style="padding-left: 40px;">(b) <del>a permitted derivative contract or contract or asset having the effect of a permitted derivative contract either of which when taken together with the permitted derivative contract mentioned in (1), has the effect that the insurer holds either permitted connected property or a permitted derivative contract in connection with such property; and</del></p> <p>(3) <del>a derivative contract is covered if it would not require a significant provision to be made in respect of it pursuant to rule 5.3 if it were a derivative contract to which the Valuation of Asset Rules applied</del></p>
--	--

Insert as new text in IPRU(INS), Chapter 12, between TR5 and TR7, the following transitional provision, TR6:

6	IPRU(INS) rule 9.31(b) and Appendix 9.4A, paragraphs 4(2), 6(3) and 13	R	<p>(1) Subject to compliance with (2), in relation to an <i>insurer's financial year</i> ending on or before 29 June 2005, the <i>insurer</i> is not required to include in the valuation report required by IPRU(INS) rule 9.31(b), and forming part of its <i>return</i> for that <i>financial year</i>, the information (the "omitted information") required by paragraphs 4(2), 6(3) and 13 of Appendix 9.4A to IPRU(INS).</p> <p>(2) The <i>insurer</i> must instead report the omitted information to the <i>FSA</i>, at the same time as it deposits its <i>return</i> for that <i>financial year</i> with the <i>FSA</i> in accordance with IPRU(INS) rule 9.6(1)(b), in a way that:</p> <p>(a) complies with the requirements for written notifications to the <i>FSA</i> in SUP 15.7.4R and SUP 15.7.5R; and</p> <p>(b) otherwise complies with the relevant paragraphs of Appendix 9.4A to IPRU(INS).</p>	From 31 December 2004 until 29 June 2005	31 December 2004
---	--	---	--	--	------------------

Addendum  
22 December 2004

**CONDUCT OF BUSINESS SOURCEBOOK  
(AMENDMENT NO 19) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of its general rule-making power under section 138 of the Financial Services and Markets Act 2000 (the "Act").
- B. The rule-making power listed above is specified for the purposes of section 153(2) of the Act (Rule-making instruments).

**Commencement**

- C. This instrument comes into force on 1 January 2005.

**Amendments to the Conduct of Business sourcebook**

- D. The Conduct of Business sourcebook is amended in accordance with the Annex to this instrument.

**Citation**

- E. This instrument may be cited as the Conduct of Business Sourcebook (Amendment No 19) Instrument 2004.

By order of the Board  
16 December 2004

## Annex

### Amendments to the Conduct of Business sourcebook

In this Annex, underlining indicates new text and striking through indicates deleted text.

- 5.2.9R      (1)      Unless (2) applies, a ~~A~~ *firm* must make and retain a record of a *private customer's* personal and financial circumstances that it has obtained in satisfying COB 5.2.5R. The *firm* must retain ~~the record must be retained~~ for a minimum period after the information is obtained, as follows:
- (1) (a)            ...
- (2) (b)            ...
- (3) (c)            ...
- (2)      A *firm* need not retain the record where following a *personal recommendation* to a *private customer* in connection with a *designated investment*, the *private customer* does not proceed with the recommendation or any part of it.

**INSURANCE MEDIATION (MISCELLANEOUS AMENDMENTS)  
INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) section 138 (General rule-making powers);
  - (2) section 156 (General supplementary powers); and
  - (3) section 157 (Guidance).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C. This instrument comes into force on 14 January 2005.

**Amendments to the Handbook**

- D. The Integrated Prudential sourcebook is amended in accordance with Annex A to this instrument.
- E. The Insurance: Conduct of Business sourcebook is amended in accordance with Annex B to this instrument.
- F. The Client Assets sourcebook is amended in accordance with Annex C to this instrument.
- G. The Supervision manual is amended in accordance with Annex D to this instrument.
- H. The Professional Firms sourcebook is amended in accordance with Annex E to this instrument.

**Citation**

- I. This instrument may be cited as the Insurance Mediation (Miscellaneous Amendments) Instrument 2004.

By order of the Board  
16 December 2004

## Annex A

### Amendments to the Integrated Prudential sourcebook

In this Annex underlining indicates new text and striking through indicates deleted text.

(This Annex amends in part the text made in the Insurance Mediation and Mortgage Mediation, Lending and Administration (Prudential Provisions) Instrument 2004 (2004/1).)

Insert a transitional rule as follows:

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provisions coming into force
5A	<u>PRU 9.4.5 R</u> and <u>PRU 9.4.7R</u>	R	<u>PRU 9.4.5R and PRU 9.4.7R have effect in respect of the use by a firm of the services of another person consisting of insurance mediation and provided from an establishment in an EEA State that has not implemented Article 3 (Registration) of the IMD, as if the condition in paragraph (4) of PRU 9.4.5R and the condition in paragraph (2) of PRU 9.4.7R were a condition that the firm has no reason to doubt the good repute, competence and financial standing of that person.</u>	<u>14 January 2005 to 14 January 2006</u>	<u>14 January 2005</u>

...

9.4.7 R The second condition in *PRU 9.4.4R* is that the *firm* takes all reasonable steps to ensure that the person in *PRU 9.4.5R* in relation to the activity, is not, directly or indirectly, carrying out the activity as a consequence of the activities of another person which:

...

(1) contravene section 19 of the *Act* (The general prohibition); or

(2) in the case of activities provided from an establishment in an EEA State, contravene the IMD registration requirements.

...

## Annex B

### Amendments to the Insurance: Conduct of Business sourcebook

In this Annex underlining indicates new text and striking through indicates deleted text.

(This Annex amends in part the text made in the Insurance: Conduct of Business Sourcebook Instrument 2004 (2004/6).)

Amend ICOB transitional rules as follows:

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: dates in force	(6) Handbook provision: coming into force
...					
7	<i>ICOB 5</i>	R	<p>(1) ...</p> <p>(2) If a <i>non-investment insurance contract</i> is concluded before 14 January 2005 and the <i>customer</i> has not previously received a <i>policy document</i>, the <i>insurer</i> or <i>insurance intermediary</i> (as the case may be) must ensure that the <i>customer</i> is provided with a copy of the <i>policy document</i> in good time prior to the commencement of any <i>renewal</i> of or mid-term change to the <i>policy</i> <u>but in respect of any mid-term change requested by a commercial customer on or before 30 April 2005, the insurer or insurance intermediary (as the case may be) may provide the commercial customer with the policy document promptly after the mid-term change.</u></p>	...	...
...					
9	<u><i>ICOB 5.5.5R (12)</i></u>	<u>R</u>	<u><i>A firm may comply with ICOB 5.5.5.R(12) without including in the policy summary, if it be the case, the fact that there is no compensation scheme.</i></u>	<u>14 January 2005 to 31 July 2005</u>	<u>14 January 2005</u>
...					

...

1.2.10 R *ICOB* does not apply to an *authorised professional firm* with respect to its *non-mainstream regulated activities* except for:

...

(4) those sections in *ICOB* which implement articles 12 and 13 of the *IMD*, unless:

(a) the *designated professional body* of the *firm* has made rules which implement some or all of the provisions of articles 12 and 13 of the *IMD*;

(b) those rules have been approved by the *FSA* under section 332(5) of the *Act*; and

(c) the *firm* is subject to the rules in the form in which they were approved;

in which case those sections of *ICOB* which implement articles 12 and 13 of the *IMD* are disapplied to the extent that these articles are implemented by the rules of the *designated professional body*.

...

5.5.5 R Table: Policy summary content

(1) ...

(12) that, should the *insurance undertaking* be unable to meet its liabilities, the *retail customer* may be entitled to compensation from the *compensation scheme*, or from any other applicable named compensation scheme, or that there is no compensation scheme, should the *insurance undertaking* be unable to meet its liabilities; and

...

...

5.5.15A G If the *non-investment insurance contract* contains optional elements of cover, the total amount of *premium*, or the basis for the calculation of the *premium*, required under requirements of *ICOB* 5.5.14R(1) should include all also apply to each optional elements of cover selected by the *retail customer*.

...

## Annex C

### Amendments to the Client Assets sourcebook

In this Annex underlining indicates new text and striking through indicates deleted text.

(This Annex amends in part the text made in the Client Assets sourcebook (Amendment No 2) Instrument 2004 (2004/92).)

...

- 5.1.4A R (1) ~~A firm which, in relation to service charge, receives or holds *client money* and is required to segregate and account for such *money* in accordance with section 42 of the Landlord and Tenant Act 1987 ("the 1987 Act") will, if it complies with that provision and with (3), be deemed to comply with CASS 5.3 to 5.6.~~
- A firm will, subject to (3), be deemed to comply with CASS 5.3 to CASS 5.6 if it receives or holds *client money* and it either:
- (a) in relation to a service charge, complies with the requirement to segregate such money in accordance with section 42 of the Landlord and Tenant Act 1987 ("the 1987 Act"); or
- (b) in relation to money which is clients' money for the purpose of the Royal Institution of Chartered Surveyors' Rules of Conduct ("RICS rules") in force as at 14 January 2005, it complies with the requirement to segregate and account for such money in accordance with the RICS Members' Accounts rules.
- (2) Paragraph (1)(a) also applies to a *firm* in Scotland or in Northern Ireland if in acting as a property manager the *firm* receives or holds a service charge and complies (so far as practicable) with section 42 of the 1987 Act as if the requirements of that provision applied it.
- (3) In addition to complying with (1), a *firm* must ensure that an account in which *money* held pursuant to the trust fund mentioned in section 42(3) of the 1987 Act or an account maintained in accordance with the RICS rules satisfies the requirements in CASS 5.5.49R to the extent that the *firm* will hold money as trustee or otherwise on behalf of its clients.

...

- 5.5.18 R ...
- (4) (1) to (3) do not apply in relation to an *appointed representative, field representative* or other agent to which (if it were a *firm*) CASS 5.1.4AR(1) or (2) would apply, but subject to the *representative* or agent maintaining an account which satisfies the requirements of CASS 5.5.49R to the extent that the *representative* or agent will hold *client money* on trust or otherwise on behalf of its clients.

...

## Annex D

### Amendments to the Supervision manual

In this Annex underlining indicates new text and striking through indicates deleted text.

(This Annex amends in part the text made in the Insurance Mediation and Mortgage Mediation, Lending and Administration (Prudential Provisions) Instrument 2004 (2004/01).)

...

13.3.2B G *An appointed representative appointed by a firm to carry on insurance mediation activity on its behalf may establish a branch in another EEA State under the Insurance Mediation Directive. In this case, the notice of intention in SUP 13.3.2G(1) should be given to the FSA by the firm on behalf of the appointed representative.*

...

13.4.2A G *An appointed representative appointed by a firm to carry on insurance mediation activity on its behalf may provide cross border services in another EEA State under the Insurance Mediation Directive. In this case, the notice of intention in SUP 13.4.2G(1) should be given to the FSA by the firm on behalf of the appointed representative.*

SUP Appendix 3 Guidance on passporting issues

...

3.10.11 G *Although the Insurance Directives are concerned with the regulated activities of effecting and carrying out contracts of insurance, an incoming EEA firm passported under the Insurance Directives ~~Consolidated Life Directive~~ will be entitled to carry on certain other regulated activities without the need for top-up permission. This is where the regulated activities are carried on for the purposes of or in connection with ~~the~~ the incoming EEA firm's insurance business. These regulated activities may include:*

## Annex E

### Amendments to the Professional Firms sourcebook

In this Annex underlining indicates new text and striking through indicates deleted text.

(This Annex amends in part the text made in the Distance Marketing Directive Instrument 2004 (2004/39).)

...

- 5.4.1 R (1) ...
- (2) Paragraph (1) does not apply in relation to regulations 6 to 7 and 14 to 15(2) if the *designated professional body* of the *authorised professional firm* has rules equivalent to some or all of those regulations and:
- (a) those rules have been approved by the *FSA* under section 332(5) of the *Act*; and
  - (b) the *authorised professional firm* is subject to those rules in the form in which they have been approved;
- in which case those regulations are disapplied to the extent that they are implemented by the rules of the *designated professional body*.

...

**MORTGAGE FIRMS AND INSURANCE INTERMEDIARIES FEES (2004/2005)  
INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 (“the Act”):
- (1) section 156 (General supplementary powers); and
  - (2) paragraph 17(1) of Schedule 1 (Fees).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C. This instrument comes into force on 17 December 2004 (in part) and 14 January 2005 (in part) as follows:
- (1) SUP 20 Ann 2R part 1 A2 and A18 come into force on 17 December 2004;
  - (2) SUP 20 Ann 2R part 1 A19 comes into force on 17 December 2004 insofar as it relates to any regulated activity in relation to a long-term care insurance contract; and
  - (3) SUP 20 Ann 2R part 1 A19 comes into force on 14 January 2005 insofar as it relates to any regulated activity except in relation to a long-term care insurance contract.

**Amendments to the Supervision manual**

- D. The Supervision manual is amended in accordance with the Annex to this instrument.

**Citation**

- E. This instrument may be cited as the Mortgage Firms and Insurance Intermediaries Fees (2004/2005) Instrument 2004.

By order of the Board  
16 December 2004

**LLOYD'S SOURCEBOOK (INTEGRATED PRUDENTIAL AND AUDITING AND  
ACTUARIAL REQUIREMENTS) INSTRUMENT 2004**

**Powers exercised**

- A. The Financial Services Authority makes this instrument in the exercise of the following powers and related provisions in the Financial Services and Markets Act 2000 ("the Act"):
- (1) section 138 (General rule-making power);
  - (2) section 141 (Insurance business rules);
  - (3) section 150(2) (Actions for damages);
  - (4) section 156 (General supplementary powers);
  - (5) section 157(1) (Guidance);
  - (6) section 316 (Direction by Authority); and
  - (7) section 340 (Appointment).
- B. The rule-making powers listed above are specified for the purpose of section 153(2) (Rule-making instruments) of the Act.

**Commencement**

- C. This instrument comes into force as follows:
- (1) the amendments in Annex G, Part 2 come into force on 1 January 2006;
  - (2) LLD 18.2.1R(1) as it applies PRU 1.2.22R to managing agents in Annex M comes into force on 1 January 2006;
  - (3) the amendment to the Glossary definition of "IPRU(INS)" in Annex V comes into force on 31 December 2004;
  - (4) the remainder of this instrument comes into force on 1 January 2005.

**Amendments to the Lloyd's sourcebook**

- D. The Lloyd's sourcebook is amended as follows:
- (1) the chapters of the Lloyd's sourcebook listed in column (1) of the following table are amended in accordance with the Annexes in column (2):

(1)	(2)
LLD Table of Contents	Annex A and Annex G, Part 2
LLD 1	Annex B
LLD 2	Annex C
LLD 9	Annex D
LLD 10	Annex E
LLD 11	Annex F
LLD 12	Annex G, Part 1 and Part 2
LLD 13	Annex H
LLD 14	Annex I
LLD 15	Annex J

(2) by inserting as new chapters and sections as listed in column (1) of the following table the provisions in the Annex listed in column (2):

(1)	(2)
LLD 16	Annex K
LLD 17	Annex L
LLD 18	Annex M
LLD 19	Annex N
LLD 20	Annex O
LLD 21	Annex P
LLD 22	Annex Q
LLD 23	Annex R
LLD 24	Annex S
LLD 25	Annex T

**Amendments to the Supervision manual**

E. The Supervision manual is amended in accordance with Annex U to this instrument.

**Amendments to the Glossary**

F. The Glossary is amended in accordance with Annex V to this instrument.

**Citation**

G. This instrument may be cited as the Lloyd's Sourcebook (Integrated Prudential and Auditing and Actuarial Requirements) Instrument 2004.

By order of the Board  
16 December 2004

## Annex G

### Part 1

#### Amendments to the Lloyd's sourcebook, Chapter 12

In this Part, underlining indicates new text and striking through indicates deleted text.<sup>1</sup>

12 Determination of liabilities

12.1 Application and purpose

...

12.2 ~~Requirement to determine liabilities [deleted]~~

[Delete LLD 12.2 in its entirety; the deleted text is not shown struck through.]

...

12.3 Members' liabilities

12.3.1 R ~~For open syndicate years, a member's liabilities are the aggregate of:~~

~~(1) his proportionate share of the liabilities of each open syndicate year in which he participates, including:~~

~~(a) liabilities associated with earlier syndicate years that have been closed into that year; and~~

~~(b) any equalisation reserve allocated to him for the syndicate year by the Society under LLD 12.2.5G; and~~

~~(2)~~

At stage (e) of PRU 2.2.14R the Society must deduct from a member's capital resources a negative valuation difference being, for each member, (for open syndicate years through which the member carries on general insurance business taken together), if A+B exceeds C, A+B-C, where:

(1)(a) A is the total of his the member's proportionate shares for each syndicate year of the accumulated excess of income over outgoings;

(2)(b) B is the amount of any unpaid additional contributions the

---

<sup>1</sup> The amendments to LLD 12 set out in this Part 1 take effect on 1 January 2005 until 31 December 2005. Further amendments taking effect on 1 January 2006 are set out in Part 2.

*member* is required to make to the funds maintained for the *syndicate years* by the *managing agents*; and

(3)(e) C is the total of his ~~the~~ *member's* proportionate shares of the liabilities net of reinsurance recoveries.

12.3.2 R For the purpose of ~~LLD 14.3~~ *PRU 4.2.52G to 4.2.56G* (Currency matching of assets and liabilities) and *PRU 7.2.30R* (Localisation (UK firms only)), the amounts in:

(1) ~~LLD 12.3.1R~~(2) *LLD 12.3.1R*, which are intended to prevent the premature release of profits,; and

(2) ~~LLD 12.2.4R~~ (the equalisation reserve);

may be left out of account.

## Annex J

### Amendments to the Lloyd's sourcebook, Chapter 15

In this Annex, underlining indicates new text and striking through indicates deleted text.

LLD 15: Reporting by the Society

[Change to title of the chapter]

LLD 15: Reporting ~~by the Society~~

15.1 Application and purpose

Application

15.1.1 R This chapter applies to the *Society* and to *managing agents*.

...

15.1.4 G This chapter requires the *Society* to report on the *insurance business* carried on by *members* and on the assets and liabilities of *members* and the *Society*. It also requires *managing agents* to report on the *insurance business* carried on through each *syndicate* they manage. Reporting at *syndicate* level is required to enable the *Society* to prepare the *Lloyd's Return*.

15.1.5 G The *Lloyd's Return* is made annually and contains the statement required from the *Society* that it has maintained ~~the margin of solvency required under LLD 11 (Required margin of solvency)~~ *capital resources* equivalent to its *capital resources* requirement under PRU. This does not absolve the *Society* from the obligation to maintain ~~the required margin of solvency~~ *capital resources* equivalent to its *capital resources* requirement at all times.

...

15.2 Requirement to report to the FSA

...

15.2.2 R The report in LLD 15.2.1R must be prepared in accordance with ~~LLD 9.4.1R~~ PRU 1.3.5R and this chapter.

15.3 Content and form of the Lloyd's Return

15.3.1 R In preparing the *Lloyd's Return*, the *Society* must:

(1) complete the forms in LLD 15 Ann 1R, subject to ~~LLD 9 to LLD 15~~ to LLD 25,

(a) following the requirement of and making the disclosures required under Appendices 9.1, 9.2, 9.3 and 9.4 of

~~IPRU(INS); and,~~

~~(b) — having regard to Guidance Note 9.1 of IPRU(INS);~~

~~as if in the documents referred to in (a) and (b) those Appendices references to an insurer were references to the Society and members, and adapting the requirements in (a) and the guidance in (b) those Appendices where necessary;~~

(2) ...

...

15.4.7 G ~~Further guidance on risk groups and country classification is in IPRU(INS), Guidance Note 9.1, paragraph 9.4. [deleted]~~

15.8 Additional information

...

15.8.1 R

...  
(8) the circumstances surrounding the use of any *derivative* contract held at any time during the *financial year* which did not fall within ~~LLD 13.6.1R~~; fulfil the criteria outlined in PRU 4.3.5R; and

15.8.5 R

...  
(2) for each of the realistic disaster scenarios set by the *Society* ~~under LLD 10.6~~ when fulfilling its obligation under PRU to monitor aggregation of risk within the Lloyd's market of the contribution it is assumed each such reinsurer would provide in the event of that disaster occurring.

15.9 Certificates and audit report

...

15.9.1 R

(4) an abstract from the *syndicate actuary* of each *syndicate* which carries on *long-term insurance business* of the *actuary's* report made under ~~LLD 10.9.4R(2)(b)~~ SUP 4.6.14R(2).

New text to be inserted into LLD Chapter 15 after LLD 15.12

15.13 Syndicate-level reporting

15.13.1 R Each managing agent must:

(1) prepare a return for each financial year in respect of the insurance business carried on through each syndicate managed by it; and

(2) provide the return in (1) to the *Society* as soon as practicable after the end of the *financial year* but in any event in time to enable the *Society* to report to the *FSA* in accordance with *LLD 15.2.1R*.

15.13.2 R      The *Society* must:

(1) issue instructions to *managing agents* setting out the form and content of the return under *LLD 15.13.1R*; and

(2) issue the instructions in (1) as soon as practicable but in any event in time to enable *managing agents* to comply with *LLD 15.13.1R*.

15.13.3 R      A *managing agent* must annex to each return which it prepares under *LLD 15.13.1R*, a certificate signed by the persons referred to in *LLD 15.13.4R*, including the statements required by *LLD 15.13.5R*.

15.13.4 R      The certificate in *LLD 15.13.3R* must be signed by:

(1) where there are more than two *directors* of the *managing agent*, at least two of those *directors* and, where there are not more than two *directors*, all the *directors*; and

(2) a *chief executive*, if any, of the *managing agent* or (if there is no *chief executive*) the secretary.

15.13.5 R      Table

<u>1</u>	<u>The certificate in <i>LLD 15.13.3R</i> must state that:</u>	
	<u>(1)</u>	<u>the return has been properly prepared in accordance with the instructions referred to in <i>LLD 15.13.2R</i>;</u>
	<u>(2)</u>	<u>proper accounting records have been maintained and adequate information has been obtained by the <i>managing agent</i>;</u>
	<u>(3)</u>	<u>an appropriate system of control has been established and maintained by the <i>managing agent</i> over the <i>syndicate's</i> transactions and records;</u>
	<u>(4)</u>	<u>in relation to the statement by the <i>syndicate actuary</i> of a <i>syndicate</i> carrying on <i>long-term insurance business</i> required by <i>LLD 15.9.1R(3)</i>:</u>
	<u>(a)</u>	<u>proper accounts and records have been maintained for the purpose of preparing the statement; and</u>
	<u>(b)</u>	<u>the information given has been ascertained in</u>

			conformity with <i>LLD</i> 15 Annex 4R.
--	--	--	---

15.13.6 R *A managing agent must ensure for each syndicate managed by it that the return required under LLD 15.13.1R is examined and reported on by the syndicate auditor.*

15.13.7 R *A managing agent must annex to each return required under LLD 15.13.1R an audit certificate provided by the syndicate auditor including the statements required by LLD 15.13.8R.*

15.13.8 R Table

<u>1</u>	<u>The certificate in <i>LLD</i> 15.13.7R must state:</u>		
	<u>(1)</u>	<u>that in the auditors' opinion, the return has been properly prepared in accordance with the instructions referred to in <i>LLD</i> 15.13.2R;</u>	
	<u>(2)</u>	<u>that according to the information and explanations that the auditors have received:</u>	
		<u>(a)</u>	<u>in their opinion, the certificate required to be signed in accordance with <i>LLD</i> 15.13.3R (other than statements to which paragraph 1(3) relates) has been properly prepared in accordance with the instructions; and</u>
		<u>(b)</u>	<u>it was or was not unreasonable for the persons giving the certificate to have made the statements in it (other than statements to which paragraph 1(3) relates);</u>
	<u>(3)</u>	<u>the extent to which, in giving their opinion, the auditors have relied, in respect of <i>long-term insurance business</i>, on the work of the <i>syndicate actuary</i>.</u>	
<u>2</u>	<u>The audit opinion required by paragraph 1 does not extend to cover information on major treaty reinsurers or major facultative reinsurers.</u>		
<u>3</u>	<u>To the extent that the information and explanations they have received do not allow the auditors to express an opinion as to whether it was or was not unreasonable for the persons giving the certificate required to be signed in accordance with <i>LLD</i> 15.13.3R to have made the statements therein, the auditors must add to their report such qualification, amplification or explanation as may be appropriate.</u>		

## Annex K

### Amendments to the Lloyd's sourcebook, Chapter 16

In this Annex, all the text is new and is not underlined.

- 16 General provisions applying PRU to Lloyd's
- 16.1 Section 150 of the Act (Actions for damages)
- 16.1.1 R A contravention of the *rules* in this chapter does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.
- 16.2 Application
- 16.2.1 R This chapter applies to:
- (1) the *Society*; and
  - (2) *managing agents*.
- Purpose
- 16.2.2 G The purpose of this chapter is to:
- (1) set out specific requirements for the prudential management of the *insurance business* of Lloyd's *members*, including management of the assets supporting that business; and
  - (2) clarify how *PRU rules* and *guidance* are to apply to the *insurance business* of Lloyd's *members*.
- 16.2.3 G *Members* bear the risk in respect of their *insurance business* and so it is their responsibility to hold financial resources to support that business. A *member* participates on a several basis, for its own account. In practice *managing agents* manage the business and the *Society* manages the market. Should a *member* hold insufficient financial resources, the *Society's* own assets may be used to support that *member's* business.
- 16.3 Application of PRU to the Society and managing agents
- 16.3.1 R If a provision in *PRU* applies to the *Society* "in accordance with" this *rule*, the *Society* must:
- (1) manage each *member's funds at Lloyd's*;

- (2) manage its *central assets*; and
- (3) supervise the *insurance business* carried on by each *member* at Lloyd's;

so as to achieve in relation to those assets and that *insurance business* the same effect as the relevant *PRU* provision would have (that is, conforming with the requirements of any *rule* and taking appropriate account of any applicable *guidance*.) when applied to a *firm* or to the *insurance business* of a *firm*.

16.3.2 G The *Society* is subject to *PRU rules* in respect of the *insurance business* of each Lloyd's *member*. These include *rules* in respect of:

- (1) the calculation of the *capital resources requirements* for each *member*;
- (2) the financial resources it manages on behalf of *members*; and
- (3) the *Society's* own financial resources.

16.3.3 R If a provision in *PRU* applies to a *managing agent* "in accordance with" this *rule*, the *managing agent* must, in relation to each *syndicate* managed by it and for each *syndicate year*, manage:

- (1) the *syndicate assets*; and
- (2) the *insurance business* carried on by the *members* of the *syndicate* through that *syndicate*;

so as to achieve in relation to those assets and that *insurance business* the same effect as the relevant *PRU* provision would have (that is, conforming with the requirements of any *rule* and taking appropriate account of any applicable *guidance*.) when applied to a *firm* or to the *insurance business* of a *firm*.

16.3.4 G *Syndicate* membership may change from year to year or it may remain constant. *Managing agents* are required to apply *PRU* to the *insurance business* carried on through each *syndicate* for each *syndicate year*. This should ensure that *PRU* is applied to Lloyd's in a way that is consistent with the provision of capital to support the *insurance business* underwritten.

16.3.5 G Where common systems and controls or processes are appropriate for all the *insurance business* carried on through more than one *syndicate year*, a single response may be adequate for all *syndicate years*. However, in some cases it will be important to consider the business of each *open syndicate year* separately, particularly for quantitative *rules*. For example, it is important that *managing agents* separately assess the financial resources (including capital) that are required and are available to support the *insurance business* carried on through each *syndicate year*, where the *syndicate* membership changes from year to year. This is because each *member's* assets are only available to support its own business, so the assets

supporting one year of account may not be available to support another. For example, if a *managing agent* were to assess the financial requirements of two or more *syndicate years* together where the capital structure had changed, there would be a risk that the *managing agent* might take account of diversification effects that were not reflected in the capital supporting the *insurance business*.

- 16.3.6 G There is no requirement on *managing agents* to carry out separate individual capital assessments for *syndicates* for each *syndicate year*. *Managing agents* are required to carry out individual capital assessments for each *syndicate* as if that *syndicate* were a *firm*; this would normally be on the basis of a going concern but, just as in a *firm*, account needs to be taken of any restrictions on the availability of assets (e.g. deposits with cedants), and some account needs to be taken of changes in the capital participation in the *syndicate*. The *Society* is responsible for the individual capital assessment for each *member*, which must take into account the assessments made by *managing agents* of any *syndicates* on which the *member* participates. *PRU 2.3* contains *rules and guidance* on the assessment of capital adequacy for *firms* and *LLD 19.4.1R to LLD 19.4.24R* provide for the application of *PRU 2.3* to the *Society* and *managing agents*.

#### 16.4 Summary of application of PRU to Lloyd's

- 16.4.1 G Table: Key *PRU* requirements for Lloyd's

Key PRU requirements	<i>PRU</i>	<i>LLD</i>
Risk management, systems and controls		
The <i>Society</i> to establish and maintain systems and controls to address risks affecting the Lloyd's market		17.4
The <i>Society</i> to establish and maintain systems and controls for the management of prudential, credit, market, liquidity and operational risks affecting <i>funds at Lloyd's</i> and <i>central assets</i>	1.4, 3.1, 4.1, 5.1 & 6.1	17.4, 18.4, 20.2, 21.2, 22.2 & 23.2
<i>Managing agents</i> to establish and maintain systems and controls for the management of prudential, credit, market, liquidity, operational, and insurance risks affecting each <i>syndicate</i>	1.4, 3.1, 4.1, 5.1, 6.1 & 7.1	17.4, 18.4, 20.2, 21.2, 22.2, 23.2 & 24.2
Adequacy of financial resources		
The <i>Society</i> to ensure that <i>members'</i> financial resources are adequate	1.2	18.2

<i>Members</i> taken together to maintain adequate financial resources in respect of the <i>insurance business</i> conducted at Lloyd's		18.2
<i>Managing agents</i> to ensure that financial resources are adequate for each <i>syndicate</i>	1.2	18.2
Valuation		
The <i>Society</i> and <i>managing agents</i> to apply generally accepted accounting principles to valuing assets, liabilities, equity and income statement items for the purposes of the <i>rules</i> and <i>guidance</i> in <i>LLD</i> and <i>PRU</i> unless the contrary is expressly stated	1.3 & 4.3	18.3 & 21.4
Capital resources requirements		
The <i>Society</i> to calculate the <i>MCR</i> in respect of the <i>general insurance business</i> of each <i>member</i>	2.1	19.2
The <i>Society</i> to calculate the <i>CRR</i> (higher of <i>MCR</i> and <i>ECR</i> ) in respect of the <i>long-term insurance business</i> of each <i>member</i>	2.1	19.2
Capital resources		
The <i>Society</i> and <i>managing agents</i> to calculate <i>capital resources</i> in accordance with the <i>rules</i> and <i>guidance</i> in <i>LLD</i> and <i>PRU</i>	2.2	19.3
Adequacy of capital resources		
<i>Managing agents</i> to assess the adequacy of <i>capital resources</i> held at <i>syndicate</i> level in respect of <i>insurance business</i> carried on through each <i>syndicate</i> (annual <i>ICA</i> for each <i>syndicate</i> )	2.3	19.4
The <i>Society</i> to assess the adequacy of <i>capital resources</i> available to support each <i>member's insurance business</i> ( <i>ICA</i> for each <i>member</i> ), both at <i>syndicate</i> level (taking account of <i>syndicate ICAs</i> ), and as <i>funds at Lloyd's</i>	2.3	19.4

## Annex L

### Amendments to the Lloyd's sourcebook, Chapter 17

In this Annex, all the text is new and is not underlined.

- 17 Special provisions for Lloyd's
  - 17.1 Section 150 of the Act (Actions for damages)
    - 17.1.1 R A contravention of the *rules* in this chapter does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.
  - 17.2 Management of insurance business
    - 17.2.1 R Neither the *Society* nor *managing agents* may permit a *member* to carry on any *insurance business* except as a participant on one or more *syndicates*.
    - 17.2.2 G *LLD 17.2.1R* ensures that any *insurance business* carried on by *members* is subject to appropriate *FSA* requirements.
  - 17.3 Obligations under PRU
    - 17.3.1 R The *Society* must ensure that all participants in the Lloyd's market are made aware of their obligations under *PRU*.
    - 17.3.2 G The application of *PRU* to Lloyd's is effected in *LLD 16* to *LLD 24*. *SUP Appendix 2* is applied to Lloyd's in *LLD 25*. Further requirements relevant to the *Society's* general responsibilities with regard to the market are contained in *LLD 1* to *LLD 8A* and *LLD 17*. Requirements relevant to *managing agents* and other participants and advisers in relation to the Lloyd's market are contained elsewhere in the *Handbook*.
  - 17.4 Management of risk
    - 17.4.1 R The *Society* must establish and maintain systems and controls to enable it appropriately to address the risks to which the Lloyd's market is exposed.
    - 17.4.2 G As well as the risks that are common to other *firms*, there are significant risks in the Lloyd's market arising out of its structure and the inter-relationships between the entities involved. The risks include aggregations of risk in the market. The *Society* should ensure that the systems and controls required by *LLD 17.4.1R* enable it to identify, monitor and manage those risks.
    - 17.4.3 R The systems and controls in *LLD 17.4.1R* must include systems and controls to enable the *Society* to ensure that any assumptions made in calculating a

*member's capital resources* or in determining the individual capital assessment for each *member* are regularly reviewed and that appropriate action is taken if any assumption is no longer valid.

- 17.4.4 R The *Society* must take all reasonable steps, including establishing and maintaining adequate systems and controls to enable it:
- (1) to manage the risks to which *funds at Lloyd's* and *central assets* are exposed; and
  - (2) to ensure that *funds at Lloyd's* and *central assets* are adequate to support all *balancing amounts*.
- 17.4.5 G In complying with LLD 17.4.4R the *Society* should take appropriate account of effects such as diversification and concentrations.
- 17.4.6 R A *managing agent* must establish and maintain adequate systems and controls to manage the risks to which the *insurance business* carried on through each *syndicate* it manages is exposed.
- 17.4.7 R In complying with LLD 17.4.6R a *managing agent* need not take account of risks associated with assets that are not *syndicate assets*.
- 17.4.8 R The *Society* must take reasonable steps to ensure that systems and controls established and maintained by *managing agents* are adequate to ensure that risks to which the *insurance business* carried on through each *syndicate* is exposed do not have a detrimental effect on *funds at Lloyd's* or *central assets*.
- 17.4.9 G *Managing agents* and the *Society* each hold and manage some of the financial resources held to support the *insurance business* carried on through *syndicates*. In particular:
- (1) the *Society* holds and manages *funds at Lloyd's* and *central assets* which must be held to support *balancing amounts*. The *Society* is required to manage the risks that affect *funds at Lloyd's* and *central assets* directly, once the effects of any aggregation and diversification have been taken into account;
  - (2) *managing agents* hold and manage some of the financial resources in respect of the *insurance business* carried on through each *syndicate* that they manage. *Managing agents* are required to manage all risks affecting a *syndicate* except for the risk that *funds at Lloyd's* and *central assets* are not available to support the *balancing amount*.
- 17.4.10 G Should the *Society* intend to exercise any power it may have to prescribe a course of action for a *managing agent* which the *managing agent* might reasonably consider to be inconsistent with the interests of any *member* whose *insurance business* it manages, the *Society* should:
- (1) consult any affected *member*, where practical in advance; and

- (2) in accordance with *PRIN* 11 (Relations with regulators), *LLD* 2 and, to enable the *FSA* to comply with section 314 of the *Act* (Authority's general duty), consider whether it should notify the *FSA*.

Group risk and conflicts of interest

- 17.4.11 G Many entities operating within the Lloyd's market are part of a corporate group, including the *Society*, certain *managing agents* and *members*. Those entities are subject to group risk arising from their own corporate group and, depending on the relationships within their own group, may be subject to *FSA* systems and controls requirements or group risk requirements. The *rules* and *guidance* in this section are intended to ensure that sufficient systems and controls are in place to protect *policyholders* and potential *policyholders* from such risks. The *Society* is also subject to the risk of wider conflicts of interest or the appearance of conflicts of interest in carrying out the *Society's regulatory functions*. *LLD* 17.4.13R(1) requires the *Society* to monitor and manage those risks.
- 17.4.12 G In complying with *LLD* 17.4.6R, *managing agents* should have particular regard to:
- (1) transactions which may give rise to a conflict of interest, such as those to which the counterparties are:
    - (a) other members of the *managing agent's* own group;
    - (b) any *members* of any *syndicates* managed by the *managing agent*; or
    - (c) any entity that is part of a *group* to which one or more *members* of any *syndicates* managed by the *managing agent* belong; and
  - (2) transactions involving:
    - (a) the provision of capital;
    - (b) the provision of *reinsurance*; or
    - (c) the provision of other services.
- 17.4.13 R The *Society* must establish and maintain effective arrangements to monitor and manage risk arising from:
- (1) conflicts of interest (including in relation to (2) to (4));
  - (2) inter-*syndicate* transactions, including *reinsurance to close* and *approved reinsurance to close*;
  - (3) related party transactions; and

- (4) transactions between *members* and itself.
- 17.4.14 R The arrangements in *LLD 17.4.13R* must enable the *Society* to identify any significant overstatement of financial resources resulting from any transaction falling within *LLD 17.4.13R (2) to (4)*, including as a result of:
- (1) any differences in the amounts recorded as due or payable by each party to any such transaction; or
  - (2) any actual or likely disputes between the parties to any such transaction.
- 17.4.15 R If the *Society* identifies a significant overstatement of the kind referred to in *LLD 17.4.14R*, it must ensure that an appropriate adjustment is made, including if appropriate by a deduction from or reduction in the value attributed to:
- (1) the *capital resources* of any *member* concerned; or
  - (2) the *Society's capital resources*.
- 17.4.16 G In complying with *LLD 17.4.14R* and *LLD 17.4.15R*, the *Society* should consider the significance of any overstatement with regard to the value of the *Society's capital resources* that are not required to cover shortfalls in a *member's capital resources*.
- 17.5 Approved reinsurance to close
- 17.5.1 G As defined in the *Glossary*, "approved reinsurance to close" excludes:
- (1) *reinsurance* between parties other than *members*; and
  - (2) balance transfers between *syndicate years* of *syndicates* having only one *member*, which have no effect on the overall liabilities of that *member*.
- 17.5.2 G The "approved" status of an *approved reinsurance to close* does not alter the legal status or effect of the original *contract of insurance*, or the liability of a reinsured *member* to the *policyholder* under or in respect of the original *contract of insurance*.
- 17.5.3 R Notwithstanding that the liability of a reinsured *member* to a *policyholder* is unaffected by an *approved reinsurance to close* as described in *LLD 17.5.2G*, for the purposes of *PRU* only:
- (1) a *contract of insurance* reinsured under an *approved reinsurance to close* must be treated as if the reinsuring *member* and not the reinsured *member* had effected the original *contract of insurance*; and
  - (2) any payment received by a *member* as consideration for or in connection with an *approved reinsurance to close* must be treated as

a *Lloyd's member's contribution* and not as *premium* or as a reinsurance recovery.

- 17.6 Provision of information by managing agents
- 17.6.1 R A *managing agent* must, as soon as possible, give the *Society* any information the *managing agent* has concerning material risks to *funds at Lloyd's* or *central assets*.
- 17.6.2 R A *managing agent* need not comply with *LLD 17.6.1R* if the *managing agent* knows that the *Society* already has the relevant information.
- 17.7 Insurance receivables to be carried to trust funds
- 17.7.1 R The *Society* must take all reasonable steps to ensure that each *member*:
- (1) executes the appropriate *Lloyd's trust deeds*; and
  - (2) carries to the appropriate *Lloyd's trust fund* all amounts received or receivable by the *member*, or on its behalf, in respect of any *insurance business* carried on by it.
- 17.7.2 R The *Society* must carry all amounts it receives on behalf of any *member* in respect of that *member's insurance business* to the appropriate *Lloyd's trust fund*.
- 17.7.3 R A *managing agent* must carry all amounts it receives on behalf of any *member* in respect of that *member's insurance business* to the appropriate *Lloyd's trust fund*.
- 17.7.4 R In complying with *LLD 17.7.1R* to *LLD 17.7.3R*, the *Society* and *managing agents* must take all reasonable steps to ensure that amounts received or receivable by a *member* in respect of *general insurance business* and *long-term insurance business* are carried to separate *Lloyd's trust funds*.
- 17.7.5 G The requirement in *LLD 17.7.4R* should be read in conjunction with the requirements of *PRU 7.6* as applied to the *Society* and *managing agents* in *LLD 24.6.1R* to *LLD 24.6.5G*.
- 17.8 Amendments to byelaws, trust deeds and standard form letters of credit and guarantees
- 17.8.1 R The *Society* must, as soon as it is practical to do so, notify the *FSA* of its intention to approve the form of any new *Lloyd's trust deed*.
- 17.8.2 R The *Society* must, as soon as it is practical to do so, notify the *FSA* of its intention to make any amendment which may alter the meaning or effect of any *byelaw*, including:
- (1) any *Lloyd's trust deed*;
  - (2) any standard form letter of credit prescribed by the *Society* from time

to time; or

- (3) any standard form guarantee agreement prescribed by the *Society* from time to time.

- 17.8.3 R The *Society* must provide the *FSA* with full details of:
- (1) the form of any new *Lloyd's trust deed* it intends to approve, as described in *LLD 17.8.1R*; and
  - (2) any amendments falling within *LLD 17.8.2R*.
- 17.8.4 R The *Society* must consult interested parties in relation to any new *Lloyd's trust deed* and in relation to any amendment falling within *LLD 17.8.2R*.
- 17.8.5 G Except in urgent cases, the *Society* should consult in relation to any new *Lloyd's trust deed* or amendments before the new deed or amendments take effect.
- 17.8.6 R The information provided to the *FSA* by the *Society* under *LLD 17.8.3R* must include:
- (1) a statement of the purpose of any proposed amendment or new *Lloyd's trust deed* and the expected impact, if any, on *policyholders, managing agents, members, and potential members*; and
  - (2) a description of the consultation undertaken under *LLD 17.8.4R* including a summary of any significant responses to that consultation.
- 17.8.7 G The *FSA* would normally expect to receive the information required under *LLD 17.8.3R* and *LLD 17.8.6R* not less than three months in advance of the proposed change.

## Annex M

### Amendments to the Lloyd's sourcebook, Chapter 18

In this Annex, all the text is new and is not underlined.

- 18 Application of PRU 1 to Lloyd's
- 18.1 Section 150 of the Act (Actions for damages)
- 18.1.1 R A contravention of the *rules* in this chapter does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.
- 18.2 Adequacy of financial resources
- Application of PRU 1.2
- 18.2.1 R *PRU 1.2* applies to *managing agents* and to the *Society* in accordance with:
- (1) for *managing agents*, *LLD 16.3.3R*; and
  - (2) for the *Society*, *LLD 16.3.1R*.
- 18.2.2 R *LLD 18.2.7R* applies to *members*, pursuant to the *insurance market direction* in *LLD 18.2.5D*.
- Insurance market direction
- 18.2.3 G The *insurance market direction* in *LLD 18.2.5D* is given under section 316(1) of the *Act* (Direction by Authority) and applies to *members*.
- 18.2.4 G The purpose of the *insurance market direction* in *LLD 18.2.5D* is to enable the *FSA* to make the rule in *LLD 18.2.7R* applying to *members*, in order to:
- (1) protect *policyholders* against the risk that *members* may not have adequate financial resources to meet liabilities under or in respect of *contracts of insurance* as they fall due;
  - (2) promote confidence in the market at Lloyd's by requiring *members* to maintain financial resources which are adequate to meet their liabilities.
- 18.2.5 D With effect from 1 January 2005, Part X of the *Act* (Rules and Guidance) applies to the *members* of the *Society* taken together in relation to the *insurance market activities* of *effecting* and *carrying out contracts of insurance* written at Lloyd's, for the purpose of applying the *rules* and *guidance* in *LLD 18.2.7R* to *LLD 18.2.9G*.
- 18.2.6 G Part X of the *Act* is a *core provision* specified in section 317(1) of the *Act*

(The core provisions). Section 317(2) provides that references in an applied *core provision* to an *authorised person* are to be read as references to a *person* in the class to which the *insurance market direction* applies. From 1 January 2005, references in Part X of the *Act* are to be read as references to *members* for the purposes of *LLD 18.2.7R* to *LLD 18.2.9G*.

#### Members' obligation to maintain adequate financial resources

18.2.7 R The *members* taken together must at all times maintain overall financial resources, including capital and liquidity resources, that are adequate, both as to amount and quality, to ensure that there is no significant risk that liabilities under or in respect of *contracts of insurance* written at Lloyd's will not be met as they fall due.

18.2.8 G Under *PRU*:

(1) *managing agents* must ensure that adequate financial resources are available to support the *insurance business* carried on through each *syndicate* that they manage; and

(2) the *Society* must, having regard to the availability and value of the *central assets*, ensure that the financial resources supporting the *insurance business* of each *member* are adequate at all times.

18.2.9 G In practice compliance with the requirements described in *LLD 18.2.8G* are likely to have the effect that *members* comply with *LLD 18.2.7R*.

#### 18.3 Valuation and recognition

##### Application of *PRU 1.3*

18.3.1 R *PRU 1.3* applies to *managing agents* and to the *Society* in accordance with:

(1) for *managing agents*, *LLD 16.3.3R*; and

(2) for the *Society*, *LLD 16.3.1R*.

##### Amounts receivable but not yet received

18.3.2 R When recognising and valuing assets that are available to meet liabilities arising from a *member's insurance business*, neither the *Society* nor *managing agents* may attribute any value to any amounts receivable but not yet received from that *member* or another *member*, except for:

(1) timing differences provided that a corresponding amount has been deducted from *syndicate assets* or *funds at Lloyd's*;

(2) the *Society's callable contributions*, which are valued according to *LLD 18.3.10G* to *LLD 18.3.12R*; and

- (3) debts owed by a *member* to another *member* of the *Society* where the debt is a liability arising out of the *insurance business* he carries on at Lloyd's.

Letters of credit, guarantees and life assurance policies

- 18.3.3 G Letters of credit, guarantees and life assurance policies are admissible assets in respect of *insurance business* at Lloyd's and qualify as *capital resources* under *PRU 2.2*, subject to *LLD 18.3.4R* to *LLD 18.3.9G*.
- 18.3.4 R When recognising and valuing assets held as *members' funds at Lloyd's* the *Society* may, if the conditions in *LLD 18.3.5R* are satisfied, attribute a value to letters of credit and guarantees that it holds in respect of a *member's insurance business*.
- 18.3.5 R The conditions referred to in *LLD 18.3.4R* are that letters of credit and guarantees must be:
- (1) in the form prescribed by the *Society* from time to time and notified to the *FSA*; and
- (2) issued by a *credit institution* or an *insurance undertaking*.
- 18.3.6 R When recognising and valuing assets held as *members' funds at Lloyd's* the *Society* may attribute a value to verifiable sums arising out of life assurance policies.
- 18.3.7 R The *Society* must value any letter of credit, guarantee or life assurance policy at its net realisable value. The *Society* must make all appropriate deductions, including those in respect of:
- (1) the expenses of realisation; and
- (2) any reduction in value that would be likely to occur if the asset needed to be realised at short notice to meet liabilities falling due earlier than expected.
- 18.3.8 R If a *member* relies on a value attributed to a letter of credit or guarantee to meet any applicable *capital resources requirement* and that letter of credit or guarantee will expire in less than one month, the *Society* must take appropriate steps to ensure that the applicable *capital resources requirement* will continue to be met, including taking steps to ensure that sums due under the letter of credit or guarantee are drawn down when due and carried to the appropriate *Lloyd's trust fund*.
- 18.3.9 G In *LLD 18.3.8R*, the expiry date includes the date on which the instrument will terminate if not renewed, and the date on which any notice to terminate will or would take effect.

The *Society's* callable contributions

- 18.3.10 G Under *LLD 19.3.7R(2)* and *LLD 19.3.9R*, the *Society* may recognise and

value *callable contributions* in its calculation of its own *capital resources*. *LLD 18.3.11R* specifies the maximum value that may be attributed to *callable contributions*.

- 18.3.11 R For the purposes of *LLD 19.3.7R(2)* and *LLD 19.3.9R*, the amount assumed to be callable from a *member* must not exceed the lower of:
- (1) the maximum *callable contribution* that *member* is or may be liable to make in that *financial year*; and
  - (2) the amount by which the *member's* own *capital resources* exceed the *member's* own *capital resources requirement*.
- 18.3.12 R The *Society* must value *callable contributions* taking appropriate account of any legal, constructive or other limits on its ability to call for contributions from *members* or to realise the amount called.
- 18.3.13 R The *Society* must give the *FSA* adequate advance notice if it proposes to change the maximum amount of the *callable contribution* that *members* may be liable to make in any *financial year*.
- 18.3.14 G The *FSA* would normally expect not less than six months' notice under *LLD 18.3.13R*.

#### Liabilities

- 18.3.15 R Subject to *LLD 18.3.16R*, the *Society* must recognise and value all of a *member's* liabilities in respect of its *insurance business*.
- 18.3.16 R The *Society* need not recognise or value a *member's* liabilities that are recognised and valued at *syndicate* level by *managing agents* in accordance with *PRU 1.3*.
- 18.3.17 R For the purposes of calculating a *member's* *capital resources*, when valuing a *member's* funds at *Lloyd's* the *Society* must deduct the value of a *member's* liabilities determined under *LLD 18.3.15R*.
- 18.3.18 G The liabilities to be valued under *LLD 18.3.15R* and deducted under *LLD 18.3.17R* include:
- (1) amounts owing to *members' agents*;
  - (2) amounts owing to the *Society*;
  - (3) an appropriate accrual for tax payable on any profits;
  - (4) (where required under any applicable accounting principle in accordance with *PRU 1.3.5R*), any contingent liability relating to liabilities reinsured into Equitas Reinsurance Ltd; and
  - (5) amounts apportioned to *members* in respect of the credit equalisation

reserve under *PRU 7.5*.

18.3.19 R In recognising and valuing a *member's* liabilities, the *Society* and *managing agents* may, to the extent permitted by applicable accounting principles, leave out of account the liabilities in respect of 1992 and prior *general insurance business* reinsured by Equitas Reinsurance Limited.

18.3.20 G There may be contingent liabilities associated with the reinsurance into Equitas. *PRU 1.3* requires *managing agents* and the *Society* to treat those contingent liabilities in accordance with applicable accounting principles: see *PRU 1.3.5R*. Depending on the circumstances, *managing agents* or the *Society* may need to disclose or account for such a liability.

18.4 Prudential risk management and associated systems and controls

Application of *PRU 1.4*

18.4.1 R Subject to *LLD 18.4.2R*, *PRU 1.4* applies to *managing agents* and to the *Society* in accordance with:

(1) for *managing agents*, *LLD 16.3.3R*; and

(2) for the *Society*, *LLD 16.3.1R*.

18.4.2 R The requirement in *PRU 1.4.18R* to take reasonable steps to ensure the establishment and maintenance of a business plan does not apply to the *Society*.

## Annex N

### Amendments to the Lloyd's sourcebook, Chapter 19

In this Annex, all the text is new and is not underlined.

- 19 Application of PRU 2 to Lloyd's
- 19.1 Section 150 of the Act (Actions for damages)
- 19.1.1 R A contravention of the *rules* in this chapter does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.
- 19.2 Calculation of capital resources requirements
- Application of PRU 2.1
- 19.2.1 R *PRU 2.1* applies to the *Society* in accordance with *LLD 16.3.1R*.
- 19.2.2 R *PRU 2.1.34R* to *PRU 2.1.35G* apply to *managing agents* in accordance with *LLD 16.3.3R*.
- 19.2.3 G *PRU 2.1.9R* requires the *Society* to ensure, in relation to each *member's insurance business*, that *capital resources* equal to or in excess of the *member's capital resources requirement (CRR)* are maintained. *PRU 2.1* sets out the overall framework of the *CRR*. *PRU 7.2* sets out the calculation of the components of the *general insurance capital requirement* and the *long-term insurance capital requirement*.
- 19.2.4 G *Managing agents* are required to calculate the *ECR* for the purposes of carrying out *syndicate ICAs* under *PRU 2.3*. As *with-profits insurance business* is not carried on through any *syndicate*, the calculation of the *with-profits insurance capital component* will not be applicable. *PRU 7.4* is not applied to Lloyd's.
- Calculation of the MCR
- 19.2.5 R For the purposes of *PRU 2.1.21R*, the *Society* must calculate the *MCR* in respect of the *general insurance business* of each *member* as the higher of:
- (1) the *member's share of the base capital resources requirement* in respect of *general insurance business* for the *members* in aggregate; and
  - (2) the *general insurance capital requirement* for the *member*, calculated according to *LLD 19.2.11R*.

- 19.2.6 R For the purposes of *LLD 19.2.5R(1)*, the *Society* must determine the *member's* share by apportioning the *base capital resources requirement* in respect of *general insurance business* for the *members* in aggregate between *members* in proportion to the result for each *member* of *LLD 19.2.11R*.
- 19.2.7 R For the purposes of *PRU 2.1.22R*, the *Society* must calculate the *MCR* in respect of the *long-term insurance business* of each *member* as the higher of:
- (1) the *member's* share of the *base capital resources requirement* in respect of *long-term insurance business* for the *members* in aggregate; and
  - (2) the sum of, for each *member*:
    - (a) the *long-term insurance capital requirement*; and
    - (b) the *resilience capital requirement*.
- 19.2.8 R For the purposes of *LLD 19.2.7R(1)*, the *Society* must determine the *member's* share by applying to the aggregate *long-term business base capital resources requirement* the ratio of the result for the *member* of *LLD 19.2.7R(2)* to the aggregate of the results of *LLD 19.2.7R(2)* for all *members*.

#### Calculation of the base capital resources requirement

- 19.2.9 R Subject to *PRU 2.1.27R*, the amount of the *base capital resources requirement* for the *members* in aggregate is:
- (1) for *general insurance business*, €3 million; and
  - (2) for *long-term insurance business*, €3 million.

#### Calculation of the general insurance capital requirement

- 19.2.10 R For the purposes of *PRU 2.1.30R*, the *Society* must calculate the *general insurance capital requirement* for the *members* in aggregate as the higher of:
- (1) the aggregate for all *members* of the higher of, for each *member*, the result of the *premiums amount* and the *claims amount*; and
  - (2) the *brought forward amount*.
- 19.2.11 R The *Society* must determine the *general insurance capital requirement* for each *member* by apportioning the result of *LLD 19.2.10R* between *members* on a fair and reasonable basis, provided that the *general insurance capital requirement* for a *member* must not be less than the higher of the result of the *premiums amount* and the *claims amount* for that *member*.
- 19.2.12 G The *Society* should calculate the *premiums amount* and the *claims amount* for each *member* on the basis of the *member's* own *general insurance business*, including *insurance business* that attaches to the reinsuring

*member* for the purposes of *PRU* following an *approved reinsurance to close* (see *LLD 17.5.3R*).

- 19.2.13 R The *Society* must calculate the *general insurance capital requirement* it would have to determine under *PRU 2.1.30R* if it were an *insurer* carrying on all the *general insurance business* carried on by its *members*, but eliminating *inter-syndicate reinsurance* (the *Society GICR*).
- 19.2.14 G For the purpose of *LLD 19.2.13R* the *Society* may make appropriate approximations, taking reasonable care to avoid underestimating the *Society GICR*.
- 19.2.15 R The *Society* must determine each *member's* share of the *Society GICR* by allocating the *Society GICR* between the *members* in proportion to the result for each *member* of *LLD 19.2.11R*.

### 19.3 Capital resources

#### Application of *PRU 2.2*

- 19.3.1 R Subject to *LLD 19.3.3R*, *LLD 19.3.4R* and *LLD 19.3.6R*, *PRU 2.2* applies to *managing agents* and to the *Society* in accordance with:
- (1) for *managing agents*, *LLD 16.3.3R*; and
  - (2) for the *Society*, *LLD 16.3.1R*.
- 19.3.2 G *PRU 2.1* sets out minimum *capital resources requirements* for a *firm* and for *Lloyd's members*. *PRU 2.2* sets out how, for the purpose of these requirements, *capital resources* are defined and measured. *PRU 2.2* applies:
- (1) to *managing agents* for their calculation of the *capital resources* managed by them in respect of each *syndicate* they manage (by reference, where there is a change in the underlying capital provision, to each *open syndicate year*); and
  - (2) to the *Society* for its calculation of:
    - (a) each *member's capital resources*; and
    - (b) its own *capital resources*.
- 19.3.3 R *PRU 2.2.15G* to *PRU 2.2.26R* (Limits on the use of different forms of capital) do not apply to *managing agents*.
- 19.3.4 R *PRU 2.2.15G* to *PRU 2.2.26R* (Limits on the use of different forms of capital) apply to the *Society* with respect to:
- (1) the *capital resources requirements* for the *members* in aggregate;

and

- (2) the aggregate *capital resources* supporting the *insurance business* of all the *members*.

19.3.5 R *PRU 2.2.72R* does not apply to the *Society* or to *managing agents*.

19.3.6 R In this Chapter *LLD 19*, "the aggregate *capital resources* supporting the *insurance business* of all the *members*" are:

- (1) the aggregate of all the *members' capital resources* calculated under *LLD 19.3.10R*; and
- (2) the *Society's capital resources* excluding *callable contributions*.

#### Calculation of capital resources

19.3.7 R Table *PRU 2.2.14R* applies with the modifications that:

- (1) (A) CORE TIER ONE CAPITAL includes *Lloyd's members' contributions* in accordance with *LLD 19.3.19R*, subject, in the case of letters of credit, guarantees and verifiable sums arising out of life assurance policies, to compliance with *LLD 18.3.3G* to *LLD 18.3.9G*; and
- (2) the *Society* may also recognise and value *callable contributions*, pursuant to *LLD 19.3.9R*.

19.3.8 G *Lloyd's member's contributions* are *admissible assets* under *LLD 19.3.19R* and include letters of credit, guarantees and verifiable sums arising out of life assurance policies held as *funds at Lloyd's*. Assets that may be valued as part of *capital resources* under *PRU* are not necessarily, however, permitted investments for *members* under the terms of any *Lloyd's trust deed*.

19.3.9 R In calculating its *capital resources*, the *Society* may, subject to *LLD 18.3.10G* to *LLD 18.3.12R*, recognise and value *callable contributions*.

19.3.10 R The *Society* must calculate each *member's capital resources* as the sum of:

- (1) a *member's* proportionate share of the *capital resources* held at *syndicate* level for each *syndicate* in which the *member* participates; and
- (2) the value of a *member's funds at Lloyd's* after deducting liabilities in compliance with *LLD 18.3.17R*.

19.3.11 R In order to comply with *PRU 2.1.9R* the *Society* must ensure at all times that:

- (1) each *member's capital resources requirement* is covered by:
  - (a) that *member's capital resources*, calculated according to *LLD*

19.3.10R; and

(b) to the extent that (a) is insufficient, by the *Society's* own *capital resources*; and

(2) the *Society GICR* is covered by the aggregate *capital resources* supporting the *insurance business* of all the *members*.

19.3.12 R For the purposes of *LLD* 19.3.11R(1)(b), the *Society* must maintain at all times *capital resources* sufficient to meet the aggregate of, for each *member*, the amount, if any, by which the *member's capital resources* fall short of the *member's capital resources requirement*.

19.3.13 R The *Society* must calculate each *member's* share of the amount of *capital resources* required to comply with *PRU* 2.2.17R as the higher of:

(1) 1/3 of the *long-term insurance capital requirement* for the *members* in aggregate; and

(2) the *base capital resources requirement*;

allocated between the *members* in proportion to the result for each *member* of *LLD* 19.2.7R(2).

19.3.14 R For the purposes of *PRU* 2.2.18R, the *Society* must ensure that the aggregate *capital resources* supporting the *insurance business* of all the *members* meet the higher of:

(1) 1/3 of the *general insurance capital requirement* for the *members* in aggregate; and

(2) 1/3 of the *Society GICR*; and

(3) the *base capital resources requirement*;

with the sum of the items listed in *PRU* 2.2.18R.

19.3.15 R The *Society* must calculate each *member's* share of the amount of *capital resources* required to comply with *PRU* 2.2.18R as the higher of:

(1) 1/3 of the *general insurance capital requirement* for the *members* in aggregate; and

(2) 1/3 of the *Society GICR*; and

(3) the *base capital resources requirement*;

allocated between the *members* in proportion to the result for each *member* of *LLD* 19.2.11R.

#### Characteristics of tier one capital

19.3.16 R A *Lloyd's member's* contribution may be included in *tier one capital*

*resources* to the extent that:

- (1) the proceeds are immediately and fully available in respect of the *member's insurance business* at Lloyd's;
- (2) (except in relation to letters of credit), it complies with *PRU 2.2.29R(3)* or cannot be repaid to a *member* until all of the *member's* liabilities in respect of its *insurance business* at Lloyd's have been extinguished, covered or reinsured by an *approved reinsurance to close*;
- (3) it otherwise complies with *PRU 2.2.29R(5)* to (8).

#### Adjustments for related undertakings

- 19.3.17 R *PRU 2.2.90R* applies to the *Society* with the modification that the *Society* must also value its *insurance undertakings* in accordance with *PRU 2.2.90R*.
- 19.3.18 R If a *related undertaking* is an *insurance undertaking* which has a deficit in the *capital resources* available to cover its *capital resources requirement*, the *Society* must make provision for:
- (1) its proportionate share of that deficit; or
  - (2) in the case of a *subsidiary undertaking*, the whole of that deficit.

#### Modification of Annex 1R for Lloyd's

- 19.3.19 R In the case of *members*, *Lloyd's members' contributions* are included in *PRU 2 Annex 1R* and include:
- (1) letters of credit;
  - (2) guarantees; and
  - (3) verifiable sums arising out of life assurance policies;
- held as *funds at Lloyd's*.
- 19.3.20 G The effect of *LLD 19.3.19R* is that *Lloyd's members' contributions*, including letters of credit, guarantees and life assurance policies, are *admissible assets*.

#### 19.4 Individual capital assessment

##### Application of *PRU 2.3*

- 19.4.1 R Subject to *LLD 19.4.2R*, *PRU 2.3* applies to *managing agents* and to the *Society* in accordance with:

- (1) for *managing agents*, LLD 16.3.3R; and
- (2) for the *Society*, LLD 16.3.1R.

19.4.2 R *Managing agents* must carry out assessments of capital adequacy for each *syndicate* they manage by reference to all *open syndicate years* taken together.

Assessment of adequacy of capital resources for syndicates and members

19.4.3 G *PRU 1.2* requires *firms* to carry out assessments of the adequacy of their financial resources. Financial resources include *capital resources* and liquidity resources. *PRU 5* contains *guidance* on liquidity stress tests. *Managing agents* should manage *liquidity risk* affecting each *syndicate* they manage and the *Society* should manage *liquidity risk* affecting *funds at Lloyd's* and *central assets*, including the risk that it cannot make liquid assets available to support *syndicates* on a timely basis.

19.4.4 G *PRU 2* sets out provisions that deal specifically with the adequacy of that part of a *firm's* financial resources that consists of *capital resources*. *PRU 2.3* sets out *guidance* on how *firms* should assess the adequacy of their *capital resources*. The relevant requirements for Lloyd's are that:

- (1) the *Society* should carry out regular assessments of the adequacy of the *capital resources* available to support each *member's insurance business*; and
- (2) *managing agents* should carry out regular assessments of the adequacy of *capital resources* held at *syndicate* level in respect of the *insurance business* carried on through each *syndicate*.

19.4.5 G Responsibility for:

- (1) managing the risks associated with the *insurance business*; and
- (2) holding the *capital resources* that support those risks;

is divided between *managing agents* and the *Society*. To clarify the respective responsibilities of *managing agents* and the *Society* for ensuring the adequacy of financial resources, the *FSA* distinguishes between the *managing agents'* responsibility to carry out capital adequacy assessments for each *syndicate* that they manage, and the *Society's* responsibility to carry out an assessment for each *member*.

19.4.6 R In carrying out capital adequacy assessments in respect of the *insurance business* carried on through each *syndicate* (the *syndicate ICA*), *managing agents* must consider the risks, controls and the financial resources relevant to each *syndicate*.

19.4.7 R When carrying out the *syndicate ICA*, *managing agents* must not take into account risks to which a *member* may be exposed or controls from which a

*member* may benefit:

- (1) because that *member* carries on *insurance business* through another *syndicate* or more than one *syndicate year* (whether or not managed by the same *managing agent*); or
- (2) because that *member's* financial resources include *funds at Lloyd's* or *central assets*.

19.4.8 R The *Society* must have regard to *syndicate ICAs* in arriving at its own capital assessment for each *member*.

19.4.9 G In assessing the adequacy of the *capital resources* supporting the *insurance business* of each *member*, the *Society* should consider the risks, controls and financial resources relevant to the totality of the *member's insurance business*, including:

- (1) the adequacy of *syndicate ICAs*;
- (2) the *member's* share of *syndicate ICAs*;
- (3) adjustments in respect of risks and controls relating to *funds at Lloyd's, central assets* and the interaction of risks underwritten by the *member* through different *syndicates* and in respect of different *syndicate years*; and
- (4) the ongoing validity of any relevant assumptions it makes.

19.4.10 G The *Society* should be able to justify any reliance it places on a *syndicate ICA*, for example by being able to demonstrate that it has carried out appropriate checks.

19.4.11 G In taking account of a *syndicate ICA* under *LLD 19.4.8R*:

- (1) if the *Society* considers a *syndicate ICA* to be adequate, it should use the *managing agent's* risk and capital assessments in carrying out its individual capital assessment in relation to any *member* of that *syndicate*, or it should be able to justify why it will not; and
- (2) if the *Society* considers a *syndicate ICA* to be less than adequate, the *Society* should increase the *syndicate ICA* so that it is adequate for the purpose of carrying out its individual capital assessment in relation to the *members* of that *syndicate*.

19.4.12 G The assessment of capital adequacy for a *member* will rarely equal the proportionate share of a *syndicate ICA* (or sum of those shares, where the *member* participates on more than one *syndicate*) as attributed to that *member*, because, in determining the capital assessments for each *member*, the *Society* may make adjustments to take account of:

- (1) risks and controls associated with *funds at Lloyd's* and *central assets*,

- which can increase the *member's* individual capital assessment;
- (2) diversification effects, including as a result of *members'* participations on more than one *syndicate year*, which can reduce the *member's* individual capital assessment; and
- (3) its own assessment of *syndicate* risks, which can be higher than the *managing agent's* and so increase the *member's* individual capital assessment.

The balancing amount

- 19.4.13 G *Capital resources* to meet each *syndicate ICA* could be:
- (1) held within a *syndicate* and managed by the *managing agent*; or
  - (2) held and managed by the *Society*; or
  - (3) not needed in full, because of effects such as diversification that the *Society* takes into account.
- 19.4.14 G The *balancing amount* is a function of the relationship between the *syndicate ICA* and the amount of assets held within the *syndicate*. As illustrations:
- (1) if the *syndicate* holds no *capital resources* (but its liabilities are fully covered by relevant assets), the *balancing amount* equals the *syndicate ICA* (as there are no *capital resources* at *syndicate* level, all the *capital resources* must be held as *funds at Lloyd's* or *central assets*);
  - (2) if *capital resources* held at *syndicate* level are negative (i.e. if relevant assets do not fully cover liabilities for the *syndicate*), the *balancing amount* should be higher than the *syndicate ICA* by an amount corresponding to the negative *capital resources* held by *managing agents* on behalf of the *syndicate*; and
  - (3) conversely, if a *syndicate* holds positive *capital resources* for the *syndicate*, the *balancing amount* should be lower than the *syndicate ICA* by a corresponding amount.
- 19.4.15 R *Managing agents* must periodically notify the *Society* of the *syndicate ICA* and the *balancing amount* in respect of each *syndicate*.
- 19.4.16 R For the purpose of assessing the adequacy of *capital resources* held as *funds at Lloyd's* and *central assets*, the *Society* must have regard to *balancing amounts* notified to it by *managing agents*.
- 19.4.17 R After notification of a *balancing amount* by a *managing agent*, the *Society* must:
- (1) confirm to the *managing agent* that *capital resources* held as *funds*

*at Lloyd's and central assets* are adequate to support the *balancing amount*; or

(2) notify the *managing agent* that it cannot give that confirmation.

- 19.4.18 G *Managing agents* should submit *syndicate ICAs* and notify *balancing amounts* to the *Society* as part of the annual capital-setting process at Lloyd's. The submission of the *syndicate ICA* and notification of the *balancing amount* should be made in good time for the *Society* to review them and place appropriate reliance on them when it determines the capital assessments for each *member*.
- 19.4.19 G When communicating the *syndicate ICA* and *balancing amount* for each *syndicate* to the *Society*, *managing agents* should agree with the *Society* an allocation of the *syndicate ICA* between *syndicate years*. The purpose of the allocation is to ensure that there is an appropriate matching of assets to risk and liabilities and an equitable treatment between the *members* reflecting the provision of capital in each *syndicate year*.
- 19.4.20 G Under LLD 19.4.23R, a *managing agent* has a continuing obligation to communicate to the *Society* a revised *syndicate ICA* and, where appropriate, a revised *balancing amount*, if it considers that the *syndicate ICA* and *balancing amount* communicated in the capital-setting process are no longer adequate in the light of the risks to which the *syndicate* business is exposed.

#### Monitoring of capital resources

- 19.4.21 G For the purposes of complying with their obligations under PRU, *managing agents* may assume that any *balancing amount* confirmed by the *Society* under LLD 19.4.17R is supported by *capital resources* held as *funds at Lloyd's and central assets*.
- 19.4.22 G Following initial confirmation of a *balancing amount* by the *Society*, assumptions made about risks and controls may change or risks may crystallise, affecting:
- (1) the *syndicate ICA* (and hence, possibly, the *balancing amount*); or
  - (2) the relationship between a *syndicate ICA* and a *member's* individual capital assessment; or
  - (3) the amount of *capital resources* available.
- 19.4.23 R If a *managing agent* has, at any time, a significant doubt about the adequacy of a *syndicate ICA* or *balancing amount* with respect to *syndicate* risks and controls, it must notify the *Society* immediately.
- 19.4.24 R If the *Society* has, at any time, a significant doubt about the adequacy of any *member's capital resources* held by it in support of any *balancing amount*, it must notify the relevant *managing agent* immediately.

## Annex O

### Amendments to the Lloyd's sourcebook, Chapter 20

In this Annex, all the text is new and is not underlined.

- 20 Application of PRU 3 to Lloyd's
- 20.1 Section 150 of the Act (Actions for damages)
  - 20.1.1 R A contravention of the *rules* in this chapter does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.
- 20.2 Credit risk management systems and controls
  - Application of PRU 3.1
  - 20.2.1 R Subject to *LLD 20.2.2R*, *PRU 3.1* applies to *managing agents* and to the *Society* in accordance with:
    - (1) for *managing agents*, *LLD 16.3.3R*; and
    - (2) for the *Society*, *LLD 16.3.1R*.
  - 20.2.2 R In accordance with *LLD 18.4.2R*, the *rules* and *guidance* in *PRU 3.1* relating to the establishment and maintenance of a business plan do not apply to the *Society*.
- 20.3 Credit risk in insurance funds
  - Application of PRU 3.2
  - 20.3.1 R Subject to *LLD 20.3.2R*, *PRU 3.2* applies to *managing agents* and to the *Society* in accordance with:
    - (1) for *managing agents*, *LLD 16.3.3R*; and
    - (2) for the *Society*, *LLD 16.3.1R*.
  - 20.3.2 R *PRU 3.2.23R* to *PRU 3.2.32G* (Large exposure calculation for reinsurance exposures) do not apply to the *Society*.
  - Overall limitation of credit risk
  - 20.3.3 G For Lloyd's, *counterparty* exposure is:

- (1) for *managing agents*, the amount by which the net assets managed by or under the direction of a *managing agent* in respect of a *syndicate* together with any relevant *balancing amount* would decrease if the *counterparty* were to default;
- (2) for the *Society*, the amount by which its net assets (which include those of its *subsidiary undertakings*) would decrease if the *counterparty* were to default; and
- (3) for the *Society's* management of each *member's funds at Lloyd's*, the amount by which the *member's* net assets would decrease if the *counterparty* were to default.

Large exposures

- 20.3.4 R For the purposes of *PRU 3.2.20R* (Large exposure limits: counterparty exposure and asset exposure), the *Society* may determine the exposure to any letters of credit, guarantees or *members' life assurance policies* as an exposure of the *members* in aggregate.
- 20.3.5 R For the purposes of *PRU 3.2.22R* (Large exposure limits: market risk and counterparty limits), the *Society* must calculate the amount of and deduct from *capital resources*:
- (1) an exposure (expressed as a percentage of the relevant *member's capital resources* held as *funds at Lloyd's*), other than to the assets identified in *LLD 20.3.5R(2)(a) to (c)*, of a *member's capital resources* held as *funds at Lloyd's* to a *counterparty*, in excess of the limits in *PRU 3.2.22R*;
  - (2) an exposure in excess of 20% (expressed as a percentage of the aggregate of *capital resources* held as *funds at Lloyd's*) of the aggregate of *capital resources* held as *funds at Lloyd's* to a single issuer of:
    - (a) letters of credit;
    - (b) guarantees; or
    - (c) *members' life assurance policies*;
  - (3) an exposure of its own to a *counterparty*, in excess of the limits in *PRU 3.2.22R*, expressed as a percentage of the *Society's* own assets.
- 20.3.6 R For the purposes of *PRU 3.2.22R* (Large exposure limits: market risk and counterparty limits), *managing agents* must calculate the amount of and deduct from *capital resources* an exposure (expressed as a percentage of the *admissible assets* held in respect of the relevant *syndicate*) of *admissible assets* held in respect of a *syndicate* to a *counterparty* in excess of the limits in *PRU 3.2.22R*.
- 20.3.7 R If the exposures of *capital resources* held as *funds at Lloyd's* for *members* in

the aggregate do not exceed the limits in *PRU 3.2.22R(3)(c)*, then, for each *individual member*, that limit may be replaced by 10%.

Exposures excluded from the large exposure limits

20.3.8 R For *managing agents*, in *PRU 3.2.33R* and *PRU 3.2.35R*, references to an exposure do not include exposure arising from *balancing amounts*.

20.4 Asset-related Capital Requirement

Application of *PRU 3.3*

20.4.1 R *PRU 3.3* applies to *managing agents* and to the *Society* in accordance with:

(1) for *managing agents*, *LLD 16.3.3R*; and

(2) for the *Society*, *LLD 16.3.1R*.

20.4.2 G This chapter applies to the *Society* for each *member*, including the capital charge relating to *central assets*, to the extent that those assets are held to support a particular *member*.

## Annex P

### Amendments to the Lloyd's sourcebook, Chapter 21

In this Annex, all the text is new and is not underlined.

- 21 Application of PRU 4 to Lloyd's
- 21.1 Section 150 of the Act (Actions for damages)
- 21.1.1 R A contravention of the *rules* in this chapter does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.
- 21.2 Market risk management systems and controls
- Application of PRU 4.1
- 21.2.1 R *PRU 4.1* applies to *managing agents* and to the *Society* in accordance with:
- (1) for *managing agents*, *LLD 16.3.3R*; and
- (2) for the *Society*, *LLD 16.3.1R*.
- 21.2.2 R In accordance with *LLD 18.4.2R*, the *rules* and *guidance* in *PRU 4.1* relating to the establishment and maintenance of a business plan do not apply to the *Society*.
- 21.3 Market risk in insurance
- Application of PRU 4.2
- 21.3.1 R *PRU 4.2* applies to *managing agents* and to the *Society* in accordance with:
- (1) for *managing agents*, *LLD 16.3.3R*, subject to *LLD 21.3.4R* below; and
- (2) for the *Society*, *LLD 16.3.1R*.
- Resilience capital requirement (applicable to long-term business only)
- 21.3.2 R *Managing agents* must calculate the amount of the *resilience capital requirement* for the *long-term insurance business* carried on through the *syndicates* they manage.
- 21.3.3 R The *Society* must determine the *resilience capital requirement* for the

*insurance business* of each *member* under *PRU 4.2.10R* as the *member's* proportionate share of the *resilience capital requirement* calculated by the *managing agent* for the *long-term insurance business* carried on through the *syndicate*.

#### Currency risk: matching of assets and liabilities

- 21.3.4 R For the purposes of *PRU 4.2.53R*, a *managing agent* must ensure that:
- (1) *syndicate* liabilities are covered by matching *syndicate assets* as required by *PRU 4.2.53R*; or that
  - (2) it immediately notifies to the *Society* the nature and extent of any *syndicate* liabilities not covered by matching assets under (1).
- 21.3.5 G Notwithstanding the terms of *PRU 4.2.53R*, a *managing agent* may comply with *PRU 4.2.53R* by notifying unmatched currency liabilities to the *Society*.
- 21.3.6 R On receipt of a notification by a *managing agent* under *LLD 21.3.4R(2)*, the *Society* must ensure that the liabilities in respect of the *insurance business* of the *members* in aggregate are covered with matching assets complying with *PRU 4.2.53R*.
- 21.3.7 G The *Society* should consider the need to cover the unmatched currency liabilities notified under *LLD 21.3.4R(2)* with assets in the same currency held as *funds at Lloyd's* for any relevant *member* or, if necessary, with *central assets* meeting the currency matching requirements.

#### 21.4 Derivatives in insurance

##### Application of *PRU 4.3*

- 21.4.1 R *PRU 4.3* applies to *managing agents* and to the *Society* in accordance with:
- (1) for *managing agents*, *LLD 16.3.3R*; and
  - (2) for the *Society*, *LLD 16.3.1R*.

## Annex Q

### Amendments to the Lloyd's sourcebook, Chapter 22

In this Annex, all the text is new and is not underlined.

- 22 Application of PRU 5 to Lloyd's
- 22.1 Section 150 of the Act (Actions for damages)
- 22.1.1 R A contravention of the *rules* in this chapter does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.
- 22.2 Liquidity risk systems and controls
  - Application of PRU 5.1
  - 22.2.1 R *PRU 5.1* applies to *managing agents* and to the *Society* in accordance with:
    - (1) for *managing agents*, *LLD 16.3.3R*; and
    - (2) for the *Society*, *LLD 16.3.1R*.
  - 22.2.2 R In accordance with *LLD 18.4.2R*, the *rules* and *guidance* in *PRU 5.1* relating to the establishment and maintenance of a business plan do not apply to the *Society*.

## Annex R

### Amendments to the Lloyd's sourcebook, Chapter 23

In this Annex, all the text is new and is not underlined.

- 23 Application of PRU 6 to Lloyd's
- 23.1 Section 150 of the Act (Actions for damages)
- 23.1.1 R A contravention of the *rules* in this chapter does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.
- 23.2 Operational risk: prudential systems and controls
- Application of PRU 6.1
- 23.2.1 R *PRU 6.1* applies to *managing agents* and to the *Society* in accordance with:
  - (1) for *managing agents*, *LLD 16.3.3R*; and
  - (2) for the *Society*, *LLD 16.3.1R*.
- 23.2.2 R In accordance with *LLD 18.4.2R*, the *rules* and *guidance* in *PRU 6.1* relating to the establishment and maintenance of a business plan do not apply to the *Society*.

## Annex S

### Amendments to the Lloyd's sourcebook, Chapter 24

In this Annex, all the text is new and is not underlined.

- 24 Application of PRU 7 to Lloyd's
- 24.1 Section 150 of the Act (Actions for damages)
- 24.1.1 R A contravention of the *rules* in this chapter does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.
- 24.2 Insurance risk systems and controls
- Application of PRU 7.1
- 24.2.1 R *PRU 7.1* applies to *managing agents* in accordance with *LLD 16.3.3R*.
- 24.3 Capital resources requirements and technical provisions for insurance business
- Application of PRU 7.2
- 24.3.1 R *PRU 7.2* applies to the *Society* in accordance with *LLD 16.3.1R*.
- 24.3.2 R The following *rules* and *guidance* apply to *managing agents* in accordance with *LLD 16.3.3R*:
- (1) *PRU 7.2.13R* to *PRU 7.2.20G* (except *PRU 7.2.13R(1)*);
- (2) *PRU 7.2.42R* to *PRU 7.2.43G*; and
- (3) *PRU 7.2.74G* to *PRU 7.2.80R*.
- Establishing technical provisions
- 24.3.3 G *Managing agents* are advised by the *syndicate actuary* in relation to the *long-term insurance business* carried on through *long-term insurance business syndicates*. The standards and guidance issued by the Faculty and Institute of Actuaries to assist *syndicate actuaries* are important sources of evidence as to generally accepted actuarial best practice, as referred to in *PRU 7.2.16R(1)*.
- General insurance capital requirement
- 24.3.4 G *PRU 2.1.30R* and *LLD 19.3.10R* to *LLD 19.3.12G* set out the calculation of

the *general insurance capital requirement* for Lloyd's.

- 24.3.5 R The *Society* must calculate the *brought forward amount* for the *members* in aggregate in accordance with *PRU 7.2.51R*, using the result of *LLD 19.2.6R* for the prior *financial year* and the aggregate of all *members' technical provisions* for the relevant periods.

Accounting for premiums and claims

- 24.3.6 R For the purposes of *PRU 7.2.66R* and further to that *rule*, in the case of Lloyd's *members*, amounts of *premiums* and *claims* must be adjusted for *approved reinsurance to close* to exclude any amount included in, or adjustment made to, *premiums* and *claims* to reflect the consideration for an *approved reinsurance to close*.

- 24.3.7 G *Members* of Lloyd's can effect contracts of *approved reinsurance to close* with other *members* in accordance with *LLD 17.5*. For the purposes of *PRU* as it applies to Lloyd's, the capital requirement relating to business transacted through an *approved reinsurance to close* is calculated for the reinsuring and not the reinsured *member* under the contract.

## 24.4 Mathematical reserves

Application of *PRU 7.3*

- 24.4.1 R *PRU 7.3* applies to *managing agents* in accordance with *LLD 16.3.3R*.

Approved reinsurance to close

- 24.4.2 R In respect of business that has been subject to an *approved reinsurance to close*, *managing agents* must calculate *mathematical reserves* (before and after deduction of reinsurance cessions) for the reinsuring and not for the reinsured *member*.

## 24.5 Equalisation provisions

Application of *PRU 7.5*

- 24.5.1 R *PRU 7.5* applies to the *Society* in accordance with *LLD 16.3.1R*:

- (1) with the modification set out in *LLD 24.5.2R*; and
- (2) except *PRU 7.5.11R* to *PRU 7.5.37G*.

- 24.5.2 R The *Society* must calculate a *credit equalisation provision* for the aggregate *insurance business* of all *members*; it is not required to calculate a *credit equalisation provision* separately for the business of each *member*.

24.5.3 R The *Society* must allocate the result of *LLD* 24.5.2R between itself and each of the *members* on a fair and reasonable basis.

## 24.6 Internal-contagion risk

### Application of PRU 7.6

24.6.1 R *PRU* 7.6 applies to *managing agents* and to the *Society* in accordance with:

- (1) for *managing agents*, *LLD* 16.3.3R; and
- (2) for the *Society*, *LLD* 16.3.1R.

### Restriction of business to insurance

24.6.2 R The *Society* and *managing agents* must take all reasonable steps to ensure that:

- (1) a *corporate member* does not carry on any commercial business other than *insurance business* and activities arising directly from that business; and
- (2) *individual members* do not, in their capacity as *underwriting members*, carry on any commercial business other than *insurance business* and activities arising directly from that business.

### Syndicates not to carry on both general and long-term business

24.6.3 R A *managing agent* must not permit both *general insurance business* and *long-term insurance business* to be carried on together through any *syndicate* managed by it.

24.6.4 G *PRU* 7.6.17G contains *guidance* setting out the *FSA* policy (reflecting requirements of the *Insurance Directives*) in relation to the carrying on together of *general* and *long-term insurance business*.

## Annex T

### Amendments to the Lloyd's sourcebook, Chapter 25

In this Annex, all the text is new and is not underlined.

- 25 Regulatory intervention points for Lloyd's
- 25.1 Section 150 of the Act (Actions for damages)
- 25.1.1 R A contravention of the *rules* in this chapter does not give rise to a right of action by a *private person* under section 150 of the *Act* (Actions for damages) and each of those *rules* is specified under section 150(2) of the *Act* as a provision giving rise to no such right of action.
- 25.2 Application
- 25.2.1 R The *rules* and *guidance* in *SUP App 2* apply to the *Society*:
- (1) with the modifications set out in *LLD 25.3.1R* to *LLD 25.8.1G*; but
  - (2) except *SUP App 2.8.1R* to *SUP App 2.8.5G*, *SUP App 2.9.1G*, *SUP App 2.10.1G*, *SUP App 2.12.1R(2)(a)*, *SUP App 2.12.2G* and *SUP App 2.12.7R*.
- 25.3 Interpretation
- 25.3.1 R For the purpose of this Chapter *LLD 25* and the application of *SUP App 2* to the *Society*:
- (1) "capital resources", as the context requires:
    - (a) in relation to the *Society's* own capital resources, means its own *capital resources* calculated in accordance with *PRU 2.2.12R*;
    - (b) in relation to a *member's* capital resources, means the *member's capital resources* calculated in accordance with *LLD 19.3.10R*;
    - (c) in relation to the aggregate capital resources of the *Society* and the *members* supporting the *insurance business* of the *members*, means the aggregate of the *capital resources* in (1)(a) and (b) but excluding the *Society's callable contributions*.
  - (2) "guarantee fund":
    - (a) in relation to the *general insurance business* carried on by *members*, means the amount of capital resources required in

order to comply with *PRU 2.2.18R*, *LLD 19.3.4R* and *LLD 19.3.14R*; and the "*member's share of the guarantee fund*" for *general insurance business* means the result of the calculation set out in *LLD 19.3.15R*;

(b) in relation to the *long-term insurance business* carried on by *members*, means the amount of capital resources required in order to comply with *PRU 2.2.17R* and *LLD 19.3.4R*; and the "*member's share of the guarantee fund*" for *long-term insurance business* means the result of the calculation set out in *LLD 19.3.13R*;

(3) "required margin of solvency":

(a) in relation to the *general insurance business* carried on by *members*, means the higher of the *Society GICR* and the *general insurance capital requirement* for the *members* in aggregate; and

(b) in relation to the *long-term insurance business* carried on by *members*, means the *long-term insurance capital requirement* for the *members* in aggregate.

25.3.2 G The calculations of the *base capital resources requirement*, the *long-term insurance capital requirement* and the *general insurance capital requirement* for *members* and for the *members* in aggregate are set out in *PRU 2.1* and in *LLD 19*. *LLD 19.2.13R* requires the *Society* to calculate the *Society GICR*. *PRU 2.2.17R* and *PRU 2.2.18R*, as applied to Lloyd's and modified by *LLD 19.3.4R* and *LLD 19.3.13R* to *LLD 19.3.15R*, contain requirements for the calculation of the guarantee fund and the *member's share of the guarantee fund*.

25.4 Purpose

25.4.1 G Under *PRU* and *LLD 19* the *Society* must, separately in respect of the *general insurance business* and *long-term insurance business* carried on by *members*, ensure:

(1) its own capital resources are sufficient to cover the aggregate of, for each *member*, any amount by which the *member's* capital resources are inadequate to meet the *member's CRR*; and

(2) that the aggregate capital resources of the *Society* and the *members* supporting the *insurance business* of the *members* comply with the requirements of *PRU 2.2.15G* to *PRU 2.2.26R*.

The *PRU* provisions as applied to Lloyd's reflect requirements under the *Insurance Directives*.

- 25.4.2 G Regulatory intervention is triggered under *SUP App 2* if:
- (1) the capital resources of the *Society* are insufficient to meet the aggregate of, for each *member*, the amount, if any, by which the *member's* capital resources fall short of the *member's* share of the guarantee fund (the guarantee fund required by Article 17, *First Non-Life Directive* and Article 29, *Consolidated Life Directive*);
  - (2) the capital resources of the *Society* are insufficient to meet the aggregate of, for each *member*, the amount, if any, by which the *member's* capital resources fall short of the *member's* share of the required margin of solvency (the solvency margin required by Article 16a, *First Non-Life Directive* and Article 28, *Consolidated Life Directive*);
  - (3) the capital resources of the *Society* and of each of the *members* supporting their own *insurance business*, in the aggregate, no longer comply with *PRU 2.2.16R* and *PRU 2.2.24R*. *PRU 2.2.16R* and *PRU 2.2.24R* prescribe limits on the forms of capital resources which a firm must hold. (For Lloyd's, the *Society* must comply with *PRU 2.2.16R* and *PRU 2.2.24R* in relation to the aggregate of its own capital resources and the capital resources of the *members* supporting their own business: see *LLD 19.3.4R*);
  - (4) the capital resources of the *Society* are insufficient to meet the aggregate of, for each *member*, the amount, if any, by which the *member's* capital resources fall short of the *member's* share of the *CRR* for the *members* in aggregate.
- 25.4.3 G *PRU* requires the *Society* to ensure that the financial resources supporting the *insurance business* of each *member* are adequate at all times. Under *PRU 2.3.13G*, the *FSA* may give individual capital *guidance* to the *Society* stating the amount and quality of capital resources that it considers ought to be held to meet *PRU 1.2.22R*. If the *Society's* own capital resources fall below individual capital *guidance* given to the *Society* in respect of those resources, the *FSA* may take further action as set out in *SUP App 2.7.1.G* to *SUP App 2.7.5G*.
- 25.5 Capital resources below guarantee fund
- 25.5.1 R For the purposes of *SUP App 2.4.1R* and *SUP App 2.4.2G*, capital resources will have fallen below the guarantee fund if the *Society's* own capital resources are such that they are no longer sufficient to meet the aggregate of, for each *member*, the amount, if any, by which the *member's* capital resources fall short of the *member's* share of the guarantee fund.
- 25.6 Capital resources below required margin of solvency

25.6.1 R For the purposes of *SUP* App 2.5.1R to *SUP* App 2.5.3R, capital resources will be such that they no longer equal or exceed the required solvency margin if the *Society's* own capital resources are insufficient to meet the aggregate of, for each *member*, the amount, if any, by which the *member's* capital resources fall short of the *member's* share of the required solvency margin.

25.7 Capital resources below capital resources requirement

25.7.1 R For the purposes of *SUP* App 2.6.1R, capital resources will have fallen below the *capital resources requirement* if the *Society's* own capital resources are insufficient to meet the aggregate of, for each *member*, the amount, if any, by which the *member's* capital resources fall short of the *member's* share of the *capital resources requirement* for the *members* in aggregate.

25.8 Capital resources below the level of individual capital guidance

25.8.1 G For the purposes of *SUP* App 2.7.1G to *SUP* App 2.7.5G, capital resources will have fallen below the level of individual capital *guidance* if the *Society's* own capital resources have fallen below the level advised in individual capital *guidance* given to the *Society* in respect of those capital resources.

## Annex U

### Part 1

#### Amendments to the Supervision manual, Chapter 3

In this Part, underlining indicates new text and striking through indicates deleted text.

### 3 Auditors

#### 3.1 Application

##### 3.1.2 R Table: Applicable sections

...			
(6)	<i>Insurer, the Society of Lloyd's, underwriting agent or members' adviser (Note 5)</i>	<i>SUP 3.1 – SUP 3.7</i>	<i>SUP 3.1, SUP 3.2, SUP 3.8</i>
...			
	<u>Note (5) = In row (6):</u>		
(a)	<u>SUP 3.1 – SUP 3.7 applies to a managing agent in respect of its own business and in respect of the insurance business of each syndicate which it manages; and</u>		
(b)	<u>SUP 3.1, SUP 3.2 and SUP 3.8 apply to the auditors of a managing agent and the auditors of the insurance business of each syndicate which the managing agent manages.</u>		

...

3.1.9 G A firm which is a bank, building society, friendly society or other insurer, investment management firm, personal investment firm, securities and futures firm, ~~or the Society of Lloyd's;~~ or a Lloyd's managing agent in respect of each syndicate managed by it, should see the Interim Prudential sourcebooks for further provisions as set out in SUP 3.1.10G. For the categorisations employed in SUP 3.1.2R and SUP 3.1.10G see SUP App 1.

Enabling provision and application

- 3.1.11 G The *insurance market direction* in this chapter is given under section 316(1) of the *Act* (Direction by Authority) and applies to *members*.

Purpose

- 3.1.12 G The *insurance market direction* in this chapter is intended to enable the *rules* in *SUP 3* and *SUP 4* to be applied to a *managing agent* in respect of the *insurance business* of each *syndicate* which it manages.

Insurance market direction on rules concerning auditors and actuaries

- 3.1.13 D (1) With effect from 1 January 2005, Part XXII of the *Act* (Auditors and Actuaries) applies to the carrying on of *insurance business* by *members* as modified by paragraph (3).

(2) For the purposes of (1) "*insurance business*" means the *regulated activities of effecting or carrying out contracts of insurance* written at Lloyd's.

(3) Regulations made by the Treasury under section 342(5) and section 343(5) of Part XXII of the *Act* apply only to *actuaries* appointed by a *managing agent* in respect of the *insurance business* of a *syndicate*, in relation to the *long-term insurance business* of that *syndicate*.

(4) In Part XXII of the *Act* (Auditors and Actuaries) as applied by this *insurance market direction*:

(a) a reference to an auditor of an *authorised person* is to be read as including an auditor appointed by a *managing agent* in respect of the *insurance business* of a *syndicate*; and

(b) a reference to an *actuary* acting for an *authorised person* is to be read as including an *actuary* appointed by a *managing agent* in respect of the *insurance business* of a *syndicate*.

- 3.1.14 G Part XXII (Auditors and Actuaries) is a *core provision* mentioned in section 317(1) of the *Act* (The core provisions).

- 3.1.15 G Section 317(2) of the *Act* (The core provisions) provides that references in an applied *core provision* to an *authorised person* are to be read as references to a *person* in the class to which the *insurance market direction* applies. The effect of this, and of the *insurance market direction* set out at *SUP 3.1.13D*, is that Part XXII of the *Act* (Auditors and Actuaries), applies also to auditors and *actuaries* who

are appointed to report on the underwriting business of *members*. Part XXII is modified in its application to *members* by paragraph (3) of SUP 3.1.13D with the effect that the regulations made under sections 342(5) and 343(5) of the *Act* relating to communications by *actuaries* will only apply where the *actuary* is appointed to evaluate the *long-term insurance business* of the *syndicate*. The regulations made under sections 342(5) and 343(5) in relation to communications by auditors will apply in relation to both *general insurance business* and *long-term insurance business*.

3.1.16 G SUP 3.3 sets out rules the effect of which is to require a *managing agent* to appoint an auditor in respect of its own business and the *insurance business* of each *syndicate* which it manages.

3.1.17 G References in SUP 3, as applied by SUP 3.1.2R, to a *firm* include, where appropriate:

(1) a *managing agent*; and

(2) one or more *members* carrying on *insurance business* at Lloyd's through a *syndicate*.

and references to an *actuary* of a *firm* should be read accordingly.

3.1.18 G SUP 4.6 sets out rules the effect of which is to require a *managing agent* to appoint an *actuary* in respect of the *insurance business* of each *syndicate* which it manages.

...

3.3 Appointment of auditors

...

The Society of Lloyds

3.3.4 D ~~[deleted]~~

~~With a view to achieving the objectives of promoting confidence in the market at Lloyd's and protecting the interests of *policyholders* and potential *policyholders*, the *Society* is directed under section 318 of the *Act* (Exercise of powers through Council), to take reasonable steps to ensure that:~~

~~(1) every *managing agent* appoints an auditor for every *syndicate* which it manages; and~~

~~(2) the auditor of every *syndicate* has the skill, resources and experience required to perform his duties.~~

3.3.5 R ~~(1) [deleted]~~

~~Paragraph (2) applies if the notifications required by SUP 3.3.2~~

~~R (2) or (5) are within the scope of any arrangements made by the FSA with the Society of Lloyd's under paragraph 6 (2) of Schedule 1 to the Act.~~

~~(2) An underwriting agent must submit a notification in (1) to the Society of Lloyd's rather than to the FSA.~~

3.3.6 G ~~[deleted]~~

~~An underwriting agent should see SUP 15.7.13G and SUP 15.7.14G for further guidance on the arrangements in SUP 3.3.5R.~~

...

3.7 Notification of matters raised by an auditor

...

3.7.3 G ~~[deleted]~~

~~An underwriting agent should submit any notifications under this section in accordance with the arrangements made between the FSA and the Society of Lloyd's. For guidance on those arrangements see SUP 15.7.13G and SUP 15.7.14G.~~

...

3.8 Rights and duties of auditors

...

3.8.10 G Auditors are subject to regulations made by the Treasury under sections 342(5) and 343(5) of the *Act* (Information given by auditor or actuary to the *FSA*). These regulations oblige auditors to report certain matters to the *FSA*. Sections 342(3) and 343(3) of the *Act* provide that an auditor does not contravene any duty by giving information or expressing an opinion to the *FSA*, if he is acting in good faith and he reasonably believes that the information or opinion is relevant to any functions of the *FSA*. These provisions continue to have effect after the end of the auditor's term of appointment. In relation to Lloyd's, an effect of the *insurance market direction* set out at SUP 3.1.13D is that sections 342(5) and 343(5) of the *Act* (Information given by an auditor or actuary to the *Authority*) apply also to auditors appointed to report on the *insurance business of members*.

...

3.8.13 R ~~[deleted]~~

~~(1) An auditor of an underwriting agent must submit a notification under SUP 3.8.11R or SUP 3.8.12R to the Society of Lloyd's~~

rather than to the *FSA* if (2) applies.

- (2) ~~This paragraph applies if the notification is within the scope of any arrangements made by the *FSA* with the *Society of Lloyd's* under paragraph 6(2) of Schedule 1 to the *Act*.~~

3.8.14 G [deleted]

~~For *guidance* on these arrangements, see *SUP* 15.7.13G and *SUP* 15.7.14G. Notification to the *Society* acting on behalf of the *FSA* in accordance with *SUP* 3.8.13R also satisfies the obligation to notify the *FSA* in accordance with section 344 of the *Act* (Duty of auditor or actuary resigning etc. to give notice).~~

### Part 2

#### Amendments to the Supervision manual, Chapter 4

In this Part, underlining indicates new text and striking through indicates deleted text.

#### 4 Actuaries

##### 4.1 Application

...

- 4.1.2 G This chapter applies to *long-term insurers* (including *friendly societies*) and other *friendly societies* and to the *Society of Lloyd's* and *managing agents* at Lloyd's ~~This chapter does not apply to the *Society of Lloyd's* or to Lloyd's *underwriting agents*. Requirements dealing with the appointment and duties of *actuaries* in relation to Lloyd's *insurance business* are contained in *LLD*.~~ This chapter does not apply to *actuaries* advising the auditors of *long-term insurers* under *IPRU(INS)* 9.35(1A) or *IPRU(FSOC)* 5.11(2A), as they are not appointed to act on behalf of the *firm*.

##### 4.1.3 R Table: applicable sections

(1) Category of firm	(2) Applicable sections
...	
<u>(3) A Lloyd's <i>managing agent</i>, in respect of each <i>syndicate</i> it manages</u>	<u><i>SUP</i> 4.1, <i>SUP</i> 4.2, <i>SUP</i> 4.5, <i>SUP</i> 4.6</u>
<u>(4) The <i>Society of Lloyd's</i></u>	<u><i>SUP</i> 4.1, <i>SUP</i> 4.2, <i>SUP</i> 4.5, <i>SUP</i> 4.6</u>

...

##### 4.2 Purpose

...

- 4.2.2 G This chapter...purpose of this chapter is to ensure that:

- (1) *long-term insurers* (other than...
- (2) other *friendly societies* carrying on...the liabilities of that

business; and

- (3) managing agents of Lloyd's syndicates employ or use an actuary of appropriate seniority and experience to evaluate the liabilities associated with insurance business carried on at Lloyd's.

...

4.5.7 G .....These provisions continue to have effect after the end of the actuary's term of appointment. In relation to Lloyd's, an effect of the insurance market direction set out at SUP 3.1.13D is that sections 342(5) and 343(5) of the Act (Information given by auditor or actuary to the FSA) apply also to actuaries who are appointed to evaluate the long-term insurance business of a syndicate.

...

4.6 Lloyd's

Appointment of the Lloyd's actuary and syndicate actuaries

4.6.1 R The Society must:

- (1) appoint an actuary to perform the Lloyd's actuary function;
- (2) notify the FSA, without delay, when it is aware that a vacancy in the office of Lloyd's actuary will arise or has arisen, giving the reason for the vacancy;
- (3) appoint an actuary to fill any vacancy in the office of Lloyd's actuary that has arisen; and
- (4) ensure that the replacement actuary can take up office at the time the vacancy arises or as soon as reasonably practicable after that.

4.6.2 G The functions performed by the actuary appointed as the Lloyd's actuary under SUP 4.6.1R are specified as controlled functions in SUP 10 (Approved persons).As a result, an application must be made to the FSA under section 60 of the Act (Applications for approval) for approval of the person proposing to take up such an appointment. Section 61(3) of the Act (Determination of applications) gives the FSA three months to grant its approval or give a warning notice that it proposes to refuse the application. An actuary should not be appointed until the FSA has approved the actuary. In order to comply with SUP 4.6.1R, the Society should ensure it applies to the FSA as soon as practicable before the date when it needs the actuary to take office. The FSA will need time to consider the application before deciding whether to grant approval.

### Qualifications

4.6.3    R    Before the *Society* applies for approval of its proposed appointment of the *Lloyd's actuary* under SUP 4.6.1R, it must take reasonable steps to ensure that the *actuary*:

(1) has the required skill and experience to perform his functions under the *regulatory system*; and

(2) is a Fellow of the Institute of Actuaries or of the Faculty of Actuaries.

4.6.4    G    To comply with SUP 4.6.3R and *Principle 3*, before the *Lloyd's actuary* takes up his appointment the *Society* should ensure that the *actuary*:

(1) has skills and experience appropriate to the nature, scale and complexity of the *Society's* business and the requirements and standards under the *regulatory system* to which it is subject; and

(2) has adequate qualifications and experience, which includes holding an appropriate practising certificate under the rules of the Institute of Actuaries or the Faculty of Actuaries;

and seek confirmation of these from the *actuary*, or the *actuary's* current and previous employers, as appropriate.

### Disqualified actuaries

4.6.5    R    The *Society* must not appoint under SUP 4.6.1R as *Lloyd's actuary* an *actuary* who is disqualified by the *FSA* under section 345 of the *Act* (Disqualification) from acting:

(1) as an *actuary* for the *Society*; or

(2) as a *syndicate actuary*; or

(3) as an *actuary* for any other relevant class of *firm*.

4.6.6    G    If it appears to the *FSA* that an *actuary* has failed to comply with a duty imposed on him under the *Act*, it may disqualify him under section 345 of the *Act*. For more detail about what happens when the disqualification of an *actuary* is being considered or put into effect, see ENF 17. A list of *actuaries* who are disqualified by the *FSA* may be found on the *FSA* website.

### Conflicts of interest

4.6.7    R    The *Society* must take reasonable steps to ensure that an *actuary* who is to be, or has been, appointed under SUP 4.6.1R:

- (1) does not perform the function of chairman or *chief executive* of the *Society*; and
- (2) does not perform any other function on behalf of the *Society* which could give rise to a significant conflict of interest.

The Lloyd's actuary function

4.6.8 R An *actuary* who has been appointed to perform the *Lloyd's actuary* function must:

- (1) prepare the statement required under *LLD* 15.9.1R(2) to be annexed to the *Lloyd's Return*; and
- (2) take reasonable steps to ensure that the *general insurance business technical provisions* for each *syndicate year* have been reviewed by the *syndicate actuary* and that an appropriate opinion has been obtained under *SUP* 4.6.15R; and
- (3) where a *syndicate actuary's* opinion has not been provided, sets appropriate *technical provisions* and, within six months of the end of the *financial year*, submits a report to the *FSA* on the setting of those *technical provisions*.

Appointment of syndicate actuaries

4.6.9 R Each *managing agent* must, in respect of each *syndicate* it manages:

- (1) appoint an *actuary* (the "*syndicate actuary*") to carry out the duties described in *SUP* 4.6.15R or *SUP* 4.6.16R; and
- (2) appoint a replacement for that *actuary* if he ceases to hold office before he has carried out the duties described in *SUP* 4.6.15R or *SUP* 4.6.16R; and
- (3) ensure that the replacement *syndicate actuary* can take up office at the time the vacancy arises or as soon as reasonably practicable after that.

4.6.10 G (1) The *insurance market direction* and guidance set out in *SUP* 3.1.4G to *SUP* 3.1.15G is relevant to *actuaries* appointed to report on the *insurance business of members*.

(2) References in *SUP* 4, as applied by *SUP* 4.1.3R, to a *firm* include, where appropriate:

- (a) a *managing agent*; and
- (b) one or more *members* carrying on *insurance business* at Lloyd's through a *syndicate*;

and references to an *actuary* of a *firm* should be read accordingly.

#### Syndicate actuaries' qualifications

- 4.6.11 R Before a *managing agent* appoints a *syndicate actuary*, it must take reasonable steps to ensure that the *syndicate actuary*:
- (1) has the required skill and experience to perform his duties; and
  - (2) is a fellow of an *actuarial body* or (except for a *syndicate actuary* of a *long-term insurance business syndicate*) is a fellow of the Casualty Actuarial Society who is a member of an *actuarial body*.

- 4.6.12 G To comply with SUP 4.6.11R and Principle 3, before a *syndicate actuary* takes up his appointment a *managing agent* should ensure that the *syndicate actuary*:

- (1) has skills and experience appropriate to the nature, scale and complexity of a *syndicate's* business and the requirements and standards under the *regulatory system* applicable to the activities of *managing agents* in relation to each *syndicate* which they manage; and
- (2) has adequate qualifications and experience, which includes holding an appropriate practising certificate under the rules of the Institute of Actuaries or the Faculty of Actuaries;

and seeks confirmation of these from the *syndicate actuary*, or the *syndicate actuary's* current and previous employers, as appropriate.

#### Disqualified actuaries

- 4.6.13 R A *managing agent* must not appoint under SUP 4.6.9R as *syndicate actuary* an *actuary* who is disqualified by the FSA under section 345 of the *Act* (Disqualification) from acting:

- (1) as a *syndicate actuary*; or
- (2) as a *Lloyd's actuary*; or
- (3) as an *actuary* for a relevant class of *firm*.

- 4.6.14 G If it appears to the FSA that an *actuary* has failed to comply with a duty imposed on him under the *Act*, it may disqualify him under section 345 of the *Act*. For more detail about what happens when the disqualification of an *actuary* is being considered or put into effect, see ENF 17. A list of *actuaries* who are disqualified by the FSA may be found on the FSA website.

Duties of syndicate actuaries

- 4.6.15 R The syndicate actuary of a long-term insurance business syndicate must:
- (1) make an investigation at the end of each financial year into the financial condition of the business carried on through each syndicate year (other than a closed year);
  - (2) make an abstract of his report of the investigation; and
  - (3) prepare the certificate required under LLD 15.9.1R(3) to be annexed to the Lloyd's Return.
- 4.6.16 R The syndicate actuary of a general insurance business syndicate must:
- (1) review the technical provisions (both gross and net of reinsurance recoveries) of each syndicate year (other than a closed year); and
  - (2) provide his opinion confirming that the technical provisions for each syndicate year are no less prudent than his best estimate of the amounts required.
- 4.6.17 R If a managing agent becomes aware that the syndicate actuary of a general insurance business syndicate will or may be unable to produce an unqualified opinion under SUP 4.6.16R, the managing agent must promptly inform the FSA that this is the case.
- 4.6.18 R In carrying out his duties a syndicate actuary must pay due regard to generally accepted actuarial best practice.
- 4.6.19 G The standards and guidance issued by the Institute of Actuaries and the Faculty of Actuaries are important sources of actuarial best practice.

## Annex V

### Amendments to the Glossary

In this Annex, underlining indicates new text and striking through indicates deleted text. New definitions are to be inserted at the appropriate alphabetical position.

approved  
reinsurance to  
close

- (a) a reinsurance to close effected before 1 January 2005; or
- (b) an agreement under which members of a syndicate in one syndicate year ("the reinsured members") agree with the members of that syndicate in a later syndicate year or the members of another syndicate ("the reinsuring members") that the reinsuring members will discharge, or procure the discharge of, or indemnify the reinsured members against, all known and unknown insurance business liabilities of the reinsured members arising out of the insurance business carried on by the reinsured members in that syndicate year that is:
- (i) effected after 1 January 2005; and
- (ii) not a balance transfer between two syndicate years where the syndicate has only one member and the member is the same in each of those years.

balancing  
amount

in respect of a syndicate, any part of the capital resources that:

- (a) the managing agent of the syndicate has assessed to be necessary to support the insurance business carried on by the members of the syndicate through the syndicate, including those capital resources required to support the risks arising at syndicate level that affect that business; but
- (b) are not managed by or at the direction of the managing agent of the syndicate.

callable  
contribution

amounts that members are liable to pay to the Society (or may by resolution of the Society be liable to pay) as contributions to the Central Fund.

central assets

(in LLD)-assets that the Society owns and amounts that members are liable to pay to the Society (or may by resolution of the Council be liable to pay) as contributions to the central fund excluding amounts which, if paid by a member, would cause his assets to fall short (or shorter) of the required amount); the Society's own assets that are available at its discretion to meet a member's liabilities in respect of insurance business.

corporate  
member

a member that is a body corporate or a Scottish Limited partnership.

Council

the governing body of the Society, (in LLD) the Council constituted by section 3 of Lloyd's Act 1982.

<i>funds at Lloyd's</i>	assets ( <u>not being <i>syndicate assets</i></u> ) provided by or on behalf of a <i>members</i> to meet the liabilities arising from the <i>member's insurance business</i> at <u>Lloyd's</u> which are held in a <i>Lloyd's trust fund</i> and managed by the <i>Society</i> as trustee, <del>held by the <i>Society</i>, not being part of their <i>premium trust funds</i>, to meet the liabilities arising from their</del> <u>the <i>member's insurance business</i> at Lloyd's</u>
<i>IPRU(INS)</i>	(1) (except in <i>LLD</i> ) the Interim Prudential Sourcebook for insurers;  (2) (in <i>LLD</i> ) the version of IPRU(INS) in force immediately prior to the coming in to force of the Interim Prudential Sourcebook (Insurers and Other Amendments) Instrument 2004.
<i>Lloyd's actuary</i>	the <i>actuary</i> appointed by the <i>Society</i> under <del><i>LLD</i> 10.9.1R</del> <u><i>SUP</i> 4.6.1R.</u>
<u><i>Lloyd's member's contribution</i></u>	assets:  (a) <u>provided to a <i>managing agent</i> in response to a cash call; or</u>  (b) <u>held by the <i>Society</i> as <i>funds at Lloyd's</i>.</u>
<u><i>Lloyd's trust fund</i></u>	a fund held on the terms of a <i>Lloyd's trust deed</i> .
<u><i>Lloyd's trust deed</i></u>	a trust deed in the form prescribed by the <i>Society</i> and notified to the <i>FSA</i> , for execution by a <i>member</i> in respect of his <i>insurance business</i> .
<u><i>managing agent's agreement</i></u>	an agreement in the form prescribed by the <i>Society</i> , between a <i>managing agent</i> and a <i>member</i> , under which the <i>managing agent</i> manages the <i>insurance business</i> of that <i>member</i> .
<i>secured debt</i>	(1) (in <i>LLD</i> ) a debt owed to (or an obligation to be fulfilled for the benefit of) a <i>member</i> , secured by an <i>admissible asset</i> .  (2) (in <i>PRU</i> ) ...
<u><i>Society GICR</i></u>	the <u><i>general insurance capital requirement</i> calculated by the <i>Society</i> as if it were an <i>insurer</i> under <i>LLD</i> 19.2.13R.</u>
<i>syndicate actuary</i>	an <i>actuary</i> appointed to a <i>syndicate</i> as required by <del><i>LLD</i> 10.9.4R(1)</del> <u><i>SUP</i> 4.6.9R(1)</u>
<u><i>syndicate assets</i></u>	assets managed by or at the direction of a <i>managing agent</i> in respect of <i>insurance business</i> carried on through a <i>syndicate</i> and overseas business regulatory deposits funded from those assets.
<u><i>syndicate ICA</i></u>	the capital assessment performed by a <i>managing agent</i> under <i>PRU</i> 1.2.26R, <i>LLD</i> 18.2.1R(1), <i>PRU</i> 2.3 and <i>LLD</i> 19.4.1R(1) in respect of each <i>syndicate</i> managed by it.
